DIANETICS VS SCIENTOLOGY

BY L. RON HUBBARD

It is typical that every time I come out with a new development it instantly becomes *the* thing, the only thing and all things earlier released are now "old" and "not to be used".

It has just happened again!

In the middle of 1969 I released STANDARD DIANETICS. At once people thought we weren't to do Scientology now! And sure enough despite my saying that *no* Scientology actions were to be dropped, even Class VI Auditors ceased to audit grades.

So I think I had better make a clarification of the matter.

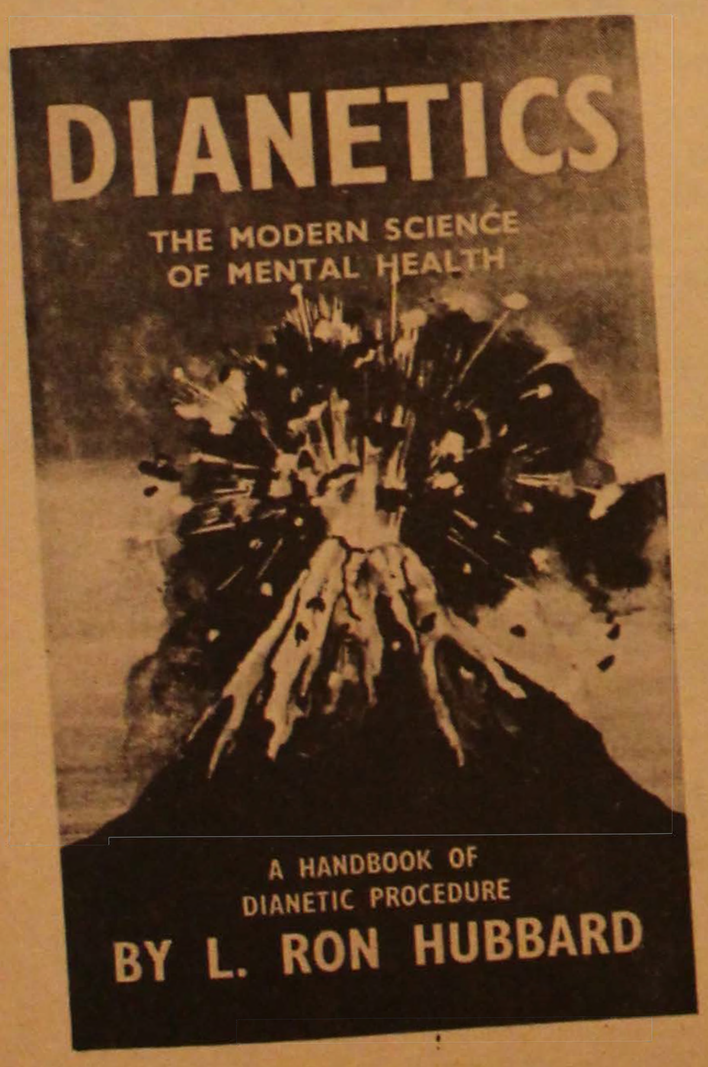

In early 1969 I found a few isolated cases where the preclear had gone all the way up through the grades of Scientology trying to get rid of a headache or some other mental-physical condition. These are known as "psycho-somatic (spirit affecting body) illnesses".

Very rarely these illnesses had some medical reason and needed medical treatment. So these were directed to medical doctors. But psycho-somatic ills still existed, so to handle this situation I re-developed Dianetics for modern use.

Medical doctors, particularly in the more advanced areas of the world such as England and Germany had already found and were extensively beginning to use Dianetics. Articles recommending its study and use were spontaneously beginning to appear in their official medical magazines.

Thus I had the added impetus of giving these gentlemen a precise, simple version of Dianetics with which they could obtain fast invariable results.

I took several relatively untrained Auditors and set them to work on a series of about a hundred cases to see what they did with Dianetics that needed advice and correction.

Also I summarized and used all the new discoveries I had made in the area of Dianetics over the years.

The excellent result was a re-codified subject called STANDARD DIANETICS.

Then I took 15 hitherto untrained people and taught them the new subject so that training could be smoothed out which it was.

Two new certificates were designated – Hubbard Dianetic Counselor (HDC) to audit Standard Dianetics and Hubbard Dianetic Graduate (HDG) to teach Standard Dianetics.

Seven Course Supervisors were sent out to teach the new course and groove it in in key world areas.

Additional tech actions were taken to groove in these new areas and smooth out results.

BANG! We had Dianetics running like wildfire over the world!

Orgs, to handle this new young colt became wholly involved in smoothing it into the traces to do its duty to the world. And it did.

But meanwhile what about SCIENTOLOGY?

You see there have always been, since 1950, these TWO subjects – Dianetics and Scientology.

DIANETICS addressed the body, the direct affect of thought on the body.

SCIENTOLOGY addressed the world of thought, of life itself.

The ancient Greek philosopher would have had no trouble identifying these two different areas. To the Greek and every other highly cultured race there is the world of matter and forms and another world of life and spirit.

Where the two coincide there is conflict according to almost all philosophy.

So do not be surprised that there is confusion in many minds concerning these two subjects--Dianetics and Scientology.

In what is laughingly called "our modern world" materialism is so dominant that the barbarian idea that men are animals and therefore only matter is broadly held to be the only truth. Thus Scientology is thought of by many as a method of body treatment as they cannot perceive of anything else in life except mud and flesh.

Anyway, Dianetics is what you use to handle material matters. Scientology is used to handle thought, ability, further awareness.

BOTH subjects handle the point of collision between man and thought.

In their actual use and application both subjects exceed their roles at times. Body sometimes can be handled by Scientology, thought often can be handled by Dianetics. But in their own roles (Dianetics--Body, Scientology--Thought) they are very exact in what they accomplish.

Really, anyone can begin to get processed with either one.

People who are medically ill, we send to the medical doctor. People who are physically ill from psycho-somatic causes are processed on Dianetics.

Those who are not medically ill or psycho-somatically ill can be entered directly into Scientology grades and *should be*.

As far as training is concerned, Standard Dianetics is such a pure direct action that it shows up the ability of the auditor to get case gains. Therefore there is a tendency to make a Dianetic Auditor first so that when student results don't occur we can correct the *auditor*. We know Standard Dianetics is invariable and so when remarkable results do not occur we can spot the reason – errors by the auditor.

Scientology auditing is more complex and tends to obscure any faults the auditor may have. We have even taken an unsuccessful VI student, put him back on Dianetic training, made a basically good auditor out of him and put him back on VI training which he now did well.

Dianetics has many uses – accidents, injuries heal much more quickly – chronic illness ends when so assisted. Drug addiction or drug troubles can be erased.

The road out, of course, is Scientology.

But a preclear can be audited on either Dianetics or Scientology at any stage of his auditing.

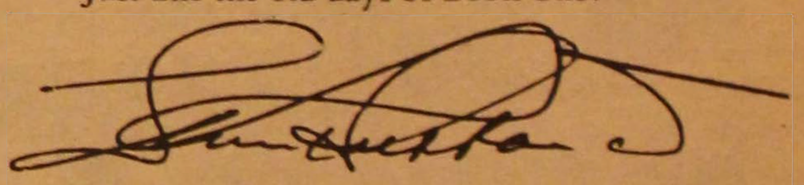

Scientology is said to be easier to confront for most preclears at first.

Anyway, I hope this straightens the matter out.

Both Standard Dianetics and Standard Tech (Scientology) are very stable now and have been for some time.

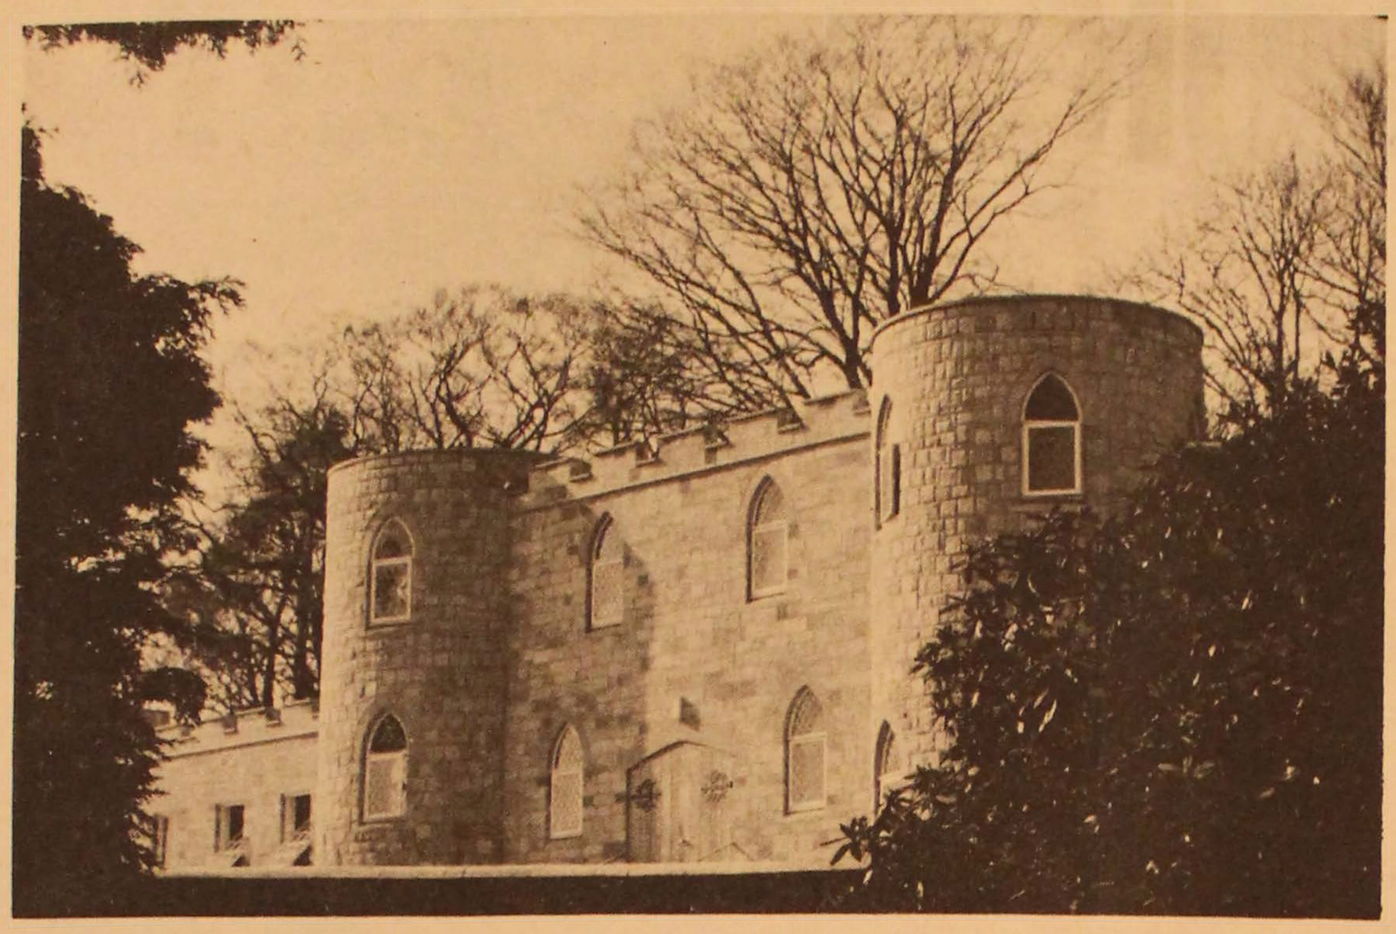

But that Standard Dianetics! Man it's going across the world like wildfire, being audited in 30 languages including Russian!

Just like the old days of Book One!

WHAT YOUR FEES BUY

by L. Ron Hubbard

I wonder if you've ever estimated how much it costs to launch a new subject into the world, keep it pure, keep it going right, make progress and defend it.

For that matter, what do you suppose it costs an organization to deliver an hour of processing?

I know that Dianetic and Scientology services should be free and I wish they were.

Personally I have tried to do my part in this. None of the researches of Dianetics and Scientology were ever actually paid for out of organizational fees. With my typewriter I paid for the research myself. Occasionally orgs were supposed to but they never did.

Independent of research costs, the 13 1/2 million dollars that orgs owed me for services rendered, 10%s (the usual author's royalties), lectures, loans, things paid out of my own pocket I never collected.

As even the royalties of the first book were given to orgs for their work, I didn't even make anything out of that best seller. Its paperback is again a newsstand best seller in the U.S. but I don't collect those royalties either. Even today I draw less than an org staff member and they draw very little.

So the fees you pay for service do not go to me.

A Sea Org member draws only about four pounds a week and his room and board. We run our ships and stations at a cost that would make a cost accountant disbelieve it. So not much of your fee goes to them even though they bear a full burden of management of pure services.

Org staff members over the world work for so little that Execs occasionally get letters from their landladies demanding orgs increase their pay level so staff members can pay their rent.

So not much of your fee goes to them.

Occasionally some org or franchise goes on a big kick of high pay. We very soon pull the rug out from under that. So if your fee went that way for a brief period we corrected the outness fast as we frown on money-motivation like a thundercloud.

Some fringe fellows know that if you had a complete monopoly on the only workable mental technology on the planet you could make billions. That's why they're on the "fringe". So we prevent your fee from going in that direction.

Then where *does* your fee go?

Since 1950, so-called "mental health" groups have fought to discredit and decrease the power of Dianetics and Scientology.

For 19 years, using their press control, government stooges and puppets, these psychiatric front groups have conducted a continuous suppressive covert operation against us.

Why? They feared that as our power increased they would lose their easy appropriations and fail in their plans for a 1984 World.

We were not even in their line of country—the insane. Yet such was their fear, they have spent untold sums to bring about our destruction.

We not only know who why and where with full documentation we also know their sordid intentions for the world. Some of your fee made the work to collect that evidence possible.

Bad press, inquiries, bans, these are the *surface* you see. Those are their fingerprints.

Below that level it's a rough fight and has been for 19 years.

Our press consultants tell us we must never mention it as it "frightens the public".

We are in the weird position of being perhaps the only really effective Western security force. We wouldn't give five pence for the rest of them combined.

If a definition of governing is maintaining an orderly peace in which business can be conducted, then there sure isn't any real government.

So a portion of your fee is spent on patching up the damage done, keeping going in spite of attacks and nullifying the actions against the West of a very choice lot of bad hats. If we didn't have the documentary evidence I wouldn't dare mention it.

It costs money to bring cases up to US Supreme Court level as we have. The legal defense expenses we have in a dozen countries is not small.

So a portion of your fee goes to keeping the subject available to you and to the world.

We work very hard to keep tech being done well. It is nothing for us to put two people on a fast plane and send them half around the world to straighten up the Case Supervision and auditing in an area so you can have confidence in the service you get.

It is routine to send the highest class people we have to handle "ARC Breaks of Long Duration" in the field or on admin lines or to see they get handled.

Your fee supports a long and complex set of communication lines by which tech and admin can be cared for rapidly.

A portion of your fee just the other day began a survey of a backward country to introduce high speed educational processes to bring their people quickly from the stone age up to present time. The "Peace Corps" was also there on cushy government funds building houses for a big construction company at a nice profit. But we, unsupported, began the effective work actually needed there to help the people.

A tiny bit of your fee neated up an area ruined for Americans by the American Navy.

Small parts of your fee heal up a lot of things over the world.

But the biggest part of your fee stays right in your area. It is used to make training and processing and data available to the next fellow first by keeping the org there and second by letting him know about it and third by making as sure as possible that the training and processing he gets is standard and effective.

Your fee keeps the nearest org alive and functioning and the environment safe.

It is not easy to do, hit repeatedly as we are.

Gradually little by little we are taking the pressure off our orgs. Gradually surely and certainly the bad hats are losing their own power in the world.

If we had the fantastic sums appropriated to "mental health" (and put largely in their own pockets or used to try to crush anyone else) we would make a lot lot lot more progress. As we wouldn't also have to fight the lies that money buys into press and government.

But we don't have appropriations. They are given only to those who deal in death, it seems.

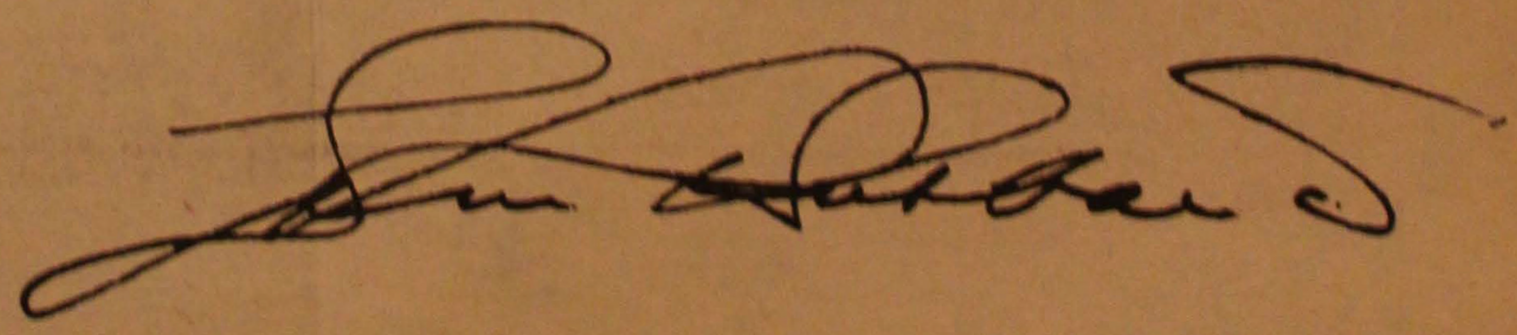

So little by little, using the fees you give us for your service, your training and your processing, we create little by little areas of sanity.

And as these areas spread out, releasing and Clearing the community, if we continue to be alert and competent, perhaps those areas will meet one country, one continent to the next and we will have a cleaner, saner world.

Your fee is supporting and continuing the greatest hope that man has ever had and the orgs and people vital to its survival and increase.

Your fee does what it takes to get the job done.

Thank you.
