WORLD 53 WIDE

THE MONTHLY JOURNAL OF SCIENTOLOGY

by L. Ron Hubbard

The world before Dianetics had never known a precision mental science. Dianetics was the first practical, workable, easily taught science of the mind. It has endured already 20 years and is better and more used than ever before.

Dianetics was first conceived in 1930 and the developments of 39 years have gone into producing Standard Dianetics.

Dianetics, The Original Thesis was published in 1949 in manuscript form. It was copied in various ways, hand to hand across the world. *Dianetics, The Evolution of a Science* was published in late 1949. *Dianetics, The Modern Science of Mental Health* was published May 9, 1950 and has since sold millions of copies.

In the early '50s new discoveries concerning the spirit brought us into Scientology.

But Dianetics was never lost sight of and every little while I would push it further ahead toward a fast, easy, 100% workability.

The present release of Standard Dianetics is a near final product.

In the early days it was not uncommon for people to run hundreds of hours of auditing. Those same results, and better results by far, can be achieved today in only five or six hours of auditing. I don't say that only five or six hours of auditing totally ends the gains to be found in Dianetics because the actual truth of the matter is that the gains obtainable in Dianetics today are far superior to the gains which were uniformly obtainable yesterday. In other words the speed of the subject has been enormously increased, and the workability of the subject has been enormously increased in terms of the gain per individual. And, in addition to that, the way that Dianetics is now applied has been so greatly simplified that it is very difficult not to get results with Dianetics. A fellow really has to try.

Dianetics has progressed from the pre-Dianetics period of *no* science of the mind, to the existence of a real *science* of the mind, to a fast, accurate science simpler than any other scientific subject and of more value to Man.

Standard Dianetics was almost as great a breakthrough in 1969 as the *Original Thesis* in 1949. Hundreds of thousands of hours of search and research have gone into it.

In the thousands of years before 1950 there were many philosophers and much knowledge was gathered in the fields of logic, mathematics, electronics and the material sciences. However, due to ideologies and political conflicts, little of this prior knowledge was ever applied to the field of the human mind.

The scientific idea of regarding as truth only that which could be demonstrated with a result was never really applied to the mind. "Researchers" in this field were not fully trained in mathematics, the scientific method, or logic. They were interested mainly in their own private ideas and in political targets.

Dianetics refuses to be a revolutionary activity. It does not have to be. All it has as a mission is to get itself *applied*. We're not interested in control. We're interested in helping people.

The basic building block of a society is the individual. From individuals groups are built. And this is the society. No society is better than its basic building blocks.

Men are *not* animals.

Well men are sane men.

Dianetics, if applied to individuals in the society, brings hope, and makes well and sane beings.

These well and sane beings, sent on to Scientology, then become brilliant and very able beings.

We are evolving Man to a higher state.

The Four Dynamics of Dianetics

THE DIANETICS SYMBOL. The four stripes represent the four dynamics of Dianetics, Survival as self, sex and family, group and Mankind.

The dynamic principle of existence—SURVIVE! Survival is divided into four dynamics:—

DYNAMIC ONE is the urge of the individual toward survival for the individual and his symbiotes.

DYNAMIC TWO is the urge of the individual toward survival through procreation; it includes both the sex act and the raising of progeny, the care of children and their symbiotes.

DYNAMIC THREE is the urge of the individual toward survival for the group or the group for the group and includes the symbiotes of that group.

DYNAMIC FOUR is the urge of the individual toward survival for Mankind or the urge toward survival of Mankind for Mankind as well as the group for Mankind, etc., and includes the symbiotes of Mankind.

A man can be said to survive for self alone and by this all behavior can be formulated. He can be said to survive for sex alone and by sex alone all behavior can be formulated. He can be said to survive for the group only or for Mankind only and in either of these the entire endeavor and behavior of the individual can be equated and explained. These are four equations of survival, each one apparently true. However, the entire problem of the purpose of Man cannot be resolved unless one admits all four dynamics in each individual. So equated, the behavior of the individual can be estimated with precision. These dynamics then embrace the activity of one or many men.

(Def. Symbiote. By symbiote is meant all entities and energies which aid survival.)

Celebrations Honor 20th Anniversary

May 9th of this year marks the 20th anniversary of the publication of Dianetics, The Modern Science of Mental Health *by L. Ron Hubbard. Scientologists all around the world will be holding special congresses, open houses and other festivities to mark the occasion, with emphasis on the wonderful successes, wins and progresses which have been made across the face of the planet over these past twenty years. One such celebration will be on the Flagship and it will be a special one because Ron will be there.*

At the outset, *Dianetics, The Modern Science of Mental Health* or *Book One* as it is sometimes called, was a success. With no other advertising other than an article by L. Ron Hubbard in "Astounding Science Fiction" Magazine, which told of Dianetics and the coming of the new book and also contained an order form for it, *Dianetics, The Modern Science of Mental Health* became a bestseller of unprecedented magnitude virtually overnight. The demand for the book was phenomenal–stocks sold out immediately. New copies were printed and these sold out. And so it went on.

On its release, the book shot immediately to the top of the New York *Times* Bestseller list and stayed there week after week and month after month. This started the big "1950 Dianetics Boom". Everyone was talking about Dianetics. It was acclaimed by critics the world over. Walter Winchell, in his newspaper column, hailed it as a breakthrough in technology comparable to Man's discovery of the wheel and arch. The reviewer for the New York *Times* Book Review of August 6, 1950, had this to say: "History has become a race between Dianetics and catastrophe. Dianetics will win if enough people are challenged, in time, to understand it."

About the writing of the book Ron has this to say:

"Do you know why the first book, *Dianetics, The Modern Science of Mental Health* was written? Word of mouth on Dianetics was going forward so rapidly that my letter volume, even before the first book, was startling. Each one of these people expected me, either to write them a long letter and tell them what it was all about, or to be given a chance to come and see me so that I could tell them properly what it was all about. In other words, my time was going to be consumed, not in further research, but in writing letters and talking to people. My answer to this was to write *Dianetics, The Modern Science of Mental Health* which rapidly informed the newly interested person what this new science was all about."

Today, the book sells more copies around the world than the average bestseller in any given year. It is sold in Scientology bookstores, as well as in other bookstores throughout the world, both in its hardcover edition and in paperback.

Book One, as the book is sometimes called, can be found in university and college libraries and many educators are using the book on courses. Jerry Simmons, Professor of Sociology at the University of California at Davis and author of the popular book *It's Happening,* which he describes as a "Portrait of the current youth scene", has his students read it. His course is very popular with the students.

Work is now in progress for foreign language editions. *Dianetics, The Modern Science of Mental Health* is being translated into about ten languages including Russian, Japanese, French, German and Portuguese.

More and more, members of the medical profession are using the book and the technology of Dianetics. Used in combination with standard medical practices, unlimited and lasting results are achieved. Here is what Dr. S. W. Jarvis in an article in "General Practitioner" had to say about the book:

"It has been clear for years that so much more needs to be known about the mind. Imagine my astonishment and disbelief when I read in *Dianetics, The Modern Science of Mental Health* by L. Ron Hubbard that the whole mechanism of the mind relating to psychosomatic diseases had been discovered and worked out."

". . . I decided to look into the fantastic claim of Dianetics which I found to be the precursor of Scientology.

"I have found that all the claims in the book are true. Every medical doctor should read this book and decide for himself on the interest and value of the contents."

Dianetics, The Modern Science of Mental Health is an adventure. It is an exploration into Terra Incognita,–the human mind, that vast and hitherto unknown realm half an inch back of our foreheads. The journey for many started twenty years ago and continued on through these twenty years following. On May 9th, all over the world, Scientologists will remember this journey and toast to the continued success of *Dianetics, The Modern Science of Mental Health.*

CLEAR 2500

Old-time Dianeticist Goes Clear

On March 13, 1970, John Sanborn, one of the very old-timers in Dianetics and Scientology, became the 2500th person to attain the priceless state of Clear.

In May of 1950, John read a page somewhere in the middle of *Dianetics, The Modern Science of Mental Health* and "knew the world was going to change".

A writer and an auditor, John has been a staff auditor for years and was one of the first two Hubbard Guidance Center auditors in Phoenix in 1954. At the end of 1954, he became the first editor of "Ability" Magazine.

Long a staff member at the Washington, D.C. org after it moved there from Phoenix in 1955, John went to World Wide in 1967 and became one of the first staff members of Scientology Publications Organization at its formation.

These days, he is working at compiling Scientology books–*The Phoenix Lectures* in 1968 and recently *Scientology 0-8* and the *Organization Executive Course* books. John has been awarded all his Advanced Courses to OT VI by Ron.

About his work, John says:

"Ron is the author of the books and my job is to see that they come off the tapes still being Ron's. It's the most important communication there is.

"It's the first time there's been truth about life and the universe *and* a workable system for handling it–starting with a person's most magnified worries and reaching up all the way through and out of *all* of it."

On attaining the state of Clear at AOSH DK on March 13th, Ron's birthday, John wrote:

"Dear Ron . . . I'm Clear. And it's on your birthday!!! And it's in this lifetime, too!!!

"Thank you so much–and the people you trained and helped all along the way–I couldn't have done it without them either."

John on Copenhagen's beautiful "walking street", headed toward the AO and further expansion.
