Why I Wrote
Dianetics, The Modern Science of Mental Health
by L. Ron Hubbard

L. Ron Hubbard, Founder

Do you know why the first book DIANETICS, THE MODERN SCIENCE OF MENTAL HEALTH was written?

Word of mouth on Dianetics was going forward so rapidly that my letter volume, even before the first book, was startling. Each one of these people expected me either to write them a long letter and tell them what it was all about, or to be given a change to come and see me so that I could tell them personally what it was all about.

In other words, my time was going to be consumed, not in further research, but in writing letters and talking to people. My answer to this was to write DIANETICS, THE MODERN SCIENCE OF MENTAL HEALTH which rapidly informed the newly interested person what this science was all about.

The newly interested person must have an opportunity to go and sit down quietly by himself, without any social strain, and study a book on the subject. Only in this way will he come to a decision about the subject which is his own independent decision having inspected the materials. This has to be done quietly and it is best done through the pages of a book.

If you have questions about Dianetics and Scientology, no matter how obstruse or abstruse the questions are, your best answer to these questions was my earliest answer and that was - "Read DIANETICS, THE MODERN SCIENCE OF MENTAL HEALTH, and that will answer your questions."

Most of the world does not yet know anything about the reactive mind. They do not know what makes them tick. They have no concept whatsoever of the basic of human reaction. They are at war with one another. They follow strange leaders and wind up in strange places. They have no hope that anything will dig them out.

But we have made a break-through in Dianetics and Scientology. The exact moment of the break-through is recorded at public level with DIANETICS, THE MODERN SCIENCE OF MENTAL HEALTH.

The newly interested person should read this book as something new, startling and strange in the world. It forms the necessary bridge from knowing nothing to knowing something about the mind and human reaction.

If people do not read this book, they will just not have broken through.

It is an exciting book.

To this day it sells more copies around the world than the average best seller.

Read it.

Get your friends to read it.

And let's get going.

Creation of Knowledge

By L. Ron Hubbard

The Knowledge of Scientology is available to anyone who reaches for it - first through Books and then through Training and Processing.

The term **Scientology** is taken from the Latin word **Scio** (which means "knowing" in the fullest sense of the word) and the Greek word **Logos** ("to study") - hence "the study of knowledge".

Scientology, used by the trained and untrained person, improves the health, intelligence, ability, behavior, skill and appearance of people.

The greatest philosophical clamour or quarrel has been waged around the subject of "knowledge", and there is nothing preposterous on the subject of knowledge that cannot be found in the philosophical texts.

The superiority and ascendancy of Scientology depends upon the fact that it has transcended this philosophical quarrel on the subject of knowingness, and Scientology contains in itself the basics of knowledge.

By "knowledge" I mean assured belief, that which is known, information, instruction, enlightment, learning, practical skill. By "knowledge" we mean data, factors and whatever can be taught about or perceived.

The reason why knowledge has been misunderstood in philosophy is that it is only half the answer. There is no allness to knowledge. By definition, knowledge is that which is perceived or learned or taken from another source. This patently means that when one is learning he is being an effect.

Opposed to knowledge we have the neglected half of existence, which is the **creation** of knowledge, the creation of data, the creation of thought, the causative consideration, and self-evolved ideas as opposed to ideas otherwise evolved.

The reason Scientology is such a fascinating study is that it takes apart the other fellow's ideas and permits one to create some of his own. Scientology gives us the common denominators of objects, energies, spaces, universes, livingness and thought itself.

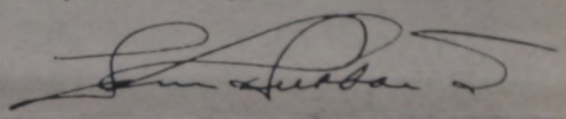

In Scientology we can communicate in full these circumstances since we are only calling to attention the pattern which an individual himself already holds, thus we are not actually "teaching" him anything. We are only pointing out things he has already agreed with or himself caused.

Any information is valuable to the degree that you can use it. In other words, any information is valuable to the degree that you can make it yours.

Scientology, of all sciences, does not teach you - it only reminds you, for the information was yours in the first place.

It is not only the science of life, but it is an account of what you were doing before you forgot what you were doing.
