THE MONTHLY JOURNAL OF SCIENTOLOGY

PHILOSOPHY and TECH

by L. Ron Hubbard

There are actually two zones of Scientology.

One of these is philosophic. It is entirely a zone on its own. It is a philosophic subject.

Scientology is probably a summary of all the philosophy that Man has had. So it is essentially a philosophic subject.

Now there is a zone known as an Applied Philosophy.

There are two things involved here. A philosophy is something that is true as it is true for you. It is not something that is shoved down somebody's throat. It is the freedom of think.

And the sky is the limit on the freedom of think. There is a tremendous amount of data in Scientology. An enormous amount of it. It is probably one of the most broadly covered subjects man has ever had in this field.

There has never been this much data or investigation in any other philosophy. One of the reasons for that is, most philosophies didn't bother to look. They got stuck on some favorite hobby horse. They got stuck on some stable datum. You'll find out that if somebody is really having a bad time he is fixed on some stable datum that doesn't really make sense, like horses sleep in beds. He's fixed on this.

Formerly philosophy was used simply to beat a drum rather than a straight forward investigation of Man's relationship with the physical universe, and what he was all about, and what it was all about.

That subject of Scientology which is a philosophy remains totally and completely free for use. You can use it anyway you want to.

It is by far 90% of the volume.

It is there with which to think. It is there to make up your mind about. It is there for you to use or apply or to believe or not believe or discard as you see fit.

So there is this tremendous body of information concerning the physical universe, Man, Life, politics, government, you name it, that is of free use.

There isn't at any moment any duress in believing it or not believing it. It is as true as it is true for you, and this is true of this entire field of philosophy.

You lose sight of that. You very often lose sight of that. . The reason is because there is also this zone of Applied Philosophy known as processing, in which it is applied to this one straight field of the state and condition of a living being.

Now by the selection of what wins and what doesn't win by actual tests and case histories, this entire field has become very fixed. It is an ex-

tremely definite, positive, don't-go-one-quarter-of-an-inch -over-that-line-off-it route. Do you see?

Don't for a moment get these two things confused.

One is this broad philosophy. And the other is a specific application of it to the improvement of the ability, health, being and freedom of the individual, that we call processing.

People got these two things confused over the years to a point where they thought you could run processing any way you wanted to. Result chaos !

And on the other side of it, they said the philosophy is something that has to be believed utterly by the Scientologist. So the philosophy became authoritarian in some peoples minds. And the processing became very permissive indeed.

Between these two things we have really two different approaches to the same subject.

If you're learning to be an Auditor you should have a very good working acquaintance with the entire field.

But those things which you are supposed to do are action things. The "magic" words you're supposed to say to the preclear, if they vary that much, he doesn't get the result!

So we had to produce the Class VIII course which was highly hammer - pound, straight-on-the-line-don't-go-a-quarter-of-an-inch-off-it.

The remarkable part of this is that when processing is used in that way, with that velocity, with that exactness, you get in actual fact a very definite positive result. In other words, the route is very narrow. It's been tested, redone, examined, all along the line.

You're doing something of both of these things when you're studying the St. Hill Special Briefing Course materials, because there is quite a bit of philosophy in that area.

But all I ask you to do is to separate out these two things: One, an exact positive application without any variable of any kind whatsoever and you get a completely invariable result.

And the other side of the thing, if you hear that a thetan is prone to react to buttercups - well, if it isn't true for you, it isn't true !

You have these two things. I make this point because a lot of people who are struggling along through the study of with the result that they get a wrong idea of what we're going about.

You hardly would produce any freedom in Man if you were also telling him what to think.

The upshot of this is that the subject matter falls into these two categories and what we are trying to do is to produce somebody who can positively move along the line of application, which is a very exact action, and who is also conversant with the general philosophy.

S.H.S.B.C. Training Lineup

Original actions of the S.H.S.B.C. reinstated

Special Briefing Course students have high production in study due to the tough Supervision of the Professional Course Supervisors.

The following highly successful actions of the original Saint Hill Special Briefing Course are reintroduced, as these were the actions instituted by Ron, which made the original "Saint Hiller" famous for his "presence".

The original Saint Hill Special Briefing Course taught the auditor "presence" the way the Class VIII Course today teaches "standardness".

"Presence", is a very vital quality in an auditor and a true "Saint Hiller" can be recognised by this fact alone.

1. All preSHSBC classifications are suspended while the student is on SHSBC O - IV. (Revised by HCO PL 27, Aug. 71, "Saint Hills must now accept as valid all Academy granted certificates and may not require to retread O to IV at a Saint Hill".)

2. Auditing requirements on the SHSBC are now done on Level V.

3. Auditing requirements for levels O to IV when taken on the SHSBC are dropped.

4. Students on level O to IV are required to study and drill, study and drill.

5. At level V of the SHSBC the student co-audits with his fellow Vs and also audits lower level students on the level they are currently studying on.

6. The Class V audits O and earns his O Full Classification confirmation, then Class I, then Class II etc.

7. The Director of Training can help with the Case Supervision of folders but in a large class a special qualified C/S is assigned to student folder C/Sing.

8. Additionally the level V student is required to study all books and material reading through all HCOBs from the beginning up to PT (excepting only confidential issues) in chronological order.

9. At Level V the student also audits on closed circuit TV demonstrations which are watched by the lower level students and the rest of the course.

10. Two TV Cameras, (16 mm wide angle lens) are used for these demonstrations with two 24" TV sets in each area the demonstration is being viewed from.

11. One TV camera in focused on the meter to show a large meter dial on one of the TV sets.

12. The other camera is focused on the session.

13. Both screens are watched together by the other students who are all compelled to attend the demonstrations.

14. A standby experienced auditor is always available to reassure the pc during a TV demo session.

15. The watching students note the strong and weak points of the demonstration and whether the auditor passes it or not. Whether he has auditing presence and any goofs made.

16. There is also a soundproof auditing room fited out with a tape recorder where students on Level V are required to tape their sessions and listen to them afterwards to note outnesses and correct them. Students also correct each others tapes.

17. Flag Auditor tapes of auditing sessions of various levels are available and are listened to by the Class V students so they can compare them with their own session.

18. Another strict requirement is that if a student is sent to cramming then his twin is sent too. If his twin was coaching correctly and handling misunderstoods the student wouldn't need to have gone to cramming. They are both returned back to class together.

19. However students must be matched correctly as to speed etc. and Supervisors can use test graphs to establish this.

20. Twins are paired males together, females together where possible.

The above points are what made the original SHSBC

These points get the student to get and keep his own ethics in and put in ethics on his fellow students and thus the course almost runs itself.

After graduating Class V with satisfactory auditing on all lower levels the student does Level VI and then internes for the SH Org and audits till flubless as a Class VI auditor at which time his full Class VI Certificate is awarded.

Checksheets must include these actions or you'll never make a Saint Hiller.

NOTE:

The use of "electronic learning aids" such as TV and taped sessions played an important part in the early SHSBC.

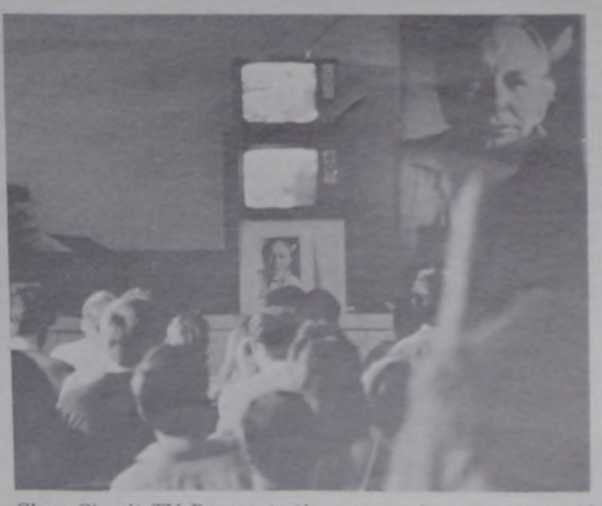

The use of these dropped out sometime after Ron left Saint Hill.

The reason or "Why" for this was that others didn't fully know or understand what the electronics learning aid was for or why it was used.

Thus there was an omitted scene and electronic aides dropped out of use.

These devices make it possible for an ideal scene to be presented for comparison, such as by hearing tapes of sessions given by Flag Auditors.

They also enable an auditor to listen to his own sessions and from an exterior viewpoint spot and correct outnesses that he is not aware of in session. Auditors otherwise have no comparison with their own auditing. Sitting with a pc FOR LACK OF COMPARISON WITH OTHER TAPES AND REVIEW OF HIS OWN.

Close Circuit TV Demonstrations are an important part of Saint Hill Special Briefing Course Training and a highlight of the weeks training.

TV demonstrations enable various approaches towards the ideal scene to be viewed and learned from.

Additionally the use of these devices by the group help the individual keep his own and his fellows ethics in. An auditor can't get away with just PR about how good he is, he is asked to show it.

The group participation in watching TV sessions and each student grading the demonstrators, made Saint Hillers into a group responsible for their own quality and made a Saint Hiller BE a Saint Hiller and a part of that group.

All of these electronic methods greatly increase reality and therefore understanding of the subject. An ideal scene can then be closely approached and attained. So real auditors are made – "Saint Hillers".

THE SAINT HILL SPECIAL BRIEFING COURSE

You will achieve the abilities necessary to be a totally competent auditor who can and will audit, and attain the understanding and skills needed to fully handle [illegible] training on the Saint Hill Special Briefing Course.

An auditor is a minister and auditing is spiritual counseling.

WHAT IS THE SAINT HILL SPECIAL BRIEFING COURSE?

The Saint Hill Special Briefing Course originated in England where L. Ron Hubbard supervised the first Special Briefing Course in his home at Saint Hill Manor. The modern version of the Special Briefing Cousre is now taught at the American Saint Hill Organization in Los Angeles, and is the most comprehensive auditor training course in Scientology today.

The course takes an average of 3 months to complete, and consists of seven separate stages of training where definite and exact auditing skills are learned.

FAST STUDY

Your progress on course will be greatly speeded up by the trained Professional Course Supervisors who help make it very easy to get through.

New Word Clearing technology has been developed by L. Ron Hubbard to ensure that students move rapidly along. Misunderstood words are fully cleared up from the course materials, and earlier training subjects. *The effects of clearing up these wrongly understood words is phenomenal. Whole subjects become suddenly easily understood by the student who had difficulty with them before, and study of the Saint Hill Special Briefing Course materials then becomes very swift indeed.*

AUDITING ON THE COURSE

You will not be auditing others at the beginning portions of the course. While you are studying at these levels however, you *will* be *receiving* all the fabulous processes of the Expanded Grades which will be given to you by an experienced and advanced student. This makes a very economical way for you to get lots of auditing while getting trained.

When a student reaches Level V of the course, he re-studies all the lower level materials to obtain an even greater certainty on them. All Dianetic materials are included at this level, and other special materials which are only given at this part of the course.

At Level V you actually start to administer the technology studied, and you deliver auditing daily to lower level students for training and Classification requirements. Recording equipment is used to tape student sessions for their own criticism, and tapes by professional auditors are available for the student for comparison. Closed Circuit TV Demonstrations of live auditing sessions make up a vital part of the Saint Hill Special Briefing Course Training. These are viewed by the whole class. They train the student in auditor PRESENCE, and polish up his skills tremendously.

The hundreds of hours of auditing you will give and receive on the course will enormously expand your abilities and freedom.

POWER PROCESSING

After achieving all of your Expanded Grades of auditing (or just as a Grade IV Release) you will be ready for Power Processing. This phenomenal technology is administered by precision Class VII auditors in the Hubbard Guidance Center at American Saint Hill Organization. *And as a special benefit, a unique 50% professional discount on Power Processing (a saving of $600.00) is given to the student on the Saint Hill Special Briefing Course.*

SOLO AUDITING

Very advanced materials are studied on Level VI, and at this level one learns to Solo audit himself. The auditing requirement at this level is to Solo audit to a Grade VI Release, attaining a return of power to act on own determinism and freedom from dramatization. This achievement is only one level away from the State of Clear.

COURSE COMPLETION

Completing the Saint Hill Special Briefing Course you will receive the certificate of Hubbard Senior Scientologist, and will be much respected for your skills and abilities as an able and trusted auditor. Your delivery of Expanded Grades of auditing to others will be a flawless and effortless activity. And as a Solo Auditor, having gone the training route, you will be highly skilled and ready to solo audit yourself on the more advanced levels of Scientology, assured of having the best auditor you can get!

You will win in the safe space that is the Saint Hill Special Briefing Course. Enroll today!

The only prerequisite to start the course is completion of the Student Hat course which trains you in the vital and fundamental skills of Scientology study methods. This short course is available at the American Saint Hill Organization and is usually done within one week. (Price: $125.00)

Previously students who had graduated from Academies in Scientology Churches had to retrain at the American Saint Hill Organization in order to validate their Certificates. This is no longer the case, and the Amreican Saint Hill now accepts as valid all Academy granted Certificates, and does not require the student to retread on any training Levels O through IV.

The tuition fee for the Saint Hill Special Briefing Course is $775.00. Plus you pay $1,000.00 additional if you have not taken full Academy training. Payments for partial Academy training are credited towards this additional $1,000.00.

A special $125.00 scholarship exists for Class IV auditors who have completed this Academy training making their full tuition fee only $650.00.

A 5% discount is given for payment in advance.

Training Route Success Stories

On the first level of the Briefing Course, I got a reality on the fact that Tech was not apart from life. I really got a lot out of the basic data about communication cycles, and how I could handle everyday communication better by knowing when to pay attention, when to acknowledge (when not to acknowledge too) etc.

On Level I, I became very familiar indeed with the Tone Scale and how a person can move from one and one to another thru processing, or while experiencing changes in life or in others. Now the SHSBC is a real stable datum to me and I'm an "F/Ning student.'

Jim Ellingson

Special Briefing Course students get audited on all the Expanded Grades Processes by Higher Level students.

Before coming on the Breifing Course I was the effect of a lot of things that happened. I knew what was out but I didn't always know what to do about it. The Briefing Course really gives you the data to handle situations in life effectively, to be cause to make things go the way you want them to. It is the difference between hoping things will be allright and knowing you can make them that way. Also, when you are auditing you have no case, and are expanding through all the dynamics by really helping others and helping yourself.

Randi Buckley

Training is an act of acquiring knowingness. And the more you know about postulates, considerations, agreements, masses, lines, and nothingnesses the better you can play games, mock up new games, and destroy old unwanted games. If you want to become de-aberrated then get processed. If you want also to be a master at creating, playing, continuing, or resolving the activities you engage in then GET TRAINED !

Fred Stann

Audrey Sharp, Class VI is a recent Graduate of the Saint Hill Special Briefing Course.

In this whole physical universe there is nothing like the Briefing Course, when you get processing you feel great but when you get training you know why you felt great and whats more you can help others to do the same. Its like the 2nd flow. 1st you find out the data is there, then you find out you can use it and then you realize how very much it is needed and you are needed. There's a BIG job to be done and its imperative to do it now.

Audrey Sharp

The new arrangement of the Briefing Course makes it possible to get through quickly with lots of wins. I've been on course six weeks and I'm in the middle of Level IV. I should be done within the next six weeks. The excellent supervision assures that the study tech will be applied and when the study tech's applied the only way to go is up.

Definitions

ABERRATION - Irrational or deranged behaviour or thought on, or about, a specific subject or subjects resulting from the influence of the Reactive Mind upon the individual in relationship to that subject or subjects.

ACADEMY - Refers to the Academy of Scientology where training on Dianetics and Scientology levels are delivered. Each Church of Scientology has an Academy.

AUDITING - the application (by a trained "Auditor") of Dianetics or Scientology procedures to someone for that person's remarkable betterment.

AUDITOR - A listener or one who listens carefully to what people have to say. An auditor is a person trained and qualified in applying Scientology processes to others for their betterment.

BANK - A colloquial name for the Reactive Mnid. (This is what the procedures of Scientology are devoted to disposing of, for it is only a burden to an individual and he is much better off without it. A Clear has no bank.)

CASE - The way a person responds to the world around him by reason of his aberrations.

CLASS - CLASSIFICATION - a gradient classification system for auditor levels. Levels so far released are numbered from O to IX.

CLEAR - a person who can be at cause knowingly and at will over mental matter, energy, space and time as regards the First Dynamic (survival for self). The state of Clear is above the Grades of Release O - VI (all of which are prerequisite to Clearing) and is attained by completion of the Clearing Course at an Advanced Organization.

CYCLE - From the beginning to the conclusion of an intended action.

DIANETICS - means through thought or mind.

DYNAMIC - the urge, thrust and purpose of life - SURVIVE - in its eight manifestations.

E-METER - the Hubbard Electropsychometer is a religious artifact, used as a spiritual guide in Church confessional process, and is not intended, effective or ever to be used for attempted diagnosis, treatment or prevention of disease. The E-Meter measures the mental state of a person and the change in that mental state as a result of Scientology or Dianetic processing.

F/N - FREE NEEDLE (FLOATING NEEDLE) This is a needle manifestation of the E-Meter of great importance, as it indicates the preclear has reached a state of Release and is the end point of any process. A free needle moves in an idle uninfluenced motion. It appears to float.

GRADATION CHART - is a map of expansion of life, showing at each level the realization of a greater potential.

GRADE - an award made to a preclear in the form of a certificate for having attained one of the eight states of Release or the state of Clear.

HAS - Hubbard Apprentice Scientologist, the name of a basic course in Scientology, which teaches the fundamentals of Communication.

HAT - Slang for the title and work of a post in a Scientology Organization; taken from the fact that in many professions, such as railroading, the type of hat worn is the badge of the job.

PRECLEAR - PC - one who is finding out more about himself and Life through Scientology or Dianetic Processing and who is not yet "Clear".

PROCESSING - that action or actions, governed by the technical disciplines and codes of Scientology, of administering to a preclear a PROCESS, which is a set of questions asked by an auditor to help a person find out things about himself or life.

PR - Public Relations

P.T. (PRESENT TIME) - That which is now and which becomes the past almost as rapidly as it is observed. It is a term that refers to the environment as it exists now, not as it existed; as in the phrase "the preclear came up to present time!!!" meaning the preclear became aware of the existing matter, energy, space, and time of now.

RELEASE - a person whose Reactive Mind is not influencing him. There are "Grades" of Release, each of which is a distinct and definite step toward greater levels of awareness and ability.

SCIENTOLOGIST - One who knows he has found the way to a better life through Scientology and who, through Scientology books, tapes, training and processing, is actively attaining it.

SCIENTOLOGY - an applied religious philosophy, dealing with the study of knowledge, which, through the application of its technology, can bring about desirable changes in the conditions of life.

SHSBC - Saint Hill Special Briefing Course.

TECH - TECHNOLOGY - The methods of application of an art or science as opposed to mere knowledge of the Science or art itself.

TONE SCALE - A scale measuring and relating the various factors of behaviour, emotion and thought to levels on the scale.

VGI's - Very Good Indicators - indicators which tell an Auditor that a person is winning and achieveing the expected good results of training or processing.

VALENCE - The unwitting assumption by one individual of the characteristics of another individual.

VISIO - Ability to see in facsimile from something one has seen earlier so that one sees it again in the same colour, dimension scale, brightness and detail as it was originally viewed.

You can always write to Ron about your case or problems.

"All mail addressed to me shall be received by me.

"A message box shall be placed in all Scientology Organizations so that any messages for me shall be received by me.

"All Hubbard Communication Office Personnel and Scientology Personnel should not discourage communication to me. I am always willing to help. By my own creed, a being is only as valuable as he can serve others."

Scientology Translations into Europe

1,000th Tape Reel Made

Ulf Ronquist is the worlds first Scientology translator and responsible for the first tapes issued which went into two Orgs in Sweden. These were met with great public response and statistics skyrocketed up.

The many many hours of recorded lectures by L. Ron Hubbard are now being translated and the spread of this knowledge which will free Mankind is rapidly expanding into the languages of many different countries of Earth. Here's what Ron recently had to say to Scientology staff about this:

"TAPE WIN: A big hurrah has greeted our first translation of tapes into Europe.

Scientology materials in Swedish - Staff Status I and II, Organization Executive Course up to Section IV, Study Tapes, Mini Course Supervisors Course have been delivered to Malmo and Gutenburg with an immediate upsurge in statistics to highest ever.

Nothing but raves in European traffic with Very Very Good Indicators. Carry on with this huge multi-lingual project. There's an awful lot going on. If you only have part of the picture you could overlook the truly upstat position we occupy."

AFRICA-EUROPE: Captain Bill has just telexed that EUROPE, ADVANCED ORG, SAINT HILL DENMARK, and AFRICA have just hit highest ever!

As we depend and will in the future depend on EUROPE, this is a bigger piece of news than one realizes.

Translations by tape is playing its role. Tape production Masters are pouring up to Pubs (Publications Organization) in several languages covering basic materials, This will make a high difference in the EUROPE scene.

EUROPE knows better than to buy physchiatry as psychiatrists gave them the death camps.

So EUROPE - AFRICA news like this is fantastic."

A telex sent to Ron said:

"Telex Re Translations: Dear Sir, Made 1,000th tape this morning at 0900. French translator Mary Skelton-Jared "Review of Study" Stop.

Much Love, Mary Lou and Marie France."

Tape translations are going forward at full speed. Some of the Scientologists working on these translations are:

GERMANY: Dorit Bensch, Erika Bertle, A. Ansorge, L. Geaver, G. Knauake, N. Nordgren, P. Prendal, Z. Quickay, A. von Groeneualt.

THE VALUE OF SCIENTOLOGY

The best way I can express the value of Scientology is from a subjective viewpoint.

After completing Grade VI last night I can honestly say I am truly freer today than I ever was. It continually astounds me how much more self determined I have become thru training and processing. I have felt more sure of myself, more in control and much more responsible. No material value could ever be placed on the Truth as the Life Static has no mass, no location, in space or time. All I can say is when you've found the answer to your questions how do you feel? You know and that is the Native State of a Being.

Esther Kovler

Through Scientology I have become a much more self-determined being. For the first time in this lifetime I'm me.

Nancy Green

Scientology to me is more than just a religious philosophy. It is a way of life. It contains the only workable technology to rid man of his aberrations. Rid man of his reactive bank. Wow its just phenomenal! With Scientology technology and enough auditors to deliver standard technology - we will soon have a Clear Planet.

Max S. Dilts

Perhaps one of the greatest values in Scientology is the study materials. By understanding exactly and applying this material you can easily learn any subject that one thought to be impossible before. That tough Physics class, Latin class and Music appreciation course all become fun and understandable. You truly can be the master once again in these tough areas. It becomes easy to learn once again and it's really a pleasure to study then and actually apply what you've learned in the physical universe. By gradients you become more aware and master many more subjects. You become a better educated and more able person in your community.

Suddenly you find that no longer are you all introverted in a little shell all your own. Soon you are able to consult anothers understanding. Then in turn by understanding his point of view can you reach out and allow another guy to be, do, and have exactly what he is doing. You now begin to grant beingness. It's only a beginning because one must go thru all of LRH's Technology and administration training as well as getting auditing. It's a real adventure and perhaps the most exciting games we've ever and will ever again play on the planet. So why not participate fully?

Christine Hucker

Scientology gives one abilities one has not had in trillenia. It gives a being immortality. Nothing has ever compared to this.

George Mihlsten
