STANDARD ADMINISTRATION

by L. Ron Hubbard

To approach the Subject of STANDARD ADMINISTRATION realistically, one first must recognize that a right way to do things can exist.

Let us take an example like starting a car. There is a right way to do this. You see if it has gasoline, you see that it's out of gear and that the brake is on. You turn on the ignition key and make the starter make contact. You feed it some gas and it starts. Now if one varied the sequence or did something else the car wouldn't start. Then one pushes it or finds a hill. It still doesn't start so a mechanic is sent for. The bulk of the item, the mechanic finds no gas or failure to turn on the ignition.

There are an infinity of ways not to start a car.

There is only one way to start a car.

So it is with any standard procedure.

There is a way to do something right. The right ways to do things are called TECHNICAL PROCEDURES or TECH when it comes to auditing or scientific or mechanical processes.

There is a TECH of ADMIN. This would be the right ways to do administrative actions or organize something.

Administration is the subject of how to organize or establish or correct the spaces, terminals, flows, line duties, equipment, materiel, and so forth of a production group so as to establish optimum volume, quality and viability.

Activities, organizations, companies, governments and even Man's civilization depend upon having the TECH OF ADMIN and the knowledge and APPLICATION of it.

This general subject is known as ADMINISTRATION or ADMIN for short.

There are correct ways to do things in ADMIN. For each correct procedure there can be an infinity of incorrect actions.

To be a good executive or staff member one has to know the right way something is done and to be able to get done what he knows and be able to correct outnesses so they go back to the correct procedures.

Because of the great number of separate actions that go to make up a large activity, the subject looks complex unless one learns to look at one procedure at a time and fit it into other procedures.

The subject of Admin only appears difficult because those involved in it SELDOM LEARN THE CORRECT PROCEDURES. Instead they do other odd things that, taken as a whole, give a thoroughly confused scene.

Continued on page 2

STANDARD ADMINISTRATION

Continued from page 1

The test of any body of procedures is whether or not they will, when done, result in a smooth running organization which produces final valuable products in volume that have acceptable quality and maintain the organization's survival.

Our Admin passes this test. When used exactly by the book and applied and corrected back to the book they will produce high volume, quality and viability.

This has been tested over and over. By the book= prosperity. Offbeat use or ignorance or non-application=collapse.

By just getting "on policy" (knowing and using the procedures with no departures) an org has leaped from long enduring poverty to high success. Then run by those ignorant of policy, it has in turn collapsed to the degree it went "off policy".

This fact has been seen over and over and over again. "On Policy" (knowing and applying our procedures) has been the common denominator of each boom. "Off policy" (not knowing, not applying our procedures) has been the common denominator of every org or Continental area collapse.

There are enormous numbers of witnesses to this and it is backed up by mountains of statistics.

STANDARD ADMIN means the usual "on policy" procedure applied.

"Squirrel admin" means the departure or alteration of Standard Admin. The use of the word "squirrel" is long standing because squirrels in their little cages go 'round and 'round and get nowhere and they are also, a bad pun, "nutty, meaning a bit crazy.

The source of STANDARD ADMIN is an HCO Policy Letter.

The main source of "squirrel admin" is simply ignorance of P/L procedure or the neglect of reading and applying it - as simple as that.

So if an org's staff ignorant or neglectful of policy and failing to apply it is creating a mad scene daily, just realize they are trying to start a car by welding the trunk shut or polishing the tires!

The answer is invariably and always, find the policy, apply it and force out the "off policy" actions and coolness and prosperity will reign.

So this is a simple subject. Complicated only by the inability of people to confront and do the actions called for by policy.

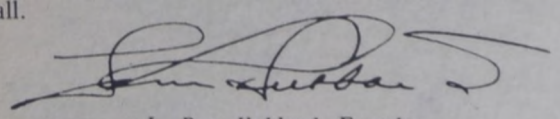

Following policy is better all around as it is an area of agreement.

New procedures can be developed, tested, piloted, used. BUT until they become policy they can drive an area mad.

So there is a right way to do it. And that is the way it should be done. And so doing it "on policy" will result in prosperity.

If one is not able to accept this fact, then one will not be able to run an activity prosperously.

So STANDARD ADMIN is rather simple after all.

Scientology applied to the work-a-day world. Here Ron addresses the worker and the executive on the subjects of holding a job, handling confusion, the secret of efficiency, exhaustion, the formula for success, and much more. A real "how to . . ." book that shows any person the road to becoming more competent and more able, less tired and more secure in his daily work.

A quote from LRH:

Scientology has slashed through many of the complexities which have been erected for men and has bared the core of these problems. Scientology for the first time in Man's history can predictably raise intelligence, increase ability, bring about a return of the ability to play a game, and permits Man to escape from the dwindling spiral of his own disabilities. Therefore, work itself can become a game, a pleasant and happy thing.

STANDARD ADMIN

by L. Ron Hubbard

STANDARD TECH came in with a crash just by teaching the most important actions. Cases which hadn't moved for years when handled by Case supervisors and auditors who skipped all the airy fairy nonsense and just did the usual ordinary basic actions suddenly flew.

There is also Standard Training Procedure. This again is the ordinary down to Earth basic actions. A class that hadn't moved at all suddenly took off and all graduated when the USUAL was done.

Thus we find the flow in all our actions to be the failure to separate out the truly basic important actions and instead engaging upon trivial complexities.

It is a characteristic of a thetan that the least complex actions are the most powerful. When his confront lessens he tries to do things by vias that add complexities and he then fails and becomes weak.

So, just as we blasted our way to 100% results with STANDARD TECH so we can thunder straight through to victory using STANDARD ADMIN.

DEFINITIONS

STANDARD means "a definite level or degree of quality that is proper and adequate for a specific purpose." (Webster's Third New International Dictionary Unabridged. Standard 3 b page 2223.

ADMINISTRATION means "The principles, practices and rationalized techniques employed in achieving the objectives or aims of an organization." (Webster's Third New International Dictionary Unabridged, 5 (a), Administration Page 28. We commonly call this "Admin" as a shortening of it and to designate the work of doing it.

ORGANIZATION means "A group of people that has more or less constant membership, a body of officers, a purpose and usually a set of regulations." Webster's Third New International Dictionary, Unabridged, 2 b page 1590.

BASICS means "basic-s something that is basic: FUNDAMENTAL."

BASE means "the bottom of something considered its support."

FUNDAMENTAL means "serving as an original or generating force: being the one from which others are derived."

DERIVED means "formed or developed out of something else." which is to say something formed or made from a basic.

Thus if we have the BASIC or base or starting point, and know it well, then from it we can develop more complex actions.

We had to have the fundamental or basic laws of organization in order to develop the full structure of organization.

Administration becomes STANDARD when we have the most important points or laws or actions and when we always use these and use them in just the same way.

For example, some people look at a factory as a big complex structure, they consider it very complicated or hard to understand or are in awe of it. Or get confused trying to study it. Well, the moment they know that the basic action of the place is to make silk, cloth, they have a fundamental on which to understand what is going on. When we then know that raw fiber goes in one side, gets processed and comes out the other as satin, we can begin to sketch in what its flow lines must be. At last we have that, we can assume somebody runs it and that people work there and taken all in one piece it's an organization.

To RUN the factory we would have to know the most important duties of every person in the place; the functions of the machines and the lines of flow. And to run it SUCCESSFULLY we would have to know where its raw fiber came from and its cost and who would buy it and its price and how much the various expenses were to keep it going and to make it make more than it spent and we'd have its economics and accounting.

These would be the BASICS of the place: who did what, what the lines were, where the raw materials came from and where the finished product went, and keeping raw materials in quantity at a reasonable price.

While some might be upset at making a similarity between a factory and an organization in general, all organizations have the same basic problems and similar solutions.

ENROLL ON THE FAMOUS

Saint Hill Special Briefing Course

The Saint Hill Special Briefing Course is the most thorough training cycle in all Scientology. It covers completely all the materials ever developed from the lowest levels through Level VI excepting only the famous Power Processing.

This course is unsurpassed in the entire history of Man's search for knowledge. A graduate from the Briefing Course is a "Saint Hiller" Class VI and a highly respected Minister of Scientology. He or she faces the world with total certainty about his ability to audit and handle life. There is no bank that a "Saint Hiller" can't handle.

You will achieve the abilities necessary to be a totally competent Auditor who can and will audit, and attain the understanding and skills needed to fully handle life and your environment through training on the Saint Hill Special Briefing Course.

This course takes a minimum of 3 months to complete, and consists of seven separate stages of training where definite and exact auditing skills are learned.

You will not be auditing others at the beginning portions of the course. While you are studying at these levels, however, you will be receiving all the fabulous processes of the Expanded Grades which will be given to you by an experienced and advanced student. This makes a very economical way for you to get lots of auditing while getting trained.

At Level V you actually start to administer the technology studied and you deliver auditing daily to lower level students for training and Classification requirements. Closed Circuit TV Demonstrations of live auditing sessions make up a vital part of the Saint Hill Special Briefing Course Training. These are viewed by the whole class. They train the student in auditor PRESENCE, and polish up his skills tremendously.

After achieving all your Expanded Grades up to a Grade IV Release you will get a special benefit of a 50% professional discount on Power Processing (a saving of $600.00).

Very advanced materials are studied on Level VI, where one learns to Solo audit himself to a Grade VI Release, attaining a return of power to act on own determinism and freedom from dramatization. Then.. on to Clear!

If the Student Hat Course isn't done prior to your arrival at NEW ASHO it is offered here. The Student Hat Course trains you in the vital and fundamental skills of Scientology study methods. It is usually done within one week. Price: $125.00.

The tuition fee for the Saint Hill Special Briefing Course is $775.00. Plus you pay $1,000.00 additional if you have not taken full Academy training. Payments made for Academy training are discounted from this additional $1,000.00.

A special $125.00 scholarship exists for Class VI auditors who have completed this Academy training making their full tuition fee only $650.00.

A 5% discount is given for payment well in advance of arrival.

Every Supervisor of the Briefing Course is a trained and certified Hubbard Professional Course Supervisor. This means friendly, individual supervision on all levels. This course is not for dilettantes. It's purpose is to train auditors to audit. It is a fact that students receive auditing from Level V students, and once you reach Level V you too will be auditing many hours of Standard Tech on Lower Level students.

Students enroll on the SHSBC because they want to be Auditors and want to help others. If you want to help others, you deserve to come to NEW ASHO and take the Saint Hill Special Briefing Course.

material and pay from the government.

THE BEST ORGANIZATION

The best organization is one which has a thetan over it, methods of working out its problems, basic actions and a good desirable product. It adapts itself to its environment or surroundings or conditions of operation so as to expand to greater or lesser degree.

Such as organizations must have a clear cut purpose and fill a definite need in order to survive.

Its services must be more valuable than what it costs to produce or furnish those services.

It must, to remain healthy, obtain more potential than it spends. For "potential" can be ready money or power or even strength.

Where an organization violates these very fundamental things it sickens and will eventually perish.

For example, a government of a country can violate one or more of the above simple ideas and eventually cease to exist. Some governments are really dead for a very long time before the fact is discovered.

Such is the persistence and power of a once strong organization that it can continue for a very long while, feeding inward on itself. It gradually contracts and eventually becomes a memory only.

Thus when you see an organization begin to contract, if it is to be salvaged, it must be stripped back to basics quickly, its form simplified, its purpose clarified and the important services it can render greatly intensified and the cost of rendering them greatly reduced. This formula, intelligently applied even to a dead government could revive it.

Lest we go too quickly, in the single sentence above and the earlier basics mentioned we have the whole "secret" of either reviving an old or forming a new organization.

If you know the purpose and how to make a desirable service known and know how to handle its fundamentals expertly you can found, increase, or revive any organization.

Putting together or handling an organization requires very certain, positive knowledge of

(a) The basics of organizations
(b) The purpose of the organization
(c) The basic actions necessary in the organization
(d) The potentials of the area in which the organization exists.
(e) The needs and desires of the area or people the organization serves
(f) The economics on which the organization will operate.

Handling or serving in an organization successfully, one has to KNOW the actions and activities of the organization and its area so well that one does not have to think about it. One just does it or one indicates or works with what or who does it.

You don't think "clutch, gear shift, accelerator, steering wheel, when you drive a car. You should, to drive it successfully, know where these things are and what they do so well that you simply drive a car.

But learning to drive a car, you learn each of these things and its functions and then learn them so well that it seems like instinct to use them. It isn't instinct. It's knowing them so well you don't fumble.

An organization is like that. Working in it or being one of those who run a part of it or the whole of it, one has to know the parts and actions and (a) to (f) above so well one knows them so fast that one just does them.

So, in STANDARD ADMIN we are acquiring

(a) A knowledge of basics
(b) The basics that exist in and around specific a organization.
(c) The ability to handle those basics with such speed and certainty that it seems instinct.

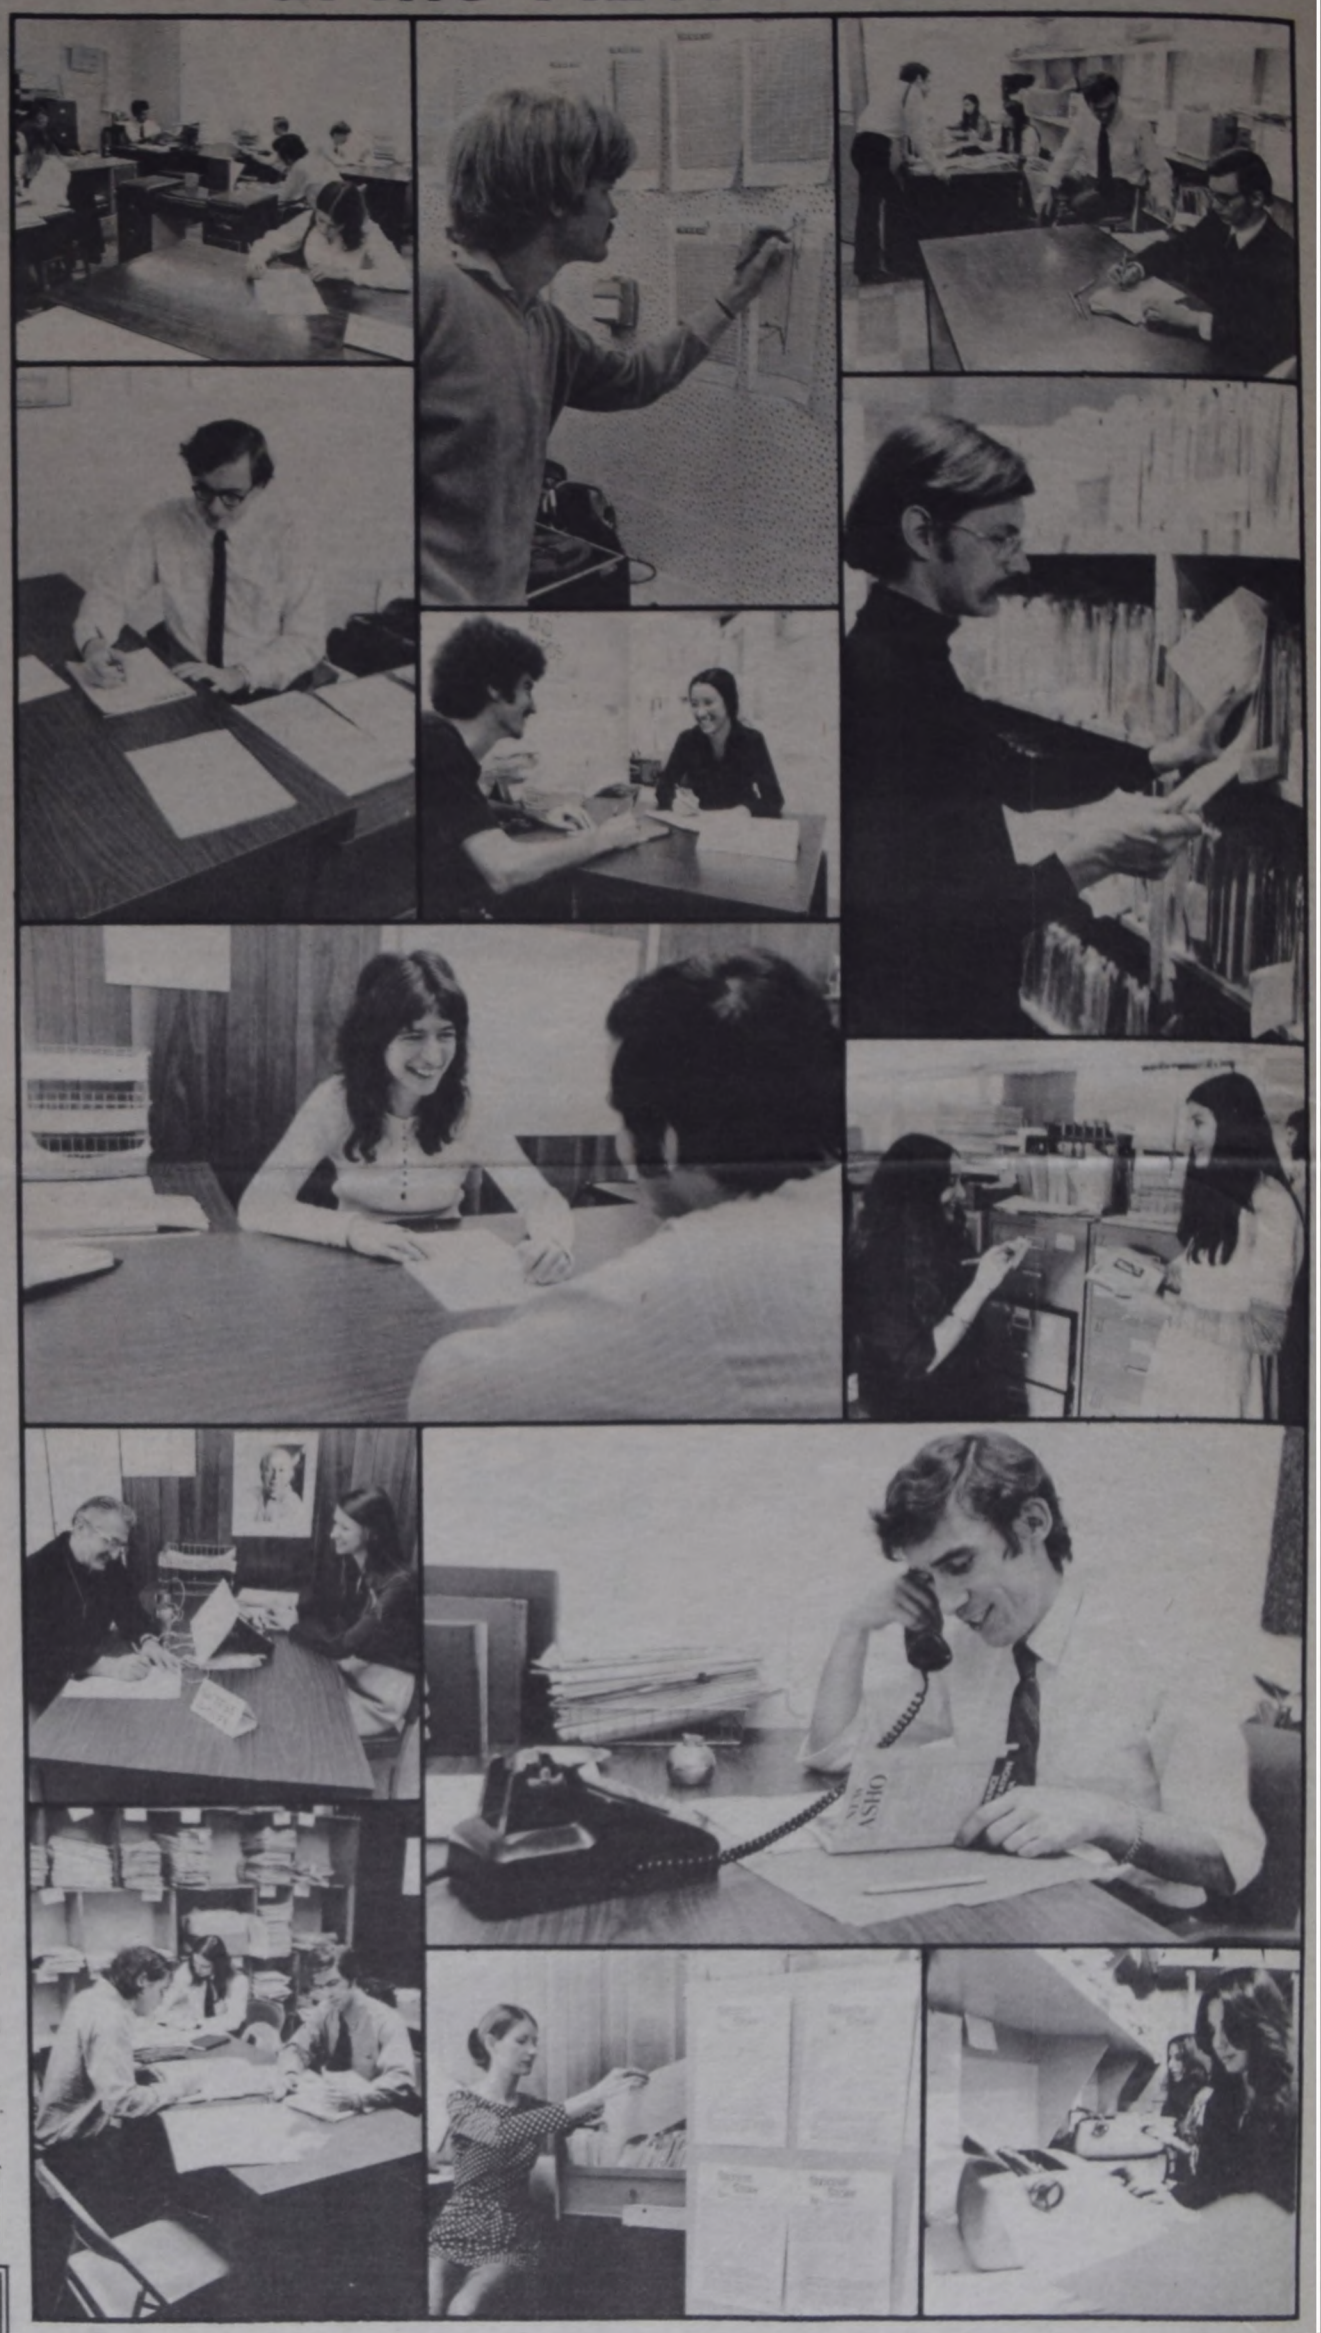

And when we have this, the organization will go, go, go with an ease and lack of effort that is astonishing.

Word Clearing Success

I brought about a win in another person by running Method II Word Clearing on her. This is the first time in my life I have ever used metering tech to assist another. It seemed to work like magic.

I know the truth of misunderstoods - now with certainty.

Mel Epstein

I was totally bogged on a clay demo. I got word cleared method II on the line that said what I was to demo. After spending about two hours on words like "to", "how", "demonstrate", "post" and "contribute" I was flying. I finished the demo in about 15 minutes where as the night before I had spent 3½ hours with no results.

Method II really works and its so simple to do. Use it if you have trouble.

Dick Suchter

I used to avoid study. I could never figure out which word was the misunderstood.

Now the misunderstoods jump out at me and its exciting to look them up. It's like being brand new to the adventure of learning.

Thank you Ron. I've got a 10 inch wide grin.

John Mustard

This day on the Word Clearing Course has been ONE BEAUTIFUL DAY! I finally understand this material that I have been curious about since I came to ASHO a Year ago.

And tomorrow I can start using it to make things go right at NEW ASHO!

Daly Dana

I feel really good about knowing the data and how to apply the data on Word Clearing to help speed up the student flows. I'm anxious to start applying it to as many students and staff as I can.

Ron Bennett

I really had a teriffic number of wins on Word Clearing. I find that I am interested in many subjects I previously didn't care for or even hated (all because of misunderstoods of course).

Alan Sorsher

Method I Word Clearing is really tremendous! I found so many misunderstoods that I've had since Grade School. Word Clearing is definitely an incredible Study - Hatting - Breakthrough. I can see students really flying through their courses with perfect duplication of Tech.

News From Arc

CLEAR 3000 !

Chick Corea found out about Scientology in Feb. 1970 at Scientology Mission in Greenwich Village. After he had had five hours of auditing he decided to go Clear. He received his auditing up to Grade IV at the Greenwich Village Mission.

He was at Saint Hill for 6 months where he got his Power Processing and did Solo. He did most of his Clearing Course in England. He then came to Los Angeles to finish Clearing.

There was a certain point where I would have given up the desire to produce high quality music. Clear helped me put creative music in perspective to other people - more real - more effective."

Chick is a self taught musician from New York. He has been playing music since 18 and is now 30 years old. He's a jazz musician - prefers to be called "musician", though. The piano is his instrument. He has played with top stars like: Miles Davis, Stan Getz, Sarah Vaugh. He has five recordings under his own leadership out in distribution. He has recorded for record labels like: Atlantic, United Artists, and ECM. ECM is a German label. One record on ECM, entitled "ARC" is selling quite a few records in Europe and is quite popular.

Chick has been on television a few times with Miles Davis; quite a lot on radio "talk shows" talking about music and Scientology.

He has his own group and is presently involved in getting his own music known around the world. Of his music, Chick commented, *"It opens new areas for the development of improvised music."*

Of Clear itself Chick said: *"It helped me locate what I wanted to do. I learned about the mind which helps me deal with people 100 times what I could do before Scientology".*

Chick's Clear Success:

"I've just attested to Clear. It's a fantastic feeling to know that I'm no longer my own obstacle. It's such a stable consistent feeling. My love and thanks to all on staff who helped so beautifully and especially to Ron."

He has now completed OT I and has returned to New York to do the Hubbard Standard Dianetic Course at a local Scientology Mission.

After completing his HSDC, Chick has plans to complete the Saint Hill Special Briefing Course and at the same time audit his OT Levels up to OT VII.

Clinical Psychologist Becomes Scientologist

"I am Dr. David Groberg, PHD and through Scientology I am solving problems which seemed unsolvable just a few months ago."

This sentence is an introduction to a man who has found answers, both in his own life and now, in the lives of his patients.

Dr. Groberg states, "Ten years ago I decided to become a clinical psychologist. I spent five years in graduate school. I must admit I ended up with more questions than I did answers. Many of the existing therapies were just an experience with no real relationship to day-to-day problems. What people, and myself, seemed to want, was a way of gaining more personal meaning, self understanding, and being more creative and capable. Unfortunately, it became increasingly evident that there was no real technology in the field of "psychology" for handling the disabling and unwanted feelings and reactions which occur when people interact.

"It was at this point in my life that I discovered and began studying the philosophy and writings of L. Ron Hubbard. Here I found a well worked out and very effective technology which provided real solutions for handling unwanted human conditions and for developing the capabilities of the Human spirit. I found uniformly positive results when applying the technology to myself, my family, or my clients. I read most of Ron's books, and took courses at the Santa Clara Mission culminating in becoming a Hubbard Dianetic Graduate. I have completed up to Grade IV and am now on Level I of the Saint Hill Special Briefing Course.

I am applying Scientology tech because the training of therapists in our universities is lagging further and further behind the mounting national need of those with severe personal and family problems. There is little in all the theories and practices taught in universities which is even close to a science or technology of mind, and there is little available to make the able more able. Dianetics, for example, is easily taught and easily applied and a very effective way of handling that part of the human mind which is over reactive and unwanted."

David plans on being Class VI then on to OT I and then on up through the OT levels. He also plans on going back to Los Gatos to form a Church of Scientology (Org) and school in the Santa Cruz Mountains.

David has given up psychology totally and is now the Director of the Los Gatos Mission.

SUCCESSFUL WRITER AND PHOTOGRAPHER

As a young girl, Cam Smith was raised in the heart of the mountains and lived a life roughly equivalent to the pioneers. She grew up building a fire every morning, baking bread and then catching horses for transportation.

Raised on her parents ranch above Auberey near John Muir Trail, the mountains have been her whole life.

In 1968 Cam entered Scientology and immediately began applying Ron's study tech to her teaching career.

"Thirty third-graders now have an understanding of the Communication Formula and use it in coaching teams with much success. In one semester the class surpassed standards in reading and mathematics and as a group made outstanding scores on the city-wide Stanford Reading Achievement Tests recently given.

I applied everything I could from Ron's study tapes and gave them a balance between mass and significance. New vocabulary was demonstrated with crayon drawings and clay, and acting. Math was done with drawings and clay. Students became masters of the times tables by coaching each other using clay cubes, and understanding math and not memorizing numbers.

Spelling and vocabulary was learned in coaching teams... Using a patter... "What is the word... Thank you... What does it mean... Thank you... How do you spell it... Thank you..." Flunks were quickly given for a wrong answer and corrected right then. There was no problem with noise having 30 children coaching each other at once because we had spent time drawing how the communication pattern for the class would look, and students were proud of their ability to intend their communication line exactly to their partner. During coaching times a couple of the best student coaches would move around the room listening for the best coaching going on.

I think the most important piece of Scientology I used was the value of acknowledging. I acknowledged students a lot and they got a lot of group acknowledgement. It was interesting for me to notice that everything I did with the class which worked well was using a Scientology principle.

During the time I was teaching I went Clear and OT I and teaching suddenly became a real pleasure and the flow with the class was wonderful. We started out every day with Locational Processing for a few minutes... "Look at the board... thank you, Look at your desk... Thank you, and did some OKs and Hellos. There were many Thetans in present time, and it was fun."

Part of Cams talent is best expressed in her new book Notes from the Mountains. . . In this book she effectively combines verse and photos that shows her appreciation for the wilderness.

"Pale air rising from the valley, and the land grows dark at night and stays dark at dawn. Tragedy of this earth, I've carried you like my own. When your rivers turned brown it was my face, when your forests were cut and burned it was my hurt . . . burning on my skin."

Having completed OT III Expanded, Cam is now in training on Level V of the Saint Hill Special Briefing Course. She says of her Scientology training "Training is a thrill to get". I am interested in seeing Tech applied in many levels of society."

Cam plans on continuing her writing and photography.

Her future plans include getting fully trained and getting Scientology tech into the fields of education as well as many other areas.

A DREAM COME TRUE

On June 9th, Bill Briggs a Scientologist from Jackson, Wyoming, successfully achieved what has been called the impossible - the first descent of the 13,770 foot Grand Teton on skis.

Briggs also had a back-up party with him which consisted of Robbie Garrett, George Colon and John Bolton.

The 4 men left camp at 5:30a.m.,heading up the route planned for the descent. Garret intended to accompany Briggs on the ski descent, and the others were to climb, carrying some of Briggs equipment and breaking trail and come down the regular route without skis.

Upon reaching the couloir adjacent to the Otter Body Snowfield, the rest of the party decided it was too hazardous and turned back. Briggs, however, thought, "It seemed a shame to turn back".

Briggs began the climb up the steep top snowfield alone, taking 3 steps at a time and then stopping to catch his breath. He started down about 2 pm.

The top slope at 45 degrees made him " a little uneasy ", Briggs said, as well as an overhanging cliff at the foot of the slope, which he noted "would be difficult for anyone to handle."

On this steep snowfield he had the first of three falls, flipping over quickly and getting his skis beneath him.

Breaking through the soft snow, Briggs said he started small avalanches with each turn, causing snow to spew sometimes 10 feet in the air.

"It was just an incredible scene", says Briggs.

About half way down the Stetner Couloir Briggs encountered a large chock stone which blocked his route. With skis still on he made a 150-foot rappel then skied down in haste, taking another fall which he described as his worst moment during the descent.

By 6 pm he had completed his exciting adventure down the Grand Teton.

The success of skiing the Grand Teton has long been Briggs dream.

As Briggs says, he had very little fear. Thanks to the Scientology tech - it made it easy.

Briggs has been in Scientology for years now and is OT III and is on the HSDC at Scientology Jackson.

His future plans consist of taking the Saint Hill Special Briefing Course and completing the OT Levels up to OT VII.

MANAGER OF "THE INCREDIBLE STRING BAND"

Vital to the popular Incredible String Band's continuing successes is their manager and one of the world's most recent Clears, Susie Watson-Taylor. Handling virtually all the group's admin in her quietly precise way, Susie has this to say about the effect Scientology training and processing has had on her job, "My speed of handling as regards the business hat has increased double! My handling of problems that occur, likewise. My own tone level is usually high enthusiasm,especially in the hat, which I really dig so much more now that I know how to apply and use my data."

Susie, a Londoner by birth, originally got into Scientology "through knowing a Scientologist who was really there for me and really validated me as a being".

She did the HAS Course in London in April 1970 after which she had auditing in London, in New York early in 1971, at Celebrity Centre and at the Advanced Organization Saint Hill United Kingdom, where she came for Power Processing July of this year. Then came the Solo Course and, now, Clear.

What does managing the String Band involve? "Well, it means dealing with the record company for new records, sleeves, promotion for tours; the lawyer – hopefully not intended, the agent who gets us the jobs (i.e. approving ones he gets, blowing the ones we don't want), the accountant to see if all bills are getting paid and how much in the bank, dealing with the sound man and road manager for actual tours, itineraries, new sound equipment, etc., working with the Band themselves to tell them exactly what is needed and wanted from them as far as when they are touring (I don't mean creative output, I mean the amounts of work, etc.), also keeping the Band fully up to date as far as what is happening in every area.

And being there as a safe terminal for the band, through which they can get what is needed and wanted for them. And being there in an advisory capacity to help them make decisions or whatever."

A lot of doingness by any standard, yet Susie is making the time to come back to Saint Hill in December to do the Dianetics Course "because I really want to be an auditor too and return the flow and see other terminals receive the tremendous wins I myself have received." And after finishing OT I, before leaving for another String Band tour, she said, "Anytime the hat allows it, I will be back at Saint Hill doing more OT Levels."

Having had fantastic, stable gains from her training and processing to date, Susie knows there is yet more expansion ahead for her. "Being a Scientologist is the most amazing experience I have ever had. . . and it is the only way."

ACTIVE FIELD AUDITORS

As L. Ron Hubbard has often said, "Auditing is a team activity", Valerie Weiss HSST, Neil Brown Hon. Class VI, HDG, Ellen Griffin Class VI, and Chris Davis Class IV are active professionals who have found many benefits to their joining together. They remain independent field auditors disseminating Scientology and auditing their preclears.

Each weekday morning the group gathers at Valerie's home at 909 S. Bonnie Brae St., Los Angeles, for a "Training Breakfast". A bite of food, coffee and an occassional swim compliment a C/S conference and rigorous study and checkout period.

Training folders are kept for each auditor. All flubs or uncertainties require immediate retraining of that auditor until full confidence and flawless application are regained. This insures quality service and high morale. The success of this system is reflected in the proud report – 100% FN VGI's at the Examiner this past week.

There is a programming by-mail service. PC folders are sent to Valerie for summary and programming then returned to the auditors for the auditing. This fulfills a need in areas where HSST programming has not been available to auditor or preclears.

The ultimate benefit these team auditors gain is that organization as a 3rd dynamic activity provides them with Standard Administration which is often missing from field operations. Because of this each auditor gets more auditing done. The time gain is reflected also in other Scientology projects that team members are working on.

Neil, auditing since 1954, is also a member of the Methodist Clergy and is active in bringing Scientology's counseling technology to other Clergy of Los Angeles and Santa Barbara.

Ellen, whose main practice is in Santa Barbara, has written booklets on education, now awaiting publication. She is well known as a Co-Foundress of the Double Triangle S Ranch School. She says, "The personal in-depth handling of each person's case is what is expanding our practice".

Chris is also a Mission holder active in varied Mission activities as well as the arts and maintains two boarding houses for Scientologists in Los Angeles.

Several of the preclears have formed their own project for a Center for the Arts in their town. And at this time the team has about a dozen persons on training lines.

The team is already expanding as other auditors join and align. There is now a PRO who helps with orientation of new Scientologists, and a Class VIII who does Exteriorization Repairs. Each team member is realizing his and her purpose to stabilize and expand professionally, contributing dynamically to clearing this planet.

Definitions

ABERRATION - Irrational or deranged behaviour or thought on, or about, a specific subject or subjects resulting from the influence of the Reactive Mind upon the individual in relationship to that subject or subjects.

ACADEMY - Refers to the Academy of Scientology where training on Dianetics and Scientology levels are delivered. Each Church of Scientology has an Academy.

AUDITING - the application (by a trained Auditor or Scientology Minister of Scientology) of Dianetics or Scientology procedures to someone for that person's remarkable betterment.

AUDITOR - A Scientology Minister, a pastoral counselor who listens carefully to what people have to say. An auditor is a person trained and qualified in applying Scientology processes to others for their betterment.

BANK - A colloquial name for the Reactive Mind. (This is what the procedures of Scientology are devoted to disposing of, for it is only a burden to an individual and he is much better off without it. A Clear has no bank.)

CASE - The way a person responds to the world around him by reason of his aberrations.

CLASS - CLASSIFICATION - a gradient classification system for auditor levels. Levels so far released are numbered from O to IX. CLASS VIII: Auditor who has the ability to handle all cases to 100% results.

CLEAR - a person who can be at cause knowingly and at will over mental matter, energy, space and time as regards the First Dynamic (survival for self). The state of Clear is above the Grades of Release O - VI (all of which are prerequisite to Clearing) and is attained by completion of the Clearing Course at an Advanced Organization.

COMM LAG (Communication lag): The time it takes for a preclear to give an answer to a question that the auditor has asked him, regardless of whether he is silent until he gives the answer, or has been talking in the interim. Also applies to the delay between the giving of an auditing command by the auditor and the execution of that command by the preclear.

COMMUNICATION - The interchange of ideas or objects between two people or terminals. More precisely, the definition of whether he is silent until he gives the answer, or has been talking in the interim. Also applies to the delay between the giving of an auditing command by the auditor and the executive of that command by the preclear.

DIANETICS - means through thought or mind.

DYNAMIC - the urge, thrust and purpose of life - SURVIVE - in its eight manifestations.

E-METER - the Hubbard Electrometer is a religious artifact, used as a spiritual guide in Church confessional process, and is not intended, effective or ever to be used for attempted diagnosis, treatment or prevention of disease. The E-Meter measures the mental state of a person and the change in that mental state as a result of Scientology or Dianetic processing.

F/N - FREE NEEDLE (FLOATING NEEDLE) - This is a needle manifestation of the E-Meter of great importance, as it indicates the preclear has reached a state of Release and is the end point of any process. A free needle moves in an idle uninfluenced motion. It appears to float.

GRADATION CHART - is a map of expansion of life, showing at each level the realization of a greater potential.

GRADE - an award made to a preclear in the form of a certificate for having attained one of the eight states of Release or the state of Clear.

HAS - Hubbard Apprentice Scientologist, the name of a basic course in Scientology, which teaches the fundamentals of Communication.

HASI - Hubbard Association of Scientologists, International, a religious fellowship.

HAT - Slang for the title and work of a post in a Scientology Organization; taken from the fact that in many professions, such as railroading, the type of hat worn is the badge of the job.

HSST - Hubbard Scientist of Standard Technology.

LRH - L. Ron Hubbard - FOUNDER of Scientology and Dianetics.

OT - OPERATING THETAN - a Clear who has been familiarized with his environment to a point of total cause over Matter, Energy, Space, Time and Thought.

PAB's - Professional Auditors Bulletins

PRECLEAR - PC - one who is finding out more about himself and Life through Scientology or Dianetic Processing and who is not yet "Clear".

PROCESSING - that action or actions, governed by the technical disciplines and codes of Scientology, of administering to a preclear a PROCESS, which is a set of questions asked by an auditor to help a person find out things about himself or life.

P.T. (PRESENT TIME) - That which is now and which becomes the past almost as rapidly as it is observed. It is a term that refers to the environment as it exists now, not as it existed; as in the phrase "the preclear came up to present time!!!" meaning the preclear became aware of the existing matter, energy, space, and time of now.

RELEASE - a person whose Reactive Mind is not influencing him. There are "Grades" of Release, each of which is a distinct and definite step toward greater levels of awareness and ability.

SCIENTOLOGIST - One who knows he has found the way to a better life through Scientology and who, through Scientology books, tapes, training and processing, is actively attaining it.

SCIENTOLOGY - an applied religious philosophy, dealing with the study of knowledge, which, through the application of its technology, can bring about desirable changes in the conditions of life.

SHSBC - Saint Hill Special Briefing Course.

TECH - TECHNOLOGY - The methods of application of an art or science as opposed to mere knowledge of the Science or art itself.

TERMINAL: Anything that can receive, relay or send a communication (most common usage); also, anything with mass and meaning.

THIRD DYNAMIC - is the urge toward survival through a group of individuals or as a group. Any group or part of an entire class could be considered to be a part of the Third Dynamic. The school, the club, the team, the town, the nation are examples of groups.

THETAN - the person himself, not his body, name, mind or anything else; that which is aware of being aware; the individual himself.

TONE SCALE - A scale measuring and relating the various factors of behaviour, emotion and thought to levels on the scale.

VGI's - Very Good Indicators - indicators which tell an Auditor that a person is winning and achieving the expected good results of training or processing.

WORD CLEARING: A process by which all a persons misunderstoods get cleared up.

BECOME A FLUBLESS CLASS VII AUDITOR

Do you want to be able to Audit TOTALLY FLUBLESS? The Class VII Course develops any Class VI Auditor into being a totally flubless Auditor. PRECISION is the Keynote.

As LRH says "It was Class VII where he became an Auditor".

The Concentration of Class VII is on Total Perfection, Flawless and Flubless Performance.

This fantastic course takes from *three* to *six* weeks.

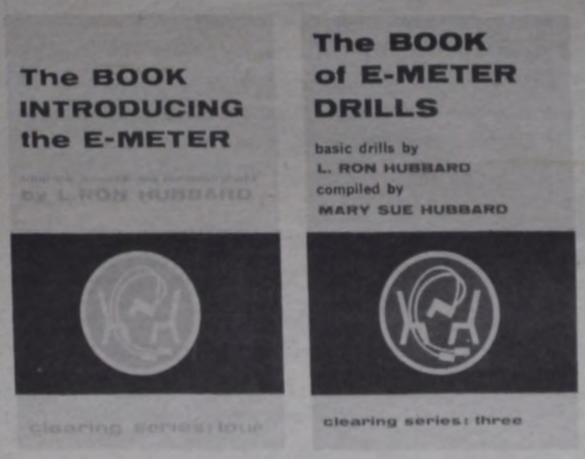

The prerequisites for the Class VII Course are Provisional Class VI, HDG, and the Student Hat Course.

The tuition fee is $775.00 less 5% by sending your full payment well in advance. The price for a Class VIII graduate or person enrolled on the Class VIII course is $385.00.

GET YOUR E-METER SERIES

These E-METER books are essential in learning how to use an E-Meter successfully.

THE BOOK INTRODUCING THE E-METER is the beginner's first familiarization with the use of the Hubbard Electrometer. Fully photo illustrated throughout.

A quote from LRH on the Book of E-METER DRILLS:

"This booklet contains all the standard E-Meter drills used in training in Scientology. There are no other drills. Many have been developed from time to time and have proven less workable and useless. These drills have been of the greatest possible value".

FOCUS ON SUCCESS

I never really thought the course admin was too important until I got on the Hubbard Professional Course Supervisors Course, where the course admin is really great. He keeps all the materials there, neat, in place, available for immediate use. He really works at it too! It speeds up the flow on course, because there's no comm lag in getting things you need.

Denny Chipman

Standard Administration makes it possible to deliver. This morning I took an overloaded in-basket that looked utterly unconfrontable and by handling each particle on policy and rapidly it was done in no time.

When I was done I had exactly the data I needed to get my products out.

Ruthie Weissburg

Having a standard Course Admin really helps you to fly on course. It provides stable data around which you can conduct your study. When the admin lines are clean, there is very little trouble in locating where you're having difficulty. The environment stays safe and it enables you to spot the outnesses in your study tech; then getting them handled easily.

Bruce Rigney

The successful administration of any organization depends on clearly defined purposes and products, and certainty on how to get a product produced. Word Clearing Hatting and Apprenticeships are making Standard Admin a reality. I see it everyday on post. We have the tech of Standard Admin and it's all based on doing what Ron says because Ron has done it all already.

John Mustard

Standard Admin really works when exactly applied. The principles of Admin know-how laid out in HCO P/Ls can be effectively and standardly applied to a course to raise stats in both quantity and quality and thus ensure viability of a course and ultimately of a whole org.

And supervising the Org Executive Course using Standard Admin, and Supervisor tech one is ensuring that Standard Admin will spread throughout Scientology to bring rapid and stable expansion.

So, the planet is in our palms, and it takes Standard Admin to grasp it and control it fully.

Don Buss
