RELEASES Different Kinds

by L. Ron Hubbard

See DEFINITIONS on page 2 for any unfamiliar Scientology words.

There are different kinds of Releases.

When one of these is attained the next one up can be run.

The states of Release differ in that one is more stable than another. The degree and relative permanence of being pulled out of the Reactive Mind determines the state of Release.

They all have the similar meter phenomena; floating needle and on or near clear read on a calibrated E-Meter.

There is the plain First Stage Release. This occurs in auditing up to Grade IV. It is not very stable. The person is ***very*** well off and definitely a Release. But he or she can now postulate and in postulating sometimes gets into the R6 Bank, [section of the Reactive Mind handled at higher levels]. The First Stage Release is eased out of the bank but subject to call back.

Then there is the Power Process Release. This is ***very*** stable and should be called a Second Stage Release or a Power Release to be technically exact. You can run only Power Processes on a First Stage Release. These knock out all factors of the ***track*** that force a person back into the R6 Bank and leave the person able to go into or get out of the R6 Bank easily. This Second Stage Release is definitely Homo Novis. The person ceases to respond like a homo sapiens and has fantastic capability to learn and act.

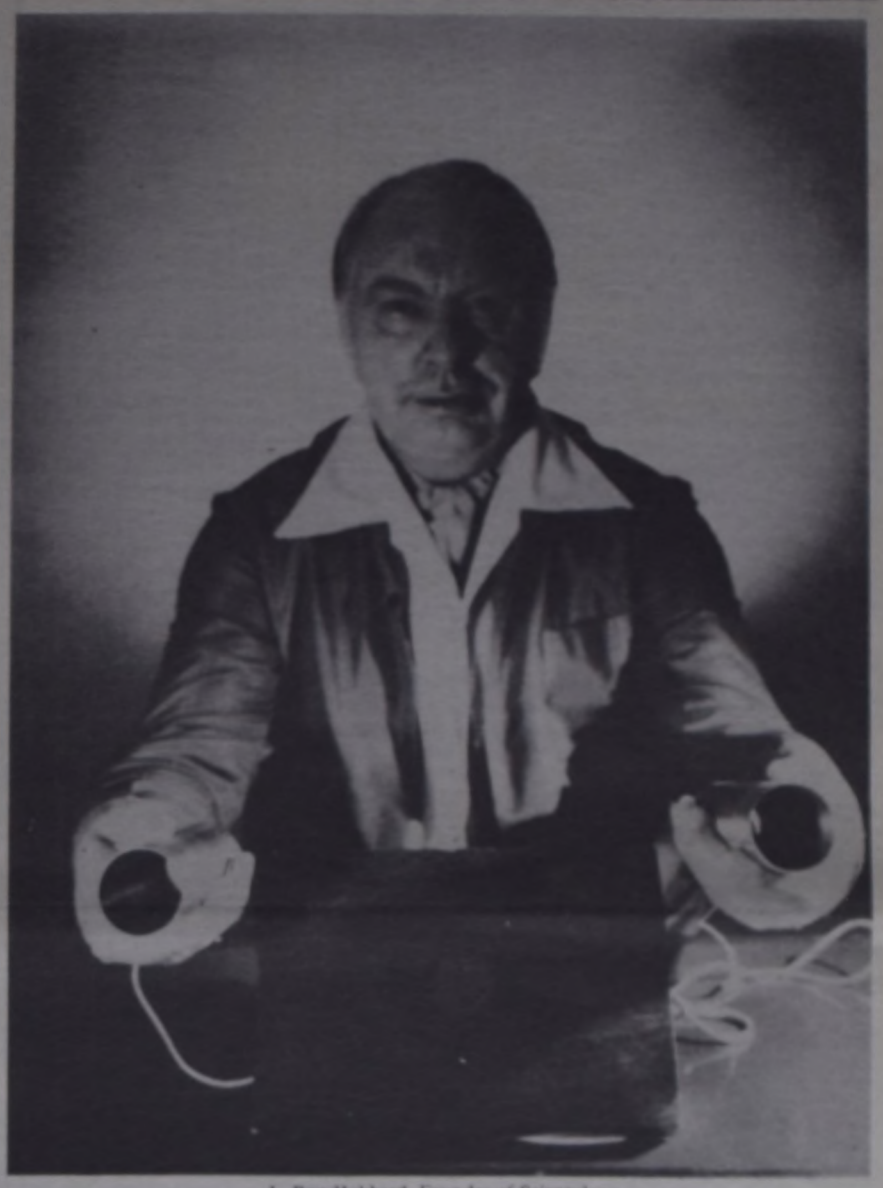

The Third Stage Release is an improved Second Stage Release in that ***selective*** areas of learning are handled to return special skills to the person. The case state does not necessarily improve but certain zones of knowledge have been polished up.

There is another state near that of Release. This is a Keyed-Out Operating Thetan. At this time it occurs sometimes by accident in Power Processing. The preclear is still a ***pre*** clear though a Keyed-Out O.T. This really isn't a Thetan Exterior. The Thetan Exterior is quite unstable and can be attained below an ordinary First Stage Release.

A real Clear is of course on the other side of the Reactive Bank and above all these states. It is completely stable. One needs to know how to audit to get there.

A real Operating Thetan is of course a Clear who has been familiarized with his environment to a point of total cause over Matter, Energy, Space, Time and Thought.

This accounts for all states of being discussed in Dianetics or Scientology. They are all attainable and only one, Keyed-Out-O.T., is not done by routine auditing, being an offshoot of it that happens sometimes. The First Stage Release is as high as we got in Dianetics, so you can see we are five states of being above where we first arrived.

L. Ron Hubbard, Founder of Scientology

We are doing these today on a routine assembly line basis on all cases. Scientology Churches do a lot of First Stage Releases. Saint Hills are doing Power Releases and moving people up to Clear through Saint Hill training.

A lot of cases would have to spend a lot more time on Power Processing if they weren't already successfully processed in Grades 0-IV.

The majority of cases even when trained, will not be able to go Clear without being Released.

And of course nobody is going to go O.T. before they have been Audited, Released, trained and cleared, all of which are currently standard actions in Scientology today.

Regain the ability to handle your own Power

Take your next step to Freedom and OT ability

Power Processing is a fantastic expansion of a person's ability to handle his own power.

It is the Grade IV's next step toward Clear and O.T.

Power Processing releases a person from hidden barriers and produces a being who has true certainty on his abilities and who can handle life at a much higher cause level than before. Power validates the being, giving him greater certainty on himself with a whole new awareness and freedom in life, of immense value to the individual.

As the Power Processes were developed long before expanded grades or extensive life repair, they work with full effectiveness on any Grade IV (First Stage Release). Power Plus (Third Stage Release, Grade VA), is further stabilization for the Grade V (Second Stage Release).

You don't have to wait to get your Power. Service at the New American Saint Hill is fast and very friendly.

Power is given effortlessly by very highly trained auditors under the direction of the most highly trained Case Supervisors in the world. Power requires no training on your part.

Grades V and VA: $1200. Less 5% discount on the advance payment plan, $1140.

about getting your Power now.

ANY GRADE IV CAN GET POWER

If you're a Grade IV Release now, you can get your Power now, at the New American Saint Hill in Los Angeles.

It is on the Grades, 0-IV, then V and VA, then VI, Clear and up the O.T. grades, where the real gains for you as a being are made. On each grade, certain barriers to your freedom and ability are lifted. As soon as you are released on each grade, you should take your next step as soon as possible.

The least expensive way to get your auditing is by getting trained to apply the processes to others, then co-auditing with fellow students. You do this at your local Church of Scientology, beginning with Dianetic counseling, which is used to free an individual of unwanted psychosomatic pains and misemotion. Next is Level 0, communications, where you learn to produce an ARC Straightwire (recall) and Grade 0 Release, one who can communicate freely. Level I deals with problems, and you learn to produce a Grade I Release, someone who no longer is troubled by problems. At Level II the individual becomes willing to be cause without fear of hurting others. At Level III you learn to free a person to face the future and experience changes. At Level IV you free another from fixed conditions in his life, so that he can learn to do new things. At each level, when you can release another on that subject, you become an auditor of that Class number. (Grade refers to processing, Class to the level of training needed to deliver that processing up to Class IV).

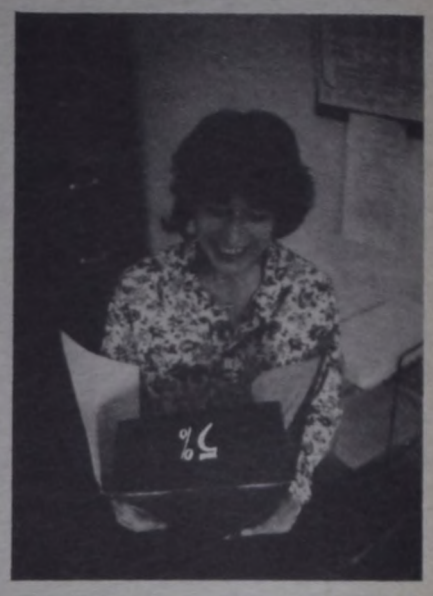

Then, when you enroll on the Saint Hill Special Briefing Course, Levels V and VI, you are awarded a 50% discount on your Power Processing, your own Grade V and VA. Power is only delivered by highly trained Class VII auditors in New ASHO's Hubbard Guidance Center, as it requires the greatest precision on the part of the auditor.

On Grade VI you are your own auditor and the materials on how to do this are usually awarded at no cost to the Briefing Course graduate. You then enroll on the Clearing Course at the Advanced Organization and then do your O.T. levels.

For those who prefer to get their lower grade auditing by more experienced professionals than fellow students, auditing may be obtained at an hourly donation at your local Church of Scientology.

Write the Letter Registrar at the New American Saint Hill, 2723 West Temple Street, Los Angeles, California 90026, for help in taking YOUR next step right away.

An expert on the channels available to you, the Letter Registrar will help you reach Clear and O.T. FAST.

Jerrye Albert opens her advance registration packet with delight.

MAKE YOUR ARRIVAL MORE REAL WITH ADVANCED REGISTRATION

To make your arrival more real, to make it happen sooner, you should sign up for your next levels as far in advance as possible.

You will be mailed your special Advance Registration Packet with all sign-up papers and information about Los Angeles. You make your reservations by following the directions in the packet.

"I really went out the top while filling out those forms," writes Jerrye Albert, Grade IV and HDC from Los Gatos, California. "Although they are only MEST particles, completing them made my needle float, because of the ultimate purpose—Power and Power Plus." Jerrye will be arriving at the NEW ASHO for her Power soon.

WHY A RELEASE SHOULD TAKE HIS NEXT STEP

by L. Ron Hubbard

Once a preclear has begun to come out of his bank, he either continues to come out or goes back in a bit.

He (or she) does not remain in status quo (unchanging state) while a Release.

A First Stage Release often pulls further out to First Stage Released O.T. after processing. [A Release who has not only been released from certain parts of his reactive mind but also from his body.]

Similarly a Second Stage Release may become a Second Stage Released O.T.

In their understandable enthusiasm—they feel so ***much*** better and bigger and stronger—a release sometimes seeks additional acknowledgement by requesting a further release check.

A preclear who has attained a first stage can go First Stage Released O.T. but cannot possibly go Second Stage without Power Processing. In short, one can't upgrade ***stages*** 1 to 2 etc. without the actual processing.

Why? Because a key out is just that, a key out. Just because one no longer has a tiger in his lap does not mean the tiger has vanished. He's merely stepped out into the hall. In the course of life somebody is going to leave the door open. The tiger won't come back into one's lap but he'll sure sit on the rug and sneer. Key out means there's still a tiger. Release means he's away. One First Stage can be more released than another First Stage. The tiger is further off.

But when you start upgrading numbers (1st, 2nd, 3rd, etc.) you are talking about ***less*** tiger.

There's less ***bank***.

First Stage removes a few tiger whiskers and the sneer. That's the locks going. The tiger is near or far—that means more or less First Stage, it doesn't mean there's less tiger.

Second Stage ***removes*** the tiger's misemotion and his ***front*** claws. The tiger can now be near or far—but he is that much tiger. He can be so far away one is ***sure*** he has vanished. But he's just far. He remains that much tiger (minus whiskers, sneer, temper and front claws), he just isn't evident.

Third Stage pulls the tiger's ability to paralyze one's wits. In effect Third Stage removes impediments to one's ability to know. The tiger, though now minus whiskers, sneer, temper, front claws, and the ability to paralyze is still about. He may at this stage walk off so far that one is positive there is no more tiger. But it's early to break out the champagne. Maybe he won't be back for years, even centuries, but he still exists.

Fourth Stage Release removes the tiger's claws all about and blunts his teeth. And causes him to hide in closets. But though he hasn't whiskers, sneer, claws, or his frightening effect, or the old sharpness, he is still a tiger. One can gambol about in the sun cheerily, feeling quite sure there is no tiger at all. Only the ***locks*** on the R6 bank are gone. That R6 bank is still there.

At this stage the pc feels he can move mountains single handed and is given to chest thumping. That he still depends upon a body gets overlooked.

But ahead of him is the BIG job. There is still a tiger. This tiger if not vanished utterly will sooner or later creep up and eat up the goodies.

So one has to handle Mr. Tiger once and for all, run the total R6 bank and become a Fifth Stage Release.

Now, and only now, with a bit of reorientation can one be CLEAR. No more tiger. He is not near or far. He doesn't exist. And one can go on for the trillions.

Early on my pcs went keyed out clear and went away. They stayed that way a long time.

They were sure they had attained the zenith.

Today we are going to have the ***same*** problem.

A Release is going to feel ***sure*** he has gone up in number of Release when it's only the tiger out for lunch.

I am the last one to throw cool water over anyone's head about Release. But I have a passion for stating truth as I know it when I know it. You can always depend on that. It's not always popular but it's honest.

Therefore these are the only ways to go ***up*** in number as a Release.

To obtain FIRST STAGE RELEASE, one must have had lower grade auditing of some sort. This removes the ***locks*** (the distressful moments of life) off the Reactive Mind. As these pinned one to it, one can now get out of it.

To obtain SECOND STAGE RELEASE, one must have been run on the highest of the Power Processes. This gets rid of the secondaries (misemotions and upsets) and the engrams (moments of pain and unconsciousness). And as these pinned one to the Reactive Mind one can now move out of it and isn't so likely to go back into it as he has no secondaries and engrams to call him back.

To obtain THIRD STAGE RELEASE one has to tackle the beings, places and subjects one has long detested. And when these are gone one isn't likely to be called back into the Reactive Mind very soon as bits of his daily life don't remind him of beings, places and subjects he once detested.

To obtain FOURTH STAGE RELEASE one has to take the lock end words off the R6 bank. He has to be an R6 Auditor himself to do this properly. With these gone, the R6 bank is left on its naked basics and one can be very free of it for quite a while.

But now we are down to the concrete and bedrock.

To obtain a FIFTH STAGE RELEASE, one has to have run out the whole remaining Reactive Mind. We are awfully lucky to have the combination to the vault as it's been shut thoroughly for the trillions. And I assure you

(1) It can be done and

(2) It was pure hell going it blind when I was trying to find it. It took several years and thousands of hours of research auditing to just find the pattern of it.

Now understand, at each of these stages one has to go unrelease to make it to the next stage of release. This requires guts—and faith. One is feeling GRAND. The world is beautiful. The unbrave get nervous at the thought of diving back into the asphalt or, to keep our metaphor, about deliberately whistling up the Tiger—"Here Tiger! Here Tiger! Come out wherever you are!" So a way that is cooked up to avoid this further combat is to pretend an upgrade in number of release without the hard work and scratches necessary to honestly achieve it.

Add to all this that one has a present time, and a body to receive the slings and arrows and one sees that it is a complex picture.

But we have the way. It ***is*** the way.

You have then a series of gradual keyouts. Now at any given one of those keyouts the individual detaches from the remainder of his Reactive Mind. But there is the next section that you could attach him to and get him to tackle, and you better had sooner or later because life's going to connect it with him anyhow. If you don't, life will.

Many will come along selling the frightened the idea one can leap up through the numbers without pain or toil or auditing by flexing one's chest or eating wheaties or praying. But that isn't the WAY. There's no bridge there.

The main point that will be stumbled on is this: Nobody has any real reality on how high up these states are or how utterly tall Clear really is.

But there IS a Bridge, and if you're going to go across from where you are now to where you want to arrive—well, you go across ***ON THE BRIDGE.***

Ron's recent work
EXPANDED DIANETICS

On Flag in April of 1972, Ron formed a small team of auditors, the Expanded Dianetics Team.

Under Ron's brilliant case supervision, these auditors helped pilot the new development of Expanded Dianetics.

Expanded Dianetics is that branch of Dianetics which uses Dianetics in special ways for specific purposes.

It uses Dianetics to improve specific areas of personality for each preclear, and is run directly against personality test graphs. Expanded Dianetics is not the same as Standard Dianetics as it requires special training and advanced skills.

Standard Dianetics continues to produce great results in its own field of application. The main difference between these two branches is that Standard Dianetics is very general in application while Expanded Dianetics is very specifically adjusted to the preclear. Expanded Dianetics produces a very sane preclear with his particularly heavy physical or spiritual problems handled. (Any organic physical problems are of course handled first by a medical doctor.)

A very good Dianetic and Class IV Auditor or Class VI Auditor can be specially trained to run Expanded Dianetics. The class level attained is Class IVa, and the certificate granted is Hubbard Graduate Dianetic Specialist. The Expanded Dianetics Course is offered at Continental Churches, The Church of Scientology of Los Angeles and the Founding Church of Scientology in Washington, D.C.

"Narconon is the ONLY successful drug rehabilitation program on the planet. It is being recognized as such." L. Ron Hubbard

DEFINITION OF NARCONON:

Non–absence of

Narcosis–state of stupor or insensibility.

NARCONON means the absence of stupor or insensibility, non-stupification.

The goal of Narconon is to enable all those individuals who have attempted to find freedom through drugs, crime or social revolt to find it by increasing their abilities and responsibility level instead. Narconon provides a path to freedom through responsibility.

HOW NARCONON BEGAN

William Benitez founded Narconon in February of 1966 in the Arizona State Penitentiary. Born in Tucson, Arizona, in 1934, he began his 19 year struggle with drug addiction at the age of 13 when he smoked his first marijuana cigarette. He went through two marriages, both ending in divorce, and served a total of 13 years in Federal and State prisons. His long confinement led him to read widely in psychology and related fields.

The intense, soft-spoken founder of Narconon describes his feelings about finding Scientology: "For 19 years I tried to get off of narcotics. My failure wasn't due to my not wanting to, because believe me I really tried. I studied anything and everything I could get my hands on to try to find out about myself. I even underwent psychiatric aid and participated in all sorts of programs, but as time went on I knew less about myself instead of more. The only thing that kept me from putting a gun to my head was that I knew someday I would make it. It was a straw–but I clung to it.

"On my last trip to Arizona State Prison, I was tried as a habitual criminal, whichcarriesa mandatory sentence of 15 years to life, of which I received 15 to 16 years.

"I've always been a fighter but at this point I began to wonder if maybe I shouldn't end it all. Then one day a friend gave me a small 65 page Scientology booklet, **Fundamentals of Thought**, by L. Ron Hubbard. I figured I might as well read this one, I'd read all of the other 'ologies.'

"It was then that it happened. I thought to myself, 'Wow, this man has said more in this one booklet than all the authorities have said in all the texts that I've read.' Nothing was written about drugs or law . . . yet right then I knew that I was on my way to *freedom from drugs and freedom from prison.* Incidentally, after I established Narconon, I found that my sentence was illegal and the courts released me.

"All this happened because I located a technology which allowed me to step into CAUSE."

Within the walls of the Arizona State Penitentiary, on February 19, 1966, 20 addicts united together in their quest for total freedom from their life-long addictions.

The group began a correspondence with the Church of Scientology on the outside. Using the technology and discoveries of L. Ron Hubbard, with some help from trained Scientologists from outside the prison, the inmates of NARCONON embarked upon one of the most significant contributions this century has seen.

In 1969, Arthur Maren, then Deputy Guardian for the Western U.S., became aware of the program and met with Willie Benitez. Through tremendous Church support, in materials and public relations, he set out to put Narconon on the map. During 1969 and 1970, the program began to grow by leaps due to its incredible results, and Lt. Col, Mark Jones, USMC (Ret.), a Class VIII Auditor, was appointed Director of Narconon for the U.S. Artie, also a Class VIII, continues to guide and support the program as Supervisor for Narconon in the U.S.

The demand for the Narconon program began to increase rapidly. A second program was set up in the Institute for Education and Rehabilitation in the Arizona State Penitentiary. Since the beginning of the Arizona State program, over 100 inmates who participated in the program have been released, and 86% of these have never returned to their former lives of drugs or contact with the correction system.

The third program was established in the California Medical Facility in Vacaville in April 1970 by the Rev. Vaughn Young from San Francisco. Since that time, Narconon programs have been set up in nineteen institutions in many other states and 4 other countries.

The first pilot program in the U.S. with governmental support was begun in the Delaware Correction Center on May 22, 1972, by Rev. Jim Meisler and Fred Peterson.

Community programs, utilizing Narconon courses for rehabilitation of individuals outside of prisons and serving newly released Narconon prison members, began with the Toronto "Street Haven" program in March of 1972. This has grown to programs in Los Angeles, Mexico, Connecticut and San Francisco.

WHAT DOES NARCONON DO?

Narconon now consists of a series of exercises or courses. For each, there are short lectures covering the theory, then study of the actual procedure, and finally extensive practical application of the exercises. Each exercise enables the individual to develop a new skill in handling himself and life more successfully by becoming more at CAUSE rather than at effect.

Often when a person first talks to a Narconon supervisor he communicates how he has been the effect of life and victimized–"I am here in this condition because my parents never understood me, then the teachers gave me a bad time, then the cops, now the guards...." After 8 to 10 classes, the student can begin to see what *he* has done, and so begins to know *he* can do something to change his life for the better.

"The first step in handling anything is gaining the ability to face it." L. Ron Hubbard.

The first exercise (Training Routine 0) enables the individual to keep his attention on the activity or person at hand, to face up to it, and become willing to experience another person's thoughts, emotions or reactions, whatever they are.

The second set of exercises enables the individual to communicate with others, and the third to complete what he starts in life and carry through his intentions. (Training Routines 1-4, 6-9)

The fourth series of exercises is designed to enable him to get his attention into his present time environment. As drug users have had their attention gradiently dispersed into the past and fantasy, they have become decreasingly aware of their environment as it exists NOW. When this happens, the brightness of their universes fades to a dull gray, and a feeling of vitality is replaced by a heavy woodenness. These objective exercises and destimulative recall exercises return color and life to the individual.

Next the student does the Student Hat Course, which greatly increases his ability to study. The following course is a course on ethics, enabling the individual to develop a sense of personal integrity and ethical behavior. He learns the basic principle of economics–the necessity for exchange of something one has created or produced to receive something in return. He also learns to apply for and get a job.

The end result is an ability to make things go right in life. In California, over 95% of participants who have been released throughout the state have had no further involvement with the correction system.

The "New Life" community programs of Narconon utilize the same course approach and additionally offer the Hubbard Standard Dianetics Course. Inmates who are released may continue with the Narconon program where they left off as well as have a bridge toward their new life style as free men.

STATUS OF CURRENT PROGRAMS

The U.S. Continental Narconon office has just been donated a mansion at a new address, 1229 Westmoreland in Los Angeles, Mike Armstrong, Public Executive Secretary for Narconon, explains that the continental office supervises and maintains all the U.S. Narconon programs, sees that they have sufficient funds and materials to operate. Their work also includes starting new programs and making the work of Narconon well known. Of high interest is the welfare of newly released Narconon members, and the continental office works to make sure they find jobs or start businesses and become successful in their new lives.

Don Mesaros supervises early Narconon program in Arizona State Penitentiary. Inmates are doing confronting drills.

ROUND THE WORLD WINS OF NARCONON

Narconon staff and volunteers work on the new Narconon house.

Arizona State Penitentiary, Florence, Arizona

The original program established in 1966 is still doing well. Charles Miller is currently inmate director, training Mike Leeds and Mike Benin to take over when he is transferred or released. 20 students now on the course.

Safford Conservation Center, Safford, Arizona

Established in early 1972, the program is being directed by Rick Bartky who is due for release shortly (he plans to work full time in Scientology). Seven are currently enrolled, with some of the students coming from the Federal Prison at Swifts Trails nearby.

Long Island State Hospital for Alcoholics, Boston, Massachusetts

This is a small program, for alcoholics only, established in early 1972.

Delaware Correctional Complex, Smyrna, Delaware

Since June when Barry Jaye, Narconon Deputy Director U.S., put in the program as a result of a $1000 contract with the State of Delaware, this program has been very well recognized at all levels of State Government. 24 inmates completed the communication course in 6 weeks under Barry's supervision, and they are now running the program for the other inmates.

California Institution for Men, Chino

Under the capable supervision of Sam Dorshaw, the number of attendees has been increasing weekly.

California Institution for Women, Frontera

Very popular program run by Paul Leonard, Deputy Director of Narconon Southern California. 12 residents regularly attending.

California Mens Colony, San Luis Obispo

One of the most dynamic programs. Over 100 inmates enrolled on the course. About 18 completed the basic communication course and are training to be supervisors.

California Medical Facility, Vacaville

Improving technical quality and supervision has been improving interest in this program, the first established outside of Arizona.

California Rehabilitation Center, Norco, Patton

A successful program under the able directorship of Hank Deneke and Ralph Livoni.

Youth Training School, Chino, California

Becoming more and more popular, now attracting members from all races. Counsellors in the school are very interested and actively participating. In June the school staff completed a study of the program and issued a formal report which showed that the Narconon group decreased in disciplinary offenses by 86% while disciplinary offenses of a control group of other inmates increased 109% over the same period. The vocational school grade averages of the boys in the control group rose from C to C+, while those of the Narconon group rose from C- to B-. Based on these results, the California Youth Authority is now negotiating small contracts for Narconon programs in several of the Youth Authority Institutions in the state. State records show that 100% of the Narconon graduates released from Y.T.S. are no longer involved with the correction system.

New realizations of life at Y.T.S., the Youth Training School at Chino, California.

Ventura School for Girls and Boys, Ventura, Calif.

Currently 24 enrolled, with requests from staff to put program in other areas as well.

Ville de Obregon, Mexico City

Established early 1972 and doing well. Partially funded by Mexican government.

PUBLIC PROGRAMS

New Life Public Program, Los Angeles

Five young people have been parolled to New Life from Y.T.S. and Ventura, with the state defraying their expenses. New expansion space is being found to accomodate the large number of public students waiting to get in.

Narconon Detoxification Center, Toronto

Narconon New Life Program, San Francisco

Narconon New Haven, Connecticut

Centro Juvenil, Mexico City

Dr. Emma Sanchez, prominent educator, is the Director. The Governor of the city is expected to attend a show written by the local Narconon participants in the near future.

Narconon New London, Connecticut

Pat Healy, dynamic director of Narconon in Connecticut, has opened two public programs, New London and Waterbury. At the first big graduation held for New London in October, most of the community was represented and the program received much favorable publicity.

Narconon Sixth Fleet Program, U.S.S. Page

Ron Connors, serving on the U.S.S. Page with the Sixth Fleet in the Mediterranean, is running a Narconon course for personnel on the ship. It is going very well and attracting interest throughout the ship. Roy Klemm will be taking over as supervisor in December.

NEW PROGRAMS

Bruce Peak has recently been appointed Deputy Director of Narconon for Oregon. Narconon programs are schedule to begin in December.

Dennis Crane and David Weigand are currently being briefed to start a public program in San Diego in early 1973.

Mr. Robert Batten, Associate Superintendant of Vocational Rehabilitation for the State of Arizona and recently elected President of State Vocational Rehabilitation Heads has agreed to serve as Vocational Rehabilitation Advisor for Narconon. He and the Deputy Director of Narconon for Arizona, Bill Jonson, are working to establish a number of Narconon programs in the state with the assistance of Federal funding.

The Narconon program in Delaware Correction Center, Smyrna, run by inmates since September, continues to expand. Narconon was recently asked by State Officials to provide a full time Narconon supervisor to supervise the Smyrna program and establish other programs in the state. Fred Petersen from Wilmington, Delaware, and Andy Bagley, Washington, D.C., are currently visiting the program frequently to supervise the courses.

INTERNATIONAL NEWS

In Toronto, judges are beginning to give people being tried on drug charges a choice of going to prison or doing the Narconon Program.

After being shown the results (statistics and success stories of former addicts), the Swedish government put their support behind Narconon. Stig Bjork, Narconon Supervisor in Sweden, explains, "Sweden has experienced the drug problem over many years and has been desperate for a really effective program to handle it. Narconon's presentation was so impressive and contained so many success stories of people, young and old, being completely rehabilitated that they leaped at the opportunity of assisting us in our vital work. It was as obvious to them as to everybody else that NARCONON WORKS."

MORE RECOGNITION FOR NARCONON

And indeed, recognition that Narconon does work has been coming from all quarters.

The Intra-Science Research Foundation recently selected Mark Jones of Narconon to receive the Intra-Science Community Service award for 1972. The award was presented to Lt. Col. Mark Jones, Director of Narconon for the U.S., on December 2, 1972, by Prof. Norman Kharesch, University of Southern California, President of the Intra-Science Foundation, at a 3-day conference in Los Angeles. The forum featured leading scientists from across the U.S. and several other countries speaking on the latest developments in drug abuse research.

Mark Jones himself holds a masters degree in engineering from the Massachusetts Institute of Technology, as well as his Class VIII certificate. (He is currently studying at the New American Saint Hill on weekends).

Part of the proceeds of Buckminster Fuller's latest book, "Buckminster Fuller to Children of Earth" are being donated in his name to Narconon for their youth drug program. Fuller, an architect, engineer and philosopher, describes himself as the man who is making the world work for all mankind, and is one of the most forward-looking leaders on the planet. He was assisted in the photography and compilation of the book (which is published by Doubleday) by Cam Smith, a student on the Saint Hill Special Briefing Course at the New ASHO.

The Governor or Delaware, Russell W. Peterson, recently wrote Mark Jones, "I am familiar with the Narconon program now in operation at the Delaware Correction Center in Smyrna. This inmate-sponsored drug prevention and rehabilitation program does indeed show promise, and we are encouraged by the participation we have already seen over the last several months. Obviously it is important that we combat drug abuse effectively and in a variety of different ways. You may be assured of my continuing interest in this effort." Similar letters have been received from other state officials throughout Narconon's history in other states.

THE REAL SUCCESS OF NARCONON

Here is a sampling of the kind of results that are causing this recognition.

"I started Narconon looking for something better in life. I have been in and out of jail since the age of 14. I also started using drugs about that time, and drugs have been a large part of my life. But it all became too much to bear. Through Narconon I have found something better: a new way of living, and a new way and means of understanding life. I have been able to really look at myself, and accept the need for change. Through Narconon, I have found the means by which to do it."

Emery Sowells, Youth Training School.

"I feel enthusiasm toward work now. I feel more alert and need much less sleep to function on. I feel good toward my fellow man now, because I know where he's coming from mentally. I feel good toward the universe now, because I know my place in it. I feel more content now—everything makes sense."

Allen Delk, released from the California Rehabilitation Center and doing well.

"I've had a lot of big wins since I've joined Narconon. I came in very uncertain of myself, and looking for something, I didn't know what. Now, through applying what I've learned, I am very certain of myself, both on course and on the unit. I know what I want in life, and how to go about getting it. I'm making something out of myself, and I'm proud. I never took on responsibility before I joined. I didn't really know what it was. Now, as the director of Narconon Y.T.S., I really know where it's at being responsible for myself and others."

Charlie Yates, Narconon director at the Youth Training School.

"I was a drug addict for four years. In this time I had used every drug there is. For two years of this time I was a very very heavy heroin addict. I almost died from this. But after an operation and 8 months in the hospital I was all right. I then went back to drugs. I was on them for about 6 months. Since joining Narconon, my whole life has changed. I am now able to communicate much easier with anybody. I have learned to control myself and my environment much better. I now have responsibility (which I couldn't face up to before). Soon I will be supervising a program here. Now I am a man with a goal. I am happier than I ever used to be. I don't need drugs anymore, because I am higher than I have ever been on drugs. I thank you L. Ron Hubbard and everyone helping people with Narconon." D.K., Boston.

HOW CAN YOU TAKE PART IN NARCONON'S EXPANSION?

Your help is needed to continue Narconon's expansion. Anyone who has done a communications course can help run a Narconon program. If you can't spare the time, become a Narconon member by donating funds.

Write Mark Jones, Narconon U.S., 1229 Westmoreland, Los Angeles, California for more information.

FOCUS ON SUCCESS

POWER

Bright Diana Rodewald, new Grade VA.

"Auditing up to Grade IV puts your rudiments in. Power is a step beyond that. You start reaching out, taking responsibility for other people's environments.

I know a lot of pre-Power preclears go exterior. But when you hit Power you ***continually*** have the power to be pan-determined. You go exterior to the situation you are in.

Previously I was one of those people who waited to see what someone else thought so I could be in agreement with them. Now I can set up my own postulates and get agreement on them. I've regained the power of my own opinions. I know who I am—that's the biggest single thing. I have certainty on the abilities of myself as a being.

My auditor was top-notch—she never faltered, always going straight to the end phenomena and no further.

ASHO is an exciting place because you are watching people going Clear. The other pcs are sitting there, keyed out—they know what they're handling, they know where they're going. Being one of them was one of the most exciting experiences of my life.

It's so easy to be going Clear. There is absolutely no excuse for anyone not going the whole way as fast as they can.

People may try to make themselves happy by going out in the country or something. But they're always carrying their own bank with them.

There's only one way they're going to get Clear—and that's by GETTING CLEAR!"

Diana Rodewald, new Grade VA.

Diana started her full expanded grades in August of 1972 in Boston and finished her Power at the New ASHO in November.

"I've gained the ABILITY to be more able, and to complete cycles of action. I know who I am, and I'm going forwards as a being instead of backwards.

On Power I exteriorized from being effect of MEST (Matter, Energy, Space and Time).

I was totally amazed at how beautiful ASHO is. Every person was really helpful—everyone was assisting me to become more self-determined.

The technical team at ASHO just cracked the back of my case—I left ASHO 10 feet off the ground and still climbing. Everyone here in Boston is amazed at the change—before I came to ASHO I was ARC Breaky, yelling all the time—now it's effortless. All the 'noise' and little lingering doubts are off my lines."

Carter Manierre, VA Release recently returned to Boston.

Carter Manierre talks about his new abilities as a Power Release.

EXPANDED DIANETICS SUCCESS!

Here are two successes on Expanded Dianetic auditing from the continental Church of Scientology in Los Angeles.

"I have found Expanded Dianetics to be the most incredible adventure yet. It is not like any other type of auditing I have received. And I have received quite a bit. It totally picks out and HANDLES all the little things that seem to nag you, that you presumed would just go unhandled forever. Well, that's not the case anymore—Expanded Dianetics is here!"

Brad Ballentine, Grade IV Release

"I feel very fit and back to good condition—alert, healthy, energetic and cocky.

The repair of lists which I have just had here in Los Angeles ended about 9 months of agonizing pain and confusion and now things look rosey again for me.

I have cognited the only way out is up the grade chart with no deviations, no side trips. The auditing I have received here was excellent and the repair was quick and easy. Just shows me some more that you don't mess around, you just do the tech. Nobody in the future will have any doubts about this.

You should see where I have come from in this game since 1957. . . and a lot of the trips have been sideways through a rusty pipe. Now I am looking forward to getting my own technical training all the way up.

Thanks to Judy Shaffron, my auditor, to Russ Meadows, the indomitable Case Supervisor, and to Flag and Ron for the great help.

Bob Harvey

CLEAR: Bright, free from cloudiness or muddiness, able to perceive distinctly. A Scientology Clear is a person who can be at cause knowingly and at will over mental matter, energy, space and time as regards survival for himself.

The road to Clear is plainly marked and easy to follow. After Power Processing at the New American Saint Hill, you do Grade VI and then CLEAR at the Advanced Organization in Los Angeles.
