KNOWING HOW TO FREE A THETAN

by L. Ron Hubbard

Why did you arrive here in the condition you are in?

It wasn't because of anything specific that you did.

The reasons you were being punished were for being you, for being powerful and for not being quite intelligent enough.

These are the only reasons.

Now, what happened?

You can look way back on the back track and find that some OT came along and decided to put together a civilization of some kind.

He had it perfect and some other thetan came along and started chipping away at him or started talking to him or started putting mock-ups on the other side of the planet. To get even with the thetan who was attacking his pet society, he would indoctrinate his pet society on how to trap a big thetan.

So this became the most accomplished skill that a meat body society had. How to trap a spirit.

No OT was ever so completely out of his mind as to have to depend on his men or troops to untrap him. He never indoctrinated them to do that! At the time he was doing this he never thought he would be caught.

I consider this is singularly unintelligent.

For instance, Franklin Roosevelt during the thirties wrote a big check. He wrote out this big three billion dollar check, handed it over and he says, "Build an Atom Bomb." And it wipes out cities. He had Congress under his thumb. It was all set and roaring to go.

He could have written out another check for three billion dollars and given it to another group and said, "Build a defense for an Atom Bomb."

You notice he didn't do that!

You lay into a society the skill to trap a thetan. WHY DON'T YOU TEACH THEM HOW TO FREE ONE!

You had unlimited force, but there was not as much intelligence invested as there was force invested.

Now you say, it is a very intelligent thing to put an atom together, to be able to make matter, to be able to make almost ever burning radioactive fire for suns, to be able to erect tremendous space, to figure out the biological cell perpetuation on the second dynamic. Seeds, how do you make them? Terribly complex. VERY.

Completely knuckle-headed!

You never worked out how to *unbuild* anything!

You get the unbalanced action?

The whole thing was an insistence on enduring matter. It was to endure forever. That is not smart.

Eventually some of that stuff was made into a theta pull. That is the pull you have been on. The confounded things last forever.

I can tell you it is possible to be trapped for over thirteen and a half trillion trillion years.

That is interesting, isn't it?

The technology of entrapment is a vast catalog. There has been a vast amount of work put in on this subject of entrapping a thetan.

AND NO WORK AT ALL ON HOW DO YOU FREE ONE!

The total technology of freeing one is you reach over on the trap, pull the guy off and throw him out in space to cool off.

That requires a what? That requires an OT.

What if there aren't any? That is an interesting question, isn't it.

The technology of how do you free a thetan has been grievously neglected.

The failure to teach a society equally to be able to free or to trap, that is not intelligent, it is stupid.

It leaves out half the equation.

You keep running outflow, outflow, outflow, Eventually it will get into a jam. It won't run any further. You have got to run some inflow for a while. You have got to balance up these flows.

Now that is quite important to you.

It says where you sit both as a being at this exact moment and WHY you are interested in this technology which is before you and why, strangely enough, this technology is appearing really for the first time in this universe.

"It is impossible," everybody will tell you, "the technology is impossible."

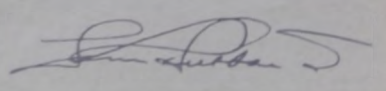

It is not impossible. Just totally neglected.

They think it is impossible because they have outflowed the reverse technology.

At this point in the line we are shifting gears of the whole game of the universe.

It is an adventurous thing to do and the only way we are doing it is by putting some intelligence along with force.

We have got the know how and the technology necessary to handle the problem which has never before been handled.

Ron's Higher Level Courses Train OT Auditors Who Can Make OT's

"Auditors have, since the first session in Scientology, been the only individuals on this planet, in this Universe, capable of freeing man." L. Ron Hubbard.

What is meant by OT? Operating Thetan:

"By 'Operating' is meant 'able to act and handle things' and by 'Thetan' is meant the spiritual being that is the basic self." L. Ron Hubbard.

OT is further defined as the ability to be at cause, knowingly and willingly, over matter, energy, space, time, life and thought. That is a very high state.

It is attained by both processing and training—the one to gradiently free the individual of personal barriers to happiness and freedom, the other to gradiently, step by step, give him the full technology to free others and the full data to understand and handle anything in life.

The lower levels of training give one basic skills of auditing to begin to handle others better.

The higher levels of training give one the *full* span of technology, with all the whys and hows made completely clear. At each of these higher levels of training from Class V through Class IX, HSST, your ability to smoothly handle life and people soars higher.

At each level, more powerful tech is given to the student. As the more powerful the process is in producing results the greater the power would be of any misuse, each level also delivers to the student a greater standard of precision in application.

With Superliteracy achieved on the Primary Rundown, you will GET all the data you study. With internship immediately after each level under the technical experts at New ASHO, you will learn to apply this data flawlessly.

The back page of this issue gives the route to go. Here is a glimpse of what is available at these higher levels, offered only at the New American Saint Hill.

Class V and VI, The Saint Hill Special Briefing Course.

The product is a Class VI Auditor who can flawlessly apply the tech of Scientology grades, their set-up and repair with full philosophical understanding and technical proficiency.

Class V is a comprehensive look at Scientology from 1948 through 1966, including over 360 taped lectures by Ron, his books and bulletins, all in sequence as issued. This unique course gives the student a view of Scientology and its development unattainable at any lower level.

Class VII Intern Ty Dillard gets precision results.

Class VI drills the student to perfection on the TRs and materials he is to audit, including tape recording and TV Demonstrations. It includes repair or set-up actions developed after 1966 that a Class VI will need to audit today.

Immediately following the Class VI Course, the student does the Class VI Internship under the finest supervision in the Western Hemisphere. It is well known that a graduate becomes an AUDITOR by auditing many, many hours under experienced supervision.

Class VII, the Power Internship

On Class VII, the Class VI perfects his communication cycle and basic auditing to a new, higher standard, one of total precision. He studies the confidential Power Pack, and learns to run the fantastic Power Processes to produce a Power Release. The precision auditing demanded by the Power Processes, which is unlike any lower processes, enables the VII graduate to crack lower cases with unprecedented ease. While on this internship (the VII Course and VII Internship are one and the same) the student must audit 3 Power Releases to completion flawlessly to graduate.

Class VIII, Auditing OTs, 100% Standard Tech

On the VIII Course you learn data vital to your survival as an OT and to your ability to help others to full OT.

The VIII Course includes 19 tapes heard ONLY on Class VIII on which LRH states the structure of the mind, the exact nature of a thetan, who we are and who Ron is, why people of this planet respond to things the way they do, the exact purpose and mission of Ron's tech and the exact time, place, form and event that tech is here to handle.

The Class VIII Course was developed by Ron in 1968 to ensure that our technology will always remain pure and standard. The Class VIII Auditor is trained to unfailingly uphold 100% Standard Tech.

The key to Class VIII is that the auditor gains the ability to be simple enough to deal with the power of upper level materials. To be able to handle any case, standardly and easily—these are the gains of Class VIII.

Class VIII walks confidently out of a 100% standard session.

YOU can be a Class IX, HSST. If you're interested in higher level training, write the Letter Registrar at the New American Saint Hill. There are no prerequisites for advance enrollment or advance payment to reserve your place. Write the Letter Registrar and let him know when you plan to arrive. Write: New ASHO, 2723 West Temple, Los Angeles, CA. 90026.

Class VIII Internship

The internship immediately following Class VIII gives the student the opportunity to apply his newly learned tech under the top supervision of experienced VIIIs and IXs.

Product: A fully interned Class VIII who has learned the skill of auditing OTs and an overall view of simplicity of Standard Tech which enables him to handle any case with superlative confidence and 100% flubless results.

Class IX, Flag Quality Auditing

The quality of auditing on Flag (home of LRH) is well known to be higher than any other on the planet. Now, Ron has sent 4 Flag-trained auditors and C/Ses to bring this quality of auditing to New ASHO to be given to you.

That's what Class IX is all about. Breakthroughs made after the VIII Course in 1968 and the most basic data of auditing are studied to produce an auditor of Flag quality.

Class IX Internship

Immediately upon Class IX Course completion, the auditor interns under the Case Supervision of ASHO's Class IX and X Flag-trained C/Ses who have audited under LRH's personal supervision and know his standards well.

HSST

Here the Class VIII Auditor (or Class IX Auditor) takes on the viewpoint of the case supervisor, able to determine the most optimum process to run in every case to bring the preclear or pre-OT up the gradation chart. The HSST Course trains the auditor to confront and handle many auditors producing tens of thousands of hours of auditing a year and the quality of technical administration and organization necessary to keep tech fully standard. The HSST includes full internship under ASHO's technical C/S, a Flag-trained Class IX HSST.

Get on the road to full O.T.

The data on these courses is vital to anyone who wants a happy future as a free being, with the ability to help create a Clear and O.T. planet and universe. The data and skill on these courses is vital to anyone who would want the full use of his abilities as a being.

Standard Tech is the road out. It is the best insurance for stability an OT can have. It is the hope of the planet and the most rewarding adventure in the history of the universe.

Auditor Corps Trains in Europe

The Standard Auditors Corps has been formed to get natives of European countries quickly trained up. Sea Org students from all European Scientology Churches are being sent to the AOSH in Denmark for training to full Class IV. Fifteen to twenty students are now on this program with more coming.

Training is available in Europe in German, Dutch, Swedish, English, French and Danish fully through the Primary Rundown and Hubbard Standard Dianetics Course, with Academy training in some languages and being completed in others.

Processing from higher level auditors is being delivered in all of the above languages through to Clear and the O.T. levels. More European auditors are being trained to be able to keep up with the demand.

Ron's books are currently translated into French, Danish, German and Swedish, soon to be out in Dutch. The Communication Course is also available now in Spanish, Italian, Greek and Hebrew!

The result is that people are now being trained in their native language to audit and staff the European Scientology Churches who speak no English at all—in the past most have had to speak at least some English.

A new Church of Scientology opened in 1972 in Malmo, Sweden, and three new organizations are in the process of forming up in Amsterdam, Brussels, and Vienna. This will make 14 central churches and 23 missions in Europe, all grown within the last 4 years.

The Church in Munich, for example, has moved from its beginning in 1971 up to 50 students on Auditor training courses plus 25 students on the Communication Course as of October 1972.

Translated books have only been released this past year, and already if new Scientologists continue at the rate of last year, all of Europe will be in the central files of one of the European Churches inside of seven years. But plans are to expand much faster than that by training many more auditors.

Highly trained O.T. auditors are the ones who have made this expansion of standard Scientology possible, and it will be many more highly trained auditors who will be ensuring 100% standard Scientology in creating the future expansion in Europe.

"SAFESPACE" SIGNS WITH COLUMBIA PICTURES

Columbia Pictures has just signed a contract for the film rights to SAFESPACE, a space adventure written to help make more people aware of Scientology principles by O.T. V Robert Miles.

A budget of close to three million dollars has been scheduled for the production of the space spectacular. Michael Gresskoff, who last produced *Silent Running* and worked on *Andromeda Strain* has been chosen to produce the film, which is to be released in November of this year. The production crew is to include the scriptwriter who won an Academy Award for *the Helmstrom Chronicle*, and Academy Award winning special effects men who worked on *2001: A Space Odyssey*.

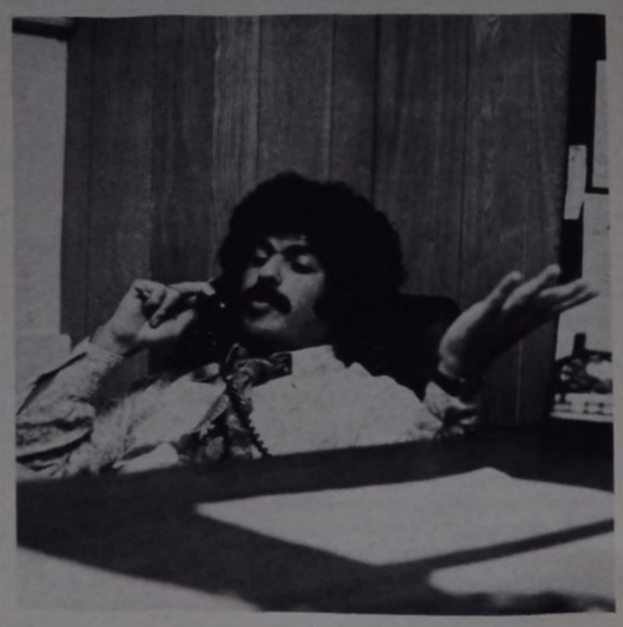

The story includes the building of a technically highly advanced sea vessel, which has already attracted the work of top engineer Hap Hazard (Grade VI Release and Dianeticist since 1950), an authority on the type of vessel planned as well as on aeronautics and lunar exploration, and Clay Matthews, a very well known aeronautics engineer who has recently become an enthusiastic Scientologist. Other top experts are becoming involved in the project as it expands.

Actress Cynthia McAdams, OT VII, is scheduled to play in the motion picture, along with other Scientology film professionals.

The film is expected to be one of the most exciting pictures ever made and to produce a very great impact on the people of the world with the message that man *can* be free to rise to greater heights.

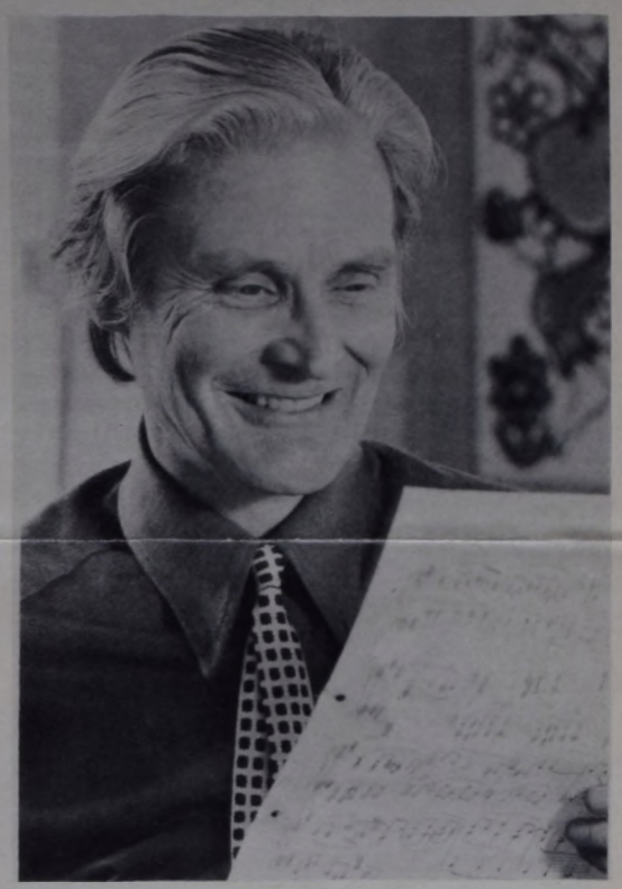

Author Bob Miles (left) looks on as Marilyn Devoe, Larry Stratton and John White look over the model of the ship SAFESPACE.

Power Release Ken Gerbino hears about enthusiastic response to the Scientology radio broadcasts.

Ron's "Hymn of Asia" Set to Music

Bobby Richards beams as he examines the music for Ron's Hymn of Asia.

The 'Hymn of Asia' is a beautiful and incredibly moving work by L. Ron Hubbard which was discovered in 1969 in Saint Hill archives. In this magnificent poem, Ron deals with the relationship of Scientology to the full track of philosophy reaching back to the East.

The work was shown to Bobby Richards, a very well known musician now on the Clearing Course at Saint Hill, who realized its potential to be set to music. Fourteen months later he finished composing the parts for the Saint Hill Choir, which was learning the parts as he wrote them. The first performance was just given at the Adeline Genee Theatre in East Grinstead, England.

Four of the members of the Saint Hill Choir (which performs each Sunday at Saint Hill) are also members of the London Symphony Orchestra Choir. Plans are being made to involve the London Symphony Orchestra with its full 200 choir members in a large production of the Hymn, which is 209 choral score pages long and will require a 150-strong orchestral accompaniment.

Bobby Richards, now the Master of the Commodore's Music, was the musical director for the "Seekers" for their entire career and has composed, scored and conducted for several film tracks, including *Born Free, Lion in Winter,* and *Diamonds are Forever*. He has also made many records (many with his own orchestra) including a 2½-million selling record in 1962.

Bobby was a jazz drummer with name bands in the 30's and 40's, but had stopped playing. About himself and Scientology, he comments, "Thanks to Ron and his beautiful tech I am active in both my favorite activities—playing jazz drums and writing thoughtful music, a dream I long cherished and thought would not be realized. In 1950, I actually bought the idea that I had become redundant as a drummer. The interesting thing is that for 25 years I had not touched the drums, then on July 29, 1972, I sat down, played a whirlwind of a drum solo to an audience and not a muscle ached, not a drop of skill was lost. And I know I can thank the Clearing Course, just as I can thank the Solo Course [which trains the auditor to audit himself to Grade VI prior to Clear] for my new-found lyric writing abilities."

ROUND THE WORLD

MILLIONS HEAR ABOUT SCIENTOLOGY

On January 11, 1973, KIIS, one of the top 5 radio stations in Los Angeles, broadcast information about Scientology to over a million listeners on SCIENTOLOGY DAY AT KIIS RADIO.

Every hour throughout the day a 3 minute program was broadcast about Scientology's philosophy and its growth. For a week prior to the day, 200 one minute announcements about the program—"Scientology is coming to KIIS" were played, reaching approximately 2½ million listeners.

The station interviewed leading Scientologists at Celebrity Centre, including OTs Robert Lyons and Heber Jentzsch, both actors with many credits, for information about Scientology. The coverage was put together by the station and included segments about Scientology training, L. Ron Hubbard, and aspects of Scientology application.

The coordination of the program was done by Power Release Ken Gerbino from Axioms Productions, a Scientology company involved in mass media.

To back up the dissemination of Scientology on Scientology Day, Ken has arranged a radio campaign continuing to play on KIIS (and shortly on several other major stations), directing listeners to a phone number, AWARE-73, for more information. Several spots are being used, including endorsement from Karen Black, Academy Award Nominee for *Five Easy Pieces*, and John Brodie, star quarterback of the San Francisco 49ers. The spots stress that Scientology knowledge can be applied to bring greater happiness and success to anyone's life.

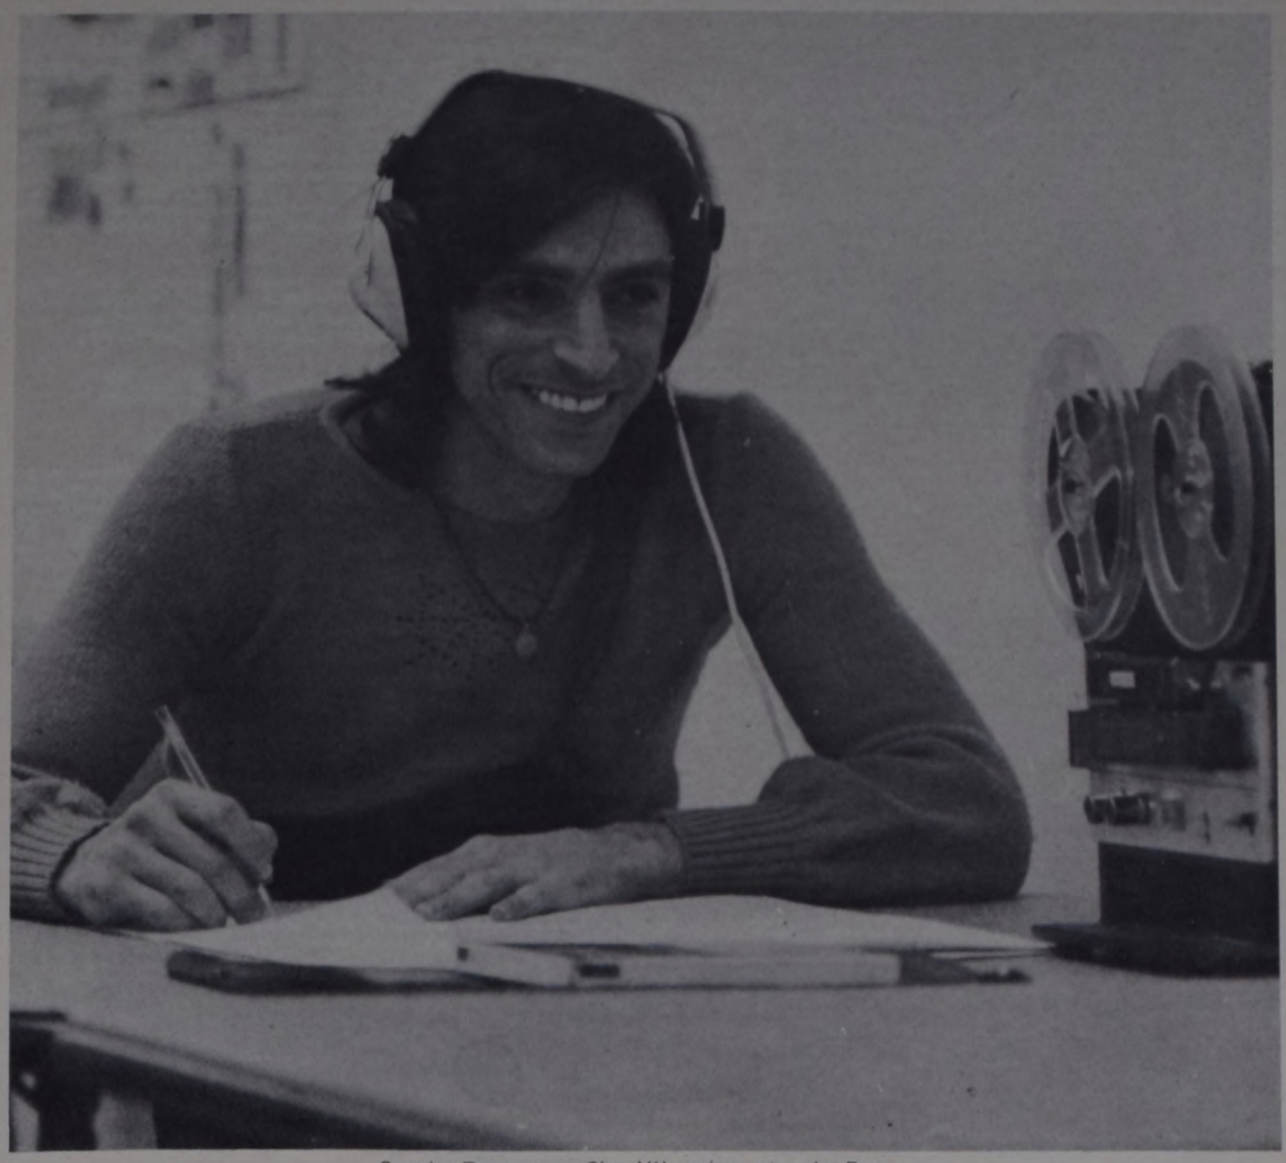

The campaign is also extending to include TV advertisement and billboards to bring the message of Scientology of all of Los Angeles.

Ken, a former financial analyst executive for Capitol Records (he holds a Master of Business Administration degree from Syracuse University), came into Scientology in 1971. "I had an ulcer starting and was working 12 hours a day," he says. "Then I took the Communication Course—I started doing my job in 3 hours a day and I was bored! I got into Scientology fast. A friend had disseminated to me in the Virgin Islands and the next day I was on a plane to L.A."

After his Power Processing at ASHO 6 months ago, he relates, "I had a lot of change in perception. I was able to for the first time to really reach toward people and do things. I became much more powerful—ethically powerful, more responsible."

In about 6 months Ken plans to begin training intensively as an auditor all the way through Class IX. "My processing has been great," he explains, "but I don't want to be an OT who doesn't know the tech. Things are expanding well now, but think what I could do with more of Ron's tech!"

Response to the radio spots has been very excellent and a Scientology boom in L.A. is in the works. Ken will be taking on San Francisco and then the rest of the U.S.

Carmine Terra, now a Class VII, enjoys a tape by Ron.

Class V Wins Book of the Year Award

with *Buckminster Fuller to Children of Earth*

Class V Cam Smith works on the photographs for her award-winning book.

CAM SMITH, Class V Auditor working on the Saint Hill Special Briefing Course at the New ASHO, has won the 3M Company Book of the Year Award (1972) for her work on *Buckminster Fuller to Children of Earth.*

The inside cover of the book reads "A portion of the proceeds of this book has been donated to Narconon, a non-profit organization dedicated to reducing crime and drug abuse, for their youth program."

The book, which Cam compiled and photographed, was the first book ever published by Doubleday & Co. for which the production details were handled outside the company. It was the extraordinarily high quality of printing, design, and communication which won the book this highest award in printing for 1972.

"I knew exactly how I wanted the book," explains Cam, "and used all my training to make sure there were no stops on it and that everything was handled just right."

On January 14, 1973, Carnegie Hall was sold out for a highly successful event in New York with R. Buckminster Fuller, inspired by the presentation in the book. It included a film made by Tom Solari (Class III Auditor) showing parts of Cam's book, prior to the lecture by Fuller himself.

The message of Buckminster Fuller, a 77 year old philosopher, architect and inventor, is that man *can* be a success on planet Earth. His approach has been particularly welcomed by young people all over the world. Cam studied with him in 1966 at San Jose State College. "Bucky was one of the few people I met who made any sense," Cam recalls. "He was talking about the planet as a whole. He had competence and technology. But after a while I began to feel the need of a technology to handle people—which led me right into Scientology."

Cam is an OT III. "My real mission in life is getting Scientology applied in the world in any way I can. That includes being a well-trained person. It's hard to think about what life would be like without the Briefing Course. It would be frustrating to have awareness without the tools to make what you have perceived come into existence. Training lets you cause it to happen. Highly trained people in any area, whether auditing or not, are extremely valuable for having that ability."

She has also applied Scientology to classroom teaching, as described in her new book on teaching, *What it Is, What it Ain't.*

Cam is hard at work getting the rest of her training to full Class IX, HSST and plans to continue producing books and photographs while doing so.

Higher Level Training Success

"When I started the VII Course did I ever have mixed emotions! Flubless VI? Power Auditor? It seemed so unreal to me at that moment.

I quickly started auditing and did well for a little less than 3 weeks and whamo! I had made it—flubless VI was certainly real to me then.

I shakily started the Power Pack and went from complexities to simplicities. Need I say my confront came up?

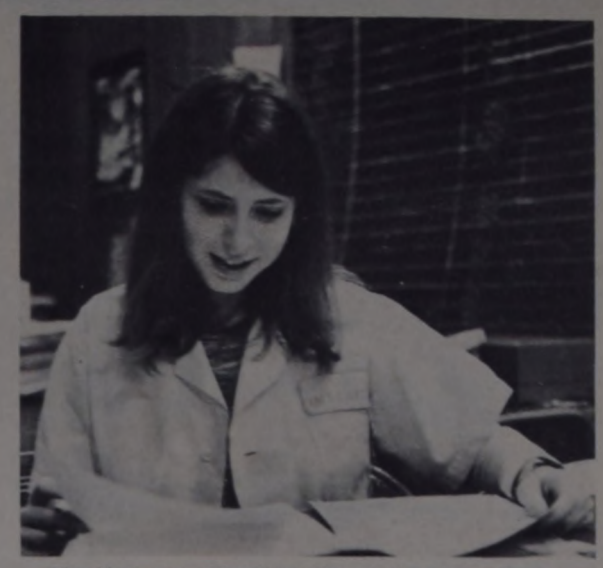

Then came my first power session and another and another—Until POW! I can audit Power! the C/S gave me the flubless Power OK. What a win! I audit Power on Pcs and before my eyes I see the tech work—and it's all that simple. I apply it, it works. I have no doubts that Ron's tech works, ALWAYS! It's the only absolute I have ever come across.

I have myself expanded beyond any processing as a Being. I got this expansion from the left side of the gradation chart—training. I am continually exterior as I am working with the truth, and how can one work with truth and not be? I watch Pcs expand and win. I couldn't ask Ron for more. He has given me the ability to free Beings on this planet, and that is the greatest gift of all the universes. I want to thank Ron for this gift and to thank the C/S for aiding me in maintaining it.

And now again I am asking the question—Class VIII Auditor? I can only take the course to clear this question and become a flubless VIII.

I am on my way to total freedom and I want everyone there with me. Come play the game—it's so easy to be out the top!"

Tina Mussenden, Class VII Intern
OT 1, Clear 3475

Tina Mussenden, Class VII Intern, studies a Power folder.

Tania Eriksen, Class VIII, adds finishing touches to a painting.

Tania Eriksen, an artist since she was 8, is now a Class VIII, HSST and OT VII. (She was Clear No. 455.) The following is an interview to discover how Scientology training applies to her work.

Q. How has Scientology affected you as an artist?

"Well, I graduated from Bard College in 1966, totally confused as an artist and self-invalidated, and my abilities that I had earlier in life were dwindling downscale. I came into Scientology in 1967 and went Clear. Everything changed. Before, I used to start painting and every intention I had seemed to go in reverse. I would intend to make a red painting and end up with purple mud. I'd intend to produce a good composition and end up with something worse than if I hadn't had any intention to begin with. I would pull out of it occasionally and produce something good, but it wouldn't last.

I never have any ups and downs with my art anymore. Every piece I produce is good. In college, I was stuck in 'beautiful sadness' and anything to be beautiful had to be sad. My artwork now is very aesthetic, but there's nothing sad about it!

I can within a few days now advance as far in my abilities to paint as prior to Scientology would have taken me 2 or 3 years. It's phenomenal. I have no stops anymore. I know that I'm going to go further in the field of art than any of the artists that have preceded me. You can't help it—you know more and you have less case in your way."

Q. How have you found your technical training applies to your art?

"Before training, I didn't know what to paint, though I had an urge to communicate. Since my training, I can communicate the basics of everything I learned—my basic message is painting is that you are a spirit and you can experience freedom, and you can be free.

In C/Sing I started becoming aware of the fact that we need to reach out into the 4th Dynamic and present people our awareness of the spirit, of freedom.

I've gotten very basic from studying the basics. I only communicate something that would be real to another person now. When people come to see my shows, even non-Scientologists, they say 'These paintings seem very spiritual—they give me a feeling of freedom.'

One thing I intend to accomplish in art is to bring Scientology into the hands of other artists. Artists are very sane and powerful beings—often lacking in knowledge and searching for truth. But these things can't be discovered in art alone. Truth is discoverable through auditing and training—I don't know of any other way.

The job of the artist should be not to discover the truth through art but to present the truth."

Q. How did the courses you took affect your viewpoint?

"I didn't know what Scientology was about before the Briefing Course. The effects of Scientology seemed like magic. Then I found out that the magic products of Scientology come about from basic laws. And I found that I didn't need to be a magician to produce those effects – only an auditor.

After Class VI I had still a few problems with art because I didn't fully grasp the simplicities. After HSST, I owned the simplicities and so could communicate them.

On VIII I learned to handle upper level cases as well and I became very precise and less tolerant of the seemingly most minute non-standardness.

I feel every VIII should do the HSST. The step between VIII and HSST is the difference between knowing how to audit well and knowing for certain that what processes you are auditing on a case will produce maximum gain. An VIII who wants to be a professional auditor is really depriving himself of an entirely different viewpoint if he doesn't do the HSST."

Q. Why did you do upper level training?

"I wanted to be able to apply the data exactly. I use it constantly in my life. The training isn't a narrow scope. It's so vast that if you study Scientology in full you understand everything there is to know about knowing. The difference between the way a person operates after training is the difference between a beginning Scientologist and a Clear—it's equal to that. The being becomes intelligent. Things he couldn't control before he now understands and can control. You understand the mechanics of suppression and so can't be suppressed. You understand that a person who is critical of you has a withhold and you don't become discouraged or feel your work is worthless. You can handle upsets that people incur in life.

Since getting training I've found my very best friends are all trained people. I find trained people have a very different kind of understanding and approach to life and a sense of humor about life that I find beautiful.

My untrained friends tend to mock up a lot of problems and don't always apply the simple things of training.

As a trained person you have such phenomenal tools that there isn't anything you can't handle. In training you become very certain of your capabilities of operating sanely and operating with the greatest good for the greatest number of dynamics. You can disseminate Scientology more easily because you totally understand the subject.

I wouldn't trade my training for anything else in the world."
