THE AUDITOR 9

WORLD WIDE

THE SAINT HILL JOURNAL OF SCIENTOLOGY

ORG. STAFFS TO RELEASE

ALL SCIENTOLOGY ORGANIZATION STAFFS IN THE WORLD ARE TO BE AUDITED TO RELEASE! SAINT HILL IS LEADING THE WAY AND IS ALREADY APPROACHING THE HALF WAY MARK. SPECIAL AUDITORS ARE NOW IN TRAINING AT SAINT HILL AS CLASS VII INTERNES. THEY WILL RETURN TO THEIR OWN ORGS AND BEGIN AT ONCE TO AUDIT THEIR STAFFS TO RELEASE.

THE POWER PROCESSES

Making this possible are the fabulous new Power Processes.

These take a person from any point on the levels and rocket him to Release (formerly Keyed-Out-Clear) in from 20 to 75 hours.

The Power Processes may only be run by Provisional Class VII Auditors, since to audit them on a pc requires a thorough personal knowledge not only of auditing, but of the entire Reactive Mind. Lacking this, an auditor could get his pc into trouble he could not get the pc out of. Although simple in appearance, the Power Processes are aptly named. Explosives are safe only in the hands of experts.

STAFF MEMBER PRIORITY

Until we have all our staffs up to Release across the world, the Power Processes are not easily available. Only a very few non-staff members are being processed at Saint Hill on the Power Processes.

The waiting list at Saint Hill, even for students, stretches longer and longer.

The only way to get to Release at this time via the Power Processes is to become an Org staff member at your nearest Org or to enroll on the Saint Hill Course.

The fast way to learn to use them is to become a Class VI, and Interne at Saint Hill for Class VII. Only Org staff members are accepted for Interning. If interested, apply to your local Org.

HGC PROCESSING

HGC processing available in your nearest Org will also make Releases today, if more slowly.

HGC reports of Releases are becoming more frequent, and as their own staffs are Released, will become routine.

Grade processing is for the average pc, not for the rough case. But the average pc has a good chance of making Release today by the Gradation Route.

The cost of HGC intensives is much lower.

The Academy student learns to do processes which Release people. The main difference is the speed with which it is done.

CLEARING

Getting Released by ordinary HGC processing or the Power Processes in no way alters the Route to clear. This is achieved by training in your local org and Saint Hill. Releases clear much faster.

THE IMPACT

The impact of any of our technology on the society is considerable.

The impact of Power Processes, coupled with the reorganization of Scientology, cannot help but change our civilization, in that we do not have to include the impact of real Clears and Clearing to see that we have achieved the end product hoped for, but never attained, by the various schools of philosophy and its practice.

When to this very real advance you add Clears and Clearing and realise that that is also in progress at this minute, the scope staggers one.

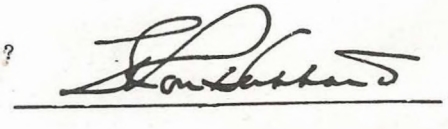

Only a score of auditors at this writing are working on Power Process Releasing here at Saint Hill. They reached an early peak on June 2, 1965, when they Released 5 pcs in one day.

With this Dianetics and Scientology no longer can be called a dream. If you mentioned to one of these Releases a doubt of Scientology, he or she would probably spit in your face.

Dianetics and Scientology is a hard reality now. After 15 years of hard going. They're in practice, organized, and spreading fast.

Where will it stop?

Where are the stars?

THE ATTAINMENT OF RELEASES

BY-PASSED RELEASES

3rd June, 1965

"Dear Ron,

That Policy Letter of 10th May, 1965, Releases Vital Data is marvellous. The staff here in HASI Sydney just had all their BPC indicated by just reading the Policy Letter. There has been a fantastic change in some and a sigh of relief and cognitions in others.

I'll explain. Since I've been Case Supervisor here in Sydney, I have repaired many cases on this one fact alone - that is M/WHs of nothing. The Policy Letter confirms the thought I've had for ages - that a lot of Pre-clears have been "over audited" on lower level processes (0 - 4) and have gone into the sad effect through being run into the middle of the GPMs. At times, they have keyed out in auditing and gone Release. The auditor or D of P has NOT observed the fact because of his own hidden standards on what Keyed Out Clear should be, etc; the pc was not acknowledged - the state of Release was by-passed and on went the pc straight into the GPMs and as a result ARC Breaks of magnitude, blows, the sad effect and demands for money back.

Best,
Ross Turnbull"

Editor's Note

I wonder how many Releases we've ARC broken and goofed by our auditors not noticing that floating E-Meter needle and stopping.

Golly, looks like we were a success for years and could not accept it!

Was half our field Released and then ARC Broken?

People must be asked: "Were you ever a Release?" and checked on it on the meter. Get them to discuss their auding after they were a Release, and I bet you get a floating needle and the Clear read!

RELEASES! RELEASES!

Dear Ron,

Another Release made here! That's two Releases in succession I've made here now.

Both cases Released along the same series of steps: -

a) Zero routines nicely nulled.
b) Repetitive commands nulled.
c) Overts cleaned up (Security Checking style).
d) Service Fac. isolated.
e) Service Fac. run and nulled.
f) Isolation of exact Service Fac. postulate.
g) Nulling of this.
h) Scout and clean up residual overts (if any).
i) Havingness process run to stabilise.
j) Sent for Release Check.

Best,
Dennis Stephens,
Staff Auditor, Sydney.

RELEASES

VITAL DATA

(Excerpts from HCO Pol. Letter, 10 May, 1965)

Persons who have attained Release may not thereafter be audited on any processes except Assists, By Passed Charge Assessments, Present Time Problems and Missed Witholds until they are trained up to Level V1 and started on R6 processes.

Although the training of the Release is necessary, and auditing knowledge of lower level process is vital, the Release's case as a case must be left alone except as above.

The only thing left is the R6 Bank itself and low level auditing becomes unworkable on a person already Released.

When we called a Release a "Keyed out Clear," we erred on giving any further casual auditing. It was this which made the state of Release look unstable when it seemed so - the person was further audited to relieve him or her of locks, secondaries and engrams which had ceased to exist.

Witholds may be pulled, present time problems may be lightly handled, even By Passed Charge Assessments may be run, touch assists and ordinary brief repair processes, may be used on a Release.

The Release can audit lower level processes than V with complete safety.

Auditing a Release on repetitive Comm processes, etc., etc., or doing any continued sessioning will only key in the only thing left - the R6 Bank.

A Release is stable as long as he or she is not pushed into the R6 Bank.

The next step for a Release in auditing is R6EW. However, the Release may not begin this until auditing skill is acquired by coming up the levels.

It will not become quite common for a student to be Released by a Clear and then study and audit his way up the Classes to V1.

Nobody can do the V1 clearing job for him but himself, and fragmentary auditing training will only lead him to mess up his case when he comes to Class V1.

The Release is cautioned not to fool about with the R6 materials until fully trained and to pay no attention to suppressive persons who "seek to show him in an hour or two how to run R6 and be clear."

The safe way is the correct way. Leave the Reactive Mind alone until one is fully trained as an Auditor. Then go on to Clear.

A Release is also warned that he becomes a particular target for suppressive persons who seek to invalidate his auditing and gains and to report them promptly to the nearest Hubbard Communications Office. Such people become afraid when they see another get better and are usually psychotic.

The next action for a person who has attained Release is to take the next Course in Scientology and move on through to Clear properly. This is shown on the Gradation Chart issued in May, 1965. There is no other way to Clear.

L. RON HUBBARD

KEY FIGURES TO SAINT HILL

The key figures in Scientology Orgs across the world are being flown to Saint Hill during June and July for briefing and Release.

The heads of Orgs are given special coaching on the new organizational plan and our immediate objectives so that they can bring their Orgs up to top efficiency.

Each is at Saint Hill only a few weeks. During that time, he or she is audited on the Power Processes to Release.

When Released and briefed, they are being flown home to get the show on the road.

Jane Kember, Organization Secretary, HASI Johannesburg, was the first in. She was Released and briefed in late May and was the first to be returned home.

She looked very beautiful when she left.

A NOTE FROM JANE KEMBER

Dear Ron and MarySue,

This is just a short note to thank you both for giving me Power Processing, and for all the help that I've had from you and the Instructors and Staff.

My thanks for Power Processing are completely inadequate, as what can one say, when one feels three million percent better, happier and healthier. The only way that I can thank you both is to make South African Scientology grow and expand rapidly, and help you and us all to produce a sane planet, and I am going back to do just that.

Thank you again,
Warmest regards,
Jane.

ORG. EXECUTIVES HARD AT IT.

Above, John Fudge Washington, and Alison Parkhouse Capetown, studying Policy Letters.

Below, Dennis Lee of Auckland, being checked out by Linda Nussbaum.

Above, Monica Quirino, briefing Eliz. Williams, Miami, at St. Hill Comm Centre. Eliz is a Release.

FIVE YEARS

The world has an optimistic five years left, a pessimistic two.

After that, BANG! Or maybe just a whimper.

A handful of us are working our guts out to beat Deadline, Earth.

On us alone depends whether your kid will ever see sixteen or your people will ever make it at all.

A handful of us aren't nattering or dramatizing or whining or waiting. We've got our sleeves rolled up for a twelve hour day and sixty hour week.

It's all right to be reasonable or cautious or have an open mind so long as the openness doesn't consist only of holes.

A few of us see the world has got a chance if we don't dawdle along the way.

We may or may not be super beings. Yet. But we are very earnest people.

We would be longer on patience if we weren't so short on time.

Our chance is a thin chance at best.

We're making the most we can out of that chance.

Our programme is simple:

We are working as hard as we can in Scientology.

We are doing the best job we can do at our job.

We are shooting people up in case level.

We are training up the best auditors we can train as fast as we can train them.

We are keeping the lines going and the place together.

We are Releasing people wholesale.

We are making Clears or O.T.'s.

We intend fully to make the grade.

We know every minute counts.

And we intend to take out of the road anything we have to take out of the road, no matter how big, to make a civilization that can survive.

And won't go BANG!

If we win, you will win. The kids in school will grow up. And we'll have a world without criminality, without war.

We mean it. And the only slim chance this planet has rests on a few slim shoulders, overworked underpaid and fought - the Scientologist.

Later on, if we make it, what will be your answer to this question?

"Did you help?"

L. Ron Hubbard

NEWS FLASH!
ONE AREA REPORTS THAT 4 OUT OF EVERY 5 PCS WERE RELEASED BY PREVIOUS AUDITING!

NEW APPLICATIONS OF TECHNOLOGY

BOOK OF CASE REMEDIES

Auditor 7 did not print what Beth Fordyce, HCO Area Sec. Detroit, U. S. A. won her Doctor of Scientology for. She won it for discovering a new application for the BOOK OF CASE REMEDIES.

A sure road to award and glory is to find a new applica - tion for an existing Scientology process or principle or book.

The period of the discovery of principles, processes or original works is surely over as we have everything between the snake's stomach and the high sky by way of natural laws. Inventing and using new processes is a sure way to slow down the advance. There were only so many anyway and it's been done.

But new ways to apply or disseminate what we've got are welcome, welcome, welcome. We've not nearly enough of those and we'll be inventing or seeing them for the next umpty trillion years.

Here is her report.

"At the Jan. D. C. Congress, I had some interesting data about the BOOK OF CASE REMEDIES that you (HCO Cont. Sec US) thought I ought to write up for Ron because you felt he'd be interested in it. Here it is.

We've had several instances where people have read the remedies and come in to tell me that certain ones "fit" them. Then when they started to tell me which ones specifically, they couldn't remember them - or they would be able to remember only one. The book obviously indicates by-passed charge and handles most of the problems. They find out what their problem actually is.

"One fellow who has been ARC broken with Scientology for years (even before I heard of Scn.), came in, and I asked him to find himself in the remedies. He started reading them, and each one seemed to fit him (except about 3 or 4 of them). I noted them down one by one, as he called them to me. When he finished, I said no more about it.

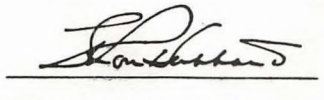

"Later on - about 15 minutes - he decided he'd better look through those again because he "was sure that they didn't all fit - maybe some of them have changed". So he went through them again, one by one, and only 3 still seemed to apply - and only ONE of them was strongest, he felt. The other two seemed to have lost their punch.

"He was quite different after that. I also did what the remedy called for, which cleaned it up. The last time I saw him - at our Congress - he not once mentioned the problem he's always had with eye-spots. (And, frankly, I was afraid at that point to say "eye-spots" to him for fear he'd key it back in again, so I just settled for HIS not mentioning it!)

"As soon as we get our next batch of Remedies, I intend to send at least 4 of them as gifts to people who are badly ARC broken with us. If they actually read them, I know exactly what will happen - they can't stay ARC broken.

Best,
Beth"

So there's a wide open door. Try it out on "rough cases" and demand ARC Broken ones do it and write you back or tell you which one it is.

FLASH - CABLE FROM PORT ELIZABETH, STH AFRICA RON DIEUWKE HILL RELEASED ON LEVEL ONE BY JOHN MORSHEAD STOP DIEUWKE TRAINED THROUGH HCA IN THIS ACADEMY THEN 50 HOURS HGC AUDITING.

NEW USE OF BULLETIN ON ARC BREAKS

Eliz. Williams, HCO Exec. Sec. Florida, has found the following use of the HCO Bulletin, 29 March, 1965.

Dear Ron,

I have had good response from sending the ARC Break Bulletin HCO B. 29 March, '65 to students (past) and past pcs and professionals who had ARC Breaks, or as data to APPLY. They were able to spot the break and come in, or use it on other Scientologists who were generalizing or ARC broken or "not there."

Observation: This bulletin promotes goodwill and action. It's data they can use. (those mentioned above = they!)

Best,
Eliz.

SOME ESSENTIAL DATA FROM HCO BULLETIN OF 29 MARCH, 1965

I've found the basis of ARC Breaks!

AN ARC BREAK OCCURS ON A GENERALITY OR A NOT THERE!

So next time your pc says, "The Instructors are mean," don't be goofy enough to indicate the charge with "O.K., you are ARC Broken because the Instructors are mean," and then be amazed when the ARC Break continues. You didn't find out "What instructor is Instructors?" If you ask a bit further, you'll find it probably wasn't "the instructors" but somebody else. And that somebody will be a unit, not a group.

The Not There is also a generality because it can be anywhere. But it is a special case. When something becomes unlocateable, it can cause an ARC Break. The cure for this one is to find out what's gone. If you see somebody with a cold, ask, "Who's gone?," and you'll be amazed at the recovery if you pursue the matter. The common response to sudden loss is to feel everything is gone or going. This is the state of anxiety explained.

FOUNDATION FORMED

NEW EVENING ORG SERVICES

THE FOUNDATION

Without disturbing the daytime org or its operation i n any way, an evening, part time organization has been formed and is operating in your area NOW.

The evening organization (and the week-end, when it is formed) is called: THE SCIENTOLOGY FOUNDATION.

The purpose of the evening organization is to provide the standard Scientology services in the evening and week-end that many couldn't avail themselves of in the day.

The Foundation is your evening and week-end organization services which are not merely free services, but in - clude any org services as well as free services not part of day org services.

The Foundation is owned and operated by HASI and is just a part of HASI.

All policy applies to the Foundation, as well as to the HASI.

The Technology of the services offered is still standard technology for the appropriate levels.

EVENING COURSES

Three sub-Academy Courses are taught in the Evening Foundation, B.S., H.A.S. and H.Q.S.

The Academy Courses offered are the level O and level 1 Hubbard Recognized Scientologist and Hubbard Trained Scientologist Courses, both by check sheet, both consisting of two Courses each, practical and theory. Higher level courses will be given after a lot of students have finished their lower levels, for nothing is less crisp than a course with two people on it. The Courses run all five nights.

EVENING PROCESSING

The student auditing in the Free Scientology Centre is standard tech and mostly assists. It is a walk-in-as-you-please proposition.

In the HGC regular, routine public grade auditing will be sold. Consecutive scheduling, however, is consecutive evening or week-end scheduling; $12\frac{1}{2}$ hour evening intensives are sold or an evening plus week-end 25 hour intensive is sold.

Also a co-audit can exist. A group Auditing Intensive can be bought periodically.

STAFF

The standard org board is used and all of its key posts are filled with as little doubling of hats as possible.

The Evening Foundation of your nearest Org undoubtedly needs staff who can work evenings in addition to their regular jobs.

The Scientology Foundation must have the following minimum posts and two or more of these may not be worn by one person:

Foundation HCO Secretary
Foundation Ethics Officer
Foundation Organization Secretary
Foundation Registrar
Foundation Director of Training
Foundation Director of Processing
Foundation Director of Examination
Foundation Director of Review
Foundation Director of Field Activities.

If these posts are not filled each by one person, it is not a foundation. (Day staff may also hold evening posts and receive pay for them, but it is clearly understood that evening staff work is only as a part of the evening organization).

PREMISES

The same spaces and desks are used by both HASI and Foundation personnel and the premises will be the same for all services.

HOURS

The hours 6.30 to 10.00 for the Foundation and regular workday hours for the area, Saturday and Sunday, are all set and strictly time clocked.

Evening sessions in an intensive are only $2\frac{1}{2}$ hours long. They start at 7 and finish at 9.30. In the period 6.30 to 7.00 the pcs are collected and taken to session.

The courses start at 7 and run until 9.30, at which time only staff personnel will remain to make reports and care for other actions.

SUMMARY

This is no effort to undermine the daytime org. You will find it has its own clientele and will operate better even with the Foundation alongside it. The day-time org business is going on as usual, but better than before.

The gist of our service system is that now instead of one org, you have two orgs, one evening and week-end org, and one day-time org. They are functioning right now and tailored made to give you the organized Scientology services you want and assist you through your courses and pc grades to the next level of awareness.

As this parallels the Autumn 1964 stress of org traffic and only extends the successful PE Foundations, it should be very successful.

L. Ron Hubbard

WINS WITH SCIENTOLOGY

SCIENTOLOGY HELPS NUCLEAR ENGINEER

From Martin Bentley, Sydney.

I received, recently, a letter from a Nuclear Engineer who did about half an HAS course and to whom I have been writing as a blown student.

It seems that far from being ARC Broken, he was delighted with his training and in particular the Study Data, which he says gave him a fresh new look at the problems of research and enabled him to find the solution to a set of equations which have remained unsolveable for more than a century.

He will be returning to the Academy when he has completed his current research programme. His name is TILAK CHAWLA.

SCIENTOLOGY BENEFITS

PRO GOLFER

From Alison Parkhouse, Cape Town.

Cedric Amm, professional golfer, was sent in to us by a man whose daughter is having an intensive here. He was here from 10:00 am till 1:30 pm one day - did tests, had a long talk with me, and then Terry McLury had him on the meter and had a long talk with him. We discovered he was practising his golf strokes on auto - thinking of everything else under the sun - was tremendously tense and nervous towards the end of a match and always caved in on the final holes trying to not-is obstacles and practice positive thinking. So although he is capable of sensational golf - truly world standard, he seldom gets near it at tournaments.

He looked it all over, cognited quite a lot, and went off two days later to the Rhodesian Tournament. Result attached.

He thanked us a lot - thinks he's on the right foot now - doesn't appreciate fully that the "Assist" he had won't fix him permanently, and I'm sure he'll be in for an intensive very soon.

Sudden Death Win for Amm
From A Cape Town Newspaper

Salisbury - Cedric Amm, the young Mowbray, Cape, professional, yesterday won the Rhodesia R4,000 sponsored golf tournament at the Bulawayo Golf Course after a sudden death playoff with Cobie le Grange, of Natal.

Both players finished with 72-hole totals of 282. But Amm sank a tremendous 40 ft. putt on the first green to take the first prize of £500.

P. S. We especially talked about his putting.

TRAFFIC ACCIDENT ASSIST

A good example of an Assist given by a Level III student, John Wheatley, Walton-on-Thames, Surrey.

While travelling home from the HASI last Thursday evening, I witnessed an accident, at about 10:20 pm. The accident involved an elderly man being hit by a motor car on a pedestrian crossing. Here follows an account of what happened between that time and twenty minutes later when he was taken to hospital. As I got off my motor cycle, I called across the road to some pedestrians to "phone for an ambulance", and reached the injured person followed by four people; I told them to keep away and stay quiet. The man lying in the road was about sixty-five lying on his back with legs twisted badly and head thrown back. He was anaten and his breathing was very light and spasmodic. I began to run an assist "Lay that body on the floor. Thank you". While running the assist, I had to keep pushing people away until a policeman arrived. I explained that I had been trained on handling accidents and he left me alone and cleared the pedestrian crossing of all people. After the assist had been running for about three minutes, I noticed that the "PC" got worse. His breathing almost stopped and the skin on his face changed colour. I had the thought "Christ he's going to die on me". Then straight after that "Well I'm bloody well not going to let you die" and continued the assist. After this, I noticed my intention was more Tone 40 and my acknowledgement very good. I also noticed that my "PC" improved as my acknowledgements improved. About ten minutes later, the "PC" came to and asked what happened. I told him briefly and asked him to lie still. This made him angry and he told me to "Piss off". Because of his anger, making unnecessary movement, I stepped back and let a policeman calm him. The policeman said something to the "PC" and they beckoned to me to come over again. Just before I reached them, I noticed the policeman had a bewildered look on his face as the "PC" said, "It was a wonderful experience". The "PC" shook my hand and thanked me and held on to my hand. We maintained this solid comm line until he left in the ambulance. When he did leave, he was bright and cheerful and I told him I would go and see him in hospital. I visited him in hospital the following Saturday, he was bright and cheerful with a broken and badly cut legs. He was being detained for observation for shock, because up till then he had not shown any sign of it. And the doctors were waiting for it to "come out". The only thing he could recall of the accident was somebody with a crash helmet on. When I explained that was me, he said, "Ah yes, at the time I thought it was you who had hit me." I left my name and address and told him that if I can help him in any way I would do so.

Looking back on the whole incident, I can see the importance on the advice in the assist bulletin on carrying visiting cards with your name and address on. These I don't have at the present time, but it would have put a real professional touch to the assist. Finally, this gave me good reality on the datum that Scientology is as good as <u>you used it.</u>

East Grinstead, Sussex

The Editor has received many letters, some of which are printed below.

L E T T E R S

14th May, 1965

Dear Editor,

In October, 1964, after being witness twice to the "Inquiry" here, I collapsed with a coronary occlusion. The doctors (two) gave up hope of my recovery. I asked what had happened and they told me a heart muscle was damaged with a clot blocking the flow. "Oh!" I said, "is that all," I must communicate to my heart, which I did, and the next day they were amazed at what had happened. So I said, "what is the use of being a D. Scn. unless I know how to use the Science." The medico said, "My! My! I wish all my patients were like you. I would be a very happy G.P."

Ron sent a process, which an auditor did for me, then, hey presto!! No more pain. I decided there and then to lose weight - I have lost 3 stone. I decided also to remake this body, without the dependence of parents' genes. This I am doing. I am taking Vit. E 800 mils. a day with strict overall diet. I am getting this body really fit again, and I could not have done this had I not been a trained Scientologist, knowing the power is in the postulate made.

Faith is the evidence of things not yet seen. Ron has told us this since 1951.

I am a Scientologist. I live every moment. A Scientologist, - I enjoy every moment of life, and all its phases. I am still determined to get to St. Hill this year.

I felt you would be interested in this remake of body, you see I have had my 70th birthday.

Ron said in 1953, "There is no need to end a cycle of action by going out of the body; one can take control and remake new cycles of action." This I am doing.

All the best,

Treasure Southen D. Scn.
Melbourne.

8th May, 1965.

Dear Editor,

Thank you for the copies of "The Auditor" received. Just reading it raises my tone. I find it an ideal tonic after newspapers.

Best,

Ralph Pentecost. B. Scn.

ANNOUNCEMENTS

BIRTHS

Born to Valerie and Brian Hasler, a son, Simon.

Born to Phil and Monica Quirino, a son, Marcus.

To Ethel and Bill Northcote, a son, Malcolm Murray.

John and Hazel Gibbs (Academy students) now have a son, Simon John.

Born to Mr. and Mrs. David Aldrich, Class VIs, Washington, a girl, Deborah Ann.

To Maria and Leon Bosworth, B. Scn. a daughter, Lise Deborah. Johannesburg. (Now in East Grinstead).

Hamilton. N. Z.

To Eddy and Lesley van der Straten, a daughter, Carole Joy.

Births in the NY Area include:

A girl, Dara Lenore, born to Carol Kaufman (HCO Steno) and David Kaufman, HQS (HCA student).

To Eileen Mott-Smith and Tym Mott-Smith, HCA, Cl. III, a son, Alan Geoffrey.

Born to Jimmie and Ruthie Marley, a girl, Jamie.

★★★

ENGAGEMENTS

Janet Cornelius to Bernard Wimbush, Class VI and evening course Instructor, Perth.

On 23rd April, 1965, an engagement party was held to celebrate the engagement of Cheryl Smith, student, to Murray Chopping, student, Perth.

MARRIAGES

D. Paul Klein, HCA student, to Ann L. Blume, HQS student, Scientology - Twin Cities.

Irma Williams and John B. McLaughlin were married on March 23rd, 1965, in Atlanta, Georgia, U. S. A.

Durban. Ray Stoutt, HSS, and Elsa Bruton.

Alan Kapuler and Virginia Arave were married by Rev. Raymond Kemp, Easter Sunday in Tustin, California.

Jean Perrot, student, and Kingsley Wimbush, Class V, SHSBC.

Stan Brown and Lyn Eberding were married on June 8th, 1965, at the Scientology Centre, Pleasantville, New Jersey, by Norman Stander.

DEATH

At Portsmouth, Diana Gaiman, HPA.

Org Staff Member Definition

Only Staff members, under 2½ year contract to the Org, who have permanent (not provisional or temporary status) are eligible for Release.

L. Ron Hubbard

Letters to the Editor Continued from Page 7

Dear Editor, 16th March, 1965

I have been in Scientology since 1963 and am only n o w beginning to grasp an understanding of it. I am now on the HQS course and our instructors, Joy and Alan Walters, are doing a great job of training us. I think that is the general opinion of the other students here. I am 15 years old and the youngest member on the course and am doing great. I have found that I can apply Scientology in my school work and other things. Last year I was in the eighth grade and I had miserable marks. I am repeating the eighth grade again and I am getting fabulous marks. I have been nominated to work on the school newspaper and am going to be in a higher English and algebra class next year. I am planning to do the HCA course in England when my mother (Dolores Stokes) comes back on course at St. Hill.

Sincerely,
David Stokes,
Dallas, Texas. U. S. A.

28th April, 1965

Dear Editor,

There are two things I must tell you about; one is about a very succesful Touch Assist. My wife accidently burned her hand on an electric iron. The burn was severe enough to actually sizzle against the iron and swell very rapidly. Well after 30 minutes of Touch Assist, the pain had gone and the swelling had subsided. By the next day the burn was barely visible.

The second item, and one which I am getting quite excited about, is that I am saving to go over to HASI in September for 25 hours as a start to my Clearing Programme.

Best ARC,

Victor R. Hesson.

I, JONATHON BATSON, do swear that I do disavow and thoroughly disassociate myself from any overtly or covertly planned contact or association with any Suppressive persons or organizations or anyone demonstrably guilty of Suppressive acts (as described in HCO Policy Letters March, 1965).

Sgd. Jonathon Batson.

I, HEATH DOUGLAS CREER, do swear that I do disavow and thoroughly disassociate myself from any overtly or covertly planned contact or association with J. ROSCOE CREER and ISABELL HODGE CREER, or anyone demonstrably guilty of Suppressive acts (as described in HCO Policy Letters March, 1965.)

I understand that any breach of the above pledge will result in my being declared immediately a Suppressive Person.

Sgd. H. D. Creer.

I, A.T. CHADWIN, of 2900 S. Glebe Road, Arlington, Virginia, do solemnly swear that I do disavow and thoroughly disassociate myself from any overtly or covertly planned contact or association with A.B. LAWSON Jr., of 4000 Tunlaw Road, Washington D.C., and will continue to do so until such time as the above person from whom I am separating myself does become a Scientologist and abides by the codes of Scientology.

Sgd. A. T. Chadwin.
