STUDENTS Re-instate POLICEWOMEN

HAM & EGGS REPRISALS

RADIO TALK OVER K. B. G.
Thursday, December 7, 1939, 8:15 p.m.

Technocracy vs. Constitution

Howard Scott, the Mussolini of Technoracy, Inc., told a Russ auditorium audience last Tuesday night how incongrous a civilization we produced by creating enough machinery to keep us all in luxury yet many millions are forced to do make-believe-work with pick and shovel on W P A for a subsistence dole. After outlining all the things we could do under a well-regimented system of Technocracy, he showed that Technorary could be introduced within 24 hours in the United States and all that stood in the way was our United States Constitution. It is remarkable that the New Deal with its planned economy also frothes at the bit in its mouth, at those reins of checks & balances which the constitution uses to keep dictators from making this country another European autocracy. Every dictator begins by telling people how he can take care of them if they only give up their inalienable rights and let him decide what they are to do and how much they are to work and at what task and what their pay is to be. But neither Howard Scott nor any of the New-Dealers, braintrusters and planned economists realize that the most precious prerogative of man on earth is to rule himself, make his own decisions, learn to discern right from wrong and be his own boss. To achieve this goal of human evolution people have to stand on their own feet even though they make mistakes and have to reap misery and abuse. There is no better way to learn than by experience and none of the would-be Utopian prophets can change this ultimate ambition of the human heart. So it does not matter how many unemployed we produce, how many wars we call down upon our foolish heads, we are going to stick by the dear old prerogative of making our own decisions and like them inspite of all the paradise we might have if we only became slaves of the Technocratic dictator. Technocracy is nothing but sublimated Communism with all of its despotic regimentation. People who have no soul and live only for their bellies will be good material for Mr. Scott's Technocratic regime.

Ham & Eggs Reprisal

The Ham & Eggs menace is still with us even though we told them at the polls that we won't support their racket. As I stated during the last campaign, merely voting down the 30-every-Thursday scheme did not solve the problems of the old people who have no means of earning a living. But the worst thing they can do is to continue to donate their 30 cents every month to a bunch of racketeers who know no better than to advise them to go on a tax strike and stop paying taxes on their homes for five years, when the state will take away their homes for delinquent taxes.

As the local leader of the Ham & Eggers promised before election, now the gang is preparing initiative petitions to be circulated in San Diego county making changes in the city and county charters to prevent taxfunds from being used for the payment of pensions to city and county employees. Before you sign such a petition bear in mind that there is a big difference between a police & fireman pension system, a city & county employees pension and a Ham & Eggs pension.

Public employees who receive a pension entered public employ with the understanding that part of their salaries were to be applied in creating a pension fund. When they retire they receive a proportionate pension in relation to their length of service, the amount they contributed and the scale of wages they received. But the Ham & Eggers demand a pension irrespective of previous contributions to a pension fund, merely because of age.

The fact of the matter is that if the old people had been concerned about a pension in the days when they earned money, they could have bought an endowment insurance policy and had their corresponding pension. They failed to do that and now they want to penalize the public employees who are serving time and contributing to their own retirement funds. The Ham & Eggers want something for nothing and want to punish those who work for their pensions.

It would be exceedingly foolish to foist another special election on us in our city and county merely to give the Ham & Eggers a chance to spend more taxfunds uselessly, for they are going to lose out again at the polls and taxes are high enough without wasting them every six months on spite-elections.

Student City Council

Three weeks ago when the city council of San Diego refused to give me a hearing in the matter of high school-children who patronize cocktail-lounges since the council fired the policewomen and I left the council chambers, a young lady followed me into the corridor and requested me to appear before the Student City Council on December 6, which was yesterday morning, and present my complaint to them. And yesterday I appeared to tell the Student body my story. The young lady acted as city manager during the session, her name is Mary Fisher, of Point Loma High School. Ann Wansley, the doughter of former councilman Wansley, also of Point Loma High School, was acting mayor during the Student session. She introduced herself to me before the meeting and we arranged to have me appear before the Student Council right after a letter had been read in which Mrs. Mary L. Fay, present member of the city school board, gave an outline how the policewomen were fired because they did such a good job in keeping minors out of liquor establishments that the saloon keepers complained about this loss of trade. After asking for unanimous consent from the council I was called upon to speak and presented the case as follows:

Why Protect Lawbreakers?

"Madam Mayor and honorable members of the city council. The old council has a very peculiar habit when they meet widespread lawlessless in that, instead of enforcing the law they side with the lawbreakers and fire the police who enforce the law. They did it in the case of the police women as Mrs. Fay stated in her letter. Yesterday they repeated the same procedure when they were asked to enforce the smoking ordinance in street cars and on busses. Instead of protecting the non-smokers, as the ordinance states, they simply offered to repeal the ordinance. In accordance with this policy of protecting the lawbreakers against the complaining citizens the council will have to do away with policemen now that so many hold-ups took place in the last few days. You see those stick-up guys, they decided to take care of themselves and hustle up a little money so they won't have to go an relief. Now I am asking you to think it over where this policy of the old council leads to and decide what your policy is going to be. Are you going to enter in political cahoots with the lawbreakers, punish the police for enforcing the laws, are you going to repeal the laws to make it easier for the underworld to make money out of public immorality or are you going to protect the people against the underworld!"

The Student Council decided not to follow the policy of the old council in siding with the lawbreakers against the better element in the city and voted 6 to 1 to re-instate the policewomen. Councilman Knox who was sitting in the audience arose and protested against the re-instatement of the policewomen on the grounds that it violated the city charter section 22. The students were confused since they had no idea what the section contained and wanted to change their vote. I protested and called attention that one policewoman had already been re-instated and if that did not violate the charter the other two could be re-instated as well.

Councilman Knox replied that the policewoman was hired back by the city manager who alone had the power to hire and fire and so the Student Council then voted to instruct the manager to hire back the other two policewomen.

The next matter on the docket was a report from the manager concerning smoking on busses and street cars. One of the Student Councilmen suggested that majority rule is effective in such matters and since the majority of the passengers wanted to smoke the others have no right to protest. When I saw that the Student body was of the same opinion I arose and protested saying:

Inalienable Rights

"We are living in the U. S. A. and not under the dictatorship of the proletariat where a majority is supposed to dictate to the minority. We have inalienable rights guaranteed us under our constitution. If the majority wants to commit suicide & poison themselves, that's their funeral but they have no right to poison the rest of us. We still have the right to protest and governments are instituted to protect the rights of the minority against those who want to poison us."

That started a very lively discussion pro and con and finally like good politicians the council passed the buck back to the manager to study the matter and report later to the council.

Bad Building Inspection

The Students also gave the floor to Mrs. Frances Whitney, of 3140 India street, who presented several copies of letters from a structural engineer, from City Building Inspector Oscar Knecht, and brought a number of defective bolts as evidence that the Buidling Code is not being properly enforced by the city and contractors are being permitted to gyp people by giving poor construction. The Student body did not know what to do with the evidence and the letters which proved the point Mrs. Whitney was presenting to them. They felt quit embarrassed and voted to simply file the letters. This goes to show that the childern have learned a lot about evading embarassing decisions during the past weeks when they sat in the audience and listened to the city council.

"Talk Louder, Please"

At one time Councilman Simpson arose and complained that he could not hear out in the audience what the councilmen were saying. A Student Councilman, Llyod Decker, gleefuly retorted that he also could never hear what Simpson was saying in council meetings. But I got up and protested that just because the old council was no good was no reason why the children should not set them a better example. Everybody laughed at that and the proceedings were carried on in a loud voice for everybody to hear.

Fletcher Sponsors Red Light Districts

PERCY FLAGE MAKES MATTERS WORSE

Writing in the last issue of THE HERALD under the persiflage of Percy Flage, Scotty McLeod, understudy and ghoster of our Hon. Ed. Fletcher, published an interview with the Senator in which he not only affirms every charge we made against the Colonel, but reveals that things were much worse than even we knew. Thanks! Senator; evidently Scotty was tanked up again when he gave you the black eye!

• • • •

Says Percy Flage: "The red light abatement provisions had been totally eliminated, and the new Act was giving Calif. communities the right, by local option election, to segregate prostitution, stop its promiscous spreading and put it under open control by the community for its own protection. Am I still right."

"Right as a trivet", said the senator.

(Continued on Page Six)

LAST WEEK'S DISGRACE
Who Controls The "Free Press"?

Last Wednesday morning I got out of bed at dawn and tiptoed to the front door, while the rest of the family was still asleep, picked up the Morning UNION and crawled back into bed to read the news. Among the world news of importance there stared at me a whole page of editorial news items of MOST TREMENDOUS importance to us in San Diego, namely that a second rate Cheap Jewish Clothing Store was to open the next day on pawnshop row south of Broadway. An imposing picture of the stupendous good fortune that has befallen us poor San Diegans, like manna from heaven, namely the Cheap Jewish Clothing Store, graced the center of the page with mugs of unmistakably semi-Asiatics displaying in the four corners of the page. In between were sandwiched the world stirring events about the tremendous good quality and cheap price of the cut rate clothing and the history of the outfit with a biography of some of the clerks.

And mind you, all that, in the aristocratic, exclusive, high falluting UNION and a second dish of the same in the afternoon TRIBUNE-SUN.

Will you please inform me, if you or I wanted to rate a full page in the UNION-TRIBUNE-SUN, would we not have to do something so outstanding that it would have to eclipse Lindbergh and his transatlantic pioneer flight. Wouldn't we?

But a cheap Jewish Clothing Store can get that treatment of being paraded before the readers of the exclusive UNION-TRIBUNE-SUN for cash on the line. And then speak about newspaper "ethics", about a certain high standard by which no news page would be disgraced by featuring a small tucked-away Jewish store on pawnshop row and give it the treatment that you and I could not get unless we eclipsed Lindbergh, Lincoln, or Washington.

—o—

STEUBEN SOCIETY OF AMERICA

Editor, The Broom:—

In my capacity as National Chairman of the Steuben Society of America, a society of American citizens of Germanic extraction which represents thousands of American men and women of Germanic extration living throughout the United States, I consider it necessary and in line with the fundamental principle of fair play and free speech to issue the following statement:

This is the time for all Americans to keep a cool head, steady nerves and a courageous heart.

American citizens of Germanic extraction can be relied upon to observe and obey all the rules of strict and honest neutrality, both by word and action.

The past history of this, our Country, proves conclusively that the Germanic element always could be counted upon to preserve the integrity and independence of the United States.

In the last World War—a war in which the United States should never have entered—thousands of our sons went forth, even with heavy hearts against their own kin—not one solitary instance of sabotage or spying could be proved against any American of Germanic blood.

At the same time, however, we wish to make it clear that we will not tolerate any attempt made by any group, in any way to attack our race and blood, and that we intend to fight, with all honorable means at our disposal, any and all propaganda and race discrimination, aimed at our good name and splendid record of contribution which materially helped to make this country great and powerful.

And we will fight with all honorable means at our disposal, any and all attemps on the part of any and all persons in public office, from the highest office down, or any and all groups who will attempt to drag this country into foreign entanglements, or bring us into any foreign wars.

We will fight hand in hand with other patriotic Americans to prevent the flower of manhood from being slaughtered on foreign soil.

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931 at the postoffice of San Diego, California, under the Act of March 3, 1879.

WHOSE WAR IS IT ?

Hidden Hand of Jewish International Bankers

When James McMullin, in his memorable last article published by the National Whirligig from New York, revealed how the Jews were the cause of the war in Europe, of the annexation of Austria, Bohemia and the trouble in Poland; how the Jews in France were holding that country in the hollow of their hand by having plunged it into debt and ruined the Franc;—McMullin was promptly fired and it was announced that he went on "vacation". Richard Waldo and Gabriel Vogliotti took over the New York column for the Whirligig.

But the truth cannot be suppressed where columnists half-way try to give true news and now the Waldo-Vogliotti column, published in the TRIBUNE-SUN of December 2, 1939, presents once more the picture of Jewish intrigue that makes war, finances the war and holds the power to stop or keep up the war, by its ultimate control if the British and French treasuries.

Following is the report of the two columnists. Will they also be fired now, that they have let the cat out of the bag!

* * * *

NEW YORK

By Richard Waldo and Gabriel Vogliotti

CLOAK—It's a far cry to call a political refugee an ambassador at large. Yet to a number of important New York bankers the real function of Fritz Thyssen, recent fugitive from the Reich, is just that.

From the first day after the German industrialist slipped over the Swiss border and went into a monastic sort of hibernation our European houses knew that important political moves were afoot. Thyssen's **industrial connections in western Europe** were so widespread that investigators among our own financiers were able to draw on many sources in piecing together the story of his flight from Germany. About the only thing lacking in Thyssen's stage props is a diplomatic passport. Such a document is superfluous because this new type of roving ambassador does so without moving from his Swiss chalet.

Thyssen has differences with Hitler. The machinery of the Nazi party was unable to stop the court gossips which spread the story all over Europe. But the rift is explained as a quarrel over **economic policy** of the type common among Hitler's advisers—and was not secession from the party. Those who resign party jobs in Germany do not go to Switzerland or survive with Thyssen's apparent safety after they get there. There was, however, enough basis to the story of his fall from grace to cover a plausible escape. The understanding is reported to be that Thyssen's integrity is trusted to maintain an honorable silence on Nazi affairs in exchange for safety in exile. Which is sufficiently plausible even to **sophisticated European bankers** to provide the magnate with a stage for his act.

Object

The story of his mission has been relayed to **United Sates bankers by colleagues in the banks of England, France and The Netherlands.** Some details are missing because German party machinations cannot be broken open from top to bottom. But **banker Thyssen** is working on the **bankers of Paris and London.** The prosecution of the recent European war depends largely, according to the Nazi belief, on the adamant stand of the international money men who force government policy.

The French money bloc is considered the one group which can stop the Daladier government from leaning too far in the direction of a negotiated peace. War aims are terms, while negotiated by the official governments, must be **ratified by the "financial senate"—the invisible parliament** which in the French phrase dissolves Jamis.

Thyssen is **sounding out the bankers for terms.** That much has been **confirmed** by the quarters he has approached. Particularly what **French financiers** might consider acceptable ways and means of changing German personnel among the palace guard. Results depend on the Frenchmen's own determination of what factions in that guard he really represents.

HENRY'S SHOE SHOP
3823 - 30th Street
SHOES MADE LONGER AND WIDER

THE BUND IDEOLOGY

With the conviction and sentence of Bundesfuehrer Fritz Kuhn for embezzlement of Bund funds and forgery; a new chapter for Bund Activities begins in the U. S. A. The Bundfuehrer might not know it, but he convicted himself as un-American.

The strong appeal of the Bund, especially when the cool headed Gerhard Wilhelm Kunze speaks, is when it points to the spread of Jew domination in industry and politics of Europe and America. In that fact Kunze cannot be denied an audience and his recital of statistics and historic events cannot be laughed out of court by counter-propaganda, or persecution of the Bund.

The fact stands, though, that Kuhn was not prosecuted because he took money from the Bund, but because the Bund is quite successful in presenting the true picture of a corrupt America where the Jews are boring from within to turn this country into a dictatorship, as in France and England under the "war emergency", where Jewish minds will control and despoil the Gentiles as they did in Germany after the armistice.

Of course, after being taken to court, Kuhn was convicted of theft and two of his henchmen committed the impardonable sin of **testifying that the Bund is un-American** in principle and practice when they swore that under the "Fuehrer" principle Kuhn was authorized to divert Bund funds to his private use. Unless the Bund as a body sits in trial over those two witnesses and expells them for perjured testimony and for smearing the Bund as an un-American group which is communistic in that it permits the "Fuehrer" to dispose of Bund property as if it were his private property, the usefulness of the Bund as an American organization is ended.

What About the Jews

We believe that Nazi-dom as well as Jewry should learn their lesson from history and mend their ways.

While it is perfectly true that a well studied conspiracy for the usurpation of world dominion by Jews has been hatched out in antiquity and through re-incarnation after re-incarnation of the individual conspirators has been faithfully carried out to this day, let us look at the other side of the picture.

Jesus Christ came as the Savior of the Jews, but they preferred to have Him crucified as a criminal because He upset their plans for world dominion by armed force and political treachery. Nevertheless, we, as Christians, are supposed to follow in His footsteps and effect the salvation of the world from the Jewish curse of dominion by force and treachery. But what did the Church do? Just as an example: In Spain.

When the middle ages "Catholic" Spain ordered the Jews to either emigrate or embrace the "Catholic" religion and when Jews were robbed of their possessions by force, they entered the "Catholic" church, formed the Jesuit order and started boring from within. Today Judah dominates the hierarchial setup of the Vatican.

Had the Church followed Jesus Christ and not used force and treachery: which Jewish formula Jesus came to abolish,—but Honesty and Love of God and the Golden Rule, Jews would have been eliminated in the course of time from their dominant positions since they cannot rule where Christian practices are in vogue.

They can rule only where there is strife, injustice, poverty and waste, side by side. This is why they decreed that the U.S.A. must increase the national debt so that the money changers, then, may dictate as they dictate through their control of the French and British treasuries. And that is what determines who will fight whom, so that Jewish control may be extended to all nations, once they are devitalized and bled. Then the Jews "lend" money for "restoration," the way they did to prostrate Germany after the World War and took mortgages on its properties and industries, which they foreclosed at their own sweet time, after devaluing the Mark and making it worthless.

But the Jews took to these practices wholesale, when the "Christians" deserted Christ and followed the Jewish instigators of hate. If Christians were Christians and refused to hate, they would keep cool enough and clearheaded enough to see through the Jewish game.

It proves once more that this is not only a free country, but a universe of absolute freedom where each and everyone of us reaps what he sows. Christians are supposed to follow Jesus Christ and shoulder their cross, bear their burdens stoically and with the extacy that comes from loving God and working in His vineyard. By doing good they can extinguish the power of evil and redeem the Jewish half-breeds who are half white and half yellow. When determined Christian governments do justice to its people and rule with honesty, respecting the inalienable human rights of all, political and economic treachery cannot find breeding ground. In that fashion alone can we not only set the example to our Christian people, but by removing the possibility for fattening on the miseries of others by treachery, even Jews turn to honest toil and honest dealings and redeem themselves from the ancient curse of being Godless wanderers upon the face of the earth, having rejected the true religion of Love. This redemption of the Jewish race was already started in these U. S. A. where many a Jew prefers to deal honestly and in peace with his fellowman, till the ruthless conspirators caught up with us and through the "New Deal" are now the real enemies of American freedom and of all humanity, here as well as in the old world.

LET STOCKTON ORACLE STUDY PLATO

In to-day's issue, on page six, the reader will find an article written by Lillian Carque on the "economic" issue. She traces it ably to your belly and your bad habits of murdering for "food". Even Plato knew as much, but the pitiful socialistic oracle of Stockton lacks the necessary grey matter and moral-intellectual honesty to perceive the fundamental truth.

TO-DAY

To-day is the day of salvation
Tomorrow may never come.
Let's enjoy creation
And to life's melody hum!

To-day while the sun is shining
Let's plant the flowers of love.
Tonight when the sun is setting
We may be in heaven above.

—OTTO SCHKOELZIGER

BEWARE OF THE CENSUS SNOOPER

Army Eyes Census For Use in Draft

WASHINGTON—The war department and the census bureau are engaged in a civil war, it was disclosed, with the question of whether the army-navy selective service committee can use the nation-wide returns of the 1940 census in any future military draft the bone of contention.

The census bureau has pledged its word to the **public** that the information its **forces** will begin gathering from John Citizen will be held in strict confidence, and will not be made available to any other government agency.

A war department official declared, however, that in event of a national emergency, President Roosevelt could by executive decree countermand the existing law, which prohibits use of census data by any other branch of the government.

Back Fired

Two smart city lawyers decided to have some fun with the judge and agreed to ask jointly for instructions to the jury. When the evidence was all in one lawyer arose and moved that the judge instruct the jury. The other lawyer promptly joined in the request.

The judge scratched his head, but being a wise old chap, saw through the situation at once.

"Gentlemen of the jury," he said, "I'll make the charge to the jury as requested by these attorneys. You have heard the evidence in the case and the arguments of these lawyers. If you know the lawyers as well as I do, you will not believe a darned word either of them has said. Therefore, you now will retire to the jury room and try to find the facts in this case in spite of the arguments of opposing counsel."

Beats Jonas' Whale

A little colored boy was telling a friend about Jonah being in the stomach of a whale for three days.

"Dat an't much. Mah uncle was longer dan dat in de stomach of an alligator," said the other.

"Yo' don' say! How long?"

"He's dare yit."

TRADING WITH THE ENEMY

Chamberlain

Editor: A dispatch from New York in Pearson and Allen's "Washington Merry-Go-Round," April 14, 1939, said:

"Prime Minister Chamberlain is heavily interested in blocks of stocks in the Imperial Chemical Industries, such as the Dynamit Actien Gessellschaft and the giant I. G. Farbenindustrie A. G., in Germany.

This is why Chamberlain does not bombard Germany. That would cut into Chamberlain's dividends.

Yes, it is an imperialist war, where the people pay the bill and suffer from the war through which the rich gain greater profits and more dividends.—JAY J. LLOYD, San Diego.

Web

In the meantime the old World war paradox of trade between enemies has already started. France with large coal needs, which she is unable to secure from across the channel in sufficient quantity, is buying from Belgium. Belium, coal importer, gets it from Germany. The Germans save cost by mining in the fields contiguous to the west wall. The French are paying in gold.

France recently placed an order for 750,000 pairs of soldiers' boots with a firm in Milan for immediate delivery. The Italians, unaccustomed to that volume of production, called on Germany, got quick delivery of shoe-making machinery and honored the order. Italy incidentally is enjoying a lush Allied trade.

—National Whirligig.

Just A Penny

Joe handed me a copper cent,
And told me it was mine.
He's made an error in his count,
When I bought thread and twine.

His face was serious and grieved,
His shoulders sadly bent.
His conscience must have bothered him,
Because of that one cent!

How wonderful to really know,
Some folks are square that way.
It gives me faith in all mankind.
The world is good, I'll say!

—EMELDA DESHAIES

Editor's Note:— But the Supreme Court refused to give me my sales tax penny back.

WE NEED A DAILY COMPETITOR

There are several striking examples in to-days issue of the THE BROOM which prove the great need of a competitor in the daily field.

After you read our report which was broadcast over K. G. B. last Thursday night, on the occurrences at the Student City Council session last Wednesday morning and compare it with the report given in the Union-Tribune-Sun, you will notice that you did not get the salient points of the session from the two daily papers which are managed by the same group of publishers. The episode where the student body decided not to take the side of the lawbreakers and punish the police for enforcing the law by firing them; the attitude of the student body that the majority rules supreme while de Aryan called to their attention that our form of government is not a dictatorship of the proletariat where the stupid majority tyrannizes the intelligent minority but that we have inalienable rights which the government must protect against the outrages of the majority; the case of Mrs. Frances Whitney who had complete evidence that the City Building Department is negligent in enforcing the building code, but the students followed the example of the old council by ridiculing her and cutting her short; and the cynical attitude that because Councilman Simpson could not be heard in the audience by his understudy in the Student body, Lloyd Decker, the latter imitated the bad example to which Simpson protested without avail.

Had the Sun reporter been present at that session the general public at least would have received some of these highlights in the Sun story. As it was both dailies gave a sugar-coated piece of applesauce and left out much of the spice.

Mayor Benbough is trying to finance a new daily, but he wants to loan money to the editor that would start one. No editor will accept a loan, for it would tie him to the lender and destroy his usefulness to the community.

While the Union-Tribune pretends to be wedded to the American principle of free press, they signed a contract with the Sun publishing company taking over exclusive rights of United Press and that the printing machinery of the Sun must not be used in San Diego to start another daily. That hogties any prospective competitor who could not get wire service from any of the three existing services pre-empted by the UNION-TRIBUNE-SUN and makes the pretense of free press an empty hoax. The chief aim of the daily press is to make money and to corner the market. While this trend in America is prevealent it is contrary to American needs of a free press and leads to a controlled press and final breakdown of American ideals and pratice, yielding to the exploitive impulses of yet beastly bipeds so that the mass of the people lose their human rights and standing, since the controlled press will not stand up for fundamental principles that would interfer with their own graft.

PERCY BENBOUGH GOT HIS REVENGE

When Joe Green, of the Yellow Cab company, accepted the advertising order to carry streamers on the bumpers of his cabs reading JACOB WEINBERGER for mayor, he incurred the bitter enmity of Percy Benbough as a result of which Green has to pay now double the license fee for the operation of his cars, according to the new city ordinance approved by the council upon Benbough's request.

The previous fee was $25 per year, now raised to $50. The excuse given is that if the taxi owners cannot pay an additional 14 cents per day per cab they should not be permitted to operate in the first place. But the truth of the matter is that it comes to 14 cents here and 14 cents there, since the operators do not pay fees and taxes to the city only, but also to the state, the county and the federal government and the load is mounting enough without having to pay spite-taxes to Benbough's administration.

The theory of licensing taxis is to charge the operators the cost of police surveillance so that the common taxpayers won't be charged with it. But to overcharge the operators and make a profit for the city is contrary to the theory of proper regulation. If the city wants to get into the taxi business it may do so, or does Benbough intend to do just that and wants to put the competition on the rocks first?

Aside from the 54 cabs of the Yellow Cab company there are 29 cabs operated by smaller concerns. They can even less afford to pay the higher license fee. Concerted opinion among operators is that $36 a year, $3 a month would fully cover cost of police surveillance and pay a full time meter inspector under civil service, but to extract $50 to spite Green and hit the other operators in the face is just another one of those fool boners Percy Hizoner is used to pull.

—o—

SOME STUFF

The European war has reached the whimper stage when each country is accusing the other of starting it, or keeping it gonig. From dogs that meet on the street to jungle beasts, the fighters fight, and do little snarling and quarreling.

The European situation is getting extremely silly.

Germany cannot stage a war because of her economic condition, and because Hitler is afraid of his own people. England doesn't want a war because her investments are so far-flung, every time her aim is true she hits something she has a mortgage on.

The people do not want a war because they do not hate each other. The propaganda has fizzled out, the people would like to have more butter on their bread and less fluff on their oratory.

FILTHY—MINDED, BLUE—BEHINDED APES

By Whidden Graham

NEW YORK,—Don't be shocked, respectable reader. It was Robert Louis Stevenson, a master of English, who wrote: "A blue-behinded ape, I skip". He knew the weakness and frailties of the genus homo. He had none of that cheap guff about the "dignity of man", that second-rate writer Thomas Mann says is manifested in these United States better than in any other region of the world.

Dignity indeed! Our dignified political crooks posing as statesmen. Our dignified business racketeers by buying votes to get tariffs and subsidy laws enacted that will enable them to rob the 130 million consumers and accumlate vast fortunes. Our dignified "labor leaders (?)", who by methods akin to blackmail have fastened great gangs of parasites upon the farmers and businessmen in general. Our dignified preachers of what they call religion; a mess of ignorance, superstition and fanaticism. And, achieving the evil pre-eminence of scoundrelism, our dignified newspaper editors and publishers, who serve as pimps, panderers and prostitutes to the armies of predatory lice who prey upon mankind.

I have referred in former articles to some manifestations of the merry panderers of the press. I wish to say a word or two about the filthy-book-boosting practices in which so many newspapers indulge. There is an increasing number of book-publishing racketeers, who send out an increasing flood of dirty, nasty vile concoctions, dealing with fornication, adultery, incest, sodomy and other sex aberations, served up as fiction. These books are widely advertised and the pimps, called "book reviewers", who are employed to boost the nasty books by giving them favorable notices, obey their employers and write colums praising to the skies the trashy output of literary hacks.

I am not a Puritanic enemy of the discussion of sex problems in fiction, or in the motion pictures, but I do object to our alleged "free press" unloading on the public a mess of vile trash. To the readers I suggest that the next time he or she sees in a newspaper a glowing boost for a book alleged to de a palpitating tale of passion, considerable caution should be exercised before buying.

Good News! Good News! To Adam's Breed!

Everyone who is familiar with the products of the Curtis Publishing Company of Philadelphia will be interested to learn that apotheosis of vulgarity, dullness, humbug, hyropcisy and stupidity is in a bad way financially; and is undergoing a re-organization that will cut down the interest pledged to the buyers of its 7 per cent bonds.

Of course, the Curtis Co. was loaded down with millions of water in its financial setup, and the poor suckers who bought its 7 per cent bonds must have known that they were largely speculative. But in the good old Coolidge-Hoover days of capitalizing everything on a basis of expected paper prosperity, the advertising business was regarded as a permanent and prosperous institution. When the crooked Wall Street racket busted up in the faces of its promoters — crash! down went advertising, and among the victims of the industrial and financial collapse were the Saturday Evening Post and the Ladies Home Journal. The New York Evening Post, another Curtis publication, was sold, as it was a losing proposition.

Just what the prospects are for the future of the Curtis business I do not venture to predict. I do know that so far its principal product, the SATEVEPOST, is concerned, its editors are trying to hold onto its big circulation by making it more an embodiment of the kind of stuff the moron millions want. Prizefight stories; cheap and somewhat sexy fiction; and articles dealing with great national and economic and social problems from the viewpoint of "them as has keeps", are being played up on a large scale. Some years ago I wrote to the editor of the Post, suggesting that the best method of combatting Socialism and Communism would be to show the real causes of the industrial depression, and the only effective remedy, as laid down in Progress and Poverty by Henry George. The reply was to the effect that the land question was not an important factor in existing business conditions!

"What goes up;—must come down", was the slogan of that old Wall Street racketeer, Daniel Drew. The Curtis publications may again be boosted to their former prosperity, but there is always the possibility that even our stupid public will grow tired of them.

'ALIAS' SANTA CLAUS JAMBOREE WILL AID FORMER "SUN" EMPLOYEES

An "Alias" Santa Claus Christmas Jamboree will be sponsored by five local newspaper unions to raise rehabilitation funds to aid the 150 workers and their families who were thrown out of work when The San Diego Sun closed Nov. 25.

The Jamboree will be held in the Mission Beach ballroom Dec. 23, with the proceeds to be available to both union and non-union members, according to Bill Brodie, general chairman.

Brodie said, "We feel that this is a community proposition; it is an effort to keep these folks off the relief rolls and to aid them in re-establishing themselves, either here or elsewhere."

A joint committee will administer the Jamboree funds under the direction of the participating unions and with the approval and supervision of the city welfare department.

Contracts are being made to obtain the services of one of the country's foremost orchestra leaders and the attendance of moving picture and radio stars.

NEWS ITEM—SLOW-DOWN STRIKES TAKE PLACE OF OUTLAWED SIT-DOWN STRIKES.

THE PLAN IN ACTION

By Ernest Sincere

(Continued)

This society, strongest in Germany where it perverted and subverted Christian Masonry through the machination of Frederick the Great, introduced what is known as the Grand Lodge Orient to Europe—or the co-Masonry against which every European monarch has set himself from time to time, Mussolini being the last to excommunicate its political intrigue. The most complete, detailed, and authenticated history of this movement, how it was financed by Jews as a gesture to get their release from European Ghettos are recounted in the works of the famous historian, Nesta H. Webster, author of "The French Revolution", "World Revolution", "Secret Societies & Subversive Movements" and "The Socialists Network".

The Illuninati, under the renegade Weishaupt, became in time an openly destructive satanic society, with everything in its doctrines and rituals the exact antithesis of Christianity. Enticing its victim into the first initial degrees by the most beautiful and altrustic of fraternal ideals and noble aspirations, gradually it wove about them a net of murderous satanism. Implications in secret rites at length bound them securely to the organization with chains of steel. As Mrs. Webster has shown, the "ideals" of Illuminism were:

1. Hatred of God and all forms of religion.
2. Destruction of private property and inheritance.
3. Absolute social and racial equality, promotion of class hatred.
4. Destruction of all forms of either monarchal or democratic government, including civil liberties, such as freedom or speech, of press, of assembly and of trial by jury.
5. Destruction of all nationalism, love of country, patriotism and allegiance to civil or political rulers.
6. Abolition of marriage and practice of free love.

On page four of report No. 2290, Seventy First Congress, III Session, investigation of Communistic propaganda in America, the same articles are advanced as the definition of Russian-Jewish Communism in its fundamental aspirations. Indeed, the Jews, Karl Marx and Fredrich Engels, in their nefarius works on Socialism and the instigation of the First International, "borrowed" the Illuminati program bodily, a flagrant plagiarism from Weishaupt's Satanism which has not been generally revealed.

The point we are getting at is, that the Ghetto-imprisoned Jews beheld in Illuminism exactly the weapon they needed to effect their emancipation. This brand of revolutionary philosophy further suited their inherent revolutionary temperaments. So we find indications of the German Jews embracing and helping to finance Weishaupt, until it became such a danger to the throne that the Illuminati was ordered to be disbanded. But it never disbanded. This edict but sent it underground. Thereupon, speaking figuratively and literally, the Ashkanazim Jews "took it over", and the history of Europe for the next hundred years, from the effect of this control, reads like a nightmare.

Mrs. Webster has brought out the full manipulations of the Illuminati Jews in organizing, conducting, and later suppressing, the French Revolution and Reign of Terror, when they had accomplished their hidden purpose and removed certain royal presonages who stood in the way of their ultimate command of Europe. We cannot enter into that long and sordid story here. But we must pay some attention to the escape of the German Jews from the Ghettos and the rise of the House of **Rothschild or "Red Shield"** in Germany. It presages the active identification of the most terrible of modern times, the CAHILLA, to which we will give much attention in a moment.

Empty Bean

A good story about a little girl who had complained to her mother that she had a stomach ache. The mother told her that was because she had not had any lunch and her stomach was empty; that she would feel better after eating something.

A few days later the minister called. He complained of having a headache.

"That's because it's empty," said the child; "you'd feel better if you had something in it."

How Did He Know?

WINSTON CHURCHILL delivered a radio speech November 8th, in which he ominously remarked; "We shall break their hearts"—referring to the German people. A few hours later, a bomb exploded above the platform where Chancellor Hitler had just finished speaking. The head of the German Reich escaped death by eleven minutes and the press of his country attributed the attempt to British secret service activities.

Court Bans Picketing to Gain Union Members

TALLAHASSEE, Fla., — The Florida supreme court decided that organzied labor could not legally picket business places to coerce workers into its membership. Such picketing, it said, is not within the limits of "peaceful picketing" allowed in disputes between workers and employers about wages, hours, or working conditions. The court, in a 4-to-2 decision, affirmed an order by which the Dade county circuit court last December prohibited the Retail Clerk's union from picketing the Miami store of Lerner Shops of Florida, Inc.

"No, said Grandpap Seth Wiggins, "I never made a practice of stopping and reflecting on the opportunities I missed. Chances are if I did this I'd miss some more of them."

Health-Germs

By George Starr White, M. D.

SALT

LOS ANGELES,—Salt is a substance that is being consumed in ever increasing quanities, but which any one who wants to keep well must eat very sparingly, if at all, and which any one who is sick and wants to get well, should entirely omit from the diet.

Dr. Geo. Starr White

Common salt (sodium chloride) is made up of two powerful substances, namely, chlorine gas and metallic sodium. Sodium chloride, when united in a molecule, manifests its individual character by an intense molecular vibration. As one writer aptly says, "the molecular vibration of salt blinds the sense of taste and the tastebuds just as direct sunlight blinds the sense of sight to everything that is less bright."

After the continued use of salt, the sense of taste becomes so blunted to the natural flavors of food that nothing pleases except salt, or condiments of equal intensity. For this reason, salt is often used to hide flavors objectionable to the normal sense of taste.

Salt obstructs absorption of food and disturbs natural osmosis (interchange of fluids of different densities thru animal membrane). Every cell in the system that absorbs salt contracts and thereby disgorges its albumin and other constructive elements. This hardens the tissues and enhances arterio-sclerosis (hardening of the arteries).

Salt is responsible for many skin diseases as well as kidney degenerations. It appears to be responsible for many socalled goiters.

Salt causes an irresistable thirst, which has doubtless been one of the causes for the great consumption of alcoholic liquors.

Salt is useful for liquefying ice, and for certain kinds of refrigerators. It is often good in baths, especially for "a salt rub." It is a good emetic, and can be used as an irritant. It is good antiseptic and is useful for preserving anything not intended for food.

The salt habit in domesticated animals is caused by man perverting their natural taste.

Wild animals do not crave salt unless something be lacking in the food on which they are obliged to subsist. The "salt licks" that salt dealers talk so much about contain many other minerals, and are at times sought by pregnant animals if they do not have green food.

Salt is often the cause of "lumps in the breast" as well as inflamed conditions under the armpits, between the thighs, etc. This is easily proved from the fact that the majority of these disturbances cease when all artificial salt is taken out of the diet.

THE ORIGIN OF LIFE

Our students are requested to keep each issue containing Fundamental Principles and recapitulate the lessons from time to time. Those who take this study seriously will emancipate themselves from the Thralldom and the Slavery to Defeatism and set their feet on the path to Liberty and Mastery over their own lives.

To illustrate timelessness and the origin of life, bear in mind that while the smallest independent unit in the world of matter and force is the ATOM, the unit in the world of life is the EGO. "I" is the basis of all conscious life. Where there is no "I" there is no conscious life. Thus all of life to you and to me, takes place in our own consciousness and NOT outside of "I". This paradox is explained when you realize that looking at this paper, what you know is NOT the paper and the writing thereon, but the mind picture which forms in your consciousness from the sumtotal of physical and mental impressions gained by reading this on the printed paper. There are two things before you. 1 — the printed paper, 2 — the mind picture of the printed paper.

You never know the paper, all you ever "see" is the mental sensation in your consciousness from the report of the eye nerves in the brain. Thus, you, actually, SEE only the picture on the film of your brain and you interpret that picture and through correlative experience you identify it as a copy of THE BROOM. Even when you touch it with your hands, all you know is the report of the brain that you touched something, but you never know the paper itself. The "SEER" is the EGO and knows only what he sees in the brain, so that if your senses are defective, you would not know what there is written on the paper, which goes to show that you don't know the paper at all but only the picture presented to you in the brain. If that picture is defective, your knowledge of the paper is equally defective.

If the EGO has not developed sufficiently to interpret what the SEES in the sense report in the brain, he still does not know what this paper says even though the eyes are perfect and the brain functions first class. Suppose the EGO cannot read English, he could not interpret the picture in his brain to understand what I am saying here.

So, you see, then, that it is the INTELLIGENCE of the EGO which actually is the beginning of life. Thus life depends upon the degree of intelligence of each individual EGO and that is the secret of the mastery of life, of getting joy and wellbeing or suffering and strife out of life. As the individual INTELLIGENCE awakens into activity life becomes fuller, deeper and more intent; as the INTELLIGENCE is dulled, life loses momentum and becomes painful, in fact HELL.

The unit in the world of force and matter is the ATOM. But the unit in the living world is the DIVINE ATOM, the indivisible "I" and IN that Atom the world of the individual depicts itself and unfolds according to his own degree of perception which he may enlarge or narrow down according to the use he makes of his own faculties, or talents. All this adds up to the fact that the individual EGO is the creator of his own life, filled with joy and woes he makes to suit his own fancy and longings.

DOCTORS GIVEN MONOPOLY ON 37 DISEASES !

PORT HOPE, Ontario, Canada,—In the past Canada has been free from CLASS LEGISLATION but the recent amendments to the Pure Food and Drug Act of 1934 is real class legislation, because it is not made in the interest of of the public, but IT IS MADE IN THE INTEREST OF THE DOCTORS,

These Amendments Take Your Liberty From You

Section 64 Pure Food and Drug Act:

NO PERSON shall import, offer for sale, or sell any remedy represented by label or by advertisement to the general public as a treatment for any of the diseases, disorders or abnormal physical states named or included in Schedule A to this Act or in any amendment to such Schedule. 1934, c. 54, s. 2.

SCHEDULE A (The list the doctors now have a complete monopoly over.)

Alcoholism, Appendicitis, Arteriosclerosis, Blood Poisoning, Bright Disease, Cancer, Diabetes, Diphtheria, Dropsy, Epilepsy, Erysipelas, Gall Stones, Kidney Stones, Bladder Stones, Gangrene, Gastric and Duodenal Ulcers, Goitre, Heart Diseases, High Blood Pressure, Infantile Paralysis, Influenza, Lockjaw, Locomotor Ataxia, Obesity, Pleurisy, Pneumonia, Ruptures, Scarlet Fever, Sexual Impotence, Small Pox, Spinal Meningitis, Trachoma, Tuberculosis, Tumors, Typhoid Fever, Veneral Diseases. 1934, c. 54, s. 4.

Why Should It Be Made Compulsory To Go To Doctors For Treatment Of Above Diseases When They Have No Cure For Them ? ? ? ?

If the doctors had a cure for the above diseases it would not be so bad, but the fact is they have NOT, as those who have tried them know. It would not be so bad if all doctors were efficient, but they are not, there is failures in the medical profession as well as any other line, yet these failures have this monopoly also.

It cannot be said that the above legislation was put into effect because there was no remedies on the market that was doing good for the above diseases, because those who have used the simple home remedies for the above complaints know better. Of course it is quite possible that it was put into effect because the public have been getting much better results from simple home remedies than they could get from the doctors (and a lot cheaper too)—this might cause them to use their power in parliament to compel the people to go to them wether they can produce results or not.

A Sad State Of Affairs

It is a great mistake to elect so many doctors to parliament, but perhaps this is the reason they are so anxious to be elected. THIS NEW LEGISLATION HAS TAKEN THE LIBERTY COMPLETELY AWAY FROM THE CANADIAN PEOPLE—AND MADE IT COMPULSORY FOR EVERYONE TO GO TO THE DOCTORS for treatment of above diseases—EVEN IF THE DOCTORS HAVE NO CURE FOR THEM—because NO PERSON in the Dominion of Canada IS ALLOWED TO SELL A REMEDY FOR ANY OF THE ABOVE DISEASES, even if they had a positive cure for the above diseases IT IS NOW ILLEGAL TO SELL IT, and the sufferer must either go to the doctor or keep on suffering, it is also ILLEGAL for a person TO IMPORT A REMEDY from another country OR BUY ONE IN CANADA EVEN IF THAT PERSON KNEW OF ONE THAT WOULD CURE THE COMPLAINT.

MEDICS LICENSED TO MURDER HOUSEWIFE DIES IN CANCER TEST

LOS ANGELES,—Mrs. Rufus Nugent, 30 lost her last chance for life when she died in the refrigeration chamber at the Queen of Angels hospital during freezing treatment for cancer.

The Ventura housewife died after 17 and a half hours in the chamber, while undergoing a test to determine if her heart could withstand the five-day treatment recently developed by scientists in the fight against cancer.

Mrs. Nugent was one of the first patients on the Pacific coast to undergo the ice pack technique.

Dentist Succumbs

PHILADELPHIA,—Dr. Kolman C. Horvath, a dentist of Lorrain, O., died in Temple University hospital where he had been confined more than a month for the "frozen sleep" treatment of cancer, hospital officials said. Dr. Horvath, who was 33, died after having shown some improvement during the first few weeks of treatment.

SUMMONS

In the Superior Court of the County of San Diego, State of California

No. 98156

Maria Merino Maldonado, Plaintiff, vs. Ramon Ernesto Maldonado, Defendant.

Action brought in the Superior Court of the State of California in and for the County of San Diego, and the Complaint filed in said County of San Diego, in the office of the Clerk of the Superior Court.

The People of the State of California send greeting: To Ramon Ernesto Maldonado, Defendant.

You are hereby directed to appear and answer to a complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of San Diego, within ten days after the service on you of this summons—if served within this County; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgment for any money or damages demanded in the Complaint, as arising upon contract or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and seal of the Superior Court of the County of San Diego, State of California, this 21 day of November, 1939.

J. B. McLees, Clerk.

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

NEW YORK, (Radio Broadcast),—

How the little Swiss Republic has developed an actress spy like some of ours in Hollywood. Her name is Nina.

Ingersoll

California, after the jitters over a sane tax on land values, and after Uppy Sinclair's close shave is still threatened with "Ham & Eggs" for all at $30 a week, ala Townsend.

The Hull Free Trade treaties are being threatened with the constitution by R. I. protectionists.

Mr. McNutt, whose claim to the presidential nomination seems to be a unique name and a charming smile, is leaning back on a big W.P.A. appropriation for his own state of Ohio.

Brooklyn has politics in such dangerous form as to bring out vigilantes, Ku Klux, Gestapo, and Ogpu.

Shades of Mark Hanna, Republicans of New York are passing the hat for campaign funds, and 2000 have given $162,679. This is "frying the fat"!

Brook school teachers have fought valiantly for the politician's right to two pay envelopes—and lost.

Havelok Ellis, famous sex philosopher, gives the world "My Life" on which he worked 40 years.

The question is raised by a columnist about our national defense, as to whom this will be designed to resist?

I thought I knew something about horses. Our Old Pete, on the Michigan farm, was 18 years old, which I thought was the limit of old age for horses. But here comes Jean d'Arc, who was through the World war, and is 30!

I approve of censoring propaganda films of hate. I hate Hitler, but I don't try to organize my hate.

Meet Mr. and Mrs. George and 3 little Georges, fresh from London to enjoy our free air permanently, where there are no gas masks, bombs, or blackouts.

"SCIENTIST" INGERSOLL HATES HITLER

Lines Up with the Jewish Tribe for War

In last week's issue of THE BROOM Chas. H. Ingersoll announced in his column **"democracy"** that there is one thing he covets and that is to be known as a "scientist". In this issue you will find his announcement that he 'hates Hitler.'

Friend Ingersoll, like Beckwith, both are moral cowards and for this reason they want to join ranks with Einstein as "scientists". Beckwith is a socialist, Einstein is a communist and Ingersoll depends upon the shekels of the Jewish tribe for the continuance of his "scientific" work and radio programs;—thus the great scientist publicly announces his hate of Hitler, which opens up the Jewish purse to him.

But poor "horrible example" de Aryan who is a mere moralist and a "martyr" hates neither Hitler nor the Jews, because it is immoral to hate living beings, since all are children of the same Father. Now this moral attitude makes it possible to properly evaluate the Jews as well as Hitler, because where one's mind is not beclouded by hatred one can think straight and judge clearly.

We refuse to line up with the Jewish Tribe for War and we dare say so publicly because we are a moralist who is lined up with Christ. Of course, "scientists" Ingersoll, Beckwith and Einstein, they don't agree with our "moralist" view and actions. It's their funeral, not ours.

O L I V E S
GIFFORD'S California Olives

BECKWITH MUST BE ENGLISH

Bears False Witness Against Himself

Ain't that heck when a socialist does not know he is one! That's the fix poor L. D. Beckwith, purveyor of the new RENT religion of the Stockton Oracle, finds himself.

Beckwith denies that he is supplanting religion with his brand of "economic science", he denies that he indulges in personalities but claims that he conducts his paper, THE FORUM, along strictly scientific lines while poor "moralist" de Aryan, indulges in personalities and mixes religion with "science" and is a horrible example" of a well meaning "martyr" gone haywire.

Not long ago, after denying that he indulged in religious arguments in his "scientific" paper, Beckwith assailed a number of preachers because THEY DID NOT TEACH ECONOMICS from the pulpit. The same Beckwith who got into a religious argument with de Aryan whether Jesus Christ ever taught economics. We said He did, Beckwith denied it and said that He taught only spiritual salvation. THEREFORE, because He did not teach economics, according to Beckwith, the poor socialist assails the preachers for not preaching economics from the pulpit. Evidently Beckwith is English, or perhaps Canadian, or worse.

A socialist is a half moron who dares not individualize but tangles himself up with "if, when and as", the herd, the mass, society will "generally accept" his viewpoint. Thus he is buried in the mass of morons and presents a defeatist attitude, because he can go no farther than his fellow morons. The individualist does not depend upon the moronic mass for his progress and success in life. He forges ahead on his own merit and uses the talents God gave him to make good even if the rest of the world prefers to go to hell. And to conceal his moronic cowardice, Beckwith calls the individualist a "horrible example" of a "moralist" and blabbers about the superiority of the "economic scientist" while burying his talent and waiting for the herd to—emancipate itself from the herd (sic) — ! ! ! ? ?

All human progress means emancipation from the herd and emerging as an individual in his own right.

STEUBEN SOCIETY OF AMERICA

(Continued from Page One)

We believe that the future of American youth is on top of American soil, not underneath European dirt.

Americans of Germanic extraction do not want Communism or Fascism, or any other foreign isms in this country.

But we also ask the Government and the Dies Committee to investigate British & French propaganda prevalent in this, our fair land.

Let's get the truth about the Alliance Francaise. Have we forgotten that France some years ago set aside a huge fund for propaganda to be used in the United States of America?

What's sauce for the goose, is sauce for the gander.

I ask every American citizen of Germanic extraction to continue to live up to the traditions of this country.

I ask every American citizen of Germanic extraction to be neutral in word and deed.

I ask every American citizen of Germanic extraction to stand together to protest and fight against all attempts to entangle our country with foreign alliances, or to break down our neutrality, all of which would jeopardize the independence of our country and our democratic form of government; and against any and all acts of discrimination against any American of Germanic extraction.

There must be no repetition of 1914 to 1917!
We must not be involved in war!

THEO. H. HOFFMANN,
National Chairman.

COMMUNISM, FASCISM & GEORGISM

"Science of Economics" Another Bad Dream

The order of the universe is simplicity itself. It depends upon us human beings whether we benefit or create havoc. And wherever human beings operate the MORAL LAW rules supreme.

What is known to-day as Communism, Fascism and Georgism is nothing but the feverish reaction of the human organism from violence. That all three isms are nothing but fever induced by violence, is demonstrated by the fact that "students" of economics, such as Wilcox, Otto and Beckwith have finally been forced to admit that there is no science whatever in economics, because the higgling of the market determines the RENT. Unless one would claim that higgling is science, the big nightmare of "scientific enonomics" and the battle, among its diverse adherents and opponents, against windmills has been exposed for what it is.

This economic fever was brought on by the simple fact that the MORAL LAW is being violated when violence is introduced in the collection of the RENT. This encroachment of embezzling by force with the sanction and backing of the state, what does not belong to the collectors, creates complications known as "capitalistic encroachments" or else "feudalistic systems of land tenure" and the result is the same.

The simplicity of the MORAL LAW is evident. Since the RENT is corporation property of the public corporation it is not property of any private individual. After it has been credited to the corporation then it shall be paid out as wages, interest to those who have claims for it upon the corporation. This lack of honesty brought on the complications and the resultant fever as Communism, Fascism and Georgism. The moment honesty is applied everything is well.

Fletcher Sponsors Red Light Districts

(Continued from page One)

"The bill was passed by the Senate ... then the Assembly killed the bill..."

* * * *

This quotation from Percy Flage's interview of Senator Fletcher proves two things. First, the red-light abatement provisions had been totally eliminated, otherwise it would not be possible to re-introduce segretated red-light districts by local option; second the Senator admits that this bill passed the Senate and was killed in the Assembly. Several weeks ago we quoted the Senator's vote as favoring S. B. No. 497 just mentioned.

After all the fight that California church people made to do away with red-light districts, Senator Fletcher voted in the Senate to bring them back. It PAYS HIGH RENTS to the landlords and the Senator is a real estate man, more interested in the rents than in the people who must serve as prostitutes and who are being fleeced by every politician before and after election, who otherwise threatens to close the red-light district.

In other words, Senator Ed Fletcher did not only vote to repeal the red-light abatement act, but worse than that, he voted to bring back the red-light districts which have been such a sore spot of corruption in California politics, because the prostitutes were not only fleeced by the land lords for high rents, but had to pay protection to every political pimp that ran for office, in fear that if she did not kick through she would find herself persecuted and put out out "business" by the police under one pretext or another.

What we said before stands: As a Senator Ed Fletcher favors the political pimps and that is why he voted for his kind.

Is that the man we want to send to Washington?

PLATO AND SOCRATES ON WAR

By Lillian R. Carque

Carque National Foods Research Glendale, Calif.

Plato in his dialogue, "The Republic," represents Socrates as describing an ideal city whose inhabitants subsist on a simple vegetarian dietary. Glaukon objects to the simplicity of the fare and Socrates replies as followss:

" 'Now it appears to me that the city which we have described is the genuine, and, so to speak, healthy city. But if you wish us also to contemplate a city which is suffering from inflammation, there is nothing to hinder us. Some people will not be satisfied, it seems, with the fare or the mode of life which we have described, but must have, in addition, couches and tables and every other article of furniture, as well as viands . . . Swineherts again are among the addition we shall require — a class of persons not to be found, because not wanted, in our healthy city, but needed among the rest of the addition. We shall also need great quantities of all kinds of cattle for those who wish to eat them, shall we not?'

" 'Of course we shall.' replies Glaukon.

" 'Then shall we not experience the need of medical men also to a much greater extent under this than under the former regime?'

" 'Yes, indeed.'

" 'The country, too, I presume, which was formerly adequate to the support of all its inhabitants, will be now too small, and adequate no longer. Shall we say so?'

" 'Certainly.'

" 'Then must we not cut ourselves a slice of our neighbor's territory, if we are to have land enough for both pasture and tillage; while they will do the same to ours, if they, like us, permit themselves to overstep the limit of necessaries and plunge into the unbounded acquisition of wealth?'

" 'It must be inevitably so, Socrates.'

" 'Will our next step be to go to war, Glaukon, or how will it be?'

" 'As you say.' "

Thus over two thousand years ago, two of the greatest philosophers clearly saw the evil and far-reaching efforts of flesh eating. Yet even now there are comparatively few people who recognize that the psychic and sociological influences of the slaughter house are a sourec of never-ending immorality, brutality, crime and war. The slaughter houses dull our finer sensibilities and make us indifferent to the sufferings of our fellowmen; the slaughter houses cannot be reconciled to a higher civilization. Indeed it is impossible for a man to remain a criminal after he once becomes cognizant of an underlying basic unity of all life and his obligation to the kingdoms below man - our younger brothers. Only by living in harmony with Nature's laws on all planes and in all relationships, will we restore harmony within ourselves and amiable relationships with our fellowmen.

—o—

BANDITRY

The Union boss says: "Let's unite
And all those damn employers fight!
A man is worth all he can get
Why should we for our wages sweat?"

And so they hold up right and left
With union contracts, legal theft,
Until industry is all killed
Conditions for their misery fulfilled.

My friend beware of their ways,
They do not lead to happy days!
Big wages only he can earn,
Who gives BIG SERVICE in return ! ! !
