GOON ATTACKS EDITOR

Taxi Driver Arrested After Helping Prisoner Escape

Civilian Arrest Upheld by Court

Any civilian may arrest a person who commits a public offense in his presence and any person who aids in the escape of such prisoner is liable for the same offense committed by the prisoner; if a misdemeanor the rescuer gets a county jail sentence, if a felony the rescuer goes to the state penitentiary. This was the substance of Muncipal Court Judge Clarence E. Terry's verdict when sentencing Roy Black in police court last Friday morning upon a charge of aiding de Aryan's prisoner escape from his custody.

Last Thursday noon, when the Rotary Club was having its usual dinner at the San Diego Hotel, the pickets in front had been trebbled in number and also resort was taken to goon squad intimidation, so well known among AFL labor thugs, to beat up our editor & take his sign away from him with which he was exposing the fact that the **pickets themselves were getting less pay** than the employees of the picketed hotel. A fellow much heavier in size than de Aryan, hit him in the head and tore up his sign. The editor placed his assailant under arrest. They tusseled, de Aryan hung on and the goon got scared and walked away, de Aryan with him. The police was called upon de Aryan's request and the goon looked for a way to get away from de Aryan who stood with him no matter how often he was hit. A taxi cab was cruising. The goon hailed it and asked the driver to "take me away from him and don't let him get into the cab". The editor warned the driver that the goon was under arrest, but the goon prevailed, they being two against one, de Aryan took the driver's number. Police arrived, hunted the driver, lodged him in jail on the charge of aiding a prisoner to escape. Next morning the judge sentenced him to 45 days in jail and suspended the sentence when de Aryan explained that most likely the driver did not realize what a serious offense he was committing.

Full details of the occurence with quotations from the Penal Code sections authorizing civilian arrests for public protection will be given in the Wednesday broadcast over station KGB at 8:15 p.m. It is listed in the Union, Tribune-Sun radio log under 'Timely Comments' because the daily paper will not give its true title of "de Aryan Comments" unless we pay them a dollar. We won't help their racket since they refuse to voluntarily serve their readers truthfully.

The Labor Racket

What have you got against labor unions, they are helping the poor workers get better wages and working conditions,—is what so many people say to me. Now I have nothing against anybody improving their wages and working conditions, on the contrary, I am for them. It's the natural thing to do, it's our duty to strive for progress in every respect. The more well to do the average person becomes, the better the living conditions for all of us.

But I am hell on the parasites who play a racket under the pretext of improving the conditions of the wage earners. As soon as organized labor gets rid of the cooties who infest the heads of the various organizations, organized labor will again become American in viewpoint and action. Until then, of course, we will have to expose the parasites.

Cowan Walter, International Parasite

If at any time that a strike is called by Walter Cowan, of Los Angeles, from the Hotel and Restaurant Employes International Alliance, Comrade Cowan would have to do the actual picketing at least six hours a day at $1 for each three hours and nothing more, how many strikes do you imagine he would engineer? That is what pickets get paid who picket in front of the San Diego Hotel, only they do not get the $2, they get $1 and must live on it. How can they live on a dollar a day? And this labor parasite has the gall to come out and say that he does not approve of the wages the Hotel pays when it gives its employes two meals a day and the option of a free room in addition to wages and tips.

L. W. Wilson, Business Agent

The Cooks, Waiters and Helpers Union, local 402, is being ruled by L. W. Wilson, who gets his $50 a week, rain or shine. He does not tote a sign on his back at $1 a day. He loafs about the premises, herding his pickets, some of whom don't even get $1 but **must work for nothing or pay a fine.** Now what right has this labor louse to yell that the Hotel is underpaying and mistreating its help?! The Hotel does not force its employes to work overtime on their day off, without pay. But Wilson forces the members of his union to do that very thing and he collects $50 a week for loafing, keeping herd over his slaves.

Ed Pierce, Sec. Trades & Labor Council

Suppose Ed Pierce shouldered a picket sign and walked up and down for three hours at least each day and proved his loyalty to the cause by collecting no more than $1 a day during the strike to show that he does not set himself above the rank and file but gladly shares their hardships as befits **their servant.** An official in an organization is an elected servant, **not the master** of the organization. But would Ed Pierce stop being a leech upon those who contribute their hard earned wages to his upkeep and the upkeep of the strike? Once this rule prevailed how many strikes do you imagine Pierce would vote for? And why not?

John W. Brown, Presiding Parasite

When I started carrying my sign last week calling attenion that Brown is drawing $75 a week for loafing, Brown decided to make a show of earning his living. He shouldered a picket sign and marched up and down with his slaves in front of the San Diego Hotel. He realized how well my sign described him. The pickets have to work for the measly dollar or starve. Brown complained to me that I was not telling the truth about his salary. He claims he gets $75 from the Labor Council and $50 in addition as business agent of the Bartenders local. If that is so then this labor parasite draws $6500 a year, while he works his slaves at $1 a day and some must work for nothing as long as they have a paying job, by coming on their off day to put in 3 hours overtime. And these racketeers claim they oppose overtime work **without pay for employes.**

Medical Octopus Gets More Balboa Park Land

40 Acres Sought for Big Barracks; Election Needed

San Diegans at the spring municipal election will be asked to deed more Balboa park land to the government for Naval hospital expansion, if the city council concurs with the park commission, which recommended that such a proposition be placed on the ballot.

In the interim, the commission urged that an occupancy permit be granted to the government immediately, so work can be started at once on two double-decked barracks for which, it was reported, $180,000 is, or will be available.

Nursery Must Move

Site sought by the navy includes property on which the park nursery is situated, and the commission recommended that the government be required to:

1—Pay the cost of moving the nursery and

(Continued on page Six)

Hiram Johson Exposes War Mongers

SAN FRANCISCO,—U. S. Sen. Hiram Johnson, veteran Republican isolationist, said the United States is being led directly toward war and when the time is propitious, "those in command will take us in".

"You'll have to ask a bigger man than I," he said when asked whether this country would get into the war. "But that we will get into it there is no doubt in my mind. We're edging nearer and nearer every day."

He said there was no question as to what the final result would be but "when it will be I can't tell."

"Those in command of us are perfectly mad to be in the game."

Johnson said he objected to this country's fighting another country's war.

"And not only fighting a war, and furnishing the men, but paying for every part of the war as well."

Fighting for British Feudalism & Bureaucracy

Sen. Johnson realizes that the U. S. A. **has already been betrayed** into the war to bolster the grip of British Feudalism and Imperialism upon the globe. But he does not realize as yet that Britain is not a "democracy" and is the opposite of what our traditional aspirations are for free American citizenship, free institutions and a government of free men. I lived in British India before coming to the U. S. If the British government were a "democracy" with equal human rights for all, do you imagine I would have come to the U. S. A.? They have no classless society in Great Britain or its colonies. They have a monarchical, feudalistic system which divides the people in three classes. The Nobility with its House of Windsor as Royalty, attended by the House of Lords and the lesser peers and barons. The second class are the white commoners in Great Britain and the colonial possessions. And the third class are the natives of the colonial empire who have no rights except such as the burocracy sees fit to give them. Had Great Britain been a country of free opportunities and of inalienable rights of the individual, had the British imperial policy been one of benevolent paternalism instead of criminal exploitation of the native peoples, I would be today a British subject and well fixed, for I had good connections, both among the nobility and the goverment burocracy. But I came to the U. S. because Great Britain is as far away from equality and human inalienable rights as Jesus Christ is from war.

The Church of England is a government institution and the King of England is the head of the church. That is absolutely contrary to American concepts of liberty. And results can be seen in this typical dispatch of the Associated Press from Montreal, Canada. Not only is the pension fund of the English clergy invested in Vickers, Ltd., the munition trust of England, but the dispatch shows that a missionary instead of teaching the Gospel of Love and of Christ, had to use his ingenuity to teach the gospel of war to some simple minded Eskimos who could not conceive why whole peoples should murder each other.

"MONTREAL,—Canadian Eskimos who could not understand why anyone would get mad enough to fight had to be given a premier version of the European war, said Father Stephen Bazin, 37-year old missionary. He explained to his congregation at Iglooik on Melville peninsula far up in the Artic, he said, that the war came about when, 'one people tried to steal another's property'. —'I told them that one people—Germany—tried to steal Poland', said Bazin, who spent 11 years in the Artic without visiting civilization. 'I told them that the big boss—England and France—tried to stop the theft and had to fight Germany'."

That sounds very plausible, but how many know of the conspiracy by which the U. S. is to become a vassal state of England again, under the pretext of joining a Federation of English speaking countries where we would be hopelessly outvoted and become subjects of the British King. "Union Now" by Clarence Streit

THE BREAD WAR IN SAN DIEGO

Continental Bakery Cut Price of Wonderbread to Ruin S. D. Bakers

KGB, Wednesday night 8:15, Dec. 4, 1940

A large Baking Co., with headquarters in New York, has cut the price of the pound-and-one-half loaf of bread to 10c in San Diego, while the same loaf of bread sells in the northern part of California for 14c and in Oregon and Washington for 15c. Being interested to find out how this price war is affecting individual bakers in San Diego I called on John Devany, of the Devany Bakery at 3207 El Cajon

(Continued on page Six)

THE HIDDEN TRUTH

By Marie Harlow

CHICAGO,—You should have told your presidential candidate, Wendell L. Willkie, about the Law of Karma. He made a big to-do about President Roosevelt not debating with him, but he failed to see the karmic results (a part of his failure to win) when **he** refused to debate with the other presidential candidate, Norman Thomas who naturally was all set to ask him some very embarrassing questions about utilities stock etc.

Balance of Power

Harold Brandenburg, Editor of SESAMUMS of New York City, also a Willkie man, admits in the current November issue, that at the culinary art of making himself a nice pie of crow, he is adept, and at eating it thereof, not too sloppy. In reviewing my booklet, "The End of the Jewish Race", he has pointed out that a slight shift in voters would have elected Willkie, and he has figured out that the exact percentage so needed corresponds exactly to the number of Jewish votes (all for Roosevelt) in this country. 'Nuff said.

British "Democracy"

The democracy that we are supposed to preserve as it now functions in Great Britain last week sentenced Nehru, Ghandi's aid, both of whom have long held the Indian people in check against their starting a revolution for freedom from England, to four years in prison for making a speech, not of sedition, but in favor of PEACE! And did you know that the Pension Fund of the Church of England Clergy is invested in the stock of Vickers, Ltd. munition makers rivalling Krupp's in Germany?

Joe Kennedy's Play

What is behind all this clap-trap of Ambassador Kennedy? Obviously he has been in a position to know more than the rest of us. And just as obviously a man of his experience knew that when he said what he now denies saying that he would have to deny the statements to keep on the good side of his Boss whose ambassador he is, ("MY Ambassador, etc."). He declared that all of England is being continuously bombed. He said that Democracy in England is done for—that National Socialism is eminent in England. He said that it is the "bunk" that England is fighting for democracy —that she is fighting for self-preservation. He said we would never get the last World War debts paid to us in America. He points out that England has not yet called up all her eligible young men, yet is asking for our help. Is Kennedy playing politics, letting a little of the cat out of the bag at a time, to get personal consideration for his own position, denying his statements as soon as that is given him by the powers that be? Why shouldn't he inform America of all he knows?

"Christian" British Empire

As the Christmas season approaches, we see that the world is as bankrupt of good will as it is financially so. And the religious aspects of the War loom even larger. Great Britain claims

(Continued on page Two)

proposes to supplant the Union Jack for our Stars and Stripes. Read it in last week's issue of THE BROOM.

BEWARE OF TERMITES

We have two kinds of termites in California, the insects who undermine the wood in buildings and the insects who sell these buildings to unsuspecting newcomers from eastern and northern states. In the cold climate termites are unknown, so people from those states, when they come to California, are not aware of the fact that before buying a house they must inspect it for termites. Too many real estate agents work in cahoots with owners of termite infested buildings to sell them to unsuspecting newcomers. The California Real Estate Commission should enforce a rule that each sales-contract contain a clause where owners and salesman must attest that the home is termite free and has been recently inspected. That would void the sale and subject fraudulent owners and agents to proper penalties if the house contained termites. Then unsuspecting buyers would have a comeback and would not be holding the sack.

FREEDOM FOR THE BRAVE ONLY

A people may prefer a free government, but if, from indolence, or carelessness, or cowardice, or want of public spirit, they are unequal to the exertions necessary for preserving it; if they will not fight for it when it is directly attacked; if they can be deluded by the artifices used to cheat them out of it; if by momentary discouragement, or temporary panic, or a fit of enthusiasm for an individual, they can be induced to lay their liberties at the feet even of a great man, or trust him with powers which enable him to subvert their institutions; in all these cases they are more or less unfit for liberty; and though it may be for their good to have had it even for a short ime, they are unlikely long to enjoy it.—John Stuart Mill.

No Religious Freedom in U. S. A.

DULUTH, Minn.,—A jury of federal district court convicted seven men charged with evading the U. S. conscription act, and an eighth man, accused of counseling the youths.

The jury said Karl, Robert and George Marquardt, Arnold Patzoldt, Elmer Patzoldt, Archie Soderbeck and Delford Chapin were guilty of refusing to sign registration cards, while Paul Marquardt was ruled guilty of counseling the boys. All are from Pine county, Minn.

They pleaded that because of their religious beliefs they could not sign the draft cards. They said they had no choice "between God and government".

All except Paul Marquardt, father of Karl, George and Robert, were sentenced to serve one year and a day at the federal industrial reformatory at Sandstone, Minn. Judge G. H. Nordbye told Paul Marquardt to go home and take care of his family and farm but to return to court next March 1 for possible sentence.

The Hidden Truth

(Continued from page One)

to be fighting not only for Democracy with a capital "D", but also Christianity. The British Empire is 9|10 Moslem, bitter enemies of Christianity, and the remaining 1|10th is composed of Buddhists, Brahmins, etc, besides Christians. How then is the cause of Christianity and Democracy identical with Great Britain? Winston Churchill refused to close the munitions factories on the National Day of Prayer, evidently remembering that a week after The Catholic Church blessed France it fell. The Versailles Treaty was dictated by Clemenceau, an atheist. And the Press reports that the Pope, supposed to be the man nearest to God, has a 30 foot bomb-proof cellar built. An Englishman wrote complaining to the Methodist Recorder (London) about the removal of denominational signs from rural chapels. Said he, "On a recent visit to the country I was shocked to find I had attended a Baptist chapel under the mistaken impression it was a Methodist". What a blow! And this is what we are begged to preserve!

A Fifth Columnist

The real religion of war times was recently expressed by an uneducated negro, who said, "I ain't gonna go to no war. I ain't mad at nobody; Nobody's done nothin' to me. And if they did I'd forgive 'em".

Mystery of Destroyers' Trade

The No Frontier News Service recently stated that peace negotations of Britain and Germany went on in late August and were approaching a successful termination when Roosevelt intruded his offer of trading the destroyers for bases, and other secret commitments. Europeans frankly state that France and England would have settled their difficulties with Hitler but for Roosevelt's secret commitments to the Allies. Incidentally, the Electric-Auto-Lite Company, a heavy contributor to the Roosevelt campaign fund, is linked with the Moto Meter Gesellschaft Co. operating in Germany and supplying Hitler with his war material. Talk about the right hand knowing what the left is doing!

Golden Calf

Secretary of War Knox recently declared, before the New England Conference, a council sponsored by the governors of the New England states, that this war must be "an irreconciliable conflict which must be fought to a FINISH". There must be no negotiated peace! Money is to be made by the International Bankers if the war can be prolonged—what matter to them that millions of lives are lost?

Obviously this war is still one of economics, as well as of the changing ideologies, as some are wont to point out. It has been predicted by Biblical and other religious prophecy, as well as secular prophecy, that the world is soon to know a time when money will be non-existent. Germany is now operating without gold reserves, and this has upset the orthodox financial world, a matter fatal to the system of International Finance.

Ingersoll vs. Churchill

(Reprinted Upon Request)

In today's issue our friend Chas. H. Ingersoll reproves Britain's Prime-minister Winston Churchill for dwelling on the monstrosities of the enemy instead of suggesting an economic solution to the issues involved in the war. Ingersoll is as naive as Churchill, even though not wholly as ignorant, or does Churchill, know it, too, and refuses to apply it, even as Ingersoll knows what we are going to point out now, but he refuses to apply it.

Ingersoll, like many of the other "economic scientists" and prattlers of "democracy", knows quite well that LAW cannot be countervened, that LAW is inexorable in its effects in proportion to the force employed that starts the action. Ingersoll and his "economists" point out that Economics is controlled by natural LAW as firm as mathematics, so that no guesswork needs be resorted to, but the effect can be foretold from the cause and the initiative.

But Ingersoll and his playmates in Economics are making a fetish out of economics and therefore are just as blind mentally, as is Winston Churchill. The reason why Churchill does not offer to resort to the Golden Rule to bring about equitable conditions in the conduct of the British affairs, internally and externally, is because Churchill and the British people are murderers and will think of everything first, but think of Equity last.

And there lies the cause why with all the knowledge which Henry George has made available to the world, the world prefers to ignore it.

Take the U. S. for example. Here the people say in the majority: We want no war, but we know we are going to be led into it!

Did it never strike you that this is the picture of cattle being led to slaughter? Are Americans thinking beings, in control of their volition when they confess that they will be led to slaughter?

And why are they not a self-governed people but cattle that are being led to slaughter? Because they are what they eat, they reap what they sow.

The Law of Karma

Man is a creative being. He creates his own life, his woes and joys. He has chosen the path of murder, of treachery and he discovers that he is being murdered and robbed by treacherous rulers.

Man is the ruler of the animals. He has them entrusted to his care. What does he do? He raises them, feeds them, takes care of them; they learn to trust him, are even affectionate towards him and then he betrays and slaughters them. And eats their dead carcass. And their soul cries to heaven against this treachery and murder. The result: Americans do not want war, neither want the Germans, nor the English, but **all of them are being led to slaughter.**

And another point why Churchill and the world will not use common sense and apply the Henry George revelations in the conduct of their public business. These murderers, and you are one of them most likely, my dear reader, refuse to face the truth. They are **afraid to face the truth,** since the truth reflects the facts of their misdeeds and their mental treachery.

This habit of rationalizing themselves into continuing actions inimical to their own nature, since humans are not treacherous by nature they love to love and be loved, this habit of using their reason to destroy reason becomes so ingrained that when they get sick as a result of their unnatural mode of living they prefer to silence the voice of the body which announces the dis-ease, instead of removing the cause and changing their habits. In fact, they not only make their own bodies sick, **but rub it in to boot.** They do that by shutting off the means of communication when they take an aspirin, take a drink of liquor, coffee or resort to blood transfusion, serumizing, instead of producing their own blood and remedial serums in the blood.

This habit of using sophism to destroy reason by rationalizing a criminal trend is at the root of all our ills, individual and social. For if people loved the truth, they would seek their remedies in complying with the truth and they would free themselves from ignorance and its resultant sufferings when they conflict with natural LAW. This love of truth is called MORALITY and there can be no free society without morality. To free the world we have to point to the need of MORALITY, to the awakening of the spirit of responsibility.

Diana Curtis New President County Republican Women

Mrs. Frazier Curtis of La Jolla was elected new president of the Republican Women's federation held at Hotel San Diego. Mrs. Curtis succeeds Mrs. T. S. Whitlock who has served for the past year.

Mrs. Curtis comes to her new position amply fortified in experience, having headed the Women's Republican club of La Jolla which has been active in political affairs for many years.

The county organization of Republican women has been a vital force in political affairs under Mrs. Whitlock's leadership, and that of her predecessor, Mrs. Kathryn Niehouse.

Conscription Prevents Marriage; Substitutes Prostitution and Syphilis

SAN FRANCISCO,—A new offensive was launched by the northern area of the California church council, against bars and brothels in communities adjacent to Monterey peninsular military camps.

The church group charged that houses of prostitution were operating without restriction in Salinas and Monterey, and that the board of equalization was granting bar licenses "almost promiscuously".

The Rev. Norman W. Pendleton of San Francisco, legislative representative of the church council, said "it is reported that the property used for brothels may be owned by prominent citizens, and that is why they are permitted to operate in defiance of the California red-light abatement act.

"It might be advisable to publish the names of the proud owners of these buildings."

'Objectors' Attack Draft Bill Legality

NEW YORK,—Counsel for four conscientious objectors to the selective service act opened the first attack on the constitutionality of the law.

They advanced five basic arguments:

1—That the act violates the bill of rights.

2—That it is defective because it is discriminatory.

3—That it fails to provide adequate notice to drafters and does not provide for adequate hearings.

4—That it exceeds the powers of congress.

5—That it delegates vast legislative powers to the chief executive.

U. S. Book-Burners

Only in countries moving toward barbarism, such as Germany, do they burn books, so we are told by our civilized movies, press and radio. But why not make a wonderful movie about U. S. Government agents smashing the print shop plates of the book: "Our Country At War", by the late Chas. A. Lindbergh, M. C. Call it "Up From Barbarism in America", you know.

Burning a book leaves copies out-standing. Smashing the plates stops a book at the source. Burning is only a protest; smashing is so much more civilized and effective. Why smoke and smell, when cleanliness is so much more godly.

This Democracy of 1918, while we were fighting to make the world safe for democracy, is coming back; our war hysteria, thanks to the great god gold, grows stronger every day. Heil the coming freedom!—Money, N. Y.

Test of Draft Law Sought by Evaders

NEW YORK,—Attorneys for four men accused of evading the selective service law announced that they would start court action to test the law's constitutionality.

They indicated they would attack the law on grounds hat it deprived draftess of liberty without due process of law and that it subjected them to enforced servitude.

British Fifth Columnists Undermine America

The following is an excerpt from the Carlsbad Journal edited by Fred W. Mitchell, present foreman of the country grand jury who is investigating bookmaking with a view of keeping Los Angeles racketeers out of San Diego. Of course that would give San Diego racketeers a monopoly, for the grand jury will not stamp out gambling here. No siree, the home product must be protected.

Fred Mitchell bought the Carlsbad Journal years ago when I was living in Laguna Beach, working as a civil engineer and writing a syndicated column which was carried by the Journal among twelve other weeklies in Southern California. Fred Mitchell at the time was an ardent disciple of Haldeman-Julius and his companionate marriage idea. But Fred got reformed, he 'got religion'. He joined the Oxford group. A bunch of Britishers who are using the cloak of religion to propagandize the need of war, to "morally rearm the U. S. A." to fight for dear old England and the glory of British imperialism and exploitation of weaker peoples of the world.

At present these alleged followers of Jesus Christ are spreading the subtle gospel of psychological terror preparing the ground for silencing the true Americans among us into submission to fight for British tyranny once more, and "avoid" standing up for God and Truth.

One Foot In— The Other Shifting

We are just about one wiggle from the war.

Even though our government is extending assistance to England now to an extent perhaps beyond common knowledge, there is still a widespread sentiment in this country against what they call "fighting England's war".

If not already, it soon will be improper to criticise or object to what is going on if our country is to become actually engaged in war. The job then will be for everyone to pitch in and help win in the quickest possible time. The days for argument will be over. Our deepest concern from then on will be the undermining work of our Fifth Columnists. During World War 1 we had slackers, conscientious objectors, pro-Germans and other disloyalists who had to be looked after. This time we are liable to have thousands of "objectors" of one kind or another where we had hundreds before.

There will be the same probability of wrongfully accusing those under suspicion of being traitors in this war. For those who may have a tendency to secretly sympathize with those against whom we are at war yet who are genuinely loyal to America, **the better part of wisdom will be for them to avoid all appearances of evil.** People are not always altogether fair and reasonable in their judgment when their country is at war. That is too bad. But that is the way it is.

WAKE UP !

The British Are Coming

They Want Us to Fight Their Wars Again

Draftees to Be Poisoned With Paralyzing and Habit Forming Drugs

By Stephen J. McDonough
Associated Press Writer

WASHINGTON,—Fifty thousand men who might escape the draft because of physical disability may be called to the colors during the next six months for special training.

They will form the rehabilitations corps—an army not entirely fit for military duty but with remediable defects which, after a few months of treatment, will put them in shape for full military duty.

Serums & Vaccines

Government and private laboratories have already started in on a vast program of preparing serums and vaccines for the protection of soldiers and medical men will have many weapons for their war against disease which were unknown in the last war.

The United States public health service is concentrating the work of typhus and yellow fever vaccines and army, navy and private laboratories are working with the feverishness of munitions plants in the making of smallpox, measles and typhoid vaccines, anti-tetanus and diphtheria toxoids, pneumonia serums and other preventive and curative drugs.

Concentrate on Drugs

And for the first time in the history of armament the drug manufacturing companies are concentrating on the production of tons of the new drugs—**sulfapyridine, sulfanilimide** and related compounds which are all but miraculous in their cure of pneumonia, some forms of meningitis, the group of diseases commonly called blood poisoning, gonorrhea, scarlet fever, erysipelas, tonsilitis, gas gangrene, undulant fever and malaria.

Habit Forming Drugs

Far-seeing medical men of the army, navy and public health service also saw to it that in the present emergency a sufficient supply of **opium,** from which **morphine** and other pain-killing drugs are made, is available.

For the past four years the United States has been importing huge supplies from Turkey, the principal producing country, until today 300 tons of the irreplaceable drug is stored in the United States treasury vaults in Washington. At the same time the United States department of agriculture is considering the growing of poppies in southern states for domestic production of opium.

The supply of **quinine** for malaria treatment may be cut off at any time since it comes primarily from the Dutch East Indies.

Synthetic Poison

However, experiments now are under way on the use of synthetic drugs which may be equally effective in protecting the health of troops moved to malaria areas either in this country or in the South and Central American republics.

What "Defense" Is About

By H. D. Kissenger

KANSAS CITY, Mo.,—The "plan in action" is to corner all the gold in the world under one Jewish head (Henry Morgenthau) and sock the Gentile for buying it, donating it to the Jews, socking the suckers interest forever on the public debt created to buy it and then "distribute" it back to the Jewish bankers throughout the world to control commerce and politics. But UNEASY LIES THE HEAD THAT OWNS THE GOLD. American Gentiles have donated 10 bilion dollars profit to Morgenthau, Baruch, Roosevelt, Cohen and Rothschild on gold purchases at an exorbitant rate. These gold purchases MUST CEASE. This 10 billion dollars which England and France are alleged to have at their disposal in this country is, in large part, nothing else than the profit they have realized by selling to Uncle Sam their $12 per ounce gold at **$35 per ounce.** In other words every time that England goes thru the motion of buying arms, planes, etc., she does so with money filched from American tax-payers by the Nudeal adminstration and yet England would not hesitate to use this 10 billion cash to buy war supplies FROM OTHER NEUTRALS if she could float loans for supplies "purchased" from us. BUYING GOLD! It is bad enough that Mexico continues to dig up silver for her feeble minded neighbor to buy and bury back in the ground. Thus it is that the uneasy head reads the sign of the times as the fate of predatory wealth nears. I read from Jas. 5; 1: "Go to now ye rich men, weep and howl for your miseries that SHALL come upon you. Your GOLD AND SILVER IS CANKERED and the rust of them shall be a WITNESS against YOU". Hence gold and silver are frail reeds upon which nations lean, for their power shall be broken. "The nations shall see and be confounded at all their might". Micah 7:16. Such warnings pass like water over a duck's back for the hindsight of the Jews and their Gentile stoogies seems to be better than their foresight; they prefer to follow after disciples of false doctrine for it is written: "The time will come when they will not endure sound doctrine". 2 Tim. 4:3. This is the "why" of refujews.

OVER THE DOORS OF WAR OFFICES

In 1790 Dr. Benjamin Rush, famous physician and signer of the Declaration of Independence, suggested that the following inscription be painted over the doors of war offices:—

An office for butchering the human species.
A widow-and-orphan-making office.
A broken-bone-making office.
A wooden-leg-making office.
An office for creating private and public vices.
An office for creating profiteers & bankrupts.
An office for creating famine.
An office for creating political diseases.
An office for creating poverty and the destruction of liberty and national happiness.

—The Adult Bible Class Monthly.

19 Men Indicted

LOS ANGELES—Nineteen men, between the ages of 21 and 35, were indicted by a federal grand jury on charges of violating the selective training and service act.

They are charged with failure to notify draft boards of changes in addresses, failure to register, failure to keep appointments for physical examinations and failure to return questionaires.

4 Sentenced to Prison in Draft Evasion

HARTFORD, Conn.—Four men, including a clergyman, were sentenced to three-month and one-year terms in the Danbury federal penitentiary for failure to register for military service under the selective service act.

All the defendants pleaded guilty, and were criticized by Federal Judge Hincks for their "stupendous conceit."

SEATTLE FEARS QUARANTINE

SEATTLE,—Fear that Seattle might be "quarantined" by army and navy authorities as it was for a time during the World war, spurred a vice clean-up at the instigation of a group of business men. The clean-up began with wholesale raids on Chinese lotteries in the "Skid-row" district and 15 establishments were closed. Other vice raids were reported in prospect.

California

Of all the states in the U. S.
Our State ranks first in happiness.
Abundantly we here do find
What's good for body, soul and mind.
Our climate, water, sun and air
Cannot be equalled anywhere.
Besides, there is no lack of food,
To keep us in a healthy mood.
But, are we similarly wise
To take our proper exercise?
Here is a chance for you to test
A system proved to be the best.
Make it your own, and it will pay
More dividends than words can say.

USE MY SYSTEM OF HEALTH GYMNASTICS !

A "POCKET GYMNASIUM"
Take it with you wherever you go!
20 EXERCISES—easily mastered on the basis of an elaborately illustrated Instruction Book and Guiding Wall Chart, which is designed to provide a reasonable amount of exercise for every important muscle, and to normalize the vital function of the various organs of the body.

SUMMONS
Superior Court State of California
County of San Diego
No. 101595

Eugene George Leonard, Plaintiff vs. Geraldine Leonard, Defendant.

Action brought in the Superior Court of the State of California in and for the County of San Diego, and the Complaint filed in said County of San Diego, in the office of the Clerk of the Superior Court.

The People of the State of California send Greeting: To Geraldine Leonard, Defendant.

You are hereby directed to appear and answer to a Complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of San Diego, within ten days after the service on you of this summons—if served within this County; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the Plaintiff will take judgment for any money or damages demanded in the Complaint, as arising upon contract or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and seal of the Superior Court of the County of San Diego, State of California, this 12th day of November, 1940.

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

PHILADELPHIA, (Radio Broadcast),—

Do business men ever stop to reflect on just why they are afflicted with short business and profits, New Deals, Arnold Committees, and such monstrosities as the third term of a (to them) pestiferous president?

Ingersoll

If so, is it not rather easy to see that these evils are all related to a tax system that is all loaded on to business, and which in turn is all loaded by business on to its 132 million buyers of its merchandise and service; and that these taxes double consumer-prices, and hence halve their volume?

This is the beginning and end of an endless chain of destruction.

Business has formed the bad habit of thinking someone or something will 'save it'. The last decade has nurtured this notion, just at the very time when the most destruction has been meted out to business!

This Communistic New Deal thinks it can save business by regulating it and then socializing it. The whole idea is wrong, and business must hurry and bury it, and get to a basis of independent thinking, or it will go down between monopolism and Communism.

The G. O. P. thinks it is the business man's friend. And the business man doesn't exactly know to the contrary, and so goes along wearing the G. O. P. collar.

Just now this is because the New Deal he was hopeful of has let him down; and he thinks G. O. P. the lesser evil, about which he is probably right.

But business must soon have something positive and constructive to build on. Following an old deal system of privilege, then a New Deal system of State-ism, and then back to Old Deal guesswork, is worn out.

An anti-climax is hid in the optimistic message of reporter Thompson, on his London visit during the whole Blitz visitation.

Rather than factual evidence of the headline cheer that the worst is over and the British people no longer afraid, this column seems to be a story of diplomatic news.

Shades of Lydia Pinkham! These shades are still profitable. Since 1925 officers have drawn a million, and stockholders five million dollars, although some of the former come around only about once in five years!

What a monument for a benignant face, a comely form, a big idea, and plenty of advertising.

To those of my feminine listeners who may have lost interest in this name, and therefore reduced purchases, the news will be welcome that profits were $278,000 in 1939!

To those who still faintly recollect the time when proprietors ran their own business, the decision that the Lowell (Mass.) Sun must reveal all wage data it possesses, to the Wage-Hour Administration, will be a reminder.

But not all such will understand that it is because such papers have helped elect G. O. P. presidents and 'advocated' such blessings as 'protection to American labor', this same labor is now able to swing national elections, and come into their offices with NLRB court orders!

Bathtub in White House

It is generally believed that President Fillmore had the first bathtub installed at the White House in 1850. However, some authorities claim that in August, 1819, President Monroe had one installed. It is said that the bathtub disappeared from the White House mysteriously and it was reported that Andrew Jackson had it removed because he felt that too much washing made men soft.

Raindrops Don't Change

Snow may melt and fall as rain, but raindrops do not change to snow, which condenses from water vapors.

—o—

Business is better than in 1932. But what does it profit a man to make $10 instead of $1 if new taxes take $9.

—o—

Said a lady to a clergyman: "Why do the clergy always address a congregation as brethren, when usually the majority present could better be described as sisters?"

"Oh," said the clergyman, "the one embraces the other."

To which the lady replied: "Yes, but not in church surely."

—o—

The Social Service experts about to graduate from San Diego State College will be a sorry lot if they take some of their required reading seriously. They will visit the maladjusted and will strive to reshuffle their blood corpuscles & rearrange their diet and instruct them in the art of taking a bath and presto! there will be no more social problems.—Southern Cross.

Auto Licenses

Automobile owners seeking 1941 license plates will not be notified this year by postcard of the amount due in vehicle license and registration fees as in previous years.

The total amount due is indicated on the lower left hand side of the 1940 registration card, James M. Carter, director of the Department of Motor Vehicles, announced it will be necessary only for the motorists to submit this card with the amount of the fee when the application is filed.

While his mother was away on a visit little Bobby's nurse took him to see his two old aunts.

"And how do you like living alone with your daddy?" asked one. "Do you hug and kiss him?"

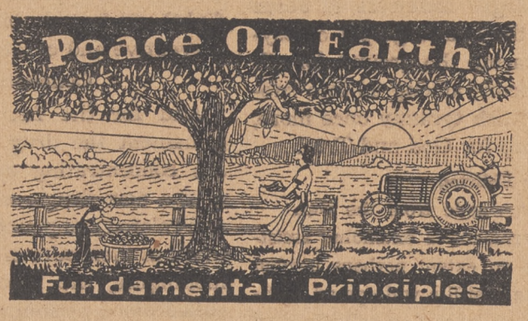

"Oh yes," said the little fellow, "Me hugged and kissed daddy last night."

"That's wrong," his nurse corrected him. "You should say "I hugged and kissed daddy last night."

"No," said Bobby; "that was Friday night."

HEALTH-GERMS

By George Starr White, M. D.

GERMS and MONEY

According to the soap advertisers, there are 27 different "germ disorders" that a person can take home on his hands. The chap with that many surely would have his hands full!

Dr. Geo. Starr White

Why is it that the "germ scare" never hits money—paper money especially? Surely that is not fumigated and disinfected as it passes from one filthy pocket to another — from one poor sick one to the rich dirty one, and so on.

Some time ago, a "laboratory sharp" from across the sea sent the solemn news that more un-health is caused by the handling of money than we have any idea of. He says the only "safe method" is to let the cash lie in the sunlight for an hour or so before putting it in the pocket!

Very few of us have a chance to handle enough "tainted money" to be "stricken"; and those who are so fortunate as to have a few dollars to handle, better be careful of sudden gusts of wind, if they hang their bank-notes out on the line to sun.

Another 'famous laboratory' man reported that germs would not settle down on money. (Afraid of a sit-down strike?) It keeps us hopping about to do what all these "professional experts" tell us to do.

If the "germ-theory" were one-thousandth as true as the "bug hunters" would have us believe, there would be no living thing on this earth. Don't fear "germs". If it weren't for the "germ-filled" money to be had for scaring people, we would never have been introduced to our "invisible germ-enemies."

F D R Birthday Ball Fund

(From Radio Talk, KGB (1330) Wednesday 8:15 pm)

As a result of the Third Term Election the prepartations for the yearly Presidential Birthday Ball campaign are going forward full blast. In connection with it I wish to call your attention to the published reports of the Foundation which gets the funds from this drive and appeal to human sympathy against Infantile Paralysis. Contrary to popular impression the Foundation report states definitely that the money is NOT USED to help children and defray expenses to give them treatments in the various swimming pools and naturo-physical institutes where they learn to regain control over their limbs through proper exercise. The report states definitely that the money is used for experiments on monkeys, on guinea pigs and on children to produce serum. They have over a million dollars accumulated to buy monkeys and make more vivisectional experiments. The monkeys are bought by the shipload from India.

Britain Censors Wrapping Paper

While we are talking about India it reminds me that Don. C. Bliss, American consul at Calcutta, advised the commerce department at Washington that Indian merchants were having a lot of trouble over wrapping paper where old American newspapers were used to that purpose. The British government exercises censorship that the natives may get no news of the world situation and demands that all the wrapping paper be turned over to the censor or else Americans use blank paper. I am telling you this because in America we have free press and a free press is rapidly becoming a rarity in this war torn world.

Grapefruit Rind is Flu Preventive

The change in weather at this season makes many people succeptible to colds and inflamaions of the lungs, commonly called FLU. The late Dr. Hanish used to tell us about a good Mazdaznan remedy for flu prevention. He said to take a whole grapefruit, wash the rind well with a scrub brush, cut it up in small pieces, rind and all. Take a quart of distilled water, bring it to a boil, then dump the grapefruit cubes into it and let it simmer over a very low flame for 15 to 20 minutes. Set aside to cool naturally, don't put it in refrigerator, then drink and eat that grapefruit and juice. The bitter part contained in the rind is much better than quinine. This together with the alkaline contents of the fruit itself tones up the system and many people get over the first fever for good. As soon as one is ready to eat a good meal, mix plenty of chopped garlic and parsley into a carrot salad and fill up on it. No selfrespecting flu germ will keep you company while you are full of garlic. They give you a wide berth.

CIO Sailors Complain About Russia

When CIO sailors of Harry Bridges' Maritime Unions complain about bad treatment in Russia at the hands of that great democracy with which so many of them sympathize as fellow travelers, then it becomes news. 25 sailors of the American steamship North King signed a complaint of mistreatment while in Vladivostock and demanded that before the boat again leaves its San Francisco pier each sailor receive a bonus of $250 to recompense him for being kept a virtual prisoner while in Vladivostock.

Importance of Strained Backs Siressed by Surgeon

The following appeared in a recent issue of the New York Sun: "The importance of cooperation between industry and employees in curing sprained backs that cost industry millions of dollars a year in lost time and treatment fees was stressed in a report by Dr. J. Huber Wagner, chief surgeon of the Carnegie-Illinois Steel Corporation in the Pittsburgh district, to the American Association of Industrial Physicians and Surgeons.

" 'When industry and society in general,' Dr. Wagner said, 'realize that a sprained back, however minor in nature, may become readily aggravated and the patient in a short time becomes a total disability if not treated by proper cooperation of all, then and then only the majority of these cases could be cured.' "

Indeed, proper cooperation of all is needed to reduce the tremendous amount of disability resulting from sprained backs—particularly cooperation between the medicos and the chiropractors and naturopaths. Many M. D.'s are recommending cases of sprained backs to practitioners of natural healing and are gratified in witnessing splendid results. More of this proper cooperation will benefit everyone concerned.—Chiropractic Journal.

"He was Transparent"

("Freely ye have received, freely give.")

Bombs may be very transplanting, and air-raids frequent and pregnant. Then, the years fly, and certainly our Cause must be immortalized. We can think of no better way than by the relation of some of the episodes and their lessons, as told by our revered Master, the Rev. Dr. Otoman Zar-Adusht Ha'nish, for every day we become more convinced that he was a true Reformer and that the message of Mazdaznan is the supreme and superlative Hope of the World, now ordained, to emancipate mankind from ignorance, superstition and the wiles of Mammon.

Hence, we dare to humbly record one relation of his that seems particularly of significance. We tried to re-tell it "Around the camp fire" at Heelsum, Holland, to our Youths there in 1938, and again at some of our Gahanbars; of course, very sketchily, but we hope it will be of interest to many.

Our Master when young was far from strong, he having been born with a weak heart. He tells how his parents tried about 19 physicians of every nation, but that none could relieve him. As a last resort they took him to the Math-El-Kharman Community, where the Patriarchs agreed to save his life, provided his Royal parents forfeited all claim to him and dedicated him to Mazdaznan. As he would have died had they not done so they were forced to agree.

When he was about thirteen years of age, one of the initiations was to fast forty days and forty nights. This he did. Immediately thereafter, he was told he was to accompany a party of pilgrims to attend a Gahanbar to be held at a place some 1,800 miles away, where they woud have to walk; but before going he would be immersed three times in an alpine glacier stream, ice-cold; not as he said "just sprinkled"; but dipped entirely and thoroughly.

Master telling of this incident said: "Imagine us a sickly boy with a defective heart, weak and emaciated after that long fast, being dipped three times in petrifying, ice water. Even now, after fifty years, we freeze at the mere thought. It was an experience we never forgot. The shock was so great that nothing ever after meant anything in comparison. We were livid, but immunised! How we lived, we know not. Sheer sub-conscious Will-power!

"No sooner had we been so baptized than the Expedition started off, and we with it. But we were too weak and sick to keep pace with it, and had but one thought—to throw ourself into the thicket to die. This we did; but the patriarch in charge came back and said to us, 'Royal blood never gives up'.

"We struggled to our feet then, and stumbled into our place, and kept agoing."

—British Mazdaznan Magazine.

Superior Court State of California
County of San Diego
No. 99928

John J. Kubecka, Plaintiff vs. Billie M. Kubecka, Defendant.

Action brought in the Superior Court of the State of California in and for the County of San Diego, and the Complaint filed in said County of San Diego, in the Office of the Clerk of the Superior Court.

The People of the State of California send Greetings: To Billie M. Kubecka, 307 E - North Ave, Baltimore, Md., Defendant.

You are hereby directed to appear and answer to a Complaint in an action entitled as above brought against you in the Superior Court of the State of California, and for the County of San Diego, within ten days after the service on you of this summons—if served within this County; or within thirty days if served elsewhere.

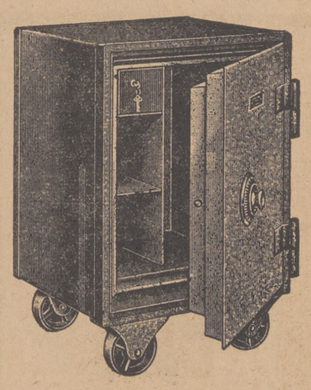

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgment for any money or damages demanded in the Complaint, as arising upon contract or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and seal of the Superior Court of the County of San Diego, State of California, this 4th day of June, 1940.

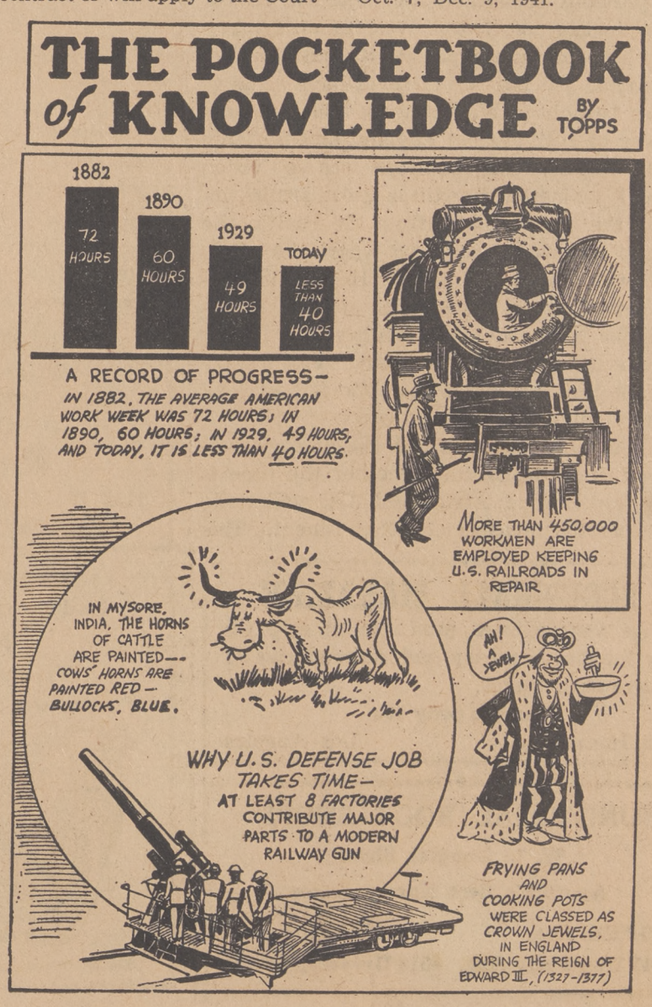

J. B. McLEES, Clerk.

George Washington's Vision

(From Radio Talk, KGB (1330) Wednesday 8:15 pm)

THE OLD WORLD WARS

Jesus Christ was mocked while he was hanging from the cross by having an inscription nailed over his head reading INRI, meaning Iesus Nazarenus Rex Iudeorum, which is Latin for Jesus of Nazareth, King of the Jews. The leaders of the synagogue had planned an armed rebellion against the Romans and when Jesus not only refused to lead them to war, but warned them that not one stone would remain upon the temple site of Jerusalem should they attempt an armed insurrection, the Jewish leaders decided on His death, calling Him a "misleader of the people away from Jehovah" who had promised the Jews complete rule over their native land. Jesus became a world martyr against war for what is called "liberty and democracy",—when He admonished His followers to follow in His footsteps for "only the meek shall inherit the earth while those who draw the sword shall perish by it." They crucified Him alright; they went to war against Rome and Solomon's Temple was razed so no stone remained upon another and only the wailing wall, the foundation on the side of the precipice stands where Jews congregate and wail and hit their heads against the rocks in vain.

The scourge of armed brutality continues to ravage the earth. It takes foreign born Americans like myself to appreciate what we have accomplished in the U.S.A. in the line of individual liberties and opportunities. But we who are foreign born and to whom America is the promised land of God, we take our duties towards our government and our fellow citizens exceedingly serious. We know what it means to be stepped upon by feudalism, by burocracy, by a government of men instead of a government of LAW. And when men like myself speak up openly against fighting for European and Asiatic systems of government we are being called Nazis, Fifth Columnists, Slackers and other such names. The fact of the matter is that I came to this country from British East India and have had first hand opportunity to become acquainted with British rule.

The Mill of the Gods Grind Slowly

"You cannot fool God, what man soweth that he shall also reap," says holy writ.

Let us look at how the Law of God works. Men may imagine themselves smarter than God and they are deliberately ignoring and breaking the Law of God and His commandments but they cannot escape the consequences.

How is it that Hitler has such a strong following? How was he able to put so many young men into Nazi uniforms until finally President Hindenburg turned over the government to him? One man alone cannot do things unless the people are ripe for it and want it, too. Now how were they influenced to the point where they followed Hitler, drove out the Jews from public and private offices and are united in their fight against Britain.

Young Germany of today are the children who were born during the last world war and who were starved during the British blockade of that war and the period after the armistice. In other words, they are children of the hardships imposed upon them and their parents by the British blockade and the result is a common feeling of enmity against England. That is how the Law of God works.

In previous broadcasts I commented on the reported vision of George Washington symbolizing three important phases of American development. So far two of them have come to pass as foretold in Washington's vision, namely the war of 1812 against England and the civil war of 1861-63. The third one was a vision where Washington saw three great armies invading the United States from the Pacific, the Atlantic and Mexico in a war where the whole world was united against us. He saw our armies retreating to the interior and much suffering for the conquered territory, but finally we were driving the invaders out. With victory won, the real American Republic is born and we are leading the world in peace.

Those who have studied Washington's visions are now wondering whether the time is near when Europe, Africa and Asia will unite in a concerted invasion of our continent. This winter may produce the decisive factors. If with all the abundance God gave us in foodstuffs, we let the subjugated peoples of Europe starve, as the Germans were starving during and after the last world war, we, too, will have broken God's Law and abused the trust He gave us when He blessed our fields with abundance of food. If general starvation comes to Europe this year, the epidemic of cholera which is already ravaging the European prison camps, as well as Poland and Bohemia, this cholera epidemic will spread all over the world and even we won't be able to escape it. Besides, the whole world will hate us and this will bring about the fulfillment of George Washington's third vision. We hold our own fate and the fate of the world in the decision we make this winter. That's all. Goodnight.

The Bread War in San Diego

(Continued from page One)

Blvd. Devany explained that he used to work for this large Baking Co. at the time that its manager here urged the Snowflake, Cramer's and Winter's bakeries to either lower the quality of their bread or raise the price to where the foreign bakery could make money. Devany explained that New York concern has a huge investment in machinery and cannot sell enough bread in San Diego to make a profit on this investment. He said that instead of raising the price to San Diego consumers, or lowering the quality of their bread, Snowflake, Winter's and Cramer's introduced the custom of selling day old bread at a lower price at their plants. It is plain from these disclosures that our San Diego bakeries refused to gouge San Diego consumers when they were making money at the old price and the high quality of bread they were producing. Now to force the local bakers to lower their quality or to raise the price the outside Bakery started the present bread war. In Los Angeles a similar action has already put out of business over a hundred independent bakers. Devany says he had to meet the cut in bread and is losing between $70 to $80 monthly.

The Hartung Bakery at University and 43rd St. has not cut the price of its bread. Hartung and Oats, the owner of the Bakewell Bakery at 4243 Park Blvd., are relying on the high quality of their bread and the good sense of their loyal customers to carry them through this bread war without any loss. They say the public is reacting favorably to the information given out in these broadcasts about standing by our San Diego bakers who have an interest in San Diego aside from just selling bread and making money. They are our neighbors and our friends.

CIO Lost Strike

For nine weeks past the CIO was picketing the premises of the Brunswig Drug Co. in San Diego as well as three drug stores in outlying sections because they were selling Brunswig merchandise. That strike has been settled finally on the terms of the Brunswig Co. and the strikers got nothing out of it except a loss in wages of at least $270 per man. The Brunswig Co. had offered from the start to maintain the old proportional wage scale for the 40 hour week to meet the change from the 42 hour week. But the CIO insisted on the Closed Shop. Instead, this is what they got. I am quoting from the contract they just signed: "The Employer recognizes the general principle of preferential hiring and **MAY HIRE** experienced personnel . . . . through the offices of the Union."

This type of contract leaves it optional to the employer to hire men through the Union which means the Closed Shop idea has been eliminated. The company also succeeded in eliminating the grievance and arbitration committee which was running the plant in previous years to the detriment of personnel morale. This is another step away from the Closed Shop. The majority of employes refused to walk out on strike and are $270 ahead each as well as in seniority.

Balboa Park Land Steal

(Continued from page One)

replacing the building.

2—Submit its plans for the proposed barracks or any other improvements that it might build, to the city for architectural approval, and

3—Pay title insurance and deed-transfer fees.

W. Allen Perry, park director, estimated that the plot contains "about 40 acres". Roughly, it is bounded on the north by a line 1000 feet south of Laurel st., on the east by Switzer canyon, on the south by the Naval hospital property, and on the west by the street car tracks which are just east of, and parallel to Park blvd.

Originally, the government had asked for "at least" 15 more acres. Naval officers, however, indicated that with rapid national defense expansion, additional land would have to be sought later, and the commission expressed belief that as much as possible should be turned over to the government at one time.

Naval Hospital Not Health Institution

When the people of San Diego were discussing the need of a site for a Civic Center building and it was suggested to place it in Balboa Park, where it belongs, and landscape the grounds where **all the people of San Diego** would do their public business in lovely suroundings, His esthetic majesty and selfappointed arbiter of San Diego's beautification, the Lord Almighty Himself, George W. Marston of the wilting geranium fame, said NO and his word is law. The Civic Center has been placed on the waterfront obstructing the path of commercial unfoldment and navigation, but the NAVY has been given all it wants of the Balboa Park lands to establish a center of medical experimentation in its government financed hospital.

Now when a whole nation pays for the cost of giving health back to its navy personnel one would imagine that **all the people** would be represented so that the **best thought and method** may prevail in each instance. There are cases where surgery is needed. There are cases where Chiropractic will adjust the trouble. There are cases where Osteopathy with intelligent massage will do wonders. There are cases where spiritual insight into the power of mind over the material organism will reestablish harmony in the organism as Christian Science has demonstrated time and again.

But, no. The naval hospital, supported by all the people, is turned over exclusively to one particular class of practitioners, the worst of them, the drug, the poison, the serum and vivisection squad and the best lands in our public domain are handed over to them without question.

Infringement of Citizens' Sovereignity

When the park commission grants an occupancy "so work can be started at once on two double-decked barracks", it is plain that the spring election is to be a joke and a farce. It is taken for granted that the medics will get their land and expand while the common people are kept out. The park belongs to all of us, not only the Navy, but only navy people are admitted to the hospital and only medics rule the roost. Many patients would be alive today had they received proper non-medical treatement.

LeRoy Richard's Misfortune

I have been besieged by telephone calls urging me to give publicity to the fact that citizens don't approve of the recurring incidents where public officials are driving county cars in a partly inebriated condition and after pleading guilty to collisions are let out with a mild penalty. The complaining citizens insist that public officials who jeopardize human life and public as well as private property while driving a county car, should be held even stricter accountable for their acts than a private citizen. They are referring to the last misfortune which befell County Supervisor LeRoy Richards when he hit a man whose leg and skull was fractured and then drove away without giving aid. Richards plead guilty after arrest and is coming up for sentence. I agree with those who have asked me why the driver's license is not suspended in such cases to prevent recurrence.

A NEW VOCABULARY

CRUELTY—Starving G. Britain by wheat blockade;

KINDESS—Starving other Europeans by BRITISH Blockade,

PATRIOT—One who wants **your** son to die for an alien king;

TRAITOR—You because you don't care for that.

HUMANITARIAN—The man who smiles foolishly and says "I hate war" and proves it by keeping his son (Elliott) in a safe spot;

WICKED MAN—The man who says this is not a just procedure.

INDISPENSABLE—The man who loves power and wants to keep it for life;

UNNECESSARY—All us little men that he sneers at as ordinary common folk.

WILLKIE—A half-wit who wants us to have PEACE for the United States;

ROOSEVELT—A statesman who wants us to die for Calcutta.
