Lindbergh Tells The Truth

Communistic New Dealers Support "Mother Country"

By C. Leon de Aryan

I am being accused of un-American, subversive, race hatred, religious prejudice, anti-British, anti-Semitic activities and am being boycotted by the warmongers, Jews, Communists, Labor Racketeers, Britishers and New Dealers. And they accuse me of being pro-Nazi, even in the pay of the Nazis.

The truth of the matter is that I am for America first, and I am going far ahead of Lindbergh and the America First Committee. They are trailing behind me in my demands that America, its ideals as outlined in the Declaration of Independence from England; its principles as laid down in the Constitution; its tradition of faith as practiced commonly and unobtrusely by the people of America; that these be defended and upheld against foreign ideologists of every type and description. While the America First Committee agrees with me that far, they fall back behind me, far to the rear, when I demand an accounting of those, in power today, who are betraying America. The Committee piously says that we should stick to generalities and condemn what is going on but not call to account the individuals and groups who are doing the criminal and dirty work of sabotaging America from within and destroying the Republic for the profit of the warmongers and the loss of American mothers and boys, of the present and the next generation.

How would it be to pass laws against murder, in general, but charge the police and prosecutors with stirring up "hatred" against the murderers, each time they apprehended one of them and charged him with murder. But that is exactly how the defense in murder trials proceeds. They attempt to prejudice the jury by putting the District Attorney on trial and telling the jury what a bad and ruthless fellow he is because he wants to convict the poor innocent defendant who "being insane", temporarily, you know, killed a fellow.

And that is what is being held against me.

WAR is MURDER

And I don't confine myself to denouncing murder in general, I put my finger on the warmongers and say, that's the fellow, these are the groups, the classes, the nationals who want us to go to war **against our own interest** to save their "investments" and enthrone them by force in Europe and "everywhere in the world" where they have been **justly kicked out.** Of course, that makes me a Nazi, they say.

DOES IT MAKE ME A NAZI ?

Does it make you a Nazi to have cheered for Finland when Russia invaded it? Finland is in the Nazi Column and was at the time it was invaded by Russia, only you did not know it, because **you are an ignorant sucker.**

No, it does not make us Nazis to see what is going on. How could anyone of us be Nazis who in their very marrow are individualists, first, last and all the time. Again only **ignorant suckers** fall for the Jewish-British warmongering propaganda when they accuse me and THE BROOM of being Nazi inspired.

Nazism, which means National Socialism, is exactly the thing which I have combatted ever since Roosevelt was elected. Roosevelt is the American National Socialist, he IS THE NAZI. He has betrayed his oath of office three times in succession. He has broken every pledge and he has staffed his administration with Communists and National and International Socialists of all hues. He has discarded the constitution, packed the supreme court and is hating Hitler because he cannot quite imitate him; in fact it is nothing but the jealously of one primadonna for the other who holds the world's limelight.

Speaking at San Francisco, Lindbergh said:

"I would a hundred times times rather see my country ally herself with England, or even with Germany with all her faults, than with the cruelty, the Godlessness and the barbarism that exist in Soviet Russia."

"An alliance between the United States and Russia should be opposed by every American, by every Christian and by every humanitarian in this country."

Reds, Nazis Not Wanted

"The America First Committee has never accepted Communists or Fascists in its membership," he said. "We have never changed our policy in this respect. We accept no foreign way of life, and no foreign ideologies. We reject them all.

"But the idealists who have been shouting against the horrors of Nazi Germany are now ready to welcome Soviet Russia as an ally.

"They are ready to join with a nation whose record of cruelty, bloodshed, and barbarism is without parallel in modern history."

The Truth Shall Prevail

While the America First Committee has limited itself to keeping this country out of a shooting war, my business as an editor and radio commentator is to go much farther back and forward. My duty is to show what produced the war, WHO produced the war and what the PURPOSE of the war is; and who is PROFITING by the infliction of this world wide misery.

The moment I do THAT, then the criminals, singly and in groups, holler that I am anti-British, anti-Semitic, un-American, subversive and am stirring up hatred. Well if its stirring up hatred for the D. A. to charge the criminal with his crime and haul him before the bar of justice, THEN it becomes MY DUTY to awaken the people, who read my paper and listen to my comments, to the facts. It is very nice to confine oneself to generalities like Lindbergh and Wheeler and Wood and merely say "the interventionists", but I believe that I owe a greater duty to my readers: knowing who the criminals are, I am not going to protect them. They do all their dirty work with deliberation and malicious intent, they do it in order to kill my boys and yours on the battle fields and saddle us with bondage debts which will sap the blood even of our grand children, but they dare me to name them by name. I am naming them.

Call me anythnig you like, accuse me of lack of patriotism because I don't follow the LEADER (Fuehrer) who crawled into bed with the great democrat Joe Stalin, but I still refuse to follow FDR. I denounced him from the day of the NRA and he has never improved. He belongs in the penitentiary for 999 years, as he himself boasted.

And if it is so BAD to name and expose the criminals and their doings **HOW MUCH WORSE is it for them to do it?**

Why don't my accusers come back at me on the FACTS? Why do they resort to name calling only? Because **I can prove the FACTS** and they know it. They don't dare enter into a dispassionate discussion of how the whole massacre has been planned to divert the NAZIS from invading Russia, because the Jews control Russia already and their plan is to control America by throwing us into the war and bonding us forever.

Labor Racketeers Defied

The third Independent Union has announced its defiance of the organized racketeers in San Diego with the signing of a contract between the Mountain Meadow Dairy and the Independent Dairy Employees union.

The first union to defy the racketeers was the Solar employees association. Next were the employees of the Sand & Gravel pits. And now the Mt. Meadow. Hugh Sanders acted as attorney in organizing all three unions. As independents the employees refuse to pay tribute to the AFL and CIO racketeers and keep their money in their own treasury, electing their own officials and looking after their own interests.

It is a healthy sign that American workers dare organize for their own protection. For a while it appeared hopeless, when the racketeers forced one business concern after another to capitulate and sign up their employees against their will into dues paying membership of the AFL or CIO. The racketeers imagined they had everything their way. As long as the defeatist attitude prevailed among employers and employees the racketeers were king of the road, regular road agents. But finally the American spirit revolted. The three independent unions are the reply of San Diego workers to the tactics of the racketeers. It brings hope to the hearts of other employees and employers that the spirit of independence is not dead.

We offer our congratulations to the three unions and hope that many more will follow suit.

"In time of war prepare for peace!"

"de Aryan Comments"

Mary Baker Eddy Against War

FRED—Now that Russia has entered the war, do you still think Col. Lindbergh is right about a negotiated peace?

DAD—I happened to read Mary Baker Eddy's book MISCELLANY where she writes on Peace and war. Just one sentence settles the whole issue: "A bullet in a man's heart never settles the question of his life". That is exactly what we find in the scriptures, that "God does not want the death even of a sinner". Peace is always preferable to war and no Christian can deny it or any other person who follows the TEN COMMANDMENTS.

Christianity vs. Judaism

FRED—But does the Bible not teach that Jehovah told Moses to send out his armed forces and kill the natives of Palestine?

DAD—Yes, that's what Mr. Moses said. But the picture of God as painted by Mr. Moses is entirely different from the picture of God as painted by Jesus Christ. In fact, the contrast is so great that Jesus was killed by the leaders of the synagogue for it, when they brought charges of sedition and blasphemy against the Savior. Pilate could not save Him, even though he tried.

FRED—What is the difference between the God of Moses and the God of Jesus?

DAD—Moses pictures him as a vengeful, jealous god of war who meddles in human affairs and gives special privileges to a chosen tribe so that they are authorized by him to kill off the people of Palestine and take away their goods and women. Jesus on the other hand, pictures God as Our Father who loves all of us regardless of race or creed. Jesus makes religion scientific in that it works equally for all people without special privileges. He says that God is so wise and provident that nobody needs resort to violence to make a living. And to give an example Jesus let them crucify Him rather than fight the guard that came to arrest Him, as Peter started to do. No violence, there is perfect order and God is powerful enough to protect us, that is the teaching of Jesus.

Oath to Kill Is Blasphemy

FRED—Is it proper to take an oath to kill people?

DAD—An oath is a covenant between two parties subject to the Will of God. Now if both parties have FAITH in God and obey His Will, they could not possibly contemplate murder. How could an oath be valid to disobey God? If we take the teachings of Christ as the basis of our oath in dealing with one another, naturally, then we leave it to God to enforce it and need not resort to violence. That is what the example of Jesus signifies when He told Peter that legions of angels were waiting to defend Him, so that Peter had no business drawing the sword. But to give an example of complete submission to God Jesus gave His life.

FRED—If everybody followed this example there would be no wars.

DAD—And that is what Jesus came to teach us. We all must die, now the difference lies in whether we die obeying God or disobeying Him. Jesus showed us how to die in perfect faith and obedience to God, since after all the spirit is eternal and survives carnal death, while if we go counter to God's Will we break our ties of Faith in God and what do we gain?

Jew "Russianizes" the U. S. A.

Do not be dismayed when hearing, reading, or should you say it yourself, again and again, that the New Deal is Jewish and that Communism is Jewish, for you are telling the truth and it is your patriotic duty to tell the truth. It has to be repeated till it reaches every voter in the U. S. A. for upon this realization depends the survival of the Republic.

It is quite plain why the New Deal is hurrying to help the "Mother-country" now that Russia is being attacked. Most all subversive Jews hail from there and that is where Communism found its breeding ground. It took a deeply ignorant people, like the millions of Russian peasants and dull, but docile, workers to accept such a tyranny, like that foisted by the Communists, who have penetrated even into our country. Only to the extent that our people are equally ignorant and trusting that Communism, which is the New Deal, has taken hold in our own government. But here it is quite plain who the Communists are: Jews.

It had been planned to keep Europe in turmoil, because the Jew Bankers in that way are able to control Europe and appropriate more and more of the Gentiles' labor and lands by keeping them in debt, privately and through public debt and bondage. Public bonds is a fine way to keep a people broke.

That is why Versailles kept Germany down. It produced strife. Then they incited Germany to arm and financed Hitler, because in that way, the other countries would have to arm, too, go into more public bondage, and the Jewish clique acquiring mineral bearing lands would reap fortunes from selling the metals and oils, as well as diamonds for armament production. They tell us the armament trust is non-existant in America, look who owns the metals.

The U. S. is the richest booty for the Jews. By making war in Europe, fear is engendered in the U. S. and we are forced to arm also, besides that, the NEW DEAL escapes a popular accounting in the "patriotic" frenzy of serving the Jewish war makers. Russia was to be kept in the background, gobbling up the remains. It started with Poland, Roumania, Finland and the Baltic states. But the Jews miscalculated Hitler and Germany.

Still they have an ace in the hole. The American suckers. If they can fully control us, destroy our individuality through bondage and government regulation and arm us to the limit and keep us in fear hysteria, they can control all of our resources and in time use our young men to fight for them to regain control of the rest of the world.

Paul Mallon exposes the Jewish New Deal again and reports that FDR is pushing strongly to Russianize the U. S. upon request of the price fixing Jew:

WASHINGTON,—Leon Henderson, the price restrainer, was put through a wringer with thistles on it at a private protest meeting of congressmen engineered by Sen. "Cotton Ed" Smith of South Carolina. The high point was a speech by Gene Cox of Georgia, non-new dealing representative, who said Henderson "is trying to Russianize the United States". This proved too strong for staunch new dealing Sen. Scott Lucas of Illinois, who bowed himself out of the gathering, explaining: "I must be in the wrong room".

There were 20 senators and representatives when the meeting started, only 19 at the finish after Lucas withdrew, but congressional doubts about Henderson and all his pricefixing formulae extend far beyond this group.

In fact there is reason to believe Speaker Rayburn has informed Mr. Henderson and the White House that a strong presidential message will be necessary to furnish the push for any price-fixing legislation. A majority of the lower house, though perhaps not of the senate, is at present dead set against firm tactics now on prices.

The leaders have understood the necesary presidential push will be forthcoming immediately after the holidays.

Aluminum Wanted

Mayor LaGuardia, of New York, who has been recently appointed head of a commission to speed up defense work says plane factories need aluminum.

In a broadcast Tuesday evening he asked the governors of the different states to ask the heads of county governments, to ask the mayors of cities and towns to ask the inhabitants of the various municipalities to collect every piece of old aluminum that is not in use, that can be found.

He desires that it then be sold to some junk man who will take it direct to the plane factories.

Aluminum plays a conspicuous part in the defense program and those who may have aluminum lying around of any size will be doing a patriotic service in collecting it and at the same time will get good pay for their trouble.—Coronado Citizen.

Evidently the Jewish Mayor is drumming up business for the Junkdealers' . . . patriotism.

Junk Dealers Rapped For Aluminum Bids

MONROVIA,—Purchase by junk dealers of old aluminum pots and pans is termed unpatriotic aluminum profiteering by Chief of Police Frank Scott.

He pointed out that the junk dealers' activity came on the eve of an aluminum drive by the Disabled War Veterans.

Capt. A. A. Roe, veterans' drive chairman, declared "such bootleg activities" would hamper their effort to aid national defense.

Chicago Aluminum Week Proclaimed

CHICAGO,—Mayor Edward J. Kelly has proclaimed July 21 to 26 "Old Aluminum Week" as Chicago's part in the country-wide drive to collect scrap aluminum for defense purposes.

Old pots, pans, salt shakers, ash trays and similar items are wanted and needed, the mayor said. Even cocktail shakers, unless it is too great a personal sacrifice, would be appreciated.

Police and fire stations will serve as collection centers.

"de Aryan Comments"

"de Aryan Comments" will be heard over K G B **Tuesday 8:30 p. m.**—note CHANGE of day and hour.

Spiritual Law Prevails

FRED—I don't hear many other speakers talk about an oath the way you do, daddy.

DAD—Few people treat religion scientifically as a teaching that should be applied practically as we apply physical science. But that is exactly what Jesus came to teach us. He came to give us confidence in the eternal Presence of God, Our Father, who is here with us now. Our Father sees us, knows us, knows all our needs, has provided for everything and there is no injustice possible in His presence. What we sow that surely we also reap. But we must obey the rules of life and not turn to violence.

FRED—Then why are some people poor and others rich?

DAD—Now, scientifically speaking, there either is perfect justice in the Presence of God, or there is none. If there is no justice, then there can be no justice, so that it would be useless to expect justice or expect to bring it about. But if there is justice, then, our ignorance, your ignorance of the causes that make one man poor and another rich, that ignorance needs correcting.

FRED—Calling me ignorant, does not answer my question. Why are some people born poor and others rich? Is that just?

DAD—Calling God unjust by inference, denotes ignorance and I wanted to register this fact upon your attention. Since God is not unjust, then, being born rich or poor must be an effect of the actions of the individual.

FRED—How could a baby have done something to entitle him to be born rich while another is punished by poverty?

DAD—Evidently, then, he must have lived on earth before he was born this time and now he reaps his reward.

FRED—You mean reincarnation?

DAD—Naturally. Jesus taught us that even He would reincarnate and come back again, that is why He told His disciples not to be worried about dying when preaching the Gospel. The chief thing is to keep the commandments, not to break them and go back to the jungle law of the Old Testament. He said that in Our Father's home there are many mansions and our future life depends upon what we do with this one.

FRED—Is that why you don't care what people say about you or do to you? You always keep on doing what you think is right.

DAD—Because there is no end to life, all those who do me dirt, who hurt me, who boycott me and try to suppress my right to tell the truth as I see it; these people will have no peace till they make up for it. So you can see how potentially rich I am because they owe me so much and will have to pay all to the last farthing with compound interest, before they can have peace, happiness and wellbeing on earth. In the meantime my business is to stick it out to the end and not get scared. Just bear in mind that God is present and His alone is the power of life. While people fool themselves, they cannot fool God or escape the consequences of what they think, feel and do. So instead of being afraid of them, I learn to mind my own business and let them all get into debt to me. In that way, suddenly the measure will be full and then the hourglass turns in my favor.

Subjects Must Pay Taxes

FRED—I listened to your discussion of taxation, a week ago Saturday, when you spoke on the San Diego Radio Forum in opposition to Mr. Baird; you seemed to be very short tempered and did not make it clear enough even for the Moderator to understand the difference between taxes and fees for services rendered. Would you explain it to me?

DAD—A tax is an impost levied by the crown upon the property of the subject. It has no relation to services rendered by the crown to the subject. A tax is collected as a sovereign right of the monarch to take what he deems his due from his subjects. If the subject objects he is thrown into duress.

FRED—But in the U. S. we have no subjects and no monarchs, still we have taxes.

DAD—That is the evil remnant of economic slavery which we carried over from the days of British rule. Under British rule slavery was common for the blacks; the Civil War ended chattel slavery, but it continued economic slavery by which the government, under the fiction of sovereign right, confiscates private property for public use without regard for due compensation.

FRED—Are taxes not paid for services rendered by the government?

DAD—That is the fiction in the U. S. but not the fact. Taxes are collected regardless of services rendered: the more the politicians squander and mismanage, the bigger the taxes. One cannot say that squandering public funds is rendering a service for which the taxpayers ought to be grateful and appreciative. The ones who profit from squandering of public funds are the fellows who make a profit from government bonds. The more bonds the government issues the greater the revenues for the international financiers who collect the principal and interest on the public debt.

FRED—But if the people and the congress vote for the bonds is that not allright?

DAD—While it is legal it is not right by any means. The government has been instituted to protect the people's wealth, not to squander it.

FRED—But not all public funds are squandered.

DAD—To the extent that the people get a return for their money, to that extent only is the government entitled to collect revenue, but not more;—on the same basis as any other service, the government is entitled to be paid for what it gives to private individuals just like any corporation. When we get telephone service we pay the proper rate for it. The telephone company is not entitled to take 3% of the sales we make by using their telephone. They simply rent the telephone system at a flat service rate. Neither is the telephone company entitled to collect a lion's share of what we make through the use of its service, above a certain bracket, as the government takes from us in the higher income tax brackets.

FRED—Then the difference between a tax and a service fee, is the difference between actual value received and the money collected by the government.

DAD—Yes, Fred, that's the difference. When the government does not collect from the landlords who get the benefit of higher land values and higher land rents because of the government service, then the government gives them something to which they are not entitled and the federal government does not tax land at all. Then, to make up for its loss of the natural and just revenues, which it does not collect from the landlords, the federal government puts a tax on people's earnings and taxes the wrong people, while the landlords capitalize the public service in higher rents and in profits in the sale of their lands.

FRED—Why were you so short tempered that Saturday night instead of explaining that the government should not give the landlords free service, while taxing those who work.

DAD—I had not slept the previous night and was dead on my feet. You see, I went to Hollywood on Friday to hear Lindbergh, then we drove back during the night and I had to go to work all day in the printshop, getting out the paper; when evening came and I went on the forum I was ready to snap.

Willkie Honored by Jewish Veterans

NEW YORK,—Wendell L. Willkie received the Jewish War Veterans 1941 American leadership award at a luncheon in the Waldorf Astoria.

Presented by Fred S. Harris, national commander of the Jewish War Veterans, the citation accompanying the award said it was given for his "splendid example of selfless patriotism, which is and will continue to be an inspiration to the people of the United States, for his statesmanlike understanding that the primary need of the hour is national unity, and for his intellectual honesty and physical courage."

Willkie responded with informal thanks.

TORONTO,—Mrs. Adelaide Plumptre, national commander of the Canadian Red Cross corps, had good news right out of Germany—five postal cards which she carried carefully in a much-fingered envelope.

The cards—inscribed with a name and a camp—were the first evidence the Canadian Red Cross has had, Mrs. Plumptre said, that packages of food were getting through to British and Canadian war prisoners in Germany.

About 10,000 parcels of canned butter, dried milk and chocolate bars are shipped weekly from Toronto to New York, where an American Export liner carries them to Lisbon. From there a Red Cross ship takes the packages to Marseilles, where they are sent in a sealed train to Geneva, Switzerland, and thence into Germany.

THE GOLD STANDARD

THE GHOST OF IMPERIALISM UNDER THE CLOAK OF PATRIOTISM

By Charles Binderup

MINDEN, Nebr.,—When I speak of this European money war that we have made our war, may I assure you that I am not pro-German or pro-British, but decidedly, emphatically and purely pro-American.

Shall We Aid England, Fight Germany, and Starve America ?

I am not in favor of all possible aid to England while our own people are in dire want and distress, but I am in favor of all possible aid to America. I am not in the least fearing a war with some aggressor from Europe. That's only some more miserable International Bankers' lying propaganda. They fooled us once on this twenty-three years ago, but how ridiculous to be caught twice on the same bait. I am, however fearing a war from an aggressor within. For nations are not destroyed from the outside, but they rot and decay from the inside by centralized wealth, MONEY MONOPOLY.

Want in the Midst of Plenty

Believe me, my friends, our Government cannot live, the great institutions of civilization cannot endure unless the reasonable wants of humanity are satisfied. The laboring people who create the nation's wealth will not much longer tolerate dire want and distress in the midst of plenty.

Does Our Neutrality Mean Neutral ?

We have formerly believed in order to be neutral we must favor neither side, but today it seems you are not considered neutral unless you favor full aid to one side and refuse the other side entirely.

Let Europe take care of its dictator; its wars over rulers and boundaries that have lasted for thousands of years and let us take care of our own dictator, a million times more dangerous, "MONEY MONOPOLY".

A Challenge

There isn't a soul in the nation who will even attempt to deny that the International Bankers own every cent of gold in the Kentucky hole, except $185,000,000 that have been stored by some rich individuals in foreign countries and earmarked for them. We merely store this gold for them without charge, and there isn't an informed citizen who will attempt to deny that this is a gold war intended to force **the golden chain and ball of the Gold Standard** more securely around the ankle of the multitude who create the Nation's wealth. Let no man dare deny this. I challenge the world. Let me repeat from last Sunday's broadcast. **That's what our war is Europe is about.**

Federal Reserve Money at 30 Cents for $1,000

Today's official report shows there is $21,140,000,000 in gold in the Kentucky hole.

I want to repeat the startling statement from last Sunday's broadcast, "The banks bought this gold with Federal Reserve Money printed by the Government for the banks at 30 cents for a thousand dollars," or if the banks wanted to they could use the fountain pen method as follows: Just deposit the check they got from Morgenthau and draw checks against this check, then it would cost the banks just the price of having blank checks printed, and I challenge any banker or member of the Federal Reserve system or member of the House or Senate to deny this. But that isn't nearly all, the climax is yet to follow.

A $53,000,000,000 Donation to the International Bankers

The banks bought this gold, dollar for dollar with this money, and they are permitted to issue a Federal Reserve paper dollar on 40% gold backing, so for the $21,140,000,000 they can issue another 60% Federal Reserve Currency, so that gives the International Bankers an additional $31,710,000,000 profit in the deal. That means they can issue nearly $53,000,000,000 in Federal Reserve Currency that our Government is printing for them at a cost of 30 cents for $1,000 and keeping in their vaults for them to use as they please and when they please without one cent of interest. But that isn't nearly all, they have this same privilege in every other nation in the world, **and that's what the war in Europe is about.**

In Case England Should Lose This War

If England should lose this war, this unreasonable criminal racket would come to an end, the world will definitely go off the Gold Standard. And why not? We have gathered in the Kentucky hole three-fourths of all the gold and the rest of the world must divide the little thin sprinkling of the remaining one fourth. It's no wonder they are filling the public press which they control, body, soul and breeches, with all the lying damnable propaganda the minds of the most warped brains and seared conscience can invent.

Yes, with this unreasonable privilege they have bought the bonds of our large corporations and thereby have become masters and control their huge advertising contracts whereupon depends the existence of the big daily papers. Thus they fill these papers with propaganda and prevent anything to the contrary. Usually this is kept secret, but I have on my desk a letter from an editor more bold who replies to my request asking him to publish an article containing a few indisputable facts about our monetary system and he replies, **"It is not our policy to publish anything against the banks".**

INTERNATIONAL BANKERS OUR INVISIBLE GOVERNMENT

Les, less than 200 interlocking corporate holding companies secretly own and control ninety percent of all industry and business, definitely controlling and directing the policies of our Government, and we the people have given them the power to create our money wherewith they buy.

It was an able lawyer, Samuel Untermyer, who said after the Pujo Investigation under President Theodore Roosevelt that "There are no trusts (plural) only one trust, the money trust". And it was Brandeis of the Supreme Court who said in his book "Other People's Money" "We must destroy the money trust, or it will surely destroy us."

Yes, my friends believe me the most powerful trust of all trusts is the money trust; the most powerful instrumentality the world has ever known for robbing the laboring man of the products of his hand and brain and centralizing all the wealth of a few hands, is money monopoly.

Democracy Dies in the Hands of Usury

These banks are all powerful only because you and I, the people, have given them the power to create or destroy our money.

They control every word, comma, or period of the big daily newspapers and fill papers with rotten lying propaganda to force our nation into war that will murder our young men just to preserve their Gold Standard and collect their bonds. Willing to crush our democratic form of government or any other sacrifice necessary, just to so these arch-dictators can have "another pound of flesh".

Hitler Is a Weakling

My friends, talk about dictators. Hitler is a miserable little faint shadow of a dictator when compared with our own dictator, money monopoly, and for every overt act he has committed, our dictator has committed a million more cruel and more heartless.

Yes, Hitler undoubtedly confiscated the property of the Jews, but our dictator in the last few years alone, confiscated the farms and homes of 1,500,000 farmers. Took away from our laboring people twenty million homes and jobs. Reduced the value of our farm lands from 66 billion to 34 billion. Reduced the value of our farm crops from 13 billion to 5 billion. Closed the doors and bankrupted 16 thousand little banks and robbed the laboring people of their lifetime savings they had deposited in these banks, laid aside for old age. Filled the poor houses and the prisons and emptied the schools and the churches. Exchanged our cupboards of plenty for soup kitchens and bread lines. Reduced 85% of our citizens to a living standard far below the American standard of living. Reduced one sixth of our people to dependency on WPA for the bare necessities of life with less than 5 cents for a meal per capita. Reduced hundreds of thousands of relief and various kinds of doles; destroying the morale of our people, thereby undermining the institutions of civilization. Brought us into World War No. 1 and robbed the fathers and mothers of 125,000 of their precious boys who rest in Flanders Field, and filled our hospitals with sick and wounded. Created a debt of $22,000,000,000 that the American people must pay in taxes. **But not Money Monopoly as their investments are tax-exempt. They pay no taxes.**

ANOTHER FLANDERS FIELD

And now friends, they are asking us to spend another $16,000,000,000 in another war to protect their Gold Standard and collect their bonds, and another 125,000 of our boys, and this, while our own people who have created our nation's wealth are in want and suffering.

My friends, I can hardly imagine that there breathes a man with a vision so distorted or soul so dead that he does not stand up and protest in the strongest terms against this tyranny. But the climax of the gold story is yet to come next Sunday, when we will further unrobe the Wall Street Ghost of Militarism parading under the robe of Patriotism.

Ha-ha-ha, Roosevelt Blames Chaos on Contempt of Law

"Ha, ha, ha ! . . . . I committed enough illegal acts as assistant Secretary of the Navy to send me to the penitentiary for 999 years . . . . but we declared war and that made it right . . . "

NEW YORK,—President Roosevelt said the failure of men and nations to observe the maxim, "Obedience to law is liberty", accounts for the "tragedy and chaos which today threaten all that we love."

The president made his observation in a letted to Chester W. Cuthell president of the Columbia university law school class of 1907, of which Roosevelt was a member. He expressed his thanks to his former classmates for a portrait of him which they presented to the university.

Jews vs. Quakers

We received a letter from Anna Gehrke, Lemon Grove, in which she gives us a piece of her mind as her reaction to our editorial, comparing the popular sentiments towards the usurious and treacherous activities of Kikes, as well as International Bankers, Zionists, etc., with the respect and sympathy the world exhibits towards the humanitarian labors of the Quakers.

Anna Gehrke has a lot to learn yet. She is the typical woman who has not studied even the text of the Four Gospels and digested them, say nothing about the rest of the past and present history and activities of Kikes and world Jewry. She points to the exceptions where Jews are not exhibiting the typical sinister Jewish traits. And she imagines that we are hateful and a hypocrite, because we mention in the same breath the Golden Rule and point to the Jews who are egging this nation into war, as they have all of Europe.

1—Anna Gehrke should study thoroughly the Four Gospels and find whether the trait exhibited there by the Jews, which resulted in their demand that the Savior by murdered, still persists in the modern Jews as a race, as a religious group, as usurers and internationalists.

2—She should study the language the Savior uses against them, especially in John 8, verses 31 to 59. Then she can go ahead and charge Jesus with spreading race hatred against the Jews.

3—Anna Gehrke cannot understand that the mirror which reflects the pictures of those gazing in it, neither hates nor loves them, but gives them back what they radiate. Of course, if your face is that of a criminal, or a sucker, you have better "boycott" the mirror because you will see the criminal or the sucker, plainly outlined when looking for the truth in the pages of THE BROOM.

4—We are not answerable to the Anna Gehrke's and people like her, who are sleepwalking while the International Jews destroy our Republic and murder the Gentiles by egging one bunch of fools against the other to commit fratricide. We are responsible to God for using our talent to outline the facts of what is going on and we are very sorry, indeed, that the picture is so murderous and treacherous.

THERE WILL BE WAR

There will be war—
Already the cadence of soldier feet
Disturbs the quiet
Of every street.

There will be war—
In Washington where the war-lords make merry
The warring urge
Is going thru those office birds
Like their last spell of dysentry.

There will be war—
Already women
Are going berserk
Thru reading the propagandist's work.

And behind that mask of dripping tears,
Hides a bowing pride to glowing cheers;
As the boy goes off to war—
Following the millions who have gone before—
There lurks that pride of "I'm the one,
Who gave my boy, my only son!"

There will be war—
Already young men are being taught
Its killing ways;
But not
Of how a hero pays.

There will be war—
For preachers tell
Of something besides a brimstone hell.
They are urging their parishioner's sons
To shoulder death-dealing guns;
Preaching that God says it's right
To maim and murder; kill and fight;
Getting themselves
In a devilish fix
By skidding over
Commandment six.

There will be war—
And after there'll be,
Hidden away so none can see,
Armless men, legless men;
Riven trunks; wrecks of faces,
Men without manhood; mental cases.
"Heroes" these who bore the seal
Of another's patriotic zeal.

There will be peace—
And then,
What of all these forgotten men—
Beautiful hospitals will be filled
Again with men whose minds were chilled
By the heat of battle.
But will they care;
Those who stayed behind to share
In the wealth gained by marching feet—
By minds congealed by the battle's heat.

Yes, they'll give a thought once in awhile
For the men who wear the gargoyle smile—
Betimes ranting that never again,
Will the peaceful streets be disturbed
By marching men.

They will go back again to live
In peace until the war-lords give
A call to another holocaust;
While the jibbering heroes laugh—
But without mirth,
For on this earth
There is no peace for those
Whose minds and bodies
Are shaken from the battles' blows.

Appeasing the Communists

NEW YORK,—Communist leadership in this country, subject to instructions from superiors, appears ready to return to the united front strategy which guided the party for some years prior to the Hitler-Stalin pact. The Union of Soviet Socialist Republics now, perforce, is making common cause with Great Britain, and has been promised assistance by Churchill. Roosevelt has promised that Stalin will be taken under our industrial wing. To the extent that this occurs, the reds are expected to suspend activities which would delay the U. S. armament program.

When the lend-lease bill was before congress the party fought it. After the measure's passage it was denounced bitterly. Admitted and proven Communist, labor leaders are on record with threats to interfere with the manufacture of material going to Britain. But in the first issue prepared after Nazis had started into Russia. the Daily Worker demanded application of the law to the U. S. S. R.. and criticized Under-Secy of State Sumner Welles for not having enumerated specifically what our government would do to help Stalin.

Person close to the party's thoughts predict that unless different orders come from Moscow. the red-dominated union will become most ardent producers of war goods—provided their leaders learn that the Soviet really is to share in lend-lease benefits. Instead of stirring up trouble every time an incompetent is discharged, it is predicted that the commies will begin demanding that labor demonstrate its devotion to the common cause by sacrificing every selfish interest, forgetting pay scales, overtime rates, working conditions, closed shop demands, and going all-out for production.—S. Burton Heath.

OUR GROUNDHOG WORLD

"The War Dept. is headed by a Wall St. lawyer who was old when the last war began. The Navy is under an excited and excitable newspaper publisher whose knowledge of the sea would be stretched if he commanded a row boat.

"The Treasury is headed by a city farmer. The Interior Dept. is the sounding board for the Adminstration hatchet-man. With some of the toughest labor problems in history, the Dept. of Labor is in charge of charming lady. The stupendous job of the Lease-Lend Law is administered from a White House bedside by an ex-social worker."—Philip F. La Follette.

Diamonds

Diamonds are used in manufacture of important machine tools. Machine tools are the bottleneck of the machine tool industry. Diamonds are needed for drilling, for turning and polishing, for machine gears. Diamond dies are used for drawing copper wire. The auto industry, biggest customer for industrial diamonds uses them for truing emery wheels . . . "

"The British Diamond Syndicate is the world's most austere and thoroughgoing monopoly. At the outbreak of war German industry was estimated to have six months' supply of diamonds. When German shops continued turning out machine tools six months later, it was apparent that industrial diamonds were still finding their way into Germany from the cool, dignified offices of the British Diamond Syndicate at Charterhouse St., London."—In Fact, 6-9-1941.

France and Germany

KANSA CITY, Mo.,—The press repeats the half-truth that France has been FORCED to collaborate with Germany. As a matter of fact large minorities—now in power—have always worked to bring about the good neighbor policy between France and Germany and end the drenching with blood the soil of both nations. Former Premier PAINLEVE of France said:

> "I have already publicly stated in days before the Locarno meeting, reconciliation between France and Germany is the CORNERSTONE of EUROPEAN reconciliation."

The world, as well as Europe, will profit now that France and Germany collaborate to hold one another UP instead of scheming to keep one another DOWN. The lamented LORD LOTHIAN said:

> "The present regime in Germany has been ELECTED by the policies of HER NEIGHBORS and mainly by the policy of KEEPING GERMANY DOWN, which has been relentlessly pursued by France since 1920. BUT, when I say French policy, I do not mean to hold France alone responsible for that policy, because I think that THE U. S. AND GREAT BRITAIN are EQUALLY responsible."

PIERRE LAVAL blames democracy for the destructive policy which kept Germany and France at each other's throats. Laval refers, of course, to the social democracy of Karl Marx and not to the representative democracy of George Washington, when he said:

> "If it's the same democracy which caused us so much trouble and to which we owe our present collapse, we don't want it AND WE DON'T ASK YOU TO FIGHT FOR THAT DEMOCRACY. Along with all other nations of Europe, France must fulfill its tasks: build PEACE FIRST of all, then avoid unemployment and disorders INHERENT IN THAT CONDITION. France can regain her strength ONLY in a unified, regenerated continent thru total collaboration with Germany."

Laval is not to be censured for adopting methods that have enabled Germany—in defiance of international banksters—within a few years to build the largest mechanized army and the most powerful air-fleet in the world WITHOUT TAXATION, without interest-bearing bonds AND, WITHOUT DEBT. Sen. Pepper might use his time profitably if he constituted himself a committee of one and went to Berlin to see how its done.

France wants a NEW REPUBLIC, a true Republic, based on our own constitutional form of representative government in a commonwealth of European nations between which custom duties and other trade restrictions have been removed. If France and Germany desire to brighten the corner where they are, others should keep hands off. Americans do not brock meddling in THEIR private affairs.

England had 150 years in which to collaborate with France in promulgating such a commonwealth of nations; in Europe she chose instead to play her destructive balance of power policy which bathed Europe in blood; in the United States she assisted the Confederacy in its attempt to divide our commonwealth of states and bathe our own poppy fields with American blood.

Sincerely, H. D. KISSENGER.

HEALTH-GERMS

By George Starr White, M. D.

SOME CAUSES OF CHEST TROUBLES

Following Nature's law, when soil is prepared for certain seeds, the seeds grow. Starch indigestion causes fermentation in the intestins, which makes gas. That gas presses against the floor of the chest—the diaphragm. That hinders natural respiration. Hinderd respiration is one of the main causes of congestion in the chest. Then follow bronchial troubles. Tuberculosis cannot start unless the soil be suitable for "seeds of tuberculosis" to grow.

Dr. Geo. Starr White

Any diet that helps cause catar will hasten bronchial and lung congestion. That congestion is always the starting point for troubles in the chest.

Starch indigestion causes catar. Modern denatured food is one of the greatest causes of chest congestion.

The stuffing of a weak person with milk, seems to me to be a crime. The milk is hard to digest. Toxemia is set up, and causes no end of troubles.

The nervous system is ruined by taking much milk and using denatured foods. The tonsils give way; the teeth decay; the ears fail; the eyes become inflamed. Tuberculous soil is the result.

Sun-kissed fruits and fresh vegetables, raw when possible, are the best diet to prevent and cure all chest troubles. Keep the bowels active. Be out-of-doors all U can. Keep out of tobacco-smoke. Tobacco-smoke insults healthy lungs. Keep the chest up; and practice deep breathing.

I believe that the vile serums and vaccins that are being forced upon the unsuspecting public are causing more chest troubles—bronchial and lung troubles—than any other one cause.

Avoid every kind of stuff made from pus or rotten substances. A pure blood stream is what Nature seeks. She has proved it by fortifying the blood stream—the "holy of holies" of the body—in every possible manner.

Now the perverted minds of seekers after fame and fortune, devise the most unholy and dangerous filth concoctions a demon could think of, and ask for laws to give them power to compel health-loving people to be poluted!

Wholesale vaccination is always followed by epidemics of all kinds; and an endless chain of unhealth, bolstered up on a never-ending array of names to disguise its true nature!

When any institution advocates the use of poisons for poluting pure blood, U can always find that commercialism is back of it all. Even big insurance concerns are advocating serum-and-vaccin poisoning. The public does not have to look about much to learn WHY such "philanthropic" concerns are doing it!

A lame mainspring in a watch will effect lameness in all the component parts, however well made and fitted they may be, and accordingly will the accuracy of time suffer.

Adjust the mainspring of your mechanical constitution and enjoy the proper time of your instrument, to whose variations there is no end. Keep the dynamics in order that the **spirit of life** about you may be drawn upon in its fulness and insure to you further developments.

Attend to the rhythm of your breath more regularly than you would to your meals, for the hour of breath is the hour of prayer, when the "spirit of the time" is revealed to your mind, calling you to realms beyond the ordinary concept, leading you into paths of greater success and achievements worth possessing.

Give yourself a few minutes morning, noon, evening and night, to empty your lungs to the utmost and take the draughts of vibrating air **on the breath,** watching every movement, every sensation, every motion, as **Galama,** the etheric life principle, enters your being. With every indrawn breath you will more fully realize the "power behind the throne" that sets your higher nature free.

Chula Vista Dr. Sued in Baby's Death

Dr. Frank H. Robinson, Chula Vista physician, was sued for $20,025 damages for the death of Richard Ord, baby son of Harold Ord, of Imperial Beach.

Suit was brought by the father of the baby, who alleged that on Dec. 15, 1940, at 7:30 in the evening, he telephoned Dr. Robinson and asked him to attend the child. He said that Dr. Robinson agreed to come at once for a fee of $6, which Ord alleged he promised to pay immediately.

The physician, Ord's complaint alleged, did not call at the Ord home and did not notify Ord that he was not coming. The child died at 3 o'clock the next morning, and Ord alleged that death was due to the physician's non-appearance.

The complaint recited further that Dr. Robinson has an aversion for babies born in county hospitals, that he had ascertained that the Ord baby had been born in a county hospital and feared that he would not be paid.

Miss Bernhardt had just arrived from France in company with 238 other refugees.

By Charles H. Ingersoll
(Of Dollar Watch Fame)

Property-Rights or Human-Rights ?

The idea that our statute law, behind which is the constitution, is designed primarily to protect the substantial interests—property, wealth, and capital—is dangerous to express in these times of emotional blitzkriegs in the name of humanity, labor, right, and even justice.

Ingersoll

This 'idea' will not gain its rightful place at the center of our 'American way of thinking' until it is placed there via the process of showing that the interests of all the people can only be set up and made permanent, by way of having ownership and property clarified, identified, and made inviolate.

Ownership derives only from creation or production. This gives all public or social wealth, or value, to all people collectively, and all private wealth to its individual producers and assistants, Capital.

At present the social value is privately appropriated, which results in society taking in taxation half of labor's wages and capital's earnings. So is it not obvious that the first and only thing to do about human rights is (1) to get government off humanity's backs; and (2) to give all social income to humanity?

Are our courts snapping out of their unconsciousness of the basic meanings of law and justice? Are they coming to see that it is only by absolute protection to All property rights that 'human rights' have any significance?

Supreme Court Judge Valente delivers two straight blows at Unionist tyranny and terrorism: (1) Unions may not force workers into Unions, or collect their dues, by picketing their homes; (2) that employment depends upon fitness—not Union membership.

What U. S. Supreme Court members, such as Frankfurter and Black, will do with such common sense as this we shall see. Eventually they will have to say wages are kept down by taxes which should be paid by basic monopoly—but when?

Next in order for a Judge of the Valente mentality and independence is a case not related to municipal transportation or public employment, but it is equally obvious in its elements:—

A milkman serves milk to a cafeteria in a department store employing 12,000 people, and having over 100 thousand customers daily. Is it 'right' to picket this institution, when the only object is to frighten, prejudice, or destroy, as customers or employees, this concern's only asset?

Vieing with Labor-Leader Economic ignorance, politicians in Congress are giving inflation, and wage-slavery another big boost, by planning a $1,500,000,000 sales-and wage-tax.

This is conscription of savings and wages, which the British authority from Barclay's London Bank said was the only way war could be financed; that these taxes were futile in supplying actual payment for materials of war, until they had been paid out of the workers' stockings or wages!

A 20-share Co-operative farm at Tunbridge, Vermont is a model of Socialism that should reform the Marx kind that should be called Stateism, not Socialism.

Here are twenty men who all worked for a $1.00 a day until they had enough to pay for their 230 acres. They have been hampered, as well as helped, by some academic and socialistic ideas, as they are mostly college boys. But voluntary cooperation is their method, which is not the method of Socialism—that of getting the police, army, and navy behind your cooperation, and building a bureaucracy of it.

This cooperation is like that of Dr. J. P. Warbasse and his great institution which, in spite of the handicaps of a topsy turvy tax system, has in England come to do a big portion of all merchandising, and has here come to be a big factor in all our trading. CO-OP it is called.

FOR SALE—San Diego's most magnificent corner; two lots, sold separately or together. Unobstructible panorama marine view, from Mexico to Mission Beach. Lilly pond with fountain. Both streets paved and paid. Price reduced one half. $1500. down, balance easy terms. See owner 3321 Columbia Street.

British Secret Service Report 1919

(The Beacon Light, Atascadero, Calif.)

Intellectual Amusement

We have succeeded in making our playwrights, our poets, and authors more popular here than they are in England, largely on account of their superiority over the native talent, but partly on the account of our ability to feature their work in our press here. Our lecturers have given us invaluable service, especially Messrs. Sydney Brooks, Ivan Hay, John Galsworthy, Frederick Wile, and Sir George Adam Smith. Our Publishing Houses, George H. Doran's Company, MacMillan's, Nelson's, the Oxford University Press, etc., have patriotically seconded our efforts.

"A British new book, or talk, or play,
For every hour of every day."

We have arranged for a vast extension of this work, for it is not only of great value in our campaign, but it is also paid for so happily by the Americans that we can support from its surplus our less remunerative activites.

Press Associations and the Press

The full extent of the control which our fiscal agents through their advertising patronage and which Lord Northcliffe through his interests exercise for us over the press here has doubtless been revealed to you by Sir Campbell Stuart in his recent report.

The censorship, together with our monopoly of cables, and our passport control of passengers, enable us to hold **all American newspapers as isolated from the non-American world as if they had been in another planet instead of in another hemisphere.** The realization of this by the Associated Press and the other universal news gatherers—except Hearst—was most helpful in bringing only our point of view to the papers they served.

Editors and Reporters

British born editors and reporters now create Imperial sentiment in most American newspapers. As their identity and origin are not usually known, they can talk and write for us, **as Americans to Americans.** A complete list of the more important will be found in Appendix 26. I would like particularly to call attention to the consistent work of Mr. T. Cunliffe Owen, who writes under the pseudonyms of Ex. Attache Marquise de Fontency, etc.; and is known to the police. The editorial policy of Mr. Spurgeon of the Philadelphia Public Leader, of his brother in the Washington Post, of Mr. H. Wright of the New York Globe, and of Mr. W. P. Hamilton of the Wall Street Journal, and of Mr. Herbert S. Houston of the World's Work, and of Mr. Dixon of Christian Science Monitor, equalled in Imperial fervor the policy of the Northcliffe Press. Messrs P. W. Wilson, Frank Dilnot, S. K. Ratcliffe, Louis Tracy, Alfred Noyes, A. Maurice Low, and others of our newspapermen have rendered conspicuous services.

The visit of Judge Wadhame with Messrs. Charles Towne, E. J. Wheeler and the other American editors to England was a great success. The expense of the visit was negligible compared with the value of the newspaper influence we acquired through it. The social favor shown these gentlemen will keep most of them devoted to His Majesty as long as they live.

Newspaper Proprietors

If it were not for the notorious defeatist editorial—which however, has been atoned for—I would strongly recommend for recognition, Mr. Adolph Ochs or Oaks, of the New York Times; Mr. Thomas Lamont of the New York Evening Post and Harpers Magazine; Mr. Ogden Mills Reid of the New York Tribune; Mr. H. J. Whigham of the Metropolitan Magazine; and Mr. James Keeley late of the Chicago Herald, together with Mr. Ratham of the Providence Journal, and others, who have expensively presented our point of view to the American Public. I would call your attention to the fact that **American newspaper owners exclusively employ British** subjects, journalists born and trained in Britain, as their English correspondents. Needless to say, we employ none but Englishmen as American correspondents of our British dailies, so that American news is presented to our people and English news is presented to this people only in its proper, its English aspect.

Motion Pictures

The recent acquistion by us of the **Players-Lasky-Pathe-Hearst motion picture concerns** extends our control of a field in which we for some time have had considerable "stakes". We have placed this new propaganda machinery under the presidency of Mr. Adolph Zukor, with Mr. C. A. Clegg as Business Manager. We shall produce here plays by Galsworthy, Bennett, Barrie, and other famous authors, together with an occasional makeweight by an American playwright. The leading directors, authors, artists, and actors now at our command will cooperate to remove the prejudices and to satisfy the desires of the several sections of this country. The details of our plans will be found in Appendix 29, which was issued by us as a statement in the New York Times of May 16, 1919.

To all ages and classes, to every phase of human activity, by all channels of human communications, our propaganda permeates. Our command over the cables and press, the schools and the universities, the pulpit and the tribunes, will tend to increase. **Soon we should be in a position to control at will, the reading, the hearing, and the seeing of the inhabitants, so that such ideas as are not truly British may be met with a barrier, "They shall not pass".**

I must not conclude this section of my report without calling your attention to certain peculiarities, which our experience here has demonstrated, in the behaviour of thought-controlled masses. First, it seems to be an incontrovertible law, that the more absolute the thought-control, the less effective it is. Our praises were sung in the Churches, and the natives fled to the fields. The Press told only what we wished told, and its failing power forced us to invest millions in motion pictures. I make it a rule—not mainly from mercenary motives—to regard the receipts as the test of the effectiveness of my propaganda. Propaganda for which the people decline to pay is useless, if not harmful. We have not yet worked out the correct co-efficient of propaganda, but I think we would get better results with one part propaganda to fifty of neutral amusement, and I mean to try this proportion in our moving picture work.

Secondly, I have also observed that the more thoroughly emotion is mobilized, the more mutinous it becomes. The accounts of our consistent humanity, thrown into sharp relief by our revolting descriptions of German barbarity, served to give us a monopoly of virtue and to Germany a corner on vice. But now, although the war is over, there are creatures here who refuse to allow their sentiments to be demobilized, and are growing hostile and suspicious because we desire to resume trade relations with Germany. I am meeting this difficulty by diverting their feelings to another hate channel, but I would urge that a Committee be appointed at an early date to study these and such other peculiarities of the mass mind as our campaign has failed to deal with successfully.

LOS ANGELES,—Pardon the personal note, and don't mention it to F. B. I. Hoover, but I'm a Copperhead. If Lindy's a Copperhead, its right back with a "me too" and "amen" and other suitable ejaculations. Are we learning history! If the Copperheads were like Lindy, they musta been okay. That's enough .

They come to bury Lindy—not to praise him. Did he not honor America with one of the most daring exploits of all history? Did he not for the last several years accurately predict the general course of the war and its outcome much to the disgust of the holy order of guess-wrong, wishful thinking politicians, diplomats, correspondents and war-mongers? Yet the Maharajah of Hyde Park says that Lindy is a Copperhead. And the Maharajah of Hyde Park is (or used to be) an honorable man. So is howling Harold Ickes, keeper of the privy hatchet. So is Walter Willkie, the greatest campaign orator in captivity. So is Wendell Winchell, kingpin of the keyholes. So is Frothy Thompson (Et tu, Beauty?) Hell hath no fury like a woman scorned. So are they all, almost all, honorable men (and woman).

But despite the array of pinheads, soreheads, muddleheads, boneheads and hotheads, not to say hopheads, we bloody but unbowed Copperheads must carry on. Numbered by the millions, we can't do other than gladly, eagerly snatch up the gauntlet thrown down in challenge by the little father of the four far-flung freedoms.

Indeed we owe the great three-time winner a hearty salvo of thanks, and no kidding, for arming us with a handy fighting slogan around which to rally and organize in suport of the unpolluted Americanism, the straightforward realism and those sound enduring principles so ably and convincingly enunciated over and over by that most popular of all Americans, our beloved Lindy.

The National Copperheads, 616 St. Paul St., Los Angeles, has been launched to combat the sneer-smear campaign against Col. Lindbergh and other patriots who stand for "America First". Groups are forming in all parts of the U. S. **"I'M A COPPERHEAD"** buttons, by mail, 10c each, 6 for 25c, 100 for $2.00.

TELEPHONE PIONEERS

There are always new frontiers to telephone service. Problems to be solved. Improvements to be made. And there will always be Pioneers pushing on to new achievements.

The telephone business recognizes and salutes its veterans, whose Pioneer spirit animates the entire organization. Their leadership, aid and guidance is a daily inspiration to the younger members in the telephone family who will be the Telephone Pioneers of tomorrow.

There are on the Pacific Coast about five thousand members of the Association known as the Telephone Pioneers of America. Their "know-how" is deep and broad—gained through years of experience on the day-to-day job.

In these times of emergency—of rapidly expanding demands for telephone communication—the Pioneers' dedication of effort to the Ideals and Traditions of the industry is an invaluable asset to the business and the Nation.
