CLIPS, QUOTES, AND COMMENTS

This is miscellaneous material - without long articles - which we shall try to send out twice a month to those who want it. Five or six pages, the size of this one. The tempo of events is increasing and we want to get our Associates into contact with each other and with Headquarters as closely as possible.-Please note: in this particular publication we shall print names and city of residence unless correspondents instruct otherwise. We shall have to charge .50 an issue for it; 12 issues for $5.00; 6 issues for $2.50. If there's not enough interest so that we can carry on with it, we'll refund.

Such enclosures as the present one from the New Age Foundation will not normally be a part of the C.Q.C.; we send it along this time because there seems to be considerable interest in what N.A.F. is trying to do, and because it is in the nature of a supplement to "Prophecies of 1953", from the same source and to some extent distributed by us. (We often give information about ideas and projects without being able to endorse them explicitly.) If interested, write the N.A.F. Hdqrs. for data re their Guatemala refuge.

The brochure by Associate Mark L. Gallert on the Littlefield experiments, described in ROUND ROBIN IX-1, page 25-A, is now ready for distribution at $1.00.

In preparation: "The Ether Of Space", being a reprint of part of the book by Sir Oliver Lodge, with quotations from Eddington, Sullivan, and others. Important in connection with the ether-ship phenomena. - Ready soon.

All contributors mentioned in "C.Q.C." can be reached Care of BSR Hdqrs, -- 3524 Adams Avenue, San Diego 16, California.

"C.Q.C." # 1-

FLYING SAUCERS --- OR: YOU NAME IT. Headline to paragraph and photoprint, El Paso Times of June 7, 1953. The picture shows most of the surface of two disc-shaped objects looking like wheels with regular finely drawn concentric rings. No other part of the objects visible. Taken accidentally by the Times photographer. The Times paragraph disposes of double exposure, finger prints, flaws, etc. Cr. Omar MacDonald, Box 665, Silver City, New Mexico.

Assoc. O.M. adds that Oahspe makes the Disc phenomena understandable - and, "When you read of the wars in atmospherean areas you can understand how mortals get into their misery.... Let's get rid of the old and on with the new....It looks like you are going to be in a war zone in August...."

(Various comments purporting to come from the Disc people as well as from psychic sources, hint that the people of the cigar-shaped craft are not well-disposed toward Earthians, and are being closely watched by the Guardians in the disc-like craft. Myth and legend have many tales of "wars in heaven", and the M.P. Controls affirm that these are factual in basis and that "there is strife and contention on all the planes.")

Mrs. F.M.K. of Philadelphia: Refers to Nicholas Roerick's account and painting of tunnel entrances in Tibet, and his encounter with several people on their way to visit underground dwellers of the southern Sahara. "How fortunate people are who do not laugh off such matters....Do keep up the R.R.....the BSRA is the only really serious group investigating what lies ahead."

(PROOF is defined as sufficient evidence to satisfy reasonable doubt. What is evidence, when is it sufficient, when is a doubt reasonable, and who shall decide these questions? But lack of evidence does not constitute disproof - nor does ignorance or mere denial - and evidence is often found only by long research.)

Assoc. W.D.D. of Louisville, Ky.: "I'm extremely interested in the flying saucer mystery and as none of the common explanations seem to fit it completely, I am anxious to obtain a copy of your Ether Ship Mystery and Its Solution....."

(Of course no solution fits anything completely - as Assoc. W.D.D. understands-but actually, apart from the account offered by the BSRA there has not been a single explanation from any source which meet s the diverse forms of the phenomena. And the BSRA did NOT invent this explanation, but has merely presented it as good science and sound metaphysics.)

Assoc. H.C., St. Paul, Minn.: "There is no one on earth who has power or authority now to stop man from destroying himself... the Powers of evil are let loose on the earth through the wanton greed of the whole human race... There is nothing to do now but to pull down the tent - the show is over."
(Before getting severe with Assoc. H.C., we might recall that H. G. Wells said 'there is no way out or around or below - it is the end' - and he was perhaps the most far-sighted historian and social philosopher of our century.)

SAUCERS ARE TWINS IN WYOMING: Headline, Sheridan (Wyo.) Press. Sept. 17,'52-A Mrs. Oedekoven and her husband saw, about 2:A.M., two 'eyes', bright orange color, which merged into one about the size of the moon; moved along a hillside, then slowly into the sky, decreasing in size to resemble a star....
(There seems absolutely no limit to the diversity of these phenomena - and only the BSR account has made some progress toward correlating them.)
--Clip from Dorothea McHolland, Claremont, California.

Assoc.E.S.S., Buffalo, N.Y.:.."more and more and bigger tornadoes are popping up, with more and bigger to come. American citizens are being wiped out by their own A-bombs, via the ionized layer disruption, and have no inkling....Three years ago I tried to alert America to this danger by sending an article to a dozen papers, and was kicked in the teeth for my pains...."
(Our guess is, we have the bear by the tail and can neither hang on nor let go - that is, the authorities are afraid to discontinue the manufacture and testing of atomic weapons, for fear of enemies; yet to continue with such tests is to invite disaster. At any rate, the flat and repeated denial that there is any effect on weather is ridiculous, since no such positive evidence and knowledge exist - and since there is something like a book full of "coincidences" which smell of something more than that - and since the meteorology and physics involved (re the ionosphere) have been plausibly worked out - and since the M.P. Controls assert that the detonations are a contributing cause, and in fact predicted the recent tornadic storms....and since even the tender age of ten years would guess that the instantaneous and intense heating of a huge volume of air would thrust an air-projectile upward that would wrack even the pearl gates of Heaven.... We have here exactly the same psychoceramic (or crack-pot) mentality that for seven years past has denied (still denies, so help me!) that any such thing as a flying disc really exists..."so on and on far into the night" - a planetary night, maybe.

(Well, I don't mean, of course, that real scientists are real fools. I can say that in my own considered opinion top-level authorities in all countries, in both political and military matters, are seriously though secretly, alarmed over a situation of planetary scope. This alarm, however, has come too late - just as will the anger and alarm of the nations when the true character of events begins to appear. "Pull down the tent", says Assoc. H.C. quoted above; "the show is over".... Well, life on the astral is said to be a happy one, and I have never talked to a revenant who wanted to come back to this vale of fears - at least longer than his chitchat demanded. -- And public good is a doubtful and elusive thing and must sometimes be served by most objectionable means...)

Personal Experiences: ".D.M.C." of St. Louis, Mo., writes that she predicted the attempted assassination of President Roosevelt three hours before it happened, gave details and results. Also saw the Pearl Harbor attack a year in advance. "Recently I predicted a disaster in or near Los Angeles" - an earthquake, and the discovery of a new metal or element in the form of an ore. "I have seen three flying saucers; my husband and I were within 100 feet of them ..." Address Mrs.D.M.C. in care of BSRA Hdqrs.

Tritium: a triple-weight hydrogen used in the H-bomb; source is Nitrogen 14; found to exist in heavy water and in the moisture of the air, according to Temple University. Discovered by spectroscopic analysis. - Clips & info. from Assoc. E.S.S., Buffalo, N.Y.

Koch Treatment: "The Journal", Ottawa, Canada, of May 14, '53, prints a dis - patch from Saskatoon: Dr. David H. Arnott of London, Ontario, has been awarded $7000.00 damages in his suit against the College of Physicians & Surgeons for libel. The College Quarterly has denounced the treatment. This Koch treatment, an effective cure in better than 85% of cancer cases and many allied allergies, has been fought tooth and nail by the A.M.A. for more than 25 years - a fact which is the major crime of the century and a terrible indictment of organized medicine. The BSR has been publishing data on this outrage for the last five years. Further info. on request. - Clip from Mrs. A. H. of Ottawa. (BSR has a $1.00 booklet on the Koch Treatment.)

The Future of Psychic & Occult Science is the heading of the latest brochure issued by The Holloway School of Philosophy and Religion, Gilbert N. Holloway, D.D., Ph. D., Director. Nothing is more practical or more desperately needed, than public education in basic facts of psychic and occult knowledge. Confusion and distress of the newly "dead" and on the "lower astral" generally are rooted in the ignorance and stupidity of our own world and the responsibility is ours. The Holloway School is doing highly intelligent and helpful work. -Send a card for Lesson 8 of Studies In Higher Consciousness; 12 pages (size of this one) to The Holloway School, Box 27866 Los Feliz Station, Los Angeles 27, Calif. - or ask for information.

HEADLINES: Fear Atom Blast Residues Hazard to Vegetable Crops (radioactive strontium taken up by plants) .... On The Other Hand (column by Ray Miller) reports the fall of "numerous large pieces of ice" on American Avenue in Los An - geles - and gives a good summary of historical instances. Other sources report fragments of ice weighed up to 130 lbs. (Both of these in L.A. Sunday paper of June 7, '53). The rime ice collected by planes is out as an explanation. The M.P. Controls remarked: "There will be falls of ice, and of many other things as well, before very long -- which seems possible in view of the instances collected by Charles Fort. There are very few kinds of stuff which have NOT fallen 'from the sky' at one time or another.
To go on with this same subject: the Controls have pointed out that the Etheric worlds and people have everything we have, and much more; also that all terrestrial objects have etheric doubles or duplicates (a familiar occult teaching).

From time to time, due to highly complex conditions, these objects (and/or doubles of our-world objects) get into a vibratory rate where the energy is converted and so enter our field of perception. But best not to elaborate on this or some text-book physicist will die of cachinnation.

Flying Discs are Psycho-Spiritual Phenomena, says Dr. Argyria Kouzos, Greek physician. The disc are "ectoplasms out of our evolved psychism" - i.e., "psycho - radiations of man and especially of mediums". His lecture 'produced an excellent effect on police officers', and on various authorities. Psychic Observer of May 25, '53, printed this learned twaddle. But Dr. A.K. may be said to have at least one toe on the path of understanding - and is thereby one toe ahead of any so-far articulate American physicist.

Flying Saucers International (Max B. Miller, President) manages to pack a sur - prising amount of information into four closely printed pages entitled simply SAUCERS. Present issue is Volume 1 - No. 1: 15¢, but will probably be enlarged. Send .50 for the next 24 pages or $1.00 for the next 48 - money refunded if plan is not carried out. The address: Box 34, Los Angeles 35, Calif. A non-profit organization; donations accepted.

Story of Creation: "I found something in The Secret Doctrine (3rd Point Loma ed., vol. III - page 96) that fits into the story given in the Magic Bag (a book by the Mark Probert Controls) To quote: "It requires a lower order of creative an - gels to create inhabited globes - especially ours - or deal with matter on this earth plane. The philosophical Gnostics were the first to think so, in the historical period... No high divinity could be made responsible, but only angels of a low hierarchy - to which class they relegated the Jewish God Jehovah." - Cr. Assoc. Elsie A. Keithe, Miami, Fla.
(When a direct question was put to the Controls: "Is the hierarchical govern - ment of the universe a fact?", the reply was: <u>It certainly is!</u>)

SONIC BLAST: The L.A. Daily News devotes its entire front page (of June 4, '53) to "L.A. AREA SHAKEN BY SONIC BLAST." Traffic disorganized, windows broken, near-panic in many parts of city and adjacent communities. Authorities settle for diving jets, the Air Force, Marine, and Navy denied any of their craft overhead. There has been a long series of these aerial concussions, present and past. At-tempts to produce them experimentally by diving planes have failed.

The M.P. Controls, questioned about this, replied that the sounds were a kind of crepitation in the ethers - like sounds produced by bending sheets of metal. The earth is said to be entering a region where the ethers are of higher density, all natural forces are affected, and many strange phenomena are to be looked for. Incidentally, these Controls repeatedly predicted violent storms and floods in the middle West and East. The Natalli Control forsees a summer of serious drought, in Southern California, the southwestern states, and other areas - which reminds us of the drying up of the Rio Grande for some 250 miles.

Assoc. H.M.W. (Fla.) reports comments of the Control W.T. STEAD: "He advised that we watch the water and the tides very closely, espceially along the Gulf coast. He also said in figurative language that the Bear has been scratching fleas as formerly predicted, but that the honey pot is about to go to pieces so reaching the content will be easier for him. Predictions (as also thru others) of violent storms, 'quakes and floods in middle West; also that the California faults are becoming very weak. Seemed to expect great submarine disturbances."

AURAMETER: The 80-page book on this remarkable instrument, invented by Verne L. Cameron (Box 1120 Grand Ave., Elsinore, Calif.) is now in its second printing and should be ready early in July. From BSR Hdqrs. or Verne Cameron: $3.00.

NEW AGE PIONEER

PROPHECIES OF WILLIAM A. REDDING, GREAT AMERICAN PROPHET - by Sam Bartolet, Cosmic Scientist

The present writer was in correspondence with Mr. Redding for twelve years before he died. He was one of the greatest prophets America produced. From 1890, when he commenced to prophesy, until his death in 1935, he made many predictions which later came to pass. One of these was in 1896, in a book of his entitled "Our Near Future". In this book he prophesied that in 1914 a world war would break out. He claimed that we live in the Last Days of the Christian Era of a dying old age whose death-throes will occur between 1914 and 1954, a period of constant wars, after which a New Age will be born; but before the New Age can be born, the existing social and economic system, and existing religions, will have to be completely swept away. This destruction, he said, will occur before 1954.

In November, 1953, there is a transit of Mercury similar to that which occurred in November, 1940, when England was bombed, and this indicates an aerial atomic war. The 40-year period of war ends on June 20, 1954.

Redding saw no peace before 1960. A great German astrologer, E. H. Troinski, claims that 1959 is the most fateful year in human history, when a World Catastrophe will occur that will completely demolish civilization. The name of Troinski's book is "1959, Humanity's Most Fateful Year".

An Oregon prophet, Ostgaard, claims that after August, 1953, World War III will break out in full fury. We believe that 1953 will also be one of the most eventful years in human history, marking the beginning of a series of calamities that will proceed unabated until 1959, when the final climax will occur. These six years will be the most dreadful that humanity has ever witnessed, and they will be fortunate who leave for a place of safety before the year 1953 is very far advanced. Will 1953 witness the end of the Korean War, or will it see the outbreak of an atomic war which will destroy civilization?

In 1913 many prophecies were made for a world war to start that year, but it was held off until the fatal June of 1914. So, the Prophecies for 1953 can be somewhat delayed in fulfillment, until 1954, for the fatal atomic world war. I have figured out the Time of Tribulation from the eclipse of August 21, 1914, in Europe and ending in America with the eclipse of June 30, 1954. The following dates in cosmic cycles are fateful: June, 1914 (World War I started), June, 1941, (World War II), June, 1950, (outbreak of Korean War), and June 1953, (will World War III start in some form at this time?) According to an astrological prediction in the New York Daily News, by a student of cosmic science, atomic bombs will start exploding in June, 1953.

Cosmic Science Analysis for June 21, 1953. The sun, Mars, and Uranus are in the tenth house, which is evil and points to war and sudden unexpected trouble in government. "IKE ASKS $5,800,000,000 FOR FOREIGN AID" (Wars). During this summer, with two eclipses , on July 10, 1953, 9:28 P.M., Mars with the eclipse and transited the eclipse on the twelfth day, Mars conjoined with Uranus points to war, calamities and accidents. The eclipse on August 9, 1953, at 11:10 A.M. falls close to

the tenth house with Mars culminating, and transits the eclipse on August 16, 1953. This points to war and disasters, aerial bombing, with many deaths to government men and royalty.

The last half of 1953 is a very critical time for the world, and while no serious calamities have occurred during the early part of this year, there are all indications of war during the latter half of the year, which will be a busy time for armament makers and war workers. The period of 1953-54 appears a critical period, with war almost a certainty.

The Great Pyramid Date of August 20, 1953. This is the date predicted by the Great Pyramid when the present financial system and the entire civilization that now exists will be destroyed through a terrible world war. On this day, at noon, the sun and Mars are in the tenth house and the danger of war is imminent. (This confirms Ostgaard's revelation that after this date, World War III will break out in full fury.) This can bring back Roman fascism, under the rule of the Vatican, in a final attempt to rule or ruin the world, as indicated in September 16, 1936, after which follows a Fascist War. August 20, 1953, has a cosmic configuration that points unmistakably to world war and disaster.

The Transit of Mercury across the Sun's Disc on November 14, 1953. This indicates important changes in government, which can mean war.

All indications point to the fulfillment of the Redding prophecy of all-round sweep-off through a short atomic war, the Beast's doom. The prediction made, based on the solar eclipse on February 13, 1953, in the place of Mars, was not far from true, as we then were closer to a shooting war than ever. Stalin's death and exchange of war prisoners did not prevent more bombing than ever during April and May. As 1954 is approached, wars and troubles will increase, rather than diminish, in spite of talk about truce and armistice. 1953-1954 is a period of war and tribulations. The Church will be destroyed, including the Catholic Mother Church and its Protestant offshoots.

(Sam Bartolet's address is: 9 East 7th St., Williamsport, Pa. - For further information on this subject, send $2.25 for our book "Prophecies of 1953", describing Bartolet's predictions, to New Age Foundation.-(see address below).

During June a group of New Age Pioneers will leave for Guatemala to find a suitable location for a Vegetarian Settlement. All who are interested in this project should become members of our organization, "New Age Foundation", and so receive our publication, which will be mailed at frequent intervals and give news of colonization developments. Since the New Age Foundation is a non-profit, humanitarian enterprise, it is supported by voluntary contributions by members. These will be used to cover the expenses of its publication work, and exploration work to find a suitable location for our settlement. If you wish to become a member, fill out Membership Application Blank below. You will then be put on our mailing list and will be sent our publication when issued.

New York 7, N.Y.

Gentlemen:

I wish to become a member of your organization and to receive your publication NEW AGE PIONEER, which is sent at frequent intervals to members. I enclose $_____ for _____ months' membership contribution. (Minimum acceptable $5.00 for 5 months, or $10.00 per year (12 months.)

NAME_____ Age_____

ADDRESS

COMMUNICATION RECEIVED FROM BORDERLAND SCIENCES RESEARCH ASSOCIATES -
- 3524 Adams Avenue, San Diego 16, California. -
-With Our Comments -

"The Natalli Control states that, in his opinion, NO serious disaster is likely in the United States this year. There will be unusual floods and storms, and possibly a volcanic eruption in Mexico (Paricutin is becoming more active), but Natalli does not foresee any disaster of national or continental scope."

COMMENTS: As stated by Cosmic Scientist Sam Bartolet, 9 E. 7th St., Williamsport, Pa., whose prognostications constituted the basis for the book "PROPHECIES FOR 1953", issued by The New Age Foundation (price $2.25 postpaid), in "New Age Pioneer" No. 2, the Time of Tribulation - the 40-year war cycle that started on June, 1914, may last until June, 1954. According to Bartolet, it is impossible to fix an exact time when cosmic cycles will find fulfillment on earth, as they cover a general historical period, and events may occur either at the beginning or the end of the period. For example, last February, Mars was in a very dangerous period, when something could have happened, but fortunately, the danger was averted. So it is possible that nothing serious may happen in 1953, as predicted, but that these same events will occur at a somewhat later time, in 1954. The 40-year war period, says Bartolet, ends on June 20, 1954. According to a German astrological prophet, 1959 will be the most fateful year in human history. Bartolet believes the troubles will start by June 1954, and from then on, will get worse and worse, until the final climax in 1959. -- ".N.A.P." Bulletin, No. 3.- -

BORDERLAND SCIENCES RESEARCH ASSOCIATES -- Publications as of JUNE, 1953.
- address: 3524 Adams Avenue, San Diego 16, California.

BSRA 1. Experiments of Morley-Martin & Dr. C.W. Littlefield.. .. .. $1.00
BSRA 3. The Koch Treatment for Cancer & Allied Allergies.. .. .. $1.00
BSRA 5. "Vitic" (Physiological effect of Carbon & Magnet).. .. .. $1.00
BSRA 6. Mediums & Mediumship (New printing) $1.00
BSRA 7. The Metatron Theory, by John A. Hilliard(Huna Research) $2.00
BSRA 9. Letters To A Soldier (elementary spiritism and occultism) $1.00
BSRA 12. Previsional Atomic Research, by Edw. S. Schultz $1.00
BSRA 13. EtherShip Mystery and Its Solution ("Flying Discs"); reprint with Addendum, summarizing situation to 1953 . . . . . $2.00
BSRA 14. Memoranda of the Mark Probert Seances: about 30 pages each- - Nos. now on hand: 1, 4, 7, -- each $1.00
BSRA 15. Transcripts of the Probert Seances. By subscription, 10 to 12 issues per year (5 or 6 in 6 mos.)-(not more than 10 pages). . . . $5.00
--these do not duplicate records in BSRA 14.-Latest No. 23, June,1953.----
BSRA 17. The Magic Bag. Clairaudient dictation by M.P. Controls (book size). . .. -- Part I temporarily out; Part II now available. . Part II . . $3.00
BSRA 18. THE ROUND ROBIN.- Bi-monthly. Subscription included with BSRA membership, along with various Releases and Bulletins. -Singles -50¢ - --- Yearly $5.00
BSRA 19. EXCERPTS from the Mark Probert Seances. Nos. I and II have been issued. These are booklets replacing Nos. 14 and 15 of items Nos. 14 and 15 above. - Seances of 1951. . . . . .Each . . . $1.50
BSRA 20. The Aurameter. An 80-page book on a new and important instrument in the field of radiesthesia - reacts to the aura, thought-forms, etc., by Verne L. Cameron and BSR Associates. Diagrams & text.- - - - - - - - - - - - - - - OUT, but soon to be reprinted $3.00
BSRA 22. "Prophecies for 1953".- 43 pages. . .(See description) $2.10
BSRA 23. "Flying Saucers", by Rolf Telano and the Nors.-(See description).. $1.00
BSRA 24. Bulletin "1-B-53"-("Contact With The Guardians").-(See description) $1.00
BSRA 25. RETRO ME-(Psychic Self-Defense).- (See description) $1.00
BSRA 26. "For Information Of The Public".- 3-page summary of Disc data... FREE .
BSRA 27. "Bio-genesis", by Mark Gallert, BSRA.-Synopsis of work of Dr. Chas. W. Littlefield.-(New Publication). $1.00
BSRA 28. "Clips, Quotes, and Comments"-(New Publication). - 12 issues-(6 mo) $5.00
- 6 issues-(3 mo) $2.50
- 2 issues- -- - $1.00
BSRA 29. "The Ether Of Space".-(In preparation. Ready by July 10-1953) . . .$1.50
BSRA 30. "Nuclear Physics".-(Fission of the proton).-(Reprint from R.R.V-1)- $1.00

INSPECTION COPIES on request, except Nos. 17 and 20.

Loose-leaf informational material, including recent Bulletins & Releases in the field of BSR interests, may be had on request; and also accompany ROUND ROBIN subscription and membership in BSRA.

NOTE: - DESCRIPTIONS of these and other items will either be sent separately on request, or will be found in pages attached to this list.

CLIPS, QUOTES, AND COMMENTS

CLIPS, QUOTES, & COMMENTS consists of miscellaneous material, without long articles, which we shall send out twice a month to those who want it. The tempo of events is increasing and a great deal of material comes into headquarters which we think might interest our Associates - but which is not suitable for Round Robin Also, the fact that Round Robin is a bi-monthly means that current events are already "dated" by the time RR reaches you. So we reserve RR for longer articles and more serious discussions, and try to get current items into C.Q.C. instead.

And we want to include in CQC many short excerpts from correspondence. We would like to get our Associates into closer contact with each other as difficult times approach. If you do NOT want your names and city of residence printed, please mark your letters PERSONAL.

As always, we appreciate clippings and news items, especially with reference to the aeroforms and related phenomena - and please do not think otherwise because we so often fail even to acknowledge them. The reasons: work, time, expense, and now a prospective rise in postal rates. -- BSR has been and remains a non-profit set-up, in the sense that all funds received are turned back into operating costs.

For the information of Associates: Our publications have been attracting favorable attention in England and to some extent in France. The Aurameter, invented by Assoc. Verne L. Cameron, is getting much well-deserved publicity - as is also his discovery (by means of this instrument) of forces emanating from Cones and Pyramids. -- Also, there seems a good chance that the two volumes of the MAGIC BAG (by the Mark Probert Controls) will be printed in England, in which case it should have a very wide distribution. In this connection, we are urgently in need of a few copies of Part I (out of print), and will pay the original purchase price for them or extend credit to that amount.

The ETHER OF SPACE booklet is being mimeographed - slightly delayed by a breakdown in the mimeograph equipment. -- The brochure by Assoc. Mark L. Gallert (on the Littlefield experiments) is being distributed (@ $1.00). The "Ether of Space"will cost $1.50.

The critical months of August and September are close at hand. We have reported many predictions concerning this time - but have done no more than report them. The Probert Controls have never joined the chorus of disaster in any specific way. They expect storms, floods, earthquakes, and violent weather disturbances - but "no disaster of major importance during 1953 - so far as we now can see." The most ominous feature is persistent presence of the aeroforms (Discs etc.) - since these visitors are not here on any mere sight-seeing tour. -- Well, those who have read the mass of data we have been publishing for five years past, know as much about the current situation as we do and can draw their own inferences.

Finally, as to the cost of CLIPS AND QUOTES, we shall (regretfully) have to charge .50 an issue for it, or 12 issues for $5.00, 6 issues for $2.50. If there is not sufficient interest and we cannot carry on, we'll refund any amounts paid in.

All contributors mentioned in CQC can be reached in care of BSR HDQRS, 3524 Adams Ave., San Diego 16, Calif.

(Meade Layne, Director)

IS MARS TRYING TO CONTACT US? SIR Magazine for July '53 goes out on a limb - the very same limb, by the way, where Round Robin has perched for years. We refer to RR articles on the Mars Messages and related data. We'll just sum up some of the SIR stuff:

"There is evidence that the people of Mars are trying to contact us, and have been making such efforts for decades -- The Flying Saucers are only one of many indications -- Dr. Saheki, Japanese astronomer, reported an atomic explosion (apparently) on Mars, also brilliant flashes of several minutes duration, also reception of radiation which appears to be of artificial origin and which resembles signals.

'Huge geometrical configurations have appeared - equilateral triangles, a cross centered in a circle (replaced by other figures). A huge octagon replaced by a five-pointed star (1907, 1924). Astronomer Pickering was certain that Mars was trying to signal the earth, and reported many geometrical figures which 'could not have been produced by Nature'. Electronic 'signals' have been numerous. "We know definitely that we can reach other planets by radio", which indicates that we can receive them also. Clear and distinct sounds "very weird in modulation", at regular intervals, have been received simultaneously at widely separated places.. They increase or fade out as Mars approaches or recedes...'

Then there's the 'cosmic hissing' on wave lengths 300 to 600. (Maybe disgust at our radio programs). These seem to come from stars of the Milky Way, not from Mars... Bacterial life has been proved to exist in the interior of meteors.. As to Mars again, add the the existence of the well-known 'canals'. Time we began to take interplanetary communication seriously', says the author of the SIR article (Walter B. Reynolds).

Our info. is, that the 'canals' are natural fissures often lined with low forms of vegetation - that there is life on Venus but in the interior of that planet -- That signals have been sent the earth many times through many past years -- that human-like beings (and of the human race) have existed on all the planets of our system and have migrated from one planet to another -- that the Guardians who now visit us in the 'flying discs' visit all planets and have certain duties to perform. They themselves, however, are space people - that is, they inhabit the ethers which we call space, and which are far more dense than matter as we know it -- that there are some sixty bodies in our solar system capable of supporting organic life resembling our own -- that all visible bodies have their etheric duplicates or doubles (like the earth and all earth objects) -- that the strange 'falls' of all kinds of substances 'from the sky' result when etheric objects change their vibratory rates, and usually come out of the etheric double of the earth-plane -- that such falls are likely to become frequent and startling in the near future (Charles Fort lists scores of them)-- and (we add) that the most remarkable and depressing phenomenon of all is the abysmal ignorance and stupid dogmatisms of the human race ...

PROJECT A -- INVESTIGATION OF PHENOMENA ("FLYING SAUCERS") -- Ohio Northern University, Ada, Ohio. March 1953. Eight pages ($8\frac{1}{2}$ x 11). Very cautious and conservative, but at the same time probably the most tolerant and receptive scientific study now being made. "No one explanation fits all sightings, and about 20% of the sightings fit the category of unnatural phenomena." The 'new weapon' explanation can be discarded. Cooperation of the public requested. We recommend this bulletin and PROJECT A to our Associates.

RESPITE ANYHOW! "New Age Pioneer" (New Age Foundation, N.Y.) quotes "Compte de St. Germaine" (no less!) as follows: The War of Armageddon commenced in 1950 ... next year it will encircle the globe. There will be no major catastrophe in 1953. Of that you can rest assured. Do not look before the spring of 1954 for anything serious to happen. The worst will occur in the summer of 1954. All calculations have been a year too soon ..." -- But now look at the next paragraph (re article from Look magazine of July 14, 1953):

We are in a Life and Death Atom Bomb Race is the title. Fourteen countries are listed as very active either in atomic research for military purposes or for industrial power, with seven other minor Powers "exhibiting strong interest". The whole simply points up what Einstein said years ago - that atomic power is an international and world problem, far bigger than a mere scientific achievement - but the data in the article are surprising and disquieting.

MAN'S MAGAZINE for August 1953 has three articles which (we think) BSR Associates should read: Can He Cure Cancer (Story of the Hoxsey Clinic) -- Chlorophyl Exposed-- The Riddle of the Cinder Woman (a rehash of the Reeser case). The Hoxsey story is illustrated and documented and may do a little something to hinder the outrageous plundering of the public by the brigands of the A.M.A. Our BSR publications have long urged the merits of another treatment - the Koch - but has advocated the Hoxsey method as being about equally effective. -- Chlorophyl has certain high merits, but as a deodorant it is on its way out, along with most of the vitamin propaganda. -- About the Reeser case, we wrote this up in July or August 1951 and have recurred to it in the forthcoming Round Robin (ix-2). MAN'S magazine of course offers no faintest hint of any explanation, but does make the experts look foolish. One could fill a fair-sized book with somewhat similar cases, but they will never be other than mysteries to the 'metaphysical illiterates!

MYSTERIOUS DEATHS of Filipinos: There was a series of these in Hawaii about a year ago, and we pointed out that while the circumstances gave no clue at all to the M.D.'s who investigated, they did fit in nicely with the operations of Kahuna magic- the "enter in and straighten out" commands given to servient spirits, etc. Something similar may be involved now, though the deaths seem more sudden and violent. The Probert Controls say that this attack by magic is possible, but go on to explain a different technique for it, so to speak.

According to them, it is possible not infrequent in the Orient, for a Yogi or Adept to project a thought-form, which becomes semi-materialized as a large pear - shaped bag, soft and cushiony, with the devilish property of clinging tight as a plaster to the recumbent victim. If he rolls about trying to escape, the bag simply rolls with him and clings the tighter, so that he soon dies of suffocation. It's anyone's privilege to say 'stuff 'n nonsense' - also his-or-her privilege to learn a very great deal about some yogis and their ways.

HARMFUL RADIATIONS AND THEIR ELIMINATION: This is a 16-page brochure (printed), $5\frac{1}{2}$ x $8\frac{1}{2}$", and contains among other items: Earth Rays & Their Effects - Phenomena Connected with Cavities - Cosmic Rays - Earth Rays & Illness - Effect of Screens - Fields (electric and magnetic) - Use of the Eliminator - Malefic Objects - Use of Radiesthesia - Future of Research - Earth Ray Eliminator. This is a serious and important department of Borderland research - and intensely practical. Address Bruce Copen, Radiesthesia Research Laboratory, 21, Over St., Brighton 1, Sussex, England. "Price one shilling" (say) .20 .

A HANDBOOK OF THE AURA BIOMETER (an aura measuring instrument). Issued by the Archers' Court Research Group, Hastings - Sussex - England. A 20-pg brochure, $6\frac{1}{2}$ x 8", 1953. No price quoted but well worth a dollar to anyone interested in these very productive studies. The Founder-President, John J. Williamson, writes: "The important point

(about the present issue) is that material proof of the existence of a higher state of manifestation - possibly the spirit world, has been discovered by Dr. W.E.Benham of England. This proof is, that radiesthetic waves travel at a velocity of twenty million times that of physical light..." (The data) "strongly suggest that there is something about light that travels" (at that speed);"maybe a longitudinal component of other vibration too small for detection" (Hand-Book, Append.v)...

This super-speed reminds us of the tag-end of a broadcast (from where? by whom?) heard by the BSR Director on the morning of July 6, 1953, to the effect that some scientist had reported instrumental observation (or recording?) of an object moving at more than 200,000 miles per second - which, be it noted, is well above the speed of light, supposed to be a "maximum" -- And this alleged fact reminds us in its turn, that the M.P. Controls have repeatedly asserted that there is NO theoretical limit to the speed of a free object in space. IF Dr. Benham's discovery and/or the observation reported above should be verifiable, it will be comparable to Columbus and a continent . . .

In this same connection - the BSR Director has been compiling a booklet (or brochure) called THE ETHER OF SPACE, containing quotations from an old book by Sir Oliver Lodge (with same title), brief quotes from Sullivan, Eddington, Philip Frank and others - and as piece-of-resistence a discourse by the M.P. Control Ramon Natalli, a very erudite 17th century astronomer (given by clairaudient dictation, not through trance). Natalli says hardly anyone will understand him, and that's probably correct - but it's an impressive adventure into super-physics and might muddle-the-puddle of scientism worse than ever - IF its heresies get noised about. (Moola, $1.50).

About every third or fourth postman, somebody wants information about pendulums and other devices for radiesthesia - and we have neither ability nor durability to be of much help. Write to F.A. Archdale, 3 Wayside Road, Southbourne, Bournemouth, England, for "Elementary Radiesthesia" (Archdale), .50 -- The Pendulum, monthly review, 20 shillings per annum ($3.00); single, 2 s., .35. Ask for list of publications; send international money order (post office). Or Ask Bobbitt Agency to get it for you (1609-10th Ave. North, Nashville, Tenn.

I RODE A FLYING SAUCER, by George W. Van Tassel; 2nd edition, revised and en - larged - may be obtained from the New Age.Publishing Co., 1542 Glendale Boulevard, Los Angeles 26, Calif. Booklet, 51 pgs. Price $1.00.

The increasing tempo of events: It has become one of the sleepiest of bromides to refer to this - i.e., to an apparent stepping-up in the sequence of events, national, planetary, social and political, and in research, invention and discovery. It may occur to the philosophy-minded, or metaphysically minded that this is 'really' an alteration in the human time-sense - time being a subjective category anyway. But, like the change in the length of a yardstick (when it points east-west, then north-south), it will not be noticed per se. Or it would be more like (say) the shortening of each hour by 10 minutes, changing all the clocks in the world without telling anybody, and so crowding events 'closer' together. - Well, a silly idea - like most ideas ...

MAGIC BAG, PART I. The reprint on this is still delayed, but we are anxious to get hold of two or three copies, to be used in connection with a possible printing of the book in England. If you have a copy to spare we will pay you your original purchase price for it and say thank you two or three times.

REMINDER: There is a solar eclipse on July 11, Lunar on July 26, Solar on August 9. The shadow line for July 11 passes over Palestine and the Middle East. Any disturbances resulting may not be immediate; may occur later in Jordan River Valley, the lower Hudson River Valley, and the Pacific Coast (according to the well-known character, Ben Told).

"What will happen to this thing we call human nature when man is forced by reason, experience, and increasing knowledge to accept an entirely new conception of his being, his place in 'the scheme of things' - a conception whose essential validity is attested by all human experience and which becomes more evident every passing day? It may be that our present civilization will collapse, our material progress stop, while man patiently erects a new structure that will have equal support on both ends . . . (but) I affirm that human nature is susceptible to rapid changes under the impact of new knowledge, the re-evaluation of old knowledge, and its consequent corollary, new conceptions."

The above quote comes from The Conquest of Hell, by Wallace Stockwell (68 pgs); a remarkable piece of virile writing, with a basically optimistic world view. Published by Allace Pub. Co., Mount Prospect, Ill. 1948.

(In any book one is likely to find statements one would want to express differently, orperhaps remove entirely; I find this true in my own reading of The Conquest, but the essay as a whole is vigorous and striking and I believe most of our Associates would find it well worth while. It is very a propos, since few of us have any adequate idea of the impact on human thinking and values entailed by the Visitation of the Discs and the related phenomena. ML). -- (No price stated but $1.00 may cover. Do NOT order from BSR Hdqrs.). -- We are indebted to Assoc. Elmer Fish, 1108 Fifth St.,S.W., Canton, Ohio, for a copy of the Conquest.

GROWING ALARM: "What can be done to stem the rising tide of anti-intellectualism in America (I assume we are powerless to do anything about the even worse situation in other countries. Individuals can do little or nothing; only large and respected organizations can get results. I refer to such organizations as the American Association for the Advancement of Science and the National Academy of Sciences. I would urge that these make the problem of anti-intellectualism their concern... Soft talk will not be enough... One method would be for the AAAS to impose an assessment on its members for an educational program to enlighten the public about the case for freedom (in scientific thought) ...

Reprinted from The Nation by the Society for Social Responsibility in Science, Gambier, Ohio.

Out of some 500 pages of possible comments on this item (which one could think up without too much taedium), we only remark here (1) that we are not overwhelmed by sympathy for the 'American intellectuals' (2) that the situation is not going to be remedied by a sudden zeal for good works and a propaganda assessment on the AAAS (3) that if, as seems likely, some kind of planetary house-cleaning is next in order, it will not be confined to polloi who do not know that $E = MC^2$ but will take in several large baskets-full of the higher ignoranti as well. Ugh!)

The Line forms on the Left:

For annual dues of $1000 you can become a Founding Member of the Parapsychology Foundation, Inc.; for $500 annual dues you can be a life member; a Sustaining member for only $100; an Associate for $25.00; a Student member for an annual $5.00. Remit to the Foundation, Eileen J. Garrett, President; 11 E. 44th St., NYC 17. Also there's an International Conference coming up at Utrecht but the lists are closed now. Sorry. 'There may be a later conference to which you and you will be invited' - says the President. Further, you can get four issues of TOMORROW for $2.00 (same address, and 'nearly 150 pgs of startling facts'. Your Director just can't stand the strain of being startled 150 times in succession, but it's yours for $2.00 if wanted).

And Dr. Walter Siegmeister and his group want us to announce that they are going to the West Indies instead of to the Bahamas as lately stated. The group is now said to be gathering in north Florida. They can be reached via 215 - 6th St., Loraine, Ohio (Organic Food Research Associates).

A "Flying Saucers Convention" will be held at the Hollywood Hotel, 6811 Hllwd Blvd. Hollywood. August 16,17,18; auspices of Flying Saucers International, Max B. Miller, President. F.I.S. Hdqrs. can be reached via Box 34, Preuss Sta., L.A. 35. The Special Release announcing this is sent out by Orfeo Angelucci, Sec., who himself has had some remarkable experiences with the Disc people.

Assoc. Mrs. H.M.G. of Ruidoso (N.M.) asks us "Did you get a clipping about the Bat-man seen in a tree in Houston by five people, propelled by fire in his rear?" She adds her own hypothesis, that it was really Senator McCarthy out hunting red mosquitoes.

And Miss C.M. of Hollywood wants to know, will she get her copies of Round Robin if the Pacific coast is submerged - and if San Diego and Hollywood both go under, will she get her money back? Ha! Well, we have warned you-all about that situation before. But we do hope you'll keep RR alive to the last possible cheep. You'll acquire merit if nothing else.

Quotation from Metaphysical Digest, April-May 1953: "We have now succeeded in photographing the aura of a magnet by the use of pinacyanole bromide screens and extra-fast infra-red plates; the photograph gives the same configuration of field as would be plotted by a plotting compass or 'iron-filing picture'. Equipment used was: 1 mid. shade p.b. aura screen; Kodak's I.R.-E.R. scientific plates. 100-watt pearl bulb at 10 ft. with 15 sec. exposure. Magnet field strength 1330 Gauss..."

There is also an attack by a correspondent (in California) on the genuineness of the vortex phenomena at Santa Cruz, Calif. - and a fairly complete refutation by the Digest Editor. -- This Digest is a 6½ x 8" mimeo. folder, 22 pgs., poorly printed but containing much interesting and valuable material. -- 10/6d or $1.60 per year. Send Int. M.O. to The Society of Metaphysicians, Ltd. Archers' Court, Hastings, England - or ask Bobbitt Agency to get it for you (pay them and they will order), 1609 - 10th Ave. No., Nashville 8, Tenn.

Note from Verne Cameron: "The pyramid experiments continue, getting more interesting all the time. Today I got the 84th shave from the original Gillette blade started April 4. Milk left under a pyramid made good cheese, which I ate some of 21 days later. I have a 20 inch aluminum pyramid which I use connected to the cone, which greatly amplifies the power from it. I connect from the tip of the 22" cone (suspended) by a wire, to the tip or vertex of the pyramid. I am not convinced yet that the direction has anything to do with the placing of the pyramid, and I find it has no destructive effect on ants when placed over an ant hill."

The existence of a ray or energy-stream of some kind emanating from the tip of both cones and pyramids was first detected by means of the Aurameter - a dowsing instrument invented by Mr. Cameron - but is now verified by many related data. In addition to the curious effect of keeping a razor blade sharp, a pyramid properly made and placed will prevent decay (mummify) meat or vegetables placed undef it.

A reprint of the book on the AURAMETER should be ready for distribution some time this month (July '53).

For general information concerning book, instrument, dowsing experiments, pyramid and cone experiments etc., address VERNE L. CAMERON (BSRA), Route 1, Box 1120, Elsinore, Calif.

SOME PROMINENT OPINIONS Concerning the Treatment of Cancer (1 page, 11 short paragraphs of quotation from prominent M.D.'s -- Also, Medical Dictatorship in This Country, by Harry M. Hoxsey -- also, Orthodox Medicine Public Enemy No.1, by Alonzo J. Shadman, M.D. For free copies of these, inquire of "M.V.H.", Ounce of Prevention Committee, 1950 Locust Ave., Long Beach 6, Calif.
