We are very fortunate to have these highly dedicated and spiritually evolved souls to serve with me in this important spiritual spiritual activity of The Father's House. Some of them may be known to you, especially Illiana who has a large mailing list, and sends out frequent Newsletters or bulletins, embodying messages and spiritual teachings that she receives from one who identifies himself as BAN-DHU, from the planet Jamal, beyond our solar system.

Nellie Cain has been head of the Spiritual Research Society in Grand Rapids for many years, and is author of a lovely book called "Gems of Truth, from The Masters", also a small booklet "Symbology of the Life of the Master Jesus".

The present change of name has been directed by The All Knowing One as being more appropriate for that which He wishes us to present in the broader and all-inclusive field of Universal Truth. We shall still present news and views concerning the Universal Link, such as the Newsletter and article by Mollie Thompson in this issue.

IN MY FATHER'S HOUSE — Are Many Mansions — St. John 14:2

In the Aramaic version it is interpreted as 'many rooms', but among metaphysical and New Age people it is widely understood as many levels or dimensions of conscious awareness. It is equally true of mankind who live on this planet, as well as other planets, universes and galaxies. There is infinite variety in the vast infinite cosmic whole which our Father, the Creator of all has brought into manifest existence. From the infinite smallness of the atom to the infinite vastness incomprehendable to human minds, there is no real difference except in degree. As above, so below, and as below, so above!

I would like to remind you here of the Biblical parable of the Prodigal Son, recorded in the 15th chapter of Luke. Jesus spoke to the multitudes in those days in terms that they could easily understand, and the same lessons and parables are just as apropos right now as they were in those days. In fact the entire life of Jesus symbolizes the path and experiences that all of us must pass through before we individually and collectively, including the planet earth can enter into The Father's House which has also been referred to as the re-establishment of the Kingdom of Heaven on Earth. This is the rebirth that Jesus spoke of to Nicodemus and it is also the return of the prodigal son to his Father's House. Each one must experience the awakening and the realization that the 'second coming' of the Christ must first be achieved as a personal inner reality, as Jesus repeatedly emphasized the 'WITHINNESS' of these spiritual processes.... the Kingdom of Heaven is within; The Father within, etc.

As we now enter more deeply into the fringes of the Aquarian Age, the outpouring of spiritual energies, and the consequent raising of the vibratory rate of these tremendously powerful frequencies, people every where are being affected, though very few understand why; and they are reacting either positively or negatively, depending upon their own predominant polarity. Look about you and comtemplate in an analytical way, that which is taking place. It is like the headon clash of two powerful storm fronts, each rotating in opposite directions, and the 'Masses' are caught in the middle. So we have rebellion and demonstrations among large segments of students and other classes of young people, and it runs through all classes, strata and color of mankind. Internationally, the whole world world is directly or indirectly involved in war. Even Nature herself has reacted violently and abnormally. One could fill many pages with outstanding examples and details, but space here does not permit.

Our mission, - through this publication, and through our individual contacts with individuals and groups in our separate environments, is to bring the whole picture into perspective, as we attempt to bring greater understanding of the operation of Divine Universal Law of cause and effect whether it on the personal level, the national level, or the earth itself!

Brother Francis, - Editor

LETTERS TO THE EDITOR

"The Father's House" -
Dear Friends;

St. Maurice, Switzerland
February 2, 1969

I feel the urge to write to you today about the House of God. It was David's dream to build on earth the House of God. Soloman built the Temple. He had enough wisdom to give the whole world.

Jesus didn't find the House of His Father in proper order, as you know, and finally the Temple itself was destroyed.

It has been my dream for years to establish on earth 'The House of God' God' — 'The House of The Father', where the Sons of God could always feel at home, and find rest and inspiration for their work. Jesus hadn't even a stone upon which to lay His head.

I see the House of God as a central point on earth upon which the "Glory of God" could dwell, using all therein to communicate with the earth. It must be first a focal point of the "Father - Mother" love for all on earth. It must be a place where the Plan of God is understood; in some way a link between the Divine Mind and mankind; between the Hierarchy of God's helpers and planners, and those who wish to serve in the administration of human affairs. It must be the dwelling place of a group whose members will offer themselves as a channel through which the will and the love of God can be expressed.

The "House of God" shouldn't be tied to one place, - and sometimes I see it as a ship, - even a 'space ship' that could go round the world, and bring light to all.

The House of God must be a centre of interdimensional and interplanetary relations. It must also be a place of deep study and research, and of communion with God and all of His creation. It seems that something has to be done along this line now.

The twelve tribes are scattered around the world. Now is the call for unity. If Abraham, Isaac and Jacob are with us, then the blessings of God will come upon us, and all the obstacles and difficulties will be met with success.

Isn't now the time of the manifestations of the Sons of God on earth? Isn't now the time to bring down to the earth the 'New Jerusalem' as the center of the new spiritual consciousness?

Let us join our minds and our hearts in the House of The Father, in order to make it manifest on earth, so that all may know the love of the Father, and have life abundantly."

Ever Yours,
Brother Francis of Switzerland

Dear Brother Francis, -

"Commenting on the beautiful first Holiday Edition of Father's House Magazine (Universal Link Concept) ...it was surprise much appreciated, and have been re-reading different pages over and over for inspiration. I feel very interested in these new communities and groups that are forming in different parts of the world. The group in Scotland sounds most fascinating, and the work they are doing.

Yes, I agree this new magazine is a "Pearl of Great Price", and I can assure you I love every page of it."

COSMIC BEAMS OF LIGHT

By Illiana

Beloved Ones, as we view your Earth from our viewing stand in the Universe, we see much accellerated motion going on in the Cosmic Beloved's Vineyard that it makes our hearts leap for joy! Here and there we see a darkened corner being lit with the Lamp of Truth that you, our beloved Co-Workers, are igniting! It is a most glorious fulfillment of what we foresaw earlier regarding this acceleration by the Light Forces! Oh, my beloved, do not think we are blind to the existence of darkness still present - this is quite strongly evidenced on your planet. The Dark Forces are working more determinedly than ever before. But Light overcomes Darkness and this is what we are observing happening in greater abundance than ever before in your planet's history.

You, who are Light Bearers, are quite aware of this, for you do not hamper your vision with physical obstructions. You, like we, can see beyond the negative aspects into the Light - the Glory of the Beloved of all Ages. However, if one permits himself to be blind to the Light, as many negative types do, they will see ONLY what lies lurking in the dark areas - they become so absorbed in the physical aspects of the planet that quite naturally they find it a "dooming" picture. They must find that radiating beam of Light - they must SEE it when it appears - if it is difficult for them, and they ARE seeking, then you must help them.

Since the beginning of your new cycle (1969) my beloved, Light Centers THROUGHOUT THE EARTH have multiplied in great abundance. There is an urgent drive presently by the Cosmic Hierarchy to link together in even stronger bands these many Light Groups. The Christ-Soul, in invisible form, is directing the Work much more personally and His presence is witnessed by MANY! It is HE who is moulding the Chain of Gold and Linking it with strong bands of Love. If a weak link is discovered it is He who adds the proper alloys in order to strengthen It - or, if the link is a stray piece of foreign "metal" which would weaken the Golden Chain, then He removes it and casts it out for rebuilding.

When you envision the works of the Dark Forces, do not permit yourself to become discouraged and weak in your faith. Yes, it is quite real that turmoil is existing in abundance on your planet. There are calamitous incidences which appear to some to fully overshadow the Light - but we tell you with authority that these dark powers are weakening! Much of what APPEARS as darkness to earth beings is in reality a flimmer of Light! Let me give you examples of this: The protestations which are so prevalent in your present day - particularly those against the war-machines - even though some are marred by bloddy riots (work of the Dark Forces) - they are in truth evidence that men of your planet are seeing glimmers of Light and are clamoring to get into Its full beam! We are not saying that these riotous protestations are the best methods to approach Light, but for

certain beings this appears to them to be the way for their soul, which is struggling to reach a higher rung on the ladder.

Another example, which we have spoken of at other times, is the use of chemicals by certain younger members of Earth. This, on the surface, is a great evil and a detrimentation of the physical vehicle - but beloved, again these beloved souls see a slight glimmer of Light "around the corner" and they are trying to grasp hurriedly at the full beam of Light - they believe these chemicals will hasten their vision and soul progress. Of course they are mistaken and YOU must instruct them of the better way - that their way can prove disastrous!

One final example of what appears to be "darkness": There is a decline in the attendance in the many churches of your Earth. There is even rebellion within their walls. To the leaders of these Temples this spells doom and they feel their people are "going away from God". Nothing could be as far removed from the Truth, my beloved. This, too, is a sign that the glimmer of Light is being observed and the desire to bathe in the FULL BEAM OF THE COSMIC LIGHT is a strong desire of your mankind. There is at last, a realization that religious groups must forego their dogma and realize that for many of your centuries THEY (the religious groups) have been in a great part responsible for the murderous acts incurred upon your people; that they have, in many instances, been the cause of division among peoples; that their "holier than thou" mannerisms have in fact been feeding the dark forces, ruled by Bellaze (Satan). Now is the time for Light to enter in with its full radiating energies supplying ALL peoples with the REALITY that LOVE, BROTHERHOOD, AND PEACE must reign supreme.

It is time NOW for Eastern and Western idealogies to meet and cement their differences, and their misconceptions of one another -for them to combine the best that is in them and thus begin formulating the Universal Temple. These Temples established throughout the world would contain several meditating rooms, lecture halls, vast libraries where ALL HOLY BOOKS OF EVERY IDEALOGY would be housed for study by anyone desiring such knowledge, study halls where groups can convene for the purpose of group study and discussion.

ALL THESE BEAMS OF LIGHT WILL so shine, my beloved, in a future time on your planet. You are now living in a most exciting era when ALL these things are about to see their beginning! Those of you who are Light Bearers, and you who are Light Seekers will be imbued with the Cosmic One's Energy to assist you in your endeavors. The Christ-Soul will always be as near as you desire Him to be.

Of course, we must not belittle the great work that still has to be done. Your assistance is invaluable to the cause of Light and you must never forget this admonishment. These grand and glorious events will all come to

pass, IF you are dedicated to Truth and Light and CONTINUE to Work in the Vineyard - and so continue to push darkness out to let the Light stream radiantly in!

While you are living and Working for Light, always keep your "shock absorbers" on (Peace - Love - Wisdom) to protect yourselves from the attempts of the Dark Forces. Yes, you will witness said conditions: great men will be destroyed; riotous living will continue to disturb you as you witness its result on those you love; upheavals in countries and warring conditions will not cease immediately - BUT THIS MUST NOT DISCOURAGE YOU. Then you would be "giving in" to Bellaze and he would roar with laughter! When you are confronted with negative happenings turn your "Eye" to the Light AT ONCE and dwell upon the glories of that Light. Soon you will see the darkness disappear as a vapor, and once more the Dark Ones will have been foiled!

Beloved, remember these words spoken this day - dwell on the Light - whenever or wherever you see darkness cast your Torch in those dark recesses and see the shadows flee and His Light permeate! Peace

"IN MY FATHER'S HOUSE"
By Jesu, The Cosmic Christ
(Through ILLIANA)

My Children, I am here in the Glory of the Father to bless you and give you further words of instruction. You, who are among my many Disciples working in the Vineyard of our Father, listen to my words.

As Jesu I once said: I am the Way, the Truth, and the Life. I am the Light of the World, believe in what I say. I and my Father are One - and with this I was also saying YOU and the Father are One. Even then, those many centuries ago, I spoke of the Light, of Love, of Peace, but I knew then it could not be completely fulfilled during that era of Earth's history. I then prepared the way, man became aware that Love IS God. Since, the struggle has become a determining factor in establishing Peace on Earth.

I am today (in this generation) very much in the midst of my Disciples. I direct the Cosmic Hierarchal program of which so many of my people are a part.

Within each of you I dwell. As I promised those years ago, I would return to you again. In fact I have never left you - I have been in your midst since the beginning of time. I am the Essence of the Father. I come to your planet in physical form when you have need of me in this way. Since I am in perfect

Harmony with the Father then it is that I can go and come as I please - and I always appear when I am needed and in whatever form I am most useful to man's spiritual growth.

Heed my words - they are for your happiness and peace. I speak through MANY disciples - at some times, like the present moment, it is my direct words you hear; at other times those chosen by the Cosmic Hierarchal Board are my mouth-piece. They are highly elevated beings having learned the lessons of Earth well, and now dwelling on Higher Planes than Earth's, who now act as Angels (Messengers) as they minister to your every spiritual need. Welcome them to your heart as you welcome Me - give them a dwelling place there as you have given Me shelter. Remember, in My Father's House are Many Mansions - this has many meanings. One which you must be impressed with is that His House is the Universe. As His Son and Counterpart, it is My chosen duty to minister to the needs of His Children in all the Rooms (planets or planes of existence) in this vast House. I must select and appoint Helpers to assist Me in the Work of the Omnipresent, Omnipotent God.

As the time nears for a new Generation - a new Era - many will be appointed tasks to perform. This has been so since Earth has struggled for elevation. At crucial periods of an epoch many were inspired and lifted spiritually, given inner instruction, and finally they were directed to impart this Wisdom to their fellow beings. Your history records these Beings . . Moses, Noah, Elijah, John the Baptist, Paul, Francis the Beloved lover of All creatures - there is a long list.

Now, in this present era, even more of you are needed for the Work that must be done over your vastly populated planet. If you are called, accept the mission - be not concerned with your human frailties. I will help you meet them one at a time. Do your work as you are asked, willingly and lovingly, with no thought of reward. Your reward will be in knowing that you are serving your neighbor with spiritual food.

I am with you ALWAYS - to the end of this generation and into the next era. I dwell within you - I <u>love</u> you. You are My beloved Disciples. . . Love one another with unconditional affection.

I am your Master, Jesu

RESPONSE - THE KEYWORD

By Nellie Cain

A good laugh is good for the soul. Losing one's sense of humor is not only unnecessary but unwise. Joy is a very necessary ingredient in spiritual unfoldment. Many think if they take the High Road they must be solemn and sedate, but this is unfortunate for they miss much of the joy of living. To be lived successfully, life must be enjoyed and those who let the joy go out of life are in a state of inertia, for no progress is made if life is lived in a state of misery and glumness.

Joy - joy - joy is the expanding of Life as it expresses itself. The birds sing the merry song of life for the pure joy of singing. The brooks ripple with joy, the trees whisper their joy as the gentle breeze moves through their branches, and you must respond to the vibrancy of life just as a violin string responds to the bow in the hand of the player. Life is response and this is probably the most perfect definition of Life that you could find. It is RESPONSE by you to the mind of the Creative Mind. If you are sullen and glum you limit your response. Life is always the RESPONSE to the quickening mind of Spirit and thus does creation come about. If you would grow and unfold in consciousness and in your vibratory rate, you must be RESPONSIVE to the indwelling Spirit. This is at all levels. Your bodies must respond into activity, your mind must respond in thought and meditation, and your soul must respond to thehigher vibrations of Love and Light. Then you are in a state of growth. With solemnity and sullenness you deflect the flow of life energy and you become inert and deny the power of Life which could be yours. Joy releases the flow of Divine Life in and through you.

Again I say, "RESPONSE is the Keyword!" Respond into vibrant life by being joyful and becoming involved in Life. Monastic withdrawal from life brings stagnation and you hinder your own progress. By "monastic" I mean living a cloistered life for selfish reasons without being interested or participating in life outside of yourself and your physical needs. Beloved, be joyful! Life is for LIVING! Laugh and play and see the freedom which then becomes yours. Respond to the song of the bird and the wind in the trees. Respond to the beauty of the flower and the sunset. RESPOND TO THE LIFE IN ALL and you then become ONE with Life.

Sitting on the sidelines and not getting into the game brings little joy and growth. But, as you join in the game and play with all of your might, you are exhilarated and you are joyous, for you have striven and in time you will grow in great measure. Life is for your growth and Joy is its principle ingredient. RESPOND and have a vibrant Life and Light the pathway for others. Wise is he who knows that Life is responding on all levels to the Indwelling Spirit which will bring him to his Divine Fulfillment. Bless you, Dear Lights!

TABOR INTERNATIONAL HOME

By Grete Ahlberg - Finnish Correspondent

* * * * * * * * * *

In Tetrimaki, near Kuopio, in eastern Finland, there is a community of Finnish and German people who try to live in the way Jesus taught in the Sermon on the Mount. This community was founded by Mother Maria Holpainen in 1945. About 37 people now live there, including two children. Mother Maria had a similar, but smaller home near Helsingfors in 1940 through 1945. She has graciously permitted me to relate the whole story from the very beginning of her life.

She was born in a very poor home. Her parents were atheists, and unmarried. Under these circumstances, it was quite natural that the child Maria was brought up in the atheistic belief of her parents, and had no opportunity to learn of the existence of God. Her schooling was also very meager.

When she was 16 years old, she fell in love with a boy friend, and they wanted to get married, but both of their parents were very much against it, and would not give their permission. But the young couple were so deeply in love that they left home, and began to live together without marriage. It was not long before the young man became very ill, and in a short time he passed away. Maria was heartbroken, and in this terribly unhappy state of mind she began to ponder as to whether perhaps they had lived in sin by not being married, and she wanted to kill herself. With the last bit of money she had, she bought a train ticket to Imatra, near which is located the greatest waterfall in Finland. It was her plan to go there and commit suicide by jumping into the falls, but when she arrived there were so many people around admiring the majestic falls, that she decided to wait until later in the evening after the people would have gone away, and no one would see her jump into the falls. While waiting she sat out of sight behind some shrubbery, crying and trying to pray, though she hardly knew how, but over and over she said, "God, if its really true that you exist, then bring me to my beloved. After a little while she happened to look up and saw a huge and most beautiful rainbow in the sky, so her first thought was that it might soon come a rainstorm, "and I have not brought a raincoat with me", but then she realized that it would make no difference, since she was going to jump into the waterfalls. Then all at once, as she was looking at the rainbow, there was something that appeared like an opening in the heavens underneath the rainbow, and she saw the Angels walking in and out of the opening. As this occured, she began to feel a great inner surge of belief that after all there is a God!

Suddenly three angels were standing around her, and they asked her to follow them. So she got up and followed them as they led her back to the railway station. When they got to the station, they told her that she should should take the train back to Helsingfors, and there begin a new life with

Jesus. Then they disappeared, and she sat down on a bench in front of the station, not knowing what to do, because she had no money left to purchase a ticket to Helsingfors. Soon an elderly woman came up to her and asked if her name was Maria Holpainen. She said yes, but wondered how the woman could know her name. This woman was of the Pentecostal faith, and told her that just that night she had experienced the same dream three times. She said that there were three angels standing around her, who told her to get up at once and go to the railway station, and she would find a young girl by the name of Maria Holpainen sitting on a bench, and that she should buy a ticket to Helsingfors and give it to Maria. So Maria took the ticket and thanked the woman for her kindness. When she arrived in Helsingfors, she went to a friends home.

The next week she attended a religious meeting, and there met a teacher she knew, who asked her to sing for them. At this same meeting she met a lady by the name of Matilda Wrede, who was very well known all over Scandinavia as "all prisoners friend". Matilda liked the young girls singing and became very fond of her, and invited her to come to her home, where Maria told her whole story. From that day, and until she finally passed away, Matilda Wrede was like a mother to the poor girl.

Quite a new life started for Maria, and she began to go into trance, and the Christ spoke through her. Every day she was in the trance state a long time, and as she says, she was taught by Jesus himself. When she would come back to physical consciousness, she cried and was unhappy, for she longed to spend all her time in the beautiful spirit world. In this way she was taught for ten years, but it became increasingly difficult for her to live in two worlds. Then one time she asked the Christ Jesus to either let her stay in the spirit world all the time, or to let her live in this world. So He allowed her to live in this world, but that she could see and speak with Him every day, – and she still does, even now. He leads her every step of the way, in everything she does, and we understand that the whole community has been built under His direct guidance.

Mother Maria has had many difficulties, and her path has been far from easy. Many times she has been on the verge of giving up because of the ignorance and lack of understanding of the people around her. At one time her own parents tried to have her committed to a mental home. Through all of these trials and difficulties she has always had the never-failing help of the spirit world which has been proved beyond any doubt through the building of these communities, as mentioned above, under the daily manifestation of direct Divine guidance. Gradually her parents and people in general, began to understand her better, when they saw the miraculous results taking shape in a tangible way in the building of this most unusual community. To her great joy, her own parents were converted to a belief in Jesus the Christ, and were legally married before they died.

The ground on which the present community is built, belonged to her father. It is situated in a thickly wooded forest, which supplies all the

wood that is needed for any and all purposes. When they need anything, whether it be money or something else, they pray for help, and they always get it. Most of this help comes from people in Germany, but some also comes from America, as people in other countries hear of Mother Maria's wonderful story of what she has accomplished with God's direct guidance from day to day.

Right after the war with Russia, they took care of approximately 80 homeless or sick people, both the very elderly and the young children. As stated at the beginning of this story, about 37 are living there now. It has been revealed to Maria Holpainen that another time of great crisis will come in Finland when thousands of people will flee to the forests, and that her community must be prepared to care for about 3,000 persons during that period. They now have six houses, but are building more as time goes on. In the largest building they have a sanctuary for divine services with seating capacity of about 150.

Mother Maria also is teaching a class of young people about the Bible in the way that she herself received it, and about her experiences in the invisible world. Her teaching also includes the present-day topics of reincarnation and "Flying Saucers" which she has seen, and all about the New Age upon which we are now entering. She has also written books and pamphlets which she sends all over the world. During the past 23 years she has brought up more than 200 orphan children, who always remember her like a real mother to them.

She is now 67 years of age, cheerful and kind to everyone who comes to visit her home. She is never too busy to talk with all visitors and tell them about what she learned and received from the Christ.

Finland has very cold winters, especially in the north and east, so she and her principal assistant, Sister Virve Suominen, often travel to Germany and Switzerland in the wintertime, and twice she has travelled to Israel. Incidentally she has founded two communities in Germany, similar to the one in Finland. With all this work, Sister Virve has served Mother Maria faithfully for 28 years, and one of her greatest areas of service is the fact that she is able to speak many languages, including English, German and Swedish as well as Finnish, - whereas Mother Maria can only speak Finnish. But Mother Maria is troubled because Sister Virve is not also pyschically or spiritually sensitive like herself, in being able to see and hear The Christ, and she wonders who will be able to take her place when it is time for her to go. She trusts however, that her Lord the Christ will surely take care of that problem when the time comes, the same way He has taken care of all other problems and difficulties.

MY RECENT VISIT TO MOTHER MARIA'S COMMUNITY IN FINLAND

By Anthony Brooke

On October 30, 1968, accompanied by Grete Ahlberg, I was privileged to visit Mother Maria and her unique community near Kuopio, in eastern Finland.

I was reminded of the Findhorn Community in Scotland, inasmuch as the Tetrimaki Community is apparently under 24-hour-a-day Divine guidance, and is becoming self-supporting for its total needs. It is apparently a "protected area" to which a great many different individuals from different parts of the world are to be directed during certain stages of our Planetary Crisis, which still lies ahead of us.

Many quite similar communities are now coming into existence in different parts of the world. Here in Finland, the appearance of Jesus is reported to be in 'solid form' as is the case with Richard Grave in England, to whom The Master, under the name of "TRUTH", or"Limitless Love" has been appearing since 1961.

In 1924, very soon after Maria Holpainen was given a prophetic vision of events soon to come upon the world, including the second World War, (in which she was shown a Germany divided in two), and the Second Coming of The Christ before the end of the Century, Maria Received a Divine directive to visit the President of Finland, and to tell him what she had seen. She was also to tell him that Russia would invade Finland, (no date given), and that it would then be important thatFinland should not seek help from Germany. An assurance was given, that provided she did not do so, - the Russian armies would be driven back, and that Finland would not lose any territory. Help from the Spiritual Realms would be given to the Finns.

As the later events transpired, another Finnish President, who also knew about the prophecy through Maria, was in power in the winter of 1939 when the Russo-Finnish war broke out. Contrary to the directive in the prophecy, this President of Finland sought German assistance. A little territory was lost to the Russians, but to the great surprise of the world, the Russian armies were driven back, and there are many stories current in Scandinavia about hordes of Russians being driven back by much outnumbered units of Finns, who, so it is told, appeared to be supported by great numbers of soldiers who most certainly were not there in three-dimensional form!"

NEWSLETTER FROM ST. ANNES

Once again we are happy to be able to share with you the most recent messages dictated to Richard Grave by the 'ALL KNOWING ONE'. We feel that these statements have come at a time when clear guidance and direction is particularly helpful to each one of us as we seek to weave our appointed thread into the 'Great Pattern' that is as yet obscured. But perhaps even more wonderful is the loving assurance here given that each one is understood and loved throughout this whole period of universal revelation.

Message of Oct. 15, 1968: - "Have no thought to what you have done, - prepare yourselves for what has to be done. Deduce only from facts, and as I have given them to you. There is ample work ahead for all of you, in all corners of the Universe, much of which will surprise you by its very nature, - but I will direct and guide you in good time. Do not hesitate to ask of me."

Next day, Oct. 16th: -'It is necessary to define FACULTY, and DIRECT CONTACT. I have always encouraged people to walk in their own light, and that which reflects Truth to them. In this way I created an even opportunity for all levels of understanding to be embraced in the Universal Link, free of dogma, and allowing for confident personal development within the faculty of the individual, and whereby recognition of Me would depend upon the 'aspect form' their minds projected. I have repeatedly advised you to have no thought toward the seeming confusion that would emerge from this exercise, even when some units seemingly rejected My directives to follow their own reasoning. I love and understand them all, knowing that they are functioning within their means.

"In 1961 I provided a means of direct contact available to all. In the name of Truth I have given you practical proof. Do not confuse 'direct contact' with individual or community expressions. If you wish to speak in My Name, seek clarification."

* * * * * * *

After reading and re-reading the above two messages, I felt that I personally wanted as much clarification as possible concerning the precise definition of 'faculty' and 'direct contact'. And since it had been stated that we need not hesitate to ask, I wrote down a question which Richard later delivered to the "A. K. O." On Oct. 22nd the following answer was received to my question: -

"The 'faculty' I refer to is all of that individual power contained in the human mind, enabling personal comprehension and conviction based on reflex action within a pattern of current events on which the mind of an individual unit may be biased -- all of which is interchangeable according to circumstances. There are many examples of this among 'earth units' as you well know.

NOTHING NEW UNDER THE SUN

By Mollie Thompson

May I ask you to forgive me for beginning with such an obvious cliche! However, even cliches have one of their many feet rooted in truth, and surely it is a fact that there is nothing new under the sun. Does the outer world of today show us any new thing? Are not all new artifacts and projects simply adaptations and extensions of that which was previously existing?

Electronic storage units of the Computer Age faithfully store information, later to act upon it without deviation, over and over again. Wonderful, and how ingenious of man to mechanize a situation which DNA of the protein molecule had been taught to do when life organized itself from amongst the Creators "building blocks"!

Likewise the Astronauts, or the work team behind them, who have discovered that they can shift from one orbit to another, through understanding and applying certain laws. How many 'excited electrons' in how many suns throughout the galaxies have gone through this maneuver, I wonder? I do not need to cite examples of a similar nature, because we can all recognize them.

The analogies may seem far-fetched, or a little too sweeping? Well, that does not matter either, for I am not writing a thesis on physics or chemistry--I am only recognizing the fact that when man discovers and abides by the laws inherent in his (outer) environment, he finds himself able to achieve with varying degrees of difficulty, that which other sections of manifest creation have always achieved with perfect ease. So much for the outer world; now to the inner world - and as we might expect, the situation is exactly the same!

There are laws governing man's inner world, and he either discovers them, abides by them, and achieves that which is termed 'bliss' - or he does not abide by them and achieves very little of lasting value. This brings me back to the cliche - for what can anybody say that is "new" about the path-back-home? Everything that man needs to know about the laws of that journey, has been told to him, not once, but thousands of

times in every age and in every language. There is no new way especially invented for the twentieth century and the New Age that many of us talk about. It is not new, - it is not even a new approach. It is the one, - the old one, and the only way.

Everything conspires to draw our wandering attention back to the fact that these very simple spiritual laws, which have been explained and re-explained for so pathetically long a time, must eventually be 'individually' discovered and individually applied.

I sat with a blank sheet of paper in front of me wondering 'what can I say' - what is there to say about this? – or about any other matter? It would seem to me that there should be no need for any of us to continue saying these things, because at heart we all know what is required of us already. So the interesting question is, what is this process which we all find ourselves caught up within? – where everybody says or writes the same truth, only in slightly different words maybe, and the listeners say "Yes, yes we agree with you."

Perhaps I have an odd sort of mind, but somehow I think it is amusing! Almost as though the needle got stuck in the same groove! How about all of us giving 'a cosmic heave' (individually and in unison), for I would rather like to get on to the next bit of this world's orchestral concert! Wouldn't you?"

"Direct contact is that contact with ME through MY earth medium, and where I take over completely the deeper inner consciousness of My medium to transmit My directives."

From this statement I think we can feel something of the scope and limitless horizon toward which we are being guided, for all of that individual power contained in the human mind will be led step by step towards the unique and perfected expression of LIMITLESS LOVE!

A PREVIEW – 1969 AND BEYOND

By The Fellowship Of Universal Guidance

-o-o-o-

"The remainder of this century is most important in that it will bring about a retreat of the forces of the "Anti-Christ", and to prepare for the emergence of the great AVATAR. This one will bring with Him to Earth the greatest Light that has ever been known to manifest on this planet. When we speak of an Avatar, we speak of that which is greater than a single individual, or a single point of light, for it is all-encompassing! Each of you is indeed a star in your own right, and you have greater or lesser degrees of light, depending upon the quality of your work and the awareness of your own souls. Now as this Light descends closer to earth changes within your structures will come about with great rapidity. This is why we bring prophecy to you. Even this is subject to change, for there are great stresses and strains in opposition to that which is positive and constructive Light forms within the world as you know it."

"As these two opposing force-fields gear themselves to battle, man will then undergo change as it is decreed from moment to moment by the Divine Hierarchy that overshadows and governs the activity of your planet.

"The government as you now know it will cease to exist, for there will be a drawing together on your planet of a 'one-world government', whether or not you understand it or accept it. This shall come to pass. It will in every sense be a spiritual government, which will raise the hopes and aspirations of all mankind.

"A true democracy will emerge within your land, but first the "towers of Babel' must be destroyed, and that is in the process of taking place at this very moment. At any and all times the Christ and the magnificent manifestation of His Light can subdue and overcome whatever aspects of the Anti-Christ that it so decrees. At the same time all on earth must be given an opportunity to grow and emerge as greater beings of Light thru the testing that is necessitated by the power of that which opposes in every way.

"There is to be within your own nation a cleaning out, a clearing or a crash if you will, comparable and yet different from that which you have experienced, for in this time and place it will be accompanied by a change of system, which for a brief time, will bring about once again barter and trade and communal living such as the world has not known for quite some time. For a period of 40 days and nights, you will have no power with which to light your homes or drive your motors. You will have no transportation of any kind, and you will be required to resort to your own initiative or foresight to that which you have been guided, or not guided, to prepare for. Once again this is being placed before you as a warning!"

PREDICTIONS: Especially for 1969

Within this year of 1969, the heads of government of several nations changed, - some through transition, some through infirmity and others by the snuffing out of the souls light.

Much is to occur in your own nation. As the year draws to a close, you will see the re-evaluation of your monetary and tax structures, - in some ways an extension of liberty, and in other ways a restriction of the freedoms that you now enjoy.

One freedom that is to be curtailed is that of passing from one nation to another without good and substantial cause. This will come about through an act designed to stem the flow of precious metals out of your land, but beneath all of this will indeed be a desire upon the part of your government to restrict the activity of you as citizens.

Within the field of medicine, a cure will be found for some afflictions, (not found - but released), for it has long since been found. This will in a small way alleviate the suffering of many who have unnecessarily suffered in the past. There are already those in human form who will promote such changes, and insist upon acceptance by your medical authorities as their power is curbed to some extent in favor of natural forms of healing.

You have yet to understand what has occurred as a result of the present affliction (Hong Kong Flu) that is currently snuffing out the lives of many of your citizens, - but what is more important, it is weakening many in accordance with the plan that has been very carefully calculated and sponsored by the Inner Earth working through those of deception who have promoted the epidemic. It has been, you might say, a trial baloon that has been very carefully planned and released, and has proved so satisfactory in disabling many, that it will be repeated in several forms this next year, or perhaps during this year. You have been told in ancient prophecy that pestilence will again sweep across your land, and other lands, and indeed this is true, for it will come to pass.

There will be another major change in the structure of the Earth, taking many lives, as nature seeks to equalize itself, and this will in its own way depopulate a portion of the planet.

Strikes will simultaneously cripple many industries; this plan has been effectively used as sabotage.

Within your own city (Los Angeles), my friends, there will be bloodshed that has not occurred before. Within your city is much freedom and free-thought, and it will be designed to intimidate and stem the flow of those who gravitate to freedom, thus creating a situation within your city that will disgrace many.

And yet as all this takes place, there is a light emerging, as an attempt will be made to amalgamate the Centers of Light within not only your city of Los Angeles, but other cities both north and south within your State. If this can be brought about where each one will be able to subjugate himself, and to bring about a universal brotherhood within general rules of acceptance, and dedicate yourselves to a work of Light and prayer, then your State of California will indeed become Lemuria transformed. It will then be a fore-runner of that which will cause the secession of your State from the Union, but I speak of secession in a different way, - a change of physical structure, and not governmental in form.

Be prepared for a temporary blackout along the West Coast that will be brought about by strange conditions, but not sabotage. Off-shore activity on the high seas seems to be involved here. It will be brief, but will paralyze the community, for ample provisions have not been made for such an emergency.

Within the year a high governmental official will publicly declare support to that which you refer to as the U. F. O's. This official will have vast power, and will bring ample pressure to bear upon the pro-ble blem, so that an open investigation will come about. This will eventually open the door to friendly contacts with visitors from outer space. Such a rendezvous is now being sponsored, and an emissary is chosen to come to Earth, and will be placed in a position of high standing. He will assume the responsibility to bring about the change just spoken of. This, in all probability will be the major accomplishment in 1969.

All Light Bearers and instruments of Light will make within their individual patterns much progress this year. For those who function within the Light and adhere to the law, it will be an opportunity to move ever forward within your own plan. But this is a plan of service requiring a very high degree of dedication not understood by most of your brethren, and therein lies your reward.

Keep your minds and your 'single eye' upon your own spiritual objectives, and know that as this year closes, the cause of Light will have been served in more ways than you know. The opportunities to serve in ways that are greater than your imagination, can provide a measure of spiritual acceptance and accomplishment. As the soul moves into more light and understanding, it is released from the bondage of mankind."

KEEP YOUR DOORS TO HEAVEN OPEN

Those who are readers of THE FATHER'S HOUSE are well aware of the Power of Prayer. However, occasionally a testimony comes to our attention that brings us to a more positive commitment.

Recently while talking with one of the volunteers of THE CIRCLE OF LIGHT prayer action, she commented, "I always get whatever I ask for in prayer (within the Will of God)". She followed this with a recital of various happenings that had brought a greater awareness to her of the ever present presence of Divine help and the immediacy of answers, even to perfect timing. She ended her remarks with this, "Every day I pray for all those whose names come to me, and sometimes names come to my mind of persons that I do not know, but I pray for them any way, because I know the Forces of Light have brought the call to me."

Knowing this young woman, very well, I realized that she was not offering prayers for others just so she might, therby, derive greater benefit, but rather as an offering of gratitude for her blessings. To me this was such an obvious, yet simple, way to keep the doors of heaven open to us.

Too often we pray only when some crisis comes, then in great agony of spirit call upon Our Heavenly Father, the Angelic Hierarchy, the Forces of Light, "the author and finisher of our fate", Jesus Christ the Lord. A teacher of Truth told his students, "if you will turn in thought to God each morning, devoting even ten minutes to prayer, God will give you back an hour. You have no way of knowing how much distress you sweep away from your door by these morning devotions".

In this particular time period, when the whole planet is under siege, not only as a heavenly body, but every being upon it, we should all take stock of our Devotions. We are sure to find opportunities during the day when we can turn to the Heavenly Kingdom and talk to God for a few minutes, praise Him or implore Him, but in some way COMMUNICATE.

One day while doing routine things at THE FELLOWSHIP, the words, CIRCLE OF LIGHT, flashed into my mind. With the words came the idea of team work prayer. As a result, with Dr. Guthrie and Dr. Karish, I asked for guidance as to how this idea should be handled, and if the Forces of Light were behind the action. The guidance received resulted in certain periods being set aside for group prayer. As time went on we received inquiries from all over the country. We have therefore prepared a simple explanation which, if you are interested, will be sent to you, without charge. If you need and desire the help of this united prayer group, or if you feel impelled to lend your Light to the action, just drop us a note and we will foward a copy of the CIRCLE OF LIGHT Bulletin to you. A STONE IN ARLINGTON

By Dorothy Davis

In LIFE magazine, issue of January 31, there was a feature story on the Inauguration of President Nixon, entitled "Rhetoric Meets Reality". There were numerous pictures representing many facets of that 'reality' in Washington that day, one of which is reproduced at the left. It is of a headstone in the Arlington National Cemetery marking the grave of a young American flier who lost his life in Vietnam on December 14, 1965. But to Dorothy Davis this is not just another marker in that huge cemetery, for this one marks the resting place of the 'physical remains' of her son!

For the benefit of those of our readers who are not familiar with Dorothy and the story of "Robin's Return" let me just say that shortly after his death, he was able to come back and establish psychic contact with his mother, and continued to do so frequently. In life his pet nickname was 'Robin', and so eventually Dorothy was moved to write the story of his return for the comfort and help it might bring to other mothers who had experienced a similar loss and great grief that only a mother can know. It was later published in Chimes Magazine, and brought a tremendous response from those who read the story. Since then she has started writing a sort of spiritual Newsletter which is mailed out at intervals to the hundreds of people who have written to her because of the story. From this point on I will give you her latest release (somewhat condensed) but in her own words.-Editor

"Up until now we have intentionally omitted giving you "Robin's" name, but now the time has come when we will reveal it to you. It was Robert Jerome Moroney, and as indicated by the marker, at the time of his death he was a Captain in the U. S. Air Force. It came as quite a shock to us as we turned the pages of this issue of LIFE, and were confronted with this beautiful picture. We cannot believe that it was accidental that the photographer picked this particular marker to use in the Inaugural story.

The following message was received from 'Robin' early in January, - "Service in any field is the rewarding way to live. Serve your brother, your family, your country. Serve God and He will decorate you with the medals of His Majestic Order of Service, - the Heart of Gold, the Cross

of Love, the Star of Joy. As you wear these medals, you will find that you are indeed in the service of all mankind; but your orders must come from God! He is your commanding officer, and to Him is your responsibility; to Him you must report and present arms! The arms you present are the gift of yourself and your willingness to obey. In this army of Light, you serve with a uniform of Light, for it is only Light that is worn by the army of God. All is Light, Love, Joy and Beauty when your heart is filled with the voice of God's commandment to "love they neighbor as thyself' and to love God with all your heart! You know all this, but I wanted to say it to you in my own words."

- - - - - - - - - -

Message received the day we saw the picture in Life Magazine:
"I am as much alive today as I was many years ago when I was living with you. Do not let the picture make you sad, for it is only the picture of 'a stone' with a name on it, and no more! Any other stone would have been meaningless to you, so let it be only a symbol and not personal! You have a living son with whom you can communicate! You are indeed fortunate, for how many others having a stone in Arlington can say as much? JOY is the feeling that you must have; let the others mourn over their stones. Your son lives, and he lives to serve his fellow men and brothers. He lives to serve in the Army of Light — HE LIVES! Rejoice that I live, and that you know that I live!"

(Received Feb. 1)-- "Mother, a story can be presented about the army invisible that is fighting for the peace for which I supposedly died. A release of that at this time would be very indicative of the new era which is beginning with this administration, and it could be a landmark for many to direct tham into a new pathway, so that they may better understand the comments of the new President, when he said that 'we must drive the darkness away and seek the light, and bring hope to the hopeless, and victory to the rightness of mankind. In the story you are to remain in the position of a mother who is a spokesman for an invisible soldier who is still in the service of his country. His attitude is the same as it always was, only now he fights as a soldier of Light, and is driving the fear from many about the experience of death, - for this is the last enemy of man. Death is to be understood and overcome! When Man has evolved to the point where he can say "there is no death, - only change," and with that change realize that he is born into a new realm where there is only life, and death is unknown, then will he have completed his return to "The Father's House! By dying for my country, I was born into the service of a New Order, the Order of Light! the soldiers of Light are many, and they march under the banner of Love. They invite volunteers to work to bring the peace that your new President is hoping for." He and others in the new government are more open to Light than most know, for he is a man of God, and God is his strength."

WE ARE WHAT WE THINK

By Dr. Harry E. Morgan, Jr.

The world in which we live in this modern age is far from being a balanced or peaceful one. Each day we are made aware of things and events that appear to be of a tragic nature. Rebellion, riots, murder, kidnapings and accidents appear in the newspapers, and on radio and television. Daily you overhear or listen to words spoken by friends or neighbors and acquaintances who play back over and over again, the negative aspect of what goes on in their environment. Many of these people re-live each and every little detail, not realizing that this is being impressed upon their brain cells. Awareness of this faculty, or reverse procedure, is very important for all of us to know. WHY? - Because we BECOME what we think! We do what we think, and we are what we think. We have identified our personality to this state of consciousness, thereby allowing it to have full and complete expression in our lives.

The human race will be unable to free themselves from these self-made traps until they have learned to identify themselves with what they really want, and not with its opposite! 'Like always attracts like' and unlikes repel. The negative repels the positive, and vice versa.

The time is now for all to become Growth Oriented, instead of deficiency oriented. We live in a universe of abundance, governed by exact law. The law is no respector of persons, but will yield with exactitude that which has been chosen. While it is a basic truth that we must first "involute" before we can "evolute", must we always become more involved in the lower, instead of lifting ourselves into the higher?

As we begin to raise our awareness and live in the higher, we must be very careful that our enthusiasm is at all times under control. Many people receiving a little knowledge, immediately take on the task of changing the whole world. No person can change anyone but themselves! Trying to change others leads to complete chaos. The only way we can change another is by example. For only by our fruits shall we be known. To be a perfect expression of the Power Within, we must first identify ourselves with that Power Within. "Be ye therefore perfect as your Father in Heaven is perfect."

In the 'out-thereness' there is nothing but tricks. Who wants to be always tricked into doing something that they did not mean to do? Just as long as we depend upon the objective world as the true source of our kn owing just that long will we be victims of circumstances, and not creators in our own right. We must reach that stage of knowing, and know that we know!

SPIRITUAL HEALING

Brother Francis

It is our intention to make Healing, particularly Spiritual Healing, a part of the program and focus of this publication. Therefore we shall try to have something in each issue along this line to present for your thoughtful consideration and contemplation.

Last October, during my visit with Nellie and Ed Cain in Grand Rapids Michigan, The Grand Director who comes to them as "Keeper of The Flame" in speaking about making Spiritual Healing a part of our activity expressed through this magazine, that "the new work will be along the lines of information about the harmonization by use of the 'Key Note' of various individuals. You will receive instructions and lessons which will show you the meaning of this, and how it is to be used." Perhaps we will be able to present the first article or lesson on this aspect of healing in the Spring issue next May.

A great deal has been said and written about Spiritual Healing, and there is much more that should be said in order to give it more clarity and understanding concerning several important aspects. Even among the various types of Spiritual Healers of today, there persists the tendency to focus more attention on the inharmony or illness, than upon searching for its origin in the subconscious mind, which is the etheric or emotional body of the individual.

Of late years there has been frequent mention, especially among Psycho-Therapists, Psychologists and some of the Spiritual Healers, of the term 'psychosomatic'. The dictionary defines this word as follows: "Of or pertaining to the interrelationships of mind and body, with special reference to disease. 2.-A branch of medicine that investigates the reciprocal influences of body and mind in the cause, prevention, treatment and cure of disease."

The Concept Therapy Institute, with headquarters at San Antonio, Texas accepts and teaches this line of thought in very thorough courses of study that are presented by licensed teachers in various parts of the United States and Canada. In a book by Dr. Thurman Fleet, the Founder and author of Concept Therapy, under the title "Rays of The Dawn", this subject is taken up in easily understood language. It is divided into three parts, - The four laws of the body; the twelve laws of the mind; and the twelve laws of the soul. The universal laws of the mind represent the negative emotions, such as hate, fear, jealousy, envy, etc., and the universal laws of the soul represent the opposites of these, such as love, kindness, hope, forgiveness, etc. In the chapter on Faith, Dr. Fleet states that "all thoughts strive for outward bodily expression. In the degree that thoughts are positive, they will materialize themselves in the body as health. Thus the manner in which we handle our 'faith faculty' is vitally important, even to physical health."

"The whole person is involved in illness and its cure, therefore the importance of a constructive use of the faith function cannot be over-emphasized. We can no longer separate the physical from the psychic in the diagnosis and treatment of disease. So-called miracles of healing always result from the application of physical, mental and spiritual laws, bringing the one to be healed into harmony with the Divine.

"If the whole man, -body, mind and soul, is master over fear, hatred, resentment and other negative emotions, he automatically brings himself into harmony with Divine Law, and consequently he becomes strengthened physically, mentally and spiritually. It is only through an understanding of, and obedience to the laws governing the whole being, that we can hope to realize any real emancipation from illness, negative thoughts and limitation."

The new Aquarian Age being ushered in now, demands of men that they shall be 'Sons of God' indeed, and not merely in name. Our body, mind and soul is governed by Divine universal laws, and only through obedience to these laws shall we enter into our ultimate heritage which may be termed "The Kingdom of Heaven", whether applied to individuals, or to the Planet Earth. The Master Jesus when on earth, repeatedly made reference to "The Father within", and to the "Kingdom of Heaven within." It is of the utmost importance that all be aware of the working of these universal laws, by whatever terminology they may be designated, for ignorance of the law, or lack of understanding, in no way relieves us of the consequences of transgression of that law or laws.
