EDITORIAL

From time to time, ever since FSR was launched in the Spring of 1955, there have been reports to the effect that the Vatican has its own UFO study department, and is following the situation very closely -(as, by golly, **any** religious body ought to be doing!)

Indeed, it is impossible to think that the principal leaders and thinkers in any of the world's religions or in any subsidiary sector or cult would not be taking very serious note indeed of such a weird and strange set of phenomena as are confronting mankind today.

Likewise it is well known that the so-called "Marian Apparitions and Phenomena", such as have occurred at Lourdes, La Salette, Fátima, Garabandal, Knock, Medjugorge, and elsewhere, have also been the subjects of intense study, but that by no means all of the hierarchy of the Catholic Church have necessarily concluded that all of these phenomena are of benevolent or divine origin, or indeed are not actually of sinister **-even demonic-** inspiration.

It is therefore exceedingly strange to hear that Monsignor Corrado Balducci, a Vatican "theologian insider" close to the Pope, has gone on Italian national television five times in recent months to proclaim that "extraterrestrial contact is a real phenomenon".

He announced that the Vatican is receiving much information about extraterrestrials and their contacts with humans from its Nuncios (i.e. its embassies) in various countries such as Mexico, Chile and Venezuela.

Monsignor Balducci said that he himself is on a Vatican commission looking into extraterrestrial encounters and how to cope with the emerging general realisation of the reality of extraterrestrial contact. Setting out the Catholic Church's analysis of the situation, he emphasised that the E.T. encounters are **NOT** demonic, **NOT** due to psychological impairment, **NOT** due to "entity attachment", and that they deserve to be studied carefully.

Since Monsignor Balducci is himself reputed to be the **Vatican's expert exorcist**, and since, as we know, the Catholic Church has historically been inclined to demonise many new phenomena that were not well understood, his proclamation of the Vatican's "blanket non-censure" of these encounters is all the more remarkable, and downright disturbing.

When a visiting American doctor from the Academy of Clinical Close Encounter Therapists recently visited Balducci, this is the judgement that Balducci gave him!

For our part, we consider it totally ridiculous to start by assuming that any part of the UFO phenomenon is necessarily from "Outer Space" -in fact we are certain that most of it, and indeed possibly all of it, is, as both Hynek and Vallée perceived long ago, most probably entirely from "other dimensions" or "Inner Space" -in other words, **FROM RIGHT HERE, AND NOT NECESSARILY FROM ANYTHING NICE.**

Nobody who has spent any length of time in examining the evidence can have failed to see that most of the UFO Phenomenon bears all the hallmarks of being profoundly sinister, profoundly hostile to mankind, and profoundly destructive and disturbing; and that there is no good evidence yet that **any** of it is from "Outer Space". (If it is indeed from "Outer Space", then the visiting entities are an awful lot of liars, for none of their stories add up.)

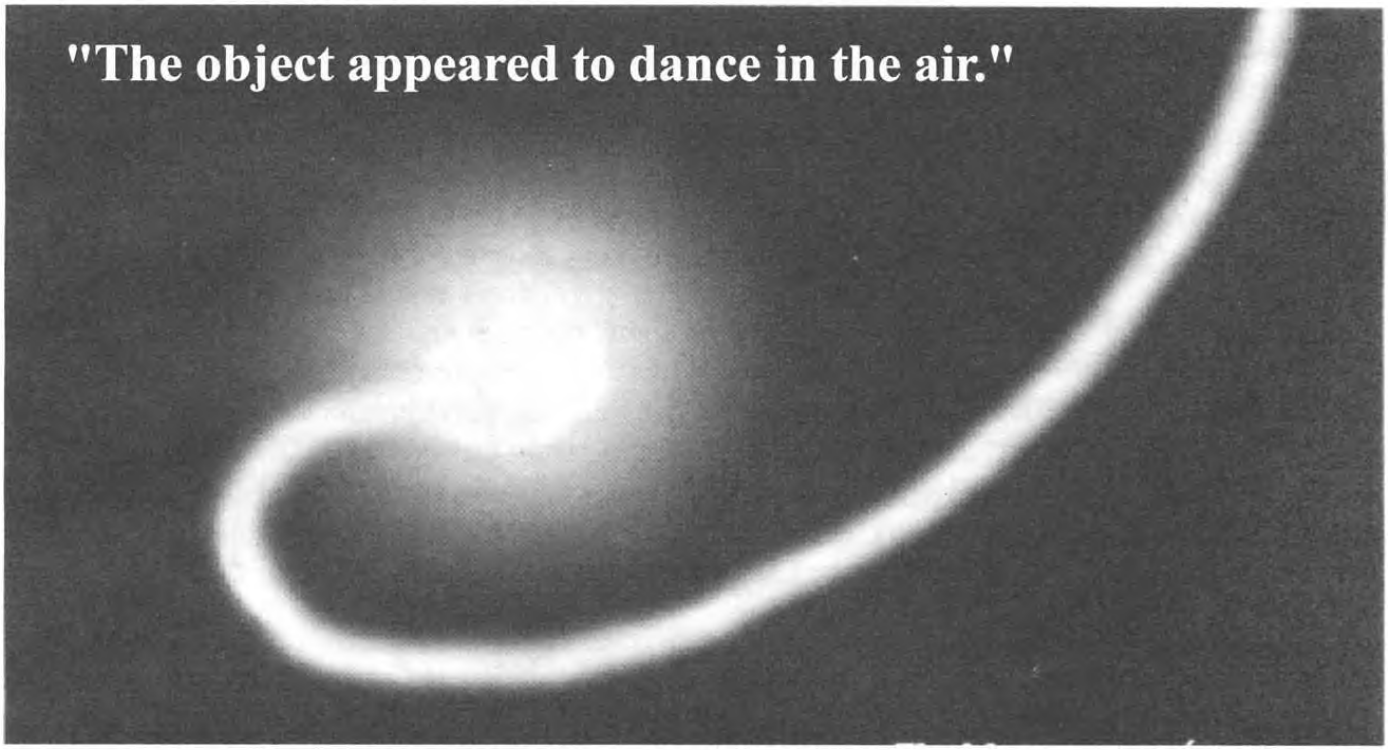

We understand that in the U.S.A. Whitley Strieber and Dr. Richard Boylan Ph.D. have both expressed their concern over the Balducci statement, and I concur. Extreme caution is called for.

And let us bear in mind that there is plenty of evidence that every one of the so-called Great Religions of Mankind was long ago thoroughly well penetrated and infiltrated by forces from the "Left Hand Path"! G.C.■

UFOs IN AND OVER PUERTO RICO'S NATIONAL FOREST (EL YUNQUE). © BY JORGE MARTÍN, EDITOR OF *EVIDENCIA OVNI* AND FSR CONSULTANT.

(Précis translation from Spanish. G.C.)

(*EVIDENCIA OVNI* SPECIAL ISSUE No. 1 (1997)

[As FSR readers will by now be aware, the Island of Puerto Rico not only seems to have possibly the most massive UFO contamination or infestation to be seen on our Planet, but also two "super-areas" of intense activity. These are (1) the area of the Sierra Luquillo and the National Caribbean Forest (El Yunque) in the far east of the Island, and (2) the region of the Sierra Bermeja Mountain Range and Lake Cartagena, lying in the extreme south-west tip of the Island.

Here is a further instalment of Sr. Martín's astonishing reports from the first-named area (Luquillo Sierra/Yunque). One of these reports should settle for all time the lengthy arguments as to whether or not the dreaded "*chupacabra*" is related to the UFOs. Because it describes in detail how a "*chupacabra*" was seen dashing along a road pursued by a pack of barking, howling dogs, and was also seen to be retrieved into a stupendous great circular UFO (the witness thought it "half-a-mile wide"!) by means of a tubular beam of light such as has been seen already in many other parts of the world! If this story is true - and I feel sure that it *is* true - then we can forget all the silly chatter and speculation about "dangerous genetic experiments by American scientists" or "sudden natural mutations", etc. etc. -G.C.]

1. AN "AERIAL BALLET" OVER CUBUY.

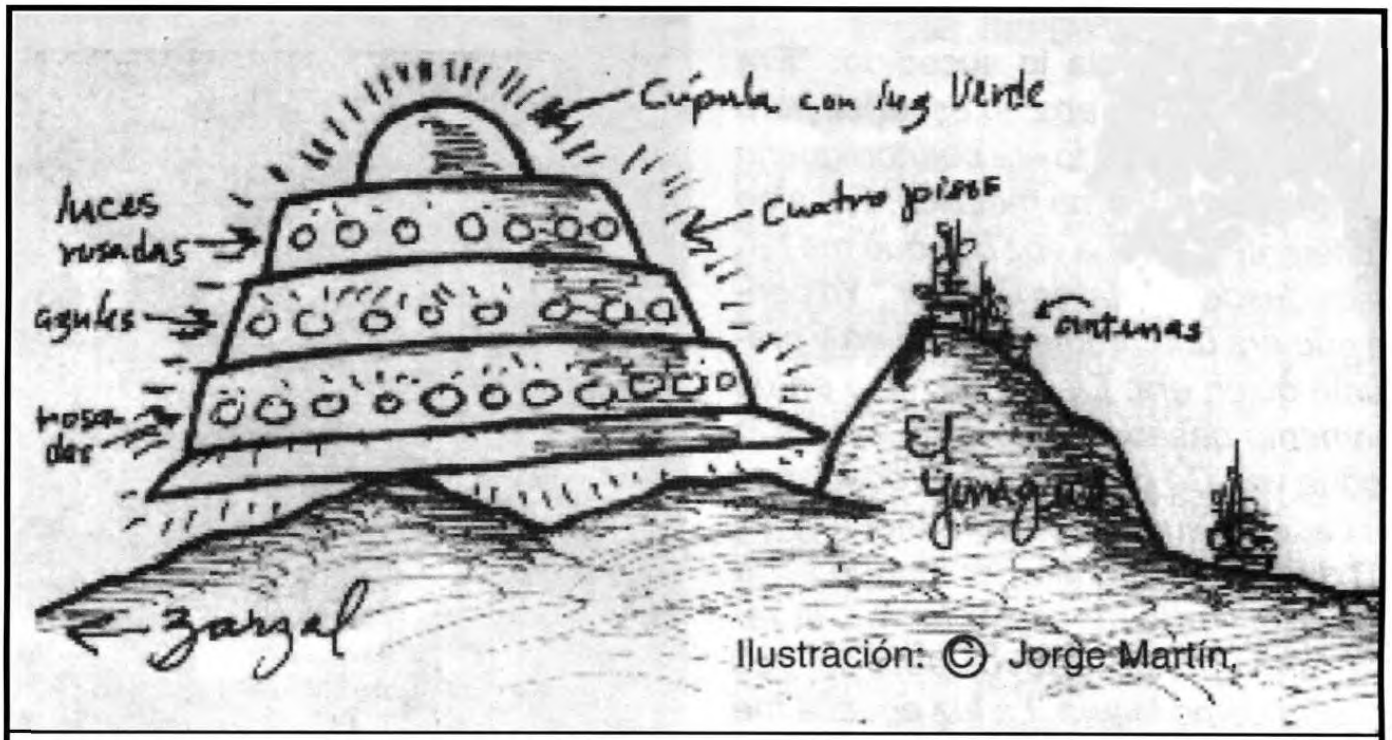

At 7.00 pm on November 11, 1973, a woman journalist name Flor de María Rodríguez took three photographs of a luminous object seen by her to be "playing" or "dancing about" in the sky over the district of Cubuy near to El Yunque Forest.

She was one of a group of ten people who had been enjoying an afternoon outing there. They had been about to return to the Capital (San Juan) when they saw the craft. She said: "It was about the same apparent size as Venus, *but brighter than Venus,* it was moving more rapidly than any aircraft and seemed to be seeking something - moving around in a semi-circle and in total silence."

With her Minolta TR-101 camera with Tri-X film (ASA 400) and with exposure of F1.7 and 1/8th second she took the photos over the period of ten minutes for which she watched the "aerial ballet", until the UFO finally vanished among the clouds.

2. RADIO CONTACT WITH A UFO?

Señora Lucrécia Rosa Resto and her family reside in Naguabo, in the East of the Island, very near to the Yunque National Forest and the U.S. Naval Base of Roosevelt Roads (extreme eastern coast of the Island). On top of the Pico del Este, one of the high points in the Forest and which is right in front of their house, there is a powerful radio station of the U.S. Navy. Like so many other folk in that area, this lady and all her family had already had many interesting "experiences" of the UFO Phenomenon - *and almost always related to the Yunque Forest.* But unquestionably the most singular of all was the one that

Victor Delgado's sketch of the multi-level UFO seen by him on Feb. 14, 1994. Note its huge size in comparison with the radio masts on top of Mt. Yunque.

befell Sra. Resto towards the close of 1976.

This lady is a keen radio "ham" and operates a C.B. link-up. At that date she was living at Villa del Rosario and, late one night, she was trying to contact her son on the C.B. She was sitting by an open window that gave a perfect view of the Pico del Este mentioned above. Unable to link up with her son, she asked for "any colleague" to contact her, and suddenly she heard a strange voice. Here is her account:

"It was a weird voice. It was speaking Spanish, but with an accent that was neither Puertorican nor American, but "metallic". It was something "different", "odd". It said that it was talking to me from the flying saucer". I thought it must be somebody joking so I asked who it was. The voice replied that in a minute or two it would pass in front of my house and I would be able to see it! And suddenly all around my house was lit up brilliantly and my C.B. stopped working. I thought the light was perhaps from a car. I tried to copy the voice, and my radio came on again but the voice now died as though very far away.

"That light scared me. The voice sounded distorted, and he - whoever he was - was telling me that he was in the flying saucer, and that I should look and watch. Those were his words ..."*flying saucer*".

"I looked out through the window, and there in the sky was a great big flying object surrounded by a brilliant light. It was egg-shaped and it passed right in front of the house. That was the source of the vivid light that I had seen first. And it then flew off, in the direction of Fajardo, and vanished from sight."

So -does it appear that maybe some UFO occupant did contact Señora Resto? Was the Ufonaut simply joking with her? Or was he maybe communicating *with somebody else in the area,* and she accidentally picked up his frequency on her C.B.?

And could perhaps that "other somebody" have been someone in an alien base somewhere in that area.... or, maybe, inside the U.S. Naval Base at Roosevelt Roads?

Was the pilot of the UFO a human being or an alien being? One thing is clear - he *did* speak Spanish, but a Spanish that was a little bit distorted. Was that voice coming from a secret new prototype aircraft developed by the USA?

But, on the other hand, Lucrécia Rosa Resto and her husband José have had several actual encounters in the Yunque Forest with small grey beings with big heads. They have seen them moving about very quickly among the trees **(and, interestingly enough, in a particular sector of the Forest that the Federal Authorities (i.e. the USA) are at the present time pronouncing to be a *'no go area'!*)**

At first Sr. and Sra. Resto thought the situation was amusing, but later it turned into something decidedly worrying! *For they both began to feel a powerful compulsion to go into the Forest at night, and each time that they did go, they both fell into a strange sort of trance! When they emerged from this trance they found that they had 'lost' a period of one to two hours, and they had no memory of what had happened during that time. Terrified, they decided to go no more into the Forest.*

But she told us: "This sort of thing has always been going on in the Forest - and in this whole area -as long as I can recall. Ever since I was a little girl!" And, she went on, "Everybody here has seen balls of light and glowing things come flying out from the Mountains, and it used

to be said that it was '*witches* coming flying out of there'!

3. GIGANTIC UFOs OVER THE YUNQUE.

Early in 1994 a fresh wave of UFO happenings of all kinds started up over the entire mountainous zone of the Sierra de Luquillo (of which the Yunque National Forest is itself a part).

The first incident of this new wave was at 5.30 am on February 14, 1994. Among the principal eyewitnesses was Señor Victor Delgado, who has a house in the Cubuy district, on high ground in the municipal area of Canóvanas and right adjacent to the south-western end of the massif of El Yunque itself.

On the day in question, Sr. Delgado had left home at 5.15 am to go to his place of work in the downtown area and he was driving along Highway 189 in the Palmasola sector and heading towards El Verde, when he suddenly beheld something that he will never forget. He says:

"It was about 5.30 am when I saw a burst of light to my left. And there, to my astonishment, almost touching the peak of El Yunque Mountain was something *gigantic...enormous*! It had three or four "storeys" to it, tapering off.

"Its base was round and flat, metallic, a greyish colour, with lots of lights around each 'storey'. Like a huge round pyramid. On the lowest, widest section, the lights were of a brilliant magenta - pinkish colour - very spectacular. Then on the second 'storey' they were blue, and on the top one they were again magenta-pinkish.

"And at the apex of it was a large cupola emitting a bright greenish-yellow light. Something truly amazing and beautiful. (See sketch by eyewitness). It was simply ENORMOUS! Could easily have been over 1,500 ft wide at its base! Bigger than a cruiser! And just hanging there stationary, unbelievable!"

He also spoke to us of "small balls of light", and "small forms of almost human shape" that he often glimpsed passing rapidly in front of him on his property at Cubuy, looking, he says, "like misty wraiths", so that it is impossible to get a clear grasp of their physical details".

I asked him whether he thought the U.S. Federal Authorities (who *control* the Yunque Forest) would be aware of all that is going on and he replied: "That craft that I saw on February 14, 1994, was something ENORMOUS and the U.S. Federals and the Navy have *Radar posts* in the Yunque, so how can they *not* know. But those beings are *there*, and it is my opinion that the beings *don't have bad intentions!*" And indeed, many other people have also seen the same huge thing, which they call "*The Carousel*", or "*The Machine*", over precisely that same spot.

And this same huge craft has often been seen by the inmates of the Correctional Centre (Prison) at nearby Zarzal. One high ranking Prison Officer there was so badly affected by the sight of the huge "*Carousel*" with all its lights that he suffered such shock as to have to be retired permanently.

During the night of January 14, 1995, the well known radio-announcer Orlando Morales of the WSKN News Super-Chain was camping with four friends on the top of the Monte Britton Peak, very close to the main Yunque Peak. And at 10.00 pm they all saw an enormous round UFO overhead - greyish, metallic, with a mass of lights of many colours around its rim. The experience had entirely changed his life, he told me, and he was now utterly convinced that we "are not alone".

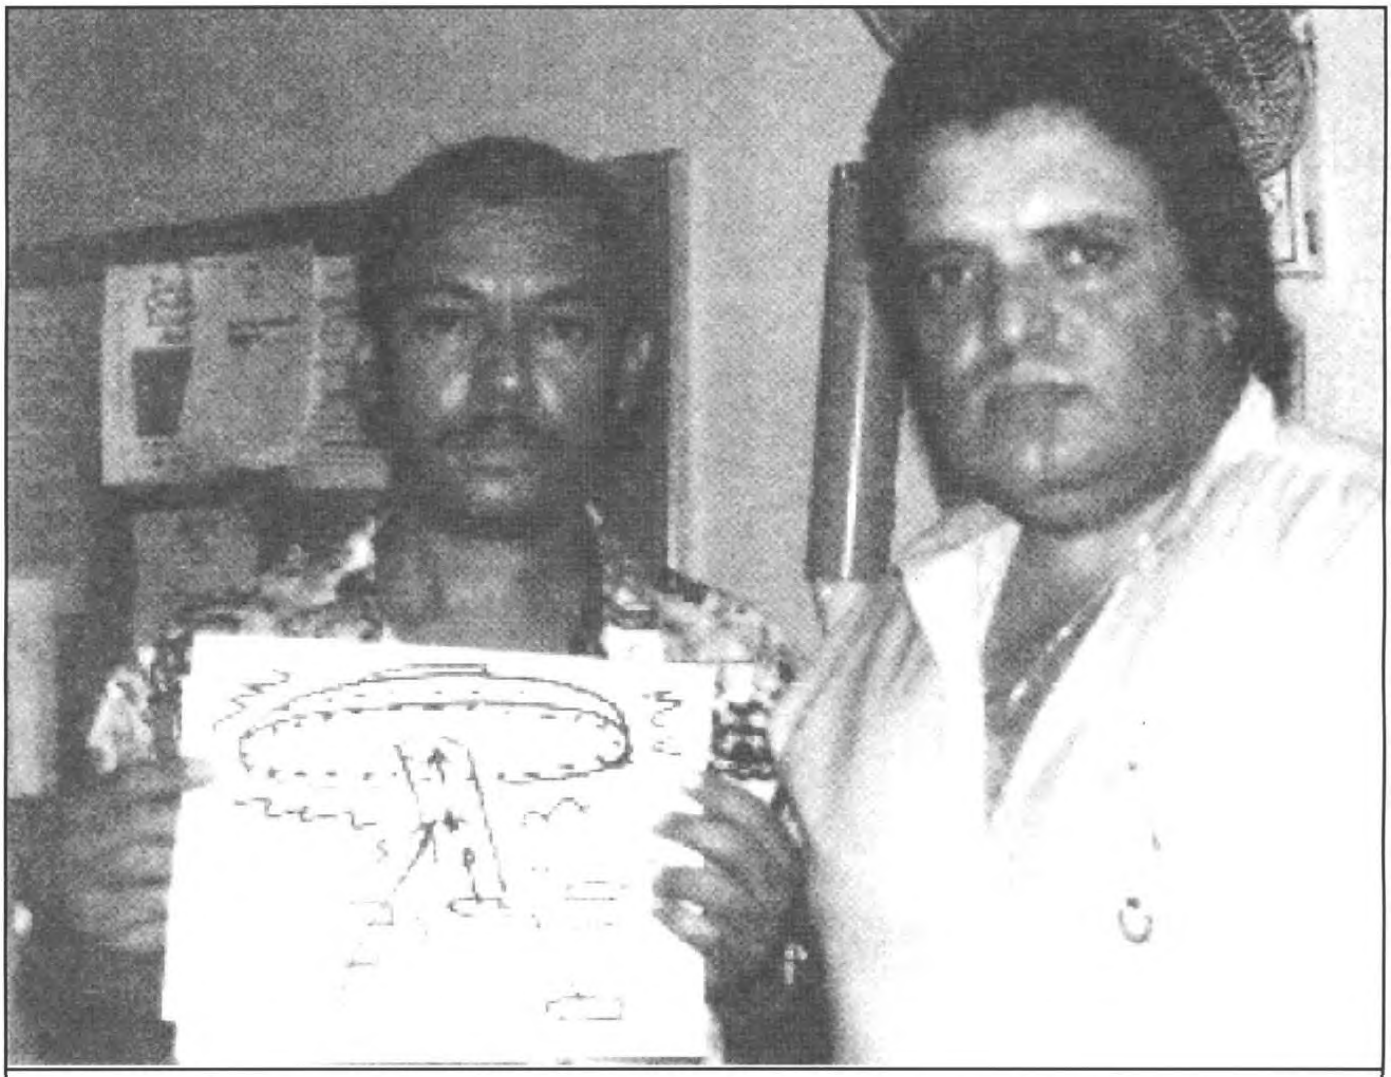

ANOTHER UFO OVER THE YUNQUE, AND BIG VESSELS SEEN ENTERING THE SEA.

At 3.00am on Friday, August 19, 1995, our friend Julio César Rivera, an official of an American air-line at the Luis Muñoz Marín International Airport (at Isla Verde) and a lady friend, saw a huge UFO flying silently towards the Yunque.

Also, starting in August 1994, people at Coco Beach (Rio Grande Municipal Area) saw flying saucers, of all sizes, with multi-coloured lights, coming out from the Mountains, and many residents of other coastal zone have

Sra. Maralyn Torres, witness.

Witness describes how large UFO projected a ray of light which retrieved the creature.

seen the UFOs descend and vanish into the sea near Loiza, Rio Grande, and Luquillo. One of these sightings, at 7.30 one night in November 1996, was of absolutely immense cone-shaped, circular machines plunging down into the sea.

Other eyewitnesses, Sr. and Sra Alvaro and many, many others, everywhere, have been seeing the immense craft going down into the sea. And the Alvaros say that recently they have seen members of the U.S. Navy's Special Forces, "*The Seals*", possibly from the Roosevelt Roads Naval Base, equipped with diving gear and going into the sea near Luquillo. They suggest that these Special Service men may be studying or watching the UFOs?

Another report, from the Piñones district, tells of how in early December 1996, twelve men put out to sea to 'fish, in four boats', and saw an immense saucer rise up out of the sea close to them and shoot straight up into the sky. A few nights later they saw vessels of the U.S. Coast Guard Service right on the sea area where the huge UFO had emerged. These Coast Guard men were flashing up beams into the sky as though seeking something. Everyone sees this as further clear proof that the U.S. Government *DOES KNOW*.

UFOs AND "CHUPACABRAS" ETC.

One night in May 1996, Sr. Alberto Rivera was sitting at 2.a.m. watching television, when the whole area around was engulfed in white light and a vast saucer appeared, with coloured lights all around its rim. He thought it could easily have been half-a-mile in diameter. He said the vivid white light, "like rain", *came right through the roof of his house!* He tried in vain to awaken his sleeping wife. (As usual, they had "knocked her out"!) So he got a machete and prepared for anything that might happen.

All the dogs of the district were barking madly, and the huge UFO hung there silently in the sky. Suddenly, he said, he saw "*something*" running fast along the road, followed by a great pack of howling, barking dogs. Then, from beneath the huge flying saucer, came a great beam of white light "like a tube", and the "*chupacabra*" shot up into the "tube" and *was retrieved by the UFO.* A few minutes later, the great craft itself shot up into the sky and vanished towards the Yunque.

When we told Sr. Rivera that his account of the running creature was *identical* with other reports of "*chupacabras*", he said: "I know what I saw and it is *certain* that those things, those creatures, are connected with the UFOs! And it's all connected with the Yunque area. Lots and lots of people here have seen them!"

MILITARY CONFRONTATION IN THE YUNQUE?

These reports all furnish food for much, much thought

and carry tremendous implications!

A few months ago, a Señora Marilyn Torres, of the Rio Grande residential estate, along with her children and her neighours, saw 6 or 7 extremely strange creatures flying overhead at about 9.00 pm.

"They were big black things, like bats. But they *didn't flap* their wings, but were *gliding*. They were heading towards Loiza, and next day, also at Loiza, large numbers of animals were found, dead and mutilated by these "chupacabras",

However, they told us of another immensely important event. Some months ago, local people saw a huge saucer passing overhead, and suddenly from the direction of the Yunque Mountain, came a brilliant beam of light, (a laser?) with strange vibrant sparks at its tip. This beam could twist and bend, and turn downwards and they saw it strike the rear part of the huge UFO, producing an immense flash of reddish sparks.

Then the saucer started to disappear, section by section, until none of it was apparently left.

All the numerous eyewitnesses felt sure they had seen a UFO "attacked by someone or something in the Yunque". *But, had the saucer actually been destroyed? Or had it simply made itself invisible?*

CONCLUDING COMMENTS: WHAT IS THE REAL REASON FOR THE REFUSAL OF ACCESS TO THE YUNQUE FOREST?

Public access to the Forest has been withheld for some months, on the orders of the Forestry Service and of the U.S. Department of Agriculture, *the official excuse* being that two enormous land-slips, due to the rains, had cut the road.

Interestingly enough however, our *EVIDENCIA OVNI* Editorial Board has managed to learn, through confidential channels, from inside the Forest Administration, that although such a "land-slip" *did occur*, it was cleared up and put right *months ago* and the route is today perfectly fit for traffic.

Other confidential reports we have received say that, *for months past,* a large force of U.S. troops and FBI personnel, all dressed in military camouflage uniform, have been in the Yunque Forest. The "official 'reason' given is that these forces are all there "for special training in search and rescue techniques, military exercises, and "special interrogation" techniques."

- "*Military exercises*" .... "*interrogations*"?

-*WHAT* INTERROGATIONS???

If it is *military* exercises. Then what are the personnel of the FBI and other U.S. Security and Intelligence Services also doing there?

It seems to lack any logic. But -if this is so- then WHO or WHAT would be undergoing the *interrogation*? And why so much secrecy about the entire business?

It is clear that, if they are conducting military exercises in the Yunque and refusing public access, then they must be violating the regulations by which the area is controlled, seeing that in fact that zone is classified as "a zone for the protection of the region's flora and fauna with their highly valuable ecological features".

All these incidents, of which only a tiny proportion are mentioned above, plus others of which you will read in the other articles in this *Special Issue on the Yunque*, suggest that something extremely strange indeed is going on in the Yunque - something that the Authorities are trying by all possible means to prevent the public from learning about!

In such a case, is the Yunque -as some have suggested, a *refuge*, or a *base*,for extraterrestrial beings ? Or, maybe, as others suspect, have the U.S. Authorities made contact there, in the Yunque, with beings from other worlds, and are keeping it secret?

FINALLY, IN VIEW OF WHAT WE HAVE SEEN SET FORTH HERE, IS IT POSSIBLE THAT A STATE OF WAR EXISTS BETWEEN THE U.S.A. AND THE NON-HUMAN INTELLIGENCES IN THE YUNQUE?

Future events will give us the answer to this question.

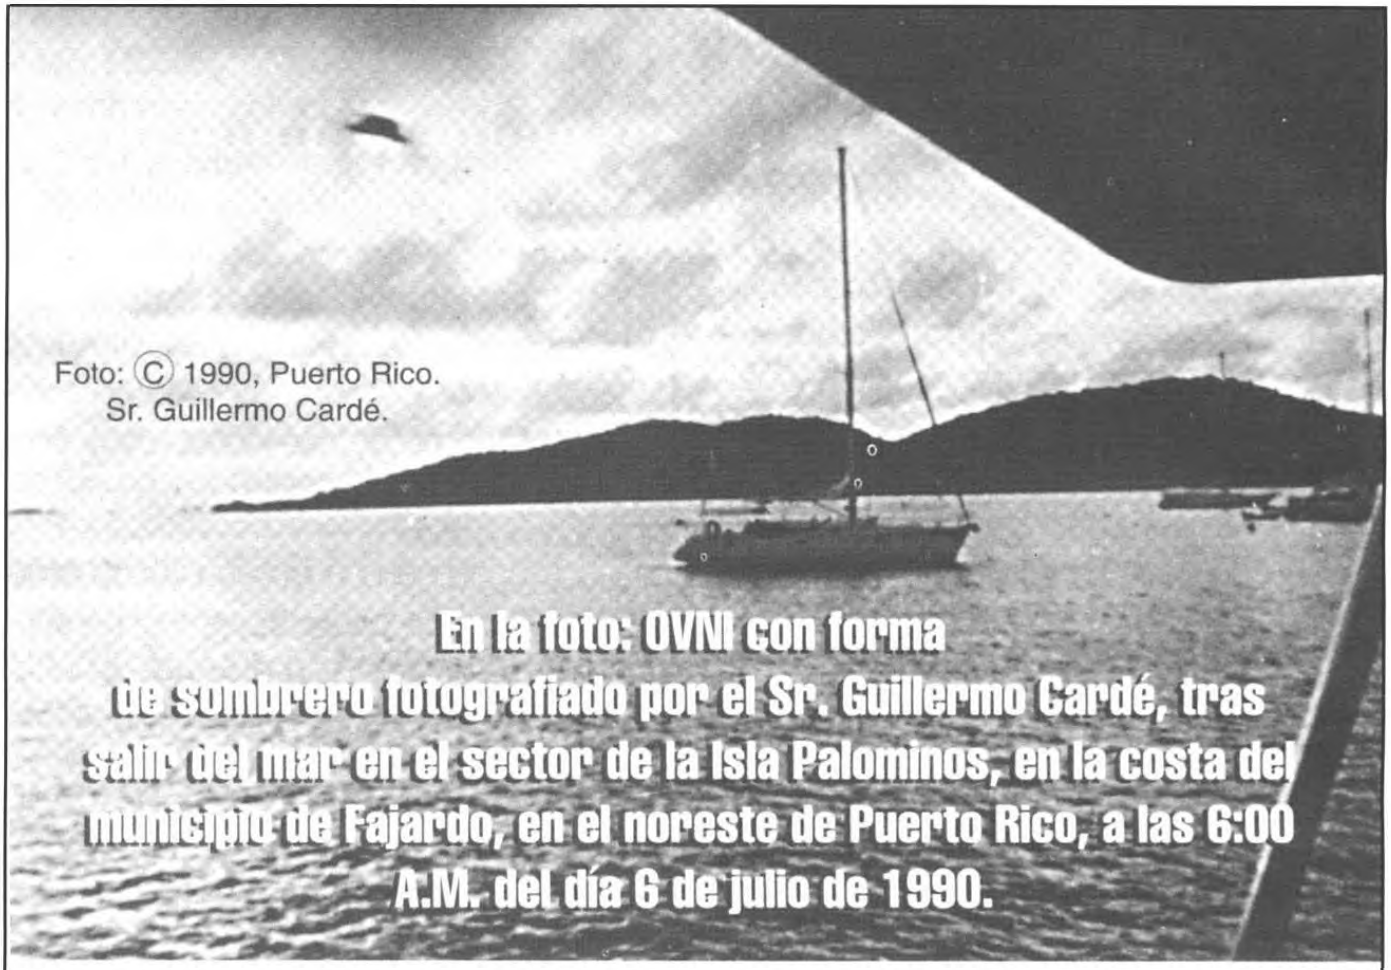

** Now see also the following report by Jorge Martín about an account of precisely this same type of "multi-storey" giant UFO (maybe the very same machine?) seen recently over the El Yunque National Forest in Eastern Puerto Rico. G.C.■

THE ALIEN PRESENCE IN OUR SEAS. © By JORGE MARTÍN, Editor of *EVIDENCIA OVNI* (Puerto Rico) and FSR Consultant. Translation from Spanish: G.C.

Evidencia Ovni No.13 (1997)

The "hat-shaped" UFO photographed by Sr. Guillermo Cardé, which emerged from the sea near Palominos Island (N.E. Puerto Rico) at 6.00 am on July 6th 1990.

[The U.S. Navy is engaged in secretly setting up an electronic sound detection system throughout the oceans of the world, with a view to detecting "*silent enemy submarines*". Is it, however, possible that their true objective is to detect the UFOs and USOs (Unidentified Submarine Objects) that are using our seas?]

For decades past this Island of Puerto Rico has been the object of special attention by the occupants of the UFOs. Is our Island a *Centre of Operations* for them? And. if so, do the Authorities - i.e. the P.R. locals as well as the supervising U.S. Federals - know this? And, if so, for how long have they known it?

We present below a summary of events and an analysis of the situation that affords much food for thought regarding the important role that Puerto Rico may be playing within the whole subject of Ufology. Read, and judge for yourselves:

UFOs LAY SIEGE TO MILITARY BASES IN PUERTO RICO.

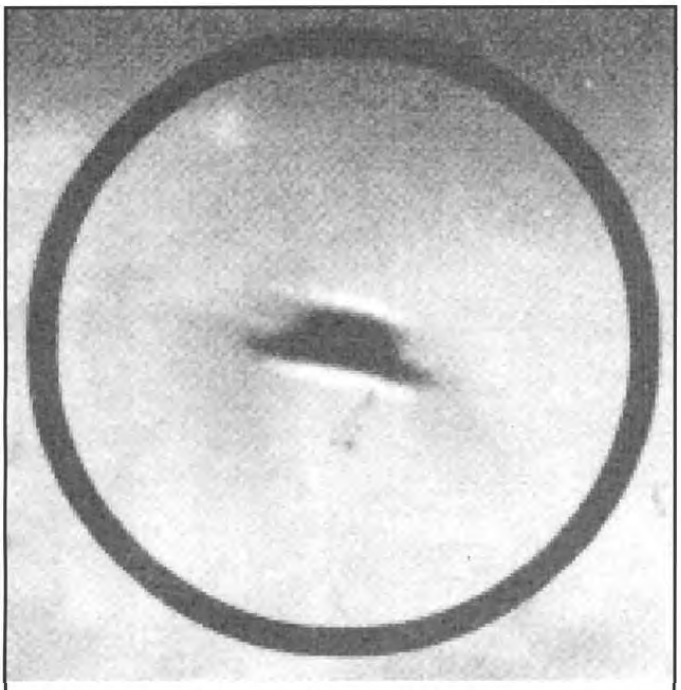

This alien interest in the military bases here began in the 1960s, and it centred mainly on the USA's Ramey Air Force Base at Aguadilla and the Roosevelt Roads Naval Base at Ceiba. We will give two examples of the sort of incident that occurred at the Ramey Base.

The first example was reported to me in a letter from Mr. Jim Speiser, a U.S. ufologist from Scottdale, Arizona:

RAMEY BASE: CASE I

A Mr. William Smith (pseudonym: real name on confidential file) was serving as a military policeman at Ramey Base during the period 1960-61, and employed in guarding the *B-52* aircraft used for carrying nuclear bombs. (Only men with unimpeachable records and credentials were entrusted with such jobs).

One night in the latter part of 1961 or early in 1962, when his tour of duty there was coming to an end, as he

Close-up of "hat-shaped UFO on page 7.

was on guard duty by the bombers, he saw three very large flying saucers come over and halt precisely above the bombers and remain stationary there for a while before moving off. The witness is certain that at least a couple of dozen other Service men also observed this event.

The following day, two men in civilian dress, who said they were from the Pentagon, arrived at the Base and interrogated all the servicemen who had been eyewitnesses. Williams was of course never able to know *who* the two men were or from what department they actually came. But he and all the other men *were interrogated for hours*, and then told that they should discuss their sighting *with nobody*.

"William Smith" has been a personal friend of the Ufologist Jim Speiser for years, and Speiser regards him as reliable -"not the sort of man who would imagine up a story like this".

We also know that certain Puertorican citizens may also have been involved in this sighting, so we request anyone who was himself a witness then to contact us.

Here is another letter, from a former member of the U.S. Armed Forces, Mr. Stephen Craig, of Springfield, Missouri:-

"Dear Sr. Martín,

It was a great pleasure for me to be present at the Mid-West UFO Conference at Springfield, Miss., and hear your lecture. You mentioned "big cables" entering the sea. [This reference was to big cables of the sort which I described as having been installed by a mysterious personage into the well-known Puertorican lake, Lake Cartagena (lying between Lajas and Cabo Rojo), where there had been a very high incidence of UFOs in 1987.] When I thought about this later, your reference to the "cables" stirred my own memory about something else.

I had served in the U.S. Navy in Puerto Rico from May 1970 to August 1975. For six months of that time I was in the Communication Base at Fort Allen (located at Juana Diaz), and for 3 years as an electronics technician in the U.S. Naval Facility at the Ramey Base of the U.S. Air Force.

While I was at the Naval Facility in the Ramey Base, part of my job was to help in the maintenance of the sonar team engaged in tracking Soviet submarines. *The team employed microphones set up in the ocean, the sound from which microphones was received into the building via big thick cables. The job of receiving, amplifying, separating, and, more important still, the triangulation of all the sound frequencies was something astounding (considering the thousands of nautical miles involved.)*

Another thing is that, while I was at Ramey Base, I knew a number of men, members of the Navy or the Air Force, who had been among the witnesses of the passage of groups of UFOs over the runway of the Ammunition Depot (they had the nuclear bombs for the *B-52s* there at that time).

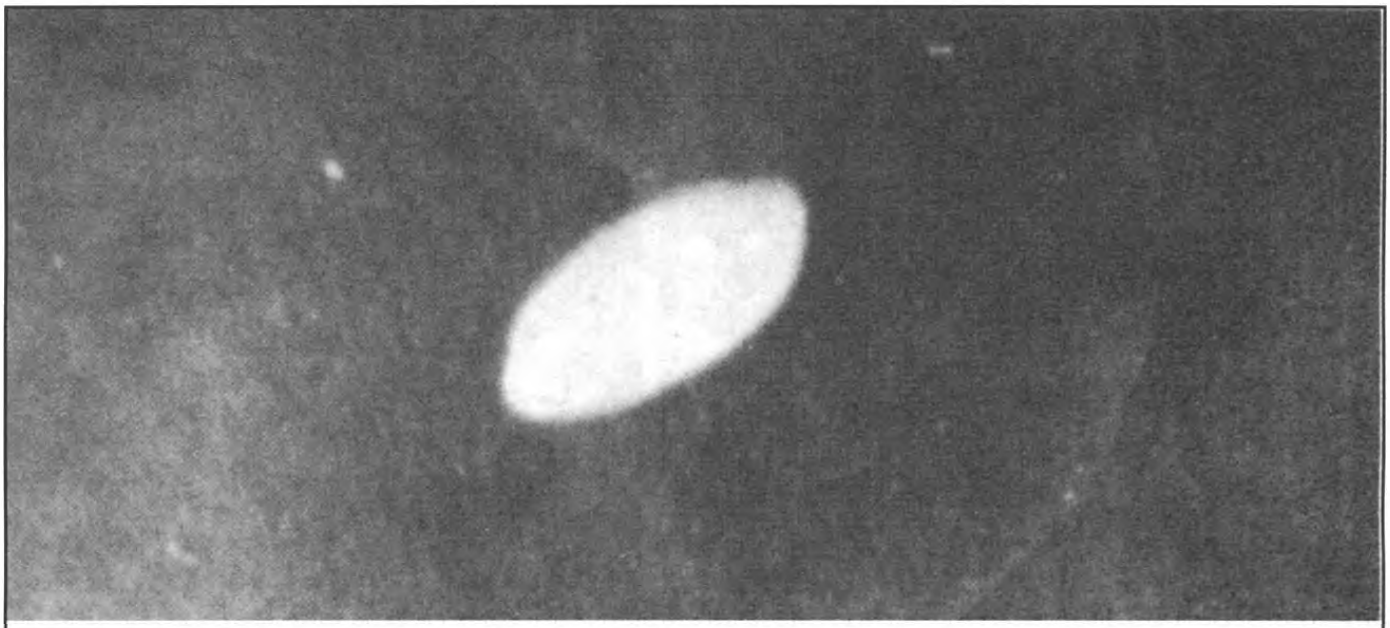

I'm sorry that I did not keep a diary at that time so I don't recall the names of the others and I myself hadn't actually seen the UFOs in question, but I believed, and still *do* believe, what they said about it to me at the time."

So far the statement of Stephen Craig. And I will continue with other statements and other pieces of evidence.

During one of the sightings at the Ramey Base they managed to photograph one of the intruding UFOs. It was enveloped in a dazzling whitish light. The photo went to *Blue Book*, but the people in charge there refused to issue any opinion about it. (See photo.)

On April 30, 1969, an important case occurred, when a big UFO flew right across Puerto Rico Island, from east to west, chased by aircraft of the Puerto Rico Air National Guard.

The first sighting of this UFO was at 6.15 am. Later, the Air Control Centre of the FAA (Federal Aviation Agency) observed the object on their radar, and during the previous night a similar object had been seen near the

In April 1967this UFO was filmed over the USA's Ramey Air Force Base at Aguadilla, Puerto Rico. The Blue Book experts chose to pass it over in silence.

Island of Vieques, off the eastern end of Puerto Rico Island.

At some time prior to 10.00 am the Puerto Rico Air National Guard sent up a *T-33* aircraft to observe the UFO. The pilot of this plane was an officer named Charles Bumstead, who went up as far as 30,000ft. but without getting near the UFO.

Then, at 10.00 am, a group of intercept aircraft, commanded by Col. Fred Brown, were sent up. They reached an altitude of 60,000ft. and still were unable to reach the UFO, the altitude of which was estimated at 70,00 ft. or so. Officer Bumstead had confined himself to photographing the UFO and to flying around beneath it for about 40 minutes.

And a pilot of the *Caribair* Air Line who saw that UFO said: "It was heart-shaped, with a line running through the upper part".

The Control Tower people at the Mercedita Airport, in Ponce Region, described the UFO as "triangular". It was said that a *B-52* from the Ramey Base had also pursued the UFO, but later they denied that they had been involved in any way in the case.

Peter Jackson, operator of the Control Tower at Isla Verde, said: "It was something the like of which I had never seen before. And Harry Hoose, supervisor of the Negociado del Tiempo (?) said that the film taken of it showed a triangular object, divided in the centre by a sort of keel, like the keel of a boat.

When Col. Brown, who had filmed the UFO, landed, and the film had been developed, plans were made for a TV programme on Channel 6, to be discussed with Col. Brown, and to be put on by the Puertorican Journalists' Association. The programme was just on the point of starting when it was cancelled, and the film was confiscated by personnel of Air Intelligence. At the same time Col. Brown was forbidden to make any comment on the incident and on what he had seen.

Although the Authorities have never consented to release any official information regarding that UFO, we were able to learn, via officers of the Puerto Rico Air National Guard, that the film did genuinely exist, and we learned also that the reason for the alarm about it was the fact that, after calculations of the distance of Col. Brown from the UFO, and after calculations based on the radar viewing, THE UFO HAD BEEN 1½ MILES WIDE!

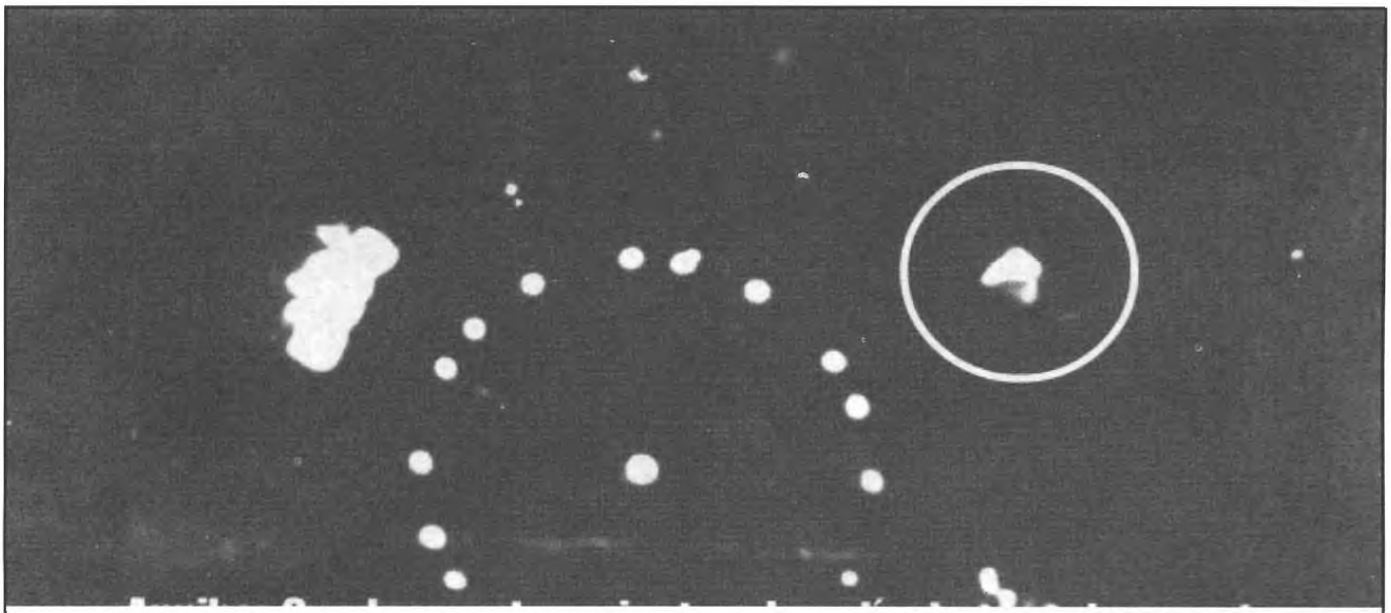

Subsequently, we managed to get a copy of one of the frames of the film, which showed the mysterious triangular object. (We got this thanks to a confidential source inside the Puerto Rico Air National Guard). (See photo).

During the 1960s, sporadic UFO sightings over Puerto Rico continued. But in the 1970s, it took a new turn and became really concentrated, and now the phenomenon was showing itself far more openly, with sightings of UFOs of all types, and landings and close encounters. And, of course, there were at the same time also many other incidents that never reached the knowledge of the public.

Our next case reached us in an oral statement made by an individual connected with the U.S. Navy whose name we naturally cannot reveal here, but who had been a high-ranking officer and who had served in Puerto Rico.

*His statement was to the effect that the American authorities were greatly preoccupied because periodically aircraft both of the U.S. Air Force and of the Puerto Rico Air National Guard, as well as a number of private aircraft, had vanished in an area to the north-west of Puerto Rico, specifically over the so-called San Juan Trench (Fosa de San Juan) -the deepest spot in the entire Atlantic Ocean, lying just to the north, between the Dominican Republic and Santo Domingo.**

He said: "Worried about what was going on, the Authorities decided to investigate, and sent ships with sophisticated electronic equipment (radars etc.), the ships being disguised as "Coastguard Ships", to examine the waters around Puerto Rico. One of these disguised vessels

From the film taken by Capt. Fred Brown of the Puerto Rico Air National Guard. It shows the mysterious "flying pyramid" a mile wide which flew over the island.

was stationed to the east of Puerto Rico between the St. Thomas Island and the Northern Coast of Puerto Rico. The other disguised ship was stationed near La Mona Island. A third one was stationed 150 miles to the north of Puerto Rico Island and north of the San Juan Ocean Trench.

This officer told us:

"Triangulating in this fashion with their radars, and, believe me, they had the best radar experts on the job, and collaborating with the U.S. Air Force, they were able to establish as a fact that, extremely regularly, something enormous was coming up out of the sea in the area of the San Juan Trench and vanishing into the skies at top speed.

"Investigating more closely, the U.S. Navy ships and the Air Force were able to establish precisely what it was that was coming up out of the sea and at times hanging stationary in the air on a great column of water before vanishing or before submerging again into the sea. IT WAS A GIGANTIC FLYING SAUCER.

"Orders were issued to several aircraft to approach it, and sometimes when the aircraft went too close to the object, they appeared to explode silently, to vanish into thin air, before the eyes of their pilot colleagues and before the eyes of the crews of the naval vessels - which were being kept at a safe distance so as not to incur what had happened to the aircraft. This -the loss of the aircraft- happened several times, until finally orders were issued to pilots of the planes to ***attack*** *the huge UFO.*

"When they did so, the attacking planes were seen to disintegrate in the air silently, and without explosion- obviously done by the huge saucer. Then the saucer descended silently and vanished into the depths of the sea."

This informant stated that the Authorities have managed to establish at precisely what points these great UFOs appeared, and the routes that they then took, both in the air and under water.

According to the information that we have received, these "disguised Coast-guard vessels" described above call regularly at Puerto Rico and report to the Coastguard Headquarters in San Juan and also to the Roosevelt Roads U.S. Naval Base, where the real control of the UFO situation is exercised by the U.S. Navy and U.S. Intelligence. And every six months extensive pyschological examinations and tests of the crews take place, in order to detect any possible sources through which information might leak out.

The same source pointed out to us one of these "Coastguard" vessels which visit Puertorican waters regularly, in order to study the waters around the Island with their highly sophisticated electronic equipment, seeking the underwater/ or underground installations of the Aliens. The craft in question and which we saw is the U.S. "Coastguard Vessel" GALLATIN 721, and we managed to photograph it during one of its periodic visits to the Coastguard General Headquarters in San Juan. (see photo).

In view of all this, it would be highly interesting if the Federal Aviation Administration (FAA) and the Air Division of the Puertorican Ports Authority were to permit UFO researchers to examine the register of the aircraft that have vanished over and around Puerto Rico, so that we might then see the correlations of the disappearances as regards areas. We are sure the analysis would reveal very interesting correlations.

As for UFOs seen entering or leaving the sea, numerous eyewitnesses exist, in the Municipal Regions of Ponce, Guayanilla, Guanica, Cabo Rojo, Lajas, Mayaguez, Anasco, Rincon, Aguada, Aguadilla, Isabela, and in the entire north coastal region of the Island. *In all these areas numerous people have, with great frequency, seen UFOs entering or leaving the sea.*

The same is true on the entire eastern coastal strip of the Island. And in recent months this type of UFO activity has increased significantly, most especially along the north coast, and more specifically on the coast of these Municipal Regions: Carolina, Liza, Rio Grande, Luquillo, and Fajardo, where the resident population have seen

UFOs, brilliantly illuminated, coming down out of the sky and entering the sea.

On other occasions, saucers have been seen emerging likewise from the region of the El Yunque Mountains (Eastern End of the Island) and entering the sea, and, vice versa, been seen coming up out of the sea and flying towards El Yunque district. The Federal Authorities are restricting the public's access to the Yunque, under various sorts of excuses, and military personnel are constantly being seen in that area.

And there is plenty of evidence too that the U.S. Authorities in the Island of Puerto Rico have definitely been watching very closely everything that is going on, for *in some of the areas where these sorts of UFO activities occur, in the small hours of the night, U.S. Coastguard vessels have been seen shining very strange sorts of "searchlights" up into the sky, "firing light-beams" up there, as though seeking something.* This is according to testimony given by residents of the Municipalities of Carolina in Piñones District, and Loiza, and of Rio Grande.

"TOP SECRET": GIGANTIC UFOs OVER OUR COASTS.

Among the cases of this sort in recent years that have shaken both the local P.R. Authorities and the Federal U.S. officials, there are two cases in particular that we will now recount briefly.

The first case concerns a sighting by two pilots, one of whom was a member of the Puerto Rico Police, in the summer of 1995, when they saw an immense flying saucer in the sea to the south of the Municipal Region of Guayanilla.

The Officer who told us about it has requested to remain anonymous, said:

"It was something unbelievable! We had gone up in a private light aircraft (*Cessna)* from Cabo Rojo, and we were flying to the Mercedita Airport in Ponce (in the southern part of the Island).

"*It was about 3.00 pm on a fine, very sunny day, with the sky clear of clouds. We were flying over the sea, at a distance of a few miles to the south of Guayanilla, and suddenly we saw it... it was something unbelievable. There, submerged just beneath the surface of the sea, there was an* ***immense, immense,*** *thing, shaped like a flying saucer.*

"It was submerged -but only very slightly, and details of it could be seen clearly. It was vast, round, seemingly metallic, of an opaque metallic hue -like opaque aluminium.

"It had four separate storeys, each one smaller than the one just below it - like a sponge-cake ***(bizcocho),*** *and on each storey there were what seemed to be lots of square windows. On the last and top storey was a very big cupola, also seemingly metallic, which we thought might have been maybe some 400 ft. or so in diameter. We could not believe our eyes! It was something colossal!"*

This Police Officer told us that he and his companion had decided to go down and fly around above it and examine it, and, when they did so, to their amazement they found that it was at least a mile in diameter, and it took them seven minutes to fly completely around it! The vast thing was just lying there submerged, without the slightest sign of any activity inside it or around it.

Stupefied and shaken, they quietly made off, and landed at the Mercedita Airport in Ponce District. There they reported what they had seen, and they were told, in return, of other similar incidents that had occurred in that region lately.

In passing we should mention that, a few days after the sighting of this vast "USO" (Unidentified Submarine Object) two fishermen from the Guayanilla area had an impressive encounter with a similar (or maybe the same) gigantic object which, wreathed in a brilliant luminous glow, rose up out of the sea right before their eyes. *Both fishermen suffered what seemed to be radiation burns and had to receive medical treatment.*

A similar incident, extremely important for its details, happened early one morning in December 1995, when another unknown flying object, of ovoid shape, was encountered by a helicopter (belonging to the Rapid Action Air Division (F.U.R.A.) of the Puerto Rico Police) in the vicinity of the island called Caya de Muerto (Dead Man's Chest) lying to the south-east of the town of Ponce.

A high-ranking officer of the Police, as he was driving at about 2.00 am along the old highway from Ponce to the port of Santa Isabel, noticed a luminous object flying near the island in question (Caya de Muerto). He immediately contacted the Ponce Police Hqrs. by radio and ordered that a unit of the F.U.R.A. should go up to investigate that unknown flying thing as he felt it might be an aircraft engaged in illegal drug-smugggling.

At once a full team, including a captain and several FURA men, plus a "gunner", boarded one of the Rapid Action Police Division's powerful helicopters based at the Mercedita Airport. What they encountered was a big, beautifully illuminated flying saucer which, *as they approached, performed a "leap" in the sky and took up position near the Caya de Muerto Island. Then, at tremendous speed, it did a second jump, and was there right in front of them, stationary! Then the helicopter seemed to come under the UFO's control, for it too was held there, stationary, despite all the efforts of the panicking crew. The helicopter still continued simply to hang there, with its rotor blades still revolving.*

This situation lasted for a few minutes, until suddenly the force from the UFO that was holding them seemed to end and they were once more able to control their craft. Simultaneously the huge UFO vanished in the night sky.

The crew flew back to their base, landing there with some difficulty as there was a problem with the helicopter. On examination after landing they found that one of its turbines was burnt out.

Alarmed and thoroughly shaken, they put in a full report to the Police and the Federal Aviation Authority (FAA).

Following that, however, they were subjected to intensely unjust treatment, harassed, reprimanded, given psychiatric and psychological tests and, on top of all that, forbidden to speak of what had happened -especially about the huge UFO! And they were also forbidden to do any flying for six months.

This was unbelievable treatment. A high Police authority had instructed them to investigate and lo, when they do so, they are persecuted and harassed simply because they have seen a UFO and have told the truth about it! The result has been a very serious effect on the morale of the Puerto Rico Police, for full knowlege of what happened has been widespread in all branches of the Force. Consequently *all members of the Police* are now fully convinced that THERE IS A GOVERNMENT COVER-UP ON UFOs, and that they will go to any length to maintain it, even if it means gross injustice.

SO, IS THE U.S. NAVY GENUINELY LOOKING FOR "SILENT ENEMY SUBMARINES? OR IS IT IN REALITY FOR "UNDERWATER *ALIEN* CRAFT"?

Information was recently released about a new highly secret project of the U.S. Navy for the establishment of a secret high technology detection system embracing 80% of the Oceans of the world. This is the LFAS, Low Frequency Active Sonar. It would be achieved by literally "flooding" the oceans with noise at a 235 decibel level. How strong is this? The answer is: so strong that it could cause grave damage or death to a human diver coming within one or two metres from the source of the sound. So powerful that one single LFAS transmitter can "flood" hundreds of square-miles of ocean with sound-levels that are potentially highly dangerous! And allegedly the U.S. Navy have already been experimenting with it, without permission, all over the globe.

Such a scheme represents a grave danger that would disturb and unhinge not only the whales, dolphins, and sea-elephants and seals, but, eventually, *the entire life-chain in our seas.* We can also mention that, two years ago, the U.S. civilian pressure group known as the Committee For the Defence of Natural Resources opposed a plan put up by the Scripps Institute of Oceanography (a body financed by the Pentagon!) that was designed to contaminate the Monterey Bay Marine Sactuary with a similar low-frequency sound. The Scripps Institute were planning to use only a level of 195 decibels, but even with *that* level they were asking the U.S. National Fisheries Service for permission to "take" (i.e. kill, damage, or molest) 474,220 common dolphins, 174,000 northern sea elephants, 244,000 Californian sea-lions, 3,847 blue whales, 1,500 sperm whales, and much more besides!

Just imagine for yourselves the slaughter this would entail, and then consider the fact that the U.S. Navy's LFAS scheme would be 10,000 times stronger than the Scripps Institute's project and would be set up all over the world by vessels that the Navy have designed and are already building!

Just visualise for a moment the life of a whale. You would be existing in a world that can only be understood by means of *sound* -as is the case with all whales. For you, *sound* would be what *sight* is. But you are already assailed by a cacophony of noise from ships' engines and from undersea petroleum exploration and by construction projects. And now face up to a new threat -the flooding of your medium by a powerful low-frequency sound from which you have *no escape*, and which will gravely interfere with your migratory patterns and your navigation patterns and your habits and life-style, and your breeding and reproduction patterns. And even threaten your ability to communicate with the other members of your species!

Why are we emphasising this? Because, if we understand aright the impact that such sound levels will have, we must also bear in mind the fact that the scale of their intensity is *logarithmic*, very much like that of the Richter Scale for registering earthquakes. Thus, just as an earthquake of intensity 6.00 on the Richter Scale is in reality *ten times more intense* than one of 5.00, similarly the level at which the U.S. Navy are conducting their underwater tests (235 decibles) is *ten million times more intense* and more damaging than the 160 decibels that have already been shown to inflict great damage to human divers in tests carried out by the U.S. Navy themselves.

At the present time ecological bodies of the entire world are struggling to prevent these plans of the U.S. Navy.

We do indeed agree and admit that the purpose of the U.S. Government may, indeed, quite genuinely be to counter hostile and silent *submarines*. BUT WE HAVE ALREADY GIVEN YOU ABUNDANT EVIDENCE THAT IN OUR OCEANS THERE ALREADY IS AN ALIEN PRESENCE THAT SEEMS TOTALLY LINKED TO THE UFO PROBLEM AND TO THE PROBLEM OF ALIEN UFO BASES DEEP IN OUR SEAS AND UNDER OUR LANDS. IN VIEW OF THE REALITY OF THIS, WE HAVE TO ASK OURSELVES VERY SERIOUSLY THIS QUESTION: IS THE U.S. NAVAL PROJECT IN REALITY AIMED AT THE UFOs AND THE USOs? IT SEEMS TO US THAT THIS IS VERY, VERY PROBABLE

UFOs IN THE SOVIET WATERS. © By PAUL STONEHILL, Director of the Russian UFO Research Centre, (5700 Etiwana Avenue, Suite 215, Tarzana, California 91356), and FSR Consultant.

INTRODUCTION BY EDITOR OF FSR.

The author of this interesting article is a Soviet-born UFO researcher who came from the Ukraine to the U.S.A. in 1973, and is now a U.S. citizen. He has maintained close contacts with the "underground" scene in the U.S.S.R. -now Russia- and since 1981 he has been writing and lecturing on the subject. In 1991 he set up his Russian UFO Research Centre. The most important of his publications is his book *THE SOVIET UFO FILES: PARANORMAL ENCOUNTERS BEHIND THE IRON CURTAIN*, ISBN 1-85833-858-1, published in 1998 by Quadrillion Publishing Inc., New York, and by Quadrillion Publishing Ltd., Godalming, Surrey, England.

When studying this material, FSR readers should always bear in mind the tremendous number of similar reports of "mystery submarines" and of craft seen arising out of or entering the seas, which we have published in FSR especially in the early years -and these reports have come from all parts of the world - including even Argentina, where the Navy made fools of themselves when they spent about a week trying in vain to "depth-charge" and destroy or force to the surface one of these mystery visitors inside one of their own large bays (Puerto Nuevo Gulf).

We must have published at least a couple of dozen reports of this sort in FSR. One of them was about a UFO seen emerging and resting on the surface of the sea near Rio de Janeiro, and another about a submarine-shaped craft that was reported as having been seen to emerge in broad daylight from the sea near the Canary Islands and pass low over a Norwegian ship, whose crew all saw it. Very many of these reports of "underwater craft" certainly did come from the seas around Norway and Sweden, and of course in every single case, if the event ever got into the news it was attributed to the clandestine activities of "spying Soviet submarines". It is interesting however to note that, so far as I know, in not one single case were we ever told that, after massive efforts, a single real Soviet submarine had ever been depth-charged and forced to the surface, or crippled, or damaged in any way whatsoever.

Finally, I hope our readers will also bear in mind the excellent recent reports by Tony Dodd about mysterious and unidentified underwater craft active in the seas around Iceland and about the astonishing accompanying operations of British and American warships -one American vessel having even "vanished"! Does it not look abundantly clear that some sort of "WAR" is already in progress here? G.C.

Dear FSR,

The secret files of the Soviet Navy contain much valuable material on UFO sightings, and in our Research Centre we have assembled a good collection of their specially interesting "maritime" and "underwater" cases.

The Soviet Military were quite thorough in their investigations!

Even after the Soviet Union had fallen, these files remained largely *inaccessible.* Here is a small selection from them, and more are given in my book, *THE SOVIET UFO FILES.* Paul Stonehill, December 2, 1998.

"SUBMARINES."

A man named V.V. Krapiva attended lectures given by veteran officers of nuclear-powered submarines from secret Soviet naval bases and installations in the northern Arctic Waters. Sometimes the lecturers deviated somewhat from the planned presentations, and many spellbinding tales got told!

For instance -about episodes when Soviet sonar operators (military hydroacoustic technicians) were 'hearing' -at great depths- strange targets. Their own submarines were actually being chased by other ... "submarines"! The pursuers changed their speeds at will -speeds that were much, much faster than the capabilities of any submarines in our world at that date.

On one occasion, when lecturing to the audience, a Lt. Commander Oleg Sokolov made a very special revelation. While serving in submarines he had himself observed, through the periscope, the ascent of a strange object through the water. Seeing it only through the optical system of the periscope, he was quite unable to identify it. This case of an "underwater take-off" occurred in the 1960s.

SEVASTOPOL.

A few years ago the same Mr. V.V. Krapiva had a meeting with Professor Korsakov of Odessa University. The Professor told him of a conversation that he, Korsakov, had had with one of his friends, a Soviet naval officer who had served at the Sevastopol Naval Base. Back in the 1950s, this officer had personally sighted a UFO. The object rose up from behind a Soviet battle-cruiser. It happened in the Black Sea, and it was his impression that the UFO had come up out of that Sea.

Moreover, Professor Korsakov now possesses a photograph of that UFO.

EYEWITNESS ACCOUNTS.

1. In August, 1965, the crew of the Soviet steamer *Raduga,* while crossing the Red Sea, observed an unusual

phenomenon. At a distance of about two miles from them, a fiery sphere shot up out of the sea and commenced to hover, illuminating the surface with a beam. The sphere was estimated at being possibly 60 meters in diameter, and it remained hovering there, at an estimated height of about 150 meters. As it rose up out of the sea a gigantic pillar of water emerged with it, collapsing again some moments later.

2. In December 1977, not far from Novy Georgiy Island [somewhere up in the Arctic. G.C.] the crew of the Soviet fishing trawler *Vasiliy Kiselev* also observed something quite extraordinary. Rising vertically from out of the sea came a doughnut-shaped object, the diameter of which they estimated at anywhere between 100 and 500 metres! And it remained hovering at a distance estimated at around four to five kms. The trawler's radar was instantly put out of action. The object hovered over the area for three hours, and then suddenly vanished.

3. The Russian magazine *Zagadki Sfinska* ("M*ysteries of the Sphinx")* issue No. 3, 1992, Odessa, carried the report of a Russian seaman named Alexander G. Globa, who said that in June 1984 his ship, the Soviet tanker *Gori*, was in the Mediterranean, some 20 nautical miles from the Straits of Gibraltar. The time was 16.00 hrs., and he was on duty, on watch on the bridge with S. Bolotov, the Second-in-Command of the ship, when they observed a strange multi-coloured object approaching. When it had come astern of them it suddenly halted. Immensely excited, Officer Bolotov shouted, waving his binoculars, *"It's a flying saucer, a real saucer, My God, hurry, hurry, look!"*.

Globa saw it through his own binoculars. Some distance astern of them, he beheld a flattened-looking object which put him in mind, as he later described it, of an "upside-down frying-pan", gleaming and with a greyish-metallic shade. Its under-part had a precise round formation, and he estimated its diameter at maybe no more than 20 m. Around its base he observed what he described as "waves of protuberances on its outer plating".

He described the body of the craft as consisting of "two semi-discs", the smaller one being on top, and these two discs appeared to be revolving in opposite directions. Around the base of the bottom (larger) disc Globa said he observed numerous brightly shining "bead-like" lights. It was on this lower part that his attention was chiefly centred. He said it looked completely smooth and even, and of the colour of an egg-yolk, and in the centre of it he felt he discerned a "round, nucleus-like stain". On the craft's base, which he could see very clearly, he thought he could see something that "looked like a pipe".

The craft was "glowing with an unnaturally bright rosy colour -like a neon lamp". The top of the upper, smaller, disc appeared to bear something that was triangular-shaped. This object seemed to be rotating in the same direction as the lower disc, but much more slowly.

Suddenly the object performed several "leaps" -"as if moved by some invisible wave". Lots of lights came on, on its lower portion. The crew of the *Gori* tried to get a response from it by using a signalling light. By then the *Gori's* skipper, Captain Sokolovsky, had joined them on the bridge. He and his Second Officer observed the UFO attentively. Soon however the UFO switched its attention to another ship that was approaching on the port side. This was a cargo vessel, Arab-owned, bound for Greece. The Arabs confirmed that the UFO had hovered above their vessel. Finally, about 1½ minutes later, the UFO changed course, veered off to the right, accelerated, and rose rapidly. The Soviet seamen noted that, as it climbed away among the clouds it shone as it caught the rays of the sun. Then it seemed to "flare up", and was instantly gone.

SOME HISTORY.

The earliest Russian mention of "giant beings" goes back to the early 1900s. Several boys in Georgia (Caucasian part of the Russian Empire) discovered a cave among the mountains which was full of large human-like skeletons about 3 m. in height. In order to reach the cave the boys had had to dive into a lake. The incident was recorded by George Papashvili and wife in a book published by them in New York (St. Martin's Press) in 1925. (Title: *Anything Can Happen).*

THE SOVIET UFO RESEARCHER VLADIMIR AZHAZHA.

The naval engineer Vladimir Georgiyevich Azhazha is known today as a prominent personality in the Russian Ufological Association. But he was of course not always a ufologist, and when he first became one he called down upon himself the wrath of the Communist Party against all those who studied forbidden topics.

With the help of highly placed friends in naval circles he managed to publish an article about the *"Bermuda Triangle"* in the respected Soviet scientific journal *Nauka I Zhizhn (Science and Life).* He was himself a marine navigator, having on numerous occasions been able to study the depths of the Atlantic Ocean when he was serving aboard Soviet submarines (with many features actually designed by him himself). However other mainstream Soviet oceanologists "would of course not touch such a 'questionable' subject as Ufology."

In his search for the facts, Azhazha found two valuable sources of information. One was Charles Berlitz's book *"The Bermuda Triangle"* -the only book mentioning UFOs that he could find anywhere in the libraries -and the other source was Vice-Admiral Y.V. Ivanov, Head of the Directorate of Soviet Naval Intelligence. (*In this way Azhazha discovered that Soviet Naval Intelligence had long considered UFOs to be a subject for very serious investigation).*

But Azhazha rapidly found that this newly acquired interest of his in UFOs was "putting him on to very thin ice", and he was soon a target for attacks from both scientific officialdom and the functionaries of the Communist Party. His name was smeared throughout the Soviet media, his works blacklisted, and his lectures outlawed. He was successivley fired from several jobs, and banned from speaking publicly.

Again, however, his pals in the Navy were able to help him to get employment, and he found himself writing about UFOs, but doing so for the practical use of those

contacts in the Navy.

In a brochure which he published for them in 1991, *ATTENTION: UFOs*, he stated that, as a result of a Soviet UFO "Wave" starting in 1989 (and, so he said, still in progress in 1991) many of the ideological barriers and censorship barriers that had been erected against Ufology in the U.S.S.R. were beginning to be swept away. But, due to the years of silence, he said the country and the people were totally unprepared for facing up to the UFO Phenomenon.

He therefore set about helping to organize the new body known as the SOYUZUFOTSENTR (USSR UFO CENTRE) and designed to promote the scientific study of the subject. Created originally by members of the actual Soviet Academy of Sciences, the new Centre rapidly distanced itself and broke away from the Academy, because Azhazha (along with many other people) was quite convinced that those Academy members who were supposed to be in charge of UFO research *were actually blocking all true and unbiased research.*

ANCIENT HISTORY AND UFOs.

In the early 1970s a Soviet historian, A. Gorbovsky, published a book with the title "*Enigmas of Ancient History*". For many people in the Soviet Union that book became an introduction to the forbidden world of Ufology, of "palaeocontact" (a Russian term for the "Ancient Astronaut Hypothesis") and of other mysteries of our ancient Past. Gorbovsky mentions, for example, an incident supposed to have taken place long ago in the Mediterranean, when a strange underwater vehicle was seen to surface at high speed and shoot up out of the water and vanish.

A SHARK-HUNTER IN THE BLACK SEA.

A man named B. Borovikov had for many years been hunting sharks in the Black Sea. Then something happened that put an end to his hobby. Diving in the Anapa area, he went down to a depth of 8 m. and saw three gigantic beings rising up from below. The beings were milky-white in colour, but with humanoid faces, and something like fish-tails. Then leading one apparently noticed Borovikov, and halted. It had gigantic bulging eyes, as though wearing some sort of spectacles. The other two beings joined it. The the first one waved her hand at Borovikov (Paul Stonehill's article states clearly here that it was "*her*" hand, so it sounds very much like a tale of *mermaids*. G.C.) All three of them came up close to the diver, and halted there briefly and then turned away and swam off. Borovikov's experience was recently published in the "XX Vek: Khronika Neobjasnimogo" ("*Twentieth Century: Chronicles of the Unexplained*"), Moscow, 1996.

"GIANT SILVERY SWIMMERS."

A man named D. Povaliyayev was hang-gliding over the town of Kavgolov in the Leningrad area one day in the early 1990s. The region has many lakes, and in one of these lakes he observed what seemed to be three "gigantic fish". He descended in order to get a closer view, and was able to observe "swimmers in silvery garb". He mentioned the episode in his book *Letuchi Gollandets (The Flying Dutchman),* published in 1995.

In that particular area of Northern Russia there have been many UFO sightings.

[For further Russian "anomalous underwater cases" of this kind, see also Paul Stonehill's principal book, *THE SOVIET UFO FILES: PARANORMAL ENCOUNTERS BEHIND THE IRON CURTAIN*, ISBN 1-85833-858-1), Quadrillion Publishing Co., 1998].■

WHY NO CROP-CIRCLE REPORTS IN FSR NOW?
© By DR. PIERRE GUÉRIN.
(Translation from French. G.C.)

Dear Mr. Creighton, not long ago our mutual friend Joël Mesnard (Editor of *Lumières Dans La Nuit,* FSR's counterpart in France. G.C.) showed me some postcards from England with aerial photos of some recent crop circles that are absolutely fantastic. [Enclosed were photostats of three of the 1996 formations - at Windmill Hill; at Alton Barnes; and near Stonehenge.]

Three questions need to be answered:-

1. Who is producing these immense designs of such perfect regularity?

2. What do the designs mean?

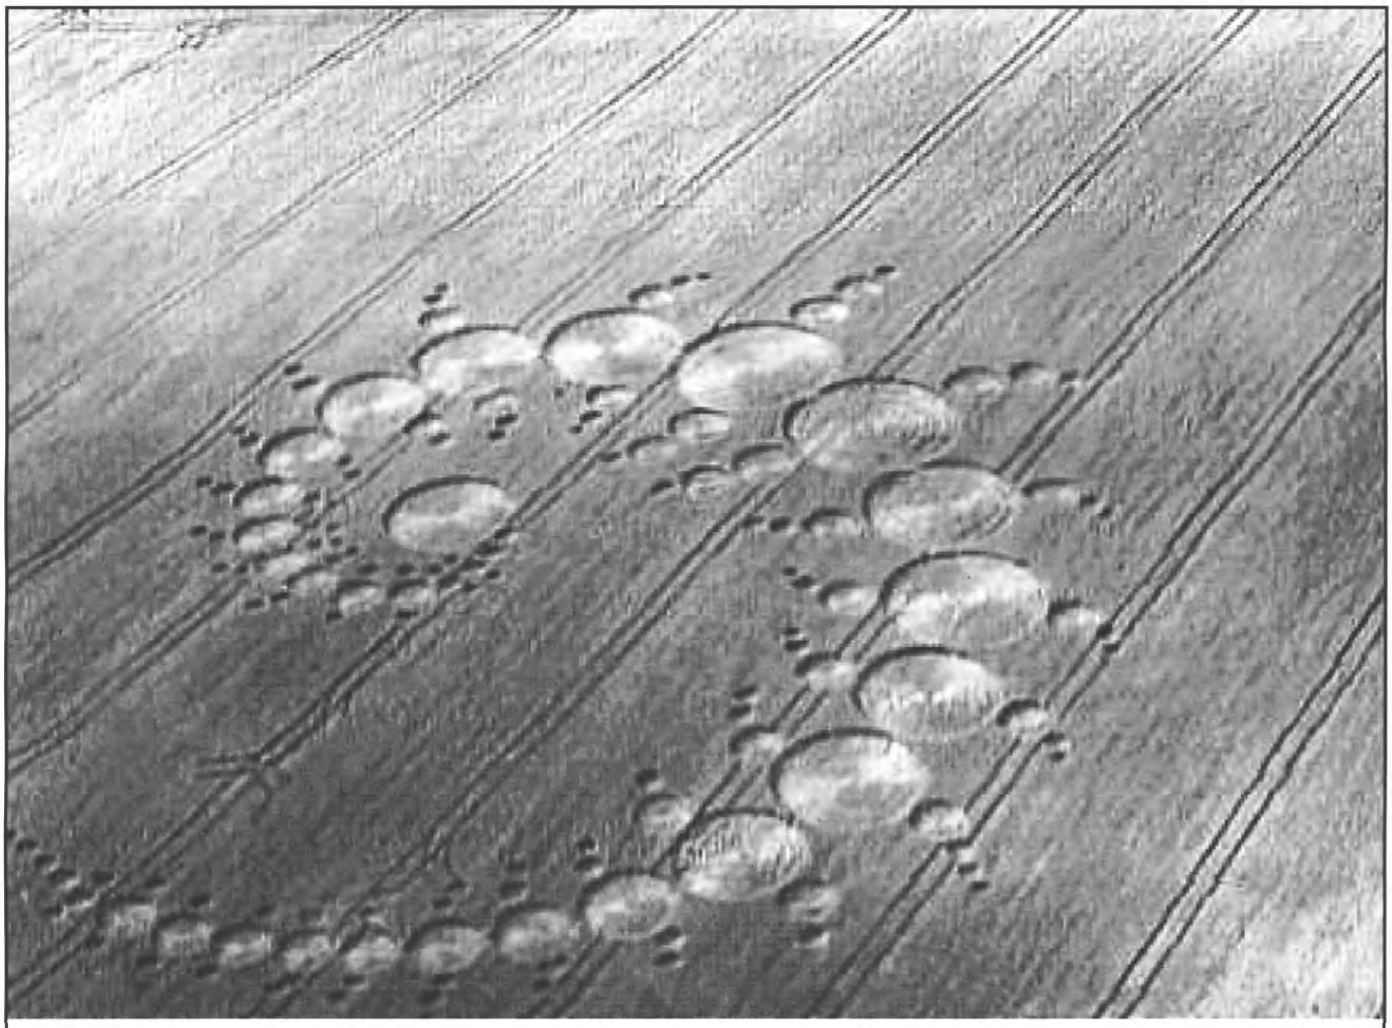

3. How have they been made?

Obviously, of course, to the third question it is so very easy to reply: "*Made with a scythe and a piece of rope attached to a stake*".

And it is in fact downright scandalous that -citing a couple of old-age daddies (Doug n'Dave". G.C.) as the culprits -at one stage this method of doing it was actually being seriously suggested!

BUT Joël Mesnard tells me that in fact some of the country folk in Britain, bent on really getting to the bottom of this business, have been sitting out at night to watch what was happening in their fields. *And that there have been cases where this policy has borne fruit. For they have observed a luminous globe (a "UFO") flying around over the field, and all at once -in a second- as though "by magic" the standing wheat all falls down and the entire crop formation is produced.*

And, in order to explain all this, our Monsieur Velasco of the S.E.P.R.A. - (under our French National Council

Julia Set. Stonehenge, July 1996

for Scientific Research -the C.N.R.S.) - has been thinking up God knows what sort of theory about the employment of light-beams!

Meanwhile, the crop circle formations have by now become far too complex for such a method of production to be conceivable. And, in any case, is it exactly easy to visualize the technical services of the British Army carrying out experiments in the fields owned by the Gentry of England! Likewise one can scarcely imagine the C.I.A. conducting mutilations of the American farmers' cows!

My own personal impression is that this entire business is indeed the work of Aliens, and I am beginning to feel alarmed. What on earth does it all signify? What do these pictograms mean?

It seems evident to me that Her Gracious Majesty's Security Services cannot be unaware of the phenomenon, and must know more or less what it is all about. And I think they know very well indeed that all this is of no human making, for we have no crop circles in France or Spain or Germany.* But they are there in England (the privileged ally of the U.S.A. insofar as military secrets are concerned -for example the Aurora Aircraft has landed there!) and I have read that there have been crop circles in India too -and also in Australia. Is all this true? Then, since there is said to be collaboration between the Little Greys and the U.S.A., wouldn't the English also know about it?

Have you yourself any way of knowing anything about all this? You must surely have some ideas on the subject?

We are no longer masters of our home here on Earth, and I am starting to feel pretty scared.

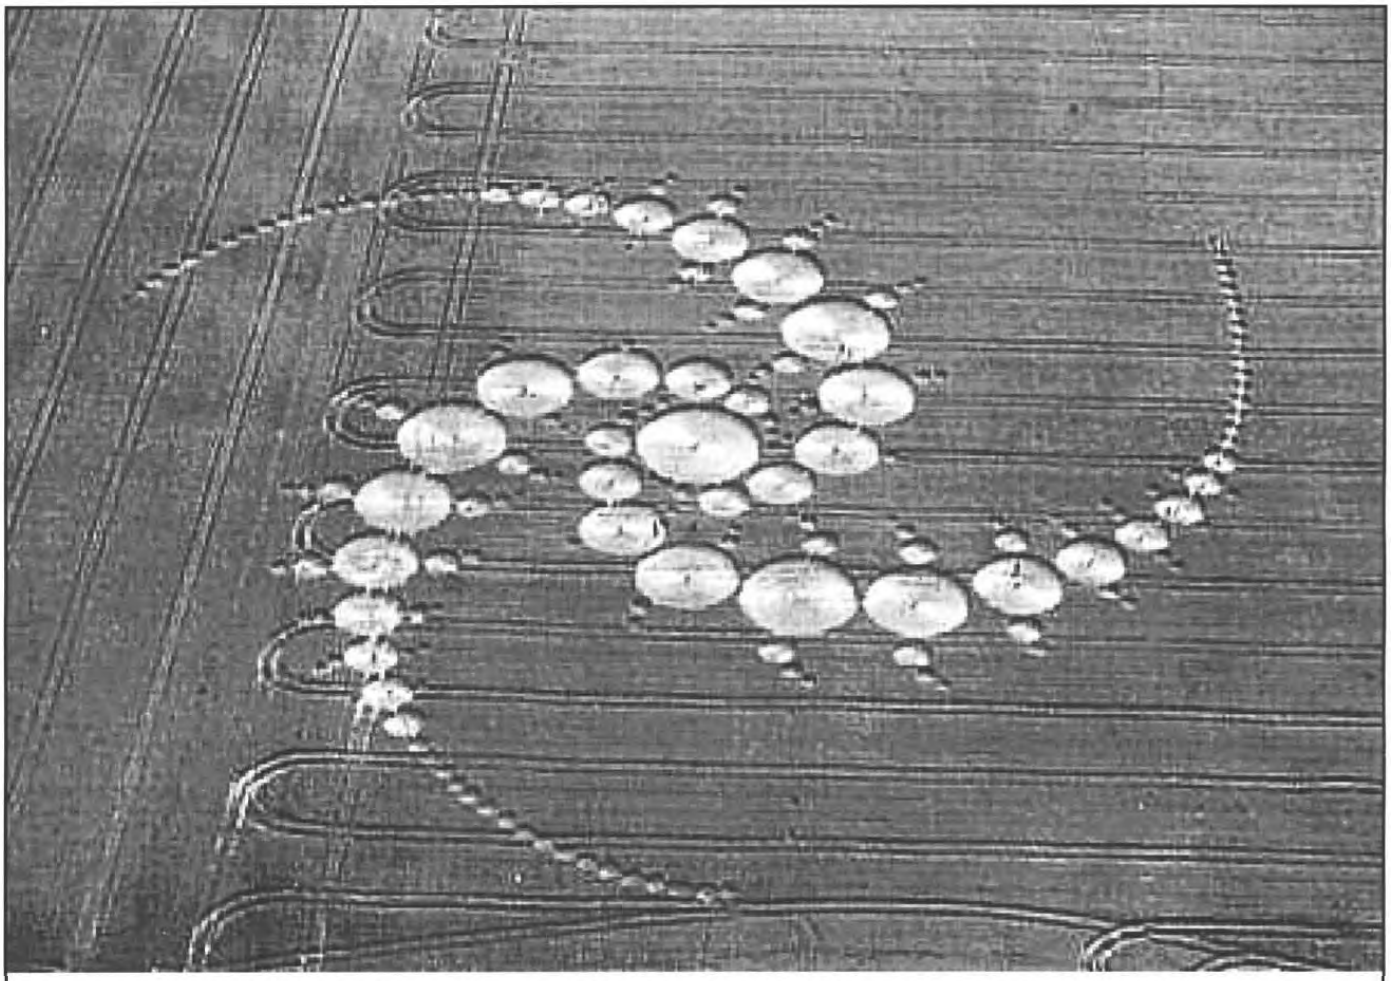

Most cordially yours,

P. Guérin

COMMENT BY EDITOR OF FSR.

Dr. Guérin is surely entirely right when he suggests that the British authorities *do* know a very great deal about the crop circles. And it is astonishing to see what immense skill they have displayed in driving the subject right out of our newspapers and very nearly right out of the rest of the media -TV and Radio- as well!

* But Dr. Guérin seems to me to be perhaps somewhat uninformed on this point. There have most certainly been at least a few reports of crop circles in Germany, and I recall that I translated and published one of them some years ago. There have also been crop circles in both Japan and Russia, and we have also published some of them. I am, however, not at all sure about France. And I have certainly never heard of any in India! (Would the terrain

and the sort of crops there "lend themselves" to it?).

As for Spain, there was certainly one very, very large circle there some years ago, and we saw photographs of it, but it was, if my memory is not at fault, *in ice or snow,* so it was possibly something a bit unusual.

And of course there have been some very spectacular corn crop formations in the wheatfields of Australia, and we have published reports on some of them too.

But by far the greatest concentration of the entire phenomenon has definitely been *here*, in the wheatfields of the central southern counties of England. And there have also been -and continue to be- a large number in both the U.S.A. and Canada.

In Brazil there have been at least two formations very, very similar to corn crop circles, but in the *sand* of ocean beaches, and we have published an article about them.

As for the question of Britain's so-called "special relationship" with the United States of America, surely it is evident that such a state of affairs has gradually faded away since the ending of the "Cold War" with Russia, and since we all began (maybe quite erroneously?) to imagine that neither America nor Britain any longer will have any cause to fear the development of further trouble with Russia (In a few weeks time from now a very hungry Russia might yet begin to present a different picture!)

Unfortunately the vast majority of the British people -in common wth the majority of the public in every other country- seem totally incapable of *remembering* for very long anything except matters relating to football and other sports, pop music etc., and sex scandals, and nobody here today realizes, or cares, that when the crop-circle debate in Britain was at its height the British Government of Mrs. Thatcher devoted a Cabinet Meeting to the matter, and requested Lord Zuckerman, one of Britain's top "think-tank scientists", to investigate it thoroughly and submit a confidential Report!

Naturally I cannot claim that I have seen or have cognizance of the actual text of that Report, but I *have* read -and still have on my files- the long article about it all that Lord Zuckerman wrote for one of our leading newspapers. And nobody who read that article is likely to be left with the idea that Lord Zuckerman regarded the crop-circle phenomenon as anything but highly important and certainly no laughing matter!

Today the entire subject, along with UFOs, has successfully been made to vanish from all our printed media. Both Television and Radio do continue to put out programmes occasionally. For example, just a few days ago, the BBC laid on another splendid debunking programme and trotted out poor old "Dave" or poor old "Doug" (I forget which) to do his stuff all over again. (I understand that one of this remarkable pair recently died, so a heavy burden now rests upon the shoulders of the sole survivor, who of course still remains immensely useful both to the Aliens and to our own Authorities).

But of the two subjects, crop-circles and UFOs, the latter still continues to receive more frequent treatment by our Television and our Radio, and if you look closely

at the picture you will observe that the "real experts" on the subjects of both UFOs and crop-circles are now no longer the chaps like us who have spent almost half a century in the intensive study of them, but are the jumped-up clowns and whiz-kids who control and present the TV and Radio programmes. Any actual *knowledge* of the subject is consequently now quite unnecessary.

IN OTHER WORDS, IN BRITAIN TODAY, AND NO DOUBT ALSO IN THE U.S.A. AND ELSEWHERE, THE UFO PHENOMENON AND THE CORNCROP CIRCLES HAVE NOW BECOME AN INTEGRAL PART OF SHOWBIZ AND ENTERTAINMENT.

HOW BRILLIANTLY AND HOW CUNNINGLY ALL THIS HAS BEEN CONTRIVED!

FSR readers will also have noted what an enormous success there has been in Britain in seeing to it that there was virtually no publicity or discussion for Colonel Philip Corso's electrifying book *THE DAY AFTER ROSWELL*; for Air Marshal Sir Peter Horsley's autobiography *SOUNDS FROM ANOTHER ROOM: MEMORIES OF PLANES, PRINCES AND THE PARANORMAL*; and of Dr. David Jacob's book *THE THREAT: THE SECRET AGENDA: WHAT THE ALIENS WANT, AND HOW THEY PLAN TO GET IT.*

Evidently the Alien Control over us must be very thorough and very effective!

Nevertheless, despite all that, there is fortunately one bit of interesting news from the U.S.A. concerning the Crop Circle Problem. For the *MUFON UFO JOURNAL* (No. 365, September 1998) has an excellent report by Nancy Talbott, a member of the "BLT Research Team", as it is called. (Nancy Talbott, a Massachusetts-based investigator, is the "T". The "L" is Dr. C.W. Levengoed himself, a University of Michigan biophysicist, and the "B" stands for John Burke).

In this Report, titled *CROP CIRCLE ANALYSIS SHOWS THAT MOST ARE NOT HOAXES*, Nancy Talbott sums up the results of the many years of work that the three of them have put in on the subject, since as far back as 1989. These findings (the gist of which had already been published by them in two peer-reviewed scientific journals in 1994 and 1995) show conclusively, so they tell us, that "*although **some** instances of the phenomenon known as "crop circles" are indeed apparently created by **people**, scientific analysis of the affected plants and soils indicates that slightly more than 90% of all the formations tested by their team have a more interesting and a more complex causation".*

These facts about the molecular and other changes found in the plants at the sites, and in the soil and,above all, inside the fallen ears of corn lying scattered over the crop formations, are so remarkable and so electrifying that we may be totally sure that very great efforts will be made in Britain, by a lot of people, to see that as little as possible about it is mentioned anywhere here. So the BBC's recent magnificent re-parading of one of their lying heroes should surprise nobody.

In a nutshell, one can say that the gist of the scientific findings of Dr. Levengoed's "BLT" Research Team is that 95% of the crop circles examined by them were never produced by old-age pensioners using boards, ropes and so on. "*Production of the crop designs involved the application of high heat, perhaps similar to microwave energy".*

Dr. Levengoed's own theory so far is that the crop circles *"may indeed be natural phenomena created by swirling waves of heat energy thrust down onto the Earth's surface from the upper atmosphere".* So it doesn't look yet as though Dr. Levengoed is actually a "UFO believer" as they like to call us. **Seemingly he has not yet heard of the abundant evidence that has already been collected in Europe (evidence that includes video film), and that indicates that the agency which triggers off the well nigh instantaneous collapse of the standing plants and the formation of the crop designs is a small, white, fast-flying globe. (Evidently the patent on this fast-flying small white globe was held by Messrs Doug n' Dave.)**

The BLT Team did, however, find clear evidence that both plants and ears of corn and also the soil, all bore signs of having been exposed to a heat source.

Another man, Ryan Layton of Davis County, Utah, who has done a lot of collecting of soil and plant samples for the BLT Team, is reported as saying "I suspect that the crop circles are the product of a creative, intelligent life with some type of agenda."

And Nancy Talbott concludes: "The occurence of the crop circles may signal significant alterations in the Earth's environment -changes which all of us could be better off understanding than denying."

The total of the crop circle formations found on the territory of the U.S.A. in the year 1996 were stated to amount to more than 40.

Dr. Levengoed's base of operations is at his own laboratory, the Pinelandia Biophysical Laboratory in Grass Lakes, Michigan, And finally, in reply to Dr. Guérin's question as to "why there are no longer any corncrop circle reports in FSR", the simple answer is "BECAUSE NOBODY ANY LONGER SENDS ME ANY!"■

UPDATE ON CROP-CIRCLE FAKING.

Re. our article on page 15, Dave Chorley, one of the two famous "self-confessed crop circle hoaxers", died about two years ago, presumably leaving his "senior partner", Doug Bower, to carry the entire credit for all crop circle formations thereafter.

Very curiously, it seems that, two or three months ago, Doug Bower began to say that, although he admitted having been involved in the perpetration of crop circles, it had not really been at his own volition at all, "because he always had the feeling that he was being MANIPULATED by someone or something".

Is this a real possibility? As Pat Delgado now reminds me, it is an idea that was bugging him -Pat Delgado- quite a lot in those years when Doug and Dave's activities

were allegedly at their peak. And he had actually put the question to Doug Bower: "HOW DO YOU *KNOW* THAT YOU YOURSELF WERE NOT *MANIPULATED*?"

This is indeed an interesting question. And one thing seems quite certain: A lot of folk have told us that, after being inside or on a crop circle for some time, they have had some very strange and queer sensations and feelings

In other words, is it possible that the mysterious creation of these crop circle formations is a massive PSYCHIC, i.e. MEDIUMISTIC phenomenon? If so, of course it is still *manipulation*, and by unknown operators in the Unseen World.

And, quite unquestionably, there is no country in the world that has so many mediums and psychic healers, and so forth, as England, and nowhere are parapsychical and paraphysical phenomena and interests so widespread as England.

In fact the British Society for Psychical Research, founded by a brilliant group of Cambridge University men, was the first such society to be established (in or around 1882).

And unquestionably no other country has yet come anywhere near to having so many crop circle phenomena as England. G.C.■

In the first half-century of Ufology, there has been no one like her. Not Hynek, not Vallée, not Fowler, not Hopkins, not Jacobs. We are speaking of Linda Moulton Howe. If she does not write another word, the books she has already written will go down in history as the finest and most comprehensive expositions of the UFO mystery ever done, surpassed by none. She creates much of what the rest of Ufology pushes off against; others argue the merits or demerits of HER casework, and much of whatever advances are made in our understanding of the subject, are made from integrating her research into already-existing evidence and understanding.

In *Volume II: High Strangeness,* we have a four-course banquet of delicacies: first, a good helping of 'military voices,' in which testimony dating back to Donald Keyhoe and the 1950 Farmington, New Mexico saucer armada are revisited, along with other more current testimonies; then, a serving of animal mutilations with side dishes of light beams and UFOs. Next, a platter of Jim Sparks, garnished with expert and fascinating analysis

Linda Moulton Howe.

by Dr. Mario Pazzaglini of the 'alien script' and symbolism given by the aliens to Sparks; followed by a long final section which presents 3 abduction experiences from which some ideas may be gleaned regarding the motives behind the modern abduction epidemic, as revealed by the aliens themselves.

A long document section backs up the suspicion that the U.S. Government operates a UFO investigation programme at levels far beyond anything such as its outward disinterest in the subject indicates. Upon reaching this point, the reader really IS feeling stuffed...

If anything, we are left with the distinct notion that there are a multitude of solutions to what we call 'the UFO Enigma.' It is more than an enigma, and it will take the efforts of many more Linda Howes to bring us closer to a general understanding of what it is that our species really confronts when it encounters aliens -in the skies, on the highways, or coming right through the walls to take still more humans into their merciless world.

I've said this before about Linda Moulton Howe's books, and it still holds: nobody has presented the problems created by the alien presence in a more convincing manner. This volume should be studied for centuries to come.

AND A WORD FROM THE EDITOR, FSR.

Bravo! -High praise and eloquent words indeed- and without the slightest scrap of exaggeration. Bob Girard has put it in a nutshell. She is a veritable prodigy.

Unquestionably the extraordinary achievement of this quite extraordinary lady stands alone and without its equal. It can be said most emphatically that nothing else in the entire body of comment, to date, on the UFO phenomenon, comes anywhere near to being comparable to what Linda Moulton Howe has done (and quite clearly this is partly because nobody else so far has got so close as she has to America's top military, scientific, and political élites).

A knowledge of her extraordinary books is consequently a first requisite for anybody who aspires to securing any sort of comprehension of what it is that is seemingly happening at present on our Planet and to our Species.

Here is a summary of her remarkable *curriculum vitae:*

LINDA MOULTON HOWE.

Linda Moulton Howe is a graduate of Stanford University with a Master's Degree in Communication. She has devoted her documentary film, television and radio career to productions concerning science, medicine and the environment.

Ms. Howe has received many local, national and international awards for her documentaries, including three regional Emmys, a national Emmy nomination, medical producer participant in Boston's WCVB Station Excellence Peabody Award, Colorado's Florence Sabin Award for "outstanding contribution of public health."

Aviation and Space Writers Association Award for Writing Excellence in television, and a Chicago Film Festival Golden Plaque.

Some of her honoured films have included *Fire in the Water* about hydrogen as an alternative energy source to fossil fuels; *A Radioactive Water* about uranium contamination of public drinking water in a Denver suburb; and *A Strange Harvest* about the worldwide animal mutilation mystery which has haunted the United States and other countries since the late 1960s -and continues to date.

In 1989, Ms Howe was Director of International Programming for *Earthbeat,* an environmental series broadcast on Turner's WTBS Superstation, Atlanta, Georgia. That year her first book was released. Entitled *An Alien Harvest*, it documented the history and unusual medical evidence of animal mutilations linked to a non-human intelligence. That work was followed in 1994 by *Glimpses of other Realities, Volume I: Facts and Eyewitnesses*, the companion to the 1998 *Volume II: High Strangeness.*

She has produced and written more than a hundred live studio programmes, including a two-hour special *Earth Mysteries: Alien Life Forms* in association with WATL-Fox, Atlanta and was creator and supervision producer of the network special *UFO Report: Sightings* which lead to the 1992 *Sightings* series on Fox. That year she also helped coordinate biophysical investigations of the crop circle mystery in England.

Ms. Howe has been a featured speaker at national and international conferences and symposiums, including NASA's Goddard Space Flight Centre. She continues to produce reports for television and radio, including news about science, the environment and unusual phenomena for the nationally syndicated radio series *Dreamland* and *Coast to Coast* hosted by Art Bell. She has appeared on many national and international television news and documentary programs including CBS's *Day and Date, FOX's Strange Universe: CNN's Larry King Live;* and NBC's network special and companion tape for *The Mysterious Origins of Man.*■

A WORLD UNDER ASSAULT.
© By DON WORLEY (Indiana), FSR Consultant.

An epic, unseen, struggle has been raging for many years. Large intelligence groups in Earth's leading nations and the valiant forces at their disposal are locked in a hopeless struggle with a foe whose power is unsurpassed. Sleeping humanity little suspects what lies in its perilous future. It is much like the falsely secure revellers on the doomed *Titanic*. If some miraculous help does not finally intervene it is probable that our cherished values and even we ourselves will be annihilated. You think the preceeding statements are the babblings of an ignorant, irresponsible fool? Please read on and then we shall see what you think.

In this article I want to acquaint you with some very disturbing elements in the aliens' huge, relentless, human abduction operation, and briefly discuss their final result. The aliens' ruthless, skilled, abduction project presents major problems for our beleaguered forces who do not have the slightest chance of ever coping wth this cunning para-physical form of alien penetration.

Within the abduction syndrome are the following ominous activities which I will take a look at, using my own abduction cases numbers 102, 94, and 55 as illustrations:

A. Military personnel and civilians in underground/undersea bases or in the UFOs.

B. Hybrids and halflings and the gene business.

C. Foetus production.

D. The clones

By way of further explanation I will briefly touch on implants, cerebral programming, terminal abduction, and hidden alien bases.

In case #102 I was asked by the abductee to do an evaluation and try to answer some of her questions about her incredible experiences. I will call her *Wanda*, and her lifetime *Grey-type* alien mentor *Valic*. We do have some abductees who are protected and guided throughout life. This protector will usually be a *Nordic* or a *taller Grey-type* alien and not any of the other unmentionables. *Wanda* describes *Valic*, who had a human father, and so is a gene-blend hybrid, this way: "Slender, 5'6", bald, greyish-tan skin, nearly regular sized eyes with some white showing, tiny nose and ears, with a slit mouth. He wore a knitted grey jump suit. He tries to smile, but can't because he does not have the facial muscles for it. He has a small penis. I have never seen him eat, but have seen his food, which looks like blue pudding."

Wanda continues, "I did once see *Valic's* spaceship, underground, and went inside. He uses it to go back and forth through the tunnels below - (The location and name of this city can't be divulged.) The inside of the spaceship is not spectacular -more like an airplane. I didn't see the residential area where he lives down there."

Wanda is *Valic's* special Earth-assignment, and a valuable one for the aliens, for she has produced 25 foetuses for them. Please pay attention to my next startling statement. Some of these are halflings, an alien gene-mix, predominately human, who are indistinguishable from a human unless you check their genes. We can't know what may be concealed in their minds. They may be leading a double life of normal existence by daylight, and alien activity by night that they are not even aware of.

Wanda's other foetuses nurtured in the alien environment were all alien-like hybrids. *Wanda* was permitted to meet four of these hybrid kids that she had by *Valic*. **They were about 5'3" in height, grey-tan skinned, had teeth, and can smile and laugh. They communicate verbally or by telepathy, make jokes, but not in English. They have emotions, due to the human genes.**

Underground, Wanda has seen dark-haired humans bossing some short Greys, and one human whom she called the Commander and who had black-greying hair. In dirt or finished tunnels and large rooms she has seen captured humans, who she thought were no doubt homeless people and runaway kids who would not be missed in society.

In her home she was guarded by human-like genetically altered "hunks" whom she calls "guardians." Present in Wanda's astounding case were also CIA types that Wanda knows that the aliens are proficient at cloning, for she herself has been cloned. She is sure she is the "original" for she could tell when something of her own essence had been used for a clone that was sent on a special assignment in place of her. The duplicate is now in a hibernation chamber.

At this time I want to stop and discuss some of the important things we have learned from this case.

You do realize that there are other cases that have similar ingredients. Off-hand I'm thinking of cases like those of Katharina Wilson, Melinda Leslie, and Leah Haley. In all these cases, when we exclude all the virtual reality screen-illusions, shape-shifting, school sessions, and crafty lies, we have the aliens' central motive exposed. It is the acquisition of human reproductive material and the use of it to accomplish their aims. The scene has changed since the days when we worried about UFO waves, landing indications, and occupant sightings. Wouldn't the old deceased researchers flip out now!

Now for a moment let's think about Wanda's guardians, and about cloning. Since the guardians were all carbon copies of each other, I'd say they too were cloned. In another case I had identical effeminate-appearing Nordics appear, along with a Principal Nordic who looked more masculine. Cloned companions with the leader no doubt. Cloning is abhorrent to most persons. President Clinton says he detests it, and 19 European nations recently prohibited it. Meanwhile the aliens are no doubt cloning untold numbers of soul-less beings and thereby introducing another profound threat to our well being.

In my case #93 (*Kim)*, she had much experience with a variety of Grey types. Some wore medical gowns, or a form-fitting suit. She also saw human males, aged 25 to 35, wearing lab coats and performing medical procedures. One time there was a human gentleman who looked just like Einstein or David Jacobs -bushy hair and all. *She was told that one hybrid was her daughter.* This being had an aged look, thin long hair, was anorexic-looking, and wore a sheer dress. *Kim* said, "the short, frail, big-headed, *Zetas* with whom I am in contact have many adults and children living on board. They are from genetic material that has been collected from us Earthlings. I have met some of these people, both human and halfling. I have had conversations with these persons, and they seem genuinely happy people.

"Communicating verbally and by telepathy, I was told that they were happy where they were and had no desire to be in the chaos of Earth. They were articulate, and answered many of my questions to my satisfaction. I have been shown living areas and a recreation park-like area was still under construction with scaffolding present. I do not think they are being treated like slaves."

Abductee #55 has been inside bases in Alabama. she talks about the "under-river base people", and other types. At one base, the entities were the human-like, blond, blue-eyed, *Nordic* types. The abductee *Sarah* states that some of the blond groups are good and some are bad. There is dislike by the good kind of what the bad kind are doing, but not any open conflict between them. Some of the shorter people, that she calls "the high collar ones", are friends wth the blonds and with the red-eyed apes. They all work together. There was an 8-year-old halfling travelling with one of the blonds.

In one base she knows of, the aliens had detained a military man. His vocal cords had been removed and not a thing could be done about it. He knew about jets and was listed as missing.

She gave me his description. As we think about all these reports of military men and civilians on board craft or underground, what should we think? I am aware of abductee *Kim* saying that those whom she had observed were "normal and happy". However it is my belief that no one in the clutches of the aliens ever retains his own normal cerebral functions. There are many reports of military personnel performing tasks in the alien environment. In one case there were up to 50 observed! Knowing the aliens' awesome control of the human mind I'm convinced that all such persons are really under alien command. This includes *Wanda's* CIA types and even the Halflings, who are a total success in civilian life.

Earlier in this article I said I would mention some of the other malevolent methods of envelopment. **In my total of 103 cases, skin-disruption and the insertion of tiny implants is common. some of these affect electromagnetic systems. If you disturb street lights, radios, computers or similar devices then you need to find out what is going on in your life. Add this to the fact that once an abductee is chosen he may always be revisited**. All of this is usually very harrowing to those who are the focal point of alien desire. I have been a "refuge in a terrifying time" to many, but it was inevitable that the time would come when I would see defeat in this incredible contest. For example one of my abductees hanged himself, and this devastating news caused me to send out a special letter to my abductees. It advocates: (1) **Give your love and time to those who love and depend on you, not to those who came out of the darkness and usurped your life. 2) Seek the supreme, loving,Creator who will save you if you really have faith in Him. 3) Insistence on a last phone call to me before any final tragic mistaken act is committed.**

Another insurmountable situation is that appalling form of alien instant translation, resulting in what can be called **terminal abduction. In addition to temporary abductions we have a low percentage of these events where the victim never returns. Terminal abduction happened to the pilot of an Air Force jet on March 9, 1955 near Paris, Illinois. Eugene Metcalfe watched the giant bell-shaped UFO swallow the jet. Over Bass Strait in Australia a *Cessna* had been shadowed and captured by a UFO. In December of 1988 many witnesses in the Puerto Rico towns of Lajas and Cabo Rojo watched two Navy jets being taken by a gigantic glowing triangle.**

There is also another kind of terminal abduction by the heartless aliens. In Marseilles, France, witnesses watched 10 young bicyclists round a curve and go into a thick fog bank in which they vanished forever. In 1978 Eva Rencher, of Dej in Romania, went to get a soccer ball, turned, and vanished there while friends looked on. Burn-marks remained at the spot. In 1987 Matthias Gramson, 42, of Arkranes, Iceland, skydiving with friends, vanished at 300 feet below his companions who were coming down with him. In World War II, on Ewo Jima, 7 men of the 24th, U.S. Marines watched a dazzling white light envelop 5 officers and men standing on a rise overlooking the ocean. In an instant they vanished. I have only skimmed the surface of these kinds of events.

Another stark fact of life in our deplorable predicament are the secret alien terrestrial bases. There is good evidence that they do exist. UFOs have been seen entering and leaving them through the years. The "truck climbing hill" sound is heard in their vicinity. Abductees often talk about being in the bases. **In a short article I identified 15 localities and no doubt this is only a fraction of the total amount. Quite literally one can say the aliens are "into us like mice in Swiss cheese".**

I have pointed out to you how the silent tentacles of an irresistable monster now move in the midst of sleeping humanity while helpless authority pretends nothing is happening. Two monumental questions present themselves:

A. What is the true nature of the main invading force that we can never hope to resist?

B. What final plan does this intelligence have for us?

Even though there seem to be isolated instances of this diabolic power having done good, the vast overall scene shows it as ruthlessly violating many of the life-sustaining principles of civilised man.

The destruction of human souls' sovereignty is a supremely evil act in the Universe. The kidnapping and the vile violation of an innocent child is terribly wrong. The creation of some pitiful hybrids, or control of human halflings, not to mention the imprisonment of many of the human species who have been mentally altered, is a cruel injustice. **It would seem that compassion is totally missing from the alien psyche. Of course, for functional and confusion purposes it will show us a gentle, loving face at times.**

What is its ultimate plan for us? When we look at the aliens' awseome, frightening, creative, and cloning abilities, and the immense effort that we can see them putting forth, it is clear that they have created so many billions of entities it is beyond our comprehension. *Are all the perfected hybrids being held in readiness somewhere? What is the number of halflings in our midst? What could abductees be programmed to do?*

When we view the terrible facts of the alien enigma it is apparent that what we have to fear is not a satanic scenario in which the skies suddenly fill with alien craft, disgorging hordes of invaders, because armies of trained clones and halflings and abductees have already been activated to do their tasks. No,this is not the way we "dangerous, warlike aboriginals of Earth" will be dealt with! We know that now, because we already see the *modus operandi* of the real plan in action. It is the graduated non-stress-of-species way.

By steadily over a long period of time, infusing human halflings and their seed into our society a time would finally arrive when much of humanity would already be a subtle alien-controlled genius-breed able to take control of all centres of power, the bulk of humanity being then relegated to an inferior breed status. A one-world, one-religion, era, that would see the fond days of human freedom only a past memory. Once they are in clandestine control, the takeover agenda would be stepped up with increasing numbers of alien lifeforms pouring into the mainstream of our life.

The cunning and skill of the aliens would be such that the bulk of humanity would never suspect what was happening to them until it was far too late. This would be the time of the cashless society and individual economic control. If you didn't embrace or cower before the powers of Darkness and take the UPC 666 code mark in your hand or forehead you would starve. Among the hapless teeming inhabitants of Earth all the devilish, destructive, things possible would reign and move towards a crescendo - the massive slaughter of wars, murder, rape, the scourge of drugs and Aids, the rapid descent of morality. All this would provide a centre-stage distraction as the silent, sly, infiltrators took control. **Much of this is exactly what we now see today. [Look at Kosovo today! G.C.]**

One thing is certain in our present circumstances. If our precious, beloved, Planet does not finally experience the arrival of a glorious rescue force of superior power and love, as described in the Holy Scriptures, I am positive that the tiny glowing light of humanity in the Universe will be snuffed out..

A GIGANTIC FLYING TRIANGLE OVER HULL (October 7, 1997). © BY OMAR FOWLER, Editor of P.R.A. (Derby) and FSR Consultant.

(My thanks to the Hull UFO Society (HUFOS) for drawing this incident to my attention. O.F.)

The witness (ref: GP), lives in Hull and is an engineer with a major oil company. He has travelled widely throughout the Middle East. His background no doubt assisted in his methodical study of this huge craft during the short time that it was visible. (*GP drove to Derby to relate his experience to me. This is an abbreviated report of the incident.)*

"I had been adjusting new security lights outside my house, the time was 7.45 pm. My wife had been walking back and forth in the garden to assist me with setting the infra-red trip. She drew my attention to a series of red streaks of light forming in the sky directly in line with the Humber Bridge.

The centre one was exactly straight, one coming alongside of it came up and curled over to the right, a second one came up next to that and curled over to the right, then another light came up on the left and curled over to the left again until there were five streaks of light in the sky. They stayed on for so long and then they started clicking out. They were about a mile away and looked about two miles long. I heard a buzzing and a 'crack' as the lights went out.

"I was just standing there looking around and wondering what it was, when all of a sudden I saw a series of 'fiery red lights' up on the right. There were about five, three of them were very large and the one on the end was slightly smaller and there was another one that was smaller still. The lights were flickering, like a blacksmith's forge. I thought that they were helicopters at first, but the lights were about ten times bigger than a helicopter.

Then I saw other lights over on the right, then I saw an orange glow and I suddenly realised that this was the result of the city lights bouncing off the bottom of a huge craft and it was a Triangle, I thought I just don't believe this. It was moving blunt side forward at about 30 mph. The sheer size was enormous! You could see the lights curling around the edges of the Triangle and you could see the bottom of it, just an orange glow.

Anyway, it stopped and it did a turn, overturned (*went too far*) and then corrected itself. It went a bit further on for about a quarter of a mile, stopped and did the same thing again. I wondered if the wind was turning it, but there was no wind at all.

"We were looking up (*GP and his wife*), I was standing in the flower bed and my neck was aching and I looked down and then when I looked up, it had gone! I thought that's crazy, all I did was look down! That was it, it had gone. I looked all around but couldn't see anything, then I looked up and I was amazed, there was something like a rib-cage and two giant circles underneath it and there was like a tail on the end of it. It was right above us, it was gigantic. The red balls that I had been looking for, must have been above it. I just kept looking and looking and every now and then I would look down to see if the trees and grass, the garage were still there, it was beautiful, you could see everything crystal clear. Electro-magnetic forces... all this was running through my mind, I was frightened to death, in case I was going to get some sort of forcefield on me. It was absolutely silent, no noise, no wind, it was just hanging there. It seemed an eternity, but it could have only been two or three minutes.

"It seemed to be up there for ages and ages, my wife was chattering away, but I didn't say anything, I was just keeping quiet, I was just taking everything in. I was trying to memorize every little piece, there must have been over

a thousand lights underneath it, all the lights, no matter what it was, they were all pale blue lights. It was really high, but you could see everything, I reckon you could have got three 747 Jumbo jets, wing-tip to wing-tip, across the middle. I know that you say, hold a ten P piece up at arm's length ... if you had held up a cricket bat, that would have been more like it! It really was massive.

"At intervals, I put my head down and tried to remember what was what, then I looked up again to check, I was doing this and then I thought, the length, how can I get the length? I thought an imaginary plumb line, one at each end. I thought, one end was more or less over the river at Hull and the other end at Greenwood Avenue.

Anyway the next day, I took the car and set the day-trip on the speedo and drove from one point to the other and it was seven-tenths of a mile! It could have been a little smaller, but it rules out 20 feet and rules out half a mile. I know it seems really bizarre, but that's what it was (*Lights were reported by several witnesses during the same period).*■

A BUFFALO MUTILATION CASE IN CANADA.
© By GRAHAM CONWAY,Chairman of UFO*BC & FSR Consultant.

In a report dated September 15, 1995, from Mr. Ken Smith, owner of a ranch near Southwest Francois Lake (97 kms. southwest of Burns Lake) British Columbia, I received details of what appears to be the "first ever" recorded case of a *buffalo mutilation.* ("Buffalo" = North American Bison).

I visited the area and met Mr. Smith and inspected the scene with him. Mr. Smith explained that he had a number of buffalos on his property. The mutilated one, a cow, was found lying dead only 300 ft. from his house. His dog, normally an extremely alert animal, had apparently not barked or reacted in any way.

The udder of the buffalo cow had been removed cleanly, as well as the entire rectum and vagina, all excised with total surgical precision in a perfect circle. The nose also was missing and, of course, as usual, there was not the slightest trace of blood anywhere except a tiny amount around the nasal area.

Mr. Smith noted that, while the carcase seemed to deteriorate faster than cattle carcases usually do, no bird or animal predator would touch it, and for days it remained totally free even of maggots. He told me that bisons, when one of their herd dies, have the habit of coming up and "nudging the carcase with their heads". but in this case they did *not*. And even the dead cow's own calf would not approach the body.

All these details confirm a typical mutilation.■

MAILBAG: CAT MUTILATIONS.

Dear Gordon

With reference to your Editorial in FSR 43/4 (mutilated cats), I don't know whether you recall this, but I *did* submit to you, about five years ago, a report about these cases of dead cats in the London area. It had all been given to me by a lady, living here in Devonhire, who operated a "*Find a Pet*" scheme. And, by the way, note this very important point! **She said that the Metropolitan (i.e. London) Police had actually told her that** *"it was not the work of the usual gangs."*

In my report to you I linked it all to similar cases reported from Canada, in one of which the cat had been cut in half and then dumped on its owner's lawn.

At the time I chanced to have Linda Moulton Howe staying with me overnight, and she had been most interested in it!

In my report I enclosed the original Canadian press-cuttings, received by me from Graham Conway.

Linda Moulton Howe took away my file, as every single case had the same two features -*the body bloodless and the head missing* At the same time I also gave in my report British cases of headless seagulls and headless seals. Yours sincerely.

[Yes, I am sorry! I remember it vaguely now. As Editor of FSR, I find it a total impossibility to keep in mind the vast flood of material that continues to descend upon me every day. Our files on animal mutilations alone are dauntingly thick, and most of the material has come from Joan Amos who keeps an extremely close watch on this particular part of the whole UFO problem. DID ALIENS ABDUCT THE PRESIDENT?
© By PETER BRONSON, Editor of *Cincinnati Enquirer.*

[I always look forward, every day, to the American contents of the FSR mail-bag, for they are an unfailing source of good stuff, even if all else has failed. It so happens that our excellent friend and excellent FSR Consultant Don Worley was interviewed recently by Peter Bronson, the Editor of an important American newspaper, The Cincinnati Enquirer, and this newspaper published an account of it in its issue for November 30, 1998. Don Worley has just sent me the text of it, and here it is! I hope it "makes your day", as it made mine.-G.C.]

Maybe you think Men in Black was just a movie. Maybe you scoff at crop cirles, tales of mysteriously mutilated cattle and the "Top Secret" room at Wright-Patterson Air Force Base where crashed aliens are preserved in jars like Lenin at the Kremlin.

Then again, maybe you are in for a Publisher's Clearing House surprise "You May Already Be an Alien!"

Today's column is brought to you in the spirit of open-minded scientific inquiry -and a desperate attempt to find something to write about besides Bill and Monica. Besides, it's close to Halloween.

So, what if....

Maybe you've seen bright lights in the night sky. Maybe you have lost hours that you can't remember or explain. Maybe you've tossed and turned in a straitjacket nightmare of balloon-headed people with big cat eyes, then climbed out of bed in someone else's pyjamas.

Welcome to the not-so-distant world of alien abductions.

"A lot of the abductees I deal with are on the edge," said Don Worley, 77 of Connersville, In., just a few crop circles across the Ohio border. He should know. "As an investigator-researcher for 33 long years now, I have handled 112 abduction cases", he wrote. "If I don't know what is going on by now, who in God's name would?"

Mr. Worley is reluctant to talk on the phone. "You never know who's listening" he said after a burst of static. Hmmm.

But he was kind enough to explain:

Men in Black: "That movie was a joke. Men in Black is the real thing. They don't seem to be human. They threaten UFO witnesses. These things show up a day or so later at the door to scare the wits out of someone. I know, that's pretty far-out stuff."

Cat-mutes (mutilated cattle corpses found out West): "They (aliens) have taken tons and tons of cow parts. There's just a big cavity they leave in the cow."

Abductions: In numerous articles, Mr. Worley has written about cases such as the woman who "wore her Victoria's Secret nightgown to bed, and returned wearing a man's oversized shirt."

Or the man who was abducted and found himself in a space ship, with nothing to offer to tall, gray aliens but a $20 bill. He never saw the money again, but found burned circles in the grass where he'd been standing.

Or the abductee who set off slot-machine jackpots just by walking by.

Mr. Worley warns, "If you disturb street lights, radios, computers or similar devices, you need to find out what is going on in your life."

Many abductees are terrorised for life, he said, but some don't know they have been abducted. Implants reprogram them and erase their memories.

Maybe you laugh. Or maybe you're one of them. But serious, credentialed academics have interviewed abductees and insist the stories are true.

The internet is loaded with UFO sites, including an article by 1977 Pulitzer Prize winner John E. Mack, "an M.D. affiliated with Harvard who believes that aliens routinely abduct Midwestern housewives and perform strange experiments on them".

"It appears that we can be 'invaded' or taken over." Dr. Mack writes, "if not literally by other creatures, then by some other form of being or consciousness that seems able to do with us what it will for a purpose we cannot yet fathom."

And there's Temple University professor David M. Jacobs, whose book, The Threat, describes "the systematic and clandestine physiological exploitation, and perhaps alteration, of human beings for the purposes of passing on their genetic capabilities to progeny who will integrate into the human society and, without doubt, control it."

Mr. Worley says it in ordinary, terrestrial, Indiana English. "Quite literally, the aliens are into us like mice in Swiss cheese."

It's not a sci-fi invasion -it's infiltration, using "halflings" and clones spawned from abducted humans, to enslave us all.

It made me wonder: Are there crop circles in the Rose Garden? Has the President been abducted lately? Is Hillary a "halfling"? Was that tall alien who took the $20 bill actually Al Gore?

"No, the stories are unrelated," Mr. Worley insisted. "Monicagate is just a distraction compared to this story."

Dr. Mack seems to agree: "Abductees do not appear to be deluded, confabulating, lying, self-dramatizing or suffering from a clear mental illness."

That appears to rule out the Clintons.

But, part of me hopes Mr. Worley is right. We could use a distraction. And if we make contact, I have a request for the aliens:

"If y'all beam up Bill Clinton, don't send him back in someone else's underwear. Just keep him. Thank you."
