

THE GOLDEN DAWN

CITY OF THE SUN FOUNDATION NUMBER 56
(Sept.-Oct.1980)

On June 27, 1980, at Cancer Full Moon, all of the Commanders of the Southwestern Regional Council of the Space Federation, met in the Space Station located in certain southern New Mexican mountains.

A Commander of one of the fleets presently patrolling California, highly respected among his peers, gave the introductory words: "Ladies and gentlemen of the Southwest Regional Council I represent to you the patrol action of the state of California. We have come, as all of you have, to enter into plans for our region for the remainder of the year. It has been a good year for the Space action. We have definite victories to report. Great challenges have been contained and the holding action has kept California intact. The presence of the Great Ashtar Command has been assisting us from the etheric realms in the work that has been done. The Great Lord, Jesus-Sananda, has visited our various Commands on many occasions and spoken with us concerning our objectives. He is a continual source of great inspiration to all of us as He is to all of you. I am most honored to have been called upon to present to you as our evening speaker, our Beloved Commander above all, Lord Jesus-Sananda."

(The Host to the Council, Capt. Avalon describes the moment: "There is a great cheer arising from the audience. They stand in unison applauding as our Beloved Leader enters the room. Peace and Love radiates from His countenance. The straightness of His stature, the grandeur of His bearing is beautiful to behold, and we are all inspired. With a slight gesture of His hands, the meeting quieting down and applause comes to an end. In absolute integrity, every heart awaits His spoken words.")

"Greetings to all of you, My friends assembled for this important Council of the Southwest Region. I bring you the Good-Will and Love of the Etheric Realms, the Heavenly Hosts, the Most High and the Angel Kingdom, the Etheric Masters, and the Ashtar Command.

I have come to encourage all of you, and to thank you for the great work that you carry on so valiantly. The Guardian Action becomes the greatest object lesson of cooperation that man can ever contemplate. The harmony maintained in your ranks, as well as the higher echelons, is a major contribution to the success of our Plan. The immediate action uppermost in our emphasis at this point in time, is the deliverance of our representatives from places of danger to areas of safety. For a considerable time, calls have been sent forth on inner levels and the responses have been good. Many actions that have threatened various areas have had the intensity lessened by your timely intervention. I would cite the volcanic eruption of early May. Had it not been for the Spacecraft and their crews from the heavenly realms, and the penetrating beams within and around the surrounding terrain, the destruction would have spread to great distances. Because of your cooperative action we were able to contain the forces and minimize the resulting tragedy.

Many such areas, even at this moment, are threatening situations. Our objective is to contain these threats until you are able to influence your followers to relocate themselves. The program of rescue embodies both this voluntary removal, as well as any lift-off by us. Economic pressures and increased unemployment will continue for the balance of the year, complicating relocation even further. In many cases, some will be relocating because of these very financial pressures, unaware that deliverance speaks to them in these circumstances. The primary emphasis of our Program for the remainder of the year (1930) will be this transfer of souls.

From the great mother ship in the etheric I watch these situations throughout the hemisphere, monitoring them continually. The planet has many complex problems which require the assistance of the Guardians. But in your particular region, the coming six months will center attention upon three actions: the moving of the chelas, the weather patterns, and geological concerns. These three areas of service will be your particular challenge. Coinciding with these activities will be the continuing great expansion of Light upon Terra, along with increasing blessings upon all Light Centers. Their tempo must increase, their power must manifest, their outreach and influence must be expanded throughout 1930. They are like anchors in the storm. These anchors must hold. Where there have been three souls , there shall be nine; where there have been nine there shall be twenty-seven; and where there have been twenty-seven, there shall be eighty-one. For the blessings shall increase three times three in every Light area, and every Light Work of the Southwest. This expansion must take place because of the need of those who will be relocating and entering these areas, who themselves become a part of this expansion. My Beloved Friends of the Space Program, as an arm of the Great White Brotherhood, I am calling upon you to make note of My request that your efforts shall be stepped up in your contacts and influence with the Light Workers in settled circumstances within your region. Let the Light beam brighter, the rays penetrate deeper, the spirit aspire higher than ever before.

You will be having the assistance of the great Planetary Hierarchies as the alignment progresses, bringing heavy concentrations of increased vibrations. as well as becoming intensified by many eclipses coming more and more into influential penetration of man's thinking upon the earth. These manifestations shall greatly assist you in a task that has been difficult in times past. But NOW IS THE TIME, MY BRETHREN, and you will find that in the days before you, your work shall be fulfilled with ease. Your followers will welcome you all the more for we are approaching YOUR DAY, when the Galactic Councils and their ranks shall receive honor and respect from the people of earth. I, Sananda, promise you this. There will be a quickening of understanding, a melting of hard hearts, a softening of attitudes, an awareness of minds, and the words of the Space Messengers shall come to rest in the soul of humanity.

All of you, and those you represent throughout the Guardian Action, have labored tirelessly, in faith, with oftentimes very little cause for encouragement. I declare to you that harvest time will soon be here. You will see the fruits of your labors. You have carried on with negligent gratitude from the planet itself, but that gratitude will be forthcoming. A new attitude shall sweep the land and break down old resistances and you, My Brothers and Sisters of the Alliance of the Universes shall be received as a part of the Heavenly Host that has served the planet Earth. NO MORE SHALL YOU HAVE TO WITHDRAW YOURSELVES FROM SIGHT BECAUSE OF THE HOSTILE ATTITUDE UPON TERRA. You shall be welcomed and taken into their Councils, My Friends. Let that hope sustain you in your ongoing Program, and look to that glory as you carry on. I thank you."

(Capt. Avalon describes the closing moments. "With these words, a moment of stillness prevailed, overtaken suddenly by the burst of applause. Once again, the listeners

applauded in standing ovation. Many of these Great Leaders unabashedly weeping tears of joy and dedication under the inspiration of the moment. The Great Lord and Commander approached the circular table and began to shake the hand of everyone present. Every soul within the station would feel His touch before His departure. Gatherings such as this for peak times of inspiration, are as vital to all of us as they are to you who serve in embodiment. Our Regional Council will reconvene at the close of the year."

ECLIPSE PATTERNS - PART II

To amplify that which we gave in Golden Dawn 55 concerning the eclipse patterns in 1982 let us say this: We are speaking of a powerful energy and the effect it will and is having on the world st the moment.

From out of the Great Central Sun came the decree from the Almighty Creator Himself that Earth no longer was to be known as the "Dark Planet" but was to go through a cleansing to make it ready for its role and rule in future interplanetary relationships. Therefore, "the Angels" in charge of manifesting this decree then sent forth the first ray of energy which touched the planet in June of 1978. At first its effects were most noticeable to the planet itself - the Solar Angel whose soul is within the planet's body. Thus did that magnificent soul stir and begin its preparation to receive and react to this stimulating energy. This energy was the beginning of an initiation for the planet and its inhabitants. This energy is the Shiva or destroyer energy. It is now becoming more and more noticeable as time moves on. It is causing a stirring among nations, peoples and that which is NOT of the Light in Thought, Word and Deed will be destroyed and those with it who perpetrate negative energies.

That is why so many today are experiencing the breakup of old patterns in all areas of their lives. That is why we tell those who come for counseling to make certain that all their business affairs are above board. Nothing that is not of the Light will remain standing and in place once the Shiva Ray has spent its course.

Therefore, what we were explaining about the eclipses and energy was this. The Shiva Ray is a very potent factor to take into consideration at this time in plotting the effects of planetary energy patterns in the heavens as they pertain to what you call astrological influences. The Shiva Ray STIMULATES that which it touches. The energy incorporated within that which it touches qualifies the energies for either a "good" or "bad" outcome. Shiva Ray is a God energy and not therefore qualified.

That external ray therefore sensitizes the planetary rays as they hit the earth plane and as they effect each person according to the progressed placement of planets in their charts. Those that have bad Mars aspects during the time of eclipses will find much "warlike" energy stirred up in their lives - the chipping away at the layers of negative effluvia adhering to them through their thought forms. The same will happen with nations. These will be very CRITICAL times. A good Jupiter aspect will bring much protection to events around them (people and nations) plus an inner knowledge of their divine plan - just to give two very brief examples.

Then we can say that during the eclipse patterns during this particular cycle while Shiva is in operation, the eclipses act as generators of this energy - for good

or bad in the world. They are doorways. If during the eclipse, pre-eclipse and post eclipse, one will go into a deep meditation trying to clear away the effluvia that surrounds them from less than perfect living, they will find great strides are made in increasing the Light and vibration. For as this Shiva action breaks down the old in its cleansing action, thus are the vibrations and energy patterns of the planet freed and the vibrations and Light of the planet are subsequently raised. Those who are of the Light must respond to this raising action to keep in tune with the planet. It is not happening thusly at this time and more and more people are falling ill and many will choose to leave the planet rather than turn to the Light and its increasing vibrations. For this planet is to be the home of God-oriented beings. You are children of the One Most High and must now accept that as your responsibility and divine heritage.

The second ray to strike the earth will do so after the Shiva action has spent itself. This will be a ray also that comes from out of the Central Sun but it will be of the Cosmic Christ and will bring about a consciousness in which Man and God will again communicate, and Masters from all realms will once again walk upon the planet, and peace, harmony will prevail. In this consciousness will the earth then find its place once more in the Galactic Council and come into its own once more. The timing of this Ray has not been given but is known only in the Heart of the Almighty.

Therefore, in charting the energies from now on, you must take into effect this "extra-planetary" stimulator and the fact that it will have double the effect on the power of the eclipses. When the eclipse pattern is in harmony - when the sun and moon are in compatible signs, then harmony - doubled, can be counted on. When there is a disruptive pattern, watch out! Shiva is at work. Our best advice is to go to the inner intuitive powers for guidance in interpreting the effects in other's charts and also upon yourself.

We hope that this has clarified and not caused more confusion. Peace be with you always.

Love can respond only to love
Because ONEness is its nature;
It is not only beyond earth "in Hev'n above",
It is ever THE LAW of our own stature.

Since we are the power to think and to feel;
We are the Power to change our motion-picture-reel.

When we desire a CERTAIN thing;
Stabilize our power of Will.
Stop all scattered thinking,
The LAW of CERTAINTY we then fulfill.

With every word and sign the TRUTH is spoken
Absolute Eternal LAW is never broken.

Truth never keeps Itself aloof;
It is self-evident - argument proof!

PREPARE FOR THE FUTURE
By World Teacher, ST. GERMAIN

Let us consider again the situations confronting people of good will today, the Students of Light across this world. We can only encourage and hold out our hands in love and blessings to you.

So many are now encountering situations in which one feels that the knowledge and strength one has gained along the way are not sufficient to protect and to give impetus and creative force to the work one must accomplish. Situations will often grow into overwhelming forces, if one believes one cannot control them. We speak to encourage you to remain calm when such situations are encountered. Remain calm and gather your strength about you. Stay in your own place. Continue the work you have to accomplish. Pursue the further growth in spiritual Light. That is the most important at this time. Ignorance is the only sin. Willful ignorance is the greatest detriment to the growth of the disciple. Let your minds be open-, appraise all knowledge, and select that which is for you. Let your hearts be willing to appraise, to discern, to accept or to reject.

Be ready to challenge everything which presents itself to you at this time. Those who go about as thieves in the night, ready to slay, or to rob, and to destroy, are all poised and alert on the plane of being in which you dwell. Only by rising above their fields of operation can you find safety. These forces have their roots planted in insincerity, and the lack of integrity. Discern them well. They are of the negative - or the forces of the lack of love, and their weapons are criticism, psychic attack, and untruth. These shed their emanations thru the stratas of thinking and working today in the material world, not only in this country but in every nation and country around the globe.

Prepare now for that which is to come, both the physical changes and the vast changes in many dimensions of life. See now that you have that which you have need of, to give you the feeling of well-being and preparedness in the physical, mental and spiritual dimensions. We have given warning before of the storms of controversy. We call your attention again to the fact that these storms of controversy rob the pilgrim of his perspective and strength. They rob the disciple of his goal of winning his final award of Harmony, Peace and Growth, Understanding and Wisdom.

The disciple should be aware that all energies he has stored in the past years of progress in the Light, are now needed for maintaining his strength and for use as a shield and a protection in these days of peril.

As time goes on, watch well the situations in which you may become involved. See the changes. See where the differences in these situations are continually changing. Thus you will be forewarned and forearmed.

Do not say to yourself: "It has been a long time that these things were prophesied, still nothing has happened." I say you are standing on the brink of a dangerous chasm. It is well to prepare now, if you have not done so already. Make a wall of protection about yourself. Be concerned. Everyone must stay in his own place. Where you have set up your vortex of power, that is your place, and you havd saturated it with the Power of your devotion and your own energy. Here are attracted to you those Powers of Light and protection. Watch! Be alert!

We began the work with the Violet Transmuting Flame a generation ago, in order to help disciples purify themselves and prepare for the time when they could say, "I have no part of myself involved with these negative situations." Now the time of

preparation is past, but the time of growth in the Light continues. Now is the testing time, and that which is built truly in the Light will stand the onslaught of the forces in days ahead.

In the midst of changes, the Violet Consuming Flame is still of the greatest strength and power. It does not change. The Light of Harmony, Peace and Love never changes. Remember that on which your attention is fixed is what you bring into manifestation. The Light of Knowledge of higher worlds manifested as the Star in the East in olden times, still shines over the planet today. For you who have found the way, there is still much to learn.

HOW TO SEND DONATIONS TO THE CITY OF THE SUN IF YOU LIVE OUTSIDE OF THE UNITED STATES.

Many people through the years who lived outside of the United States have sent us their personal checks as well as money of their own country. We have always gratefully received these gifts. However, the past three months we have had to return a good number of offerings. Our bank has advised us that it would cost us more to cash them than they were made out for. This is no reflection upon your country or your money. It just shows that the world money exchanges situation has changed drastically.

Aside from American money which it is not easy to secure in a foreign country, the only other way is to buy an International Postal Money Order from your post office. This we can cash. We are sorry we had to make this explanation.

AN ENCOUNTER WITH THE GUARDIANS.

Part 2: Interviewing a Space Commander.

"Captain Avalon, we here at the City of the Sun are very grateful for your permission to publish your conversations in the Golden Dawn. I have been wondering if it is dangerous to the Space Brothers for the general location of any Space Station to be made known?"

Answer: "That same nature which would tend to hostility toward us, would likewise tend to mark off this information as the dribbling of an idiot person. We do not concern ourselves with that type of danger, for the ignorant, closed mind is our finest protection. The few that need to know are being told, and that is our primary concern."

Question: "With the publishing of your name will there not be many attempted contacts with you?"

A: "You misunderstand the procedure in these matters. This will not be like a number in your phone book for public access. These vibrational beams are special contacts that are set up after long planning and arrangement, as well as permission. While I might be aware of this effort of some, I would not be permitted to answer just anyone, unless that were part of an original set-up on a past relationship, with contact agreed upon before incarnation. This is the way these things are brought about. Others are intruders."

Q: "Do you have any women on duty in your station and fleet?"

A: "There are several. The amount changes from time to time. There are many Ladies from Space who monitor the control panels. Occasionally we have a Lady Commander with us, but most of our Ladies are highly trained technical scientists who serve at the many controls needed to operate this type and size communication center. They are from many planets, including Earth."

Q: "I would appreciate a comment from you, Avalon, in reference to this laser beam, Mark of the Beast (666) material I have been reading."

A: "The marking of the hand or wrist with a laser beam for buying, selling and credit purposes will never come to pass. As much Light continues to enter, and much exposure of darkness takes place, Americans are becoming too informed to tolerate this. The people will reject it. There will be a united credit card pushed through, but independent companies will still maintain control of their own accounts. Not all retailers will carry it. However, the threat of the Beast Conspiracy is still a viable source of concern to be watched."

Q; "Please discuss the Alien UFO Forces (Dark Forces.)"

A: "There are dark forces. There are those who are evil in their intent. We have had close surveillance of them in the past. Most of them have now been removed through the Guardian Action. A few still remain in Earth's atmosphere. This has been the nature of our work likewise in this area. We are Heaven's policemen. We are the watchmen on the walls. We are the Guardian Action. We guard and protect, even as your patrol cars patrol your city streets in the darkness. This we do, constantly on the alert for any ships of the dark forces."

Q: "Captain, what is the insignia on the ships of the dark forces?"

A: "There are several, but the most active are the Deros from inner space. Their insignias are always painted in black, whatever they might be. Certain forces of six planets of Orion that have conducted themselves against the injunctions of the Interplanetary Council are cordoned off, and are well under control. We have been working on this situation for centuries but we do now have them under control and they do not reckon in the problems that are in Earth's future. It was very important for the Earth that removal was completed before other occurrences begin. Let's not now concern ourselves with the darkness but concern ourselves in concentration on the Light. Concentration on the positive advancements made, and to be made by the Armies of Light, by yourselves, by the Solar Cross, by the Heavenly Host."

Q: "Thank you, Captain. In the past we have been told of an etheric city just over us here called the Crystal City. Would you discuss this please?"

A: "The City of which you speak is located very high in the etheric but it is just about directly over New Mexico. It is the abode of many highly attained heavenly Beings and members of the Hierarchy. The Space Action is subject to these in all that we do. We have come from the four corners of the Universe to assist in Their Purposes and Programs for the evolution of Earth."

Q: "Can you make further distinctions between the two groups?"

A: "The Souls of the Etheric City are in higher refined bodies, spiritual or etheric, while the Space Command members are in physical type form such as is relative to their origin and planet. They vary much in description, but they are confined to ethers in which they can survive, at least with special outerwear such as your astronauts wear. When in the confines of their various Stations, they dress in a normal way in controlled atmosphere. These do have the Mastery of practicing invisibility when necessary, or projecting an image of themselves, or appearing themselves when necessary. Those of the Etheric City are in ascended and transfigured bodies of etheric spirit form and do, of course, go wherever they choose freely, whenever they choose. However, there is complete coordination and cooperation between the two groups in marshalling the forces of Light upon the planet. Many of the Higher Ones travel with the Space Brothers in their ships again and again, and meet with them in the many Councils."

Q: "That is very interesting, Avalon. We thank you. Would you be permitted to discuss the activities of America relative to building and owning space ship craft, as well as Britain and Russia also?"

A: "We are aware, of course, of the American, British and Russian ships, and the others. These ships are physical material, visible in nature. They are totally unlike the ships of the Heavenly Forces. The Great Mother Ships such as that one in which Jesus-Sananda and Ascended Masters hold Councils are etheric vehicles, travelling silently, invisibly, on a beam of power from a magnetic forcefield. Ships created by earth nations are simply a variation of the airplane, shaped differently, powered differently, construc ted of a different material; but, nevertheless, physical in nature. The ships of the Space Federation vary in description according to the scientific level and processes of the various constellations. But our ships are also different. They are some of them at a point between the etheric and the physical plane, fourth dimensional manifestations. We also travel on magnetic ribbons of Light. Often we go considerably out of our way to enter these energy paths which give us our force. The process is silent, unless we wish to camouflage our presence by creating the sound of an earth aircraft. Normally, the only noise connected with our movement is the humming sound of lift off."

Q: "Does America have any installations on the moon?"

A: "America has none at all. Russia has control of most of the moon, with landing platforms and bases. The United States has Space Ships but they do not have these stationed on the moon. They are stationed in secret areas on the planet, all computer connected with one source which is in _____" (Inf. withheld.)

"Thank you, Avalon, for your cooperation and information. My heart goes out to all of you stationed all over America. I know that you serve the Light wholeheartedly; that you have come to us as volunteers to help the Earth and its people. My love goes out to you, knowing that you have loved us enough to participate in the Guardian Action of our planet. This is a wonderful manifestation of the Love of the Father. I am grateful to know that you are there. I am humbled to know that I have only to call your name and the response comes back. I know that you are Sons and Daughters of God, even as we are. I honor the divinity within you, for the sacrifices you have made. Thank you, in God's Name, for the protection you are giving us. Ready for your closing message now, Captain."

"I, Avalon, say to thee, those were beautiful words. Truly we do all serve the Father together, and some day we shall walk together. When the purging and the cleansing of the planet is past, and the New Dawn has come, our ships shall come in freely. We shall mingle with our Brothers and Sisters of Earth."

"We shall rejoice together that Earth has become a beautiful shining Sun in the heavens. The unpleasantness that first must come shall be past in the twinkling of an eye. The Earth must have its initiation before it can become a part of the Peace Confederation of Planets. Under Universal Law it must be cleansed and prepared for that day. But then shall be unity in Heaven. The Earth shall become a shining Star and a shining Sun to that planet which shall have to go through its evolutions and growth. For it is there that those shall be taken who could not accommodate themselves to the incoming vibrations. Those who must tarry will be taken to this planet prepared for them, to endure another entire evolution of time in the cycle of mankind. But the Citizens of the New Age on Earth shall be as stars shining in the firmament, adding to the glory and the Light of the planet and its beam throughout the heavens. The Inter-Galactic Council has labored together to bring this to pass. None shall be left by the wayside, but each shall be given their opportunity. Therefore, a place is prepared even for those who must tarry. Many shall pass out naturallybut will be denied incarnation upon planet Earth once it has been restored to its state of bea uty. It shall be kept for those of whom Jesus spoke when He said, "Blessed are ye, for ye shall inherit the Earth." These are my closing words. I join with all the Others to bid you all God's blessings through these things that must come. Fear not, for we come in the Father's Name, for He hath sent us unto thee. We are the Guardian Action of the Galactic Council, and I am Captain Avalon bidding you goodnight."

"Thank you Avalon, thank you with all my heart."

HEALING LOVE

Love enters in as a soothing balm
Connecting itself with life therein.
Awakening forces, dormant so long,
Pushing aside all cares within.

Love surrounds, enfolds, protects,
With its everlasting light;
Blotting out darkness, pain, despair,
As the dawn erases night.

Love comes quickly but gently flowing,
Sending its rays within, without,
Reaching and healing every need,
Banishing forever every doubt.

SEEK NOT ESCAPE FROM THY LIVING. GO FORTH UNTO A DAY AS A WARRIOR OF LIGHT. Seek not to separate God from His CREATION, but KNOWINGLY allow His EXPRESSION through you. Cease your struggle with mind - relax and EXPRESS the LIFE FORCE of your BEING. Whatever you do, KNOW God is in the doing. When you seek Him in the Inner-Chamber, do not go forth leaving Him behind you. KNOW His PRESENCE always in all things, and living in the world you will show forth HIS WONDERS. Allow the nature-self the glorious experience of KNOWING the Father, in ALL its WAYS.

May you SEE, and may you HEAR - so THUS seeing and hearing you will KNOW God is not separate from His Kingdoms.

There shall be a NEW HEAVEN and a NEW EARTH, for they shall be GLORIFIED by HIS PRESENCE.

"Behold, I come quickly"

I would speak to you now! You must learn to HOLD the LIGHT in the face of DARKNESS. HOLD your FAITH in the face of FALSEHOOD. You must maintain the courage of your inner convictions; not falter or swerve in the face of opposition; not vacillate when under pressure, nor fear, nor bow to any man. You must learn to maintain an even temperament under attack. Face your own short comings but refuse debasement.

You must KNOW deeply the TRUTH of your CALLING, and allow nothing to alter that KNOWING. When you learn these major factors, you will be READY to march forward with the QUALITIES necessary to PERFORM your SERVICE with perfection.

Do not feel DEJECTION over the WORDS or ACTIONS of others.
Do not feel weak under attack designed to shatter your faith.
Do not allow others to alter your course.
Heed the GUIDING SPIRIT from WITHIN.
Do not allow yourself to be swayed by outer appearances.

STAND FIRM - HOLD TO THE LIGHT - LISTEN AND ACT!!

We stand with you, but can only be of small assistance unless you are ALERT to, and ACT upon your GUIDANCE.

Are you ready? "M"

AT THE CITY OF THE SUN:

We, together with much of the countryside, were so glad to see the HOT SPELL dissipate. Now we have had a number of refreshing showers. People wisely did not do much visiting here during the heat.

Dr. and Mrs. Galen T. Hieronymus (Sarah Gran) of Lakemont, Georgia were among the first to venture here this summer. They were guests of Wayne Taylor for several days. They are very busy people with several projects going on at the same time. Many of you may know that they are putting out "The Oasis", a monthly Light publication.

It was nice to have Marcus Rogers again with us for a week. He was here during our busy weekend of August 10th. Eileen Schoen of Deming was here for the Membership meeting and also Sanat Kumara's weekend of Blessing. Other guests were Sarah Leonard and Rev. Sherrill Davies of Miami, Florida. Rev. Davies led an inspiring service Sunday morning, and then the next day left to visit family in Phoenix, Arizona. Sarah Leonard stayed here several more days and went through the excitement of choosing her mobile home, and began to make preparations on her lot for its occupancy. She left for Miami to pack and return. Carl and Louisa Corp of Safford, Arizona were also present visiting and looking over a prospective lot.

Rev. Pierre Gallerdo and family, and also a friend, of Ashland, Oregon came by to visit. They were "led" into this area. We are so glad to report that he has become the new minister for the Deming Unity Church.

The Peery family of Utah made a large sized detour to come by the City of the Sun. They were on their way to Los Angeles, California.

Always there are a number of friends who visit from the Deming area. We were glad to have the Revs. Gilbert and June Hollaway make a morning visit.

Some members thought it would be good to have a piano in the center as we only had an organ, so Austin and Ruth Love located an upright one on sale and purchased it. It has a lovely tone and is available to use in some of our programs where those visiting want to play and sing-along.

About 200 people recently attended the official Groundbreaking Ceremonies for the Columbus Industrial Park which is located four miles south near the Mexican border. Bill Harrison, executive director of the Southwestern New Mexico Council of Government was master of ceremonies, and introduced the dignitaries. Dr. Chandler Swanberg said 32 test wells of geothermal resource will be drilled. He said, "We'll know the answer in a week or so about the deepest-hole location of 1,000 foot test geothermal resource which might one day help provide power to industries at the Industrial Park." The effort also might supply energy to Mexico within 100 yards of the site. Louis Whitlock of Carlsbad, Chairman of the State Highway Commission says development of the road to ;El Paso is proceeding (Columbus-Anapra) and is held up by right-of-way surveys and acquisition. We mention this because there is hope for more jobs to be available in the future.

THE MAN OF PEACE.

The world seeks in vain for a new statesman to emerge as the man of destiny in an era of acute crisis. Yet our Man is here.

Our Man is Peace, the Person in every Love-centred heart. He exists in you, in me.

The common adversary is our negative or lower self; and it is not so much a question of striving to overcome this ancient enemy of Everyman, but of so stabilizing in Peace that the enemy is rendered powerless. This is "putting Satan behind us", for the brighter consciousness knows that all things of darkness have but the fleeting substance of all shadowy things.

This is Everyman's part to play, for every man IS in a position of influence and power and has the inner directive of the Man of Peace if he will but heed and act upon it.

There has always been a Spiritual Government. It is not a worldly organization. It is within Man himself, and its Directive influence is that very Man of Peace.

Listen to Him. He is not in His Position from mortal ego but from the genuine motive of selfless Good. His is the truthful and steadfast guidance always heeded by the person of honest principle, only ignored by the man of selfish intent.

In that soundless Pulse of Direction that emanates from the Core of the Inner Government of Peace lies our hope of a free and just society, based on the timelessly true concepts that make any race and any way of life eternal.
