THE WHITE ROSE OF FORGIVENESS

Everyone has an inner vision with which is created everything that comes into one's life. This law of creation can also CANCEL or destroy anything that is no longer needed or wanted to be part of one's life. And out of the heart truly come the issues of life.

The human mind can only hold one creation at a time - so to rid the soul of anything undesirable, you simply replace it with another thought form. The whole world is permeated with creative ether that man's thoughts impregnate, and out of this creative ether comes the REALITY. So nothing ever happens by chance - somewhere, sometime, someone has created the outward form with thought energy. Since the basic Law of the Universe is that "like attracts like" - nothing can come into your life that is not attracted by a like thought form laying in abeyance to meet its own.

Thus the thought, act or deed that set the forgiveness into motion was created in like form by the one trespassed against. That is why the Law of God says, "forgive us our trespasses, as we forgive those that trespass against us." In other words, if the trespassed were not as guilty as the trespasser, there would be no hurt to be forgiven.

Fortunately for man, there is always a way to redeem a mistake or trespass, and that is through the WHITE ROSE OF FORGIVENESS. Like everything in man's life, this rose is created by mind, enhanced by imagination for this is the basis of everything that becomes a reality or thing.

First, CREATE the White Rose, a symbol of Mother Mary's Love, by holding in your inner vision a rose with soft white petals. Inhale the beautiful fragrance and feel the silken touch of its petals. Look into the heart of the rose and see the Christ image. You are now releasing a spiritual power of love. Visualize the graceful stem and the perfect leaves. Create a pure form - for there is no higher vibration on earth than the white rose, perfect beauty in outward manifestation.

You have created this perfect form using etheric matter molded by your thought. You now enhance this image with your love for God. This image now attaches to your aura and becomes part of your being and will always be there in your Higher Mind anytime you need it to come forth.

Now take this perfect White Rose of Forgiveness and mentally send it to anyone

that has ever hurt you, maligned you, or disturbed your soul in any way. Say to yourself, "you were not a hurt, but the beginning of a new happiness. I forgive you completely, and myself for attracting you. I bless you and wish you every good thing."

It is finished. You have sent it and its negative energies into the realm of forgetfulness. It is cleansed forever out of your soul. You have become a blessing, not only to yourself but to the one who sinned against you! DO THIS THREE TIMES ON THREE CONSECUTIVE DAYS. You are invoking the power of the 3. You have also set in motion the Law of Grace and have risen above the negative energy that has been draining your life force. Praise God!

REMEMBER, NEVER SPEAK OF IT AGAIN, for you will give it power and bring it back into your life force. If it ever haunts you again, wipe it out of your mind with a positive mantra: "Neither the seeming mistakes nor failures of yesterday can limit or darken today." "There is no power nor presence in my life but God, Good." Then visualize this jewel of the White Rose in your heart and see it as the birth-place of the Christ growing in the expanding love of God for you and your fellowman.

OUR ALTER CONTINUES TO BE OPEN FOR PRAYER REQUESTS.

To assist the Work please put your request on a card or separate piece of paper. We have asked: "Pray daily with us; be receptive; expect your highest good." Several people have written asking "How could we pray with you?"

This is our answer-concerning healing:-

Become quiet and breath deeply several times. Send love to your body - each cell of your body - and tell the cells that you love them. As you quietly sit or lie there affirm that God and His Emissaries of Light work with you, and you are allowing the Healing Energies to flow through you. These energies are renewing and restoring to perfection the cells of your body. Visualize the Light swirling through you for as long a time as you desire. Seek a state of "peace". If any thought comes into your mind of anything which needs adjustment or forgiveness, think on it, and use the exercise given in the preceding message.

As long as we deny our Perfection, we are on the way to self-destruction. Know that Divine Spirit WITHIN YOU and You are created Whole and Perfect. We cannot become more perfect, only MORE aware of our True Identity. Don't resist - just accept what you already are! Accept the healing energies NOW flowing through your body and affairs, sustaining your every need. Through FORGIVENESS of Self and others; through LOVE of self and others; through UNDERSTANDING of Self and others we gain more Self-Awareness. "Ye Are Gods". GIVE THANKS TO GOD for this Awareness and accept your Divine Heritage. "In quietness and confidence shall be your strength."

Dr. J. J. Hurtak's Material: (Principles 5 and 6)

TWELVE SPIRITUAL PRINCIPLES

PRINCIPLE FIVE SAYS: AS WE ARE LOVED BY OUR DIVINE SELF SO SHALL WE LOVE OTHERS. One has to find the experience of the infinite self, the infinite mind, before one can truly understand this word 'divine'. It is something that goes beyond the human understanding of the life force or the life experience as we define it. It's the actual encounter with that spark of intelligence that tells you that there's more to come. As I have said before, it's the point where you take your consciousness off your body and realize that this consciousness cannot be defined by any embodiment. It's the point that you recognize that your consciousness has been crucified to your flesh at the point of birth, that the whole life process is an understanding that this consciousness can be removed and can be shared. If you were to die and go to the traditional heaven you would be asked, "Which one of you would come in?" Would it be the one that is in this bio-chemical shell today, or yesterday, or two weeks ago, or two months ago, or many years ago; you see your life as a process of bodies. There is no one human body. The chemical structure of the body changes every three years. You are consciousness inhabiting many bodies, and when you draw together the pluralisms of many bodies you realize that it's the higher body of light that shapes the chemical form, which is necessary for the work of this space dimension.

According to Enoch, the Higher Intelligence has a light threshold which controls every molecule of light within your body. They call this the omega-minus function. Every molecule within your body throws off a light projection. Everything down there has its counterpart out there in terms of light projection emanations. They are able through cosmological constants of all of these light emanations, by reading these light emanations, to recompose your body down here. They know what light forms are necessary to activate the molecules to put back in place, or to regenerate themselves in another time set, in the form of the flesh that you occupy. This is a formula that has been used by Uri Geller. It is a formula that has been used by some of the ancient teachers of the spiritual sciences. It's a formula which blows the mind of most people because they think the body here simply lives and discorporates, but all molecular inputs and outputs can be recycled. You do not go necessarily from dust to dust. You can go from dust to cosmic dust, to a whole new regenesis if you are working with the Living Light.

In fact, at the end of all the great spiritual teachings you have the notion that the physical form will put on the body of light. Meher Baba speaks that his outer form is merely one manifestation of the body of light. This is also taught by the Sufi masters who speak of going beyond the three veils of light, or the three dimensionality of the flesh. This is spoken of in the New Testament when Paul says: "that we shall put on the Christ body of light." The Christos is that body of redemptive light. It is that light force which is there to reorganize every molecular frequency, and when you step into this body of light, momentarily through the spiritual exercise, or through the encounter with the higher teaching Brotherhoods of Light, you recognize that it is already there and you are a product of that light force. The teachers have traditionally called this the Overself. It is a light grid that is there and taking the thought forms and embodying these thought forms into many membrane fields or color dimension that's necessary to occupy this time cell. So as we love this divine Overself or divine light pattern, which works with us, which works through us, which re-embodies us, we shall love others, for we shall see the same force at work in their lives. It is active in their lives when they open themselves up to it through the crown chakra, the kether. If they do not believe in it, then they get stuck in the rational grid, to use the language of eastern

science, on the sixth chakra level. They cannot open the dimensions to go beyond the relativity of the earth life space, and attach themselves with the collective relativity of other life dimensions because they have no understanding of a life dimension which can be actually a process of attunement, a process of instruction, a process of bio-chemical regeneration.

LET NOT THE SUN SET BEFORE YOU HAVE OBTAINED PEACE AND HARMONY WITH YOUR BROTHERS AND SISTERS. THE SIXTH PRINCIPLE TELLS US THAT WE MUST BE ABLE TO WORK WITHIN THIS SOLAR SPECTRUM. We have to find harmony within spectrum forces before we can go into the dimension of spectre and spectre of other life spectrums. We have to be ready to conquer the Lion-Sphinx by virtue of the teachings of the Lion of Judah, the higher spiritual master before we can go into the greater harmonies of the universe, and this is why we are a part of this bio-chemical testing zone. We have to have harmonies with the brothers and the sisters, which means that both the male and female sexuality have to be drawn together on all levels like a harmonic scale, all seven levels. When we have this harmony within our solar spectrum, when we have placed a level of flow upon an ocean of flux, then we can hear the harmonies of unseen worlds in universes within; then we can have the peace which passes all human understanding. We are co-participants of many worlds. We are not simply out here to live on this world and die on this dust molecule, but to attach to other grids of the Living Light. When we have the inner peace, and when we truly understand and believe to a point of not having to believe, but to know as a process of knowing that we are already there on the other side of the wave-length of light working already within our intelligences, then we realize that this is but one life cell track, or brain cell program within infinite programs of the infinite self. To be one with the Eternal Self is to recognize the Eternal self.

To be with the Brothers of Light is to recognize that potential within every brother and sister upon the earth plane. To have peace and harmony, to have the Bidmusayhu and Batselmaynoo, the image and similitude, we have to see the image of light within everyone, and also the similitude of being able to synchronize and carry on that image force of light. If not, we bow down to graven images which can be mathematical formulas and statements of philosophy. It can be Christian statements of Theology. We have to go beyond worshipping the Jesus force on one side of the earth, or the Marx force on the other, and put the parts of the Jewish Yod-He-Yod-He together. We have to be able to see that there are greater dimensions which have emanated great teachings through spiritual and historical prophets, but it is not sufficient for man to find that earth is his only resting zone, his only consciousness time zone. When he is able to see how the image of the Brothers of Light looks like our image, your image; when you are able to see the faces of Enoch and Michael, Shri Siddha and Babaji, like yours, then you will see how the image out there is the original chemical scenario that produced the life force down here. Also, how the synchronisity of the light force down here is connected with the similitude out there, and how the Brotherhood of Light governs the fate of the spiritual seed which it has started.

It allows some of it to destroy itself, for in going through the various forms of evolution, it is necessary, sometimes karmic specie, to learn the hard way. So the Brothers allow various forms of the specie to destroy itself through its own genetic karma, or technological karma, so it will ask for help, so it will be thrown upon its back and realize it can't engineer the fate of its own life system by itself. It must call in the help and responsibility of its own embodiment of light. We are seeing then the inner peace and harmony work within new communities and communes of the life spirit as it's moving through this planet. We are seeing that the forces of destructiveness are being turned on but also the forces of light and love,

Two years ago there was not this degree of destructiveness, not this degree of spiritual love of the very spiritual communities being drawn together out of the greater responsibility of continuing the image and similitude, not only on the earth threshold but connecting the earth threshold with the others. For we have been told that there will be this space time overlap with the greater intelligence, and the higher evolution will literally land on this planet (if necessary) to prevent the specie from destroying the image and similitude.

MIND IN PLANTS

Plants are life forms created and evolving in the same manner as animals, humans, and other living organisms. It has been revealed that all living and non-living objects of experience are mental images. Humans in their highest form have animated these images as the stage and scenery for the drama of life. The drama is observed and experienced only by its human creators. There is no purpose for the phenomenal universe of experience except to serve as a playground for the human race. Plants form an essential part of the scenery and function of the life drama. Plants, like animals, humans and lesser forms of life, are animated pre-programmed robot mechanisms with no life in or of themselves but are automated images which perceive and respond to various stimuli in accordance with universal laws and the programming of their individual computer brains. The programming of the plant computers is expressed in a form of intelligence.

Since mind is the essence of all of existence it is not at all difficult to understand that mind and intelligence permeates every atom and cell of the plant kingdom. The inherent intelligence is clearly observed as a seed germinates and begins to grow in accordance with universal laws. Each atom, molecule and cell of the plant exhibits a high degree of intelligence in its very active life. Then the plant itself, in much the same way as an animal or human organism, displays its intelligence in its growth, self-preservation and reproduction processes. Plants eternally radiate a peaceful aura and any form of violence, discord or disharmony upsets their serenity, and severely disturbs them emotionally as conditioned responses. Every plant thinks and feels, and will respond to humans in a manner consistent with the individual human character. Thus a person in close rapport with the harmonious tendencies of plants will have great success in growing plants and may be said to have a 'green thumb', whereas another person who is not in rhythm with the plants' vibration will fail miserably in his attempt to grow things.

Plants respond to mental messages from humans and show a very strong response to prayer. They also strongly respond positively or negatively to music and light to a degree determined by the frequency of vibration. Wild animals and plants are generally in tune with each other which explains the rapid communication of information in Nature over vast distances. In the jungles imminent danger to an animal by a hunter or other predator will be sensed by that animal as the proximal plants emote the intentions (thoughts) of the stalker, and the message is relayed by other plants and is picked up by the endangered animal. This sense of danger may be felt and reacted to by other animals long distances away as the message is instantaneously transmitted for miles through the foliage.

It has been explained that the astral world is the only phenomenal universe and that plants and all animals are only animated astral images with no physical or

material substance to them in any way - even though humans may experience their 'substance' through the limitations of their defective brains and perceptive senses. Therefore, plants like all other non-human life forms, exist and perform their functions in the timeless astral world possessing astral senses and exhibiting other astral characteristics which cannot be detected by the 'physical' senses of humans. Humans can only observe the tiny fragment of the radiant qualities of plants which appear to the human 'physical' senses.

Every plant has a brain or computer center at the juncture where its trunk or stalk meets the root network, just as animals have brains in their heads - the brain of each being an organized aggregate of cells which receives messages from the sensory or nerve network, which detects external and internal stimuli, and transmits and imprints the data and corresponding responses as a series of mental images on the universal mind pattern images which are then translated into animation of the plant or animal. Plants have subtle nervous systems similar to those in animals. All plant response to stimuli is the result of the programming of its computer. Thus plants instintively turn their leaves toward the sun or moon to more fully absorb the radiations from these bodies, and bend in response to wind vibrations. Plant roots are also instinctively extended toward water or other essential substance. Plant breathing is a programmed response to stimuli just as in animals.

Plant reproduction (production of flowers and seeds) is the result of its programmed computer, the process being triggered by the stimulus of environmental conditions such as approaching cold weather, drought, excessive moisture, approaching pestilence, etc. When humans learn the true nature of plants they will find that all artificial (non-natural) substances vibrate in dissonance with plant life and the reason that use of various substances (concentrated fertilizers, etc.) appear to induce greater growth and yield is because of the programmed response of the plants to rapidly reproduce in the face of danger of extinction by the concentration of foreign dissonant substances. This greater yield will be inferior in every way to the natural productivity of the plant except for sheer volume. Artificial dissonant substances which are induced (such as cancerous growths in animals and humans) is the equivalent to artificially induced plant yield. Ultimately, the artificially induced excessive yields in plants will result in the progressive degeneration of the species and its ultimate destruction and failure to reproduce.

Maximum yield from plants, far in excess of the forced artificially induced yields, may be harmoniously induced by providing the most compatible environment free of all discordant man-made contaminants, and providing the most harmonious vibrations to the plants through sound, light, thought and prayer, thus creating perfectly healthy plants which radiate strong vibrations to repel most scavenger insects and producing incredibly abundant crops. Scavenger insects are attracted only to sick plant cells, as other scavenger creatures are attracted to sick animal cells.

Harmonious vibrations from fields of healthy plants attract harmonious vibrations of the environment in the form of adequate moisture, sunlight, etc.; and if humans were wise and knowledgeable of universal laws they would and could aid in this by creating more favorable environmental conditions through thought and prayer. Mind in plants and mind in the atmosphere are subject to the superior mental forces of the creative faculties of humans.

THE RETURN OF THE CHRIST

The return into physical plane manifestation of One who has always been with us in Spirit is the "great hope" of a large part of humanity. It is usually toward the close of an Age of 2,100 years that the Supreme Being sends into incarnation an exponent of the Second Attribute of Its Divinity - The Christ. Down through the ages there have been many such appearances. Among other things, it is the Mission of that Great One to announce and exemplify in His own life the Spiritual Concept intended to condition the conduct of humanity in the Age that is to follow. His coming also tends to undo as much evil, and establish as much divine order in the affairs of mankind as may be possible. What makes the present especially unique is the coming of the present age - the Piscean Age - which coincides with the approaching end of several major cycles/ages. The result is the unusual bleakness of the world scene, the deterioration of most human institutions, the low morality to be found in many places, and the endless series of national and international crises. Today, as usually happens toward the close of an Age, the Ancient Scriptures, and much of the more recent religious teachings as well, appear to have lost much of their power to inspire spiritual zeal and devotion for many people. Obviously, there is great need for new dynamic revelation of divinity to inspire mankind to move onward and upward.

It isn't only a few hundred million christians who expect the promised return of the Christ, but billions the world over. All major world religions predict the coming of the Great One. It matters not whether they call Him Avatar, Messiah, Savior, World Teacher, or Christ. Day and night a desperately unhappy humanity consciously, or unconsciously, sends up the cry, the demand, for a Savior, for divine intervention in the affairs of mankind. Humanity's extremity shall be met with a correspondingly Great Manifestation of the Christ Plan on earth to the Great One who is to come. It has been said that about five years before His re-appearance the 144,000 (mentioned in Revelations and elsewhere) shall have moved into positions of prominence and power. It is the destiny of the "Chosen Ones" to act as His agents, or forerunners, and prepare the world for His coming. When definite improvements are obvious in many places, when enlightenment in women are taken over in all fields of human endeavor everywhere, one may be sure that His return is not far off. Mankind shall then be standing on the threshold of a permanent Golden Age. The Great Lord cannot - dare not - come prematurely for were He to come to an unready humanity the sudden and terrific rise of vibrations would prove disastrous. He comes not alone, but several of the great Masters and many initiates of various degrees come with Him. He and His entire Mission shall be overshadowed by Great Cosmic Beings of inconceivable majesty and power. Whereas, almost 2,000 years ago Christ came as a gentle mystic to reveal to us that God is Love. This time He returns as the Lord of Power to demonstrate to all that God is Fire, that Spirit is of an awesome splendor and of absolute power - power that exceeds anything that is possible to know on the physical plane. Nothing less would convey the needed inspiration and impact upon a humanity that has for years known of atomic energy and has lived in dread of nuclear holocaust. He shall announce and demonsteate (not only to a few in one small nation as 2,000 years ago) but to an entire planet, for every eye shall see Him!

There should be no conflict between what is being said here and the sincere belief of many that the second coming of Christ is actually the birth of the Christ Consciousness in the hearts and minds of those who welcome Him - for it is so. However, among the several reasons which necessitate a physical plane appearance is the fact that many of the little ones might not otherwise be able to discover their own Christhood, at least during the present wmbodiment. As for those who are more or less already aware that the Christ principle must live within them, His actual

Presence on this plane will make it possible to take many advanced initiations. The earth shall become a sacred planet, and everyone who continues to incarnate here shall be an initiate of some degree. May all Light Workers continue increasingly to emanate Light, and thus hasten the hour of His return.

A Fellow Seeker of Light
City of the Sun

DESIDERATA II

In whatever religion you have been taught, however you have been brought up, and however you have understood your teachers - on these levels you will understand and grasp this message. It is not enough that this message be believed. It is a message to be lived. The essence of Universal Religion is Peace and Truth, with Love for and Kindness to all the creatures of the earth. Now is the time to express this essence in your own life. A beginning must be made, and the place to begin is with and in yourself. You would reform the world? Begin with yourself, Brother!

The message of the unreformed reformer seldom inspires reformation. The heart of all Religion is love. And righteousness, which is love in action, is the fulfillment of Religion. Love not only family and friends(!) for love limited is love denied. Seek peace within yourself and seek, too, within yourself the Divine Breath of Life. Persist in these things! Do not let up for a single moment! Through your faith and through your deeds you shape your life and help shape the lives of others, as well. What a responsibility! The Spirit finds in you its agent and also its partner, and to the degree that you are aware of this and act on it, your life is enriched. A revelation will occur to you - a revelation higher than your most exalted dreams.

The New Age is coming, and in it there will be a realization of the Oneness of all. Differences between the various Religions will disappear. The good, which is in each of them, will be fused and will become the common goal of all mankind. Know that you have the power to choose! Choose love, not hate; choose gentleness, not violence; choose holiness, not evil! Dare to believe that the Reign of Love and Peace is coming soon! Ready yourself for it! Ready yourself for it with deeds of righteousness! Righteousness is the door-opener, and beyond the door is love.

May power divine enter every aspect of your life endowing it with the rewards of material accomplishments, the treasures of purposeful existence, and the eternal life of spiritual achievement!

FACE THE YEAR WITH COURAGE

1. Face the year with courage
   Know God is on His throne.
   Ultimately Light will win;
   Dark forces be dethroned.

2. It is a year for arduous work
   Mastering more and more;
   A time to set things right
   Unloading karma's store.

3. It is a time of grace
   Accepting Spirit's blessed gift.
   And as we evolve and grow
   Our lives receive a lift.

4. So face the year with courage.
   It's one more vital chance
   To bring you into perfection,
   Your Soul to spiritually advance.

VISUALIZATION

What is visualization? Why do it? What does it really do for you?

How I feel about visualization ties in with how I feel about prayer. It's like the farmer who prays, "Oh, Lord, let my crops be good this year." Then he gets up early every morning and works in his fields, doing all HE can do to make the crops good. He doesn't just pray for good crops and then wait for them to manifest without any effort on his part. As the old saying goes, "Do your best and God will do the rest." The farmer has to do all he is capable of doing to bring about what he desires.

Part of what he can do is visualization. He can visualize good crops. This helps focus his energies. It makes clear what he wants to accomplish. It makes clear what he needs to do to bring that about. It also directs that constructive God-force within him, so that he is also mentally creating the positive results he wants to accomplish. It helps him expect those positive results. It helps him have faith.

In "The Game of Life and How to Play It" it says everyone has faith. You either have faith that something good is going to happen, or faith that something bad is going to happen. When you worry or have fears about something, you are simply having faith that something bad will happen.

Whatever you think about a lot, you draw to you. Your thoughts have a certain vibratory pattern. You send out those vibrations. Like a magnet, this draws to you things of a similar vibratory nature. So don't worry! It just makes it more probable that what you worry about will happen. You create it with your own thought energies. It does no good to apply your physical energies toward reaching a desired goal, if you are mentally creating failure, through worry or fears. One cancels out the other.

You must expect positive results. It's a matter of the self-fulfilling prophesy. We get - not what we ask for, or even what we plan for, or what we hope for - we get what we EXPECT to get. No matter what we want to achieve, if we expect problems with our job, or with our finances, or with our mate, that's what we will get. In one article on visualizing, we are told to BELIEVE WHAT WE DESIRE HAS ALREADY HAPPENED - act and react as if it had already happened. Hold on to that belief, that positive image, regardless of how many negative cues we get to the contrary. Keep that positive image firmly in mind, so that it can manifest into reality. Cancel negative images as soon as they occur, by replacing them with a positive image.

On our next plane of existence, our images will manifest immediately into reality. On the physical plane where we now exist, it takes longer; so we have to hold to the image longer. But all thoughts are set in motion to become reality. That's why it is important to keep those thoughts positive.

So how do we visualize?

1. Determine a definite plan or desire. Test it. Is it honorable, constructive, and worthy of your time? Test your motive. Is it honest? Is it true to the deepest part of yourself? Or is it a whim? Or something only to gratify the physical senses?

2. State the plan or desire clearly and concisely in words. Write it down, thus recording your desire in the outer, tangible world.

3. Close your eyes. See and feel a mental picture of your desire or plan in its perfect, finished condition. See the end result you wish to achieve. Feel like it has already happened. Imagine how it will feel when your goal is achieved. Feel that emotion now.

Contemplate that fact that your ability to create and see a picture within your own consciousness is God's attribute of sight acting in you. Seeing and creating are attributes of your Godself. God's energy and power are active within your consciousness to propel into the outer world, the picture in your mind.

Thank God for working through you to manifest His perfect plan for your life.

4. Read your plan or desire over several times a day and always just before retiring. Continue to visualize it until it becomes real to you - until you feel the vision is perfect and complete, and until you feel confident that it is manifesting NOW. Try not to think about it any more. When it does occur to you, feel confident that it is manifesting into reality - perfect and complete.

5. Never discuss your plan or desire with anyone. You must take a determined stand, knowing that God alone is manifesting and controlling everything. You must leave it in God's hands alone, without neutralizing it with negative thought, or by the human qualities of time, space, place or other material considerations which God does not recognize.

When you tell most people about something you want to accomplish, what's the first thing they do? They tell you how hard it's going to be. They tell you that you might not like it after you get it. They might want you not to be disappointed, so they tell you not to get your hopes up too high. They surround your goal with negative energy. They cause you to doubt, thus neutralizing your positive image. Don't give them a chance to do this. Don't tell them.

Don't worry about any problems or barriers which might prevent you from your goal. When you acknowledge God, you have only perfection manifesting. There is none to oppose what God decrees.

You cannot achieve what you desire in life until you stop acknowledging a power opposed to God - something outside of God which can prevent His Will from manifesting. The One God exists and controls everything in the universe. Since you are part of God, you alone are the chooser, the decreer of what you pour into your life. When you think or feel, part of your Life Energy goes forth to sustain what you have created with your thoughts and feelings. Acknowledge yourself and the world as the Life of God, part of the One.

Always remember you are God picturing. You are God-intelligence directing. You are God-power creating. As your goal or picture is constructive, you are God seeing His Own Plan. When God sees, it is an irrevocable decree or command to appear now. God said, "Let there be Light", and there was Light immediately. That same God is in you now, and when you see or speak, it is His attribute of sight and speech acting through you. It is only the Godself in you that can visualize and command; therefore, you know that God is acting through you. Every constructive plan is His Plan. Therefore, you know God is acting and commanding, "Let this desire or plan be fulfilled now." And it is done.

Jesus said, "Verily, verily, I say unto you, the works I do shall ye do also, and greater works than these shall ye do."

AT THE CITY OF THE SUN:

Edward Renfro of Broken Arrow, Oklahoma came by, particularly visiting with Cliff Moore and Dorothy Rayburn Zawick.

Halloween furnished an occasion for a community gathering when a charming marionette named Billy Bones came out of retirement under the tutelage of William Switzler.

On Nov. 5th Constance Arnot gave a "taste" dinner to the community, and several persons from Deming, of tasty soya meatless dinners distributed by Royal American Food Co.. She will be handling this for those interested.

The house here at the City of the Sun which was Tony and Dorothy Zawicks' has been purchased by Ralph and Bertha Snyder of Alamo, Texas. He was formerly a Health Club Director. These new members are interested in crystals and pyramid power. They feel excited (as we do) for them to be a part of this project.

Dorothy Rayburn and Tony Zawick's new address is Apt. 207N, 1201 Madeira Dr., Albuquerque, New Mexico 87108.

On Thanksgiving Day most of our community members joined with the Village of Columbus in a magnificent Thanksgiving feast.

Michael George Nordel, (Cliff Moore's friend) from Hawaii was here for a short visit.

It was nice to have Rev. Katherine and Ellsworth Froggatt in our camping area for several days. They are an important part of The Christ Institute of Science And Religion Inc. at Newhall, California.

Quite a number of residents of City of the Sun attended the worthwhile lecture in Columbus of Ray Schuckman of Eco-Sane Development. He spoke on "How To Sanely Use Our Resources In The Development Of The Land". Later he and his wife, Carol came to the City of the Sun. He has walked over the acreage and studied the land. He actually is a skilled ecology technician who helps the elements of the earth to respond to their highest potential. At this writing he has given us suggestions , which the membership has approved, for "new life" to the lagoon here. This will be done through vegetation, fish and game. We are privileged and delighted with his leadership and work in this important field of endeavor. Carol and Ray are guests of Ralph and Bertha Snyder at this time.

Some interested, and interesting people, Bonnie and Roy Johnson from Redding, California are parking their motor home at Helen and Mke Webbers'. Roy has been assisting in some of the repair work here at the City of the Sun. Bonnie and Ray studied with Annalee Skarin for several years. Those who are interested here are studying together Annalee's book, "Beyond Mortal Boundaries".

We are happy to have Sarah Leonard back with us on a full time basis, and wish for her a speedy recovery from her recent illness.

As this is being written there are joyous preparations going ahead for a lovely "City of the Sun Family Christmas". The assembly room of the community building has been beautifully decorated. There will be two special events - a Christmas Eve fellowship and a Christmas Day sharing dinner.

THE GOAL

The final and only true objective, is not making a living, earning money, gaining power, acquiring knowledge, skills and talents, enjoying the temporal pleasures and leisures of life, attaining occult powers - as psychic and the vast panoramic display of show and might over others in temporal glory. No! Not these! - but the first step must be to see the futility of all these, and to realize our sleep and strive to awaken, to begin the true climb in the world of reality.

The only way to be safe from the allurements of our material involvement, as well as the so called "spiritual", is to be unattached. By this alone can we be impersonally involved with any form or condition of matter and spirit (which are opposites of the self same essence of the Father) - yet to be free to work with and control all things is the only joy of the real self.
