BUILD NOT A WALL

Truth cannot be confined. It must expand in consciousness; it must always and ever find a wider periphery in that consciousness. The truth which today man, as yet of limited spiritual understanding, can even comprehend is assuredly not ALL truth.

Pitiful indeed is the state of that man who builds a high, well-nigh unsurmountable wall about the bit of Truth he is able to grasp in the infancy of his soul development. By so doing, he so stultifies his life, he remains: ever within that self-same enclosure; in that self-retained soul-infancy.

Tear down your walls, ye people of God! Grow - widen - cease to restrict either yourselves or others! Think ye that to ye alone hath Truth revealed itself? Open wide the doors and the windows in thine understanding. Let in the wide sweep of the winds of purification; let all that clutters, that deters, be swept away.

Who dost thou think thou art, that thou shouldst believe thyself to have been selected above thy brethren for God's self-revelation? To each one is revealed as much of God's Truth as, at the moment, that one can not only comprehend but also assimilate, can build into his very being. Of what possible value to a man is mere erudition, if it be not used to enrich his life, to ennoble not only himself, but all, all whom he in any way contacts by transmuting it into soul-erudition.

I am not advising that one seek Truth in a variety of cults, each endeavoring to out-lure the other. Use cults, denominations, not as enclosures wherein you can abide, content to permit this or that self-appointed leader to do thy thinking for thee - use cults and denominations as pausing places on thy ever ascending climb toward the pinnacle of all Truth. Follow that man (if at your present stage of development you must be led) follow that man who calls thee, not to an enclosure, but who leads thee to a hill-top, if, at present, that is as far as thou canst climb. But even there he will not build for thyself a temple, an enclosure of any kind and therein abide. After thy rest for meditation and for assimilation of that Truth which thou hast to that point acquired, he, thy inspired, God-led teacher will lead thee to the mountain top and there he will leave thee - for by then thou wilt no longer need to be taught by man. Thou wilt have attained within thyself all the understanding of Truth that thou canst assimilate upon the earth plane.

Beyond the earth plane, further revelations of Truth will await thee, for, verily I say unto thee, even those freed souls who have ascended to far higher planes

than the ones of which you are cognizant, are still receiving and still giving out that which has been received. Not until the final absorption of each individualized soul into the God-Head, into the God-Heart, can the need for further revelations cease.

Great is the travail, long is the climb, but far greater is the joy that is accorded to him who dares to tear down walls that others have built for him, but within which he is not content to remain. Be ye adventureres of the Spirit. LET NO MAN BUILD WALLS TO CONFINE THEE. Follow the Christ that is in that inspired teacher who would lead thee to the mountain tops - no matter how precipitous the climb.

Ever, ever, ever reach forward, upward for new horizons, new zeniths, accepting, assimilating only that which illumines, inspires, God-unfolds. Thy mind may reject some daring departure from that which for long it hath accepted; but if thy SOUL doth not reject it, but rather embraces it, and joyfully as that which is liberating, then know ye that thou hast grown in spirit to greater heights, nor thereafter will any new revelations of Truth perturb thee. Rather, thou wilt welcome further releases from spiritual bondage UNTIL THOU ART FREE - free in God - in Truth. That is all for today. Selah.

LET'S ENLARGE OUR VISION

Here's to a new dimension
The year labeled "eighty-five"!
Let's push out the walls we've made
Fully unafraid, totally alive.

There are new ideas to conquer;
Attachments tugging from the past.
Let's climb onward and upward,
Reaching untouched treasure so vast!

Climb the inner hills with confidence,
The land where Truth is king;
The far horizons of consciousness
About which the bards did sing.

Let's extend our tedious conclusions,
And promote unlimited views
Of wonders, people and universes,
Of subjects and taboos not a few.

For gems are hidden in the Light;
A "God consciousness" to seek
We are part of the Christ Force
Needlessly overwhelmed and weak.

So look beyond all time and space
Where Great Ones have trod before.
Life can be of a higher essence.
Come, let's step through the open door!

ANOTHER DAY

God said, "Here's another day, dear One,
Uncluttered,unblemished and pure.
Let's see what you can do with it -
Can happiness, peace and love endure?"

The day started off so very well.
I thanked the glistening sun,
And watched the many bird friends
Splatter water and have such fun.

I vowed I'd handle those I met
With equal poise and tact -
Every "Tom, Dick and Harry" of them -
I'd stay right on "positive track"!

All went well through the morn
Until some stray remark was made,
And then my "cool" began to disperse,
Negativity began to invade.

My High Self forgot to be "high";
My "low Self" came to the fore.
Dear God, I must not continue thus.
Such energies from me do pour!

I must mend my "broken fences"
Clear away resentment and fear.
Thank you God for giving me assurance
Tomorrow's New Day will again be clear!

A THOUGHT TO DWELL ON

Through the internal forces of Mankind a world evolves into its primordial essence of so-called perfection. From a tiny thread of Light, which formed a matrix for all things, there was a new beginning. That beginning was the seed for all things to come - a seed that begot other seeds which blended forth into all creation, a creation which also had to evolve into higher forms of greater things to come; a Force which wove its way in and out of darkness and light until it would emerge as a perfect force of action, able to disarm all darkness or thoughts of such.

Thus it was that all that IS had its lowly beginning and started up the ladder to a Star-laden Sky. A Sky of Evolution where all things were given room to grow and spread their roots heavenward into other spectres of Light which would take on new forms and move with outward momentum across a web of Light to other worlds and other skies far beyond that which Man now understands.

We who are now in this world are afraid to lift off the lid and let the ALL of creation in. Why? Are we so egotistical that we feel WE are the only living creatures in the whole of this creation? Ah, if Man only knew the forces that are out there waiting for him to find and understand. But Man cannot find these forces if he does not believe. What, then, will MAKE him believe? What must it take for him to suddenly realize that, as yet, he knows very little - so little that perhaps his mind is not yet ready to take in the scope of universality in all directions and of all things.

Who and what are we? Does anyone know? Are we fragments of a lost age? Or the beginning of a new age to come? What is our purpose? Do we have one? Is it, as some think, just to partake of what life offers, become educated, fall in love, have a family, become rich and then drop out of existence? What good would we be doing? If each of us were tied in to our own existence, what would we truly accomplish? Nothing, as far as the world is concerned. Our mission is to become a part of a GREAT PLAN for ALL - the evolvement of planets and people everywhere.

Ah, if Man would only realize that he is a very tiny seed attached to a tremendous root which spreads through all eternity. As this seed grows becomes, so that root grows ever more so, and thus ALL become strengthened. We are part of a plan so tremendous that Man's mind is incapable of accepting it at this time. Then what will it take for Man to finally understand? Or, will he ever be able to understand the feasibility of such a project?

One never knows. The world is soon to reach its prime, as it has many times before. Then it will start its downhill trek to the bottom of the hill again. Thus, there will be a new beginning. Man will have another chance to regain his wisdom. Will he succeed? How many times will he have the chance to make good his life of egotistic trivialities? Does anyone know? Perhaps not - not even the Almighty Power That created him!

What a disappointment we must be as children of that Great Father-Mother God Who created us! Will that Great Power ever be able to touch our shoulders and look into our souls and say, "My children, I am proud of you! You are now what I had planned you would become from the beginning of Time!"

Ah! Think, my friend! Will it ever be thus? The answer lies within each of us. We cannot run away from it. THE TIME IS NOW!

The foregoing message "A Thought To Dwell On", and the following "rose page message" are taken from the new book "Man's Destiny - Creativity or Oblivion" by Bonnie Ireland, Ms.D. , The Institute of L.L.U., P.O. Box 472206, Garland, TX 75047. They are printed with her permission.

(Rose-Page Message -)

From the Divine Path there arises a strength in Man which is of the unknown. It is that iridescent beauty which is seldom seen in the ordinary individual. It is like the Fountain of Life that ever bubbles upward and out into the etheric substance from whence it came. There is naught but Truth in it, also Love, Wisdom and Understanding. For all these are of the true Essense of the God Mind.

When a man has found his supernal strength and wisdom, there is no age; nor does he strive to gain that which is needed in this life. For all things BECOME! He is that part of ALL. There is no differentiation of that which IS. It is like an outer garment cut to fit by an inner quality that pervades throughout the whole essence of being. It is a Oneness of Understanding that becomes part of ALL.

It is for everyone to search and find this Oneness. For in it there is no beginning and no end. It just IS! ALL things BECOME. Wise is the man who treads this path and renounces all in finding its true nature. For when we renounce ALL then we become that ALL. There is nothing else. For ALL, IS ... For so it is. Think on this and BECOME! ...

HEAL YOUR MEMORY

Richard Wurmbrand

A new year has begun. Why bring into it the stresses and anxieties and memories of what was ugly in the past? Just as bodies and souls can be healed, so can memories. It is futile to try to forget or repress the remembrance of what was wrong or painful in the past. One should do just the opposite. I will tell you how.

My recommendation is that you seat yourself comfortably and then call up before your eyes the circumstances of the past that burden you most, especially encounters with those against whom you have sinned or who have sinned against you. Evoke also the Presence of Jesus. We all can evoke a beloved person and see him with our heart's eyes. Relive the tragic or sordid events of the past, all the while looking at the face of Jesus to see how He feels about them.

You will discover that He is not censorious or bitter about anything we have done, no matter how reprehensible. He Himself stood in line with sinners to be baptized by John. Having been tempted in all things like us, He does not look down upon us.

Imagine how the BEST of men would judge you for what you have done; then remember that He is BETTER than the best. In Hebrew the word "mercy" does not exist, but only the plural "rahamin - mercies." No one can exhaust His mercy.

With Jesus by your side, walk again the way of your past sins, knowing that nothing is too degrading for Him. Tell Him you love Him and claim His forgiveness. Then accept the fact that not only does He understand and forgive but He also forgets. Your memory will be healed.. This has worked for me; it will work for you too.

Dr. J. J. Hurtak's Material: TWELVE SPIRITUAL PRINCIPLES — Conclusion: (Principle 12)

SO WE SAY IN PRINCIPLE 12, OBSERVANCE WITHOUT FAITH, AND FAITH WITHOUT GOOD PRACTICE, ARE LIKE THE BODY WITHOUT THE SPIRIT. You have to observe all of these things taking place, happening. You have to reorganize the higher science behind the ancient prophetic texts. It means that the ancient metaphysical truths, the spiritual truths will be enacted in every generation. The human counterparts will change their name, but the same relationship between the gathering of the dimensions of light, the people of light, or the spiritual Israel, the modern pharoahs, those working as the modern Herods, or as the Caesars, is essentially there within the serendipity distribution of the Light Force. You have to observe and understand how you can work with the creative Love and Light as this station will always be a station which will be continually testing the Light Force; that which will go on to graduation, that which will come back to space time embodiment of the same karma, the karma of isolation, the karma of the lower cosmology.

When you have the Faith then you can have the good practice of knowing how to use the Faith, to keep the Faith by knowing how to use it in good practice. Every day is a sabbath, every day is working with the seventh ray of light. When you work with the seventh ray of light, you open your mind to a language of light pictures, and the brotherhood through telethought can project light pictures into your body. They can give you the patience and perseverence so that the practice will fall in place. It has to be a practice both of the physical body and of the intellectual body and of the spiritual body; otherwise one part of you will pull one way and be nullified by its consciousness time structure, and another will pull the other way and be tied down by professionalism of this type, or work of that type. The body thus needs the spirit who must make a distinction between body and soul, body, soma, and psyche, as the Greeks would say; or nefesh, as the Hebrews would say. We have to go beyond the duality of body and soul, because everyone has a consciousness dimension of light within, which is there as the activating light force of all of the pictures and the visual scenarios that you work through. But the spirit, now going to the ancient text of Kabbalah, is the Shekinah, is the Pneuma (Great 'Spirit') Noima, is the spirit of God or the teachers of Light which is actually projected into you. It's their Pentecost when the teachers have the fire over their head, that's a chemical fire which can be seen. When I first saw Andrija Puhakich I saw a pyramid of fire over his head. I recognized that he was a Brother of Light, that he had truly spoken with the greater intelligence. When you open up your third eye to the teachings of your spiritual guide, through the meditations of love, you begin to see the aura, not simply as the aura, but as geometries, and those geometries spell out thought forms and communication and words and musical forms.

You begin to see that the body and soul does have a spiritual light force, it's a light polarization. It's a connecting line between you and all others in the spiritual family, not only between the higher evolutions, but between the Brothers of Light. When you recognize this, you recognize that Jesus, even in giving the spirit, if we take a good look at Matthew's gospel, belongs to a Brotherhood of Light. In the gospel of Matthew, he's on the Mount of Transfiguration with Moses on one side and Elijah on the other side, He doesn't operate in isolation; he's always associated with the Brothers of Light who also appear in light bodies. According to Enoch this was done to demonstrate how Moses had brought into this dimension the star blueprints of Merkabah, or the light energy vehicle, connecting this universe with the others; how Elijah could show how the physical body could enter the light vehicle and go from this time dimension to others; and how Jesus was to witness all of the biochemical synthesis that were necessary before man could put on the next dimension of

light, and go from this time space to other life spaces of the greater self. Only when you put all three together do you work with the Holy Trinity of matter, the tripartite relationship of the Living Light that Buddha speaks of, that Isaiah speaks of, that Jesus speaks of. If you take them apart, then you must worship like the Jews, the Moses, or like the Christians worship the Jesus; or like those who believe in UFO's, qua UFO's, only in the Elijah, without the ability of putting all three together to recognize that those vehicles of light aren't out there without the teachings of Cosmic Law and Love. They're not out there without giving rise to the prophetic dimension of love and understanding that we are forever remaking ourselves and going through God's playground of one life experience after another. But the three must be together before you can enter into your body of transformation, before the body of Light can come back and take man collectively off the planet as the Christ race, as the Christ seed. Before you can understand the mathematics of the Merkabah, which is given there, in Ezekiel, and Isaiah, before you can understand the higher astronomy and mathematics of the Hebrew Torah Or, the Book of Light, to be an actual mathematical code which works when you believe in it, when you know it, when it becomes part of the inner light structure of your body. The Hassidic Kabbalist and the Mormons, all of these other groups, are closer to the reality of welcoming the Brotherhood than many of the Theosophists, and great intellectuals who think that this is just a visual scenario of the inner self. It is that, but it is also a real relationship of the outer self, of the outer worlds, which do materialize and come in to our space cube, if necessary, from one dimension world creation to another. Thus, we must accept the Holy Trinity - the physical body, the intellectual body and the spiritual body.

OUR PEACE SYMBOL

Some weeks back a member was told we would receive a Symbol of Peace before long. Shortly the Schuckmanns returned from an extended trip with a pair of white doves, which they gave to Constance. She noticed one of them was always on the nest, but couldn't tell if there were eggs in the nest or not. But knowing birds hatch their young in the spring, not in December, she wondered about it.

Then one day she saw about half of a tiny egg shell on the floor of the cage, but still unable to see what was going on in the nest. She was very excited! (As much as she loves ALL animals, we sometimes wonder if she wasn't, at least, St. Francis of Assisi's sister.)

Finally a day or two later, she caught Mama and Papa Dove changing shifts and lo-and-behold, there were two tiny featherless baby bodies in the nest! Then several more of us became excited. They now have started getting their feathers, and have grown to the size just Mama or Papa alone can't cover both of them at once - it takes both of them.

It took a few days for it to dawn upon us that that miracle of birth, doves born in December, was our Peace Symbol sent from the Higher Ones. Someone suggested we name them Christmas and Shalom, but we decided to name them PEACE and LOVE.

"The Lord will give strength unto his people; the Lord will bless his people with peace." Psalms 29:11

- - - - - - - - - - - - - - - - - -

We begin another of the "unpublished" letters of Annalee Skarin:

YOU SHALL COMPREHEND EVEN GOD

The only joy, the only complete happiness, the only power and glory that can be poured out like jewels of glorious perfection upon the heads of mankind is the understanding of their own importance, and their connection with their source, as the vine with the branch. Then as the plant continues to grow, the branch also becomes the vine, and branches grow out from it.

It is all in our hands. We have to buy the gold tried in the fire - not with money, but with our eyes open to know that it is there for us. But we have to do the buying. We have to live the life, and perfect ourselves, and abide the higher laws even as Jesus Christ did. We have to stop worshipping Him from a distance,and saying we believe in Him, yet do not follow Him. We are literally and actually a race of Gods wallowing in deep mud, while the Light is all around us. But we fail to see it. The Light has always been there. It is more real by far than the mud, yet we have clung to the mud. We have mixed it ourselves as we have determinedly kept our minds on the mortal concept of existence.

This glorious, living, vibrating Spirit of God fills all space, surrounds all substance, sustains all matter, penetrates all material. It is only as we become aware of it, or in tune with it, that we can consciously contact it at all times. As you begin to understand this great force, or power of tender, compassionate, loving warmth of living, flowing life that enfolds you, you will soon become aware that it is also within you. Thus it is true, "That in Him we live and move and have our being." otherwise we could not abound, or exist. This enfolding Spirit of God knows all things, comprehends all things, and as we learn to draw it more and more into our beings with awareness, or consciousness of it, we are always in direct contact with God. We walk with Him. We abide in Him, and He abides in us.

These are deep things I am trying to share with you. They are way beyond the ordinary thoughts of man to question or ponder. Go directly to God for your information. That is done by learning to contact this Holy Spirit of God, and LEARNING to listen to the knowledge of truth as it is brought forth to you. This is the Atonement, or At-one-ment that Christ died to give us - that we could be one with the Light, and thus ONE WITH CHRIST THE FATHER.

Do not think for one moment that the Heavenly Father has forgotten you, or has turned from you. If you do, then you . shut yourself out from His Presence. His Spirit enfolds you. It is the essence out of which all things are composed. It is the very vibration of Light and Life and Love that brought all things into existence, and if it were not always surrounding us, and in and through us, we could not possibly exist. Learn to know of its presence and its power and become <u>one with it</u> - then it will be subject to you and you can use it to create with, to heal the flesh of others, to bring to pass the greater works as promised by the Lord.

The veil that we must rend is this very veil that seals our minds on this physical or mortal plane. It is the veil that lifts us into the Superconscious mind, or into the great Mind of the Spirit of Almighty God, that loving, flowing, enfolding, protective, directing force of our Father, in which we live and move and have our being. No one can rend that veil for us. We have to do it. If we are children of God then we must do the things that He has done, even as Christ did. It is all ours to accomplish. He is the One who gives the blessings, but we are the ones who have to PREPARE ourselves to receive them. Note Col. 3:4 from the Emphatic Diaglott translation: "When the Anointed may appear, the life of us, then also you with Him shall appear in glory."

Acts 14:22 "....Through many afflictions are we to enter the kingdom of God." That is true ... but we can enter the Kingdom of God through these many afflictions and get nowhere at all, for life is afflictions when lived on this mortal plane. Surely every little desire of earth is a bleakness of the lone and dreary world. It is only when we can catch the higher vision, and know that it is not necessary to plod out our lives in darkness, and again attain unto the Spiritual realm of living and thinking, that we can enter again into the Kingdom of Heaven. When we do we will know that it is right within us - and when we rend the veil we will see and think and work with the Superconscious, or God Mind.

The Spirit of God enfolds you completely. It is in and through all things. It is light; it is intelligence; it is power and glory. It abides in you, but withdraws from your consciousness under discord, fears and worries, and leaves you groping in darkness without its light and guidance. The least confusion, the least inharmonious thought banishes it from us. But as we become more and more conscious of its nearness and power, its gentleness and love we can draw it to us and send it out multiplied to bless and heal and enlighten a world. It is ours to use always. It truly is the greatest, and yet the servant of all. It is the most glorious gift and we are heirs to it. Note D. & C. (Mormon Doctrine and Covenant) where Hyrum Smith was admonished to "appeal unto my Spirit."

This great Spirit of God that composes all substance, that fills all space, that is in and through all things, is truly everywhere. It is light! It is power! It is joy! It is glory and peace, and happiness! There is no place where this great eternal Spirit of God is not, except in man's consciousness. When we can open our minds and hearts to understand, and our souls to receive, we shall receive it in its fullness, and we shall be truly filled with light and comprehend all things. It has always been there waiting for us to take hold of it.

ANNALEE SKARIN

(This Letter will be continued in successive Golden Dawn issues.)

She suggested that these Scriptures be studied:

2 Nephi 19:6 which is quoted from Isaiah 9:6 "For unto us a child is born..and His name shall be called Wonderful, Counselor, the Mighty God, the Everlasting Father, the Prince of Peace."

2 Nephi 25:12 "...when the day cometh that the Only Begotten of the Father,yea, even the Father of Heaven and Earth, shall manifest Himself unto them in the flesh, behold they will reject Him..."

Mosiah 3:8 "And He shall be called Jesus Christ, the Son of God, the Father of heaven and earth, the Creator of all things from the beginning; and His mother shall be called Mary."

Helaman 14:12 "And also that ye might know of the coming of Jesus Christ, the Son of God, the Father of heaven and earth..."

Ether 4:7 "And in that day that they shall exercise faith in me, saith the Lord ... that they might become sanctified in me, then will I manifest unto them the things which the brother of Jared saw, even to the unfolding unto them all my revelations, saith Jesus Christ, the Son of God, the Father of the heavens ..."

Mosiah 15:1-5 "And because He dwelleth in the flesh He shall be called the Son of God, and having subjected the flesh to the will of the Father, being the Father and the Son...The Father because He was conceived by the power of God; and the Son because of the flesh; thus becoming the Father and the Son... and They are One God, yea, the very Eternal Father of heaven and earth..."

2 Nephi 11:7 "For if there be no Christ there be no God; and if there be no God we are not, for there could have been no creation. But there is a God and He is Christ..."

A SOLUTION TO EVERY PROBLEM

There is a solution to every problem! This I know, decree, and believe about myself and the world. My God is a God of Love and I will have no other gods before me.

There is only One God, One Power, One Spirit, One Mind, of which we are all a part and His Presence is everywhere - within all of His creation. I now decree my oneness with all the attributes of God and through His Divine Grace I am manifesting His Divine Will through my spiritual, mental, emotional and physical bodies.

I choose to go in one direction only - and that is with God - the Good, believing that He who gave me the desire will also show me how to fulfill it. I refuse to walk down the dark alleys of my mind through negative thoughts. I refuse to keep the company of resentment, fear, worry, ill will and hostility - they are thieves that rob me of poise, balance, harmony and health. From this day forward, I choose to make it a practice to walk the sunlit streets of my conscious mind - associating with lovely, spiritual companions called confidence, peace, faith, love, good will, health, happiness, guidance, inspiration and abundance. I choose to think, act and react with Divine Love.

I thank Thee, Dear Father, Mother God for this change of attitude and change from misuse of my conscious mind power; I forgive myself and I forgive my fellow man. Dear Lord, Creator of the Universe and all therein, I pray this prayer not only for myself but for all mankind and for the world. Help us to see the Christ within one another, to love and forgive our self and one another, and to care for one another as You Love, Forgive and Care for us, Your Children. Grant us spiritual and conscious understanding of our Oneness with Thee and with All that Thou hast Created. And so it is.

THE MANTRAM OF UNIFICATION

The sons of men are one and I am one with them.
I seek to love, not hate;
I seek to serve and not exact due service;
I seek to heal, not hurt.

Let pain bring due reward of light and love.
Let the soul control the outer form,
And life, and all events,
And bring to light the Love
That underlies the happenings of the time.

Let vision come and insight.
Let the future stand revealed.
Let inner union demonstrate and outer cleavages be gone.
Let love prevail.
Let all men love.

"I am Alpha and Omega, the beginning and the end, the first and the last."
Rev. 22:13

AT THE CITY OF THE SUN:

A charming October Festival was enjoyed by the community members. The special decor was shared by guests Billy Bones and George Frederick.

Sometimes "weatherwise" it is well to celebrate Christmas at a different time of year. Drs. Jim and Verlie Barton drove to Arkansas for a "Christmas celebration" on October 24th with Dr. Verlie's family. Actually it was the 79th birthday of her mother. They had a week of holiday festivities with her mother, sister and families. Nineteen were present for the "Christmas dinner". The weather cooperated, and they were able to do some visiting en route. with friends.

The Schuckmanns were here briefly. Then Ray and Carol left for a visit in New York before returning to Colorado to spend Christmas with Ray's family.

In November Faun Homman visited her friend, Elsie Western, in Tucson, Arizona for a week. They have been friends since 1946 when they both joined Divine Science School of Psychology in Minneapolis, Minnesota. In the seminar they attended in Tucson these two truths were so important: Forgive unconditionally, not "I forgive but I can't forget, unconditionally! Repeat often during the day:"I am Love, Light, Peace and One with God."

November 17th was a birthday celebration for four of our beloved friends - Dr. Jim Barton, Constance Arnot, Andrew Webber and Hilde Bloedow. A pot luck dinner was enjoyed with appropriate birthday recognition.

Harry and Anna Maria Jones stopped by one afternoon and we caught up on some of their recent activities.

A good portion of the little Village of Columbus have their Thanksgiving dinner together. It is always a very fine experience for the City of the Sun residents to join with them for this occasion.

Rowena Armstrong is busy, busy, busy fixing up and moving into her mobile home at the City of the Sun.

We have been glad to welcome back Marcus Rogers, a member of the Foundation. He will be with us for awhile, and may extend the time and settle here.

Dec. 21st, 1984, 7:00 to 7:00 PM our Community is joining Peace 21st, Toronto, Ontario, Canada, to Pray for World Peace; projecting Light and Thought Images for Peace among world leaders and all mankind. After which we will have our December Celebration for our resident members having birthdays during the month - Rowena Armstrong, Faun Homman and Sam Stephens.

This is always a special time of year for (some or most) of us, as we consciously prepare our hearts to cradle the Love thought of a 'new born' Christ Self within.

A Christmas Eve gathering brought a beautiful surprise - the singing of J. R. Spurlin.

We are planning to have our Annual Christmas Dinner, with all the trimmings, in the Community Building as usual. The Christmas, as well as the fellowship hall, are beautifully decorated for the season.

Some were privileged to attend the Southwest's moving Christmas dramatization set to music, "Los Pastores".

PYRAMID UPDATE:

We are not too pleased with our Progress Report this time. Many things have interfered with the work. The continual rainy weather has held us up the most, as well as much other urgent work at the Foundation which has kept us too busy. We dobbed tar on the outside of the concrete blocks, and filled in the dirt. The anchor plates and bolts were put in place. As we go to press we are working upon the big diagonals, and trust they will be in place shortly.

MY SPECIAL PRAYER TO LEARN THAT MY FATHER AND I ARE ONE

LOVE is the magnetic radiation of spiritual energy.

A feeling of LOVE means my present mental patterns are being drawn into perfect form.

By taking thought without LOVE, man destroys his human body.

LOVE sees nothing but good. The one sure way to achieve CHRISTHOOD and immortality is to feel only the emotions that come out of LOVE.

BE STILL AND KNOW THAT I AM GOD in regarding to myself. I AM to be perfect as my Heavenly Father is perfect. I neither have to grow now to become perfect. ALL I have to do is to KNOW I AM PERFECT ALREADY.

I AM GOD, personified as me, yet open to the whole of wisdom, power and love everywhere. I AND THE FATHER ARE ONE. When I know this, as Jesus did, I, TOO, WILL BECOME A CHRIST.

As a God, I make my own heaven what it is, and from it, I create my earth as the projected reflection of what I think about MYSELF.

Presented by Rev. Wayne H. Taylor, City of the Sun.
