Harmony Life Wave

SPRING 1965 No.1 Vol.1

THE ANGEL OF THE POINTING HAND [Phœbe Stabler

MAN'S HIGHEST DUTY IS TO CREATE A GREATER MAN.

THE HIGHEST

Geoffry Hodson

There is too much satisfaction with that which is not the highest, and not enough readiness to aim higher and higher still in all things that are done. Even in the pleasant talk to friends, there should always be upheld the ideal that thought and word and deed should be the highest; because this not so so, the keen edge of heart and mind is blunted, the sense of greatness falls away, lesser things come in to clog the soul, delaying its prograss on the Path. These things should not be, need not be; even little things are great for those who continually aspire. Make something great of all things. The walk, the drive, the fireside talk, all the household ways, all your earthly obligations, your pleasures and your pains, your strivings and your times of ease—let them be great, the greatest that, so far, has dawned within you—the highest you can reach.

Let this be motto for you all—THE HIGHEST—and let all who join our ranks pledge themselves to that motto. We, too, will pledge ourselves, and every time this inward pledge is uttered by a man, an angel shall repeat his pledge and bear it like a torch to add to the great reservoir of power apportioned for our work. Let each who would so pleodge himself, retire into solitude, the private room, some grassy height, some woodland shade, or, if he needs them not, into the chamber of his heart. There with fixed purpose let him first meditate, seeking to penetrate into the depth and meaning of our great ideal; then, having envisaged it, let him make firm resolve that he will ever strive towards it throughout this and his future lives; remembering that to the great all things are great.

Requests expecting an answer from our Editors, please enclose self addressed stamped envedope. Thanks.

OUR UNIVERSAL PLEDGE

I PLEDGE ALLEGIANCE TO THE CHRIST LIGHT, AND TO THE SERVICE OF THE BROTHERHOOD WITHIN THE LIGHT. ONE PEOPLE UNDER GOD WITH OPPORTUNITY AND JUSTICE FOR ALL.

LET HARMONY BALANCE BE MANIFEST ON EARTH.

EDITORIAL

This publication is our channel for presenting the Universal LAW of "Rythmic Balance Interchange." Through this channel the editors, contributors and the readers can exchange knowledge about the laws of manifestation and thereby spread the Light of knowledge and understanding about life.

Our purpose and ideal is to share with others the understanding and joy of the creative spirit by which all life and wisdom manifests and to look on all as co-workers and brothers. We can present the laws and the related facts concerning these laws; we can relate our experience with the laws, but in the final sense, only you individually can experience the Truth for yourself; only you can bring enlightment and cosmic wisdom to yourself through the Soul's awakening.

We are all co-workers and brothers on "the Way" to creating a better world—a world of harmony, love and balance. It is our destiny to make this planet Earth a garden of beauty, harmony and brotherhood. Each one must try to live to his "Highest Good" —NOW—and try to create better living conditions in his own way to the best of his understanding.

We dedicate ourselves to this task insofar as we are able. We shall try to cooperate with the BROTHERHOOD OF ANGELS AND OF MEN. So that a little of the Kingdom of Heaven as God's Will may be manifest on Earth.

———o———

LIGHT can not direct itself. The GOD Presence within the individual controls all manifetation. The Individual God Preence WILLS and the Light obeys. —Morya

THE ETERNAL ONE

By A. I. J.

Long long ago
I knew You as Tao;
Then came a time
When You were Brama.

In the consciousness of light
You were the fire of Mazda.
As the ray of the Sun
I followed you the One.

The conscious mind emerged;
The concept of Jehovah
Was born, and reappeared
As our beloved Allah.

Now comes the dawn
In the mind of Light
I know GOD as I AM,
The power of all GODS.

The power that moves,
The power that loves,
The power that thinks,
The Eternal Becomming ONE.

———o———

"Thought is the radiation of the centers of body consciousness. A thought becomes an idea as soon as it has a definite mental meaning. Ideas are projected. The life of thoughts is from three and a half hours to nine years. The life of ideas is from nine to nine thousand years. Ideals are in the Light Plane of Reality and never leave that plane."

—Dr. Bagwan Gyanee

———

The Masters do not give tests. They only present opportunities. It's up to us to accept the opportunity. The extent to which we can fulfill it is our evolution; The test of our strength and courage.

THE DRAMA OF EASTER

Dr. Paul M. Brunet

I WANT to talk to you about the greatest success story the world has ever known. In the midst of seeming defeat, this Man rose up and proved once and for all that Life is —God is—our Life! God and Life are the same thing, as you know, and Life is Eternal.

There are four different steps in his demonstration (five if you want to include them all). When he went into the garden alone (Gethsemane, which means "oil press") he took his disciples with him—Peter, James and John. Peter means rock — strength. (There is a Greek word, Petra, which means stone — feminine. Rock is masculine). James (Hebrew Jacob) means the supplanter, willing to give up the old fear, etc. and put on the new. John, as you all know, means mercy, love, compassion.

He went into the garden. In the garden of our thought, consciousness, we have to face ourselves, our God—understanding—we have to determine decree and decide what is the thing that lies ahead of us. We don't like it! We know what we must do, should do, and we evade and back away. Jesus decided to have these three disciples help him. (When we can't get the crutch—the friend who would help may be busy, the aspirin gone, the practitioner may be at the death-bed of someone else—then we have to depend on God.)

Jesus could have refused. He had prepared his thought. He saw ahead. He prepared, decided, decreed and determined. You can treat ahead of time for the rest of your life if you want to. Man is his own arbiter. Jesus thoroughly treated himself that at no time, in no way, could he be harmed, hurt or hindered.

It is my understanding that he did not feel any pain in that situation or in that tomb. He had depended on the three to help him, but they were not around. He depended on God. A great deal depends on your foreseeing, foreknowing and your preventing; your foreseeing, foreknowing and forestalling. He knew and knew well ahead of time and prepared himself accordingly.

One thing God can't do for you is make up your mind. Choice can never be interffered with. You are being tested when all the relatives, other people, try to dissuade you from your purpose. Don't fight with error, don't talk with error, don't give it something to chew on. Every word you speak is alive, radiant — be sure the words of your mouth are clean, pure, powerful, constructive.

In the dim places, my beloved Teacher said to us in Chicago, when things are at their worst, this is the best time to treat, pray and practice the powerful Presence of God. Why?, I asked. Because when things are at their worst that is 49% wrong. The 2% holding interest is on the side of right. Things can't get any worse; they can only get better. When you have the ability to give one more treatment you have broken the back of error.

The crucifix is man's feeling of bearing a burden, self-condemnation, self-pity, fears, etc., "those other

(Continued on Next Page)

people", "what my relatives, parents, did to me long ago," etc., etc. We crucify ourselves between two thieves — the thief of the past and the thief of the future, and there we hang.

The Great Teacher said, "*Today* thou shalt be with me in Paradise."

Now we come to the difficult part, the words, "My God, My God, why hast Thou forsaken me?" Resaerch will show those are *not* the words He spoke. He said, "My God, My God, Thou hast *never* deserted me. Thou art sustaining me in this rude, rough hour and causing me to be strong." In the midst of problems that is man's burden. Resurrection is our responsibility, the responsibility of God within us.

In the sacred precincts of the tomb this was a quiet time for him. He could do his best work. "Be still and know that I Am God in the midst of you."

H said: "Father, forgive them" — plural — all of them, everyone. That means "us" too!

The resurrection begins with our responsibility to accept our divine and spiritual freedom. The same power that rolled away that stone is in us. Jesus did not roll that stone away to get out. *He rolled the stone away so that they could come in!*.. The more stones you roll away, the more resurrecting power can get in. Don't let any feling of fear, resentment, bar your way. Roll the stone away. Give yourself a spiritual bath twice a day. Crucifixion is bothering about fears. Resurrection is accepting your responsibility of the Holy Christ within. Don't allow any stone of prejudice or superstition to remain.

For 300 years after the Ascension the early Christians did not celebrate the cross or the crucifixion. It was unknown to them. They always celebrated the Ascension. They never bowed their heads in prayer. Their attitude of prayer was like this — head up, hands and heart open to give, open to receive. Keep your heart open. Ascension is man's mastership over, above and beyond any human conflict, problem or any of that kind of thing, the power to deal emphatically and certainly with that which needs to be handled.

H sat upon The Rock of Divine Understanding. Many celebrate the Resurrection of a Man today, but I say to you, we celebrate the Resurrection of the Power and Presence of Divine Understanding within us, the Power that can meet and defeat anything that confronts us—*anything*— you wil never hear me limit God — never! Our Church is dedicated to the realization, the proving, of the works of our Beloved Master. There is only One God and Father of us all.

In conclusion, the difference between prayer and treatment is as wide as the Brooklyn Bridge — prayer is hoping, wishing, petition. Treatment is knowing what God is and what God is doing. Treatment is Resurrection, not hoping, not trying to know, but knowing. The greatest Teacher the world has ever known said, "Ye shall know the Truth and the Truth shall make you free." THE Truth— not "some". "I Am Alpha and Omega," He knew his ultimate demonstration all the way through. When man nears his demonstration is absolutely guaranteed before he even starts, he will be praying as the Great Teacher did in the Garden. It is certain and positive. And you will

(Continued on Page 7)

HARMONY OF LIFE WISDOM

By Dr. Roy Oliver

Each and every man is having within himself an inherent and potential power to solve all the obstacles and hindrances of daily life, and this can only be accomplished when he has learned how to unfold his subconscious powers, so as to gain control of Cosmic Power. When a man has developed to this stage, all obstacles lack and limitation melt before the morning sun for he is fully guarded against blind credulity and its consequent fanaticism. This is what the great Nazarene Master meant when he said "If ye have faith as a grain of mustard seed, say to the mountains—remove hence to yonder place and it will be done!"

With these facts before our mind's eye we come to the realization that the whole Cosmic Universe is your treasure house, its dynamici forces your power, its infinite experience your judgment, its inexorable laws your instinct of righteousness, its omniscience your wisdom and its external urge your consciece. To know yourself in relation to them is to put yourself into harmonious rhythm with and enjoyment of your natural and rightful inheritance. To endow you with the subjective Cosmic instincts and spiritual faculties which enables one to sense like the migratory bird, the fragrance, the beauty, the harmony, the comfort and the inexhaustible riches of far distant climes. As the seasons of pain and pleasure, profit and loss are shifted from one realm to another, you may be enabled by these subtle powers of your finer forces and larger subjective self to seek one and avoid the other.

It is within the power and choice of any man to come into a realization of his sublime endowments. But how many enter the Path to gain control of this Cosmic Power? The lack of manifestation in the worldly affairs of men has been due to the fact that they lack a consciousness of their oneness with God.

To raise the vibratory rate in which you have been living to the highest vibratory rate of the Cosmic is to become conscious that you are one with the Infinite source of supply. By increasing the rate of vibrations things visiible become invisible. The pitch of musical note can be increased until it cannot be heard. The most powerful forces in the Universal Law are silent because of theiir high octave of vibrations. When one becomes absolutely still mentally, his mind is taken off of Form, a different dimension or plane, and thinking of the Oneness of God, the Allness of Spirit, he becomes one with Good and meets his unseen power face to face. Hence the age longing injunction "*Be still and know that I am God*!" During these moments one puts away the things of sense and form, and dwells in the realm of thought. As the inspiration becomes more intense, he lives more and more in "Consciousness" and less and less in "Things."

Always remember that you are a part of God, an extension of Divine Consciousnss, a ray of light from the inexhaustable source of all life and that you possess the potentalities of God—"I and my Father are One", said the Master Jesus. But all this depends how much you live with the Law and bring into realiization your true spiritual unfoldment.

(Continued on Page 7)

KNOWING

By A. I. J.

We do not have to learn all the information in Webster's dictionary or any other dictionary or encyclopedia to know God, ourselves or the laws of nature. We are the dictionaries and encyclopedias. They are useful as information to guide us in the outer worlds of expression, as a road map is when we travel on the highways. To KNOW reality they are of little help.

Our Light Templers taught us God, Spirit, Soul and Body. The phenomenal world is the ghost of these four realities; the MIRRORS in which we can see and judge ourselves.

God's Will in us is the controlling power center of our being; "I AM WITHIN ALL THINGS CENTERING THEM AND I AM WITHOUT ALL THINGS CONTROLLING THEM" —Walter Russel.

The Spirit is the individualized LIGHT CENTER in the mind of God; the SON (Sun) of God. We are all Sons of God but as yet we have little awareness of our reality. SOUL is the creating principle of our individualized center; the Mother princpile, virgin substance. The Body is the creation of the Soul and LIGHT. We always have a body as we always have a Soul. The physical is only a partial appearance of that body; as the caterpillar is to the butterfly. Our Real body is a three fold body; physical, soul and light body within the WILL of GOD (Law).

We build our three fold body by individualizing through the cosmic LAWS of God the Universal Mother Substance—Light energy, Soul energy, and physical energy. We control these energies through mind, love and will. They are reflected in our objective awareness as our life now. We Manifest awareness according to where we are polarized at any point in time; that is which part of our body consciousness we are polarized to and how well our states of awareness are aligned. Our conscious activity can pass from one stat of awareness to another.

The physical energy overlaps the soul energy and this is called the etheric bridge to the soul. The soul energy overlaps the light energy, this is called psychic energy, and is the bridge to the light. These are mixtures of body states and should be used only as bridges to pass over. Many people get stalled on the bridges. The "Pass-Over" was recognized as such by our early Light Templers.

Instead of naturally passing over from our physical to our soul polarity, we form attachments to the physical and use soul power to cling to the physical Earth consciousness. We see ourself as a separate physical entity and in this sense of separation and possession we are bound to the appearance of our physical activities. We glamorize our physical appearance and give false values to it, thereby creating prsonalities. We become attached to that which appears to our senses and attempt to srystalize a changing phenomena.

Religion taught us that the physical world was not real but that some after death state was. There is no death in consciousness or awareness. Energy changes frequency from one state to another. To the Diciple Paul "In the body or out of the body

(Continued on Page 7)

KNOWING

(Contiued From Page 6)

(Physical)" made no difference to him.

Those who transfer their polarity from the physical senses to the soul center and function in that awareness (whither in the physical body or out of it) have passed over into their soul center and become what is called "awakened" or in church terminology "saved". The soul center always knows that the light is not the body or any of its faculties.

The Divine plan for man is out of balance. Universal Law does not tolerate Unbalance, so man is made to suffer by being forced back into balance.

Any point in evolution is spiritual. Each one of us is at the place where we belong. "Not by taking thought can you add one cubit to your stature", but by adhering to the law of your own being and permitting others to do likewise, we can advance on the path of attainment. The law of being is aware in us as instinct, impression and intuition. We can call on this God given awareness with and KNOW when we are in tune with God's WILL. Recognition, Adoration, Prayer and Meditation are ways to enter within.

Education alone is not the answer; if it was we should now be near to a heavenly state of peace and harmony; instead we are in a state of confusion and war. Education in the wrong direction is evil.

Man has used his power to think in a perverse way too long. Now Universal LAW is balancing the books. Man is crying for relief. The only relief is to get back into harmony with Universal Law.

THE DRAMA OF EASTER

(Continued From Page 4)

never doubt again. Man is Mind in maniffestation. Immortality is his expression. Jesus knew it, he proved it, and so con we.

So, Awake, O Soul Immortal! Treatment is the Way, the Truth, the Life!

Don't get the word Christ mixed up with man. *Christ is your understanding of God.* The Christ must be lost as something to be followed and found as something to be embodied — liver, shared.

This is the Resurrection, Life Eternal. This is our Easter.

———o———

HARMONY OF LIFE WISDOM

(Contiued From Page 5)

By being able to tune in to the Cosmic mind through the subconcious powers, lack and limitation to an individual melt like the dew before the morning sun. This is what the great Nazarine Master meant when He said, "When ye pray believe that y receive and ye shall have it."

Harmony of Life Fellowship

ENCYCLICAL ON GOOD WILL

By El Morya Khan
Darjeeling Council of the
Great White Brotherhood

VII Social Ills and Their Cures

A—Business Deceit Corrected through Law of Returns

Among the more serious problems of business today is the rising trend to produce, by deliberate intent, inferior merchandise for the repeat trade. Engineering know-how has been used to defraud the consumer, not only of the superior products which it is capable of producing, but also of the benefits of increased leisure hours which would result from the manufacture and distribution of commodities made to pass the test of excellence. Instead of assuming to increased responsibility attendant with increased knowledge, mankind have flaunted the higher Law and the precious gifts of Wisdom to outsmart the public and fill private purses.

Scientific invention and skills ought to be used in their most effective manner for the general welfare of mankind, instead of being suppressed by competitive economic interests. The abuses of child labor in the cotton mills of England may be long ended, but much of the world still dwells in the twilight zone of nugacious effort. Let the world be freed from needless drudgery through the harnessing of its scientific resources to serve humanity's needs. Clothing, machinery, and other so-called durable commodities should be made to wear, not to a minimum, but rather to a maximum degree of service.

The "merchants of Babylon" have, in dishonor, sacked the people of the world by aborting Divine Purpose, in ignoranc of the Universal Law of sympathetic attraction. They have closed their eyes to the truth that all Good rendered unto Life returns to the one sending it forth. If men are not motivated by essential humanitarianism, they should at least pay their respects to this irrevocable Law on the basis of enlightened self-interest!

B—Natural Law Corrects Abuses Imposed upon Life

Cataclysm on a panetary scale has been forestalled more than once by the power of Divine Love, expressing through the world's spiritual leaders and the mighty prayer force they muster. Mankind owe a continual debt of gratitude to the true spiritual guardians of the race whose unceasing prayers have interceded in their behalf. PEOPLE OF EARTH, THIS CANNOT GO ON FOREVER! Individual responsibility for distortions imposed upon the earth will be exacted by Natural Law.

When people do not respond to God's Laws through the orderly processes of Love's gentle ministrations, they set in motion the only alternate method whereby Nature can correct those abuses: Then Natural Law operates through disaster, fire, flood, and mass epidemics, as the earth convulsively shrugs off men's perverted creations in order that the nobler image may once more be brought forth. We make plain: THE LAW EVER PREFERS THE GENTLER WAY!

C—Divine Inheritance Preserved by World Good Will

Men and women of this blessed planet, you must rise in a united effort to throw off all chains of violence, warfare, greed, deceitful advertising,

(Continued on Page 11)

DO YOU HAVE A WORKING PHILOSOPHY OF LIFE?

By Dr. Roy B. Oliver

We are liiving at a time when dynamiic changes are being made in men's ideas and values. It is a time when each of us must examine his own ideals and beliefs to see if they are adequate to sustain us. Unless we have a firm faith in those ideals and beliefs to overcome and triiumph in a crisis and sustain us in a time of peril, we should go about creating them immediately for ourselves for there will come a time when it will be the *one* thing that sustains us.

I firmly believe that everyone must have a working philosophy of life. There are people who make a philosophy of believing in nothing. They say there is no truth, that goodnss is simply cleverness in disguise to a basic selfishness; that life is but the short gap between an unpleasant birth and an inevitable death. Then others teach that we are born "in sin and conceived in iniquity"; that we are born in evil and that life is a purification process thru suffering and that death is the reward for having suffered. Then there are those who say that man is a kind of a machine which operates according to certain laws and that if you learn the laws you can seize power to operate the machine and make men do your bidding. I blieve all these philosophies are false. *The most important thing in life is the way it is lived.* Life and resultant happiness consists in giving, not getting—in giving of your life, your energy and thought so that you make this place better for you and some one else. Happiness is an abstract thing and is not found in someone else; it can only be found within one's self in forgetting one's self. This can only be done thru devotion and effort to a higher cause than yourself alone.

The question is: How can our moments be filled with the richness of a philosophy which will sustain us? Unlss we give part of ourselves away, unless we can live with other people and understand them and help them, we are missing the most essential part of our own lives. There are many roads to the attainment of wisdom and understanding; there are many solid sayings of truth on which we can stand and say: This I beieve; there are many ideals which are lofty and worth fighting and living for; and the strange part of it all is that back of them is a common thread of TRUTH which we call a TRANSCENDENTAL PHILOSOPHY.

That is why we are teaching THE ANCIENT WISDOM for we find that this body of knowledge is the sum of all of man's worthy ideals and philosophies rolled into one. It is that body of knowledge which existed among the ancients and was not lacking from the beginning of time and which now we find to be the Truth, tho it may be spoken in many tongues and in many ways, yet it is ever the same. The time has come for man to know the TRUTH OF LIFE in order to find THE HARMONY OF LIFE. Our Fellowship is thus devoted to disseminating this wisdom brought up to a modern setting and interpreted in the light of th findings of the NEW AGE.

Many people who feel a natural attraction for this philosophy, whose interest is aroused by its reasonablenes and alignment with nature and how it explains many things that are

enigmas in life, are yet hesitant to take up its study more deeply. They fear lest it take them away from the basic precepts of the religion and philosophy in which they were reared. To them, we say that if a religion be true, the study of *another truth* can only enhance its value. The study of any truth can never rob us of anything but falsehood. We seek to explain and harmonize all truths. We hold that all religions and philosophies are but attempts to state the same great underlying truths. A careful study of the major living religions reveals them to be in agreement in their fundamentals and in giving identical instruction upon every vital subject of life.

There is nothing in our philosophy which is contrary or opposed to primitive esoteric Chrisianity—in fact, it is the very essence of it. There is increasing evidence that what we now believe to be Christianity is very far from what it once was, and so we find ourselves in disagreement with the interpretations put on it by dogmatic theological christianity. There are a lot of people who seem never to apply reason to their religion or philosophy. They vaguely hope that all is right somehow. When people begin to think, they begin to doubt, for theology of any brand does not present its doctrines reasonably. So they soon find out that many points are irrational and incomprehensible. Too often they feel that their whole basis of faith has been undermined and they proceed to doubt everything.

To all such who are struggling, we emphatically commend them to a study of the Ancient Wisdom. It will save them from the dark abyss of materialism by bringing them a truth in a new light and giving them a philosophy which is beautiful, majestic, transcendental, and harmonious. It will give a faith born of wisdom and knowldge and enable one so to see life in its real setting—as an eternal progression of the soul from unconscious reality to conscious reality. The Harmony of Life Fellowship stands ready to help you in this objective. Write us today and tell us your background in metaphysical study and we will then place before you a study program which will give you a WORKING PHILOSOPHY OF LIFE FOR THE NEW AGE.

HARMONY BALANCE

By Agnus I. Johnson

Harmony balance is a natural law. Balance through interchange ever strives to bring about right relationship of one thing to another; a right relationship of one individual to another. An individual who attempts to draw to himself more than he needs is creating inharmony.

The root of all accidents and inharmony is selfishness. Whatever contributes to the discomfort of any individual creates inharmony in the whole group concerned.

Thinking, feeling and knowing should be aligned and expressed through every definite physical act in life. If any of these faculties are missing the action is out of balance and inharmony results. To train and align our thinking, feeling and actions is the first essential to a balanced life on Earth and a big step to the awareness of our eternal life.

Our actions are unstable if directed only by the emotions. Our actions when directed only by our thinking

(Continued on Page 11)

ENCYCLICAL ON GOOD WILL

(Continued From Page 8)

harmful habits, and the insatiabe desire for trash in entertainment! Replace these plunders of your Divine Inheritance by those spiritual and cultural pursuits which will expand for the indivirual soul a more permanent state of happiness, resulting from new horizons of Truth and wondrous revelations concerning the total Being of each individual and his place in the Universal Order.

Crime will diminish in direct proportion to the unbiased application of proper cultural and religious training through the world's vast networks of communication systems. There is no excuse for ignorance or immorality in America where drama and instruction bearing the high concepts of integrity and justice may be brought to the most humble shack through radio and television.

Because the individual and the family are linkd with the state, and becaue personal security has great meaning to the individual, it is important that personal intgerity be the example maintained at the grass roots level as the standard for public servants at all echelons. Governments must do likewise; and the true ministers of political office should keep faith with the people and thus help the people to keep faith with them.

Most problems are centered in the market place of life's basic necessities: Therefore, *give knowledge, bread, and opportuniity to all* and strengthen thereby the most natural deterrents to war and communism. Reduced to its simplest expression, the formula for World Good Will and happiness is this: FEED THE HUNGRY, TEACH THE IGNORANT AND

HARMONY BALANCE

(Continued From Page 10)

may be cold and often cruel. The inner effects of a harmonious act brings a feeling of elation and self-satisfaction in our relationship with others, while unbalanced actions creates a feeling of depression and uselssness.

We should love and protect our Inner Life. The Outer Life is ever passing away. The outer life is the mirrors that reflects everything transitory. We should make every effort while living on Earth to balance our Inner and Outer life, then the mirrors of the outer life will reflect a true picture of our Inner Life.

Retrospection, a reviewing at the end of each day the actions and reactions of the day before retiring helps to weed the garden of selfishness. The saying goes "Do not let the sun set on your wrath." Through medietation and prayer we make our alignment with the KNOWER—the Father within—then we are within the Law and in tune with the infinite.

The coordination of the faculties, thinking feeling and action brings understanding. Understanding i s knowing the relationship between the inner and outer life. The more controlled the faculties the better the understanding. A definite interest is of great value to understanding; such as art, music, charity, science, statesmanship and other creative activities. A universal interest brings universal understanding.

LOVE THE PEOPLE OF THE WORLD AS YOURSELF! Sponsor this Unity of Good Will and the earth will prosper.

(To Be Continued)

FOR DAILY MEDITATION:

GOD IS MY SECURITY

Through eternity and time God is my security. Regardless of headlines and news commentators I am safe in Him. I dwell in the secret Place of the Most High where no danger is. No plague shall come nigh my dwelling. God controls the weather always.

I am rooted and grounded in the Power, the Presence of the Almighty. This Security is with me forever.

Steadfastly facing Thee, O Love Divine, there is no evil on my pathway. There is no danger with its dread. There is no age, weakness, decrepitude, no hurry and no worry. For I am past and beyond all temptation to believe in any other powers or presences. My God Is One In This Greatness, Goodness and Marvelous Security I live, dwell, work and win. Divine Abundance is my Eternal Supply.

When the world cries poverty, I remember my Security is from Within. Nothing can discourage me for God is ths riches and abundance of my Life, All Life and every Life.

2nd Church of Religious Science

GOD BLESS YOU

God bless you! words are empty things,
We speak and think not of our saying—
But in this phrase forever rings
The higher tenderness of praying.
It means so much — it means that we
Would have no fears or threats distress you,
Nor have your heart timed to a sigh.
God bless you!
This trinity of blessed words
Holds all our wishes, oldest, newest,
The fairest deeds that can be wrought,
The halest greetings, and the trust —
It's more than wishing joy and wealth,
That kindly fortune may caress you
That you may have success and health.
God bless you!

God bless you! why it means so much
We almost, whisper as we say it;
We dream that unseen fingers touch
Our hands in answer as we pray it.
May all it means to all mankind
In all its wondrousness possess you,
Through sun and cloud and calm and wind,
God bless you!

—Author Unknown.
