Perhaps Captain of the Republic!

THANK GOD, a new star of patriotic inspiration is arising over the horizon of Capitol Hill in Washington! It is the scintillation of a *man!* His name is Jacob Thorkelson, and he is Representative in the Congress from the First District of Montana. LIBERATION people, meet the Honorable Jacob Thorkelson! You may become well-acquainted with him in these pages. To all intents and purposes he is the thrice welcome reincarnation of the late lamented Louis T. McFadden! Teamed with that other redoubtable patriot, John Schafer of Wisconsin, he steps forward at last as valorous spokesman for unsuspected millions of suppressed patriots who have tried to retain decorum in the midst of catastrophic lechery aimed at the Judaistic scuttling of their government.

As the publishers of LIBERATION have watched this man, read his speeches, and observed his integrity, it begins to be evident that a new statesman is rearing high above this miasma of skulduggery.

Momentous future achievements would seem to be upon the cards for him, if he refuses to be deflected from the course he has taken. The "anti-Liberals," "anti-Rooseveltians," and "anti-Judaists" of the nation are combing the whole national scene at present for an uncontaminated public figure whom they can unite behind [redacted]

Will Thorkelson be the man?

Consider his record—

REPRESENTATIVE Jacob Thorkelson of Montana is a self-made man whose autobiography, if published, would put to shame the best of Horatio Alger's fiction. Born in Egersund, Norway on September 24, 1876, of humble origin, he resolved to come to the United States at the age of 15. In order to accomplish this resolve, he shipped aboard a vessel as an ordinary seaman. This adventure led to his finally becoming Master of a three masted schooner. During the course of events, this ship became disabled off the coast of Argentina, and all hands would have been lost but for Thorkelson's splendid seamanship. The incident was brought about, incidentally, through no fault of Captain Thorkelson's. It came strictly from conflict with the elements.

During the Spanish-American War period, Captain Thorkelson served with the Virginia Naval Reserves. He continued to follow the sea, as a Shipmaster, until 1907.

Whereupon, he felt inspired to study medicine, and in 1911 he graduated from College of Physicians and Surgeons, Baltimore, Md. So great was his surgical skill that he held the chair of Anatomy, there, for the next two years.

Doctor Thorkelson then moved to Dillon, Montana in 1913. And he has practiced surgery in that State up until the time when he was elected to Congress from the First District, which embraces 17 Counties inclusive of Helena. The Good Doctor is noted for his skill in brain surgery. He holds the rank of Lieutenant-Commander in the U. S. Naval Reserve.

THIS is the man who stands up fearlessly in a Congress of scared-cat Squanderbunders and speaks his mind. He is fed up on hearing opponents of Judaistic Rooseveltisms called "Fascists." He doesn't see eye to eye with the congressional and federal probers, who are forever on a witch-hunt for overthrowers of government in the camps of patriots or German-Americans and pay small attention to Red Totalitarians.

It means, that Thorkelson, along with Schafer—who went down the line with Harold Ickes and John Collier in the Indian Bureau the other day, for skulduggeries in the Department of the Interior—epitomizes the first faint coalition of fed-up Administration antagonists in the House, around which a sizable opposition can be built that returns the nation to Coolidge Constitutionalism.

Already the "anti's" have Senator Bob Reynolds in the Senate, and Major General Moseley in the Army. These men are in a position to raise increasing 'ell with the kosher nepotists, if by naught else than their tocsin declamations. They have been a long time in coming. It was inevitable, however, that they should arrive.

ON Page Five of this issue, you may read the vitals of the blast which Jacob Thorkelson turned loose this week on J. Edgar Hoover, for lending his G-Men to an American Gestapo crack-down, and forming the first battalion of a Political Police. It means that biting criticism of the fair-haired boy of the FBI has started in the Congress, and backed by the hundreds of Americans who resent having their reading-matter censored, the "brilliant" young G-Chief may go into eclipse. Hoover is the type who thrives on adulation. 'Tis said by his friends that he can't endure criticism.

Now what Representative Thorkelson should do—to put himself in right with one to three million nation-wide vigilantes—is to demand a probe of *all* Capital Political (Jewish) Police, including the set-up that exists on the Voorhis-Dies Committee.

It would be an ironical situation, certainly, to have a congressional committee probed by another congressional committee, but until investigative groups like the Dies-Voorhis outfit are shown up for what they are, public rancor will boil dangerously close to the civic service.

Thorkelson will go up like a meteor, if he sticks to his position and lets himself be known as the Congressional mouthpiece for the bloc that is fed up on the business of having patriots called Nazi Seditionists because they don't want their Christian government Judaized.

Let's hope he shows the grit to stand by his guns—and light the fuses by batteries and salvos.

of the arteries of the nation by buying perishable goods abroad, paying out our money and resources for them, and through such attrition reducing the United States to beggary.

The United States consumes the perishable goods, its money paid for them is withdrawn permanently from the country, and the nation is doubly betrayed.

It is doubly betrayed because these same perishable goods which are bought abroad, could have been supplied by producers in this country, who, lacking markets, desist from operations and throw their employees on Relief.

The country pays for Relief that was avoidable. It's a gyp-game, positively, any way you look at it!

THERE is still another pernicious aspect to this policy of Buy-Abroad-and-to-Hell-with-Recovery—at least in regard to beef. There are laws on the American statute books prohibiting cattle raisers from marketing meat for packing purposes that is not rigorously inspected for signs of hoof-and-mouth disease.

South American processors are by no means thus handicapped! ¶ When this fact was called to the President's attention, he loftily dismissed the point with the naive explanation *that hoof-and-mouth diseased beef was harmless!* That is, such diseased beef is quite all right to feed the boys of our Fleets if it is canned.

If this screw-ball answer be correct, then why does the Federal government maintain a small army of inspectors in the nation's packing plants to make certain that no such canning takes place on American premises?

The satanic innuendo appears from nowhere that there *could* be no finer way of paralyzing our naval forces than feeding the men of our twin fleets, 24 tons of embalmed beef supplied from ranches in the Argentine—or elsewhere—that had been subjected to no inspection, and that the Jews in control of Gentile affairs could thus turn into money.

AMERICAN cattle raisers and processors first have every obstacle and harassment placed in their way so that they cannot compete with Argentine beef—not the least of which are the extortionate New Deal federal taxes—and then as a final slap in their faces, the President of the United States gives pontifical orders that competitive and uninspected beef *shall* be bought for the Navy.

An ironical side-touch to the utterly treasonable situation happens to be, that one of our western Senators is the biggest rancher in his State. Referring to this on Capitol Hill the other day, a brother senator exploded: "Where in the hell do you think Senator ——— is going to get the money to pay Federal taxes, if his own government buys beef from South America?"

So the Roosevelt-Jewish-Bolshevistic program of Planned Destruction and Planned Emergency pushes its insolence one step further. First, the cattle and little pigs were cold-bloodedly slaughtered. This was done on the argument that scarcity of live stock automatically raised prices and cured the Depression. Now behold—

Having thus raised prices, and accomplished its planned objective, the same Administration turns about and says in effect that the Government itself will not pay the raised prices, and sends its naval orders to countries where no such malicious nonsense has been in operation!

That doesn't make logic, and obviously it never was intended to make logic.

Steadfastly in front of them, Roosevelt and his Fish-Peddler administrators have kept the bright star (six-pointed) of a condition throughout the country where industry has to throw up its hands and unemployed millions take to rioting in the streets.

"Aha! The Emergency!" they then could cry. "Gentile Constitutionalism has failed. Now for the Jewish War Ministry and the conscription of all America's resources for the furtherance of the plans of the Wise Men of Zion!"

It's a great life for Gentiles—if they don't *waken!*

But their awakening is spreading swiftly.

From supplying uninspected and "cheaper" beef to our Navy, it's but a step to supplying it to the American family.

Shouldn't beef that's good enough for our gobs, be good enough for their civilian parents and relatives in the hinterland?

And American meat packers, employing their thousands and tens of thousands?

Let them merely pay their taxes and shut up.

NOTHING IS OF MOMENT BUT THE PLANNED EMERGENCY!

More Roosevelt Gyp

THE GREAT American public doesn't know it yet, but the Philippine islands, which have cost us $700,000,000 to date, *are being turned over to* 10,000 *Jewish refugees from Germany.*

That, of course, may have nothing to do with the fact that the Chief of the State Department—Philippine Division—Joseph E. Jacobs, is very kosher. So are two of his underlings: Donald Hiss and Alger Hiss. So is another member of Roosevelt's committee of "experts" on the solution to the Philippine problem: Louis Domeratzky, Chief of the Commerce Department Information section.

The War Department, which runs the Philippine show—or did until the State Department Jews started butting in—is mad as 'ell. The Generals in charge think things are already complicated enough out there, without unloading batches of Israelites to grab off everything that the American taxpayers have built up but not nailed down.

What's more, the American taxpayer is still contributing about $35,000,000 a year to give the Filipinos a good start to freedom—in 1946, *maybe!*

Philippine cocoanut oil imports, used in making oleomargarine and toilet soaps, are taxed three cents a pound in the United States. This tax, amounting to $25,000,000 a year, is collected by the U. S. Treasury from Americans, *but handed over to the Philippine government to give the islands a good start toward independence.* Two years ago the Treasury handed President Manuel Quezon an initial check for $50,000,000 from cocoanut oil taxes, paid by American taxpayers.

American sugar producers are handicapped by crack-pot New Deal quota systems, but we import sugar from the Philippines, then pay back to the Commonwealth government $10,000,000 annually in taxes that the American public must shell-out on these sugar imports.

More Roosevelt Gyp, to make the world safe from Gentiles!

FBI Pelley Publication Probe Scored on Floor of Congress

THAT the nation is becoming properly aroused over the Hoover "check-up" of Pelley Publication readers, obviously for a nettled and power-drunk Roosevelt or someone high in this Jewish Administration, is indicated by the introduction of the legality of the Probe into the House of Representatives. On May 16th, arose Representative Jacob Thorkelson of Montana on the floor of the House, and in the course of his anti-Administration castigation, delivered himself of the following—

JACOB THORKELSON SPEAKING:

THE question now to be decided by the American people is whether or not the United States is to be controlled by the invisible government, supported by the Communist International, or whether it is to be controlled by Congress as proclaimed in the Constitution and supported by patriotic citizens. In this question, each and every citizen should display a keen interest, and I include everyone within that group who still believes in the fundamental principles of our Government, and in the rights and liberties of the people.

If there is any question as to the intention of the administration, the statement I have just quoted from Earl Browder should be sufficient evidence that we are facing a life and death struggle at home. Socialism and communism are entrenched within the Federal Government in all departments and the dupes of this philosophy will be found in key positions. This is not an accident but a well-prepared plan by those who at the present time are directing the destiny of the Nation through the head of the Democratic party. Administration sympathies are vividly expressed in their appointments, because we know a few of those who are Socialists and Communists by their own commitments.

I am straightforward in my beliefs, so when a person informs me that he is a Communist, and that he believes in Federal ownership of all industries, I take him at his word. When he further informs me that he believes business is incompetent, he has classified himself as the greatest incompetent of all, for he evidently fails to appreciate that industry and business have been the creators of the Nation's prosperity for the past 150 years. When the same individual is appointed to office, it is only reasonable to assume that whoever appoints such person shares in his belief.

The power of the invisible government is clearly evident in the special F. B. I. investigations which are now directed against certain publications that support constitutional government, and to which anyone may subscribe. These publications are not secret, for I believe they are delivered free to every Congressman. The most contemptible of these snoopings are those conducted in private homes, in which the investigator requests information about publications delivered to the home.

I have had several letters advising me that such investigations are conducted at the present time, and what I desire are the names of those who give the orders for such investigations. I would like to have this answered by the F. B. I.

If any *Federal investigation bureau* is short of work, let it investigate socialism and communism. These may be found first in the Federal Government in Washington, and second, in practically every city in the United States. It is not hard to get a lead, because such subversive organizations publish their own papers and give the addresses so that anyone may find them. If the Federal Bureau of Investigation will bear in mind that the Italian, the German, and the Russian Governments are all socialistic in different degrees, much effort may be saved in looking for types of governments that do not exist.

During the 4 1-2 months that I have been a Member of Congress I have stood squarely on the principles found in the Constitution of the United States, and I have advocated that each Federal department resume its rightful position according to the Constitution. I have opposed socialism and communism, and I have condemned those who favor such philosophies in preference to our own. I have criticized those who now own and control the $15,000,000,000 in gold in the United States Treasury because they have deprived my people of ownership of the only recognized international standard medium of value for money and for all securities. I have objected to this because it is inherently unjust to my people, not only in my own State but to all the people in all the United States. I have also criticized the coworkers and dupes of this invisible government because of their subversive activities which are deliberately directed toward destruction of our own Government. I now challenge those who labeled me a Nazi to state where I am wrong in taking this stand, and I hope those who accused me will accept this challenge.

Congress is now criticized for enacting antialien bills. This legislation was directed at those with criminal inclinations and was passed by a large majority of the Members. I shall quote part of this criticism:

Antialien bills now before Congress were characterized as "the entering wedge of fascism and dictatorship in our country" by Judge Patrick H. O'Brien, of the probate court, Wayne County, Mich., at the first session of the National Emergency Conference in the Raleigh Hotel yesterday afternoon.

This is a very interesting statement, and the question may be asked: *What is fascism?* The only place I have seen this mentioned is in communistic publications, sponsored by Earl Browder and others of his beliefs. It is a term used in all communistic papers, obviously to cover up their own activities. Fascism, as I understand it, exists in Italy, a country which is ruled by a king and a dictator. The Government itself is socialistic. The most absolute form of dictatorship and

Roosevelt Outlaws Himself by Heading Ministry Government

THE JEWISH New-Dealers think that they have one final ace in the hole, to abolish Constitutionalism and deliver this nation to the "wise men" of Zion. That is the Industrial Mobilization Plan. A year ago they called it the War Resources Bill, but the Christian vigilantes gave it too much publicity. Bethinking to hoodwink the Gentiles and keep them confused until it could be passed, they changed its House number and its name.

The Industrial Mobilization Plan is just another of those hysterical kosher schemes by which the desperate Yiddishers hope to keep control of Federal officialdom till Communism can come in, and the Big Kommissar in charge of Everything can cast aside the mask of legality and purge this nation of all "enemies" of Jews.

The Industrial Mobilization Plan, as previously exposed in these pages, provides that in the face of War or "Emergency" the President of the United States shall at once declare the ordinary agencies of government void, and set up Four Commissions under Four War Ministers to manage and dispense the resources of the United States during the period of the upset.

Under the jurisdiction of these Four War Ministers—to be appointed by the President, thus assuring him of kindred spirits to complete the debacle of Constitutionalism—every Constitutional right, of every citizen in the United States, "goes by the board."

All factories, all industries, all raw stocks, all productive enterprises now held by private ownership, are to be relinquished en masse to these Four War Ministers and the President-Chairman. The private citizen is to have no more rights which the "government" need respect. Every man, woman, and child in the public domain, of every age and occupation, is to be conscripted and regimented, and allocated to such industries as the Four War Ministers or their underlings may prescribe.

After enumerating all the "rights" which shall be transferred to the President and his Associates, the War Resources Bill—now reappearing in the guise of the Industrial Mobilization Plan, remember—contains this fraught addition: *"—and all other rights."*

"All other rights" is as terrible as it is terrific.

Without intending to spread undue panic among the citizens of America, whose attention is now directed to the possibilities in this Bill, the suggestion is advanced that, under extreme provocation, *all other rights* includes the right of imposing the sentence of life or death!

It is time to look nakedly at the fact that if a wearied and venal Congress, in its closing hours and under the political compulsion of getting home and preparing for the 1940 elections, chanced to pass the Industrial Mobilization Plan in its present form, *the President of the United States and his Fellow Kommissars could order the arrest and concentration of whosoever opposed a Jewish Oligarchy's taking control of this nation, and in the case of leaders who represented a real menace to the success of their plans, could order their executions!*

LIBERATION has proclaimed to the enlightened element throughout the expanse of this continent, that the War Resources Bill—or the Industrial Mobilization Plan, as you prefer—is naught but Bolshevist Communism hooked onto the tail of the sacred cow of the national defense.

Admittedly it is "conditional" legislation. That is to say, it does not become law unless this government has cause to become involved in war, or unless the nation faces an "emergency" that is akin to civil war, when the total resources of the United States must be invoked to put down the "insurrection."

But once it is put upon the statute books, the Jewish warmongers in present charge of our Federal affairs have only to *provoke* a war—with Germany or Haiti, it makes no difference—and at once the provisions of the Industrial Mobilization Plan go into effect. But that is not the whole of it.

The Jewish subversionists in charge of our Federal affairs have only to provoke an "emergency," as well, and the form of our Republic alters in a night.

Our Republican form of government, in fact, can be tossed into discard in a day-and-a-night, and Roosevelt and his Four Jewish Kommissars proceed to their usurpations.

The hypocrisy is advanced that "Congress" has legally endowed them with their rights, and forthwith they can start upon their unhallowed program of exterminating opposition and ruling this nation without let or hindrance.

It follows indirectly the pattern of the satanic gag that was used to hoodwink the Gentiles of the world in regard to "Republican" Spain. The Jewish Bolshevists succeeded in purchasing their way to power in thinly-populated districts of Spain that had equal electoral votes with the thickly-populated districts where the majority of the Spaniards repudiated Communism. Because the Jewish Reds thereby gained to a majority vote in the Spanish electoral college, it was argued forthwith that the Spanish government of Jewish Reds was "legal." It set about ruling the country with a rod of iron, and the war under Franco was the natural reaction. But throughout it all, these Jewish Reds were "Loyalists."

By much the same tactics, forcing the stupid, silly, or brain-fagged congressmen of the nation to pass the Industrial Mobilization Bill, would make the accession of War Ministers "legal."

But suppose we examine the nature of such legalities, and before these Four War Ministers ascend to their powers—with the "legal" rights of life or death in the matter of leadership-opposition—give a serious thought to the practicalities of carrying so pernicious and wicked a measure into effect.

FIRST of all, let it be thoroughly understood that the Congress of the United States does not have the power to abolish itself, to change any aspect of this government, or to pass bona fide legislation whose tenor is an injury or abolishment of the instrument under which it derives its authority to make any laws at all.

The Congress of the United States receives its authority by virtue of the stipulations of the Constitution—which means that the Constitution concretely creates the Congress.

The acts of this Congress are only legal, therefore, so long as they conform to the stipulations of the Constitution, and the rights of the citizens which that instrument guarantees. The moment a single act falls outside the stipulations of the Constitution, or affects to create a body of government that functions above the Constitution, it is spurious, fraudulent, treasonable and fallacious.

A spurious and fraudulent Act, conceived and executed above or outside of Constitutional stipulation, is no Act at all. And whosoever strives to make it appear so, is guilty of criminal deception and sedition.

So, in the event that Roosevelt and his conspiring Jews should attempt to force an act through Congress, substituting a Five Minister War Government for the system set up under the Constitution, and succeed in such deception, they are no longer legal officials of our government, and not a citizen within the public domain is obligated to render them the slightest subservience except that which the conspirators exact by arms or force.

ROOSEVELT, let us remind ourselves, took the Presidential Oath when he ascended into office. The substance of that Oath was the swearing of allegiance to the Constitution—to preserve and defend it. It was by the solemn taking of that oath that he was accredited as lawful President in the first place.

The instant that he and his fellow conspirators bring forth a War Ministry Government, taking away the constitutional rights of citizens by its illegal and spurious provisions—whether enacted by the Congress or no—the man has profaned and desecrated his Oath and automatically abolished the instrument by which his officialdom was first substantiated.

He is, from that point onward, merely a usurper and violator of Government, and despite his great prestige, is not one hair's breadth removed in character from John Dillenger, Pretty Boy Floyd, or Alvin Karpis—all defiers of law and order.

¶ He has put himself outside the law, because all law in America is authenticated by the stipulations of the Constitution—which Roosevelt shall have destroyed.

By accepting the Chairmanship of the War Ministries Government, Roosevelt shall thereafter function—*if he does*—in the role of usurping despot and tyrant, in direct defiance of that political authority and stability which the Federal Constitution was created to guarantee.

The moment that Roosevelt accepts such Chairmanship, he ceases to be President, [redacted]

Therefore he cannot lay claim—in law—to authority over the life or property of a single citizen.

He is a revolutionist of the Pancho Villa type, operating under bogus and deceitful authorization, albeit he rides no horse, conducts no raids, and goes no farther than the fence around the White House to enforce his spurious fiats.

The moment that the Industrial Mobilization Plan goes into effect, and the despotic rule of the Five Commissions replaces the Executive, Legislative, and Judicial prerogatives that in integrated action are known as the Republic, the American form of government is a thing of hapless memory.

The moment that the American form of government ceases to exist, and Roosevelt essays to rule without the authority of the Constitution, whosoever joins him in his mad enterprise and affects to execute his orders, or carry out his enterprises, becomes criminal accessory after the fact and is equally as culpable as the Number One Communist who has headed such Great Subversion.

Each and every one of such individuals is lawful prey of whosoever can restrain or exterminate them as the nation's outstanding criminals.

The fact that a muddled or venal Congress gives the veneer of legality to the inception of the whole mad enterprise, does not alter in one iota the essence of the felony.

IT IS well for sane and patriotic Americans to know these fundamentals in advance, and recall and proclaim them if, as, and when, such usurpations are attempted.

Any army officer who obeys the commands of a Roosevelt operating outside the stipulations of the Constitution, or any common soldier who may help to execute such commands, is as guilty as his principal in committing criminal acts.

Any revolt which ensues, as Americans repudiate mass regimentation under the provisions of the Industrial Mobilization Plan, is not treason against the government, because there cannot be treason perpetrated against a government which has been made non-existent.

The Industrial Mobilization Plan itself is treasonable, inasmuch as it abolishes in practice, the Constitution, or renders it null and void.

Congress cannot pass a treasonable act and, by virtue of its office *under* the Constitution, thereby make such Act valid. The Industrial Mobilization Plan could only be made valid as a national substitute for Constitutionalism, by a plebescite vote gaining a 51 percent approval of 130 million citizens, or by a ratifying vote of more than thirty-six State legislatures.

¶ But the Great Jews precipitating this vast subversion of Constitutional government, bethink to overcome all such criminal irregularity by war panic and mass hysteria, glossing over the means by which they gain their ends by the exigency of the emergency which they shall have first created.

THAT civil war will break out in the United States—in the event that the attempt is made to put the War Ministries Government into effect—is a conclusion to be faced.

Roosevelt and his war-mongering Jews have failed miserably in their wicked attempts to involve this nation in a conflict on the Continent. Hitler has outsmarted them.

But there still remains the possibility of an "emergency" created by John L. Lewis and his see-eye-owers in the coal and industrial situation. Furthermore, it is only a matter of arithmetic to figure the moment when the United States' financial system can no longer stand the stupendous strains being put upon it to meet the demands of the Roosevelt squanberbund. Whatever provokes national calamity now, provokes

the "emergency" that automatically precipitates the Industrial "Mobilization."

Roosevelt is certain that the Situation is "in the bag."

He carries around the insane belief that press and public will bow anew to his leadership, that he and his publicists have only to work up the patriotic hysteria of 1917 to deliver this nation into the hands of the Judaists.

But throughout this country now are literally *millions* of aroused and awakened Gentiles who know precisely what the stramash is all about, what elements have prepared it, and what they expect as its denouement.

"By assuming chairmanship of the War Ministries Government, Roosevelt has relinquished the Presidency under the Constitution!" they will cry. "Therefore he is not an official whom law-abiding citizens need obey. He has reduced himself to the status of a military opportunist, seeking to make himself the Stalin of America. As such, *he is now our enemy!*"

¶ And they will prove it with firearms, if Pancho Villa Roosevelt coerces them with troops!

It is no time to screech anathemas at a congress of incompetents. It is time to take stock of our rights as free patriots.

¶ Congress has failed us.

Our free press has failed us.

The man whom we entrusted to uphold and sustain in sacred trust the great document that is the Constitution, has shown himself to be its most colossal seducer.

But let us not forget the conniving Jews behind him.

Three hundred great Jews in key positions in our government, have secretly put him up to it.

The passage of the Industrial Mobilization Plan is a gesture to civil war.

Does Roosevelt doubt it? *Let him pass it and find out!*

Jew Mortgages on Republicans

THIS country contains people by the hundreds of thousands—fine Christian Gentiles—who deplore the Scuttle Program of the Judaized Democrats, but solace themselves with the assurance: "The country must eventually swing back to control by the Republicans, and when it does, the Jew Clique loses influence. Let us wait for that day and hope for the best." And "hoping" for the best, is mostly what is left to them. Hoping!

Tell these naive folk that a Judaized Republican Party is quite prepared to take over, and they become testy and critical. "Good grief, are the Jews behind everything?" they cry.

Well, last week in these pages, LIBERATION gave you a political dossier of the control behind Little Lord Fauntleroy Dewey of New York, now said to be running ahead of all other candidates for the Republican Presidential nomination. It states that George Z. Medalie, Jewish lawyer, was Little Lord Fauntleroy's campaign manager and gave you his hook-ups.

When Jim Farley, in scoring Medalie, intimated that Dewey was being managed by a lawyer known to have been a mouthpiece for the very interests that Dewey was winning fame for sending to prison, this astounding "give-away" was bitterly resented by the Jew Boys of Gotham.

The New York Times for October 25, 1938, reported—

"ROBERT W. STRAUS, city campaign manager for Mr. Dewey said that as one associated with Mr. Medalie in philanthropic and civic work he deeply resented Mr. Farley's remarks."

We are of the opinion "Robert W. Straus" above-referred to is Roger Williams Straus, whose record is given in *Who's Who in American Jewry* and also in *Who's Who in America.* No "Robert W. Straus" is listed in either one of these two authoritative reference works. Roger Williams Straus is connected with some of the same Jewish "philanthropic" organizations as George Zerdin Medalie.

The amazing thing about the Dewey campaign in the fall of 1938 *was his failure to attack the Communistic New Deal!*

Raymond Clapper in his column October 15, 1938, enlightens us—we must remember Mr. Clapper is a New Deal supporter and apologist.

Mr. Clapper says that "the most significant thing about the Dewey campaign" is "its soft-pedaling of the traditional Republican attack on Washington." Then he goes on to show that Dewey and his associates nearly measure up to Tommy Corcoran's idea of what "Liberals" should be. We now quote Clapper verbatim:

"In fact these new Republicans"—Mr. Clapper means Dewey, Kenneth Simpson, Bruce Barton, Roger Straus, Speaker Heck of the New York State Assembly, *et al., ad nauseam*—"look like Communists. Moreover, these new Republicans have been playing with the American Labor Party leftists in a number of practical ideals and have thereby horrified the hard-shell Tories who are still fighting the McKinley campaign.

"Most of this can be traced back to Kenneth Simpson, the new Republican National Committeeman for New York. He was the first Republican leader to see the advantage in supporting LaGuardia, the angel of the left, for Mayor a year ago. . . . "

Do we begin to get the hook-up? Dewey, Medalie, LaGuardia, Simpson and hordes of Jews—Jews from the East political underworld, and Jews hailing from the offices of the International Bankers.

And LaGuardia? It is alleged there are 2,000 Communists holding positions in the LaGuardia New York City administration.

And the American Labor Party—what is it? We told you in LIBERATION, October 14, 1938, giving a long list of Jewish Communists who are its leaders. It is the Communist Front party in New York State. And Kenneth Simpson plays political ball with this organization. So does LaGuardia. We leave it to the reader's imagination to peg Mr. Dewey in this set-up!

Mr. Simpson is a Baruch man. On page 44 of the book, *The New Dealers,* we find this clarifying statement:

"Baruch and Johnson used to consult him in the course of their search for profitable investments for Baruch."

So Hugh S. Johnson called him to Washington in the early

days of the NRA—just after Mr. Roosevelt had saved the Nation by closing our banks and confiscating our gold, and just before the Tugwell little-pig pogrom got into motion.

Kenneth Simpson, we might say, is a mining engineer. Baruch, Johnson and George N. Peek have always had a more or less academic interest in rich mines.

ONE of Kenneth Simpson's good friends is the Jewess, Gertrude Stein, who writes unintelligible (code?) gibberish which no one can understand except good cabalists. The nearest literary approach to Gertrude's utterances is Mrs. Roosevelt's column, *My Day*—except that Mrs. Roosevelt's literary efforts are punctuated, whereas Gertrude introduced a new method to literature—writing without punctuation. Kenneth and Gertrude get along beautifully, according to Raymond Clapper, which should tell us something about Mr. Simpson.

Contending with Dewey for the 1940 Presidential nomination of the Republican Party is Senator Robert Alfonso Taft, son of the 27th President of the United States, William Howard Taft. In the Gallup poll propaganda, Dewey leads Taft, with Senator Vandenberg a poor third.

We now address ourselves to the question of Senator Taft's connections. Says the *Washington Merry-Go-Round,* March 19, 1939:

"Mrs. Preston Davie, red-haired New York socialite, has taken Senator Robert Taft under her large and aggressive wing as the 1940 G. O. P. white hope."

The *Merry-Go-Round* of the same date further states: "The high point of Taft's sortie was a dinner Mrs. Davie gave him in her elaborate apartment. . . . Guests were. . . . Mr. and Mrs. Ogden Reid, owners of *The New York Herald Tribune,* and Lewis L. Stauss, war-time secretary to Herbert Hoover and partner in the international banking firm of Kuhn, Loeb & Co."

Mrs. Davie thinks Tom Dewey is a Communist, and the *Merry-Go-Round* quotes her as saying: "You know, Dewey mightn't be so bad if it weren't for that terrible Communist Kenneth Simpson (anti-Hoover New York republican state chairman). He is a bad influence on Dewey and keeping a lot of the right people from supporting him."

And yet the enthusiastic feminine political babe-in-the-woods invites the Jew, Lewis Lichtenstein Straus, to her 52nd Street apartment for the Taft dinner party. If Mrs. Preston Davie is a Gentile, perhaps a few of the bitter facts of life may get into her red hair, and the facts are given in *Who's Who in American Jewry.*

Lewis Lichtenstein Strauss is a Jewish International banker, who became associated with Kuhn, Loeb & Co. in 1919. Being smart, he became a partner in 1920. Is on the directorate of U. S. Leather Co., U. S. Rubber Co., Susquehanna & N. Y. R. R., General American Transportation Co., Commercial Investment Trust, and Republican Builders, Inc. He is also associated with various Jewish organizations. We now quote from *Who's Who in American Jewry* verbatim:

"Secy to Herbert Hoover, U. S. food administrator, 1917-19; mem. bd. Am. Relief Adminstrn of Children's Fund. . . . "

WHY should Jews back Senator Taft's candidacy?

Bluntly, it is because they find him satisfactory as a representative, just as they found Landon in 1936, and just as they found Dewey in 1938—and Dewey is going better than ever, with the full power of the Jewish propaganda press behind him. They find in these men a willingness to embrace the Judaistic philosophy, codified by Karl Marx and manifested in action by Franklin Delano Roosevelt.

At a National Republican Club luncheon March 18th, Senator Taft spoke, as did Kenneth Simpson, and the Jewish lawyer, Walter Elmer Ernst.

According to *The New York Times,* March 19th, Taft endorsed the National Administration's scathing denunciation of Hitler's "seizure of Czecho-Slovakia." Although an august Senator of the United States, he wouldn't know that the International Balshevists planned a Red revolutionary *coup d' etat* on March 16th, which was forestalled by Hitler on March 15th—the eminent Senator wouldn't even suspect it. Taft, like Landon, believes the New Deal might work, if it were fixed up a little bit—a few alphabetical blocs rearranged. But they are too late—FDR beat them to it with his Government Reorganization shuffling! Taft politely suggested he thought a balanced budget would be fine, but as for solutions to America's crying political problems, he is out on a political sea in a New Deal ship without a rudder.

Hard-headed gentlemen, gifted with the common sense that permits them to add two and two and get four, find in Dewey, Taft and Landon, complacent and facile agents, obedient to the "suggestions" of their Jewish political overlords. All of them are political opportunists. Like John D. M. Hamilton, they may shine in a drawing room on Park Avenue, New York City—but after all, America's problems are out in the far-flung reaches of the prairies and in our great industrial centers; and men who spring from the heart of America, must be the political Leaders of the Quick-coming Tomorrows. Such hard-headed, sensible men rule in Germany today—and results tell the story.

Landon was a Jewish New Deal tool in 1936, and he got the Presidential nomination in the Republican Party precisely for that reason.

LIBERATION maintains that Tom Dewey and Bob Taft are Jewish set-ups for the Republican 1940 race. *Otherwise, they would not be getting the publicity in the newspapers and magazines!*

(*Continued from page Five*)

one rarely mentioned by those interested in the admission of refugees is in Russia, and the dictator is Joseph Stalin. It is he who has placed hundreds before the firing squad; it is he who has banished hundreds to Siberia; it is Stalin who has denied the Christian religion in Russia and closed Christian churches, and it is Stalin who with the utmost indifference has lined those who have helped him against the wall at dawn before the firing squad. He is the dictator in Russia, a country in which socialism and communism is supreme. It is his philosophy of government which is rampant in the United States, gradually but insidiously destroying our own republican form of government. Why is it that those who favor war in Europe and favor immigration from Europe are not afraid of his kind of dictatorship? Let those who complain answer this question."

How do we know that a world-wide Jewish Plot is in action? Because—

"Jews Say So!"

IF YOU want to close the mouth of the Israelite who wails about how much his race is being persecuted, provide yourself with copies of the 80-page booklet **"Jews Say So!"** recently issued by Pelley Publishers. "BEAR ARMS!"

IN PHILADELPHIA on March 28th, General George Van Horn Moseley made a speech that resulted in a demand from the Jewish Communists that he be indicted for sedition. In ringing words, this outstanding army man referred to the last stand of the Jews in this country and declared: *"Thank God, the Constitution still gives us the right to bear arms!"*

SPEECH OF GEN. MOSELEY in Philadelphia, March 28th

has been done into a 30-page booklet by Pelley Publishers, and is available this week for patriotic propaganda purposes for all vigilante and anti-Semitic elements who want an inexpensive introductory tract to put in the hands of those still skeptical about any menace from Jewish Reds.

Democratic Dementia

ADD Paralysis Balls scandal: One would think the movie stars who rail it from Hollywood to give Yiddish lustre to Birthday Jitterbugs would be content with the publicity. Not in a kosher set-up! Believe it or not, they get expenses and a bonus. Hollywood megaphone stooges don't flash their maps for thankyou's. Even when Roosie would oggle it with a Culver City blonde, he must pay the shot. Or the Committee digs down, and the cripples are merely the pain in the neck. It's all the same shake-down. . . . The new name for the refugee bed-dampeners is *Guest Children*. Now it comes out that they're not refugees at all. They're selected hither and yon for free board and education at the expense of our taxpayers and the parents sign away all rights. The gag is to get 'em here, then have 'em bawl for Mommer and Popper. To save infant heartbreak, the old folks come quickly. The brats don't ship back. . . . The yard-stick Cigarettist wants Congress out of the way by June 15th, but apparently no soap. The electorate mail to the Appropriationists tells 'em to sit on the job if it takes all summer. Come home and they'll be spitballed. Plenty of sentiment for War, but not the kind in Europe. . . . Someone suggests that Roosie be made to subsist on Morgenthau's Argentine beef for a year. Then it'd certainly be infected with hoof and mouth disease. . . .

INTERESTING LETTER in from Los Angeles: "The State Employment Bureau in Los Angeles told a housepainter friend of ours that he could not hire a man to help paint unless he got him through the State Employment Free Service Bureau. They told him that he was dealing with the Federal Government now, and orders were, not to hire any man, only through them. If you have a painter friend who wants work, apparently you can't employ him, no matter how bad that friend needs work, until America's Jewish Administration says it's all right." The Administration wants to make sure that painters use only whitewash. . . . On April 25th, the French government did a Dickstein in forbidding publication of 'foreign propaganda' and attacks on race or religion, under penalty of heavy fines or imprisonment. The Associated Press says: "The government's sweeping control under its parliament-controlled dictatorial-decree powers, was believed to be directed principally at curbing a growing number of pamphlets, bitterly attacking Jews, and an increasing number of political journals, accused of being subsidized from abroad." In other words, the Jews distress the nostrils quite as odiously in France as in any other bailiwick, but have control of the government. They goad Gentiles to go bang by their behavior, then clamp down a law making sputter subject to penalties. This settles everything! The Heil (Hitler) is does! . . .

ILLUSTRATING the poke of the American worker: In Westwood, California, a fight occurred between members of the AF of L and CIO union members. In the night, several hundred lumber monkeys stormed CIO headquarters, took 'em apart, made 'em kindling, and tacked up signs over

the foundations that police covered quickly with blankets. . . . The lumber handlers aren't so keen about a Jew-led revolution. . . . Seeing that Prime Minister Chamberlain has powwowed with both Hitler and Mussolini, the Administration Jews thought it would be splendid if he came over and visited FDR (Funk, Diddle and Riot). When suggested by stooge Geoffrey Mander, Chamberlain remarked that his visits to other countries have always been in connection with special circumstances and that even a brief interruption in the performance of his duties gave rise to great inconvenience. What an ironical job, to manufacture limelight for a gentleman who snarls: "I'm important, too!" . . . Debunking the S-Plot bombings in England: Anyone familiar with the technique of the Jew Bolshevists recognizes that the "S-Plot" discovered recently, was only Communism trying to get more space. To kid the public, the typewriter prostitutes refer to the plotters as members of the Irish Republican Army—something like the Soviet "Republicans" and the Red "Loyalists" of Spain. These bombing plots creak. . . . Says Foreign Minister Bonnet of France: "Never have relations between France, England, and the United States been better than at present." No one had mentioned the American war debts for a week. . . . Over in Dear Old London, *The British Lion,* doesn't agree that relations are so pleasant. Says the *Lion,* editorially: "The President of the United States has, as it were, spoken pontifically, and taken the affairs of the whole world under his omniscient —but by no means omnipotent—survey." Then it corrects the President's affliction. He's suffering, tis said, from *Democratic Dementia.* More Birthday Balls, quick!

WAILS Rabbi Beryl D. Cohon of Boston: "A wave of barbarism is rolling steadily over the earth. The world with its cruelties will not allow us to cherish our dreams of goodwill. The world with its miseries is breaking in upon us, shattering our visions and disrupting our high hopes." High hopes of what, Rabbi? . . . Walter T. Brown, secretary to Governor Lehman, believes that America should undertake "a democratic advertising campaign" to overcome dictatorships. We thought that's what Frankly Deceptive Roosevelt *was* doing. Apparently hasn't made an impression yet as far as Albany, N. Y. . . . "What's Wrong with the Movies?" screams a headline. Answer: "The same thing that's wrong with the government!" . . . In Germany they're considering Jim Crow cars for Jews. Germany's getting more and more democratic. . . . A Waterbury, Connecticut, citizen writes: "I was present at a picture show in the State Theater Friday afternoon when, all of a sudden, they showed an American flag and played the *Star Spangled Banner.* A girl rushed down the aisle and commanded everybody to stand up. I thought I was back in 1917." Not back in 1917, brother. Forward in 1939. The Jews want us to butcher for 'em again, so they turn on a bit of—Barney Barook "damn-nonsense" patriotism. . . . It cost the world 160 billions last year, merely to *prepare* for war, says the League of Nations Armament Yearbook. That ought to be worth a flag and song, even in Waterbury, Connecticut. . . . R. N. Elliott, Acting Comptroller General, states in his annual report to Congress that officials of the Commerce Department used the government boat *Eala* during 1934 and 1935. Such items as "Poland water, flowers, cigars, and cigarettes," were vouchered as "Paint, Provisions, and Supplies," and paid for out of appropriations. Apparently Elliott is peeved because he just found it out!

"What the Chinaman Thinks of the Jew"

THE MATERIAL in this Booklet is too priceless to ignore. For thirty generations, the world has been forced to listen to a lacrimose wailing that Christians persecuted Jews because Jews crucified their Christ. It took a Chinaman, however—Dr. H. Sing Woo—to set forth the case of all non-Jewish peoples against the Israelites with clarity and power. Dr. Woo wrote his monograph on the subject eight years ago, but it has now been brought out in a 24-page brochure for America's anti-Judaists to use in squashing the silly argument that religion is in any way involved in the battle line-up between Israelite and Aryan. It sells for only 10c a copy. Why not buy a hundred and pass them out among your friends?

By their Deeds Are they Known

WHEN Martin Dies puts an Army man of the sterling character of Major-General George Van Horn Moseley "on the pan" for "un-American activities," the Jew Lover from Texas is certainly juggling dynamite. Moreover, he's branding his Committee for exactly what it is: a Federal Jewish Protective Gang, operating on taxpayers' money. Major-General Moseley was out on the battlefield risking his life in the service of his country, when the infantile Martin Dies was screaming to have his diddies changed. To "go after" Moseley— or any wealthy man who may have been circulating General Moseley's anti-Red-Jew speeches—pegs the whole Dies gesture as an alien inquisition and before the summer is out, Martin may find his caterwauls about alien menacings as he has "discovered" them, met by wrathy Americans with a disastrous Bronx Cheer—disastrous, that is, for Martie, who shows the colossal stupidity to put men like Major-General Moseley in the hot seat, thinking they will squirm. . . .

THAT the Dies Committee—obviously acting in collusion with our new American Gestapo, the FBI—will conduct its sessions as Star-Chamber hearings, is another bit of news that means stronger support for the patriots. Getting anti-Semites into committeerooms, fastening all doors, then third-degreeing them in order to emasculate their effectiveness against predatory Jewry, is a bit of procedure taken directly from the Moscow Politbureau. If the Committeemen were operating with a psychology a bit less Yiddish, they would realize that such methods only *strengthen* the stamina of the men so pressured and make them more savage fighters than they ever were before. Real Americans are getting fed up on the whole nasty nuisance.

THEY are expressing their satiation to senators and congressmen in letters that frequently require typing on asbestos paper, particularly concerning J. Edgar Hoover's assignment of G-Men to visit and question readers of the Pelley Publications. From Capitol Hill comes the following blistering questionnaire which it is suggested that LIBERATION readers ask J. Edgar Hoover—

"Something like $300,000 has been earmarked and approved by the House Appropriations Committee for use of the FBI, after J. Edgar Hoover reported that activities of Foreign Spies are 'alarmingly on the increase,' the fund sanctioned by the Committee to be used by Hoover in financing *a counter-espionage by G-Men* . . By whose authority does J. Edgar Hoover's force suddenly act for the Secret Service in the State Department? Who says there is any *unusual* foreign-spy menace outside of himself and a crowd of Jews who may not have wholly satisfactory supervision of the State Department men in persecuting Germans and vigilantes? What about Hoover's 'investigation' of personnel in the Government Printing Office? What about his "investigation" of the reputed suicide of Jess Smith, who allegedly shot himself in the Wardman Park Hotel during the Harding Administration? Wasn't it a G-Man who was last seen in Smith's company? To whom did J. Edgar Hoover present a diamond-studded machine gun in Hollywood? Did J. Edgar Hoover really perfect the criminal finger-printing system in the Department of Justice for which he now gets so much sloppy adulation, or was it a veteran employe of the Department by the name of Graves? To what extent did J. Edgar Hoover personally investigate for the Justice Department in the field before having been made 'Director' over all other G-Men, and why was he so favored? Did he ever in his life complete a single investigation successfully on his own account? Is J. Edgar Hoover a member of the United States Reserve Intelligence, USA, and where does this leave him in event of a war? Was J. Edgar Hoover ever chastised for his part played, or not played, in the Fred A. Bradley investigation in Buffalo, during the Coolidge Administration? Is it not true that his testimony before the Sub-Finance Committee of the Senate in January, 1932, should have cost him his position, inasmuch as he admitted wilful failure to properly investigate charges, being head G-Man at the time? Does passing such a matter off by testifying to the effect that he 'received his orders from higher-ups as to the extent of the investigation' render him immune from charges of being an accessory before or after the act of malfeasance, when he knew that wrong had been done? What influence operated, bringing about so little investigation of the bankrupt Central Bank in western North Carolina in 1931, by the Department of Justice, when stockholders and depositors in the politically-looted bank kissed something like four million dollars goodbye? Wasn't it Sheriff Joe Anderson of Kansas, and not the wildly-touted G-Men who apprehended Alvin Karpis? By what code of law do G-Men shoot criminals down first and ask questions afterward, when the Constitution says that even the blackest criminal may have a trial by jury?" Yes, G-Men and their "brilliant" young chief have no particular monopoly on asking embarrasing questions.

THE WHOLE Administration, reeking with the stench of political espionage, is now encountering angry cohorts of victims who by no means catch the next boat for Europe as their names are called, and the repercussions are making life easier for the "anti's." Senator Bob Reynolds happens to be tasting how it feels to be roasted as a Nazi and a Fascist merely because he can't see his country sold without protest to the Yiddisher Plunderbund and native Americans shipped to South America to make room for Jews from central Europe. Truly was it said a long time ago: "By their deeds shall ye know them!"—*"Un-Americanism," indeed!*
