ORION TO HIS READERS,

HEALTH, WEALTH, AND THE WISDOM OF THE STARS.

"I tell of the whirling Stars,
I tell of dædal Earth,
And of Heaven—and the Giant Wars,
Of Love, and Death, and Birth."

The Author, this year, has to thank his friends for the patronage they last year, 1880, so liberally manifested by enabling him to sell a very large edition; and he comes before them with renewed zeal and improved powers of Prognostic in the Astral Doctrines.

PLANETARY INFLUENCE.

Remember, gentle Reader, the Planetary Signs are fully as powerful in *protection* as in *causing* mortal maladies. Thou hast, therefore, this consolation, that if the vital significators in thy Horoscope presage Life, the terrors around thee will be vain, and the "Phantom Dart" will pass thee harmless!

TO CORRESPONDENTS.

All letters and communications for **Orion** are to be addressed to MR. JOHN HAMMERTON, *Millfield*, PETERBOROUGH. *The strictest secrecy will be observed.*

N.B.—In consequence of some impudent impostors in various parts of the country assuming the name of Orion, &c., the public are informed that no other address than the above is genuine.

NOTE.—This Almanac will be forwarded Post Free to any part of *Great Britain*, *Ireland*, or the *Channel Islands*, on receipt of *Seven* Postage Stamps in a *free* Letter addressed to

MR. JOHN HAMMERTON, Millfield, PETERBOROUGH.

Digitized by Google

PROSPECTUS OF TERMS.

TERMS FOR NATIVITIES.

Several Correspondents having wished for a Statement of *Terms*, ORION begs leave to inform them that for a NATIVITY with a "General Judgment" thereon, his *Terms* are 5s.; and if "Judgment on Marriage" be added to the same, 7s. 6d.; payable in advance by Postage Stamps, or Post Office Order, to MR. JOHN HAMMERTON, *Millfield*, PETERBOROUGH. Post Office Orders to be made payable at *Millfield*, (Peterborough).

Observe.—Give your *year*, *day*, *hour*, and *place* of birth; your sex, also whether *married* or *single*.

QUESTIONS ON MARRIAGE.

ORION may be consulted (by letter only) as to the result, issue, or success of his or her future courtship and marriage, with a description of the wife or husband, &c.; Fee, 2s. 6d. or 30 *uncut* postage stamps, payable in advance to Mr. J. H. (as above).

N.B.—The *year*, *day*, and *hour* of birth; and the *sex* of the Native must be given.

THE PLANETARY TRANSITS.

Persons desirous of this valuable Information for *twelve* months to come, should send their *year*, *day*, and *hour* of birth, their *sex*, whether *married* or *single*, and 30 uncut postage stamps, payable to Mr. J. H. (as above).

GOOD AND EVIL DAYS.

Persons desirous of this valuable Information for the year 1881, should send their *year*, and *day* of birth, and 30 *uncut* stamps in a free Letter, addressed to Mr. J. H. (as above).

CAUTION.—Persons consulting "ORION" are requested to transmit the *fee* by Post Office Order, wherever convenient; the miscarrage of Stamps (in Unregistered Letters) being not only a *loss* to the senders, but *most* unpleasant to MR. HAMMERTON.

☞ *The Strictest Secrecy and Punctuality will be observed.*

ALL PERSONAL INTERVIEWS DECLINED.

THE SOLAR TRANSIT.

The *Solar Transit* when *once* calculated for 12 *months*, will serve the Native as a guide and a reference for a Life-time. The *fee* for this valuable Information will be £1 1s., payable by Post Office Order to MR. JOHN HAMMERTON (as above).

ORION'S

ASTRO-BOTANIC COMPOUNDS !

A Box sent Post Free on Receipt of 14d. uncut Stamps, addressed to M. P. HAMMERTON, *Millfield*, PETERBOROUGH.

ORION'S SOLAR PILLS.

(FOR EITHER SEX.)

These Pills claim a pre-eminence over most other medicine which comes before the public, as forming a mild laxative tonic remedy, and they are a never-failing cure for indigestion, bile, loss of appetite, windy stomach, dizziness, spasms, liver complaints, heartburn, languidness, and nervous affections. They give *regularity* to the bowels, *strength* to the nerves, *freshness* to the countenance, and *vigour* to the whole frame !

ORION'S LUNAR PILLS.

(FOR THE FEMALE SEX.)

The salutary effect exercised by these Lunar Pills, over all kinds of Female indisposition is astonishing. Their peculiar qualities well fit them for a domestic medicine for Females of all ages and periods of life. They quickly eject all impurities from the system, and regulate the secretions, dispelling lowness of spirits, and by their stimulant action brace and strengthen the nervous system in a most extraordinary manner.

ORION'S PULMONIC PILLS.

(FOR EITHER SEX.)

For coughs, colds, asthma, tightness in the chest, a difficulty in breathing. It is impossible to describe the good effects these Pills have produced ; they allay the irritation which provokes coughing ; and many who with difficulty could breathe at all in a recumbent position, have by taking one dose of them, been able to enjoy that sweet repose so requisite to human nature.

N.B.—Sold in Boxes by Agents at 1s. 1½d. per Box.

JANUARY, 1881.

Planetary Influences.

On the 2, 6, 8, 16, court the acquaintance of religious persons.
On the 5, 13, 21, 27, generally unfortunate and accidents occur.
On the 8, 9, 18, 24, court or marry, visit the fair sex, invite, &c.
On the 9, 16, 25, 30, generally fortunate, solicit fair persons, &c.
On the 10, 14, 19, 21, strange occurrences and unexpected evils.
On the 20, 24, 28, 30, rather good days for agitating any new affair.

ATMOSPHERIC DISEASES, &c.

By temperature of air we find
Changed is the body and the mind.

Colds, catarrhs, and all inflammatory diseases of the lungs are proverbially prevalent this month, but proper care and caution will render them less liable to attack the adult. There are indications of epidemics, such as cold chills, pains and obstructions in the head, violent coughs, eruptive sores, asthma, with small-pox, fevers, &c.

Birthday Information.

Applicable to persons in all Parts of the World.

The 8th is rather unfortunate for professional men who were born on that day; they must avoid hazardous speculation. The 3rd is a rather good day for military and surgical men who were born on that day. Much uncertainty and discomfort to persons who were born on or near the 12th of this month, in any year. The 14th, rather evil for single females who were born on that day. Those born on the 17th must beware of frauds on their property. Single females who were born on the 19th of this month, in any year, may expect slander and deception from the opposite sex.

ATMOSPHERIC DISEASES, &c.

During this month many unpropitious configurations form, denoting very unwholesome changes in the sanitary condition of the atmospheric gases, whence we look for fevers, pains and obstructions in the throat and neck, scarlatina, whooping-cough, with cutaneous eruptions, and inflammatory complaints, &c.

Birthday Information.

The square of Mars to Jupiter on the 5th will bring trouble, pecuniary losses and discredit to merchants, bankers, and lawyers, who were born on or near that period. The 8th and 9th are slightly beneficial. The 11th is rather accidental as a birthday; beware of enemies in the guise of friends. The 12th is good for farmers, and those who deal in the products of the soil. The 15th and 16th, as birthdays, are annoying and accidental. Natives who were born on the 18th may prepare for losses and troubles in business. On the 21st the aspects are good for wedlock. The 25th and 28th are unfortunate birthdays.

* This *column* is useful to Students for erecting *Astral Charts, &c.* The *narrow* columns contain the *Sun & Planets, Geocentric Longitudes.* †☽'s *Node*—This *column* shews you where the Moon crosses the Ecliptic

ATMOSPHERIC DISEASES, &c.

The Moon's changes portend this month to be of a sickly character, producing coughs and pulmonary affections, which will afflict those who are weak in the chest, and prove fatal in very many cases. Inflammatory complaints are still prevalent in London and elsewhere. Those much exposed to cold must prepare against chillblains and eruptions on the skin.

Birthday Information.

Uranus opposes the Sun the 2nd of this month, creating much uncertainty and discomfort to persons who were born on or near that day, in any year. Persons born on the 10th or 11th will be liable to meet with insults and annoyances from enemies or supposed friends. Persons who were born on the latter day will be liable to change their employment or residence. The 13th, as a birthday, will be slightly beneficial. The 18th and the 19th, conflicting, and far from fortunate. On the 22nd, better influences obtain; and Natives may look for pecuniary benefits and advantages according to their sphere of life. The 30th, not important, but rather favourable for military or surgical pursuits.

ATMOSPHERIC DISEASES, &c.

The exhalations from the earth, occasioned by the increase of temperature, render it necessary for all who are predisposed to disorders of an agueish character, to shun the damp nights and avoid the misty mornings of this month. Affections of the chest and lungs will be very prevalent; asthma, cancer, phthisic, pain in the head, &c.

Birthday Information.

Those who were born on the 1st of April meet with success, promotion, and honours, according to their sphere of life. Persons who were born on the 5th of this month will experience benefits, and can engage profitably in business and improve their position. Those born on the 7th or 8th must avoid risks, and beware of enemies and opponents, and underhand acts against their welfare. Persons who were born on the 13th or 14th should avoid speculation, nor go beyond their means in any way. The 19th and 20th, as birthdays, find fortune rather favourable to them, and they succeed in their pursuits. The 25th and the 29th days are good for females and eccentric characters generally.

MAY, 1881.

Planetary Influences.

On the 1, 9, 23, 31, generally unfortunate, and accidents occur.
On the 2, 7, 16, 21, deal with bankers, merchants, or speculate.
On the 6, 12, 18, 20, strange occurrences, and unexpected mishaps.
On the 7, 8, 21, 30, generally fortunate in most undertakings.
On the 9, 14, 22, 25, good days for new connexions and friends.
On the 14, 21, 25, 30, rather good days for agitating any new affair.

ATMOSPHERIC DISEASES, &c.

Gout or rheumatism, pains and obstructions in the head and throat, many cases of bowel complaint attended with cramp. Some cases of apoplexy. The bowels should be kept open by gentle purgatives. The management of any disposition in this month should not be undertaken by the unprofessional. Persons of delicate constitutions should avoid the night air and the N.E. winds.

Birthday Information.

The 2nd and 3rd dates are rather good for single females who were born on either of those days; they will be generally successful in their engagements now, and for some time to come. A "time" to marry. Troublesome events for those whose birthday is on the 5th or 6th of this month. The 8th is rather beneficial for scientific characters. On the 12th, rather troublesome influence for those who were born on that day. But the 14th of this month is rather good for wedlock. Uranus stationary will cause much trouble and anxiety to persons who were born on or near the 1st of August. The 19th, is unfortunate for females. 31st, an evil birthday.

JUNE, 1881.

Planetary Influences.

On the 1, 9, 15, 24, woo or wed, buy fancy articles, visit, invite.
On the 2, 9, 18, 22, days for fraud in seemingly fair dealings.
On the 4, 13, 17, 26, generally fortunate in most undertakings.
On the 7, 14, 21, 29, the stars prophecy of accidents; be cautious.
On the 13, 17, 22, 27, rather good days for agitating any new affair.
On the 16, 23, 26, 27, with circumspection you may succeed well.

ATMOSPHERIC DISEASES, &c.

From the position of Uranus in Virgo there will be much pain in the back, stomach, and bowels. Flatulent cholic, stomachic diseases among the rising generation, also violent attacks of headache, &c. Let those who have a predisposition to any of the foregoing diseases prepare themselves with some botanic remedies.

Birthday Information.

The 4th is rather propitious as a birthday; push on business, seek promotion, ask favours of superiors, &c. But the 5th of this month is evil for love and marriage, which should not be celebrated on this day. 9th, trust not to be swayed by worldly considerations or insidious advice. 11th and 13th are good for the scientific. Persons who were born on the 14th will be subject to annoyances and disappointments. The 19th is rather good for surgical and military men; and the 20th is good for wedlock, for the "Morning and Evening Stars sing together." The 26th and 27th, as birthdays, are generally fortunate; ask favours; try new fields of enterprise, and be diligent, and pass not by good opportunities.

ATMOSPHERIC DISEASES, &c.

For this month we consult the figure for the Sun's entrance into Cancer. We find Saturn ruling the 6th house, and elevated above the Sun, which denotes throat affections very prevalent. The Moon and Mars conjoined in Aries, indicates violent headaches, inflammation of the eyes, with a high state of fever in the blood. Heart affections and sudden deaths unusually prevalent.

Birthday Information.

The 1st, as a birthday, is fortunate for landlords, farmers, and those who deal in the products of the soil, &c. The 2nd and 3rd days are rather beneficial for literary and eccentric characters. Persons born on or near the 6th must be careful to avoid accidents, affections of the throat, &c. Those born on the 30th of April, or the 1st of May, will be liable to hurts and inflammatory attacks. Persons born on the 12th or 13th of July, by making proper efforts, may benefit themselves in business. Single females who were born on the 19th will meet with many annoying circumstances. The 22nd is good for surgeons and military men. The 25th, as a birthday, is rather good.

ATMOSPHERIC DISEASES, &c.

The position of Jove and Saturn in Taurus will cause many diseases, brought about by disordered blood and hurried circulation, ending in fever and other inflammatory attacks; many droop and die. Uranus in Virgo, squared by Mars in Gemini, indicates bowel complaints very prevalent during the latter part of the month—hence diarrhœa of an obstinate character.

Birthday Information.

The 3rd and 4th of this month are evil birthday returns, and show loss of relatives, illness, and domestic troubles, &c. The 12th is rather good for those persons who were born on that day, in pecuniary matters. The square of the Sun and Jupiter on the 17th will bring trouble, pecuniary losses, and discredit to merchants, bankers, and lawyers born on or near that period. Saturn stationary on the 25th will subject persons who were born on or near the 2nd of May, in any year, to losses or domestic troubles. The square of Mars and Uranus will cause domestic affliction to persons born about the 3rd of May and the 5th of September, in any year. 25th, accidental.

ATMOSPHERIC DISEASES, &c.

The Sun passes the body of Uranus in the sign Virgo, which still indicates bowel complaints very prevalent, attended with spasmodic action. The Sun squared by Mars denotes violent headaches, fevers, and sudden deaths prevalent. Measles among children, and low fevers; rheumatism in low plains and marshy grounds; throat affections, &c.

Birthday Information.

Persons born on the 3rd of May are liable to have annoyances through eccentric characters. The 8th is good for persons who were born on that day, especially farmers and those who deal in the products of the soil. Persons born on or near the 6th of September, in any year, may expect slander, strange losses, and trouble in business matters, as well as troubles of a conjugal nature. The 12th, as a birthday, is conflicting, and rather unfortunate for single females. The 14th is rather untoward for females generally. Good for those persons who were born on the 17th or 18th of any May. Those born on the 21st of September must beware of mishaps, &c.

ATMOSPHERIC DISEASES, &c.

From the position of Mars in Cancer there will be much pain in the back, stomach, and bowels. Flatulent cholic, stomach diseases among the rising generation; also violent attacks of headache. Dropsies will afflict many women who were born under the sign Cancer, and be fatal to some; also many sudden deaths!

Birthday Information.

Aged gents. who were born on the 6th may sue the fair for favours. Those born on the 10th will have a mixture of griefs and joys. Females who were born on the 11th of this month, in any year, will be subject to annoyances and disappointments. Better influences obtain for those females who were born on the 17th. The 20th, as a birthday, is slightly beneficial, and by making proper efforts may benefit themselves in business. Those persons who were born on the 21st of October, in any year, will be liable to slight accidents and disputations. Those persons who were born on the 25th of this month may be wronged or injured in their affairs, &c. Single females born on the 28th will experience many annoyances.

NOVEMBER, 1881.

Planetary Influences.

On the 1, 6, 11, 20, good in some affairs, but beware of mishaps.
On the 3, 10, 18, 26, generally unfortunate and accidents occur.
On the 5, 12, 13, 20, the stars prophecy of accidents; be cautious.
On the 11, 14, 16, 29, generally fortunate in most affairs oflife.
On the 13, 21, 22, 26, rather evil days for agitating any new affair.
On the 19, 24, 29, 30, strange occurrences, and unexpected events.

ATMOSPHERIC DISEASES, &c.

Rheumatism and colds of the common kind will prevail from the variability of the temperature. From the stationary and retrograde position of Mars in Cancer many will be attacked by coughs, consumption, asthma, rheumatism, small-pox, fevers, &c. Rheumatic affections attack those persons who are liable to that plague. Avoid the night air.

Birthday Information.

Let all persons who were born on or near the 1st of this month, in any year, be guarded against speculations, and let them also be prepared for losses; affliction or sudden deaths among the members of their family. Females born on the 2nd of this month will be subject to sudden disappointments more than usual. The 7th, as a birthday, is rather good for military men, surgeons, dentists, cutlers, &c. Religious professors, bankers, lawyers, &c., who were born on the 12th or 13th of this month will experience losses, disappointments, and annoyances. Females who were born on the 21st of this month will be subject to slander and annoyances more than usual.

DECEMBER, 1881.

Planetary Influences.

On the 1, 7, 21, 27, generally unfortunate and accidents occur.
On the 2, 4, 12, 15, strange occurrences and unexpected mishaps.
On the 3, 8, 11, 16, generally fortunate in most undertakings.
On the 5, 13, 21, 26, these are days of deceit, mishaps, and strife.
On the 11, 16, 22, 29, good days for new connexions and friends.
On the 22, 25, 29, 30, generally fortunate; address the fair sex.

ATMOSPHERIC DISEASES, &c.

Pulmonic affections will prevail; asthmatic subjects will feel much oppressed; sudden exposure to cold will produce obstructions, hence eruptive sores, together with small-pox and measles; we also look for fevers, especially scarlatina; whooping cough, and dropsies; croup will be prevalent among children; quinsies and fever among adults.

Birthday Information.

Rather troublesome events for those persons who were born on the 1st or 2nd of this month, in any year. Better influences obtain for those persons born on the 3rd of December, in any year. Persons who were born on the 7th must avoid quarrels, and beware of accidents by water. Slightly good for those persons who were born on the 8th or 9th of this month. Generally fortunate for those born on the 15th, but they must beware of mishaps. Single females who were born on the 24th will be unfortunate in their engagements for a time. Persons who were born on or near the 12th of August will experience many evils. Those born on the 27th will be liable to quarrels and unexpected mishaps.

TO SET A CLOCK OR WATCH BY THIS TABLE.—Example, Jan. 1st. It will be found by looking into the Table, that a Clock to be right must be 3 minutes 59 seconds *faster* than a *sun-dial*; therefore set it so much faster accordingly, and so of the rest. Correct the Watch when the dial marks just an hour, 9, 10, 11, 2, 3, or 4 o'clock. Noon is not the best time for this purpose, nor near sun-rise or sun-set.

Digitized by Google

NATURE & CHARACTER OF THE TWELVE ZODIACAL SIGNS.

♈ *Aries*, Head and Face	Fiery	Masculine	Bilious.
♉ *Taurus*, Neck and Throat	Earthy	Feminine	Nervous.
♊ *Gemini*, Arms and Shoulders	Airy	Masculine	Sanguine.
♋ *Cancer*, Breast and Stomach	Watery	Feminine	Lymphatic.
♌ *Leo*, Heart and Back	Fiery	Masculine	Bilious.
♍ *Virgo*, Bowels and Belly	Earthy	Feminine	Nervous.
♎ *Libra*, Reins and Loins	Airy	Masculine	Sanguine.
♏ *Scorpio*, Secret Members	Watery	Feminine	Lymphatic.
♐ *Sagittarius*, Hips and Thighs	Fiery	Masculine	Bilious.
♑ *Capricorn*, Knees and Hams	Earthy	Feminine	Nervous.
♒ *Aquarius*, Legs and Ankles	Airy	Masculine	Sanguine.
♓ *Pisces*, Feet and Toes	Watery	Feminine	Lymphatic.

TEMPERAMENT OF THE PLANETS.

☉ *Sun;* hot and bilious, and rather barren.
☽ *Moon;* cold and moist, lymphatic, and rather fruitful.
☿ *Mercury;* cold and moist, nervous, and rather barren.
♀ *Venus;* warm and moist, sanguine, and fruitful.
♂ *Mars;* hot and dry, bilious, hasty, and barren.
♃ *Jupiter;* hot and moist, sanguine, temperate, and fruitful.
♄ *Saturn;* cold and dry, nervous, reserved, and barren.
♅ *Uranus;* cold and dry, nervous, eccentric, and barren.
♆ *Neptune;* warm and moist, nervous, and rather fruitful.

NATURE OF THE ASPECTS, &c.

Aspects from *aspicio*, to behold, the being placed at a certain distance from a planet, these are either *good* or *evil* aspects. As the *conjunction* (☌) or being in the same sign or degree of the zodiac, *good* with the good planets; as *Jupiter*, *Venus*, the *Sun*, the *Moon*. Any planet is *afflicted* when in *conjunction* (☌) with *Saturn*, *Mars*, or *Uranus*. *Semisextile* (S.⚺), *Sextile* (⚺), and *Trine* (△), are *good* aspects, with *all* the planets; and those days are said to be *lucky* when the *Moon* forms any of these aspects. *See* the "Lunar Aspects," commencing at page 8. The *Semisquare* (S.□), 45 degrees; the *Square* (□), 90 degrees; the *Sesquisquare* (SS.□). 135 degrees; and the *Opposition* (☍), 180 degrees; are *ill aspects* with *any* of the *planets*, therefore unfavourable to mankind in any honourable undertaking. *Parallel* or *P*, signifies an equal distance from the Equator, or being in the same degree of *Declination;* whether of the same name, *North* or *South*, is of no consequence. The effect of this position is exactly the same as that of a conjunction (☌), being good with *good* planets, as *Jupiter* (♃), *Venus* (♀), the *Sun* (☉), the *Moon* (☽); and *evil* with the planets *Saturn* (♄), *Mars* (♂), and *Uranus* (♅). *Vide* the "Mutual Aspects," commencing with Jan., page 8.

EXPLANATION.—The time of High Water at any of the foregoing places may be had, simply by *adding or substracting* the hours and minutes annexed thereto to the time of High Water at London Bridge. If the result give an amount beyond 12 hours, take away that quantity. EXAMPLE.—The time of High Water at *London Bridge*, on the 1st of September, is 6h. 5m. in the morning, from which, substracting 0h. 56m. we obtain the time of High Water at *Aberdeen Bar* the same day—viz.: 5h. 49m. in the morning.

Annuities, April and October		
Annuities, April 1855		
Life Annuities, if transferred between Jan. 5 and April 5, or between July 5 & Oct. 10	Jan. 5 and July 5.	Dividends are paid to the Bankers on the day they become due, and to the public the day following, from 9 to 3, unless the day they fall due be a Sunday. In this case they are payable to the Bankers on the Monday, and to the public on the Tuesday following.
Ditto, if transferred between April 5 and July 5, or between Oct. 10 and Jan. 5 ...	April 5 and Oct. 10.	
India Bonds, Interest due Mar. 31 and Sep. 30.	Jan. 5.	

Stamps for Transfer of Stocks and Shares.

Value.	Stamp.	Value.	Stamp.	Value.	Stamp.	Value.	Stamp.
£ £	s. d.	£ £	s. d.	£ £	s. d.	£ £	s. d.
5	0 6	20 to 25	2 6	100 to 125 ..	12 6	200 to 225 ..	22 6
5 to 10 ...	1 0	25— 50	5 0	125 — 150 ..	15 0	225 — 250 ..	25 0
10 — 15 ...	1 6	50— 75	7 6	150 — 175 ..	17 6	250 — 275 ..	27 6
15 — 20	2 0	75—100	10 0	175 — 200 ..	20 0	275 — 300 ..	30 0

And from £300 value and upwards, 5s. for every £50 or any part of £50.

NOTE.—The Consideration Money set forth in a Transfer may differ from that which the first seller will receive, owing to the subsales by the original buyer: and the Stamp Act requires that in such cases the Consideration Money paid by the sub-purchaser shall be the one inserted in the Deed, as regulating the *ad valorem* Duty.

A Table showing the Number of Days from any Day in one Year to the same in any other.

From	TO Ja.	Fe.	Ma.	Ap.	Ma.	Jun.	Jul.	Au.	Se.	Oc.	No.	De.
January	365	31	59	90	120	151	181	212	243	273	304	334
February ..	334	365	28	59	89	120	150	181	212	242	273	303
March.....	306	337	365	31	61	92	122	153	184	214	245	275
April	275	306	334	365	30	61	91	122	153	183	214	244
May.....	245	276	304	335	365	31	61	92	123	153	184	214
June	214	245	273	304	334	365	30	61	92	122	153	183
July.....	184	215	243	274	304	335	365	31	62	92	123	153
August	153	184	212	243	273	304	334	365	31	61	92	122
September..	122	153	181	212	242	273	303	334	365	30	61	91
October	92	123	151	182	212	243	273	304	335	365	31	61
November..	61	92	120	151	181	212	242	273	304	334	365	30
December ..	31	62	90	121	151	182	212	243	274	304	335	365

EXAMPLE.—To know the number of days from March 23 to July 23 following. Find March in the first column, and then in a line with that under July, is 122 days. If from March 23 to July 30 it would be 7 days more, 129 days; but if from March 23 to July 13, it would be 10 days less, or 112 days. In Leap Year, if the last day of February comes between, add one day to the number given in the Table.

EXPLANATION.—To ascertain any day of the week or month in any year of the above periods, first look in the Table of Years for the year required; under the Months are figures which refer to the head of the column of days (see next page) for the whole month.

FOR EXAMPLE: To know upon what *day* of the week QUEEN VICTORIA was born, look for the year 1819, and under the month of *May* you will find the figure 6, which directs you to column 6, and shows that the 24th of May was on a *Monday*.

USEFUL HINTS.—LEGAL & COMMERCIAL.

I. O. U's. are received in evidence as acknowledgments of debts.

The penalty attaches only to a person *giving* a receipt on *unstamped paper*.

A *copyright* extends to 42 years.

A *Judge's Order* is not superseded by the Statute of Limitations.

Employers are not obliged to give characters to servants, or to assign a reason for their refusal.

The *Statute of Limitations* does not avail a debtor living beyond the seas part of the time.

Waste Land by the side of the road belongs to the adjoining freehold or the Lord of the Manor.

Copper coin is not a *legal tender* beyond 1s., or silver beyond 20s., but gold may be tendered to any amount.

A person giving a *false character* with a servant, renders himself liable to an action.

Payment of *interest* on a debt takes it out of the operation of the Statute of Limitations.

Wearing apparel and tools are protected from seizure under an *execution* from the County Court.

The *Bank* of *England* does not allow interest on money deposited for security.

A *guarantee* for payment of a debt must be in writing.

Tradesmen cannot be compelled to sell their goods at the prices marked in the windows.

Goods *pledged* to a pawnbroker are considered forfeited after the lapse of a year and a day.

Legatees under a will should not be witnesses to its execution as the legacy is thereby rendered void.

One half of the personal property of an *intestate*, dying without children, goes to his widow.

A verbal *death-bed gift* of property is of no avail.

Persons may be married at any time within three months after the publication of *banns*.

Card-playing is not allowed in public houses.

An action may be sustained in the County Court for *defamation* of character.

The rules of a *Loan Society* must be submitted for certificate to Mr. J. M. Ludlow.

Persons acting as *jurors* in criminal cases are not paid anything for so doing.

County Court *witnesses* who reside within a certain distance are allowed mileage.

Publicans cannot recover for *beer, &c., consumed* upon the premises.

An Income Tax *Collector* is bound to demand the money only once.

Money won at *billiards* cannot be recovered.

The deposit of *Title Deeds*, with a letter or memorandum of the object, will operate as a mortgage.

Persons exposing *fireworks* for sale without a license, are liable to a penalty of £5.

A *promise of Marriage* need not be in writing to sustain an action for a breach of it.

A master is not bound to pay his apprentice *wages* during illness or absence.

The death of a *legatee* during the lifetime of a testator renders the legacy void.

A *funeral* procession passing over land does not constitute a right of way.

No master can require more than reasonable *hours of servitude* from an apprentice.

An *entail* can be cut off by the present possessor and next heir.

OBSERVATIONS ON THE CLIMATE OF THE BRITISH ISLES.

JANUARY.—This is generally our coldest month; but in our variable climate, it, like other months, has no decided character. There is usually some change of weather near the 6th or 7th of this month, as it is the closing day of the Quarterly Storm period. When colder than usual, the extreme of frost generally occurs between the 13th and 26th days. Strong westerly winds usually prevail in mild winters, near the close of the month. But in variable seasons after mild weather it becomes severe at the end, and goes on for another fit of winterly weather.

FEBRUARY.—In this month we have frequently frost and snow, and more generally chilling rains and sleet, which are yet more uncomfortable than the direct severities of January; yet occasionally a few days present a singular contrast of brilliancy and clearness. Many severe winters break about the 9th or 24th of this month, either for a time or entirely.

MARCH.—This month is the opening period of vernal vicissitudes, and violent gales now often occur from any point, but more generally about the 20th from S.W. If rain and wind prevail much between the 17th and 21st from S.W., expect a showery summer; but if N.E. winds prevail, look for a drier summer than usual. Whenever very calm and soft sunny weather comes hastily in March, we may be certain that it will only bring back some of the horrors of winter as suddenly.

APRIL.—This month is the time for the greatest vicissitudes, especially in the temperature. So great are the changes, and often so sudden, that the heat of summer, and the cold of ordinary winter, may make frequent alterations in less than a fortnight, so that at no other period is it so needful as now for the delicate, to guard themselves to meet it. About the 23rd, there is usually a change of weather to very warm, if it has been long previously cold. Sometimes real summer heat comes all at once, between the 23rd and 27th, attended by thunder.

MAY.—This month is almost as changeable as the preceding, and much N.E. wind usually prevails. A strong breeze from the East on or near the 20th, may in some years prevail, and in such case it foreshows a dry and barren time. A marked change to warmer air about the 10th and 15th, and even when the East wind continues late in the month, its chilling effect becomes very much softened, so that we often have hot weather at the close of May, attended by thunder and hail.

JUNE.—A marked difference in the weather is manifest about the 12th day of this month; summer often fully opens then, and often suddenly, after previous cold and gloom. Severe thunder and hail at times prevail in June, especially during Midsummer week. Whenever the clover crop is forward enough to be cut by the 12th, it generally proves to be the best period to secure it; from that day to the 20th, rather than afterwards.

OBSERVATIONS ON THE CLIMATE OF THE BRITISH ISLES.

JULY.—During this month the winds usually blow from S.W. and S.E. In showery seasons the former are predominant, and many heavy thunder storms prevail from the 6th to the 8th day, which time must be watched for travelling, pleasure, or haymaking. The aforesaid days, and the 15th, 23rd, and 29th, are generally found to be attended with thunder storms, or some atmospheric disturbance. The hot breezes from the E. and S.E., threaten us with thunder from S.W., which is sure to come if a sudden fall of the barometer occurs during intervals of bright hot weather.

AUGUST.—This month is another important period, both for the farmer and the nation generally, and the barometer must be consulted, and the point of wind regarded. It is usually a month of great heat, owing to the radiation now produced by the heated Earth. The prevalent wind now is S.W., with intervals of E. and N.E.; and when a breeze at E. or S.E., and much heat prevails at the time, we anticipate sudden thunder storms from S.W.

SEPTEMBER.—This month, in some years, we have great heat, like to summer, for the heat of the soil counteracts the shortening of the solar power from above, and cause strong radiation. The weather of this month is mostly opposite to that of May in the same year. We often experience storms and atmospheric disturbance during the last week of this month, produced by the equinoctial crises, which is the *fourth* period noted for storms, when we should be cautious how we venture on a pleasure trip; watch the barometer, and avoid the sea.

OCTOBER.—Some atmospheric disturbance usually obtains up to the 7th or 8th of this month, attended with strong winds, thunder, or violent rains. In a few instances we have this month dry and summer like; but it is more generally a time of great rain than otherwise; yet bright sunshine and great warmth may intervene. Towards the end the emblems of the dying year present themselves in rapid and melancholy succession, by the fall of the foliage, and the moaning gale heralding the icy car of winter.

NOVEMBER.—The shortened days, and the frequent cold rains and fogs, fully justify the title which has been given to this month, viz.,—"The gloomy month of November"—yet in some seasons, we have known many fine and bright days in this month. Near the end we often have some frosty and keen nights, or violent gales, which complete the fall of the foliage.

DECEMBER.—It is noticeable that the 6th, 22nd, and 31st of this month, if mild weather, generally produce violent winds. The last Quarterly magnetic Storm Period commences on or about the 21st of this month; and this is one crisis of some great change or fresh establishment of weather. Mild Autumns now give place to cold weather, or cold seasons for a time give up to mildness and storm.

Horticultural, Botanical, and Herbal Guide,

FOR 1881.

JANUARY.—In open and dry weather sow in mild exposure for a succession a few early frame peas, common beans, short-topped radishes, lettuces, carrots, onions, spinach, and curled parsley, protecting them from the frost by mats or straw. Plant, prune, and train fruit trees and bushes. Form new flower gardens, and shelter from frost, tender evergreens, tulips, &c. Plant snowdrops, crocuses, &c. *Herbs* to be gathered: are groundsel, chickweed, archangel, and others which are in flower.

FEBRUARY.—Make ready all the ground intended for early crops; and when the weather is favourable, continue to sow every fortnight peas, beans, onions, spinach, savoys, lettuce, celery, cauliflowers, carrots, parsnips, and radishes. Cut early kidney potatoes for seed, and put them in a stove or hot-bed in order to start them for planting out. Plant out evergreens and shrubs of all kinds, particularly roses, &c. Prune vine and fruit trees. *Herbs* to be gathered: foalfoot, lingwort, pilewort, speedwell, chickweed, shepherd's purse, and broom.

MARCH.—The principal crops of vegetables should be put into the ground this month. Sow asparagus, celery, cauliflowers, broccoli, spinach, onions, carrots, peas, beans, savoys, parsnips, radishes, &c. Plant red cabbage and sea-kale: sow cucumbers and melons in hot beds. Finish pruning, dress borders and strawberry beds. This is the best time for grafting fruit trees, perpetual and moss roses, &c. Pot dahlias and cuttings. Plant pinks, polyanthuses, carnations, &c. *Herbs* to be gathered for medicinal purposes: coltsfoot, fumitory, pilewort, ladyfrock, lesser celandine, violet and comfry roots, and all kinds of herbal bark.

APRIL.—Continue to sow and plant rhubarb, artichokes, asparagus, sea-kale, Dutch turnips, German greens, and small salading. Earth up peas, tie up lettuce, and in very dry weather, water seedling beds. Finish the grafting of fruit trees, and train and clean walks and edgings. Sow annuals, biennials, and perennials. Plant evergreens and propagate by cutting, jasmine, lavender, sage, rosemary, rue, &c. Sow early Dutch turnips. *Herbs* to be gathered: ground ivy, dandelions, avens, buttercups, and others which are in flower, as well as all kinds of bark.

MAY.—Sow peas, cucumber, red beet for pickling, and a full crop of kidney beans. Transplant cabbages. winter greens, cauliflowers, and celery. Hoe and stake peas, water newly-planted crops, and propagate aromatic plants by slips or cuttings. Plant dahlias, if there be no appearance of frost, and protect from wind and rain, choice tulips, &c. Propagate herbaceous plants by dividing the roots. *Herbs* to be cut: celandine, milkwort, moonwort, wood sorrel, and adder's tongue.

JUNE.—Top beans and peas to assist the filling of the pods. Set kidney beans, and transplant cabbage, savoys, broccoli, and sow turnips. Thin out onions, leeks, carrots, parsnips, and early turnips. Gather and preserve kitchen herbs. Shade and air melon plants, &c. Bulbous roots that have done flowering should now be taken up, and the off-sets separated. *Herbs* to be cut: avens, brooklime, centuary, comfry, woodbine, valerian, eyebright, pimpernel, speedwell, and elecampane.

Digitized by Google

Horticultural, Botanical, and Herbal Guide,

FOR 1881.

JULY.—In this month prepare all unoccupied plots of ground for autumn and winter crops. Sow turnips, radishes, &c. Plant out broccoli, cauliflowers, savoys, leeks, and winter cabbages, and earth up celery. Lift full grown winter onions, and prepare mushroom spawn. In fine weather, gather medicinal flowers and sweet herbs, when in bloom, dressing them first in the sun, & then in the shade for winter use. *Herbs* to be cut are all that are in flower, as lavender, tansey, vervain, bed-straw, agrimony, cinquefoil, mountain flax, foxglove, and meadow sweet.

AUGUST.—Sow early cabbages and parsley for the succeeding year; also spinach, broccoli, and cauliflowers to stand the winter; earth celery; hoe and thin turnips; transplant broccoli, savoys, and cauliflowers, and the principal crop of celery into the trenches for blanching. Make mushroom beds: propagate kitchen herbs by slips, and take up all onions, garlic and shallots that are withered in the stem. Sow the seed of bulbous flowers in pots. *Herbs* to be cut: all mints and sage, golden rod, pond weed, yellow gentian, tansey, mugwort, and loosestrife.

SEPTEMBER.—Plant savoys, broccoli, cauliflowers, leeks, celery, and perennial aromatic and pot herbs. Hoe winter spinach and turnips, earth up celery and cardoons, prick out cabbage plants, gather ripe seed, &c. Pull onions if the tops appear dying. Plant cuttings of gooseberries, currants, raspberries, and strawberries, taking out the old stools which have twice produced fruit. *Herbs* to be gathered: angelica, field gentian, valerian, feverfew, southernwood, briony, and wild berries.

OCTOBER.—Plant home radishes, early cabbages, and other greens neglected last month, in sheltered situations; also cauliflowers, mint, and tarragon, in frames for winter use. Earth up savoys and cabbages as high as the leaves. Take up carrots and parsnips, cut off their tops and bury them in dry sand. Crop the tops of parsley, to make fresh leaves for winter. Transplant fruit trees and shrubs after the 10th day. Gather tree seeds: and sow for stocks. *Herbs* to be gathered: ivy, yarrow, wall rue, shepherd's purse, broom, rape, wall cress, and wild berries.

NOVEMBER.—Dig the ground where the crops are carried off, and which is not intended to plant again till spring: manure and prune fruit trees. Shallots are readily propagated by off-sets. A stiffish soil and open aspect should be preferred. These off-sets, or "claws," should have their bases only pressed into the ground, without being covered. Tulips and hyacinth roots may be planted. *Herbs:* not many to be gathered this month for medicinal uses, except rose moss, rock fern, and polypody.

DECEMBER.—In this month forward the business of manuring, digging, or trenching vacant ground. Set all sorts of stones, kernels, &c. Complete tree planting, and forward all winter pruning. Continue planting various hardy roots, bulb and shrubs. If frosty weather, be particular to protect all tender plants, trees, &c. Earth up celery. Sow small salad in warm borders, covered with mats. *Herbs* to be gathered: rose moss, rock fern, polypody, evergreens, and the mistletoe.

THE MOON'S INFLUENCE ON VEGETATION.

Important to Gardeners, Farmers, Horticulturists, and Botanists.

The wisest man that ever lived and perhaps the greatest observer of the vegetable creation, and who obtained the greatest knowledge from experience, asserts, "I planted me vineyards: I made me *gardens* and *orchards;* and I planted trees in them of *all kinds* of fruits;" after which he says, "*To everything there is a season*, and a *time* to every purpose: a *time to plant*, and a *time to pluck* up that which was planted."—*Ecclesiastes.*

Who dare deny the above assertions? None but infidels. Who can say from experience that the Moon has *not* an *influence* on the growth of beans, peas, cabbage, vines, lettuce, cucumbers, hyssop, palm tree, lily, white roses, poppies, linseed, moonwort, colewort, &c.?

I challenge any gardener to disprove any of the following assertions.

1. That if *peas* are sown at the increase of the Moon, they *never* cease blooming.

2. That a *pomegranite* will live only as *many years* as the Moon was *days old* when it was planted.

3. That if fruits and herbs are set after the Moon is fifteen days old, they are neither so rich in flavour, nor so strong and healthy, as when the Moon is between three and fourteen days old.

4. Vines pruned during the Moon's increase will spread further than when pruned during her wane.

5. Shrubs and the like, if planted during the Moon's *increase*, and in ♊, ♎ or ♒, will take little root and shoot straight up.

6. Shrubs, if planted when the Moon is in ♉, ♍, or ♑, and on her *decrease*, will take deep root and strike downwards.

QUESTIONS.—Why do some flowers open their blossoms during night?

2. Why do some blossoms appear only while the sun is up?

ADVICE.—Sow peas, beans, &c., when the Moon is about the *full;* prune vines during the Moon's *last* quarter. Shrubs intended to grow quickly and luxuriantly should be pruned in the Moon's *second* quarter. Fruits and herbs should be planted in the Moon's *second* quarter. Shrubs intended to take deep root and grow slowly and stiffly, should be planted when the Moon is *past full*, and passing through the earthy signs ♉, ♍ or ♑. But if they are to take little root and grow tall and straight, plant them before the *full* Moon, and whilst she is passing either ♊, ♎ or ♒; this may be known by consulting the Calendar Pages, under the heading of *Moon's Long*. Gather seeds the *day after* the *New* Moon or a day or two *before the Full.*

ASTROLOGY AND MEDICINE.

A List of British Herbs and their Governing Planets.

SUN ☉.—The Sun rules over angelica, the ash and bay trees, one blade, burnet, butterbur, camomile, celandine, centaury, eye bright, St. John's wort, juniper bush, marigolds, mustard, pimpernel, rosa solis or sundew, rosemary, garden rue, saffron, tormental, vine, viper's buglos, and the walnut tree.

SATURN ♄.—Under the dominion of this planet are the following: barley, red beet, beech tree, bifoil, bird's foot, blackthorne, blue bottle, buck's horn, plantain, comfrey, darnel, dodder, elm tree, water-fern, fleawort, fluxweed, fumitory, gladwin, goutwort, heartease, hawkweed, hemlock, henbane, black hellebore, holly, ivy, knapweed, nightshade, polypody, shepherd's purse, snake weed, and woad.

JUPITER ♃.—This planet rules over agrimony, alexander, asparagus, avens, white beet, water betony, wood betony, borage, bilberries, chervil, chestnut tree, cinquefoil, dandelion, dock, endive, fig tree, clove, gilliflowers, hart's tongue, hyssop, house leek or sengreen, liverwort, lungwort, the oak, roses, sage, samphire, scurvy grass, and the lady's thistle.

MARS ♂.—This planet governs allheal, barberry, garden bazil, briony, brook lime, butcher's broom, brome rape, black cresses, crowfoot, cuckoo point, dove's foot, furze bush, garlic, gentian, hawthorn, hedge hyssop, hops, madder, mustard, nettles, onions, pepperwort, horse radish, rhubarb, savine, star thistle, tobacco, water pepper, and wormwood.

VENUS ♀.—This planet influences alkanet, alehoof or ground ivy, archangel, beans, lady's bed straw, bramble, bugle, burdock, cherry-tree, earth chestnuts, colt's foot, cudweed, cowslips, daisies, dropwort, dog mercury, foxgloves, golden rod, gooseberry bush, groundsel, herb robert, true love, mint, parsnip, pear tree, perriwinkle, plums, poppy, primrose, privet, queen of the meadow, wood sage, sanicle, selfheal, sorrel, sowthistle, strawberries, tansy, thyme, and vervain.

MERCURY ☿.—This planet governs calamint, wild carrots, carraway, elecampane, fern, fennel, germander, hazel nuts, horehound, hound's tongue, lavender, lily of the valley, liquorice, wallrue, maiden hair, wild and sweet majoram, mulberry tree, oats, parsley, cow parsnip, pellitory of the wall, southernwood, honeysuckle, and valerian.

MOON ☽.—The moon rules over adder's tongue, garden arrack, coleworts, chickweed, garden and wild clary, cleavers, coral wort, water cresses, cucumbers, flower-de-luce, cuckoo flower, lettuce, water lily, white lilies, loose strife, moonwort, mouse ear, orpine, pellitory of Spain, rattle grass, saxifrage, stonecrop, pearl trefoil, wall flower, and the willow tree.

WHEN TO GATHER THE VARIOUS HERBS ACCORDING TO PLANETARY INFLUENCE.

To procure the full virtue of herbs, they should be gathered when the governing planet is free from the □ or ☌ of the other orbs, and favourably configurated with the ☽ by ⚹ or △ aspect.

CLOUDS,

THEIR CLASSIFICATION AND PREDICTORY QUALIFICATIONS.

1st. CIRRUS.—These are of the least density and at the greatest elevation. They are generally seen first in penciled lines, when the barometer is high. This is the most beautiful cloud, and is prognosticatory of approaching *winds.*

2nd. CUMULUS.—The common large white clouds, like wool-packs. This is the "day cloud" of scripture, as it generally forms a few hours after sun-rise, and diminishes at sun-set. Multangular cumuli (many cornered) portend *showers.*

3rd. STRATUS.—This the *lowest* of all clouds, and denominated "the night cloud:" a mist in the evening and a fog in the morning. When it dispels with the morning breezes it denotes fine serene weather.

4th. CIRROCUMULUS.—Sometimes called *Sonder cloud,* a mass of small roundish clouds, something like a flock of sheep, in close horizontal arrangement. When it abounds in winter, gives occasional showers with gusts of wind.

5th. CIRROSTRATUS.—Often termed *Wane cloud.* In the zenith it is a mere bed of haze; and on the horizon it resembles shoals of fish, and sometimes it appears mottled. It generally precedes *wind* and *rain;* and is seen at the intervals of storms. Solar and Lunar halos, parhelia, &c., are formed in this cloud.

6th. CUMULOSTRATUS.—Irregular heaped, or multangular clouds, appearing like rocks and towers, or mountains of snow, tinged at the edges with a dark cast; often termed the "thunder cloud." When this cloud prevails expect *sudden* and *heavy showers.*

7th. NIMBUS.—This is the rain cloud. It frequently obscures the face of our hemisphere, and in this case seldom produces any great quantity of continued rain. It frequently passes into the *thunder* cloud, when electricity abounds, we then experience drenching rains.

MISTS.—If mists vanish rapidly, without rising to the hills, they also indicate fine weather; but when they ascend, and are suspended over the hill tops, rain will generally follow within two days.

RAINBOWS.—A rainbow seen in the morning, gives small rain; if seen at noon, settled and heavy rain; if seen at night, fair weather.

SKY.—In the winter months, a red sky at sun-rise indicates steady rain before the sun rises on the following morning The same appearances in the summer months indicate occasional showers; and squalls of wind generally accompany in both cases.

Rules by which the Personal Estates of Persons Dying Intestate are Distributed.

If the Intestate die, leaving	*His representatives take in the proportion following.*
Wife and child, or children	One-third to wife, rest to child or children: and if children are dead, then to the representatives (that is, their lineal descendants), except such child or children, not heirs-at-laws, who had estate by settlement of intestate, or were advanced by him in his lifetime, equal to other shares.
Wife only	Half to wife, rest to next-of-kin in equal degree to intestate, or their legal representatives, or, if no next-of-kin, to the Crown.
No wife or child	All to next-of-kin and their legal representatives.
No wife but child, children, or representatives of them, whether such child or children by one or more wives	All to him, her, or them.
Children by two wives	Equally to all.
If no child, children, or representatives of them	All to next-of-kin in equal degree to intestate.
Child and grandchild by deceased child	Half to child, half to grandchild, who takes by representation.
Husband	Whole to him.
Father, and brother or sister	Whole to father.
Mother, and brother or sister	Whole to them equally.
Wife, mother, brother, sisters, and nieces	Half to wife, residue to mother, brothers, sisters, and nieces.
Wife and father	Half to wife, and half to father.
Wife, mother, nephews, and nieces	Half to wife, one-fourth to mother, and other fourth to nephews and nieces.
Wife, brothers or sisters, and mother ..	Half to wife, half to brothers or sisters, and mother.
Mother, but no wife, child, father, brother, sister nephew, or niece	The whole to mother.
Wife and mother.....	Half to wife, half to mother.
Brother or sister of whole blood, and brother or sister of half blood.....	Equally to both.
Posthumous brother or sister, and mother	Equally to both.
Posthumous brother or sister, and brother or sister born in lifetime of father	Equally to both.
Father's father, and mother's mother ..	Equally to both.
Uncle or aunt's children, and brother's or sister's grand-children	Equally to all.
Grandmother, uncle, or aunt	All to grandmother.
Two aunts, nephew, and niece	Equally to all.
Uncle and deceased uncle's child	All to uncle.
Uncle by mother's side, and deceased uncle or aunt's child	All to uncle.
Nephew by brother, and nephew by half-sister	Equally *per capita.**
Brother or sister's, nephew or nieces...	Where nephews and nieces taking *per stirpes*, and not *per capita*.
Nephew by deceased brother, & nephews and nieces by deceased sister	Each in equal shares *per capita*, and not *per stirpes*.
Brother and grandfather	Whole to brother.
Brother's grandson, and brother or sister's daughter	To daughter.
Brother and two aunts	To brother.
Brother and wife.....	Half to brother, half to wife.
Mother and brother	Equally.

* That is, taking individually and not by representation. Thus, if *A* dies, leaving three brothers or sisters, they each take an equal part of his effects in his or her own right. But if either of them die, leaving children, his children would take his share *per stirpes*, that is, *through him*, and not in their own rights.

By the 19 & 20 Vict. all special *local* customs relating to intestates' estates are abolished.

CHRONOLOGY FROM 1780.

1780 War against Holland commenced.
1780 Riots in London, and Gaols burned.
1780 Spanish Fleet defeated at Gibralter by Admiral Rodney.
1781 Georgium Sidus discovered by Herschel.
1782 French Fleet, under De Grasse, defeated by Rodney.
1783 A general Peace.
1783 Fiery Meteor passed over England, August 18th.
1787 A Commercial Treaty with France concluded.
1789 A Revolution in France.
1792 Leopold, Emperor of Germany, died.
1792 King of Sweden shot at a Masquerade by Ankerstrom.
1792 France declared a Republic.
1793 King and Queen of France beheaded.
1794 French Fleet defeated in the Channel by Earl Howe.
1797 Spanish Fleet defeated by Earl St. Vincent.
1797 Dutch Fleet defeated by Viscount Duncan.
1798 French Fleet defeated near Egypt by Lord Nelson.
1801 Ireland United to England.—General Peace.
1803 War with France renewed after a Peace of 14 months.
1804 Napoleon Buonaparte made Emperor of France.
1804 Mangold Wurzel introduced by Dr. Lettsom.
1804 Sir Sidney Smith attempted to Burn the Boulogne Flotilla.
1805 Battle of Trafalgar, and Death of Nelson, October 21st.
1807 Copenhagen Bombarded and taken by the English.
1808 (July 13th,) "Hot Wednesday." Thermometer 99° in the shade.
1808 Louis Napoleon, Emperor of the French, born April 20th.
1810 Severe Gale and very High Tide, November 10th.
1811 A great Comet appeared in September, October, and November.
1812 Battle of Borodino.—Moscow destroyed by Fire.
1813 America declared War against Great Britain.
1814 Long and severe Frost.—Buonaparte Abdicated.
1815 Return of Buonaparte.—Battle of Waterloo, June 18th.
1815 "Holy Alliance" Ratified at Paris, 26th of September.
1815 One of the Lovliest Seasons ever known in England.
1816 Princess Charlotte of Wales married Prince Leopold, May 2nd.
1816 Vauxhall Bridge opened.—Savings' Banks established.
1816 Cold Winter; bad Harvest; and much Corn spoiled.
1817 Waterloo Bridge opened.—Princess Charlotte died, Nov. 6th.
1818 Imprisonment for Debt abolished in New York, December 6th.
1819 Southwark Bridge opened on the 24th of March.
1819 A large and striking Comet appeared in July.
1820 George III., aged 82, and the Duke of Kent, aged 52, died.
1820 Severe Frosts and deep Snows till the middle of March.
1821 (May 15th.) Died at St. Helena, Napoleon Buonaparte.
1821 Great Tumults in London at Qu. Caroline's Funeral, Aug. 14th.
1822 Mild Winter; Flowers bloomed throughout January.
1822 (April 12th.) 15,000 Greeks massacred by the Turks.
1822 Great Famine in some parts of Ireland.
1824 Lord Byron died at Missolonghi, Greece, April 19th.
1825 First Stone of the New London Bridge laid, June 1st.

CHRONOLOGY FROM 1858.

1858 (March 15th.) Great Eclipse of the Sun in England.
1858 Splendid Comet visible in September.—Weather very warm.
1859 (May 12th.) Volunteer Rifle Corps sanctioned by Government.
1859 An extremely Hot Summer with terrific Thunder-storm.
1859 Viscount Canning proclaimed first Viceroy of India, Nov. 1st.
1860 Very cold, wet, and stormy Season, and a late Harvest.
1860 Very severe (white) Christmas! Thermometer at Zero!
1861 A great *Comet* appeared in June, in the *ruling* sign of *London!*
1861 Terrific Fire in *London;* the *Sun* and *Comet* in *Conjunction!!*
1861 (Mar. 16th.) Qun. Mother died.—Dec. 14th, Pr. Consort died!!!
1861 Census of the Population taken on the 8th of April.
1862 Civil War in America.—Terrific Colliery Accidents, &c.
1862 (May 1st.) Opening of the Great International Exhibition.
1862 (July 1st.) H.R.H. the Princess Alice mar. to Pr. Louis of Hesse.
1863 (Mar. 10th.) Marriage of the Prince of Wales.
1864 (January) War between Germany and Denmark.
1865 (December 9th.) Death of the King of the Belgians.
1866 (Jan. 11th.) Total Loss of the Steamer "London" and 220 lives!
1867 (April 1st.) Paris Exhibition opened by the Emperor.
1868 Flight of Queen Isabella from Spain, September 30th.
1869 Royal Assent given to the Irish Church Bill, July 26th.
1870 The French declare War against Prussia, July 23rd.
1870 The French Republic proclaimed, September 4th.
1870 The "Captain" capsized, and 500 lives lost, September 7th.
1871 Civil War in Paris, and Massacre of the Hostages, May 27th.
1872 Great Eruption of Mount Vesuvius, April 26th.
1873 Death of the Emperor Napoleon at Chislehurst, January 9th.
1873 The Vienna Exhibition opened, May 1st. Civil War in Spain.
1874 Mar. of the Duke of Edin. to the Gr. Ducy. Marie of Russ., Jan. 23.
1874 Explosion of Gunpowder on Canal at Regent's Park, Oct. 2nd.
1874 Prince Alfonso proclaimed King of Spain, on December 31st.
1875 The "Mistletoe" run down by the "Alberta," August 18th.
1876 Prince of Wales' "Welcome Home" from India, on May 11th.
1877 Russia declared War against Turkey, on April 24th.
1878 Loss of the "Eurydice," nr. the I. of W., & 300 of her crew, Mar. 24.
1878 Paris Exhibition opened by the President, on May 1st.
1878 An attempt to assassinate the Emperor William, June 2nd.
1878 Death of the Ex-King of Hanover, June 12th, aged 59 years.
1878 "Princess Alice" sunk by the "Bywell-Castle," 700 lost, Sep. 3.
1878 Death of the Princess Alice of Hesse, Dec. 14th, aged 35 years.
1879 Massacre of 900 British troops in South Africa, January 22nd.
1879 Treaty of Peace with Afghanistan, signed May 26th.
1879 Death of the Pri. of Orange.—Death of the Pri. Imperial, June 1.
1879 Cetewayo captured by English troops, on August the 20th.
1879 Massacre of English Residents at Cabul, on Sept. the 4th.
1879 The Tay Bridge Disaster, and 70 lives lost, December 28th.
1880 Loss of the "Atalanta" Training Ship, & 280 lives, (Feb. 13th.)
1880 General Election during Easter Week under great excitement.
1880 Mr. Gladstone accepts the Office of Prime Minister, &c., Apr. 23.
1880 Death of the Empress Maria Alexandrovia of Russia, June 3rd.

ORIGIN OF THE DAYS OF THE WEEK.

1st day, *Dies Dominica*, the day of the *Lord* Sun ☉
2nd day, *Dies Lunæ*, the day of the Moon..... ☽
3rd day, *Dies Martis*, the day of Mars .... ♂
4th day, *Dies Mercurii*, the day of Mercury ..... ☿
5th day, *Dies Jovis*, the day of Jupiter .. .. ♃
6th day, *Dies Veneris*, the day of Venus..... .. ♀
7th day, *Dies Saturni*, the day of Saturn ..... ♄

It is a *fact* that of the seven days of the week being devoted to the seven planets was known *at* the first foundation of the Hebrew language.

VELOCITY OF THE WIND.

Light Air, hourly velocity		1 mile	Mod, Gale, hour, velocity		30 miles
Light Breezes	,,	5 miles	Fresh Gale	,,	45 miles

THE ECLIPSES, &c., IN 1881.

In the Year 1881, there will be *two* Eclipses of the *Sun*,
and *two* of the Moon,
and a Transit of Mercury across the Sun's disc.

I.—A PARTIAL ECLIPSE OF THE SUN,

May 27—28, *invisible* to England.

Begins on the Earth generally May 27th, 9h. 45m. 12s. p.m., in Longitude 104° 21′ E. of Greenwich, and Latitude 39° 14′ N.

Greatest Eclipse May 27th, 11h. 48m. 30s. p.m. (Mag. 0·740), in Longitude 13° 12′ E. of Greenwich, and Latitude 68° 19′ N.

Ends on the Earth generally May 28th, 1h. 51m. 54s. a.m., in Longitude 94° 34′ W. of Greenwich, and Latitude 46° 21′ N.

Mean Time at Greenwich.

From the above and other data it is evident that this Eclipse will be visible to Chinese Tartary, the Northern part of the Russian Empire, Siberia, Nova Zembla, Greenland, Hudson's Bay, the Arctic Ocean, and the Coasts and the Islands adjacent.

II.—A TOTAL ECLIPSE OF THE MOON.

June 12th, *invisible* to England.

Eclipse begins	June 12th, 5h. 10m. 42s. a.m.	Mean Time at Greenwich.
Middle of the Eclipse ...	,, 12th, 6h. 53m. 24s. a.m.	
Eclipse ends	,, 12th, 8h. 36m. 6s. a.m.	

Magnitude of the Eclipse (Moon's diameter = 1)1·348.

At the *First* contact with the Shadow, the *Moon* will be in the Zenith, and on the Tropic of Capricorn, and in 78° 53′ West Longitude; and during the *Middle* of the Eclipse, she will be Vertical to within *one* minute of a degree of the Southern Tropic, and in Longitude 103° 29′ W. of Greenwich; and the *Last* contact, she will be in the Zenith in Longitude 128° 4′ W., and still going along the line of the Southern Tropic. With respect to the more general appearance of this Eclipse, it will be visible to both North and South America, the North and South Pacific Oceans, and the Coasts and Islands adjacent.

A TRANSIT OF MERCURY ACROSS THE SUN'S DISC.

November 7—8, *invisible* to England.

External contact at Ingress	Nov.	7th,	10h. 16m. 0s. p.m.
Internal contact at Ingress	,,	7th,	10h. 17m. 0s. p.m.
Least distance of centres 3° 5′1·8	,,	8th,	0h. 56m. 0s. a.m.
Internal contact at Egress	,,	8th,	3h. 35m. 0s. a.m.
External contact at Egress	,,	8th,	3h. 37m. 0s. a.m.

Mean Time at Greenwich.

At the times of Ingress and Egress respectively, the Sun will be in the Zenith at the places whose positions are:—

Longitude 158° 5′ W.	of Greenwich	Latitude 16° 39′ S.	
,, 158° 31′ W.		,, 16° 39′ S.	
,, 121° 59′ E.		,, 16° 43′ S.	
,, 121° 33′ E.		,, 16° 43′ S.	

This curious phenomenon will occur on the 7th & 8th of November. It will commence at 10h. 18m. p.m., when the planet will be seen to Ingress upon the *Sun* by *retrograde* motion. The *Ingress* will be seen to commence when the Sun will be Vertical in Long. 158° 31′ W., and in Lat. 16° 39′ S., which place falls in the South Pacific Ocean, near to Cook's Isles. At the *Egress*, the Sun will be Vertical to the North-west Coast of Australia. This Phenomenon will be for the most part seen by the Inhabitants of the North and South Pacific Oceans.

III.—AN ANNULAR ECLIPSE OF THE SUN,

November 21st, *invisible* to England,

Begins on the Earth generally November 21st, 2h. 12m. 48s. p.m., in Longitude 137° 10′ W. of Greenwich, and Latitude 26° 40′ S.

Central Eclipse at *Noon*, November 21st, 4h. 42m. 18s. p.m., in Longitude 74° 2′ W. of Greenwich, and Latitude 84° 24′ S.

Ends on the Earth generally November 21st, 6h. 48m. 42s. p.m., in Longitude 1° 32′ E. of Greenwich, and Latitude 39° 5′ S.

From the above data, it is evident that this Eclipse will be visible on the South Atlantic and South Pacific Oceans, the Antarctic Ocean, Patagonia, Cape Horne, and the Coasts and Islands adjacent.

Digitized by Google

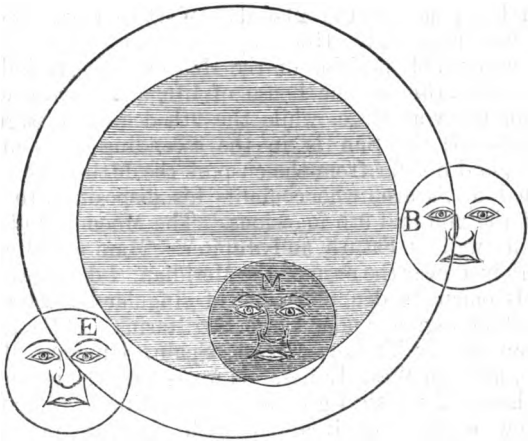

IV.—A PARTIAL ECLIPSE OF THE MOON,

December 5th, *partly visible* to England.

Eclipse begins	Dec. 5th, 2h. 16m. 0s., p.m.	Mean Time at Greenwich.
Middle of the Eclipse...	,, 5th, 5h. 8m. 18s., p.m.	
Eclipse ends.....	,, 5th, 6h. 49m. 0s., p.m.	

Magnitude of the Eclipse (Moon's diameter = 1) 0·973.

The following Type, which represent the Eclipse for London and Greenwich, will practically serve for the whole of Great Britain, and the Islands adjacent.

The letter B denotes the *Beginning;* M the *Middle;* and E the *End.*

At Greenwich the Moon will rise at 3h. 50m. p.m., slightly Immersed in the Earth's Dark Shadow.

At the middle of the Eclipse the Moon will be vertical or directly overhead, in Longitude 100° 42′ East of Greenwich, and Latitude 22° 10′ North, which place falls in the North Pacific Ocean, a little to the North West of the Ladrone Islands.

This will prove an interesting Eclipse in those parts of the Globe where the Moon has considerable elevation, and is visible during the whole time of the phœnomenon. This Eclipse will be visible in Asia, Australia, Europe, Africa, and on the Indian and Eastern Oceans.

THE WINTER QUARTER;

Or the Sun's Transit through Capricorn, Aquarius, and Pegasus.

"Silent indeed those orbs roll on,
Silent they rove the heavens upon,
And silent track their way;—
But as the eye doth glance along them,
A mighty tale is read among them—
Deeds of a future day!"

The Sun's annual ingress into the cardinal sign of the Goat takes place on the 21st day of December, 1880, at 10h. 32m. a.m. The Horoscope of the hour presents us with a remarkable position of the Heavens: the 12th degree of Aquarius arises on the house of life, and significator of the community at large, while the 9th degree of Sagittary is meridional; the Sun is in the ascending part of the heavens, and not far from the cusp of the 11th house; he is governed by Saturn, who commits his disposition to Mars, lord of the 2nd and 9th mansions. The Moon is under the Earth, as well as Saturn and Jupiter. Mars and Mercury are conjoined near the cusp of the Meridian. I decypher these heavenly omens to denote a time of singular importance *in evil* to those regions under Virgo, Sagittarius, and Capricorn, which are chiefly Turkey, Greece, Spain, Hungary, India, Mexico, and the West Indies. Mars is once more angular in the house of political greatness,—a sad presage for many who now swell themselves out with the lust of power. Mercury conjoined with Mars in the sign of the "Centaur," I fear denotes many accidents in the Hunting Field, more than usual; also many accidents to parties whilst attending Sports and Pastimes, or Travelling by Excursion Trains, &c., unless more than ordinary caution be used. The sign Cancer on the house of sickness, denotes that asthma, cancer, dropsy, phthises, coughs, and the various forms of bronchitis will be more than usually prevalent. From the position of Jupiter, ruler of the Midheaven, and in conjunction with Saturn near the cusp of the 2nd house, is significant of a a season of financial pressure, and of evil to the multitude engaged in the overwhelming speculations of the day. Loss and damage to vessels on long voyages from gales and violent storms.

THE SPRING QUARTER;

Or the Sun's Transit through Aries, Taurus, and Gemini.

"Now mark, ye swains, embrace the tepid breeze,
To plant your vines, your fruit and timber trees.
Your fibrous rooted plants, ye gard'ner's part,
And sow your annual flowers with curious art.
Mind now your orange and your lemon trees,
And to the air expose them by degrees."

The Vernal Equinox which Astrologers esteem as the basis for their grand Horoscope, whereby the fate of nations is read in the starry heavens, commences on the 20th day of March, 1881, at 11h. 25m. a.m.; at which instant of Sidereal time, 19° of Cancer are *Oriental*, and 19° of Pegasus *Culminate*. The stations, aspects, and configurations of the governing Stars are singular, eventful, and bode many mysterious circumstances connected with the fate of Europe and the Indian dominions. Jupiter ruling the 10th house, and going to a conjunction of the ponderous orb of Saturn, will cause numerous deaths amongst the nobility of the land; whilst the sepulchere will close on a clergyman of the highest rank—either an Archbishop, or one high in the Church Militant. Abroad too, Death levels his heaps indiscriminately. Unfortunately for the community at large, the virulent position of the baleful Star of Saturn will cause almost universal troubles among the bulk of the nations of Europe. At this Ingress, we observe the violent Mars in the 8th house, in square to the Lunar Orb, who is posited in the 5th house, and this fortells many sudden and violent deaths, and as Mars is elevated above the Moon, there will be earthquakes, and those very violent. The Weather will be either very cold or unusually boisterous, stormy, and productive of harm to the Agricultural world. A most remarkable catalogue of news will arrive from abroad.

Turkey's evil Star now reigns lord of the ascendant. Beyond the Atlantic, in the American States, some important events are occurring. The monied interest play a deep game; but they may be yet mistaken. The senate of Great Britain, or her prime Counsellors, are agitated in no usual way. We do not look for settled tranquility, on the contrary, cry of war or strife is near.

ORION'S MEDITATIONS

On the "Great Conjunction" of Jupiter and Saturn,

April 18th, 1881, at 2h. 5m. p.m.

The conjunction of these two ponderous orbs, Jupiter and Saturn, occurs in the 9th mansion of the expanse, and in 1° 37′ of the sign Taurus, which sign has great influence over Ireland. This important phenomenon will be the means of opening a new era to many places under the dominion of the sign in which it takes place: these are Ireland, Great Poland, and part of Russia; India, Persia, Asia Minor, the Archipelago, Mantua, Lepsic, Parma, Franconia, Loraine, Suez, Bythinia, Cyprus, Nantz, &c. As these mighty orbs continue their progress through space, these parts of the world will be fearfully affected; pestilence, famine, and war will follow their track. It will be the means of uniting the various tribes that inhabit the Russian frontiers, in which Empire great and mighty changes will take place; and even on the soil of Germany its effects will be fearfully visible. This mutation occuring in an Earthy sign, indicates great destruction to crops and fruits of the earth; also to cattle useful to man. The bills of mortality greatly increase, especially amongst the youthful and rising generation. A strange and new disorder may be expected to spring up, which will baffle medical science; its cause may be sought for in the air, but it will flow from the Earth and its productions. Laws of importance are enacted, pompous proceedings take place, joyous processions occur in the City of London; all this whilst France, Spain, and Portugal undergo their trials; and Sicily, Rome, Egypt, and Turkey are suffering some peculiar evil, and are on the eve of vitally-important alterations. Sudden and unexpected casualties overwhelm the inhabitants of Persia, India, Asia Minor, Arabia, and Tartary, and elsewhere; the Earth is rent asunder, and numbers are swallowed up in the ruins of towns and villages. As this "great conjunction" falls in the 9th house of the scheme, it denotes great troubles to the government upon religious matters. A cloud of troubles and difficulties hangs over Turkey; that nation is still experiencing the influence of Uranus in Virgo, and during April, 1881, will be opposed by Mars. Our Navy appears to be actively employed, and the warlike Mars tinges the blue waves with blood. No conjunction of Jupiter and Saturn has taken place in the sign *Taurus* since the year 1146!

THE SUMMER QUARTER;

Or the Sun's Transit through Cancer, Leo, and Virgo.

"I hold communion with the hush of night;
Yea, with the spirit of those silent hours,
When all the earth is still'd in deep repose.
The star-light heavens are as a wondrous book,
Wherein I seek to solve the dream of life,
And thread the mazes of futurity,"

The refulgency of the *Summer* may be said to have its Astronomical commencement on the 21st day of June, 1881, at 7h. 28m. a.m. The Sun then enters the constellation *Cancer*, and the celestial limits of his diurnal arc are extended to their greatest length. The theme of Heaven has 12° of *Leo* on the *Ascendant;* and 24° of *Aries* on the *Midheaven.* The fleeting Mercury squared by Mars is a sign of much affliction to the mercantile and trading part of the English Nation. The sign Aries on the Midheaven will cause the Aspects to prevail over the shipping and speculating interest. 12° of Aquarius are setting in the West, which will cause troubles and turmoils abroad, and 24° of Libra are North, angular, which will bring many scenes of popular disasters. Then we trace Venus in conjunction with Jupiter, and in trine to Uranus, a good omen for science and literature; marriages of note; many grand fêtes, &c., during this quarter. There are signs of great discontent, or perhaps of convulsions on the Continent. The Moon with Mars brings us a noted funeral. The positions of the planets in Taurus during July may be naturally enough expected to cause extraordinary bankruptcies, and many suicides, in consequence of mercantile failures. Both the Foreign and English Stock Exchanges will be in an uproar; many defaulters, wicked cheats, and imposing villians will be thrown up on the political surface of the national ebullition. A great clamour will be raised. But London's significator seems a star of some import in these all-important times; perhaps more so than that of any other nation: seeing that the signs greatly affect Gemini, London's Constellation. There are signs of dreadful storms in foreign parts, earthquakes, and other convulsions of nature. Many great ones droop and die!

Digitized by Google

THE AUTUMN QUARTER;

Or the Sun's Transit through Libra, Scorpio, and Sagittarius.

"I've been looking out on the lovely night,
The Earth was robed in the Moon's soft light,
Myriads of Stars were glittering on high,
And all was still save the wind's low sigh,
And I felt a calm steal over my mind!
Thou didst! 'Twas the voice of thy God in the Wind."

The Sun now once more pours forth his mild effulgence from the Celestial Balance, which Constellation he approaches and enters on the 22nd day of September, 1881, at 9h. 42m. p.m. As he enters among the first Stars of this sign, 1° of Cancer is Eastern, 25° of Aquarius are Southern, 1° of Capricorn is Western, and 25° of Libra are Northern, completing the Celestial quadrants. Alas! for Holland, Scotland, Algiers, and all countries ruled by Cancer! they are wofully stricken by the pernicious influence of Mars. Ere many weeks elapse, fires abound in those lands, and awful results from floods and destructive storms. Again is the Russian afflicted: feverish attacks, loss of ships by fire, and discomfiture by sea, are among the griefs which attend him. We would caution the good people of Manchester to be on the alert, to prevent and extinguish fires, which are found to abound there when Mars is in *Cancer*. Scotland is afflicted by riots and tumults, and serious accidents on railways, and by steam vessels. The influence during this Ingress is full of mischief for New York, Constantinople, Cadiz, Algiers, &c. Much town-talk occurs about a matter of rather a disgraceful character, in which a Clergyman or Lawyer plays a prominent part. Ireland still remains a difficulty to the Government; priestly intrigue and Popish bigotry are most busy in exciting the minds of that people. The moral tendency of the people appears to be retrograding to the zero point; frequent acts of violence, and fearful crimes result. Ere the Sun marks the 10th month in 1881 a fiery cloud of woe hovers over the destinies of the high and powerful in all parts of the mundane globe. America, France, Russia, Prussia, Austria, Italy, Turkey, Greece, &c., will not escape the fire of Mars, neither the hostile rays of the malignant orb of Saturn!

THE SKY.

"Fair sky! what hast thou in the time of spring?
Birds born along on the joyous wing,
Feathery clouds and fleeting showers,
Odours breathed up from the fresh-blown flowers;
Echoes of voices and song on earth,
Of the child's light laugh and the peasant's mirth;
Blue gleams bright from the sun-rays kiss
And trembling as if with excess of bliss.

And what is thine in the summer eve,
When the full bright sun hath taken his leave?
Clouds that are rich as young Hope's dreams,
Rainbows colouring and amber beams,
Flushes of crimson glory growing,
Like a maiden's blush, more intensely glowing,
Beneath the ardent gazer's view,
Purple twilight and fragrant dew.

What hast thou in the depth of night?
Grandeur, and beauty, and calm moonlight;
Stars—bright stars, on their thrones on high,
Making their voiceless melody;
Prayers sent up from the sleepless bed,
Sounds of the weary sentinel's tread,
Murmurs from forests by light winds stirred,
And sweet, sweet music from night's own bird.

What is below thee? a land of sin,
Where Sorrow and Death have entered in;
Where tears have darkened the brightest eyes,
And the rosiest lip breathes forth sad sighs;
Where the sunny curls blanche with the hand of Time,
And the purest spirits are tinged with crime;
Where the flowers, and trees, and the birds must die,
And all things tell of mortality.

What is beyond thee? a world where the power
Of Time cannot wither a single flower;
Where the earthy stains of our human clay
In the streams of mercy are washed away;
Where there comes not a shade o'er the tranquil brow,
And the voice never sounds in one tone of woe.
Fair sky! we forgot half our sorrow and care,
When we gaze upon thee, and think heaven is there."

PREDICTIONS & THEIR FULFILMENTS.

Brett's St. Leonard's & Hastings Gazette & Visitor's Vade Mecum.

PREDICTIONS. OUR INDIAN AFFAIRS. FULFILMENTS.

"Those holding power in India will find much that will give alarm and mistrust."—*Orion* for the winter quarter.

In January and February, the British were frequently molested by the Mohmunds, and another determined onslaught was expected. To put an end to these disquieting occurrences and other alarms, it was necessary in the opinion of the *Times*, sooner or later to declare the political aims we had in view.

THE DEATH-RATE AND THE WEATHER.

"Coughs, bronchitis, consumption, and many sudden deaths; and one cause of this will be cold and stormy weather during the winter."—*Orion.*

The winter was one of extraordinary severity, and the number of sudden deaths recorded in the *Times* was remarkable. Many fatal accidents occurred on the ice; and the total fatality was so augmented by frost and fogs as to exceed in one week the loss of British troops at the battles of Alma, Inkerman, and Balaclava. The number in London alone, was 1657 above the average, or at the rate of 48·1 per thousand.

SATURDAY, JANUARY 24TH, 1880.

TURKEY'S IMPECUNIOSITY.

"The monied interest appears under a shade, India, Turkey, and many of the European countries become agitated."—*Orion's Almanac.*
"Turkey will be singularly unfortunate."—*Orion's Almanac.*

IRISH DISQUIETUDE.

"Mars is hastening through Taurus, and brings evil on Ireland." — *Orion* for February.

Beside the evils already described, the Theatre Royal, Dublin, was consumed by fire on the 9th of February, with loss of life and much valuable property.

THE ZULU WAR.

"The expense of the Zulu war creates much discussion."—*Orion.*

In a discussion on affairs at the Cape, Sir Thos. Chamberlain contended that we had wasted our resources on the Zulu war, for which there was no justification, &c.

STORMS, EXPLOSIONS, &c.

"The powerful aspects of the planets this month [July] denote violent thunderstorms, earthquakes, and fire-damps and accidents in mines! *Orion.* Mars, Jupiter, and Saturn are located this month [July] in fiery signs."

Besides the earthquakes at Geneva and other places, there have been in our own islands during the expired portion of July, severe thunderstorms on the 1st, 2nd, 3rd, 7th, 8th, 10th, 13th, 14th, 15th, and 16th. The destruction of property, and the loss of life by fire and flood have been appalling, and the calamity has been increased by the extraordinary gas explosions on the 5th and 31st, and by the loss of 119 lives in a Welsh colliery on the 15th!

Digitized by Google

PREDICTIONS & THEIR FULFILMENTS.

Brett's St. Leonard's & Hastings Gazette & Visitor's Vade Mecum.

PREDICTIONS. THE CAPE. FULFILMENTS.

"Our territories at the Cape still demand attention." — *Orion* for January.

At that time the *Transvaal Volkstein* was violent in its tone, and asked, "Will Sir Garnet Wolseley forbid the meeting of the Volksraad? Will he use force? Will he put all South Africa in a blaze? All these things Sir Garnet was prepared to do if necessary, and arranged his forces accordingly.

VIOLENCE IN AFRICA.

"Mars in Taurus excites violence in parts of Africa."—*Orion.*

According to news from the West Coast of Africa at that time, Captain Easton bombarded Onitsha, because of the cruel conduct of the natives towards Europeans.

FAMINE AND STARVATION.

"Mars is hastening through the sign Taurus, and will bring evil on Ireland, Persia and Asia-Minor." —*Orion* for February.

At that time it was reported that 600 deaths from starvation had occurred in only one province of Persia. The famine and other evils in Ireland are too patent, and have already been referred to as a verification of more specific predictions.

MURDERS, FRAUDS, &c.

"Murders, frauds, etc., [in London]. Violence, and acts of cruelty to females." —*Orion* for February.

On the 28th of February there were 62 males and 2 females awaiting trial at the Central Criminal Court, although the jury had only been discharged a fortnight.

JUPITER IN ARIES.

"The most prominent of the astral configurations this month is the entrance of Jupiter into Aries. This will cause some remarkable changes. It is a time for the champions of the people to use their best endeavours, and they will meet with success."—*Orion.*

THE MINISTRY.

"I apprehend the Ministry will not be very firm in their places."—*Orion.*

A general election took place, which resulted in a resignation of the Cabinet, and thus proved that the Ministry were not very firm in their places.

FULFILLED PREDICTIONS.

"Mars on the cusp of the 5th house denote many troubles in *schools, theatres,* and places of amusements; trouble by *fire,* etc., some of which will fall to the ground."—*Summer Quarter,* ORION, p. 77.

The Duke's Theatre, London, was totally destroyed by fire on Sunday evening, July the 4th. The Sunday-School Centenary Celebrations generally were marred by very unfavourable weather; thus proving the influence of Mars on "places of amusements" for the rising generation when posted in the 5th house at the *Quarters.*

Digitized by Google

PREDICTIONS AND FULFILMENTS.

From "The Sleaford Gazette" of May 1st, 1880.

"ORION'S ALMANAC," has been much in demand at the *Sleaford Gazette* Office, lately. Its prophetic observations on the month of *April*, have been realized in a remarkable manner. We quote the following upon the fickle month just ended. "The most prominent of the astral configurations of the month is the entrance of Jupiter into the sign Aries. This will cause some remarkable changes to take place in our own and a neighbouring nation—it is a time for the champions of the people to use their best endeavours, and they will meet with success. [This has been remarkably fulfilled.] The conjunction of the Sun and Saturn, and the square of Mars and Jupiter, bodes some affliction to the family of a Royal Personage. [Empress of Russia]. A great magistrate or politician may die. [Disraeli is not dead, but Wright is.] The signs are ominous enough of popular deaths and calamities; and on the Continent, as well as in the East, expect important matters soon to happen that will cause the trump of Fame to sound loudly. [The late great successful Battles.] The 16th and 18th days are good for the benefics join in synod. [New Bishop of Liverpool.] Happy and benign in the 4th degree of England's ruling sign. Storms in divers places. [United States, &c."]

EXPLANATION OF THE HIEROGLYPHIC FOR 1880.

At the top of the Hieroglyphic will be observed destructive storms, shipwrecks, &c. In North America, storms have been more frequent and more destructive during 1880 than in any previous year on record. To wit: the great tornado in Iowa, Missouri, &c.; and the loss of life and the destruction of vessels in the Atlantic and the Bay of Biscay during the Winter and Spring of 1880 have been most appalling. We may name the total loss of the "ill-starred" ship, the "Atalanta," and her crew of 280 lives! The next illustration depicts an Indian scene, with troops in action; this has been verified by the renewal of the War with Afghanistan, &c. The middle compartment of the Hieroglyphic represents warlike indications both by sea and land, revealing the preparations, at the time I write, which are now going on in Eastern Europe. Turkey and Greece are said to be preparing for hostilities to the utmost of their power. At the bottom of the Hieroglyphic, on the left hand side, is an eastern landscape bestrewn with the dead and the dying—one in an attitude of mournful supplication. The famine in the Turkish districts of Bayazid, Alashgerd, and Van, at the time I write, is raging fearfully. Ten thousand people, chiefly Kurds, are reported to have perished from hunger! At the bottom of the Hieroglyphic, on the right hand side, is a view of the Harvest field; Aries the Ram; and the Horn of plenty. The Summer of 1880 shows abundance of corn, grass, and the fruits of the Earth, but which have been sadly laid waste by the destructive Thunder Storms during July. *Observe.*—A storm of rain and hail of a destructive nature is descending upon the Harvest field, which we hope may still be averted.

"God of the winds, oh! hear our humble prayer,
And while the Moon of Harvest shines, thy blustering whirlwinds spare."

WEATHER PREDICTIONS.

"Weather Predictions are very naturally regarded with much interest in our climate, and we may, therefore, give place to some speculations by *B. G. Jenkins*, in a paper 'on the Origin of Waves of Cold,' read at the Dulwich College Geographical Club, on Friday. The object of the paper was to show the very remarkable effect of the planet *Venus* upon the Earth. Many years ago, the Astronomer Royal proved that the disturbing effect of this planet was so great that the Earth was materially pulled out of its orbit. *Mr. Jenkins* shows that it is to this disturbing action we must look for an explanation of the cold waves which roll through the atmosphere on an average every eight years—as in 1829, 1837, 1845, 1853, 1861, 1870, 1878—and that for the next 40 years, the temperature will be below the average, as it has during the past forty years been above the average. With regard to high temperature, he stated that for the last 50 years, a heat wave has been observed to pass over the Earth every 12 years, nearly and contemporary with the arrival of the planet Jupiter about perihelion, and that we are on the eve of the next heat wave." *"Lloyd's Weekly Newspaper," July 11th, 1880.*

The Master of The Rolls on Luck.

"The sixth anniversary meeting of the Barristers' Benevolent Association was held on March 12, 1879, at Lincoln's Inn Hall. The Master of the Rolls, Sir George Jessell, presided. The Master of the Rolls in moving the adoption of the report, said, that 'every one knew that in the profession of the law, especially that portion of it which was devoted to advocacy, there was an uncertain result. There was one essential requisite of success, and that was good luck. Some men were for some reason or other unlucky, do what they would, and strive as hard as they could, they never succeeded in anything they undertook. Others fell down in the struggle, their physical health gave way under the pressure of pecuniary anxiety and annoyance at want of success, and to these the Association directed its help'."—*Daily Telegraph, March 13th, 1879.*

The Autumnal Meteors in 1881.

AUGUST METEORS.—The passage of the August Meteors in 1881, will take place on *Thursday*, the 11th of August, at about 10 minutes after 7h. in the morning. The general body will therefore not be visible, though stragglers may be seen before sunrise.

NOVEMBER METEORS.—The near approach of our Earth to the stream of the November Meteors, will this year take place on *Monday*, the 14th of November, at about 2h. 47m. in the morning. The Meteors may therefore be expected to be favourably observed during the early part of the morning.

THE PHILOSOPHY OF MARRIAGE.

The evidence published in various Newspapers respecting the proceedings which take place in the Court of Divorce (in London) shows clearly that many persons, male and female, form matrimonial alliances quite irrespective of the natural laws, and having married in haste they find time to repent at leisure. The poet Cotton has well stated, that

"Thousands venture every day
As base passion leads the way."

That whenever the Nativities of Husband and Wife exhibit the luminaries configurated together in concord, in trine or sextile to each other, the cohabitation will be lasting. For instance, if the Moon in the Husband's Nativity should be in the same place as the Sun in the Wife's Nativity, or harmoniously configurated with that position. But if the luminaries be in signs inconjunct, or in square or opposition aspect, the speedy separation of Husband and Wife may be anticipated.

NOTICE TO CORRESPONDENTS.

Orion takes this opportunity to inform his Correspondents that all Calculations relating to Nativities and Questions will be discontinued after the *end* of *March*, 1881, *except* Questions on Courtship and Marriage, which will be promptly answered. Fee, 32 *uncut* Postage Stamps, or if by Post Office Order or Registered Letter, 2s. 6d., Payable to MR. JOHN HAMMERTON, *Millfield*, PETERBOROUGH. Post Office Orders to be made payable at MILLFIELD, (Peterboro'). N.B.—The *year*, *day*, and *hour* of birth; and the *sex* of the Native must be given.

ALL PERSONAL INTERVIEWS DECLINED.

ORION'S PARTING ADDRESS.

COURTEOUS READER,—Thy friend, the Astrologer, again resumes his pen to wish thee his annual farewell. His work is completed until the next revolving year shall summon him to unfold to thee the mystic workings of planetary agency. He is happy to observe that the science of Astrology is daily gaining ground. Men of thought and wisdom now begin to perceive that it is true, philosophical, and according to the order of nature; all things that occur on Earth, or to individual man, have their cause, and that cause may be traced and read in the "Stars of Heaven." Let us hope they may serve as monitors to guard against evil, and promote our welfare in this life, which is at best but a journey of probation amidst thorns and briars. With the certainty of his wishes for thy happiness and welfare, kind and courteous reader, receive the FAREWELL of ORION.

GEO. C. CASTER, PRINTER, MARKET-PLACE PETERBOROUGH.
