THREE ADVANTAGES OF MAGAZINE AOVERTISING

1. ITS PERMANENCY.

The life of a magazine advertisement is long. It remains effective for many months, often for years. A magazine is read, passed on, reread, goes to hospitals, to the army, navy, abroad, and is at last put on sale in the second-hand book stores, to begin a new life. No other form of advertising has this longevity.

2. ITS PUBLIC.

The magazine reading public is the live, up-to-date, busy, enterprising, inquisitive public. The magazine is the business man's and the housewife's literature. It is the recreation of the leisure hour, and the mirror of the world's events, when they have been sifted from the chaff of rumor and mistake. Magazines are cheap enough to reach all intelligent readers, good enough to command their attention. The magazine public is the material upon which to build permanent advertising results.

3. ITS COMPANY.

The great magazine advertisers are the prominent successes of the business world. To be associated with them in the public mind is to secure the very best publicity—to enter the aristocracy of advertising.

Pan-American Notes.

A rubber tree in full maturity produces from three to five pounds of rubber a year. Usually about 100 trees are planted to the acre. Time was when Brazil was the crude rubber center of the world, but today the plantation of the Far East are producing four times as much rubber as the forest of the Amazon.

Since the United States began acquiring overseas possessions after the Spanish-American war of 18 years ago the republic has so considerably added to its responsibilities outside the American continent that it now owns more than 8,000 islands, with a population of some ten millions, and an import and export trade, mainly with America, of over $300,000,000 annually. Of these 8,000 and odd islands rather more than 3,000 are in the Phillippines group, seven-eighths of which are less than a square mile in area.

Freedom of Press Assured Mexico by National Convention.

Queretaro, Mex.,—The first part of the article providing for the freedom of the press was adapted by the constitutional convention here recently. Articles providing that no retroctive law which would work to the prejudice of any person shall be enacted and prohibiting extradition for political offenses and imprisonment for debt also were adopted.

Brazilian Powder.

A unique product comes from Brazil in araroba or goa powder, containing the substance known as chrysarobin, widely used in medicine, especially in the trertment of parasitic skin diseases.

Digitized by Google

The product is found in the form of a pulp or small solid masses in crevices of the heart wood of the tree known locally as "amargoso do matto," and is said to be a morbid growth.

Indians Build Modern City, Elect Officers.

Los Angeles, Cal.—Pala, the first modern Indian city in the United States, is celebrating the completion of a metropolitan sewerage system. Pala has been built on the Irdian reservation near Oceanside and all the city officials, from mayor down, are Indians. The houses are piped with water and an irrigation system has been installed for ranchers in the vicinity. Of the 250 residents only three are white men.

U. S. Plans to Build First Forest Road Through Apache Tract.

Washington, D. C.—The first national forest road to be constructed under the federal aid act will be located in the Apache national forest, Arizona, a survey for which has been authorized by Secretary Houston. This piece of road will be seventy-one miles in length and cost about $342,500, to be borne equally by the federal government and the local community. Among the advantages of the highway will be the opening up of enormous industrial resources and a magnificent recreation erea for tourist travel.

$15,000,000 Ship Line Planned by B. & O. to South America.

Baltimore, Md.—Official announcement was made today that negotiations were under way between the Baltimore & Ohio railroad and a group of South American capitalists for the formation of a $15,000,000 steamship company whose vessels will ply between Baltimore and South American ports.

Vice-President A. W. Thompson of the railroad company said the commercial development department, a new bureau of the railroad, is planning to dispatch representatives to South America to push the project through a propagranda backed by motion pictures of the cities and port facilities.

Money in Cocoanuts.

The discovery has been made at Colombo that cocoanut water, better known perhaps, as cocoanut "milk" which has always been considered a uselsss waste product, is an excellent rubber coagulant. Millions of gallons of coconut water allowed to run to waste on estates can now be made use of at a good profit.

The cocoanut water is allowed to ferment for four or five days, after which it can be used without further delay as coagulating latex. This is said to produce a fine rubber, superior to that procured with the use of crude acetic acid. The color of the rubber with acetic acid fermentation is decidely inferior to the cocoanut water fermentation. Cocoanut water is now made up in bulk and shipped in large quantities from cocoanut plantations to rubber estates.

Mexicans Finish New Constitution After 3 Months.

Document with Radical Laws on Socialist and Labor Lines is Signed.

Queretaru, Mexico, Jan. 31.—The delegates to the constitutional assembly, which concluded its labors last night, assembled at 11 o'clock this morning and signed the constitution on which they had been working for two months. The ceremony was attended by great enthusiasm. All the members of the cabinet were present except Luis Cabrera, minister of finance, and Ygnacio Bonillas, minister of fomento and communications.

The new conititution contains some advanced legislation. Among the provisions are:

Abolition of the office of vice president; prohibition of the re-election of a president; stringent and radical labor laws, which provide for an eight hour

Digitized by Google

day, seven hours of night work and six working days a week; compulsary arbitration, profit sharing, free employment bureaus, anti-trust laws, a national department of health with plenary powers, and compulsory military instruction.

Foreign Scholarships.

As a part of the Pan-American policy of the United States, the Colorado School of Mines is offering a free scholarship each year to a student from Mexico and each of the Central American and South American countries. These students will be picked by competitive examination from the boys of the country.

The scholarships were authorized by the board of trustees of the Golden school at its last meeting and the ministers of public instruction in the various countries have been notified. In making the offer to the ministers President Parmelee says: "The Colorado School of Mines is led to offer this scholarship in the belief that it will advance the cause of mining education and will provide for the more intelligent explotation of the mineral resources of the American continent."

The student must be a young man of good character, directly interested in mining engineering and must have suitable preparation in mathematice and science. The scholarships will save the students about $200 per year.

Making Paper from Bananas.

Development of the banana trade industry is reported by Consul E. M. Lawton at Tegucigalpa, Honduris.

"Bananas suitable for export must always be a certain size or number of hands," says Mr Lawton. "The rejection of smaller bunches by the fruit companies has always been a source of complaint also of loss to the planters. It is now proposed to use them in the manufacture of alcohol.

"By executive order, the President of Honduras has signed a contract by which an American of long experience in the fruit business in the tropics, representing a company of American capitalists, is granted the right to erect a distillery at San Pedro Sula, Honduras. The concessionaire has deposited $25,000 with the government as an earnest of good faith, which is to be credited toward export duties on the alcohol at three cents gold per gallon.

"The company proposes to supply planters with funds for planting sugar-cane on the worn-out banana lands, and will also distil from the cane, the bagasse of which is to be used in the manufacture of paper. Experiments will be made in the manufacture of paper from banana waste."

War is Opening Eyes of America to Export Trade.

By J. A. Rose
Manager of Export Sales, the Nash Motors Company

I am convinced that after the war is over the subject of foreign markets is going to be studied much more closely by the automobile manufacturers in general. The war itself has done a great deal to open American eyes to the possibilities of foreign trade. For one thing it has familiarize the average man with the world map and shown him how dependent the various countries are upon one another.

Foreign connections so far made by this company have been desirable in every respect. It has been my experience that a firm 5,000 miles away that has the initiative required to make a connection with an American manufacturer is a pretty high calibered business institution.

Another thing that makes foreign business most desirable is the fact that when it is winter in this country it is summer in the temperate zone south of the equator and the selling season is at its height. Thus, if export trade is sufficient cultivated factory production schedules can run at the same speed the year around, making for economical manufacture and efficiency thruout the whole organization.

Washington Father of Monroe Doctrine.

Washington's warning against implicating ourselves by artificial ties in the ordinary vicissitudes of European politics in the portion of his address that has been most widely discussed, but there is another theme which is scarcely less worthy of consideration. It will be noted that he not merely formulated a policy of non-intervention in Europe, but he also announced that the time was not far distant when the Uuited States could resist European interference in American affairs.

"If we remain one people, under an efficient government," he said, "the period is not far off when we may defy material injury from external annoyance —when belligerent nations, under the impossibility of making acquisitions upon us, will not lightly hazard the giving us provocation."

Here is the germ of the Monroe Doctrine. While informing Europe that we ought not to intervene in her primary interests, Washington warned Europe that we could not tolerate provactions from European nations.

It was but a step that Jefferson took in 1808 when he said that "we shall be satisfied to see Cuba and Mexico remain in their present dependence, but very unwilling to see them in that of either France or England, politically or commercially. We consider their interests and ours as the same, and the object of both must be to exclude all European influence from this hemisphere."

This is the obverse of the shield. Monroe merely enlarged upon it in his famous message of 1823—a message written under the inspiration and guidance of Jefferson himself.

Dates as a Daily Diet.

Dates are imported to the United States from the warm countries of southern Europe and Africa, but if the efforts of western experimenters are as fruitful of results as the trees grown have been full of fruit, it may be expected that this country will before long grow all its own dates, according to a writer in the Scientific American.

It took a long time to find out that the arid plains and valleys of the Southwest were really fit for something. All the deserts needed was water plenty of moisture these areas could be made to grow almost anything from horseshoe nails to alligator pears, and incidentally fruit the like of which we have never before known.

The experiment station of the University of Arizona grew 22,000 pounds of marketable dates last season. The station has more than 200 thriving trees. The price received was 17 cents per pound, or $3740 for the crop.

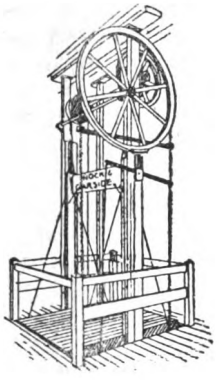

From this it will be noted that date-growing is no mean occupation, provided one has suitable land. Once upon a time a good date soil could be had for a song, but when water flows over the desert sands wastes jump somewhat in value. It has been conclusively demonstrated that dates can be made a profitable crop in the Salt river valley, and elsewhere where soil conditions and climate are similar.

No tree is more graceful and beautiful than a date palm, and the plants the Arizona university have concluded make stately ornaments for lawns and parks. At the same time they grow an appetizing article of food. In northern Africa, the native habitant of the date palm, the fruit is a common article of daily diet

West Indies.

The Danish West Indies, which the United States has purchased from Denmark, comprise three islands—St. Thomas, St. John and Santa Cruz. They usually are referred to as part of the Virgin Islands, a group lying midway between the "Greater Antilles"—Cuba, Santo Domingo and others—and the "Lesser Antilles" comprising such small islands as Martinque. They are peaks of a mountain range that is disconnected from the main body of the American conti-

nents, with an east-and-west trend.

The islands have an area of 138 square miles, and a population of approximately 25,000. The seat of government is the town of Charlotte Amalia, on the Island of St. Thomas. They belong to Denmark, but, owing to economic reasons, have been a drain upon that country. Negotiations for their sale to the United States progressed a long way in 1867 and again in 1902, but both times failed through the influence of the big European powers.

While not commercially of great value, the Danish West Indies are important to the United States, because they are on the main navigation route to the Panama canal. Should a European power of importance obtain them and establish a naval and military base there, the security of the Panama canal would be threatened and the Monroe Doctrine would be in danger.

St. Thomas is a coaling and cable station. Sugar, rum, molasses, cotton and livestock are the chief products. Statistics for the year 1908, the latest obtainable, show that the islands imported $1,566,009 worth of goods in that year, and exported $265,532. The climate is healthful and the soil rich.

Columbus, on his voyages from 1492 to 1498, landed on some of the Virgin Islands just to the east of what are now the Danish West Indies. The history of these islands is split up into varied periods, when, by turns, the Dutch, English, French and Danes held possession. The Knights of Malta once owned the island of Santa Cruz, for the avowed purpose of "establishing a base for the spread of Christianity in the West Indies." The present social atmosphere of the islands is chiefly American.

Yucatan is to Adopt U. S. School Systems.

Merida, Yucatan, Mexico—Gen. Salvador Alvarrdo, governor of Yucatan, has ordered the department of public instruction to send a committee of professors to the United States at once to study educational problems and systems. It is also General Alvarado's intention to provide scholarships for a number of young men each year sending them to some institution of learning in the United States.

Mexican Agency for New York.

Mexico City, Mexico—By order of General Carrrnza there will be established shortly in New York a Mexican financial agency, the department of finance, and will act as general agent in financial affairs of the Mexican government.

Spanish Salad Dressing.

Three-fourths cupful powdered sugar, ½ teaspoonful salt, ½ teaspoonful mustard, 1 heaping teaspoonful paprika, ⅛ teaspoonful black pepper, 1 teaspoonful vinegar, ½ cupful olive oil, juice of a lemon, strained.

Mix together dry ingredients, add the vinegar, slowly beat in the oil, then add the lemon juice. It should be very thorouly beaten. This is especially good on fruit or tomato salad.

Mexican Sandwiches

Grind through chopper one-half pound soft, yellow cheese and one small can pimentos (Mexican chili peppers). Spread on soft sandwich bread which has been slightly buttered. Cut in triangles or fingers.

Creamed Eggs and Pimentos.

For six hard-boiled eggs cut in slices allow a cupful of white sauce, one Spanish pepper chopped, one slice of chopped onion, one tablespoonful of chopped celery leaves or parsley, one-half teaspoonful of salt and a small dash of pepper. Add the chopped parsley, onion, pimento and seasnings to the white sauce, and last lay in very carefully slices of hard-boiled eggs. Cook until the ingredients are thoroughly heated and serve on toast or toasted crackers.

Oportunidad Dorada Para El Que Habla Espanol.

Son muy pocas las personas que viven en este país que saben de la Gran Oportunidad que les ha venido con la Guerra Europea. Pudiendo ser los afortunados, están dejando pasar el tiempo sin hacer esfuerzo alguno para mejorar en empleos, experiedcia o fortuna.

DESDE QUE COMENZÓ LA GUERRA, los Estados Unidos de América han quedado dueños absolutos del mercado de Centro y Sud América. Estos países compraban de Alemania, Francia y Holanda casi todos los artículos de importación necesarios para el cultivo de sus terrenos, maquinaria, artículos de ferretería, tlapalería, muebles finos, etc., etc.

ES TANTO EL VOLUMEN DE NEGOCIO que les ha venido a los fabricantes de los Estados Unidos que ni siquiera pueden comenzar a atender todos los pedidos, mucho menos llenarlos con inteligencia.

UNA DE LAS DIFICULTADES más grandes de los exportadores es el no poder conversar o sostener correspondencia con los negociantes que hablan español. Hay tanta diferencia entre las costumbres Americanas y Latino-Americanas, que solo el que ha vivido en los Estados Unidos puede apreciarlas, siempre que este hable español y esté acostumbrado al estilo de negociar entre las personas que hablen tanto inglés como español.

TODOS LOS PAÍSES LATINO-AMERICANOS han sabido aprovechar las grandes oportunidades que se les ofrece a sus jóvenes con esta evolución comercial. Pues México tiene más de 8000 ciudadanos, quienes estudiaron algo de inglés en las escuelas públicas de ese país, como empleados, estenógrafos, mecanógrafos, corresponsales, interpretes, traductores, representantes y agentes viajeros de casas americanas en distintos puntos del Continente Americano.

CASAS COMO LA SEARS ROEBUCK de Chicago, Sargent Hardware Co., de Nueva York y la Oliver Typewriter Co. han aumentado considerablemente el personal de empleados. Estos empleados han venido de México, Colombia, Cuba, etc., etc. Hay que tomar en cuenta que estos jóvenes, que vienen de otros países, no tienen la práctica en el inglés que pueda tener un Neo-mexicano, Tejan o cualquier otro nativo de los estados donde se habla inglés y español. Además todos los jóvenes de estos centrales y del oeste conocen el estilo comercial de los Estados Unidos y pronto aprenderían lo necesario para poder desempeñar un puesto de responsobilidad y lucrativo.

ES UNA GRAN VERGÜENZA que los nativos de Colorado no hayan tomado parte en el desarrollo comercial entre este estado y los Latino-Americanos. Es aún más vergonzoso que se queden con los brazos cruzados esperando un empleo de lavaplatos, camaristas o cocineros mientras que los hombres y las mujeres americanas están estudiando día y noche para aprender a hablar y escribir español con corrección, estudiando correspondencia, costumbres y necesidades de Mexicanos, Cubanos, Centro y Sud Americanos para así poder llenar los puestos que se han criado para todo aquel que tenga conocimientos en ambos idiomas.

¿Cuántos de los Espano-Americanos estudian algo? ¿español? ¿inglés? ¿Cuántos saben escribir una carta correcta en español? ¿Cuántos saben hablar bien español? Señores yo les diré.

A NEW ACTURIAL INVESTMENT BOND AND LOAN PLAN.

One of the financial corporations in the West which has come to the front during the past two years because of the necessity of LOWER INTEREST RATES for the farmer, the home builder and business people, is The Continental Bond Corporation of Denver, Colorado, announcement of which is made in the advertisement columns of this issue. They have been successfully operating a model plan of financing, based entirely upon an ACTUARIAL BOND and ACTUARIAL TABLES which outline a great step forward in human progress and assures the utmost safety.

Under the plan of their actuarial bond a LOAN COSTS ONLY approximately 3½% per annum over a period of about eight years, at which time the bond automatically PAYS OFF THE LOAN and the borrower is then ABSOLUTELY FREE from debt. Many farmers are heavily burdened with a high interest mortgage which they greatly desire to reduce, others wish to purchase a farm or home but have not the required equity and funds, and again others may wish to improve what they now possess, so the need for lower cost interest is apparent and the Continental Actuarial Plan AFFORDS THIS NEEDED RELIEF. This sounds like a splendid opportunity for the borrower, and the plan is within the means of everyone, for what is nicer than to know you will be clear of a mortgage within a given time and at a cost of about $261.00 for each $1,000.000 borrowed for the ENTIRE TIME? The investment profit on an actuarial bond is very good, for it returns a guaranteed profit of $100.00 per each $1,000.00 loan applied for in about TWO YEARS' time on $6.00 monthly payments, plus all instalments paid in on the bond. This profit is a participation of the interest earning power of the money offered as a loan to the bondholder. We have had the introduction of numerous financial plans to help the farmer and the people with little means, but AS USUAL THE INTEREST RATE IS HIGH, thereby keeping the average person grinding with little or no advancement. We now have the long term rural credit loans to be put into effect some time in the future, but the CONTINENTAL ACTUARIAL PLAN EXCELS in its liberal terms the simplicity of making loans and, of chief object and benefit to borrowers, a much lower cost of interest.

The company's financial stability and careful business management affords the LARGEST POSSIBLE MEASURE OF SAFETY, security and mutual helpfulness. State governments have extended authority to this company under laws which were placed upon the statute books to stabilize and ratify a business of this character, insuring equity and fair dealing. Their plan goes far toward equalizing good fortune.

Ni El Uno Porciento.

Hay sus excepciones, como en todas las cosas. De vez en cuando encontramos a alguna persona que está haciendo débiles esfuerzos para mejorar un poco, pero la mayoría de estos pronto se cansan y prefieren, como vulgarmente se dice: "Que se los lleve la corriente".

Es Una Verdad Lamentable.

Que la única oportunidad en más de medio siglo no se aproveche por la nueva y vigorosa generación americana de habla española. ¿De qué les sirve saber hablar español é inglés? Porqué no aprenden a sus primos americanos?

¡Estudiad! ¡Aprended! ¡Aprovechad!

¡Vendrá el tiempo en que ni de lavaplatos serviráis!

Todo mundo estudia y aprende. Todos tratan de perfeccionarse en un ramo, sea cual fuere. Hombres y mujeres de 40, 50 y también he visto de 60 años estudiando español como si su vida dependiera de ello. ¿Porqué? Precisamente porque estos tendrán ventajas sobre aquellos que no saben hablar español. Con español quiero decir español correcto no el dialecto de "asina", "vide", "vites", "vido" y "truje" que tantas personas usan erroniamente. Un Señor me informó el otro día en estas palabras "me voy a Colombia! 'vide' en un 'papel' que quieren hombres que hablen español 'y' inglés". Con sinceridad cree este Señor que le entenderían en Colombia.

Una Excepcion

Recuerdo a un joven tejano, apellidado Cárdenas quien nunca en su vida había ganado arriba de $60.00 mensuales, y esto porque trabajaba como esclavo doce horas del día; hablaba inglés medianamente bien y español pésimamente mal; llegó a la Capital de Máxico donde se colocó en la casa "S. Pearson & Son" dueños de pozos petrolíficos, ferrocarriles, etc., etc. Dentro de un año estaba ganando $500.00 mexicanos mensualmente. Se casó con una linda Señorita Espano-Mexicana y a la vez se apuró en sus estudios de español para mejorar el poco español que poseía. Pasó el tiempo, su familia aumentó y por lo coesiguiente sus gastos también.

Ambiciono, Estudio, Triunfo.

La compañía manufacterera "Bowser Tank Co. "lo mandó llamar a los Estados Unidos donde estudió los magníficos tanques para aceites de esta misma fábrica. Al cabo del tiempo salió como EN MARCHA TRIUNFAL para Sud América como viajero representante de dicha Casa con un sueldo de $500.00 y gastos.

Otro Caso Excepcional.

Una Señorita americana Laura Cressy, se cansó del trabajo monótono que le proporcionaban los quehaceres de la casa semiranchera del pueblito donde vivía. Se fué a Nueva York donde después de muchos estudios, hambres, trabajos y dolores de cabeza se colocó en uda negociación exportadora que hacía negocios con los países Latino-Americanos.

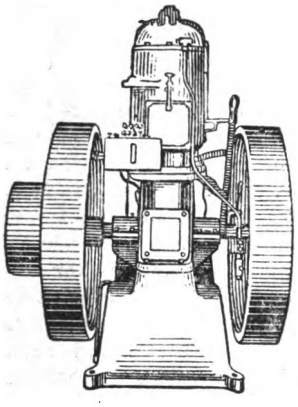

Esta Señorita no se durmió, no estaba satisfecha con el pequeño sueldo de estonógrafa y obseruó que las dificultades de las oficina eran con la correspondencia en español. Sin hacerse ilusiones, se puso a estudiar correspondencia, costumbres y métodos en español. Después de muchos estudios hizo tentativas para demostrar sus conocimientos y comenzó ayudando al joven Cubano quien estaba al frente del departamento en español en dichas oficinas.

Poco a poco llegó a cerciorarse de los asuntos de la Compañía y a notar equívocos del joven, quien se había dormido en sus propios laureles. Para no hacerles largo el cuento, esta misma Señorita quien hacía apenas un año había entrado a trabajar con un sueldo pobrísimo de $10.00 estaba al frente de dicho departamento.

Años después encontrela en México al frente del departamento de Compras y Ventas de artículos extranjeros de la inmensa negociación "Prieto Hnos." Habiendo mejorado de sueldo, posición social y a la vez estaba practicando el español para quiza mejorar aun más.

(Este es el primero de tres artículos sobre oprtundidades para los que haban español). Por León Huerta.

LECCION DE LECTURA--READING LESSON.

EL PAPEL--PAPER.

La fabricación de papel en la América data de 1690, en cuya época se estableció una pequeña fábrica en Filadelfia. Es digno de notar que el principio que se emplea hoy para la fabricación del papel es el mismo que desde hace siglos usaron los chinos. En los Estados Unidos la pulpa de madera es la materia prima que se usa para la fabricación del papel, y produce un artículo que en muchos respetos, es ígual y por otros, superior al papel en cuya composición entran otros materiales.

La civilización ha traido consigo, nuevos usos para el papel. Lo que originalmente fué artículo de lujo hoy es de absoluta necesidad. El hábito de la correspondencia se ha multiplicado á favor de los medios rápidos de transporte y de la rebaja en el franqueo; aumenta tambien diariamente la circulación de publicaciones; ya sean periódicos ó libros de todas especies, lo cual solo en los Estados Unidos es suficiente para mantener en constante operación todas las fábricas de papel del país.

Hay otros úsos para los cuales se emplea el papel, pues apenas hay ramos del comercio que no use este artículo en una ú otra forma. El número de toneladas de papel de imprenta empleadas en los Estados Unidos en 1900 alcanzó á millones y en la publicacion de libros, puede calcularse, si se tiene en cuenta, que dos de las novelas que se publicaron en los Estados Unidos durante el año en referencia, consumieron un millón y medio libras de papel.

En la industria se ha ido perfeccionando contínuamente la calidad á la par que los métodos de produccion, teniendo siempre en vista la baratura del producto. En los Estados Unidos existen hoy cerca de mil fábricas de papel y de pulpa de madera, la mayor parte de las cuales puede producir diferentes clases de papel.

TRANSLATION.

The manufacture of paper in the United States dates from 1690. In that period was established a small factory in Philadelphia. It is worthy of note that the principle which is used to-day, for the manufacture of paper is the same as that used centuries ago by the Chinese. In the United States wood pulp is the principal material used for the manufacture of paper, and it produces an article, which in many respects is equal, if not superior to other materials which enter into its composition.

Civilization has brought with it new uses for paper. What at one time was an article of luxury to-day is an absolute necessity. The habit of correspondence has been multiplied by means of the rapid methods of transportation and the cheapening of postage; there is also a daily increase in the circulation of publications, newspapers and books of all kinds, which in the United States alone is sufficient to maintain in constant operation all the factories of the country.

There are other uses in which paper is employed, for hardly is there a branch of business in which paper in some form is not used. The number of tons of printing paper used in the United States in 1900 reached millions and in the publication of books, may be calculated, by taking into account, that two of the novels published in the referred to year, required a million and a half pounds of paper.

Quality has kept pace with the improvements in production, always considering the cheapness of the product. There exists to-day nearly a thousand paper and wood pulp factories, in the United States, the greater part of which manufacture different kinds of paper.

Metaphysical and Transcendental Department

1608 Broadway, Denver, Colorado

Phone Main 7728

Frank D. Hines, Ph. D. Sc. D. C. Editor.

Mr. Hines:

Why do you use the term "True Psychic," and thus seem to differentiate as to Psychic? A STUDENT.

Denver, Colo., March 7, 1917.

The word Psychic, according to Webster, means "Spirit's Breath." A true Psychic is born with the very distinguuishing point marked out, or noted by the foregoing definition and actually possesses "The Spirit's Breath," or the Gift of Life, as a peculiar emanation of the Divine Force or Spirit of Life. This gift is supposed to be centered at the very seat of creative life, in man, as a Spiritual Phase or expression of Spiritual Life, the regenerating and Spiritual Magnetizing power of the real man. All persons who have this Gift of Life are True Psychics, whether they are aware of it or not; are, as a proof of it, born Healers; can Heal regardless of distance or absence, because at-one-ment with all Life, in everything and everywhere; are, therefore, rare and gifted individuals provided that they permit themselves to understand and understanding utilize the splendid gift of the Divine entrusted to them; they must not abuse or misuse, or, in any wise permit the misapplication of this special Healing Magnetism of the Divine Spirit; it is creative, harmonizing, regenerative and is Spiritual as well as Physical Life at unity and working, as a a double, for the uplifting and healing of mankind; it is a subtle indescribable something that passes from the person possessing it to those under treatment, for which there is no possible description or explanation, lest it be, that it quickens and thrills and awakens the entire being and causes a right distribution of all the agencies, forces or energies of being, and brings about perfect equilibrium. It is an effluence of Spirit to be felt, sensed and known; it is of the One Substance, and the One Spirit of the Universe, made manifest in the Superior or creative man, it is of the Soul and cannot be controverted nor defeated; it is Life, in truth and realty, manifest in and through man, to his fellowman; it guarantees life, sight healing powers, psychometry, clair-audience and the seeing, and sensing, and healing of diseases; no more can be said; it's impossible to say more; it is not mental, neither is it physical; it is SPIRITUAL, and he who possesses and understandingly possesses and rightly utilizes this superior gift, stands in charge of the Bridegroom's Table, upon which appears all the viands and substance of a universe; about this table are chairs for all who choose to come, for health, success and riches and honor; yet how few find it convenient to come to this great feast.

He who is a True Psychic is forever estopped from immorality, because in righteousness alone he retains his splendid gifts and magnetic powers as vouchsafed and sustained of, and by, the Sacred Revealment of the Divine Spirit; he must not be as other men may be; he must not vitiate nor violate the laws of true Being; he must be circumspect, clean and pure; he is positive, assertive, and cares little for opinion or ordinary affairs, or pleasu.es of life; he Heals because he Loves to Heal, and Healing is his natural gift; he is Occult by Nature or In-

Digitized by Google

spiration, and he teaches because he creates in others that what he finds as their real genius of soul, and as adapted to the utilization of their every talent; thus he; as Psychic, makes others, as they should be, creative, according to what they really are within themselves, by bringing into conscious expression the Ego, the Real Selfhood, the I am of Being.

Denver, Colo., Feb. 23, 1917.

Lessons by Frank D. Hines, Magus

Stenographic Report of

Initiate Lesson No. 13.

You are not in Mind, you are Mind yourself. You are as a personality, Mind and as a personally you as Mind are supposed to know what you want. As a personality you are supposed to understand that from that which is your mind you draw the conclusions that afterward shall build the soul.

The soul is immortal in the first place. It is the Pure Fire that springs out of Divinity Itself. It is the Essence Itself; it is the Kristos, the Word, the Son of God. Consequently, to awaken and quicken the soul means to resurrect the Christ, to raise him up, to bring him into manifestation that he might be in you the Son of God, and thus you are an individuality. Previous to this you are a personality. You are not an individuality nntil you raise up the Divine Spark in your being, which of course is the soul, and hence the moment you recognize that soul you recognize your individuality. Then you are part of that which is the great Over-soul of this universe - the Christ himself, and in Christ the Over-soul you are able to communicate with the Father; and in Christ the great Over-soul you as an individual in Christ are able to say "The Father and I are one."

The mind, the soul, the spi,it, and the body are the fourfold manifestation of of man. Man is a triangle, a trinity, but he is also a square. Consequently, out of the triangle comes the square. Or, the triangle in the square builds the man, and when you understand that mystery you will understand man - soul, spirit, mind, the triangle - but, mind becomes the fourth principle, body, as an active principle. Body is the result of mind. There is no mind in action until we get Matter, for Matter is mind in action. Body is the last principle of mind, forming the square. The square belongs to the realm of Matter - that which is the basic principle, the foundation.

Body is the result of mind, but mind is also personal because mind becomes person. Mind is that which discerns, or it is that which plans what you shall be. Mind has three attributes: Thought or thinking, feeling, and will. Thought, feeling, will. Now, it is for your mind to determine whether your soul shall become a Kristos or not; whether you shall become a Son of God from a son of man. It is for your mind to say what kind of a man you are going to be, what kind you will "will" to be. "Will" in your mind, as an attribute in your mind, determines every feeling, every sensation, what your thoughts shall be, and as you determine and will through your feelings what your thoughts shall be, these determine what your soul afterwards shall be.

A great many persons remain persons always. A religion, a creed, a believing that you are saved because someone was crucified and died on the cross is not building a soul. You may think you are saved thru the death of someone two

Digitized by Google

thousand years ago, but you will find that you are not saved by that sacrifice alone, you will find that no man can lay down his life for you and you do nothing as your portion in the sacrifice. You may think that if someone did he paid the penalty for you and that you can do anything evil you please and that you still are saved - you may think this dying saved you, but you will find in the end that there is no salvation but through regeneration, and regeneration is building, awakening, quickening, arousing, of your individuality, and your mind determines what kind of a soul you will be.

Without Spiait there is no such thing as soul, being, or mind in action. Spirit is Pure Atma, Spirit is God, Spirit is Pure Fire, Spirit is the Absolute, Spirit is Life, Spirit is Breath - but, Spirit is not part of you. It is not individuality. It is not personality. It has nothing to do with individuality or personality. It is in flowers, in the rose, in the oak, in the rock, in the earth, in all the suns and planets, atmosphere, ether. A dog has spirit; a horse has spirit - without spirit we would not recognize them as living animals. Without Spirit we could not exist as personalities or individualities, but it forms no part of us. It is simply the sight, the Breath of Life, Intelligenced Fire. It simply IS. It is the inspiration, the Infinite Living Mind of all in the negative realms. It is of the Father. When we understand this we will get out of this notion that Spirit is personal, individual. Spirit is the Absolute Is. No one can define it. I have come as near a definition as I dare.

A Burbank will seize upon Spirit and change a plant or tree into a species ten times better than it was before - change it according to his intellect through the process of the same Spirit that is in everything, everybody, everywhere, the Omnipresent, and he makes a fruit that is all seed into a seedless one; changes the cactus into food for man. This shows what a Burbank can do by seizing upon the instrument in the shape of a fruit tree and giving it right intelligence changes the fibre of it - and even changes the process of generation. He makes it a regenerated fruit. But he takes something outside of himself to perform the work.

Our soul is implanted in us at birth. After we are born and receive the breath of life, we are a soul and not until then. A child must receive breath before it is a living soul. That child is endowed with a personal mind; belongs to personality; has a mind that can think, feel, will, given it for the purpose of determining whether it shall remain a mere person with an unevolved sonl, without individuality, with the Inner dead so far as character is concerned, or whether through the process of thinking, feeling, and willing it shall partake of regeneration and become the Christ. Then comes the great Question and Mystery. "Shall I be conceived in the soul of me, in the spirit of me - shall I be receptive to that which is the regenerative process and partake of the Spirit in the soul of me? Shall I become an individuality?" Within the body the Immaculate Conception must take place, as it must take place in the soil the soul occupies, and the soil is the body, just as the seed is covered with the earth. The soul is imbedded in flesh, and for a purpose - the purpose of becoming a Christ, or a Kristos, a Son of God, and it cannot become a Son of God until the mind of the person wills, feels, thinks "I desire," which is the prayer to the Father to resurrect you, to quicken

Digitized by Google

and arouse and awaken the inner springs of your being and make you an immortal soul. The moment this is asked the Holy Ghost descends as Intelligenced Spirit from the Father, conceives in man that which is the "New Creature," and the "Child" is born - and this "Child" is an immortal soul. You had the Spark of the Divine Soul in you; you were given this to start with - but your mind must determine whether you will develop this soul or not; whether you will accept immortality or not; whether this seed has fallen on barren soil or will bring forth fruit. Your mind is given you that you may select from the materials around about you for the kind of soul you will build.

In the personal being the mind occupies only the brain. The brain is the organ of mind so long as you are a mere personality, because the brain is in that case the only organ of mind. You then have reason, and consequently you depend upon reason. But, something takes place. You have invited the Living God to come into His negative universe, His Otherness, and He has implanted something that shall bring forth a "New Creature," and this "New Creature" is the living soul; this soul is to be the Kristos; is to be an individuality. Then a battle takes place between Michael and Satan; Michael the sun, and Satan, darkness; Michael the good, Satan the evil; Michael the incarnate Kristos, the divine being, Satan the carnal man - a battle between Intuition and Reason. After you become Divine Wisdom, after you have received that which is immortal, you are an Intutionalist and you must obey. From that day you cannot stand and reason; from that day you have crucified personality upon the cross and the Christ has been resurrected, and you are an Intutionalist; consequently, you are to walk, act, live, as an Intutionalist, and then you have to battle with the world. The moment you become that "New Creature," the moment you become an immortal soul, the moment something within you tells you that you must do a certain thing, that moment obedience is demanded of you regardless of the criticisms or opinions of persons around you. You must cast them all down in order to obey the Inner Knowing. Later they will see that you were right. This is the difference between mind and soul.

There is soul, spirit, mind, body, to man - and body will be retained just so long as you need it to convert that seed, or soul, into a being so immortalized that it can get along without the body. This is becoming the Truth, and Truth sets you free - provided you obey. The mind then becomes a listener. It no longer thinks chaotic thoughts; it no longer agrees with outside persons; it must agree with the Intuition and obey the Intuition. You are responsible for that which you have permitted to become the "New Creature." Ever after you must be obedient and you will never err. Every one in the world may think you are wrong, but you will triumph, because the Absolute Spirit works in and thru the Kristos and is the Warrior that never strikes a blow amiss, never says a word amiss, never falsely guides you. Consequently, you are a Master. This is what soul means, and this is what intuition means, and this is what we are working for. If you live according to your intuitions you will overcome the world. You may lose friends for a time, but out of it all, at last, there will come a master-right, a master-intelligence, a master-power, a master-will of God Himself and the world will see that you are right. You must shine, shine, shine until every man sees your light, and seeing it is willing to follow it.

Digitized by Google

Out of this grows all of those forces you want. You will get every power you want, because you have the gift, and it is the gift you want - the Gift of healing, of seeing, of knowing, of entering into the mysteries and resolving them into natural law; the Gift of Occultism, which is the handling of the Silent Forces of Nature, raising the dead, healing the sick, casting out demons; calling into reflection again those who have passed out; penetrating the universe and finding the high places of Wisdom, the Secret Forces. You have exchanged the seat of mentality for a Divine Gift that makes you ruler over time, over body, and makes you a king and queen with dominion over everything that swims or walks or flies, and even over the elements themselves. This is the building you are constructing, and you want a good foundation, which is the body. The body is the foundation of the soul, the foundation of your new structure, of your new home, of your new being - the structure of that which is to be the super-structure. And so it is well to build a perfect body - try to build it, for there is no sin but sickness, or anything that results from wrong thinking; and sickness is anything that causes another person a woe, because it makes that other one sick, and when you make another sick you are a murderer and you sin against yourself, because you have no right to trespass upon another's atmosphere.

When you know it is your duty to heal, to uplift and build immortal souls then you have passed the place where you can be forgiven if you do not perform your duty. You must not say "I cannot," - you must say "I can." You must not say that you hate him or her - as an immortal being you dare not, for you are instantly blaspheming the Holy Ghost, because you have had the Immaculate Conception by the Holy Ghost and you are responsible from that time on. The moment you are a New Creature you are responsible for your brother's keeping. It is hard, I know - but we are talking tonight of building an immortal soul, perfect individuality, and when you want power you must pay the price of power, and you will never have power as a perfected soul as long as you think spite thoughts, critical thoughts, worry thoughts, hate thoughts - any thoughts that are not of the Divine Love and Truth which sets you free. Because you are building an immortal temple in which the Absolute is working, around which it is working, around which it is working, and consequently the Spirit will work according to your directions every time. It will take out a blemish if you will it so, or it will leave it there if you will it otherwise. In order to reach power and in order to become magnetic - electric there must be a process of thinking, feeling, willing along correct lines, and if you work along correct lines you will build a powerful individuality in spite of all that Satan, or Saturn, can do against you, and you are master of your stars and master of everything, because you have within you that which is a Power Divine, the Kristos, the King of Kings, and He rules all things. Then you have access to the spiritual realms and control over the material realms. Then you can say "I am dynamic. I am magnetic-electric," which means male and female, power and energy. "I am absolute good; I am that which is riches," because you have dominion over everything, but cannot say this until you have raised up that soul and given it authority over Satan. Then you can say Michael, "Take the two-edged Sword of Truth and set my realm free. Disarm my enemies of their power and their authority." As long as a kingdom is divided against itself there can be no harmony.

The moment you get your intuitions right you cannot go astray. There is no defeat through Intuition. Every time you have a correct intuition and obey it you become stronger, and every time you disobey you come out wrong and weaken yourself. Obedience is the Law of God, but you will never get your Inner Voice, your Inner Silence, your true Intuition as long as you have one single selfish thought, hate thought, fear thought

Digitized by Google

or doubt thought - because these are death to the Kristos and the Higher Self; they darken the windows of your soul.

Satan was put out of heaven because he tried to make himself as God - Reason trying to make itself Intuition, and Michael put him out of heaven; he was cast out; he was that which fought Intuition. He disputed authority and he was put out. This mentality must be stilled. When it wants to make you fight or quarrel or think wrong thoughts; to make you hate anybody; to make you worry - instantly step on it and put it out. Say, "Rise up, O Michael, and cast this demon out." This is your Law.

This is the greatest lesson on actualized Power I can give you. Books may be written in countless numbers on the subject and you may read them all; you may repeat your affirmations over and over - but your reading, your affirmations, your resolutions, will amount to nothing until you seek and absolutely know that Intuition is correct and obey it. That instant you are Master. This is the royal road to knowing, and consequently the royal road to seership. You will have seership and read for yourself and read for others the moment you submit to Intuition and let the Flame rise up in you and take possession of the Temple of the Living God, in the soul of you. This is the only road to Power; the only road to Knowing; the only road to anything worth while.

I depend absolutely upon my intuitions at all times; I do not think; I do not reason - I am a listener. This is the difference between mind and soul, intuition and reason, between Spirit and intellect, and this is the great Mystery of this Work and all unfoldment. Power stands at your gates; it has always been there. Every force that has every been known is at your command; everything that has ever been harnessed or has been slumbering for years - all are at your command, but you must recognize the Power that gives you dominion - and that is the individual raised up, resurrected, as a soul. Intuition is your only safe knowing.

Remember, Spirit is the Light in the soul always; also the Intelligence in it. It does not need a mind. It is the Absolute Is, the Omnipresence that is All in All. It has this as its Mind, its Knowing.

What is God Mind? Where can you find it? What is meant by God Mind? Where do you hear of it? We have heard of Will, Word and Spirit - Will, Logos, Spirit - Will, Soul, Spirit. Where is your God Mind? God Mind never existed; never does exist. If God Mind could reach us and we were actually of God Mind there would never be any errors or blunders. If a perfect God Mind existed throughtout the universe there could never be any chaos, because God Mind would be Perfect Mind in which there could be no possibility of an evil thought. Mind was given to Emanation; it is negative; it is supposed to listen, to formulate. It is that which is personal; it builds soul out of soul-material, and gives Matter a form through which Spirit can act and walk and speak. Then you have a walking manifestation of the Holy Ghost and God is with you and there is no defeat. No enemy can defeat you, because no enemy exists.

This Hermetic and Soul Science Philosophy is the most beautiful philosophy that has ever been taught. It is the sun shining in the midst of us, from us. It is the only royal road to Love, to Good, and hence to Harmony. The greatest philosophy that has ever been taught has been slumbering for four thousand years and is now coming back to us, reincarnated by the Wise Souls and given to us to apply to our every day life.

The mind has nothing whatever to do with power - it only makes chaos, only mixes us up, makes us quarrel. When you get into the mental realms, sit right down and get back into yourself - get down out of the mental realms.

Spirit is not individual; it is universal; in everything.

The soul and the Spirit are ready to act provided that you will obey, be still, listen. Keep quiet; be calm - do not let the mind get into a turmoil.
