Important note - Definitions

In reading this magazine be very, very certain you never go past a word you do not fully understand.

If the material becomes confusing or you can't seem to grasp it, there will be a word just earlier that you have not understood. Don't go any further, but go back to BEFORE you got into trouble, find the misunderstood word and get it defined.

ARC, a word from the initial letters of Affinity, Reality, Communication which together equate to Understanding.
Bank, a colloquial name for the reactive mind: the mental image picture collection of the pc. It comes from computer technology where all data is in a "bank."
Case, the way an individual responds to the world around him by reason of his aberrations.
Clear, a thetan who can be at cause knowingly and at will over mental matter, energy, space and time as regards the First Dynamic (survival for self).
Dynamics, any one of the eight subdivisions of the dynamic principle of existence — SURVIVE. It is the urge, thrust and purpose of life in its eight manifestations.
Exteriorize (Exteriorization), the action of moving out of the body with or without full perception; the state of a thetan, the individual himself, being outside his body.
Grade, the word used to describe the attainment of level achieved by a preclear. Grade is the personal points of progress on the Bridge.
Key-out, release or separation from one's reactive mind or some portion of it.
MEST, a coined word, meaning matter, energy, space and time, the physical universe.
OT, a thetan exterior who can have but doesn't have to have a body in order to control or operate thought, life, matter, energy, space and time.
Postulate, (noun) a conclusion, decision or resolution made by the individual himself on his own self-determinism on data of the past, known or unknown.
Preclear (pc), a person who, through Scientology processing, is finding out more about himself and life.
Reactive mind, a portion of a person's mind which works on a totally stimulus-response basis, which is not under his volitional control, and which exerts force and the power of command over his awareness, purposes, thoughts, body and actions.
Session, a period in which an auditor and preclear are in a quiet place where they will not be disturbed. The auditor gives the preclear certain and exact commands which the preclear can follow.
Set-ups, a repair program to eradicate case mishandling by current life or auditing errors.
Thetan, the person himself — not his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware; the identity which is the individual.
Time track, the consecutive mental image pictures or facsimiles recording the consecutive moments of "now" through which the individual has lived.
Tone Scale, a scale measuring and relating the various factors of behavior, emotion and thought to the levels on the scale.
TRs, training regimen or routines. TRs are a precise training action on Scientology courses which train students to communicate and audit.

E-Meter Note: The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or in the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists, psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of that Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed, or owned only under these conditions.

Notes from the Editor

The big news this issue is the great new movie, *The Secret of Flag Results.* I've seen the film five times and love it more each time! It is *real* entertainment — fun, exciting, shocking (at one point), real, suspense, action-packed . . . and so on. It's the first *entertainment* motion picture for Scientologists.

This issue is *packed* with goodies on *The Secret of Flag Results.* There's a look behind the scenes on the filming, raves from Scientologists who've seen it, a schedule of showings, a movie review, and more!

In filming and production, hundreds of people were involved in over seven months time. Thousands of feet of film were shot. And, since this was a first movie for newcomers, Universal Media Productions, a *lot* of study, drilling, word clearing went into learning to make a movie.

And that doesn't include all the work Ron put into the brilliant story and screenplay!

And dozens of Flag Land Base executives and staff are involved in making the movie broadly available to be seen by Scientologists all over the world.

The Secret of Flag Results is the first entertainment motion picture produced in Scientology, but it isn't the last. Want a hint about what's coming? Take a look on page 12 at the bottom.

Now, onto some of the other things in the issue.

Do you know just what it is that auditing handles?

The article by Ron, "Direction of Truth in Auditing," is *full* of great data on just what auditing handles, just how it works. This piece, with Scientology words defined of course, makes a great introduction to how auditing works for a new person. It makes clear the difference between Scientology and attempts to "solve" man by others.

If you're a regular *Source* reader you're probably familiar with the many excellent Flag auditing (spiritual counselling) and training services, as well as the great living accommodations. But there are other aspects of the Land Base, some not as tangible as a service, or room, which make up what could be called the "personality" of the Land Base. We've made a stab at communicating all aspects of the Land Base in the article, "There's More than 'Meets the Eye.' "

Just as a closing note, be sure *you* see *The Secret of Flag Results* when it's in your area! Take your friends and family, too! I'm willing to bet you'll love the movie, too.

The Direction of TRUTH in Auditing

BY L. RON HUBBARD

THERE IS A GREAT DEAL to be known about auditing as it exists today. A great deal of differentiation should be made to understand clearly that in auditing we are not trying to find something *wrong* with somebody so we can make it right.

Change and Persistence

Do you know what would happen if you tried to find something wrong with somebody to then make it right?

I invite you to look over the Axioms of life as contained in *The Creation of Human Ability.*[1] "That which you change persists." Let's look at that very clearly. The only way you get a persistence, the only way you get time, is by changing matter, energy and space. If there is no change, there is no time. It is as simple as that. So that which you change, if it be made of space or energy or matter, will persist.

I call to your attention something that every motorist has noted and no motorist has quite understood; when he failed to drive his car it went to pieces. You park the car in the garage for a while and the battery goes down, tires go flat. Maybe it is up on blocks, maybe the battery is taken over to the service station and put on continuous charge — that is some small prevention of the situation. But three months later you put the battery back in, you take it down off the blocks and try to start it and it doesn't start. Or oil smoke goes out the rear end and it won't steer.

The only reason it stayed there at *all* is because Earth was going around and it *was* being changed in space at least to some degree. If it were not being changed in space at all, it would not be there. It would cease to persist.

Take a person who has had a chronic somatic treated as it is treated in the so-called healing sciences. Little Roscoe had a bad set of tonsils, so they held him down and put the ether mask on his face and worked him over this way and that and hacked off his tonsils, changed his position after the operation while he was still asleep and put him in a hospital room down the corridor. It, of course, "cured" the tonsils. That is a great certainty. Everybody would agree he no longer has tonsils.

Then how in the name of commonsense can a Dianetic Auditor take this person back down the time track into the past and find tonsils and pain and an operation? How does this exist? How can this be? And yet it is done. And many, many of you have done this.

We have Roscoe going through life after the operation saying, "Oh, my throat is so rough. I can't talk very well. Sore throats all the time." And we wonder what is wrong with him. What is wrong with him!! It's his tonsils. But they are not there any more! That is what is wrong with him, the fact that

1. *The Creation of Human Ability* by L. Ron Hubbard, 292 pages, hard cover, is available from the Flag Land Base Bookstore. $6.00 per copy.

his tonsils were *changed.* The second we operated we got ourselves a persistence of the condition.

Tone Scale: Survive or Succumb

There are really two levels on the Tone Scale. Above 2.0[2] is survival. Below 2.0 is succumb. In other words, above this artificial, arbitrary figure of 2.0 we have the goal of the individual being to survive. But below that level the goal is to succumb.

Now, we have a percentile goal. Somebody wants to seventy percent succumb and thirty percent survive, so we get a very conflicting state of mind, as we could call it colloquially. Call it "arrangement of ideas" and you would come much closer.

We go down Tone Scale and find out this person wants to succumb ninety percent and wants to survive ten percent. Well, there is not much conflict there. One of the first things a fellow at that level will think of in terms of himself is how he could kill himself, *if* he could think about himself at that level. If he thought about you, he would think of how he could kill you. Thus we get the criminal bands. It is quite an interesting manifestation.

Once a person has failed to convince the society around him of his worth, he is liable to take the course, the downward spiral, into levels of succumb which require murder or death as the only sufficient approach. He knows the best thing for everybody is succumb.

From this we get the philosophy, that glorious ornament to thinkingness of the human race, found in "The World as Will and Idea" by a guy named Schopenhauer. He conceived out of the greatness of his Germanic wisdom and deduction of reduction to absurdity that the best possible thing for the human race would be for everybody and everything to quit and stop in its tracks and that would be the end of that. And *that* is the *best* thing to do!

That is still higher-toned than Hitler who said, "The best way for Germans to live is to kill everybody."

The universe is so set together that an individual who goes out to kill everybody does himself in. There *is* retribution. There is a rapid and exact retribution for one's acts.

(And if a person thinks he can be *happy* without making those around him happy, he is crazy!)

Communication

It is a great oddity that there *is* an interaction from human being to human being and this interaction follows an agreed-upon pattern for there to be sustained any communication at all. If we are going to sustain any communication or concourse with our fellows, then we become liable to all of the laws, rules and offshoots of communication.

An individual could not help but come to the conclusion that if we do not feel ourselves strong enough, wise enough, competent or able enough to support these liabilities, then we have no business whatsoever living with the human race, but should find ourselves a nice little cave some place back of the Atlas Mountains[3] and sit down and live on goat's milk. He could not help but conclude that it would be impossible for him to go on communicating with all those people if he believed that everybody, or at least a lot of bodies, should die. Why? Because talking to people gives him a kind of dyingness. If by talking to people he experiences dyingness, this tells you immediately what the intent of his communications must be. He must intend no good for his fellows, but quite the contrary; if turned loose and let go just a little bit he says, "I'll get the sword nice and sharp and get to work."

It is that individual and the restraint of that individual which brings about the condition known as police who, in a rational, sane society, are about as useful as bubonic plague. Yet we are taught that if there weren't police in the society, everybody would get murdered. Whose conclusion is that? It must be the conclusion of a person whose intent and goal is to murder everybody. The idea of restraint, the idea of restriction, barrier and breaking up must perforce spring from people who had better be barriered.

These are the liabilities of communication.

The individual could theoretically survive all by himself, with no space, no energy, no matter, in a timeless state which would persist forever. Theoretically he could do this. Theoretically one could be in a condition which desired no communication, which wanted no concourse, which needed none and which wouldn't even know about it. But if there is communication we have to have, first and foremost, two terminals. Even when a fellow is talking to himself he still has to say part of himself is somebody else, so we are talking about a two terminal condition. The moment we have a two-terminal condition and communication we have a universe in construction. And if that universe sweeps along in its construction to where communication seems to be unbearably painful to the majority of its inhabitants, somebody had better as-is it.

We have a condition here where the only real panacea — in mechanical terms — for space and energy, matter and time is communication. Communication is the sole curative element which can dependably change, alter and eradicate — without penalty — space, energy and matter.

What happens to a person who shuns it? What quality of black glass does his bank become? What happens to an individual who, having already assumed communication, says, "Communication! That makes me feel bad. I don't like it. It's too painful to talk. It's too horrible to contemplate. I've got to draw barriers here and secretaries there and cut telephone lines over here and put torn up mail over in this corner..." He is on his way to believing that everybody is going to be after him, and at the same time to the conclusion that he had better be after everybody.

This condition is not particularly perilous, but we go four or five harmonics down this Tone Scale and we get into a condition which is very interesting, indeed. We get your political fascist, your criminal, the insane, the psychiatrist. We got to people who have to use mass in a violent way in order to convince anybody of anything.

We have an interesting thing. First we have the idea as sufficient unto itself. Then we have the idea which has to be backed up with some space and some energy and some mass. And then we have the idea which has to be backed up with lots of energy and lots of space and lots of mass. And then we have the idea which is so perilously and tenuously held that it has to be backed up by the consideration that space and energy and mass are bad and you are going to get it!

People get into this state of being quite easily. They believe that space and energy and mass is the most important driving force in this world. They believe these things are just fabulous. They believe, at the same time, that the greatest healer is time. Time is not the great healer — it is the great charlatan because time, mass, energy and space do not exist independent of the postulates of life. We are merely looking at another set of postulates represented with the urgency of conviction.

The human being has gotten into the interesting state of believing that he can convince nobody of his presence unless he hands up a body. The only way you can convince somebody you are there is to give them a body. Isn't that interesting? Feel it for a moment. It will start to appear rather ridiculous to you. The only way you could convince anybody you were there or that you were anybody would be to present them with a body. It stands in space, it

moves with energy and it is mass — they know you are there.

If you are having a hard time trying to figure out how the devil they *would* know you were there unless you *did* present a body, be aware of this interesting thing: you must be trying to keep from being located. Look it over for a moment. If you think the only way you could make anybody else aware of your presence would be to present a body, then you are presenting some kind of a substitute and saying, "Hey, that's me!"

Truth

These factors must contain in them a certain amount of truth if their use on the spirit of man and with his cooperation produces marked changes in his behavior, in his intelligence, in his ability, in his perception, in his willingness to be perceived. If we use these factors and produce marked changes in the ideas, personalities of people and we better them and make them freer, then I feel that we must be talking somewhere close to truth.

Truth is a very interesting thing since the only way we get any persistence of any form, or any energy, or any mass is by changing it. Only if we alter truth do we get persistence. This is fabulous, but very true.

Some pessimist is going to come along and say, "You mean that everything at which I look has a lie in it?" Well, if you want to state it crudely, yes. If a lie can be defined as an alteration of truth, or a departure from the truest true you know, then that is perfectly true — the floor is there because it is a darned lie! But one can easily accustom himself to these lies.

It is only when the individual becomes hectic and very upset about lies that stuff that is composed of lies goes out of his control.

This does not give anyone like Hitler a license to deal only in lies. If he deals only in lies, he will as-is everything too. He will bring about a condition of such persistency of lies that he won't have any truth left and you must always have a certain amount of truth left, because it is the alteration of truth which gives us persistence, which gives us survival. We must alter or repostulate truth. If you alter lies and continue to alter lies, you get something else entirely different because you haven't got the first postulate to be followed by the second. Some truth must always be present. It is only when no truth is left that we get the bad end of nothing.

Truth in Auditing

The lessons which we learn in auditing today in Scientology are very, very interesting lessons. They bridge upon and across some of the greatest philosophic conundrums[4] that have ever been advanced by man. What is justice? What is right? What is wrong? What is good behavior? What is bad behavior?

There is many a person going around who conceives the only thing wrong with them at all to be that they can't figure out how it all ought to be. They see badness and viciousness and villainy on every side succeeding. They see this consistently. They see injustice, bought courts, perjury and false witnesses being rewarded on every hand. And something in them says that the only thing upon which this whole universe and all of us within it can possibly depend is truth. And truth somehow is decency and goodness and charity and mercy and kindness. They see this, and yet all they see rewarded is viciousness. They get this sort of a conundrum in their head and just say, "I don't like it."

The only thing that is wrong with them is they have lost so much of their own basic truth that they are no longer able to combat an untruth. And the only thing you have to do with them is let them recover some of their basic truth. Let them see there *is* a reward for decency and kindness and justice and mercy and charity. Let them see that these things are basic. Let them see that communication is not bad, it's good. Let them see that decency and honor are extant.

How would you let them see this? Auditing.

Auditing today depends less upon the alteration of the moral nature of the individual than upon the rehabilitation in the individual of his ability to recognize and to be truth.

But what is truth? The truth for this universe is the definition of a static,[5] and a fairly close path of the fifty-one Axioms in *The Creation of Human Ability*. They work because they bring an individual closer *to* truth and much further away from disaster and lies than anything else has brought him. There must be an interweave of truth in these Axioms because in their use one recovers truth.

What is the basic truth? The basic truth is that an individual can survive without any communication with his fellows; he can persist one way or the

(continued on page 12)

4. *Conundrum:* A puzzling question or problem.

5. *Static:* An actuality of no mass, no wavelength, no position in space or relation in time, but with the quality of creating or destroying mass or energy, locating itself or creating space, and of re-relating time. No part of mest can be static, but theta is static.

Important facts about Flag Auditing.

1. Is there really THAT much difference?
Bluntly, yes! Flag tech is the highest by long tradition. Many Flag tech people have worked close to Source, assisting in tech research as case supervisors and auditors (ministers). They really learned the meaning of *standard* tech. Auditors and C/Ses are trained on Flag's standard courses and interneships until *flubless* and *certain*. That is why Flag pcs say, "I had read and heard of Flag auditing (spiritual counselling) and it exceeded my expectations." "Flag auditing is incredible." "This has been by far the best auditing I've ever had."

2. You save time (and even money) in the long run.
"This has been the most incredible auditing I have had as far as gain per number of hours." "I took more charge off my case in the two and one-half intensives here than I have in all my previous auditing." With spot-on programming and C/Sing and flawless, correct auditing you move through your auditing program with tremendous wins. And you fully *handle* each step as well as handling just what *you* need handled.

3. It's a safe, upstat, on-Source environment.
Your living and auditing are under "one roof." Day-to-day cares, work or home problems, difficulties handling the environment, are left behind when you come to the Land Base. Thus you don't have to spend time auditing these things, you can go in and handle your case.

4. Tremendous case gains.
Since you get the exact, correct next step for you, as well as cleaning up all past auditing as needed, all superbly delivered, case gains are tremendous no matter *what* action you receive. "I've had so many unbelieveable wins that I thought it would be impossible to feel better." "I got so many more gains than I ever expected." "Without a doubt this has been the best and most rewarding auditing I have ever had."

5. Have complete confidence in your auditor.
Flag auditors are known for natural TRs, excellent session presence, and an amazing ability to pick up and handle *whatever* comes up in session. "My auditor created such a safe space, I could outflow about my problems and handle them without undue stress." "My auditor had me totally in session and auditing became the most exciting pleasure." "My Flag auditor was the best, I have felt totally safe in session."

6. Flawless application of Scientology tech.
How is the high quality of tech achieved at the Flag Land Base? It's a combination of high quality training, and auditor and C/S certainty and flawlessness gotten on tough interneships. Add to that careful attention by all tech staff to handling all details of your case. This hard-working team is dedicated to the application of 100% standard tech and to *your* progress, wins and personal expansion. "The service and tech are surely just as Ron intended, and he intended perfection." "Thanks for creating such a safe space and a dedication to the ideal of maintaining standard tech."

7. Have complete certainty of results.
What does all this add up to? No matter what auditing you come to Flag for, you can be certain of superb results! "I achieved far beyond what I expected!" "Whatever comes along, Flag can handle it." "I came here hoping to get handled a problem that had been bothering me for years. I not only did that but I also achieved further states."

8. There are NO case prerequisites for Flag auditing.
Any Scientologist may apply for Flag auditing.

Biography of L. RON HUBBARD

PART II

Part I of this Biography of Ron appeared in Source 13. It covered Ron's life from 1911, his birth, through the publication of Dianetics: The Modern Science of Mental Health *in 1950.*

Below is Part II and the completion of our Biography of Ron, taking up with 1950 and the formal beginnings of Dianetics and Scientology.

1950 — 1977

Almost immediately, thousands of readers began to apply the data from the book and Dianetic groups sprang up across the country, with and without sanction.

Realizing already at this stage that the mind in itself, no matter how liberated, was limiting and that there was something 'animating' the mind, he permitted the founding in 1950, of the Hubbard Dianetic Research Foundation to facilitate investigation into the realm of the spirit. Thus was Scientology born.

The United States Government at this time attempted to monopolize all his researches and force him to work on a Project "to make man more suggestible" and when he was unwilling tried to blackmail him by ordering him back to active duty to perform this function. Having many friends he was able to instantly resign from the Navy and escape this trap. The Government never forgave him for this and soon began vicious, covert international attacks upon his work, all of which were proven false and baseless, which were to last 27 years and finally culminated in the government being sued for 750 million dollars for conspiracy.

The pace of research and writing quickened. To an already crammed schedule, lectures were added. These lectures, usually arranged in a series spread across one or two weeks of intensive meetings, were later to become famous, and many are preserved on tape and in book form.

The Oakland Lecture Series in September of 1950 and the Los Angeles Lecture Series in late November of that same year are preserved in book form in *Notes on the Lectures.*

1951 saw the publication of *Self Analysis*, a very practical self-help volume giving a way to improve memory, reaction time and general ability.

Also in 1951, *Science of Survival* was published, a 506-page volume outlining and describing in detail the relationship of Man to the physical universe and an exact pattern for the prediction of human behavior.

In 1952, L. Ron Hubbard published *Scientology 8-80*, which described the physical manifestations of thought and past identities in terms of flows and ridges surrounding the body.

A new series of lectures was delivered in Philadelphia, also in 1952, in course format: The Philadelphia Doctorate Course. These lectures, all of which were preserved on tape and are available today, went into great detail about the behavioral patterns of the spirit — a breathtaking delineation of the spiritual landscape he was now surveying.

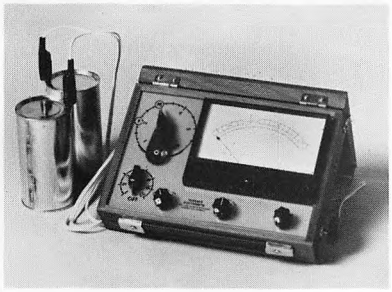

Many awards and honors were offered and conferred on L. Ron Hubbard. He did accept an honorary Doctor of Philosophy given in recognition of his outstanding work on Dianetics and "as an inspiration to the many people . . . who had been inspired by him to take up advanced studies in this field . . ."

An historic milestone in the history of Dianetics and Scientology was passed in February, 1954, with the founding of the first Church of Scientology. This was in keeping with the religious nature of the tenets dating from the earliest days of research. It was obvious that he had been exploring religious territory right along. And whatever the name given to the technique or study and whatever way it had been interpreted by skeptics or sensation-mongers, it was apparent to those with a sense of history and Man's ages-old spiritual quest that this was indeed the realm of the soul and its havens.

And Dianetics and Scientology were snowballing across the United States and reaching other shores — England first of all. *Dianetics: The Modern Science of Mental Health* was everywhere. As early as 1951, the publisher

News About Ron

(continued from page 7)

Casini had brought out the first Italian edition in Rome.

In 1954, there was another lecture series, in Phoenix, Arizona. These were startling talks on the qualities and fundamental nature of all life. Today they can be studied in book form: *The Phoenix Lectures.* It was in this series that he described the Axioms of Scientology, those self-evident truths which provide the philosophical foundation for the entire religion.

And in 1955, the U.S. District Court for the District of Columbia certified that he was a Minister of the Church.

On November 13th 1957, The International Oceanographic Foundation, with headquarters in Miami, Florida, made him a Fellow of the Society, "by virtue of contributions to the advancement and extension of knowledge and discovery in oceanography and the marine sciences."

At the end of the fifties, L. Ron Hubbard moved his home to Saint Hill Manor, a vast and beautiful Georgian residence in the green hills of Sussex, in England. Increasingly effective techniques had been developed for the further liberation of the spirit and the exploration he now conducted was leading inevitably to spiritual freedom, the ages-long quest of Man's greatest religious leaders.

On a literally 'down-to-earth' level, though, L. Ron Hubbard was moving in a direction new even for him. 1959 and 1960 saw him, now firmly established at Saint Hill, conducting a series of revolutionary experiments on plants in a fully-equipped greenhouse laboratory on the Manor grounds. On September 25, 1959, a local paper was able to record that "L. Ron Hubbard . . . whose researches in plant life at the Manor look like revolutionizing horticulture, has carried out an experiment which points to the fact that plants react in much the same way to certain situations as do human beings."

His discoveries on the nature of life in plants were described by one Journal as "25 years in advance of today's methods and ideas." This proved prophetic for 13 years subsequent to L. Ron Hubbard's findings, experiments on plant life reaction in Swiss, German, Russian, American, British and Canadian scientific institutions have validated his findings in rigorous test conditions.

In 1961 he set up an educational visit to teach the now standard methods of Dianetics and Scientology, to ensure uniform quality of application. Students came from all over the world. And over the next few years returned to their local academies to use study methods which revolutionized the philosophy of education.

Student failures could be recovered. Study barriers by 1965 had been overcome.

For more than two millennia Man had dreamed of a spiritual state where, free of his own mental aberrations, he would be truly himself. L. Ron Hubbard called this state "Clear." And, at Saint Hill, in August of 1965, he announced the attainment of Clear.

The dream of Buddha, attained by the few, was a reality. Man could be Clear.

And the reality which was and is Clear was to be available to all who followed the exact route he had laid out. This route he called The Bridge. For it was a span across the abyss of misery and degradation and sorrow to a higher plateau of ability and happiness.

In 1966, having paved the way to Clear so that it was safe and sure for others to walk, the Founder resigned from any official administrative capacity in Scientology.

He discovered and developed the astonishing materials above Clear now known as the Advanced Courses. These are the eight OT sections, enabling one who has attained Clear to regain abilities never before accurately credited to the human spirit, as an Operating Thetan, a spiritual being operating independently of the laws of the physical universe.

In July of 1966, OT I and OT II were released and, during the last months of 1967, came the breakthrough of OT III.

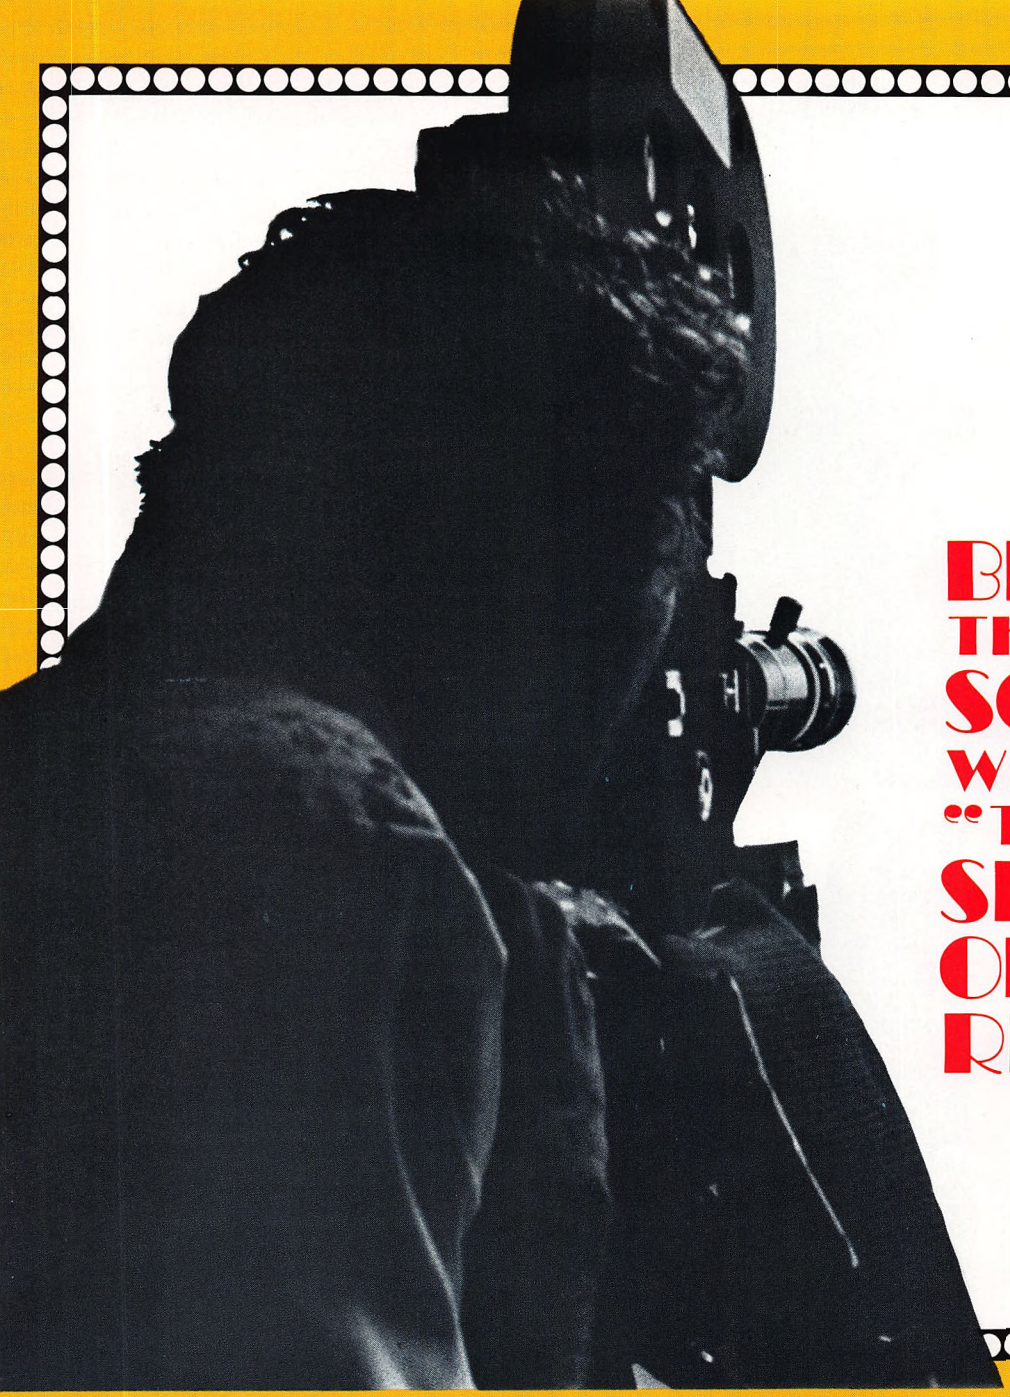

A research accomplishment of immense magnitude, OT III has been called "The Wall of Fire." Here are contained the secrets of a disaster which resulted in the decay of life as we know it in this sector of the galaxy. The end result of OT III is truly the stuff of which dreams are spun: the return of full self-determinism and complete freedom from overwhelm.

The formation of a new Scientology group dates from this same period. Hearing of L. Ron Hubbard's plans for further exploration and research into, among other things, past civilizations, many Scientologists wanted to join him and help. They adopted the name "Sea Organization."

January, 1968, saw the release of OT Sections IV, V and VI as a sequence of spiritual abilities to be reached. And, in September of 1970 came OT VII. OT VIII has yet to be released.

These OT Sections and the abilities and awarenesses they restore to the individual are the greatest gifts to Man of an honest man who has retained his 'common touch' and humility.

People all over the world consider that they have no truer friend. ■

BEHIND THE SCENES WITH "THE SECRET OF FLAG RESULTS"

WE'VE REACHED another milestone in Scientology. We're in the Scientology entertainment motion picture business!!

The first entertainment movie to come off the line is the exciting, action-packed film, *The Secret of Flag Results.* It's great fun. It's great entertainment. It has Scientologists clapping, cheering and laughing with joy at showings all over the world!

The Secret of Flag Results is the result of a brilliant idea (and story and screenplay) by Ron himself, produced through a lot of hard work by a handful of talented Scientologists.

The movie represents some important firsts. As mentioned above, it's the first Scientology *entertainment* motion picture. It's also the first such movie produced within the church by a movie production team, and it's the first motion picture to be done by Universal Media Productions.

Universal Media Productions, known as Uni-Media, is a church organization working out of the Flag Land Base. For a couple of years now, they've been doing various audio and visual products for Scientology dissemination and instruction use. For example, they have done still photography for promotion and magazines (the spectacular *Advance!* magazine covers are done by Uni-Media) and videos shown on some earlier Flag Tours.

But Uni-Media got into the movie business in May of 1977 when they received the script for *Secret,* done by Ron. *Source* talked to Doug Lewis, the director of *Secret* and top executive at Uni-Media, about these early weeks. "When we first read the rough script, we loved it! It was quite exciting in itself, and a big step for us to go into films."

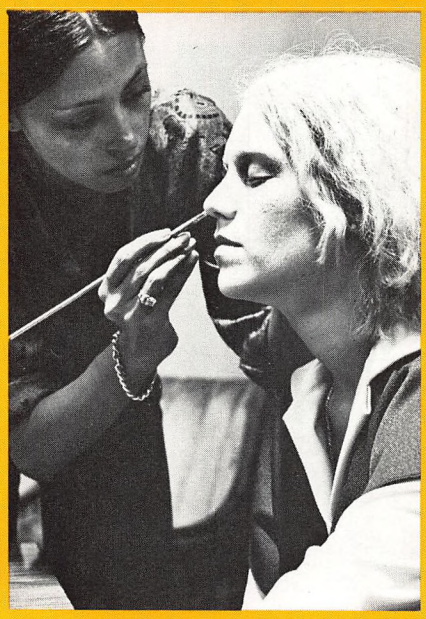

Now, to shoot a professional movie takes a good amount of know-how and equipment. You can't just grab a camera and go to town. Here was a group of Flag Sea Org Members with little or no experience in making a movie, and they had to produce a good one in time for release in December of 1977.

Uni-Media crew had to learn *how* to make a movie, so they got to work studying every available text every free moment. (Lucky for our Study Tech and Word Clearing.)

While they were learning how to make the movie, they had to put the preparatory actions in motion, such as casting, collecting or making props and costumes, building sets, setting up

Shooting (above) required hours of work for actors preparing for each scene, then time under the hot lights getting everything just right.

lighting, testing equipment and films, testing make-up, etc.

Casting was one major job, for the Uni-Media casting director had to find out who out of the staff of the Flag Land Base could do the best job of acting and for which part. The supporting and bit acting was done by Flag Land Base staff — most of whom had no previous acting experience. Over 125 people were auditioned and screen tested using video equipment. With an abundance of volunteers sometimes it was a problem picking one person out of several for a part. As Doug commented, "We had trouble choosing *the* right person in some cases as many did really well. People you wouldn't expect to had latent talents."

The role of Senior Case Supervisor, David Mayo, was played by David himself, as specified in casting instructions.

For the two main stars of the film professional actors (Scientologists, of course) were flown in to the Land Base. Richard Reich was picked to play the lead role of Tom Carlyle, Flag C/S. Kathy Van Lypps was chosen to play Elaine Smithers, famous actress and Flag pc.

To film a movie in the usual color films requires vast amounts of light. The Uni-Media lightman wanted standard, consistent lighting for simplicity in shooting, so a good workhorse lighting system was designed, and then *built* by the Uni-Media crew.

Hundreds of square feet of canvas sets were made and painted for walls for interior scenes.

Finally, after weeks of preparation, testing, building, etc. Uni-Media got into production, shooting the movie.

There were over 250 scenes total to be shot, including a number of special effects shots and some tricky camera work where one scene had to dovetail into the next. For a newcomer film company, Uni-Media had their work cut out for them!

The shooting took a rather long time, but they learned a lot as they went. *Secret*, a 45-minute movie, took them about 18 weeks in shooting. But their next movie which will be released mid- or late 1978, *The Case He Couldn't Crack* is approximately twice as long as *Secret* and took them 12 weeks.

Because they were using mainly unskilled actors, the Uni-Media team used a system for grooving in an actor on his or her part, which included studying the script (with full Study Technology), Word Clearing, Tone Scale drilling and a study of relevant basic Bulletins and Policy Letters by Ron. The result is a lot of remarkably professional acting in the movie.

Of course, for the auditing scenes, Flag Class XIIs were brought in for key shots to supervise the technical aspects.

Shooting the film was not without its light moments.

One scene required a seagull be shot flying away from the camera. The Clearwater Beach seagulls, though in abundance, were spoiled and refused to cooperate unless bribed with goodies. They soon grew tired of the bread offered, then they got bored with hot popcorn, and finally would only be enticed with french fries, *if* hot and salted.

Another scene involved a live snake. While being filmed in the Land Base gardens, the "borrowed" snake escaped and caused frantic minutes of searching.

Using Flag staff for the supporting and bit roles had its good points and bad points. One good point was many people were close at hand for initial shots. One bad point was having to fly actors in from mission or tour in some far-away place for re-shoots.

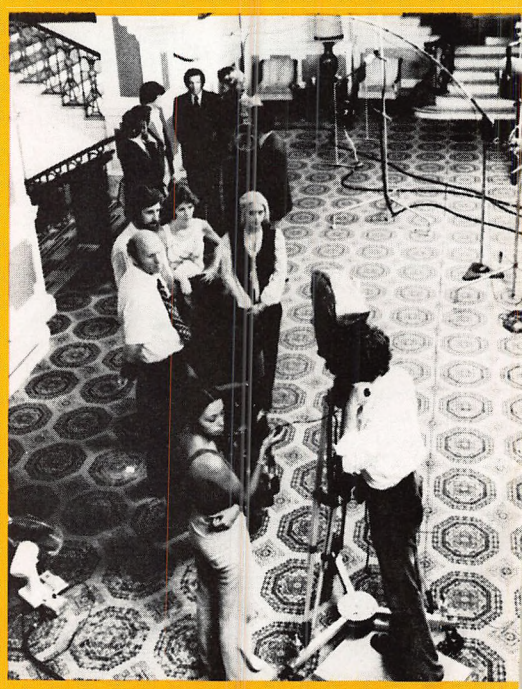

The saga of the filming of *The Secret of Flag Results* was finished in late October.

From there the film required editing in Los Angeles, done expertly by Ron Mitcheson. And the various finishing touches were made.

The exciting new film was ready for early December release.

From its first showings, a sneak pre-

Skillful make-up was required (left) to change pretty Kathy Van Lypps into a middle-aged, haggard woman. Some scenes such as the shot in the Land Base lobby (below) were shot on location at the Land Base or in the surrounding Clearwater city requiring hundreds of pounds of gear be moved and transported. But most of the shooting was done on sets (lower right) in the Uni-Media sound stage on the Flag Land Base premises.

The Hollywood Premiere at the Hollywood Palladium of the movie brought Scientologists from miles around, packing the huge auditorium to capacity. The stars, Kathy Van Lypps and Richard Reich (above) presented a special award to Ron for "tremendous technical research . . . done in the field of the arts and the immeasurable impact of your work on the culture of this planet." The award was presented on behalf of "Scientologists who have used your tech to live more creative lives."

WE'RE IN THE MOVIE BUSINESS!

The release of *The Secret of Flag Results* marks the beginning of a new era of Scientology motion pictures for information, dissemination and entertainment! Yes, we're in the movie business!

Movies have been produced and distributed before in Scientology, but mainly to Churches and Missions for they were the large 16mm size which requires costly equipment and makes the movies themselves rather costly.

Now Scientology motion pictures have moved into *cassette* movies, a simple, inexpensive, durable, compact system for showing films.

Extensive research went into locating the best set-up for making Scientology movies as available and easy to show as possible. The system found best, and to which the entire Scientology film line is being converted, is the Super-8mm Cassette, the Technicolor system.

With this system you have a compact projector, about the size and shape of a large slide projector, and the film inside a cassette similar to a tape cassette. There are no clumsy reels, no film jamming, film breaking, expensive equipment or other liabilities of reel film.

All of Ron's earlier films are being converted to this system.

Ron's *1956 Clearing Congress Films* are now complete and ready for distribution. That's a total of six hours of Ron's lectures, in color.

Also, the famous *Introduction to Scientology* film (the interview with Ron) has been converted to this system.

Others will follow.

All newly-made films will be distributed using this cassette system.

The Secret of Flag Results is the first!

And more films are on the way! *Source* magazine has learned from informed sources that Uni-Media Productions has a new film in production, based on a brilliant screenplay by Ron, entitled *The Case He Couldn't Crack*. This new film will be feature length, approximately twice the length of *Secret*.

There are also introductory films, instructional films and much more in the plans.

Yes, we really are in the movie business!

Churches have been equipped with the basic system of the Technicolor cassette projector, screen and external speakers. Missions, Field Staff Members and Groups, as well as interested individuals, should also get themselves set up with the system. It is a valuable dissemination, entertainment and training tool.

The set-up is relatively inexpensive, under $550 for projector, speaker and screen. For information on how to obtain the equipment needed, write to Mr. Peter Cook, Office of Promotion and Books care of the Flag Land Base, P.O. Box 23751, Tampa, Florida 33623.

The list of films now available and where to obtain them is below.

And good news for non-English speaking areas! Publications Organization Denmark is preparing translated sound tracks for all of these films!

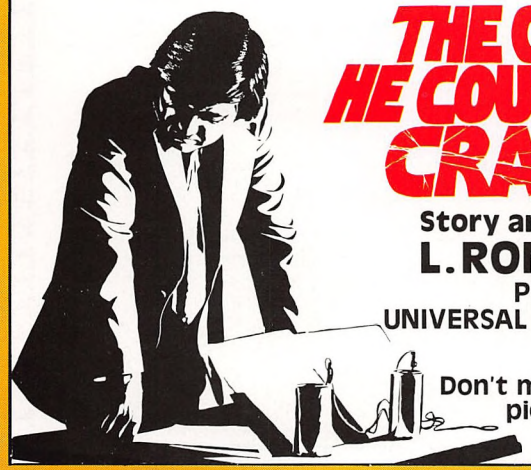

Welcome to the new era of Scientology films, the bright and effective dissemination and entertainment tool!

HOW TO GET FILMS

The films now available from Pubs Orgs are: *The Clearing Congress,* $457.15 per film, six films in all. *Introduction to Scientology,* $428.57. *The Secret of Flag Results* on two cassettes, $525.00. Direction of Truth in Auditing

(continued from page 5)

other by his own postulates. (But he won't have any games — not a one, and he won't have any fun — none. But maybe that is all right, too.) And, that every individual has within himself free choice to go where he wills, do what he would, think what he wants. It is by the interruption of that free choice by himself and by his agreements that we get solidities, barriers. And these barriers only become onerous and very bad to have around when the individual has more barriers than he has truth.

Therefore, we say to the preclear who can't exteriorize well that we have got to give him some more auditing. Why? We have got to change his level of truth, which is to say, we have got to give less stress to the barriers and more stress to the individual.

When we audit a body, when we audit space, energy and mass, we are changing barriers and they only persist by being changed.

This leaves us one whole sphere to audit which is much more important than the sphere of barriers. That whole sphere is the auditing of truth itself, which is in you and which *is* you, a thetan.

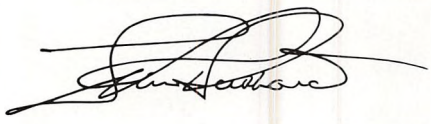

Thereby and therefore, a thetan can be audited infinitely without bringing about a persistence of bad conditions. He can be audited without any liabilities, his problems can be addressed and changed without liability.

The only liability there could possibly be in auditing would be to address barriers, because we would make barriers persist. Therefore we no longer audit barriers of any kind.

All we do, perhaps, is to get the individual habituated to the idea that there might possibly *be* some barriers somewhere and that he could recognize this fact without dying.

And when we have done that we can go on and audit the individual.

Therefore, we are not in the healing sciences because there is absolutely nothing wrong, nothing of any kind whatsoever, with that which we treat, which is the thetan, the spirit of Man.

This article is from Ron's lecture "Direction of Truth in Processing," given 4 June 1955 at the Anatomy of the Spirit of Man Congress. The lecture is available on reel-to-reel tape, including on the second side of the reel the lecture "History of Research and Investigation." You can obtain these two lectures by ordering Reel Number 55ASMC 3/4 from the Flag Land Base Bookstore (address is on page 2). Price: $50.00 for two lectures, one reel. Membership discounts apply. PEOPLE AT THE FLAG LAND BASE

Ron Moss, Auditor and OT, has done well in management and had an unexpected recovery of his interest and skills as a musician.

RON MOSS (Class IV Auditor, OT VII) is the Executive Director of "New Art Management," an all-Scientologist company in Los Angeles which manages the business affairs of Scientology artists Chick Corea (also President of the firm), Gail Moran and the group *Return to Forever.*

The Flag Land Base is their "second home," the place where Chick, Gail, Ron and some of the road crew of *Return to Forever* and the New Art Management staff get their auditing and training.

Ron attributes his own success and the success of the management company to the use of Scientology technologies, and to the auditing and training of the Flag Land Base. "Our management group is expanding at a great rate. We are forming a true group, not a simply social or business group. It was only a year and a half ago we began getting training and auditing on Flag's lines; it is since then we have had these wins."

"The datum we follow" Ron Moss explains, "is if you apply LRH's tech as he says, you win! It really is incredible. But let's face it, no one but L. Ron Hubbard has developed really workable ethics, tech and admin!"

The success of the firm is such that their lawyer — a non-Scientologist who handles other groups and artists — observed theirs is "the best management company in the U.S., if not the world."

New Art Management backs up the production, and handles organization, administration, promotion, etc., for their artists. In 1978 alone Chick, Gail and Return to Forever have a heavy schedule of four albums, two world tours and a 10-week U.S. tour.

L. Ron Hubbard has said about the artist (in *Science of Survival,* page 239): "A culture is only as great as its dreams, and the dreams are dreamed by artists."

Ron Moss says, "This gives an idea of the responsibility I see that I have and our group has. The goal of the management company is to carry out the goal of the artist."

An interesting side note is that the management company handles a considerable amount of interest in Scientology generated by Chick and Gail and the group through albums, tours and personal contacts. Two full-time staff are posted to handle the mail and reaches from fans; about half the reaches ask about Scientology. There are "reams of letters from people who have gotten into Scientology via Chick."

Ron grabs every spare moment in his busy schedule to come from Los Angeles, or wherever in the world he might be, for training or auditing. What keeps him coming back?

"Flag delivers LRH's tech exactly standardly, as he says it should be applied. Flag auditing gave me gains of all my 10 years of Scientology, it brought them together. I've had all Class XII auditing. The quality? . . . Well, just today I had a session that was honestly the best I've had in my life.

"The results, in my life, from Flag auditing are spectacular. After my last visit our Gross Income tripled.

"A gain for me personally was in my music. I had stopped playing the trombone though at one point I'd been a professional musician. After my first Flag visit and auditing, I began playing and I was playing the best ever! Soon I was performing with Chick. My return to music and the quality were from auditing, not practice! Now I'm achieving not just my admin goals, I'm achieving my creative goals, too. Seventeen years ago I never dreamed I would be playing with Chick, now here I am.

"Sometime in the future I want to do my own auditor training here. Since Flag has the best auditing available, the auditor training is undoubtedly the best too! Of course, the training and cramming I experienced on the Data Series Evaluator's Course here were phenomenal.

"Flag can *deliver,* and it delivers to my schedule — from the business point of view. It is a *complete* service; it's fast and the best."

Swiss Scientologist, Martin Huber, enjoys telling of his experiences at the Land Base.

MY AUDITING HAS reached a point where I now want to train and be an Auditor. It's a totally different ballgame on the training side of the Bridge!" **David Percival,** Grade IV, L-10, has made three trips to Flag for auditing in as many years. On his recent third visit, he decided his case wasn't a concern any longer; he wants to get Ron's *tech* to handle life and audit with auditor training.

So, David began with a Flag-exclusive course which gives a grounding in survival on the First Dynamic in the world; the popular Hubbard Ethics and Integrity Course.

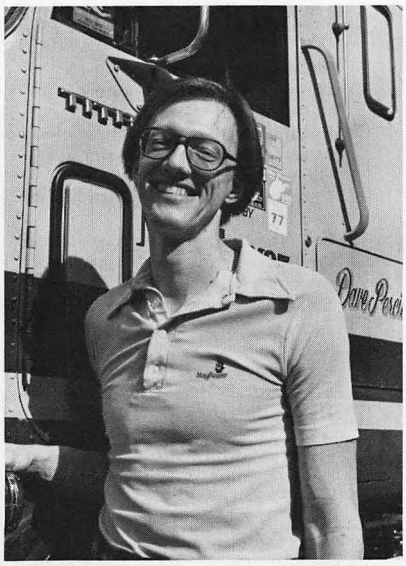

His plans for the future include training at Flag from Hard TRs Course through the Saint Hill Special Briefing Course.

Dave has spent the last five years as a professional truck driver. He credits auditing with his success: "The more auditing I had, the more causative I became and the more money I made, commends I got. It gave me energy and increased self-determination to 'keep on truckin'.' "

In his work driving the big truck for a major moving company, Dave was on the road for long periods of time. "There were times I felt I needed a friend — Ron always came through. He has a way of putting things that is so spot-on that I would immediately key out when reading his tech. I might have been by myself for long periods of time, but I never felt alone!"

Dave describes his arrival at the Base

People at the Flag Land Base

(continued from page 13)

recently this way, "When I first came in all the upsets I had hanging around from work and the world in general just blew off! It was like I came home! The Land Base is really like a home away from home. I feel so comfortable and safe here. The friendliness is very apparent. Everybody is high-toned and producing. You feel *good* here!

"The food is fantastic, the service has been really great. I feel like a special person," Dave adds. He arranged to be at the Base for the holiday festivities. "The holiday season is fabulous with the feasts and parties.

"All my auditing has been absolutely tops. Things are handled immediately." Dave explains.

But ask him about Flag training and watch out! "The training is great — it's incredibly tough. I have great admiration for the Director of Training (D of T) and supervisors. The D of T especially is dedicated to making sure every individual gets what he is there for. If anyone isn't F/Ning she sees it and makes sure it's handled. I know, without a doubt, when I complete my training to Senior Class IV, I'll totally have it. Not only will I personally be immensely more capable but I'll know I can truly help others. There is much to be done and I'm very very proud to be part of the team!"

Dave plans to leave the trucking business at least part of the year to work in a Scientology group or mission, as a *trained* Scientologist!

MARTIN ERIC HUBER is a Swiss-born Scientologist recently at the Flag Land Base for auditing and the Flag Hard TRs Course.

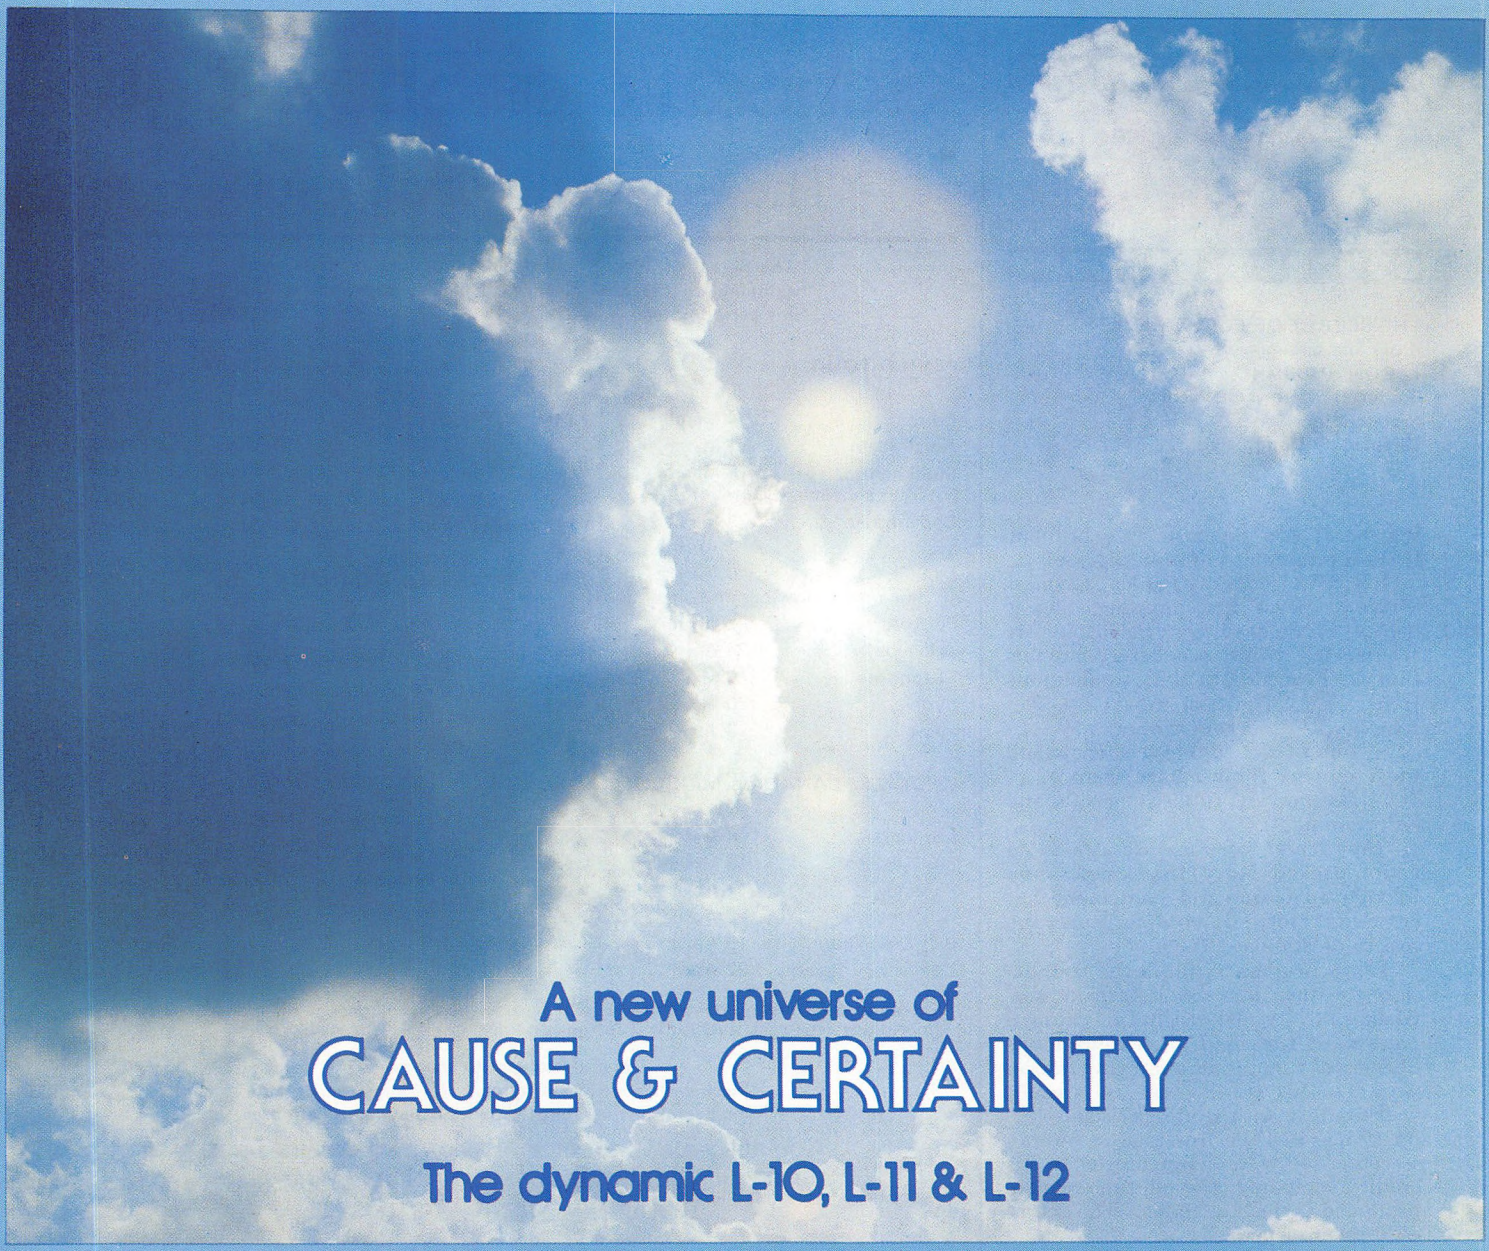

From the start of his visit in December 1976, Martin enjoyed the speed of the service. "The lines here are very fast and the staff work very hard to keep it that way and are proud of it."

Martin had the good fortune to be at the Land Base over the holidays, and reports the Christmas banquet was a feast of "a hundred and thirty different exquisite dishes." And elaborates on the rest of the festivities. "There were two showings of the famous movie 'Dr. Zhivago', Santa Claus and cartoons for the children, a pirate party with a ship as a dance floor, the Christmas message from Ron, music in abundance and dancing in such an aesthetic atmosphere as I have never experienced before. And of course old friends, new friends, joy and theta, on and on . . ."

Martin raves about his ethics handling which he had. "This was a real surprise and relief for me. It was swift and to the point, the gradient just right, no heaviness, no Q & A. What impressed me most and really drove home the point that I was at Flag, the Mecca of Scientology, was what the Director of Inspections and Reports told me in my first handling: "There is nothing which cannot be handled with Scientology. We have the tech for it." Martin describes it all as "the most speedy, standard, validating ethics handling I've ever experienced. It was a key-out and nothing was missed."

After his last session, Martin attested to "Exterior to the Mest Universe." His success story reads, ". . . it has opened up a new area for me and I know things will never be again the same. I feel calmer, more stable, lots of increased ARC and I'm operating faster too. My track has opened up tremendously. I want to thank my auditors. I also want to thank the HGC crew and the C/Ses for their caring and help. This is *truly* the safest place in

A new universe of CAUSE & CERTAINTY

The dynamic L-10, L-11 & L-12

L-10, L-11 and L-12 — incredibly powerful rundowns for a whole new universe of Cause and Certainty!

The L-Rundowns are available only at Flag, audited only by skilled Flag Class Xs, XIs and XIIs, because of the very precise auditing required.

So powerful are the L-Rundowns, they bypass the normal protective mechanisms of the reactive mind and remove *spiritual* blocks to OT power and ability!

Preclears *and* OTs can receive L-Rundowns. For the preclear, Ls will speed your progress up the Bridge and help you attain marvelously expanded OT gains when you get to your OT levels. For the OT, OT abilities will be immensely expanded.

To ensure full gains on Ls, preparatory auditing is usual. This varies in length, but 12½ to 25 hours is average at regular Flag HGC auditing donation rates.

L-10 — BEING AT CAUSE OVER LIFE

"It does not supplant other processes of the Grade Chart. It will make them even more effective like a booster . . . The basic tech comes from research into increasing OT powers . . . It kicks general ability, perception and memory up through the roof in addition to other things." — L. Ron Hubbard.

L-10 handles the reasons a person withholds himself or restrains himself from action, reasons which are senior to the reactive mind. L-10 consists of 23 separate actions which raise a person's cause level, ability and willingness to DO things. With L-10 a person ceases to be heavily concerned with beingness and havingness and is much more interested in doingness. And, L-10 results in increased perception for the individual in present time — he is more able to feel emotions, to sense things; he finds increased mental and spiritual perception. Become a real powerhouse across all dynamics, able to operate at a whole new level of action!

L-11 — THE NEW LIFE RUNDOWN

"To be rid of aberrations is to have a *new life.* It needs real flubless auditors. The results are smooth. Just call this the New Life Rundown. It gives a new life in truth! What's that worth?" — L. Ron Hubbard.

L-11 consists of six powerful, consecutive, dynamic actions which locate the major source of aberration on which attention is fixed. L-11 does not handle the whole case, but rids a person of his or her personal "stumbling block." It handles the main area of irrationality upon which a being introverts and diminishes his power.

With the "stumbling block" handled, a person has a new life before him. Life is then approached with a feeling of great adventure!

L-12 — CAUSES MORE CHANGE AT A HIGHER RATE THAN ANY OTHER AUDITING

". . . the most startling breakthrough in auditing since '67 (the year OT III was researched)." — L. Ron Hubbard.

The three powerful steps of L-12 were developed by Ron to give an individual full extroversion and stability.

The first step of L-12 handles anything to do with concern over the body, which might pull attention onto it. The second step handles the question of identity, so a person's certainty of himself is tremendously boosted, leaving him thoroughly extroverted. The third step handles hidden and unknown influences from certain persons, either past or present, and puts the individual at cause over such influences.

After L-12, the individual is extroverted and stable — and free to act with no attention on himself or his case!

Prerequisites: Grade IV Expanded, not in the non-interference zone (R6EW to OT III), or incomplete on any major action.

Get yourself onto these dynamic rundowns! You'll never be the same again!

To register in advance, or for more information on the Ls, write the Flag Land Base Letter Registrar today. (Or contact your Flag Service Consultant at the FOLO). Addresses are on page 2.

Donations for each L-Rundown: The first 25 hours (minimum) is $7,500. Further hours, if needed, are $3,750 per 12½ hour intensive.

MOVIE REVIEW

THE SECRET OF FLAG RESULTS
Story and screenplay by
L. RON HUBBARD
Produced by Universal Media Productions
Directed by Doug Lewis

It's here! It's Scientology's brilliant first entertainment motion picture!

It's *The Secret of Flag Results!*

We've never had anything like it before in Scientology. Scientologists around the world are describing this film as "Beautiful!!!," "... tremendous film . . .," "The best movie I've ever seen . . .," ". . . a gem in every way . . .," ". . . one of the funniest, scariest and most moving films I have seen . . .," ". . . fast moving, fun, suspenseful and entertaining . . ."

The Secret of Flag Results is an action-packed story that carries you into the adventure and excitement that *are* Scientology! It communicates the reality of Standard Tech.

Ron's brilliant script is the foundation for the film and its action, suspense and very real insights into human nature and the mind. With voluminous Scientology materials and many fiction works to his credit, you are already well familiar with Ron's skills and production as a writer. Ron is also a veteran *screenwriter* with many movies to his credit, including the all-time classic produced in the late 1930s, "The Secret of Treasure Island."

Universal Media Productions (a group of talented Sea Org members), newcomers to the movie business, have done an admirable job of producing *Secret.* (The production details of the film are covered in the article "Behind the Scenes with *The Secret of Flag Results,*" on page 9 of this issue.)

Richard Reich and Kathy Van Lypps, both professional actors, give very convincing and effective performances in the lead roles.

Filmed at the Flag Land Base, *Secret* has a good supporting cast drawn from the actual staff at Flag. Especially compelling is Flag's Senior C/S, David Mayo, who appears as himself.

The Secret of Flag Results is totally absorbing, from beginning to end. The climax has such incredible emotional impact and power, it has had Scientology audiences all over cheering and clapping for minutes on end!

If you haven't seen *Secret,* see it! It's great entertainment, an exhilarating experience and a must for *every* Scientologist!

— A. McG.

The Flag Land Base

Make your reservations now for your stay at

"The friendliest place in the whole world."

A close view of some of the things that make the Flag Land Base the best, including some you may not have known.

When you think of "The Flag Land Base," what comes to mind? Probably the idea of top quality, precisely applied Dianetics and Scientology training and auditing (spiritual counselling). If so, you're quite right, for the very best in tech is the very *reason* the Flag Land Base exists.

But there are other aspects of the Land Base you may not be as aware of which are part of what makes the Land Base a great place to receive services or even just visit. So here we have listed, including Flag tech, five separate aspects of the Flag Land Base.

1. THE MECCA FOR THOSE WHO SEEK TECHNICAL PERFECTION

First and foremost is the very reason for the Flag Land Base, the high quality delivery of Scientology and Dianetics tech.

With Flag auditing, you can be certain of precise application of tech and full case handling! All standard Grade Chart auditing actions are available, and you can get Flag-exclusive *Flag Case Completion* which cleans up past auditing, fills in missing steps, brings you up to your current level and leaves you flying! There are Flag-only rundowns: the powerful L-10, L-11 and L-12, New Vitality Rundown, Case Cracker Rundown, Student Booster Rundown and others.

To become a flubless, flawless auditor, you can take the Flag Auditor Interneships. These very standard interneships are available from Dianetics Level through Class IX. And there are Flag Auditor Training Courses, also available from the bottom of the Grade Chart through Class IX. Interneships ensure you really know Ron's auditing tech cold! Flag has the very best in Case Supervisor Training and Interneships for complete confidence as a Case Supervisor.

The professional, the executive, businessman, public relations person, administrator and others will be interested in Flag's most extensive line of executive, public relations and organization tech courses and interneships. They can give you total confidence in the results you can produce in your profession or area through knowledge and skills in the vital basics Ron has discovered.

For the Scientologist who wants tech to improve his or her personal life or 2nd Dynamic, there are the popular Hubbard Personal Ethics and Integrity Course, the Hubbard 2nd Dynamic Alignment Course, and others.

There are specialty and hatting courses available such as Course Supervisor training, mini-courses and more.

2. A VERY SPECIAL ENVIRONMENT.

The adjectives that best describe the environment at the Land Base are: safe, welcoming, high-toned, purposeful, distraction-free. Some usual comments heard about the Land Base environment are: "It's as good as a session just being here." "Within minutes of my arrival, all hassles and problems just seemed to drop away!"

What makes the very safe environment? There are several things that contribute. There are only Scientologists at the Land Base. The particle flow is *very* fast; the level of production very high. The standard of ethics is very high. In being at the Land Base you are connecting up with a nerve center of Scientology so you see and experience the results of ethics, tech and admin applied to every situation standardly. And Scientology makes a safe environment!

3. PLENTY TO DO IN FREE TIME.

In any free time between sessions, or on your auditor's day off, or on your day off from course, there's plenty to do!

The comfortable Lounge offers twice daily plays of Ron's tapes, a variety of games, a small library of fiction and magazines, and music. Plus, it's a comfortable, pleasant place to meet other Scientologists and chat. In the sunny outdoors there's swimming, shuffleboard and sunbathing, all on the Land Base grounds. The Motor Pool vans make scheduled runs to the beach, major shopping centers and points of interest around Clearwater. On days off, excursions to Florida tourist attractions are often arranged. There is a weekly Wednesday Night Movie. Close by are tennis courts and picturesque parks and roads for strolling or jogging. There are organized activities including a weekly party, graduation, and talks by Scientologists successful in arts, business, sports and other areas.

4. AH! GOOD LIVING!

The friendly, sometimes unseen, living services are part of the pleasures of Flag. Rooms are comfortable and nicely appointed, with deep pile carpeting, air conditioning, color television and more. And rooms are cleaned daily. Dining in the Hour Glass means good food and service. Meals are planned for nutrition *and* flavor appeal. Special diets are available for a small added donation. Afternoon and evening snacks are available at usual session break times. The Lemon Tree Snack Bar is open late evenings offering hot sandwiches, fries, milk shakes, a variety of health food items, and a good place to socialize. There is a Laundromat on the premises, or send-out laundry and dry cleaning service is available with return delivery to your door.

5. AND IT'S BEAUTIFUL, TOO.

A fitting background to this superlative service and living is the beauty of the grounds and buildings. The pictures you've seen in *Source* probably speak best of this. The majestic old building and the beautifully planted gardens are a pleasure in themselves.

Every person who comes to the Land Base has his or her favorite aspect of the Base. Some aren't even on this list.

the universe. And my special thanks to Ron for making it all possible."

Martin feels as many Scientologists who have been to the Land Base feel; this is his second home. "Just *being* here at the Base has given me case gains. The service, the speed of flows, the very high-toned environment, the multitude of talents and skills, the real friendliness and caring of the staff, the certainty and expertness of the terminals; all these things want one to expand — and so one does!"

ONE OF THE principal reasons I have *only* Flag auditing and training is because I want only the best, and this is the place to get the best on the planet," says lovely **Maria Ellinger.**

When she first discovered there was such a thing as Flag auditing back in early 1976, it took Maria a day to decide and she was at the Flag Land Base to start auditing! She laughs, "Since I first came in 1976, I've spent eight months out of each year here!"

So, of course, Maria's list of auditing completions at Flag is impressive: all repairs and set-ups, L-10, L-11, full Expanded Dianetics Case Completion, New Vitality Rundown, Solo, Clear, OT I through IV and Expanded Grades as an OT.

Maria is a pretty good authority on Flag auditing now! She exclaims, "Flag auditing! Just wait until you have had it! I have had Flag auditing and a lot of it, and no one raved enough before. It is not only the expertise of these great auditors that spells out 'happy pc,' it includes the hard work and deep, deep caring of the C/Ses and entire staff."

Previous to Scientology, Maria led a varied and active life. She has tried other religions, done modeling, acting, managed an Indian Trading Post in Arizona, been a housewife and ran (and still runs) a nearly-600 acre ranch in California. But, she explains, all along she was looking for 'something,' the answers. In 1972 when she found Scientology she knew that was it.

Much of her first grades auditing was done by her niece, Daralyn Price, and Daralyn's husband Marvin, both of whom first introduced Maria to Scientology. Both are highly trained auditors and now have a mission in Stockton, California.

Maria bubbles with enthusiasm when asked about the results Flag auditing have had for her. "I have had so many specific wins through Flag auditing I could fill several pages! Some of the gains that come to mind now are a profound sense of serenity; a calm which is difficult to put into words, and everything just goes right without any effort." She elaborates, "If I want or need to speak with a particular person, like magic, there he or she is! And as far as OT abilities go, almost every day I have extremely interesting things happen."

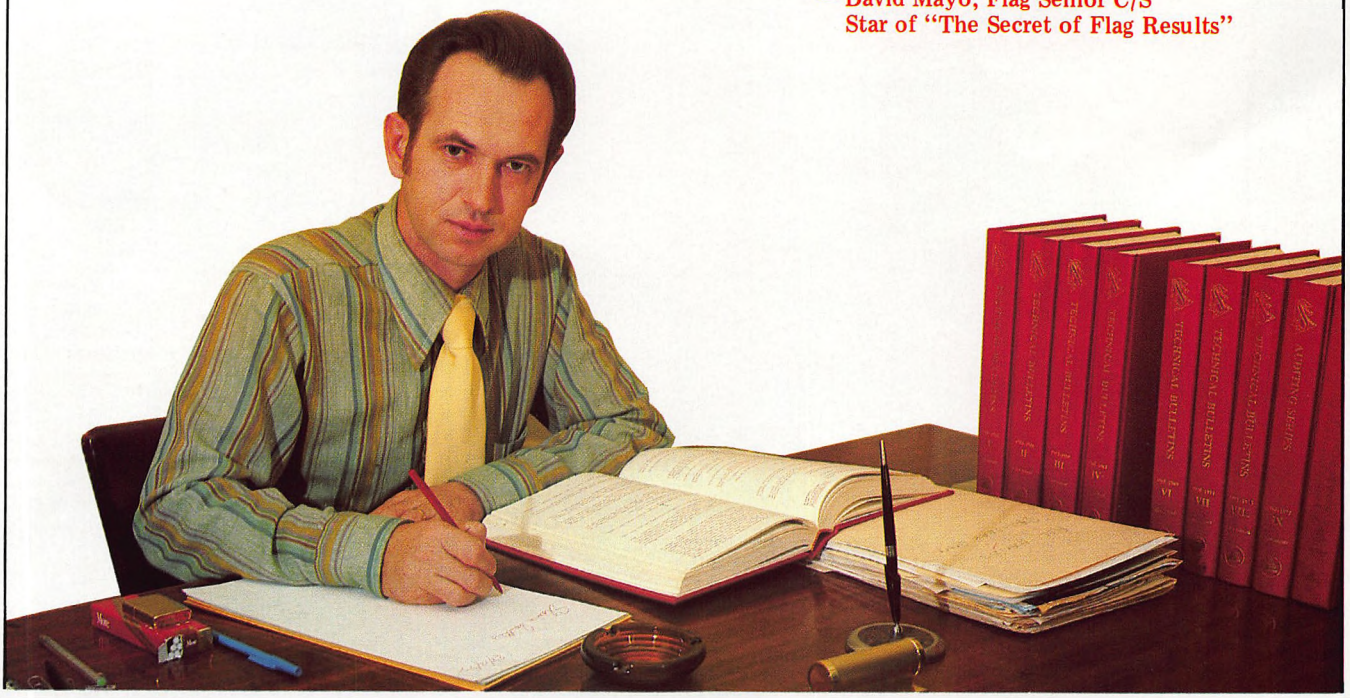

Maria admits, before she came to Flag she had difficulty with study. "The training I have had here was perfect for me, as I had a record of being a very poor student." But Flag auditing and supervision helped Maria overcome that. "Now, I can be most comfortable and actually enjoy study."

Maria ends with a note on her feeling about the Land Base, which has so much become her home. "I feel totally fulfilled on all dynamics here at Flag. I love and enjoy individuals of all ages and groups and find that my days and nights can be as full as I wish to have them."

"Do you want to be a flubless, flawless Auditor? Come to the Flag Land Base. That's our business!"

— David Mayo, Flag Senior C/S
Star of "The Secret of Flag Results"

It makes good sense to do your Dianetics and Scientology auditor (ministerial) training and interneships at Flag. When you're done, with your Flag cert in hand, you'll have an immovable certainty that you *can* apply standard tech on every case, that you *can* turn out a flubless session no matter what.

As a Scientology auditor or case supervisor you have the happiness, the future, the abilities, of many individuals depending on your skills in applying Ron's tech *standardly*. It is your correct guidance that will help so many realize their own true abilities, and the truth that they are.

The quality of your training and interneships (and your own honesty and dedication as a student and auditor or C/S) determines just how well you *know* the tech and *apply* it.

That's why Flag training and interneships make such good sense.

The Correct Environment

At Flag you train and interne *intensively*, without distractions or living problems to worry about. Thus, it goes much more quickly and smoothly.

Standardly Run Courses

Flag supervisors are expertly trained. They know how to spot and handle the student when he or she slows down, usually even before he or she is really "bogged." They know when to let the student who is doing well get on with it. Word Clearing is in full use on courses. Materials are readily available, including many non-English materials.

Student Booster Rundown

For the student whose study difficulties aren't able to be handled with standard supervision and word clearing, there is the Flag-only Student Booster Rundown. It puts the student "back on his feet." while giving a real case boost!

Becoming a Flubless, Flawless Auditor

On Flag Interneships, it is expected you *will* produce flawless results. This isn't done by duress or strain; it is done by excellent auditor presence. It takes daily drilling on TRs, mood TRs, Meter Drills, and the practical actions of the level you're interning. And, of course, auditing, auditing, auditing under Flag's sharp, standard C/Ses, until you're flubless. Auditing expertise is brought up to Flag standards quickly but gradiently.

If correction is needed, there is the top-notch Cramming Section. Here the very basic reason for the error or confusion is located and fully handled.

Flag interneships are tough, but they don't take long. In weeks, not months, you can become a flubless, flawless auditor!

Who May Apply

Anyone may apply for Flag training and interneships. And if anyone can make you a top auditor, we can do it at Flag!

Levels Available

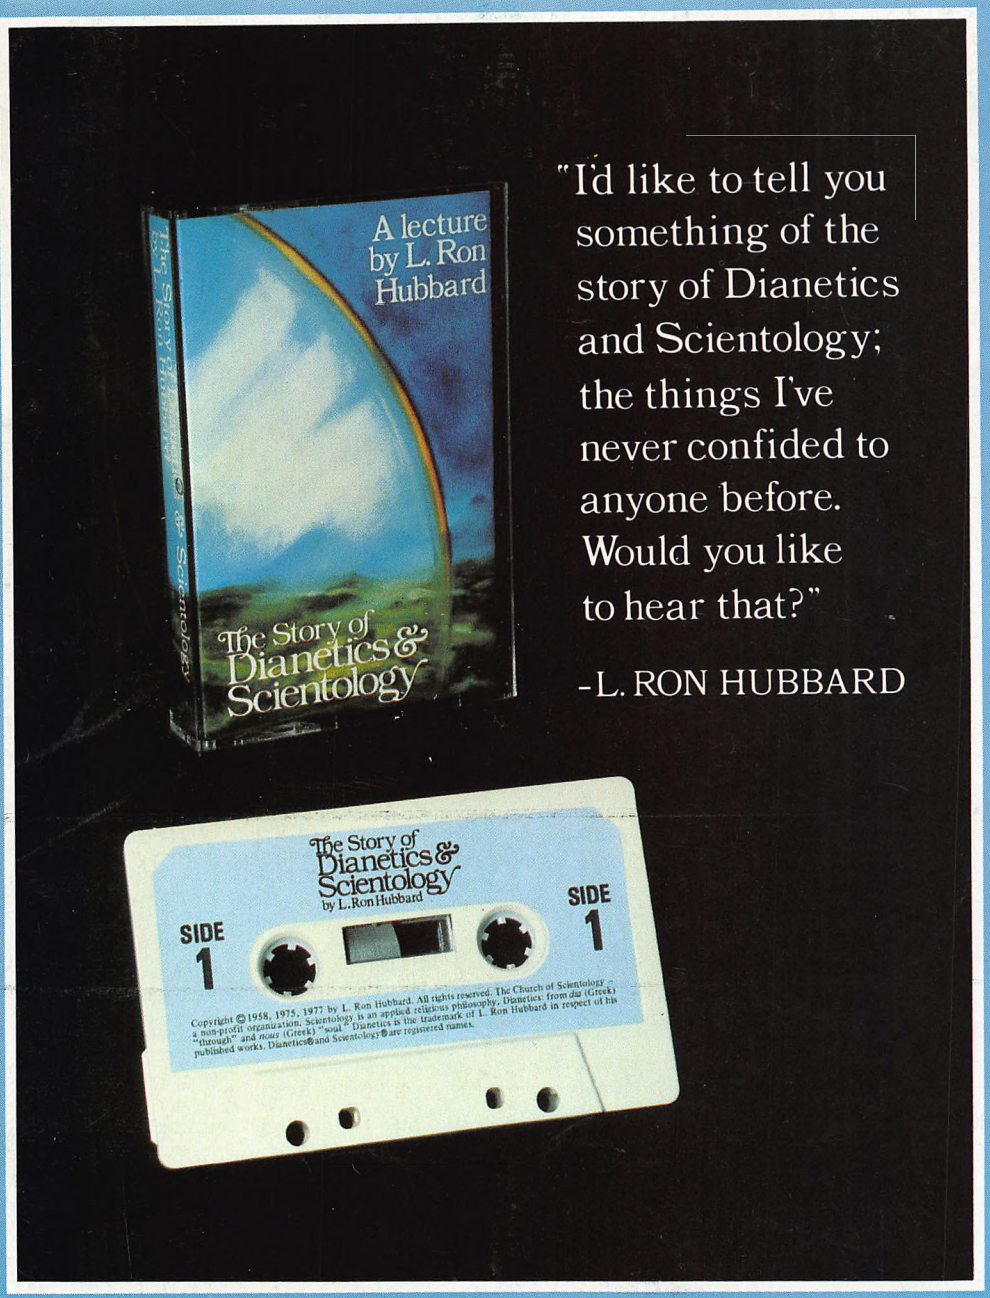

All standard Grade Chart training levels and interneships are available at Flag. Senior Class IV includes a special Flag-only section which on completion awards the certificate of "Flag Senior Class IV with Honors." A *real* honor! (Training on Flag-only rundowns such as Class X, XI and XII is available only on the Flag Technical Training Corps, as a Flag staff member.)

You may begin training with your *next* training step.

Interneships are begun at the level of Dianetics, no matter what your current level. This has been found necessary to ensure *basic* auditing skills are fully in, from the bottom up.

Have total certainty you can apply standard tech in every session, on every case!
