Important Note and Definitions

In reading this magazine be very, very certain you never go past a word you do not fully understand.

If the material becomes confusing or you can't seem to grasp it, there will be a word just earlier that you have not understood. Don't go any further, but go back to BEFORE you got into trouble, find the misunderstood word and get it defined.

As-Is: To view anything exactly as it is, without any distortions or lies, at which moment it will vanish and cease to exist.

Auditing: Spiritual counselling; the application of Scientology processes and procedures to someone by a trained auditor.

Auditor: Minister; a person trained and qualified in applying Scientology spiritual counselling to others for their betterment.

Bank: A colloquial name for the reactive mind; the mental image picture collection of the pc. It comes from computer technology where all data is in a "bank."

Case: The way an individual responds to the world around him by reason of his aberrations.

Case Gain: The improvements and resurgences a person experiences from auditing.

Cave-in: Mental and/or physical collapse to the extent that the individual cannot function causatively. The individual is quite effect.

Dynamics: Any one of the eight sub-divisions of the dynamic principle of existence — SURVIVE. It is the urge, thrust and purpose of life in its eight manifestations.

Engram: A mental image picture which is a recording of a time of physical pain and unconsciousness. It must by definition have impact or injury as part of its content.

Exterior: The state of the thetan, the individual himself, being outside his body.

Key-out: Release or separation from one's reactive mind or some portion of it.

Mental image picture: Copy of the physical universe as it goes by.

MEST: A coined word, meaning matter, energy, space and time; the physical universe.

Not-Is (Not-Is-Ness): Trying to put out of existence by postulate or force something which one knows, priorly, exists.

OT (Operating Thetan): A thetan exterior who can have but doesn't have to have a body in order to control or operate thought, life, matter, energy, space and time.

Postulate: (noun) A conclusion, decision or resolution made by the individual himself on his own self-determinism on data of the past, known or unknown.

Preclear (pc): A person who, through Scientology processing, is finding out more about himself and life.

PTS (Potential Trouble Source): Someone connected to a person or group opposed to Scientology. It is a technical thing. It results in illness and roller-coaster and is the cause of illness and roller-coaster.

Reactive Mind: A portion of a person's mind which works on a totally stimulus-response basis, which is not under his volitional control, and which exerts force and the power of command over his awareness, purposes, thoughts, body and actions.

Second Dynamic: The urge toward survival through sex, or children.

Session: A period in which an auditor and preclear are in a quiet place where they will not be disturbed. The auditor gives the preclear certain and exact commands which the preclear can follow.

Thetan: The person himself — not his body, or his name, the physical universe, his mind, or anything else; that which is aware of being aware; the identity which is the individual.

Third Dynamic: The urge toward survival through a group of individuals or as a group.

Time Track: The consecutive mental image pictures or facsimiles recording the consecutive moments of "now" through which the individual has lived.

Tone: Any level of survival or state of being plotted on the tone scale.

Tone Scale: A scale measuring and relating the various factors of behavior, emotion and thought to the levels on the scale.

TRs: Training regimen or routines. TRs are a precise training action on Scientology courses which train students to communicate and audit.

E-Meter Note: The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or in the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists, psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of that Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed, or owned only under these conditions.

Notes from the Editor

In the middle of this issue you'll find a yellow and red "Flag International Scientology Census." Take a bit of time to fill this out and send it back. It is an important census which we will use for several important purposes here at the Land Base. One use will be to find out about *Source* readers and their views on the magazine so the magazine can be tailored more to you.

There's a saying, "Life is a game." But I know for myself things can get terribly serious and seem like anything but a game at times! Do you find this? Well, this article by Ron that begins on the next page, "Games Conditions," gives a lot of good data and rules on The Game of Life. Find a nice quiet corner and read the article, then go and apply the data and see what you find.

What better way is there to find out all about what Flag Auditing is *really* like than to talk to the Scientologists who have had the pleasure of getting Flag Auditing? You'll find the article "Questions and Answers" may answer some of your own questions about Flag and Flag Auditing. Then there is a piece featuring one Scientologist's views on Flag Auditing and her experiences at Flag. Then toward the back of the magazine you'll find an article featuring the stories of Scientologists who had Flag Auditing and went on to *use* their gains and abilities in life.

By the way, if *you* have any questions about Flag Auditing, the Flag Land Base, Flag Training Services, the area the Land Base is located, or anything, feel free to ask. Just write me care of the Flag Land Base at the address in the upper left corner of this page.

Again, be sure to complete and send in the Census. I want *your* opinion and data.

Games Conditions

BY L. RON HUBBARD

"We have a word, 'game,' which is a datum of comparable magnitude to life. We can stand exterior to this datum ... and by substitution, understand what we are doing on this planet."

THE FIRST THING you must know about games conditions is that we are not talking idly about them or saying life is all a game.

I found out I couldn't talk to people about life because they were living it, but I wanted them to understand what life was about. They were not exterior to the problem and could not view life dispassionately. They became immediately involved and at no moment could you describe life.

Recognize that we have a word, "game," which is a datum of comparable magnitude to life. We can stand exterior to this datum, view it dispassionately, describe it and, by substitution, understand what we are doing here on this planet. It happens to be quite valuable to be able to do that.

We are therefore viewing life by viewing a game.

But when we view life, we do not find anything in life missing that is in a game.

LIFE: THE DEAD SERIOUS GAME

A game is composed of freedom, barriers and purposes. Games that people will play, be interested in, and games that survive have all of those things.

You can synthesize any part of life into a game so long as you carry with it its freedom, barriers and purposes. In other words, you can take the idea of building, buying and selling houses and property, and accumulating money, and call this, as a lump sum, a game.

We can synthesize this into a game called Monopoly, which has been very famous and kept people up all night.

In life we can see the game called Monopoly but we don't call it a game. It is something that is dead serious.

You can assume, then, that life is a game that you are playing a shade too hard, or too seriously, or that is too all-engrossing, or that is something that is overburdened with too many penalties, or its purposes are out of line, or barriers are too great or something like that.

And certainly it is a game you cannot easily leave. In society at large if you were to threaten your own life, you would find yourself under arrest and in jail. You can leave various games in life but to leave the game called life, if one is pushing a body around, is made rather arduous.

We get an idea about life that it is a stuck fact which is totally disrelated from all other activities. But it is not. It is simply a game; one which is very difficult to leave, one which is very interesting to continue and one which is addressed by auditing very easily, when addressed as a game.

"You can synthesize any part of life into a game as long as you carry with it its freedom, barriers and purposes. You can take the idea of building, buying and selling houses, and call this, as a lump sum, a game."

UNDERSTANDING PEOPLE

As soon as you understand this whole theory of games, auditing and understanding of people becomes rather easy, rather simple.

"What is that man doing?" is always answered by, "He's playing a game." "With whom?" Well, we don't know that. The person with whom he is playing the game is probably no longer present. "What game is it?" That is rather easy to find out. He is playing the game of "something or other" — some favorite identity of his — but he wouldn't know this either.

The game that man is playing is below his level of analytical consciousness. It's below his level of articulation. He could not tell you what game he is playing, but he is playing a game.

If he is doing something highly aberrated, or aberrative, he is playing a game without knowing anything about what he is doing. He has become a pawn on the board. Where a man is only a pawn or a broken piece, he is in the interesting situation of never suspecting for a moment that there is a game or that there is a chess board. He doesn't know why he is there. Nobody has ever let him in on the barriers, the freedoms, the purposes.

A government which does not codify articulately a large, easily-understood code of laws, is making pawns and broken pieces. It is submerging the game. What are the barriers of the game they are playing? In the field of the third dynamic the laws would have to be known.

LAWS OF GAMES

Thus we have a rule, a law of games. It is an important law and one on which we capitalize very heavily:

MAKING THE LAWS REGULATING THE GAME KNOWN GRADUATES THE STATUS OF THE PIECES.

The Axioms of Scientology[1] are the rules by which a greater game than government is being lived. They are the rules by which the game of life is being played.

There could be other games and other sequences of rules, but they would make other games. Everyone we meet is in *this* game.

Therefore, these rules are quite important, but they are just rules by which the game is being played.

Just by knowing those rules, a person ceases to be a broken piece or a pawn to the degree that he has been. He enters into a knowing games condition, or at least approaches a knowing games condition from an unknowing games condition.

There are several laws of games in which we are tremendously interested.

Another law is that

ONLY THOSE GAMES WHICH ARE UNKNOWN OR OF WHICH ONE IS UNCONSCIOUS ARE ABERRATED OR ABERRATIVE.

It is the unknown characteristic of the game which is aberrative.

If you are playing a game and you get hurt, the game you are playing and know you are playing will not aberrate you. That is actually one of the basic rules of games. It is the game you *don't* know you are playing that bites.

For instance, you were playing football and you got hurt and you got an engram. It was not football (you knew you were playing football) that carried forward any aberration you got or any engram you got, even though after that you said, "Well, I shouldn't play any more football, it makes me nervous." Fellows go around and say, "Well, I was badly hurt in the war, I don't like war." This is actually a complete misnomer and misassociation.

1. The Axioms of Scientology are covered in the book *Scientology 0-8* by L. Ron Hubbard, available at the Flag Land Base Bookstore at $7.00 per copy.

(That is true of most games, by the way. There is nothing wrong with a game that you know you are playing, as long as there is a game going. Having to sit over on the substitutes bench for the next eternity, or something like that, *can* upset somebody.)

It wasn't either the game called football or the game called war that was caving him in. Apparently this was true, but not actually. No, it was a more subtle game. It was the game of bank, thetan versus thetan, rules and laws of life, mental image pictures.

THE GAME CALLED "MENTAL IMAGE PICTURES"

When a person was playing football, he was also playing a game called life. He possibly knew he was playing that. But below the game called life, he was playing a game known as "mental image picture." He was keeping a record of it all and he didn't even know he was doing it, the stupe. That is the game that got him.

It is an old game, which runs this way: "Well, I played football once." The other thetan says, "Prove it." "Well, here's the facsimile." That's right, that game actually existed. The only reason one ever packed these pictures around at all is so he could show them. The only reason people get upset now about this sort of thing is quite amusing: they have so many pictures they don't dare show. That, by the way, is the secret of secrets. That is why secrets are so aberrative. A secret is a picture that one can't show.

A person who can't even see his own bank has too many things he doesn't dare show. Why? He is playing this old game called "compare the facsimile" or "I can collect rougher looking facsimiles than you can." It was a very early game.

That game is gone. But it is that game that upsets him in the football game, in the war. He doesn't know he is playing it.

He still has all the equipment with which to play it. He still collects all these facsimiles. He still has them all.

On the football field somebody comes along and kicks him in the face and he promptly takes a big, beautiful picture of it, classifies it, there it is. He actually arrests the universe at that point so he can have a picture of it. Why the devil should he have a picture of it? It is a game, that's all, but he doesn't know he is playing a game.

Here is another rule, but this is a rule of Scientology: the person never knows what is wrong with him, if it's wrong with him. An individual does not himself immediately perceive the cause of his trouble, for if he perceived it it

would not be trouble. It is so elementary it is almost fantastic. The more you observe that the more you will find it to be the case. That all stems from this law: the only aberrative factors are the unknown factors, the only aberrative games are the unknown games. If you know about them they can't bite.

So, to get bitten, a thetan has to unknow an awful lot. He has to bury himself real deep in order to collect a whole bunch of irrevocable penalties and stay in a game one way or the other. Sometimes he gets so deeply in the game he doesn't even know there is a game going on and that is the case of life on Earth, circa 20th century. They are busy playing a game they don't even know about.

We hit one of these games dead center with Dianetics. We could do something about these pictures. By showing people that the pictures existed we discharged an enormous amount of upset. It wasn't all the upset that was present in society though, since there were some other little games.

What were these other games? Well, there was a game called thetan. In Dianetics we didn't suspect this at all. It wasn't until 1952 we started yanking people out of their heads doing "thetanectomies." Many people have exteriorized and much has been hazarded about exteriorization, but for somebody to be out and know he is out and have complete subjective awareness on it, and to have in his vicinity a complete text on the subject, this is quite novel. Sometimes somebody exteriorizes and he doesn't know it. What you are running into is awareness, or lack of it.

AWARENESS

One can make another law about games:

ONE IS PLAYING A GAME TO THE DEGREE THAT ONE IS AWARE OF PLAYING A GAME. A PERSON IS AS MUCH AWARE OF THE GAME AS HE IS AWARE OF IT, NOT AS HE IS PLAYING IT.

It seems like a game to a person to the degree that he is aware of playing a game. When he is not aware of it and he doesn't think of playing a game, it doesn't seem like a game to him. His attitude, his seriousness, his upset about the game is proportionate to the degree that he is unaware of playing the game.

Thus, we have another law:

A PERSON'S INTERIORIZATION INTO THE GAME IS DEPENDENT UPON HIS UNAWARENESS OF THE GAME.

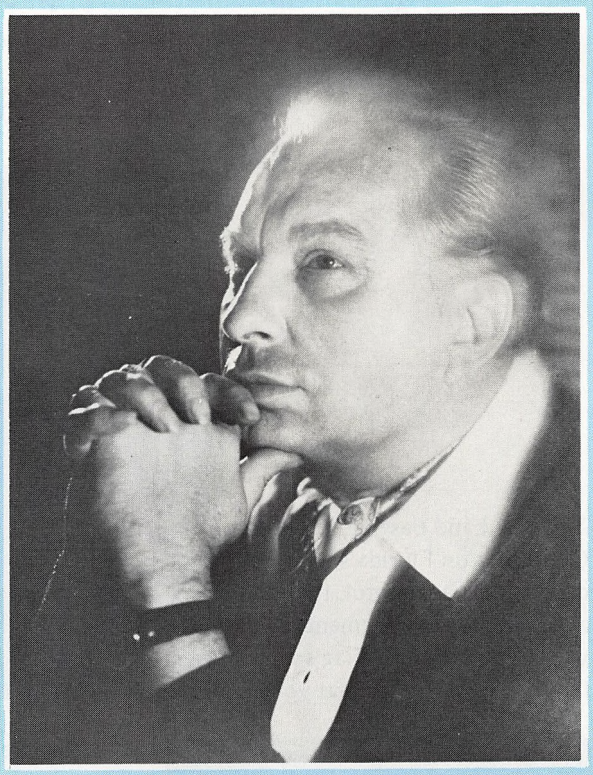

Every thetan knows that knowledge alone could pull him out. Instinctively, he goes around trying to find the button that will suddenly yank him up and surface him. He thinks of himself as having that power of suddenly knowing all about it and being totally free of it.

So, we get the next law:

IF YOU KNOW ALL ABOUT IT YOU ARE TOTALLY FREE OF IT.

This tells you then, how people get interiorized: by not-knowing it. And it tells you how they get free: by knowing it.

An aberrative game is something you don't know you are playing, but you are playing it. It can cause a person to make irrational decisions, be capable of irrational conduct, get sick, get upset, do and see and have all sorts of weird things and upsets, do things to people and not even know he has done them.

Unawareness monitors the degree of aberration of the game. It gives you the route in and the route out.

Tranquilizers, barbiturates, opium, whisky — any unaware mechanism — plunges one deeper into the game. All a person has to do is become less and less aware by any mechanism, and he will go deeper and deeper into the game, but he will play it more and more reactively. If you want to build up mental machinery, if you want to build up stimulus-response mechanisms, all you have to do is make somebody unaware. You have hypnotism explained by this mechanism of games.

You can even set up a totally synthetic game. If the person is unaware enough of the total syntheticness of the game, yet you pour it in on him hard enough while he is unaware of it, you get an opposite mechanism where a person seems to pay more attention to something when he is totally unconscious than when he isn't. He is obsessively playing a game and he isn't being conscious of it, *but the machinery and postulates about games become conscious of it.* Therefore, unawareness assumed in order to interiorize into a game is what sets up the area of unconsciousness. People then think of minds as unconscious minds, subconscious minds, the intuitive, instinctive part of their being, their sixth sense and all of this. These are simply the reactive mind itself acquired by following through that postulate about games and arriving with reactivity, unconsciousness, stimulus-response mechanism and all these other mechanisms that we study which are below awareness.

He wants to get into a game, so he makes himself unaware and making himself unaware, brings about this condition of action without rationalization.

SPORTS AND AWARENESS

The goal of many sportsmen is to become totally unaware of how they act, of their putting stroke, of how they shoot. Why? They "have to be at a higher level" in order to be able to handle the game. People have been told that they had to become unaware of all their actions and do them so well they would not have to think about them and then they would really be sportsmen. No, they would merely be interiorized into a game called sports. They would not be good sportsmen. Funny part of it is, with this mechanism, a person can't stop playing but he does stop playing. Why? Because he can't stop or not stop, both are out of his control. One day he can't play golf and says, "What's the matter with me? I can't play golf." That is out of his control, too.

A person would have to be aware of the fact that he was playing a game in order to treat it with enough élan and aplomb to handle it.

In-depth

QUESTIONS & ANSWERS

of ten Scientologists about Flag and Flag Auditing.

What better way to find out about Flag and Flag Auditing than to ask those who have had it?

Ten Scientologists at the Flag Land Base were interviewed in depth.

In order to first establish what questions you and other Scientologists might have about Flag and Flag Auditing, they were asked to list the questions *they* had before they first came to the Flag Land Base.

Then they answered their own questions and were questioned further about other aspects of Flag Auditing.

Included in the interview was an international cross-section of Scientologists, of varying professions, at different levels of case and training.

Here's what we came up with:

How is Flag Auditing different? What makes it the best?

As a businessman-Scientologist described it, it's the "quality of auditing. There's a degree of naturalness about it. It's probably the way Ron audits!" Said another, "It is natural, in present time and so sensitive to the pc. The auditor responds to case requirements instantaneously . . ."

"It is the certainty of the auditor in session," felt one OT, "therefore the certainty of the pc in session, therefore the very exact case gains. And you feel confident your C/S is the best, or one of the best, in the world."

Said a business executive, "For me, I move at a rapid rate; the particle flow is fast."

A professional auditor described it, "The major thing is the tech people understand the tech so well . . . It's very natural."

Another OT exclaimed, "TRs! I'm sure it's not new for someone here to say 'it's like I'm in session for the first time!' The smooth TRs are the thing."

"It's the C/Sing and TRs." said another. "The speed of delivery is the other big difference. Also, there are no stops or difficulties in getting auditing.

"The TRs and C/Sing. The TRs are *flubless.* And the speed of service. As a note, 16 years ago when I first walked into a mission in Adelaide, I had a knowingness about some things I needed handled. When I came to Flag, almost magically, these were picked up by the C/S and handled!"

My thought was, was it really worth it? Was there really that much difference? Would it be worth it to go to Flag?

"I think you save in the long run by excellent programming and C/Sing."

An OT businessman said, "I didn't think I was a Flag pc. I wasn't 'rich enough' and I didn't have trouble on my case so that I *had* to come to Flag to get my case handled. I changed my attitude totally on this after I received Flag auditing. I realized Flag auditing is faster. The intention is

much stronger so that you really make progress. The space is very safe. You can *really* get your case handled here. It is the most upstat and the best, but anybody should be here! Once you get Flag Auditing the comm line and intention stays with you, which is a lot more valuable than any amount of money."

What special benefits or results do you find from Flag Auditing?

It is "just faster and better" observed one person.

Another determined the special benefit was the "closeness to source."

Some people described it in case wins. "I feel I'm in present time — it's a *big* present time! That, of course, would go hand in hand with increased abilities and awareness." "I have far greater certainty in my own universe."

One person, an auditor, said, "While I haven't done training here, from my viewpoint as an auditor I have cleaned up many misunderstoods. I feel I'll be a much better auditor from my experiences as a pc. The basic change will be the ease of delivery."

I was concerned that I would not have friends and terminals at Flag.

Here we will shift gears from auditing into the living environment at Flag.

With so many Scientologists from all over the world, it is quite easy to make lasting friendships.

"It is so easy to talk to people here. There are no ridges on communication," exclaimed a visiting Scientologist from Alaska. "I could make a friend of anyone here."

"It's the chance to meet Scientologists from all over," said another.

"A special benefit is the people you meet," explained a lady from Australia. "The flow is so clean, it wouldn't matter if we didn't see them for years — they're friends forever!"

What is the atmosphere and environment like?

"Until you see it, experience it, be here, it isn't totally real. I find my concept of what the Flag Land Base was like was nowhere near the actuality! I had heard Flag was the nicest, friendliest place, but the experience is really something."

Said another person, "I know the slogan, 'The friendliest place in the whole world,' but I was still surprised at how *genuinely friendly* it is. People are so nice and so happy to see you. I guess I expected it to be very business-like."

One person described it as ". . . being at source, the nerve center of Scientology. You really feel you know it from the inside. You can get caught up in the hub of activities. Case gain is probably faster because of the high theta environment which is conducive to keyout. You gain a lot of re-

Becky Rounds is a charming Scientologist, originally from Wichita, Kansas, now living and working in Los Angeles.

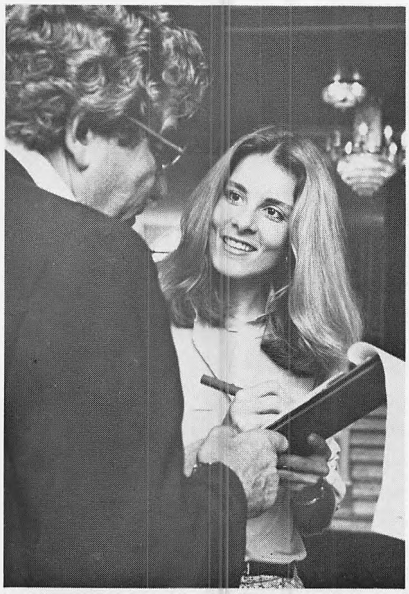

She is full OT VII, L-11, L-12, Dianetic Auditor from a family of Scientologists, all OTs or soon-to-be OTs.

Becky is Vice President for Public Relations of "A Brilliant Film Company," a film production company she helped Scientologists Randy and Gillian Eaton form and evolve. Their firm oversees the production and creative aspects of film productions and TV.

As training for her job, Becky is currently on the Public Relations Course at the Flag Land Base.

Becky explains her interest in films and public relations as "A dream of mine; one that matches the goal of our company: '. . . to champion man through the art of film — to mirror his triumphs, protest the degradation of his spirit and spread his courage and honor.' "

Here is what Becky has to tell Source *readers about the Flag Land Base and Flag Auditing and the integral part they play in her active life.*

I first came to the Flag Land Base because it had been promoted to me as a destimulative environment. At that time, I felt it was a good place to escape to. I've found that, instead of taking off on a vacation or something, there is a beautiful space here that can actually *handle* my problems that I really can't run away from.

FLAG INTERNATIONAL
SCIENTOLOGY CENSUS
Spring 1978

Dear Reader,

The purpose of this census in *Source* magazine is three-fold.

First, we want a look at *international Scientologists* for use in present and future planning. How are Scientologists progressing up the bridge, how active are they, what problems and wins are they having? These are all questions that need to be answered.

Second, we want to know about *you* individually, your views, your background, what you are doing. If we at the Land Base can connect up with you, we can assist you in your progress up the Bridge.

Third, the census will tell us your views about the Flag Land Base, about Flag Tours, and about *Source* magazine.

Your answers are very important. And, of course, the data you give will be kept confidential.

Please take some of your time right now to fill in this census.

When completed, mail it to us right away so the census can be tabulated here at Flag as early as possible. (Folding and mailing instructions are on the back page of the census.)

ATTENTION: *Source* Editor

Before I first came, I had the feeling the Land Base was mainly for people who were able to spend more per hour to be audited. That doesn't have much to do with it, I've since realized. The review, the auditing, you get here would produce at least quadruple the results of elsewhere. It's hard to say the value of it. You just know when you come here you are going to get *handled* and leave flying!

The auditing here is so superlative that I have forgotten what it is like to not get *totally* handled in each session. If I have a misunderstood word my auditor is more than willing to help me clean it up. She will pick up and handle *any* confusion. I don't feel like anything is rote. She's really *there* with TRs as natural as rain. The auditors are in session comfortably, to get the pc to WIN, to give him enough nerve to "kick out the case."

Sometimes you have to run into a situation in life in order to realize that an area of case exists or that it can go into restimulation. You go out on the street and — boom! — you realize there's a whole area that you have avoided, not-ised successfully in all auditing. I'll tell you, Flag does the most incredible job of picking out and handling these things! They take a piece of case and attack it from all sides, make sure that every piece of that bit of case is handled. I've never had C/Sing like that!

And here the pc is treated so honorably. You really feel like you're a very special individual, enormously important. That makes a very big difference in going out and handling the rest of the world.

When I come here, it's total destimulation. You're fed breakfast, lunch and dinner — great meals! You have time to go out and jog. You can catch some sun on liberty. Or play tennis.

I like the fact that you can divorce yourself from the world that may be restimulating you daily. It's not like driving in Los Angeles where the traffic is on your back and the whole environment can totally interiorize you.

Here you wake up and hear the birds singing in the morning, and feel the cool breezes during the day.

And people are *winning.* You sit down to dinner and share your wins. How extraordinary that is! My brother went home from here recently

spect for the enthusiastic and forward progress of people here."

One aspect of the Flag Land Base, that helps to create the environment, is the standard use of ethics. "The ethical level is on a high harmonic. The group agreement is such that each person seems delighted you are there and wants more than anything to see you make it. It is a very valuable flow that pushes you along quite strongly." Or, from a more down-to-earth view, "Here I have to toe the line, thus I save auditing time."

One Scientologist summarized with this statement: "It is the safe, upstat, *on-Source* environment."

What will I do between sessions and at night?

Observation around the Land Base answered this question. The prime occupation is making friends and getting in communication with other Scientologists. But there is also a Lounge with games, books, tape plays, parties, talks by Scientologists, and activities nearly every night. During the day there is swimming, sunbathing, tennis courts nearby, shopping . . . it's really limited only by your interests and imagination!

"... you feel confident your C/S is the best..."

Am I good enough for Flag? I was afraid I would not be acceptable.

The person that had this question wanted to let readers know, "if you are reaching for Flag, you should come to Flag and you belong here." One Scientologist felt, "*Anybody* should be here."

Should YOU come to Flag?

Last, we asked those interviewed what they would recommend to other Scientologists about coming to Flag for services.

"It would depend on the individual's situation. If a person *asked*, the answer would be yes. It would mean he (or she) would be reaching for Flag Auditing."

Another said, "I'd say, if you can, do it! You'll never have a better chance to get out of the trap. And there isn't a better place to do it!"

Or, "It's the best. Why not have the best? Why put it off? Do yourself a favor, you owe it to yourself."

One OT said, "I promote heavily to OTs and people to come to Flag. I've had the auditing here, I know what it will do! And any training I have I'll have here. If the Flag auditors and C/Ses are the kind of product they turn out, then it's the kind of training I want!"

And last, but not least, "Don't hesitate. It's the best place on the planet to go!"

If you think Flag Auditing is for you, let us know! See page 19 for data on how to get Flag Auditing. Remember . . .

"Don't hesitate. It's the best place on the planet to go!" ■

TECHNICAL NEWS

Line-up of Auditing delivered at the Flag Land Base

One of the factors that makes Flag Auditing (spiritual counselling) particularly excellent is superlative programming and case supervision. Each preclear at Flag is audited on the precise action or actions he or she needs to get optimum case gain and really handle his or her case.

The list of the auditing actions available at the Land Base has never been published widely. It is a long list; it gives an idea of the number of "tools" at the disposal of Flag C/Ses.

We are here presenting a comprehensive list of the major auditing actions delivered at the Flag Land Base.

DEMAND FOR EXPANSION

In late 1976, the high quantity of auditing being delivered and the growing demand for Flag auditing necessitated changes within the Flag Tech Division: the expansion from one to two Hubbard Guidance Centers. At that time, these HGCs (also called the Department of Processing) were organized according to the type of Flag auditing delivered.

Department 12A was set up to deliver all actions usually delivered up to Grade IV. Here is a list of the main actions available in this Department. Those which readers may not be familiar with are described briefly.

Life Repair
Drug Rundown
ARC Straightwire
Dianetics

Grades 0 through IV (Quad or Expanded)

Expanded Dianetics: Ron describes it as "a sort of OT level handling of Dianetics." Leaves a person free from chronic unwanted conditions, with the ability to act without restraint.

Introspection Rundown: Corrects all those things which can cause a person to look inward; leaves a person extroverted and no longer looking inward.

Vital Information Rundown: The technical breakthrough of 1974! Gives freedom from dramatization of failing to relay vital information, brief, instruct, train or supervise.

Knowledge Rundown: Gives full ability to receive and have knowledge. Flag-only.

Student Booster Rundown: Handles study difficulties stemming from case factors, speeds up study progress and gives a real case boost. Flag-only.

Case Cracker Rundown: Super case clean-up and booster. Flag-only.

New Vitality Rundown: It can handle the most difficult and elusive causes of instability, and gives a remarkable recovery and resurgence of one's self. Flag-only.

Confessional Processing: Enables a person, within the reality of his own moral codes and those of the group, to reveal his overts so he no longer requires to withhold and so enhances his own integrity and that of the group.

Dianetics De-Bug: Handles any difficulties a person may have running Dianetics and remedies fully. A Flag specialty.

Assessment by Dynamics: A powerful action that handles troubles a person has with the dynamics in life. Flag-only.

Past Life Remedies: Enables a person to run past lives in cases where there has been difficulty with this. A Flag specialty.

Fear of People Rundown: Handles timidness and backoff from handling others.

Primary Correction Rundown: Auditing and study correction action; it takes care of troubles on the Primary Rundown.

Interiorization Rundown: A remedy designed to permit a pc to be further audited after he has gone exterior.

Stability Rundown: Handles causes of personal instability and results in a person getting and keeping case gains.

The second HGC, Department 12B, delivers the specialized and upper level actions:

L-Rundowns: L-10, L-11, L-12. Flag-only.
OT Correction: A Flag specialty.
Grades V and VA (Power and Power Plus).
Power Correction: A Flag specialty.
AO Review.

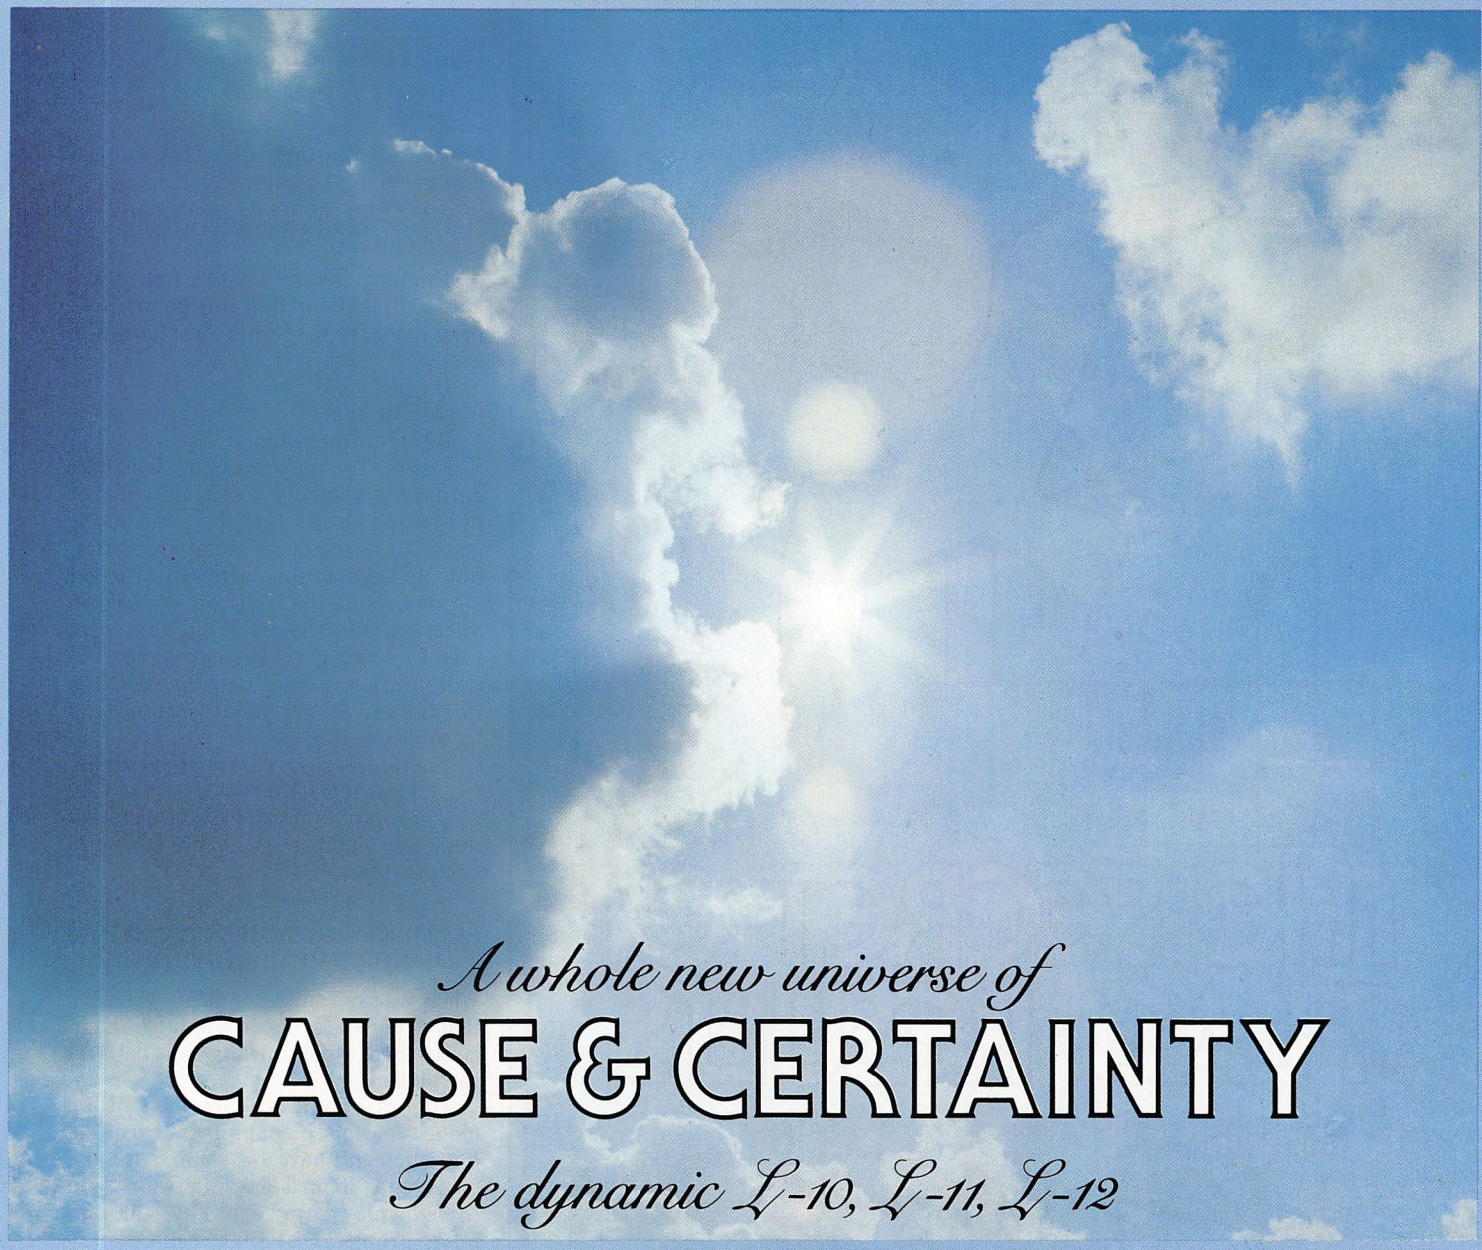

There is a third delivery Department in the Flag Technical Division: Department 12C, Department of Advanced Courses. Here are delivered the Solo Auditor's Course, R6EW (Grade VI), Clearing Course and the OT Course.

ALL ACTIONS DELIVERED STANDARDLY

It isn't a lot of specialized actions available at Flag that make the auditing and results so spectacular; the Flag C/Ses apply standard tech that is in use all over the world.

The difference is Flag training. The technical staff are *completely* and *thoroughly* versed in Ron's tech, from the earliest technical developments through to the most recent breakthroughs. Standard tech, and its precise application, are second nature to Flag auditors and C/Ses!

And many of the key tech people have trained under Ron. ■

A whole new universe of

CAUSE & CERTAINTY

The dynamic L-10, L-11, L-12

L-10, L-11 and L-12 — incredibly powerful rundowns for a whole new universe of Cause and Certainty!

The L-Rundowns are available only at Flag, audited only by skilled Flag Class Xs, XIs and XIIs, because of the very precise auditing required.

So powerful are the L-Rundowns, they bypass the normal protective mechanisms of the reactive mind and remove *spiritual* blocks to OT power and ability!

Preclears *and* OTs can receive L-Rundowns. For the preclear, Ls will speed your progress up the Bridge and help you attain marvelously expanded OT gains when you get to your OT levels. For the OT, OT abilities will be immensely expanded.

To ensure full gains on Ls, preparatory auditing is usual. This varies in length, but 12½ to 25 hours is average at regular Flag HGC auditing donation rates.

L-10 — BEING AT CAUSE OVER LIFE

"It does not supplant other processes of the Grade Chart. It will make them even more effective like a booster . . . The basic tech comes from research into increasing OT powers . . . It kicks general ability, perception and memory up through the roof in addition to other things." — L. Ron Hubbard.

L-10 handles the reasons a person withholds himself or restrains himself from action, reasons which are senior to the reactive mind. L-10 consists of 23 separate actions which raise a person's cause level, ability and willingness to DO things. With L-10 a person ceases to be heavily concerned with beingness and havingness and is much more interested in doingness. And, L-10 results in increased perception for the individual in present time — he is more able to feel emotions, to sense things; he finds increased mental and spiritual perception. Become a real powerhouse across all dynamics, able to operate at a whole new level of action!

L-11 — THE NEW LIFE RUNDOWN

"To be rid of aberrations is to have a *new life.* It needs real flubless auditors. The results are smooth. Just call this the New Life Rundown. It gives a new life in truth! What's that worth?" — L. Ron Hubbard.

L-11 consists of six powerful, consecutive, dynamic actions which locate the major source of aberration on which attention is fixed. L-11 does not handle the whole case, but rids a person of his or her personal "stumbling block." It handles the main area of irrationality upon which a being introverts and diminishes his power.

With the "stumbling block" handled, a person has a new life before him. Life is then approached with a feeling of great adventure!

L-12 — CAUSES MORE CHANGE AT A HIGHER RATE THAN ANY OTHER AUDITING

". . . the most startling breakthrough in auditing since '67 (the year OT III was researched)." — L. Ron Hubbard.

The three powerful steps of L-12 were developed by Ron to give an individual full extroversion and stability.

The first step of L-12 handles anything to do with concern over the body, which might pull attention onto it. The second step handles the question of identity, so a person's certainty of himself is tremendously boosted, leaving him thoroughly extroverted. The third step handles hidden and unknown influences from certain persons, either past or present, and puts the individual at cause over such influences.

After L-12, the individual is extroverted and stable — and free to act with no attention on himself or his case!

Prerequisites: Grade IV Expanded, not in the non-interference zone (R6EW to OT III), or incomplete on any major action.

Get yourself onto these dynamic rundowns! You'll never be the same again!

To register in advance, or for more information on the Ls, write the Flag Land Base Letter Registrar today. (Or contact your Flag Service Consultant at the FOLO). Addresses are on page 2.

Donations for each L-Rundown: The first 25 hours (minimum) is $7,500. Further hours, if needed, are $3,750 per 12½ hour intensive.

Games Conditions

(continued from page 5)

you have to inform them. Thus we get another rule of games, which is:

TO FREE PEOPLE FROM ANY GAME, INFORMATION MUST BE DISCLOSED.

Running people on the time track and letting them find out about their past lives frees them from these old games.

In fact, you can give people the illusion of being free by actually manufacturing information.

Desire for information, which is curiosity, is simply a restimulation of not having known that they were in the game. Curiosity itself is not aberrative, but it keys in unawareness. We get curious about the wall, we say to ourselves we don't know about that wall, therefore we get keyed in about the wall. Curiosity seems to operate as a magnet and we get pulled into the wall to some slight degree.

Therefore, for a person to be totally free, knowingness would have to be very close to total. And all knowingness does not happen to be contained in one postulate.

ELEMENTS OF GAMES CONDITION/ NO-GAME CONDITION

When we say games condition we mean that a person is in an unknowing circumstance, which means he is batty as the dickens.

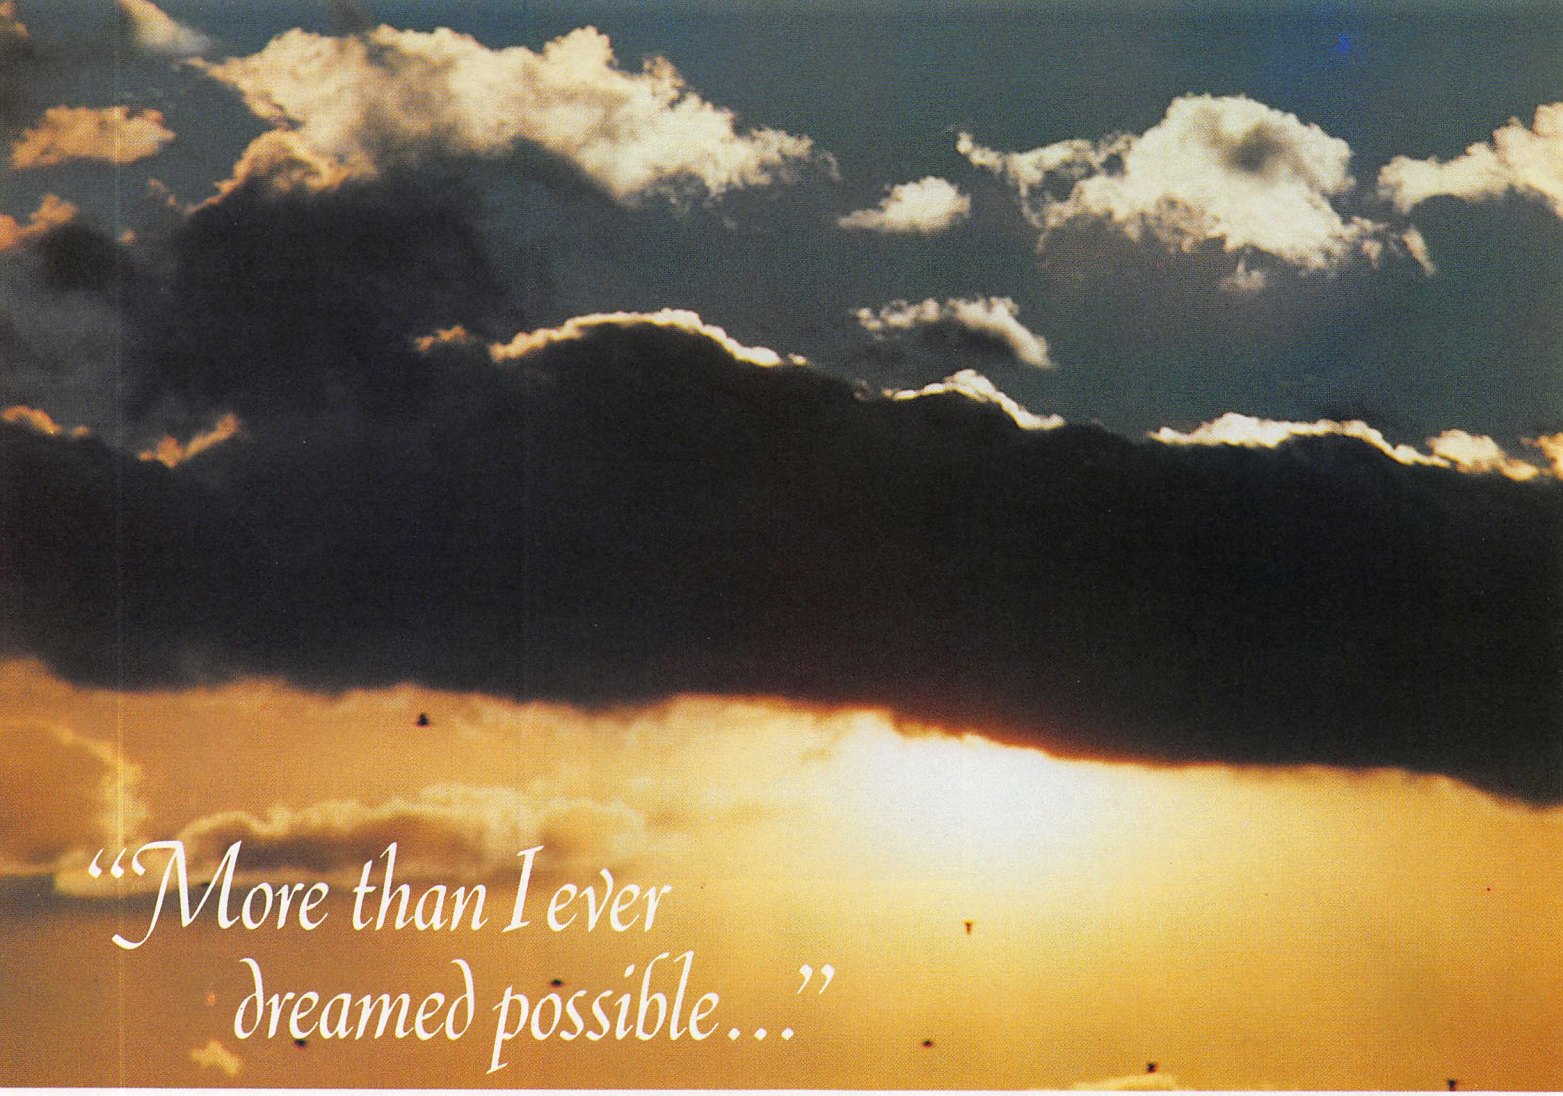

Games conditions are: Attention, identity, effect on opponents, no effect on self, can't-have on opponents and goals and their areas, have on self, tools of play, own goals and field, purpose, problems of play, self-determinism, opponents, the possibility of loss, the possibility of winning, communication and non-arrival. These are the elements of games. Every one of them becomes a terribly interesting element in auditing because what is wrong with a preclear is a games condition.

And these are the non-game conditions: knowing all, not-knowing, not-knowing everything, serenity, namelessness, no effect on opponent, effect on self or team, have everything, self can't-have, solutions, pan-determinism, friendship with all, understanding, total communication, no communication of any kind whatsoever, win, lose, no universe, no playing field, arrival, death. These are all no-game conditions and these are all truth. These factors don't audit.

GAMES APPLIED TO AUDITING

In auditing, you are auditing the preclear at cause, with himself having, with

"More than I ever dreamed possible..."

Incredible wins of Flag Auditing applied in life.

SINCE RETURNING FROM Flag in September, I've accomplished more than I ever dreamed possible. The dynamics are aligned for me. I'm doing very well. I've also established a very sane second dynamic relationship which I can't say enough about.

On the third dynamic, I've applied for and received a mission charter and have established "Scientology Sausalito." Additionally, I'm in the process of opening a Delphi School in my area, in conjunction with . . . Delphian Foundation in Oregon. I'm also assisting . . . with a project which should lead to a mission in Tokyo, Japan, in 1978.

Thank you all very much. I really appreciate your help.

— *G.B.*

THE FOLLOWING IS a list of successes after my Flag Auditing.

The ability to generate income from my ranch has been *handled;* before Flag Auditing it was something of a problem as the land was not being utilized.

Less tangible successes are: having the "ideal" individuals to live on the ranch while I am away; business people with whom I must conduct my affairs are all doing swift and complete work for me; my family all are doing better in every way; my ability to communicate with any and everyone is 100 per cent improved, resulting in an ideal scene.

My health is perfect!

My tennis game has improved 100 per cent!

I am told (and I too can see it) that I look years younger than before Flag Auditing.

A most important gain from Flag Auditing is my ability in the area of study. I was a disaster in regard to study before Flag; now I am actually a good student (and solo auditor)!!

And I've gotten lots and lots of new awarenesses, especially regarding the state of Operating Thetan, the hows, whys of it all are no longer a mystery.

Living here totally satisfies all my dynamics.

I've lost count of all the OT things I've done. What better success than to state that I am completely happy!!

— *M.E., Flag Auditing*

ON MY LAST trip to Flag, I arrived not feeling too good, with a few problems to handle.

I had a few hours of incredible auditing and left for New York on business.

The following two days were the most successful days in business I have ever had, both financially and business relationship-wise.

I know it was directly as a result of my Flag Auditing; I know what I had handled and it worked.

— *R.M., Flag Auditing*

BEING A FLAG CASE Completion up through Power, I really have the end phenomena! It has changed my ability to handle others and the environment remarkably. That, and the training I got, have put me on a new plateau of cause.

I'll be back soon for more.

— *D.S., Auditing and Exec Sec Hat*

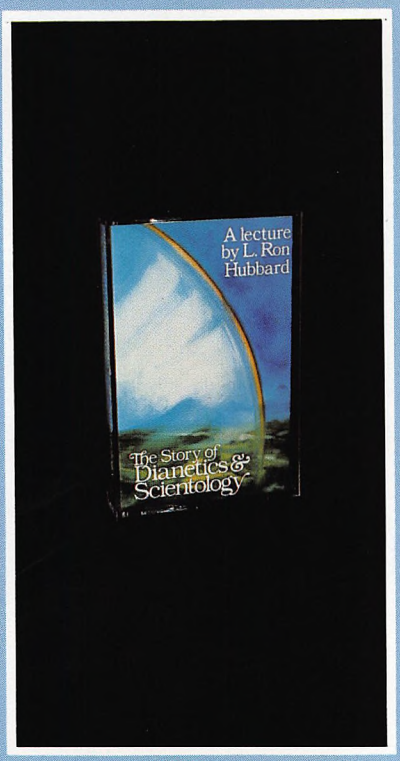

WHILE AT THE Flag Land Base I have gone from Life Repair through Expanded Grades and am now on Expanded Dianetics. The changes and successes which I have gotten from my auditing are incredible, not just for me, but for my entire family.

When I got here I was a mother with a five and a half week old daughter and was not in the best of shape. Now I'm

"More than I ever dreamed . . ."

(continued from previous page)

very confident in my ability to handle my child. And as I have been getting auditing my family, who are all non-Scientologists, have gained increasing awareness of themselves.

As for myself, my self-confidence has increased at least 100 per cent. I can handle my own affairs well and make my own decisions, something I have always wanted. When I first got here, I stayed in my room, only coming out for meals or to see someone. Now if I stay in my room, it's because I want to, not because I "can't see" people.

I feel that one of the best things I've gotten out of my Flag Auditing is seeing my family's tone level rise, and my own come up.

I've also increased my abilities to an extent I never dreamed possible with Grades and Expanded Dianetics. My intentions and postulates are really coming through!

— *S.B., Flag Auditing*

SINCE I CAME home November 1977, I have noticed myself changing in so many ways. Whatever each day brings seems to be so easy to handle. I am aware of being totally in control. I am also aware of how little effort is required when I as a thetan take charge. I know I am making things go right. My universe has expanded so much and it is so calm and steady that I feel nothing can disturb it. With that feeling of calm and security I can outflow affinity so easily now and that is a great joy to me.

I also enjoy being aware of all the little wins each day brings — some new but many which make me realize how plentiful and steady my wins have been ever since I became a Scientologist.

What more can I say but thank you to Ron for the wonderful Tech and thank you to the many people who keep Scientology working and make these wins possible.

— *C.M.D., L-12*

IN THE TWO months since completion of my fantastic auditing at Flag, I have had so many wins and discovered so many new and regained abilities it is difficult to list them.

I am just constantly astounded at how easy life is now. The proof of the pudding to me is how I operate in life after Scientology services. Well, this time it is just phenomenal.

Life arranges itself for me just right.

My confidence, confront and *ability* to handle anything is nearly unbelievable.

My income has gone up markedly and the funny little difficulties I used to have are just no longer there. And the "impossible" things I wanted to do are all possible now! Anything!

I should think anyone would want to be more able in some area of life,

(continued on page 20)

and said he realized how everybody there is telling him their problems. Here all you do is talk about your wins! And there are other people here who listen and duplicate it.

You can't help but get powerfully strong. The environment is so supportive to the individual.

In October 1976 I had Expanded Dianetics here and then went on and did L-11 and L-12.

Expanded Dianetics was really incredible! I came out just shining! Then I did L-11 and L-12 back-to-back. I thought my Expanded Dianetics had sent me out the top, but by the time I had the New Life Rundown and L-12, I was ready to create a big and exciting game for myself . . . no compromises! There was *no* restraint on my actions. I was totally ready to take responsibility for an enormous area.

At that point, I became interested in the film industry with some other Scientologists and more or less dove into that area. There was no restraint, no hesitation about it.

Had I not been to Flag and experienced total personal handling and had the auditing helping me to realize what incredible potential I had, I may not have taken that big step.

I found when we went into the film industry there was a lot of hatting we lacked so it was a little bit difficult to operate. My knowingness was very strong from an OT viewpoint but I found I began to compromise because I couldn't pull out a policy and say, "This is where it comes from."

What I recognized was, you can have the ability to create any effect you want and the ability to perceive any effect, but in order to stabilize a condition, to stabilize yourself in a power condition, you've got to be highly trained in your area. That's why I'm now doing the Public Relations Course here at the Land Base.

One point, I think some people think they have to make an enormous sacrifice of weeks and months to be here. I don't think that's really true. It may be kind of expensive to fly in, but it is well worth it because you can often easily get things handled in a short period of time.

People shouldn't think of Flag as something they can only get to once a year. My own policy is to come here once every five months or so for at least a couple of weeks. Unless you're just sailing along, if the world has been giving you a few knocks as it invariably does, you can just come in, connect up with Source, get superlative, fast auditing.

Or even just take a vacation: be served three meals a day, get your bed made every day, enjoy wonderful keyed-out rooms and listen to tape plays in the afternoon with a cup of coffee. Just go down to the Land Base even if just for a visit, and surround yourself with the top Scientology space on earth!

There is a viewpoint one gets here that is not easily communicated if one hasn't experienced it. It's a viewpoint on what your relationship is to the mest universe. You, the thetan, are senior. It's Scientologists really making things go right. And it's a very real view of the magnitude of the game of Scientology.

You meet people from all over the world, from Africa, Asia, Europe, England; all over. They all have similar purposes. It's the spirit of "Hooray for the survival of Mankind. We're here to make it go right!" It's a spirit of, "Get off the effort band and get into postulated realities! And new civilizations!" We're each here to do our part in that!" ■

Games Conditions

(continued from page 16)

his opponents not having. You are auditing from the standpoint of him being on the way, doing something, on the basis of problems, from a self-determined standpoint.

It was found that auditing in the direction of making things alive was a no-game condition, and therefore a no-auditing condition. But making everything dead and killing everything in sight proved to be equally not auditable.

But considering everything an opponent and making it less was a beautiful games condition; it audited beautifully.

Auditing is not the same as life.

Auditing is totally dependent on orienting a person into a greater awareness of the games that he is playing, has played and the games that can be played.

This article is from Ron's lecture "Games Conditions," given 20 March 1957 at the 17th Advanced Clinical Course. The lecture is available on reel-to-reel tape, including on the second side of the reel the lecture "Exact Control." You can obtain both lectures by ordering Reel Number 5717ACC 15/17 from the Flag Land Base Bookstore (address is on page 2). Price: $50.00 for two lectures, one reel. Membership discounts apply. (If unavailable, order direct from Publications Organization, Jernbanegade 6, 1608 Copenhagen V, Denmark.)

Here's how you can get Flag Auditing, or more information:

To get Flag Auditing, you need only write and tell us you are coming, and when, so arrangements can be made to have a Flag Auditor ready for you. The person to write is the Flag Land Base Letter Registrar.

If you have any question about what auditing action you need or how many hours will be required, you can arrange for a technical estimate to be done at Flag before your arrival. This is a wise action; you will be required to get enough auditing hours (sold by intensives, blocks of auditing hours) to complete the action or actions you want to complete or bring your case to a stable point. Technical estimates can be arranged through the Letter Registrar.

For more information on Flag Auditing, again the person to write is the Letter Registrar.

Of course, if you're in a real hurry, you can phone the Chief Registrar at the Flag Land Base direct. His phone number is on page 2 in the Address section.

(If more convenient, you can contact your Flag Service Consultant at your nearest FOLO. Address is on page 2.)

■

As an Auditor or Solo Auditor you should have <u>two</u> E-Meters.

The E-Meter is an essential companion to every auditor (minister), whether an auditor who audits others or a solo auditor. It is a religious artifact used by Ministers of the Church to measure the state and change of state in a preclear.

Your Meter is so important, per a recent bulletin (HCOB 4 December 1977) you need a second, spare E-Meter for a properly set up session.

Make sure you have an E-Meter, and a spare, to hand when you need them!

Order your E-Meter — or spare — from the Bookstore Officer at the Flag Land Base. Address is on page 2.

An E-Meter, made to the exact specifications of L. Ron Hubbard, will be shipped to you with leads, cans, charging cord and calibration resistors.

Price is $325.00. Membership discounts apply.

(Only Scientology auditors and auditors-in-training may own an E-Meter.)

(If unavailable, order from your Publications Org: 4833 Fountain Avenue, East Annex, Los Angeles, California 90029; Jernbanegade 6, 1608 Copenhagen V, Denmark.)

"More than I ever dreamed . . ."

(continued from page 18)

and from what I have experienced, you *really can* have those abilities!

Probably the most remarkable win I had was discovering my ability to CREATE. As an artist for the past 15 years I was (I thought) unable to create! You can imagine how pleased I am.

I definitely want everyone to have these wins too!

— *P.M.B.*

RECENTLY I WAS at Flag for auditing and received a bonus result which I did not even notice until I was going home in the plane. Eighteen months ago a change took place in my excellent eyesight so that my sight of things near was not as good. I had to push my book or paper a little further away to see it clearly. Someone told me that often happens to people around 40. On the plane home I found I was no longer pushing the reading material further away but was reading at a comfortable distance. I did not have any of the special rundowns as you might think, but was being audited on Level 0!!

— *J.A.*

I LEFT FLAG L-12 (and my case cleaned up) on 30 November 1977. Since that time I have been able to "see" with new eyes. I have confronted and handled situations which were invisible to me before and went unhandled.

I now walk with *high* and *big* steps, totally certain of my actions, and able to take responsibility for *any* effect I cause in the course of running a mission.

The transition from the safety of the Flag space to an area that had gone wildly PTS was an initial shock, but not an overwhelm. With calmness and certainty, I was able to proceed step by step to clean up the area and handle the *cause* of the PTSness — terminatedly.

The amazing thing was the ability to handle like this on my 2nd and 3rd dynamics *simultaneously*.

An aside to this is that my first 10 days after returning, nothing, and I mean nothing, rattled me to the point where I Qed and Aed as to whether I was in apathy or serenity. Then I realized I was *looking* and running from 20.0 (Action) to 40.0 (Serenity) on the Tone Scale. At that point, with the data I gained from observing, I went straight into action.

As Ron has said many times, may you never be the same. And I know now how true that is.

Thanks, Ron, for this valuable tech that has made such a difference in not only my livingness but those around me.

— *N.P.*

"There is no other way out than as a perfect auditor."

Flag Training and Interneships – to become a flubless, flawless auditor.

Now, why ***Flag*** training and interneships?

It is well known that Flag training and interneships are the very best available. You really learn Ron's auditing tech cold. And you become able to apply Standard Tech on ***every*** case.

The quality of your training and interneships (and your own honesty and dedication as a student and auditor or C/S determines just how well you ***know*** the tech and apply it.

Preliminary Step

The first step of training at Flag consists of a clean-up of any previous faulty training, correction, cramming or application. This consists of actions taking from two to ten days which help make proceeding training faster and easier.

Flag's Standardly Run Courses

You ***know*** you'll get the tech correctly on Flag courses. The Flag supervisors are expertly trained in Ron's study and supervision tech. They can spot and handle the student in trouble ***fast.*** They know when to let the winning student get on with it. They make sure word clearing is used properly and fully (and expert word clearers are available when needed).

If standard supervision and word clearing aren't able to handle a student's difficulties, there is the fabulous Flag-only Student Booster Rundown to put the student "back on his feet," and give a real case boost besides.

Applying 100% Standard Tech

On courses you learn the theory and basic practical actions of the level.

On Flag Interneships you become a flubless, flawless auditor for that level. Imagine, being able to turn out a perfect session, no matter what!

Flawless auditing isn't done by duress or strain; it is done by excellent auditor presence. You become gradiently but quickly excellent through daily drilling on TRs, meter drills and practical actions. And by auditing, auditing, auditing under the eagle eye of Flag's expert C/Ses.

Any goofs are corrected in the expert Cramming Section by locating the basic reason for them and handling fully.

Levels Available

All the Grade Chart courses and interneships, from Dianetics through Class IX are available at Flag.

Senior Class IV includes a special Flag-only section which awards the certificate of ***Flag Senior Class IV with Honors.***

Training on Flag-only rundowns such as Class X, XI and XII is available only on the Flag Technical Training Corps, as a Flag staff member.

Auditor training on courses may usually begin with your ***next*** training step.

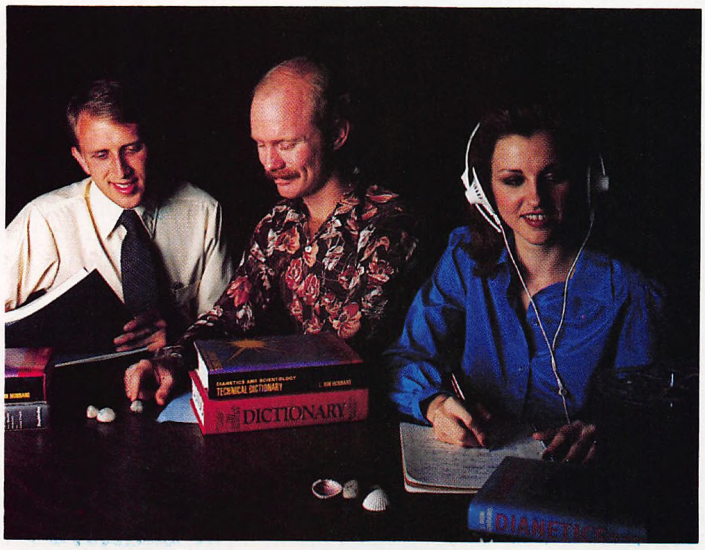

Interneships are begun at the level of Dianetics, no matter what your current level interned. It has been found necessary that ***Flag*** quality auditing skills have to be in from the basics up for flawless results.

Streamlined Training

Training and interneships both have been recently streamlined to greatly speed up the time it takes to make an expert auditor. Since the course and interneship times vary, you should check with the Letter Registrar at the Flag Land Base for an estimate on how long the courses and interneships you are interested in will take.

Anyone may apply for Flag training and interneships.

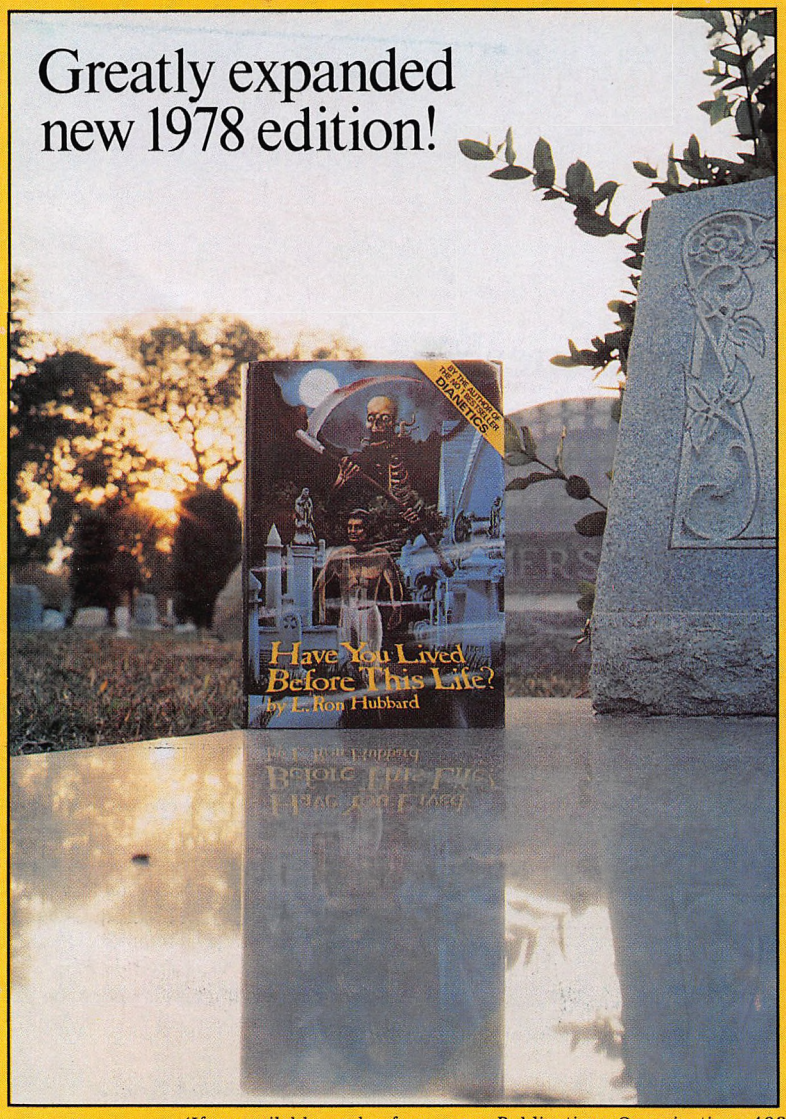

Write the Flag Land Base Letter Registrar to get more information on the courses and interneships available at Flag. Advance enroll right now if you know what you want! (Or contact the Flag Service Consultant at your FOLO directly.) Addresses and telephone numbers are on page 2.

"The first principle on which we operate is that Flag auditing must be absolutely flubless and completely flawless . . . This is not done by strain. This is done by excellent auditor presence."
