IMPORTANT NOTE

In reading this magazine be very, very certain you never go past a word you do not fully understand. If the material becomes confusing or you can't seem to grasp it, there will be a word just earlier that you have not understood. Don't go any further, but go back to BEFORE you got into trouble, find the misunderstood word and get it defined.

DEFINITIONS of Scientology terms

As-Is, (verb) to view anything exactly as it is, without distortions or lies, at which moment it will vanish and cease to exist.

Auditing, spiritual counselling; the application of Scientology processes and procedures to someone by a trained auditor.

Auditor, minister; a person trained and qualified in applying Scientology spiritual counselling to others for their betterment.

Beingness, the assumption or choosing of a category of identity. Examples of beingness would be one's own name, one's profession, one's physical characteristics, one's role in a game.

Bridge, a term originating in early Dianetic days to symbolize travel from unknowingness to revelation; see Grade Chart.

Case, the way an individual responds to the world around him by reason of his aberrations.

Case Supervisor, that person in a Scientology Church who gives instructions regarding, and supervises the auditing of, preclears.

Class, refers to the level of classification of an auditor.

C/S, see Case Supervisor.

Doingness, the state of doing or action.

Floating Needle, a movement of the needle on the E-Meter; the idle uninfluenced movement of the needle without any patterns or reactions on it.

FOLO, Flag Operations Liaison Office.

FSM, Field Staff Member.

Grade, the word used to describe the attainment of level achieved by a preclear; a series of processes culminating in an exact ability attained.

Grade Chart, gradation chart or Classification Gradation and Awareness Chart; the route to Clear, the Bridge; a guide for the individual to Clear and above.

Havingness, the state of having or being able to have, that which permits the experience of mass and pressure; the feeling that one owns or possesses.

HSST, Hubbard Specialist of Standard Tech; Class VIII Case Supervisor.

MEST, a coined word, meaning matter, energy, space and time; the physical universe.

OT, Operating Thetan; a thetan exterior who can have but doesn't have to have a body in order to control or operate through life, matter, energy, space and time.

PC, see Preclear.

Preclear, a person who, through Scientology auditing, is finding out more about himself and life.

Process, a set of questions asked by an auditor to help a person find out things about himself and life.

Q & A, means "Question and Answer." When the term Q and A is used it means one did not get an exact answer to his question. It also means not getting compliance to an order but accepting something else.

Rundown, a series of steps which are auditing actions and processes designed to handle a specific aspect of a case and which have a known end phenomena.

Session, a period in which an auditor and preclear are in a quiet place where they will not be disturbed. The auditor gives the preclear certain and exact commands which the preclear can follow; auditing is done in a session.

Somatic, body sensation, illness or pain or discomfort. "Soma" means body. Hence *psychosomatic* or pains stemming from the mind.

Thetan, the person himself — not his body, or his name, the physical universe, his mind or anything else; the identity which IS the individual.

TR, a training regimen or routine. TRs are a precise training action on Scientology courses, which train the student to communicate and audit.

Up Scale, being at a point high on the tone scale, marked by high awareness and certainty.

NOTE: The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the Minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law, and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists or psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter, one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of that Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed or owned only under these conditions.

Universes part 2

BY L. RON HUBBARD

"Scientology knows about the four universes — thetan, mind, body, physical universe. Dianetics is totally dedicated to the universe of the mind. We are basically interested in this second universe, the mind. We can know this most easily. We can take it apart most readily and by doing so we can graduate upstairs to a point of knowingness on the other three universes."

Part I of this article appears in Source Issue 17. *In that article, Ron defined and described in detail the four universes the first universe being the universe of the thetan or spirit; the second universe the universe of the mind; the third universe the universe of the body and the fourth universe the physical or Mest Universe.*

And here is Part 2 of "Universes" by L. Ron Hubbard.

WE COULD SAY, although we can't pound it down with a hammer that this universe is here and visible to us because it is made by us, and I think we would come very, very close to the truth!

I'm unwilling to settle that with a "thud," across the boards, as I am several other problems because as individuals go upscale they like to discover them themselves.

There is no danger of upsetting anybody to have him missing this piece of information: Are you one person or are you part of a big thetan? The idea that everybody is kind of mishmashed into one person is a favorite idea in some countries. Most revolutions get started on the basis of "We're all one." They say it in different ways, but they have a religious basis.

The truth of the matter — which I'm not going to thrust down your

"We are above the point of the creation of the universe when we are in Scientology, therefore, the laws of creation of the universe are just another set of laws to us. Those laws are basically postulates."

throat — is apparently that you are you. I won't say that is all you are, but that is definitely indicated by all the facts. You find a lot of people around that say you are somebody else. You find a lot of schizos in sanitariums that are being different people, all in the same day, so much so that they think they must be different people anyhow and, therefore, all people must be the same. If you are good and crazy you can believe that all people are one.

This doesn't mean that you can't communicate across to other people without going through mest; it doesn't mean a lot of things.

But you are definitely you.

This physical universe is definitely this physical universe. It probably is here with us and we don't lose it all the time because we keep on mocking it up.

We are only interested in the body because it is sort of a fad at this time, people have bodies. Other times they have robots, other times they have dolls, other times they have sets of chains or are known by the tin cans they rattle or something of the sort. There are different fads at different times along the track. You could say the body universe would be the calling card or beingness universe.

Looking again at this body universe, one of the reasons Scientology is important at this time is because nobody issued you a book of operating instructions. You can look around in a body when you get it and you won't find any book of operating instructions in its pocket!

Looking at the second universe, when you made up your own mind you very seldom issued yourself a book of operating instructions concerning how you made it up. So you "had to be found out," because you (and everybody else) had forgotten.

How do you make up one of these silly things called a mind? It has machines and pictures and spaces and all sorts of things in it. How do you make one up? Well, you would have to know how to make one up in order to take one apart.

Possibly you could blow one apart! Several therapists have tried this in the past.

There was some cult, I think it was called . . . just a minute, I'll get it . . . the Cult of Psychiatry, mid-nineteenth century psychiatry which originated in Russia. This cult actually believed that the way you solved somebody's mind was to electrocute him. If a person's thinkingness wasn't all right, why you electrocuted him!

There was another one called the psychologists back about the same period. They believed that if you bored holes in a brain that the evil would leak out!

I may have my data wrong because I haven't lately sent out an archeological expedition to find out what happened to these people.

The truth of the matter is, they had some very peculiar ideas. And the longer you are in Scientology, the more peculiar these ideas will look to you. The only trouble is, you are sometimes quite horrified by what they do and what they used to do.

EARLIER STUDIES

As we look over the earlier studies of these four universes, we find a great many clumsy assumptions and a great many heroic remedies.

Nuclear physics is the final remedy of physics. They are trying to cure the whole subject, I suppose. It is very wonderful to look at the amount of work and endeavor being put into destroying this many mock-ups this fast. It's wholly pointless, but individuals are doing it, and nations are spending a great deal of money in order to do it. The only thing they ever do is bring about a further confusion.

Unless we unmock a mock-up or hit it at source or take it apart by looking at it, as-ising it as we say, unless we do it that way we are just going to get more mishmash. It is just going to be a big mess.

The more times we blow up something like a mind or a body, the more times we destroy it by mauling it around, the harder it is to look at what was wrong in the first place because it is just being stirred up and mixed up.

Most remedies in these four universes have been based on destruction. They were going to remedy everything by destroying it!

They were going to "remedy" the mind by boring holes in the brain or by electrocuting somebody. All they will ever do is bring about a further confusion in the mind!

As far as the body is concerned, they were going to put it under ether and operate on it and fill it full of medicine and hang it up by its heels and let the medicine run out. Whatever they do with it, they wind up with a body more messed up than they had previously!

It is perfectly all right with me if they set somebody's legs. But look at the orderliness of setting somebody's legs compared to the disorderliness of cutting out somebody's gallbladder. If you want to patch up plumbing, all right, call it patching up plumbing. If you want to do carpentry or welding work on the body, it is perfectly okay. But the funny part of it is even that leaves its own trauma because the destruction and the basic difficulty was not gotten rid of. All they did was patch up something after the fact.

Nobody is ever going to do anything about this physical universe until they look at where it comes from.

If the nuclear physicist is trying to get rid of people, if that is his goal, he could get rid of them much better in other ways such as birth control and things like that. If he is trying to just blow a universe out of the firmament, he is not going to get *any* place doing that. He had better find out where it came from before he does something about it. I don't even know what the nuclear physicist is trying to do with the universe!

You will find the physical universe is based on certain laws and these laws are called the laws of physics. (You don't have to know anything about the laws of physics if you don't want to. Some people are allergic to these laws because they have been made to

study them too hard.) But when an apple falls, it is obeying the law of gravity. There is Boyle's Law, there are laws of acceleration, there are laws of expansion of gases, and all kinds of interesting laws. You can find them all in a basic physics textbook. You find everything in the universe is more or less obeying these laws.

The nuclear physicist thinks he has escaped the law of gravity. He is still obeying the law of gravity even though he thinks there are holes in space and that he is destroying energy by blowing up atom bombs. It isn't true that he is disobeying any of the laws. When he looks a little distance he will find he is still within the basic laws of the universe.

I don't particularly rag nuclear physicists any more. There are a great many nuclear physicists who are Scientologists. Nuclear physicists would have undoubtedly long since, of their own accord, done something about an atom bomb, but the atom bomb has become the property of generals. They are not interested in the scientific import, they are merely interested in the military objective. That nobody has defined the military objective to them is beside the point. The end product of war and government is, apparently, denuding earth of business and people.

But regardless of what its end product is, the atom bomb follows certain laws.

The body follows certain laws.

The mind follows certain laws.

And a thetan, as hard as he tries to make a postulate that makes him follow different laws, still follows laws directly related to a thetan.

THE RICHES OF SCIENTOLOGY

We are rich at this time in that we know these laws.

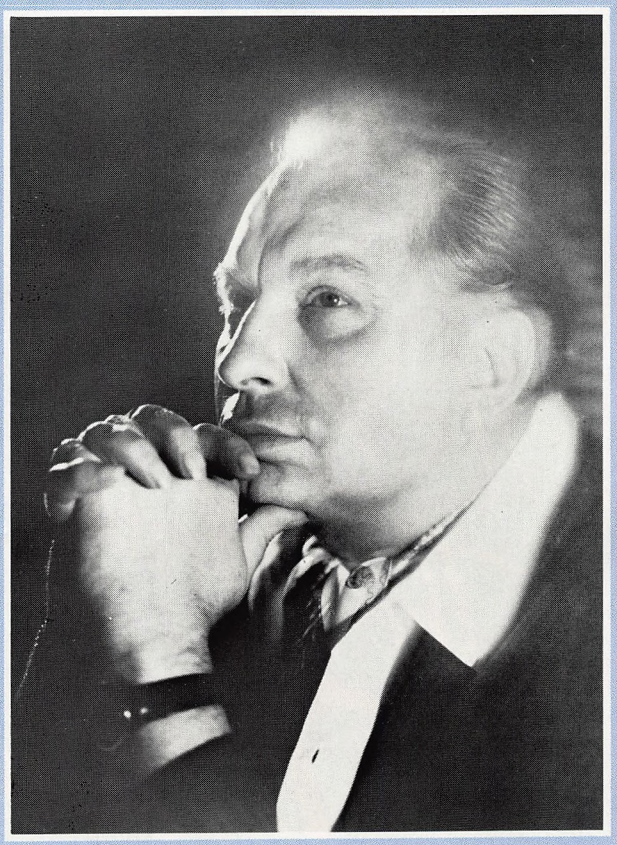

We didn't dream up the laws of the physical universe. In Scientology we found a few of them people didn't know existed, but this is not any vast part of our sphere. Almost any physicist is better off for knowing Scientology, as many of them will tell you. But we aren't too interested in that.

We are above the point of the creation of the universe when we are in Scientology, therefore, the laws of creation of the universe are just another set of laws to us. Those laws are basically postulates.

A body obeys a certain series of laws. And a person inhabiting it abides by certain things and he does certain things. He Qs and As with the demands of his body and how it's constructed and how he makes other bodies. In other words, the body goes by certain laws and all of these laws are basically postulates.

And we come back to the mind and find out that minds are very different in content and behavior, but they obey certain laws and all of these laws are postulates.

And we come back and look at the first universe and find that we have a thetan. The fact that a person is a thetan is something he can't do a single thing about. Below that he has made up a series of laws which gives him other universes. The fact of being a thetan is not something anybody dreamed up. It IS.

When a bunch of thetans get together and agree with great duress on a number of postulates and say, "This is it, and this is the way it works," and by natural selection sort of get the ones that people don't agree with so well out of the road, they get a working structure which you then call a universe.

The first universe, the thetan, is the only universe along the line which you can't do anything about. You can change all these other universes or set universes back together again because they are laws which are simply agreed upon postulates. They are considerations.

Some fine day you will be getting processed and all of a sudden hit one of these considerations that you have contributed to in one way or another. The corners of the room will start going creak, creak, creak and you will say, "Oh, oh, oh! I shouldn't have touched that one!" It is with great relief that you can go ahead and touch it again and then find out that you can consciously put the corners of the room back where they should have belonged in the first place and still go on living in the room without burying the law out of sight the way you thought you had to.

Nevertheless, a thetan — a being called YOU — can be modified by other opinions, conditions, surroundings, environments, can be modified by postulates, by universes and so forth. But it can be modified only in its own belief. These beliefs lead to such things as beingnesses and capabilities and incapabilities and all sorts of expressions of personalities and individualities.

A thetan IS. He has certain characteristics which are apparently unalterable and which are all of them summed up in the first ten Axioms of Scientology. These are native characteristics, you might say.

We ARE a being, and we are studying a being that IS. All other things are mutable, changeable, susceptible to alteration.

The whole of the mind can be altered, all of its laws can be knocked out and other laws be put back in.

The whole of the body can be changed, shifted, altered, when you get up high enough.

And when you are way high, you can even do something about the physical universe in changing it around.

Every once in a while you find somebody who has gotten up to a state of Clear and you tell him, "Now, just look at that little set of atoms over there and get the idea that you know exactly where they came from." And, of course, they disappear and that's it!

He will say, "Oh, I shouldn't have done that."

You say, "Well, go ahead and put them back."

"Well, I can't do that."

You say, "Now look, you got rid of them. You can put them back."

"All right, if you say so." So he gets the idea of them having been created a long time ago and that he has now forgotten when they were created and they are back! He finds out how he does this.

A.D. 28
The Year of Technical Breakthroughs

by L. Ron Hubbard

This year has so far resulted in Technical Breakthroughs from one end of the Grade Chart to the other.

Each of these is the result of years of research and in recent months one major discovery has led to another with great rapidity and astounding success. On a research line one sometimes hits pay dirt, this time I struck pure gold, not once, but several times and we now have new major Grades and Rundowns at both ends of the Bridge.

New Era Dianetics has already been released and is internationally reported to be working fabulously well producing 80 per cent more gain.

An attempt to run New Era Dianetics on an OT resulted in a phenomenon which caught my attention, and on further investigation brought to light the fact that you cannot run New Era Dianetics, or any Dianetics for that matter, on a Clear (Dianetic or Scientology Clear) or above. Research into this paid off handsomely with a fantastic breakthrough for Clears and OTs. I have now developed an entirely new Rundown called "New Era Dianetics for OTs." This deals with living lightning, the very stuff of life itself. Run exactly correctly by the book it produces remarkable results in the OT band, and has made it possible for me to now release OT VIII. "New Era Dianetics for OTs" is a highly confidential Rundown done by a Class IV, OT III auditor, called an Advanced Courses Specialist (ACS), who is specially trained on its rundown and techniques. It is now *forbidden* to run New Era Dianetics on Clears or above. From Grade VI to OT III is the non-interference zone, during which nothing should be run. Persons in this zone should move on up to OT III so that they may be audited on "New Era Dianetics for OTs." This Rundown will be delivered in AOs and Flag to OT IIIs and above. Clears and OTs who have paid for New Era Dianetics will now receive "New Era Dianetics for OTs" which in the pilot auditing produced results beyond their wildest dreams. While much of it is confidential I can tell you that the first step of "New Era Dianetics for OTs" is designed to raise perceptions, especially theta-perception, and as for the rest of the rundown . . . surprise, surprise, surprise!

OT VIII

Although OT VIII has been researched earlier, I knew there was something that had to be handled before I could release OT VIII. "New Era Dianetics for OTs" does just that, and now I am very pleased to announce the release of OT VIII, which will be available at AOs and Flag to OTs who have completed "New Era Dianetics for OTs." It is a Solo level which will fortify an OT already in excellent shape from "New Era Dianetics for OTs."

END OF ENDLESS DRUG RUNDOWNS

These breakthroughs at the OT level suddenly brought to view the reason why Drug Rundowns become endless when they do! And gave the way to resolve this. Now the Drug Rundown will be a comparatively short action and many many Scientologists will be able to make much faster progress up the Bridge. If you have had an "Endless Drug Rundown" you can now look forward to getting it completed with ease and get on to your Grades and OT levels. In this druggie culture in which we live, it is a very timely discovery because now we can undo the mind-crippling effects of drugs (Psychiatrists' gift to Mankind) with great ease, and with complete rehabilitation of the individual in a few intensives of auditing.

The "End of Endless Drug Rundowns" has been incorporated into New Era Dianetics and will be available in all orgs by New Era Dianetics auditors as soon as they are trained on it, which will be in about two weeks.

TRAINING — FAST COURSES

All these new techniques require auditors and C/Ses fully trained and specialists in that level to audit and C/S them. It is forbidden for any auditor or C/S to run any of these without being properly trained and certified.

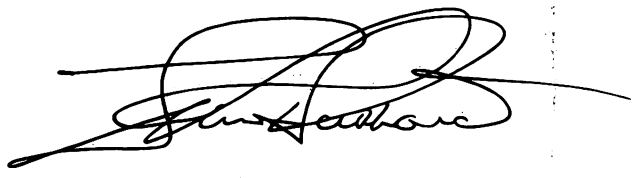

It is therefore just as well that I overhauled the training route earlier this year, resulting in fast training. We might even say the "End of Endless Training." Today, it takes four weeks or less to train a New Era Dianetics auditor. The checksheet and course for training Class IV, OT III auditors, Advanced Courses Specialists who will deliver "New Era Dianetics for OTs" is also a fast but accurate training level. So we are able to train auditors and C/Ses rapidly to deliver these fabulous Rundowns, and thus make them available to you very soon.

I have always said that as soon as I make technical discoveries I will get them to you as fast as I can, and I am doing that now.

I appreciate your support and help which makes it possible for me to do this research for you.

1978 is the Year of Technical Breakthroughs, there have been more this year than in any other year so far.

I am delighted to be able to make these available to you.

CLASS IV, OT IIIs ONLY

YOU are one of the only Scientologists in the world that can qualify for this chance of a lifetime!

A select team of Class IV, OT III auditors are being chosen and will be crash trained to deliver the highly confidential "NED for OTs" as Advanced Courses Specialists (Class IV ACS). Less than thirty places are left on this elite team!

Remember, the ACS Course will be taught only at Flag, to Flag and AO Sea Org auditors. "NED for OTs" will be delivered only at Flag and AOs.

If you join now* and qualify you will come right to Flag and begin immediate intensive training. First, your auditing skills will be polished and brought up to Flag's high auditing standards on the Flag Tech Training Corps (TTC).

Then you'll do the special highly confidential ACS training and get into the chair auditing "NED for OTs" at Flag to Flag standards!

You could be among the first in the world to audit this powerful rundown! If you act fast.

Call or telegram right now. Call Sue Laplaine, Flag Personnel Procurement Officer at this special telephone number: (813) 461-3914. Or telegram her at the Church at this address: 210 S. Fort Harrison, Clearwater, Florida 33516.

*If you are close but don't quite meet the Class IV, OT III qualifications, get in touch right away anyway. You may be able to complete the qualifications quickly at Flag.

Universes

(continued from page 5)

These are little tricks by which a thetan buries things out of sight, by which he creates something and then says he didn't, and makes up something that he is totally responsible for and then says, "I have no responsibility for it whatsoever. I don't know where it came from."

It is by this process a thetan gradually gets the permanence which you observe or the setness or the tremendous unchangeability of these additional three universes: the unchangeability of his own mind, the unchangeability of the body, the unchangeability of the physical universe. All of these things came about by these various tricks that he plays on himself. He says, "I can't change it. I haven't any responsibility for it."

Processes aimed directly at the mind upset these basic concepts on his own part and take things apart which he has long ago forgotten how to take apart and sets things right which he has long ago messed up and wishes he hadn't, and puts things back in order for him or puts back into his hands the power to put these things back in order.

TRAINING AND AUDITING

Now the first impression that you may get as you study Scientology is the only thing that can be changed is the mind. The mind can be changed because it operates on certain basic laws, but also it is more fluid, it is less fixed, it is less set than these other universes.

Scientology knows about the four universes. Dianetics talks about the anatomy of the mind and is totally dedicated to the universe of the mind.

As we look this over we find out that by knowing the laws of the mind, by knowing how the mind operates, by knowing precisely how it got that way, we of course can change it around into some better circumstance and condition.

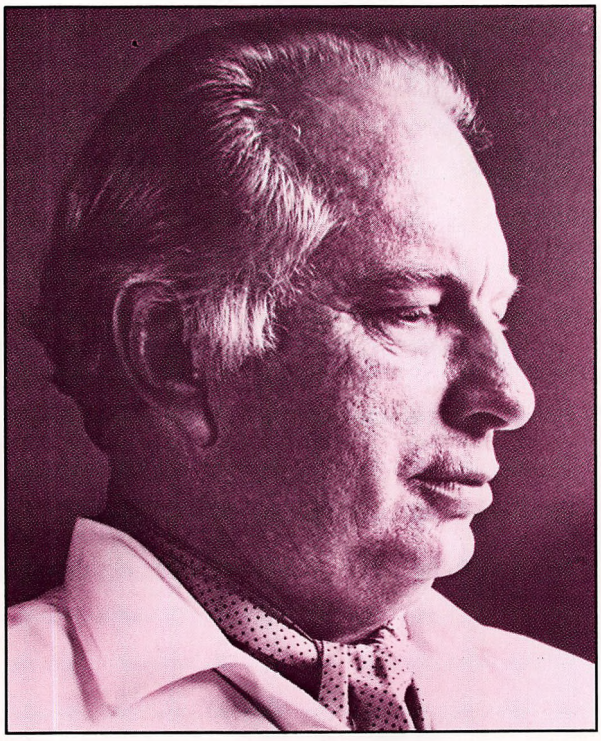

And in view of the fact that minds have been changed around so much, so thoroughly and so haphazardly in the last lord knows how many millennia, it is about time somebody went back to basics and put one back together again the way it should go. You will find out that people are happier when this is done. The proof of the pudding is always the eating. The proof of Dianetics is that people feel better when their

URGENT - IMPORTANT

Dianetics Forbidden on Clears and OTs

BY L. RON HUBBARD

NEW ERA DIANETICS or any Dianetics is NOT to be run on Clears or above or on Dianetic Clears.

This applies even when they say they can see some pictures.

Anyone who has purchased New Era Dianetics auditing who is Clear or above must be routed to an AO or Flag to receive the special New Era Dianetics Rundown for OTs. They are NOT to be run on regular New Era Dianetics.

Anyone who is Clear but not OT III is to get through OT III immediately so he can receive this Special Rundown.

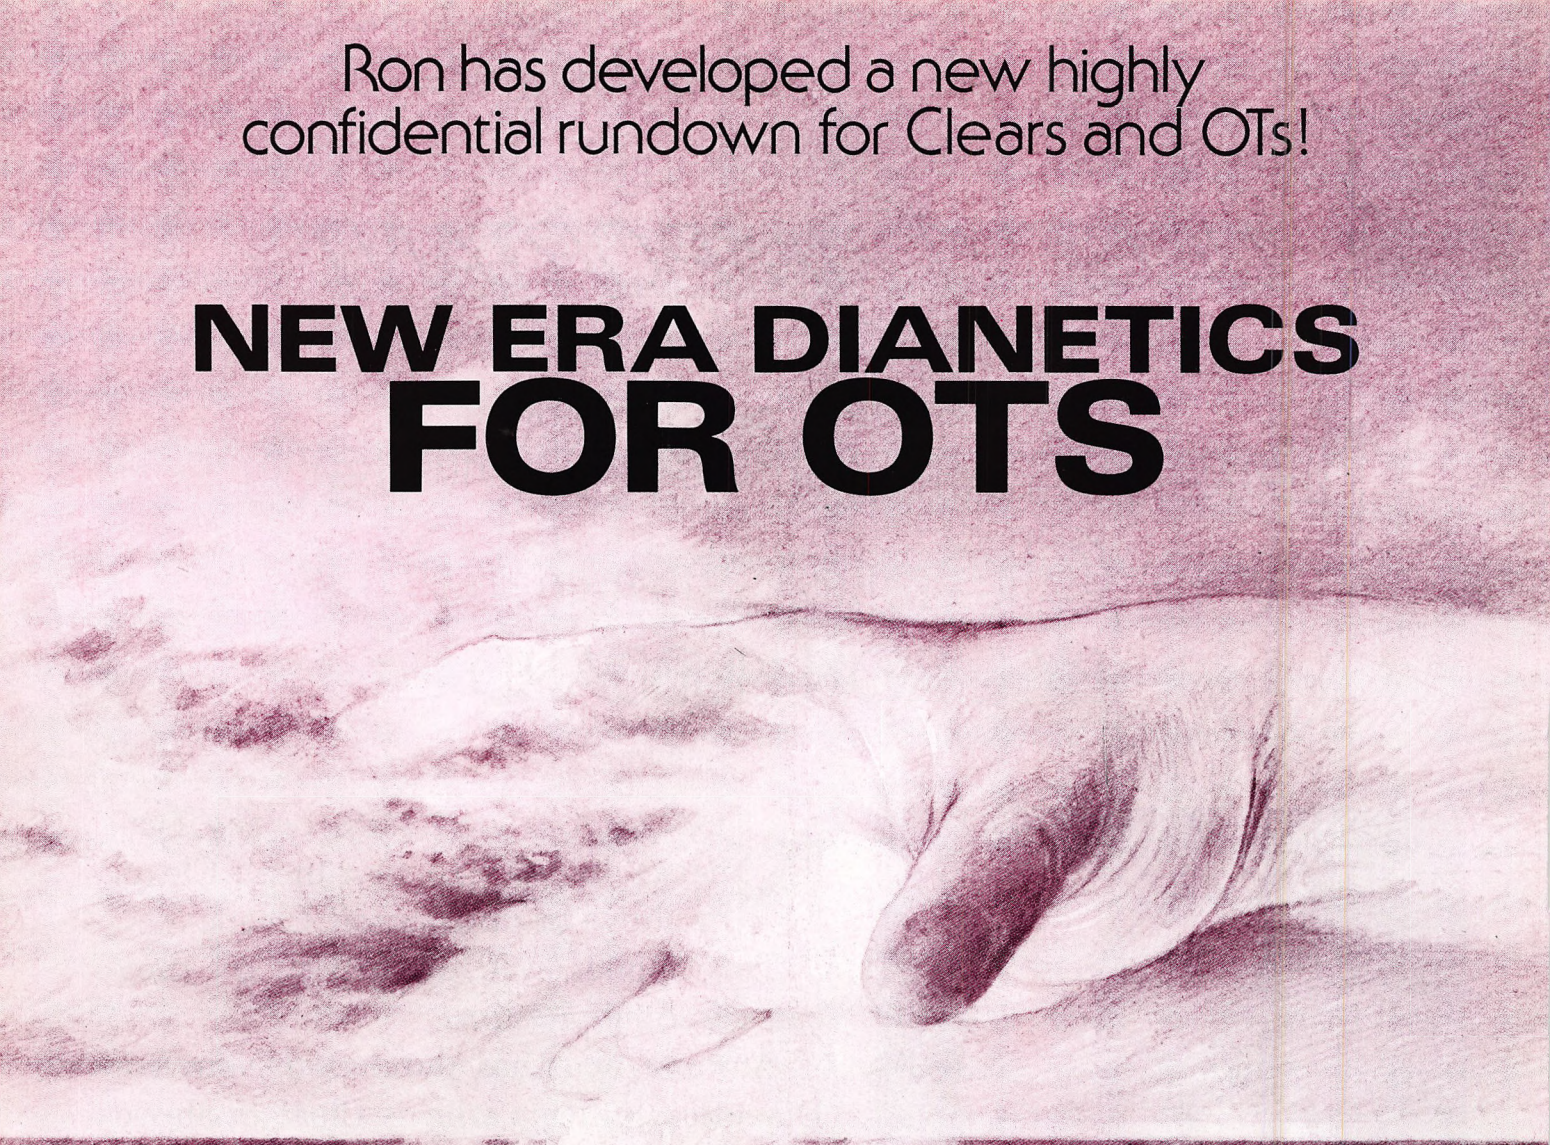

The end phenomenon of this Rundown is: CAUSE OVER LIFE.

L. Ron Hubbard

HCO Bulletin of
12 September 1978

Ron has developed a new highly confidential rundown for Clears and OTs!

NEW ERA DIANETICS FOR OTS

The End Phenomenon is CAUSE OVER LIFE

This is the most fabulous breakthrough for Clears and OTs in years!

Another "Wall of Fire" has been successfully handled.

It is now *forbidden* to run regular Dianetics or New Era Dianetics on Clears and OTs or Dianetic Clears.

Ron has developed a highly confidential new special rundown to be run on OT IIIs and above ONLY, called "New Era Dianetics for OTs."

Ron said, "This deals with living lightning, the very stuff of life itself."

"New Era Dianetics for OTs" is *not* a Solo level. It is audited by specially trained Class IV, OT III Auditors. Flubless TRs and metering are vital.

These specially trained auditors are called Advanced Courses Specialists (ACS).

It will be delivered only at Flag and Advanced Orgs due to the nature of the materials.

It will be delivered to OT IIIs and above only. All OT IIIs and above should sign up right away to receive this incredible, entirely new, top secret rundown.

Anyone in the area from Grade VI to OT III is

in the non-interference zone, where no other actions can be run but the next Advanced Course level. Anyone in this zone from Grade VI to OT III should immediately move up through OT III so they can receive this new rundown at Flag or their AO.

It requires a minimum of 25 to 50 hours of special auditing to complete.

Any donations made for Dianetics or New Era Dianetics auditing anywhere may be transferred to Flag or an AO for "New Era Dianetics for OTs."

Flag is specially training a corps of Advanced Courses Specialists to deliver "New Era Dianetics for OTs" in volume.

With this special corps of ACS Auditors, Flag will be ready to handle the already large demand for "New Era Dianetics for OTs" within days of the materials becoming available. To Flag standards, of course.

New Era Dianetics for OTs, Ron said, ". . . in pilot auditing produced results beyond their wildest dreams. While much of it is confidential I can tell you that the first step of 'New Era Dianetics for OTs' is designed to raise perceptions, especially theta-perceptions, and as for the rest of the Rundown . . . surprise, surprise, surprise!"

■

BREAKTHROUGH

A research fact which was impeding further progress of Clears, and which applies to OT Grades, has been found by Ron. New Era Dianetics cannot be run on Clears or above without serious consequences to the body particularly when New Era Dianetics is run wrong and upside down. Below that grade New Era Dianetics can be run safely and beneficially.

Immediate benefit from this discovery is that "New Era Dianetics for OTs" has been developed for issue and use at AOs and Flag.

"New Era Dianetics for OTs" is a rundown that can be run safely and beneficially on Dianetic and Scientology Clears when they complete the Grade of OT III. Clear to OT III inclusive remain non-interference zones for any Dianetics or New Era Dianetics.

This was another wall of fire, but has now been successfully handled.

The order not to run Clears or above on New Era Dianetics has now been widely distributed and "New Era Dianetics for OTs" has been developed and is being issued as a confidential issue.

Class IV, OT III auditors are being recruited and made and will be called "Class IV Advanced Courses Specialists." (Class IV [ACS]). They will be capable of administering "New Era Dianetics for OTs."

It is now possible to release OT VIII.

This has been a considerable breakthrough, the most major one since 1968.

month here at Flag!"
In chorus, "YES!!"

If you could place a beginning point to it all, the 21st of July would be the most likely date. On that day Flag was the site of the world release of New Era Dianetics. Nearly 1,000 Scientologists flooded into the huge Flag Auditorium at the Fort Harrison to be the first to hear exciting details of Ron's spectacular technical breakthrough, New Era Dianetics!

The explosive release was heard round the world, not just at Flag and into Scientology churches and missions, but deep into the public. For New Era Dianetics opens up and streamlines the lower end of the Bridge, both for processing and training.

With the release on 21st of July came Ron's many many new and revised technical bulletins that are the tech of New Era Dianetics. Flag Mimeo worked night and day to get Ron's new tech out to the Land Base and all of Scientology.

Shortly the new checksheets by Ron himself were released. Within hours over 100 students had enrolled on the New Era Dianetics Course at Flag.

And within a week Flag-trained, highly skilled New Era Dianetics auditors were graduating the super streamlined and simplified checksheet.

As New Era Dianetics auditing was delivered a new wave of excitement began. The miracles! The incredible results! The ease and smoothness of New Era Dianetics auditing!

The wins and "miracles" of New Era Dianetics that have been recorded just at Flag alone would fill volumes!

And so, with New Era Dianetics training and auditing, as well as the other Flag services, going strong, business settled down to a high roar.

Then on the 15th of September 1978, came the HCO Bulletin from Ron announcing that Dianetics or New Era Dianetics is forbidden for OTs. And there is a special rundown just for OT IIIs and above: NEW ERA DIANETICS FOR OTs! The most exciting news in years and years for Clears and OTs! It had them jumping for joy!

This highly confidential rundown which blows the upper end of the bridge wide open will be delivered at Flag and AOs only. Even more gains are available at the upper end of the Bridge!

At the Flag Land Base on a rush and immediate basis a big corps of Class IV, OT III auditors went into special crash training to prepare to audit OTs on this new "New Era Dianetics for OTs."

Ron's Tech Breakthroughs

(continued from page 13)

With so many spectacular breakthroughs how could there be more?

But there were!

On the 20th of September, Ron's Executive Directive (published on page 6 of this *Source*) arrived, with the world-shaking announcement of OT VIII! And word of the "End of Endless Drug Rundowns" to blow open all stops at the lower end of the Bridge!

Flag will deliver these fabulous new breakthroughs, of course.

Is there *more* coming? Well, as of this writing, checksheets by Ron himself are being released for Academy Levels 0 through IV, which so vastly streamline the Academy training, it will take no more than two weeks to complete each level. Imagine, in just under two and a half months, any Scientologist can be a Provisional Class IV Auditor, able to bring another up to Grade IV, a state far higher than Man imagined possible before Scientology!

Flag services encompass the whole of the Scientology Bridge across the abyss, from the public to OT. There are even special Flag exclusive services, the dynamic L Rundowns, which parallel and extend beyond the OT levels available. These Rundowns come from research into upper OT levels above VIII.

Flag makes available Ron's Bridge that he has streamlined and expanded with so many spectacular breakthroughs in this year alone, breakthroughs at both ends of the Bridge.

Any Scientologist is eligible to come to Flag and is welcome. No matter where the individual is on the Grade Chart, there's a Flag service that's right. Any Scientologist can experience the very best in technical delivery of Dianetics and Scientology. It's Flag's technical perfection that makes the difference!

Ron has done the research and has once again given the technology freely to all Mankind. Ron has done his part.

The message is clear. Now it is up to you and all Scientologists to USE the technology, and get it applied to our own cases.

Spread the word far and wide! Get yourself onto *your* next step on the Grade Chart. Learn the tech and use it.

And for all the incredible gains and skill Ron's Grade Chart has to offer, take that next step at Flag.

Start today!

Real miracle results!

Faster, simpler training!

The Incredible Wins of NEW ERA DIANETICS applied to Flag Standards!

ONE OF THE biggest wins for me was the eradication of pictures and incidents that kept returning session after session. Every time we would go after say, apples, these particular pictures would come up. This has been going on for years. It got to be a drag. Well, with New Era Dianetics, they totally erased, they are completely gone.

There were aches and pains having to do with the back and kidneys. These are all gone, no longer there.

"With New Era Dianetics there is real certainty you've got that particular thing totally handled."

I had a heart attack a year ago last July. I lost two-thirds of the heart. The danger of another heart attack was forever hanging over my head. With New Era Dianetics that just went "pop," you know — bye-bye. I know with certainty now that I'm not going to have any heart attack.

There was also a scene on study which I've had since 1964. I've tried everything in the book to handle it but it never got resolved. Until New Era Dianetics came along. New Era Dianetics found the things on study that were knocking me off my feet, got them, and erased them. Now I can study!

— B.P.

ANY SINGLE person can do the New Era Dianetics Course and should. It's so short and gives a skill that is so valuable. I'd say New Era Dianetics is 75 per cent simpler to apply and get results, *and* be perfect and flubless right away. You produce results which gives you more confidence as an auditor and as a being.

The auditing is geared to contact the pc where he's at, so it is very easy for the auditor. This tech will truly make a person a Dianetic Clear.

I can see that New Era Dianetics is going to make this a Clear planet faster!

— J.V.

I DID THE HSDC, Senior HSDC and was on the Dianetics Interneship when New Era Dianetics came out. I switched to New Era Dianetics. So I have a good viewpoint on how things changed and why. It's great to see how it fits and the way Ron did it. He made it much, much more certain that everything is handled, nothing is left over.

The course is a much more compact, A to B course. It has only that data which is necessary.

With New Era Dianetics, my co-audit pc had her greatest win ever, in many hours of auditing. Another pc had a thing that had been going on for hours and hours. After just three New Era Dianetics sessions, it was totally handled.

My previous training was good, but compared to my Flag training on New Era Dianetics it falls into nothing. Here all the tiny things are picked up, the kind of things which can make or break a session.

— G.A.

I HAD A SESSION on a secondary (loss). Before the session there were all kinds of weird things happening that I hadn't attributed to the incident. It was horrible. Things weren't going right, my attention was not in present time to a large degree. Then I had some New Era Dianetics. After that session, things just started going right and they've been doing well since.

— B.R.

"The checksheet is rapid and spot-on, totally simplified, totally exact."

I HAD DENTAL WORK done. After the last couple of visits to the dentist there was a constant thing in my mouth which I didn't realize was there. I've had auditing on various things with my teeth and mouth without resolve. But after just the first flow of New Era Dianetics auditing, there were so many things handled, things that just weren't there any longer which I hadn't even known were there. The way the New Era Dianetics commands work, they pinpointed, and got me to pinpoint, every specific little item about this thing. After the other flows had been run, there was nothing left about it, nothing regarding that aspect of this body existing any more.

— J.V.

WHEN I GOT onto the New Era Dianetics Course and saw how dynamite this stuff is, I was really thrilled. It is a really intense, powerful but very theta auditing. The course is really fast because it's all fast flow. (I did it

New Era Dianetics Wins

(continued from page 15)

in 8 days.) The checksheet is rapid and spot-on, totally simplified, totally exact.

Anyone who has done Dianetics before can do the course really rapidly, and even if a person hasn't it's put so succinctly that he'd just sail right through it. The practical drilling is really tough, fast and flawless. It's easy to get the hang of it and go audit it.

You co-audit on the checksheet, so every New Era Dianetics auditor actually gets subjective reality on it.

Doing New Era Dianetics at Flag is great. You are surrounded with so much tech certainty. You get right into present time as far as training goes. I've looked at everything I've read in a new unit of time. I had a lot of stable data shaken up but then got new ones and was a long way ahead. I'm not willing to train anywhere else now!

— B.E.

I WAS DOING my Drug Rundown and now it has been picked up with New Era Dianetics. It took one area I had a lot of non-confront on which I wouldn't have listed if it hadn't been picked up with the new methods. It pinpointed and listed the exact emotions. And I *had* to list it. I ran it and it was the best session I've ever had!

— S.O.

I WAS GOING TO do the Expanded Dianetics Interneship, but when New Era Dianetics came out I had to go onto the New Era Dianetics Course, and took a bit of a loss at first. Then I did the course and I couldn't believe it! There is no way it would be worth it going back as an Expanded Dianetics auditor without New Era Dianetics under my belt! Without New Era Dianetics, Expanded Dianetics can't be fully applied. When I studied the New Era Dianetics materials I could totally see why the rest of the Grade Chart won't go in standardly without it.

New Era Dianetics is easy for an auditor to learn and apply. The areas you get into are totally correct for the pc, and New Era Dianetics really handles them, erases them. The successes are just phenomenal.

Recently I audited a woman on an assist, with New Era Dianetics. In her success story she said that something she came into Scientology to handle was handled on the assist. It was totally handled, not just handled to where she felt good about it and keyed out, but totally handled so she knows it will never, never bother her again! It was phenomenal!

I'm very glad I did my New Era Dianetics training at Flag. It's funny, because Flag training isn't special when you look at the materials, the HCOBs. It shouldn't be any better than anywhere else, but it is. The reason is that it's totally on-Source at Flag. 100 per cent HCOBs, no verbal data, no invalidative corrections, no arbitraries. Just HCOBs, HCOBs, HCOBs. There is no room for any departure from standard tech. That's why Flag training is so smooth, and Flag is a really safe space to be.

— S.G.

THE DIFFERENCE with New Era Dianetics is you feel much more clean on each cycle. There is real certainty there that you've got it, that you've got that one particular thing totally handled from every viewpoint, from any way you look at it. it's great!

— J.G.

I HAD ONE operation which had been audited for many hours over six years. I would have wins, but I had recurring somatics in the area where I had the operation; it never totally blew. I would run it, then it would come back — almost invariably within a day after the session just to let me know it hadn't gone. My New Era Dianetics Course twin ran the somatic out narrative. It took about three hours. For the first time I experienced three dimensions in a picture, I experienced color, I experienced sonic. But the biggest thing of all that I discovered about this incident — which was why it never blew — is I never needed the operation in the first place. That was part of the verbal dialogue that the doctor was giving during the operation. "Whoops! He didn't need it." And that just blew it. Since then I haven't had any recurrence of the somatic.

— M.M.

IN RUNNING New Era Dianetics, I located things that had bothered me for a long, long time, and continued to bother me. With New Era Dianetics I've run them out and I *know* that they're not there any more. It's not like, "Well, I feel good about that. It's a nice key-out." It is *not* a key-out; it's totally *vanished, erased.* I know the things I'm running on New Era Dianetics are *handled.*

— S.G.

Universes

(continued from page 8)

minds get straightened out.

I wouldn't say that they would feel better if their physical universe got straightened out and they could walk on ceilings. I wouldn't say they would feel better running doll bodies or robot bodies than they do running human bodies. (I personally believe they would feel better but that is a matter of opinion.)

We come back to the one positive thing that you could address and that is the capabilities of the individual himself and those things which impinge most closely upon him: his ideas, his experiences, the illnesses which he is unwittingly packing around infecting himself with, the insanities that he held close to his bosom lord knows how long ago but now has no further use for. You will find he is in considerable dissatisfaction with all of these various things.

His condition of body stems from his condition of mind. And his ability to observe the physical universe stems directly from his own concept of the first universe and his ability to conceive and create.

We are basically interested then, in this second universe. We can know this most easily. We can take it apart most readily and by doing so we can graduate upstairs to a point of knowingness on the other three universes.

So our immediate focus of address is upon this second universe, the universe of the mind.

The article "Universes" by L. Ron Hubbard is taken from the lecture of the same title given on 7 April 1959 to the Special Hubbard Professional Auditors Course. The lecture is available on reel-to-reel tape, including on the second side of the reel the lecture "Beingness and Communication." You can obtain both lectures by ordering reel number 59SHPA 1/2 from the Flag Land Base Bookstore whose address is on page 2. Price is $50.00 for two lectures, one reel. Membership discount applies.
