You are invited

...to discover what flawless, 100% standard Flag Auditing can do for your case!

Ron once said in a talk to Flag Internes, "The first principle on which we operate is that Flag Auditing must be absolutely flawless, completely flubless. There is no such thing, you say, as an absolute. There is one exception: Flag Auditing."

Quite frankly, Flag auditing (spiritual counselling) is the best there is.

Flag auditors (ministers) are smooth and flawless auditors. They *know* their business cold. They instantly pick up and *handle* things that come up in session.

And the case supervision . . . well, the *best* Flag auditors go through tough training and interneships to learn their specialized skill.

Of course, only the Flag HGC has the highest trained auditors and case supervisors in the world – the incredible Class Xs, XIs and XIIs!

Every aspect of the Flag Land Base is geared to *your* achieving full gains in a minimum of time, from the distraction-free environment to the comfortable accommodations.

You get the kind of case gain you want, and you experience gains far above anything you have ever experienced before. It's the best there is – Flag Case Completion Auditing.

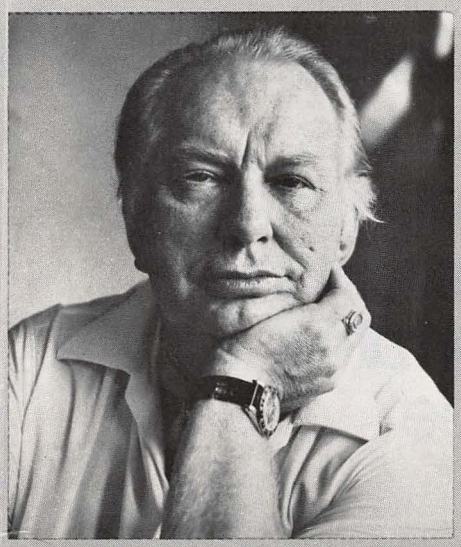

"Case Completion" is a name coined by Ron. It completes a person's case and it has the end phenomena of giving a person all the abilities gained and inabilities lost of every action he has ever been audited on. One gets the full end phenomena of every Grade Chart step. It can include further Grade Chart auditing if you want.

It isn't a special process that makes up Flag Case Completion – it's the full and standard application of Dianetics and Scientology tech – *to Flag standards.*

There are *no* prerequisites to Flag auditing. Anyone may come to Flag for auditing regardless of case level. Anyone who wants the very best *should* come to the Flag Land Base!

For more information or to advance schedule for your auditing, contact the Flag Land Base Letter Registrar, or contact your nearest Flag Service Consultant direct at your FOLO. Addresses are on page 20.

Code of Honor

BY L. RON HUBBARD

WHAT ARE Morals and Ethics? Morals and Ethics are entirely separate subjects, they are not even interrelated.

In this decadent age, you'll find the dictionary says, "Ethics" . . . a big learned statement, a terrifically learned dissertation . . . . with one word sitting there, "Morals". So you go to "Morals" and there is a terrifically learned dissertation there saying "Ethics". When two words are being defined one against the other and then back again you can conclude that nobody has ever figured them out. Well, it's that way with Morals and Ethics.

MORALS

Morals is not based upon reason, honesty, or good behavior. It is based upon the fact that something, sometime or other in the history of the race, has been inhibitive to survival. And the powers that be at that time and their successors adjudicated the fact that it ought to be impressed upon people that they shouldn't do it, so they say, "If you do this, something bad will happen to you." They don't explain *what* is bad about it. They just say, "Don't do it. It's immoral." And that ends the whole argument.

If you go into any moral code you can trace it down to it's reason, it's cause, and find out exactly how this action inhibited survival. Any action gets adjudicated as immoral when the action may be apparently pleasurable but experience has taught that this apparently pleasurable action actually contains much more pain and destructiveness than it does pleasure.

ETHICS

Something that is Ethical is reasonable or reasoning action or a reasoning behavior which promotes the maximum survival on all dynamics. Ethics is intimately concerned with survival. It is a survival action.

SEPARATING ETHICS AND MORALS

If you separate Ethics and Morals, you begin to see some reason.

Your poor befuddled teenager grows up in the schools with no one telling him anything about Ethics. No one tells him anything about his own survival or his responsibility to the race or anything else. But somebody comes along and tells him something is immoral and he mustn't do it because it is wicked. He isn't given any reason but is told, "This is against the law, this is immoral," and that's the end of it. His response is, "Gee, I have to find out about it." So he flounders around through his teens.

The teenager doesn't have any definition, so he can't *think* about this. And nobody is *asking* him to think about it. They are just telling him, "This is immoral, wicked and bad." And then they tell him something very strange, that he really can not believe; "You'll go to hell if you do this." He says, "I wonder where hell is? How do you get there?" In other words, he is completely unimpressed and is being enforced upon without reason so he becomes unreasonable himself. He has been restrained by something he cannot understand.

MORALS: 80% DEFUNCT

Fully 80% of existing moral codes today are defunct and yet they are still enforced.

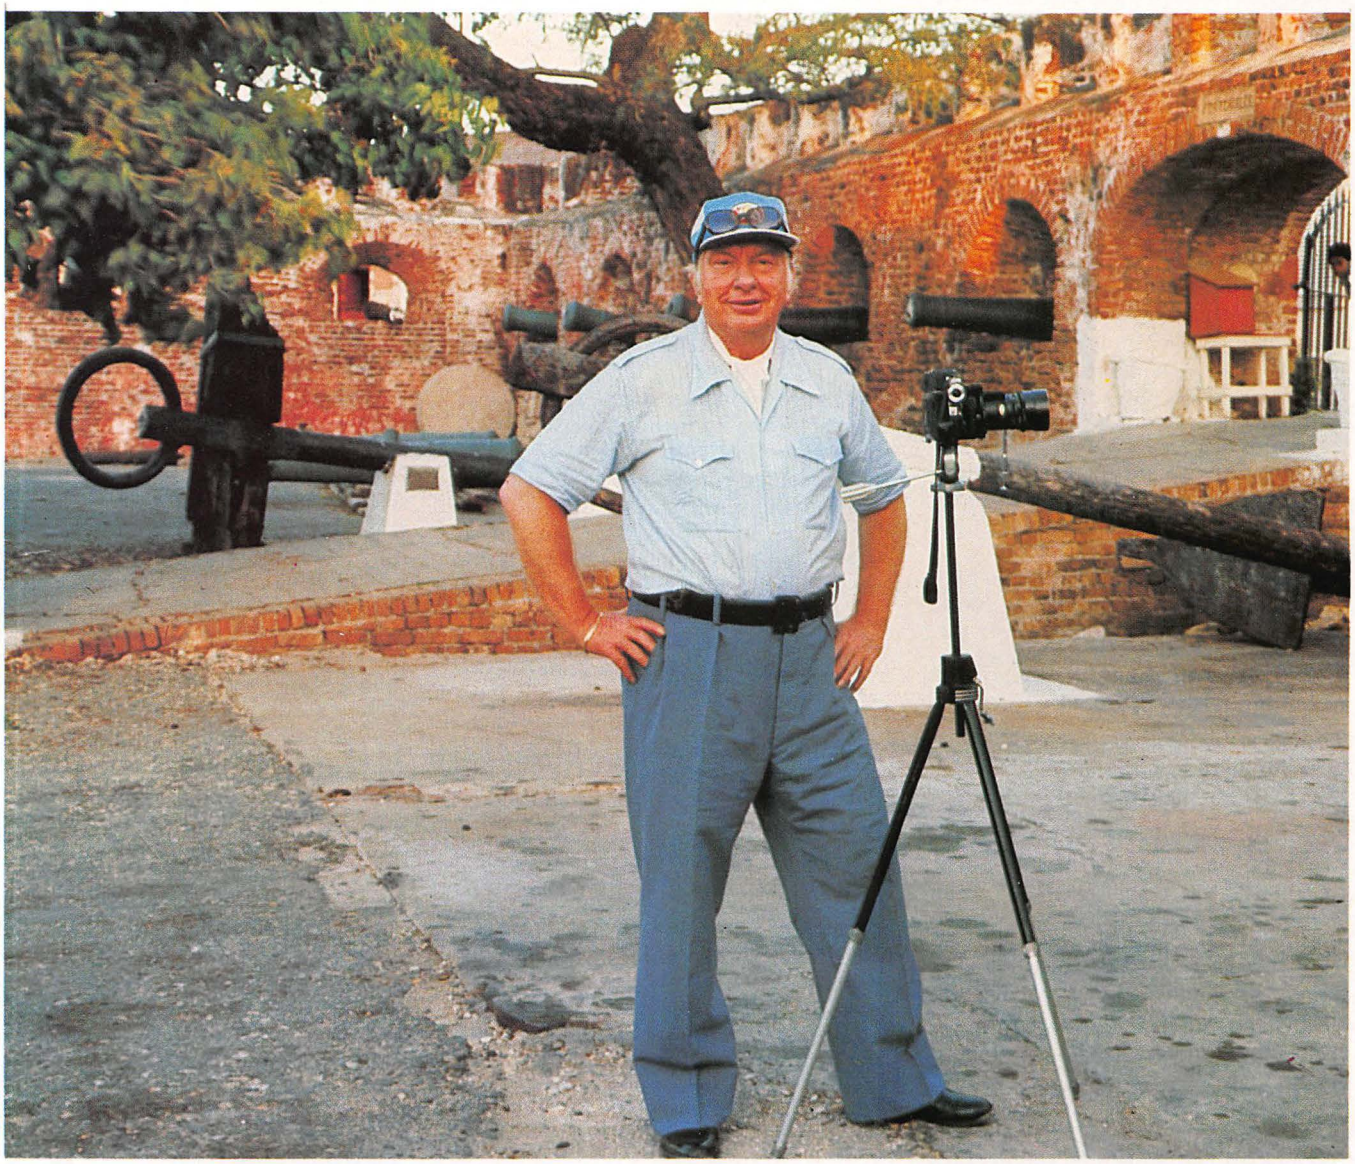

People recognize that these are no longer valid rules of conduct, and recognizing this, say, "Why should we have anything to do with them?" The second they say this, somebody comes along and tells them something awful will happen to them and they are now immoral and society will have nothing to do with them. Nonsense!

The end result of an arbitrary code is to make people bad, make them antisocial and put them beyond the pale.

SEXUAL MORALITY

I'll give you some very interesting data on sexual morality.

Sexual morality came about only secondarily to safeguard parentage or to keep inviolate the home. It came about primarily because one of the seven plagues of Egypt was venereal disease. A lot of people were pretty bad off when they got out of Egypt. They didn't have anybody down the street with a penicillin gun to help them out. There was no cure except abstinence so

the fathers of the tribe said, "Sex is wicked. No more sex. Women have to be virgins at marriage." In other words, how do you handle venereal disease? They didn't have a reasonable answer so they just prohibited it. And now, three thousand years later, with penicillin and all the rest of the cures, we still have sexual morality.

Nobody is arguing in favor of sexual immorality or promiscuity, but to tell some young girl that she is forevermore lost to mankind because somebody seduced her is being just a little bit too nice.

You go into your schools and talk to the girls on the subject of sex and you will find most of them consider themselves utterly lost and bad, with something terrible they have to hide for the rest of their lives. This puts them out of communication with the rest of the race.

CRIMINALITY AND PRIDE

All you have to do to make a bad human being is to convince them they no longer have sufficient personal pride to be good. And if you can convince them that they are bad, they have lost their personal pride. The only reason people are in prison is because they have lost their pride. You can trace any criminal that you pick up to the moment when he became convinced of his own volition that he was worthless and no good.

It could happen like this. One day a fellow is running down the street and sees a little kid with a dime. He knocks this little kid down in taking the dime. He is going to play with him, then the little kid antagonizes him in some way and it all of a sudden comes over this guy that he must be pretty bad to be taking a dime away from some little kid. At that moment some kind of old incident, some facsimile of great pain suddenly keyed in saying he was no good. He has apparently demonstrated it to himself that he was no good.

Is his course from there on never to take money away from small children? No, it is not. He is convinced he is absolutely no good, he cannot trust himself anymore. He is worthless and as far as he is concerned it is useless now to be further concerned about his own honesty.

When you get the individual in that position he is thereafter criminal. All he loses is his pride. But all you've got to lose is your pride and belief in your own beingness, and when that is lost completely, you are done.

Thus it so happens that the reverse effect of most of the cant about morality is to make criminals. If people would just lay off it a little bit, you

would probably have man settling back to normal and being in a pretty good condition in regard to his fellow man.

It is as though some of the moral codes that we inherited today were tailor-made to damn the individual man just as viciously as if somebody sat down and figured out how to brainwash him.

By the way, this is no slam at religion. Religion doesn't happen to be much the source of morality. It is the Third Dynamic (groups) that has created Morality and Immorality. It just happens that it is easily enforced on the religious line. But it was created in the MEST universe line by tribes and the groups.

Morality was an effort first to make the group survive and then later on became an effort to control the group, to inhibit and restrain them.

The funny part of it is that the harder you restrain a man and the more you convince him he's no good, the more no-good he becomes. He does the dreadful thing of agreeing with you.

Morality, as a system to make men good, has not kept man from making an atom bomb and indulging in war.

ETHICS

Ethics, on the other hand, *can* make man good. It tells a man he has a responsibility that concerns the survival of himself and others and that ethical conduct is not simply that undefined word "honesty". Ethics is reason. What is reasonable is survival, and whatever is reasonable survival is ethical.

The basic intent of the individual is in the direction of a code. It is a code that doesn't really need to be written because it is inherent in the individual. The unaberrated individual follows this code instinctively. The proof of this code is that every time and every place it has been violated is an aberration for the individual.

The more a person breaks the code, the less self-determined he is, and the less self-determined he is, the more he will break the code. It is a dwindling spiral of aberration and ill-health.

The knights, when they were galloping around the countryside rescuing fair maidens, had codes by which they lived. They took vows to follow these codes. But that is certainly putting gilt paint on the lily because the code is there *natively.*

Where an individual isn't living by this code he is pretty badly aberrated. If you educate him to live by this code you can raise his tone.

You can pick up all the times in an individual's life when he has violated each clause and you will find each one of them is aberrative and he has been worried and upset about it since. And it's not because somebody is going to punish him, but because it was untrue to his own self-determinism.

CODE OF HONOR

1. NEVER DESERT A COMRADE IN NEED, IN DANGER OR IN TROUBLE

Just never do that. It is not only nonsurvival for comrades, it is very nonsurvival for you.

2. NEVER WITHDRAW ALLEGIANCE ONCE GRANTED

It is ten times worse to be a backslider than to never have been part of a group. This is the situation where you grant allegiance — make a postulate that you are going to have allegiance — to a group, an entity or a god and afterwards decide you are not going to. The person who never made the postulate, of course, isn't trying to overcome a postulate. But the person who says, "I am now a true son of the church," then a few years later discovers he is *not* a true son of the church, and doesn't want to have anything to do with the church any more, really goes to the devil. The only thing that is making him go to the devil is his postulate to be part of that group. So, it's much worse to be a backslider than never to have been at all.

3. NEVER DESERT A GROUP TO WHICH YOU OWE YOUR SUPPORT

A person sometimes has to differentiate what group he's supposed to support and how wide that support is and what these elements are. But a person who deserts a group will show up on an E-Meter, even if he deserted that group 1000 years ago.

4. NEVER DISPARAGE YOURSELF OR MINIMIZE YOUR STRENGTH OR POWER

No matter how much other people would like you to believe that this is the way to be polite, the way to win friends and influence people, I can guarantee you that minimization of yourself, your strength and power is the fastest way in the world to make enemies. And be torn limb from limb. It says, "I'm weak. Come on boys, go ahead, knock me flat! I'm nobody."

In the most decadent societies, the oldest and most tired societies, you find that the minimization of one's strength and power is the order of the day. The Japanese says, "I withhold my foul breath from your face. This unworthy one would like to say to glorious you, that in his humble and ignorant opinion . . ." This is chatter! Where are these people on the tone scale? They are almost dead.

Back before Christ, if you were to ask a German knight, "Come on, admit it. You aren't the strongest knight in five tribes around . . ." he would probably have taken his battle axe to you. You had insulted him. By the way, the German tribes were almost unaberrated. They had terrifically high self-determinism, and were very powerfully minded people. The Romans were strung along the Rhine trying to hold them down. Some German knight would ride back and forth and announce that he was the strongest, the most powerful, the best, he was worth any 180 Romans. They would send 180 Romans so they could eat him up and he would eat *them* up!

These tribes suffered, when they suffered at all, because of tremendous individualism. They would not hang together as political entities to fight Rome. Rome was very down tone scale but it had it's good organized marching legions and, as a result, could hit a solid blow into the thin individualistic tribe-coalitions.

If you want to lick the German nation, get in there and make it the vogue to negate self. Tell them this is the "polite" way to live. Tell them not to blow hard about what one can do, not be egotistical, always listen to the other fellow say what he can do. If you could do that, you would fix the German nation so you would never have any more trouble with them.

By the way, an actual clinical checkback on the processes of the "how to win friends and influence people" type show that this particular attitude towards life is the most certain way to make an individual sick and hated. It says, "Go into ARC with everybody you meet, regardless of where he is on the tone scale." That's a great trick! How sick do you want to be?

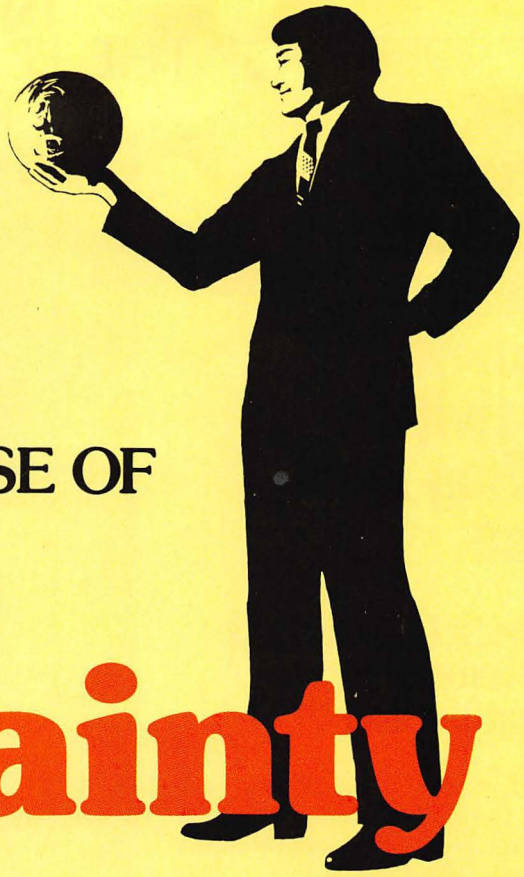

5. NEVER NEED PRAISE, APPROVAL OR SYMPATHY

But never need praise or approval. People have an awfully hard time trying to figure that out until they find out *why* they had to have praise and approval. Praise and approval are licenses to survive. An individual would have to be down tone scale and non-self-determined indeed to go around and ask other individuals, "Can I survive?"

6. NEVER COMPROMISE WITH YOUR OWN REALITY

If you think it is real, it is real. Do not ever compromise with it. If somebody else comes along and says, "Well, it's not real actually. On page 64 of Professor Wittebunk's cranium depository system it says there that they are hallucinations and illusions . . ." and you say, "Anybody who could be that confused must be right", you would be compromising your own reality. It is a mighty tough thing to tell somebody who was very circuit-determined

THE DYNAMIC FLAG RUNDOWNS

Because of the very precise auditing required the powerful Flag Rundowns — L-10, L-11 and L-12 — are available only at the Flag Land Base.

It takes the skills of the world's highest trained auditors to deliver them, the famous Flag Class Xs, XIs and XIIs.

Flag Rundowns came out of Ron's researches into levels above OT VIII! But you don't have to be OT to receive the L-Rundowns!

If you are not yet OT, the rundowns will greatly accelerate your progress up the Bridge and help you achieve marvelously expanded OT gains while you are on your OT levels.

The OT will find his OT abilities greatly expanded!

A being is as OT as he can cause things. So powerful are these rundowns, they bypass the normal protective mechanisms of the reactive mind and remove ***spiritual*** blocks to OT power and ability. They put the being at CAUSE, with full CERTAINTY of his or her beingness and abilities!

Set-up auditing (preparatory actions) are usual for the Ls. These ensure you receive all the gains from the powerful rundowns. Set-ups time varies but you can expect 12½ to 25 hours at usual Flag HGC donation rates.

L-10

"IT DOES NOT SUPPLANT OTHER PROCESSES OF THE GRADE CHART. IT WILL MAKE THEM EVEN MORE EFFECTIVE LIKE A BOOSTER . . . THE BASIC TECH COMES FROM RESEARCH INTO INCREASING OT POWERS . . . IT KICKS GENERAL ABILITY, PERCEPTION AND MEMORY UP THROUGH THE ROOF IN ADDITION TO OTHER THINGS." — L. Ron Hubbard. L-10 handles the reasons a person withholds himself, or restrains himeslf from action; reasons which are senior to the reactive mind. After L-10, the being knows the source of power in his universe and is truly free to use that power!

L-11

"TO BE RID OF ABERRATIONS IS TO HAVE A *NEW LIFE.* IT NEEDS REAL FLUBLESS AUDITORS. THE RESULTS ARE SMOOTH. JUST CALL THIS THE NEW LIFE RUNDOWN. IT GIVES A NEW LIFE IN TRUTH! WHAT'S THAT WORTH?" — L. Ron Hubbard. L-11 consists of six actions that zero in on and handle the major source of illogic and restraint for the individual, leaving him with a new life before him! One approaches life newly with a feeling of great adventure!

L-12

" . . . THE MOST STARTLING BREAKTHROUGH IN AUDITING SINCE '67 (the year OT III was researched)." — L. Ron Hubbard. Three very powerful actions — each one with it's own tech — handle very fundamental aspects of a person's beingness, those things which can hold his attention and keep him from fully participating in life and doingness. L-12 might be described as causing a shift in, and blowing of, the deepest unwanted personality traits which are not even known to a person. It gets the deep-down rooted things that make existence seem a certain way. It causes more change at a higher rate than any other auditing.

For more information on the Ls, or to sign up in advance, write the Flag Land Base Letter Registrar, Dept S10, or contact the Flag Service Consultant direct at your nearest FOLO. Addresses are on page 20.

Donations: The first 25 hours (minimum) for each rundown is $7500. If further hours are needed, they are at $3750 per 12½ hour intensive.

Dianetics Number One celebrated with May 9 festivities at Flag Land Base

Hundreds of Scientologists toast Ron and his brilliant Bestseller

Dressed in colorful and flowing semi-formal gowns for women and suits for men, hundreds of Scientologists filled the huge, colorfully festooned Flag Land Base auditorium to celebrate the 27th Anniversary of the publication of Ron's Book One *Dianetics: The Modern Science of Mental Health.*

The celebration had double meaning and a really great cause for the tribute to Ron, for, as huge yellow banners proclaimed, "DMSMH Number One on the BESTSELLER'S LIST"!

On it's 27th Anniversary, *Dianetics* is yet again on the Bestseller's List and at *Number One* besides!

A LIVELY EVENING

The lively evening began with a program of celebrity entertainment and speakers.

Geoff Lewis, well known actor and entertainer flew in from Los Angeles for the event and delighted the audience with a series of humorous and entertaining sketches designed for Scientologists.

DIANETICS NUMBER ONE ANNOUNCED

Sandra Johnson, Commodore's Staff for Promotion and Books, enlightened the audience about the early history of DMSMH and gave a behind-the-scenes look into the book publishing world and the significance of the position of DMSMH on the Bestseller's list. She read a letter from an executive of the leading Southern California bookstore chain which stated, " . . . for a book that is 27 years old to go back on a bestseller list and then hit the number one position is uncommon, if not a first . . . "

Commodore's Staff for Promotion and Books, Sandra Johnson, presented a beautiful plaque to Ron which was accepted by Deputy LRH Personal Public Relations Officer, Liz Gablehouse. The plaque, from the largest West Coast Trade Book Distributor, reads, "DIANETICS, THE MODERN SCIENCE OF MENTAL HEALTH, NUMBER ONE BEST SELLER, To L. RON HUBBARD on the Anniversary of the 27 year bestseller. 1977, Ingram West."

Sandra's talk was climaxed with her presentation to Ron of a beautiful plaque from Ingram's West (the largest West Coast Trade Book Distributor on whose list DMSMH is number one). The award, accepted on Ron's behalf by Liz Gablehouse, Deputy LRH Personal Public Relations Officer, read;

"DIANETICS, THE MODERN
SCIENCE OF MENTAL HEALTH
No. 1 BESTSELLER.
To L. RON HUBBARD
on the Anniversary
of the 27 year bestseller
1977 Ingram West"

Liz then read a special exciting Message from Ron to all party attendees and was joined by the hundreds of Scientologists present in a stirring toast to Ron.

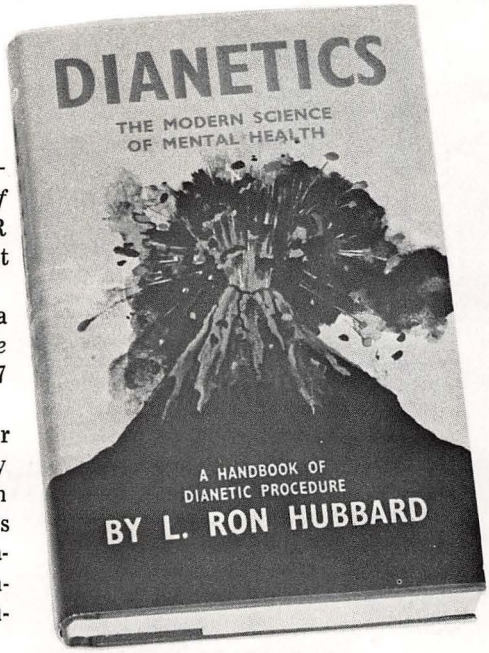

A fun and rousing musical tribute to DMSMH was performed by a group of Land Base musicians and singers.

After the program, the party continued with a delicious buffet of finger sandwiches, nuts, fruits and an assortment of foods.

The immense Anniversary Cake, decorated as a full color replica of the DMSMH cover, was cut and served.

And, of course, dancing went on into the night to recorded music and an exciting impromptu band. ■

NEWS ABOUT RON

BEST-SELLER! 1950-1977

In April of 1977, Ron's Book One — *Dianetics: The Modern Science of Mental Health* — soared to NUMBER ONE BEST SELLER on the US West Coast!

As far as can be determined it is a FIRST, for a non-fiction book to *move back* to a BEST SELLER LIST 27 years after publication!

Yet this count for the Best Seller list does not even include the many thousands of DMSMH books sold each week through Scientology Churches and missions. The NUMBER ONE rating reflects solely the sales of non-Scientology bookstores and distributors!

DMSMH is just one of the many books Ron has written. Such is the demand for his Dianetics and Scientology books that Ron is the *only* author with two full time publishing houses, one in the United States and one in Denmark, devoted exclusively to his works!

Ron has been making history for years with his honest, straight-to-the-point actions and viewpoint. Here he has again set a record!

DIANETICS: The Modern Science of Mental Health was first published in 1950 and released to a startled public on May 9th of that year. The book immediately rocketed onto the New York Times' Best Seller list, and stayed there month after month after month! "Dianetics" and "L. Ron Hubbard" were on the tongues of millions.

Every day headlines filled the press with the latest news on Dianetics. The September 7, 1950 Los Angeles Daily News read: "DIANETICS: Husbands are auditing their wives; neighbors form discussion groups." The article continues; "Dianetics clubs blossomed like wild flowers in the spring, organized by people who merely had read the book, *Dianetics: The Modern Science of Mental Health*, urgently recommended to them by other people who had read the book."

Although Dianetics was "new" to the broad public, it was in fact the result of many years of intensive research and investigation by Ron into the mind and life.

Ron had spent many years in his early manhood travelling in the East where he had a first-hand look at the wisdom, philosophies and practices of the East.

Ron was also educated in the West in the scientific research methodologies. He brought the wisdom and beliefs of the East under the technological approach of the West.

In his search for the common denominator of life, Ron conducted several expeditions into relatively unexplored areas in order to study primitive cultures.

There are few corners of this world Ron hasn't explored!

By 1938 Ron had discovered the common denominator of life. This was expressed as "THE DYNAMIC PRINCIPLE OF EXISTENCE IS: SURVIVE!"

In 1938 Ron wrote a still-unpublished volume, "*Excalibur*", one hundred and twenty-five thousand words long, which was a summation of life based on his analysis of the state of Mankind.

In 1945 Ron took advantage of an opportunity to examine and help men wounded in World War II. In working with men whose conditions would not change in spite of indicated medical help, Ron proved that the medical treatment would become effective when mental blocks of the patients were located and alleviated.

In late 1947 Ron wrote *Dianetics, The Original Thesis* and distributed copies of the manuscript to medical and psychiatric associations and many individual practitioners. It was widely used and today there are still copies to be found in use. The work was later published in book form in 1951.

Through word of mouth, interest in Dianetics spread fast. Ron was soon besieged by letters and requests for clarifications and advice. So heavy was the flow that it began to threaten his research time. What was needed was a popular text on Dianetics to answer all questions. A publisher was anxious to publish such a book, on one condition: the manuscript had to be delivered in six weeks.

The book was written in six weeks!

180,000 words of breakthrough, *Dianetics: The Modern Science of Mental Health* exploded onto the book lists in May 1950 like a roman candle of life and hope. It shot straight to the top of the Best Seller Lists, and stayed there.

For the first time in history an operator's manual of the human mind was available! The demand for DMSMH and Dianetics itself was overwhelming.

DMSMH has remained a best seller now for twenty-seven years. We have lost track of the count of books sold but it numbers far into the millions. And the demand continues and grows with each passing year!

There are millions of people all over the world today whose lives have been saved or changed as a direct result of Ron's work. There are Dianetic and Scientology groups, missions and churches in over fifty countries. DMSMH has been translated into seven languages and others are currently being translated.

It is a fitting tribute to Ron and to the workability of Dianetics that DMSMH is, in it's 27th year, NUMBER ONE!

PEOPLE AT THE FLAG LAND BASE

Debbie Butler and Gayle Kitching, both on training at the Flag Land Base enjoy the view from the 10th Floor balcony during a course break.

"I never considered there was any other thing to do in Scientology than be an auditor. As soon as I found out what Scientology was back in 1974 I decided to be an auditor." explains pretty and charming Debbie Butler from Riverside Mission in California.

Debbie is at the Flag Land Base enjoying (and working hard on) Flag Training Courses and Interneships. She has completed the Flag Dianetics Interneship and is presently on the Academy Levels 0-IV training. She will be completing through the Class 0-IV Interneship during her stay at the Land Base.

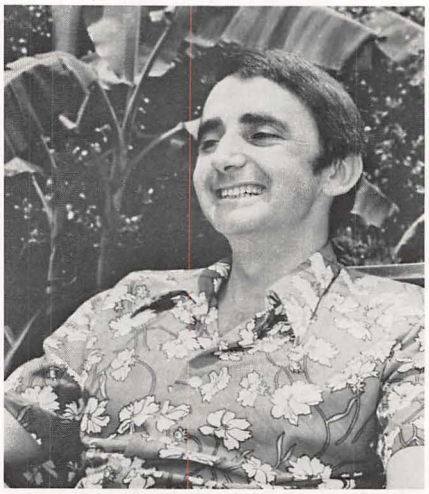

Debbie was very impressed with her Dianetics Interneship. "Having completed an interneship elsewhere, I'm well acquainted with the lines and speed of delivery of earlier interneships. This interneship has been the fastest, highest technical standard, most A to B training cycle I've been on. The supervisor is excellent. I really appreciated the excellent word clearer, and overall, help was always available, It is truly a line-up set up to deliver."

Debbie chose to do her training at the Flag Land Base because, "It is the very best, of course. I decided that I might as well train to the best quality possible, first time around. And I knew this was the place to get the best."

Debbie believes that *everyone* should get trained. "I really can't imagine moving up in Scientology without the knowledge of what is happening in auditing. You are missing so much of the Scientology data and technology that is available only on the training courses. Plus the skill in handling your own life is just tremendous, and invaluable. I have had just phenomenal gains from my auditing, but I would say my gains and wins from training and applying the data are far greater!"

Peter is the Director and part owner of an Investment company and real estate agency in Sydney. Under his leadership, this company has in just a few years become nearly as large as the head office. He employs Scientologists of course. Peter attributes the success to the use of Scientology tech in his work.

Being in real estate, you can guess from what viewpoint Peter looks at the Flag Land Base! That's right, as real estate. "The hotel is the landmark in the area, an 11-story building with surrounding 2-story cabana motel-style rooms around a large pool.

"The rooms are luxurious with in-suite bathrooms, double beds and daily maid service.

"The meals are delicious, up to first Class hotel standards.

"There is a lovely guest lounge and Director in charge of Recreation.

"But the whole keynote is friendliness, with the staff most interested in your welfare. You get an idea of how Ron wants Scientology to be, that the people here are doing it the way Ron wants it done."

Did you know you do not have to be church or mission staff to do Flag Training and Interneships? And did you know you do not have to be an experienced auditor beforehand?

Bill Gonnsen is a field Scientologist from the Minnesota area who decided to become an auditor, and be the best while he was at it! He wanted "To get total certainty on the tech I'm going to be using."

So, with only the HSDC under his belt, Bill came to the Flag Land Base for the Dianetic Interneship.

Bill raves, "It's hard, but good. It has been an excellent experience. The environment here is non-enturbulative which has made it possible for me to be a real student and get on with things, rather than get stuck in things. The supervision has been outstanding and the word clearing excellent."

Bill plans to work as a Field Auditor in the St. Paul area, then return to the Flag Land Base for the rest of his interneships.

FLAG TRAINING & INTERNESHIPS:

Where Scientology's finest Auditors are trained

WHAT IS THE SECRET of the quality of Flag Training and interneships? Flag has had for years the distinction of being the "Mecca for those who seek technical perfection".

And, of course Scientology's finest auditors (ministers) are trained and interned at Flag.

It goes without saying that Flag Training and Interneships are the best.

But, what is the secret behind this quality?

A HISTORY OF FLAG TECH

As Ron continued his technical researches and developments over the last ten years, Flag Technical and Qualifications Divisions assisted him as the "testing ground" for piloting and researches.

Here are some of Ron's *major* breakthroughs and developments with which the Flag Technical and Qualifications Divisions assisted. (To cover *all* of Ron's breakthroughs over the last 10 years would take pages!)

1968 – The Original Class VIII Course was given and the famous Class VIII lectures were made by Ron.

1969 – The Standard Dianetics Course and Standard Dianetics pastoral counselling procedures were developed by Ron and piloted on Flag.

1970 and 1971 – Ron released Expanded Grades. Ron did research and development on, and piloted, what was to become L-10, L-11 and L-12. The first Class Xs, XIs and XIIs were trained. Word Clearing was developed by Ron. Quads were developed by Ron.

1972 – Expanded Dianetics released by Ron after successful piloting on Flag. The famous Expanded Dianetics lectures were given by Ron.

1973 – The Introspection Rundown was developed by Ron and released as the breakthrough of 1973!

1974 – The Vital Information Rundown was released by Ron.

1975 – Ron researched and developed the fabulous New Vitality Rundown. The Student Booster Rundown was developed by Ron and piloted with great success at the Flag Land Base.

Most of these breakthroughs are now a part of the Gradation Chart, and are available as standard services at Scientology churches to all Scientologists.

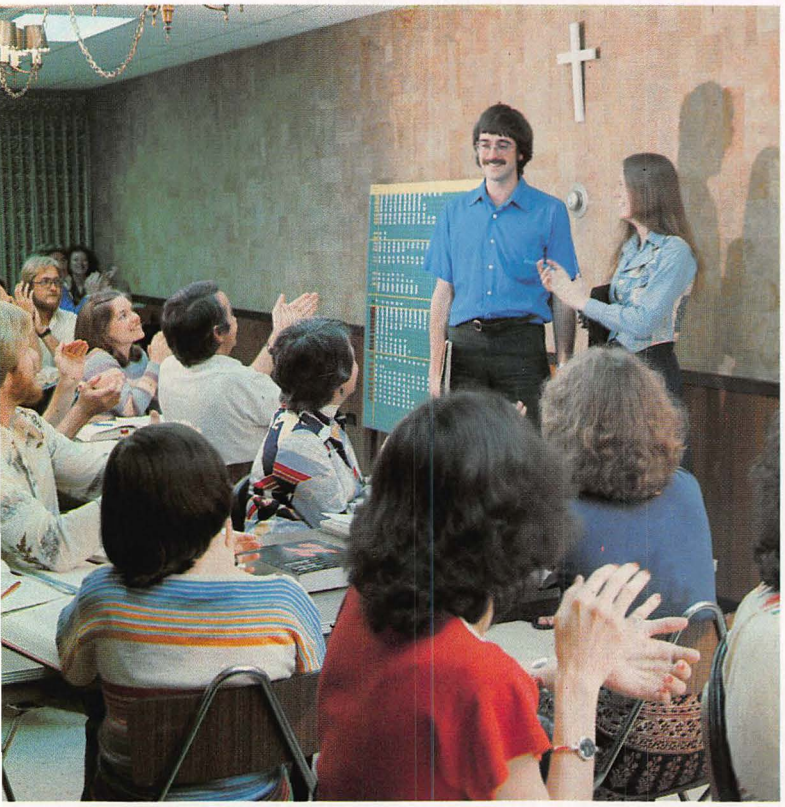

VERY HIGH STANDARDS

Of course it takes a very high standard of technical application, and an environment free of distractions to test a new course or auditing action!

Thus, early on, it was vital that a corps of razor sharp, highly skilled course supervisors, interne supervisors, auditors and case supervisors be estab-

L. Ron Hubbard o

In 1971, Ron "laid it on the line" about Flag Interneships in his lecture "Welcome to the Flag Interne Course." In the article following, edited from the 1971 lecture, Ron reveals the secret behind Flag Interneships and the quality of Flag Tech.

"The first principle on which we operate is that Flag auditing must be absolutely flawless and completely flubless, There are no failed sessions and there are no flubs. This is not done by strain. This is done by excellent auditing presence.

"What is the essential difference between Flag training and other areas? The essential difference is an expectancy that the session will be flawless and flubless as an operating norm, and that it is always this way, never any other way.

"It might look to you like quite a hill to climb, it might look to be totally unreal, or it might look to you like you do that anyway.

"It isn't that you haven't done good work elsewhere, it isn't that PCs haven't gotten well, it isn't that C/Ses have not been happy to have you on their lines. It is simply that you will become a perfect *auditor here.*

"The only way you will ever become a perfect auditor is by auditing. When you get down to basics, you find out that auditors audit. We require that auditors audit flublessly.

"You say, 'Wait a minute. There's something

lished at Flag. And so Flag Technical and Qual Divisions were trained and interned to flawless and flubless technical competence.

It didn't take long for word of mouth to spread the news to the rest of the Scientology world. As early as 1970 Flag's incredibly high standards were known to Scientologists.

Soon, Scientologists – especially auditors who wanted to train and interne to the highest standards – were beating a path to Flag's door to experience the phenomenal wins and abilities Flag tech delivers.

EASILY AVAILABLE TO ALL

In late 1975, the Flag Land Base was established in Clearwater, Florida, putting the famous and much demanded Flag services within the easy reach of all Scientologists!

Add to Flag technical quality the fact that it

Photos, from top left. Your first contact with the famous Flag Technical Division is with friendly Student Admin, who welcomes you to the Division and your course. You might be nervous when you are first welcomed to course but the friendly supervisor and students soon dispel your fears, and you are shortly too busy at study to worry about anything!

you missed there. An auditor gets results.' No, we don't give a darn about your results. We know what the tech will do. That is not under test.

"Can you do it flawlessly, flublessly, by the book?

"You will find out there are no wobbles, no variations. With total application, actually auditing, actually doing the C/S the way it is supposed to be done, then you will see the result.

"We take the result for granted. We know what result is obtainable with what. The C/Ses are hot as pistols.

"The only requirement is, can you as an auditor obtain the result that is required? The result that is required is for you to audit flublessly. You will always get the result if you audit flublessly.

"All of it is very elementary. It is so elementary that is is almost impossible to be grasped. You will probably shed many complexities.

"There is no other way out than as a perfect auditor. And when I say perfect, you want to qualify that: I mean perfect."

(from 'Welcome to the Flag Interne Course' 12 June 71)

was now delivered in a beautiful, safe and luxurious environment and you have a situation close to perfect!

And so the Flag Land Base was established as "The Mecca for those who seek technical perfection."

SAME HIGH STANDARDS FOR ALL

Traditionally, Flag courses and interneships are *standard* and *tough*, or tough until the student or interne realizes he is expected to really get Ron's materials and apply them flawlessly, by the book, and does it.

The same high standards that produce the famous Flag auditors, including the Class Xs, XIs and XIIs who deliver the powerful L Rundowns, are applied to *all* students and internes at the Flag Land Base!

(Continued on next page.)

Word Clearing helps you to move quickly and easily through courses, with full comprehension. The famous Practical Course at the Flag Land Base is by no means quiet! Over here you find the Hard TRs students perfecting TRs, over there are Mood TRs, right up here are the thorough and standard Meter Drills. Every morning you find the internes doing their daily TRs in the sunny, pleasant Interneship space.

THE BEST IN TRAINING

At the Flag Land Base the attitude is the student will understand Ron's materials fully and be able to *apply* them, no matter what the course.

It isn't difficult. The sharp-eyed supervisors catch any difficulties *fast* and get them *handled,* fully *handled.* There is word clearing, drills, simple two-way communication, or if needed, the dynamite Student Booster Rundown.

Students who do well are allowed to get on with it at their own speed to complete courses fast.

INTERNESHIPS – THE KEY TO FLAG QUALITY

Flag Interneships are the real key to Flag technical quality. Ron himself tells you the real secret of Flag interneships in the article on page 10.

THE FULL GRADE CHART

The Flag Land Base is the only place on Earth where the *entire* line-up of Dianetics and Scientology technical courses and interneships are delivered, from the famous Flag Hard TRs Course and Standard Dianetics, through Class XII, including C/S Courses and Interneships. You can go all the way up the Training Bridge to full Flag competence as a Class IX. (Class X, XI and XII are available only to Flag Auditors.) Or, you can come to do just the popular Flag Hard TRs Course as have many Scientologists.

THE SECRET

As you have probably guessed by now, the secret of Flag training and interneships is the ruthless, flawless, flubless application of Ron's tech to 100% standards!

It is nothing less than the 100% understanding, 100% perfect application that are the norm.

Flag Training and interneships might not be too easy, but when you graduate from a Flag training course or interneship you know you've really made it, with 100% certainty on your ability to apply Ron's technology!

Expanded Training Line-up goes in at Flag Land Base

In his famous HCO Bulletin of January 24th of this year, "Tech Correction Round-up", Ron called for the expansion and revision of some auditor training levels.

Many hours of research and work went into this. At this writing all revised checksheets for all levels are completed and released!

Courses have been streamlined to remove duplication between different courses; some courses have had added to them vital materials; there are a few brand new courses.

It is our purpose here to keep you up to date on all the latest technical developments and refinements with *Source*.

EXPANDED TRAINING LINE-UP

The following outline of major training courses is laid out in the sequence the courses are taken. There is a very brief note of any changes in each course.

WHAT THIS MEANS TO YOU

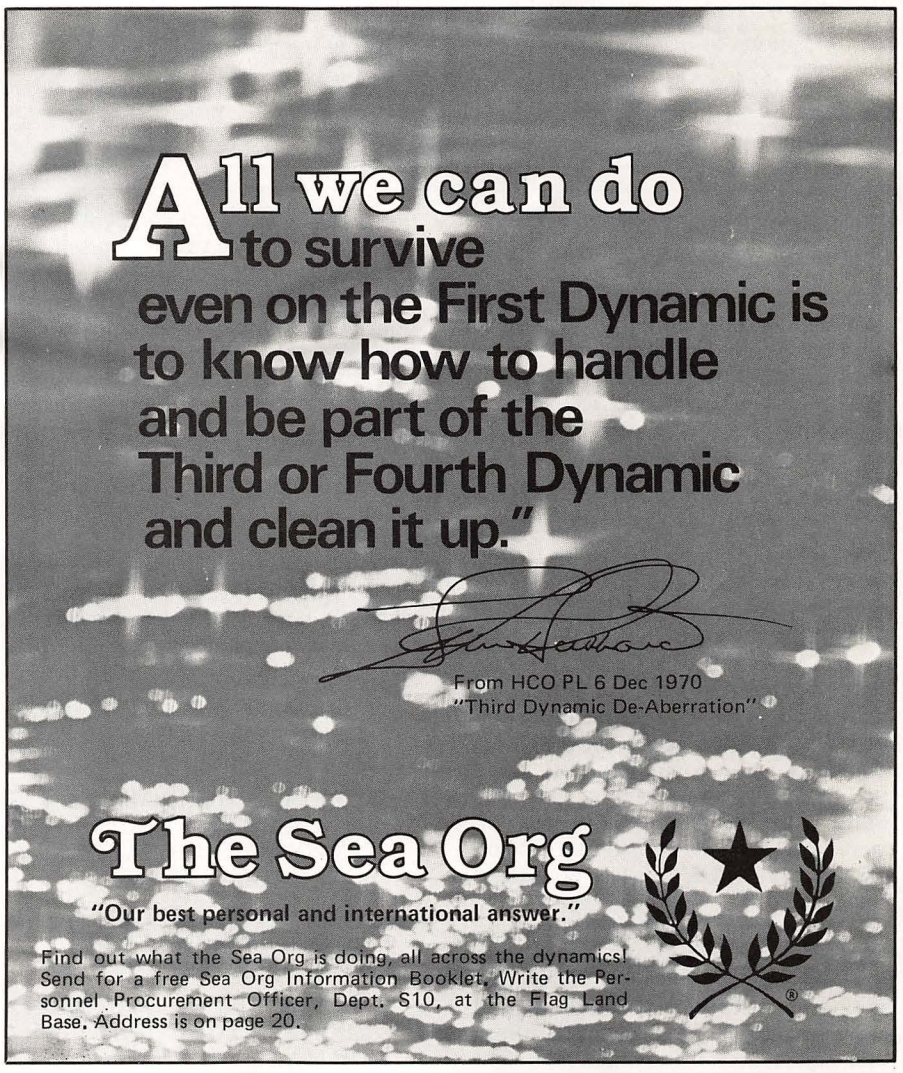

For those Scientologists just starting up the Training Bridge, the new line-up means every bit of tech LRH intends the auditor to have (and knows he will need) is covered on the levels — all skills and knowledge needed to really handle cases is there!

For those very important people who are already trained auditors, there won't be any need to "start at the bottom again". For most Classed Auditors, the Senior Class IV Course will round out all the necessary skills.

Due to the amount of brand new very vital material on the Expanded Dianetics Course (which makes this virtually a new course) Expanded Dianetics Auditors trained on the old checksheet (checksheet dated before May 1977) will be required to take the *new* checksheet before September first, 1977.

The expanded training line-up is the route which makes an auditor who has ALL the LRH tech he needs to handle cases to his level of training!

The Code of Honor

(Continued from page 4)

instead of self-determined that any time he considers something it is right for him and he had better not change his mind about it. Accepting other realities than your own, against your own assessment, is a certain way to go down tone scale. You'll get sick.

7. NEVER PERMIT YOUR AFFINITY TO BE ALLOYED

In other words, never permit a feeling of affection you have to be tampered with by somebody else. You can tamper with it if you want to but don't let someone else come along and tell you that "the reason why you shouldn't like Jones is because . . . ." and tell you a lot of things about Jones.

And don't let somebody come along and tell you you have to like Mrs. Smith, like they used to do when you were a little kid. Remember? "You have to like Aunt Bessie." You know she has a lot of money that she'll probably leave you (they don't tell you that). But you have to like her because "It makes her feel so bad when you don't run into the room and kiss her when she comes in. You must run in and say hello." That might or might not be the way to handle Aunt Bessie, but that is the way to kill yourself.

If you don't like Aunt Bessie, you'll get a lot further saying, "I don't like you!" She'll immediately get confused and say, "Why, dear?" This will worry her. "Well, I don't like your nose and I don't like the way you are wearing your glasses. And I don't like the clammy kisses you give me." Aunt Bessie will probably put on Act 624 and say, "You're very cruel to me." "Well, I don't mean to be cruel, I just want to tell you the truth." First thing you know, Aunt Bessie will be interested in only one person in that family! That's the boy who would say those things to her. Fascinating!

8. DO NOT GIVE OR RECEIVE COMMUNICATION UNLESS YOU YOURSELF DESIRE IT.

9. YOUR SELF-DETERMINISM AND YOUR HONOR ARE MORE IMPORTANT THAN YOUR IMMEDIATE LIFE.

10. YOUR INTEGRITY TO YOURSELF IS MORE IMPORTANT THAN YOUR BODY

11. NEVER REGRET YESTERDAY, LIFE IS IN YOU TODAY, AND YOU MAKE YOUR TOMORROW.

12. NEVER FEAR TO HURT ANOTHER IN A JUST CAUSE

If you want to have a guy who is going to do a terrible job of managing, get somebody who is afraid to hurt people. Get somebody who can tear people to pieces any time that is indicated and you'll have a good, smooth running organization. It is not because it is force that is required, but honesty. An individual who is afraid to hurt people is going to be dishonest to those people. He is afraid to hurt them so he will wind up hurting them more by a hundred times.

13. DON'T DESIRE TO BE LIKED OR ADMIRED

Don't give a darn, because if you start giving a darn you won't be liked or admired. The only way, really, to be liked or admired is to not care if you are liked or admired, but to act most any way you please. And you'll be surprised at how many people will like and admire you. But that isn't *why* you act the way you please. You act the way you please and as you should because it's the honest way to act. It is kind of a lie to be one thing and act like another just because it is polite.

Super case booster and clean-up!

CASE CRACKER RUNDOWN

The fabulous new Case Cracker Rundown isn't just for a slow or tough case. It is a thorough case clean-up and booster that is for most anyone!

Ron developed this rundown in late 1975 to be run on persons getting auditing at the Flag Land Base.

It has been run with fabulous results on many many people getting Flag auditing.

The Rundown consists of two actions. The first main action thoroughly handles anything which might need clean-up from past auditing. It leaves you secure in the knowledge all the outnesses and errors on your case are fixed up and repaired.

The second main action handles fully any possible case bugs and results in real case stabilization. There is another action done preceding the rundown *if needed* which handles specific difficulties that would impede full gains on the rundown itself.

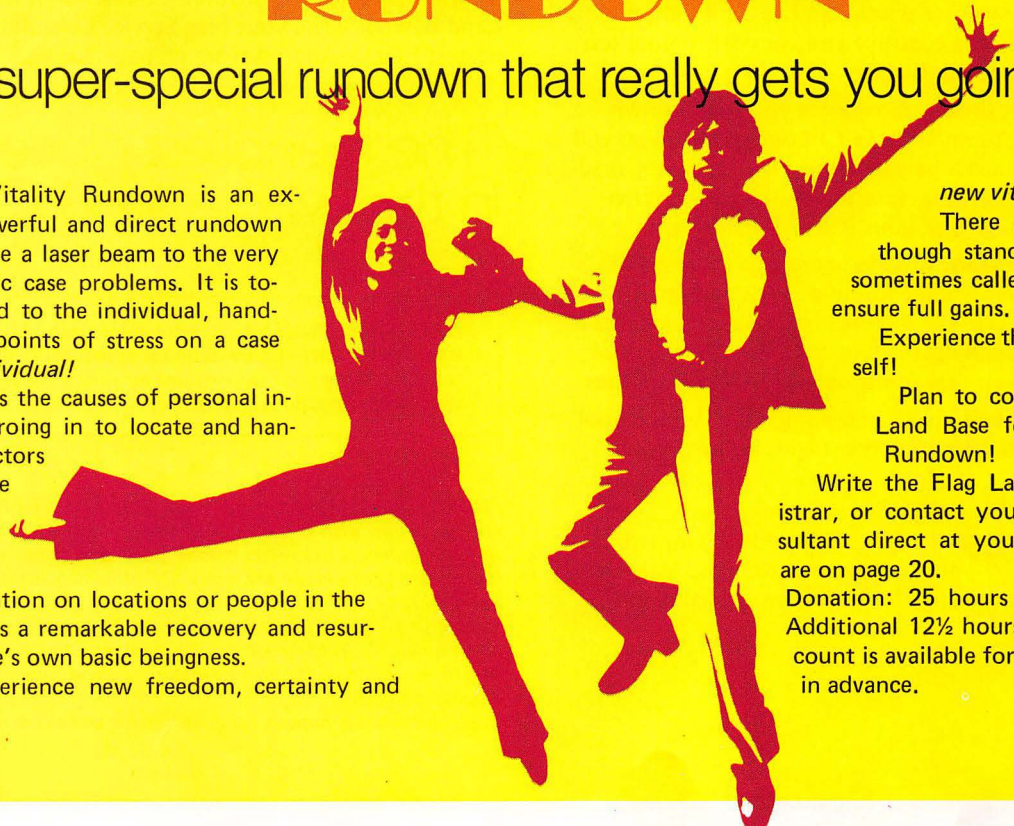

The end result of the rundown is you feel freed, cleaner and happier than you've felt in ages!

Make arrangements now for your Case Cracker Rundown! Contact the Flag Land Base Letter Registrar or your Flag Service Consultant direct at your FOLO. Addresses are on page 20.

Donation: $6000 for 25 hour intensive. 5% discount is available for donation made well in advance.

THE NEW VITALITY RUNDOWN

The super-special rundown that really gets you going in life!

The New Vitality Rundown is an extremely powerful and direct rundown that cuts like a laser beam to the very root of basic case problems. It is totally tailored to the individual, handling major points of stress on a case *for that individual!*

It handles the causes of personal instability, zeroing in to locate and handle those factors which make a person less himself and fix his attention on locations or people in the past. It gives a remarkable recovery and resurgence of one's own basic beingness.

You experience new freedom, certainty and *new vitality!*

There are no prerequisites though standard case repairs are sometimes called for by the C/S to ensure full gains.

Experience this rundown for yourself!

I feel fantastic and so free to be me, ending cycle on not being me and on self-invalidation. My attention units are unfixed. It is really nice to be fully in present time. Boy, things are much easier to do when you are fully in present time, full of certainty, and stable!

M.M. — New Vitality Rundown

This auditing is all I expected and hoped for. Flag auditing *is* an absolute — THE BEST!

C.V. — Flag Auditing

Ron states that when you leave the Hard TRs Course you will be a different person. How true it is! I truly feel that I'm a different acting person. I have never felt this satisfied with TRs. I attribute the change and validation to (in this order) first, Ron for the tech and second, to the supervisor for his application of supervision tech — he has *no* reasonableness at all when it comes to study tech and it's application. I was totally miserable at times. But today I'm a WINNER, sure of myself and my TRs.

J.L. — Flag Hard TRs Course

This has been the most enlightening, personally rewarding and wonderful chunk of data I have done yet. I must be the first person to complete a section of the new checksheet which just came out. I really slaved over this early data, which includes *everything* LRH issued from 1948 to 1953, including the majority of Dianetics and Scientology books. I feel that I really know Ron the person, the researcher, the scientist.

I really can't describe the change in certainty this course brings, as it undercuts in basics any other course in existence and is in the purest form.

My thanks for the excellent supervision that got me through this and to Ron for giving us this incredible body of data and techniques.

K.P. — SHSBC, Part I

This was one of the toughest and most rewarding cycles I have ever done. My confront of auditing and confidence have come up to a point I thought it would never reach. My thanks to the excellent Cramming Officer, and to the Qual Sec who saved my bacon twice on this cycle by preventing Q and A and upset and just pushed theta back into MEST again, until finally theta won out. My confidence in the tech has come up tremendously as I have achieved better results than ever before on my pcs.

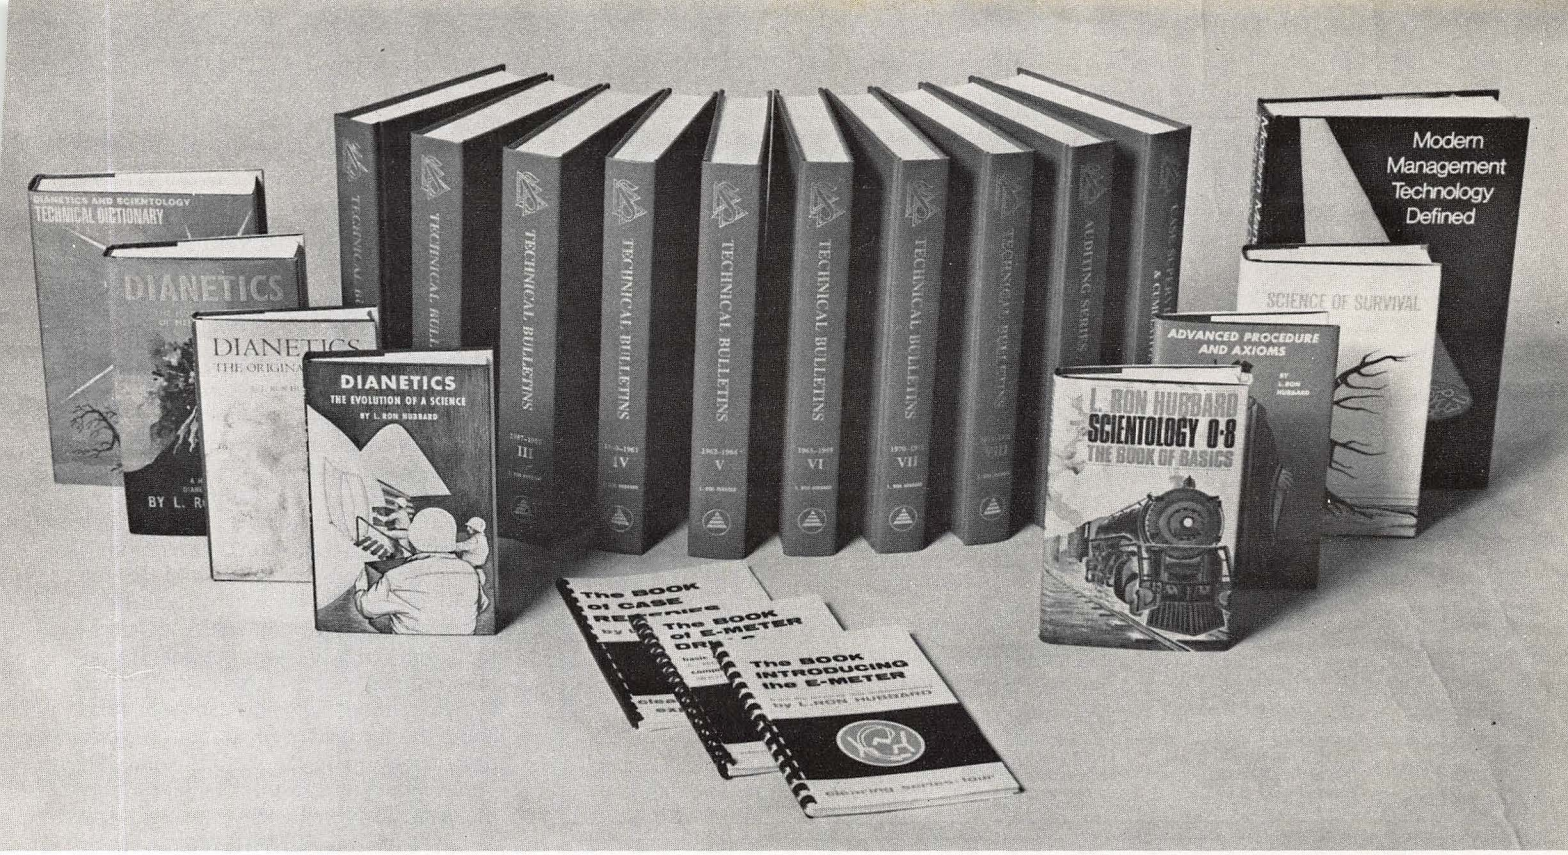

S.G. — Dianetic Interneship

This interneship was excellent. I feel very confident as a Class VI Auditor. I know I can apply the tech standardly and get great results on pcs. After all the years I've audited, for the first time I feel like a real pro. Flag Training has no comparison anywhere.

C.H. — Class VI Interneship with honors

This was without a doubt the best training cycle I've done in regards to level of expertise. I have had the goal of having as much certainty Dianetic C/Sing, as in auditing, but I didn't really believe it was possible. I've gotten it, as well as getting my basics in as a C/S. My deepest gratitude and admiration goes to the Senior C/S for his rock solid certainty and understanding of the tech and all the help he has given me in passing along that understanding.

K.P. — Dianetic C/S Interneship

Code of Honor
(Continued from page 14)

14. BE YOUR OWN ADVISOR, KEEP YOUR OWN COUNSEL AND SELECT YOUR OWN DECISIONS.

That is a heck of a thing, isn't it? You are educated from childhood to listen to the opinions of others. To you they are worth nothing because only you have enough data to evaluate you. You can sit down and communicate for days, weeks, months to a person and not even then give him all the data you have about you. So go around and get advice if you want to. It is not going to be good advice because it is not based on all the facts. Only *you* have all those facts. If you want to get along well, be your own advisor. If you take council with yourself about what is right and wrong, you can then take council with others to find out if your data agrees with theirs. Or what between you you can pool as data which makes a new conclusion.

15. BE TRUE TO YOUR OWN GOALS

To cause things, one must *be* cause. And the primary requisite of being cause is a statement of intention and goal, a clear statement of what you are trying to do. Only when you clearly state it can you avoid being yourself an eventual effect. "What am I trying to do?" If you can't answer that you'll foul up!

Even a poor goal is better than none. You can put that down as a beautiful maxim. It sounds like one of these horrible truisms but it will fish you out of more holes than you can imagine you can get yourself into!

You'll find yourself very often squirreling and spinning around. You don't know which way you are going or which way is up because you decided all the goals you could put your eyes on were too vague or too poor or too unwanted to try to attain. That itself is a bad aberration and shows a misdirection and misestimation on your part. And a lack of understanding on your own part of what you are doing.

You are, yourself, cause. How on earth can you set it up so cause can be anything else but cause?

There is no goal vast enough to absorb your total capabilities, because your total capabilities are so vast that they *make* goals.
