"How do you get sane? Well, that's the first milestone. But that's only mile one and there are ten thousand of those milestones out there..."

BEYOND THE FIRST MILESTONE

by L. RON HUBBARD

SCIENTOLOGY would be the study of science or the study of knowledge. Scientology actually embraces the Axioms, and embraces the various activities of Man.

You may not realize it completely, but Man's activities have not been embraced. There are lots of things that Man does that there is no accounting for — like inventing the means with which to go to the stars and then for some peculiar reason deciding to use it to blow up Russia and the United States simultaneously!

A study of knowledge would embrace not only how you went about creating atomic fission, it would also embrace who's going to use it, *why* it is, where it can be employed and how do you keep it from being employed.

So Scientology would step outside of the field of science as it has been known.

RANDOM DATA

Science, as it has been known, has been the almost random collection of data, assembling it into piles of similar data, and calling these piles of data "ologies." We have biology, for instance, which started out as a study of life (*bi* or *bio* - *ology* means study of life). But it wound up as a study of cells and small animals and that sort of thing, and merely collected enormous quantities of data, observed but not particularly evaluated and certainly not grouped or aligned into a form which could be utilized in the discovery of new data.

Each one of these "ologies," one by one, has come to a dead end. That is not a condemnation of them. They have been carried forward as far as anyone could carry them forward and then they've stopped, stagnated, specialized and drawn themselves away from the body of knowledge. Each one has become a study of how you memorize a lot of unevaluated facts. You put them together and maybe you get something and maybe you don't.

You can see how biology, for instance, has dead ended. It started with a lot of verve way back, but in modern times has fallen away from its own definition. They are not looking toward any source of life; they are just looking toward new kinds and combinations of life that they might discover by happenstance. The adventure and search has gone out of this field.

This is actually the history of any science. They push out into the unknown, they collect data, they formulate this data around a few theories, and then they end. And they become stultified.

This has been going on, to my knowledge, for 3500 years — and has

actually been going on a lot longer than that. Mysticism itself was once considered to be just about as pat and just about as well codified as biology is today.

ADVENTURE

Now each new adventure that Man undertakes goes out further into making the unknown known to Man.

Dianetics went a certain distance. It was mainly interested in aberration, in why men's minds don't behave exactly right all the time. It covers that field pretty well.

But it doesn't embrace everything that could be embraced about Man. I had been going forward further and further and further, and all of a sudden we were up against a subject which could only be embraced by a word like Scientology, which is an embracing of knowledge. It's a study of knowledge — not a study of therapy.

That makes it a broad field. It has a great number of Logics, Axioms, postulates which concern themselves with knowledge. Emphasis is placed, of course, upon the knowledge which Man can utilize here in this MEST universe, this material universe. It's the knowledge he utilizes in order to go forward.

THE IMPERFECT COMPUTER

This may strike you as somewhat odd, but a therapy is no end. The end goal of Scientology is *not* a therapy.

How can you work problems with an imperfect computer? You can't. How can you apply knowledge with an imperfect computer? Again, you can't.

So it is merely a *basic* step in the field of Scientology to perfect the computer. That computer happens to be the human mind.

One of the problems we come up against is how do you teach knowledge which will be utilized by an imperfect computer? While a great deal of this computer is alert and headed towards perfection, there are certain things which keep it from being perfect and which inhibit it from recognizing what it actually recognizes.

So before you can use Scientology to its fullest extent, the computer has to be *cleared.* That is a technical computing term. You have to *clear* a machine before the machine will give you right answers.

And right now we're in need of an awful lot of right answers.

SANITY AND INSANITY

It's fantastic that we sit here today with a technology capable of conquering a very large section of the material universe, and actually talk about blowing up your fellow man. How insane can you get?

Compared to the rationality which a human being can assume, which he can himself accomplish, there isn't a ruler in the world today, or a manager of any corporation in the world today, who could be considered anything but a raving lunatic. That's compared to how sane he *could* be. But compared to the "normal" that walks up and down the street, these people are usually much saner than the average.

So what is your relative yardstick here? What is sanity? Well, if we were to consider it an absolute, sanity would be absolute perfection in reasoning which would resolve problems to the optimum good of all concerned. That would be an absolute of sanity.

Absolutes, however, are not attainable. Even a person who is absolutely capable of being sane would probably still lack data, so you would have that small margin there of the unattainable.

But it would be so much higher than anything which has been achieved to date that you practically can't recognize people when they have gone up this line.

Somebody wrote in from California — a young girl worked with *Handbook for Preclears* for a short time, went down to a typing college, examined the chart for a few minutes and examined the keyboard of the typewriter (she had never typed before), sat down and started to type perfectly at 25 words a minute. Well, that is not very peculiar. That's the way you *ought* to be able to learn. Not grindingly, but just by examining the information and applying it without any physical reservations.

SANITY AT WORK

Therefore, Scientology in its widest application could only be applied by the very very sane. So its first application is in the creation of sanity amongst the able.

People don't realize how unable they are, because they have no standard to go by. If you were to get up and do any of the things which an able mind could do, in front of an audience, people would be signing you up for vaudeville and television. Why? Well, you could add and subtract various numbers; somebody could read you the instructions on how to tap dance and then you'd tap dance — that sort of thing. You'd be phenomenal. Everybody would say "genius at work."

No, not genuis. *Sanity* at work.

THE FIRST MILESTONE

How do you get sane? Well, that's the first milestone.

But that's only mile one, and there are ten thousand of those milestones out there. Until you get to milestone one, which is complete ability, it isn't very likely that you will be able to compel or reason or handle a world into a sane approach to the business of living.

The first milestone does not include clearing up prisons, clearing up insane asylums or resolving the problems of cities like Los Angeles. Those are up there at milestone three, four, five. But by solid cohesion in your goals, with a solid forward push on the rehabilitation of yourself and the very able who surround you, those goals will be accomplished.

Right now what we've got to do is carry forward far enough as individuals beyond the first milestone so that some of the actual native goals of Man can be realized in this universe.

And we can do it, because every doubt which you have right this moment is just an aberration. Anything which is fighting you at this moment is within you. There is nothing — not fire, swords, police, national governments, or economic systems — that could stop Man once he started. And that's what we're trying to do — start Man. Nobody has ever started him before; all they have been interested in doing has been controlling him and holding him down.

THE IRON LID

The history of this race, its genetic background, its reasons for being here, its intentions are all complete unknowns at this moment to the society at large and to most of you. There is a pretense of having data, but it is a shabby pretense.

Nobody knows where Man came from. Nobody knows what he's doing here. Nobody knows what he's supposed to do now that he's here.

Well, I'm talking now about the last

Dianetic Clears Discover the L's

Flag's exciting L Rundowns are available to Dianetic Clears and others who have completed their Drug Rundown, Expanded Grades, and are not in the non-interference zone (Grade 6 to OT III).

One of the first Dianetic Clears to arrive at Flag for the L Rundowns was Felipe Gil, exuberant singer and TV personality from Mexico.

"I finished Grade IV Expanded and then came over to do my L-12," Felipe says. "I'll tell you something; just doing the setups for L-12 unbogged my case. It really blew the stops. Now I know what it's all about and why the Ls are such boosters!"

Felipe has found the gains from L-12 to be vital in his career. He says, "L-12 completely brings your attention units out! I have in many ways been introverted in different moments. But now I have this stability, and for the life of an artist it is very, very important.

"It's worth anything you could imagine just to be yourself. When you are, you feel an immense ARC towards the universe. It's so astonishingly simple! If you really want to know more about yourself or who you really are or what you are doing in this universe, then come and get it!"

WHO CAN GET Ls?

More and more Dianetic Clears and other Scientologists are arriving at Flag for their Ls as they discover that they are eligible to receive them.

Unlike the new NED for OTs Rundown, which is only delivered to OT IIIs and above, the Ls are *not* just for OTs. The L Rundowns may be delivered at any point after a completed Drug Rundown and Expanded Grades. The Ls are not run between Grade 6 (R6EW) and OT III — the non-interference zone.

So anyone who has completed their Drug Rundown and Expanded Grades — and that includes Dianetic Clears — can come to Flag for the L Rundowns.

WHAT ARE THE L RUNDOWNS?

In "Ron's Journal 30" (Published in the last issue of *Source*), Ron says:

> "The Ls are at Flag only. They are not grades in themselves but incredible boosters that can be delivered at any point after a completed Drug Rundown and Expanded Grades. The Ls are audited by Class X, XI and XII auditors who are the most highly trained on the planet."

Ron also says that auditing on the L. Rundowns "does not supplant other processes or the Grade Chart. It will make them more effective, like a booster."

Wherever you are on the Grade Chart, the Ls will act as a tremendous case booster, enhancing and speeding your gains at any level.

THE Ls AND NED FOR OTs

Many people have asked what the relationship is between the Ls and NED for OTs, and whether one should plan on doing both.

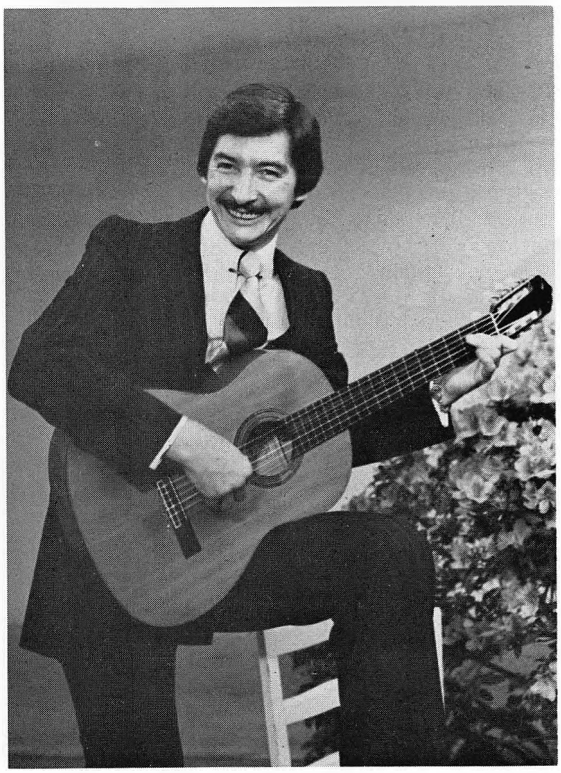

This is probably best answered by Ron's statement, above, that Ls auditing "does not supplant other processes or the Grade Chart. It will make them more effective, like a booster."

Ron also says that after the Ls, "one can get any other grade and should get any Advanced Course Grade."

Certainly the Ls are available to *all* pre-OTs, including those who plan to do NED for OTs.

Alan Larsen, a recent L-12 completion, had this to say: "I just finished L-12 about ten days ago. I had big wins especially in the area of beingness. It addresses the person as an OT and puts OT certainty there. Now I'm expecting and getting bigger gains from NED for OTs! The C/S had said it would be ideal for me to do the Ls before NED for OTs. He said NED for OTs would be faster for me with L-12 first. That's exchange all by itself! It's worth it!"

Larry Silver, another pre-OT at Flag, also did L-12 before NED for OTs. He says, "L-12 was recommended and it was totally, totally worth it. If I left after just doing L-12 I would consider myself totally happy and satisfied with what I got. Of course I'm looking forward to NED for OTs and I suspect that the case gain I got out of L-12 is going to make it a lot easier. It was just tremendous! If I had it to do over again, I would still do L-12 first. I wouldn't miss it for the world!"

Singer Felipe Gil: "It's worth anything you could imagine just to be yourself."

WHAT DO THE Ls CONSIST OF?

The exact contents and procedures of L-10, L-11 and L-12 are highly confidential and cannot be described here. However, here are some of the things Ron has said about these exciting rundowns:

L-10:

"The basic tech comes from research into increasing OT powers . . . It kicks general ability, perception and memory up through the roof in addition to other things."

"It handles the source of personal power loss."

"Tested broadly, L-10 was found to be a precision technology and it could not tolerate any flubs. Thus it became a special technique of a specially trained class of auditors — Class Xs . . . they can crack any case that walks up the walk."

"L-10 fantastic gain . . . gets them up to bigger gain on other processes."

L-11:

"To be rid of aberrations is to have

Discover for yourself
FULL CAUSE AND CERTAINTY

L-10

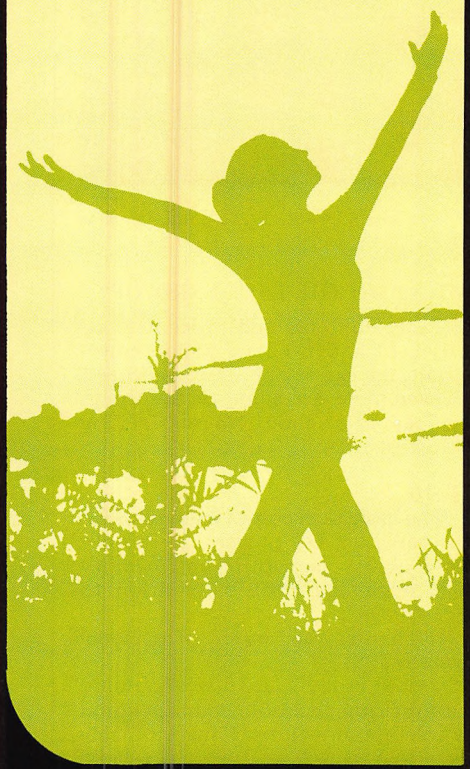

Feel totally yourself!

L-10 consists of 23 separate dynamic processes, *all* of which are run.

L-10 handles the basic reasons a person withholds himself, or restrains himself from action, reasons which are senior to the reactive mind. It handles "the source of personal power loss" in an individual and frees the person into a whole new realm of ability and activity.

After L-10 the individual knows the source of power in his universe and is truly free to use that power.

It transforms the person into a real powerhouse! It leaves you in present time, sure of yourself as a being and with vastly increased *doingness!*

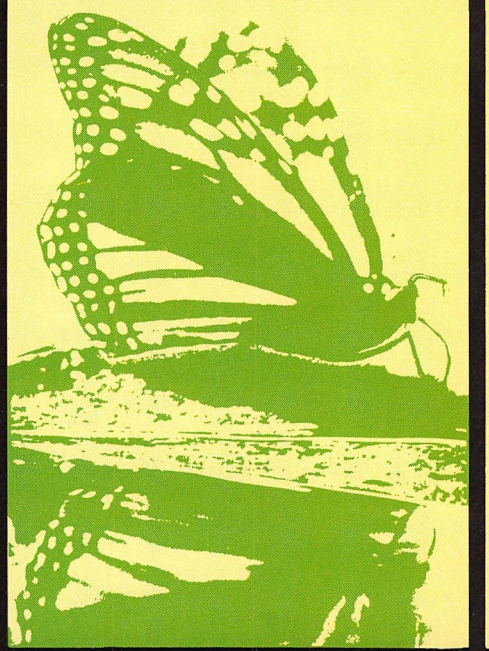

L-11

A new life awaits you!

L-11 consists of six consecutive actions to locate and handle the major source of aberration on the case. L-11 doesn't handle the whole case, just the *major* source of irrationality upon which a being introverts and fixes his attention, diminishing his individual power.

It takes an area that a being has a tendency to succumb in and turns it into a pro-survival area. L-11 handles the specific individual's barriers which are affecting a person.

It frees a person from any tendency towards self destruction and makes it possible for him to really "be himself" and to create and maintain a new beingness. In short, it gives a new life!

L-12

Full freedom and power as a being!

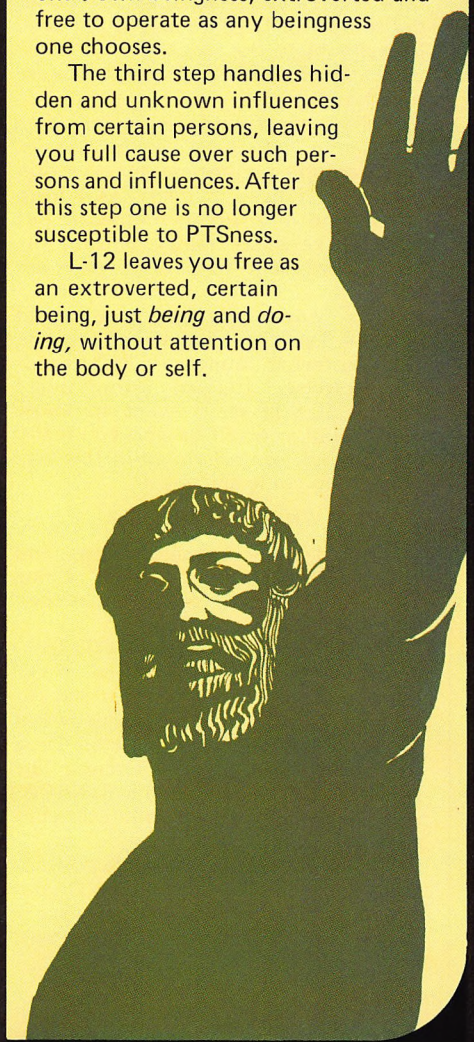

L-12 gives full extroversion and stability through three powerful steps.

First, you handle anything to do with the body which might pull your attention to it.

The second step deals with beingness and identities. The question of identity and self-certainty is handled. This step leaves one unconcerned with one's own beingness, extroverted and free to operate as any beingness one chooses.

The third step handles hidden and unknown influences from certain persons, leaving you full cause over such persons and influences. After this step one is no longer susceptible to PTSness.

L-12 leaves you free as an extroverted, certain being, just *being* and *doing,* without attention on the body or self.

For more information on the Ls, or to sign up in advance for them, write the Letter Registrar, Dept S20, at the Flag Land Base or contact your Flag Service Consultant direct at your nearest FOLO. Addresses are on page 20.

a New Life. It needs real flubless auditors. The results are smooth. Just call this the New Life Rundown. It gives a new life in truth. What's that worth?"

"We have our hands here on the mechanism that makes this a crazy universe so let's go for broke on it and play it all the way out."

"This is really a new life."

L-12

Makes a thetan "whose ability is greatly increased and who is not likely to become PTS to anything."

"When I was C/Sing the Ls I would never let a pre-OT leave the ship unless he's gone exterior with full perceptions and was able to maintain it."

"This will give us SPEED of completions with a guarantee of a stable state . . ."

". . . delivers OT capability."

OTHER "FLAG-ONLY" RUNDOWNS

While the Ls are Flag's most famous Rundowns, there are many other special rundowns and actions done only at Flag.

New Vitality Rundown: A tremendously direct and powerful action that thoroughly handles the causes of personal instability. This rundown zeroes in with the exact processes needed to locate and handle those factors which make a person less himself.

Major points of stress for *you* are located and handled. The resulting resurgence in *beingness* and *doingness* is tremendous. You experience new freedom, certainty and vitality.

Case Cracker Rundown: A super case clean up and booster that anyone can benefit from. It consists of two major actions. The first thoroughly cleans up anything in your past auditing that needs handling. The second action then handles fully any possible case bugs and results in real case stabilization. The end result of this rundown is you'll feel freer, cleaner and happier than you've felt in years!

Student Booster Rundown: A rundown to get the bogged student back on his feet and give a real case boost. The Booster handles long term problems, leaving you feeling much more certain and able as a student. You'll be a faster student in future and be able to do better on the job and in life.

Dianetic Debug and Repair: A Flag specialty, this is for the person who is having difficulty running engrams on New Era Dianetics. Opens the way for full Dianetic gains.

Power Repair and Completion to Full EP: For those rare cases who have had difficulties on Power, this completely cleans up Grades V and VA and gets you ready for Solo and the OT levels.

OT Level Debug and Repair: This fully handles any problems that may arise in Solo Auditing at any level. It remedies all difficulties caused by auditor errors on Solo and gets the pre-OT flying again.

Flag Rundown Successes

Get the idea of a pathway that emerges from before time and extends beyond time. Then notice that there are no obstructions along the length of this pathway. There are no whiskers, fuzz, specks or particles, the pathway is slick and clean. This is the best analogy I know of to represent the flow of my dynamic beingness; crystal clear before this instant, and beyond!

L-10 sweeps, mops and buffs it clean. There are great beings involved, fantastic technical delivery by my auditor, the org staff that make delivery possible and L. Ron Hubbard who made the discoveries, created a tech and an org and by whose strength and courage we are all able to realize our beingness.

R.M., L-10

This incredible rundown pulled out all the stops for me both in my present environment and things from out of the past that held me down from sailing along. I never dreamed of the kinds of seemingly small incidents on my time track that have kept my attention backwards. Now I can truly operate as a thetan without any attention to my whole track. I feel 20 years younger.

S.E., L-10

I really enjoyed L-11 Expanded. This auditing has made very definite changes in my life. For instance, life is now much safer to live. What a relief. I'll be F/Ning on this rundown for quite some time.

E.D., L-11 Expanded

Well, I really do feel on the verge of a brand new life! It is all mine to do with and create as I will. Even the new opportunities that I had once postulated and/or anticipated have started "rolling in."

Today I feel stable and yet like I could fly! I especially like the calmness within me.

J.O., L-11

I found out that I can take responsibility for myself and for my OT abilities. It actually changed my relationship to my already existing knowledge, besides very basically expanding that knowledge.

A.L., L-12

I have completed every grade through OT III Expanded but L-12 is the action that has *cracked my case!* I have felt for years that there was something big that hadn't been handled. There was! And it was big and I found it on L-12! I now have access and perception to the whole track. I am no longer in hiding, I can really confront others. I have worn glasses for 20 years but won't have to now!

R.W., L-12

L-12 is so powerful and high velocity. Today I achieved Native State and my in session cognitions were almost a verbatim restatement of the definitions in the Tech Dictionary. I gained so much reality on why a thetan assumes a viewpoint and plays games and creates effects. It's not like reading about it, but actually experiencing Native State directly.

G.H., L-12

I reckon L-12 to be the most essential auditing action I have done in 14 years of being a preclear. It handled the basic ruin on the case and wrapped it all up so that I can put my attention out onto the environment and get things done. Many thanks to the brilliant C/S, Senior C/S and my Auditor. And to Ron who set this game up and all those who helped.

M.G., L-12

Freedom from the cobwebs of beings and identities of the past. I can be anybody I want to be and no guilt about being like somebody I "should" or "shouldn't be" like.

S.E., L-12

This has been an extremely powerful experience which has strengthened my purposes and my sense of freedom to act, to follow through and particularly to discriminate where to direct all this renewed energy.

I can view life from a broader viewpoint and from myself. I feel much greater integrity in my being and renewed certainty and purpose and confidence. I have been greatly enhanced as a spiritual being and this has released a surge of zest for life.

D.E., L-12

Fantastic! I know a whole wide spread of my life is clean! This rundown is absolutely incredible. It covered every area I could think of and blew ALL the mass off. I feel like I don't have a case any more. Ron did a remarkable job with this tech and it would do wonders for everyone!

R.M., New Vitality Rundown

This has been a most fantastic Rundown for me, hours of validation of me as a Thetan and destruction of the Reactive Mind. I came to Flag feeling the dunce of Scientology who couldn't play the Scientology Games because every course was like a term of imprisonment which had to be endured to be able to do anything worthwhile. Now I can understand other people who can enjoy a course and I am ready to get back onto the Study Route with a new hope.

M.R., Student Booster

News of the Flag Land Base

Flag into high gear delivery of NED for OTs!

Ever since the release of the fabulous NED for OTs Rundown last December, ever-increasing numbers of OTs have been arriving at the Flag Land Base, eager to get Ron's latest, miraculous rundown.

Dianetic Clears and those ready to enter the non-interference zone (R6EW to OT III) have been arriving and, under the direction of the best C/Ses in the world, routing onto Solo Course, L-Rundowns, OT Levels and NED for OTs.

The excitement and enthusiasm at Flag in the last four months has been even greater than Flag's original landing in Florida in 1975! Not since the release of L-10 in 1971 have there been so many mest-shattering wins.

With close to 200 Scientologists at Flag for NED for OTs alone, the Fort Harrison is a hive of OT and high theta activity. The combined cognitions of 200 people receiving this dynamic OT rundown has produced a live-in environment that is truly a Scientologist's and an OT's dream! Daily completions on NED for OTs adds to the continuing momentum of this truly OT world.

Just as this issue was going to press, the new Hour Glass Restaurant — fully remodeled and more elegant than ever — had its official opening. The Lemon Tree Restaurant has also been opened to Flag guests, making greatly expanded dining facilities.

Meanwhile, Flag's crack technical staff has met the challenge of NED for OTs delivery in truly OT style. Thousands of hours of top Flag-quality auditing are being delivered weekly, and the number increases weekly. Flag is justly proud of its delivery statistics, which are in an incredible power climb.

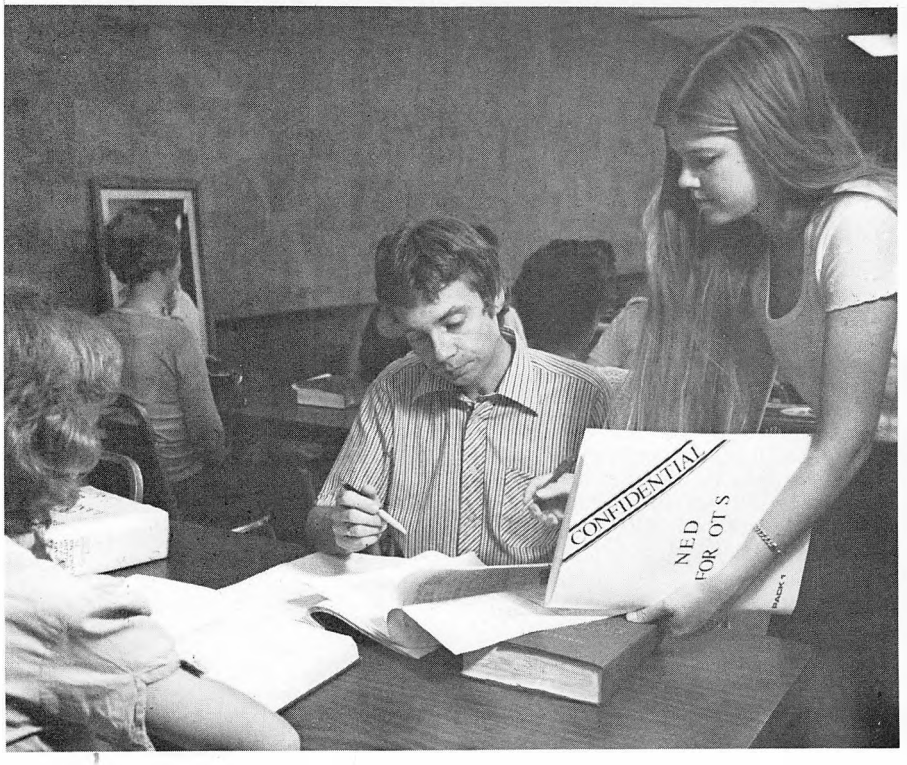

The wins from this new rundown are beyond anything ever seen before on this planet. A sampling of recent wins can be seen on page 14. It's not uncommon for OTs to burst out of session and race to the phones to call their friends and tell them to come *now* to Flag.

A frequent comment heard is that all one's previous auditing seems to have been set-ups for this action! Not surprising, since this is the first all-new level added to the Grade Chart in many years!

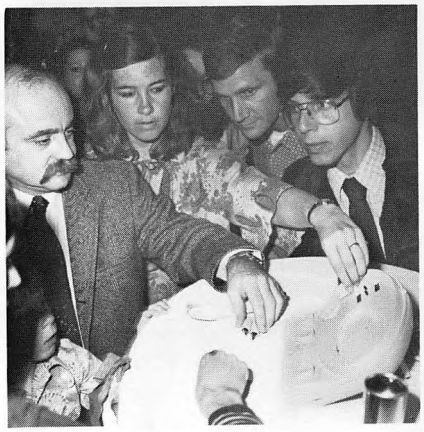

To continue the tremendous delivery of NED for OTs and Advanced Courses that is occurring at Flag, a second HGC for NED for OTs is being opened. This makes in all *four* HGCs in two technical divisions: one for the finest setups and grade chart auditing available; one for the special Flag-only rundowns including the famous Ls; and soon *two* for NED for OTs.

If you're ready for NED for OTs, come to Flag now!

Right: Exhilarated OTs emerge from Flag's Division 4A, where NED for OTs is delivered. Below: More auditors are rushed into training to deliver even more NED for OTs.

Mark VI Released on Ron's Birthday!

In the midst of the high-power delivery and wins of NED for OTs, the Flag Land Base celebrated Ron's birthday on March 13 with true Flag enthusiasm and flair.

Over a thousand Scientologists gathered in the huge auditorium for an evening of news, wins, and top entertainment.

The high point of the evening was the unveiling of Ron's spectacular engineering achievement, the Mark VI Meter. Following an introduction by Ron's Personal Public Relations Officer, a spotlight stabbed through the darkened auditorium, and there stood the Mark VI in all its space age beauty.

In the break that followed, hundreds of Scientologists crowded the stand where the Mark VI was on display, eager to get a closer look, touch it, try out its knobs and counters.

L. Ron Hubbard researched and personally supervised the engineering of this superlative E-Meter so it would be truly what was required by auditors all over the world in this new era of tech. Flag auditors were impressed and amazed with the vast improvements in meter design and handling, the vastly increased sensitivity and consistently true and correct reads.

During the break, hundreds wrote letters to Ron, sending him birthday greetings and thanking him for his latest breakthrough.

The rest of the evening was spent in joyous celebration, with top entertainment and dancing.

Talented singer Amanda Ambrose thrilled the audience with the kind of dynamic, upbeat performance that has brought her audiences to their feet all over the world. As usual, there was that special something added to her performance for her "Flag family."

Chick Corea, the acknowledged master of the jazz keyboard, had the audience captivated with a special "birthday" improvisation dedicated to L. Ron Hubbard. Chick even had the whole audience joining in to sing "Happy Birthday to Ron" — in four-part harmony!

In all, the evening was a joyous and heartfelt tribute and thanks to the man who has made it all possible — L. Ron Hubbard, Man's greatest friend.

Chick Corea.

New Dianetic Clear Check Offered

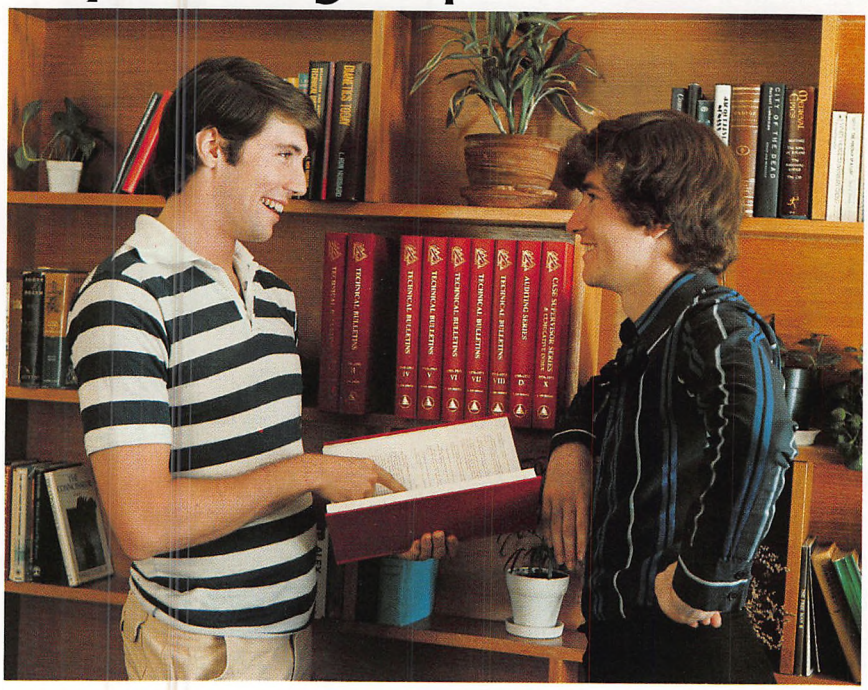

A new service is being offered at Flag to those arriving for Dianetic Clear checks. It is called the Dianetic Clear Check and Setup Intensive.

A highly trained Flag C/S goes over the folders carefully to check for any bypassed case state. Then the person receives any necessary case cleanup actions to validate the state and get fully set up for the next Grade Chart step, whether it's Grades or Solo. Whether or not the person has achieved the state of Clear, he will be programmed by the best C/Ses in the world for the correct auditing actions to get up the Bridge.

With the Flag Dianetic Clear Check and Setup Intensive, a person is assured the *best* and most thorough case supervision, folder work and auditing in the world.

To arrange your Dianetic Clear Check and Setup Intensive, write the Flag Letter Registrar.

New Course at FLAG!

The Flag Effective Public Relations Course

For years, people have been trained in universities in a subject called "Public Relations." However, as Ron pointed out in 1970,

"A casual investigation of the activities and effects of 'PR' as practiced in the first 70 years of the 20th Century gives one ample data to regard 'PR' with caution.

"The subject is one which can be said to be dangerous in its incomplete stage of development or in the hands of inexpert or unscrupulous people."

In 1970, Ron fully evaluated the subject of PR against Scientology technology. Going through one of the standard textbooks of the subject, "Effective Public Relations" by Cutlip and Center, Ron made extensive notes and evaluations of the book. He also issued many "Public Relations Series" Policy Letters.

The result? A *workable*, effective subject that can be used with beneficial results.

Now this technology is available to you at Flag on the "Flag Effective Public Relations Course." This same course has been used for years to train top Guardians Office Public Relations personnel, and is now available at Flag to anyone.

A major part of the course materials is a specially printed edition of Cutlip and Center's *Effective Public Relations* which *includes all of Ron's notes and comments* as a part of the text.

Supervised by GO-trained supervisors, this course will give you all of Ron's tech on Public Relations and will turn you into a cool, confident professional able to handle any PR situation with unruffled competence.

Donation for the course is $7,000. Enrollment may be arranged by writing the Flag Letter Registrar, Dept. S.20, P.O. Box 23751, Tampa, Florida 33623.

SCIENTOLOGY CENSUS
Update - Spring 1979

One year ago, *Source* magazine contained a census survey for readers to answer and send in. The response was very good, and the data was used to help many people get to Flag last year.

With Ron's technical breakthroughs of 1978, people are now moving very rapidly up the Bridge. We'd like to know your current scene; where you are on the Grade Chart and what your plans are. Please take the time to fill in this survey and send it in. Thank you!

Beyond the First Milestone

(continued from page 4)

two meters before you get to milestone one.

Any one of you knows inherently why Man's here, what he's doing here, who put him here and why he's being held down. Anybody knows that. Only they don't want to know they know it.

It's actually wide open data with a lid on it, and it's a heavy lid. The first thing you come up against is that iron cover. Try and lift it, without being able to demonstrate to the individual that it can be lifted and that there is something under it which won't swamp him, and you'll find it pretty hard to lift on most people. They'll fight you. They don't want this lifted.

Are they fighting it for themselves? Are they fighting it because of their own self determinism, or because they actually don't want to know.

There are an enormous amount of phenomena that we have uncovered here in Scientology. I have been working consistently and continually for many years to pull an iron cover off.

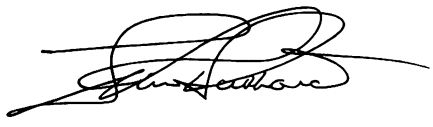

Well, it's off. We now know the complete size, thickness, weight and nature of that iron cover. It's a secret, and it's been a secret for a long time.

How tall are you? What are your capabilities? They're all underneath this iron cover.

SELF DETERMINISM

When you get to milestone one, and when you know you've got it and when everybody else knows you've got it, you can do anything you want, on your self determinism.

But the horrible fact of it is that there's very little self determinism until you get to milestone one. There's a lot of circuit determinism. That's something for you to remember. If you will just stay with me on this line, up to the first milestone in Scientology, and bring yourself up to a high level of ability, you *will* be free.

DEFINITIONS
of Scientology terms

Auditing: Spiritual Counseling. The application of Scientology processes and procedures to someone by a trained auditor.

Auditor: Minister. A person trained and qualified in applying Scientology spiritual counselling to others for their betterment.

Axiom, statement of natural laws on the order of those of the physical sciences.

Beingness, the assumption or choosing of a category of identity. Examples of beingness would be one's own name, one's profession, one's physical characteristics, one's role in a game.

Case, the way an individual responds to the world around him by reason of his aberrations.

Case Supervisor, that person in a Scientology Church who gives instructions regarding, and supervises the auditing of, preclears.

Class, refers to the level of classification of an auditor.

C/S, see Case Supervisor.

Charge, harmful energy or force accumulated and stored within the reactive mind, resulting from the conflicts and unpleasant experiences that a person has had. Auditing discharges this charge so that it is no longer there to affect the individual.

Clear, in an absolute sense, would be someone who could confront anything and everything in the past, present and future.

Comm, communication.

Communication Formula, communication is the interchange of ideas or objects between two people or terminals.

Dynamics, there could be said to be eight urges (drives, impulses) in life. These we call dynamics. These are motives or motivations. We call them the eight dynamics.

Engram, a mental image picture which is a recording of a time of physical pain and unconsciousness.

Ethics, ethics actually consist of rationality toward the highest level of survival for the individual, the future race, the group, and mankind, and the other dynamics taken collectively.

FEBC, Flag Executive Briefing Course.

Grade, the word used to describe the attainment of level achieved by a preclear; a series of processes culminating in an exact ability attained.

Grade Chart, gradation chart or Classification Gradation and Awareness Chart; the route to Clear, the Bridge; a guide for the individual to Clear and above.

Logic, a gradient scale of association of facts of greater or lesser similarity made to resolve some problem of the past, present or future, but mainly to resolve and predict the future.

NED for OTs, New Era Dianetics for OTs.

OT, Operating Thetan, a thetan exterior who can have but doesn't have to have a body in order to control or operate through life, matter, energy, space and time.

PC, see preclear.

Preclear, a person who , through Scientology auditing , is finding out more about himself and life.

Processing, a series of methods arranged on an increasingly deep scale of bringing the preclear to confront the no-confront sources of his aberrations and leading them to a simple, powerful, effective being!

Pre-OT, a thetan beyond the state of Clear who, through the advanced courses, is advancing to the full state of operating thetan.

PTS, means potential trouble source which itself means a person connected to a suppressive person. All sick persons are PTS.

Routine 6 End Words (R6EW), Grade 6 Release.

Rundown, a series of steps which are auditing actions and processes designed to handle a specific aspect of a case and which have a known end phenomena.

Solo, solo auditing.

Technology, the methods of application of an art or science as opposed to mere knowledge of the science or art itself.

TR, training regimen or routine. Often referred to as a training drill. TRs are a precise training action putting a student through laid out practical steps gradient by gradient, to teach a student to apply with certainty what he has learned.

NOTE: The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or in the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the Minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law, and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists or psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter, one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of that Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed or owned only under these conditions.

NED for OTs SUCCESSES

Completion of this rundown for me is total ARC/KRC with life, my universe, others' universes and the physical universe. I am now responsible for keeping Scientology working forever. Our beloved Founder has really restored to us the game of life. This rundown has provided me with the end phenomena of every goal I ever had as a spiritual being operating in this universe. I now move onto a new and fully causative plateau. I handle everything related to life. This is definitely Ron's greatest gift to all thetans everywhere. All of us contributing and participating in the expansion and creation of a new civilization can truly take pride. It is not coincidence we are here. We are the Foundation of the new era. Let's really wear that hat. Div 4A Flag is a pure LRH postulate. I am sure it will always be in power because it is power. Now I know exactly where to flow my power. My infinite love to all of you and my infinite love and admiration to Ron.

J.D.

I'm free of the necessity or obsession to have a body. My attention is free at last! I'm no longer stuck in the physical universe but able to observe it with great pleasure. Many more wins of course, thanks to Ron, the C/S and my auditor.

J.S.

Finally, the wonderful, thrilling, exciting, peaceful certainty and knowledge that I *do* exist outside of my body and that I am exterior to it now! This has been an elusive goal for almost 20 years and I have achieved it. What a fabulous win and state to be in. I look around me from a new source point — with new intention. My ARC, already high, has gone up another notch, as have my levels of beingness and awareness.

Thank you Ron for this rundown.

S.P.

To me, what L. Ron Hubbard has done, is given an OT back his ability to soar forever, never again to be trapped. It is totally conceivable to me that this planet and this universe will be sane and I plan to do my part in "saning" it. I am once again totally at cause over my universe and willing to have anyone else's. I can be anything, do anything and have anything.

This level fulfills every hope I had that Scientology could deliver affinity between all beings openly and without any reservations.

I am weightless, without fixations or compulsions and my ethics have never been more in. I am and I am prepared to always be.

Thank you all. Thank you Ron!

B.S.

My universe is finally mine! This level is the one I have been waiting for for a long time and I finally got it. When Ron said "Surprise, surprise, surprise!!" he wasn't kidding! I am total cause over my universe and so much aware of all others. I have total perception exterior to the physical universe. My universe is clear and without reservation!

My deepest love to the staff in the AO and for my auditor and C/S. My highest admiration goes to LRH. He only knows what this means to me.

W.M.

What Ron has created over the millennia has all been leading to this level. Cause over life is what every thetan has always known but lost for some time. Now all the garbage and all the stops are blown for good. What is left is static!

The abilities I have regained on this level are so incredible yet so usual and standard. I am now cause instead of effect. There is such a future now that I can hardly wait to go and play.

Ron was right — it is "Surprise, surprise, surprise." Thanks to all who helped.

C.S.

The auditing was the best. The C/Sing was the best. The tech services were the best. This whole month has been the very best ever!

I can't thank the staff here enough for what they have done for me and what they are doing for humanity.

S.L.

There are no words to describe the way I am now. All I can say is I am completely in ARC. How does one thank Ron for making it possible to have myself back, and be certain of who I am and just be total cause if I so desire? For once I am totally willing to be duplicated and willing to duplicate. My own universe is clean. Thanks to all at Flag, and to Ron.

S.M.

After several hours of auditing on NED for OTs, suddenly all barriers went away. ALL barriers! And it was then just me. This is difficult to put into words, but

1. My OT perceptions expanded in a sort of infinity outwards.

2. I saw others as they are, and so everyone around came up to talk to me.

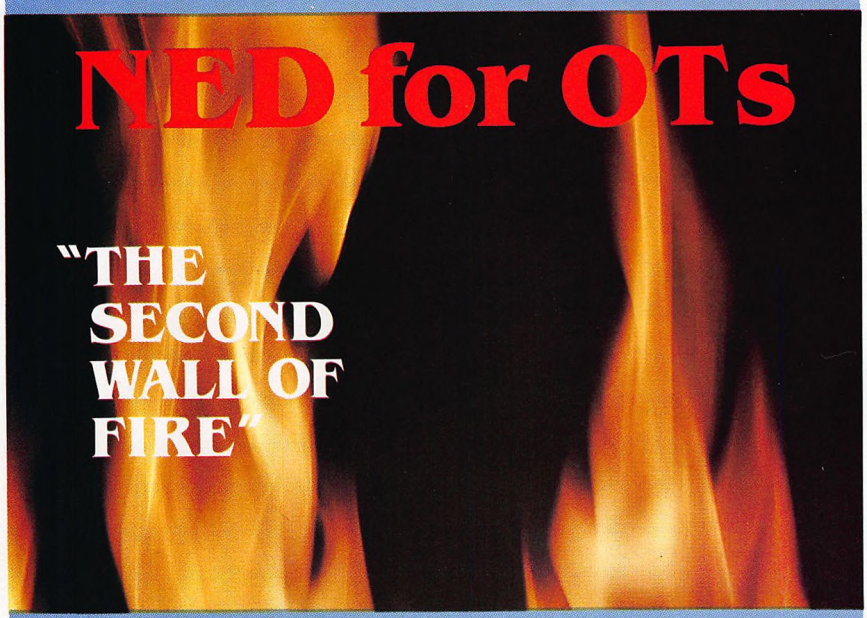

3. I saw an entheta disturbance in a friend in Los Angeles, called him up and handled it with exactly the right words, and he said, "Where are you? You must be in a very safe place." I said, "That's true."

So now I have a glimpse of what it will be like when there are no more barriers.

I.S.

(continued from page 7)

Full Case Resolution: A special service developed by Ron that completes your case fully, and gives you the full abilities and gains of every action you have ever been audited on.

It starts with a full, careful review of all of your past auditing by one of Flag's highly trained auditors. This, plus a full battery of tests and interviews, is used to design an exact auditing program catered to your needs and designed to bring full case resolution. Case bugs unravel, gains stabilize, bypassed or hidden charge blows.
