Your OT Abilities: Regain them on the New OT Levels - Learn to use them with

Ron's 76 Lecture

PHILADELPHIA DOCTORATE COURSE

on cassette tapes

This is straight OT data you can use to boost your potentials, and really know how to operate at cause. Here is hard practical data not found in books — ready for your immediate use. It has not been published anywhere, except as excerpts which have appeared in *SOURCE* and *Advance!* magazine articles.

Now, make it yours through the convenience of cassette tapes.

Formerly these lectures were available only on reel-to-reel tapes. Comparatively few Scientologists had even heard them in their entirety.

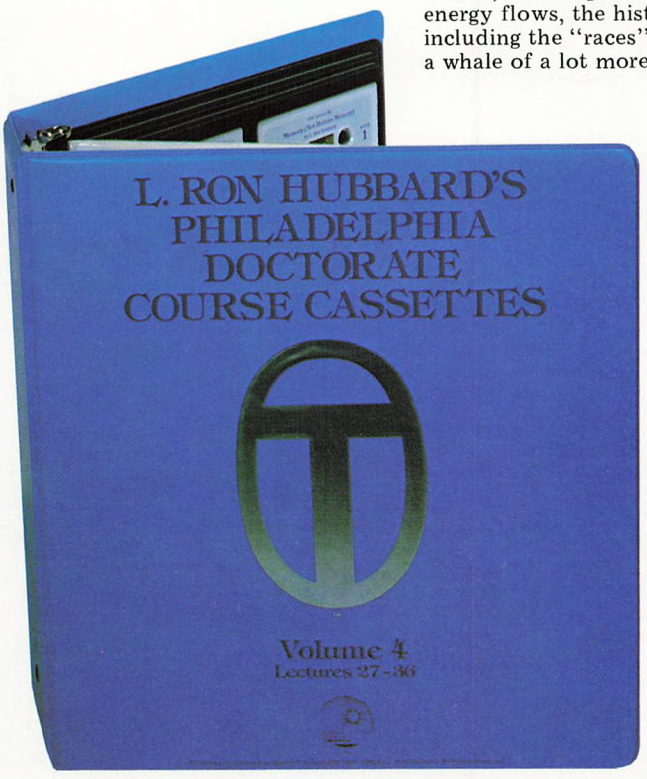

Even so, word-of-mouth has made this the most famous set of lectures ever given by Ron. With very good reason, too. They're a direct communication from Ron about conditions, life and being OT — the truth of it!

In 1952, Ron did a great deal of research into the upper limits of theta ability. Late in that year, at Philadelphia, he gave seventy-six lectures based on this research at the Hubbard Foundation. His lectures glowed with revelations about the true nature and capabilities of thetans and the state of OT.

This data is as key and relevant today as it was three decades ago. And it's timeless — it always will be. It is so important in fact, that a special course for OT IIIs and above has been released based on these lectures. It is this very data which you get on these easily accessible tape cassettes! This is knowledge about life that can give you certainty on it.

Covered in the lectures are such things as universes, postulates (and how they work), operating a body or bodies, handling and using space, energy flows, the history of thetans — including the "races" of thetans — and a whale of a lot more.

Get your own set. They come in eight blue bookshelf storage binders that keep them safe from dirt and damage. For extra convenience there is a complete index that summarizes each lecture for you; and each binder is equipped with notebook paper for your lecture notes.

Take these cassettes with you wherever you take your cassette player. Listen to this hard-won, very applicable knowledge whenever you want to.

Amazingly enough, these lectures are not confidential. Anyone can enjoy and gain from them — OT or not. Whatever your level, you gain more reality on yourself as a thetan!

Discover how an OT deals with the universe around him: how he operates and uses abilities to be more causative across all his dynamics. The depths probed and amount of detail Ron gives is staggering.

Find out what OT abilities actually are; and how you can raise your ability to operate more causatively over your environment daily by knowing and using this brilliant data.

Order your set right away! Also get the companion book of Ron's lecture charts so you can balance the significance with the mass and really make the data yours. They're spiral bound and reproduced on heavy paper. They exactly duplicate the huge charts Ron drew to illustrate points as he spoke. Get the donation from the insert and send your order in the reply mailer to the Flag Bookstore today!

DEFINITIONS
OF SCIENTOLOGY TERMS

ability gain: The pc's recognition that the pc can now do things he could not do before.

auditing: The application of Scientology processes and procedures to someone by a trained auditor. Auditing gets rid of unwanted barriers that inhibit, stop or blunt a person's natural abilities as well as gradiently increasing the abilities a person has so that he becomes more able and his survival, happiness and intelligence increase enormously.

Auditor: Scientology processing is done on the principle of making an individual look at his own existence, and improve his ability to confront what he is and where he is. An auditor is the person trained in the technology and whose job it is to ask the person to look, and get him to do so. The word auditor is used because it means one who listens, and a Scientology auditor does listen.

Be, Do, Have: The Conditions of Existence: there are three conditions of existence. These three conditions comprise life. They are BE, DO and HAVE. The condition of being is defined as the assumption (choosing) of a category of identity. An example of beingness could be one's own name. Another example would be one's profession. The second condition of existence is doing. By doing, we mean action, function, accomplishment, the attainment of goals, the fulfilling of purpose, or any change of position in space. The third condition is havingness. By havingness we mean owning, possessing, being capable of commanding, positioning, taking charge of objects, energies or spaces. These three conditions are given in an order of seniority (importance) where life is concerned.

beingness: the person one should be in order to survive. Essentially, an identification of self with an object.

Bridge: A term originating in early Dianetics to symbolize travel from unknowingness to revelation.

case: The way a person responds to the world around him by reason of his aberrations.

case gain: The improvements and resurgences a person experiences from auditing. Any case betterment according to the pc.

Case Supervisor: That person in a Scientology Church who gives instructions regarding, and supervises the auditing of preclears.

Charge: Harmful energy or force accumulated and stored within the reactive mind, resulting from the conflicts and unpleasant experiences that a person has had. Auditing discharges this charge so that it is no longer there to affect the individual.

class: Refers to the level of Classification of an Auditor.

Class X: An advanced Scientology course available only on Flag. It teaches L-10 OT, an upper level rundown whose basic tech comes from research into increasing OT powers.

Class XI: An advanced Scientology course, available to Sea Org auditors only and is taught on Flag. It teaches L-11, the New Life Rundown and L-11X, the New Life Expansion Rundown.

Class XII: An advanced Scientology course available to Sea Org auditors only and is taught on Flag. It teaches L-12, the Flag OT Executive Rundown.

Clear: A Clear is a being who no longer has his own reactive mind.

communication: The interchange of ideas or objects between two people or terminals.

C/S: See Case Supervisor.

drugs: By drugs (to mention a few) are meant tranquilizers, opium, cocaine, marijuana, peyote, amphetamine and the psychiatrists' gift to Man, LSD which is the worst. Any medical drugs are included. Drugs are drugs. There are thousands of trade names and slang terms for these drugs. Alcohol is included as a drug and receives the same treatment in auditing.

dynamics: the eight urges (drives, impulses) in life. The first dynamic is the urge towards existence as oneself. The second dynamic is the urge towards existence as a sexual or bisexual activity. The third dynamic is the urge towards existence in groups. The fourth dynamic is the urge towards existence as mankind. The fifth dynamic – the animal kingdom. The sixth dynamic – the physical universe. The seventh dynamic – spirits. The eighth dynamic – infinity or the Supreme Being.

engram: A mental image picture which is a recording of a time of physical pain and unconsciousness. It must by definition have impact or injury as part of its content.

facsimile: The pictures contained in the reactive mind.

Flag Operations Liaison Offices (FOLO): FOLOs have been set up to maintain one single command channel from Flag to orgs. They are Flag's link to the orgs and are vital to Flag management and expansion of orgs. There are FOLOs in Australia, Europe, Africa, the United Kingdom, East United States, West United States, Canada, and Mexico.

Flag Service Consultant: An FSC is a Sea Org member specially trained and fully briefed to be the stable terminal in his area as regards Flag Services which include all Scientology and Dianetic services available elsewhere as well as some exclusive services like L-10 processing or the Elementary Evaluators Course. He is Flag's terminal in the field to ensure that public get their questions answered concerning Flag Services, technical estimates, etc., so that there are no stops whatsoever for anyone wishing to take services at the Flag Ship Org which provides the world's highest quality technical delivery.

F/N: floating needle. An E-Meter needle phenomenon. It is a rhythmic sweep of the dial at a slow, even pace of the needle. That's what an F/N is. No other definition is correct.

Folder: a compilation of data – the records kept by an auditor.

Grade: a series of processes culminating in an exact ability attained.

Grade Chart: Classification, Gradation and Awareness Chart. The route to Clear, the Bridge, a guide for the individual to Clear and above.

Grade O: Communications Release. Ability to communicate freely with anyone on any subject.

HCOB: Hubbard Communications Office Bulletin.

HCOPL: Hubbard Communications Office Policy Letter.

MEST: coined word from the first letter of the words: Matter, Energy, Space and Time, which comprise the physical universe.

NED for OTs: New Era Dianetics for OTs.

NOTs: a popular abbreviation for NED for OTs.

OT: Operating Thetan, a thetan exterior who can have but doesn't have to have a body in order to control or operate thought, life, matter, energy, space and time.

pc: Preclear.

Pictures: see Facsimile.

Postulate: a postulate is, of course, that thing which is a directed desire or order, or inhibition, or enforcement, on the part of the individual in the form of an idea.

preclear: A person who, through Scientology auditing, is finding out more about himself and life.

present time: The time which is now and which becomes the past almost as rapidly as it is observed. It is a term loosely applied to the environment existing in now, as in "the preclear came up to present time," meaning the preclear became aware of the existing matter, energy, space, and time of now. The point on anyone's time track where his physical body (if alive) may be found. "Now."

Processing: a series of methods arranged on an increasingly deep scale of bringing the preclear to confront the no-confront sources of his aberrations and leading him to a simple, powerful, effective being.

Pre-OT: a thetan beyond the state of Clear who, through the advanced courses, is advancing to the full state of operating thetan.

PTS: means potential trouble source, which itself means a person connected to a suppressive person. All sick persons at PTS.

Reactive Mind: the reactive mind is a stimulus-response mechanism, ruggedly built, and operable in trying circumstances. The reactive mind never stops operating. Pictures of the environment, of a very low order, are taken by this mind even in some states of unconsciousness. The reactive mind acts below the level of consciousness.

release: a release purely and simply is a person who has obtained results in processing and has a reality on the fact that he has attained those results.

Routine 6 End Words: (R6EW), the process which makes a Grade VI release.

Routine 3-R; R3R: engram running by chains is designated "Routine 3-R" to fit in with other modern processes. Routine 3 revised.

rundown: a series of steps which are auditing actions and processes designed to handle a specific aspect of a case and which have a known end phenomena.

self-determined: one can only be self-determined when one can observe the actual situation before one; otherwise a being is delusion-determined or other-determined.

solo auditing: the action of "solo auditing" is not self auditing. Solo auditing is done in a regular session in model session form. In solo auditing the auditor is also the pc. This means that once the auditor has duplicated and understand the item or question the pc has also.

squirrel: to change and invent processes.

standard tech: A standardization of processes so that they apply to 100% of the cases to which they are addressed. The accumulation of those exact processes which make a way between humanoid and OT, the exact method of organizing them, the exact method of delivering them, and the exact repair of any errors made on that route. That terribly narrow path which we now call standard tech is composed of those things which if they are out inhibit and prohibit all case gain.

Student: a student is one who studies. He is an attentive and systematic observer. A student is one who reads in detail in order to learn and then apply. As a student studies he knows that his purpose is to understand the materials he is studying by reading, observing and demonstrating so as to apply them to a specific result. He connects what he is studying to what he will be doing.

Supervisor: a course must have a supervisor. He may or may not be a graduate and experienced practitioner of the course he is supervising but he must be a trained course supervisor. He is not expected to teach. He is expected to get the students there, roll called, checkouts properly done, misunderstoods handled by finding what the student doesn't dig and getting the student to dig it. The supervisor who tells students answers is a waste of time and a course destroyer as he enters out-data into the scene even if trained and actually especially when trained in the subject. The supervisor is *not* an "instructor," that's why he's called a "supervisor."

Thetan: the person himself – not his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware, the identity which is the individual. The thetan is most familiar to one and all as *you*.

TR: training regimen or routine. Often referred to as a training drill. TRs are a precise training action putting a student through laid out practical steps gradient by gradient, to teach a student to apply with certainty what he has learned.

Twin: the study partner with whom one is paired. Two students studying the same subject who are paired to checkout or help each other are said to be "twinned."

Word Clearing (W/C): a technique for locating and handling (clearing) misunderstood words. There are nine methods of word clearing.

New Reaches Unveiled at the Top of the Bridge

New OT VIII through OT XI have been revealed by Ron. Their announcement strips the mystery back and shows what lies just ahead for you beyond the current top of the Bridge. Take a look!

Grade	Name of State	Class of Auditor	Where Obtained
New OT VIII	Truth Revealed	Solo	Flag Only, when released
New OT IX	Character	Solo	Flag (not released)
New OT X	Operating	Solo	Flag (not released)
New OT XI	Future	Solo	Flag (not released)

When they're released depends on you and everyone else moving up the Bridge. Once sufficient numbers of people move up through New OT VII, Solo NOTs Auditing, new levels of OT will be released.

Ron's New OT Levels line-up actually makes this a simplicity — and just possibly, a very near reality. The magic phrase that can make these releases a present time reality is, "Complete your Bridge — take your next step up."

If you're at OT III, you are close to the top already. Sign up and get through your New OT IV, OT Drug Rundown at the AO and onto Audited NOTs, New OT V. When you've had some NOTs or finished Audited NOTs, come to Flag for the Top of the Bridge — New OT VI, Solo NOTs Auditing Course and New OT VII, Solo NOTs.

If you're one of the many Clears, you're only a few steps from your OT levels. Get through the Dianetic Clear Special Intensive, your Sunshine Rundown, your New Hubbard Solo Auditor Course Parts 1 and 2, and onto your OT levels fast!

However close you are to reaching the top, the message is simple. If you're one of the many, many Scientologists within easy reach of the OT levels and New OT IV through VII, put yourself onto your next step and move right on up.

Do it now! Be ready for the release when it comes. In fact, get moving now and you may well be one of the ones who make the release of New OT VII through XI possible!

"Willing and knowing cause over life, thought, matter, energy, space and time. That would of course be mind and the universe. That's a pretty large order. So there's a terrific gap between a Clear and an OT."

STATES of BEINGNESS

The amoeba, the monocell and the cellular form are apparently endowed things. An OT comes along and says, "Let there be chicken." He endows this or that; and he leaves a sort of a puddle of theta to continue to animate it. This appears to be the way you get cells.

That isn't factual from a standpoint of experience. I don't mean that there's data available here by which we've suddenly animated matter. But it is, more or less, a conceptual basis on which bodies are built.

There is something to it when people tell how they go out and say hello to the flowers, which then grow better. Of course at a very, very low state that wouldn't be possible. A person isn't able to reach that far. But people sort of have a dim idea that they could do it because way, way back someplace they probably did. So, they go out and say hello to the flowers.

The Lower Harmonic

Every once in a while you get some gardener who, when he says hello to the flowers they really do go boom! A green thetan you might call him.

You'll find as one comes down scale, that certain abilities tend to be retained; and certain fantastic abilities are ocasionally exhibited, like poltergeist and such things. No less a person than Carl Jung was so troubled with poltergeists. He couldn't explain that and it got him into psychoanalysis. Bookcases would go bust, clocks would split down the middle, bureaus would blow up and other weird things would happen in his immediate vicinity. He knew something was doing it. Then because psychoanalysis couldn't solve this for him, he squirreled. So you have Jungian analysis; but that didn't solve it either.

Here is an isolated thetan ability. He was able to affect matter in his immediate vicinity, although it was no longer under his control.

You could say that anything that is wrong with a thetan is the lower harmonic of what he can do up at the upper end of the scale. When that goes wrong, his ability in it becomes sort of inverse. It goes out of his control but still happens in his vicinity, like Jung. It puzzles the living daylights out of him; but it's just a little tiny facet of his ability which has been brought down scale with him and hasn't been eaten up yet.

Your Left Hand Out of Your Pocket

Every once in a while you see a little kid who sits down at the piano and plays Brahms. That's unfortunately very easy to invalidate because the kid doesn't know he's doing it. You see these boy wonders tend to fold up in their very, very early life. They are playing with the Chicago Philharmonic one minute, and the next thing you know, they can't even play with the kindergarten tin pan orchestra. It is an ability, but it's not under their control.

You take one of them; he has had a musical ability. He has carried it along with him and it hasn't totally faded out. In the very near past he has probably been a very expert and excellent musician, and this ability isn't gone. But someone starts chopping him up on it, or asking a burning suppressive question such as, "How do you do that?"; and he starts maybe taking over his automaticity (unconscious action) and he all of a sudden goes — poof! He doesn't know one end of the piano from the other.

You've probably had the experience yourself of accomplishing something rough, and going, "My God, how did I do that?" You suddenly surprise yourself by doing something or other as if you sort of caught your left hand out of your pocket, and hastilly put it back.

Not a State of Case

Phenomena such as this do not make a state of case, because they can occur at any point in a state of beingness down to where there is no life. That is to say, where there is merely endowed life, no thetan. You can find this phenomena in an insane asylum, amongst normals, or amongst geniuses — but it doesn't necessarily make a genius. You can find it on the upper scale; but when you start into the upper scale, it has started to come under your control.

Thus a skill that you're very fond of but don't know how it is you've got it, can suddenly go up in smoke. If that happens in the process of getting Clear, be patient. You'll get to a point where you can do it. But this time, it is *you* that can do it.

The Effect of Himself

You have to have some understanding of states of beingness. When you have a thetan who is very, very caved in, he is on a reverse. Anything which he can do he's not doing, but it is being done. That is modified by the fact that he has lost some of the abilities to have even that happen. In other words, he is the effect of his own cause totally and unknowingly. He doesn't have a clue.

As an example, this guy has a ball of fire hit him in the stomach. Right away he goes out and prays to the local tribal god because he has been afflicted. He has to go one awful long way up scale before he actually realizes that he hit himself in the stomach with that ball of fire. Don't minimize this distance, because the distance from human to Clear is a long way.

By estimating that, we can reestimate how far down he can go. He can go an awful long way down. He can go down to being the effect of the effect of the effect of the effect of himself. To try to explain it to somebody, that he is doing all this to himself, and expect anything beyond a cave in to happen is just completely beyond his ability to comprehend.

Automatic Consciousness

When you get a body which is animated by a thetan, as different than a body which is simply endowed, you can get odd things. For instance, someone says to a body: "Go on and walk now." Then to another being, "See, it walks. Look at it. Pretty cute, Joe, Huh? Bet you can't make one that good." At this point you go into a fringe [area] which is way below being oneself or being conscious; one is sort of automatically awake and automatically existing. There's no responsibility for either being alive, awake, alert or existing.

(continued on page 14)

The New OT line-up begins at Flag!
– or an AO

NEW OT IV
OT Drug Rundown

Have your case run faster, better than ever. Once you're through the "Wall of Fire" (OT III), blast off with New OT IV and on up the new OT levels line-up.

Drugs, alcohol and medicine create barriers to your own spiritual case gain. New OT IV is the uppermost gradient to handling these spiritual blocks. On this level you can regain lost drive and initiative.

On this level the deepest, most hidden barriers of this type are taken up. Until handled they can have a definite inhibiting influence on auditing progress. New OT IV is designed to do this with space age efficiency and ease. Its precise OT technology seeks, pinpoints, and zeros in on these stops and blows their effects on the mind and personality.

As you zoom through this level, you become free from any mental and spiritual effects of drugs, medicine and alcohol — and able to have your case run faster, better than ever before. When finished, you're a New OT IV with the way to the top and beyond open and clear!

You can do this level at Flag. The unwavering 100% standardness of Flag auditing recommends that you do, so you have full certainty of getting all the gains possible from this dynamic New OT level.

NEW OT V
Audited NOTs

Have the full power of your own postulates! Your first major step to achieving cause over life is New OT V. This level is like the first streak of dawn that shoves back the longest, darkest of nights. This is where you start to clear up forever those mysterious things that wouldn't seem to resolve. New OT V clears such things up with an amazing ease that strongly validates your true abilities. Have the full power of your postulates.

On this first rung of the NOTs OT levels, it's a vital necessity to have a trained NOTs Auditor. When a pre-OT has penetrated this far into the heights of OT, you might think he could simply do certain OT drills — the sort that would make him more OT as he continued to do them. He probably could if it weren't for certain factors created long ago that booby-trap the way for such advancement.

Audited NOTs is Ron's breakthrough solution.

On this level, many Pre-OTs have handled somatics that were around for years. So for an OT, a body can become very light. You also recover more theta to overcome those booby-traps in the mind. Questions you've always wanted answered about life and living get answered, plus you find out many more surprising truths.

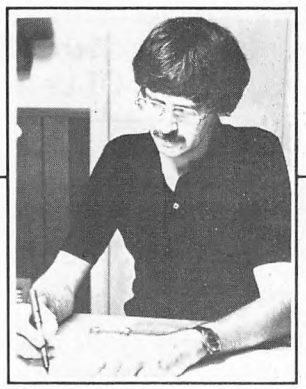

At a certain point, you become more powerful than the charge that's left to handle. It's here, with the guidance of the NOTs C/S, you reach the state of New OT V and a truly new dawn of existence. From here you're ready to tackle the current top of the Bridge, New OT VI, Solo NOTs Auditing Course and New OT VII, Solo NOTs — on your own! You become able to handle the source of any counter intention in your universe.

While New OT IV and V can be done at Flag or an AO, the important point is that you get up to and through them; then get OT VI and VII at Flag so you're ready to go when NEW OT VIII is released.

As the Mecca for those who seek technical perfection, Flag is also where all NOTs Auditors are trained. The result is that more Audited NOTs is delivered here, several times over, than anywhere on Earth. The combination of this extensive experience in delivering NOTs, 100% standard tech, and the fast professional service can mean swift and certain passage for you on this part of the Bridge!

PEOPLE AT FLAG

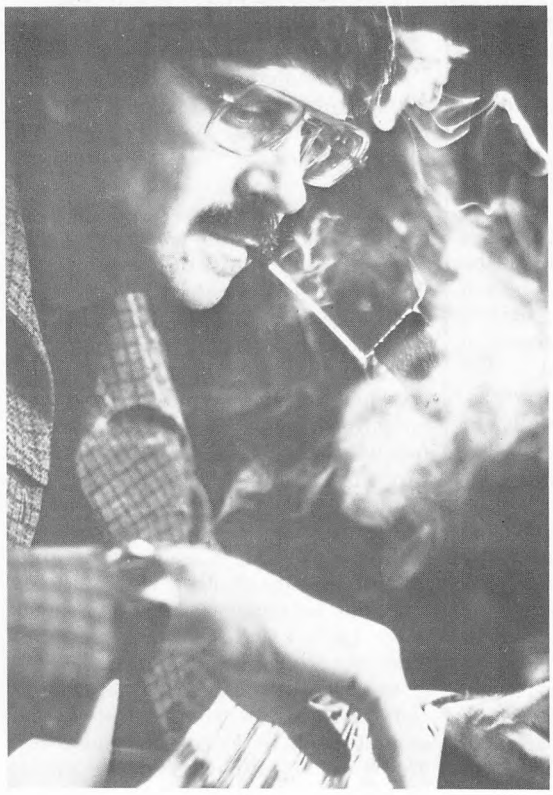

A wreath of fragrant pipe smoke and a smile are two aspects that catch the eye when you first meet Alex Soroka.

Alex is well onto his Audited NOTs, New OT V, where he has recently reached a major flat point. His home is in Michigan; but before returning there he is wrapping up some important research cycles for a book he's compiling about art, drawn solely from LRH data.

NOTs has proved to be a major step forward in life for Alex on many levels. His research cycles have given him time to also share his wins from New OT V with us.

It wasn't until I'd attended a tours event, and at about the same time read a number of Audited NOTs successes, that I realized I wanted to do it. After getting this information, I remember thinking that if it did only a quarter of what was claimed in the successes, that it was certainly a very desirable and worthwhile thing to do.

About this time, a personal breakthrough happened also. I saw a copy of HCO Bulletin of 12 September '78 and found out the data about Dianetics not being run on Clears. This was a revelation. So you can appreciate why, I'll have to backtrack a little here.

Shortly after coming into Scientology in 1968, I keyed-out Clear in a co-audit session. I took off like a shot. I read most of the books; and spent most of 1969 going up to Clear, and then on up to OT VI. Then in 1970 I went to the Flag Ship for the FEBC (Flag Executive Briefing Course). One or two of the L's Rundowns were normally part of the program. Unfortunately, at the time, I was having somatics and other body problems. Dianetic auditing seemed the right thing to do instead of the L's.

It's interesting though — I was having such incredible wins getting the FEBC tech that they overshadowed everything else I was doing. Because of this, training — getting LRH tech — became, and still is, my "item." For the next nine or ten years I didn't get any auditing at all. It didn't particularly indicate; but training certainly did. In addition to working on staff, I did auditor training as well as dug deeply into Ron's works on my own.

When the Tech Dictionary came out it proved to be another source of continuing wins for me. There's an exact quote from Ron about it which I'll share here. He wrote: "A few minutes with this dictionary is as good as an intensive!" I found that to be true then and I continue to find it true now. So while I wasn't getting any auditing, I was certainly having wins and moving on the training side of the Bridge.

Now I was aware of what LRH says about training being 50 percent of the Bridge and a person's gains. So not being interested in getting auditing was a bit puzzling, but I'd decided that perhaps I was an exception to this. Then I saw that HCOB. You can see why it was such a revelation — everything fell into place. At the time I got all that Dianetic Auditing, I was Clear; but the discovery that Dianetics should never be run after Clear was years away. It all made sense. With what I'd just learned about Audited NOTs, I knew it was for me.

I'll never forget my first day at Flag on Audited NOTs. I got blown out of session with big F/Ns three times. This is very fast auditing. The sessions don't go very long at all. NOTs auditing is also light, but demanding.

I'll give you another idea of what I mean when I say it's fast. Prior to NOTs, I'd had a long history of things I'd tried to confront and handle, but which didn't resolve. This had gone on with me for years. Then, on Audited NOTs, they were handled and resolved one after another just like a snap of the fingers, in the first few sessions. That's how fast it is.

As for wins, they're big. Until NOTs, training for the most part has been my

(continued from page 7)

source of big wins. But whether I'm talking about wins from training or NOTs or whatever, I want to make clear what I mean when I use the term win. It's straight from the Tech Dictionary. This is the quote: "win, intending to do something and doing it or intending not to do something and not doing it." So when I say "win" I'm talking about increased ability to do this. That really sums up my gains.

For instance, with each Audited NOTs session I've regained floods of attention units. They're no longer tied up down the time track. I have them in present time, and can channel them directly into doingnesses. This is an enormous gain. My capacity to do has skyrocketed.

When I came here for this new level, I brought enough work to do on my book to last easily for a month. Within a week and a half I was phoning my wife and asking her to send more material. I was rapidly running out of the stuff. As I say, my ability to do increased, and it was that dramatic. In fact, I've had to call her twice for this sort of thing.

My quality of doingness has risen sharply as well. Let me give you an idea.

Quoting from the Tech Dictionary, Ron says that "Art," is, "a word which summarizes the quality of communication." Now originally, sometime ago, I set out with the idea to make a hat for myself, as an artist, solely out of LRH data.

Among all else, Ron is an artist. All through his works he gives data on the subject whether in fiction or non-fiction or in articles about him by others. There's much, much more information from him about this than just in the Art Series and a few selected works. Most all of it is basic data as well; and covers not only what art is, but the beingness of an artist, the purpose of it and a wide range of aspects.

So as I researched this, I soon had the awareness that what I was really looking at was a potential book. A book which would have applications on the third and fourth dynamics as well as the first.

With this realization, and the growing amount of material I was collecting, the question also arose on how to organize it. Or put another way, the final form of the thing that would make it readily usable. This became a major part of the task. Many similar problems have cropped up in this undertaking.

Doing this before now required a great deal of figuring and effort to locate the data, pull out just what I needed, and then align it to other data I'd collected. It took an awful lot of effort and time.

My recent NOTs auditing completely changed this around — almost from the start. I can align and order the data now with amazing clarity and ease. It just seems to fall into place. The effort and temporary confusions are gone. I'm also able now to pull in the exact data I need at a particular time — time after time. It's real theta universe stuff.

Actually you can say it's the ability to postulate and intend actions so they get carried out in the physical universe. Postulates are good, but to be of use you have to be able to make them happen in this universe. So there's an example of the magnitude of win of the many to be had from New OT V.

Something else I'd like to share here is the quality of service and handling I've received at Flag. I assure you it's not PR [public relations]. NOTs is the best auditing I've had. While getting it I've felt handled the way you'd expect a king to be. The professional smoothness of the delivery lines is a joy — and so is the personal care the staff show for you.

I have a good means of comparison for this which is those days on the ship when I did the FEBC with LRH watching over everything. The level of ARC here now is every bit as high as it was on the ship. There's also the absolute insistence on quality of delivery which remains unchanged from then up through now. The LRH tradition I feel has been carried into present time very successfully. It's as if he was still just on the deck above keeping watch over everything.

Coming to Flag is a successful formula for me. In addition to my NOTs, I've done twelve or fifteen other things here. Each of these individually has made the trip and time here well worth it; and I've got them altogether, so you can imagine how great I feel. I'll be coming back to Flag again and again. There's all those new OT levels ahead.

Travelling at the Top of the Bridge

"This was the best thing that ever happened to me as a Thetan! I realized I had been being the effect of my case for millions or more years. Now I can take responsibility without any vias for being at cause over my case. That is an incredible change of viewpoint. No more incorrect assignment of source for the handling of my universe. It is an ultimate change for me; and I'm very, very happy to make this transition. I also broke through the barriers I had on being fully trained. I will do this now — all invalidation is off my viewpoint. The supervision on this course was expert in every way. It was a total pleasure and full of integrity and respect for a being as an OT." — D.S.

Imagine for a moment, this was your success story from completing New OT VI, Solo NOTs Auditing Course. You're travelling now at the top of the Bridge. The excitement is intense — the expectation joyous. For aeons and ages you've searched for such liberation and recovery of abilities. You've already regained a sizable amount, but there is more, much more soon to be yours.

Curiosity provokes questions: What will it be like to be able to handle the NOTs phenomena in life? What lies ahead on New OT VII, Solo NOTs? What . . .?

Depending where you are on the Bridge, the top may be your next step or it may be several ahead. Wherever you are though, this is your ultimate destination. This is the place you gain the technique to handle the Second Wall of Fire — and then actually do!

The New OT levels IV through VII are Ron's breakthrough perfecting touches to this part of the Bridge. It's quite safe and swift to travel.

The very top is entrusted exclusively to Flag, the Mecca for those who seek technical perfection. You can do New OT IV, OT Drug Rundown, and New OT V, Audited NOTs at an AO, after which you come here. It's the only place you can do the next steps. The reason is, it has the tradition of maintaining LRH standards of perfection 100% of the time. The result is flawless delivery with no backlogs built up — the very thing required to give these high levels. Full gains from Ron's extraordinary tech are the norm. For you, that's also fast service with certain results.

Suppose now that you've finished New OT IV and V. You may have done them at an AO or at Flag. However it is, you're ready for your next step in achieving greater cause over life.

NEW OT VI

Solo NOTs Auditing Course

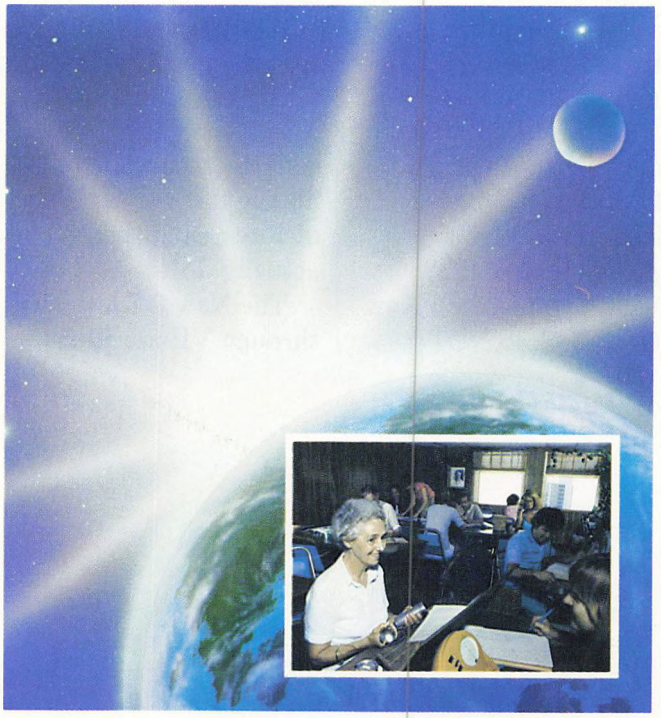

Have a full understanding of the phenomena so you become cause over it.

At a certain spot on Audited NOTs a point is hit where you tip the balance and become more powerful than what's left to handle. Auditors mention even, that here's where their pre-OTs really pick up session speed; which on Audited NOTs is already quite fast. Session mechanics become almost too slow to keep up with the pre-OT.

Ron solved this phenomena by developing the Solo NOTs Auditing Course and Solo NOTs. Here's where you get the best auditor you'll ever have — YOU!

The Solo NOTs Auditing Course is like learning to fly multi-engined aircraft. And on it, you fly into the dawning of OT competence. To handle what's left, you master several major factors. This takes precise use of basic auditing skills, a full understanding of the NOTs phenomena, and mastery of Ron's Solo NOTs techniques. It also takes certain OT abilities which you develop through exact drills Ron created for this. The gains from these alone have been compared to several auditing intensives worth of gains. Achieve confidence and competence in your skills when you do them.

Like a good take off, New OT VI puts you aloft on just the right gradient. Even if you've had no previous auditor training you can become a skilled Solo NOTs auditor winging your way with the best. A trained auditor, of course, can achieve results much faster; and he receives the advantage of a special validation discount.

New OT VI brings you to more than competence in Solo NOTs auditing. As you gain full understanding of the phenomena you become cause over it. You achieve the ability to handle yourself for lifetimes and reach a very high stability as a being. There's no training like it anywhere, nor has there ever been. You even learn the secret of the single most basic mistake a thetan has made down the track. Once it's yours, you need never make this error and fall in the trap again!

For a clearer picture of this new level, take in these brief views from pre-OTs on or through it.

"From the material I studied, all my questions I've had my attention on, for what seems an eternity, were finally answered. For me, every hour on course equalled an hour of NOTs auditing or more."
— C.H.

"I have just completed the Solo NOTs Auditing Course. My awareness is way up; and I've had so many wins and cognitions. I could see whys as well as whats. It was like rehabbing Audited NOTs and continuing up. I am really approaching more and more truth. Things look and feel so simple now." — G.G.

"The material was full of surprises, exciting, and very well put together. It is a perfectly gradated checksheet which makes what might look impossible very easy. I'm very aware, as a result, of the fact that I am OT and have a role to play which will enhance everyones survival. This course truly hats one on this." — C.G.

"It's like a shift from Effect to Cause. It's really that big. I just didn't have that viewpoint when I started this course." — B.R.

"I have never experienced such change on a training cycle. The velocity of this course is fantastic. As far as my case is concerned, I feel there is nothing I can't handle myself now. I have a certainty and calmness that I haven't felt in a very long time."
— C.A.

"My perception just blew open and my intention was completely rehabbed. This was worth a whole intensive just doing this drill."
— C.M.

You will have your own great wins to share once you get on and through New OT VI, Solo NOTs Auditing Course. It's a fast level that usually takes only one or two weeks on course. Then you get a brief "groove-in" with a Flag NOTs Auditor; after which you solo

audit NOTs at the Base to an exact point that's determined by the Flag NOTs C/S. Then you're ready for Solo NOTs Auditing at Flag or at home — you're now onto New OT VII !

NEW OT VII Solo NOTs

Now you can Solo Audit NOTs at home!

On New OT VII, you apply those skills you've mastered while "learning to fly multi-engined aircraft." This is where you soar to completion on the next leg of your journey that leads to cause over life.

The period of "groove-in" auditing is over. Backed-up with the guidance and supervision of the Flag Solo NOTs C/S, you're on your own to solo audit NOTs at home.

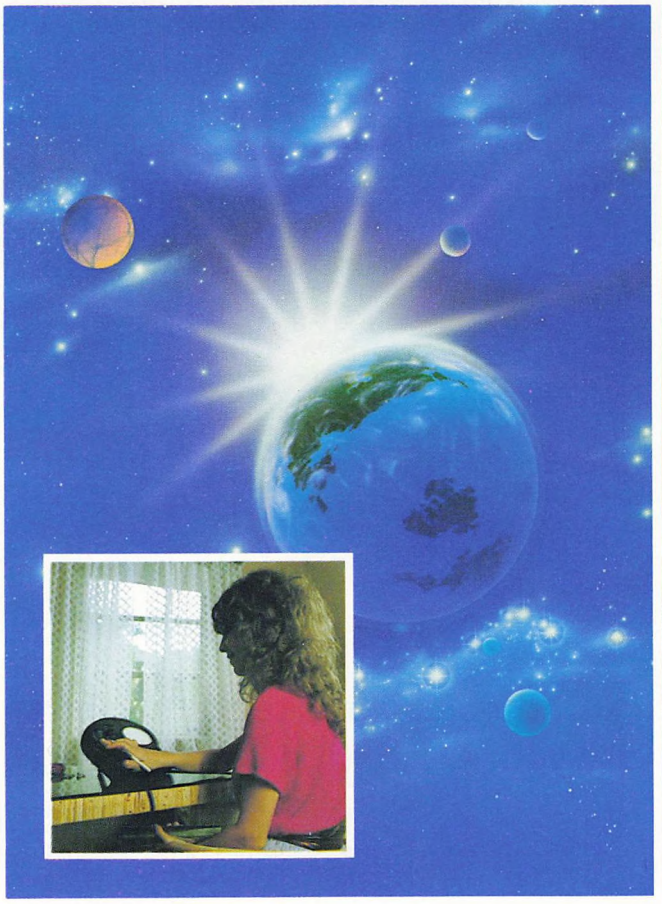

The wins from this level leave most on it gasping for words to describe the joy of their experiences. There is, however, a band of wins for which people easily find words to express themselves. These wins stem from Ron's breakthrough that's made it possible to solo audit this extensive level at home.

The savings in time, travel and related expenses, lost hours on the job and with the family are enormous. The result is you can handle work, be with your family and solo audit NOTs. It also takes the slows and stops off moving fast on this part of the Bridge. What it does for speed on an already fast level can be breathtaking. Another point — the several thousand dollars you save because of this breakthrough can be a big bonus for your future, now that New OT VIII through XI have been announced and are waiting for release!

It works like this. Before you leave Flag, you learn all the lines and procedures necessary. No Solo NOTs materials, other than the Solo NOTs correction list, leave the base. While this minimizes security worries, it does mean you need to know your tech cold before going home.

At home you follow the written C/S you received before leaving Flag. On the written C/S is also marked the date when you must send your sessions in. You do this when it says to, and include any originations, questions or anything else you want known about your case which you'd like taken up. It isn't necessary to wait with such material until you send your sessions in, but you do save postage that way. The rule is that any such communications be done in writing, same as with the written C/S.

While you're waiting for your new C/S, you still carry on with your last C/S, as long as you're doing well and there's no trouble. Then

with the arrival of your new C/S, you're off on it. A new date for sending sessions in will be on it.

There is also a non-confidential form which you send in weekly. It's simple to do and helps the Solo NOTs Director of Processing keep well informed on how you're doing. You're always in the best of hands when you're on Flag's lines. Even when you're at home, you'll still have the advantage of the best in tech.

Should the unlikely event happen that you get in a spot of trouble, you return to Flag for the correct handling that'll put you in flight again. During the whole of this level you can have the unshakable certainty of the best and most standard tech anywhere backing you up.

For now, the thing to do is ensure you get moving on your next step fast so you're up to and through the Top of the Bridge as soon as possible. A lot depends on this being done — the release of NEW OT VIII through XI, and your being able to get on them when they are released.

"I was just calmly sitting, listening to a tape, closely following LRH. Word by word he was mapping a path out of the physical universe into the theta universe and beyond. Suddenly, I realized everything had melted away. It felt like my body was gone. There was no attachment to the physical universe at all.

"I had total duplication of the data; and could apply it forever from here on. This course is just dynamite." — T.B.

Fully duplicate the tech that shows you how to use your OT abilities.

The Doctorate Series Course for OTs has been called the "OT Apprenticeship." Many on New OT VI and VII consider this to be the perfect companion course to these levels. One pre-OT even said that doing this course had enabled him to get twice as much accomplished in his session as he had before.

You're an OT, so why not let yourself in on the tech of development and application of your OT abilities for real use. Let the Doctorate Course spark off the power in your OT potentials.

Ron's astonishing 1952 Philadelphia Doctorate Course lectures are the source of this course. In this series LRH shared his discoveries for the first time about the long hidden truth of the thetan, the theta universe and the relationship of theta to the mest universe.

The whole course shines with the practical wisdom of these lectures; and like them, it focuses on the capabilities of the thetan and how he uses them. It takes you, as a student, through each of the seventy-six lectures, tape-by-tape. Full word clearing, demonstrations and practical drilling are used all the way through it. The results? Just find out for yourself how dazzling they can be.

Your insurance that this indispensable truth really becomes yours is Flag's excellent Course Supervision. It is the most standard application of the tech on this planet. It's this precise application that helps you duplicate your course materials, apply them and function as the OT *you know* you are!

HOW TO REACH FULL OT

or, why you want to get trained too.

How many times, in your progress up to OT and the top of the Bridge, have you seen or heard the datum — "Training is 50% of the route"? Probably often.

Let's suppose you win, or somehow come by, one of the incredible home computers out on the market now. A top-of-the-line, current-state-of-the-art wonder. The kind that'll wash clothes, feed baby, plant a garden, and keep the tax man forever from your door. That sort of electronic marvel.

There's one hitch — no operator's manual comes with it. Here's this potential means for a life of ease; but without the data to have it do your bidding, what good is it to you?

A largely untrained OT is in much the same situation. From whatever OT levels done, he has regained considerable potential abilities. He can use them, too. But, like the computer without the manual, the effects of their use doesn't always come out as intended.

A win by definition is: "Intending to do something and doing it or intending not to do something and not doing it." Winning is a very OT activity. It's creating the effects you want to create successfully.

What is enough for a thetan to know?

This is Ron's view:

". . . a thetan who knows enough to handle the problems of the mest universe, knows enough about universes to handle his own, and knows enough to protect and handle his own universe when he has one.

"And he knows enough of the track and what happens in the mest universe so that it can't happen to him again."*

How much training would this take?

Your Grade Chart shows the full picture. It is true — you must travel both sides of the Bridge for full gains. You can however, progress far with the following.

From New OT VI (Solo NOTs Auditing Course) you get understanding of what the traps on the track have been, how to stay out in future, and of course, the vital know-how that permits you to Solo Audit NOTs.

The Doctorate Series Course for OTs is another big piece of your OT hatting. Here you learn how the physical universe is put together, about thetans and their true abilities, how to use them, and an awful lot more.

Together, these two courses provide a sound understanding for handling other universes and the physical universe. But what about handling the specific phenomena which come from the broad general phenomena of the physical universe? These are the things you run up against all day, every day. ARC breaks, overts, upsets and the like are handled with the tech from Auditor training. That's where you get the specific handlings!

To really become OT, *it is* necessary to know HOW the Tech works, as well as WHY it does. You get this knowledge only through training. You learn to help others, how to help yourself, and how to contribute better in any field.

Past upsets are what auditing handles. Training is where you learn to handle things as they occur in present time. For example, "The Academy Levels," Ron tells us, "contain some of the most fundamental discoveries regarding life and the human mind that have ever been discovered in the history of this universe."*

The truth of this statement could be, at first contact, rather staggering. Of course, Ron has made this tech available in easy to do gradients so you have only to do it and win! He has made this route even more certain and doable now with the release of his tech films. They're in full use at Flag, which has all released to date. The benefit for you is a certainty never before equaled on the data covered. And as a gift from Ron, they add no extra charge to a course.

On the Saint Hill Special Briefing Course you can carry on and win broad new vistas of understanding the secrets of life and the human mind. You get all of Ron's tech up through Class VI from an in-sequence study of all the developments, one by one, as they occurred. All the data once removed as confidential has been restored to the course, so you miss nothing.

"Auditors who have done this have said it all became brilliantly clear to them and they could think with ease with the materials." — LRH*

Does one have a choice about getting trained?

One always has a choice, but Ron gives this cold hard fact which makes the optimum choice clear and easy.

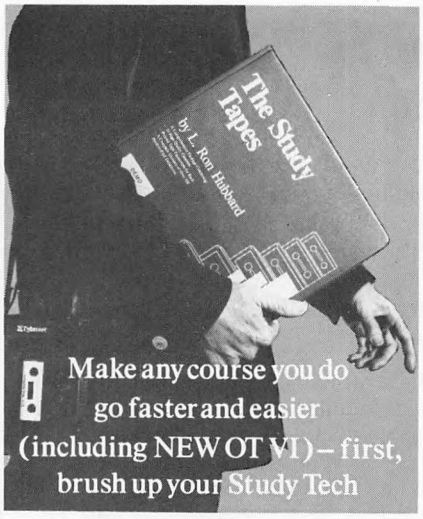

". . . an individual can only progress so far without an increase in understanding. Now previously we said it was a good thing if somebody was Clear and became OT that he should be trained. Well, that's totally reversed now. Should be a good thing — no, no — it is nothing like that. He'll never make it unless he's trained."*

Is it advisable to start training before the OT levels?

The additional advantages are quite distinct and make it very advisable!

1. The trained auditor once on his OT levels goes much faster than an untrained person. Usually the more trained he is the greater his velocity. This is particularly true on the new solo levels.
2. His cognitions tend to be bigger because he has the tech data with him at the time, rather than at a future date.
3. Naturally this means proportionately larger wins are his than had he not been trained.
4. He has the economic advantage. The trained auditor can accomplish more in less time with bigger gains; and he takes less handling as a pre-OT because he understands more of what's going on. He gets additional benefits too. For instance, on New OT VI (Solo NOTs Auditing Course), if he has completed the Solo Auditor Course Parts I and II, a Class IV auditor is validated with a 40% reduction of the full donation. If he's a Class VI (SHSBC) then it's an 80% reduction.
5. A first hand success: "The knowledge and the ability which I got on Level 0, I apply every day in my Solo NOTs Sessions. I've found that due to

STATES of BEINGNESS

(continued from page 5)

Just below that, it then goes into unconsciousness. Imagine a fellow going into unconsciousness from a fact that he hasn't even a clue that he is conscious and recognizes there's a state below that where he can be unconscious. Here you're getting down into the very lower dregs and into the upper strata of the human race.

What You Are Working With

You are working with somebody who automatically goes unconscious from an automatic consciousness. He hasn't a clue of what he is. He is a removed something. He is an identity. He is a body.

Man's text books say "Thinking is done by the brain." Crazy. Man thinks he's the body. He thinks he's no better than endowed life. But he is better; and he can be picked up from that point quite remarkably.

Less the Effect of Cause

He could be picked up rather rapidly, as a matter of fact, to a state of Grade Zero. Never sneer at that, because that's quite a distance.

Now his ability to be alert at Grade Zero is still not up to causative alertness or causative unalertness. He isn't up to the point where he decides to be alert and he is; or he decides not to be and he isn't.

What common denominator is there to his increase of beingness? Well, he is less the effect of cause as he improves. If he were getting worse, he would be more the effect of cause. Now that's not only his own cause, that's also other causes around him.

A person who's getting down around the "I'm a brain" stage is one who is having an awful hard time. He worries himself silly. He hears a pin drop in Keokuk (a Mississippi River town in Iowa). That a pin has dropped there, of course, means that he is going to have an immediate assault upon his life because he is the effect of anything; so therefore he is the effect of anything that occurs anyplace.

From that point, he can go down scale so that he doesn't worry anymore about it. Below this, he can go into faith. He can get down to a point where he has an automatic regulator so he doesn't have to be alert in any way, shape, or form.

"Throgmagog"

Individuals will mock this up for themselves. I don't mean religions particularly, but rather they'll mock these things up for themselves. They'll mock up the god "Throgmagog," for example. He'll give them all kinds of advice about what to do and that sort of thing. Yet, they don't even know they're mocking up Throgmagog.

When a person goes down scale like this, he has got to release further responsibility for anything that happens to him and just sort of go numb. This is a horrible place to go to, because he now can become the subject of any number of automaticities. When they turn on, then he is what we normally call "insane," or totally irresponsible. Any kind of a triggered automaticity might trigger him into almost anything. The average of the human race is about a quarter of an inch above that.

He's well below the level, at this point, to be the effect of anything — good effect or bad effect. Anything is a terrible effect. So he has to be an automatic thing which has an automatic effect. Actually, he's Q'ing and A'ing with an endowed cell along about that point. But, because he can come up scale, you in your presence can bring him up scale.

The Difference Between Clear and OT

On the upper end of the scale, as you roll up through the Gradation Chart, you run into a strata now which requires further definition. What is the difference between a Clear and an OT? How come a Clear can still make an E-Meter read; or how come he can still find out things about himself? Such questions are very interesting.

A Clear is not an all knowing being. A Clear is somebody who has lost the mass, energy, space and time connected with the thing called mind. Mest mind. That is what a Clear is. That's terrific! There's nothing wrong with that; but there is another state.

A Clear moves up through becoming

NEW
OT VI
Solo NOTs Auditing Course

"WOW! I've just been handed the secrets of Life on a silver platter! – M.B.

"The Solo NOTs Auditing Course has given me a number of very important things, unobtainable anywhere else. First of all, I have the tools to handle my own NOTs case. That is quite remarkable. Another thing is that I've gained a certainty that I have never felt before. When you can grasp the basic truths about life you find you can have an unshakable certainty about yourself and your own universe. Thanks to Ron and to my supervisors." – A.B.

"Except for the Briefing Course, this is the most valuable training I've ever had. In fact the two are really harmonics of each other. These courses are *vital, vital, vital* data for any being who intends to survive on more than the First Dynamic." – B.F.

"The Solo NOTs Auditing Course is the complete combination of essential data, case gain, and experience by drilling. I'm rehabilitated as an Auditor, as well as a Solo Auditor. The supervision I received was superb. I can't dream of a more ideal scene for a course setup – and now to audit!" – D.P.

"I'm on the Solo NOTs Course, and I want all to know of the wins you can get doing this beautiful course. It validates you completely as to your ability as an OT. It's set up in exact gradient steps for understanding this level to the fullest.

"An example: I read something that made my mouth open in awe. Pretty soon after, the room was just too small for me. I told my Course Supervisor and she told me to take a walk. As I walked, I began to grow and grow. I could see the passage beneath, and the one beneath that, and so on right to the lobby.

"When I've had this funny feeling with me and the walls go thin, I feel awfully good. There is no mass around me for about seven or eight yards. I occupy that space. I am exterior.

"I am OT; and from what I'm learning on this course, I know I'm okay for hundreds of millions of years. That means lifetime after lifetime of being cause. My love to LRH and all who are here." – M.S.

NEW
OT VII
Solo NOTs

"Solo NOTs is the most *direct* auditing I've ever had.

"On Solo NOTs I find myself addressing the level of considerations and postulates. These are things on a very high wavelength – a wavelength very close to theta.

"It's effortless. Doors which were shut for aeons have now magically opened. My thanks to Ron and all who work with him." – H.H.

"As I continue to audit Solo on NOTs, my wins get bigger and bigger. I've reached new levels of stability and certainty.

"This is so exciting to realize. Even more exciting is to know that it's me who is leading me to higher and higher gradients of being and operating as a thetan. I find this tremendously satisfying that I can finally take full responsibility for me and my universe!" – D.C.

"All my life I have been hypercritical. Since I was five years old I wanted to be less critical. I had even prayed diligently to God for this relief. Believe me, it is not comfortable to live with carping criticism – ask my husband. I saw always what was wrong. I'd walk into a place and I could have written a book on the out points.

"Then the miracle! Two days ago I noticed that there were no graffiti in the service lift (elevator). My first uncritical observation in god knows how long. Then tonight I knew I'd achieved this new state of being uncritical. I feel a whole new platform of awareness. A whole new viewpoint. A whole new me!" – B.G.

"I just gave a 'That's it' to my last viewpoints as a homo sapien. I spotted the only barrier on my road to OT; which is unwillingness to know what one already knows. In terms of mechanics, it's not taking responsibility for the knowledge one has; and to that degree not expanding on the KRC triangle – and therefore not becoming able or more able as an OT.

"I'm in a state now where my body has really nothing whatsoever to do with me. I start now to blast through the confusion of sliding that viewpoint into my life, and so reorganizing it. I hope you will be there soon too." – P.K.

Cut your time up the New OT Levels Get Flag's Super Case Boosters

Ron developed the L's as a result of his research into the levels above OT VIII. His success was startling. These rundowns can handle things that are handled nowhere else!

"The breakthrough which exists here technically," he said, "is so strong that it actually cuts through the normal protective mechanisms of the mind . . . It came actually from the OT Grades. It answers the question, 'Why does an OT restrain himself and cease to behave as an OT?' "*

Part of his discovery was that this tech could be used lower down the Bridge to get people up it faster — very much faster.

The L's address the basics of a thetan's case directly. They undercut the reactive mind and handle those factors which suppress the capacity to actually Be, Do, and Have. They remove those things that can make you less yourself and far less powerful and causative as a thetan.

These rundowns are designed to find and crush the basic counter intentions along one's dynamics.

"A major thing they have done for me is to stabilize and align my dynamics. They work together like the strands of a rope; and that is power. The L's got rid of Q and A in my life. An area where this has really been a great advantage has been on my OT levels. Through all I have gone A to B. There has been no waste of time doing these actions." — E.H.

"My estimated hours for NED for OTs were cut back, and I feel it is running faster for me than it would have done if I hadn't had the L-12 first." — G.T.

"My gains from Audited NOTs were fabulous and smooth running. L-12 to me seems to be the proper action to enhance Audited NOTs!" — L.O.

"L-11 has given me an expanded new 'OT' life. I have the goal of going full OT ahead of me again!" — H.C.

"I feel like I've just awakened as a Thetan . . . I've changed the direction I've been going in completely — I'm back on my original goal and purpose. All stops are gone!" — L.B.

Briefly, each of the L's can thoroughly handle a specific major area of your life.

L-10 has 23 potent distinct actions geared to vastly raise cause level and willingness to do things. It knocks out the reasons a being withholds himself.

L-11, through its six mighty actions detects and smashes the major barrier in a person's case. The results are a New Life — new ability to have.

L-12 consists of three intense actions. Their effect can be described as causing a shifting in and blowing of the deepest, unwanted personality traits which aren't even known to the person until handled. This trio causes more change at a higher rate than any other auditing. Beingness soars!

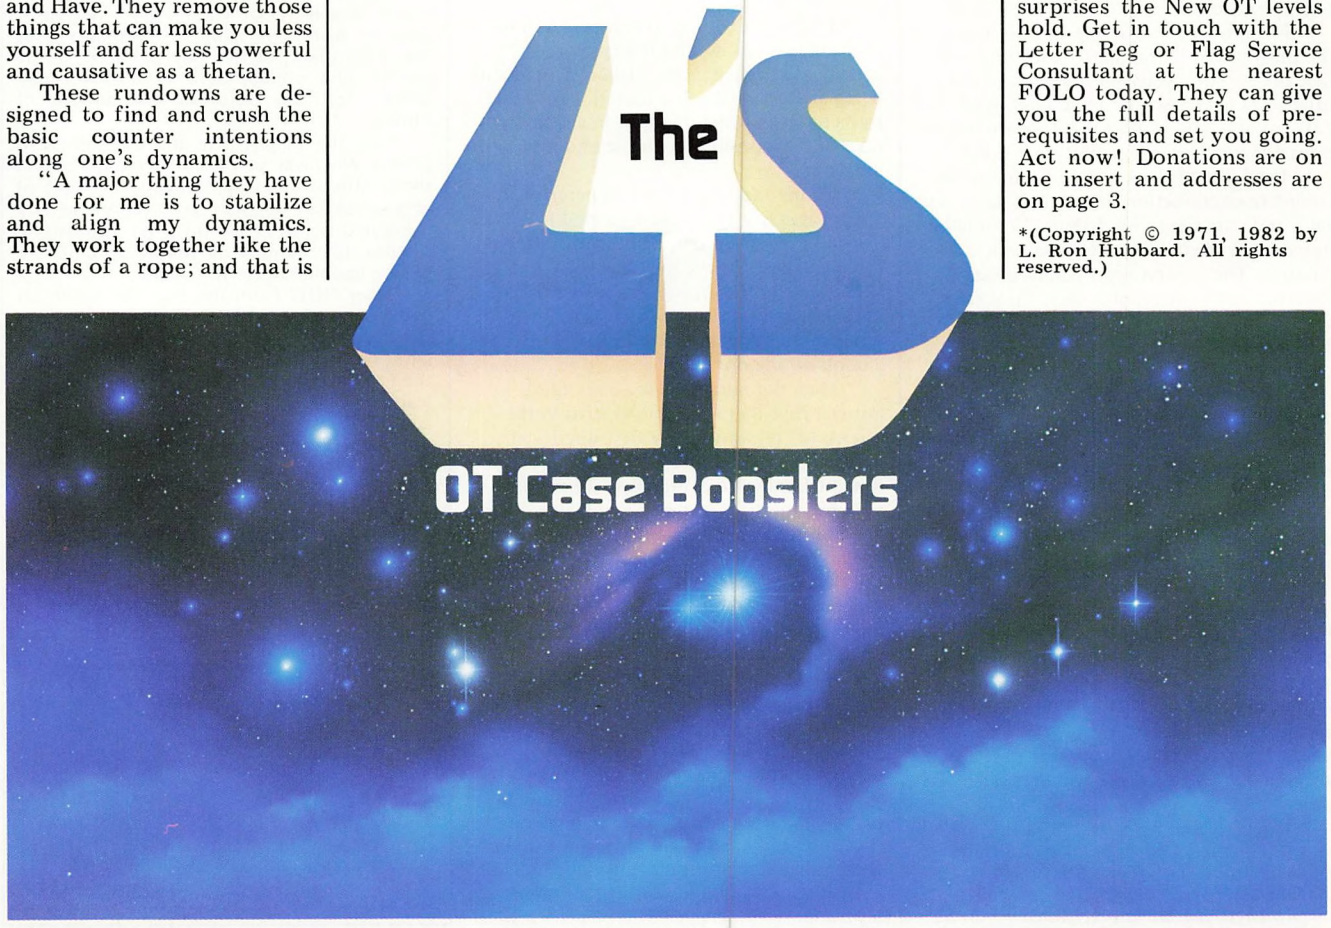

The L's are delivered at *Flag only* by the highest classed auditors on the planet — the Class XIIs. They parallel the Grade Chart but aren't on it. You can do them between most points on the Bridge after Grade IV Expanded and with the exception of the Non-Interference Zone. "The higher a person is on the Class Chart, the more gain comes from it."
— LRH *

They truly are OT case boosters!

Do them singly or in a set. The most optimum way is usually as a set. The Flag Class XII C/S will determine the best sequence for you to do them in.

Get your L's. Handle the rock bottom aberrations that can slow your rise to the heights of OT and all of the surprises the New OT levels hold. STATES of BEINGNESS

(continued from page 14)

cause over the matter, energy, space and time of his mind. The more he drills on this, the more interesting life looks to him, and the bigger he feels.

Now, an Operating Thetan is a being who is knowing and willing cause over life, thought, matter, energy, space and time. That's the definition of OT; and it doesn't say a mind. Of course, when you say life, that includes other beings. That's why I've been writing to you about endowed cells.

An OT can handle life. It doesn't matter whether he can or can't handle another thetan. He could be heavy cause over another thetan, but that isn't the point. He can handle this commodity known as life.

Willing and knowing cause over life, thought, matter, energy, space and time. That would of course be mind and the universe. That's a pretty large order. So there's a terrific gap between a Clear and an OT.

Bodhi

We have actually been advancing above the most extravagant goal of psychotherapy, mental treatment, religious increase of beingness and so on. We've been way above this for a very long time. We could still make today, in a very short space of time, the original goal of betterment which was bodhi (enlightenment). We could make a bodhi today; and that is undoubtedly below a Dianetic release — a thetan exterior as we call them.

Increasing His Own Beingness

The pity of all of these states of beingness is there is a limit on the amount one being can do for another. One cannot live another's life for him without being the other. One can provide a safe environment. One can show a way. One can blaze a trail and demonstrate and hold in place a methodology; and provide for the ethical application or administration of it. One can give advice. One can sit and pervade the environment with calmness. These are great. Man in the past considered these things absolutely miraculous. Now what I'm giving you right here is the understatement of the age. His religious textbooks are full of just this. This is all of his tests. But that is the limit. The rest is up to the guy.

Unless you lead an individual to increasing his own beingness, he in actual fact will never arrive. He will never become any thetan. You can do various things, but basically, the final net result depends on the individual himself. And this is the point which has been missed in all past endeavors in self-betterment or the improvement of Man or civilization.

These endeavors have always contained an element that if a state became socialistic enough, if the priests said enough prayers, if there were enough joss (incense) burned on the altar, then some miraculous intervention would take place that would make this sow's ear into a silk purse.

The miraculous intervention has to come from the person himself. That is the miraculous intervention that will get him out of the mud. Today, with Scientology technology, the miraculous intervention will actually hand immortality into his hands. This is a goal which has been Man's goal for a very long time. That's not a slight gift.

In the final analysis a being has to be led up to a point by a fairly unenturbulated environment. By various approaches, he has to be led up to a point where he could destimulate enough to somehow or other reach that next rung; and to overcome the terrors of becoming the effect and therefore himself put his own feet on the road to his own destiny. In the absence of that, he won't make it.

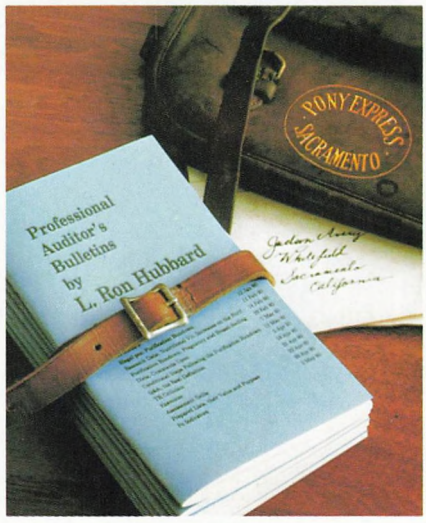

Reverse the Whole Scale

This gives you a very great forecast on really how many Clears there will be or successful clearing will be. Also how successful the whole thing comes off, and how many OTs there will be.

A Clear is of course immortal, and knowingly so. But the question is, how many — how all? It'll actually be how all to the degree that all of us provide a secure environment in which people can destimulate to a point where they can find a way to walk.

Ordinarily you may think that maybe trying to make a family or your house calmer or better; or make some-

Have the current information you need to handle your PC's case properly and standardly. Link up to this fast tech line now, so you have the certainty you're up to date on new developments.

What Are The NEW PABs?

This is an all new subscription service which recreates Ron's successful tech line to the field of the 50's and '60s – the old PABs. The new PABs aren't the PABs of those days reissued in a new format. The new PABs carry all the most recent HCOBs of general interest. They end the wait necessary for enough to accumulate so a Tech Volume can be issued. Enjoy the convenience also of not having to go into the org to pull issues.

When enough new material is collected it will be permanently bound and issued as a new Tech Volume. You will already have had the benefit of this data through your PABs. Meanwhile, the PABs will continue bringing you the current data 10 to 12 times a year.

Individual PABs are not for sale through the bookstore, however, back issues are available from Bridge Publications, Inc.

Subscriptions are for one or two years at a time. While each Tech Volume when released will become a valuable part of your reference library, why wait until one is issued. Have the up to date materials now so you can continue delivering good auditing to your pc. Subscribe now. See the insert for rates and the reply mailer. You'll start receiving the PABs at home with the next issue!

If unavailable, order from Bridge Publications, Inc. 1414 N. Catalina Street, Los Angeles, CA 90027; or New Era Publications ApS, Store Kongensgade 55, 1264 Copenhagen K, Denmark.

HOW TO REACH FULL OT
or, why you want to get trained too.

(continued from page 13)

my training, my Solo NOTs sessions are much more effective. Additionally, I'm studying the PDC tapes. All three together (the training, Solo NOTs and the PDC tapes) work as a triangle so that raising one corner, lifts the other two. That's really great! I see its importance. I want more and more training." – J.K.

What are the additional advantages a pre-OT gets from training at Flag?

The undeviating standardness and personal interest found in Flag's Course Supervision is very well known. Coupled with the distraction free environment created at Flag, several extra advantages for the student result. A. You can put your full attention on your studies and go A to B. B. Flag Supervisors are the highest trained on the planet. Leading supervisors found elsewhere on the planet have trained under them. You can have confidence in receiving the full benefits of supervisor tech, and gain personal certainty on standard tech. C. Courses go fast. You can complete in the time stated on your checksheet – or less. People often finish in less than checksheet time. D. Flag has the tech and the means to handle any study bug that might come up. Flag is the Mecca for those who seek technical perfection. E. Perhaps most important of all, when you complete a course, you can be certain you'll be able to apply and use the tech, and truly operate as an OT.

How to set up your Flag Training Program.

The whole training Bridge is open to you at Flag. As the only Class XII Org on Earth, it can deliver any training service you see listed on the Grade Chart. To set up the training program that's right for you – to ensure you get the full use of all your potentials, contact the Flag Training Consultant. His phone number and address are on page 3. Be able to help an OT gain Greater Cause Over Life as a NOTs Auditor

the SEA ORG

"All things worthwhile have to be fought for: every decent impulse in man's history has been opposed.

"The fate of the entire civilization is decided on the issue of which one wins."
— LRH*

A potent force in helping decide which one wins is the highly trained NOTs (Class IV — Advanced Course Specialist) Auditor. He works to make winning a reality every day by assisting OTs to become greater cause over life on Audited NOTs — New OT V. He does this as a member of the Sea Org.

The Sea Org is that tough dedicated group which uses all of Ron's tech, ethics and admin to handle the civilization and create a better world.

As a NOTs Auditor, you gain the ability to deliver the most powerful tech that exists in the universe. If you're OT III and a Class IV Auditor (or very near to being so) you can begin, and become one of the decisively causative elite NOTs Auditors. If you don't yet meet these requirements, the Sea Org has a galaxy of opportunities for you to expand into — as an auditor, or any of the other countless professions needed to win the game and create a new civilization.

Do you want to take an active, *causative* part in fully handling this planet's aberrations? Write now to the Flag Service Org, Department of Personnel, c/o Flag's address on page 3; or call (813) 443 - 3916 direct.

HANDLING THE CIVILIZATION AND CREATING A BETTER WORLD

OTs:

"Life in its highest state is understanding. UNDERSTANDING IS COMPOSED OF AFFINITY, REALITY AND COMMUNICATION."
– LRH*

Feel on Top of the World because your Comm Cycle can stand up to anything! **Enroll now on the New Hubbard Professional TR Course**

"TRS," Ron says, "ARE METHODS OF DRILLING THE COMMUNICATION FORMULA AND BECOMING EXPERT IN ITS HANDLING AND USE."*

After three years of painstaking research Ron has developed the *final* answer to TRs training. It's in his new course!

What does this mean for you?

Imagine. What could life be like were you truly expert with your comm cycle – if these abilities were part of your OT repertory?

1. You're able to give standard fast delivery to your PC. You have your comm cycle in such shape that it can faultlessly stand up to any session.

Or 2., when you're out enjoying life, you're able to listen, duplicate and have real understanding so you can get along with others better than ever. You have a comm cycle that can stand up to any social situation.

On the NEW Pro TR Course, you can gain such abilities with certainty, and have confidence they're yours for good. When you get the valuable final products of Ron's course, you can't help but feel you're on top of the world.

What are Ron's breakthroughs which can give you such results?

There are several. Each one, by itself, is a major breakthrough in TR training. On this new course, you get all of them!

WHAT? Auditing on a TR Course?

With a characteristic stroke of genius, Ron devised a series of Clay Table Auditing Processes on Communication and TRs. They are simple, basic, and enormously powerful. They undercut any difficulties a person might have had in getting their TRs in before now.

One OT on the pilot exclaimed, "I had an amazing release on this Clay Table Auditing that was totally unexpected. I blew through a lot of misemotion and came way up tone and realized that I am *understanding*. I gained an expansion of viewpoint that compares to any OT end phenomena I've had."

This is but the start of what's on this course for you, when you enroll.

The film *An Afternoon at Saint Hill* is assigned to this course. It has the only example of Ron auditing on film. Learn what flawless TRs are really like.

There's also a point that could easily get overlooked, but is in itself a breakthrough – TRs tech that has been lost over the years has *now* been restored to use and put on this course – where it belongs!

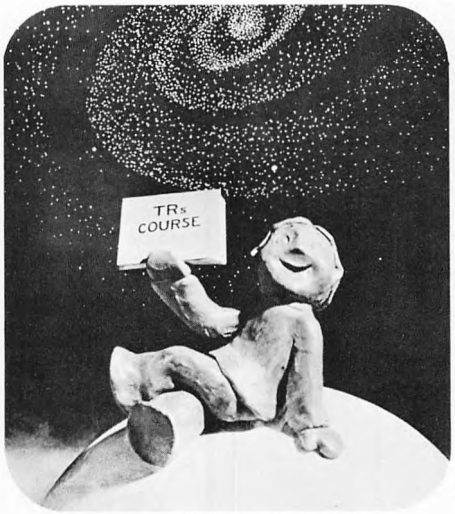

That's just a few of the things which make this course the phenomenon it is. Of course all the clay demos, tapes, tech and drills of the old course remain intact.

Flag's top TR supervisors were put through rigorous special intensive training so you get flawless delivery of the tech; and the full benefits of Flag's famous adherence to LRH standardness. That means you need have no doubt you can attain the products of this course.

Have the ARC and KRC over the environment you'd like to have. Take the actions necessary to add pro TRs to your repertory of OT abilities – be certain you can create exactly the effects you want to.

Successes off the pilot of the course have already created heavy demand for it. Claim your place now. Contact the Flag Letter Reg, or the Flag Service Consultant at the nearest FOLO and sign up today.

STATES of BEINGNESS

(continued from page 17)

body's life a little easier to live, is hardly even worth doing. It's such a tiny amount. But it is. Actually just to reverse the whole scale back again, that is the final effort that will let the bulk of humanity out. It's how calm and how decent you can make the environment in which they live.

24 KT gold - rich chocolate brown leather

Crafted to form the Flag exclusive Limited Edition Mark VI

Here are rare materials selected for the pleasure of the special person who makes one of these exclusive meters his own. The edition is restricted to a discreet 100.

The look is executive – the performance is Mark VI excellence and computer accuracy. It's a meter for both your use and admiration.

This meter is a fitting tribute to these major levels to full OT – the Solo NOTs Auditing Course, New OT VI and Solo NOTs, New OT VII. When Senior C/S International gave his briefing about these levels, he explained that one of the factors which made their release possible was the development of the Mark VI. Without its incalculable precision and depth of read into the bank, the Solo NOTs levels wouldn't have been possible. With it, the correct things read, get run and the F/N indicated.

What makes this limited edition Mark VI a luxury collector's treasure, above and beyond the superb auditing tool it already is?

Three things – fine craftsmanship, natural leather and 24KT gold.

Supple chocolate brown leather has been hand fitted to the steel case. It is styled as an executive brief case. Two "Presto" three-tumbler combination locks ensure the confidentiality and security of the contents. Pockets fitted inside the lid give you convenient storage for your materials.

Counterpointing the rich dark leather and meter color are the warm 24 KT gold accents. The locks, cans (OK'd by Senior C/S International) and edition identification plaque are electroplated in this precious metal. The dial marks and numbers are hot stamped (very durable) in authentic simulated gold leaf. The whole effect *is* aesthetic elegance.

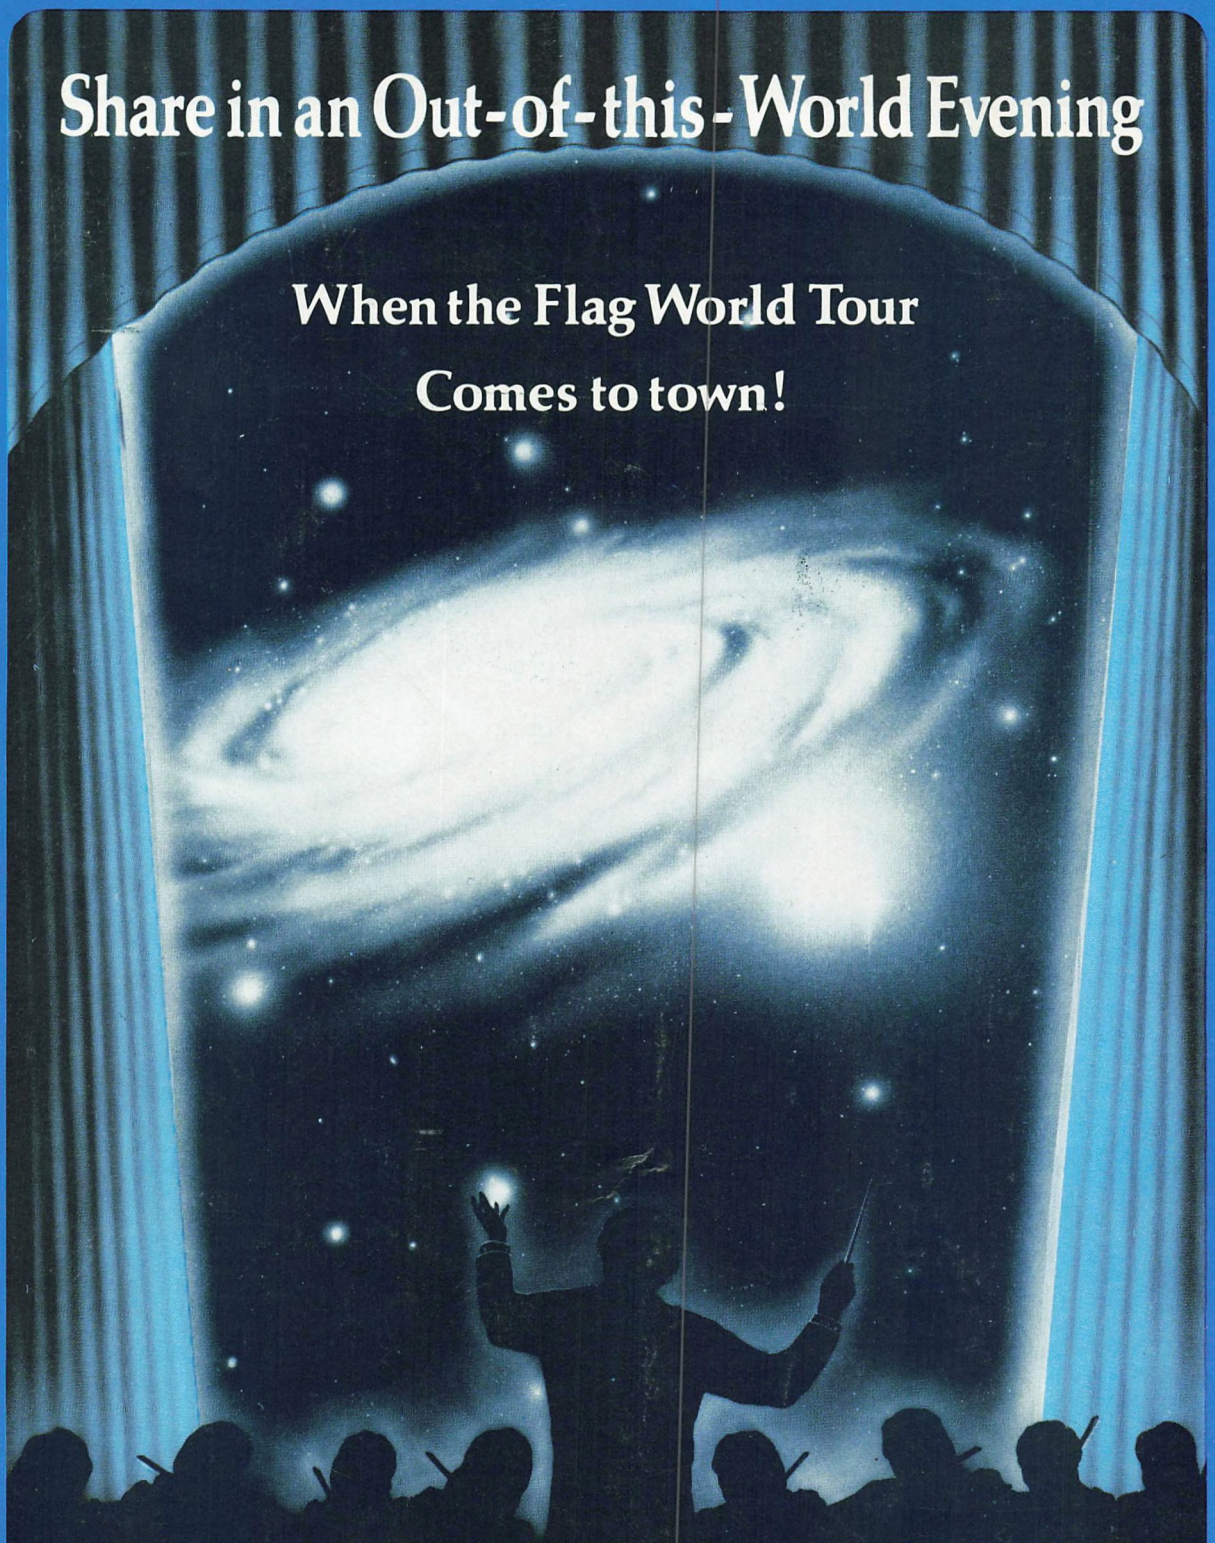

On the oval edition identification plaque is your number which tells you which meter of this limited edition you own. The plaque is your verification of authenticity!

Act now! You can be one of the 100 to own this Flag exclusive edition commemorating the milestone event of the NEW Solo NOTs OT Levels. Find the price and reply mailer on the insert. (Note: your 10% membership discount does apply.)
