EXECUTIVE DIRECTIVE

LRH ED 346 INT 10 May 1982

TO: MY FRIENDS

FROM: RON

SUBJECT: THE SO #1 LINE

Church executives and staffs now run the Churches and such organizations. They have been very good about handling mail, even though I am no longer connected to the Church and it is not my legal address.

But the other day I suddenly noticed there were only two mail bags full for the week. I asked what this was all about and was informed that earlier, an unauthorized person, using my lines, had inferred I did not ever see your mail. I almost wept. What an awful ARC break to hand you! And for no valid reason! The person who did that now has blown—understandably. What an awful thing to do to you!

Don't think these lines are out—they aren't. I am always happy to receive communication from you as to how you are doing in Scientology and progressing on up the Bridge.

I love your letters and I would miss them.

I look on the SO #1 line as the only way I have of hearing from my friends. I am interested, man! Why else do you think I work so hard? YOU!

A man is as rich as he has friends—and that makes me the richest man in the world.

So don't get the idea you are not heard and are out of comm with me: It isn't true. You are heard. And appreciated.

Love,

RON

DEFINITIONS OF SCIENTOLOGY TERMS

ability gain: The pc's recognition that the pc can now do things he could not do before.
as-is: To view anything exactly as it is without any distortions or lies, at which moment it will vanish and cease to exist.
auditing: The application of Scientology processes and procedures to someone by a trained auditor. Auditing gets rid of unwanted barriers that inhibit, stop or blunt a person's natural abilities as well as gradiently increasing the abilities a person has so that he becomes more able and his survival, happiness and intelligence increase enormously.
Auditor: Scientology processing is done on the principle of making an individual look at his own existence, and improve his ability to confront what he is and where he is. An auditor is the person trained in the technology and whose job it is to ask the person to look, and get him to do so. The word *auditor* is used because it means one who listens, and a Scientology auditor does listen.
Be, Do, Have: The Conditions of Existence: there are three conditions of existence. These three conditions comprise life. They are BE, DO and HAVE. The condition of being is defined as the assumption (choosing) of a category of identity. An example of beingness could be one's own name. Another example would be one's profession. The second condition of existence is doing. By doing, we mean action, function, accomplishment, the attainment of goals, the fulfilling of purpose, or any change of position in space. The third condition is havingness. By havingness we mean owning, possessing, being capable of commanding, positioning, taking charge of objects, energies or spaces. These three conditions are given in an order of seniority (importance) where life is concerned.
beingness: the person one should be in order to survive. Essentially, an identification of self with an object.
Bridge: A term originating in early Dianetics to symbolize travel from unknowingness to revelation.
buttons: items, words, subjects or areas that cause response or reaction in an individual by the words or actions of other people, and which cause him discomfort, embarrassment, or upset, or make him laugh uncontrollably.
case: The way a person responds to the world around him by reason of his aberrations.
case gain: The improvements and resurgences a person experiences from auditing. Any case betterment according to the pc.
Case Supervisor: That person in a Scientology Church who gives instructions regarding, and supervises the auditing of preclears.
Charge: Harmful energy or force accumulated and stored within the reactive mind, resulting from the conflicts and unpleasant experiences that a person has had. Auditing discharges this charge so that it is no longer there to affect the individual.
class: Refers to the level of Classification of an auditor.
Clear: A Clear is a being who no longer has his own reactive mind.
communication: The interchange of ideas or objects between two people or terminals.
computation: technically, that aberrated evaluation and postulate that one must be consistently in a certain state in order to succeed. The computation thus may mean that one must entertain in order to be alive or that one must be dignified in order to succeed or that one must own much in order to live. A computation is simply stated. It is always aberrated. A computation is as insidious as it pretends to align with survival. All computations are held in place wholly to invalidate others.
C/S: a case supervisor direction of what to audit on a pc. See also *case supervisor.*
drugs: By drugs (to mention a few) are meant tranquilizers, opium, cocaine, marijuana, peyote, amphetamine and the psychiatrists' gift to Man, LSD which is the worst. Any medical drugs are included. Drugs are drugs. There are thousands of trade names and slang terms for these drugs. Alcohol is included as a drug and receives the same treatment in auditing.
dynamics: the eight urges (drives, impulses) in life. The first dynamic is the urge towards existence as oneself. The second dynamic is the urge towards existence as a sexual or bisexual activity. The third dynamic is the urge towards existence in groups. The fourth dynamic is the urge towards existence as mankind. The fifth dynamic — the animal kingdom. The sixth dynamic — the physical universe. The seventh dynamic — spirits. The eighth dynamic — infinity or the Supreme Being.
engram: A mental image picture which is a recording of a time of physical pain and unconsciousness. It must by definition have impact or injury as part of its content.
facsimile: The pictures contained in the reactive mind.
Flag Operations Liaison Offices (FOLO): FOLOs have been set up to maintain one single command channel from Flag to orgs. They are Flag's link to the orgs and vital to Flag management and expansion of orgs. There are FOLOs in Australia, Europe, Africa, the United Kingdom, East United States, West United States, Canada, and Mexico.
Flag Service Consultant: An FSC is a Sea Org member specially trained and fully briefed to be the stable terminal in his area as regards Flag services which include all Scientology and Dianetic services available elsewhere as well as some exclusive services like L-10 processing or the Elementary Evaluators Course. He is Flag's terminal in the field to ensure that public get their questions answered concerning Flag Services, technical estimates, etc., so that there are no stops whatsoever for anyone wishing to take services at the Flag Ship Org which provides the world's highest quality technical delivery.
F/N: floating needle. An E-Meter needle phenomenon. It is a rhythmic sweep of the dial at a slow, even pace of the needle. That's what an F/N is. No other definition is correct.
Folder: a compilation of data — the records kept by an auditor.
Grade Chart: Classification, Gradation and Awareness Chart. The route to Clear, the Bridge, a guide for the individual to Clear and above.
Grade 0: Communications Release. Ability to communicate freely with anyone on any subject.
HCOB: Hubbard Communications Office Bulletin.
HCOPL: Hubbard Communications Office Policy Letter.
MEST: coined word from the first letter of the words: Matter, Energy, Space and Time, which comprise the physical universe.
NED for OTs: New Era Dianetics for OTs.
NOTs: a popular abbreviation for NED for OTs.
OT: Operating Thetan, a thetan exterior who can have but doesn't to have a body in order to control or operate thought, life, matter, energy, space and time.
pc: Preclear.
Pictures: see *facsimile.*
Postulate: a postulate is, of course, that thing which is a directed desire or order, or inhibition, or enforcement, on the part of the individual in the form of an idea.
power: power is proportional to the speed of particle flow external and internal in an organization.
preclear: A person who, through Scientology auditing, is finding out more about himself and life.
present time: The time which is now and which becomes the past almost as rapidly as it is observed. It is a term loosely applied to the environment existing in now, as in "the preclear came up to present time," meaning the preclear became aware of the existing matter, energy, space, and time of now. The point on anyone's time track where his physical body (if alive) may be found. "Now."
Processing: a series of methods arranged on an increasingly deep scale of bringing the preclear to confront the no-confront sources of his aberrations and leading him to a simple, powerful, effective being.
Pre-OT: a thetan beyond the state of Clear who, through the advanced courses, is advancing to the full state of operating thetan.
PTS: means potential trouble source, which itself means a person connected to a suppressive person. All sick persons are PTS.
Reactive Mind: the reactive mind is a stimulus-response mechanism, ruggedly built, and operable in trying circumstances. The reactive mind never stops operating. Pictures of the environment, of a very low order, are taken by this mind even in some states of unconsciousness. The reactive mind acts below the level of consciousness.
release: a release purely and simply is a person who has obtained results in processing and has a reality on the fact that he has attained those results.
Routine 3-R; R3R: engram running by chains is designated "Routine 3-R" to fit in with other modern processes. Routine 3 Revised. [a chain is a series of recordings of similar experiences.]
rundown: a series of steps which are auditing actions and processes designed to handle a specific aspect of a case and which have a known end phenomena.
self-determined: one can only be self-determined when one can observe the actual situation before one; otherwise a being is delusion-determined or other-determined.
solo auditing: the action of "solo auditing" is not self auditing. Solo auditing is done in a regular session in model session form. In solo auditing the auditor is also the pc. This means that once the auditor has duplicated and understood the item or question the pc has also.
squirrel: to change and invent processes.
standard tech: A standardization of processes so that they apply to 100% of the cases to which they are addressed. The accumulation of those exact processes which make a way between humanoid and OT, the exact method of delivering them, and the exact repair of any errors made on that route. That terribly narrow path which we now call standard tech is composed of those things which if they are out inhibit and prohibit all case gain.
Thetan: the person himself — not his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware, the identity which is the individual. The thetan is most familiar to one and all as *you.*
withhold: a withhold is a withhold if it is a violation of the mores the pc has subscribed to and knows about.

"In this time and in this place..." –L.R.H.

The Mecca* for Those Who Seek Technical Perfection – Why Flag is here for YOU!

Somewhere on the Bridge you're very likely working your way up to the next level. Sooner or later your journey will take you to Flag for the new upper OT levels. That's but one of the many reasons Flag is here for you.

Ron asks in his *Journal 35*, "And what is one rising to after all?" He answers, "One is rising to eternity." And continues,

"You think time is behind you?

"Have another thought. Look AHEAD.

"There's eternity!

"And you'll be in it.

"You'll be in it in a good state or a bad one. Really, I'm sorry to have to tell you, there's no choice. One may be able to step off the planet. One isn't going to step off life.

"In this time and in this place — for possibly just a little while, we have this chance. To go free and to make it. Planets and cultures are frail things. They do not endure.

"I cannot promise you that you will make it. I can only provide the knowledge and give you your chance.

"The rest is up to you.

"I strongly advise you work hard at it — don't waste this brief breath in eternity.

"For that is your future — ETERNITY."

For the length of the Bridge, from bottom to top, there are important factors which have bearing on why you should come to the Mecca for those who seek technical perfection. You'll discover them here. Understanding them can help you to use Flag services to shape your future in the most optimum form you desire.

Some call the work of the Flag C/Ses magic because the individual auditing programs they create are so standard, so exactly spot-on. Again it's flubless command of the tech at work.

Flag is here for all — it's here to serve you.

In 1975 when Flag was established, Ron Said, "Here the goal is the perfect application of Scientology technology and here with a Flag Base we have widened the highway and broadened the Bridge for all to travel."

He also remarked,

"Flag runs on the basis of results or else so far as their tech stuff is concerned. The words 'failed case' do not exist on Flag. Therefore they have Rundowns and handlings to untangle the most tangled and get it going again. (Flag gets easy cases too. In fact they get some of the easiest and fastest cases in the world because such people have a way of making it through to the top.)"

"What you pay for at Flag is the most expert C/Sing for the best Rundowns by the best auditors in the world."

His words show without doubt that Flag services aren't for a select or privileged few. They're for you, and you and YOU!

How Flag can help you get up the Bridge quicker.

The ideal scene for both student and pc would be for them to do the whole Bridge at Flag. As the only Class XII Org on the planet it's the only one capable and qualified to give the entire line of services on the Grade Chart. Plus it delivers several exclusive services.

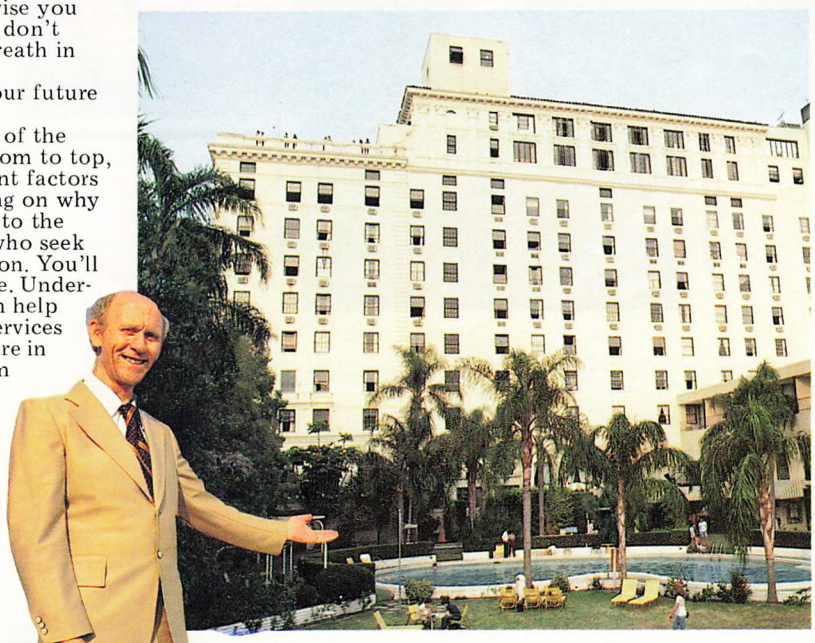

Case Completion auditing is a very likely service to do. If your path on the Bridge is in any way not as smooth as you'd like it, then get here! Have those rough or troublesome spots smoothed out so you can scoot up the Bridge as you'd like to.

If you feel stuck or hopelessly bogged get your case cracked at Flag. That's a specialty here. The Flag only Case Cracker Rundown has sent many a Scientologist soaring out of the depths of case confusions!

Of course most who come here aren't in such desperate shape. Still others, already doing well want to do much better. Perhaps this is you. The New Vitality Rundown or the L's are often the exact right service.

The L's are known as incredible case boosters because they put a person in such good shape they seem to rocket up from there on out. Anyone who meets the simple prerequisites can and should do them.

The highest trained auditors in the world, the elite Class XIIs, deliver the L's. The smoothness of their auditing has been described as being like silk. Usually people who've experienced Class XII quality are at a loss of adequate words to express their admiration for it. But their actions speak for them. Generally they get all their future auditing with a Class XII at prefered rates. These rates are higher but the FCCIs find their quantity and quality of gains from this auditing make the increase no problem.

You move on the exact gradient for maximum gain!

The primary foundations of Flag's excellence are high quality and a high level or ideal scene which is known and kept. All of the auditing and training staff are highly trained and hold these factors as basic to their operation. The result is top performance and top service for you.

Gains from training and processing take on proportions not reached anywhere else. Ability and awareness expand across the dynamics very broadly. The consistency and perfection of handling you get at Flag takes you up the exact gradient to result in maximum improvement.

*mecca: a center of an activity or interest; a place where many people come; any goal that one is seeking to achieve.

(continued on page 7)

PROFESSIONALISM

"Where many splinter groups have not made it, you will, providing you have a professional attitude."

There are several things that monitor the success of auditing. One of them is something which has remained more or less understood amongst us, and that is a professional attitude.

The reason healing professions have survived, even when they couldn't heal, is centered around that one fact — professional attitude. The substance of a professional attitude is it doesn't matter whether a man is red or black or white or a democrat or a republican or belongs to the "I Will Arise Church" or is an atheist, or a friend or an enemy. That doesn't matter. A professional attitude requires from a practitioner that he is a professional. He does healing. His attitude toward healing is "there is a being," and he heals him or her. That is all there is to it.

No additives

A good professional attitude simply betokens the fact that somebody is in need of healing, and somebody is healed. There are no additives. This is a very hard-boiled professional attitude actually. It can possibly get you into trouble when you yourself have caused the injury, because it'll do an emotional tone curve on you. Say you hate the man, evidently you then have to come down into propitiation because you're now healing him. That's one of the things that gets this attitude in trouble.

An auditor is as good as he can assume a professional attitude towards the pc he is auditing. It does not matter whether that pc has overts against him or withholds from him, or if there's any personal equation of any kind whatsoever here. That has nothing to do with the auditing session. The auditor is a professional. He applies his profession to that individual, regardless of that individual's condition, opinion, race, color, creed or anything else.

Past healing professions

Let me call to your attention that the above fact alone has brought healing professions through the trillennia. They didn't even have to be able to heal.

Witness the doctor of today. That poor man doesn't know a bacteria from a "bacterial." He has got camels and bugs and he wouldn't know which is which. He sets bones and breaks them again and he doesn't know what he's doing. He's just adrift. The amount of brutality and psychic trauma which he causes in the process of his healing should alone actually require that he be handled.

The field of psychiatry isn't a medical or healing practice at all. It's the practice of mayhem and incompetence combined pure and simple. It's not even competent mayhem.

A psychiatrist is far more prone than the medical doctor to depart from the professional attitude of the healer. He's far far more prone because he himself is less mentally stable. He's a fake, and he's pretending to be able to do something about something but he hasn't a clue. The medical doctor can at least tie up a finger, but a psychiatrist can't tie up a trauma. All he can do is create them — that's for sure.

Yet, these professions are respected. Why are they respected? There are many splinter groups and suborders of healing, that if they ever amalgamated into one group and laid down a code of professional practice, they would get a long way.

These groups are far less professional. They don't seem to be able to do that. Many of them have healing methods which are superior to those of the medical doctor, but they are not respected. That hasn't anything to do with the old school tie, they are just not that professional.

Personal attitudes

What is meant by professional? Well, they fall from grace all too often. They take personal attitudes toward this and that. Sometimes they take advantage of their position; and they're not generally so trusted, oddly enough. That's not any condemnation of any of these groups particularly; but I can tell you from what I've turned up, that they have not built this one thing into the public consciousness — that there is a professional attitude. The public cannot send their fellow public to them with a completely free heart. There is liable to be some personal attitude involved. It's not one of the minor groups, but it's certainly very true of psychiatry.

A husband cannot send his wife to a a place of psychiatry and expect the home to be served. There's liable to be personal interest, or personal conflicts which will develop under the guise of professional application.

The professional attitude

There is one blunderbus that has blazed a wide open path for all healing activities, whether they're Aesculapians or British Medical Association people, and that was a professional attitude. This latter group stuck very hard for this professional attitude: they made a lot of noise about it. And they stayed by it. You could find on a field of battle in, say North Africa, the British doctors and the German doctors after a tank battle equally treating British and German wounded. They'd be mixed up in there. It was their professional attitudes which protected them.

Cold feet

That sort of thing is something you could well acquire. It is however, far deeper than this. Here is the reason a husband and wife team doesn't work. They don't work well. They work. You can get something done. But, they don't work well because the husband has too much of a vested interest in the mental condition, attitudes and the like, of the wife. The wife has too much of a personal interest in the attitudes and actions of the husband. There is too much personal concern. There is far too much pitch on the processing session.

The husband processes the wife to get her over some things which he as a

Definitions

Aesculapian: of or pertaining to the healing art; medical: *the Aesculapian art.* From Aesculapius, the Roman god of medicine and healing; identified with the Greek *Asclepius.* One who practices this art.
ARC break: an incomplete cycle of some kind or another. It's a lowering of Affinity, Reality and Communication, so we call it an ARC break. It's a sudden down curve. It's a highly technical term. It means exactly what it says but its incept [start] and so forth is an incomplete cycle of action.
curve: throw a curve means to give an unexpected contrary datum. Also to shift reality. Curve itself is also the ordinary dictionary meaning.
model session: the same exact pattern and script (patter) with which an auditing session is begun and ended; the overall form of all Scientology auditing sessions which is the same anywhere in the world. Its wording is very fixed. All refinements of model session are in the direction of causing less ARC breaks and getting more done.
pitch: slang. A set talk designed to persuade.
Q and A: the origin of the term Q and A comes from "changing when the pc changes." A later definition was "questioning the pc's Answer." The basic answer to a question is, obviously, a question if one follows the duplication of the comm formula completely. Q and A is a failure to complete a cycle of action on a preclear. An auditor who starts a process, just gets it going, gets a new idea because of pc cognition, takes up the cognition and abandons the original process is Q and Aing.

A Bridge of SUCCESSES

at Flag the Mecca for those who seek technical perfection

Purification Rundown

"The Purification Rundown was a major action for me. I experienced all the tone levels from apathy up to enthusiasm. I know what drugs have done to me as a being.

"When I blew through stupidity after several of what I call rough days, I felt wonderful. I know beyond a doubt that drugs will never effect me as a spiritual being again." — C.C.

"The Purif is beautifully administered here at Flag. It goes like silk. I feel lighter, healthier and stronger. The cognitions are endless. I truly feel pure and free of the effects of drugs." — G.C.

Objectives

"This was a great action. I've handled huge chunks of case and had a great increase in my level of ARC, my action level, and my perceptions, and my enjoyment of life. I'm comfortable and in present time. A major step towards OT — DONE!!!"
— C.G.

"I feel totally in present time from these processes. In fact, so much so that there is no 'time,' only *now.* Solid objects have lost their heaviness. My body feels lighter too. All dimensions are in total and complete perspective. Thoughts that hung around and hung me up are gone. How easy it is to *BE.* Clarity exists like never before." — R.R.

Scientology Drug Rundown

"This was exactly the right action after Objectives. As I go up the Grade Chart I'm beginning to see how perfectly Ron has laid the path out for us. I feel clean — I feel a return of that 'innocence' I had prior to taking drugs. The figure-figure that drugs caused has disappeared." — D.H.

"This rundown was so effortless and smooth that I couldn't believe it was handling my extensive drug history. Then, lying in bed one morning, I realized that I was truely free of drug restimulations I had been the effect of for years. They had blown for good. It stunned me! What a deceptively powerful action. I had always considered that drugs had ruined me for life. Now I'm free of them." — J.J.

Happiness Rundown

"Before the rundown I read the booklet *The Way to Happiness* and said to myself, 'It's a great booklet but I know all these things so why do I have to do a rundown.' Then I did the rundown. It opened my eyes in certain areas of life, or just validated my knowingness as an OT. The rundown questions are designed to let you look at your own transgressions and false data concerning these precepts about how to be happy.

"Now I really *know!* I also know I will apply those golden rules because it's my way to happiness. In fact it already is happiness." — H.S.

"The Happiness Rundown is the *best* auditing I've ever had because there has been no auditing so far which has addressed *me* so much as this has. I certainly didn't know that I still had so many stuck emotions, ideas, opinions, invalidations from others and so on, that even as an audited NOTs pre-OT I sometimes had very depressed moments in daily life. So many things gave me a feeling of being torn apart. On this rundown I experienced regaining lost parts of myself and the blowing away of parts that weren't me. I achieved almost full recall and can see the truth in everything. I've never felt so calm. And I've a tremendous willingness to grant beingness to others. It is a very good feeling to know that happiness lies in myself." — S.E.

ARC Straightwire

"Once more I'm amazed by the simplicity and effectiveness of the processes developed by Ron and the incredible wins you get from them. From this one I have more certainty of myself and know now I can't get any worse. I know that I can go to anywhere on my track in order to release more and more of the charge that is on it. My auditor brought me through smoothly, swiftly and kept me winning."
— R.R.

"I had several really important wins on this level. The biggest was the realization that I have a future track and that the create I feed into other beings can carry along the track and be experienced again some time further on. Thus no amount of create is ever lost; and the actual cycle of existence becomes real as create-create-create. I've also had a good look at my track and know it's not going to do anything worse to me than it has already done. I can live for the future instead of worrying whether my past will catch me up." — P.Z.

Method One Word Clearing

"I'd wanted this action since I first heard about it sometime ago, and now I've got it and a bunch of great wins. I found myself cogniting on things I never quite got in school and had given up on. My mind feels like a few tons of feathers have been cleaned out of it. I feel really bright and ready to dig into my studies right now. I also thought this would take forever to do. It didn't. It's the smoothest fastest auditing I've ever had and so spot on too. My other win is I know now first hand why Flag is the best!" — B.G.

Grade 0 Expanded

"Doing this level from the viewpoint of an OT is quite something. I spent a lot of time in the last couple of days exterior to the dynamics and reaffirming my ability to communicate and have communication and I feel very free and 'proofed-up' in this area." — T.S.

"I've had a lot of wins in Grade 0 auditing. An incredible one for me is that I've been able to acknowledge what I've already applied from my tech data; then I've recovered the ability to recall each and every situation of my life just in one moment, which is an another one. I also can communicate with the physical universe without any stops because I can be cause over it. This of course makes me responsible for each and every situation that I am and will be handling in life. Now I *know* I'm responsible for my own postulates, and also responsible for my whole life from now on. The fact is this Grade 0 has delivered to me the tools to be cause over my dynamics and that includes the physical universe." — B.G.

Grade I Expanded

"My ability to spot the source of problems and make them vanish has been recognized, rehabilitated and validated. The most astounding thing is, my life is changed

"I've had a notable

Bridge of Success

(continued from page 6)

resurgence of energy. My interest and gusto for life has come back. My study also goes noticably better. I can concentrate, duplicate and have been really applying Ron's data as my own to my life — and I'm getting it straight!

"My confidence has made a remarkable recovery. I know I'm enormous as a being and I'm going out into life and make it go RIGHT! And my certainty has come way up.

"I have been recognizing the source of my conditions and troubles. My conditions have been improving and my troubles have been turning into wins to a notable extent. I have returned to life and livingness!" — H.F.

Grade II Expanded

"The first day I started this grade I knew there was a lot of suppressed charge close to the surface about to be released; and it came off in a hurry. A basic 'un-erasable' incident cropped up and I got very sick very quick.

"Thanks to some compassionate scheduling I was back in session in five hours. A further hour of processing eradicated an eight year old chronic illness. But, that was only the start.

"The big guns really hit home base on the overt and withhold processes. Here I got to grips with basic postulates of the universe. After a little bit of 'suffering' I came up with a very simple cognition about good and evil. then I knew there'd be no more suffering with myself as victim, and no more hostility towards others.

"The enlightenment I gained about the playing of a game in the mest universe and the traps involved give me certainty that I'll never be trapped in the same mistakes again. Thanks to my auditor for making an excellent product any auditor would be proud of. And of course, special thanks to Ron for making it all possible." — P.Z.

Grade III Expanded

"The ability to face the future is one of the best wins I've had. I have a new viewpoint on the things I want to achieve and I'm eager and looking forward

Swift service speeds your progress on the Bridge at double savings!

Speed is integral to top performance and service. Your highly trained auditor is part of a tight closely drilled professional delivery team. Each member has been trained to rigorous standards. All can think and operate with their materials. This means time isn't wasted on goofs and errors. Service is swift and certain.

For instance, your auditor won't go robotic in session. He honestly duplicates his pc. He does not overrun or underrun, and really keeps control with a session presence that has been described as phenomenal. In fact, time after time the comment made by pcs is th that going in session with their auditor was like having a wonderful talk with an old friend. Sessions are that natural and easy.

Tight teamwork, spot-on programing and auditing work together. They give you the results you want, often several times over, in far less time than you'd expect.

What you can expect is to to get more done each unit of session time with greater gains than usual. In turn you can expect not having to spend time on reviews and repairs — unless part of your program. (Many do, by the way, come here just for review and repair. Flag is a *full* service org.)

Suppose this is your first time at Flag. In no time at all, compared to any other org on the planet, you're in session. Speed of service begins with your arrival. Here's how.

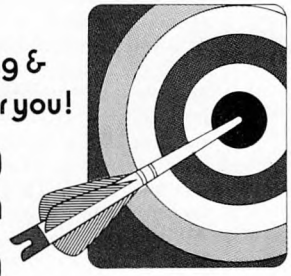

Perhaps you've come for Flag Case Completion Auditing. It's an excellent example of the very personalized handling you get in all Flag services.

Ideally your folders have arrived well ahead of you. A normal practice. Their first stop is the FES (Folder Error Summary) Unit. An expert FESer starts with the first auditing you ever received and works forward to present time through your folders. As he scans each page for outpoints, any present are noted down in his summary. A Flag FES is a very valuable product in its own right. It saves tons of

Professionalism

(continued from page 5)

husband objects to. And vice versa. They will very often stand squarely in the road of each other's progress if they're covertly mad at each other. That's too much personal attitude and too little professional attitude. Therefore husband and wife teams have a hard time of it. The wife tends to Q and A; or the husband will tend to Q and A with this, or slant the processing in some particular direction.

For example,let's say the husband has always objected to his wife's cold feet. This is what they'll do. They start running down the list and it has got cold feet on it. The husband calling it out will weight it. Then the wife, by feeling guilty about it will weight it. All of a sudden, you get a wrong item that has got nothing to do with the case. Then because they're so sure, they won't check it out: they know it fits.

Personal like and dislike

That is the personal attitude entering into a professional activity. Another example. There are auditors around Hubbard Guidance Centers sometimes that the Director of Processing can never trust to audit a young man. Not because any sexual activities take place, but just because all you have to do is put this auditor sitting there confronting this young man and he goes mad. He cuts him to ribbons. ARC breaks and such happen all over the place. So they very carefully never let this auditor process a very young man. It might be he's just an old man or something like that, but he can't do it.

For some other auditor, it might be we don't dare let him process an old lady. He just won't put up with anything.

You could probably say, there's case entering. Yes. But there's more than case entering. There's personal like or personal dislike, and it just hasn't anything to do with auditing.

There sits a person to be audited. There doesn't sit a young boy or an old lady or anything else. There's just somebody to be audited. And you'll find out that as soon as you train yourself into that attitude exclusively with regard to pcs, you all of a sudden start to produce tremendous wins. The funny part of it is that Judy O'Grady, the Colonel's lady, young boys and old ladies are always the same under the skin. A case is a case, and that's all you can say about it. That's very important to know.

Coming of age

The Scientologist is now coming of age. It's not that he is particularly a professional on whom the world is leaning yet, nevertheless it's long enough on the road now to lay that one in hard, and to handle that factor. The failure to do so will get in the road of your processing results just for that reason alone. And then push it home and try to keep it up as far as the public view is concerned. Stand by that one, and you will immediately inherit the whole world of healing. Where many splinter groups have not made it, you will, providing you have a professional attitude.

No special treatment

A professional attitude doesn't particularly mean professional appearance. It It doesn't mean a mockup of some kind or another. It just means that this fellow is in need of processing. Whether he's red, blue, green, white, a republican, an atheist, or even a psychiatrist, it doesn't matter. If he's sitting there and he needs processing, you've got enough answers now that you can process him. You can process HIM, directly. There isn't any special treatment needed. You just sit down and you process him. Suddenly you will find that you have a very relaxed frame of mind because this too can become a very familiar thing to do, and a familiar attitude to wear — a strictly professional attitude.

Just process the pc

This is all a professional attitude consists of. Don't try to swell it up to a bunch of other things. It's just whether or not when you sit down to process somebody you are capable of expressing a totally professional, wholly uncolored attitude toward the pc. Or that your attitude toward the pc does not partake in any way of your personal penchants [inclinations]. It isn't that you have to withhold your personal penchants, but rather the fact that you just process the pc.

We don't even process him "BECAUSE." You never process anybody "because," you just process somebody.

You see how easily we can put additives onto this thing. We process him "because," we process him "in order to" and all of that. No, just process him. You'll all of a sudden find your wins go on a steep climb.

to doing them. I'm living in present time now and I'm very happy about it. I also have a new second dynamic.

"I find that I'm more able to understand people and things that happen to me — and handle these things. I can face things much better, and appreciate them better as well, because I don't have the buttons I had before. The problems I had aren't problems any more." — V.A.

"It is such a good feeling to know that it's possible for me to cause changes in my life and in the lives of others without creating ARC breaks and upsets. No Now I can handle situations to the best end." — V.S.

Grade IV Expanded

"It feels absolutely great to not feel any need to be guilty or to invalidate oneself; and to accept being right or wrong. I can tolerate others computations with myself and with others, and I don't have a need to worry about it. I also don't have the need to *not have* problems any more." — L.W.

"I feel very much more capable than before I did this grade. I look forward to the future with enthusiasm now and to the opportunities there are for me to be active, creative and really helpful to others.

"My attention is no longer on any stops but on achieving the goals I want.

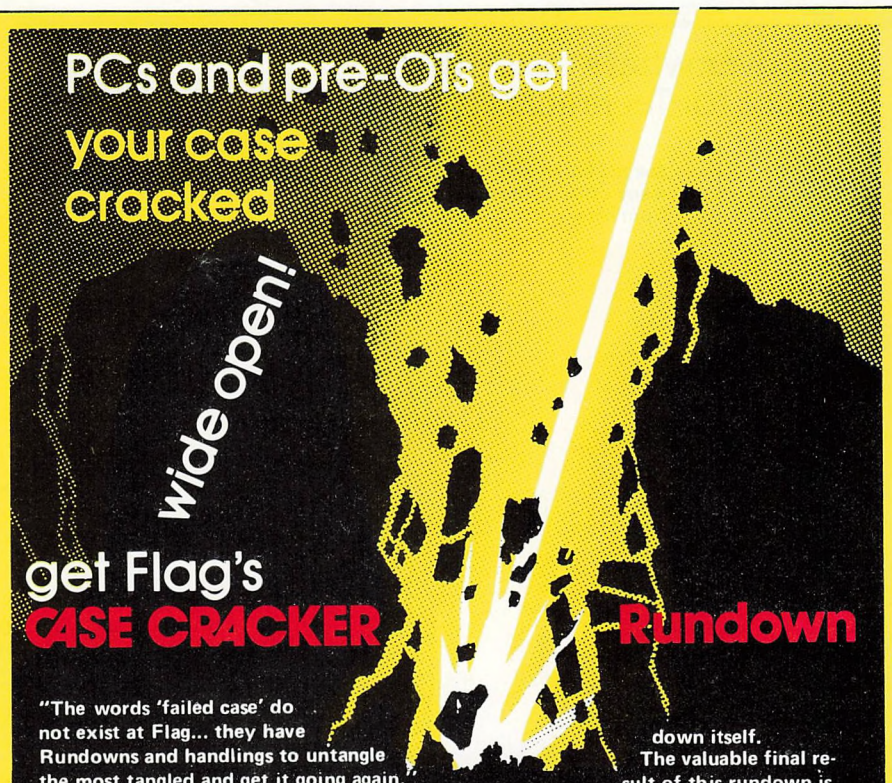

"Certainly people are no longer barriers as they have previously appeared to be. From now on the only barriers in my life will be those I put there for the purpose of having a game — a fun game. The fun will be largely working out ways of overcoming them and then overcoming them." — A.A.

New Era Dianetics (NED)

"Of the many wins I've had on this level, I have raised my confront in many areas I didn't even expect to look at on NED.

"The words 'failed case' do not exist at Flag... they have Rundowns and handlings to untangle the most tangled and get it going again." — LRH*

This Flag-only rundown is designed to handle any case bugs that are stopping your progress. It's a thorough case clean-up booster for anyone who's having such stops. It isn't just for the slow or tangled case either. It has helped many a Scientologist who has come to Flag get excellent results and get readied up for major auditing actions on the Bridge or for actions such as the L's. You become more causative over your condition in present time.

Your case is attacked from two main angles. The first thoroughly handles anything which might need clean-up from past auditing. It gives you security in the knowledge all outnesses and errors on your case are fixed and repaired.

The second action handles fully any possible case bugs and results in your having real case stabilization. And there's yet another action done preceding the rundown (if needed) which handles specific difficulties that would hold you back from having full gains on the rundown itself.

The valuable final result of this rundown is to greatly enhance your progress up the Bridge. It can also enable you to have more certainty when you make decisions and send your ARC way out the top! These successes give no doubt about that.

"This rundown really cracked my case wide open! That's something. Before I was a troubled pc, now I'm doing much much better. My space has opened up a and my ARC has come way up. I enjoy life again." — B.T.

"I can honestly say my case is cracked. I feel a thousand times better and have had a tremendous resurgence of gains from my previous auditing. I'm on top of the world and truely OT again!" — J.G.

trouble, and prevents future snags for you as well. That's more time saved right there.

On your arrival, you do a very thorough interview with the Director of Processing. The interview is designed to find out what you really want handled.

Once done, the D of P interview, your folders, results of any tests required and the FES go to the C/S. Some call the work of the Flag C/Ses magic because the individual auditing programs they create are so standard, so exactly spot-on. Again its flubless command of the tech at work. Your folders and other data gathered undergo the same precisely standard handling; and out comes your personal auditing program.

Just what gets handled depends on the individual. There may have been trouble with auditing you had which needs to be cleared up. Or an unresolved case bug to get handled. Maybe you simply feel okay but want to feel positively great, and know you should. Or it could be you want to move faster in auditing. It could

(continued on page 10)

"In this time . . ."

(continued from page 9)

even be you're flying and just want to maintain that, as well as move up the Bridge — or get one of Flag's famous special rundowns.

Your Case Completion auditing program is determined by what you want to achieve and by what your expert Case Supervisor finds is needed.

Not more or less nor something else.

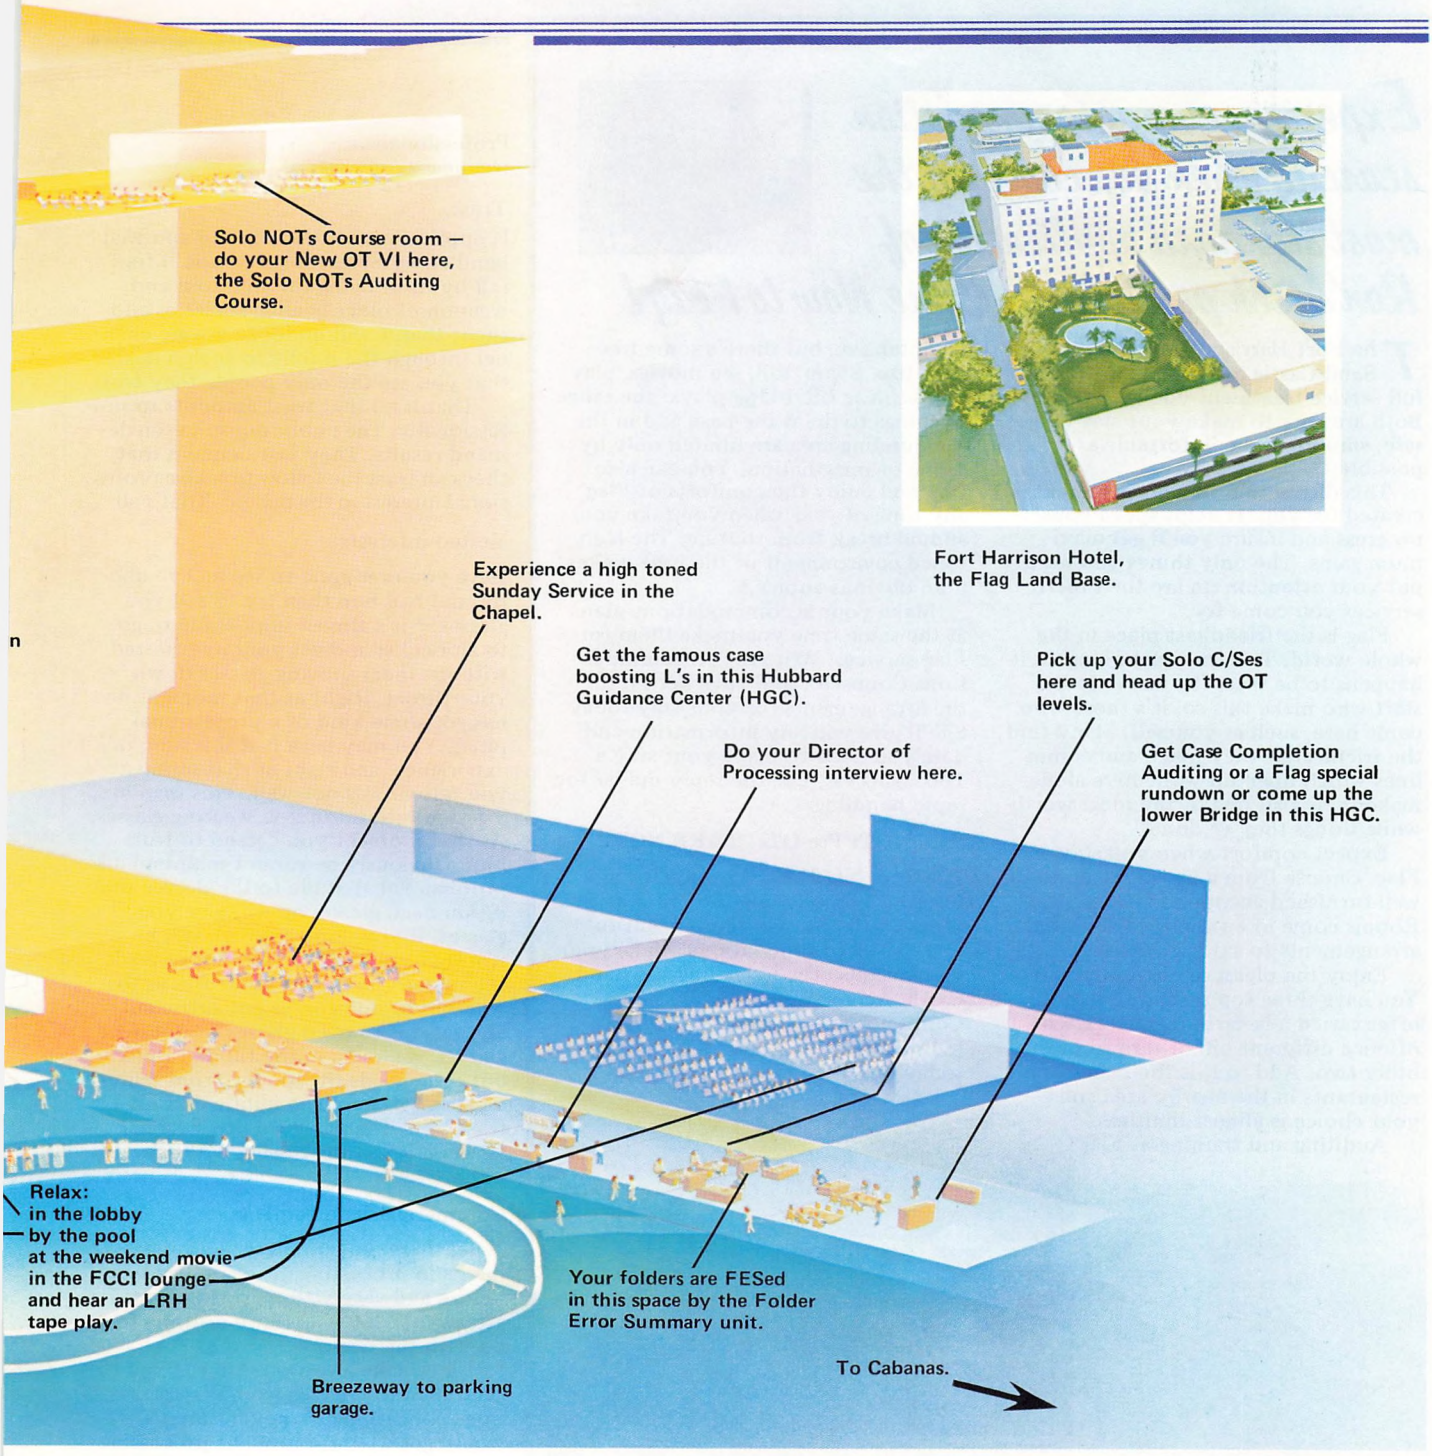

This kind of custom personal attention and the utter certainty this absolutely 100% standard tech application allows you gives clear indication you owe it to yourself to get Flag services. We've looked at auditing here, but this same excellence applies to Flag tech training and interning which gives the same clear indication!

Get a big bonus when you come to Flag.

One aspect of Flag's excellence is a bonus benefit in itself. It's so natural it isn't always immediately perceived in the excitement of other cycles. When the awareness does come, it can be a startling but very pleasant surprise. It's the safe OT environment Ron intended.

Just coming here for a visit or a break from everyday routine can be an entirely rewarding experience. If you've never been here before, come for a weekend stay. Sample the experience of Flag first hand!

One pre-OT had case gain before she ever got in session because she recognized how

safe a space had been created. She recounted that in a short time after arriving she cognited about how safe the space was. This awareness led her to spot and blow a big protective ridge*

*ridge: a ridge is formed from two flows and these two flows hitting will pile things up... Ridges however, exist in suspension around a person and are the foundation upon which facsimiles are built.

she suddenly realized she'd always kept around her. The relief she felt was great.

Another FCCI noted that additional to the magnificent wins from his auditing, he'd had a dozen or so other things happen during his visit. Each of which he said had by itself made his current trip wholly worth it. He cited as examples seminars he took part in, contacts with other Scientologists that opened up useful communication lines, and a complete change of pace.

These experiences are the usual. With Scientologists, many who are already OT, coming from all over the world together in one place it's no surprise that happy, even extraordinary, things happen as a matter of course. As a spiritual retreat Flag also holds its place as the best.

This OT environment is yet another contributing aspect to your having speedy service. Distractions are kept handled. You're able to fully put attention on what you've come for. Gains come big in number and quality because your purpose doesn't get cut across.

Many find the friendships they make and comm lines which open up while here alone make their visit one of the most worthwhile things they've done.

Professionalism
(continued from page 8)

Trust

If application of this is broad and well handled by Scientologists, you'll find (all by itself being the sole tool and weapon of older healing societies and such) that it will bulldoze a wide channel through the public to such a degree that you are the only people they trust.

That is all that trust amounts to professionally. The public doesn't even demand results. They just demand that they can trust the fellow to take a professional interest in the patient. That's all.

Vested interests

Have you ever gone to see an eye doctor and had him then try to sell you glasses — it's almost impossible to go to an oculist and get your eyes tested without them shoving glasses down your throat. Right at that moment he has got some kind of a professional pitch. You may have had this kind of experience, and right at that moment you felt all was not well. This man has a vested interest in you wearing glasses. At that moment you ceased to trust him. Obviously he cannot maintain his professional attitude to the degree that if you need glasses he will give you glasses, if you don't need glasses he won't give you glasses. He never reads the meter you see on the lenses as to whether or not you've got sufficient aberrations to need glasses or not need glasses. He looks in the till and finds out if he needs the money from selling a pair of glasses. The public doesn't trust him. That's all. So professional attitude is just processing without a pitch.

Commercial arrangements

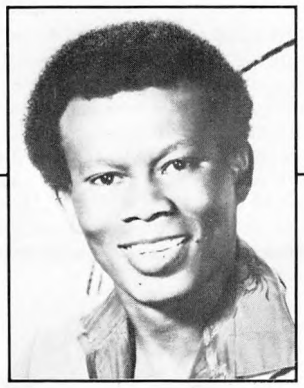

True, there are commercial arrangements in processing. Those take place before and very well may take place afterwards, but they have nothing to do with the session.

I did make a test one time. I had to get a man to recover from his aberrations concerning money before he would get well. He thought processing was too costly. Because he thought that, then he couldn't get well since he couldn't afford it. That was a test case. This kind of thing usually has very little to do with it.

If somebody isn't paying something for your processing they don't consider it worth while. That sort of thing has very little to do with it. That's something which takes place before assists or something that takes place afterwards. During that session, it is noth-

PEOPLE AT FLAG

Lively and syncopated or hushed and romantic, whatever the mood Juan José (Johnny) Laboriel López creates for his audience, they respond with cheers and delight. He's a much admired enthusiastic performer.

For more than two decades Johnny Laboriel has given theta and pleasure to millions. On records, in movies, through all types of live performances, and over radio and TV. His song and dance routines have made him one of the most popular singer-entertainers in Mexico.

He's well known in much of Latin America; and North American audiences have had a small chance to enjoy his talents as well. There, he has appeared in TV episodes of *Sheena — the Queen of the Jungles* and *Tarzan.* Dub-in sound tracks for Walt Disney films are another of his accomplishments.

Awards and honors have been numerous over the years, and include two gold records.

Johnny's life and career struck a low point in 1973. At that time his sister introduced him to Dianetics. He's never looked back since. From then on, his life has been a continuing rise in ability as a performing artist and source of power communication lines.

Dianetics and Scientology have brought him a host of wins. He experienced a major one during his most recent trip to Flag: he shares it with you in this interview.

When I was 15 and a student in school I took part in a singing competition. I won. Ever since, I have been singing and performing for others.

Not long after the contest, I started singing with some rabble-rouse musicians. It was rock music.

Many problems came in on me as the years went on. I had problems with with my personality, my own ethnic background and drugs. I didn't know how to handle them.

During these years I grew to be very popular in Mexico. My artistic creation was complete. It included my environment, my color, my ethnic. It made big effects. So I became popular, but I didn't know how to handle that either. It was really hard for me to do.

Finally all of this came down on me, and I went into the hospital for drugs. I was very confused. Part of being in the hospital was seeing the psychiatrist. He asked me stupid questions — things which didn't make sense. I became more confused.

After a time, I went to Alcoholics Anonymous and was with them for some time. The psychiatrist still came to see me off and on. He would talk to me on these visits and finally I decided to have him come back again regularly.

About this same time my sister came to see me. I was still down and confused. I told her that here it was three years that I'd not had any alcohol to drink and yet I still felt really bad. She didn't say anything at the time, but a few days later she came by again. This time she gave me a little card. It said the place for me to go was Dianetics.

This was in 1973. It really was the change point in my life, and it felt very, very good.

(continued next page)

The change began with a simple communication course. I was down as I said and had stayed pretty well down. Then as I took the course, I came up and up and so did my communication. It was the first time in my life I earned a lot of money in a year too. That wasn't the big thing though. It was the change in my communication that was so big to me — that is what made so much difference.

My life force I knew was very strong. I'd survived all that I'd gone through and had come through to find these wonderful things.

I also went on and got auditing. First the Drug Rundown and then Life Repair. I had such cognitions. All the aberrations from drugs were finished. I also went Clear. From these things the quality of my communication became so much better.

I came to Flag this time to do the New Solo Course and the OT levels. While here I did the Sunshine Rundown and my Solo Course.

I was going to do my OT levels too but three things happened. I've been so keyed-out since my New Solo Course that I haven't been able to go in session because I am still very keyed-out.

I also got a call from my wife. She had the very great news that I had full bookings for this next year starting almost right away. Before I came I had made none. There were a few already there, but these others had all come in while I was here. This was a very big happiness and surprise.

Then most important of all, I had on the New Solo Course this very very grand cognition. I got so many answers on this course which made things become simple. But one was biggest of all.

I cognited that if you're OT you help. If you're really OT, you help — that's all. You don't wonder why a person looks down in desperation and needing help. No. You say, "Give me that hand," and "Thank you," and you audit him. Part of this cognition I have is the reality of the very complete importance of training.

I want to get training done before I get my OT levels. I know I am OT now. I have a big conscience. I want to help the fourth dynamic. It is the kind of thing I love. This I do when I sing in hospitals for patients and in orphanages for the children. Now I will learn to help so much better.

It's a great fabulous win to get this wisdom on the New Solo Course.

I must go back to Mexico to handle my commitments for this next year, so I will do the NED Course and the Levels of the Academy 0 to 4 training while I'm there.

Then I'm coming back to Flag to do my OT levels and more training. My wife and my sons I'll bring too.

Flag is the place I love. It is the most peaceful environment. Here it is exactly like a big demo of the way things should be done and how they must be done on the planet. It is here at Flag I have the biggest cognitions and get so keyed-out. It is a magic place.

"There's no excuse for any failure that ever occurred anyplace in history . . ."

COURAGE

by L. Ron Hubbard

Anytime you think you have to go below the level of cause in action, you're going to fall on your face. You're cause. The second you start sqirming around apologizing and trying to prove it to somebody, and being all upset because he got worse or something of this sort, you're just making a big dramatic statement — "I'm *not* Cause."

You get your case in good shape and your frame of mind in good shape and there isn't anything which can faze you. There's nothing, including a 16 inch gun going off straight in your face.

Courage could be summed up in 1), being willing to cause something and 2), going ahead to achieve the effect one has postulated against any and all odds. There doesn't happen to be any such thing as failure. There just doesn't happen to be any such thing.

But of course, you all want to agree there's such a thing as failure so that you can have a reason to fail, so you won't have to be cause. There's no excuse for any failure that ever occurred anyplace in history, except this. There was just not quite enough carry through and push through.

You can mark the high tide of any empire or of any army in any period in the history of homo sapiens, and you'll find out somebody, someplace on that track was deficient in guts. And when he was, he lost the whole track.

There isn't even such a thing as "carrying on too long in one direction toward the postulated effect." There isn't even that. There isn't even such a thing as too many odds. That doesn't exist. There isn't such a thing as saying, "Well, what I postulated was unreasonable and therefore I have to abandon that goal now because it was unreasonable."

You have to have a consent to track along in a certain degree of agreement with a whole lot of things in order to sit down someplace on the track and say, "There are too many things for me."

Do you remember a time when your self-confidence was very high and when you had a great deal of confidence in yourself? You knew what you could do. You had good self confidence. You remember such a time, or is it too long ago?

If you can spot such a time in your life, just try and answer this next question. It simply is, how many times since, have you told people you didn't have any self-confidence? And how many times have you been very careful not to have any? How many times have you falsely and needlessly sought for somebody's opinion or something? You go around and say you would like to have their opinion of this or approval of that or some such thing. Phooey!

You can't be a homo sapiens and be right. One of the best reasons there is in all that line is you can't have any self-confidence and still be polite. Mest universe: don't think it has anything to do with politeness. It's a big control operation.

"In this time . . ."

(continued from page 11)

Once again it's plain that the best thing you can do for yourself is come to Flag.

Just decide you're coming to Flag!

Your ability to Be, Do and Have can increase geometrically with each service done.

Many who never thought they could come to Flag have made it here in spite of apparent blocks to do a service. They shared a common experience once through the their service. The way to do more seemed to magically open up. Unsuspected resources often burst into sight the way a desert breaks into life after a rain. Communication and relationships with others greatly improved. They found out first hand you don't have to be wealthy to have the best. This lady found that out. Her decision to come started her on her way.

"As soon as I decided to go to Flag and started flowing some money, things got very easy. At the same time all the considerations I'd been sitting on of why I couldn't go to Flag seemed suddenly unimportant. I saw them for what they were: just considerations I had put there.

"My Reg was a complete help and an invaluable terminal. With her help as a terminal I could communicate to, jobs started turning up that paid the right amount of money and lasted the right amount of time. In other words Flag is a power source. When you flow power to it you get it in return.

"One of my considerations had been that if I went to Flag I couldn't earn any money by working part time while doing my services. Yet by the time I was ready to leave for Flag, all my living expenses, the service I originally wanted, and in addition my New OT IV and V were paid for. And all in the time I'd set for getting to Flag.

"I never really thought, when I first heard about Flag, it would be possible to do more than a little bit here. Now I'm here! It has turned out I can do everything I wanted to do at Flag. I can have the best without problem or difficulty."

— C.H.

AUDITORS: operate as a pro. Make Ron's tech your own and really know how to use the subject!

Do the Flag Tech Internships

The Flag Tech Internships make the difference between a trained auditor and the Flag Trained Auditor. They turn the average into a pro!

"On Flag C/Ses have to catch up every missed Internship to make a high volume high quality auditor.

"The World renowned Superiority of Flag Auditors is built just like I'm telling you here.

"One does it by the Interne method.

"By using this method you get IN tech and high volume.

"Any auditor in any org that is limping and fumbling has never been properly Interned."

— LRH*

The Flag Interned Auditor earns his red-carpet status because he knows how to use the subject of auditing 100%! He's an expert at applying it.

He can produce flubless results because he can think with his materials in the auditing room and in his life. You can become a pro auditor too, when you do your Tech Internships at Flag. Be able to do a lot more and have confidence you can.

Starting Your Internship

To begin a Flag Internship you must have completed the course for that level. You may do your auditor training at Flag, at an org or a mission. If you train at Flag the rate of correction is naturally far lower on the internships.

Flag supervises from a pro viewpoint, so we routinely run a check to ensure that there are no skipped gradients nor misunderstood words on any course you did prior to starting your internships. At this point you're on the way to be-becoming a professional!

The procedures of the internships are the same for all levels. The Interne Supervisor first thoroughly checks out your TRs and metering. Then the level you're interning on is word cleared, checked out and the technical actions are drilled.

You can expect this kind of personal attention at Flag. It's given to every intern.

Whether it's the C/S who gives the OK on your sessions, the Supervisor who handles your study or the Cramming Officer who puts you back on the winning track, their intention is to see that you're first rate! They're there to insure you have confidence that you're able to get out flubless products and that you can handle anything.

Move Fast On Your Internships

Flag Internships aren't drawn out and arduous. They're thorough, tough, fast and very doable — A to B.

They begin at the lower part of the training side of the Grade Chart and extend to the top at Class XII. Whatever level you come to intern at it is here for you to do. (Class X, XI, and XII auditor training are available only to Flag Sea Org auditors.)

Give yourself the final polish that earns you the full status of the Flag Trained Auditor. Put an end to any losses you may have had applying the tech. Get interned at Flag.

"This is the most amazing training cycle I have ever done in Scientology. It has raised my cause level 1000 percent. More important is the fact I've learned 100% standard tech." — D.N.

continue to confront, handle and expand as I go up the Bridge. As always, when the tech seems the most simple, the gains are the most magical." — J.C.

"I think NED Auditing is the best auditing I have had. The session in which I got rid of the reactive mind was specially best. I really feel I came a big step higher on the Bridge, and I'm so ready to begin my OT levels. It is a safe, clean calm state, and my surroundings seem so friendly. I feel freer and larger and lighter. I've got lots of energy. A big tiredness blew, and I've got lots of doingness back with much less stress and effort to it as well. It is real great to attest to the State of Clear." — V.K.

Dianetic Clear Special Intensive

"It is a beautiful state to have the feeling of no reactive mind impinging on you. I feel really able and with a great feeling of serenity.

"I had this state a few years back; and to have it rehabilitated with full realization of past state certainty puts me at knowingness and cause over the gain I had and and have now. Thanks to Flag auditing and C/Sing which I had, to pull me out, and to where I am now."

— L.S.

"Doing the New Revised Dianetic Clear Special Intensive is a real win for me. It cleared up some doubts and confusion that had recently come up for me on the State of Clear. I now solidly know that I'm Clear and without reactive mind!" — L.D.

Sunshine Rundown

"This is a very simple but powerful rundown. As I did the Sunshine Rundown I felt very happy about the physical universe. Nothing in it was uninteresting. I felt I no longer had to be, or would be an adverse effect of any part of it. This will never again be an unwanted problem to me. I can operate with this universe and use it

(continued on page 16)

for a playing field. I can really confront it and have ARC with it in all its aspects.

"More than ever I am looking forward to doing my OT levels. Already I feel bigger and more powerful than the physical universe, but just the same looking forward to having fun with it." — A.A.

"Yes, it's a Sunshine Rundown! I was reading the material and already I felt better. It is wonderful to be interested in things and know you're not a problem anymore. I feel so there. Things around me are clear, precise and more real. A feeling of freedom!" — P.G.

Solo Auditor Course Part One

" The Solo Theory has greatly increased my understanding of the reasons for the specific drills (and all Dianetic and Scientology drills). It has also added to and sharpened my skills in metering I first learned as a NED student.

"I'm prepared now to use these skills and understanding in starting my Solo auditing because they've become like second nature. I heartily recommend this course and the excellent supervision here!" — H.S.

OT Preparation

"Now I feel really ready for the OT levels! My abilities to Be, Do, and Have increased enormously. My perceptions as a thetan increased way high — I can feel changes in space miles away. And my theta communication over *very* long distances is very very clear. I feel who it is and what they want to communicate about.

"I can postulate in many many areas to make things go right, with the arrival of the results reduced from years to days and sometimes even minutes. My ability to flow out aesthetic wavelengths has greatly increased and become more pure than ever before. My ability to as-is entheta and to get a space with theta and affinity has risen to big heights. I'm now ready to start my route to OT." — A.E.

Solo Auditor Course Part Two

"Just auditing myself the little bit I did made me feel more confident about myself, and more sure of who I am and what I really think. I'm ready to go on the OT levels right now!" — M.L.

"That was a wonderful course. It validated the knowledge I've had from all my training and I got marvelous wins from it. It was incredible to see how easy it is to audit myself and how quick things come and how you handle them quickly. It was so real to as-is my thoughts. Thanks to Ron for this precious gift."

SUCCESS

"Considerations I have had all this life have really blown! The New Vitality Rundown is properly named, for I have a new vitality that I've never known before but which I touched on once long ago. I now have an understanding of myself and feel this vitality more than I would have several years ago because I have it from a new viewpoint.

"Self-invalidation is handled to the greatest degree I've known. I'd never realized what a hindrance it was until now. Masses have blown that I didn't even know were there until suddenly I'd realize there was something I wasn't doing anymore. This is a beautiful rundown and anyone who can should get it!" — M.F.

Eligibility for OT Levels Check

"This action handled everything I wanted and asked for. I have reached a point where it takes no effort from me to be, and to be at any point without having to withdraw because of not feeling ethical. I was afraid before I did this level. I kept asking myself what if someone knew about this or that I'd done. I was totally handled on this and all the withholds I've ever had. I feel new and clean and ethical. My life is going 100% better. Thanks Ron, for now I too can step aboard and continue the wonderful journey of Scientology." — L.S.

OT I

"I feel filled with a great awareness of myself as a thetan and the ability to see others this way too. I feel a greater ARC for others which brings heightened perceptions on a theta level. I'm able to be there and perceive and observe what goes on very clearly around me and with so much more responsibility for my creations." — L.K.

"On this level I've started to expand on all my dynamics and have entered the realm of Operating Thetan. I've had cognitions that have tremendously increased my responsibility, my awareness of my part of the game, my level of ethics, my freedom from mest and many many others." — P.U.

OT II

"It was very amazing at first; then strange things occurred, but at the end I had subjective and objective reality on and the ability to confront the whole track. How Ron mapped this trail is now even more unbelievable to me, but I'm so very glad he did. OT II — get it!"

— S.G.

OT III

"This is a dream which has finally come true after a long long time. All this knowingness I've had on all my dynamics is now happening with my attesting to OT III. Some of the OT phenomena I've noticed are that I can locate things very easily in the physical uni-

(continued on page 17)

(continued from page 16)

verse by first spotting them in the theta universe. Then all I have to do is just look into the physical universe and there it is.

"My postulates are much cleaner and quicker. There is a guy I've seen who walks in front of the Fort Harrison. The other night I needed a pc for a Book One workshop. I saw him, postulated I needed a pc, and a minute later, I had him inside and gave him a session. It was very rewarding. He wants more. Before he was broke and had no place to stay. Now he has a job and a place to stay. I want more than ever now to get trained as an auditor and help."
— S.P.

"Throughout my life I have had a dream of living the kind of life that I'd always wanted to, but was never possible before this level. Before, I had a lot of pieces of the puzzle which greatly increased my understanding but still, I wasn't totally living out my true and ultimate goals. Now I'm free at last to be my own self!

"My goals are clear and my life is and will continue to be what I have always dreamed of — it's now mine. I go out from this Mecca a free being eager to begin my work and thoroughly enjoy this existence."
— W.B.

NEW OT IV
(OT Drug Rundown)

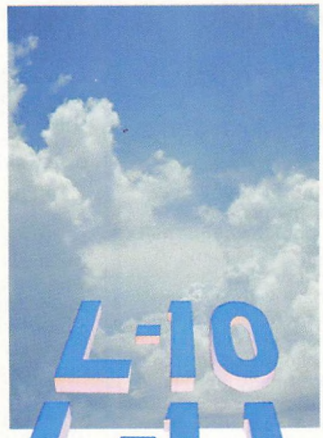

"It is difficult to express all the gain I've achieved on this level. It is by itself close to equaling the gain achieved on all previous auditing, and I've had a very small drug history!" — J.M.

"I have not finished this level yet but this is a win I want to share now. My perception of the physical universe is phenomenally clear, precise and vivid. I'm very stably exterior and have negligible attention on my body. The amount of free theta I have has increased much beyond my expectations. My auditor's auditing must be second only to LRH himself. He is marvelously A-to-B and very exact. Thanks to all here." — J.L.

L-10
L-11
L-12

The L's address the very basics of your case directly. They undercut the reactive mind and handle those factors which suppress your capacity to Be, Do and Have. They knock out those things that can make you far less powerful and causative as a thetan — far less yourself.

Ron designed these rundowns to find and crush the basic counter intentions that can make nothing of your dynamics. He developed the L's as a result of his research into the levels above OT VII in the early 70s. His success was startling. These rundowns can handle things for you that are handled nowhere on or to the side of the Grade Chart.

"The breakthrough which exists here technically," he said, "is so strong that it actually cuts through the normal protective mechanisms of the mind . . . It came actually from the OT Grades. It answers the question, 'why does an OT restrain himself and cease to behave as an OT?'"*

Ron discovered that this tech could also be used lower down the Bridge to get people up it faster. They are, he says, " . . . incredible boosters. "

Thoroughly handle a specific major area of your life when you get your L's. Greatly raise your cause level and doingness. L-10 has 23 potent, distinct actions geared to vastly raise cause level and the willingness to do things. It smashes the reasons a being withholds himself.

"I changed greatly during and after my L-10 auditing. I'm really able to do things with no stops. Any that come along I handle with great ease. I notice now that I can get amazing products in a short time and there's nothing preventing me from maximum doingness and expansion. My level of ARC has increased greatly. I'm fully aware of the basics of ethics and I'm having wins upon wins!" — G.A.

Find and blow the basic counter intention along your dynamics. L-11 through its six mighty actions detects and erases the major barrier to a person's case. Compulsions and inhibitions are wiped out. The results you can have are a New Life — new ability to have.

"The L-11 rundown hit at what I've always wanted handled since I first got into Scientology — and actually a long time before that. I've already started the motion on new plans and projects. When I started this rundown I thought that to have a new life meant I had to physically move to a new city or something like that. Not anymore! My ARC for my home, friends and family is at an all time high and life looks great!" — K.C.

Achieve a tremendous stability in life. L-12 consists of three intense actions. You can describe their effect as causing a shifting in and blowing of the deepest unwanted personality traits which aren't even known to the person until handled. This trio can cause more change at a higher rate of time than any other auditing. You can recover your own valence and identity as it is. Beingness soars!

"My attention is completely off my case. I have absolute certainty that I'm a powerful thetan and my ability to do is no longer inhibited through being afraid to handle others as they should be when it's for a good cause. I'm entirely myself, able to make my own decisions and accept full responsibility for any and all consequences. I realize now no one can make me PTS any longer unless I go into agreement with them; and I won't be doing that! I can assume any form of beingness I wish in order to play the type of game I want to play. I'm ready to get the LRH tech spread in a big way and thousands of people into Scientology — and now I *know* I can do it!" — A.A.

The highest classed auditors on the planet, the Class XIIs, deliver the L's only at Flag. This is the level of ultra precise auditing skill required to make sure you get the full benefits of the L's. You can do them between most points on the Grade Chart after Grade IV Expanded and with the exception of the No-Interference Zone.

Understanding the E-Meter

A book on the basics of how the E-Meter works

"Boy do I ever understand how my E-Meter works now and how it relates to what happens in auditing. That I've gotten it from this one book astounds me!

"All the pictures, diagrams and clear text led me to an understanding of this priceless machine that I've never had before. I know I'll always have it too.

"I can think so much better with my materials and apply them because I really know what's going on. It's really simple and basic, not complex like I used to think it was. Reading this book has been like finally finding the tuning knob on the TV. Now the picture's clear and complete. The fuzz and junk are gone. I have the same great feeling I get when I've cleared a word and have the full conceptual meaning, not just a definition. I could ask where has this wonderful guidebook been all this time, but I'll say instead — WOW! Am I ever glad it's here now!" — B.G.

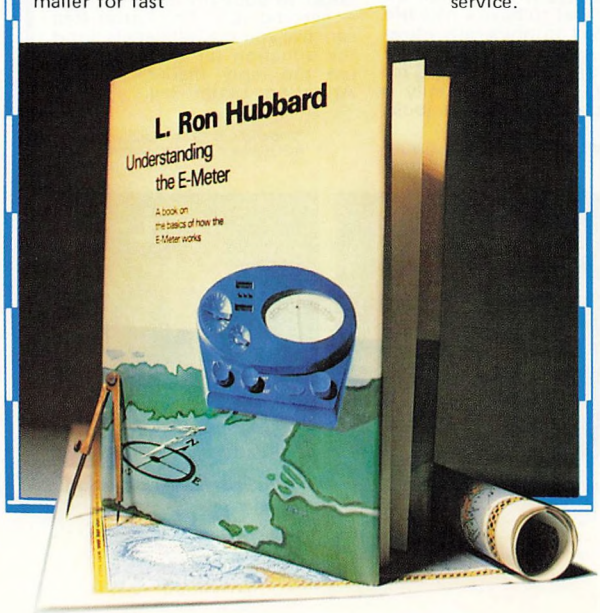

It's no surprise *Understanding the E-Meter* gets such hearty response. This book maps the way to simpler, better control of your meter.

Lots of exact pictures, an easy reading text and clear diagrams turn this technical subject into simplicities you grasp easily and make your own. The crisp drawings are like precise demos of the text. Add to this the full glossary of definitions and there's no reason you can't achieve your purposes as an auditor better — unless you don't get and read this book.

Experienced users have even found there was more they could understand about the meter after reading this book; and were very happy they had.

The book is compiled from Ron's notes, researches and the script of his Academy instruction film, *How the E-Meter Works.* It strips the complexities off the subject, and does it without a lot of extra talk.

Know how the E-Meter works by getting your copy of *Understanding the E-Meter.* Discover firsthand how real understanding of this indispensible tool can lead to better control of your meter and more effective results in the chair. NEW OT V
(Audited NOTs)

"I'm doing wonderfully and all of a sudden life has lost *all* seriousness. I now can be a player and maker of games at will. My best and biggest win is that I've achieved this state by coming through a rough area and come out the other side shining!" — D.B.

"The planet is here to be handled, and I'm here in a position to handle and be at cause. NOTs is definitely the way out of this mest dilemma — there is *no other way.* The obvious next step is to get tech trained to balance out my abilities." — M.L.

NEW OT VI
(Solo NOTs Auditing Course)

"The many many cognitions and big amounts of charge blown just by reading these materials has given me enormous benefit. I have a new understanding of what really is in this physical universe and the thetans in it. I also have a new realization of Ron's ingenuity and love in helping us out of the present mess in this universe and my part in helping him. All this just from studying the data on this level." — P.B.

"This is really the greatest level — course I've done. The reasons are many, but here's a few. The pure theta in the course room is enough to make one exterior all the time. I also know that I can *really* audit Solo NOTs. I feel like a jet on the runway ready for take-off. The sheer genius of LRH to develop this data is incredible! Thank you Ron." — G.R.

"LRH says that more than 50% of the gains are from training, and this course proves the point. My ability to handle the NOTs case phenomena has been perceivably increased 100 fold in terms of power as a result of the special drills and cogs on my course material. This course has resulted in a whole new state of case for me." — R.B.

ing but a session. Professional attitudes make sure that it is nothing but a session.

Professional hat — Livingness hat

If you're very good, you can put on a professional hat before session, run a session, and then put on a livingness hat and not go on being an auditor after the session. You find people will appreciate this too. Your going on looking like an auditor after the session sort of puts the pc back into session.

Sometimes it's a good thing to swat them between the shoulder blades or pat them on the back or something like that. Anything. Just don't act like an auditor after session. Act like an auditor during the session.

Auditing THAT case

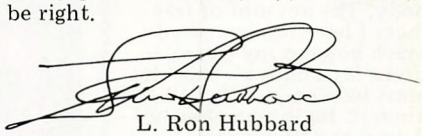

There's all kinds of additives you can put onto this thing. If you're going to get people to recover from aberration, if you're going to handle pcs, if you're going to handle ARC breaks, you mustn't have opinions and curves about the case before they are demonstrated in auditing. You mustn't have items selected before the item occurs. That's the idea, because you're auditing THAT case.

To do then a very reliable job of auditing, never pretend that you've seen something or read something that you haven't seen or read on that case you see. Never give him an item because he expected an item. Give him an item only because it checks out.

The most impressive thing

We've arrived at a level where a technical job today is marvellous. You have people who can do good model session, good TRs and the rest; and it's marvellous. One could never complain about this at all. A person is doing a good model session, reading the E-Meter well, his TRs are in good shape, he sits there and just gives the session and goes straight through with what he's supposed to do and man that pc is impressed. Wow! The most impressive thing you can do is to be technically letter perfect today.

If you do a professional job, and do a very good technical job, you'll always be right.

(like those released at Flag)

so you can deliver good auditing

Subscribe NOW!

In the spirit of the Pony Express which first linked a continent with a working comm line, the New PABs are here to link you up and keep you connected with LRH tech as it's released.

Get the current information you need to handle your PC's case properly and standardly. Hook up to this fast tech line now, so you have certainty you're up-to-date on new developments in the tech. Subscribe now.

What are The NEW PABs?

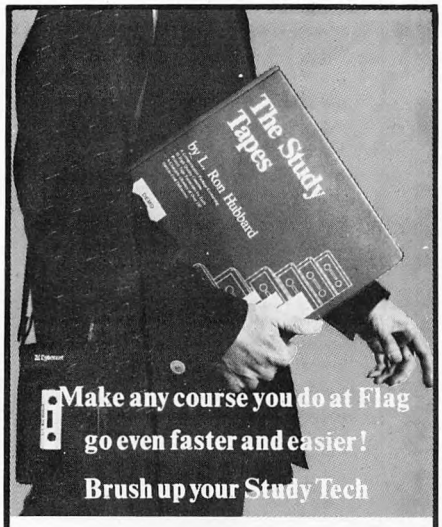

This all new subscription line recreates Ron's very successful tech line to the field which he ran in the 50's and 60's – the old PABs. These new PABs *aren't* the PABs of those days reissued in a new format.

Once you subscribe the new PABs bring all the most recent HCOBs of general interest right to you 10 to 12 times a year. They end your wait that has been necessary in the past for enough to accumulate so a Tech Volume can be issued. You enjoy the convenience of not having to go into your org periodically to pull issues. The Tech Volumes will continue to be issued on the same basis they have been. This preserves the data in a more permanent form.

If you haven't taken your subscription out yet, consider the amount of immediately useful data issued in the past few months for which you've had to wait and get in a less convenient way. Be a more confident, productive auditor because you have the up-to-date data and know exactly what to use for each situation. Subscribe today.

Individual PABs aren't for sale through the bookstore, however you can get back issues from Bridge Publications, Inc.

Subscribe for two years at a time. Save yourself the fuss of an annual renewal and possibly missing an issue. Each Tech Volume when released will be welcomed as a valuable addition to your reference library. In the meantime, have the present time materials now, so you can continue to deliver good auditing to your pcs. Send your subscription in now. See the insert for rates and send in the reply mailer. You'll start receiving your PABs at home with the next issue!

Make any course you do at Flag go even faster and easier!

tations. I'm taking my next C/S home with the certainty that whatever comes up in life in whichever way the environment tries to have a go at me that I'll handle it with competence an and be able to maintain the wins and high state of awareness I have around Flag.

The entire tech is mind blowing: the simplicity is incredible! Thanks to all terminals on the lines. Ron can only be thanked by using and spreading his fantastic tech and by helping to clear this planet." — S.S.

"It is one thing to read Ron's tech and duplicate the rightness of the theory. It is another thing to sit watching a meter and experience the rightness of that tech.

"Solo NOTs is continuous training of what is in the way of my freedom. Today I blew the stops to a new ability — to play or not play a game — WOW!!!!!" — W.T.

Wherever you are on the Bridge, you can come to Flag and have your own successes of this calibre. Flag delivers the whole Bridge, and more!

"Flag is the top Tech org of the world and if they can't handle it nobody can.

"What you pay for at Flag is the most expert C/Sing for the best rundowns by the best auditors in the world." — LRH*

Help create a safe planet!

You have a planet to live on right now. You can contribute to its creation as a safe place — or you can waste it. If it were lost, what would be its substitute?

"The whole agonized future of this planet, every Man, Woman and Child on it, and your own distiny for the next endless trillions of years depends on what you do here and now with and in Scientology."* — L.R.H.

OPERATION 4TH DYNAMIC

Working Together for a New Civilization

Headed for the Mecca for Technical Perfection? Be sure you have a valid membership!

There are five good reasons for having a valid membership.

1. When you sign up for major services, you must have an active membership to receive delivery of your services — all the way to the top of the Bridge.

2. An International Church Membership connects you up with other honest, ethical beings who share the purpose of creating a safe, sane planet.

3. It entitles you to 10% off course packs, books, meters and tapes from the bookstore. A big advantage in today's world.

4. Your certificates remain in force only while your membership is valid. Renewing an expired International Membership will reactivate a person's certs where they have expired for membership reasons.

5. Having a valid membership ensures you'll receive *SOURCE* magazine regularly as long as your membership remains active.

Renew your membership now. It's only $50.00 on a yearly basis. Or, make certain your membership is always valid and avoid yearly renewals. Get a Lifetime Membership at $150.00. If you have yet to become a member, request application for membership today — the first six months are free.

Don't delay yourself in moving up the Bridge to the Top, fast and optimumly, at Flag. Make sure you have an active membership now. Write the Membership In-charge, c/o Department 18B. Use the pre-addressed mailer and be sure to include your renewal fee.

Spot and indicate F/Ns with ease

Own the computer-accurate Mark VI

There is no chance of missing reads with the Mark VI if you know your meter tech 100% standardly. On the Mark VI, the correct things read so you can spot them, run them and get the F/N indicated.

Detect the most subtle phenomena hidden deep in the bank with undreamed of precision when you have a Mark VI. Ron's mile-marking breakthrough in E-Meter technology found nowhere else but in this meter gives you this capability. The core of it is the needle movement which has a completely remarkable sensitivity. The results you get are unmistakably precise reads on the right indicators. It shows exactly what's happening with your pc. That's a new era of total precision and faster results for you.

This meter is the perfect solo meter as well as an ideal lower level meter. On solo cans it reads better than the Mark V does on two cans. Figure out what this can mean for you in terms of gains and speed up your OT levels. This tells you why it's also the only meter permitted for Solo NOTs. The sensitivity and precision required at this level demand it — the Mark VI delivers it.

In addition to this meter's uncanny correctness, there's the added convenience of its computer-age built-in digital clock and tone arm counter. Another piece of electronic magic lets you recharge your meter while you audit. Protected in tough high-impact casing with internally sealed circuitry, this meter is first class in every aspect.

"Unless metering perfection is attained by an auditor," Ron says, "he or she will continue to have trouble with preclears."* Flag training can handle your ability to meter perfectly, but you must have an E-Meter that's reliable and utterly precise for full success. The Mark VI is that E-Meter.

Owner's comments give a clear picture of this.

"An even more remarkable instrument than I thought." — R.R.

"I'm totally in love with my meter." — H.G.

"This is a fantastic instrument." — M.C.

"This meter was absolutely streamlined in its action through my OT levels. It is a remarkable piece of equipment. Very spaceage, very OT. I could trust it. It never once failed or missed. I wouldn't want to audit on anything else!" — L.M.

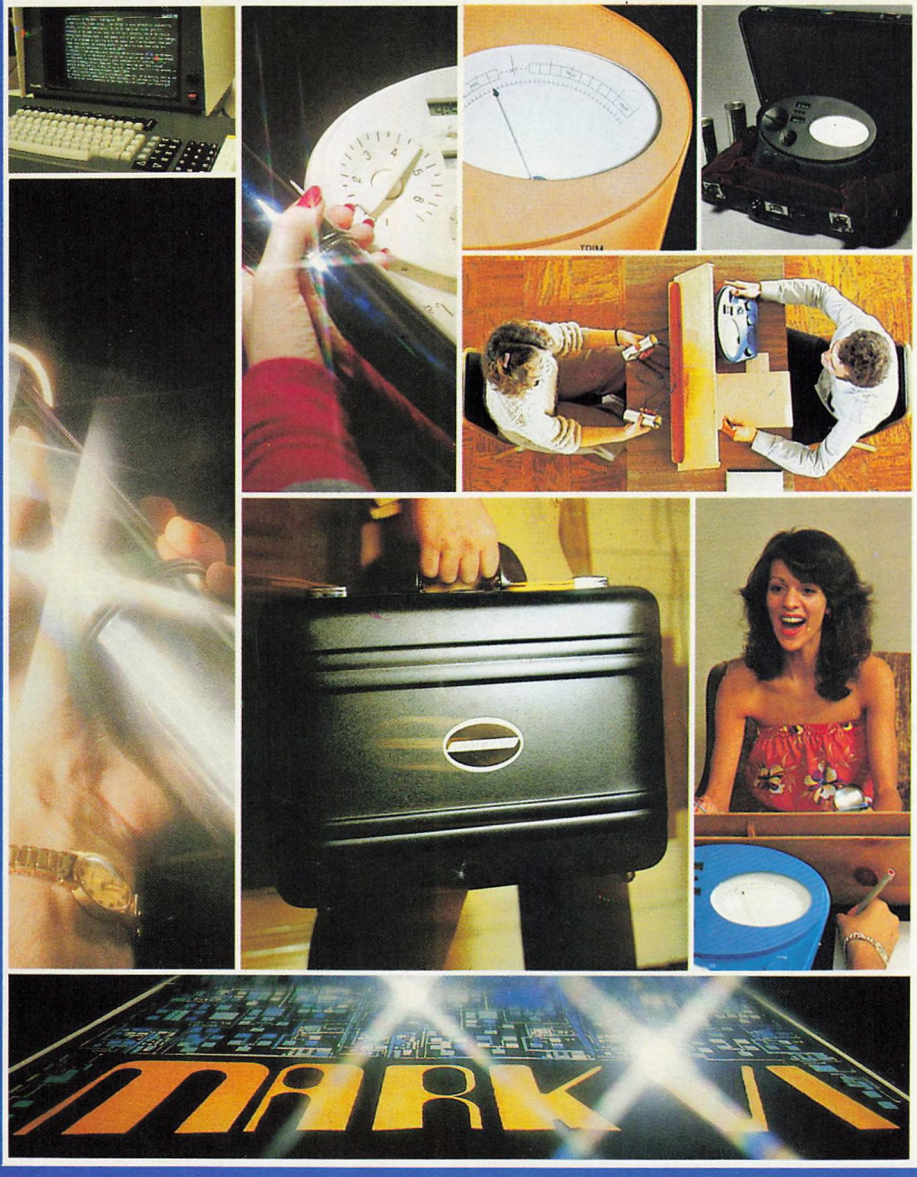

"A good professional meter." — G.S.

The Mark VI and its rugged carrying case come in these seven color choices: steel blue, peacock blue, silver grey, beige, gold, aqua, black (Black Stallion Edition) and executive brown.
