Magazine of the Flag Land Base

Two Articles:

Training & Duplication and The Relationship of Training to OT.
by L. Ron Hubbard

The certain auditor is the successfull one – the making of the auditor trained at Flag

Control and effectively use your E-Meter. Get the results you want!

BUY Ron's New Guide

Understanding the E-Meter

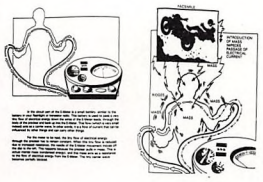

A book on the basics of how the E-Meter works.

Use it!

Readers report:

"This book is a must for anyone moving up the Bridge to OT! If I'd had this when I started on my Solo Course, the added certainty from this book would surely have cut down my time on my OT Levels. It's a truly OT book – yet it's written in a way that anyone can easily understand!" – P.M.

"Boy do I ever understand how my E-Meter works now and how it relates to what happens in auditing. That I've gotten it

from this one book astounds me!

"All the pictures, diagrams and clear text led me to an understanding of this priceless machine that I've never had before. I know I'll always have it too.

"I can think so much better with my materials and apply them because I really know what's going on. It's really simple and basic, not complex like I used to think it was. Reading this book has been like finally finding the tuning knob on the TV. Now the picture's clear and complete. The fuzz and junk are gone. I have the same great feeling I get when I've cleared a word and have the full conceptual meaning, not just a definition. I could ask where has this wonderful guidebook been all this time, but I'll say instead – WOW! Am I ever glad it's here now!" – B.G.

It's no surprise readers give *Understanding the E-Meter* such hearty response. This book maps the way for you to simpler better control of your meter!

Lots of exact pictures, an easy text and clear diagrams turn this technical subject into simplicities you grasp easily and make your own. The crisp drawings are like precise demos of the text. Add to this the full glossary of definitions and there's no reason you can't achieve your purposes as an auditor better – unless you don't get and read this book.

Experienced users have even found there was more they could understand about the meter after reading this book; and were very happy they had.

The book is compiled from Ron's notes, researches and the script of his Academy instruction film, *How the E-Meter Works*. It strips the complexities off the subject, and does it without a lot of extra talk.

Know how the E-Meter works by getting your copy of *Understanding the E-Meter*. Discover first hand how real understanding of this indispensible tool can lead to better control of your meter and more effective results in the chair. Find out how simple it is to have this understanding. Buy your copy from the Flag Bookstore today. Place your order now! The price is on the insert. Use the reply mailer for fast service.

If unavailable order from Bridge Publications, Inc. 1414 N. Catalina St., Los Angeles, CA 90027, or New Era Publications, ApS., Store Kongensgade 55, 1264 Copenhagen K, Denmark.

NOTE: The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. It purpose is to assist the Minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law, and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists or psychiatrists to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of that Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed or owned only under these conditions.

DEFINITIONS OF SCIENTOLOGY TERMS

ability gain: The pc's recognition that the pc can now do things he could not do before.
auditing: The application of Scientology processes and procedures to someone by a trained auditor. Auditing gets rid of unwanted barriers that inhibit, stop or blunt a person's natural abilities as well as gradiently increasing the abilities a person has so that he becomes more able and his survival, happiness and intelligence increase enormously.
Auditor: Scientology processing is done on the principle of making an individual look at his own existence, and improve his ability to confront what he is and where he is. An auditor is the person trained in the technology and whose job it is to ask the person to look, and get him to do so. The word *auditor* is used because it means one who listens, and a Scientology auditor does listen.
Be, Do, Have: The Conditions of Existence: there are three conditions of existence. These three conditions comprise life. They are BE, DO and HAVE. The condition of being is defined as the assumption (choosing) of a category of identity. An example of beingness could be one's own name. Another example would be one's profession. The second condition of existence is doing. By doing, we mean action, function, accomplishment, the attainment of goals, the fulfilling of purpose, or any change of position in space. The third condition is havingness. By havingness we mean owning, possessing, being capable of commanding, positioning, taking charge of objects, energies or spaces. These three conditions are given in an order of seniority (importance) where life is concerned.
Bridge: A term originating in early Dianetics to symbolize travel from unknowingness to revelation.
case: The way a person responds to the world around him by reason of his aberrations.
case gain: The improvements and resurgences a person experiences from auditing. Any case betterment according to the pc.
Case Supervisor: That person in a Scientology Church who gives instructions regarding, and supervises the auditing of preclears.
Charge: Harmful energy or force accumulated and stored within the reactive mind, resulting from the conflicts and unpleasant experiences that a person has had. Auditing discharges this charge so that it is no longer there to affect the individual.
class: Refers to the level of Classification of an auditor.
Clear: A Clear is a being who no longer has his own reactive mind.
communication: The interchange of ideas or objects between two people or terminals.
computation: technically, that aberrated evaluation and postulate that one must be consistently in a certain state in order to succeed. The computation thus may mean that one must entertain in order to be alive or that one must be dignified in order to succeed or that one must own much in order to live. A computation is simply stated. It is always aberrated. A computation is as insidious as it pretends to align with survival. All computations are held in place wholly to invalidate others.
C/S: a case supervisor direction of what to audit on a pc. See also *case supervisor.*
drugs: By drugs (to mention a few) are meant tranquilizers, opium, cocaine, marijuana, peyote, amphetamine and the psychiatrists' gift to Man, LSD which is the worst. Any medical drugs are included. Drugs are drugs. There are thousands of trade names and slang terms for these drugs. Alcohol is included as a drug and receives the same treatment in auditing.
engram: A mental image picture which is a recording of a time of physical pain and unconsciousness. It must by definition have impact or injury as part of its content.
facsimile: The pictures contained in the reactive mind.
Flag Operations Liaison Offices (FOLO): FOLOs have been set up to maintain one single command channel from Flag to orgs. They are Flag's link to the orgs and vital to Flag management and expansion of orgs. There are FOLOs in Australia, Europe, Africa, the United Kingdom, East United States, West United States, Canada, and Mexico.
Flag Service Consultant: An FSC is a Sea Org member specially trained and fully briefed to be the stable terminal in his area as regards Flag services which include all Scientology and Dianetic services available elsewhere as well as some exclusive services like L-10 processing or the Elementary Evaluators Course. He is Flag's terminal in the field to ensure that public get their questions answered concerning Flag Services, technical estimates, etc., so that there are no stops whatsoever for anyone wishing to take services at the Flag Ship Org which provides the world's highest quality technical delivery.
F/N: floating needle. An E-Meter needle phenomenon. It is a rhythmic sweep of the dial at a slow, even pace of the needle. That's what an F/N is. No other definition is correct.
Folder: a compilation of data — the records kept by an auditor.
Grade: a series of processes culminating in an exact ability attained.
Grade Chart: Classification, Gradation and Awareness Chart. The route to Clear, the Bridge, a guide for the individual to Clear and above.
HCOB: Hubbard Communications Office Bulletin.
HCOPL: Hubbard Communications Office Policy Letter.
internships: Internships are not where you learn theory. That belongs on the course. Internships are there to add polish to professional level. Interns by definition train on-the-job under skilled supervision. They acquire skills by *doing*, not by reading their theory again. They audit. They C/S. They supervise. They get their errors corrected and they audit, C/S and supervise some more. When they have done this in volume and polished up their rough edges so they can think with their materials without hesitation on what to do, they become professionals. This is an internship graduate.
L's: plural. Refers to the special Flag rundowns L-10, L-11, L-12. ("L" is an abbreviation for "List" and 10, 11 and 12 are the numerical designations for these rundowns.)
MEST: coined word from the first letter of the words: Matter, Energy, Space and Time, which comprise the physical universe.
NED for OTs: New Era Dianetics for OTs.
NOTs: a popular abbreviation for NED for OTs.
OT: Operating Thetan, a thetan exterior who can have but doesn't to have a body in order to control or operate thought, life, matter, energy, space and time.
pc: Preclear.
Pictures: see *facsimile.*
Postulate: a postulate is, of course, that thing which is a directed desire or order, or inhibition, or enforcement, on the part of the individual in the form of an idea.
preclear: A person who, through Scientology auditing, is finding out more about himself and life.
present time: The time which is now and which becomes the past almost as rapidly as it is observed. It is a term loosely applied to the environment existing in now, as in "the preclear came up to present time," meaning the preclear became aware of the existing matter, energy, space, and time of now. The point on anyone's time track where his physical body (if alive) may be found, "Now."
Processing: a series of methods arranged on an increasingly deep scale of bringing the preclear to confront the no-confront sources of his aberrations and leading him to a simple, powerful, effective being.
Pre-OT: a thetan beyond the state of Clear who, through the advanced courses, is advancing to the full state of operating thetan.
PTS: means potential trouble source, which itself means a person connected to a suppressive person. All sick persons are PTS.
Reactive Mind: the reactive mind is a stimulus-response mechanism, ruggedly built, and operable in trying circumstances. The reactive mind never stops operating. Pictures of the environment, of a very low order, are taken by this mind even in some states of unconsciousness. The reactive mind acts below the level of consciousness.
release: a release purely and simply is a person who has obtained results in processing and has a reality on the fact that he has attained those results.
ridge: a solid body of energy caused by various flows and dispersals which has a long duration longer than the duration of flow. Any piece of matter could be considered to be a ridge in its last stage. Ridges, however, exist in suspension around a person and are the foundation upon which facsimiles are built.
Routine 6 End Words: (R6EW), the process which makes a Grade VI release.
Routine 3-R; R3R: engram running by chains is designated "Routine 3-R" to fit in with other modern processes. Routine 3 Revised. [a chain is a series of recordings of similar experiences.]
rundown: a series of steps which are auditing actions and processes designed to handle a specific aspect of a case and which have a known end phenomena.
self-determined: one can only be self-determined when one can observe the actual situation before one: otherwise a being is delusion-determined or other-determined.
solo auditing: the action of "solo auditing" is not self auditing. Solo auditing is done in a regular session in model session form. In solo auditing the auditor is also the pc. This means that once the auditor has duplicated and understood the item or question the pc has also.
standard tech: A standardization of processes so that they apply to 100% of the cases to which they are addressed. The accumulation of those exact processes which make a way between humanoid and OT, the exact method of delivering them, and the exact repair of any errors made on that route. That terribly narrow path which we now call standard tech is composed of those things which if they are out inhibit and prohibit all case gain.
student: a student is one who studies. He is an attentive and systematic observer. A student is one who reads in detail in order to learn and then apply. As a student studies he knows that his purpose is to understand the materials he is studying by reading, observing and demonstrating so as to apply them to a specific result. He connects what he is studying to what he will be doing.
supervisor: a course must have a supervisor. He may or may not be a graduate and experienced practitioner of the course he is supervising but he must be a trained course supervisor. He is not expected to teach. He is expected to get the students there, roll called, checkouts properly done, misunderstoods handled by finding what the student doesn't dig and getting the student to dig it. The supervisor who tells students answers is a waste of time and a course destroyer as he enters out-data into the scene even if trained and actually especially when trained in the subject. The supervisor is *not* an "instructor," that's why he's called a "supervisor."
Thetan: the person himself — not his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware, the identity which is the individual. The thetan is most familiar to one and all as *you.*
TR: training regimen or routine. Often referred to as a training drill. TRs are a precise training action putting a student through laid out practical steps gradient by gradient, to teach a student to apply with certainty what he has learned.
twin: the study partner with whom one is paired. Two students studying the same subject who are paired to checkout or help each other are said to be "twinned."
word clearing (W/C): a technique for locating and handling (clearing) misunderstood words. There are nine methods of word clearing.

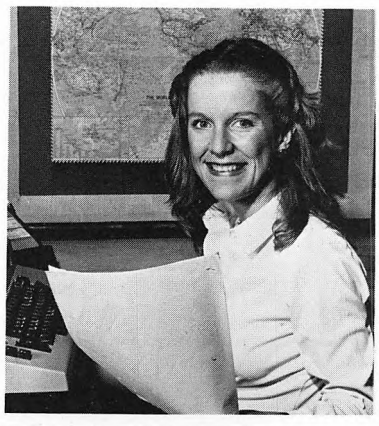

Get 100% standard tech training! Tell the Flag Letter Reg to enroll you now.

You know you deserve the best — so get it — at Flag. Get fully standard training and processing delivered to LRH standardness by top professionals. Flag services are spot-on and fast, with lots of personal attention to individuals' needs.

Move up the training side as well as the processing side of the Bridge. Don't lose out on 50% of your wins by going up just on the auditing side of the Grade Chart.

Write the Flag Letter Reg. Tell her what courses and internships you want. If you're not sure, have her show you your next exact step up the Bridge, and get going now. Better yet, ask the Letter Registrar how you can get your own Technical Individual Program (TIP), a correctly balanced training and auditing program individualized for *you.* The Letter Reg is there to help you get up the Bridge, so use her expertise fully.

Let the Letter Reg show you how easy it is to come to Flag from any place on the planet — from any spot on the Bridge; and how to do it fast. She's also an expert at helping people get to the top of the Chart.

Get any questions you may have about Flag and its services answered. The Letter Reg is your personal comm line to a future of greater ability through the 100% standard application of Dianetics and Scientology technology. Write her now! Use the convenient reply mailer.

Why Flag Tech Training is Best. Why you want to get trained NOW!

Auditing handles past upsets and removes barriers that keep you from realizing your true potentials.

Training is where you learn to handle things as the they occur in present time — where you become able to really use those potentials freed up by auditing. In other words, through training you get the means for being cause over the very things you cleaned up in the auditing room. Things that've plagued you down the track and still do in present time.

What are they? They're the things you run up against every day, all day long, in all the many forms they can take. ARC breaks, overts, upsets and the like. That's what you learn to handle with auditor training, and an awful lot more.

Ron says clearly, "People sometimes think only someone who wants to be a professional auditor studies in the Academy, a false impression. One can't imagine how a father or businessman or mother or clerk or official could succeed without knowing the basics of human reaction and how to handle them. Someone who is a Class III or Class IV [Auditor] knows how."*

Right now, Scientologists are flooding onto Flag training courses and internships. They've picked up the message that tech training is for handling life, not only pcs in an auditing room.

These people have received another message. Ron's new training line-up makes it easier than ever to get onto training and through it. With streamlined checksheets, courses don't take forever!

So the Basic Career Auditor Course, Academy Levels and Happiness Rundown Course, as well as the internships, are filling up. But why Flag? Why are people pouring into Flag?

Some doing Flag courses and internships want to audit audit family or friends. Some want to do field auditing. But many are professionals in other fields.

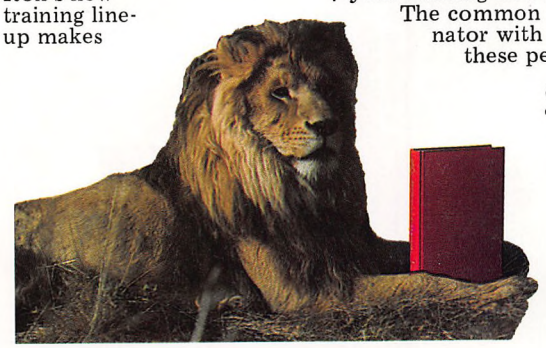

Some people are moving up to the OT levels and want the very best auditor possible for Solo — themselves — a Flag trained and interned auditor!

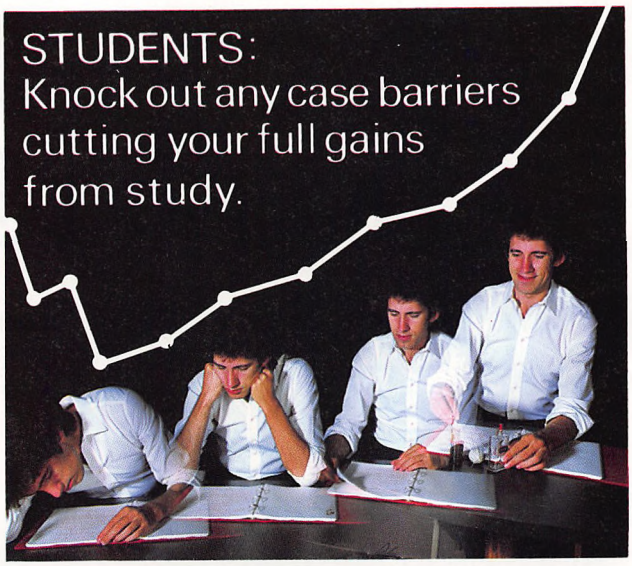

There are even people doing training between their Flag auditing sessions.

A lot of people coming on courses have done NO previous auditor training, but they want to do it right the first time. And these new people are doing very very well, zooming through courses and internships with excellent results (see page 9 for one of these first hand successes). Ron's Tech Films are definitely a contributing reason for these results. They give a clarity of understanding and certainty about vital basic data not available before. Flag has them all; and as the new ones are periodically released, Flag will be the first to have them for you. There's one or more on most every course. Enjoy the the ease and speed they give to a training cycle. Start you your training now.

The common denominator with all of these people is,

(continued on page 20)

Get Flag's Student Booster Rundown

Get through your courses *faster* and have the certainty you can apply what you learn to your life. Ron developed this rundown to handle any case barriers that could keep you from having the full wins of study and Tech training.

Increase your study velocity two ways by doing the Student Booster Rundown. It packs a double impact.

1) It helps you move faster through your course by knocking out study barriers standard study and course supervision tech wasn't intended to handle.

2) It gives a real case boost which contributes to your ability to move faster on study. You have more attention in present time to confront and handle what's before you.

Come get your study problem handled without having to take a course. The Student Booster is here for you or anyone who wants it. It's not a prerequisite to any training at Flag.

If you are on a course at Flag and decide you want the Student Booster, your auditing time is fit in as part of your course schedule.

Get a bonus from this rundown. Training won't cost you as much in the long run, since you can progress much faster on your studies. Save money on the time spent staying here because you can finish far sooner than you expected to. Or, get more training accomplished in the time you've set aside for it. Training at Flag is already fast and certain. It's usual to finish in "checksheet time"* or less. The booster can make it go even faster for you.

This rundown usually takes from five to twenty-five hours, depending on the individual. It's delivered as a rundown, not by hours. If it requires more than 12½ hours, then you sign up for another 12½ hours to complete it.

Break through into the full wins of training. Put an end to case barriers on your study speed and ability to use the data in your life. Do your Flag Student Booster. Write to the Letter Reg today. Tell her you want the Student Booster NOW! Donation data and reply mailer are on the insert.

Personal Wins

"I now feel in present time regarding my Scientology material and studies with no case involved. I've confronted all aspects of my training collected along the way. I wish I had time to stay and do more training. I love Flag." — D.O.

"This booster brought to light not only the things that were in the way of my study, but a recovery of what I came into Scientology to handle. Thank you Ron!" — J.S.

*checksheet time: the standard time for completion of a course, as given on the checksheet for the course.

Training & Duplication

"This is not exactly a processing activity. This is the process of life and livingness that is most significant. And it's havingness like mad, because you start to have the things that you're surrounded with."

by

L. Ron Hubbard

For anybody to assign a length of time it takes for somebody to learn something is adventurous. It can't ever be factual. I'll give you an experiment in this.

Take one datum and try to teach it to somebody with the old educational processes of the Seventeenth Advanced Clinical Course. Take any datum and say it to him and have him repeat it. Try to teach him this datum. This is the simplest of all because you just say it, and have him repeat it; and have him tell you what it is all about; and by giving you an example of it.

That is the wildest thing you ever did with anybody. It is quite incredible. As simple as this mechanism is, it has considerable horsepower. I have seen that datum move a very tough case, by the way. That was what was interesting about those educational processes. They were very limited in that they didn't move very many cases, but they could knock aside this "no-effect" proposition on training.

The second grade of that is you say something and they can understand it. In other words, let them duplicate the words and then let them duplicate the understanding. In essence you are doing this in training, only you're doing it all the way.

You read a bulletin and then you go see the examiner. This is what is happening. I have said something to you, and he's trying to find out if you can duplicate it. And don't think this isn't

therapeutic — it is. But we're not interested in it from a therapy line. We're interested in it from the basis of the communication of a datum.

Duplication is duplication

Let's say we were just trying to increase a person's ability to learn — learning rate — and that was the only thing we were trying to increase. It wouldn't matter if we were teaching him automotive assembly books or the Legal Code of the Early Church of England as interpreted by the Catholic Church. I don't care what's used as long as there is some data stated. It doesn't matter how much dunnage or how little dunnage, as long as there's some data studied.

We would have the individual sitting there and we'd read off to him a line like, "All the Churches of North Umbria were deprived of their windows because of a window tax which was three and six per window per sabbatical." We tell him to say that.

As we try to merely get him to repeat a line of sounds — we don't even call them words — he gets a tremendous confusion. So our first state in which the person is in is one of tremendous data confusion, which blows off at any attempt to duplicate data.

You can see somebody do this when they're studying in this way. For instance, say this fellow's got lots of overts on the sabbath. So you say "sabbatical" and he's wondering if this is connected to "sabbath." You get into a total discussion of "sabbath." Is it right to have a sabbath? Where was the sabbath originated, and wasn't it really a pagan introduction in the first place? That's the type of questions he'll ask; and they'll go on and on. It has, however, absolutely nothing to do with what he's studying.

You would think this person would have to have lots of auditing to get rid of this. No. There is another system that gets rid of this. It sort of teaches him that he can ride past these hung points. He gradually learns that these buttons which he has got really don't keep him from duplicating something. Even if it's upsetting and he doesn't like it, he can still duplicate it.

Eventually he begins to see duplication in its proper light. Duplication is duplication. It is not running on buttons. It is simply duplication. It is just itself and that is all.

Ability to get yourself duplicated

Now at the same time, this individual can turn around and do something else which is quite interesting. He can cause himself to be duplicated.

If you can do this well, you'd be surprised, as your ability rises, how the duplication occurs with the greatest of ease. You go out and tell somebody to paint the house green. He pulls a color card out of his pocket, you indicate the color and he goes and gets the paint and paints the house green. He does a good job of it too. If you can do that, you yourself have developed the ability to get yourself duplicated on your own ideas.

In other words, by learning to duplicate you can get into a state where you, yourself can be duplicated. This cuts down randomity like mad. This is not exactly a processing activity. This is the process of life and livingness that is most significant. And it's havingness like mad, because you start to have the things that you're surrounded with.

Understanding

Beyond duplication comes understanding. Understanding comes after duplication, not before. How much understanding do you think this fellow did when you said, "Christmas comes once a year," and he went off on all sorts of tangents? Well, you'll find out nearly everything he's asking you summates into not understanding or trying to understand.

Here's the next thing. If responsibility for understanding depends on personal study — and it does — why then you have of course raised the person's ability to comprehend or understand. Not only does Christmas come once a year, but now beyond that point, he is capable of understanding and studying "Christmas" and "once a year" and what this refers to. He now is capable of finding out that it's a totally unimportant datum.

Up to that time it might be important or it might not be important. He

Definitions

ACC: Advanced Clinical Course
duplication: cause, distance, effect, with the same thing at effect as is at cause. The flow of creation. Duplication is the process by which a thing persists.
havingness: the ability to duplicate that which one perceives, or create a duplication of what one perceives, or to be willing to create a duplication of it. But it's duplication.
overt - overt act: that thing which you do which you aren't willing to have happen to you. An overt act is not just injuring someone or something; an overt act is an act of omission or commission which does the least good for the greatest number of dynamics or the most harm to the greatest number of dynamics.
security checking: remedying the compulsion or obsession to commit actions which have to be withheld, i.e., we are remedying unreasonable action.
valence: just an identity that is so dominant that it balls-up a whole section of the whole track. It takes a large section of the whole track and bundles it all up in a black ball and it's full of pictures. A valence is a substitute for self taken after the fact of lost confidence in self.
whole track: the whole track is the moment to moment record of a person's existence in this universe in picture and impression form.

Use of a Doll in Auditing and TRs

The Cycle of Communication

NOW

THE BEST TRAINING ON EARTH IS BETTER THAN EVER!

Ron's Films put an ideal tech scene there for Flag Students

Flag has long been the Mecca for those who seek technical perfection. The student's goal is to be able to apply 100% standard tech; and Flag is set up to produce auditors who can do just that. As Ron said in Ron's Journal 30, "Flag teaches a large variety of courses for auditors and is the place where top auditors go to become fully proficient in all classes."*

That was written in 1978, and it's even truer today, because Flag has all of Ron's new technical films released to date. And they are in full use on Flag tech courses. Whether you train to be a classed auditor or Solo auditor, there are now films that will let you SEE the tech as relayed straight from Source. They let students see how it's done the way Ron would do it.

Flag now has all of the following films to help you really get the data:

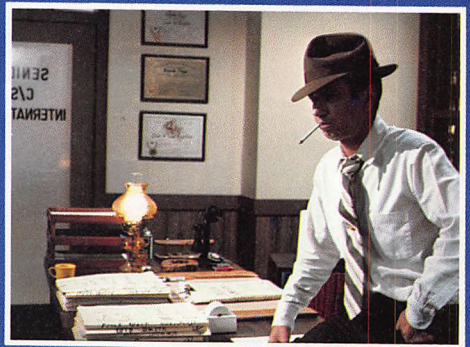

HOW THE E-METER WORKS
THE SOLO AUDITOR
RECOGNITION AND IDENTIFICATION OF E-METER READS
THE CYCLE OF COMMUNICATION
USE OF A DOLL IN AUDITING AND TRs
FALSE TA
PC INDICATORS
PC INDICATORS DRILL FILM
THE AUDITORS CODE
START, CHANGE, STOP

One or more of these films is part of most all of the Tech Courses given; and they align beautifully with the intent of the New Grade Chart to help make your passage up the Bridge faster, smoother and more certain. Of course, as new films are periodically released, Flag will be first to have them for you.

WINS FROM TECH FILMS

"This film, The Cycle of Communication, has brought my awareness of how to handle communication way up from what it had been. Ron has made things so clear and easy to see that I feel as if I've had a private tutorial from him. I became aware of some uncertainties about this cycle I didn't realize I'd had and turned them into certainties. I've found since seeing this film my application of this tech has not only made my course go much smoother but my life too!" — K.B.

"After seeing The Solo Auditor, I felt I really grasped what Solo was all about and that I would be very standard and on Source in my auditing. The way in which Ron communicates through this film makes me feel he's right there with me cheering me on!" — L.H.

Recognition and Identification of E-Meter Reads

Take your next step up the Training side of the Bridge at Flag. Sign up for, and get going on your next course. See and study the films on it. Then under the famous Flag supervisor's watchful eye, apply the data. Gain unshakable certainty that you can handle your metering, communication cycle or whatever piece of auditor tech you've seen a film on because you understand it clearly. Know, that because you've had the advantage of Ron's films and 100% standard supervision, you'll be able to handle the tech and situations with it far better than before.

Write the Flag Letter Reg today and have her enroll you on your next Tech Training step up the Grade Chart. If you're not sure, she'll help you find out exactly what it is and get you going. Send your letter NOW! A full list of courses and internships with donations are on the insert. Use the convenient reply mailer. (Your Letter Reg will be happy to answer any questions you may have about which films are on what courses.)

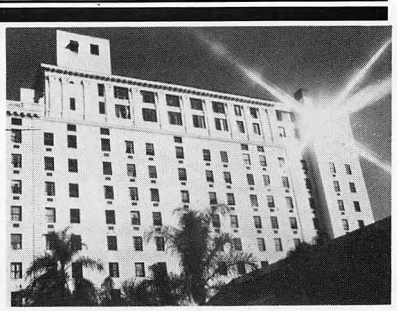

The films are included in the courses they're part of — at no extra charge — as a gift from Ron. "The best on the planet is waiting for you at the Flag Base."*

— LRH

And now the best is even better!

"There is nothing more valuable to me than this internship. . . . I can apply Scientology to life so that I really feel like I'm finally a Scientologist per the definition."

PEOPLE AT FLAG Part I

The invaluable gains from, and the necessity of Tech Training are truths proven correct countless times. Students and interns on Auditor Training enjoy the greatest reality about these truths because they're experiencing directly the full gains possible from getting training as well as auditing.

Right now, there is a training boom continuing and growing at Flag. It's composed of increasing numbers of individuals who are piling up successes and cognitions from and about Tech Training. They are also discovering what it means to have the best and completely standard delivery of this tech, firsthand.

In Part I of "People at Flag," share the experiences of this random selection of people presented here. In Part II, starting on page 9, adventure along with a recent graduate and intern completion. Learn why the successful auditor is the certain one — or what it's like to become a Flag Trained auditor.

"This has been the best, smoothest and most perfect training I've ever do done! My auditing is simple again. It's not only more enjoyable for my pcs, but for me too. I know now that I can give a pc gains just with my comm cycle alone. I know also that I can audit the Happiness Rundown and get *great* results.

"The cramming on this internship has been perfect as far as I'm concerned. I didn't use to like cramming because I didn't trust it. But the cramming here basically ran all that out, and handled exactly what I did need to handle, and kept me winning. Thanks to all who helped, and Ron for all of it." — C.M.

"I had great, great wins doing Academy Level Three. My knowledge about life increases in size like a jig-saw puzzle falling into place. I'm getting the other half of the gains attainable in Scientology by going up the training side of the Bridge. A big win is that I found some misunderstood words about Scientology which had been barriers until I got them handled here. Another is knowing I'll be able now to help a pc with all of the great tech of this level. It feels just great!" — S.S.

"Doing this internship has been the most incredible experience of my life. Doing it was like living a lifetime in a few months. This internship has brought me to a standard of 100% application of this tech, and an awareness I'm the one that's doing it. There are no stops to me being 100% perfect in its use.

"My understanding of auditing basics, word clearing, and debugging are up to Flag standards. There is nothing more valuable to me than this internship. I feel like I can really contribute to the clearing of the planet like never before.

"I can apply Scientology to life so that I really feel like I'm finally a Scientologist per the definition. I'm involved in it, able to apply it and I know what it really takes to duplicate and understand the tech. I am a professional auditor and for me this is just the starting point. This Flag Internship is life and it's living lightning. There's no internship on the planet as challenging as this one.

"This internship is made up of terminals that are incredible and who really work to keep interns standard. It took a lot of work on their part and my part to become a Flag Interned Class IV Auditor. My supervisors never gave an inch, nor were they reasonable, in order to insure I was standard. Their patience and persistence are commendable.

"My Cramming Officers have also put a lot into correcting my tech; and the correction I've gotten has really increased my competence. It has been very precise and thorough. They've gotten me through tremendous amounts of Q and A[1] which I thought of as a way of life. Without cramming there would have been no way for me to have met Flag (LRH) standards.

"Then there were the video critiques with the Senior C/S of the Flag Service Org. What an experience! My confront came up to a point I didn't think could exist. From these video critiques and the crams my confusions blew and the tech became simpler to do. It was a priviledge to be part of this. The C/Sing on this internship was also spot-on and I never slipped by with an outness. Thanks to all, and especially LRH.

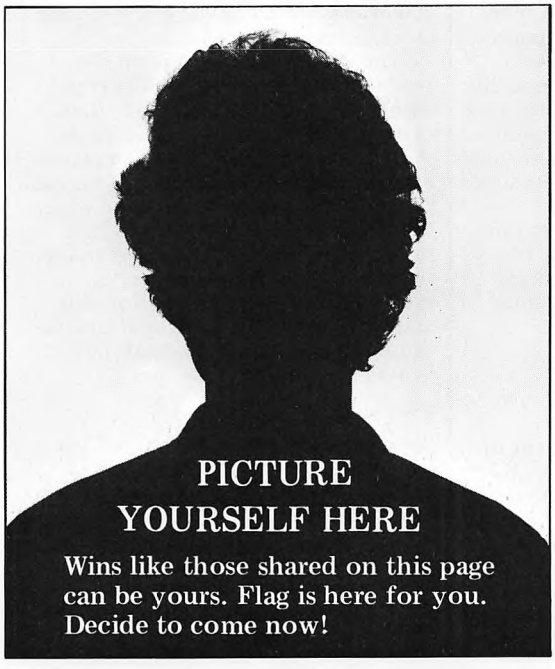

"The simplicity of all this is that the Flag Internship equals Keeping Scientology Working, or KSW. Each terminal mentioned does this, and now I can do it too." — D.M.

"This Level IV Course had the best tapes of any course I've done. Ron gives fantastic insight into what I feel is the basic area of aberration on a case. The detail goes far beyond the Tech Dictionary definition of service facsimiles[2]. One can see how vitally important it is to observe what is there in present time and not rely on safe solutions. This course has helped me tremendously in understanding myself and in dealing with others. I see when others are acting in a reactive way and now I can act instead of react because I have this data. The Academy Levels *are* vital to successful living." — M.M.

---

[1] **Q and A:** Q derives from question and A derives from answer. Q and A is precisely defined, in auditing, as a failure to complete a cycle of action on a preclear.

[2] **service facsimile:** that computation generated by the preclear (not the bank) to make self right and others wrong, to dominate or escape domination and enhance own survival and injure that of others.

Auditors & Student Auditors:
Audit the PC in Front of You Very Comfortably

Own and Use the Essentials of Auditing Series Cassettes

Sharpen your ability to audit the pc in front of you. Get these nine lectures by Ron about auditing basics. As an auditor in training or as a trained auditor, you can understand auditing and life better. Your valuable final product — happy smiling pcs.

Each cassette lecture gives you a key basic of auditing. Ron tells you the tech so you know what it is, what it does and how to use it. Get the conceptual understanding of this data for yourself. Be able to think with auditing basics. This is knowledge you use not only in the auditing room but at home and in your everyday life.

Six of these nine lectures have previously been available only on the Saint Hill Special Briefing Course. But whatever level you're at, you can benefit from this series now! Have these tapes handy for quick reference.

Order your ESSENTIALS OF AUDITING SERIES cassettes from the Flag Bookstore today. Find the price on the insert and use the reply mailer. DO IT NOW!

(NOTE: Students on the Happiness Rundown Course are required to have their own set. If unavailable, order from Bridge Publications, Inc., 1414 N. Catalina St., Los Angeles, CA 90027, or New Era Publications, ApS., Store Kongensgade 55, 1264 Copenhagen K, Denmark.)

Training & Duplication

continued from page 5

never would be able to find out whether it was something he had to know, or something that he didn't much care about, or something he's liable to be shot for because he didn't know — or something that he'd certainly better forget in a hurry, or something that goes along with the fact that most people have shoes, the bottoms of the soles of which are dirty.

A road to judgement

Classification of the importance of data is the thing which lies up there as the third step. Your first is noncomprehension, nonduplication, confusion. Your second one is merely the ability to duplicate. And after that we get the ability to comprehend, to understand, and therefore get the ability to observe. Judgement lies in that field. This is the road to judgement.

Now nobody has really ever bothered to teach anybody judgement before in the last two hundred trillion years. So this has been a scarcity on the track.

A new skill

You have here, in essence, a new skill. It's going to be very difficult to process it into somebody because they've never had it.

They were capable of observation once, but how did they observe? They always put a curve on the observation in order to make a game of it or something like that. Pure observation, pure study, pure duplication, pure comprehension, pure judgement have never been a study in the field of philosophy. They just don't exist. You will not find these things as subjects of discussion even. They are touched on very slightly by the Platos and Socrateses of yesteryear — but just touched on very slightly. This is totally avoided in religions and religious philosophies. It's like showing them a snake spitting in their face. So, as I tell you, there has been no road to judgement.

What bars you from judgement?

For many years now, I've been trying to teach judgement. It has been a tough and difficult job. Judgement on the subject of another being, the ability to understand what was going on in a session and operating with judgement so as to do the right thing about it.

Do you know what bars you from judgement? It's just the not knowingness of it all. Where does the not knowingness of it all come from? It begins first with duplication. There is the entrance.

Of course you could security check it out, but that's a processing approach. We're not now talking about a processing approach because there is nothing there to process to. Processing processes to what is there. If a thetan ever got himself in bad condition, he has invalidated his own judgement. The whole lesson this universe teaches a person is not to duplicate, just as it teaches him not to communciate.

Two Crimes

There're only two crimes in this universe that you have committed and that you have made others guilty of having committed. One is being there, and the other is communicating. Those are the two crimes, and there are no other than that.

Now if those two crimes are crimes — and those things have been made into crimes — then there's only one other thing that you can possibly make up your mind about it. A person has to become comfortable with being there and communicating. And the way and the route one would take to bring comfort on the subject of being there and communicating would, of course, be duplication of a datum.

Identity

A datum is a location which doesn't have to be pinned down. A datum is a location. All data are a sort of cousin to a thetan. He's an idea — he thinks sometimes — and he has got ideas and he can communicate ideas.

The most portable thing in the world is an idea. You can always put a whole stack of ideas into your thetan briefcase and have no mass at all. So thetans chased out of here and chased out of there begin to use ideas for location; and they feel comfortable when they have an idea. That idea which they feel comfortable about is an identity. Even though the identity is mobile, they feel more comfortable with an identity than without one because it gives them the sensation of being located. They like this.

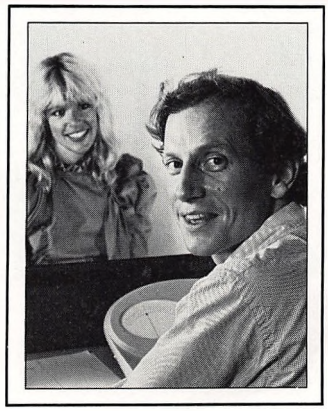

Two steps

So what is the conclusion here? The conclusion is that you can learn to have judgement. The way you learn to have judgement is just those two steps: duplication of data and pursuant to that, understanding. What you should know about this is that any data would serve as long as it is data — any data.

Beyond that you cannot go in the teaching of judgement. You cannot

"When I finished my internship I had certainty that I knew my material, knew what I was doing and knew the power of the tech."

The Certain Auditor is the Successful One – the Making of the Auditor Trained at Flag

PEOPLE AT FLAG Part II

Jim Mayer has known success in many forms these past years. Some of the areas he has been successful in include school teaching, stock options and real estate.

Professional auditing has become Jim's latest field for building a record of success. His most recent win was completion of the Flag Happiness Rundown Course Internship and the achievement of certification as a Flag trained auditor for that level.

As a Scientologist, Jim's viewpoint of success has undergone big changes while he has been traveling up the Bridge. At one time success meant for him the accumulation of property, money and other mest signs of achievement. His ability to attain mest rewards has actuactually improved as a result of his auditor training but as a goal, he says these things don't hold the interest for him they once did.

He finds now that helping others and himself to reverse the downward spiral beings have been on in this universe is the source of not only consistent, but lasting success.

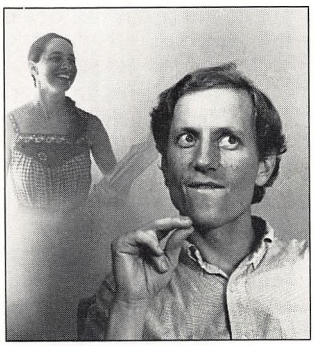

He points to tech training as the origin of these rewards. How his new era of success came about and the scope of his wins is what Jim tells of here.

Auditing made a big impression on me when I started out in Scientology. It was great! Getting it was all I was interested in then.

It was while I was getting auditing every day that I noticed how stable a person my auditor was. She wasn't getting regular auditing like me, yet she seemed happier and more keyed-out than I was.

That's when I made the connection about training. . . . I knew it had to be her training that made the difference in my auditor; and I knew then I wanted training too.

Auditing made a big impression on me when I started out in Scientology. It was great! Getting it was all I was interested in then.

Training was something for other people as far as I was concerned. I listened to what was said about auditor training but the auditing is what appealed to me. Still, it was through receiving auditing that I had the first of several cognitions about training and its value.

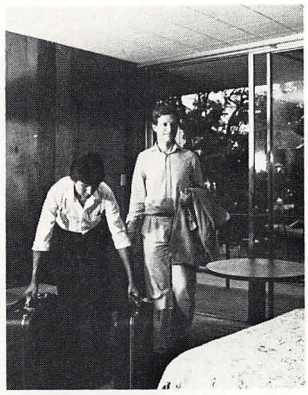

Originally, I began Scientology in Boston, where I was teaching school in a suburb at the time. I was there a short while and then went to Chicago to earn money so I could get more auditing and go up the Bridge.

In Chicago I continued my auditing. It was while I was getting sessions every day that I noticed how stable a person my auditor was. She wasn't getting regular auditing like me yet she seemed happier and more keyed-out than I was. That's when I made the connection about training and how it made up half a person's gains in Scientology. I knew it had to be her training that made the difference in my auditor; and I knew then I wanted training too.

At this same time I started looking towards making more income so I could get the services I wanted. Now, I'd done the Student Hat Course — so using that technology I was able to do and pass the licensing course for handling stock options. It was through using Study Tech that I learned about the stock options game. Before this, I knew nothing about it.

Once I earned my license, I got a membership with the Chicago Board of Options Exchange. I was successful at it. By the end of three years, not only had I saved up 65,000 dollars for going up the Bridge, but I'd also done the New Era Dianetics Course and internship.

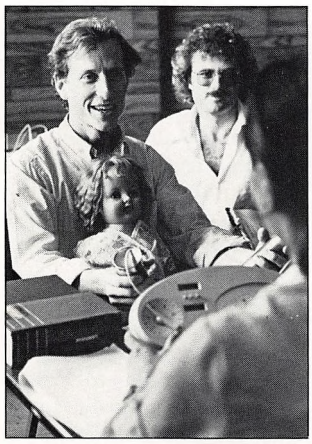

At this point I decided to come to Flag. I was only going to stay here a couple of weeks while I got some auditing. After that, my plans were to head for Los

I decided to come to Flag. I was only going to stay here a couple of weeks while I got some auditing. After that, my plans were to head for Los Angeles. That was over a year ago, and most of that time I've spent here getting auditing and training.

What I particularly value about Flag training besides its famous standardness is the availability of materials. . . . There weren't any stops because of missing materials.

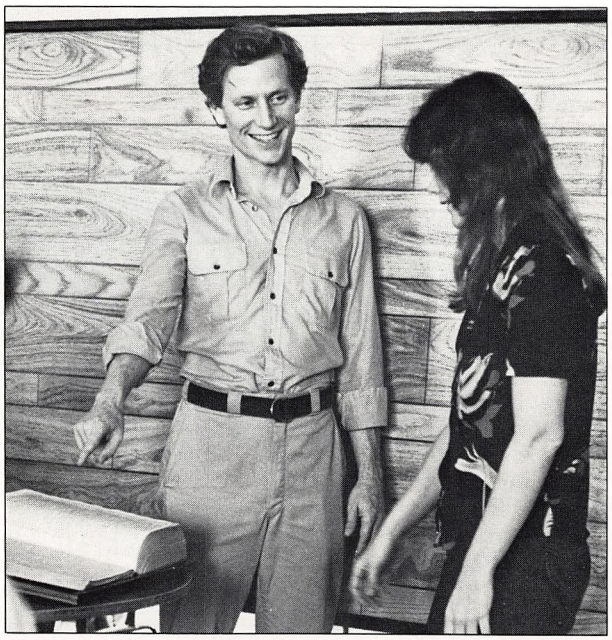

. . . and I didn't have to wait or hunt for a twin. It means you can keep moving and not waste time.

Angeles. That was over a year ago, and most of that time I've spent here getting auditing and training.

It has been an incredible year. I've done a good many training courses as well as moved up the Bridge to Audited NOTs. What I particularly value about Flag training besides its famous standardness is the availability of materials. I expected the 100 percent standardness in supervision, and all those things that make up the quality of Flag training. What I didn't expect was being able to have whatever materials and references I needed when I needed them. There weren't any stops because of missing materials.

Another thing I thought was great was that I didn't have to wait or hunt for a twin. That's a big plus point for me. It means you can keep moving and not waste time. There's other things I could go on about it, but it's the wins from this training which are what it all comes down to.

What can be more worthwhile than helping another to reverse the downward spiral he's been on in the mest universe which has brought him to where he is on this planet? There isn't from my viewpoint . . .

Actually, all my reasons for training are selfish. I shock a lot of people when I say that. That isn't the idea, but once again it's the wins you get. Take happiness. That was a thing, as I said, which I first noticed about my auditors. The why behind their happiness really came home to me while I was delivering the Happiness Rundown to one of my own pcs.

I was having her read the "Epilogue" from *The Way to Happiness.* I was looking on as she read the first line when I had a big cognition from it myself. As soon as I finished the session I looked at it again. What I realized was what I was doing was what happiness was all about. Let me show you. It's this line: "Happiness lies in engaging in worthwhile activities."* Well, auditing certainly is that. It became very true for me when I saw that.

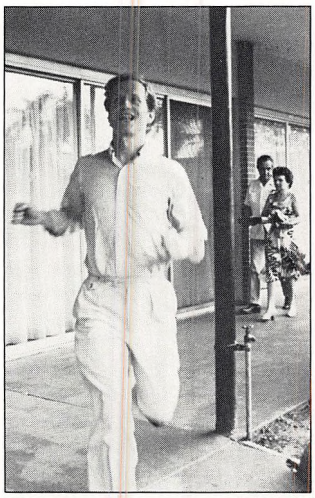

I used to think happiness was having cars and a beautiful house and all that. But since I'd become an auditor I was definitely much happier. This was the real why, right in that line. What can be more worthwhile than helping another to reverse the downward spiral he's been on in the mest universe which has brought him to where he is on this planet? There isn't from my viewpoint; and this is just one of the wins I get.

My cognitions on the value and benefits of auditor training have been progressively bigger as I've gone along. One of the biggest came during my second session of the NOTs Drug Rundown. (This was before the new Grade Chart came out.)

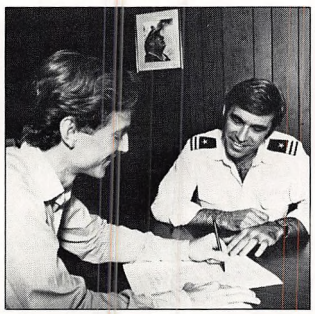

At one time I had taken a lot of drugs. I didn't really realize the effect they had until this session. It was like I'd been wearing blinders and suddenly had them pull pulled off. My perception came way up. One of the things that became very clear were the reasons for getting auditor training.

Here's an idea of what I mean. As I came up the Bridge and through the lower OT levels I found I wasn't really certain about the data on those levels. I know why now, but then it was different. Doubts would come in after awhile about the truth I was given. I wasn't able to really see it because of the drug fog I was still looking through.

In that session though, I got a very clear picture and

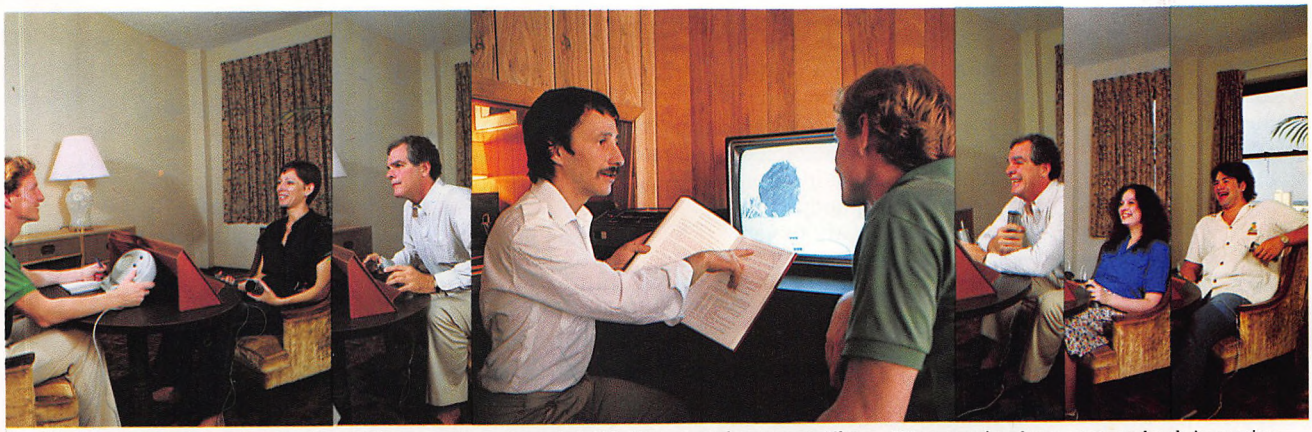

My cognitions on the value and benefits of auditor training have been progressively bigger as I've gone along. One of the biggest came during my second session of the NOTs Drug Rundown. (This was before the new Grade Chart came out.)

When I finished my exam for that session, I ran over to the Registrar's office and signed up for my Happiness Rundown Course Internship. I couldn't wait to get going on it.

*Copyright © 1953, 1955, 1962, 1963, 1967, 1981, 1982 by L. Ron Hubbard. All rights reserved.

On the Flag Internships, the quality of the C/Sing is excellent. All you have to do is exactly follow the program for your pc and audit him. If you goof as an auditor, you simply go handle in cramming.

There's no invalidation or make-wrong. The Cramming Officer works with you. You and he work toward the goal of having you become a fully winning auditor.

When you're done, you go back in session much brighter and surer. Of course, the results show in brighter pcs for you too, because you're a better auditor than you were before.

high reality of the truth of those levels and the big responsibility I have as an OT.

One of the things I looked at was what would happen if the world blew up tomorrow. All I could say at that time, if it did, was somesomething like: "I'd had it on my mind and was intending to do something to help such a thing not happen." That kind of thing. To end up thinking something like that would have been an overt of omission across all my dynamics because it would have been too late. Obviously nothing effective had taken place.

It's as Ron says in his article called "What Are You Going To Do About It?" He's refering to this kind of possibility happening to the planet and he says here, "We know the thing not to do, and that is nothing."*

There's another thing of his that applies here. It's in "An Open Letter To All Clears." This is it. He writes, "An ethical code already exists for OTs so at the state of Clear one should not assume that one has a license to do just whatever one will. . . . You have now become more than ever a part of a team. Obsessive individualism and a failure to organize were responsible for our getting into the state we got into."*

The reality of things such as this is what was hitting me when I cognited on the indispensible need to get trained as an auditor. The why was plain. What I realized of course was that I did have the tools to do something that would help. They were right in reach. You get the tools in auditor training.

When I finished my exam for that session, I ran over to the Registrar's office and signed up for my Happiness Rundown Course Internship. I couldn't wait to get going on it. Engaging in a worthwhile activity had a whole new meaning for me.

Now there's some things I want to say about the Flag Internships. They're there to make you the best. The quality of the C/Sing is excellent. All you have to do is exactly follow the program for your pc and audit him. If you goof as an auditor, you simply go handle in cramming. There's no invalidation or make-wrong. The Cramming Officer works with you. His goal is to have you become a fully competent auditor capable of helping clear the planet. You work together — you've got a mutual purpose. You work toward the goal of having you become a fully winning auditor.

The Cram Officer really checks for outnesses. He even checks to see what you perceive was out in the session which brought you to cramming. That gets handled as well.

When you're done, you go back in session much brighter and surer. Of course, the results show in brighter pcs for you too, because you're a better auditor than you were before. When I finished my internship, I had certainty that I knew my material, knew what I was doing and knew the *power* of the tech. The whole experience was very validative.

The last thing there — the power of the tech — that's another reason I'm getting auditor training. Its power reaches beyond handling pcs in session. The tech serves me in several ways even when I'm not auditing. I think the key to understanding this is in LRH's lecture, "The Relationship of Training to OT." I'll show you here in the transcript the part I mean. There.

"A non-Scientologist is actually so surrounded by confusion that their present time is insufficiently calm for them to have any progress in the direction of OT.

". . . But actually you have to know how to audit well in thatdirection just to make life tenable enough for you to be able to go on through to OT."*

Now I'll give you an example. A friend of mine, who also is on his OT levels, left here flying when he went off to handle some business. He came back caved in. Unfortunately this isn't my only friend who has had this sort of experience. The point is he wasn't trained as an auditor. Had he been he would have been able to stay on top.

To me, it's like Ron says in the first Factor, "Before the beginning was a Cause and the entire purpose of the Cause was the creation of effect."* Well, that's a thetan; and training, I've found, gives you the tools to remain at cause.

Looking back on when I was getting auditing only, I usually came out of session wildly keyed-out. But when I'd get back to operating in the everyday world, with all kinds of aberration going on around me, it didn't take long for me to key right in. My tech training has changed that 180 degrees in the opposite direction. I no longer go the effect of such things.

Knowing how the mind works as a result of my training, I can see aberration going on around me, and handle it in my own uni-

*Copyright © 1953, 1955, 1962, 1963, 1967, 1981, 1982 by L. Ron Hubbard. All rights reserved.

verse. That way I don't get caved in by it. And if it's something that needs handling I can go right ahead and handle whatever it is.

A pc of mine said the only time she really feels in valence is when she's auditing. I know what she means. An OT by definition is at cause over mest and a number of other things. So the more a being is functioning at cause, the more he's in his true valence. Helping another handle their bank in session requires causative action.

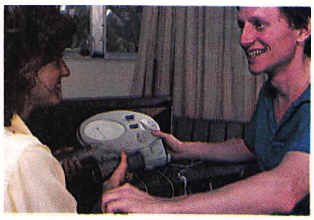

This last year I've had landlord problems, second dynamic problems and money problems. All these would have wiped me out had I had to confront any

The tech serves me in several ways even when I'm not auditing. Handling clients, for example, is easy because of my auditor tech. The understanding of how the mind works is indispensible.

one of them, say, two years ago. Not so now. With my auditor tech, they were just things to handle. I could remain at cause. I could understand what was going on and in fact handle in terms of the greatest good for the most dynamics. My dynamics, by the way, have all expanded as a result of training.

I also picked up a new skill through applying study

Dissemination is another area which goes far easier because of my training. I can demonstrate things directly.

tech — handling real estate. And handling clients, for example, is easy because of my auditor tech. The understanding of how the mind works which I've gained is indispensible.

Here's another thing. My own sessions also go much faster. My auditor and C/S have noted this too. It's not hard to understand. As an auditor you know how to move other people's mental mest. So when it's your own you are moving, it becomes very easy. It's sort of like lifting weights. You practice at it, and soon find lifting heavy objects that you couldn't lift before are easy to lift.

In session, I blow things by inspection most all of the time. My auditor gives me the auditing command and I perceive and blow what is there right away. There's no long having to look before this happens.

Dissemination is another area which goes far easier because of my training. I can demonstrate things directly. It's like giving a sample. With the pinch test for instance, I can give a new person firsthand reality on the E-Meter, how a mental image picture works and so on.

I think the way I want to sum things up is by sharing another cognition I've had about training and OT. The magnitude of truth I'm shown as I go up the Bridge from getting auditing gets greater and greater. This is knowledge. So applying the KRC [knowledge, responsibility and control] triangle to it, I realized that since this triangle works the same way the ARC triangle does, I needed to raise my responsibility and control. If I didn't, then I'd loose the knowledge I'd gained. Training was the answer.

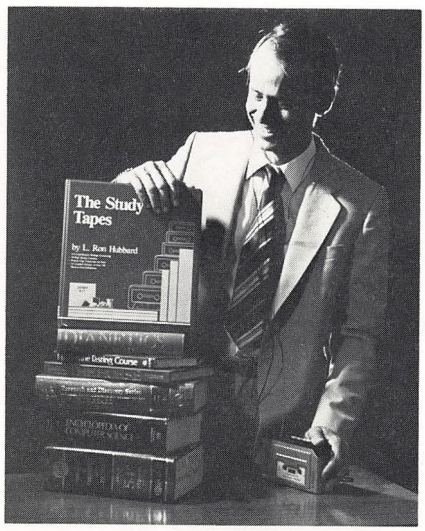

As I continue up the Bridge, my plans are to continue training. I intend to train to the highest Class of auditor skill I can possibly do here at Flag.

Now from the Tech Dictionary we have this definition for responsibility: "When one speaks of responsibility he means 'the determination of the cause which produced the effect.' "* So with tech training you get the means to control bank which enables you to be at cause over it. When you do that you become responsible too.

All this adds up to being able to operate as a thetan, and keeping and making the most out of the truth you've gained.

As I continue up the Bridge, my plans are to continue training. I intend to train to the highest class of auditor skill I possibly can here at Flag.

Have your Study Tech in top shape -

get the Study Tapes Cassette Package with the added New Lecture.

Learn with less effort. Understand, duplicate and effectively apply what you learn. Know and use your study tech just as Ron gives it. Get the Study Tapes Cassette Package. It gives you the on-Source precise way to brush up on your study tech.

Help others handle their study problems. Use these direct Source references and help them discover how workable this tech is.

Naturally, for someone on the Student Hat Course, this package is ideal. If the Student Hat or a basic study course hasn't been done, learn the basic know-how of study and learning straight from Ron.

In this super useful and convenient package you get:

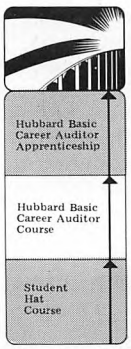

1. The nine standard study lectures – and the NEW addition entitled *Education.* Ten cassettes in all!
2. The full transcripts – one for each tape.
3. A newly revised, complete Glossary.
4. A sturdy binder-case that stores neatly, conveniently on your bookshelf.
5. Quality. The tapes have been re-recorded with top-of-the-line audio equipment.

Have all the wins that can come from applying and understanding whatever you study. Order your Study Tapes Cassette Package from the Flag Bookstore right away! Get the price off the insert. Use the reply mailer for fast action.

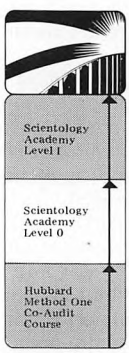

(If unavailable, order from Bridge Publications, Inc., 1414 N. Catalina St., Los Angeles, CA 90027, or New Era Publications, ApS., Store Kongensgade 55, 1264 Copenhagen K, Denmark.)

Get the skill to handle life successfully. Gain the certainty that you can with these popular courses in

the Flag Training Line-Up

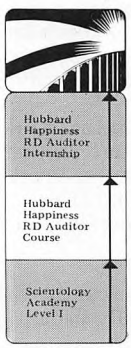

The HUBBARD BASIC CAREER AUDITOR COURSE is on its way to becoming one of the most popular courses ever. No previous Auditor training is required — yet in three weeks or less a student can learn to deliver Expanded ARC Straightwire and the Happiness Rundown; and can be receiving them himself on a co-audit basis! This course opens the door to helping others and a career as a professional auditor for all Scientologists.
Prerequisites: Success Through Communication Course, Basic Study Manual or Student Hat (Purification Rundown and Objective Processes as required).

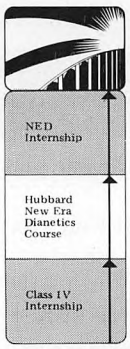

ACADEMY LEVELS 0 - IV give you "some of the most fundamental discoveries regarding life and the human mind that have ever been discovered in the history of this universe."* — LRH
With the data and skills taught on these levels, you can stride like a lion through the jungle of life! You have the knowledge and tech to audit Expanded Grades 0 - IV. Ron has streamlined the levels so you can do each one in about two weeks full time study. Flag's superb course supervision makes this a reality; and ensures that you not only finish on time but you also have 100% certainty of the results.

Have a lot more self-determination because you're not afraid to face and handle things.

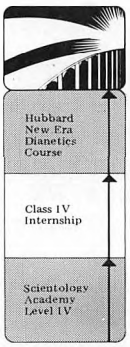

Prerequisites for Level 0: Basic Study Manual or Student Hat, any TRs course. The prerequisite for each higher level is the preceding level.

The HAPPINESS RUNDOWN AUDITOR COURSE. Not only does the student learn the Happiness Rundown (HRD) materials that are bringing people up the road to real happiness, but this course really gets in auditor *basics*. The HRD Course is immediately followed by its internship.
Prerequisites: Class I (Purification Rundown and Objectives as required).

NEW ERA DIANETICS COURSE (NED COURSE) contains Ron's summary and refinement of over thirty years of experience in Dianetics. It has seven Dianetic rundowns that can cut right through the reactive mind and get rid of it entirely for many pcs. This is the course to understand the mind and help people become well and happy — even Clear! This isn't a course to just think about doing — the thing to do is DO THIS COURSE!
Prerequisite: Student Hat.

FLAG INTERNSHIPS turn you into an expert at applying the tech you learn. The Flag Interned Auditor earns his red-carpet status because he knows how to use the subject of auditing 100%!
Gain the ability to produce flubless results because you can think with your materials in the auditing room and in life. You can become a pro auditor when you do your Tech Internships at Flag. Be able to do a lot more and have confidence you can.

You can expect close personal attention when you intern here. Whether it's the C/S who gives the OK on your sessions, the Supervisor who handles your study or the Cramming Officer who puts you back on the winning track, their intention is to see that you're first rate! They're there to ensure you have confidence that you're able to get out flubless products and that you can handle anything.

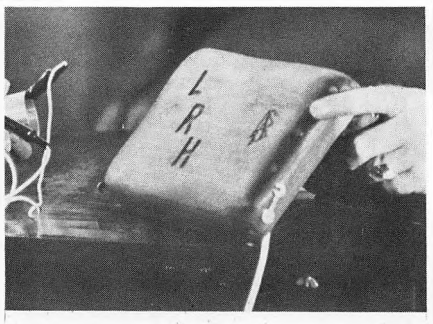

Flag Internships aren't drawn out and arduous. They are thorough, fast and very do-able — A to B. They begin at the bottom of the training side of the Grade Chart and extend to the top.

Give yourself the final polish that earns you the full status of the Flag Trained auditor. Put an end to any losses you may have had applying the tech. Get interned at Flag!

TAKE YOUR NEXT STEP UP THE TRAINING SIDE OF THE BRIDGE AT FLAG. Enroll now! Write the Letter Reg today and sign up for your next step. Get the other 50% of your wins in Dianetics and Scientology. Do it now! Donations and a full listing of all Flag training services are on the insert. Use the reply mailer.

ENROLL TODAY!

"There is only one constant error in sessions that produce no results or poor results; inaccurate meter reading. This is also true for student and veteran auditors alike." — LRH*

Get real results in your metering. Do Flag's Hubbard E-Meter Course!

Ron designed this course. His intent is for you to get the E-Meter skills you need easily and confidently. Flag's 100% standard Course Supervision ensures you have no doubts that you have the results of Ron's intentions when you finish. Have the certainty you're able to help others.

At some point you must learn to operate the E-Meter yourself if you're to make it up the Bridge. How expertly you master the required skills will shape your future success as an auditor or Solo pc to a distinct degree. Get the most gains possible from your training at Flag. Have this invaluable ability.

Learn to assemble basic skills into a flubless command of your meter on this course. Become master over your meter and operate it like a pro in approximately one week. Flag services are fast. Do this course at Flag. Have the certainty of finishing this (or any other) course in checksheet time — or less.

THIS COURSE IS FOR YOU! Whether it's your first contact with the meter, or you feel your metering skills need sharpening, this is the course you take — it is for you. If you haven't done E-Meter training previously, this course is also a prerequisite for New OT VI, Solo NOTs Auditing Course.

Write to the Letter Reg and have her enroll you now! The donation and reply mailer are on the insert. Act today!

Auditors:

Put certainty in your sessions. Have the standard Source tool handy to handle whatever comes up.

Get the Prepared List Master Package Now!

Take the potential for fuss and fumble out of your session. Be certain your sessions are smooth and professional. Use the exact standard prepared list to handle whatever comes up right when you need it so your pc gets his full wins. Own the Prepared List Master Package.

Ron devised this convenient pro's package so you'll know what to do to see that your pc wins and wins and wins. Make the Prepared List Master Package yours so you are never without the right Source reference to effectively handle your pc.

You get in your Master Package:

1) A generous supply of more than eighty-three Prepared Lists filed and indexed for fast access.

2) The take-with-you mini file for the dozen or so most used lists when you don't need the full pack.

3) A ring binder with all of Ron's tech on what prepared lists are and how you use them.

4) The just released Prepared Lists guide. Various situations which can occur are compiled and the correct list noted for each one.

5) A light durable carrying case in matching Mark VI E-Meter colors.

Keep yourself out of tight spots in session and your pc winning. Order your Prepared List Master Package from the Flag Bookstore now! The donation and reply mailer are on the insert.

If unavailable order from Bridge Publications, Inc. 1414 N. Catalina St., Los Angeles, Calif 90027, or New Era Publications, ApS., Store Kongensgade 55 1264 Copenhagen, Denmark.

Training & Duplication

continued from page 8

teach a man how he should judge something and still have him judge something. You can teach a person data by force of beingness in you: you can relay communication and understanding to people and they do understand it. But let's take the other one, and on the subject of judgement overtly and directly raise and create a level of skill. We would do that by duplication.

There's no other route

A person has to go along the line of duplication of the data to an understanding of the data. With that understanding of the data he has the final step, which is the realization, totally self-determined, of the existence of the the data.

Of course, self-determinism is most rapidly restored on such a track by teaching the person the exact truth of something.

There is the truth of something. The The person is able to duplicate the truth of something after many travails. This truth of something is immediately pursued by the understanding of that something he has been taught.

That is a stage. He is still dependent on you for the understanding of what has been taught. The next stage up is a realization which he reached at a sudden step up the line on his own bootstraps, so to speak. He regained an ability to understand and so then he himself could realize. That's the route you're taking.

This route has total self-determinism and other-determinism, and of course, therefore, pan-determinism, all mixed up in it all in one fell swoop. The person becomes pan-determined over the data. He can not only understand why he learned the data, but why the data was taught to him, and understand and realize it. Of course the realization includes the independant truth of the datum regardless of having been taught the datum. With that, a person has reached the high peaks of the ability to judge something.

There's no other route that I know of. There is no perfect route, or perhaps there is a perfect route; but there is no perfect route to hand at the moment if this is not a perfect route.

Gains in another direction

Now we're not doing this on this other system. It would be totally pedantic

for the instructor to ask what are the first seven words in the fifth paragraph of the third bulletin written in 1959 in the month of June. That's just becoming a memory contest. If you've notice noticed nearly all study is devoted to memory contests.

Here, nobody's asking you to engage in a memory contest. Somebody is asking you to engage in a duplication activity. If you can duplicate the data, your memory will come up sooner or later — even yours.

You may find at first that confronting this thing is the most terrible activity you have ever confronted. But recognize the mechanism you're up against.

As you go along, also find out that all of a sudden you're able to understand things you weren't able to understand before — which is quite peculiar. You may possibly have never noticed this, but when you reach this point you can now understand things you never understood before that have to do with other things that have nothing to do with training, and nothing to do with the subject matter you're training on. This is quite amazing.

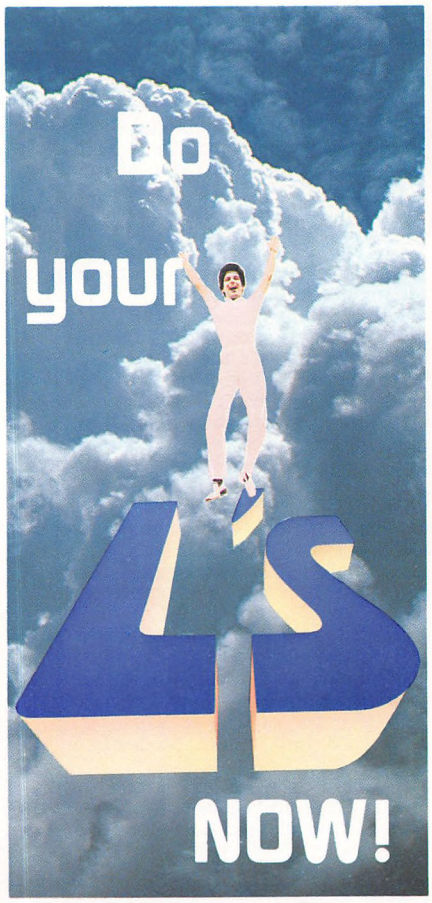

When you get something going like this, why you've made gains in another direction; and that's what an auditor has to have. An auditor has to have comprehension. He has to be able to understand what he is looking at. He has to understand what is going on.

All done by training

That's all done by training, and it is not the route of processing. Don't consider it a processing route. It is a route by training because it is a new skill.

continued on page 20

Get the basics of your case addressed directly.

Be more, do more and have more in your life as you'd like to. The L's auditing actions are channeled straight at you — the thetan. They address the very basics of your case direct and spot-on. Their action is to undercut the reactive mind to handle those factors which squash your ability and capacity to Be, Do and Have. The result is they knock out those things that can make you far less powerful and causative as a thetan — far less the self you know you are.

"The breakthrough which exists here technically," Ron points out, "Is so strong that it actually cuts through the normal protective mechanisms of the mind . . . It came actually from the OT Grades. It answers the question, 'why does an OT restrain himself and cease to behave as an OT?' "*

The L's are the *great* case boosters. Ron designed these rundowns to find and vanish the basic counter intentions that oppose and can make nothing of your dynamics. Get factors of your case handled that are handled nowhere else on the Grade Chart. The L's can do this because they aren't part of the Grade Chart, but instead parallel it. They are for you or anyone who wants the gains they can produce! Give yourself a big case boost so you can speed up the Bridge. Get your L's.

Greatly raise your cause level and doingness. L-10 has twenty-three potent, distinct actions geared to raise your cause level and willingness to do things. It wipes out the reasons a being withholds himself.

"I'm so excited about this L-10! I feel a lot of *fixed ideas* and guilt have blown out of my space, entirely. My confront for doing things is WAY UP. I've a much heightened sense about the game of life! All my thanks to the staff — and to Ron for this wonderful level." — P.D.

Find and blow the basic counter intention along your dynamics. L-11 through its six mighty actions detects and erases the major barrier to a person's case. Compulsions and inhibitions are wiped out. The result — you can have a new life, a new ability to have. Get it.

"What a tremendous responsibility to lead a new life! The greatest thing is that now I'm willing to take the responsibility of leading a new life of taking responsibility." — C.C.

Achieve a tremendous stability in life. L-12 consists of three intense actions. You can describe their effect as causing a shifting in and blowing of the deepest unwanted personality traits which aren't even known to the person until handled. This trio can cause more change at a faster rate of time than any other auditing. Recover your own valence and identity as it really is. Watch your ability to Be soar.

"Under the smoothest auditing possible or imaginable, I finally became fully myself. Freed from past inhibitions with regard to a self determined beingness, I can now fully choose what I want to be and when. I have now the feeling of complete certainty regarding my own existence as a being. I feel strong and up to it — and I'll be back for more of Flag." — C.V.

The highest classed auditors on the planet, the Class XIIs, deliver the L's only at Flag. This is the level of ultra precise auditing skill required to make sure you get the full benefits of the L's. You can do them between most points on the Grade Chart after Grade IV Expanded and with the exception of the No-Interference Zone.

Do them singly or in a set. The best way is in a set, usually. The Flag Class XII C/S will determine the correct sequence for you.

Write the Letter Reg today! Arrange for your L's. Don't let yourself miss out any longer on the big life and case boost only the L's can give you. The Letter Reg has the full details to handle any further questions you may have. Donations and reply mailer are on the insert.

The other 50% of OT Gains
Tech Training SUCCESSES from OTs

"The entire cycle of this internship . . . has made me into a real OT who can be causative, who can be ethical and who can do things right."

"Level IV was and is, a real big opening up of my awareness of human behavior. I had no idea of the extent of the applicability this data has to life — nor how much benefit I could get myself from this study until going through and doing it.

"I can't imagine a pc's aberrations surviving the application of this tech! I see a whole span of fourth dynamic suppression that can be eradicated with this material. I really appreciate having this understanding and ability now to do something about it." — C.H.

"Finally to start getting my Tech Training is a win in itself. Now I understand communication from all sides — and it's great! I can actually take someone in session and successfully improve his communication ability. My own ability to communicate has drastically improved as well." — D.P.

"The entire cycle of this internship has been more than just getting me to be a standard Happiness Rundown Auditor. It has made me into a real OT who can be causative, who can be ethical and who can do things right. When I look at this cycle over the last two months I realize that everything worked because the actions were so standard; and that's of course when the tech works. I appreciate all the time from the entire staff and thank them. This was so worth it." — N.P.

"This Professional Product Debug Course is a true marvel! I had wins on it that were beyond all my expectations. The biggest was to, for the first time, be able to put somebody on the E-Meter and make him have wins and wins. This is for me the true exchange we have in Scientology. The real exchange I feel is not just what you pay for auditing and training which takes care of having the tech done on you. To me, it is to have somebody else make the wins you had.

"Truly said, with this course an Auditor is born — and that is me. It has given me some of the most valuable doingnesses I have ever done this lifetime! With it, solving problems has become a beingness. There is no day when I don't find a bug in somebody's activity, and through this tech, pull it out of their way. This is great to do and to enjoy.

"This course has also given me a fantastic overview of Scientology Tech and Admin that has rehabilitated my ability to use a systematic approach to reality. Together with this I have the skill of spotting out-points and making the necessary moves toward the ideal scene.

"All in all, this course has enormously improved my ability to as-is and to think logically. It is a priceless course.

"Never has any data I've encountered in my training given me such an urge to become more trained, and to help more and more. It is a fabulous key to outflow and third dynamic deaberration. I can't think however of any dynamic which couldn't be improved by its application!

"This course is exceptionally good, and you who read this should do it. It is a jewel with a price so low that it can in no way be a barrier.

"Last but not least, my wins wouldn't have been so good without the extremely fine supervision I have had and benefited from on this course. My supervisors are doing a great job and they do it with a splendid ARC. Thanks to all who have helped and to Ron for this incredible tech." — P.M.

"The data on this course truly opened the door to the world of OT! The drills gave me more certainty and proficiency as an auditor. I can be there confronting, duplicating and acknowledging another, self and the E-Meter. Another very big win on this

The Relationship of Training to OT
by L. Ron Hubbard

"The best way and the most sure-fire way to get to be OT is to be a top rank auditor..."

You are very fortunate people. You are very, very lucky people. You came all the way down the track, lived all those years, did all those stupid things, and you wind up here with a chance out.

That chance is as good as you can audit. It's not a bit better.

You can patch people up; you can make them feel better, but that's about it. Unless you train them, unless they become a fully trained auditor, they really don't have a prayer.

It is a good thing if anybody is to be fully cleared or go OT for them to be trained. If they are going to make it, they will have to have been trained well.

In the beginning, people are not really worried about becoming OT. They want to cure their lumbosis. They're worried about their present time problems. They come into session and they want to tell you about the fight they had with their wife, you see. They want this all cleared up — it's a present time problem. But actually, it's their son they're really worried about. And then there's Aunt Agnes, and so forth.

I can just see you straightening up all of this, and the guy says, "Well, where's all this wonderful power I was supposed to have?" Well, I'll tell you, you have to be very learned indeed in order to put your feet upon this road to glory.

I can see you now, telling this fellow, "By the way, why don't you go down to Los Angeles and take the HCA Course,* and when you come back..." You'll do that.

In Scientology, you're dealing with a specialized group, specially selected. Actually, these people are all preselected out of the races of Earth today. They arrived and enrolled, so they're preselected to begin with. That they are there tells you that. So it isn't a cross section of the population at all. It's a very great minority of the population, certainly composed of the upper tenth of the intellects of the world today.

As these people move up to more advanced levels of training, a further selection takes place. Their confront, their persistence come up. Just look at the things that are required of one of these people. Look at the things that have been required of you in actual fact: sticking with it despite disappointments and upsets and the trouble you've had. If you don't think that's a process of preselection, you should take a look at it someday.

Just going on being in Scientology is a process of preselection. It has its rewards, but it also has its liabilities, and those that have survived this particular process have simply demonstrated the fact that they will obviously someday make OT.

The best way and the most sure way to get to be OT is to be a top rank auditor — for various reasons, including the aplomb it takes to confront the bank.

Somebody who has started in this line, if he's had that much preselection up along the line, and enough training, is not going to bail out until it's done.

Training is definitely, definitely, definitely a part of the route to OT. Definitely. This is something that is not "nice to be a part of;" this is

course is that I completed it at Flag! I made the grade and home base in the big league. I handled, and continue to handle, a lot of cycles to make my existence here go right. Thanks to all, and to Ron an extra big thanks."
— B.P.

"This was the big one for me — Level IV — the one that unlocked the mystery. Last night, after completing my clay demo on the nature of a service facsimile,* I went home and had cognition after cognition. I understood myself, my family, my friends, and seemingly the entire planet!

"I am most grateful for my training here. It is truly said when it is said, that Flag is the Mecca for Technical Perfection. Thank you Ron!" — R.G.

**service facsimile*: that computation generated by the preclear (not the bank) to make self right and others wrong, to dominate or escape domination and enhance own survival and injure that of others.

*Copyright © 1963, 1982 by L. Ron Hubbard. All rights reserved.

something that is a vital part of becoming OT.

A non-Scientologist is actually so surrounded by confusion that their present time is insufficiently calm for them to have any progress in the direction of OT. You can make them well. That's good and fine and well worth doing. You can make a marriage run better and the kid happier and you can make life tenable.

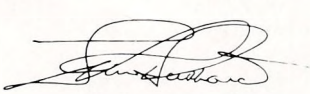

But actually you have to know how to audit well in that direction just to make life tenable enough for you to be able to go on through to OT.

Many are called but few are chosen and there are many reasons why this track and path is a limited track and path. This isn't to say that eventually everybody won't make OT, but certainly, definitely and positively it will be a very, very long route for others.

When you look up the line on that and get a real view of the situation, you realize where you are and where you sit. You're right up in the front seat of the first breakthrough that's ever been made in this universe on the subject of the road out, the way through.

You're fortunate to have moved up into the situation that you're in. The only thing I can ask you is that you shouldn't waste any of the potential which you have immediately at your finger tips. You shouldn't waste any part of that.

The only thing I ask you to do is to make the most of what you've got.

L. Ron Hubbard

Edited from Saint Hill Special Briefing Course Lecture 322, "The Relationship of Training to OT," 7 November 1963.

OTs!

Do the course that shows you how to develop your natural abilities.

Get trained and hatted. Get the Doctorate Series Course for OTs

You're an OT — so let yourself in on the tech of development and application of your OT abilities for effective use. Spark off the power in your OT potentials. Enroll on the Doctorate Series Course.

One pre-OT said that doing this course had enabled him to get twice as much accomplished in his sessions as he had before he did this course. Many call it the "OT Apprenticeship"; and consider it the perfect companion course to their NEW OT VI (Solo NOTs Auditing Course) and their Tech Training. Do your OT Apprenticeship.

This course is founded on Ron's astounding 1952 Philadelphia Doctorate Course lectures. In this series, LRH shared his discoveries for the first time about the long hidden truth of the thetan, the theta universe and the relationship of theta to the mest universe.

Study this data, do the many demonstrations and practical drills, and get full word clearing all the way through this course. Follow it along as it takes you gradiently through each of the seventy-six lectures, tape-by-tape. Have the dazzling results as you learn about the capabilities of the thetan and how to use them. The whole course radiates the practical wisdom and know-how of these lectures.

Insure that this indispensible truth really becomes yours. Do the Doctorate Series Course at Flag. Receive the most standard application of Supervisor tech on this planet so you duplicate your course materials, apply them and function as the OT you know you are.

Shine as an OT that truly can operate as one. Write the Letter Reg to sign you up today. Use the convenient reply mailer which is part of the insert the donation is listed on.

Prerequisites: Student Hat, OT III or above and present time ethics clearance to do the course.

Firsthand Success

This was such a valuable course for me. It enabled me to obtain and duplicate LRH's data about OT and and how we got into the traps of the physical universe and what we have to do to get out of it. I now have OT data I can align to and use across all my dynamics. By having it I know where I am in relation to what's left to do, what responsibilities I have to take to improve the conditions of my dynamics. The key is to do it, and I have that key now. It is to have the willingness to confront all forms of force and to have the integrity by following the Code of Honor.

This is a course every pre-OT should do. LRH spells it out as to what OT is, and what we as OTs have to do to wear our hats. — D.C.

Stay in a comfortable spacious place while you get 100% Standard Tech Training

Come to Flag NOW!

Get full service treatment as part of your stay at Flag. Accommodations service is as smooth, friendly and efficient as the service you get in your training or auditing. The aim of the staff is to make your stay as safe and comfortable as possible. Trust them to handle any situation.

Experience no accommodation scarcity either at the Fort Harrison Hotel or its Sand Castle Annex. Choose from a broad selection of relaxing well furnished accommodations. Rooms come in a variety of sizes and arrangements to suit your wishes. Have the extra personal service you expect from the Mecca for Technical Perfection.

Enjoy the pleasure of food you like. Feast on a variety of beautifully and expertly prepared menu selections done in continental style. The Hour Glass and Lemon Tree restaurants in the Fort Harrison are presided over by Flag's Executive Chef. His specialty — memorable moments in dining pleasure for you. At the Castle Cove restaurant in the Sand Castle, experience the succulence of fresh-from-the-sea seafood while you dine by the bay.

Be in a high toned environment while you get your training or other Flag services. Flag is known as the friendliest place in the world for good reason. This isn't just a slogan, it happens to be true. It's not only the staff who care about you who make this so. It is you and others like you who come here that make it that way. Many find the friendships they make and the comm lines which open up while here, alone make their visit one of the most worthwhile things they've done.

Training as well as auditing are intensive, but you have free time too. You can swim, play tennis, hear LRH tape plays, see movies or do a great number of other fun things during your stay. The greatest value to you, however, is the distraction-free environment created and maintained here. It helps speed your progress and insure you get maximum gains. You need only put your attention on the superb training and other services you've come for.

Make your accommodations reservations at the same time you reserve your training and auditing. Write the Accommodations Counselor. Have her set up your stay. She'll also send you any information and data you need to make your stay a 100% success. Donations and reply mailer are on the insert. Make your reservations today!

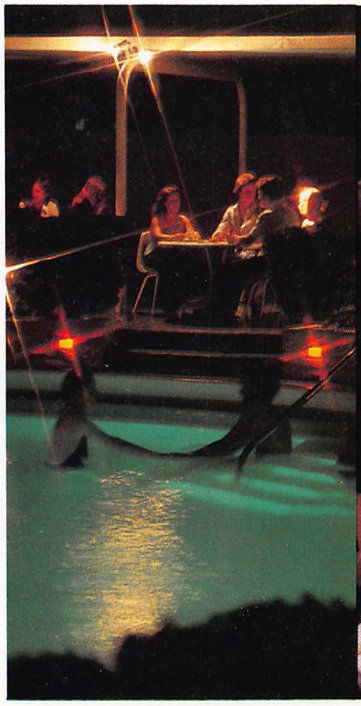

SUCCESSES

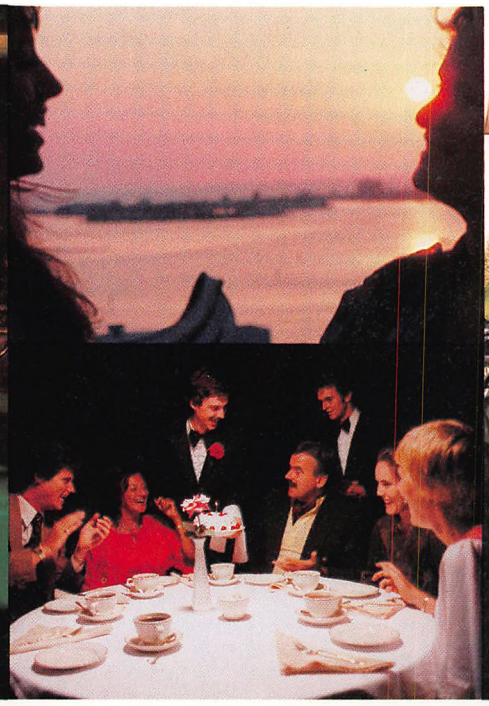

"Thank you for the excellent service given to me. The Lemon Tree staff have been fantastic too, and I have been looked after very well. The maids have done an excellent job and have done my room beautifully. See you again!" — M.J.

"Thank you very much for providing the ideal accommodations for me while at Flag. As an airline stewardess, you can imagine how many hotels I am familiar with and how high my demands for service and aesthetics are. The Fort Harrison renovated rooms are lovely. Mine was comfortable and *superior* aesthetically to any hotel room I've ever had. Anything I wanted or needed was handled with the highest ARC. Thank you very much — I'm looking forward to returning." — B.W.

Solo NOTs Pre-OTs: TAKE NOTE!

The Solo NOTs HGC is now located for your *complete* convenience at the Sand Castle. Stay in these beautiful spacious accommodations. Make your reservations now by calling the Sand Castle Accommodations Counselor at (813) 443-5702 today!

Help create the infinite guarantee that it will. Train up as an auditor in

the SEA ORG

Be right at the front helping to ensure Scientology will always be around. Do it by training up as an auditor in the Sea Org.

In the Sea Org, you've got the full backing of a tough dedicated group. The Sea Org uses all of Ron's tech, ethics and admin to handle the civilization, and create a better world. It exists to get ethics in on earth and the universe so tech can go in.

Become one of the highest trained auditors in the world – a Class X, XI or XII. Your reward, if you qualify, is being entrusted to deliver the intensely powerful Flag-only L's Rundowns.

Become a Sea Org auditor at Flag and you particularly have stellar advantages. As a member of Flag's Tech Training Corps you learn the delivery of the very precise tech that frees beings and attain the ability to audit at the level of Flag's standards – 100% flubless and on-Source.

The goals are star-high when you want to help make a better, more sane world and safeguard the tech for LRH. Set your sights on goals like this and be certain you can achieve them in the Sea Org.

Claim your rewards of membership, Join the Sea Organization! Know with certainty and satisfaction you are actively keeping Scientology moving toward the goal of a cleared planet. Have the real, lasting reward of accomplishing survival for mankind on the fourth dynamic.

"In all the broad universe, there is no other hope for man than ourselves. This is a tremendous responsibility.

"I have borne it too long alone.

"You share it with me now."*

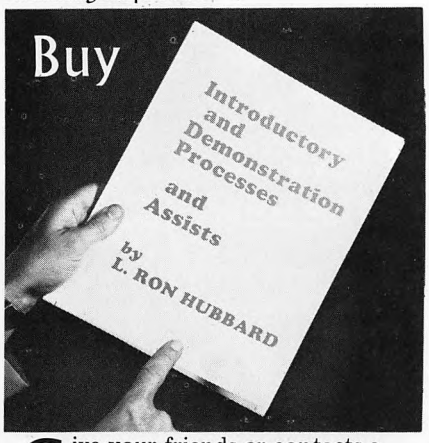

– LRH

Be a part of creating this infinite guarantee that Scientology will always be around. Do you share in and measure up to the purposes of the Sea Org? FIND OUT! Write now to the Flag Service Org, Department of Personnel. Use the pre-addressed reply mailer. Or, you may call (813) 443-3916 direct.

*Copyright © 1967, 1982 by L. Ron Hubbard. All rights reserved.

New! Now you can audit almost anyone, anywhere!

Handle situations as they come up – no meter or prior training required!

Give your friends or contacts a reality on Scientology! Blow a somatic or achieve other startling results on anyone! Get your family on the Bridge! Make children happier and smarter! Now you can audit anybody most anytime with 101 Introductory and Demonstration Processes in the brand-new Introductory and Demonstration Processes and Assists Pack.

Do you need to be a trained auditor to use it? NO! Most of these processes can be done *without an E-Meter and without prior training*! Now you can even do "coffee shop" auditing on people you meet!

It's a must for all Scientologists, to demonstrate and use Scientology Tech!

It's also a *must* for auditors and other Scientology technical personnel, as it contains processes used in "Life Repair" and introductory auditing in orgs!

101 Scientology processes including
— DEMONSTRATION processes that achieve real results on your friends and contacts!
— COMMUNICATION and other processes that can handle a great deal of life's problems on the spot!
— MEMORY processes to improve someone's ability to recall!
— CHILDREN'S processes. Is a child crying? Screaming? Afraid of the dark? Here *fifteen* processes are listed for you.

No parent should be without this pack!
— EVEN YOUR PET has a process — an "animal process" that can raise your pet's tone level!

INCLUDES all the basic data from Ron on how to put someone into session, how to run the processes, how long to run a process, what sequence or gradient to run the processes in.

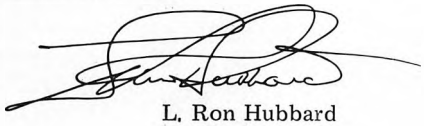

With an exclusive preface for this pack by Ron!

Send for your copies now to the Flag Bookstore! Use the reply mailer. Do it today!

Training & Duplication

continued from page 15

The place I'm trying to get you to is a place where you can process by realization, process by comprehension, process by the exercise of judgement. If I can get you to that point, I will have considered it very well worth doing, no matter how heroic it has been on the way.

L. Ron Hubbard
Founder

(Edited from the taped lecture, "Training and Duplication," by L. Ron Hubbard. Tape No. 6201C24SH. Copyright © 1962, 1982 by L. Ron Hubbard. All rights reserved. Available on cassette as part of the *Study Tapes* package.)

Get Flag Tech Training. It's one of your best reasons to have a valid Membership. Be sure you do!

There are five good reasons for having a valid membership.

1. When you sign up for major services, you must have an active membership to receive delivery of your services — all the way to the top of the Bridge.
2. An International Church Membership connects you up with other honest, ethical beings who share the purpose of creating a safe, sane planet.
3. It entitles you to 10% off course packs, books, meters and tapes from the bookstore. A big advantage in today's world.
4. Your certificates remain in force only while your membership is valid. Renewing an expired International Membership will reactivate a person's certs where they have expired for membership reasons.
5. Having a valid membership ensures you'll receive *SOURCE* magazine regularly as long as your membership remains active.

Renew your membership now. It's only $50.00 on a yearly basis. Or, make certain your membership is always valid and avoid yearly renewals. Get a Lifetime Membership at $150.00. If you have yet to become a member, request application for membership today — the first six months are free.

Don't delay yourself in moving up the Bridge to the Top, fast and optimumly, at Flag. Make sure you have an active membership now. Write the Membership In-charge, c/o Department 18B. Use the pre-addressed mailer and be sure to include your renewal fee.

Why Flag Tech Training . . .

continued from page 3

they want skills and knowledge that actually deliver — they want the ability to handle life and pcs.

Why Flag?

There's a basic truth — an excellent standard course fills up with students! And by word of mouth, by observation, by whatever means, the word has gotten out *that Flag training is excellent, that people are completing within checksheet time or less, and that results are STANDARD.* Those are the simplicities; and are why you should get going on your Flag Tech Training now!

How do you get your training program going at Flag? It's easy. Get your copy of the New Grade Chart. Find your place on the training side of the chart — the last course you completed. Then see the next step above it. That should be your next training step. Then, on the insert to this magazine, write it down with the other information requested on the appropriate blanks indicated (the donation is on the insert too). And send it in to the Letter Reg today!

If you don't have a Grade Chart copy, have never done training before or just have questions about your training, let the Letter Reg know this. She'll give the assistance you need. Flag's personalized service starts right with your first contact.

Ron gives one more reason why you need to get onto your training at Flag now: "In this time and in this place — for possibly just a little while, we have this chance. To go free and to make it. Planets and cultures are frail things. They do not endure.

"I cannot promise you that you will make it. I can only provide the knowledge and give you your chance.

"The rest is up to you."*

SCIENTOLOGISTS! Help find and Rescue Ron's Tech on Tapes

The Tapes to Books Project, which is responsible for producing Ron's *Research and Discovery Series* volumes, needs your your assistance. Your help is requested in locating a 20 November 1950 taped lecture by L. Ron Hubbard titled *Thought, Life and the Material Universe*, catalogue No. 5011C20.

It is vital that they locate any and all of Ron's tapes to preserve his technology for all time. If you have any data as to the whereabouts of this tape or any other early tape (1949 - 1959) which you suspect they may not have, please write to: Research and Discovery Editor, 1414 N. Catalina, Los Angeles, CA 90027; or call (213) 661-2845.

"I'm totally in love with my meter — it surely is an OT E-Meter. Doing the E-Meter Course on the Mark VI is a wonderful experience. Whenever I had an OT on the meter, it truly talked!! As an old Class VIII, I again feel in P.T. on metering." — H.G., New York, N.Y.

Ron states that, "Unless metering perfection is attained by an auditor, he or she will continue to have trouble with preclears."*

Flag training can handle your ability to meter expertly, but you must have an E-Meter that's reliable and utterly precise for full success. The Mark VI is that meter. Get it.

There is no chance of missing reads with the Mark VI if you know your meter tech standardly — 100%. The correct things read on the Mark VI. You just spot them, run them and get the F/N indicated. Make this meter yours.

Experience undreamed of precision. Detect the most subtle phenomena hidden deep in the bank. Ron's key breakthrough in E-Meter technology, found nowhere else but in this meter, gives you this capability. The core of the breakthrough is a needle movement that's at last responsive enough to an OT. It shows exactly what's happening with your pc. Have unmistakably precise reads on the right indicators clearly visible. Enjoy a new era of total accuracy and more swiftly attained results for your pc and you.

This meter is the perfect meter for Solo as well as an ideal lower level meter. The reads from it on Solo cans are much more clear than those from a Mark V with two cans. Figure out what this can mean for you in terms of gains and increased speed up your OT levels. This is why it's the only meter permitted for Solo NOTs levels. The sensitivity and precision required at this level demand it — the Mark VI delivers it. The only thing you need do is get it.

Put any worries you might have about remembering to keep your meter charged aside. There's also a piece of electronic magic that lets you charge your meter while you audit. Get the added convenience of a built in digital clock and tone arm counter too. Protected in tough high impact casing with internally sealed circuitry, this meter answers your need for the perfect meter. Go first class. This meter is — own it!

The Mark VI and its rugged carrying case come in these eight color choices: steel blue, silver grey, beige, gold, aqua, black (Black Stallion Edition) and executive brown.

Send your order (with indicated color choice) to the Flag Bookstore TODAY! Use the convenient reply mailer. Prices are on the insert.

*Copyright © 1962, 1982 by L. Ron Hubbard. All rights reserved.

If unavailable order from Bridge Publications, Inc., 1414 N. Catalina St., Los Angeles, Calif. 90027, or New Era Publications, ApS., Store Kongensgade 55, 1264 Copenhagen K, Denmark.

Spot and indicate F/Ns with ease. Own the computer-accurate
