Editorial

We have had many requests for news about what Ron is doing. In this issue we are happy to bring you a new column, "News about Ron"! We have a bit of catching up to do on what Ron is doing so you will find two pages packed full of news for you, beginning on page 7.

The articles on "Definition of Organization" by Ron in *Source 4* and *5* were met with such enthusiastic response, we are continuing with another very *useable* article on organization by Ron, "Organization and Ethics."

The feature on page 10 is on the famous L-11 Rundown. Read all about this powerful Flag-only Rundown that Ron has said, ". . . gives you a new life in truth."

There is more news on rundowns to be released in the future in the Tech News column on page 13. The Flag Land Base is always an exciting place to keep abreast of technical advances by Ron. It's one exciting aspect of *Source* to be able to share them with readers.

The many letters to the Editor are very well received. If you haven't written, please do so. We like to know your views on the magazine and its contents or on any subject you wish to write in about.

These books contain the fundamentals of any successful or profitable activity

The eight *Organization Executive Course Volumes,* the *Management Series Volume* and the *Policy Subject Index,* all by L. Ron Hubbard.

Whether you work in an organization or not, more than likely you can use these books to make your life ten times easier and many times more successful.

Ron's writings on groups and organization can be applied alike to the individual, to the family, to a small company or large corporation.

As Ron says, "When you understand all the policies . . . you will understand organization itself, no matter to what you apply it."

The *OEC Volumes* cover the basic laws of organization including ethics and justice systems, fundamentals of promotion and advertising, personnel handling, management by statistics, executive management and *much* more. Written primarily for Scientology Churches but applicable to organizing any aspect of life. Over 4,000 pages in eight big volumes.

Price: $300. Members receive a special 25% discount price of $225.

The *Management Series Volume* contains Ron's third dynamic breakthroughs of the first half of the 1970s. It includes evaluation, how to organize, personnel handling, public relations, finance and more. 551 pages long. Price: $40.00. (10% membership discount applies.)

Order your set today

The *Policy Subject Index* is the 348-page reference for every policy ever written. A vital companion to the *OEC Volumes* and *Management Series,* any policy can be located by subject matter. Includes a chronological list of all Ron's policies. Price: $14.00. (10% membership discount applies.)

Cost for the full set of 10 books is $424.00, or $373.60 with Membership discount (including *OEC Volumes* special discount.)

The books make a matching set: all are 12" by 7¾", hardcover, with dark green strong leatherette binding.

Third article in a series on organization for Advanced Scientologists

Organization and Ethics

A look at the basic reason for ethics

by L. Ron Hubbard

The following article is edited from Ron's taped lecture "Organization and Ethics" of May 18th, 1965, given to Saint Hill Special Briefing Course students at Saint Hill, England. In this article Ron tells about the reason for and use of ethics in Scientology churches. The data is applicable — and invaluable — to any organization and activity. Read this with application to your own life, group, family etc. in mind.

YOU WILL FIND out that an organization will run as long as it has channels and as long as the particles on those channels don't carom [hit and bounce off] the sides of the channels and collide with the working parts of the organization. If you can bring that about then you can have an organization that has a total capability of pouring through it practically any volume of particles.

In the absence of holding the sides of the channel and being able to remove the barriers to progress, in the absence of such a tool, you simply couldn't ever work up the volume. Everything has to be handled on a tiny particularized individual basis.

Ethics is the tool which maintains the sides of the channel and removes the barriers to progress. All ethics is for, in actual fact, the totality of its operation, is that additional tool necessary to make it possible to get technology in.

Man doesn't have that purpose for his law and justice. He wants to squash people who are giving him trouble.

"Man doesn't have real justice because the total end product is punishment"

That isn't the case in the handling of ethics. It is an entirely different operation. You'll find out it is a fabulously successful operation.

People will handle ethics with too much violence and they'll handle it too lightly, but they'll eventually get it adjusted and learn this fabulously simple point: Ethics is there to let you get technology in. It's the tourniquet before the doctor arrives. It makes it possible to get technology in.

If an area is too enturbulated and there's too much chitter-chat and yip-yap going on, things are knocked apart and people in it are being knocked around to such a degree you can't get technical in, all you have to do is shut it up long enough and say "Down, dog" right to the point where the auditor arrives.

You can just hold that area, straighten it out with ethics and then you will get the technology lined up. When you have got technical in that's as far as you carry an ethics action. No further.

WHEN YOU have exerted an orderly disciplinary action in some direction where somebody is wrecking people and trying to smash up the organization and push things around, for some reason or other putting a label on them brings them back. If you don't do anything about them at all, not only does the enturbulation continue but they get lost.

It is a very unkind thing *not* to try to bring order into an area. And it is an extremely unkind thing to do *not* to give somebody a hard knock and say "Quiet fellow, let's quit it now, see?" when he is trying to knock down everybody else around him.

MAN, OF COURSE, has a tremendous reaction to what he laughingly called justice. But man has no understanding with which to back up any of these hangings he commits himself to. He doesn't have real justice because its total end product is punishment.

It is manifest that the existing justice system doesn't straighten out the community because of the fact that crime continues to rise across the world. The crime statistics of the world today are going up much higher and faster than the population is increasing.

It is such a worry to law enforcement officers today that those I have spoken with within the last year were in a very apathetic frame of mind and

just wanted to lie down and quit. That is because there is no end product. You put someone in prison. When you let him out of prison he steals another car and you put him back in prison.

Worse than that, they are incapable of doing more than worsening an individual with the type of disciplinary action they employ. It has no end product but punishment so it is just old time mest universe "punish everybody," "down with everybody."

Now when you try to bring in an ethics system across this line you jar a lot of people's banks. As a result you will get a considerable reaction.

But it is very interesting that a much greater proportion of people in Scientology favor a decent ethic level and favor ethics actions than bat back against it. They see that this will square things up.

What it actually does is get them better training, better processing, a better organization and a better grip on the subject of Scientology and less abuse with it.

YOU CAN'T sentence people to technology. You can't sentence somebody to getting better, but you sure can sentence him to not getting better.

After all, what are we doing? We are factually and only here gratuitously helping people to help themselves and to get better. That is our total action. Nobody has a pistol to our heads forcing us to do this.

So, the only thing we would do would be the normal thing. After a guy has made just so much ruckus we lose our desire to assist him. That is really the basic expression of an ethics action. "We don't care to assist you for a week or two. Let you think it over."

IF YOU VERY carefully look over the ethics levels, ethics actions or the justice actions of organizations, governments, empires and companies and compare these things, you will find some rather astonishing data falls out in your lap. It is so contrary to what you might believe that you might tend to discount it. But after a while the data itself is too overwhelming.

The taut ship, the harshly run empire, the viciously conducted regiment normally has a very high esprit, works like mad, can get itself out of most anything and survives practically forever. And those sloppily run go by the boards quick.

I first got on the track of this in studying Gibbon's *Decline and Fall of the Roman Empire* some years ago.

I was considerably struck in this study by something I didn't understand at all and couldn't make sense out of.

The only long periods of progressive rule and recovery from barbarian attacks and internal upsets were periods when the emperor was a nut, just a sadistic boob.

"Ethics is there to let you get technology in. It's the tourniquet before the doctor arrives."

A good emperor would come in to straighten everything out, get the roads open, do all the progressive things he should have done and he would be dead within two to eighteen months. He would have been assassinated and everything would have fallen in.

Then another bloke takes over, tortures everybody in sight, shoots down everybody in flames, throws them to the lions because that afternoon he was bored. And he died with his boots off quietly in bed surrounded by weeping retainers. Like Caligula. He was a chattering maniac. Tiberius — a pervert.

But the next guy after that says he is going to defeat the enemy, straighten out the empire, rebate taxes and do land reforms and do all the good things that you think a good emperor should do . . . dead.

I couldn't believe it. It had to be true. There it was, part and parcel of history. I looked over and compared it to my own knowledge of the subject. Yes, that was true.

WITH SCIENTOLOGY you are now moving out into that area called the general public. We have had our troubles internally always at the public point of the organization where it is hit by the public in general. These are the first lines to go out.

I used to blame us, not too seriously but I used to think there was something wrong with us that we tried to put a movement of this magnitude and wisdom on earth and could still be knocked about.

I eventually got so I could look a little bit outside the organization and I found that we weren't being knocked about. Not compared to other groups. They are *really* knocked around. But if they are held in line at all it is with a brutal discipline.

In our length of time of existence we have seen several large organizations go to pieces, several governments go downhill very markedly and become rather disorderly. Crime ratio has gone up. The number of bankruptcies per number of companies has increased, increased, increased. It is going up higher and higher. The measures being taken by governments are normally aimed at managers, trying to put firms out of business. The enturbulation is very great. The police officer has been less and less able to hold things.

During that same period of time we have been more and more and more able to hold things. We have been getting better and better. Our organizations' lines have been becoming more and more sensible and we have had more and more duration, that is to say, more and more survival potential.

In expanding our organizations we are reaching straight out into that raw tumultuous mass called the public. We are reaching straight out into a society that has never looked so good and was quite so bad.

We have to have some kind of tools to extend our reach so we can get our job done. This is ethics.

I FOUND OUT another factor. As people moved up toward OT a certain disdain occurred. It ceased to be important what effects were created any more than you might consider it important to kick over an ant heap. If things got too annoying or something like that, somebody is going to bite. Do you follow me?

So I started to design ethics when I saw that it was going to be necessary that people take orderly bites. For instance, before picking up the Capitol Building in Washington and turning it around on its base and setting it down

NEWS ABOUT RON

What Ron is doing

Ron has many administrative communication lines, but his personal communication line is one of his most treasured and most valued. This is called the Standing Order No. 1 (SO-1) Line.

Many people often wonder how Ron knows so much about their areas and how he knows what areas need handling. The answer is that he maintains wide open comm lines and report lines from Scientologists all over the world. And, Ron takes great pleasure and interest in keeping abreast of the data and information that is sent in to him!

In actual fact, Ron counts on Scientologists to send him information on what is happening in their sphere of the world. This gives Scientologists a chance to "update" Ron on what is going on in their orgs or missions or groups, their wins, cognitions or problems, their opinion of tech quality, their views on world issues and news on Scientology expansion.

Ron always enjoys hearing from you. His SO-1 line is a life line to his research.

Ron is currently engaged in researching many ways to flood orgs with new public. He will soon be releasing a new book designed to flood the Scientology Bridge with new public. It will be of major assistance to Field Scientologists as well. It is a practical manual and will help to hat Field Scientologists which has long been of interest to Ron!

Ron continues his advanced research and several of his projects are in the area of training as well as auditing.

Over the past many years Ron has recorded much of the priceless technology of Dianetics and Scientology in various articles, PABs, notes and HCOBs. It has long been Ron's intention that these materials be readily available to all. On September 12th, at Auditors' Day celebrations around the world, the ten shiny new *Technical Bulletins of Dianetics and Scientology* volumes were officially released.

About these volumes Ron said, "For me, this is a monumental task completed and is the manifestation of many tens of thousands of hours research finalized into 100% proven, workable, standard tech."

On the occasion of the release of these volumes, Ron announced an International Auditors Amnesty.

Ron has been working on the completion of several upper and lower level rundowns. These rundowns, developed by Ron and researched and piloted under him with great success in Flag's HGC, are being organized and prepared to be delivered in the Land Base HGC at a future date.

One of the great rundowns soon to be released to all Land Base preclears and pre-OTs is the Case Cracker Rundown. This rundown signifies an invaluable breakthrough by Ron in the subject of general case progress! You will be seeing more on this in upcoming issues of *Source.*

Ron's work and technologies, so effective and workable, continue to receive national and international acclaim.

Some of the international public recognitions that Ron has received over the past few months include: a personal display of Ron and his work, including "My Philosophy," are currently part of a large exhibition in the "Hall of Great Thinkers" at Emery Collegiate Institute in Ontario, Canada.

The head of the English Department of Emery has sent a letter informing Ron that his display is by far the most impressive of all displays in the Hall.

In Mexico over the past few months, numerous new articles and repeated national media programs have been broadcast about Scientology. Ron and his tech-

nologies are receiving very broad exposure throughout the entire country, creating much interest and public inflow. Recently *Dianetics: The Modern Science of Mental Health* was released in Mexico in Spanish, and is selling out faster than reprints can take place.

A newsreel presentation on Dianetics and Ron has been shown in 210 major movie theaters throughout Mexico.

Two of the national magazines and publications in Mexico have published several of Ron's articles recently. One of these articles is now being distributed in all Spanish speaking countries in the world, on public media lines.

Recently, the International Summit Conference was held in Puerto Rico, headed by President Ford of the United States. This conference involved the heads of state of USA, France, Great Britain, Italy, Germany, Japan and Canada. Scientologist Dick Dorff from Puerto Rico was chosen by the Governor of that island to assist him at the summit conference as the "cultural and media aide."

At this conference, the Governor of Puerto Rico gave gifts to each of the heads of state. Each gift contained one of Ron's quotes as follows: "A civilization without war, without insanity, without criminals, where the able can prosper and honest beings have rights, and where man is free to rise to greater heights."

After the Summit, Ron received a personal document of thanks from the Governor of Puerto Rico which stated: "It is my pleasure to extend to you my recognition and gratitude for the services you have rendered to this office, the people of Puerto Rico and the Heads of State of the following nations: USA, Great Britain, France, Italy, Germany, Japan and Canada, as well as members of the world press. You have demonstrated the hospitality of our land." Signed the Governor of Puerto Rico. This document was posted in various different places at the Governor's office and state buildings.

Recently, also in Puerto Rico, the contestants of the Miss Teenage Puerto Rico pageant did TRs in preparation for pageant ceremonies, as set up by Dick Dorff, Scientologist. The winner of the contest received a congratulatory certificate from the Governor of Puerto Rico which had on it a quote from Ron's book *Science of Survival:* "If man is to rise to greater heights, then woman must rise with him, or even before him. But she must rise *as* a woman."

The manager of the pageant wrote Ron after the event expressing gratitude and thanks on behalf of the girls and their families for his technology which greatly helped the girls, and he noted that the winner would be doing more TRs to prepare her for the Miss Teenage USA pageant.

Very recently the Canadian edition of French *Dianetics: The Modern Science of Mental Health* was published by Du Jour publishing company. Ron sent a special message for all Canadians to those attending the publication celebration in Montreal. The beginning of the message reads: "This French publication of *Dianetics* in Canada signals the availability of the technology throughout the country to all Canadians. I am truly delighted that this is the case. The executives and staff of Du Jour have my sincere thanks for the work they have done in making this publication possible." ■

By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists or psychiatrists to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified minister of the Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed or owned only under these conditions.

NEWS of the Flag Land Base

Land Base Auditors' Day features release of Tech Volumes

The Flag Land Base honored L. Ron Hubbard and its superlative Flag Land Base Auditors at Auditors' Day ceremonies on September 12th.

The exciting highlight of the evening was the unveiling, by David Mayo, Senior C/S and Class XII auditor, of the fabulous new Technical Volumes. The auditorium rang with applause as Flag Land Base students, preclears and staff gave Ron a spontaneous standing ovation for his priceless technology, made even more available with the publication of the new and beautiful Technical Volumes.

Further cause for happy celebration was Ron's International Auditors Amnesty, issued on the occasion of the official release of the Tech Volumes and announced at the ceremonies. (The amnesty in full is on page 20.)

Complete sets of the valuable new Tech Volumes were presented to the Flag Internship, the HGC and the Senior C/S.

The ceremonies were capped by a cake-cutting ceremony by Flag's Class XII Auditors. ■

PEOPLE at the Flag Land Base

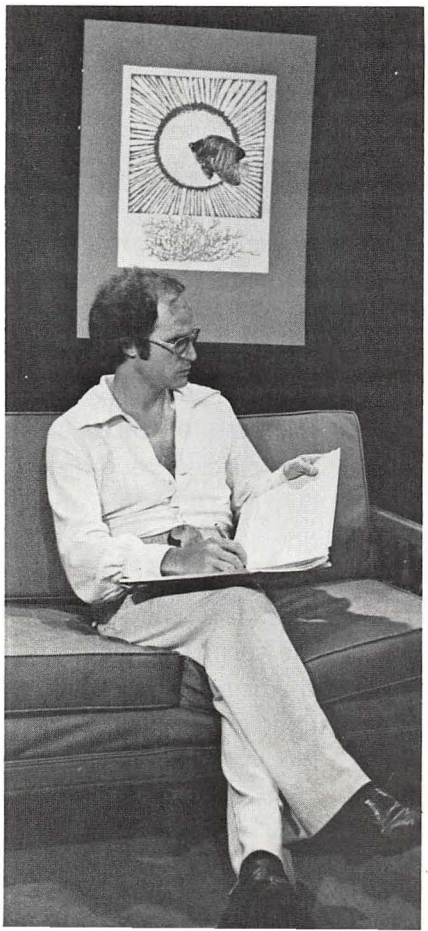

"It's absolutely unbelievable. I've just had one session and already it far surpasses anything I could have imagined before." So says **Richard Royce**, OT V, Class IV and Expanded Dianetics Interned auditor from Santa Monica, California, who is currently getting L-10 at the Flag Land Base. "The reality of it actually *happening* is more exciting than anything you could *imagine* it to be. I feel there's nothing that can't be handled here."

Richard is considered by many as the top artist in the country for etching. Among many other achievements, he has been invited to exhibit some of his art in Europe next year as one of only eight American artists exhibiting in the field of etchings.

Besides doing his own artwork, he now has a studio in Santa Monica where he, as a Master Printer, provides the technology and facilities for other artists wanting to produce etching and similar art.

Richard first found out about Scientology in 1969. He was working as an artist, but considered himself a failure in most other areas of life, especially any form of administration. "Scientology is directly responsible for my increased abilities in administration and being able to confront admin and organization and finance. Since being in Scientology, I've made more money than the rest of my life. I have so much more energy," says Richard.

As a token of his gratitude to Ron for Scientology tech, Richard presented one of his original etchings, "Coral Dream VI," to Ron.

Richard Royce sketching. Etching he presented to Ron is behind him.

Josephine Bath, OT IV, Class VI flew in from Auckland, New Zealand in August for setups, L-10, L-11 and L-12.

Jo is quite well known in Auckland for work she has done with Scientology in New Zealand.

She obviously enjoyed her stay and services at the Base. She described her feelings to *Source*, beaming, "It's the greatest experience I've ever had. I feel even if I hadn't gotten any services I would have changed just from being at the Base. It's just like the pictures . . . such unlimited uncluttered space. The service is incredible." About auditing: "It's almost like Ron is auditing me. Perfect duplication of Ron's tech. I've never experienced such duplication before."

Naomi Kleyn talks with fellow Land Base guest.

Jo's future plans are to do the rest of her OT levels and some Internships in order to be more effective at putting Scientology to use in New Zealand.

Don Hill, Class VIII, OT VII, recently came to the Flag Land Base for the Executive Director (ED) Hat and Flag auditing. His very successful Mission in Omaha, Nebraska, just made its third move to larger quarters. Per Don, expansion of the Mission seemed to reach a peak after the move. He decided in order to continue expanding he needed

L-11

The New Life Rundown

IT GIVES A new life in truth! What's that worth?" These are Ron's words about the unique and powerful Flag Rundown, L-11.

In 1970 Ron was working on researches ***above*** OT VIII. He was looking into why an OT might hold back his full abilities. He wanted the key to unlock the door to a fully extroverted and stable OT who is able to and DOES expand and reach for the stars!

Out of this research came the rundowns we know as L-10, L-11 and L-12.

Originally, there was only L-10 OT. As research continued and pilot auditing of L-10 was done, it developed into three unique and very powerful rundowns. These were called, at that time, L-10, L-10S and L-10M, L meaning "list."

Ron developed classification levels for these rundowns to organize the training of the auditors to deliver them. These were Class X, Class XI and Class XII. The rundowns were then given names corresponding with the class of Flag Auditor that would deliver them. L-10 is delivered by Class Xs. L-11 (formerly L-10S) is delivered by Class XIs, and L-12 (formerly L-10 M) is delivered by Class XIIs.

Ron supervised the training of the first Class Xs, XIs and XIIs. He gave special highly confidential lectures on these levels, wrote bulletins on the technology as he developed it, and case supervised the folders of the first preclears and pre-OTs receiving the rundowns.

So powerful are these rundowns, they bypass the normal protective mechanisms of the reactive mind and remove ***spiritual*** blocks to OT power and ability. Thus, it was re-

quired that the Flag Rundown auditors be flubless and flawless. Metering had to be perfect with no meter reads or floating needles missed. TRs had to be superlative in order to impinge on the bank to the degree needed with the rundowns.

In short, Flag Class Xs, XIs and XIIs had to be, and were, the ***best*** auditors, able to consistently audit Ron's tech with ***no*** flubs.

The high standards of Flag Rundown auditors have been rigidly maintained through the years. They had to be. The specialized techniques of the L-Rundowns demand perfection.

Each of the L-Rundowns requires its own Class of auditor; each is unique and incredibly powerful in itself.

L-11, audited only by Flag Class XI Auditors, consists of six actions that zero in and handle ***the*** major source of illogic and

L-11

This is really a new life. A new life, not only meaning "new" as the normal definition for it. This is really NEW. A wonderful and marvelous concept that is the gate for new goals, concepts, viewpoints, people, feelings.

I'm expanded and this has no limits. It is beyond the most incredible imagination. — J.G.G.

Calmness, serenity and the certainty that there is only to win. These are the gains of L-11. — S.S.

A new life indeed! Something that that I have been doing for so, so long has finally blown. It's beautiful to KNOW. Thanks Ron for giving us this tech. We owe you so, so much. Thanks to my auditor for exquisite and phenomenal auditing. I now have a beautiful new life to live in. — O.A.

Words are inadequate to describe how I am. All I can write at this moment is that L-11 is the greatest thing that has ever happened to me. — K.P.

Wow! I have just been introduced to a new concept — serenity!

(continued on next page)

restraint for the individual, leaving one with a new life before him or her — a new life in which everything looks new!

L-11 handles the major point of fixed attention. One approaches life newly with a feeling of great adventure.

L-11 doesn't handle the whole case, but blows the major source of age-old stops and restraint. It's a beefy rundown, one you can really sink your teeth into!

It blows long-term ridges and mental masses that the person often didn't know were there.

L-11 takes an area in which a being has a tendency to succumb and turns it into SURVIVE!

L-11, by the way, has the added benefit of greatly enhancing all auditing received after the rundown!

With L-11 you are more able to open up, with a whole new ability to create a new life, more

confident with yourself and life!

L-11, like all the L-Rundowns, was developed from OT research. But you don't have to be in your OT levels to receive these fabulous rundowns!

To receive L-11 or any of the rundowns, the requirements are a full Drug Rundown, Expanded Grade IV and not in the Non-Interference Zone (R6EW to OT III), or incomplete on any major auditing action. Any missing prerequisite can, of course, be filled in at the Flag Lang Base with Flag Case Completion Auditing.

It has been found vital for the preclear or pre-OT to have Flag Case Setups prior to the rundown to ensure maximum gains. The Flag Case Setup auditing makes the preclear or pre-OT fly, and zing as never before. It's a revelation in itself — but it's only an appetizer before L-11!

If more than one of the L-Rundowns is done, little or no additional setups are needed between rundowns.

L-11 can be delivered as itself, singly, or with one or both of the other L-Rundowns. If more than one rundown will be taken during your stay at the Flag Land Base, the highly competent C/S determines which order to do them in for best results. For maximum gain, all three L-Rundowns can be delivered in one stay at the Land Base.

Discover for yourself, with L-11, why Ron says, "To be rid of aberrations is to have a ***new life.*** It needs real flubless auditors. The results are smooth. Just call this the New Life Rundown. It gives a new life in truth! What's that worth?"

And done with surgical precision. Thanks, Ron, for a brilliant process. — H.W.

My ability is to have a win with everything.

It's like a continuous win, an ability to confront, a kind of permanent TR-0 with and toward life. An exterior viewpoint which allows me to enjoy being a being — a free one.

So, now I'd like to see others in this same state. That will increase and expand this great game LIFE. — J.G.

This is the best action I have ever had. I cleaned up so much of my track. The major stumbling block was located in my life. Wow, what tech! I now have a new life ahead of me! — O.A.

It is fantastic to get rid of very basic things I never realized even existed! I am really looking forward to making the most of a great new life in front of me. — J.C. ■

A new universe of CAUSE & CERTAINTY

Move into a whole new universe of vastly increased cause and certainty!

The mighty Flag Rundowns — L-10, L-11 and L-12 — are the most powerful processes available in Scientology.

They're so powerful they require precision skills of Flag's Class X, XI and XII auditors. And they must be delivered in a very safe, secure environment — the Flag Land Base.

Not part of the Grade Chart but parallel to it, they boost results of existing grades and make future auditing faster and more effective.

L-10: "Boosts doingness, causativeness and OT powers." A powerful set of OT building processes and actions which turn you into a real powerhouse across all dynamics! It handles the sources of self-restraint, resulting in increased general ability and doingness. It leaves you truly in present time, feeling very sure of yourself as a being.

L-11: "Gives a new life in truth!" It locates the major stumbling block on a case, the major source of aberration. It doesn't handle one's entire case, but attacks the major source of irrationality. L-11 leaves you extroverted and stable, free to operate at a new level of responsibility and action.

L-12: "Extroversion and stability." L-12 is comprised of three powerful steps which handle factors which stick attention on the body, the area of beingnesses and identities, and previously unknown influences of certain persons in life and on the track. L-12 extroverts your attention and doingness so you can handle life, just being and doing, without attention on the body or self.

The mighty Flag Rundowns

Make arrangements now to get L-10, L-11 and L-12. Write the Letter Registrar at the Flag Land Base or contact the Flag Service Consultant at your nearest FOLO. Addresses are on page 19.

REQUIREMENTS:

* Full Drug Rundown, Expanded Grade IV, not in the Non-Interference Area (R6EW to OT III) or incomplete on any major action.
* Setup auditing. Usually 12½ to 25 hours are required at usual donations for Flag auditing.

DONATIONS:

The first 25 hours for each of the Rundowns is $7,500. If further hours are needed they may be taken by 12½ hour intensives at $3,750. With 5% advance donation discount, the donations are $7,125 for 25 hours and $3,582.50 for 12½ hours.

People *(continued from page 9)*

to supplement his extensive tech training with Ron's vital administrative policies. Don exclaims, "This ED Hat is really beyond my expectations! It made me wonder how I got this far without it. I can see I would have crashed eventually without this data.

"The Flag Land Base is everything I've ever heard it was. The environment is such a key out that you almost forget what you came to handle."

Don got into Scientology in 1967 and has been well known in the printing industry as one of the foremost engraving artists in the world. He worked in this field until 1968 when he went to Spain (the original AO) to go Clear.

While at the Base, Don gave a demonstration of gun care and safety and a superb exhibition of skill in marksmanship and trap shooting for a crowd of enthusiastic citizens at the local Clearwater Rifle Club. Don is a former world record holder and winner of many rifle matches in the US.

"I'm an ordinary housewife, but a very active person," says **Naomi Kleyn**, South African Scientologist at the Flag Land Base for her L Rundowns. This is a bit of an understatement — Naomi is one of the 15 Executive Committee Members for the South African National Council for Child Welfare and Chairman of the Pretoria Child Welfare Society.

Naomi started in Scientology in 1960 and later did her HSDC, Clearing Course and OT Levels at Saint Hill.

Naomi is enjoying her auditing and stay at the Flag Land Base. She says, "My auditor is so smooth, so aware of every little thing! This place is so beautiful. You can't help having a floating needle all the time."

Ethel Kuever, OT VII from St. Louis, Missouri, has experienced plenty of auditing since getting into Dianetics in 1950. "The auditing at the Base is by far and above the very finest. It's so much better than any other I've ever had it's hard to put into words. I'm getting things handled I've always wanted handled. And it's going faster than I expected."

Ethel is on her second trip to the Flag Land Base for her Flag Case Completion Auditing.

In St. Louis she runs a very successful top quality color photo finishing business with her son, an Org Exec Course graduate.

Ethel's future plans are to do the Saint Hill Special Briefing Course at the Flag Land Base in January and, eventually, the Org Exec Course to gain more administrative tech to use in her business. ■

TECHNICAL NEWS

More new rundowns to be announced

Several new rundowns by Ron, each of great technical importance, will be available at the Flag Land Base.

Several exciting new rundowns and auditing actions developed by Ron are scheduled for future release in the Flag Land Base Hubbard Guidance Center (HGC).

Ron has utilized the Flag Technical Division for many years to assist him in his research and piloting of new courses, auditing actions and rundowns. Many of these have been made available in lower level churches and many are now a standard part of the Gradation Chart. This includes courses, processes and rundowns such as Standard Dianetics, Expanded Dianetics, Class VIII, Expanded Lower Grades, PTS Rundown, Integrity Processing, Drug Rundown. Some services have remained exclusively Flag services, such as the famous L-Series, L-10, L-11 and L-12.

A safe, sane environment, fast and smooth administrative lines and, most important, 100 per cent Standard Tech are, of course, needed as a basic foundation for an area which is piloting new and powerful auditing actions.

These same qualities are what has made the Flag Land Base services sought after by Scientologists around the world.

The new rundowns which will be released are not brand new actions to Flag. They were developed by Ron and researched and piloted under him with complete success over the last few years in Flag's HGC.

But, for the first time, these rundowns are now being fully written up and prepared to be delivered to Flag Land Base preclears and pre-OTs.

One of these new rundowns to be released very shortly is the Case Cracker Rundown, a super case booster and clean-up rundown. This great new rundown leaves you feeling "freer and cleaner than you have felt in years!"

There are several other rundowns and actions, most as yet unnamed, to be compiled and released at a future date. Each of these actions is a technical breakthrough of vital importance in its own right.

One of these was announced in the last issue of *Source* in the "Technical News" section. It is yet unnamed and at this time called the "Special Rundown," the name given to it in its experimental stages. This is the most recently developed of the unreleased rundowns and, like the other new rundowns, will be released at a future date.

While these rundowns and actions are being compiled and prepared for training and delivery, the Flag Land Base HGC is itself setting up the delivery lines. This is to ensure the increase of preclears and pre-OTs flooding in for these services can be handled efficiently.

Administrative lines are being reorganized and refined to ensure service is smooth, fast and pleasant.

Watch for more details on the new rundowns in upcoming issues of *Source*. ■

Be part of the team of Flag Auditors

100% Standard Tech is within your reach

You can join the Flag Land Base Tech Training Corps (TTC) and become part of the team of flubless, standard Flag auditors – the cream of the cream!

The Flag TTC, comprised of Flag Sea Org Members, is a body of auditors in full time training doing their courses in the famous Flag Technical Division and interning in the tough, standard Flag Qualifications Division. When trained and interned they transfer to the HGC as flubless *Flag* auditors!

Of course, only Flag auditors can train on the levels above Class IX and deliver and C/S the famous L-10, L-11 and L-12.

Anyone can apply to become a Flag auditor. It is the Flag training and internships, of course, that make you a *Flag* auditor.

Become part of the team of Flag auditors, auditing 100 per cent standard tech flublessly.

To apply or get more information, contact the Personnel Procurement Officer at the Flag Land Base. Address is on page 19.

Organization and Ethics

(continued from page 4)

again, you darn well better give somebody a Committee of Evidence. Let's be legal about it.

That does sound utterly incredible, doesn't it? Just envision it as a possibility, no matter how fancy this might be, that if beings became more and more powerful and they became annoyed about something and started to straighten that out, they're liable to straighten it up with such thoroughness that hardly anyone would ever recover.

Unless they have some orderly method of straightening things up, they will take it upon themselves to straighten them up in their own jolly good way and it will make one heck of a mess. I don't say an OT should be under justice. No. But he must have some orderly agreed upon communication lines by which he does something.

IN THE HANDLING of these various organizational lines you are simply putting up channels for people to travel on. If you are going to do your job at all you are going to have to have some way to route and handle without getting into an altercation everytime you say boo.

In the HGC we had two persons who would have baffled a Director of Processing to the end of time. They ran like a dream, got tone arm action, then went outside and collapsed. He's up on Tuesday and down on Wednesday.

This case is a roller coaster case. The roller coaster case is a potential trouble source and just on the other side of him there is a suppressive person invalidating his gains.

That suppressive person is always out of our view. We could just hold our heads in our hands saying, "Why does that guy get so good and get so bad? How does he go up and down? We'll audit him some more." The one thing you must never do is audit a potential trouble source, because he is never going to get any better until he is labelled as a potential trouble source and handles the situation.*

It is an awful mess because, by the fact he is getting better, he then becomes such a threat to the suppressive person that he just gets done in. To the degree that he makes progress the pressure has got to come back against him.

You would blame it on your auditing. You would blame it on the technology you were using. Didn't have any relationship to these at all. Just on the other side of this boy and out of the sight of the auditing was a suppressive.

So what's the nice thing to do? The PTS person has always had this problem around him but nobody ever said, "Your problem fella. Do something about it." You give him a little policy letter on the subject of a potential trouble source and tell him what he has to do.

Supposing he starts going, "Yow, yow, yow" and "Poor Agnes, she has a perfect right to berate me because I am such a dog." Boy, this guy is caved in, isn't he! He says, "If you won't process me I guess I'll just have to leave Scientology too to go off in my own way with Agnes." One Agnes, a suppressive person; one preclear, not just PTS now — he has elected himself out. The normal action would be to tip somebody off on this by labelling him PTS and getting him and helping him to handle Agnes.

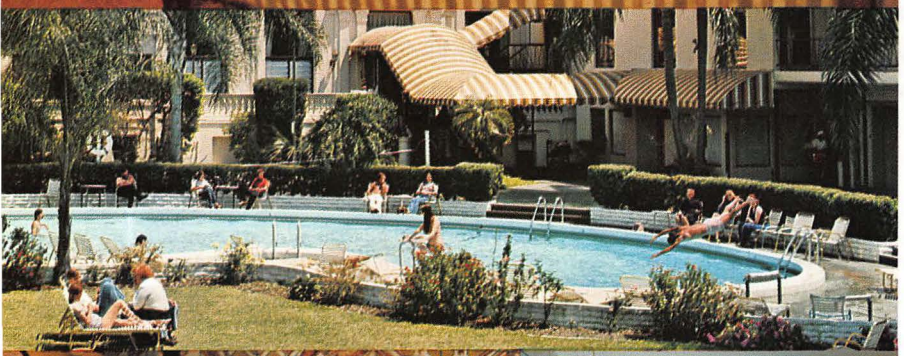

But suppressives, let me tell you by experience, are pretty crazy. If a person isn't very crazy and you hand the label to him, he will straighten out and see the light. But if he is real crazy, man — he can't see anything. He has just got to fight.

(continued on page 20)

*Today, in 1976, there are a number of actions which can be done to assist a person in handling a PTS situation, including some auditing actions. But these are auditing actions designed by Ron specially to handle a PTS condition and it still holds true that a person does not receive usual HGC auditing until any existing PTS condition is handled.

"... gracious, luxurious and absolutely incredible!"

The Flag Land Base stands alone in quality – the very best in auditing, training and accommodations.

The safe, distraction-free luxurious environment is the ideal place to receive the superlative Flag Dianetics and Scientology services.

The space itself is an incredible pleasure, well-appointed and clean from the crystal chandeliers and marble stairways of the lobby to the lush tropical gardens and azure blue swimming pool.

Your own room is a plush haven with deep shag carpeting, a large bath, color television and air conditioning. The better rooms, if available, have kitchenettes.

The fare is tasty and nutritious. If you choose to dine in the Hour Glass Room (rather than the cafeteria) you will enjoy lovely Spanish-style decor with tiles, rich woods and coppers.

The efficient Sea Org staff see to your every need with helpful, always friendly service.

The Land Base is located in Clearwater, Florida near the ocean. There is shopping for all your needs within walking distance of the Base. The warm sun and clean, clear air invite sunning by the pool, tennis at the courts two blocks away or any of your favorite recreations.

There is a variety of rooms to choose from: luxurious suites to shared dormitories. Suggested donations are very reasonable.

Reserve the room of your choice *now.* Scientologists arrive daily for services and rooms are filling fast.

Flag Training & Internships

Technical Training, Administrative Training & Internships

The keynote of Flag training and internships on all courses and at all levels is standard supervision and word clearing with all materials available. Completely *standard* courses and internships, run as Ron has said they should be run.

When you come to the Flag Land Base for training, we assume you are here to *get the data and skills* and become a true expert in the area you are studying, not just here to complete a course or internship for the sake of completing it. Accordingly, study and supervision technology is ruthlessly applied. You are expected to be able to produce the *results* for that course or level — to Flag's 100 per cent standard! It's the very high standards of Flag Land Base training that makes it the best.

TECHNICAL COURSES

Flag Hard TRs Course: TRs done rough, tough, and completely standardly. Forms the foundation for Flag's famous auditing quality. Not required for any courses, though TRs enhance the results of any training. TRs Course is a prerequisite for Internships. Donation: $750. Requires Flag C/S OK to do TRs.

Hubbard Standard Dianetics Course: Standard Dianetics was developed and piloted by Ron on Flag. Find out how amazingly effective Standard Dianetics can be on the Flag HSDC. Donation: $2,000.

Academy Levels 0-IV: You can learn to audit 0-IV Expanded Grades processes to Flag standards! Teaches auditing skills needed for Grades 0-IV, and how to release others on communication, problems, relief, freedom, and fixed ideas. Donation: $4,000.

Expanded Dianetics Course: Expanded Dianetics, developed by Ron on Flag, was first taught and audited on Flag in 1972. Learn the use of Dianetics in special ways for specific purposes. Donation: $3,500.

SHSBC Levels V & VI: Take Scientology's longest training course faster under standard Flag supervision. Teaches all Scientology Grades, progress programs, assists and advance program processes. Includes study of chronological development of Dianetics and Scientology. Donation: $2,500.

Class VII: Teaches Power and Power Plus processes (Grades V and VA). Available only to Sea Org Members and 5-year contracted org staff. Donation: $2,500.

Class VIII: The *original* Class VIII Course was taught at Flag. Covers exact handling of all cases to 100% result, with Class VIII procedures. Learn Class VIII auditing to Flag standards! Donation: $2,500.

I just finished reading Issue 5 of *Source* magazine, and I wanted to write to let you know how really excellent it is. A very very well done job.

Your typography throughout is just splendid. The layouts are all excellent, and the overall visual view is that of a top quality professional product. The enlarged use of color photos adds a vivid vitality to the overall effect; and the photos themselves are of the highest calibre. The magazine as a whole really reflects the high standard of quality one expects from the Flag Land Base.

I like the Flag Land Base "News," "People" and "Technical" pages and would certainly like to see these continued. I always look for photos of my many friends in Scientology, so I would definitely like to see more photos of different staff at their tasks.

By the way, the back page photo of Quentin is really breathtaking. It's such an OT view! It really shows perfect TRs and auditor presence. Just superb.

I certainly look forward to your next issue and I can't wait to eventually get there myself for my services. The first will probably be the Internships.

Source magazine is really terrific. It is certainly great to get news and information about current happenings in top level Scientology through this publication. It is just the kind of motivation that we at the lower levels need to keep us inspired and moving steadily up the Bridge toward the fantastic states of Clear and OT.

The first *Source* magazine whetted my appetite for the L-Rundowns. But it was the third one that decided me to get them done on my own case.

I think *Source* is an excellent magazine that vies with Advance! as my favorite Scientology publication.

Just had to drop a quick line . . . a note of enthusiastic acknowledgement for

course to Flag standards and produce course graduates who can successfully apply what they study. Donation: $1,000.

Hubbard Professional Course Supervisor Course: Become a Flag trained expert in the use of standard course supervision tools, a real pro in theory and practical course supervision. Donation: $2,000.

Hubbard Senior Course Supervisor Course: Get the full theory of the Department of Training. Be an expert supervisor who can debug bogged students easily, a real top Flag-quality supervisor. Donation: $2,000.

THIRD DYNAMIC (ADMINISTRATIVE) COURSES

Org Executive Course (OEC): Based on the Scientology 7-Division Organizing Board and the 8 OEC Volumes (all Scientology policies by Ron up to 1971), the OEC gives you skills and data on organization vital to the prosperity and survival of any group or individual. Donation: $4,000. By individual volumes, $500 each.

Flag Executive Briefing Course (FEBC): The OEC graduate learns to "play the piano" of any organization. Based on the famous FEBC tape lectures Ron gave the first FEBC students on Flag in 1970, this is the only course teaching the Product Officer/Organizing Officer system. Learn how to get products in quantity, with quality and viability. Includes considerable other advanced management policy. Donation: $5,000. A special auditing program is purchased at usual HGC rates: $2,500 per 12½ hour intensive.

Data Series Evaluators Course (DSEC): Teaches the application of Ron's incredible Data Series policy letters – the key to correct observation and 100% accurate evaluation of data. Makes an "auditor across all dynamics," able to do a spot-on analysis of any situation in any area of endeavor. A special auditing program is included. Donation: $10,000 (includes course, apprenticeship and one 12½ hour intensive).

INTERNSHIPS

Auditor Internships: The roughest and most standard internships, for certainty you can deliver 100% standard tech 100% of the time. Includes Flag OK-to-audit checksheets, daily TRs and drills and LOTS of auditing. Donation: $1,000 each (except Class VII Internship, $2,500 – combination course and internship, available only to SO staff and 5-year contracted org staff).

Case Supervisor Internships: *These are C/S course and internship combined.* Have the ability to C/S to Flag standards! There is a C/S Internship for each auditor training course. Donations: HSDC, $1,500; Class IV, $3,000; Class VI, VIII and IX, each $1,800; Expanded Dianetics $5,800.

Supervisor Internships: For the HPCSC and HSCSC. Intern under the most standard supervisors in the top training area. Donation for each internship: $1,000.

Admin Courses Internships: Get on-the-spot experience in applying your Flag admin training to a working organization. OEC and FEBC have separate internships. The DSEC Internship is part of the course. Donations: OEC, $1,000; FEBC, $2,000.

For more information or to advance enroll on any of these courses, contact the Letter Registrar at the Flag Land Base or contact the Flag Service Consultant at your nearest FOLO direct. Addresses are on page 19.

My roommate brought a copy of *Source 4* home a few days ago and it is incredible! Have read it from cover to cover several times over. I am absolutely determined to make things go right so I can be at Flag six months from now to do the Ls and Power through OT VII.

Please put me on your mailing list and send me a copy of each of the earlier issues if you can.

Very well done on a super mag!

Peggy Howard
Chula Vista, California

My *Source* magazine Issue 4 arrived today, and it's terrific! What a pleasure to read! I love Ron's article "Definition of Organization" and one day these magazines such as *Source*, Advance!, Celebrity et al. may publish two of Ron's articles per issue! The magazine will be twice as good if they do.

Also love the interesting articles on L-10, Flag Land Base auditing, the promotion page on the OEC, FEBC and the DSEC. It really expands my awareness of and understanding of these aspects of Flag and tech. The "advertisements" for books, well they cease to be advertisements because they are so beautifully done that they can be considered to be informational articles. The OEC Volumes are an example of this refreshing presentation.

Then the cover is beautiful and page 16 continues to give more reality on being at Flag. It's all lovely and definitely appetizing as a thing for the future, if one can't accomplish it pronto.

I have just received Issue 4 of *Source* magazine and I must say that it is great!

It has given me more reality on the Flag Land Base than I ever have had. A real theta booster!

I plan to be at the Base in the near future to do some training, so I guess I am on your mailing list.

FLAG RUNDOWNS

It's like there's nothing there to stop me any more — I'm ready to get on with life without any restraints or reservation. It's really great — thanks to my auditor, C/S and Ron for my many new abilities from L-10. — D.S., L-10

Now I ask you, what words are there to describe the state I now have? Radiantly bright, eager yet calmest and clearest I have ever been. I am capable of achieving anything.

I can really BE, DO and HAVE. So I shall return to my home environment and do whatever has to be done to ensure others can get here to experience Flag training and auditing. My deepest love and thanks to Ron for making it possible and to my lovely auditor who shared my experience. — J.B., L-10

This was without doubt the most powerful auditing I have yet experienced. I blew charge on this auditing that I never knew I had. I have confronted areas on my track that I have been avoiding for eons.

My considerations on my dynamics have *radically* changed, in particular on my 2nd dynamic. I have without doubt repaired my 3rd dynamic. I have clearly sorted out each dynamic one from the other and can clearly see how they relate. I now understand ethics in its purest sense of theta across the dynamics.

Ron, I can never thank you enough, and my auditor and my C/S and all in the HGC who helped to make this possible. — P.I., L-10

I definitely do have a new life in front of me. My space feels so clean that I could recognize mass a mile away. This was by far the best auditing I have ever had, both the lists and my auditor. Thanks to the Flag Land Base, my auditor, and most of all, L. Ron Hubbard. — K.P., L-11

It's for real — the way is wide open and I have a new life in front of me. I feel like saying 'look out world, here I come.'

Ron has done it again with incredible technology. It is possible to do something like start a new life. Thank you Ron and my thanks also to my great auditor. — J.B., L-11

I really feel that I have an expanded new life. I feel like going out and doing new things that I haven't done and also completing things that I had stops on. I don't have any charge on any of my pictures and that's a great feeling. I can now enjoy just being and doing all the time if I want. The things I have gained on this rundown are things I can't lose because they're mine.
— K.S., L-11 Expanded

L-12 auditing handled what needed to be handled in order to free me of past influences which decreased my awareness, perception and ability. I know now why certain people did what they did and why I became the effect of their influences. I feel very relaxed and able to hold my position anywhere as an immortal being. I am cause, ethical, and a powerhouse of unlimited potential. Ron made this possible for me with the smoothest spot-on tech ever.

Look out Australia! — K.P., L-12

I don't know what to say. Wow! Incredible! L-12 was the best L for me. Why? Because it not only gave me gains beyond my wildest expectations, but also boosted, validated and confirmed my gains on L-10 and L-11.

I *am* an immortal being and a *stable* thetan exterior. There is so much distance between me and my bank I feel very clear. Wow! We really are going to have to invent a new language for this level alone. I am *totally at cause over my whole case* with a zero chance of ever again going PTS. This technology blew me right out of the chair I thought I was sitting in. How did you do it Ron?

Thanks to my auditor for the most enjoyable moments of my life. Thanks C/S and everyone who made it possible for me. C.Z., L-12

FLAG AUDITING

To come to the Flag Land Base has been one of the rightest things I have ever done.

I have received marvelous service, and have developed a very great affinity for this place and the beings who are creating it.

Most important is the certainty I have gotten that I can move up the Bridge. My special thanks to the Tech Division for that, particularly to my auditor and C/S.

And most importantly of all, my thanks to L. Ron Hubbard, who put the Bridge here. The only way I can ever begin to return the flow is to learn to apply the tech myself.
— B.C., Flag Auditing

I'm handled! After more than 10 years trying to get the basic, it has been assised. Special thanks to my FSM, my auditor, the D of P, and the C/S. Also special thanks to the staff at Flag Land Base for making this a safe space. For all of you wondering about the tech, admin or ethics in relation to your case, take the big step to the Flag Land Base and win. — B.R., Progress Program

If I could find the necessary expletives to describe this action I would better communicate the reality of how I feel! However, let me just say that 45 minutes of session handled more than my last 45 hours!! My bank is so far away that I had to figure out how to remember as a thetan, rather than use my circuitry to give me answers. Wonderful! Fantastic! Incredible! That's as close as I can come. I'm so in ARC with everything around me now. My love to Ron and my auditor and all who made this possible.
— K.H., Review Auditing

This was an incredible cycle for me. My life has really changed and I am so excited now to go back home and get back to work and help to really expand Scientology.

When I came here I was quite overwhelmed and at effect and black and just not doing well. I now feel at cause. I feel great! And rejuvenated! My suc-

cess has been due to a combination of ethics and auditing and an incredible amount of *help* and *care* from each terminal here. My biggest success is just regaining my ol' theta drive and just 'getting back in the driver's seat.' My ethics are in — and I'm ready to play like I never have before. It's going to be fun. Thanks! — C.M., Flag Auditing

This is great! I feel like there is no base untouched. My Grade Chart is in and I'm heading for home plate. Thank you to my auditor, C/S and Ron.
— G.C., Setups for L-10

INTERNSHIPS

The gains I made on this internship were beyond belief. I had no idea of the precision of standard C/Sing, but now I do and am looking forward to really getting it applied.
— J.B., Dianetic C/S Internship

I finally managed to get my auditing up to the required standard for Flag quality auditing. It was not easy by any means but it was worth it. In fact, flubless auditing is the *only* acceptable standard of auditing.

My pcs had a lot of wins and real case gain. — M.P., Internship

Having just completed four weeks of Flag training, I can vouch that the Flag Land Base really is the "Mecca for those who seek technical perfection." My greatest thanks to those who work so hard to deliver this valuable final product of technical perfection and, of course, to Ron.
— J.B., Dianetic C/S Internship

Boy, do *I* know how to audit Dianetics! When I walk into session I am totally confident that my TRs, metering, and application of the Tech are totally flawless, and that my pcs will uniformly get the gains available from the technology. I was a pretty good auditor when I came here, but now I feel totally proficient and competent in my profession. — S.C.

I could fill the page with the wins I have had on this Internship! I feel totally clean and ON SOURCE with my auditing. My basics are IN!

It's great to be here where Tech is totally standard and the requirements are high — the confidence and certainty I have are exactly what I came here for! Thanks to all! — K.L.

TRAINING

Doing the Expanded Dianetics Course at the Flag Land Base was the best thing I could have done. I was very impressed with the Study Tech in use and I had smooth fast results because of this. The data was *phenomenal!* My greatest of thanks to you Ron. I'm really flipped out and ready to get to work. — M.C.

When I came here I was basically a dilletante. I've held several posts and had different kinds of tech training. Well, now I'm a professional. A Hubbard Professional Course Supervisor. My life changed with Scientology. Eight weeks ago my life started another change when I arrived here, and now . . . well, I've changed. The wins I've had are like none I've ever had! Thanks to all the supervisors and a continuous thanks to Ron. — R.D., HPCSC Intern.

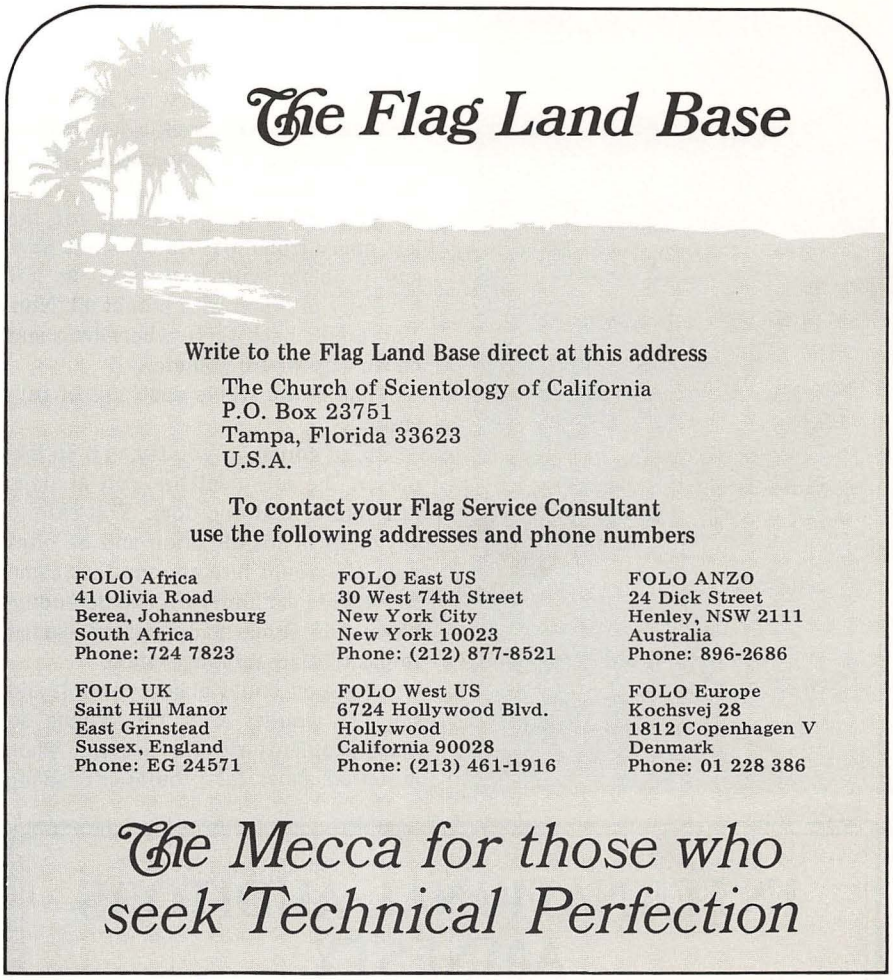

I have completed the Flag Tech TRs Course. It is the best, most thorough and rewarding course I have ever done. I have the certainty on TRs that made me endure auditing before. The missing piece of the perfect package. And what a piece! The basic one! — J.M.W.

I am OT VII, L-10 and L-12, but I found the Executive Director Hat to be one of the most viewpoint widening experiences I have ever had. I would say it is like going Clear on the 3rd and 4th Dynamics.

By going to basic the data cut through all the confusion a 4-year Bachelors Degree in Business Administration was able to create.

I now have the basics on which to build a solid business in the world. There is a lot of data but it is well worthwhile for the businessman that wants to make it.

Thank you L. Ron Hubbard and all the staff at the Flag Land Base for the data and safe space in which to study. — J.R., ED Hat

Your *Source* mag is a gas. Especially the article on Organization fascinated me. Would you please put me on the mailing list for the following numbers. I don't want to miss getting all these valuable data. I'm determined to come to the Flag Land Base soon.

George Mesmer
Copenhagen, Denmark

Hear the full taped lecture "Organization and Ethics" by Ron.

There is even more data by Ron on Ethics and its use in organizations in the taped lecture from which Ron's article in this issue of Source was edited.

In the tape Ron tells of several occurrences where Scientology ethics was used with non-Scientology companies, illustrating the success ethics technology can have. Ron covers in depth characteristics of and the case reason behind the suppressive person. And describes how to handle one.

The second side of the tape is "Suppressives and GAEs" [Gross Auditing Errors].

The lectures take up both sides of a 7" reel and are recorded at 3¾ inches per second, half track. Price per reel: $50. 20% HASI Membership discount applies.

Organization and Ethics

(continued from page 14)

If you knew what he was fighting you wouldn't feel sorry for him. He is back there on the track a few trillion years fighting the "ugbugs." He is solving a present time problem which in most cases hasn't existed for the last many trillennia. He does not have any problem with you. You do not have any problem with him at all. None You aren't back there where he is and he isn't up where you are.

That is the whole anatomy of psychosis.

So, of course, if you try to help this person, he mis-identifies you at once just like a mad dog does. You extend any help in his direction and he bites you. He would bite anyone that came anywhere near him. He is just defending himself in some mad insanity against things that are no longer there.

Now you could blame yourself and say, "I wonder why I'm having so many problems with this person," when in actual sober fact you aren't having any problems with this person. You are not even giving that person any problems. He is just fighting off this chimera.

When he is driven down to the first dynamic to that degree he, of course, will attempt to solve things by knocking off everyone else. If he sees anybody getting any stronger or any better he goes stark staring mad. This is one thing which must not happen. Nobody must get better cause "If these flying saucer pilots got any stronger they would be able to get him."

So Scientology will get it right in the teeth the better we get and the better known it is that we are actually helping people.

I'VE TRIED TO give you tools with which to handle this situation. A potential trouble source does behave that way. A suppressed person is in that condition. If you label a person you can resolve the situation. If you don't label them and call a spade a spade you will never get technology in.

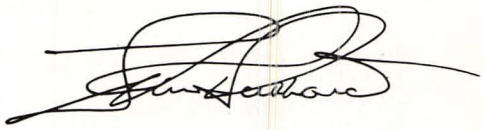

If you don't clear the way for technology and use ethics to get technology in, it is going to take you many times longer to get technology in.

How long does an ethics action last? An ethics action lasts until technology is in.

How much ethics do you use? You use enough ethics to get technology in.

When do you stop an ethics action? You stop it when you have got technology in.

This has been more or less on organization and ethics and how those things compare to each other and what their actual use is. I hope you can benefit from it.

Since this lecture was given in May 1965 Ron has developed considerable ethics technology. If you are interested in applying Scientology's ethics system to a company, group, family, yourself or any aspect of life, you should obtain Ron's writings on the subject.

The Introduction to Scientology Ethics covers basic ethics, conditions and PTS data. This book can be ordered from the Flag Land Base Bookstore for $3.00.

OEC Volume 1 contains Ron's policies on ethics, including ethics use, conditions formulas, PTS handling and justice. This 608-page volume is available from the Flag Land Base Bookstore for $40.00.

The new Technical Volumes cover up-to-date information on the technical aspects and handling of PTS. See advertisement on page 6.

For skills in ethics handling, the OEC Course, Volume 1 Checksheet, is available at the Flag Land Base. See advertisement on pages 16 and 17.

INTERNATIONAL AUDITORS AMNESTY

On the occasion of the official release of 10 shiny new

TECHNICAL VOLUMES

and the issuance of these volumes through Scientology bookstores over the world, I am very happy to announce an:

INTERNATIONAL AUDITORS AMNESTY.

All that need be done by an Auditor of any class to accept this amnesty is to write up any previous departures from Standard Tech as covered in HCO PL 7 February 1965 "Keeping Scientology Working" and in HCO PL 17 June 1970 "Technical Degrades." Turn in your write-up with your acceptance to your nearest local Assistant Guardian.

I thank from the bottom of my heart all who made possible this greatly expanded availability of material.

I am proud of your real auditing and training accomplishments.

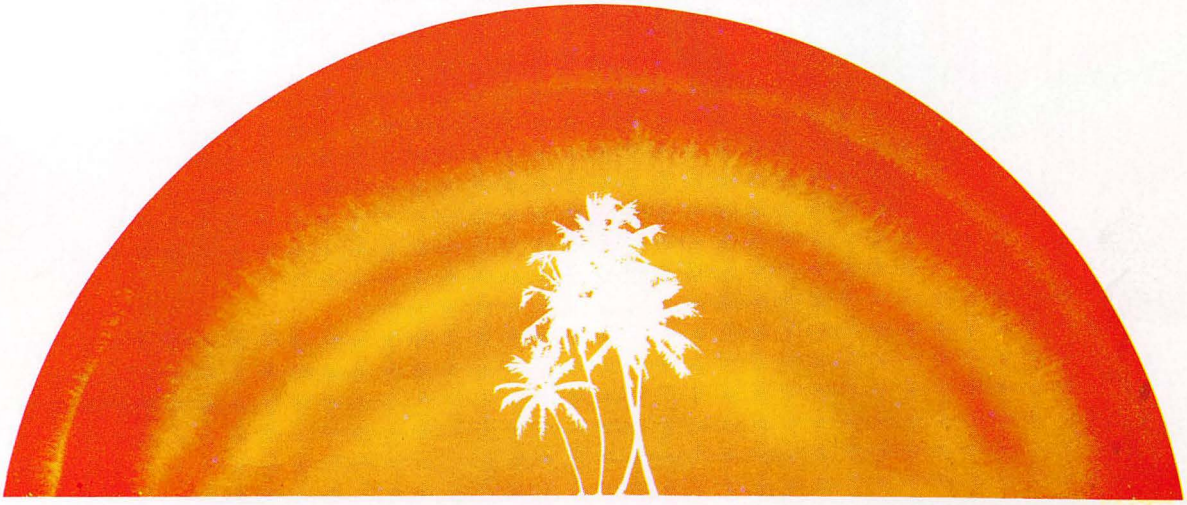

I count them all as my wins too, each one unique and all part of a dream coming true.

Love,

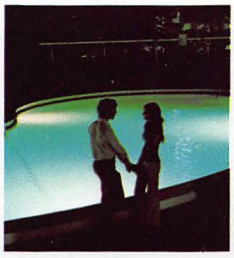

RON
