"Why get hysterical about little pieces of paper? Money is just another 'everybody knows'; a solid agreement."

MONEY

by L. Ron Hubbard

MONEY

A new view on those little pieces of paper

by L. Ron Hubbard

Continuing in our series of articles by Ron on organization, we present the following article edited from Ron's famous tape lecture "Money" given on 6 December 1956. Find out how a society can be manipulated through its economy, the basics to any stable economy and what money really *is!*

MONEY IS A commodity. It is a substitute. It is a thing. It is something that people push around. It is something that is defined in economic textbooks. It is something which is printed, coined, minted, exchanged. It is something for which people get killed, that makes it worthwhile to become a robber, with which you pay dues, tithes, taxes.

In short, money is the carrot in any culture. It is a thing everybody is after.

If you didn't have something that everybody was after, then you would not have a game.

We get down to one of the most fundamental agreements of our present society, that money is something everybody is after and very few people have. It is valuable.

In order for a thing to be valuable it has to be somewhat scarce. If you gave people enough money they would simply go on and buy, produce, live happy lives and carry on, and you couldn't have that! Oh, no!

So it is kept scarce and they have a game. They get up in the morning worrying about how they're going to get another one of these pieces of paper. And they go to bed at night realizing that they've spent one of these pieces of paper that they should not have spent. And they have nightmares that somebody has suddenly filled up their bed full of money and they wake up to find it's not money, it's bills.

We get into all sorts of interesting complexities by which one man owes another man money and he doesn't pay so the court gives him a summons and he goes down to court and they have a big conference. A man gets a piece of paper saying the other fellow could pay him the money because then he's got proof that the money didn't change hands when it should have changed hands. You get a very nice game going that nobody can understand.

> "One of the most fundamental agreements of our present society is that money is something everybody is after and very few people have."

They can't understand it for the basic reason that there isn't anything there to understand.

NOW LET'S LOOK at this much more closely. We very nicely and neatly put some vias on the line. Federal Reserve has the federal government issue some bonds so it can issue some money so that . . . get the idea?

Then we talk about the shortage of money and the scarcity of money and the superfluity of money. We talk about inflation and deflation. We hire people to fill up pages in newspapers concerning the business credits of this moment and we have authorities and we teach economy in all of the universities.

We get all kinds of things stacked together on this one subject called money, all in the hopes that somebody will not penetrate the secret and split up the inner sanctum by saying, *"Money is as valuable as it is too complicated, but when it is too complicated it isn't. So money is the optimum level of complication that can still be, to some slight degree, uncomplicated."*

THE CAPITALIST HAS gotten to be thought of as nasty because he put too many complications on the money and he stressed it. He went overboard beyond optimum. He made money do more than it could do. He made money itself manufacture money. It's bad enough to have stuff issued some place that you don't quite know about and spread around, such as the Federal Reserve of the United States does. But how about the fellow that takes two dollar bills and presses them hard enough with an iron to get three? That's pretty downgraded. The fellow can't face outright creation. He hasn't the nerve to merely go produce a machine or a building or a parkway or something which people then give him money for.

I'm not rabble rousing against capitalists but here is this fellow who doesn't produce. He in some fashion accumulates some money. Now he makes the *money* make *money*. Now he is all set.

But *who* is all set? Well, obviously the only fellow in such an arrangement who is all set is the fellow who is making money make money.

Why? Because it is a drag on the actual existing currency, and a heavy drag, because it has a non-producer who is totally a consumer. It's just the same as having somebody there

who is totally indigent but now has authority in his community.

Don't ever get capitalism mixed up with the entrepreneur, the producer, the manager. What is meant by a capitalist is one who makes money make money.

Let's look this over — the non-producer — and we realize that somebody who stands there and simply shuttles money back and forth and takes so much of it is a bog in the economic world. He must replace the money he takes out with something: service, good looks, winning ways, a pleasant smile — *something.* But if he puts nothing on that line the economy is apt to cave in simply because there is somebody there who is consuming who is not producing.

WE TAKE THIS whole line up and we look at the other end of the scale that gets created thereby.

A fellow is made to produce-produce-produce-produce and he can't have any of this stuff called money. We therefore get a peasant or worker class that is way sub-normal.

When you get a fellow way up at the top who is taking money off the line without contributing anything to it, somewhere or another there is some fellow who is going to have to work twice as hard and get nothing for it. And that's what starts revolutions in the world. They are nine-tenths economic and only one-tenth political.

We see the whole of the world getting tangled up this way.

LET'S LOOK AT this whole thing about money.

You put enough vias on the line it becomes valuable, but only if it is somewhat scarce.

Now how scarce should money be? What is an optimum scarcity of money?

It has to be scarce enough so that people will consider it more valuable than the goods they are holding or making. It has to be just a little bit harder to obtain evidently than the goods themselves. Otherwise they would consume their own goods to some degree, wouldn't they?

Therefore we have a situation in terms of money whereby somebody has to produce and receive money for it. This is all based on the fact that people produce different things and everybody wants a little bit of everything so we use money as the communication line with which to adjust the economy.

Horribly enough, when money is used for anything else the whole culture goes to pieces.

People want money because it is convertible into other items which they themselves don't produce. You have a system by which you can get an exchange. Money is not necessarily necessary, but if you have got to have a production/exchange system then money is a very good answer and so has remained in vogue.

But when we complicate money any further than that, you start to see shifts and imbalances of power. We finally find that the indigent can have power.

> "Revolutions in the world are nine-tenths economic and only one-tenth political."

A person starts mixing up with this money and without producing, yet can alter the flow of currency. People will permit this for a long time. They see this fellow who never produces anything, never made a witty crack in his life with all the money. But after a while they say, "Well, there are two answers. Either we will not work and see if we don't get more money — that's a strike — or let's just knock everybody off."

What are they trying to do? They are trying to adjust by force something that is at best a flimsy idea, this thing called money.

What do we have in the final analysis? We have society in a commotion and in turmoil over an abstract commodity which itself doesn't have any more validity than how many vias are on it. It has a use. That doesn't necessarily give it validity.

NOW WE KNOW all this about money, and we find out that there isn't very much to learn about money except that money is money.

But what the devil is regulating the economy of any given country or president or businessman or anything else? What is regulating it? Is it money?

No, it isn't money. It's produce, ability to produce and existing production. That is all that can stabilize any economy.

Production is dependent upon manpower and natural resources. You must have men who are willing to work and you must have natural resources to be worked, and if you don't have them you had better invent something to produce that doesn't need them.

But certainly we are dealing with something real, something that has solidity and mass. We are dealing with a commodity whether it's a pair of nylon stockings or the pasteboard boxes to put them in. It is a produced item and the production must be wanted and consumable.

Desire for produce creates the interchange. The produce itself establishes the possibility of an economy; the desire for it brings the economy into an existence whereby it is a third dynamic function.

Production is nothing without the desire for the product. In other words, there must be a desire to have production. It does no good to stand people up against the wall and say, "We're going to shoot you boys all down if you don't produce." If you do this to a whole nation you'll eventually wind up with nobody able to want anything. The desires of a corpse are measurable by worms alone.

OR YOU COULD ruin an economy by making the people cut their production down. "Don't produce that much Joe. We don't need all that and you skip making that this year. Nobody wants any of that over here." Then we would go around and say, "Now all of you people should be self-sacrificing and shouldn't go around being greedy and wanting all these things." It really takes both of these actions.

Otherwise if production did sag you would still have another crew demanding goods, even if it's just the women

(continued on page 17)

Have more you in present time!

The dynamic Flag Rundowns – L-10, L-11 and L-12 – are based on data Ron discovered in research *above* OT VIII!

But you don't have to be OT to receive these fabulous rundowns. If you've completed Expanded Grades (0-IV) and a full Drug Rundown and you aren't incomplete on any major action, you can – after preparatory auditing – begin your L-Rundowns at once at the Flag Land Base!

If you're not yet OT, the rundowns will accelerate your progress across the Bridge and help you achieve expanded OT gains when you do your OT levels.

And the Ls are a must for OTs after completing the non-interference zone (R6EW to OT III).

A being is as OT as he can cause things. The L Rundowns make an OT far more OT by removing his spiritual (not mental) blocks to letting his hair down as an OT.

For preclears and OTs alike L-10, L-11 and L-12 are powerful boosters to cause and certainty, with greatly increased awareness of the physical and theta universes.

Of course, the rundowns are delivered only by the special class of auditors developed by Ron to run them, the world-renowned Class Xs, XIs and XIIs.

Setups (preparatory actions) for the Ls are usual. These ensure you receive all available gains from the Ls. Setup time varies but you can expect 12½ to 25 hours at usual Flag HGC donations.

L-10: "Feeling totally yourself"
L-10 handles the reasons a person withholds himself, or restrains himself from action; reasons which are senior to the reactive mind. It handles "the source of personal power loss" in an individual and frees the person into a whole new realm of ability and activity. After L-10, the individual knows the source of power in his universe and is truly free to use that power! This is a level of vastly increased *doingness.*

L-11: "Having a new life before you"
L-11 locates and handles the major source of aberration on the case. It doesn't handle the whole case, but the *major* source of irrationality on which a being introverts and fixes his attention, diminishing his individual power.

L-11 frees a person from any tendency towards self destruction and makes it possible for him to really "be himself" and create and maintain a new beingness. In short, it gives a new life.

L-12: "Just BEing and DOing"
L-12 handles with three very powerful actions very fundamental aspects of a person's beingness; those things which can capture his attention and therefore keep his attention off life and doingness. L-12 was originally developed to totally exteriorize an OT's attention from himself and place it on the environment. It gets the deep down rooted things that make existence seem a certain way. It causes more change at a higher rate than any other auditing.

Prerequisites:
Full Drug Rundown, Expanded Grade IV, not in the Non-Interference Area (R6EW to OT III) or incomplete on any major action. (These prerequisites can of course be completed at the Flag Land Base.)

Setup auditing: usually 12½ to 25 hours are required at usual donations for Flag HGC auditing.

Donations:
The first 25 hours (minimum) for each rundown is $7,500. If further hours are needed, they may be taken by 12½ hour intensives at $3,750 per intensive. With 5% advance donation discount that's $7,125 for the first 25 hours and $3,562.50 for the following 12½ hours.

Plan now to come to the Flag Land Base for your L-10, L-11 and L-12. Write the Letter Registrar at the Flag Land Base or contact the Flag Service Consultant at your nearest FOLO. Addresses are on page 20.

NEWS of the Flag Land Base

Special News Release!

Ron expands Flag Land Base delivery lines to meet booming demand for Flag auditing

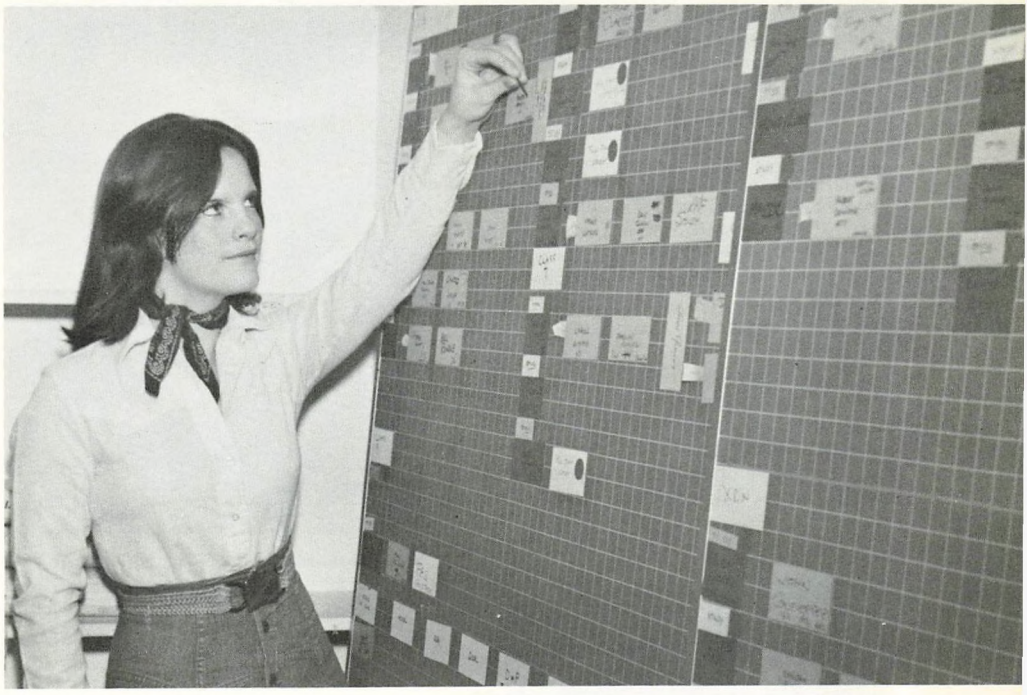

The best news since the establishment of the Flag Land Base itself

The Flag Land Base has since its establishment in 1975 been known as "the Mecca for those who seek technical perfection." The Land Base was set up to make available to *all* Scientologists the world-famous superlative Flag auditing (spiritual counseling).

And now, here is the best news since the establishment of the Land Base itself.

Ron has taken special actions to ensure that auditing lines at the Flag Land Base are *rapidly* expanded to meet the increasing demand for Flag auditing!

The number of Flag auditors (ministers) auditing has more than *doubled* in the last month as more and more Flag auditors reach the peak of intensive training and grooming and begin auditing to the highest standards anywhere.

The number of highly trained Flag auditors more than doubled recently as Ron took special actions to see that the ever-increasing demand for superlative Flag auditing was met. Tech Services' Preclear Scheduling Board overflowed onto a SECOND board, which is now also filled!

This means double benefits for all Flag Land Base preclears and pre-OTs.

There is not only the incomparable quality of Flag auditing, made possible by highly trained and interned Flag auditors and case supervisors, but with expanded delivery capacity each pc gets more *intensive* auditing with *maximum hours* in the chair!

Of course, with intensive auditing there are tremendous advantages. One's auditing program is completed faster, one attains more gains per unit of time, outside distractions are minimum and, of course, one returns home faster and as a much more powerful and able person.

Now, more than ever before, Flag's superlative auditing is readily available to all Scientologists.

Now the *best* service is better than ever! ■

Mild winter weather enjoyed by Flag Land Base Scientologists

Why do hundreds of thousands flock from all over the United States and Canada to Florida each winter? Simply because Florida is blessed with comfortable and clear winters that are world famous!

Add this perfect climate to the long list of Land Base attributes — the best in quality and service, greatly increased delivery facilities, the ideal auditing and study environment — and you can see that now is the *best* time yet to come to the Flag Land Base!

Florida winters, October to May, offer balmy sun-filled days and cool nights. The average winter day temperature in our town of Clearwater is in the 70s.

You awake to clear, crisp mornings and end the day with breathtaking golden sunsets. The afternoons invite sunning in the lovely garden.

Your time out of session may not be great with the intensive auditing schedules. But there are Saturday mornings, the free time for all persons on auditing. Generally there is a day off every two weeks when your auditor has his or her time off.

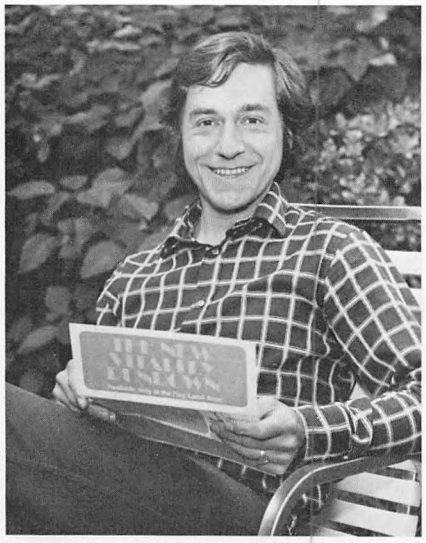

But even if you don't enjoy sunning and swimming, just living in and experiencing the beautiful climate at the luxurious Land Base is a pleasure! ■

PEOPLE at the Flag Land Base

"The Flag Land Base is for me the best and most perfect place I have found. It *is* the place where everything is in order, it couldn't be better. To be quite uninfluenced by surroundings and to concentrate oneself only on one's own case is the best condition, of course. That's how one's case can really be handled within much less time.

"Of the same importance is the 100 per cent application of standard tech. Everything is available here whenever needed. That makes the great difference, standard tech and highest trained auditors!

"I'm fully satisfied that with the Land Base at least one place exists in this world (and perhaps the whole universe) where everybody does his job not only because it must be done, but with really full purpose and understanding. A great postulate is behind it, never to be forgotten; the beauty of life, of peace and liberty in this universe!"

Willy Doetschmann of Switzerland, on the New Vitality Rundown as of this writing, discovered "everything is in order, it could not be better" at the Flag Land Base.

These are the words of **Willy Doetschmann,** now at the Flag Land Base from Switzerland.

Willy's search for Scientology is an interesting one. In 1964, at just 24 years old, Willy took over the wine importing firm his grandfather had established in 1899. While very successful, he found himself completely absorbed in the business to the exclusion of all else and began searching for the answers to life. He was given the address of the Basel Mission in 1975, visited the mission and has been on the Bridge since.

He no longer considers himself a businessman: having found the answers he is now using the business to forward his purposes as a Scientologist!

Lilian Collins from Lanarkshire, Scotland, is Scotland's *first* Clear OT. She recently completed Flag Case Completion Auditing, L-10, L-11 and L-12 at the Flag Land Base, and returned home. Lilian, also OT VII, in her own words, felt that the L's "really handled my first dynamic. I'm at cause over everything I do and the first thing I'll do is get trained."

Lilian has been writing and illustrating children's books since 1945, having completed about 24 books.

Just before her departure, Lilian was bubbling with enthusiasm about the Land Base. She told *Source:* "The thing that strikes me most about the Flag Land Base is the wonderful teamwork of all here, first noticed on arrival with the warm welcome and smooth 'settling in.' Then there is the feeling of safety and pleasure in the lovely garden and pool area and in one's own room. Next comes the smooth teamwork of arranging one's sessions with all the cooperation from Tech Services and the never-failing cheerfulness from the Tech Pages. Of course, there is the incredibly smooth handling of those sessions; Flag auditing at its clear, beautiful best by an auditor whose quality and skill never ceased to amaze me. I had a safe, calm feeling that the Flag team was there, lined up behind and around me."

George Shepphird first read about Dianetics from an article in "Astounding Science Fiction" in 1950 and immediately ordered *Dianetics: The Modern Science of Mental Health.*

George's hobby and work involve photography, but not any old photography! As a hobby he does a lot of three-dimensional photography. As a profession he does photogrammetric engineering (making of maps from aerial photos), right now making photo and contour maps of the moon!

George Shepphird, OT VII and long-time Scientologist, enjoying a few minutes relaxation in the newly set up FCCI Lounge between his New Vitality Rundown sessions.

Full OT VII and a Dianetic auditor, George is doing the New Vitality Rundown at the Land Base now and intends to return next year for his Ls.

George states the Land Base and services are all as advertised in *Source.* "I think the most significant thing I could say about Flag is that it *is* as advertised. The auditing and C/Sing are definitely A to B, which really keeps the pc with it." ■

NEWS ABOUT RON

Ron is always interested that churches maintain their high level of technical delivery, quality *and* quantity to meet the ever-increasing demands for auditing and training.

As detailed in the Flag Land Base News on page 7, Ron has recently taken special actions to ensure Flag Land Base delivery lines are expanded rapidly to handle the tremendous demand for superlative Flag auditing. In the past weeks the delivery lines have been boosted up with twice as many highly trained Flag auditors now in the chair, and even more still on intensive training and internships, being polished to high Flag standards, who will be moving into the HGC shortly.

Another hat Ron maintains in his busy schedule is that of developing new technology.

Ron recently authorized the release of a new Flag-only auditing rundown, one of the newest rundowns developed. This is the New Vitality Rundown described in detail on page 10.

In late 1975 Ron said, "I am developing a special rundown . . ." It is a ". . . *Super Special Vitally Needed Fantastic Rundown.*"

Ron hand picked and trained a team of Flag auditors to help him pilot the rundown as he developed it. For 21 days he gave daily briefings to the auditors, he C/Sed the folders. The pilot was completely successful!

(continued on page 13)

A NEW FLAG-ONLY
RUNDOWN FROM RON!

THE NEW VITALITY RUNDOWN

A POWERFUL NEW RUNDOWN has been developed by Ron that is now available at the Flag Land Base. It is the "New Vitality Rundown."

Source readers know this new rundown as the "super special vitally needed rundown" covered in the Technical News section of *Source 5.*

The New Vitality Rundown was developed by Ron in late 1975. He handpicked a team of Flag auditors to assist him on the piloting of the new rundown. Ron personally trained them on the Rundown, case supervising all preclear folders himself and giving daily briefings to the auditors for 21 days. The piloting was 100 per cent successful, with pcs experiencing dramatic case changes and gains.

This same team of auditors now bring you this great rundown at the Flag Land Base!

What it is

The New Vitality Rundown is extremely powerful and direct, cutting like a laser beam through to the very root of basic case problems. It is totally tailored to the individual, handling the major points of stress on a case *for that individual.*

It handles the causes of personal instability, zeroing in to locate and handle those factors which make a person less himself and fix attention on locations or people in the past. It gives a remarkable recovery and resurgence of one's own basic beingness.

One becomes truly stable, much more able to hold a position in space and more able to enjoy living and those around him in present time and location.

The major points of stress for *that individual* are located and handled. The result is, as you can imagine, a tremendous resurgence in beingness and doingness. You experience new freedom, certainty and *vitality.*

Who may receive The New Vitality Rundown

The New Vitality Rundown can be run at any point on the Grade Chart, as long as the person is not incomplete on any major action or in the non-interference area (R6EW to OT III).

It is given as directed by the C/S to suit the individual's case. A free technical estimate is available upon request.

There are no prerequisites though standard case progress actions are sometimes directed by the C/S, when needed to ensure full gains.

Donation

$8,500 per 25 hour intensive. A minimum of 25 hours is taken. Following 12½ hours: $4,250. 5% discount for advance donation in full.

Advance schedule now!

New Vitality Rundown Successes

Fantastic! I *know* a whole wide spread of my life is *clean!* This Rundown was absolutely incredible. It covered every area I could think of and blew *all* the mass off. I feel like I don't have a case any more. Ron did a remarkable job with this tech and it would do wonders for everyone! — R.E.

I have just ended cycle on not being myself! I can now operate with my "feet on the ground." I really see who *I* am and I am now free of past dramatizations I was using to reactively operate by on the first dynamic. I blew a chunk of aberration I had thought was me. I am very grateful to Ron for this new rundown and it should be done by every pc so they can benefit from this extremely valuable piece of tech!" — C.P.

I feel happier and more stable than I have for a long while. Further auditing seemed for so long to be something out of my reach. I'm ready to attack the grade chart full guns! I am so much more positive, so much more me! Existence is a pleasure rather than a chore and I am the focal point of my eight dynamics rather than any other way around. Ron, you're wonderful — thanks, again! — Y.B.

This action has been super powerful. Daily I could feel the unburdening and daily I could see and measure my progress. My attention units certainly have been unfixed and I am able to act exterior again from the environment and past upsets and problems. Truly a powerful action. Thanks Ron for creating this rundown, and thanks to my auditor and C/S who both were great! — L.R.

A new super-special rundown that really gets you going in life!

Train on Dianetics and Scientology courses to the highest standards available

FLAG TRAINING is renowned for the highest standards of technical excellence. At the Flag Land Base you are trained on *all* courses to *Flag* standards.

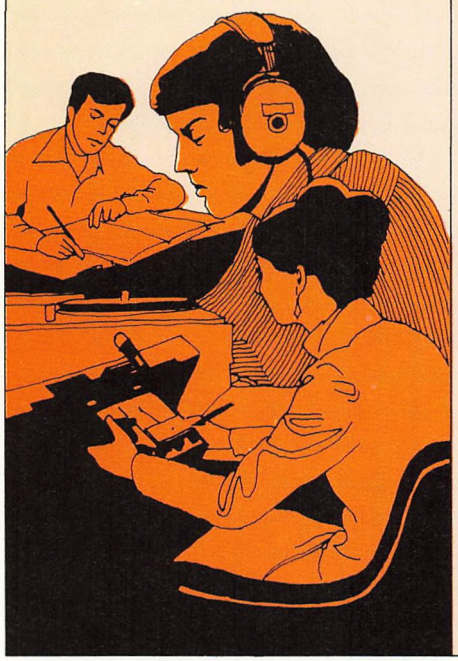

It is the 100 per cent standard application of Ron's technology on course supervision, courses and study which mean you learn with full comprehension all materials studied and become expert in your area of study.

Flag supervisors do not give verbal data; you are referred to Ron's materials. And there is a full library of materials right at hand.

Word clearing is available, and used whenever needed.

You are trained to get the *data and skills* from your courses, not just to complete a course.

When at the Flag Land Base on courses you are away from the distractions of day-to-day life, able to put your attention and time fully on study. You move through your courses faster, able to more easily grasp the materials.

Many of the courses offered at the Land Base and available at Churches around the world were originally developed and piloted at Flag. Such courses include the Hubbard Standard Dianetics Course, Expanded Dianetics, Class VIII, Class IX and all Course Supervisor courses.

A Flag-only service available to students on any of the Flag courses is the *Student Booster Rundown.* This tremendously successful auditing rundown puts students "back on their feet" and at the same time gives a real case boost! It is given to those students needing it to help get them through courses rapidly with no bugs so they can get home quickly. It means that future studies will be fast too. It takes 5 to 25 hours at a donation of $1,500 per 12½ hour intensive.

The major courses available for *you* to train to Flag standards on at the Flag Land Base are:

- Flag Hard TRs Course
- Hubbard Standard Dianetics Course
- Academy Levels 0-IV
- Expanded Dianetics Course
- SHSBC Levels V and VI
- Class VII (available only to S.O. Members and 5-year contracted Church staff)
- Class VIII
- Class IX
- Mini Course Supervisor Course
- Hubbard Professional Course Supervisor Course
- Hubbard Senior Course Supervisor Course

For more information on Flag courses or to advance enroll on any of these courses, contact the Flag Land Base Letter Registrar or contact the Flag Service Consultant at your nearest FOLO direct. Addresses are on page 20.

News About Ron

(continued from page 9)

With this New Vitality Rundown, Ron has given us an extremely powerful auditing rundown which cuts through to the very root of basic case problems! It is a tremendous breakthrough in case stability and resurgence.

One of Ron's greatest interests has always been the research and development of really effective ways to disseminate the *application* of the priceless tech of Dianetics and Scientology on a far-reaching scale for the betterment of individuals and all of society.

Over four years ago, after an on-the-spot look at the moral and spiritual decline of societies, Ron had an idea for a program that would put the technologies of Dianetics and Scientology into the hands of people on a broad, broad scale for use in bettering day-to-day life.

Over four years of research and hard work have resulted in the realization of this program.

A new book by Ron is being released this month, December 1976, which forms the basis of the program, *The Volunteer Minister's Handbook.*

This big, beautiful book is designed to be used by people unfamiliar with Scientology, and Scientologists, alike. It is a home-study book containing the most concentrated and powerful collection of Ron's very useable basic Scientology data ever assembled in one book. It is a "how to do it" book laid out step-by-step covering tech to deal with day-to-day situations in life.

In order that the Volunteer Minister program communicates easily to anyone, 48 beautiful color photographs are included. These photos, taken by Ron specially for this book, describe the history of religion up to the present, and give the Volunteer Minister's role in society today.

Ron has found yet another avenue for the broad expansion of Scientology! *The Volunteer Minister's Handbook* will be an invaluable hat on the dissemination and application of Scientology by Scientologists the world over!

Ron is very pleased with the increase of people writing to him on his personal communication line, his Standing Order No. 1 Line (SO-1 Line). More and more people are contributing to Ron's research, letting him know of their wins using the technology. He calls his comm line "a high level of communication" and in his own words treats it with "tender loving care."

Ron always enjoys hearing from you. His SO-1 Line is the life line to his research.

TECHNICAL NEWS

Alert goes out! Auditors can join the ranks of the Best

The fabulous news of Flag Land Base's delivery boom is spreading around the Scientology world. The Flag Land Base is alerting auditors the world over they can become one of the best — a Flag auditor!

As covered in the Flag Land Base News section on page 7, Ron has taken special actions to ensure auditing lines at the Land Base are *rapidly* expanded to meet the huge demand for Flag auditing! And the number of Flag auditors (ministers) now auditing has been more than doubled in the last month.

Flag has been famous for years for highly trained auditors and case supervisors. Hundreds of Scientologists have traveled many thousands of miles to enjoy Flag auditing, auditing that has been called incomparable, incredibly fast and smooth, with phenomenal TRs and many other glowing descriptions.

With the establishment of the Flag Land Base in late 1975 Flag auditing was made readily available to all Scientologists.

With this availability came a huge influx of Scientologists to the Base which has continued and increased steadily over the past year.

The Flag Land Base HGC has been staffed up now with a large corps of top-notch Flag auditors.

But there is the future.

Currently there are yet more auditors on intensive training and tough internships being polished and made flubless so they can qualify to audit in the Flag HGC.

And now the call has gone out to auditors the world over that they may join Flag staff to become a Flag auditor. Those joining Flag staff to become Flag auditors first do Sea Org basics, if not already done, then start their internships from the bottom and work on up, no matter what their current classification level.

Only flubless, standard auditors finally move into the Land Base HGC with the title *Flag Auditor!*

All Scientologists can be certain when they come to the Land Base for auditing they will have The Best, a highly trained Flag auditor! An auditor who will deliver *intensive* auditing with *maximum* hours daily!

Want to become one of the best auditors in the world?

You can join the Flag Land Base Technical Training Corps (TTC) and become part of the team of the Best Auditors — Flag Auditors!

You can join the TTC to become a standard Flag Case Supervisor or Course Supervisor.

The TTC is a team of Flag Sea Org Members in full time training to become Flag auditors, case supervisors or course supervisors.

TTC Members train on 100 per cent standard Flag courses and fully intern on tough, demanding Flag Internships.

The Auditor Internships — the key to *Flag* quality — are *tough* but they do not have to take a long time to do with the new streamlined Internships. When fully trained and interned to Flag standards, TTC Members on auditor training transfer to the Land Base HGC as flubless *Flag Auditors.*

Of course, only Flag Auditors train up on and deliver the special Flag-only rundowns such as the New Vitality Rundown and L-10, L-11 and L-12.

Anyone can apply to become a Flag TTC Member. It is the Flag standards in training and internships which make you a *Flag* auditor, Case Supervisor or Course Supervisor.

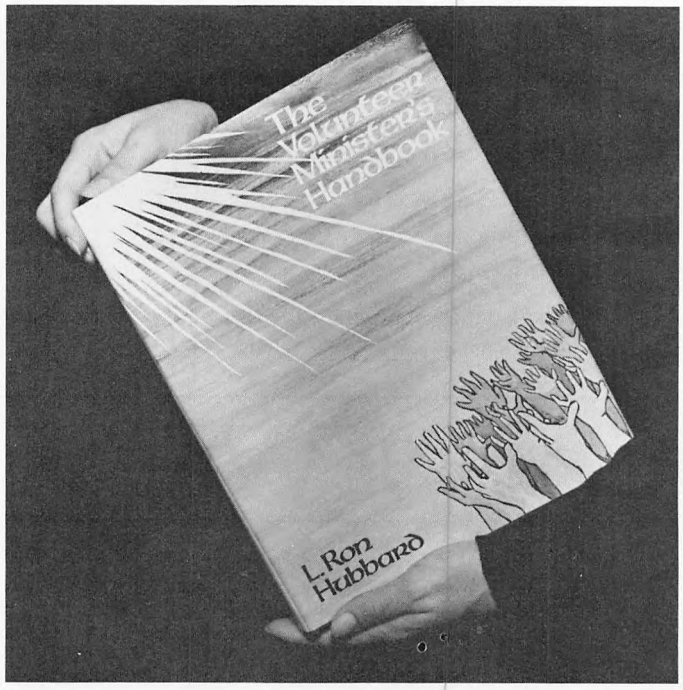

Find out if you qualify.

For more information contact the Deputy Technical Secretary for Personnel, Dept. S7, at the Flag Land Base. Address is on page 20.

Meeting some of the Land Base Tour guys made the Ls more real and your mag greatly helps keep my purposes alive through the daily randomity of work and living.

Bob Sykes
Otara, New Zealand

Thank you very much for this magazine which I've been reading with great enthusiasm every time I come across one of the copies.

I have been especially grateful for Ron's articles on Organization which I think ought to be translated into all languages so as to be available to as many as possible.

I have been trying to find out where I could 'order a personal copy' and was glad when I found that I could write and ask for previous numbers.

Inger Mole
Gentofte, Denmark

"The first principle on which we operate is that Flag auditing must be absolutely flawless" L. Ron Hubbard

On the Flag Auditing Internships you *will* become a flawless, Flag quality auditor!

You intern under the same high standards that have produced famous Flag auditors.

The standard internship lineup, standard supervision and standard case supervision, all *Flag* quality, mean when you have completed your internship you will have complete certainty of the tech and be a flubless auditor.

The internships have recently been streamlined. You will be able to complete internships and return to your area even faster!

Any auditor is eligible for Flag Internships, not just Org or Mission staff. You begin on the Dianetics Internship, no matter what your present level of classification. Once complete on the Dianetics Internship you can work up the internships to your present level of classification.

On each internship you do your Flag OK-to-Audit. You do lots of tough TRs and drills, and practice and USE the skills for that level. You audit, until *flubless* on that level, under the Internship Supervisor and Flag Case Supervisor.

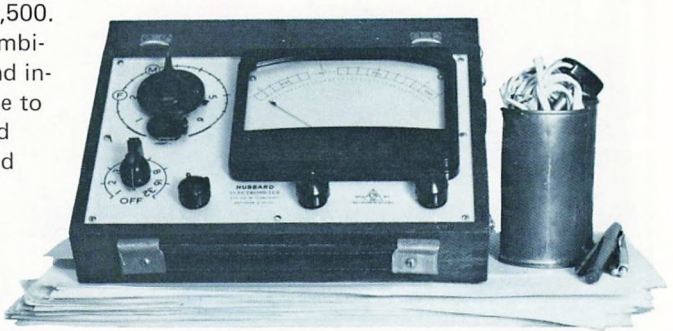

Your auditing skills are quickly but gradiently polished to Flag standards.

Flubs are handled completely by locating the basic source of them. All queries are *fully* handled by referral to source material in the Internship's complete library.

You can become a flubless, certain auditor in just weeks. Take the Flag Internships.

To advance enroll, write the Letter Registrar at the Flag Land Base or contact directly your Flag Service Consultant at your FOLO. Addresses are on page 20.

Donations: Internships are $1,000 each except the Class VII Internship which is $2,500. Class VII is a combination course and internship available to Sea Org staff and 5-year contracted org staff only.

MONEY

(continued from page 5)

saying, "I don't care what it costs or how many miles you have to walk for it in the snow. When I say mink, I mean mink."

Now, this current economy has this interesting aspect. Everybody is being hammered and pounded all the time with must-have, can't-have. You look at the TV ads. "Get into this beautiful new Cadillac." At first you say, "Don't I wish I could." After a while you say, "All these rich dogs ought to be shot." After a while you would unfortunately say, "What Cadillacs? I don't even read the ads any more." You could overstimulate the desire to have and then not gratify it to such a degree that everybody would become apathetic about possession and that would be the end of that economy.

ECONOMIC CHECKS, then, are monitored by desire to have and ability to produce. But the only wide open track along the line is production.

You can't overdo production unless you enter in a number of new factors.

One factor would have to do with money, scarcity of. You would tell everyone carefully, "Now, listen, in order to get any produce you have to give money for it." Everyone learns it and they learn it well. "All right, I want a new Cadillac which means I have to have 10 thousand dollars, pay it on the line and they give me a new Cadillac." Everyone learns that lesson well. Then all of a sudden some cheap dog forgets to issue any more money. You look in your pocket and you don't have 10 thousand dollars. You just have 10 cents. So you don't get a Cadillac, you get a hamburger.

Or suppose you were producing like mad but there wasn't enough money to pay you for your production or for anyone to buy your production. We find there isn't much you can do about people from a production angle and it wouldn't do anybody any good to monitor production anyway.

The place to hit the economy is money. You make the money scarce.

There are two ways to make money scarce. Both add up to no value for money. First is to print it by the billions of bills, let it blow all over the streets, show pictures of the president lighting cigars with thousand dollar

Successes

Words can hardly express just how I feel! My greatest win is being more aware of all the barriers and stops I have put into my life and, better still, being aware of so many justifiers I have used so far.

Now that I understand myself so much better, I know what I want to do and can go right ahead and do it.

Thank you to so many people who have helped me on the way — my auditor, all the staff, and most of all, Ron for the beautiful tech he has given us. Miracles do happen! — C.D., L-10

L-10 is the most powerful rundown it has ever been my good fortune to receive.

My viewpoints and space and area of responsibility have increased tremendously — I don't know to what extent yet. It will be exciting to find out! — R.G., L-10

I have arrived at a new life, a chance to start over again! Unlike the moving to a new city for a new start in life where a being does not change necessarily, with L-11 this being is changed! I have been reborn as a thetan and if I hadn't experienced it I would not have believed such an opportunity was possible. It's incredible! My endless admiration goes to those who made it possible for me. — B.A., L-11

L-12 is the icing on the cake! Each action here at Flag has been fantastic — after each Grade I would think, "Where could I *possibly* go from here?!" — and the next step up the Grade Chart would astound me even more.

The Ls have been something else — words can't describe how powerful they are and how great they've left me feeling.

L-12 is *the* action I came here for and it really does have as an end phenomena what the writeups in *Source* say it does. I *am* stably exterior — no Q and A about it! I am in control, and I know it. It is the most fantastic feeling in the universe.

Thanks again, Ron, for making such a great game possible right now, in this universe and on this planet.

Flag certainly is a safe and profoundly powerful place. — L.V.L., L-12

The service I have received here at the Flag Land Base is unequaled anywhere. I want all Scientologists to know that this organization was established for you. It has been staffed

with Scientology's most highly trained technical personnel. They produce a high quality product. I am a living example which can be observed and that makes it a fact. My stats are at a highest ever across the dynamics. As for my case, I faced and I conquered with the help of my Flag friends. I invite you to find out for yourself that what I have said is truth.

Thank you Ron.

— J.C.H., Flag Auditing

I came to the Flag Land Base and was told that the auditing was "wonderful." I found it even better than that.

There was something almost uncanny in the way my auditor steered me through all the sessions. She granted beingness and made it safe for me to venture out. I never thought auditing could be that smooth. It was great! And so was the C/Sing and every other action in the Tech Division.

With such a team on your side, you can only win.

— N.K., Flag Auditing

What an experience! This has probably been the biggest trip in my life! I have really learned what it means to apply Ron's tech exactly and to the predicted results.

This internship has also helped me in every other area of life, too, because to be a successful auditor you have to have a straight life too.

— M.P., Dianetics Internship

I feel great!! I feel so clean. So many things that bothered me within and outside of study are gone.

— M.J., Student Booster Rundown

The wins I achieved on this course were such that I would not have believed them possible, simply through doing TRs, and not having any auditing. I blew somatics, considerations and mass.

I feel great. My TRs have improved 100 per cent and I've had many cognitions while doing the course.

— M.F., Flag TRs Course

In the time I spent on the TRs Course I've had as many gains as I'd had previously in the year and a half I've been in Scientology. Here's to keeping Scientology working all over the world the way it is at Flag!

— C.K., Flag TRs Course

I know that I can now audit anyone anywhere with certainty and that is the finishing touch that I needed.

My thanks to all here who helped push me through when I needed pushing, but especially my thanks to Ron for the tech to do it.

— N.W., Dianetics Internship ■

The Mecca for those who seek technical perfection

Order your first... or second... E-Meter today

Every auditor (minister) should have a second E-Meter handy. The E-Meter is used in spiritual counseling to assist the parishioner in locating areas of charge which should be handled.

The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or in the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists or psychiatrists to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified minister of the Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed or owned only under these conditions.

Have your own E-Meter handy when you need it. To order, send $225.75 and proof of your qualifications to the Bookstore Officer of the Flag Land Base. Donation above is for December 1976. See price notice on page 1.

MONEY
(Continued from page 17)

bills. Or don't print any and everybody will forget what it looks like.

But money is not production. Money is money and if money is not produced it doesn't exist. To that degree it is simply another production.

I'M NOT TRYING to scare anybody to death. As a matter of fact I'm trying to show you why you shouldn't be particularly upset and alarmed with the present economy. And perhaps you can understand what is going on with society around you just a little bit better.

Why should you get hysterical about little pieces of paper? Money is just another "everybody knows," a solid agreement.

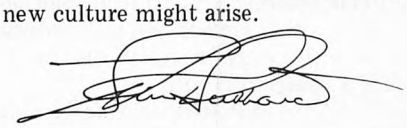

What does this mean to a Scientologist?

It really doesn't mean anything but good news. When economies go bad, people become worried about themselves. People have to become more able in order to survive.

It is in times such as these that great movements move forward.

It is in times such as these that people are willing to learn.

And out of such times a whole new culture might arise.

Hear Ron's full taped lecture on MONEY

If you enjoyed the article by Ron in this *Source,* you will love his taped lecture "Money." Ron tells about different systems of issuing currency, describing how one system can make money more valuable and can create a more stable economy. He compares the British and American currency systems.

Hear Ron at his wise, honest and humorous best!

The second side of the reel contains Ron's taped lecture, "Hope."

The lectures take up both sides of a 7" reel and are recorded at 3¾ inches per second, half track. That's two lectures per reel.

Price per reel: $55.13. This is December 1976 price. See price notice on page 1. 20% HASI Membership discount applies.
