Special: New Rundown Released!

Have more <u>you</u> in present time!

The dynamic Flag Rundowns – L-10, L-11 and L-12 – are based on data Ron discovered in research *above* OT VIII!

But you don't have to be OT to receive these fabulous rundowns. If you've completed Expanded Grades (0-IV) and a full Drug Rundown and you aren't incomplete on any major action, you can – after preparatory auditing – begin your L-Rundowns at once at the Flag Land Base!

If you're not yet OT, the rundowns will accelerate your progress across the Bridge and help you achieve expanded OT gains when you do your OT levels.

And the Ls are a must for OTs after completing the non-interference zone (R6EW to OT III).

A being is as OT as he can cause things. The L-Rundowns make an OT far more OT by removing his spiritual (not mental) blocks to letting his hair down as an OT.

For preclears and OTs alike L-10, L-11 and L-12 are powerful boosters to cause and certainty, with greatly increased awareness of the physical and theta universes.

Of course, the rundowns are delivered only by the special class of auditors developed by Ron to run them, the world-renowned Class Xs, XIs and XIIs.

Setups (preparatory actions) for the Ls are usual. These ensure you receive all available gains from the Ls. Setup time varies but you can expect 12½ to 25 hours at usual Flag HGC donations.

L-10: "Feeling totally yourself"
L-10 handles the reasons a person withholds himself, or restrains himself from action; reasons which are senior to the reactive mind. It handles "the source of personal power loss" in an individual and frees the person into a whole new realm of ability and activity. After L-10, the individual knows the source of power in his universe and is truly free to use that power! This is a level of vastly increased *doingness.*

L-11: "Having a new life before you"
L-11 locates and handles the major source of aberration on the case. It doesn't handle the whole case, but the *major* source of irrationality on which a being introverts and fixes his attention, diminishing his individual power.

L-11 frees a person from any tendency towards self destruction and makes it possible for him to really "be himself" and create and maintain a new beingness. In short, it gives a new life.

L-12: "Just BEing and DOing"
L-12 handles with three very powerful actions very fundamental aspects of a person's beingness; those things which can capture his attention and therefore keep his attention off life and doingness. L-12 was originally developed to totally exteriorize an OT's attention from himself and place it on the environment. It gets the deep down rooted things that make existence seem a certain way. It causes more change at a higher rate than any other auditing.

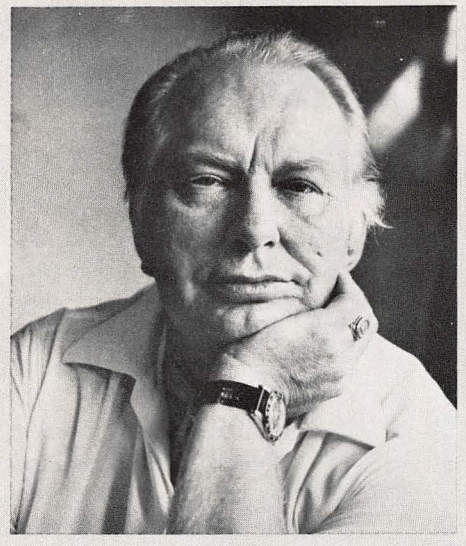

Prerequisites:
Full Drug Rundown, Expanded Grade IV, not in the Non-Interference Area (R6EW to OT III) or incomplete on any major action. (These prerequisites can of course be completed at the Flag Land Base.)

Setup auditing: usually 12½ to 25 hours are required at usual donations for Flag HGC auditing.

Donations:
The first 25 hours (minimum) for each rundown is $7,500. If further hours are needed, they may be taken by 12½ hour intensives at $3,750 per intensive. With 5% advance donation discount that's $7,125 for the first 25 hours and $3,562.50 for the following 12½ hours.

Plan now to come to the Flag Land Base for your L-10, L-11 and L-12. Write the Letter Registrar at the Flag Land Base or contact the Flag Service Consultant at your nearest FOLO. Addresses are on page 20.

Editor's Notes

We have yet another new Rundown released at the Flag Land Base — the Case Cracker Rundown! Don't miss the feature that is all about it on page 10. The name tells you what it's all about, but you can read that for yourself . . .

The fairly recent addition to *Source*, "News About Ron", has been enthusiastically received by readers and will remain as a continuing news column. This issue you'll find it on page 7.

Did you know that the very best services — Flag services — are easily available to you and all Scientologists? In case you didn't, we've spelled out the why's and wherefore's of getting to the Flag Land Base on page 18. Make use of this in your plans for future training and auditing (spiritual counselling)!

For total certainty of your tech and your tools as an auditor take Flag Interneships

Flag Interneships give the skills and certainty you can apply the tech of Dianetics and Scientology 100% correctly and get the expected results on *every* preclear.

Certainty is the keynote: certainty of the tech and certainty you know how and can get the desired results.

At the Flag Land Base you study and apply Ron's tech under a 100% standard supervisor, there is expert word clearing available any time you need it, you audit under the experienced Flag case supervisors. The result is you *know* Ron's tech, you know with certainty how to apply it correctly and you can and do apply it flublessly.

Your first interneship at the Land Base will be the Dianetics Interneship, no matter what your present level of classification. You then work up the interneships to your present level of classification. It is a fact that Flag technical perfection must be gotten in at the very *basic* training level – Dianetics.

On each interneship you do *Flag* OKs-to-Audit with plenty of standard TRs and drills, practicing the skills of that level. Then you audit, *until flubless for that level,* under the interneship supervisor and an expert Flag case supervisor.

Your daily routine is: each morning is spent on TRs, assessment drills and Mood TRs. The remainder of the day is spent doing OK-to-Audit studies or auditing. Any uncertainties, confusions or flubs are *handled* by locating the basic reason for them and sorting this out, usually with word clearing and checkouts on the LRH materials that apply.

With this combination of drills, TRs, study with standard supervision, and LOTS of auditing, your auditing skills are gradiently raised till you are a flubless, certain, 100% standard auditor!

Here's a good surprise! The Flag interneships can now be done in just a few weeks per level! Checksheets have been streamlined and time on interneships shortened. The Dianetics Interneship takes about 3 weeks and the other interneships about 4 weeks each!

You, too, can be a flubless, certain auditor in just weeks. And you should, both for yourself and your preclears!

Don't take our word for it. Listen to what auditors from all over the world have to say:

"I've been auditing almost 5 years and I have *never* felt as sure of myself as an auditor as I do now. Flag Interneships are the *only* way to be trained!" – C.H., Class VI Interneship.

"I know without the slightest bit of doubt that there is not one situation, nor any pc or case, that I cannot handle to complete end result with standard tech alone and nothing else." – L.W., Class VI Interneship with Honors.

"I have *never* felt this incredible before as an auditor. There is nothing anywhere like the communication line of an auditor and preclear. I now know that I can change an individual completely with the use of standard tech and do it every time." – G.M., Class 0-IV Interneship.

"I feel validated on what I already knew and cleaned up on all the stuck or weird ideas I had. The supervision, C/Sing and cramming were extremely spot-on and superb. Thanks to Ron for his tech and the Land Base for delivering it!" – K.P. Dianetics Interneship.

Take Flag Interneships for certainty and perfection

Flag Interneships are available to anyone – you don't have to be church or mission staff. To enroll on an interneship you need only have done the course for that level.

Advance schedule for your interneships now. A 5% discount on donations is available if your interneship donation is made well in advance.

For more information, to advance schedule or to make your advance donation, write the Flag Land Base Letter Registrar, Dept. 9, or contact your Flag Service Consultant at your nearest Flag Operations Liaison Office. Address is on page 20.

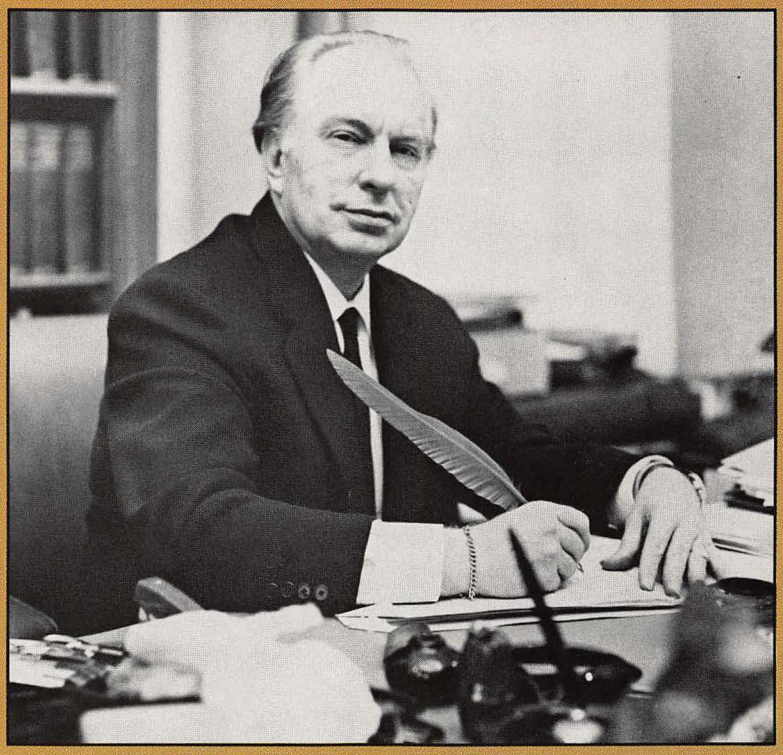

Donations: Dianetics, Class 0-IV, Class VI Interneships: each $1,000. Senior Class IV: $1,800. Class VII: $2,500 (combination course and interneship, available only to Sea Org staff and 5-year contracted church staff). For any interneship, a 5% advance donation discount is available if donation is made well in advance of arrival.

Principles of the Org Board

The basic principles behind the very successful Scientology Org Board, or any Org Board!

BY L. RON HUBBARD

OUR ORG BOARD is erected to stay there. It has been worked out very carefully against various known philosophic principles so that it is itself a philosophic machine.

There is a great deal to understand about the org board.

First, the org board does not change regardless of the size of the organization. You can make it longer at the bottom but it doesn't change in its significant characteristics, departments, divisions or anything else. They remain constant. And it doesn't matter if it is a Class 0 org[1] consisting of three guys trying to lift their heads up off the pavement as an organization or an organization of 200,000 staff members. It would be the same org board. (That may startle you but I almost gave you the real figure — two billion staff members.)

History of the Org Board

This board has a lot of back history. I may as well give you the truth amongst "us girls." This is a refined board of an old galactic civilization.

You might say, "What's that doing amongst us?" Well, we applied Scientology to it and found out why the civilization eventually failed. They lacked a couple of departments which was enough to mess up their civilization. They only lasted 80 trillion years. We'll be going along a lot longer than that so we want to get something substantial. We don't want these temporary fly-by-night affairs!

As a matter of fact, practically every government of the planet has fallen on its head before it was even heard of. They went up, and then vanished so quickly that history was practically unable to keep track of them. I'll bet most people cannot tell you the primary civilization in power in Europe and the Middle East in 1500 B.C. Just that little span of time, 3,500 years, and people don't even remember. Temporary. Makeshift.

There have been plenty of schools about org boards. They didn't have Scientology but they did have org boards. Thus, there have been some of the wildest org boards invented.

For example, armies don't have org boards, they have command charts. It goes from Commanding General down to adjutants, to officers, to nobodies. A command chart is only one tiny little function of an organization chart.

Basics of Org Boards

An organization chart must take care of functions, activity and what happens.

If you look at an army's organization board you won't find anyplace to refer a lost battle. I can just see an army signalman trying to put a lost battle someplace on an army org board. He can't.

So, why did earlier civilizations and governments fail?

They omitted a basic principle of this universe:

1. Class 0 Org, a forming org, unable yet to fully function, is a Class Zero Org. It is only at recognition and gives a Class Zero Course only and uses only Grade Zero processes. (Hubbard Dictionary of Administration and Management)

IF THE FUNCTION IS NOT EXPRESSED IT WILL BE WORN UNKNOWINGLY BY EVERYBODY.

Just that principle alone omitted — and that's a very minor point — would eventually defeat the organization. The decay is automatic.

Now where you have one of these org boards you have a frailty that goes along which is almost the same order of magnitude as the principle I just gave. This is the other monitoring function which gives us bureaucracies. And that is:

WHEN YOU PUT A BOX ON AN ORG BOARD IT WILL BE FILLED.

These are two contradictory data of almost comparable magnitude. "If we don't express the function on the org board it will be worn unknowingly by everyone," and the other datum, "If you put a box, a square or a function on an org board people will assign people to it." Inevitably and invariably you will find this to be the case. Those two data are at war and have not been solved by organizations of the past.

In an effort to stay within the realm of possibility with regard to personnel, economics, population and so forth, organizations and countries drop functions off the org board. They can't have an organization that big. This again is the hidden datum that people will put somebody in that box.

For example, if the army has neglected to take mules off the US Army charts you are going to find mules, mule helpers, mule holders and mule curriers. I'll bet there's some place in the US Army right now that has just tons of mules.

I know definitely they forgot to take some spots out of their org board. You would find some mighty peculiar things if you went sneaking around a cavalry regiment today. They are mechanized, with motorcycles, armored cars, jeeps and all that sort of thing, but the officers still wear spurs! They sure raise the devil ripping up tank upholstery!

What is Policy?

Man must have policy when he works as a team or he is not a team. Without policy he works as a bunch of individuals.

Even bad policy will at least make a team out of him. It isn't whether the policy is bad or good. It's "does it exist and is it followed?" Fortunately I don't write bad policy but that datum is true.

Any policy is better than no policy because that is what makes the team. It is simply the extant agreement. If there isn't an extant agreement then you have individualized action.

When you get individualized action, even though it is occasionally very spectacular and successful and occasionally wins a battle, in actual fact it does more harm than good. It sets an example of breaking policy which then breaks up the team.

The worst team you ever want to see is one composed of all stars taken at random as the starring players with spectacular individualities from each of the winning teams of a country. I don't care what game you are playing. They are running according to different policies with their different coaches. They are already preselected as doing something very noticeable which means they didn't even follow their own team policy. If you group all these fellows together you have a magnificent and collective mess. They could probably be licked by any little batch of high school kids on the same game who were welded together by policy.

"I operated on the principle: How are you going to take an organization that would accommodate, define, delineate the duties of 2 billion staff members and reduce it down to one staff member?

Each member of an unorganized team is standing naked and alone, so any small group, no matter how small, as long as it is more numerous than the one, can rather easily defeat them.

Understandings

An organization is not a "necessary evil." The Scientology organization is there to serve Scientologists and to handle Scientology and to publish and spread it out.

It is a coordinated activity and therefore must be very close to flawless. Once you put one of these things in and start it rolling, if it is *almost* right you have had it! It will become an all-devouring monster and fail by the germs of its own destruction.

It is interesting that when I look at an organization whose general income curve is going down, I am not looking for a *thing* that is making it go down. I am looking for the hundred thousand. I'm looking for the gross errors but the lots-of-them. They are never really composed of one major howling error.

If you go around looking for that you make the same mistake that has been made by every philosopher I have ever read.

The old philosopher said, "What you must have is understanding." That is an error I myself fell into and carried on for a very long time until I was drawing up the org board.

When doing the org board I recognized the flaw. It's sort of a trick. You look at something and you are trying to understand this thing. You are looking for one big thing to understand. But it isn't composed of one big thing to understand. It's got about 15 or 20 little ones. It is understandingS, it's *plural.* That is probably the biggest single bug there is in philosophy anywhere. Philosophers look for understanding, instead of understandingS.

I hope I've made my point that there is some necessity for organizational action. It must be smooth, there must be policy.

Comprehensibility

The next point is that the org board must be comprehensible, it has got to be knowable. If there were no system by which it went together, everyone who read it would have to learn it on a memory basis. If it didn't cross categorize and classify types of communication, duties and functions, it would just become a madhouse.

So the org board must express the *functions, duties, sequences of action* and *authorities.* That's a lot to express on a two-dimensional board!

You are going to express the potential duties of a couple thousand staff members and bring it down to one staff member. The one staff member is not going to be any different than the 2,000, 200,000, 2 million, 200 million, 2 billion staff members. That is a philosophic conundrum enough to give you a headache thinking about it!

This was the principle on which I operated: How are you going to take an organization that would accommodate, define, delineate the duties of 2

(continued on page 6)

"All the incredible stories I've heard about Flag auditing are 100 percent true!"

". . . I wasn't sure that all the glowing reports were true, but after having experienced the incredible ease of being a Flag pc and having fast stable auditing and case supervision that is tailored to my case, I KNOW." "The best auditing in the world is here — and that's a fact." "I would like the world to know that this Flag auditing I just completed has been, without reservation, the finest auditing I have ever received."

These are actual raves such as are heard daily from Flag preclears.

Why settle for anything less than the BEST, smooth-as-silk technical perfection and full case handling you get with Flag Land Base auditing (spiritual counselling)?

At the Flag Land Base you get daily intensive auditing from the world's top auditors (ministers) and case supervisors, in the safest, most distraction-free environment.

The tech at the Land Base is spot-on, and you get handled what you want handled. Case bugs unravel. Gains stabilize. Bypassed charge blows. You will easily move to higher and higher case states!

In short, you get the kind of case gain you want, and you experience gains far above anything you have ever experienced before. It's the best there is — Flag auditing!

All the processes of Dianetics and Scientology are run at the Flag Land Base HGC, plus there are Flag-only rundowns and actions delivered as needed.

There is a Flag auditor waiting for YOU. You can be in session in a few short days (or less)!

There are no special requirements or prerequisites for Flag auditing.

Act now! Contact the Flag Land Base Letter Registrar today or contact your Flag Services Consultant at your nearest FOLO. Addresses are on page 20.

Donations: Flag HGC auditing (25 hours minimum): 12½ hours, $2,500; 25 hours, $5,000. Expanded Dianetics or Case Cracker Rundown: 25 hours, $6,000. See page 18 for New Vitality Rundown donations, and the inside cover for L-Rundowns donations.

billion staff members and reduce it down to one staff member? And cover the span of action, duty, function, organization and form.

And this org board that was worked out — hold your hat! — gives the cycle of public to OT! It gives the cycle of action a person would undertake from the public all the way along to OT. And it must care for him properly. It must therefore be the *way*, the *route*, the *channel.*

Following the laws and principles of how you make a channel and what you do to keep the channel rolling and keep an impulse on the channel we discover you must have an impulse into the channel, the edges of the channel must be held firm, the barriers in the channel must be removed, the non-compliance of forwardings in the channel have to be taken care of, the distractions must be removed from the borders of the channel and there must be someplace for something going down the channel to arrive at. There must be a place where it starts and some kind of place for it to arrive at.

And we have defined life. Life without that channel won't exist. Livingness is going along a certain course impelled by a purpose and with some place to arrive. It mostly consists of removing barriers to the channel, holding the edges firm, ignoring distractions and reinforcing and reimpelling one's progress along the channel.

That is life and *that is this org board.*

Not only that, the org board gives you all the levels [Awareness Scale] [2] that will now exist for the gradation program.[3] This board isn't taking care of one kind of being. The board is taking care of all different types of beings from public to OT. They are

Tech Correction Round-up

On January 24th 1977, Ron released a new HCO Bulletin which signaled the dawn of a new era of Standard Tech.

Just prior to its release, Ron worked on a 7-month long review of technical applications of Scientology, locating areas of technical trouble or failure and evaluating these.

The result of this review is a 19-page HCO Bulletin of 24 January 1977 by Ron, "Urgent Important Tech Correction Round-up."

This power-packed bulletin is of vital interest to all Auditors and Scientologists for in it Ron gives a round-up of the areas of out-tech — 23 in all — and outlines what he found and the handling for each area.

> "The corrections I have been doing have been, are being or will be issued shortly. However, not all auditors and Scientologists keep pace with current issues so I am here giving you a rapid summary of the gross departures from standard tech which have occurred in the past 3 or 4 years and their corrections."
>
> LRH — HCOB 24 Jan 77
> Tech Correction Round-up

"Tech Correction Round-up" is a communication direct from Ron to all Scientologists. It involves all Scientologists. If you don't have your own copy, see the note in the box at the end of this article for information on how you can obtain one.

The release of Ron's "Tech Correction Round-up" has met with raves from Auditors and Scientologists the world over! Here are just a few of the many responses that flooded in:

"I have had some lingering confusions about past actions and procedures which I just could not resolve. So when your fantastic issue hit I started reading and blowing charge by the ton and I am still doing so."

"[I have had] more confidence and certainty with better results on pcs."

"I have just read the HCOB 24 Jan 77 and have marveled at all your spot-on indications. Your tireless work is very much appreciated on keeping the tech pure and able to be applied. You're our best friend."

Ron's Admin Tech Featured in Publications

Ron's articles on "Organization" have been featured in the prestigious journal "Public Administration Abstracts" produced by Sage Publications, Inc. who produce 38 journals of politics, urban affairs and other topics.

The documentation editor of Sage Publications obtained a copy of June/July '76 *Source* (looks like the magazine really gets around!) containing Ron's article "Organization, Part I," and he wrote in asking for specific permission to reprint the article.

Not only did he receive permission for that article, but he was also given the second part (which appeared in the August/September *Source*) which he used in their Quarterly.

Also along the management publications line, in the McGraw Hill publication "International Management," Ron's tech was acknowledged by a factory manager who used policy to boom his factory at a time when all other aspects of British industry were declining! He gave the story on how he specifically used Ron's conditions formulas to resolve the crashing English market.

Tech Correction Round-up

If you do not have your own copy of the HCOB "Tech Correction Round-up" you can obtain one from your nearest Scientology Church. Or order it in nicely printed 24-page booklet form from the Flag Land Base Bookstore for $2.50 per copy.

PEOPLE AT THE FLAG LAND BASE

Bonnie Bishop says children, too, should have Ron's tech, and gives it to them.

"The whole future of the race depends upon its attitude toward children . . ."

L. Ron Hubbard
from *A New Slant on Life*

Bonnie Bishop, OT III Class VI, Executive Director of Apple School, believes, "The children of Scientology are a wonderful asset — to be nurtured and cared for, so that they too can come to realize the benefits of Ron's tech." Bonnie's basic love has been children and teaching for a long time; she studied teaching, taught and acted as a teaching consultant prior to, and after she got in, Scientology.

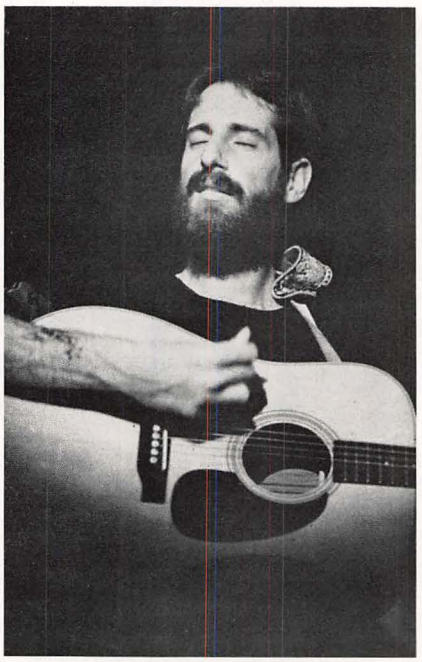

In early 1974 Bonnie decided to take responsibility and do what she could for Scientology children and their education. She recognized the need for a school that used Scientology principles and tech. Thus, she began Apple School in Los Angeles. In her own words, "Apple School was established for children, to provide a place where they too could learn the benefits of Ron's study tech, TRs, ethics tech and create a sane 3rd dynamic where everyone wins."

The school has been quite a success. It was found that in 9 months of Apple School the pupils' reading capabilities increase by 2 years, measured by standard California school tests. And the kids LOVE to go to school, quite a switch from teaching systems that don't use Scientology tech.

In addition to her hat as Exec Director of Apple School, Bonnie is Educational Consultant for the "A.M. Los Angeles Show," a television talk show on which she appears regularly to discuss matters of education.

In early 1976 Bonnie made her first visit to the Flag Land Base to take the Executive Director Hat. Using Ron's data she learned on that course, she expanded her school from one campus to six over the year!

On this year's trip to the Land Base, Bonnie amazed even herself by completing the Hard TRs Course, Volume 7 (Executive Division) of the Org Exec Course, and the Volume 7 Apprenticeship in just over two weeks! In a recent interview with *Source* just after completing her courses, Bonnie raved about the standardness of supervision and the space free of distractions, attributing her speed through the courses to these factors. "I have just had a most wonderful experience — training at the Flag Land Base! I have gained absolute certainty on the courses, effortless study, incredible supervision and standard results from the tech. Ron has truly given Scientologists a superb gift — a safe and sane environment in which to gain the benefits of his tech. There are no distractions, one can study and complete cycles of action *very* quickly. It is a *must* for any individual whose time is important."

Jimmie Spheeris creates good effects for Scientology.

Mary Corydon advocates training even for the beginning Scientologist.

Her plans for the future are expansion. Bonnie is looking for sites for new campuses, with a target of a total of 12 campuses by September 1977. And she plans to continually expand her knowledge of Scientology administrative tech, making visits to the Land Base every six months or so for her next courses.

Jimmy Spheeris (OT VII, Class IV Auditor) is a soft rock musical artist well known throughout the U.S. and a frequent visitor to the Flag Land Base for auditing.

Most Scientologists have heard of Jimmy, many are his fans, many have gotten into Scientology because of his dissemination, but few Scientologists know that what Jimmy is doing for, and with, Scientology is a very big reason for his success.

When Jimmy first got into Scientology 10 years ago he was just gaining a reputation as a musical artist around Los Angeles and San Francisco.

Now — 10 years, four albums and many many concerts later — Jimmy has a considerable loyal following of fans, enough so he is called a "cult figure" in the music trade.

He doesn't aim for commercial suc-

NEWS
OF THE FLAG LAND BASE

MARCH 13TH

Ron's Birthday celebrated with grand fete at Flag Land Base

On March 13th 1977, Scientologists all over the globe joined in celebrations honoring L. Ron Hubbard, our Founder, on his birthday.

Ron's Birthday at the Flag Land Base, following the grand traditions of Flag, was a magnificent and enjoyable affair.

Over 600 Scientologists — preclears, students and executives and staff of the Base — joined together in the luxurious East Auditorium of the Flag Land Base to acknowledge and thank Ron for giving us all a new game, with new mores, values and ethics — Dianetics and Scientology.

The evening was enthusiastic and colorful all around. The East Auditorium was stunningly decorated with multi-colored balloons and streamers, with two large photos of Ron overlooking the assembled Scientologists. Ladies in gowns of all hues added to the symphony of colors. The bright faces of those gathered anticipated a fun and rewarding evening.

The party opened with a special message from Ron to all attendees, read by Ron's personal public relations officer for staffs. In the message Ron told those present of his plans and hopes for the future, receiving an enthusiastic standing ovation.

Following Ron's message, Lamont Johnson, award-winning jazz musician extraordinaire, played a musical tribute to Ron. With Lamont on piano, backed up by drums and a bass guitar, the audience was taken on a musical journey up the Tone Scale.

Lovely Suzette Hubbard charmed the audience with anecdotes about her life with her father, sharing insights on just how down-to-earth and friendly Ron really is.

There was a special 20-minute slide show covering Ron's life from childhood on, including many seldom-seen photos of Ron.

The presentations of the evening climaxed with a champagne toast to Ron and an unveiling of a huge full-color painting of Earth with a gold Scientology symbol on it, expressing Scientology's expansion and position today and in the future.

Then a magnificent birthday cake was presented, 8 feet across with a 6-foot silver rocket on top to show the upward thrust and motion of Scientology today.

There followed the traditional sumptuous buffet with cheeses, meats, nuts, punch and a variety of other snacks. And music and dancing into the night.

All in all, it was an exciting and enjoyable "evening with Ron!"

Super Flag-only case booster and clean-up

CASE CRACKER RUNDOWN

THE DISTINCTION of Flag Land Base auditing is full certainty you will get *real* case handling. It takes superlative and exactly correct case supervision by the highly trained Flag Case Supervisors. It takes flubless, 100 per cent standard auditing. But above these things and encompassing them is Ron's technology of Dianetics and Scientology. It is the tech, precisely applied, that gets the results.

Ron recently developed a new rundown, now available at the Flag Land Base, that is a real breakthrough in case handling — the Case Cracker Rundown!

Don't let the name fool you. The Case Cracker Rundown isn't just for the slow or tough case. It is a thorough case clean-up and booster that is for *most anyone.*

Ron tailored this rundown in late 1975 to be run on persons getting auditing at the Flag Land Base. It has since been audited with complete success and fabulous results on many people getting auditing at the Flag Land Base.

The Case Cracker Rundown calls forth such comments as:

"I have never been so satisfied with auditing . . ." — "I had some earth-shaking cognitions . . ." — "I have recovered a sane viewpoint and more certainty in decision-making. Everything looks different to me now." — "It really can blow a heck of a lot of charge off a case and change one's life."

The Rundown consists of two actions.

The first main action of the rundown thoroughly handles anything which might need clean-up from past auditing. It leaves you secure in the knowledge all the outnesses and errors on your case are fixed up and repaired.

The second main action handles

(continued next page)

Boy, do I feel on top of the world! This action was a super-duper clean-up and booster! No stone was left unturned, as the saying goes. Thanks to some superb auditing I dove into areas that were really heavy, confronted and handled them and came out winning and shining! It's like getting completely scrubbed down and cleaned up as a pc. — B.B.

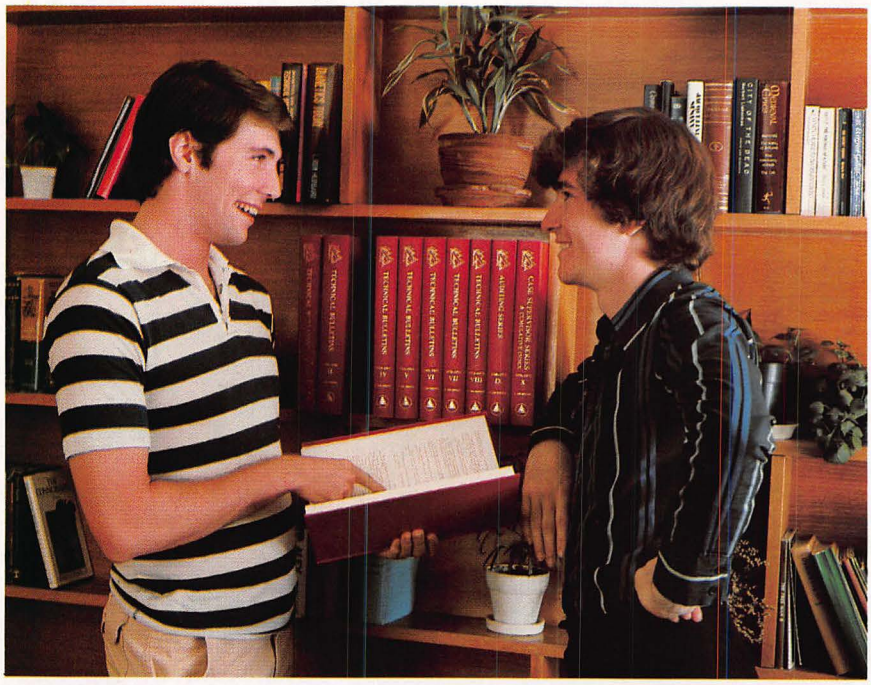

I just completed an incredible *rundown! All the right items read and I can honestly say my "case is cracked." I feel a thousand times better after the rundown and have had a tremendous resurgence of gains from my previous auditing. I'm on top of the world and truly OT again! I can't thank Ron enough. — J.G.*

Amazing how you think you've finally figured out "what's wrong," but it's still not going right — but worse. *And then this action traces down what's really out and just gets you flying again! Very precise and powerful! — B.W.*

This action has been referred to as a "case cracker" and I can completely back that up. This rundown made me a new person, able to view life from a cleaner, saner and much more stable viewpoint. — C.F.

"I feel freer, cleaner and saner than I've felt in years!"

Have the technology of Dianetics & Scientology at your fingertips to use in life.

Scientology is "a science of life. It is the one thing senior to life because it handles all the factors of life. It contains the data necessary to life as a free being. A reality in Scientology is a reality on life." — L. Ron Hubbard.

With Dianetics and Scientology technology at your fingertips, you have the data to handle people and life, to understand just what is going on with yourself and others — and ***do*** something about it!

Have Ron's wisdom and knowledge — over 25 years of research — right at your fingertips. Get the complete reference work, the ten-volume set ***The Technical Bulletins of Dianetics and Scientology***.

The first eight volumes contain all of Ron's technical bulletins from 1950 to 1976. This is the complete time track of Ron's written technical materials!

The ninth volume contains all of the technical series issues, such as the Basic Auditing Series, Expanded Dianetics Series, Cramming Series, and many more.

The tenth volume contains the famous C/S Series ***plus*** a 250-page master subject index. There are over 20,000 entries in this index!

And each volume is indexed four ways, making any technical reference easy to find.

The whole set is over 5,600 pages long.

There are 10 big volumes (7¾" by 12") in the set, each volume is over 500 pages thick, all are bound in strong leather-like red binding.

fully any possible case bugs and results in real case stabilization.

There is another action done preceding the rundown, *if needed*, which handles specific difficulties that would impede full gains on the rundown itself.

The end result of the Rundown is you feel well, sure, safe, secure and certain of your own beingness and much more causative over conditions in life. You feel freer and cleaner than you've felt in years!

With expert Flag auditing and C/Sing, nothing is missed, every bug on your case that needs handling is *fully* handled.

The Case Cracker Rundown marks yet another fabulous technical advance by Ron.

And it means you can be even more certain you will receive the complete case handling you expect. ■

More on Flag Interneships

Did you know internes at the Flag Land Base are completing their Flag Interneships in just a few weeks in many cases?

Covered in part in *Source 8* in the "Technical News" section were some of the improvements which have made the interneships faster.

Ron covered it clearly in his HCOB 24 January 1977 "Tech Correction Round-up":

"It was found that very few interneships were now being taught and an investigation undertaken by the Action Aide Flag Bureaux at my orders, finally uncovered that interneship checksheets had been added to and added to and stirred about until they had become checksheets within checksheets, thus making interneships interminable.

"As a result of this, a special mission was put on the job of reforming interneship checksheets.

"These checksheets have now been issued and exist for every level . . . They have been greatly simplified and have made interneships into very worthwhile actions.

"These new simplified interneship checksheets are in full use at this time."

Additionally, checkouts by supervisors are no longer required on interneships; internes twin up and check each other out on starrate materials.

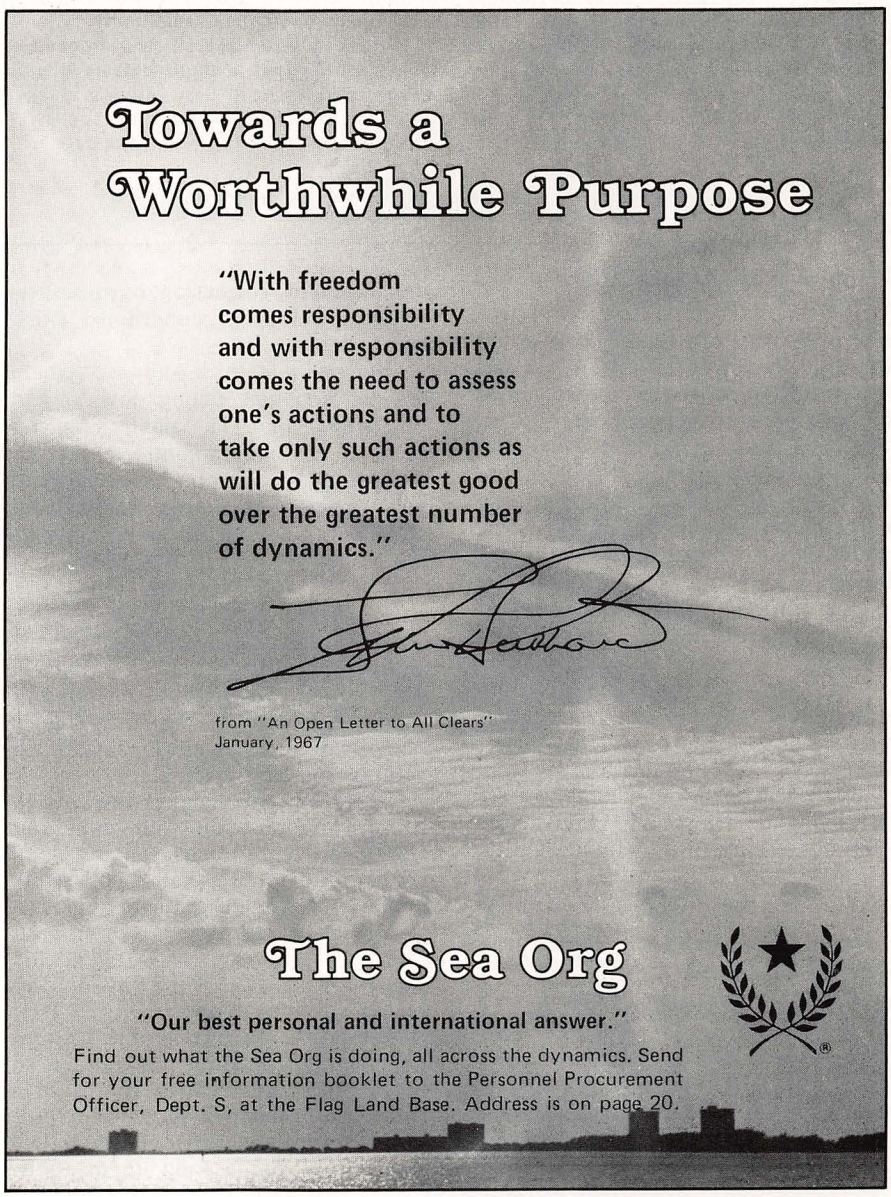

And, at the Flag Land Base, the auditor interneships were recently reorganized so students have *plenty* of expert word clearing and standard supervision.

The result of course is Flag Land Base Interneships are taking just a few weeks for most internes! Field auditors, mission auditors, anyone, can have the certainty and flubless skills of a Flag-interned auditor in no time at all!

The students now on Flag interneships are *raving* about them:

"Having completed an interneship elsewhere, I'm well acquainted with the lines and speed of delivery of earlier interneships. This interneship has been the fastest, highest technical standard, most A to B training cycle I've ever been on. The supervisor is excellent. I really appreciated the excellent word clearer; and overall, help was always available. It is truly a line-up set up to deliver."

"The Flag Interneship has been the greatest experience I've had. I've always had a 'long' think on interneships because they never seemed to end. I've been here almost a week and with the supervision, [which] is just A to B, with all tech in, I'll be completing the theory tomorrow. A little less than one week! I feel the entire interneship can be done in 3 weeks, and auditing will be 100% standard. I'm very pleased and so is my mission with the speed and accuracy of Flag interneships." ■

Your aid to Spiritual Counselling

On your journey up the Bridge you will want your own E-Meter, no matter if you take the training route or solo auditing route.

The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or in the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law and the copying of it or attempts by unqualified persons, doctors, scientists, psychiatrists or psychologists to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified minister of the Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted have E-Meters. The Church permits the E-Meter to be sold, possessed or owned only under these conditions.

Principles of the Org Board

(continued from page 6)

different types of beings as they go up the line, they will act differently and behave differently so we have to move in the direction of accommodating this. The easiest way to do that was simply to express the various stages on the org board itself and match them to the departments of the org board. Thus, you find each department of the org board expresses one of these conditions.

Any function which we have ever had in orgs fits rather neatly in this structure.

You can take these levels or conditions and you can analyze whether you are doing good or bad. These are: recognition, communication, perception, orientation, understandings, enlightenment, adjustment, body, prediction, activity, production, validity, enhancement, correction, purposes, realization, clearing, conditions, existence, source.

You can take those and say, "Where are my activities falling down?" and you'll spot one. The next thing you know it has done a complete analysis for you of the life you were living and what you were doing. That would straighten out your life, even life on a job.

Conclusion

We in Scientology, compared to the world's population, are a relatively small group. We tend to be a lot of ruddy individualists, which is fine in our private life. But our organizational actions must be coordinated.

If we knitted together our organizations' actions and our functions across the world and we had a good similarity of action with good duplication from organization to organization, then we grooved this in and put this together very nicely, we could succeed with ease. Who else on this planet is following policy?

We have a lot of good organizations throughout the world that are placed in rather strategic areas to spread a sphere of influence. And when these spheres of influence meet on their own borders we don't want them to be different and create a ridge. We want them to just flow smoothly out and meet.

Therefore, if we are a good team, and we watch our individual cases and come right on up the line as beings, and we are also a part of the team, then we won't get into all the trouble we got into as roaring, screaming individuals way back on the track. We can make it all the way because we've kept order all the way.

It isn't that anybody is trying to weld everybody together to the end of time. But every person and being who is going up with Scientology ought to take Scientology up with him.

Seems only fair.

And then you'll find things will work out fairly smooth and very easily.

2. Awareness Scale, there are fifty-two levels of awareness from Unexistence up to the state of Clear. By "level of awareness" is meant that of which a being is aware. (Dianetics and Scientology Technical Dictionary) The Scientology org board departments parallel 21 of these awareness levels, from Recognition through Source. — The Editor.

3. Gradation Program: Classification, Gradation and Awareness Chart, the route to Clear, the Bridge . . . Scientology contains the entire map for getting the individual through all the various points on this gradation scale and for getting him across the Bridge to a higher state of existence. cess and "just follows his own feelings" in his songwriting and composing, which his unique music demonstrates. So what is the reason for his popularity?

Here's a hint. When returning to an area, at concerts, he often has only to mention "L. Ron Hubbard" to get wild applause from the non-Scientologist audiences!

You guessed it! Jimmy uses Scientology tech in handling his concert audience, and in his concerts validates Ron and Scientology heavily — often reading Ron's essay "What is Greatness" at a key point in the concert. He does an analysis of the audience to decide which of Ron's tech he will use. It might be the application of the Tone Scale or it might be group processing, or both. But once the audience is "flying" he lets them know that Scientology is the way they can feel the way they feel, permanently and naturally.

Jimmy has had quite a hectic schedule of these concerts over the past year. As with other busy professionals he has taken advantage of the speed and quality of Land Base services, with frequent visits between concerts for auditing.

"I came here again after battering myself somewhat to pieces in the 'world of da show biz,' and miraculously in the course of four days am more than ready to return with my wings renewed and *much* more power than ever."

It isn't just the superlative auditing that keeps Jimmy coming back. "I always feel like I'm 'coming home' after a long journey away. Magic happens here. This is the closest thing to a perfect environment I've ever seen. I've never experienced anything like it."

Why would a Class IX, *Flag* Permanent Class VI, OT VII continue to return for yet more Scientology training? "You never reach a point in Scientology where there's nothing more to learn. There are *always* things to learn. As you progress, your awareness increases to such an extent that you pick up new things."

This is pretty Mary Corydon. Mary is teamed with her husband, Bent Corydon, at the very successful Church of Scientology Mission in Riverside, California. Bent, as Exec Director, handles the administration while Mary supervises the standardness of the technical end — both courses and auditing.

Mary is a regular on the training scene at the Land Base. She has done the Expanded Dianetics Course, Dianetics through Class VI Auditor Interneships and is currently on Dianetics through Class VI Case Supervisor Interneships.

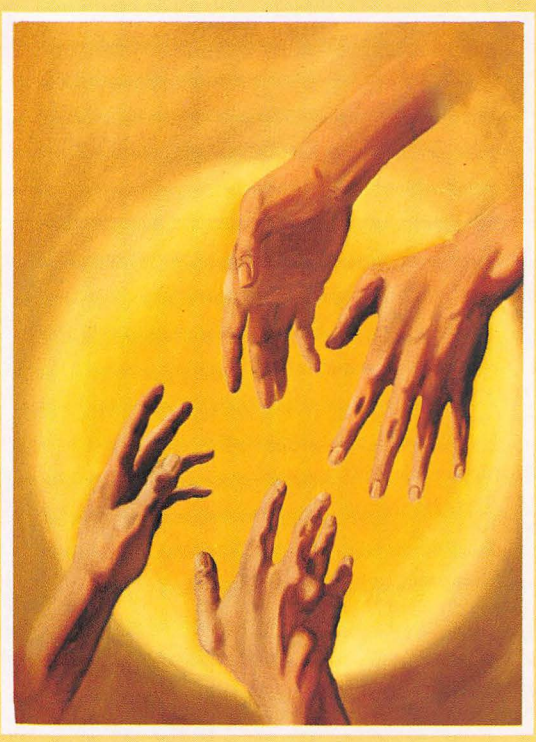

When asked "Why *Flag* training?" Mary says, "I like the stress on Source here. We stress it in the mission. And I like the emphasis on training. As far as I'm concerned there is no better tech anywhere than Flag. Errors get spot-on correction but if you know the data it gets validated. It is faster and more efficient."

You don't have to talk to Mary long to discover she is an advocate of training. She tells of how training is stressed in the mission, how new people at the mission are encouraged to move up the training route and how she and Bent see to it there are always mission staff training at the Land Base on tech or admin courses. It's no wonder the mission continues to be so successful, with such stress on Ron's tech! She herself plans to do HSST and the Expanded Dianetics Interneship at the Base in the future.

Flag Training

Become a real expert in

Standard Technology

Technical Training, Administrative Training & Interneships

The highest standards of technical excellence.

Flag training is known throughout the world by students and auditors (ministers) as the *best* training you can get. Here, the highest standards of technical excellence are maintained. The world's top auditors have been trained at Flag.

Students looking for the best possible training in Dianetics and Scientology technology come to the Flag Land Base, "The Mecca for those who seek technical perfection."

And they get what they come for.

Students often comment that Flag training has given them a whole new viewpoint on technical application – a viewpoint of technical *perfection.* No slightest departure from 100 per cent standard tech is permitted.

Ron said, in a talk to Flag Internes, "The first principle on which we operate is that Flag auditing (counselling) must be absolutely flawless, completely flubless and there are no failed sessions."

This same viewpoint of 100 per cent standard application also applies to Flag course supervision and Flag case supervision.

The course supervision you will get at the Flag Land Base is the best available. Your supervisors are spot-on, picking up the slightest indicator and finding the exact misunderstood. You are constantly referred to Source, and any questions or hesitations are *handled* by referring you to the exact source data.

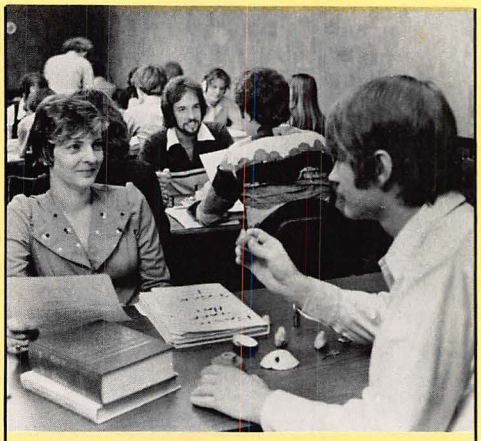

You are trained with the sole objective that you will be able to competently produce the product or action of the course.

At the Land Base you have the ideal training environment, removed from the distractions and demands of everyday life. You are able to put your full attention on your training.

Look over the courses available at the Land Base and decide which you want to take.

Guide to the Flag Land Base

You are eligible for Flag Land Base services. Any Scientologist, no matter where on the Bridge, is eligible for Land Base services. There are *no* prerequisites to coming to the Flag Land Base for services.

The very best in Scientology training and auditing (spiritual counselling), from the bottom of the Bridge to the top, are available at the Flag Land Base.

Flag's *specialty* has always been the dynamic L-10, L-11 and L-12 rundowns. These exclusive Flag services are delivered by the highest trained auditors and case supervisors in the world, Flag Class Xs, XIs and XIIs.

Why Choose Flag?

Why do so many Scientologists choose the Flag Land Base?

The foremost reason is superlative *quality of services.* That is why the Flag Land Base is called "The Mecca for those who seek technical perfection." The technical standards are the highest anywhere. Many of the courses and auditing rundowns now available at Churches all over the world were first piloted at Flag. It takes an area of very high tech standards to pilot new services for Ron.

The high tech standards and quality of service mean full gains in the fastest possible time in auditing. And it means courses completed quickly with maximum knowledge gained. And interneships . . . well, auditors have been coming to Flag for years to interne to *Flag* quality flubless auditors. And to the quality of interneships has recently been added *speed*, with new streamlined checksheets.

Another reason so many choose the Land Base is it is geared for speed of service, for those who want speed. Many busy executives and professionals know they can rely on Flag's fast, concentrated auditing and training — *without any sacrifice in quality* — so they can enjoy the best and still get back to business and work quickly.

Yet another reason so many love the Flag Land Base is the space and environment. The beautiful, luxurious grounds and buildings and comfortable rooms make this the perfect setting for the best in services.

Treat yourself to the very best in Scientology services. Choose the Flag Land Base as *your* Mecca for technical perfection.

Just a Hop Away

Not only are you eligible for Flag Land Base services, you are just hours away from the Flag Land Base, no matter where you live!

Tampa Airport in Florida is close to any point on the globe by modern jet. Within continental North America, airlines fly direct to Tampa from most major cities, a trip of just a very few hours.

Thus, the very best in Scientology services is easily available! Just think, you could hop on a plane one day and be enjoying the Flag Land Base friendliness and quality the very next day!

To Get to the Land Base

If you've decided to come to the Flag Land Base *soon*, you should get in touch with the Base directly right away. You can get information on what you will need to send ahead and bring with you (preclear folders, etc.), how to obtain valuable discounts on donations and other important infor-

THE NEW VITALITY RUNDOWN

The super special rundown that really gets you going in life!

The New Vitality Rundown is an extremely powerful and direct rundown that cuts like a laser beam through to the very root of basic case problems. It is totally tailored to the individual, handling major points of stress on a case *for that individual.*

It handles the causes of personal instability, zeroing in to locate and handle those factors which make a person less himself and fix his attention on locations or people in the past. It gives a remarkable recovery and resurgence of one's own basic beingness.

You experience new freedom, certainty and *new vitality!*

The New Vitality Rundown can be run at any point on the Grade Chart, as long as the person is not incomplete on any major action and is not in the Non-Interference Zone (R6EW to OT III). It is given as directed by the C/S to suit the individual's case. Free technical estimates are available on request.

There are no prerequisites, though standard case repairs are sometimes directed by the C/S to ensure full gains.

Experience this rundown for yourself!

Plan now to come to the Flag Land Base for the New Vitality Rundown!

Write the Flag Land Base Letter Registrar, or contact your nearest Flag Service Consultant direct at your FOLO. Addresses are on page 20.

Donation: $8,500 per 25 hour intensive. A minimum of 25 hours is taken. Additional 12½ hours are $4,250. 5% discount is available for donation made in full well in advance.

Successes

L-SERIES RUNDOWNS

This was the most monumental auditing action I've ever had in 20 years as a pc. I have squarely confronted old unwanted enemies, games, barriers and oppositions and they no longer exist. I am definitely a different being. I have *had* to acknowledge my abilities as a being. I have *had* to permit myself to exercise them. I am going back to my old life as a new being; it won't be long before that old life is a new life. I've had incredible guidance from my auditor and C/S; and the deepest understanding of what I needed from LRH. — B.H., L-10

FLAG AUDITING

I have elected to write this about Flag Auditing as I wish to do justice to the high level of application of Standard Tech that is now very evident to me as a Flag Case Completion.

When I arrived at the Flag Land Base from Sydney a month ago, it was under the most unpropitious circumstances. Firstly I had been chronically ill for the last 24 years and had become dependent upon medical drugs to relieve my asthmatic condition. This situation over the last 15 months had become a dwindling spiral and at the age of 29 I was classified by one doctor as having a life expectancy risk on par with a 58 year old male.

In June 1976 the first Land Base Tour came to Sydney and I felt from my discussions with the Tour personnel that Flag Auditing was the only solution left untried. I set my sights on this goal and finally made it to the Land Base in February.

In the very first auditing session of 20 minutes I blew my asthma and its related somatics. Now, I don't say this will apply to every pc, but I don't think that results like this are untypical of Flag C/Sing and auditing.

The R-Factor here is that Flag is a Class XII Org and so stands head and shoulders above all others.

The wins from my first session followed one after the other and on a very exacting gradient some 12 years of past auditing was repaired and levels completed. It culminated in the fabulous L-11 Rundown which truly gives one a new life.

I will summarize in the words of a fellow Australian, "Flag not only lives up to its PR [Public Relations], it out-does it!"

Why don't you come and find out? — M.G. Flag Auditing

FLAG TRAINING AND INTERNESHIPS

I've reached a point of stability as an auditor which I didn't believe was possible. I know that I can audit flublessly — and I don't mean this glibly — I can actually audit flublessly, to a standard of 100%, in each and every session I give. I can achieve the results, just by doing exactly and only what the HCOBs say you do. I don't need personality, luck, "nice pcs" or God on my side to turn out a perfect session. I can do it with the tech and nothing but the tech. There were moments when I never thought I'd make it, and other moments where I thought I had and "somebody" hadn't realized it! But, it wasn't till a couple of days ago I discovered I had the certainty and skill for keeps. It's like a negative gain, losing the additives — it's standard tech. — K.B., Dianetic Interneship

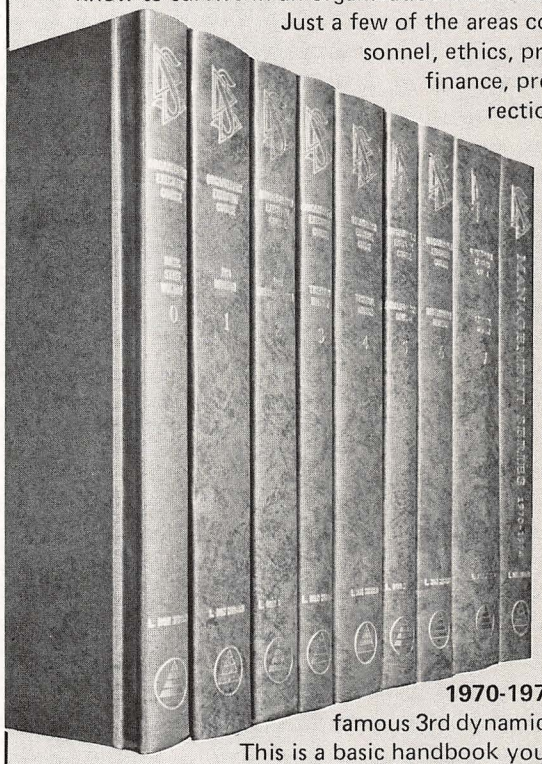

After being on post for 3 weeks I must say life is *completely* and *totally* different as a trained administrator. I can actually be happy and F/Ning on the job causing people around me to do the same and the statistics are going right along with it. In addition, as an exec I'm capable of more than just figuring out how to make it from one week to the next but rather concentrate on those things in addition to that which will make Ron's plans for this area an actuality. — C.P., Org Exec Course, Management Series, FEBC/Establishment Officer Tapes. ■

"If one would dream and see his dreams an actuality, one must also be able to organize..." – L. RON HUBBARD

Organizing any activity, from one's own life to an entire nation of people, can be made remarkably simple.

For over a quarter of a century, L. Ron Hubbard has been isolating the basic principles for a successful 3rd dynamic activity. Ron wrote what he found in HCO Policy Letters. This technology is now available to anyone in the famous Org Exec Course (OEC) Volumes and Management Series Volume!

The Org Exec Course Volumes are an 8-volume set, over 4,000 pages total. Here are the basics of what you must know to survive in an organization and as an organization. Just a few of the areas covered are personnel, ethics, promotion, finance, production, correction of a product, how to get new customers and how to succeed as an executive.

The Management Series, 1970-1974, covers Ron's famous 3rd dynamic breakthroughs This is a basic handbook you can use to look into any part of an organization and quickly spot and handle the problem area.

This is the *only* workable 3rd dynamic technology available. Have it to hand for your *use.* Order your volumes direct from the Flag Land Base Bookstore. Address is on next page.

Prices: OEC Volumes: $402.03. Members receive a special 25% discount. Management Series: $53.61. 10% discount for Members applies. These prices are for April 1977. For prices after that date see Donations Notice on page 1.

The perfect complement of the ultimate in Scientology services.

Enjoy a safe, luxurious environment

A distraction-free, safe environment, perfect for auditing. Comfortable luxury. Pleasant and beautiful grounds.

And there are little touches. Like fresh flowers in your room to greet you on arrival, if you've been with us before. And a lovely, comfortable lounge with games, books, activities (and friends) just for you. And a cuisine that is delectable and nutritious.

Then there is the friendliness that has earned the Flag Land Base the title "The friendliest place in the whole world!" This is friendliness that comes naturally to a staff whose only concern is to see that you are happy, comfortable and at home while you receive the superlative services you came for.

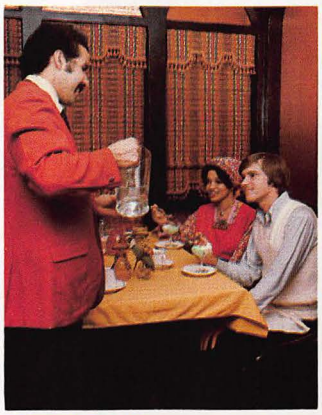

Of course, you come to the Base for the best in Dianetics and Scientology auditing and training.

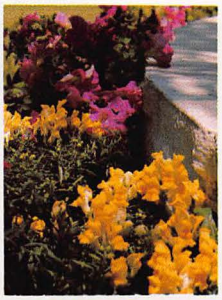

But, the Flag Land Base is a total environment. The aim is to provide you with the best in accommodations, atmosphere, food and friendliness as well as technical services!

We are waiting to spoil *you* with a luxurious, comfortable guest room, delectable fare, your own lounge, and warm friendliness and pampering. We guarantee you won't ever regret it (or forget it)!

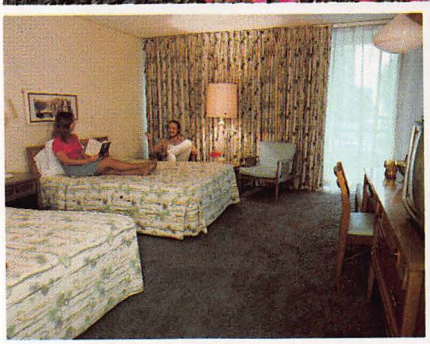

You have several types of rooms to choose from, but the better rooms are being booked months in advance. So don't delay. Make your accommodations arrangements now. (Arrangements for accommodations are handled separately from technical services.)

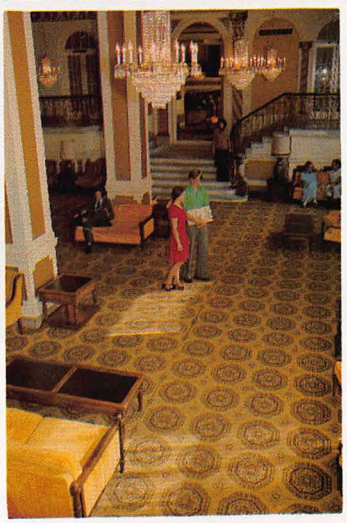

Write the Accommodations Counsellor at the Flag Land Base today or contact your Flag Service Consultant at your FOLO direct. Addresses are on facing page.

The Flag Land Base

The Mecca for those who seek technical perfection

The Flag Land Base is the realization of an ideal environment where you can experience stability of case state and increased OT abilities, far beyond your wildest hopes and dreams. The Flag Land Base is a religious retreat maintained by the Church of Scientology for its parishioners.

The Flag Land Base provides the very best in Dianetics and Scientology services. The uncompromising standard of delivery is maintained by auditors and supervisors trained to the toughest, highest standards. Their whole reason for maintaining these standards is to ensure you receive *superlative auditing and training.*

Every aspect of the service and environment is planned to ensure you have a safe, luxurious, comfortable atmosphere; an atmosphere ideal for the delivery of the very finest in Scientology services.

The best on the planet is waiting for you at the Flag Land Base.
