MEDICAL BLACK MAGIC

Pituitary, Ovary, Pancreas, Placenta For Sale!

In an Associated Press article published on Saturday, March 2, 1935, in the Evening Bulletin of Philadelphia Pennsylvania, under the heading of "Gland Market Active," appear actual statistics of the extent to which the so-called Medical Science degraded itself, in its insane notions of what is known as Internal Secretion or Endocrine Therapy.

The advocates of this unoccult, filthy, abominable method, go into ecstasies by the idea that a weak human gland may be energized into functioning in normalcy by introducing extracts of similar glands from animals. We have before us a complete list of such Gland Extracts, ranging from Thyroid, Parathyroid, Liver and Spleen Extracts, to powder of Brain, Ovary, Testicle and even Placenta. The height of absurdity and donkeyism is reached in the horror of one special product of a well-known concern which contains both Ovary and Testicle in combination! We might stretch our imagination to make-believe that a barren woman might be energized into pregnancy by the Ovarian product or a sterile man might be rendered fruitful by the Orchitic Essence, but, rack as we could our Brains, we have not as yet been able to comprehend what kind of a human American animal needs both or what Hermaphrodite should imbibe the proffered potency to become masculate!

The said report shows that Maurice van Gelder, a dealer in ductless glands, went to New York, N. Y. "for his annual chat with the American meat packers who are the source of supply." From Maurice it was culled that "The gland market is doing right well." The Pituitary sold at $10 a pound and Parathyroids cost upto $30 a pound. He enthused that his firm sold 2,400 pounds of Pituitaries, 40,000 pounds of Ovaries and as for the Pancreas to make Insulin for befooled Diabetics, the amount in the last year was a cool 600,000 pounds. At the end, the article mentions that "Neither physician nor scientist, van Gelder, is just a plain trader who deals in the stuff that was packing house offal only a few years ago."

It is "Offal" still and will always remain so. It is only through the ghastly chicanery and pursuasive coaxing of the Medical Octopus, that the hoodwinked, suffering public gulps such terrible stuff and pays and pays till it dies a miserable death.

The above is not the whole garbage. A well known pharmaceutical house sends emissaries to the various hospitals for maternity

cases in Detroit, Michigan and collects and pays for human Placentas or After-Births to manufacture a product for women to take for the purification of their internals!

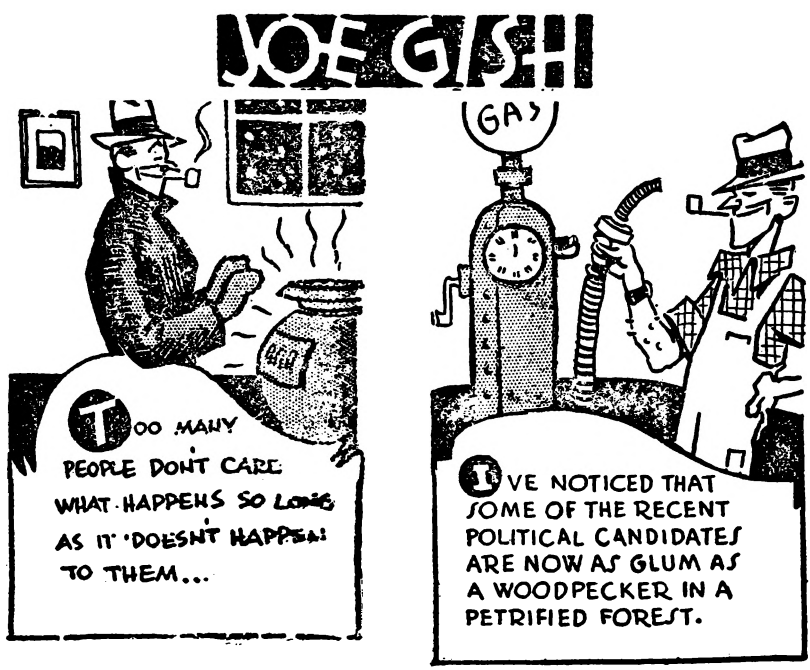

Such is Medicine! The barbarous savagery of the cannibals can not be worse. The imbecility of the Medical Pseudo-Science is unmentionably contemptible and the followers of such a system should bury their heads in sand through shame to belong to such a cult of Black Magic of ultra-heathenish character.

—o—

SPECTRO-CHROME INSTITUTE ENGINE

There are four strokes in an internal combustion engine:
S uction—
C ompression—
I gnition—
E xhaust—

The initials of the first three, (the Trinity) represent Spectro-Chrome Institute, which in the fourth stroke will Exhaust the Medical Octopus! Each stroke means Seven years; 14 years already elapsed; the Ignition stroke with its explosion is now on; seven years later? Just wait and watch the developments.

FIRST MILWAUKEE WISCONSIN PLANET
Meeting Of February 4, 1935

Successful Use Of Spectro-Chrome In High Blood Pressure, Tumor, Anemia, Stomach Disorder, Scarlet Fever, Bright's Disease, Stiff Neck, Bronchitis, Diabetes.

User says, "I should sooner lose my automobile than give up my Spectro-Chrome!"

Reported By:—OTTO H. LUTZ, Deputy.

The Meeting was to be in the Colonial Room, but, that room being taken, the February meeting was held in the Gold Room. There were over 100 Affiliates present. It was a very pleasant evening.

Otto H. Lutz reported case of Lawrence Q. who had High Blood Pressure; he was normalated in a total of 8 Tonations, 4 Green and 4 Purple.

Walter W. has mother with Tumor. Got good results with Yellow and Indigo with Green and Lemon Systemic.

Eugene G. has brother with Loss Of Control of his legs; they tighten. Green and Lemon Systemic were used. He asked if the Infra-Division was correct. He was advised it was correct.

Walter B h.as girl of 9 years, with Anemia. Six months ago, she had her Appendix removed. Since December 1934 they have been following the Free Guidance; 1 week Green, 3 weeks Lemon and in the Orange now. She feels well, can receive her lessons very much better and eats better. His wife has a sluggish condition; the results are slow.

H. L. is using his Equipment for High Blood Pressure. It was 250 when he started. He had 2 weeks of Green and is on the Lemon now; Purple on Areas 4 and 18.

Clara F. took about 100 Tonations with Green, Lemon and some Magenta. Her case is Psoriasis of long standing. It is just starting to show signs of becoming moist.

Margaret K. uses Attuned Color Waves for 4 weeks for Chronic Constipation. Green and Lemon are being used.

Alfred J.'s wife irradiated with Orange for building Blood. After two days of Tonation, she felt much better.

John E. has case of Stomach Disorder of 10 years standing. There is some improvement. Green, Lemon and now Yellow are used.

Frank S. has girl who had Scarlet Fever. Had quick results

Mary S. reported case of Stomach Disorder normalated and in doing so, also normalated her Piles. Green, Lemon and Magenta were used.

V. P. and his wife are using their Equipment 2 months now and both are having the same Colors, following the Advice Charts. His wife has Bright's Disease and had choking spells. She was advised by Medical Doctors to go South, but, nothing helped. He said they have so many complications, he could talk all night, if he wanted to tell all about them; but, after 2 weeks of Spectro-Chrome, they saw some results. 2 weeks Green and 4 weeks Lemon were irradiated.

Ruth W. started with Turquoise for what she terms "Inflammation." The Guidance told her to use Lemon. She had a stiff neck and shoulder one morning and took Turquoise; that remedied it. Her girl had Cold. 1 Tonation of Lemon was given and at night it was all gone.

Hazel N. had Bronchial Disorder, used Green, Lemon and Magenta. Now takes Yellow for Gall Stones. She says she goes to sleep during Tonation; she just can not stay awake.

Rose S. had Rheumatism in her right hip and now it is in both legs. Used Green, Lemon and Turquoise. For Stomach Disorder she had Yellow, Orange and now Green. She says she took about 102 Tonations, but, she does not seem to have results. She was asked if she followed the Rational Food Of Man System; she said she **does not.**

Dorothea G. had a sick mother with pains in the Area 18. Indigo, Blue and Turquoise were used according to the Guidance and gave relief.

Genevieve K.'s husband got a steel chip in his Eye. Used Turquoise without results; so he had the steel chip removed by a Medical Doctor who just did the mechanical work. It took 12 attempts to bring it out. K. was in great agony. When he came home, he irradiated Turquoise and after 40 minutes, the pain was all gone. Next day, he called the M. D. and asked him how long he would have pain in the Eye. The reply was "about two days". Then he told him the pain was all gone; he had used Spectro-Chrome.

William E. loaned his Equipment to a friend for a Cold. After 3 days, it was normalated. Turquoise was irradiated.

Albert H. has a Mental case; he can not do much, as the woman says "the light burns her." They can only put on the Attuned Color

Wave for a short time. The Color used is Green. They are trying to convince her, but, it takes a lot of talking.

Frank L. tonated a child that fell down the stairs. She had a great big lump on her Head. With 4 Tonations of Turquoise, the Lump left as if by magic. The sisters of this girl had Measles and Turquoise normalated that condition also.

Elizabeth Z. reported her own case of Diabetes, using Green and Lemon Systemic with very good results. She is Sugar-free.

William O. has his Equipment 2 weeks and is waiting for the Guidance. His brother has an odd condition. No Medical Doctor seems to know what it is. He went to the Insurance Doctor thinking he would give some advice but NO. He only got more insurance to pay, as he passed the "test". His mother has Hardening Of Arteries and started using the Green.

William B. had pain in Area 19; it left with a few Tonations of Blue. He is well pleased. A friend bought an Equipment and is very much pleased with it. He said if he had to choose between his Equipment and his automobile, he would give up the car! This is the first year, he did not have to call in a Medical Doctor. The man had a run-down condition and his boy had the Croup. Spectro-Chrome remedied these in a few Tonations.

E. K. has mother using Green Systemic on 4 and 18, but, she always feels weak after using Magenta.

E. A. Ernest expressed great pleasure in seeing such a large crowd. We outgrew the room 157 we had and some day we may have to meet in the Auditorium. He went to Malaga, N. J. and surprised Colonel Dinshah with a visit; saw him at his 14 feet desk, piled with work. Everyone comes to Colonel Dinshah for advice as to what to do there. He placed 101 Equipment orders just lately here in Milwaukee, Wisconsin; his desk looks as bad as Colonel Dinshah's. He spoke about the Rational Food Of Man System, leaving the dead and refined food alone.

A suggestion was made to Affiliates to be on time. The meeting starts at 8 P. M. Late comers always disturb the meeting.

The Colonial Room will hold upto 150; when larger attendance is in order, we shall gladly arrange for larger space. Meanwhile,

please be on the watch for larger accommodation and send information about location and rates per meeting.

High Blood Pressure is not a Disorder but a condition resulting from existing Disorders. Purple on Area 4 is indicated.

With the Irradiation of Spectro-Chrome, exercise is always in order. Lying in bed without exercise, does not make health.

Persistent Disorders are slow to leave. In any case where you feel the necessity of Guidance, there should be no hesitation in asking for it from Spectro-Chrome Institute.

Persistent Skin Disorders need continued Tonation over a period depending upon the conditions involved. Most such cases have no patience and expect quick results, even though the Guidance is not duly followed.

In Persistent Constipation irradiate with Yellow and Orange. However, the food is the main support.

It appears from reports received that Scarlet Fever is ravaging the young in your city. The Health Authorities are thinking of their usual stuff—Serums and Vaccines. If they would but lay aside their fear of the wrath of the American Medical Association and use Spectro-Chrome exclusively, the results would open their eyes to the merit and efficacy of Spectro-Chrome Metry. We wonder why the Executive Authorities of such a progressive city as yours are still silent about it. Are the lives of the public to be sold to the age-old, worn-out dogmas of Medicine? The Originator is willing to present to the City Of Milwaukee, three, thirteen or as many as needed brand new Spectro-Chromes, if they will accept his humble contribution to the Service Of Suffering Mankind and use it FREE to normalate ailments, under the guidance of qualified Spectro-Chrome Normalators. He is willing to train a special class of Health Officers, absolutely free and without any charge, provided they use the said Equipments according to Spectro-Chrome Science. Once used, they will prove so successful, that the hospitals will partly close, expenses will be reduced and the sick public will bless them. We strongly recommend the Commissioner Of Health to accept the offer and test the Spectro-Chromes as he pleases. We have nothing but public good at heart and if he makes the experiment, his name will go to posterity for broad-mindedness and moral courage.

If V. P. will persistently use Spectro-Chrome, he will reach the goal. All those "complications" will soon disappear.

No matter whether Ruth W. calls it "Inflammation" or otherwise, by following the understanding of the Infra and Ultra Attuned Color Waves, favorable results are bound to ensue.

Sleep is a great normalator. If Hazel N. will stay asleep after the Tonation, she will be benefited quicker. After a Tonation with any Infra-Green Color, do not expose to Moonlight; after a Tonation with any Ultra-Green Color, do not expose to Sunlight. The restriction applies to all cases, for about 1 hour 28 minutes after such Tonation is begun, with due regard to the Favorscope Time.

Rose S. will **never** be right unless she follows our Guidance about the Rational Food Of Man. Food builds the Body and if she will continue to feed it with "junk", she is wasting electricity and time.

Genevieve K. has an intelligent husband. He should not have used the Spectro-Chrome **prior** to the removal of the steel chip. We never decried Constructive Surgery or Mechanical Orthobiosis. In **all** such cases of accident, use the common sense of removing the mechanical offender and using Spectro-Chrome. Refer to Spectro-Chrome Home Guide, page 80.

By all means, irradiate your friends and loan your Equipments to them, but be sure of your Slides and see that they follow the Rules of the Science.

Never "try to convince" anybody, much less a woman. Refer to Spectro-Chrome Metry Encyclopaedia, Volume 2, Page 412, paragraph 4 to the end of Chapter 45, about the best manner of tackling a woman. Albert H. should study the method.

Elizabeth Z. studied the full course. She ought to comprehend the humbug of Sugar in Diabetes. Refer to Chapter 92 of the Spectro-Chrome Metry Encyclopaedia, Volume 3.

If William O. did not receive his Guidance, his papers must be faulty. Do not pother with the Medical Doctors, but take and follow our Guidance.

E. K. should send mother's General Advice Chart for Guidance. Something else is needed after the Green Systemic.

E. A. Ernest always takes pleasure in springing "surprises". Let us make and let him sell and the suffering public will advertise for us.

TERRORS IN MEDICINE

From Minneapolis, Minnesota comes a report that Lucretia Wilder, a Laboratory Technician of 23, was holding a rabbit for injection of some Germs, with which Dr. Ruth E. Boynton, hospital staff member stated the woman became infected when the rabbit jumped and the needle scratched her arm. Some of the injection was spilled on the wound and the woman died. Further report comes from the same source that "because of the rarity of the Germ, no cure is known for the disease and the hospital doctors were helpless to save the life of the woman."

In what lies the final salvation of mankind? In Germs and Poisons or the Finer Forces Of Nature used as in Spectro-Chrome? What guarantee can the public have that such germs after entering the Human Body do not produce toxic results? The entire pseudo-Science of Immunology is based on wrong premises and it is only a question of time when the structure built on it will crumble and Medicine be reduced to a worthless signal of past ignorance.

Spectro-Chrome would have saved Lucretia, but, the numbskulls will not investigate its value and will stick like flies to a gum-pot to their absurd theories.

They dare not investigate Spectro-Chrome! They **know** it is true and they well realize the end of their line approaching.

———o———

A DOG'S LIFE

Worms Expelled By Spectro-Chrome.

BY:—EDITH O. SKINNER

Just a little story of a Dog's Life!

My husband purchased a very small valuable (says he) Bird-Dog, while I was attending the 89th Class in Milwaukee, Wisconsin.

This dog was very thin, but, my husband insisted that the dog had some marvelous markings and traits.

The first week of January, my husband seemed very discouraged over his dog's condition; he thought she had Worms and also a bad Cold and felt he should take her to a good Veterinary Surgeon. I said nothing, until the following Sunday when my dear husband came to me almost in tears, telling me his dog had one Convulsion

after another. She was full of Worms and had the dreaded "Distemper." I asked him to bring the dog home which he did. I looked at the dog and it was a pitiful sight. The eyes were swelled shut and the lungs sounded as if each breath were the last, whizzing so hard that one could hear her in the next room, dragging her hind legs when we forced her to move. I looked at my husband and he looked almost as pitiful as the dog. All he could say was, "she is sure to die."

Well, this is what happened. The dog would die any way, so we garbed ourselves in suitable clothes and proceeded with giving the dog a bath. It was a cold day, but, to stay in the house she had to have a bath. We then started to give the dog Spectro-Chrome Tonations—Green, Turquoise, Orange and Lemon. The third day, she was feeling much better and the following Sunday went on a two-hour hunt, for the purpose of exercise. After the one Tonation with Orange, the Round Worms were expelled in bunches. Then, my husband turned to me and said that as bad as he needed money, he would not take any amount for the Spectro-Chrome we now have, if we could not replace it with another. Could one get results like that with anything else than a Spectro-Chrome?

Perhaps, you will not appreciate that I used it on a dog and write you about it, but, to me it was a wonderful experience. Nobody could possibly detect that this dog was ever sick and as I understand it, the Distemper usually takes the life of the afflicted animal or leaves it useless, according to Grover's Dog-Book.

We are glad to publish this Dog Report. Spectro-Chrome was used successfully in the past on various animals; we have cases reported of dogs, cats, horses, rabbits, canaries and even—Husbands, set right by Spectro-Chrome.

———o———

UNAPPRECIATIVE PEOPLE!

Several Demand Rebate Because Of Price Reduction!!!

What Should Be Done.

Owing to volume production, because of greater demand from a public served by Spectro-Chrome and expansion of the manufacturing facilities of Spectro-Chrome Institute, from the First day of March

1935, the price of $150.00 for the Aluminum Spectro-Chrome was reduced to $90.00.

To our surprise, we received instead of commendation, a number of demands for rebate, from purchasers in former months! They could not see why they should have then paid $150.00, whereas the present purchaser pays $60.00 less.

In order to satisfy those friends and to conform with our Integrity Policies, we shall be glad to **increase** the price of the Aluminum Spectro-Chrome to $210.00 each and demand **excess payment** from **all prior purchasers.**

What is good the one way, ought in business to be good the other way. The price will be raised as soon as we receive sufficient applicants clamoring for fair play and justice!!!

Start—we shall finish!

Rebate for reduction to serve better the suffering public! Can you beat it?

—o—

FIRST DETROIT MICHIGAN PLANET

Meeting Of February 7, 1935

REPORT BY:—JESSIE E. NESS

First Vice-President, Scientific Order Of Spectro-Chrome Metrists

On opening the Planet, Jessie E. Ness stated that owing to the resignation of Ethel K. Greenham from the position of Deputy, she was requested by the Board Of Trustees to act pro tem, until a new Deputy be appointed. Colonel Dinshah, the President, was expected to visit the Planet in the near future. This welcome news was received with enthusiasm by the Planet members.

A correction was made in the former minutes that a certain Disorder normalated by Stella Harter in 4 hours, should be really marked as 2 hours.

L. Roy Dodman, who had to leave early, asked permission to speak. He reported that due to a fire at his place of business and in the usual investigation which followed, he was called before Major John Roehl, Board Of Health Officer and questioned regarding a Spectro-Chrome Equipment he had. Major Roehl informed him it was against the Law to use Spectro-Chrome, as he had investigated Spectro-Chrome and found there was no healing virtue in it. Dodman advised those who functioned as Normalators to go carefully for their own sakes. Jessie E. Ness said that none should be tonated until

they had first signed a Collaborator Application Blank. She pointed out that as the only safety.

Albert E. Greenham then recounted his experiences with the gallant Major and stated it was his firm belief the Major never really investigated Spectro-Chrome.

Jessie E. Ness referred to the case of Frances R., a former Normalator, in support of Greenham's statement.

Edward Lemke reported his attendance at a meeting of Medical Doctors and others, at which he asked why the American Medical Association never accepted Colonel Dinshah's challenge. He received no reply to the question. Evidently, the said Association fears the result of an open discussion on the subject of Spectro-Chrome.

Otto Hinz quoted the case of his daughter who had a variety of symptoms such as Fever, Headaches, Sluggishness, all of which disappeared following the use of Turquoise, Blue and Magenta. The Sufferer was now restored to normal health.

Stella Harter reported having dealt with an extremely hard case, made so by the fact that the Sufferer had Stomach Disorder, Headaches, Low Blood Pressure, Difficulty In Hearing, et cetera, without limit. Orange and Scarlet were used and the Sufferer now looked like a new woman.

Magdalene Arnold told of a small crippled boy, whose father came to her for aid. After tonating, the father ordered a Spectro-Chrome Equipment. At first, the child was afraid. He was previously taken to a hospital for examination and the medical methods had caused him to be afraid. Now, he became accustomed to the beautiful Attuned Color Waves he sees in the Equipment, has lost his original fear and is making satisfactory progress.

Aquilla Mathers reported the case of a woman with Varicose Veins and Lumps formed behind the Knees. Scarlet on Area 4 and Indigo Local were irradiated. The swellings were much reduced. For Rheumatism, she is now being tonated with Lemon Systemic and her condition is gradually improving.

J. J. W., a convert from Medicine to Spectro-Chrome related his own personal experiences and that of his boy. The boy had suffered almost from birth with a Rupture. The case was normalated in 11 Tonations. He then purchased an Equipment together with the Spectro-Chrome Metry Encyclopaedia. He had been a victim of Partial Paralysis in the lower limbs for 30 years. Tonating steadily since last October, he is now able to bend his foot at the ankle and to

move all his toes. The Medical Doctors gave him no hope of recovering the use of his limbs. Now, he looks forward to complete restoration to normalcy, the sole agent for such being Spectro-Chrome, since he ceased swallowing "dope" the moment he started tonating with Spectro-Chrome. Albert E. Greenham suggested W. to write to President Franklin D. Roosevelt, advising him to try Spectro-Chrome.

Walter A. Hale spoke of a boy who suffered from Water On The Knee. The family Doctor had monkeyed with it for 2½ years without relief. Lemon Local 1 week and the Knee was better.

Harriet Reisdorph reported having experienced wonderful success in the use of the Attuned Color Waves of Dinshah. She quoted a case of Epilepsy in which the Disorder had run a course of 3 years. At the proper times and in correct order, she used Orange, Lemon and Magenta. Albert E. Greenham suggested as a help in this case that Scarlet be used for a few days before the periodic sickness.

Otto Hinz read a clipping from a newspaper, dealing with the case of a soldier who had Typhoid Fever. The Vaccine used by the Medical Doctors brought on a complication of Disorders and the man is, according to medical testimony, doomed to die. Just one more unfortunate victim of professional ignorance.

Martha Schreiter told of a woman whose Kardoscil and Spiroscil were alarmingly low when she took her in hand. She reported that during the course of Tonation over a period of time, that condition changed a good deal, but that the Sufferer was much benefited by Spectro-Chrome.

Colonel Dinshah is preparing for his Spring Tour to the existing Planets and to open new Planets where necessary by reason of increasing membership.

The warning given by L. Roy Dodman and Jessie E. Ness is very sensible and must be considered by all who act as Spectro-Chrome Normalators. Before this year is over, extremely stringent measures will be taken by the Board Of Trustees, to prevent any tampering with our Collaborator Affiliations and to make the Organization strictly fool-proof and integral.

Let Major John Roehl Read This.

If Major John Roehl stated he "investigated" Spectro-Chrome, he spoke a deliberate lie. When the Originator first visited Detroit, Michigan over 10 years ago, the same officer tried to bluff him in the Hotel Tuller, but, Colonel Dinshah showed him the door. Spectro-

Chrome NEVER was investigated by Major John Roehl or his office or the Wayne County Medical Society or American Medical Association or any Medical or Health Board. We challenge any and all—the whole World over to meet the Originator in a public debate on a scientific platform and defeat him. No man born of a human mother has the gumption to prove Spectro-Chrome a fake, but, the Originator is ready at all times to prove conclusively that Medicine as a science is the biggest bunk, swindle and downright pseudo-scientific humbug that was ever propounded to cheat and defraud the suffering public. Take this to Major John Roehl and let him accept the challenge. These Health Boards live by bluff and if he said he investigated Spectro-Chrome, the Originator openly challenges him to declare when, where, how and through whom he made the supposed investigation or eat his own words.

—o—

OPEN LETTER TO JOHN P. KOEHLER, M. D.
Commissioner Of Health
Milwaukee, Wisconsin.

Esteemed And Learned Sir:

Through a friend of ours, the following circular distributed by your Department, throughout the City Of Milwaukee and handed to all the school children there, came to my attention:—

JOHN P. KOEHLER, M. D.
Commissioner Of Health

E. V. BRUMBAUGH, M. D.
Deputy Commissioner Of Health

Office Of The
HEALTH DEPARTMENT
City Of Milwaukee

STOP DIPHTHERIA!

FATHERS AND MOTHERS: Every year Diphtheria sweeps through Milwaukee, cutting off the lives of little children, especially the babies under 6 years, who are least able to resist it.

In the last ten years 9,342 children have suffered from this disease—and ONE in every TWELVE died.

Diphtheria afflicted 792 Milwaukee children in 1926 and 757 in 1927.

DIPTHERIA CAN BE STOPPED

Children can be protected against it, and in a very safe and simple manner; a manner which has the endorsement and support of all the scientific, medical and health authorities of the country; a

method that is not a fad or an experiment; a means that has been proven true.—That means is Toxin Antitoxin.

Toxin Antitoxin is not for the treatment of a child that is sick. It is for the child that is healthy and vigorous, and its aim is to keep him so. It is that child's insurance against a dreaded enemy. It may be given any time after the child is six months old.

HAVE YOUR FAMILY PHYSICIAN give Toxin Antitoxin (or Toxoid).

The Milwaukee Health Department wants to co-operate in protecting your own little ones against Diphtheria. All that is necessary is your consent.

Sign the enclosed card. The school children will give these cards to their teachers and the health department physicians will administer the Toxin Antitoxin at school. Those children who had Toxin Antitoxin six months or more ago should now have a Schick test which will show whether or not they are safe from diphtheria.

But don't forget the children under school age. They need the protection more than the school children and have less resistance. Take them to the school yourself and see what is being done to combat Diphtheria.

Insure for your little one the health and happiness you want them to have.

BUREAU OF COMMUNICABLE DISEASE,
MILWAUKEE HEALTH DEPARTMENT.

I presume—nay feel sure, that you undoubtedly mean well and that your Department is truly desirous and anxious to serve the interests of the citizens who depend on you for their health and welfare.

It is evident that with all the Medical and other means like Serums, Vaccines and the like at your disposal, you have not been able to check, control much less eradicate, the scourge of this "Diphtheria".

I warn every citizen and parent of Milwaukee, NOT to sign the requested paper and NEVER to consent to the administration of any such material as Toxin Antitoxin and meanwhile ask you to lay aside all your preconceived notions of healing and investigate the merits of Spectro-Chrome Metry, which can positively protect the children from this "to-the-medical-fraternity-dreadful" disorder.

Not only for Diphtheria, but for Scarlet Fever, Small Pox, Chicken Pox, Measles, Whooping Cough and similar troubles of children, Spectro-Chrome proved its value unquestionably. Many among the hundreds upon hundreds of the users of Spectro-Chrome in their homes, can testify to the effectiveness of Spectro-Chrome, right in your city.

I offer you all the Spectro-Chrome Equipments you need for the Milwaukee children under your care, **absolutely free and unconditionally. I offer you my services** similarly **without any renumeration.** I can save the children; I can place in your hands by Spectro-Chrome, the most potent weapon to tackle these enumerated scourges, if you will grant me the opportunity to demonstrate the Science.

Why waste your precious time in experiments that lead nowhere, when Spectro-Chrome is already in successful use 14 years? You have but to say the word and all my Spectro-Chrome resources will be placed at your disposal, so you may save the children and the blessings of the parents will go to you and posterity will remember you as the one courageous officer who to serve the public, stood forward for therapeutical emancipation.

I have the honor to remain

Yours Very Respectfully,

Dinshah P. Ghadiali,
Originator Of Spectro-Chrome Metry.

Malaga, New Jersey,
Monday, March 11, 1935.

—o—

FEMALE HELP WANTED

Three Traveling Secretaries who can be trained to corporate duties and demonstration of Spectro-Chrome Equipment for Class-work in the United States Of America, Europe and India. Smokers not eligible. Apply by letter, stating age, experience and salary expected to Spectro-Chrome Institute, Malaga, New Jersey.

THE GREATEST CHAMPION OF SPECTRO-CHROME DIED

Kate W. Baldwin, Medical Doctor, Fellow American Medical Association, Fellow American College Of Surgeons, Former Senior Surgeon Woman's Hospital of Philadelphia, Pennsylvania, Honorary President of Scientific Order Of Spectro-Chrome Metrists, died at Lawrenceville, Pennsylvania on January 17, 1935.

Much can be written of this noble surgeon who was our best friend, but, for certain cogent reasons, the Originator of Spectro-Chrome Metry refrains from disclosing at this time many facts, which would make the Medical Octopus bow in shame, at the unjust persecution according this star in the firmament of devoted womanhood, whose sole aim was Service To Mankind.

NOTICE TO PURCHASERS

No Price Reduction

There is no reduction in the price of Spectro-Chrome Wood Cabinet Equipment contemplated. It is as is the **Least Expensive And The Best Health Service In The World:** $75 serve for Life Happiness.

Spectro-Chrome—In Every Home

PARALYZED BOY IMPROVING

Colonel Dinshah P. Ghadiali,
c/o Spectro-Chrome Institute,
Malaga, New Jersey.

I am happy to advise you that my son Kenneth is improving gradually and I am anxiously looking forward to the time when he will be able to walk and get about like other normal children.

His improvement has exceeded my expectations. A thousand thanks to the merits of Spectro-Chrome Metry.

I have had some interesting and astonishing results from the use of my equipment during the past year and would not under any circumstances be without it. I can not speak too highly of this wonderful discovery and those whom I have interested in it are also very enthusiastic and report satisfactory results.

I do not know when you expect to visit again Milwaukee, but, whenever you do, I can assure you I will be among those present and sincerely hope my son will then be able to walk, as I would like everyone present to know of the wonderful results obtained by the use of Spectro-Chrome.

Trusting I have not taken up too much of your valued time and looking forward to the time when I can clasp your hand and thank you personally, I wish to remain

Yours Very Truly,

Frank S. Burns
103 North 87th Street
Milwaukee, Wis.

March 9, 1935.
