TO THE PUBLIC

We accept no gifts or gratuities, as to a Public Servant it is Graft. Send us nothing.

You may send your book for review or opinion; you may send your writings for publication, provided they are not plagiarized or false and bear your signature in ink, with full name and address.

Anonymous communications receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to SPECTRO-CHROME, MALAGA, NEW JERSEY and not to any individual member of our staff.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

FIRST WILMINGTON DELAWARE PLANET

(BROWN'S PLACE, S. W. Corner, 23d & Washington, WILMINGTON, DELAWARE)

Meeting Of Thursday, November 4, 1937

Successful Use Of Spectro-Chrome In:—Facial Swelling, Pain, Heart Disorder, Colds, Sunburn, Piles.

Reported By:—FREDERICK A. BRUNCK, *Recorder*

Deputy Howard R. Ingram was in the chair.

The Deputy read a letter from the Central Office in which Dinshah announced his defeat for Governor of New Jersey and also his candidacy for the next governorship. It further stated that Dinshah will write a weekly "Family Health Protector" column in "The Record" of Bridgeton, N. J. The Editor asked him to write for the newspaper, after hearing one of his campaign speeches and after visiting Spectro-Chrome Institute.

Cases were reported as follows:

The Deputy reported a woman who had teeth extraction and her face began to swell and pain very badly. One Tonation of Indigo was used and the swelling and pain disappeared.

Another similar case was reported by the Deputy and 1 Tonation was found to give relief.

The Deputy's mother, 79 years old, had a Heart attack recently and 1 Tonation of Purple gave quick relief.

James P. reported his case of Heart Disorder, for which he was doctoring for over 9 months without any results, until he heard of Spectro-Chrome from one of our Affiliates. He promptly bought an Equipment and within the short time of approximately 4 weeks, he seemed to be on the road to recovery. James P. also explained that he had a Cardiograph taken of his Heart by a Medical Doctor and that the Doctor found his heart much improved. He also said that Spectro-Chrome was successfully used to combat Colds.

The Recorder stated a case of severe Sunburn on his son, 15 months old. One Tonation of Blue gave the necessary relief. He also reported a case of Hemorrhoids or Piles which kept his wife in bed several days, until he could get his Equipment. Started Tonations with Indigo Local and after 3 to 4 Tonations everything was well.

SPECTRO-CHROME METRY ENCYCLOPAEDIA

By:—GRACE A. D., *Detroit, Michigan*

Volume 3 is a continuation and development of the knowledge given in Volume 2 and is more specific in the use of Spectro-Chrome. It gives a knowledge of the Higher Physical Body, touching on Occult Phenomena and creating in the student a desire for more of these higher studies.

The Home Training Course is very complete and condensed in teaching a science of healing. I received more knowledge in the art of healing from 3 volumes of the Encyclopaedia in a few months, than I could obtain in a medical library.—E. P.

PIMPLES GONE, NO NEED OF SPECTRO-CHROME!

By:—WILLIAM P., *Mobridge, South Dakota.*

The Sufferer has not had any more Boils and the Pimples have disappeared. She does not think it necessary to tonate daily any more, but will take an occasional Lemon Systemic for a good measure. She wants to thank Spectro-Chrome Institute for the wonderful results.

FIRST ST. LOUIS MISSOURI PLANET

(HOTEL MELBOURNE, ST. LOUIS, MISSOURI)

Meeting Of Thursday, November 4, 1937

Successful Use Of Spectro-Chrome In:—Arthritis, Pyorrhoea, Digestive Disorder.

Reported By:—CHARLES H. STIERMANN, *Recorder*

Deputy Clemens P. Neumann was in the chair.

Letter was read from Headquarters about the Convention, along with circular containing subject matter to be discussed and the appointment of a Delegate and Alternate Delegate to attend the Convention. The same letter contained information about the "Favorscope" for 1938.

Another letter was received in which Colonel Dinshah informed us of his defeat in the Election for Governor of New Jersey and also that he was writing health articles for a weekly newspaper "The Record". He advised those desirous of reading the articles to subscribe for issue beginning November 5. One Dollar sent to "The Record", 28 Cohansey Street, Bridgeton, N. J. would cover the annual subscrip-

tion. We feel sure that Colonel Dinshah's slogan of "Candidate for Governor until elected" will eventually put him over and compliment him on his pluck and stand against corruption.

Upon motion being made, seconded and duly put, Clemens M. P. Neumann was elected Delegate and Eleonore Neumann Alternate Delegate to attend the 1937 Convention and the Recorder was instructed to issue the necessary credentials to these Affiliates.

Carl S. having an arthritic condition in the thumbs and who was itisized, reported the Disorder normalated. Used 3 Lemon Systemic, 3 Turquoise Local and Magenta on Area 4. Disorder was of an extremely sensitive nature.

Question arose how to tonate for poisoning caused by a Boil. Advised to use Green and Turquoise Systemic, Orange on Boil and Yellow till it bursts open. Turquoise and Green to clean after removing the core.

Mary T. asked about using Magenta systemically and was advised that Magenta was used for Local Tonations and as an Equilibrator.

Harry O. wished to know about Local and Systemic Tonations and if they should be alternated on alternate days. He was informed that his idea was correct and where two Tonations were recommended a day, take a Systemic and subsequently a Local and so on day after day. If possible, take one on Day Favor and the other on Night Favor.

Nicholaus B. said he was having trouble with the Thermocept leaking, which brought responses, others saying they were having the same trouble. Some said they remedied the trouble with caulking cement, rubber packing and aquarium putty.

Peter B. asked about going out immediately after tonating. Advised to wait at least a half hour as the rays of the Sun would reverse the effect of an Ultra-Green Tonation and the Moon would act in a similar way on an Infra-Green Tonation reducing the good secured in tonating.

The Deputy spoke on how Spectro-Chrome through graduations of matched color worked, making comparisons with how in nature a tree from its sturdy trunk sent out branches and in turn smaller branches forming small twigs which in turn sent out stems that bear the luscious fruit composed of minute fibrous matter abounding in juice making fit for king and potentate. The same principle applies all through nature in the process of growth and construction.

Foods again came for discussion as several new Affiliates were

present and eager to learn of any beneficial foods that might be pure and free from adulteration.

Thomas S. wished to know what results might be expected in Pyorrhoea by the use of Spectro-Chrome. Clemens N. said that at one of the Conventions (he believed it was Milwaukee), a person attested to complete normalation of a Persistent case.

Harry O. asked about Ulcerated Gums and was advised to use the Infra-Green Division down to Red to effect Normalation.

The new Affiliates liked to know about the High and Low Critical Periods; the Deputy explained about New Moon and Full Moon and the changes for better or worse during the 2½ days before and after these periods or within that range.

Harry O. had trouble in Areas 8, 9, 10; said he was getting splendid results using Green, also Lemon Systemic and Yellow on 8, 9, 10 and Magenta on Area 4.

There being few case reports, the evening was spent on an educational program principally and to very good advantage, as attentive ears were in evidence.

The Deputy had Babbitt's book, "The Principles Of Light And Color" and spoke of the good work done by Babbitt as a forerunner to Dinshah's complete and exhaustive work in Spectro-Chrome Metry.

EDITORIAL REMARKS

It is advisable to tonate at one sitting either the Systemic or the Local. Alternate them either on different Favors or on different days.

There are numerous reasons for a Thermocept leaking. As now made, it has no rubber rings, because that item was found unsatisfactory in conjunction with glass and metal. The expansion and contraction of the two did not coincide and trouble resulted. The best results were found with non-drying, elastic cement. However, many users continue the Irradiation beyond the Favor hour, the water partially boils out of the Thermocept and part of the cement drying more than another starts a leak on the next run. Making the Thermocept leakproof is a "tricky" process and we recommend Purchasers not to endeavor to use it except in accordance with the directions given. A caution may well be minded. Do **not** tighten or loosen the screws. They are for holding the rings in place and have no relation to tightness or looseness. The best we recommend is to return the defective auxilliary to the Plant by prepaid express or parcel post; there the trouble

will be remedied free of charge. The best liquid to use in the Thermocept is Distilled Water, such as is used in storage batteries. Glycerine, if not chemically pure, soon decomposes by the chemical action of certain Attuned Color Waves and the discoloration ruins the effects of the Spectro-Chrome. Use discretion. The maker of Spectro-Chrome is near to his product and is more than anxious to serve the public. Do not use the Spectro-Chrome without the Thermocept. You will endanger the Slides.

Pyorrhoea owes its main origin to kissing on the lips. The exchange of sputa and consequently the transfer of fermenting particles of food from the crevices between the teeth is a fertile cause of this common Disorder. Use Manjan for cleaning the teeth and gums after each meal and gargle the mouth and throat with a tumbler of warm water in which is dissolved a spoon of Lavan. Lemon Systemic Front and Indigo Atcowa on Area 1 may well be used. However, for permanent Remedy the stated cause must be removed. The same remarks may well be applied to Ulcerated Gums and Gingivitis.

All Affiliates should study the Spectro-Chrome Metry Encyclopaedia. Its investment will benefit for life. It is our "Bible", "Veda", "Koran", "Gita", "Talmud", "Gurugranth", "Avasta" and the like all in one!

Dr. Edwin D. Babbitt's "Principles Of Light And Color" was rejected in Spectro-Chrome Metry, because of the incorrect Primary Colors. Dinshah reproduced it by Photo-Engraving, at great cost, solely to prove the comparative value of his own system. However, it was Babbitt's work which started him thinking and he always expresses the highest regard for that master mind, to whom he owes a great debt of honor and to whose name he pays open homage. Our Affiliates may have that volume at the reduced price of $5.00 plus 50 Cents for postage and handling charge. A study of Babbitt will prove of value.

FIRST WILMINGTON DELAWARE PLANET

(BROWN'S PLACE, S. W. Corner, 23d & Washington, WILMINGTON, DELAWARE)

Meeting Of Thursday, December 2, 1937

Reported By:—FREDERICK A. BRUNCK, *Recorder*

Deputy Howard R. Ingram was in the chair.

The Deputy read a leaflet, which he received on one of his recent visits to Malaga, N. J., about the new fireless, electric cooking utensil, the "Vinag" and Dinshah's "Dime-A-Meal" which will make a meal for 3 persons. It is claimed to take only about an hour or less to prepare the meal and that any person, even a child, can prepare it.

A general discussion followed about progress reports which are being sent to Dinshah in reference to progress of their cases and that several writers are not quite satisfied with the reply of Dinshah, which in no case is more than 5 words and yet each time a report is sent, it has to be written in ink and the complete history from "A to Z" repeated, no matter how many reports were sent before. The feeling among the Affiliates seems to be, that it should not be necessary to state the complete history time and time over again, because it is felt, that those reports are kept on file and a repetition would be superfluous.

Severe criticism came forth in respect of replacement cost of Slide-Carrier Seals in case of breakage. Since the Slide-Carrier with the Attuned Color Wave Slides is personal property of the Purchaser of an Equipment, it cannot be quite understood why Spectro-Chrome Institute should have any jurisdiction over the Seals. No doubt it would be quite appropriate, if the Institute should be loaning or renting the Equipments retaining its ownership, to place a penalty for violating of any Seals, for example like electric meters and gas meters. Furthermore, it is not quite clear in everybody's mind the reason for the Seals in the first place.

The above discussion and criticism should be looked upon as entirely constructive rather than destructive and it would be well if it were discussed and printed by Dinshah in the proper manner, so that other Affiliates, who are hundreds of miles away and are probably harboring the same questions in their minds, would be benefited by his answers.

A question, whether Dinshah would be willing to write a column in the Wilmington Sunday Star, if the newspaper would accept it was set forth and unanimously accepted. This newspaper is an independent one and enjoys a large circulation all over Delaware.

Such writing will give people another means of knowledge about Spectro-Chrome Metry—his origination.

The Deputy reported he was called to see a man R., who had a Heart attack. He explained Spectro-Chrome to the Sufferer and believes R. will buy an Equipment in the near future. The Deputy also reported of a girl having Mastoid Disorder and having no sleep for 3 or 4 days on account of severe pain. An Equipment was rented and before the first Tonation was over, the girl was sound asleep. Atcowa Turquoise was used.

The Recorder reported his 7 weeks old daughter was very badly choked in the nasal canal and throat and that she could get only very little air and therefore the breathing was very difficult.

Tonations of Turquoise were used and before three quarters of the hour (very first) had elapsed the baby was sound asleep and rested peacefully through the night. The Tonations were continued until every sign of that Cold disappeared; only 8 or 9 Tonations were required to normalate the case completely.

The Deputy reported of a girl having a brush bristle under her thumb nail. The girl went to a hospital where the bristle was removed and also with it half of the thumb nail. This was naturally very painful and swollen. Atcowa Turquoise after 2 or 3 Tonations relieved the condition.

EDITORIAL REMARKS

Although it is outside of the objects of the Organization, to introduce queries about the commercial aspects of Spectro-Chrome Institute, at Planet Meetings, we do not hesitate to clear the incorrect viewpoints.

The General Advice Charts are not all examined by the same staff member. Thus, it is necessary that each Chart be complete, to save constant references and cross-references. Furthermore, all our troubles in the past were through persons who were supposedly our best "friends". (?) Thus, to maintain our legal and moral neutrality and to prevent any possible frameup, we leave no loophole, by making each Chart a complete document. We know not when such a Chart may by some crooked person be called before a Tribunal Of Law and although **we know** all about a particular case, without a complete story on the face of the Chart, it would have very little legal value. We had plenty of bitter experiences in the past and should we not profit thereby, we should be wanting in common sense. We take no chances on the liberty of the Originator and thus trust nothing to speculation. Be therefore satisfied with the Free Service you are getting and quit the grumbles, because the Originator will never turn from the track of service as set by him. He will serve according to his own ways, where wisdom proved them in the past to be his protection.

It were better, in fact it is needed to have names before answering "severe criticisms". The Recorder is requested to write always with the names of questioners and critics, as we shall not answer stone-throwers in the dark. We answer openly and while we respect constructive criticism, we desire not to be the target of curiosity mongers. If names be not given, "queries and criticisms" will receive no elucidation. In this case, however, we give the reply openly about the Seals. The Equipment including the Slide-Carrier, is certainly the absolute property of the Purchaser, by Bill Of Sale issued. He may do what he pleases with even the Slide-Carrier, but, that Slide-Carrier

has in it Slides which mean either life or death to some unwary subsequent buyer, if the original Purchaser should through dishonesty extract the genuine Dinshah Spectro-Chrome Slides and substitute fake pieces of untuned glass. **To protect the public** and to place a check on spurious imitation and dishonesty, we introduced the Sealed Slide-Carrier. The Purchaser buys our merchandise, but can not make us shirk our moral responsibility. The appalling trickery practised in the past by some of our own Diplomaed Graduates is indescribable and when we look to our unsullied record for integrity of purpose, we have every reason to maintain it. Since the introduction of the Sealed Slide-Carrier, that crookedness is checked and the Purchasers should thank us for such stringency, instead of smarting under the $10.00 penalty for violation of Seals. Let us state here that even with the payment of the $10.00, we make very severe inquiries before accepting the explanation for the violation. The penalty should be $90.00 instead of $10.00! If the Purchaser has no dishonesty in mind by violating the Seals, what will be the reason of the squawk? Why violate?

Instead of wasting time on such useless matters, if the Planet Affiliates will study Spectro-Chrome Metry Encyclopaedia, they will be better benefited. A thorough grasp of our Science will be more to their advantage in removing potential doubts and mental reservations. Our Science of Spectro-Chrome Metry is so radical and opposed to the commonly accepted theories, that no Wilmington Delaware newspaper will agree to admit it to its columns. American newspapers—even though liberal—are controlled by definite interests and all these suggestions which to your Planet appear novel and attractive, are old news to us and the Originator, who tried all those ways.

Friends, take our well-meant advice. Stop all argument and commence a course of study from our text books. Send your suggestions by all means, send your complaints assuredly, but **stop** being Doubting Thomases before completing the study. Above all, let each person mind his own business. Neither your Planet nor the entire Scientific Order Of Spectro-Chrome Metrists, has any say whatever in the conduct of Spectro-Chrome Institute. Study Rule 36 for better and clearer comprehension.

NOTICE ABOUT DIME-A-MEAL SALES

A number of our worthy friends sent for $1.00 packages of *Dime-A-Meal*.

The remittance had to be returned because *Dime-A-Meal* is usable only in the VINAG. (Refer Page 2293). Kindly note this. *Dime-A-Meal* therefore will be sold solely to purchasers of Vinag, as without the Vinag, satisfaction may not be had in the cooking.

Should any order for *Dime-A-Meal* be received from a non-Purchaser of Vinag, Lavan will be sent for the amount remitted. Price $1.00 per carton, post free in the United States Of America.

SPECTRO-CHROME SMILES

Viewpoint—"My wife had 4 doctors. They told she has a germ which travels thru blood stream, clogging blood much, causing intense pain wherever it hits."

Smile—"Send in a Marine to hunt the germ."

Viewpoint—"I laugh a good deal now."

Smile—"Go to a Medical Doctor to stop it."

Viewpoint—"His Backelim is 1+2 times in one day."

Smile—"Report when he has it 3—3+2 raised to square."

Viewpoint—"Drinking Intoxicants? Yes, half quart milk a day."

Smile—"Was there whiskey in the cow?"

Viewpoint—"I irradiated the Sufferer with Systemic Lemonade, Front and Back."

Smile—"Next time give her Chaval Front and Dal Back."

Viewpoint—"I had a date with the Dentist".

Smile—"What is her name?"

Viewpoint—"My left ear has bad odor."

Smile—"Make it fragrant with Otto Of Roses."

Viewpoint—"She don't get the frog in the throat so much."

Smile—"Push in a snake."

Viewpoint—"Fever starts in the stomach rushing through my back, going to my head, ending with little sweat around my nose and forehead."

Smile—"It is on a joyride through the anatomy."

Viewpoint—"I eat gapes."

Smile—"At supper eat a few yawns."

Viewpoint—"I took each color slide."

Smile—"Next time use all Slides together."

Viewpoint—"I am all raw inside."

Smile—"You need some cooking."

Viewpoint—"I took needles and oil."

Smile—"Drink scissors and milk."

Viewpoint—"He eats olive oil, chaval, dal, lemonade."

Smile—"All right, but, if he does not improve, he may add some croton oil to the lemonade."

Viewpoint—"I send you all what I suffer."
Smile—"Thank you, but, better keep it yourself."

Viewpoint—"Number and Street Mrs. Tertha Burner."
Smile—"It must be some funny street."

Viewpoint—"Mother still comes out of the sore."
Smile—"It will normalate when father comes out."

Viewpoint—"I use Systemic Lemon, Local Front."
Smile—"Change it for Local Back."

Viewpoint—"The pain is on the top of the right head."
Smile—"Wait till the left head and tonate at 'Boob' Chronos."

Viewpoint—"She can not stand on her leg."
Smile—"Try standing on the head."

Viewpoint—"My father drinks Bear."
Smile—"A Giraffe would be better."

Viewpoint—"I take Lemon Aide."
Smile—"Take with an Aide-de-camp".

Viewpoint—"He gained weight when he did not have pains."
Smile—"They must be labor pains."

Viewpoint—"His Frontelim is real white."
Smile—"He is milking."

FIRST DETROIT MICHIGAN PLANET

(HOTEL TULLER, DETROIT, MICHIGAN)

Meeting Of Thursday, November 4, 1937

Successful Use Of Spectro-Chrome In:—Chicken Pox, Hives, Cold Sore, Warts, Pain, Swelling, Arthritis, Stomach Cancer, Constipation, Skull Fracture, Tuberculosis.

Reported By:—GLADYS CLARK, *Recorder.*

Deputy L. Roy Dodman was in the chair.

The Deputy read communications from Spectro-Chrome Institute and stressed the fact it was again time to remit our Annual Fee, as Affiliates of Scientific Order Of Spectro-Chrome Metrists to receive the 1938 Favorscope; also to be sure to send an extra 25 cents for registration to secure against loss through the mail.

He read from the paper of Dinshah's undaunted spirit in continuing his campaign for Governor Of New Jersey.

The program for the 17th Annual Convention to be at Milwaukee, Wisconsin was read.

It was a pleasant surprise to all to know that we may be able to read a weekly health talk written by Colonel Dinshah, under the heading "Family Health Protector" in "The Record" printed in Bridgeton, New Jersey. A number of our Members will be subscribing for The Record.

Albert G. and Jessie N. were elected by unanimous vote as Delegate and Alternate Delegate to the Convention.

Jessie N. reported a case of Chicken Pox. She used Orange to bring out the spots, then Green, Turquoise, Blue and Indigo.

Sarah C.'s nephew had a bad case of Hives. Only 2 Tonations of Turquoise were necessary.

Selma V. tonated with Turquoise a Cold Sore for about 15 minutes, during which time her hand (which had a Wart on it) was also exposed to the Turquoise Atcowa. Both the Cold Sore and the Wart disappeared.

Another Affiliate had a similar experience with Warts.

Elisabeth G. reported a boy fell down an embankment, about 10 feet. His face and knees were swollen and bleeding. He was brought home after 6 hours; he was given 1 Tonation of Indigo. All Pain and Swelling were gone the next morning leaving no marks.

Albert G. reported a man with Kardoscil of 44. After 4 Tonations of Magenta on Area 4, now it is 58.

Irene K. said her mother had been in bed 1 year with Arthritis and suffered untold agony; she was being fed then through a glass tube milk and eggs and Backelim was almost impossible. She had no use of her Body whatever. Since using Spectro-Chrome, she is well and has no pain at all. She tonated her with Green in the morning and Red in the evening and they are so thankful for the help given. They are on Rational Food Of Man. She also had a severe Head Cold; she had 1 Tonation of Lemon and after 4 hours all trouble was gone.

Cecilia D. said Spectro-Chrome should be proud to have such an Affiliate as this girl and of the remarkable way she cared for her mother during her long continued illness.

Elisabeth G. reported a case of Cancer of the Stomach which was to be operated at a cost of $600.00. The Sufferer was in a serious

condition. Had Backelim once in 6 days. He tried Spectro-Chrome, had relief from Constipation and was much improved. After 2 weeks, Kardoscil 78, Spiroscil 18. Green is being used.

Neva C. said her son of 17 fell on cement and fractured his skull. Was taken to Hospital unconscious. X-Ray picture was taken. She was not satisfied with progress in Hospital and took him home next day. She used Green once a day and Magenta on Areas 4 and 18 three times a day for 3 days, then Yellow on Areas 8, 9, 10. One week of Turquoise Systemic and Magenta on Area 4, three times a week for 3 weeks and occasionally Orange on Areas 8 and 9. At the beginning, his Kardoscil was 58 and Spiroscil 22. Now Kardoscil 72 and Spiroscil 20. They are very much pleased with the results and he is able to eat food now that he never could eat before.

Norris DeC. then continued the educational program on "Blue And Its Attributes".

The Deputy then spoke of the effect of Blue on the Pineal Gland.

At the last Meeting, Albert G. presented each Affiliate with a typewritten question sheet on the Tonation of a certain Disorder, which was to be answered and handed in at this Meeting. About 60 per cent. of the answers were correct, indicating their good judgment.

I also want to tell you that the case of Tuberculosis of which I took care, passed an O. K. Test through the Board Of Health. The Sufferer already gained 26 pounds. The case was of nearly 20 years' standing. She has had not more than 6 weeks of Tonation. This is the case reported in the July 1937 Spectro-Chrome.

Sundry other cases were reported by Michael R.

EDWARD A. ERNEST AND LUCILLE J. McGRAW ACCUSED OF PATENT VIOLATION

On Saturday, November 27, 1937, Dinshah P. Ghadiali, filed a suit in the District Court Of The United States Of America. For The Eastern District Of Wisconsin, in Milwaukee, Wisconsin, for acts of Infringement of his Patent Number 1,544,973, for certain new and useful improvements in Color Wave Projection Apparatus, against Edward A. Ernest, trading as Ernest Distributing Company and Lucille J. McGraw, both residents of Milwaukee, Wisconsin. The Bill Of Complaint asks for a Restraint Order and damages created by the alleged Infringement. Full text will be published in the next issue.

FIRST ST. LOUIS MISSOURI PLANET

(HOTEL MELBOURNE. ST. LOUIS, MISSOURI)

Meeting Of Thursday, December 2, 1937

Successful Use Of Spectro-Chrome In:—Measles, Fever, Cold, Pleurisy.

Reported By:—CHARLES H. STIERMANN, *Recorder*

Meeting was called to order by Sub-Deputy Josephine M. Sweeney who presided during the absence from the city of the Deputy Clemens M. P. Neumann, to attend the Seventeenth Annual Convention, in Milwaukee, Wisconsin.

As the next meeting would be in 1938, the need of having the Affiliation Card for the year, was emphasized, as in the event of not possessing the Card, their hopes of attending the Meeting would be completely shattered. All were advised to make application immediately.

Article Number 2 of Dinshah's "Family Health Protector" appearing in "The Record", was read to give an illustration of their quality and prove their value to those who might wish to subscribe.

Harry O. wished to know if any tremendously ill effects would result if a person took a Tonation erroneously, during an Eclipse Period. Advised that it would play more havoc with a person seriously ill than a person mildly so, but as there is always a disturbing factor in the forces of Nature when an Eclipse is in evidence it is better to guard the folly of such error. The human being is a part of the Universe and though a minute part, it is logical to presume an Eclipse would disturb his or her balance due to such forces.

Remig S. brought a sample bottle of Glycerine he had used in the Thermocept of his Spectro-Chrome and though purchased as "chemically pure Glycerin" and clear in color, it was now a decided amber color. He felt that due to the fact that the rays passed through the fluid and in the process of tonating there was a hampering effect on account of discoloration. He expressed a desire to have an opinion from Colonel whether there would be a lessening effect in the quality of a Tonation where the above condition existed. He now uses water due to such anxiety.

Peter B. reported daughter sick; case of Measles, Fever 102 Degrees, Ratio 116 to 18. Atcowa Green Systemic, Magenta on 4 and 18, Yellow 8, 9, 10 irradiated and normalated. Throat sore, but this seems to be from coughing rather than Sore Throat condition. Advised to use Turquoise Area 3 for further Tonation.

Reinhard R. normalated a Cold in head and loss of appetite by tonating with Atcowa Turquoise on Areas 1, 2, 3 and Orange on Areas 8, 9, 10. Three Tonations performed complete Normalation.

Rosa H. said she had a Cold and found a terrible burning sensation in the Throat. Her Heart kicks up a row also. Could not determine whether burning sensation was what was commonly called Heart Burn. Advised to take Ratio and use Magenta if anything seemed amiss in Area 4 as an equilibrating agent.

Alexander B., a new Affiliate, wished to know if any good results might be had by tonating out of Favor Period; also if more than two Tonations a day would prove of greater benefit. Informed that the Spectro-Chrome Home Guide said that results may be had, but, Favor Time was urged as the favorable time as the term aptly implies. Told that in the case of severe Burns, wounds and injuries with bleeding immediate tonating would bring relief, but resort thereafter to Favor Period for pronounced success. He was advised to give Nature time to adjust and recover. Two Tonations a day were ample and that the vital organs would become normal as the Auric Vehicle performed its functions better resulting from Tonations. He also asked if generally speaking we were not inclined to eat too much. All agreed. The food we assimilate gives us the chemical fuel so necessary to carry on. The excess amount frequently retards digestion and hampers health building. In this connection, the Sub-Deputy illustrated how when awfully tired she made a glass of Lemonade (Dinshah Style) and would have a wonderful pick-up in energy that would carry her on for hours.

She said that so many Affiliates do not realize the need of seeing the Ratio between Kardoscil and Spiroscil as in proper order. At the sign of any Disorder, in any Area, however slight or severe, there has been some disturbing cause and as Area 4 must be in perfect balance, Magenta should be used on Areas 4 and 18 along with Atcowa necessary for other Areas at fault. She reported the wonderful effect in recovery her husband secured with the use of Spectro-Chrome. He had a stabbing Pain in the right side. Could not breathe. Condition Pleurisy. Atcowa Turquoise was used and before the hour was up, had relief from the Pain. Successive Tonations completely normalated the Disorder.

The 31 Axioms of the Home Guide were read. That is, we went fairly along to that end, as discussion came in from time to time, just what was desired as we are aiming at a better and more thorough understanding on the application of the rules governing the Science. They are all in the Home Guide, but to read, absorb and apply is the thing necessary.

Smoking again came for discussion. The Planet Members wondered how the Government let the cigarette manufacturers get away with the advertising matter they employ. On the face of it, it is false and misleading, driving many unsophisticated to slow destruction and perdition. Yes sir, it is a great life! One must be of good heart and great courage when one sees the appalling things permitted without any effort to curtail or prevent.

EDITORIAL  REMARKS

The Favorscope is built upon the motions of the Sun and the Moon, in accordance with their Radiant, Gravitational Influence upon the Earth coinciding with our Vital Vehicle acting on the Breathing Processes. During an Eclipse, the Radiant Gravitational Influence is naturally disturbed, the effect of which unbalances the Breath. This in turn reacts on the Element Chemistry of the Human Body. The Occult Operation Of The Great Sympathetic Nervous System, although explained so clearly in our teachings and textbooks, is to the uninitiated still a mystery. More they can not understand, because of their limited comprehension of the magnitude and depth of the Science. There is very much yet which Dinshah knows, but dares not expound, because the World in general is not ready for such knowledge. The time may come soon though, when his sons grow into teachers themselves. Our advice in the meantime is, follow directions and do not fool around with the complications, because you do not realize any visible or tangible harm. Study.

The explanation about the Thermocept was given in the prior month's remarks after the Planet report. Use Distilled Water.

Results may be had "out of Favor Period Tonation", but never the precise results for which Spectro-Chrome Metry stands unrivaled.

For the filth and horrors of Tobacco Smoking, read Chapter 78, Volume 2, Spectro-Chrome Metry Encyclopaedia. President Franklin D. Roosevelt talks about the Seven Billion Dollars spent by Government annually for running the show of the administration. The amount of money spent by senseless Americans in Smoking and Boozing, amounts each year to more than $7,000,000,000.00. Were those two poisons cut off, there would be no depression, no poverty, no crime, no dole, no relief, no heavy tax, no sickness, practically a really utopian era would dawn. The Democrats kicked Prohibition from its enforcement—they got on their heads the curse of all future generations. Until Smoking and Boozing be stopped, the health of the Nation and its morality will NEVER be worth any consideration. The

only way to accomplish such change is Educational and NOT Legislation. Our Congress will NEVER do it, because it has no high calibre brains and less of high principles of Altruism.

To accomplish their aims in getting the votes of non- thinking, easily-led, sheepish people, the Democratic Party set up the war-cry that Prohibition was the cause of drunkenness on the increase and the overflow of bootlegging. How false that view was is shown in the recent Annual Report of Attorney General Homer S. Cummings. It discloses that more persons were sent to prison for Federal Liquor Law Violations last year than in any Prohibition year! In the fiscal year ending June 30, 1937—5,390 persons were committed to imprisonment, whereas during 1932, the highest number in Prohibition years was reached as 5,045. Those who killed Prohibition to gain their political end, will pay a heavy Karmic Penalty to the Higher Powers Who watch our entities. They ruined the country and debased, degraded and demoralized the youth of the Nation. Intoxicants are our curse and a Government selling such liquors is bound to suffer.

FIRST DETROIT MICHIGAN PLANET

(HOTEL TULLER, DETROIT, MICHIGAN)

Meeting Of Thursday, December 2, 1937

Successful Use Of Spectro-Chrome In:—Hemorrhage, Anal Rigidity, Enlarged Tonsils, Leucorrhea, Leaky Heart, Stomach Disorder, Acute Influenza, High Fever, Cancer, Paralysis, Athlete's Foot, Stomach Ulcer, Constipation, Amenorrhea, Birth Injuries, Placental Retention, Labor.

Reported By:—GLADYS CLARK, *Recorder.*

Deputy L. Roy Dodman was in the chair.

Ida A. said she had a Hemorrhage, fainted and fell on the floor; was later found by her husband. A Medical Doctor was called and she was given Injections of Iron which made her ill. After 3 or 4 days, the Doctor wanted to operate. He called for 8 days. Each call meant more Pills and more Medicine. Her husband was advised to call her relatives and friends as she could only live a short time. In the meantime, her husband was studying the Spectro-Chrome Home Guide and also beginning to realize that the Medicine was doing her no good. So he tried Spectro-Chrome. She was so pleased with the results, that she made an effort to come to our Meeting, just long enough to make this report.

Rudolph S. reported his daughter was born with a Tight

Rectum. The Medical Doctor in charge suggested an operation; Backelim was very painful. Yellow was used for 2 weeks and the child is all right now. He considered it a miracle. Another daughter whose Tonsils were enlarged and infected used Green for cleansing and Indigo for shrinking. His wife had Leucorrhea; Indigo was used which cleared the trouble.

Amy R.'s nephew had a Leaky Heart and Stomach Disorder; Four Tonations of Lemon were used. Is much better.

Peter D. reported a child with Acute Influenza; Temperature 106 Degrees, Kardoscil 120, Spiroscil 22. Three Tonations of Turquoise and 3 of Magenta were given and the child was all right.

Alfons M. reported a case of Cancer and Paralysis. Could not walk, was sick 2 years. Has been using Yellow on Areas 8, 9, 10 for 2 weeks and now walks.

Anna H. reported a case which was under a Medical Doctor's care for 2 years. The Sufferer was losing weight and becoming worse. Was given Shots of Thyroid. Kardoscil was 48, Spiroscil 12. After the first hour of Magenta on Area 4, Spiroscil was 58, second hour it was 60. Green, Yellow, Lemon and Magenta were used and they are happy over the results.

A little girl had been under the Medical Doctor's care since last June for Athlete's Foot at home and in the Hospital. Used Lemon, Orange and Turquoise on her feet with gratifying results.

Elisabeth G. reported a woman with Ulcer of the Stomach. Constipated, very nervous and Menstruation had stopped. Had 3 Tonations of Green. Constipation is better and Menstruation restored.

Gertrude R. suffered for 1½ years from Stomach Disorder. Had 3 Blood Transfusions. Has been using Spectro-Chrome Yellow which is causing much pain. Suggested to try Green.

Jessie N. reported a boy with infected Tonsils. Green and Indigo were used. The Medical Doctor was amazed at his improvement.

Lucille G. reported a baby delivered by instruments; the mother was a trained nurse. Its head was so disfigured and bruised they thought it would die. It had several Fits and was Constipated. Under Spectro-Chrome, the head injuries entirely disappeared.

The Recorder reported a woman developed a severe case of Hemorrhoids. Before the birth of her baby and after they were much worse; only a part of the Placenta came away. The usual Medicine was given but after 3 days there was still no change. Spectro-Chrome

was taken into the home and 15 minutes after 1 hour of Scarlet was irradiated, the remaining pieces of the Placenta were expelled without trouble. Three Tonations of Indigo for the Hemorrhoids were used. They completely disappeared. The Doctor had spoken of taking her to the Hospital for correction of her trouble, but it was not necessary.

Jennie M.'s husband was sick for 3 or 4 years. Perspired very easily, was weak and tired. He used, Green, Orange and Magenta.

Aquila M.'s daughter was tonated for 2 months before her baby was born (this being her first child), with Yellow, Green and Magenta. The last week Scarlet was used three times. After Labor started, Scarlet was used again and then she was taken to Hospital. She went through well and in much shorter time than expected. He wants Dinshah's opinion on Circumcision and will abide by it.

Albert G. spoke of his visit to the Convention at Milwaukee, Wisconsin.

Jessie N. expressed her regret that she was not able to attend owing to a death.

Many are having trouble with the Thermocept in their Equipment leaking and want to know what can be done for it.

Jessie N. continued the educational program of the Planet by reading from Spectro-Chrome Metry Encyclopaedia on Turquoise And Its Attributes".

Albert G. commented on the work done in the Planet in the past year and reminded us again about the Dues for the coming year.

EDITORIAL REMARKS

About Gertrude R. your Report says, she "had three Blood Transfusions." Her Chart read, "They WANT to give me 3 Blood Transfusions." She wrote to us thrice, each time incomplete. We depend on the Chart and if the wrong story be given, we can not give the correct Free Guidance. At first she wrote about having 1 Backelim in 6 days. Now she writes "too much Backelim". She wrote us about having 10-12 in a day. It is evident that she needs interview by the independent Field Solicitor who sold her the Equipment, in order that she may have some personal help. We are anxious to serve and give Aid and Relief, provided co:operation be secured from the Purchaser's end.

Scarlet was rightly used in the case of Placental Retention. However, it must be emphatically borne in mind that Scarlet will act where there is something to expel and the Uterus is ready to expel it.

Waiting for 3 days and permitting the hazard of the Cervix contracting, is not a proper method. Further warning may be given to Spectro-Chrome Normalators. Do **not** have anything to do with such and other cases where a Medical Doctor is having his own way. If good occurs, he will take the credit and if anything untoward happens, the blame will be thrown on Spectro-Chrome.

Aquila M. was not right in using Scarlet "in the last week" of pregnancy. Scarlet acts upon a gravid Uterus solely when the Cervix is opening and the Fetus is ready to emerge. Scarlet if needed, should only be irradiated when Labor is in that particular stage. In all cases wherein the Medical Doctor depends on the poisonous Ergot, Scarlet is supreme. There is nothing like it for promptness and safety and it is one of the more valuable accomplishments of Spectro-Chrome Metry, from which generations to come will reap the benefit.

Circumcision is positively contrary to our views. In ancient times, when the males went to war and were slaughtered, the females being left unprotected, the Prophets permitted Polygamy. However, as there were no sanitary systems in those days, it was found that the exudations of the contact of a man and a woman might be transferred to another woman and might endanger her health, so the Prophets advocated and ordered Circumcision. (See Holy Bible, Leviticus, Chapter 12, Verse 3.) At that time, however, the men wore long flowing robes, so did not much feel the after effects by the unprotected Glans Penis. In modern times, wearing tight trousers, the uncovered Glans frictioning against the cloth, is liable to maintain an undesirable titillation, resulting in more undesirable sensual thoughts. The Originator of Spectro-Chrome Metry was elected in 1920, as a Member of the American Association Of Orificial Surgeons, which advocates Circumcision, but he is personally strongly opposed to the procedure. The Foreskin of the Area 11 has a distinct purpose during Sex Congress and its removal is not conducive to the proper performance of that sacred function. Refer to "American Sex Problems", by Dinshah, Chapter 44. What God made, keep and use righteously. Have nothing to do with useless, destructive Surgery. Each time one passes Frontelim, wash the Glans; teach the boys cleanness of habits.

Information about the Thermocept will be found in another part of this issue.

Many sent the Dues late and got the Favorscope and Affiliation Card late. Our records are clear to date.

Man Blames God For One's Own Errors,
Did God Impel Him To Do The Wrongs?—Dinshah

FIRST MILWAUKEE WISCONSIN PLANET

(HOTEL WISCONSIN, MILWAUKEE, WISCONSIN)

Meeting Of Thursday, November 4, 1937

Successful Use Of Spectro-Chrome In:—Appendicitis, Dry Catarrh, Head Noises, Melancholia, Dyspnea, Rash, Blood Poison, Gangrene, Eczema, Mastoiditis, Arthritis, Prostatitis, Mucous Colitis, Cough, Arsenic Poisoning, Heart Disorder, Cardiac Palpitation, Epilepsy.

Reported By:—CAROLINE ZIMMERLING, *Recorder*

The Deputy read several letters received from Spectro-Chrome Institute pertaining to the Convention to be held soon in our city and 1938 Affiliation Cards.

Delegates were appointed; Frank Burns, Delegate and Caroline Zimmerling, Alternate Delegate.

Circulars for the Convention were requested by numerous Affiliates for distribution.

The Deputy read from paper sent by Colonel Dinshah and also from Bulletin of the New Jersey League Of Women Voters.

Chapters 110 and 111 of the Spectro-Chrome Metry Encyclopaedia were read by the Recorder, on "Brain And Cranial Nerves" and "Great Sympathetic Nervous System."

Rose H. will read Chapter 112, on "Pillars Of The Temple Of Solomon" at the next Meeting.

The Deputy reported the following cases:

Marcella S., 18, two attacks of Appendicitis; 2 Turquoise Tonations Areas 8, 9, 10; normalated.

Frank S., 9, Dry Cattarh; could not breathe properly through nose for 4 years. Green, Lemon and Yellow Systemic. Now can breathe well.

John P., 41, Head Noises; Green, Lemon, Yellow Systemic and Magenta on Area 4. Excellent results, ordered own Equipment.

Mary F., 54, Melancholia, took overdose of sleeping tablets, but was brought back to life. Green, Yellow Systemic and Magenta on Area 4 for 1 month; now is normal.

Lydia S., 26, could not breathe well; tightness across chest. Green, Lemon, Orange Systemic and Magenta on Area 4 gave good results.

Cyril S., 7, was sent home sick from school. Medical Doctor

gave him pills, which made him break out all over his body by the next day. The Doctor ordered them to throw the pills away. A week later, Spectro-Chrome was used. Green Systemic, Yellow on Areas 8, 9, 10 used. Back to school now again, in 1 week.

A FAILURE! Boy blind and with Water Head (Hydrocephalus) for 4½ years. Two Tonations of Spectro-Chrome failed to normalate, so they stopped Tonations!!!

Affiliates reported as follows:—

Ida B. used Spectro-Chrome on father all Summer. Blood Poison from a rust scratch and had Gangrene in toe from horse stepping on it. Medical Doctor wanted to amputate. She put him on Spectro-Chrome and it healed beautifully. Had Indigo for Pain, then Green, Lemon, Turquoise and Magenta to heal. Her mother had results in a general way with Purple, Magenta, Green and Lemon.

William T. Whole family is feeling very well now. Boy of 4 had bad Eczema. All healed now; used Lemon, Yellow Systemic and Magenta (mostly Lemon).

Marie C. Nephew 5, hurt his knee. Green 3 days started moving knee; then changed to Lemon. O. K. now. Sister-in-law always felt as if Mastoid was pothering her since she used Spectro-Chrome. Purple used with good results.

Joseph W. reported that his Arthritis gave him no pain any more.

Anna V. has Equipment 3 years; had general rundown condition. Now is well and feels that Rational Food Of Man system is very important. Used Green, Lemon and Indigo for husband's Prostate Gland trouble. Good results. Treated a friend for Catarrh with Lemon and Turquoise; now is well.

Carrie M. removed a piece of hardened sebaceous matter (like kernel of rice) from beneath her eye with Green systemic only.

Marie C. used from Green down to Red and also Indigo for Mucous Colitis with excellent results. Followed proper Food.

Stephen L. asked for advice. He hurt his back and now his hands are like dead. Alice B. suggested Orange, the Deputy suggested Yellow and Orange alternated with Magenta on Area 4. Stephen L. also made the suggestion that people reporting cases should specify the number of times they used each Atcowa.

Anna B. gained in weight since using Spectro-Chrome. Husband, 48, had bad Cough. Turquoise and Lemon; now entirely right.

Marie B. asked about Bed Wetting in a boy of 11. Lena H.

suggested Ultra-Green and later Indigo, because she had results in a case with 6 of each Atcowa (this was in the case of a boy of 16 who had this for 6 years).

The Recorder reported her own case of Arsenic Poisoning with resultant Heart Disorder 4 years ago. Used Green only for 1 month, then slowed heart action with Purple. Perfectly normal heart now, whereas the Medical Doctors said the heart would never be normal again!

Anna H. used Purple for Heart Palpitation in her brother. Scarlet, Magenta and Yellow for Stomach Disorder also in him.

The Recorder stressed the importance of using Magenta in cases of common Cold.

Anna H. had an epileptic girl; 2 Tonations and she felt much better and had no more attacks since using Spectro-Chrome.

FIRST MILWAUKEE WISCONSIN PLANET

(HOTEL WISCONSIN, MILWAUKEE, WISCONSIN)

Meeting Of Thursday, December 2, 1937

President Dinshah Visited The Planet

Reported By:—CAROLINE ZIMMERLING, *Recorder*

This Meeting of our Planet opened with Deputy Otto H. Lutz in the chair. He read from "Good Thoughts" by Dinshah.

The platform was then turned over to Colonel Dinshah for the evening after Alma Horwath read Chapter 112, of Spectro-Chrome Metry Encyclopaedia, on "Pillars Of The Temple Of Solomon."

The first thing the President did upon taking the platform was to give the Affirmation Of Installation to Frank S. Burns, who will take over the Deputy's office of this Planet starting in January 1938. Frank S. Burns succeeds the present Deputy, Otto H. Lutz, who was promoted to Second Vice-President of the Scientific Order Of Spectro-Chrome Metrists.

Caroline Zimmerling was re-appointed Recorder, for the year 1938. The President spoke highly of the work done by the retiring Deputy and the Recorder.

Dinshah opened his discourse with an explanation of the Annular Solar Eclipse which was just about ending at the time he was speaking. He spoke a little of the phenomenon of the Eclipse and the

effect of the Sun, Moon, and Planets upon our Bodies and also upon the Earth. He explained what actions and reactions occurred in the Human Being as a result of the action of these Orbs. He spoke also of the Breathing Processes of the Body and of the way in which all Nature rests between pulsations, giving the suggestion that the slower the Lungs and the Heart could be made to work the longer the life would be with us.

At this point, a deviation from the subject was made. Albert H. was asked by the President to tell what his reactions were to the Spectro-Chrome Institute at Malaga, New Jersey, when he attended the Resident Class given there last July. Albert H. said that he enjoyed being there very much and also enjoyed the company of the Colonel's family and everything about the place. He found all very interesting.

From this point, the President entered upon the subject of the Spectro-Chrome Radio Broadcasting Station, a potentiality, which may be known, when accomplished, as W S C I. He spoke of the advantages of having such station in the Service Of Mankind by giving free expression to the thoughts of anyone and everyone on subjects interesting to the general public. It may also be a wonderful help in giving prompt advice to Spectro-Chrome users by means of codes, etc. The tentative list of subjects to be embraced by this unique station was given in part and the principles of "no malice", "no partiality", "absolute freedom of speech" and "impersonal attitude" were discussed.

Another deviation came at this point when he asked Clemens N. of St. Louis to say a few words. Clemens gave his ideas favorably on the subject of the Radio Station.

The President resumed his address by telling how Syphilis can be "caught" without personal contact and how it is to be tonated by Spectro-Chrome. He also brought out the futility of the Sterilization of Criminals and the asininity of the Wassermann Test.

His entire discourse was enjoyed by the members of the Planet. It was delivered with his usual vigor, wit and humor and the Planet felt highly honored to have him there at this time. We hope he will come soon again.

The usual Colonial Room being considered too small to hold the Affiliates, the beautiful and commodious Gold Room of the Hotel Wisconsin was engaged for this special occasion. It proved a sensible move, because the Affiliates filled the room. The Meeting extended nearly upto midnight.
