HEART LEAKAGE NORMALATED

By:—LESLIE A. D., *Windsor, Ontario, Canada*

I would like to comment on what Spectro-Chrome has done for Mrs. P. When I loaned her my Spectro-Chrome a year ago, she was suffering from a very bad leakage of the Heart. Under the Doctor's care, she was living on Digitalis and taking two Strychnine tablets a day—**stronger** than the law allowed. She immediately stopped the Strychnine tablets and a week later, left off the Digitalis and has touched neither since. This Fall, she started to gain weight and seldom gets a pain in Heart any more.

Successful Use Of Spectro-Chrome In:—Poison Ivy, Cold, Cough, Lack Of Energy, Spinal Injury, Eczema, Goitre, Stye, Burns.

Spectro-Chrome Restored Sight In Woman Totally Blind 27 Years! Now Reads Newspapers!!!

Reported By:—SOFIE HALL, *Recorder*

Deputy Lucille E. Greenham was in the chair.

A letter from the Central Office was read in which they stressed the need of a careful study of the Constitution And Rules. Also, Colonel Dinshah is leaving for India next month and it is his earnest desire that those who wish to continue their Affiliation send in their Applications promptly.

The Deputy expressed the appreciation of the First Detroit Michigan Planet to L. Roy Dodman and Gladys H. Clark for the splendid work they did. She then introduced the new Planet Officers, Lucille E. Greenham, Deputy, Ralph Clark, Sub-Deputy and Sofie Hall, Recorder.

She called upon the Sub-Deputy to outline briefly to the Planet our trip to Milwaukee. He gave a very detailed account of the trip and the Affiliates listened intently.

The Recorder was next introduced and she spoke briefly of the duties pertaining to her Office and gave definite reminders of how essential it would be for each Affiliate to present the Card, properly signed by the Affiliate and not to embrass the Recorder by seeking admission to the Planet without such Card. It is hoped that every Affiliate will co:operate fully on this request.

The Deputy then gave a short talk on the educational program which the Planet Commission decided upon in order that our meetings may become not only interesting but educational. She stated that many Affiliates were lacking in Spectro-Chrome knowledge and it is the earnest desire of Spectro-Chrome Institute, as well as the Detroit Planet to see that such a plan is carried forward.

The Deputy asked for a show of Hands as to the number of Spectro-Chrome Metry Encyclopaedias among our Affiliates. Of those present, 27 Affiliates stated they had Encyclopaedias. She urged all the others to get it as soon as possible for self or some member of their family, so they may participate in our monthly Meetings. She also stated that Affiliates who sold Equipments should be sure to place them in the names of those who are best to understand the Science of Spectro-Chrome and also attend our monthly Meetings —this being a very important point.

The Case Reports were as follows:

Ellen H.'s 6-year-old son had a very severe case of Poison Ivy. Gave 6 Tonations of Lemon, then Turquoise and completed the Normalation with Indigo. In 10 days complete balance was restored. No Kardoscil and Spiroscil were given.

Effie D. had a Cold in which Coughing seemed to be the most annoying part. She took Orange Tonations and stated the Cold and Coughing are completely gone. There was evidence of some congested condition in Areas 4 and 5 in which Orange played the important part. No Kardoscil and Spiroscil were given.

John B. reported his young daughter had a bad Cold. He stated the Kardoscil was 102 and Spiroscil 19. Turquoise was given twice daily for 3 days. Fever went down and cold

was almost gone. Affiliate seemed very well satisfied with the work Turquoise accomplished.

The star case of the evening was that of Anna M. W.'s sister-in-law, 67 years of age, who also had a very bad Cold which had settled in her Chest. She was Blind for 27 years, as she was 40 years old when Blindness occurred, the result of an accident, in which she stated the Eye Nerves were paralyzed. She had given 60 Tonations in all for Normalation of this case. Such cases as this should hold an important position in our Spectro-Chrome magazine. In fact front page newspaper space should be given to this case, instead of war news and the like. For 27 years, this Sufferer was deprived of the most important of all the Sense Faculties, during which time she had to exist in complete darkness. Such lessons as these should be deeply appreciated by all our Affiliates in knowing that they have within their power the only safe and sane Healing System known to Man—Spectro Chrome Metry. While she has not complete vision, she is able to read newspapers and carry on her daily functions. Five Equipments were sold as a result of this one case.

Michael R. reported a woman, 46 years of age, very much run down. Kardoscil 86 and Spiroscil 16. Green and 2 Lemon Tonations were given and she is much better.

Mario T. hurt his Back; Vertebrae were out of position in three different places. He stated that he was too sick even to take his Kardoscil and Spiroscil. He was unable to work and Pain was so intense that he could not sleep. First Tonation of Turquoise he fell asleep while under the Atcowa and slept for three hours without waking. When he finally awoke, the Pain was gone and he went to work the next day.

Katherine W.'s son had a very bad Cold. Used Turquoise and Cold seemed to have become better. The child was then exposed again to a draft and the Cold reappeared. Used Orange and the Sufferer is now very much better. During these conditions of Cold, the child had difficulty in sleeping; also, Ringworm appeared on Hand of Sufferer. Lemon Tonations were given and condition is much better. Affiliate reported that she had a Growth on the Leg 15 years and it was very troublesome. She stated that Indigo removed it. Affiliate then asked about the Kardoscil and Spiroscil of a baby at birth and the Ratio in which they decreased.

Gladys C. was called upon to answer this question. She stated that in a newborn baby the Pulse Beat is between 120 to 140 beats per minute and of course the Spiroscil should follow the 4 to 1 or 5 to 1 Ratio.,

Gertrude J. had Eczema all her life. She appears to be between 25 and 30 years of age. She had used Green, Lemon and Turquoise with the best results for this condition. Medical Doctors were unable to do anything in this case and Spectro-Chrome proved her great blessing. Most of the Eczema disappeared, with just small portions of Skin around the Nose slightly affected. She praised Spectro-Chrome very highly.

Florence C. reported a bad case of Goitre. Kardoscil varied from 90 to 120 and Spiroscil 14. She now reported Kardoscil 87 and Spiroscil 17. She stated that she used Green and Indigo, which is evidence that the Affinity Waves are of great value.

She also reported her son had a Stye. Turquoise Systemic and Green Local were given. In the meantime, an Infection set in. Turquoise used without any great help. She was told to use Lemon and Magenta for Area 4.

Gladys C. reported her Hands were burned while canning. Lemon normalated this condition. She reported a case of Burns by Arc Welding. Ulcers appeared to develop as a result. Lemon normalated this condition also.

The Sub-Deputy was called upon to comply with the requests of Spectro-Chrome Institute and he read the Rules 1 and 2 from the Constitution and Rules of the Scientific Order Of Spectro-Chrome Metrists.

The Deputy then explained the best and most precise methods for speed in obtaining Free Guidance through the General Advice Charts and also explained the current ruling as to what constitutes the "immediate family".

The educational program was then given to the Affiliates. Two question were given: 1. What are the Primary Colors of Spectro-Chrome? 2. In what Glands do these Colors predominate? The Affiliates were urged to study their Spectro-Chrome Metry Encyclopaedia and report at the next regular Meeting with some competent Affiliate of the Planet assisting in the discussion of these two questions. A very earnest and intelligent audience was present. All seemed to appreciate the new Planet Commission.

EDITORIAL REMARKS

The new Planet Commission made a good beginning. Continue the educational work You will have our full co:operation.

Katherine W. will find in Spectro-Chrome Home Guide, page 62, the Ratio information she desires. Study of that 100 page book is all a family needs.

OUR TWENTIETH ANNUAL CONVENTION

Testimony To The Unrivalled Merits Of Spectro-Chrome

Uniformly Successful Normalation In Sciatic Rheumatism, Spinal Injury, Heart Disorder, Insomnia, Dizziness, Cystitis, Nephritis, Prostatitis, Catarrh, Glossitis, Chicken Pox, Wound, Heart Murmur, Paralysis, Pneumothorax.

Our Twentieth Annual Convention was held in the Milwaukee Auditorium, Milwaukee, Wisconsin, for three days, beginning Saturday, September 14, 1940 and two following days. The sessions had a satisfactory attendance and every event scheduled passed in perfect harmony. Each afternoon session opened at 2 P. M. and closed at 5 P. M., the evening sessions assembled at 8 P. M. and dispersed at 11 P. M. The Meetings were presided by Dinshah P. Ghadiali.

Promptly on the opening, the President called on the First Vice-President Jessie E. Ness, of Detroit, Michigan for a short address. She said in substance, "When I heard of Spectro-Chrome, I studied it and became a Graduate. I never regretted the step. I am sure you have similar stories to tell. Colonel Dinshah is a wonderful orator and scientist. I am going back to Detroit tomorrow night. I heard two Ocultism And Higher Life courses given by him. They gave me to understand how the hopes and ambitions of humanity are fulfilled. Nothing goes on and on. We must pass out of one life experiences to another. Such idea makes one feel well. Life has its tests; when the examination time comes, we have to go through it. The teachings are given and all profit by them. I profited materially by them. I wish that books on such subjects be published. All are circling along that line and have a craving for it; some are not ready for such knowledge; it is for the uplift of the human mind. I hope in Eternity. Spectro-Chrome Metry was given to the World by Colonel Dinshah, for its benefit and uplift. He had and still has many problems with which to contend. We must co:operate with him and stand by him 100 per cent. In my home in Detroit, Michigan, I have many Spectro-Chrome Equipments; in fact, I have all the models made by Spectro-Chrome Institute. There are many so-called "Light Machines"; they are imitations and are nothing compared to Spectro-Chrome. Colonel Dinshah found the true principles of Spectro-Chrome Metry." (Applause)

Dinshah then made a few remarks.

Around the middle of the afternoon session, a surprising incident occurred. Albert E. Greenham of Detroit, Michigan, entered with a delegation of 30 Affiliates. The Convention received the delegation from the First Detroit Michigan Planet with a round of applause and

fraternal greetings. On being introduced, Albert Greenham said, "It is a great pleasure to be one of a party from Detroit, Michigan, to visit this Convention. I attended many Conventions in the past, but, this is the most unusual. It is the first time in the history of Spectro-Chrome that 30 Affiliates attended a Convention as a group. We are proud of that. We are Spectro-Chrome enthusiasts, because, in Spectro-Chrome we have something with which nothing else can be compared. Colonel Dinshah is a very learned man. I came in contact with Spectro-Chrome 10 years ago. It is a complete Healing Art in itself. Modern Medicine is a hit and miss. Spectro-Chrome is a positive Science. It will stay as long as the Sun, Moon and Stars remain. Dinshah's lecture on Food is the most important of all lectures. 80 per cent. of the Affiliates fail to live upto it and if they do not get the expected results from Spectro-Chrome, it is not the fault of Spectro-Chrome. Rational Food Of Man is very important. There are many great things to come in Spectro-Chrome. There is one more thing about which I like to speak. There should be a Law to prevent menstruating women from handling food. It is not sanitary. The point was brought out in the manufacture of tubes for Radio work. They say that when 600 tubes were found proper, 400 were found defective, the professor who looked into the matter detected the cause—the faulty tubes were made by female mployees in their ovelim period! All such unrecognized matters were taught by Colonel Dinshah for years." (Applause)

Robert Schott asked the difference beteween Lavan and Store Salt. Dinshah explained that Lavan was the Sanskrit name for Salt and that it was the Trade Name for Salt from which nothing was subtracted and to which nothing was added. In fact, it was the All-Salt-Sea-Salt. Ordinary Salt is generally treated and thus either depleted or devitalized in quality.

L. Roy Dodman, the Deputy of the First Detroit Michigan Planet having resigned because of other engagements, Lucille E. Greenham was appointed the Deputy. Gladys H. Clark, the Recorder of the First Detroit Michigan Planet having resigned, Sofie Hall was appointed the Recorder. Ralph Clark was appointed Sub-Deputy of the Planet.

The Planet Commissions of St. Louis Missouri and Milwaukee Wisconsin were reappointed.

Dinshah stated that he would soon install a system by which Planet Reports may become simple and uniform. He then spoke about the new route he would be taking on his oncoming voyage to India, via Pacific Ocean.

Deputy Frank S. Burns being called on the platform spoke about the First Milwaukee Wisconsin Planet. He said, "The Planet meets each month 2 hours and we endeavor to teach the great Science

of Spectro-Chrome Metry. I have been the Deputy since 1939. I began to make it an educational institution. The attendance is always good, but I wish more Affiliates would come into the Meetings; it would be well worth their time, because they would gain knowledge. I tell you this that when you purchase a Spectro-Chrome you take a step in the right direction. I took that step in 1934. It changed my life in many ways for the better. I learnt from Colonel Dinshah many matters regarding the principles of Nature. If everyone will understand and follow the teachings of Spectro-Chrome Metry, the World will be much better. Nature's Laws are so strict, they can not be bent. They are unchangeable. However, the difficulty is, that you may be an enthusiast and yet fail to live upto the principles. By Spectro-Chrome living, you will have a longer and better life." (Applause).

Magdalene Arnold said that her husband had Sciatic Rheumatism for 2 years and had 8 Medical Doctors and was in 2 Hospitals. He used Spectro-Chrome for about 2 months and is in perfect health. (Applause). The President remarked she was a very modest woman and the audience enjoyed her talk.

Otto H. Lutz then gave some interesting case reports:—

(1)—A. A., woman, age 68. Fell over backwards and struck a chair. She was unable to walk erect and her back was black and blue. Atcowas Indigo and Orange Local and Green Systemic were irradiated and in 2 weeks her Back was well.

(2)—J. S., man of 61. Heart Disorder of long standing. He was unable to work for the past 2½ years. After 1 month of Spectro-Chrome, he went back to work. Atcowas Green Systemic and Magenta on 4 and 18 Areas were used.

(3)—J. G., man of 51. Run down condition; was unable to sleep properly. Kardoscil 54, Spiroscil 18. Felt very dizzy at times. After 2 weeks of Spectro-Chrome, he went back to work. Kardoscil changed to 70, Spiroscil came down to 16. Dizziness left completely. Atcowas irradiated were Green Systemic, Magenta on Areas 4 and 18.

(4)—A. T., man of 67. Bladder, Kidney and Prostate Gland Disorders. Could not pass Frontelim. Had tried about 5 different therapeutical systems and always had to use Catheter in the Genital. Had suffered for 2 years. Attuned Color Waves Orange and Red Systemic, Magenta on Area 4 and Scarlet on Area 18 were irradiated. In 2 months, 3 Tonations a week, the case was normalated. He passed so much Frontelim the customary way, that he said, "it sure feels good to be able to empty the Bladder without difficulty, thanks to Spectro-Chrome!"

(5)—A. N., man of 59. Cold in Chest and Backache, constantly for 2 weeks. Atcowas given were 2 Lemon Systemic Front and 2 Indigo on Area 18. He first tried a Back Plaster, which gave

no response; Spectro-Chrome did. He said, "Spectro-Chrome works like a miracle."

(6)—P. W., woman of 56. Boil under Tongue, for 2 weeks. Atcowas Yellow and Orange Systemic were used and in 2 weeks the Disorder disappeared.

(7)—R. S., boy of 5. Chicken Pox. In 1 week was normalated. Atcowas irradiated were Turquoise Systemic Front and Back; Magenta on Areas 4 and 18. Was advised to tonate with Lemon for a few days; in all he had 10 days of Spectro-Chrome.

(8)—C. S., man of 45. Had an accident where he worked. Had a 5 inch cut on his left Hand and Wrist, quite deep. The company Medical Doctors said he cut an Artery. The Blood, the man said, squirted 30 feet! But, I did not believe it and cut it down to 10 feet! (Laughter). After he was released from the Hospital, which was in 3 days, he started to use his own Spectro-Chrome. Atcowa irradiated was Green Systemic. The 5 inch cut healed completely in 3 weeks and the next week, he went back to his duties.

The reports were received by the Convention with applause. Otto L. Lutz said that he used Spectro-Chrome in his own family and that he had 4 children, all of whom had all Disorders common among children. They all had Spectro-Chrome. His daughter had so much milk by it that she did not know what to do! (The President—"Open a dairy"!) (Loud Laughter).

Credentials were presented by the following Delegates:—Gladys Clark, First Detroit Michigan Planet. Leocadia Merwitz, First Milwaukee Wisconsin Planet. Viola C. Jeude, First St. Louis Missouri Planet.

They were duly accepted and greeted.

A letter was read from Peter R., a Provisional Member, who having signed for the Course on Occultism And Higher Life, was requested to send his $5.00. He did that, but garnished the remittance with the following letter:—

"Am sending you this not because I think that you are justified, in collecting this, as it was not explained at the Planet Meeting that there was a charge for these lectures and I thought that it was given as a public lecture. If I had known that it was not for the public, I would not have signed. However, you are in business and like everyone else in business, thep get all they can."

The Affiliates present expressed their displeasure at the tone of the letter and Dinshah filed it with the statement that he had accepted such explanation from many other Affiliates and had returned the payments of ALL signatories and given the Course free of all obligations. However, he stated that the writer of the letter owed an apology to Spectro-Chrome Institute, for the gratuitous insult in

the last sentence. Spectro-Chrome Institute, although a Business Corporation, was founded solely for the Service Of Mankind and that he had been serving as its President for over 19 years, WITHOUT SALARY. Later, the offending Affiliate mailed his apology and the incident was closed.

Dinshah emphasized that the Constitution And Rules of our Organization should be read at least once in 3 months in every Planet, so the new Affiliates may become familiar with them.

Kurt W. Bader, Sub-Deputy of First Milwaukee Wisconsin Planet then addressed the Convention. Said he in substance, "I suffered many years and the sickness was diagnosed by the Medical Doctors as 'Lumbago, Strained Muscles, Tuberculosis of the Kidneys'. I was a heavy smoker and drank beer and ate chunks of meat. I was sick for about 9 years; could not hold a broomstick or get on a shirt; I could not work. I took all kinds of Medicines and Pills. I was on simple food all the time. Took Kneipp Cures and studied all kinds of healing systems. Came here in 1927. They diagnosed the Disorder as Kidney Tuberculosis and gave me 8 months to live. A woman told me to go to the Auditorium and hear Colonel Dinshah on Spectro-Chrome. Knowing Spectroscopy, I came and listened to him. Took Spectro-Chrome for 3 months and stopped smoking and meat eating. I now work 18 hours a day". (Loud Applause.)

Dinshah then spoke about the 4 Volumes of Spectro-Chrome magazine, beginning with June 1922, the date of its first publication. There were only a few copies available at the nominal price of $10.00 for the set of 4, inclusive of the postage. His intention was to place the books for study, in the hands of those interested in the Science of Spectro-Chrome Metry, because the volumes were full of interesting information and data.

Frank S. Burns said, "I was examined by Medical Doctors for insurance. They found a slight murmur in the Heart, after being called to their office where there were many in the building. Six Medical Doctors made the examination and put me through various exercises; then they shook their head and in technical terms defined my Heart action. The result was that the clearing house of the Insurance Companies blacklisted me. After using Spectro-Chrome, I applied again for Insurance. I received notice to appear for physical examination. The Medical Doctor said, 'Step on the scale.' He measured me and asked me about my weight, pulse and I told him all he asked, without hesitation. He also asked about my Blood Pressure. The Medical Doctor was astonished and inquired how I knew so well about my physical condition. He talked about my Urinalysis; I told him about it. It is the first time in 35 years that my physical condition is so much better." (Applause).

Albert E. Greenham spoke about the value of the 4 Volumes of Spectro-Chrome. He made a set of the past issues. He found them invaluable. Therein were several reports of Surgeon Kate W. Baldwin. If for nothing else, for reading those reports, everyone should have a set in their library. She had 14 Spectro-Chrome Equipments and did wonderful work with Spectro-Chrome. Those Volumes are worth more than the Ten Dollars.

The President then extolled the virtues of the noble Dr. Baldwin. She was deceased, but, her memory will live for ever with us.

Emma Schroeder addressed the Convention in substance thus: "My mother is here. Four years ago, my mother had Stroke. Her Eyes were closed and her Throat was paralyzed. She had Hemiplegia. She made reservations for certain baths. She suffered much. After a long time of all kinds of medications, a friend introduced me to Spectro-Chrome. After the first Tonation, the Spectro-Chrome did more good than all the Medicines. I then studied Spectro-Chrome Metry and followed the Ultra-Green and Infra-Green Division method. My mother is 75 now and is as good as new! (Laughter)"

Her mother Ottilie Krenz on request of the President, walked briskly to the platform and was accorded a cheerful ovation.

Warren C. Hale volunteered as a speaker. He was Chief of Public Safety in Greendale, Wisconsin. He had a collapsed Lung and was in an Oxygen Tent for 2 hours. His Heart meanwhile shifted partially to the right side. He had severe Dyspnea and Pain. He was taken unconscious to a Milwaukee Hospital, where they declared his condition as poor and that nothing could be done to save him. His father Albert B. Hale, a Graduate Spectro-Chrome Normalator, being notified, insisted on moving him, but, the Surgeons objected to it as a fatal procedure. Finally, the father took the son home; three Tonations of Spectro-Chrome restored the Pulse and Respiration Rhythm and the sick son sat up in bed unaided. He is normal now and the injured Lung is completely re-expanded. In less than a week, he returned to his position as Chief of the Police and Fire Department and in charge of Alien Registration and Finger Printing. (Loud Applause)

A long discussion was started as to who should be entitled to Free Guidance as members of the **immediate family.** It was finally agreed unanimously by the Members, that such service should be given solely to the Registered Purchaser, for Wife or Husband, Father and Mother of the Registered Purchaser, unmarried Daughters and Sons of such person, unmarried Brothers and Sisters of such person, living in the same house under the care of the Registered Purchaser. The non-voting Affiliates also coincided in this view. On behalf of Spectro-Chrome Institute, Dinshah promised to consider the suggestion and determine the future course of action.

Phyllis M. asked a question, "Why were animals and fish created?" Dinshah answered, "Why were you created? Same reason."

Frieda Wehrhagen asked, "Why is it that Human Beings can not live more than 30 days without water, while Moses lived twice for 40 days without it?" Dinshah said that the Human Body had a very heavy percentage of water in its composition and without it life became liable to injury. The harm came through drying or Dehydration of the Tissues, thus reducing the conductivity for the Electrical Currents motioning in them. He further expatiated on the activities of some of the yogis of India.

On motion of Jessie E. Ness, seconded by Kurt W. Bader, it was unanimously resolved that Dinshah P. Ghadiali, Irene Grace Dinshah and Evelyn Roman be elected the Trustees of the Scientific Order Of Spectro-Chrome Metrists. Evelyn Roman and all the newly appointed officers of the various Planet Commissions were then affirmed and installed by the President.

During the intervals of the questions and the case reports, Dinshah delivered addresses on different Disorders and debunked numerous medical fallacies and medical empirics, establishing thereby the marvelous merits of Spectro-Chrome Metry. They formed challenging eyeopeners and were received with rapt attention by the audience.

Our Twentieth Annual Convention was a decided step forward on the road to the ultimate goal:

SPECTRO-CHROME — IN EVERY HOME

—o—

FIRST MILWAUKEE WISCONSIN PLANET

(HOTEL WISCONSIN, MILWAUKEE, WISCONSIN)

Meeing Of Thursday, October 3, 1940

Successful Use Of Spectro-Chrome In:—Gangrene, Pain, Fever, Uterine Hemorrhage, Rectal Bleeding, Constipation, Mammary Asscess.

Appreciation Shown For The Free Course On Occultism And Higher Life

Reported By:—CAROLINE ZIMMERLING, *Recorder*

Deputy Frank S. Burns was in the chair. A letter from the President Dinshah was read.

Leocadia Merwitz then gave a detailed report covering the Twentieth Annual Convention to which she was appointed Delegate for the Planet. She said it was a privilege, as far as she was concerned, to attend the sessions of the Convention and that Colonel Dinshah stood as usual, fearlessly giving forth his ideas on Spectro-Chrome and Health. She outlined a few of the points on the Rational Food Of Man system which she gleaned from the talks. These were that we should never overeat and should chew our Food properly.

She learned, too, that the Appendix should never be removed, because of its very important function in the Human Body and that if there should be something wrong with it, Spectro-Chrome could repair the damage easily and quickly. She said the Case Reports given by Kurt B. during the sessions were very interesting, as were those of Otto L. and Emma S., who took her mother to the Meetings to show what Spectro-Chrome had done in the case of Paralysis. She enjoyed hearing the Case Report of Walter H. of Greendale. He restored himself to normalcy after having a Collapsed Lung and is now working 18 hours a day.

She said that Colonel Dinshah during these Meetings sounded a warning politically about our present administration, saying that if it were not changed, the whole country would surely be plunged into War.

An interesting item which Leocadia Merwitz gleaned from a report by Albert Greenham was the fact that Radio Tubes which were handled by menstruating women were found faulty in manufacture. It is Colonel Dinshah's contention that women who are menstruating should be kept away from handling foods for the public, because it is at this time that a woman's Aura changes from the usual Magenta to Scarlet, affecting everything with which it comes in contact.

During this Convention the installation of Officers took place, the present Officers remaining as they are.

Leocadia Merwitz said that Spectro-Chrome in Cancer and Infantile Paralysis was thoroughly discussed at the Convention, as was Multiple Sclerosis. The subjects of Tobacco and Alcohol and their effects on the Pituitary Gland also came in for their usual share of attention, as did Inflammations and Disorders of the Heart. The Delegate expressed her gratitude for these discussions and said that Colonel Dinshah had extended his appreciation to the Affiliates of Spectro-Chrome as a whole.

The Deputy then complimented the Delegate on her very good work and made remarks of his own about the Convention. He too attended.

Much time was consumed at the Meeting to discuss the benefits derived from the Course on Occultism And Higher Life given by Colonel Dinshah. The expressions of gratitude by the various members of the Planet were summed as follows:—

The Deputy said he realizes now that the lessons which are to be learned in life are sacrifice, tolerance, et cetera and he feels that the Planet should pay Colonel Dinshah in some way for his marvelous efforts in giving this Course and feels that purchases of Spectro-Chrome products would be one way and selling more Equipments would be another.

Lena Held said she enjoyed the whole Course so much that she wishes she could hear it all over again. She says it was all the Truth on the Higher Side of Life.

The Deputy added that Colonel Dinshah took the Affiliates in that Course, through all the stages of Life from the Creation to the point beyond the grave—all within 12 hours of time, covering the subjects of Cosmogenesis, the Human Being, the various Planes of Life and so on.

Emma Schroeder remarked that she felt more or less responsible for the Occult Course, inasmuch as she expressed her desire to have such a Course given in Milwaukee.

Paul Schmelter said this was the first Meeting he attended in 1½ years. He attended all of the Meetings at the Auditorium and also the Occult Course. He found both very interesting. It took him from the cradle to the grave. It also gave him an insight into the effects we have on the lives of other people. One law, he pointed out, covers all others in governing lives and that is the Golden Rule. H said people fall in love with things that are harmful, material things. They should, rather, choose the spiritual things. If we give out evil thoughts, evil will be worked against us. He liked the Jewel In The Lotus Drama which was acted on the last evening of the Course by Dinshah. He said it explained Karma. It showed him also what we should avoid and what we should do. We should help others and thereby help ourselves.

Right after the Course, Norma Fiedler said, her whole Life seemed to flash before her so that she could see where she had made her mistakes. She said now she felt she could avoid making those mistakes again.

Werner Lehman commented that he attended all of the Lectures and felt that a man who could talk like Colonel Dinshah does on these subjects really knows about what he is talking. He enjoyed every part of it. He thinks the Colonel should enlarge on his writings on Occult subjects.

Albert Franz felt that anything that came from Colonel Dinshah, be it oral or written, was good. He also expressed the desire to see this Course in written form. By reading it, he could pick points which he might have missed.

Emil Egide attended all Meetings and derived much good therefrom, although he admits much of it went over his head. A few highlights, however, were brought home to

him. One of them was that most people confused the Mind with the Brain. Another that there was really only one Commandment and that the Golden Rule.

The Deputy added that many lives were lived by us before and we could all travel and work on the Psychic Plane like Colonel Dinshah if we would learn how.

Theodore Mohrhusen was thankful for two things. One that he is still a young man and so has much time to learn more of these things and the other that he is able to associate himself with people who appreciate such teachings. He feels the book "Master Of Occultism" is really an autobiography. He learned also that all Religions are the same, but with different interpretations. From what he learned through this Course, he resolved to control his temper and try to make his disposition more agreeable.

At this point Kurt Bader said that he thought as long as we had a Physical Body we should take care of that properly and as long as our Meeting was supposed to be devoted to the care of the Physical Body, we should stop talking about Occultism and return to Spectro-Chrome Metry. He felt that the best way for us to show appreciation for the Course given free was to buy Spectro-Chrome books and Equipments.

A motion was made, seconded and passed to have a letter drawn by a Committee to express the feelings of the Affiliates and the gratitude for the Occult Course. Emma Schroeder, Leocadia Merwitz and Norma Fiedler were chosen for this.

Emma Schroeder now wishes to hear lectures on "Sex" from Colonel Dinshah, at some future date.

Chapters 97 and 98, "Boil, Abscess, Furuncle, Carbuncle" and "Spectro-Chrome In Gonorrhea", from Spectro-Chrome Metry Encyclopaedia were read by the Deputy.

Paul S. inquired as to what could be done in the case of healing which left Scars. He said Spectro-Chrome had healed a Sore. When the Sufferer felt that it ceased draining, he healed the Sore and sealed it. This left two Scars. The Veins protrude at the Ankle. It was a Bump first and the Medical Doctors wanted to amputate. Two weeks of Green, Orange were used for draining. Orange was used for four weeks. Turquoise and Blue were used for healing.

Lena H. said she generally uses Turquoise in cases of this kind. She said there are layers of Skin to go through and this condition is on the outside only. Indigo would be used for Swelling and Pain.

Kurt B. said that the purple Spots might stay for some time. Indigo will take them away. Scarlet could be used on Area 4 and Indigo Local for the Veins. He then gave some case reports:—

(1)—Woman, aged 64, had Gangrene, thought she was not getting results with Spectro-Chrome. He suggested she should use only Green, Systemic and Local, with Magenta. In six months she was in perfect condition. She followed the Rational Food Of Man System.

(2)—L. W., man aged 26, spasmodic Pains in Areas 7 and 8. Kardoscil 68, Spiroscil 18. One Orange relieved the Pain which no Medicine was able to help for two months. The Sufferer is still using Spectro-Chrome.

(3)—L. W., youth aged 18, High Temperature, Pain in Right Side, Area 10, was told to have operation. Green, Turquoise and Indigo Local were used. He was normal in a few days. To begin, his Kardoscil was 114 and Spiroscil, 24.

(4)—T. N., woman aged 51, had Hemorrhage from Area 11 for three months. Kardoscil 55, Spiroscil 20, One week Green and Indigo Local stopped the Flow. Bought own Equipment and is well satisfied.

(5)—M. E., aged 46, Kardoscil 120, Spiroscil 22, Bleeding Rectum for 18 months, had 10 Backelim daily and was weary of Life. 8 Tonations of Green, Indigo, Purple and Lemon normalated the condition. Now cheerful again.

(6)—L. M., Kardoscil 57, Spiroscil 18, constipated 15 years; High Blood Pressure; used to live on Raw Meat, practically. Constipation relieved after three Tonations. Only Green and Magenta were used.

Elizabeth B.'s friend had a baby. Before the baby came, the friend ate the right foods. After the baby came and when she should have started to menstruate, her Left Breast (Area 4) became very large and sore. Green and Blue were used and it became larger. She told her to irradiate Lemon Systemic and Orange Local. This opened the Sore and a cupfull of Pus drained out. Green Systemic, Turquoise and Magenta were then used to heal. Now she is very well.

As a final warning, the Deputy told the Affiliates at the Meeting to watch the Kardoscil and Spiroscil; that is the key on which to work with Spectro-Chrome.

EDITORIAL REMARKS

If at least 100 students will express their desire to hear a Course on "Sex, Its True

Significance And Importance In Life", paying $5.00 each to cover expenses, consideration will be gladly given. However, sour prunes and prudes may not be admitted to the Course—only Truth Seekers.

Scars, once gathered may not disappear.

Many thanks for your kind feelings. Dinshah is always at your service.

—o—

AMERICA RETURNED TO SLAVERY

We Are Already In War.

A man becoming naturalized as a Citizen of the United States Of America, affirms to protect the country against enemies, but, there is absolutely nothing either therein or in the Constitution to compel him to kill people who did not invade or indicate or express a desire to conquer this country. Liberty is vaunted as the most glorious right of an American citizen, but, the conscription and drafting by force of any citizen to bear arms or even enlist, is nothing short of downright slavery and barbarity.

There was no need for the whole extravagant program of "war preparedness." The idea that Germany wants to conquer America is utterly nonsensical and is born of the minds of ammunition and war material makers and their friends the grafty politicians ruled by Wall Street gamblers. I for one am ready and willing to bear arms in "defense" of the country against any foreign invasion or domestic revolution, but, I have no sympathy for any measure, wherein my conscience or conscientious beliefs may be invaded by the country whose loyal citizen I am. The present Selective Draft Law is unconstitutional, because, it invades conscience wholesale. The sentences of over one year in prison, imposed upon religiously conscientious objectors, are out of line with true Liberty and it is no use blaming Adolph Hitler or Benito Mussolini, when we ourselves are practising dictatorial methods against a helpless citizenry, under the asinine legislative measure of a supine Congress, cowed by a domineering President.

All this ruin of the glorious Constitution is done under the name of "Defense of Democracy"! Who invaded our Democracy? Those who talk about the German "Fifth Column", ought to investigate the subtle propaganda of imperial monarchists also. Woodrow Wilson dragged us to war to save "democracy" and that one lesson should have been enough, but, it appears we are headed again toward worse troubles, by another damn-o-crazy administration and autocratic Chief Executive. They are all clamoring for "preparedness against war." Are the American people so stupid as not to realize that we are "already **in war?**" When we help one belligerent against another, it **is** war and our "cash and carry" plan of neutrality is a gigantic fraud on the public, who are told that unless Great Britain be helped we are doomed here.

COLONEL DINSHAH'S DEPARTURE FOR INDIA STOPPED BY GOVERNMENT ACTION

HIS PASSPORT CANCELLED

Colonel Dinshah P. Ghadiali returned from Bombay, India, to file Nomination for Election as Governor Of New Jersey. However, on his arrival here on June 16, 1940, he was informed by the Secretary Of State Thomas A. Mathis, that the last date for filing Petitions for Independent Candidates was May 16, 1940 and no Petition could be received later than such date.

Thus, seeing no reason to prolong his stay in the United States Of America and being anxious to return to India to further the Libel suits he was prosecuting, he requested passage on the President Harrison. The American President Lines, however, refused to take him beyond Japan, because he would not submit to Vaccination and Cholera Inoculation. After much trouble, he succeeded in prevailing upon the Java-Pacific Line to take him as a First Class Passenger on an unnamed steamer. The Company stipulated, that before the ticket may be issued he would have to secure the Visae on his American Passport, from the British and Japanese Consulates. That being done, the steamship ticket and the Pullman ticket to San Francisco, California were issued and everything was ready for his departure after the November elections.

Suddenly, it was brought to his attention that all American Passports must be validated before departure, because of an Executive Order. In all innocence, he sent his Passport to the Chief of Passport Division Ruth B. Shipley requesting validation as before. To his surprise, he was informed after a long delay that there was no sufficient reason for his tour and that the Passport was "filed" in the departmental records. Dinshah protested against such autocratic measure and wrote strongly for return of his Passport, which had several years of documentary evidence in it, but, the Department Of State emphatically refused. He went to Washington, D. C., but the Chief was "away". He was interviewed by assistants and was coolly informed that he could be permitted to go solely on "urgent business" like buying rubber or tin for the requirements of the Government! The American Government had the "duty to protect" him; of course, the buyer of rubber or tin needed no protection!

When he calmly stated that he could go away without the validated Passport, he was as quietly shown a Presidential Order, stating any person so doing was subject to a Fine of $2,000.00 and 5 years of imprisonment or both. Smiling at such dictatorship, Dinshah then demanded return of his Passport, which was his property.

It was returned to him with holes punched through lettered "Cancelled". The cancellation included arbitrary punching of the British and Japanese permits also! American lawlessness settled that issue.

The dictatorship established by the curse of the "New Deal" is now becoming more obvious—America is heading towards disintegration of the glorious Constitution, to suit the whims and caprices of an insane administration. War is imminent.

Where is American Liberty? Where is the Bill Of Rights? Where is the power of the Congress? Instead of the people ruling through the Government, the Government bayonets are at the back of the people. Soon it will be good-bye to all good that was done since 1776 and then what?

FAVORSCOPE FOR 1941

The Favorscope for 1941 and the Affiliation Card were mailed to those who sent the Application For Continuation, duly filled in ink with the Annual Dues to Scientific Order Of Spectro-Chrome Metrists. Hundreds of Applications came with faulty engrossments or unsigned or with unauthorized signatures or remittances payable to Spectro-Chrome Institute. They were uniformly returned for correction, as the two Corporations are distinct and the checks of the one may not be accepted by the other. In sending the registered Favorscopes, special cards were also enclosed to verify Authentic Signatures. Please sign and return them promptly, because, without such verification, no service may be rendered. To Affiliates in India, Java and other foreign lands, Dinshah mailed the Favorscopes by Pacific Air Mail at personal expense as courtesy, due to War conditions. Hereafter, the Favorscope will be made ready in the middle of the year, to avoid last month rush.

No Favorscope was mailed to those who are Provisional Members as students without Spectro-Chrome Equipments.

OUR MISERIES IN FREE GUIDANCE

The Sufferers asking for our Free Guidance do not have any idea of what nuts we have to crack. Our problems need the training of a Solomon to solve. Recently we had the following in the General Advice Chart of Elsie A. of Pennsylvania:—

16. The Sufferer is Unmarried..Yes....Married..Yes.... Divorced..Yes....Widower..Grass Widow!

She certainly is well experienced.
