## FIRST MERRILL WISCONSIN PLANET

(HOTEL BADGER, MERRILL, WISCONSIN)

**Meeting Of Thursday, January 4, 1945**

**Successful Use Of Spectro-Chrome In:—Fatigue, Miscarriage**

*Reported By*:—GERTRUDE L. PARSHALL, *Sub-Deputy*

There were only seven Affiliates present. One Affiliate, not as yet having received her 1945 Affiliation Card, graciously returned home.

Affirmation Of Installation was read to Emil Erben, as the newly appointed Deputy, by Gertrude Parshall and repeated verbatim by Emil Erben. He then took the chair and read the communication from the Principal Office and then read the Night Letter about the disastrous fire at the Institute. Every Affiliate present was heartsick upon hearing this. We unanimously offer our heartfelt sympathy to the Council Of Trustees.

He then read the Good Thought for January and suggested that more Affiliates acquire this worth while book of Dinshah.

Case Reports followed:—

Walter Briese felt tired from extra amount of work at Christmas time, so took Lemon Systemic and feels "fit as a fiddle."

A case of Hemorrhage was reported. It was a miscarriage. Sent in General Advice Chart and received Free Guidance from the Principal Office. The case cleared in one week. She is feeling fine.

Article 22 on page 28 in Family Health Protector was read by the Deputy. He also defined the word KARMA. It was decided to wait until the next Meeting to plan our year's study program. We send our best wishes for the rebuilding of the Institute when it is possible to do so.

EDITORIAL  REMARKS

It is regretted that the November and December 1944 Reports of your Planet can not be printed, because of their destruction in the Fire. Your sympathy is warmly appreciated.

**Meeting Of Thursday, February 1, 1945**

**Successful Use Of Spectro-Chrome In:—Pain**

*Reported By*:—GERTRUDE L. PARSHALL, *Sub-Deputy*

Deputy Emil Erben was in the chair; 9 Affiliates were present.

The communication from the Principal Office was read. The High School gave an operetta that same evening, which may account for some of the absenteeism.

Affidavit Blanks were explained and given to the Affiliates.

The Authentic Report of the Fire was read by the Deputy; also several of the newspaper accounts. The Affiliates still wonder how such a catastrophe could have happened.

Triumph of Spectro-Chrome, Pages A13, A14, A15 were read.

An Affiliate reported that her daughter age 17, complained of Pains in her Abdomen and right side when she came home from school. That evening, she took a Turquoise Systemic Tonation followed the next day with a Lemon Systemic Tonation and there was no recurrence of the Pain.

Gertrude Parshall reported that a Federal Inspector interviewed her and the following conversation ensued:—

Q.—Have you a Spectro-Chrome? A.—Yes.

Q.—How long have you had it? A.—About 4 or 5 years.

Q.—Whom do you give treatments to? A.—Tonate only my two children—Patricia and Dennis and myself.

Q.—Does your husband use it? A.—No, sir.

Q.—Why not? A.—Because, it wouldn't do him any good. (She told him his ways of living were different.) We have no arguments about Spectro-Chrome.

Q.—What do the children use it for? A.—Colds, mostly.

Q.—What do you use it for yourself? A.—I had Low Blood Pressure and my Heart skipped every third or fourth Beat.

Q.—How did you know you had Low Blood Pressure? A.—Dr. Marie Kersten examined me.

Q.—Did Dr. Kersten give you Medicine? A.—Not a drop. I used only Spectro-Chrome.

Q.—Are you a Normalator? A.—No.

The Answers given were truthful.

Walter Briese stated that he too was visited by the Federal Inspector and a series of similar questions was asked and answered. Walter stated also that he read an article in which the famous Mayo Brothers condemned the sending of Tobacco to the soldiers in the foreign battlefields. Gertrude said she read an article to that effect also.

It was decided to begin the study of Volume 1 of Spectro-Chrome Metry Encyclopaedia, from next Meeting. By-Law 116, on "Unprovided Occasions" was explained.

## EDITORIAL REMARKS

Mayo Brothers are right. Tobacco is defined in the American Illustrated Medical Dictionary, (sponsored by the American Medical Association) as uniting "the qualities of a Sedative Narcotic, with those of an Emetic and Diuretic. It is also a Heart Depressant and Antispasmodic." Let our Affiliates judge why in our Science, we discarded that poisonous weed in every form.

## SPECTRO-CHROME SMILES

Viewpoint—I am not able to dissolve my problem alone.
Smile—Pour some turpentine.

Viewpoint—Baby has bed wedding.
Smile—Get him a divorce.

## FIRST CHICAGO ILLINOIS PLANET

(HOTEL ATLANTIC, CLARK NEAR JACKSON BOULEVARD)

**Meeting Of Thursday, January 4, 1945**

**Successful Use Of Spectro-Chrome In:—Cold, Inflammation, Fever, Pain**

*Reported By*:—HERMINE KUEMMEL, *Recorder*

This was to be the last Meeting at the Hotel Atlantic, because the management informed the Principal Office to look for other quarters, since all the available accommodation was reserved for the Government. Next month, therefore, we shall meet elsewhere.

Deputy Wilhelm Weissenbacher was in the chair; 17 Affiliates were present.

The Deputy welcomed a new Affiliate Joseph Burrescia and advised him to stick to Spectro-Chrome for his own good.

The Deputy read the letters from the Principal Office.

Discussion about Automatic Time Switches began. Said Rudolf Kist: "It is certainly very reasonable to pay only six dollars for a time switch. I have many on the machines in my shop and they cost me much more and when they do not work, they cannot be repaired; I have to throw them out. Affiliates certainly should not complain about the price."

The Recorder read By-Laws 79 and 80. The Deputy advises everybody to watch the By-Laws carefully and to study them.

Elizabeth Zavadil read from "Dinshah Naturalization Case," Chapter 4.

Deputy—Officials of the Food And Drug Administration called at my home; they wanted the addresses of some Affiliates and the Recorder; as I was not at home, my wife could not give them any information. They called at the Sub-Deputy's home; he was not at home and so they asked Mrs. Schilpp, how she happened to use Spectro-Chrome. She stated her case, that she was in the Hospital for an Operation and after she came home, felt terrible for a long time; then she took Tonations and feels well ever since.

Joseph Burrescia—I wish I were home, when one calls at my house! I can tell him something about Spectro-Chrome.

Rudolf Kist—When he comes to the home, tell him to bring a Notary Public with him to make sure that the information you give him is not changed by him; we don't know what he writes down.

Louise Weller—Can I refuse to answer their questions or can I refuse to let them in at all?

Henry Schilpp—He wants to see the Commissioners first. He wants to find out what we have to say and find out addresses. As long as we tell him how much Spectro-Chrome has done for us, I do not see any reason why we should not let them in. It can only help Spectro-Chrome, but if we refuse to let them in, they may think there is something wrong.

Deputy—In the October 1944 Spectro-Chrome, you can read about the presence of the Government Agents in the New York Planet Meeting and in the November 1944 Magazine we read about the visits of the Agents to different Affiliates. They all had a very good report to give about Spectro-Chrome, which only can help Spectro-Chrome.

Case Reports followed:—

Hermine Kuemmel—During the last cold wave, I caught Cold; the

Eyes were all red and inflamed and very painful. I irradiated twice with Turquoise and they were well.

Louise Weller—On Christmas day, my boy was hot with Fever. He did not want Tonation, but I gave it to him anyway; I tonated with Turquoise Systemic. In the evening his pulse was uneven, so I gave him Magenta. The next day he was well.

Rudolf Kist—My little girl had a bad Cold and Fever. I tonated her with Yellow, until her bowels moved; then Fever subsided and in 4 days she was well again. I had a Cold myself, but could keep on working. I was well again in 1 day. My own case is of long standing and I shall report on that later. I intend to go to Malaga. Colonel Dinshah said I should wait until the end of January.

Emily Weissenbacher—I took Cold and my Ears were quite painful. Tonated twice with Turquoise and felt fine again.

Elsie Beyer—One evening, I had bad Pain in Areas 2 and 3. I took Turquoise Local a few times and a few Yellow Tonations. A bad cough developed and I had to stay in bed for a few days. Tonated Turquoise and Green Systemic, Orange Local and Magenta on Area 4.

Josephine Burrescia—If a person wants to go to Malaga, New Jersey, what does one have to do about it?

She was told to write to the Office, include the Free Guidance Chart and tell what time you want to go there. She would like Colonel Dinshah to take care of her boy.

EDITORIAL REMARKS

It is regretted that the November and December 1944 Reports can not be printed, as they were burnt in the Fire.

There is no reason to obstruct the Agents of the Federal Food And Drug Administration, in the performance of their duties. Tell them the Truth as you know, but, sign no statements, because the matter is before the Federal Court. However, if they become insolent or issue any threats, report to us. They are public servants and should know how to behave with the public who pays their salaries.

Because of the total demolition of our Principal Office Building by the Fire, until we notify through the Spectro-Chrome, please refrain from coming here, as we have no time on hand to take care of Affiliates, in that direction. On the contrary, we need helpers here.

## Meeting Of Thursday, February 1, 1945

(KIMBALL HALL, 308 SOUTH WABASH AVENUE)

### Successful Use Of Spectro-Chrome In:—Cold, Aphonia, Laryngitis, Cough, Headache, Abscessed Tooth

*Reported By*:—HERMINE KUEMMEL, *Recorder*

Deputy Wilhelm Weissenbacher was in the chair; 28 Affiliates were present. The Deputy read letters and telegrams from the Principal Office. Telegram should have been in his possession for the last Meeting, but, was delayed somehow. It was a big shock to the Affiliates to hear

about the great disaster of Fire, which did so much irreplaceable damage. We all feel sympathy for Colonel Dinshah, his wife Irene Grace and their seven sons, whose courage and poise were tested to the utmost.

Deputy—Affiliates, let us everyone do what we can to help the highest Cause. The blessings of it will come back to ourselves. You all know, how to send the remittance for the Spectro-Chromarium Fund. Let us not stay behind other Planets.

Hermine Kuemmel read the various newspaper articles about the Fire. Everything possible was done trying to extinguish it.

Deputy—We are becoming used to receive bad news. We had rented room 724B for the entire year as our Meeting place and Dinshah had sent a Check for the entire year to the Manager. We just had a letter from him informing us that he rented our room and so we have to look again for another one. Also I like to introduce two new Affiliates — Albert Langkau and Hilda Gustafson. We welcome them and hope they will attend our Meetings, as one can learn much about Spectro-Chrome by it.

One of our Affiliates just received his Spectro-Chrome Equipment Saturday and on Monday the Food And Drug Agent came to see him. He was home attending to the Baby, his wife being sick. The Agent had the same Plate as on the War-Model. I wonder from where he procured it! The agent asked the new Affiliate questions, but got no answers.

Arthur Koegel—Under what pretext did he come into the house? They have absolutely no right to come into a man's house and ask him all kinds of questions. We can buy whatever we want without anybody's advice or interference. We are still in a free Country. Why do we have to worry about the Food And Drug Administration? They did not worry about the expensive Drugs the man bought before and they did not help.

Affidavit blanks were then distributed.

We want to help as much as possible. The whole Dinshah Family has their hands full with work, so let us help and send in Contributions and order some of the books, which have such wonderful knowledge in them. There is plenty of money needed for the Case and to build the Spectro-Chromarium. One of our Affiliates wanted to go to Malaga, but, when he heard of the disaster, he changed his $100 Check and sent it in for the Spectro-Chromarium. Let us follow his example. It is wonderful how the mother Irene Grace kept her family together and so we Affiliates should do, as most of us had great benefit from Spectro-Chrome. Do not be afraid of the Agents; we did not do anything wrong, so why be afraid of anybody?

Eleanor Wendt read the Authentic Report of the Fire.

Rudolf Kist—I am a very sensitive person. I developed a very bad Cold on Sunday. By Wednesday I had developed such a Laryngitis, no sound could be heard and I had an engagement to sing on Saturday. Took Tonations with Green Systemic, Turquoise and Magenta and was able to sing on Saturday. I had a relapse, tonated with Indigo, was well from this bad case after five days. My child had a bad Cough; it was controlled very well with Spectro-Chrome.

Arthur Koegel—My son had the most wonderful result with Spectro-Chrome and I know a number of people who had very good results with it. I myself cannot tell of my experience, because, when I should like to take a Tonation, one of the members of my family is using the Machine. (Laughter.)

Albert Langkau—I have an Equipment for a few months and am in good health; can I take Tonations for better health?

Elsie Beyer—This Affiliate asked if he could take Tonations, when he feels well. Why should anybody take Tonations, when feeling well?

Deputy—He is a new Affiliate; he has the privilege to write to the Principal Office for Free Guidance. A new Affiliate should stay for a year under Free Guidance; during that time one can learn much about Spectro-Chrome Metry.

Joseph Janik—My wife had a very bad Headache; she was crying from Pain and did not want Tonation; she always was against it. I took her upstairs in my room and tonated her with Turquoise; after 20 minutes her Headache subsided and after the one Tonation she was normalated and changed her mind since.

Ernst Binz—Had an Abscessed Tooth on Monday. My whole Jaw was swollen. Tonated with Turquoise morning and evening; 4 Tonations normalated everything in 3 days.

Elfriede Mueller—I had a bad Cold; tonated first with Lemon Systemic, then 1 Turquoise Systemic, then Turquoise Local; also one Magenta and Orange on Areas 1-2-3-4, because I had trouble with breathing. This was the first Cold I had this Winter, while previous Winters I suffered terribly.

EDITORIAL REMARKS

Cordial thanks for your great sympathy and co:operation. We are here—Fire or otherwise—and are glad to serve you.

## FIRST CLEVELAND OHIO PLANET

(CARNEGIE HALL, 1220 HURON STREET)

**Meeting Of Thursday, December 7, 1944**

**Successful Use Of Spectro-Chrome In:—Varicose Veins, Toothache, Swelling, Backache, Cold, Earache, Heart Disorder, Fever**

***Reported By*:—EDITH REES, *Recorder***

Deputy George J. Brown was in the chair. 20 Affiliates were present.

A moment of silent prayer was held for Dinshah and his family. Communications from the Principal Office were read by the Deputy.

Ida Mueller, a new Affiliate was introduced and given a hearty welcome.

The Deputy stressed the fact that we must maintain our Health in order to withstand the problems and changes that are ahead for us. With Spectro-Chrome we have the best means of doing so.

Nathalie Witt reported a case of a woman who had a Ruptured Varicose Vein and could hardly walk. With 2 Tonations a day and she goes around well now. Blue, Turquoise and Green were used. This woman's daughter had a badly swollen Face from Toothache and was given a Tonation of Blue and the next day she was able to have the Tooth extracted.

Both were pleased with the results they got.

Anne Wille reported swollen painful Joints. Used Turquoise and Magenta and later Yellow. Some of the Affiliates thought Indigo for Pain and Lemon Systemic and drinking more lemonade would have been better since the Disorder is Persistent.

Monica Mueller reported a severe Backache, so she used a Tonation of Yellow and the Pain left. Her boy had a Cold and Earache and Tonations of Turquoise removed the Disorder. She wondered if any Affiliate had experience with severe Pain after Tooth extraction. Indigo was suggested.

John Winchester reported how he was taken sick 2 months ago by a Heart condition. A week later, he developed a Temperature so he went to bed for 8 days. Used three Tonations of Turquoise and one Purple for seven days. On the seventh day the Temperature was gone, so he got up; continued with Lemon Systemic and Magenta Local and four more Tonations of Purple. Used Purple, for his Heart was pounding. This is the beauty of Spectro-Chrome, for I got results and am back to work and feeling fine.

Martha Linke called our attention to certain articles in the Spectro-Chrome so that we would be sure to read them as she found them very interesting.

EDITORIAL REMARKS

My cordial thanks are due to you, worthy Recorder, for taking the trouble to duplicate the above Report, the original of which was incinerated in the destruction of our Principal Office.

### Meeting Of Thursday, January 4, 1945

**Successful Use Of Spectro-Chrome In:—Puncture, Knee Disorder, Injury, Soreness, Swelling, Cold**

*Reported By*:—EDITH REES, *Recorder*

Deputy George J. Brown was in the chair; 13 Affiliates were present.

Communications from the Principal Office were read. The Deputy then asked the Affiliates to stand reverently with bowed heads while he devoted a few minutes to prayer for the Colonel and his family. The news of the terrible, shocking catastrophe filled our eyes with tears. The consensus of opinion was that the Affiliates should help in a financial way and also in any other way that the Colonel may suggest or request that he can continue his wonderful work and services for Suffering Humanity. The Deputy stressed the fact that according to instructions in the telegram Contributions in any amount will be accepted and must be sent as individuals to Spectro-Chromarium Fund. The Affiliates promised to bring their Equipment and Encyclopaedia numbers to the next Planet meeting so that the Recorder can send them for the Office Records. We shall endeavor to carry out any request that is suggested to help the Colonel.

Case Reports then followed:—

Nathalie Witt reported on getting a Varicose Vein punctured by a

sliver from a basket. Tonations of Indigo stopped the Bleeding and the wound healed without a Scar.

Anne Wille reported having trouble with her Knee. There was much improvement after two Tonations each of Magenta and Turquoise. Tonations of Magenta and Lemon made the Knee 100% again. She was much pleased.

The Deputy reported on how he got his trouser cuffs and two Fingers caught in the power agitator in his furnace room and was held there until some one came to his rescue and released him. One Finger was flattened out and the Skin removed. Three Tonations of Turquoise cleared it and removed the Soreness. His Feet and Legs were badly bruised but persistent Tonations of Turquoise prevented Pain and took care of the terrible Swelling and Soreness and the healing process. He was well pleased with the results he got from Spectro-Chrome. Lemon Tonations will be used to make him 100% again. He said that he would not have been able to have come to this Meeting if it had not been for Spectro-Chrome and the fact that Emil Klauss brought him in. The Affiliates were pleased and thankful that their Deputy made the big effort to come on crutches with bandaged Feet and Legs even on such a cold night. This was surely a case of loyalty and devotion.

Fred Osborne reported that Turquoise first and then Lemon removed his Cold.

The Affiliates present sent as a unit a message of sympathy to Dinshah and his family.

Our Dear Colonel Dinshah:

Your telegram bearing the sad tidings came as a terrible shock. It is with heavy hearts and tears blinding our eyes that we learnt of the great catastrophe, loss and sorrow that has come into your life and heart and home. A lifetime's work vanishing in so short a time and parting with so many hard-earned efforts when all odds are against one, needs a flood of courage, power and wisdom for endurance. There are no words that can possibly express our sympathy. We each one wish to extend to you and your family our sincere and deep sympathy. May the heartfelt sympathy that this brings to you help to sustain and comfort you all. Our hearts are with you in this hour of trial. May God sustain and comfort you and guard, guide and direct you. May our Heavenly Father cloathe you in Infinite Wisdom in this hour of your great loss. May your Mental Garden grow abundant with newer and better inventions for the suffering of Mankind. Our prayers are that come what may, Spectro-Chrome will live as long as the Sun and Moon will last and as long as they do not change their Chemistry. We in the Cleveland Planet intend to carry on as worthy Affiliates with our loyalty, devotion and sincerity to our "greatest teacher."

## EDITORIAL REMARKS

Words are insufficient to express my gratitude for the deep sympathy conveyed in your message. You will find your humble servant always ready to help you to help yourselves with the Healing Science of Spectro-Chrome. I thank you, beloved friends.

### Meeting Of Thursday, February 1, 1945

**Successful Use Of Spectro-Chrome In:—Cold, Pain, Frost-Bite**

*Reported By*:—EDITH REES, *Recorder*

Deputy George J. Brown was in the chair; 17 Affiliates were present in spite of the brown-out and serious coal shortage. Spectro-Chrome Magazines were distributed.

Communications and the Authentic Report of the disastrous Fire were read to the Affiliates followed by a prayer by the Deputy for the Colonel and his family. Affidavit forms were distributed and the Affiliates were asked to fill them and send them in as soon as possible.

Case Reports followed:—

Nathalie Witt reported reading a recent article in the Cleveland Press about Infantile Paralysis and how Light was going to be used in the near future in the treatment of that Disorder.

Hedwig Rittershofer reported having had a Cold and that Tonations of Turquoise and Green first and later Lemon cleared away the Disorder. Her daughter had Pain in a Toe and Indigo gave relief.

Fred Osborne had frost-bitten Fingers; Yellow relieved him.

Joseph Tarantino reported that a previous Persistent Disorder returned, so he used Lemon Systemic and Magenta on Areas 4 and 18. He and his family have used Spectro-Chrome for six years and no member of his family has any serious ailments. When any of his children feels sick, they ask for a Tonation, for they have confidence in Spectro-Chrome and know that it will help them.

George Brown reported on the remarkable improvement in his case.

Contributions from the Affiliates are still coming in for the Spectro-Chromarium Fund and are being sent in as quickly as possible.

The Affiliates were glad that they braved the cold weather for the Meeting was enthusiastic.

—o—

## FIRST DETROIT MICHIGAN PLANET

(CONCORDIA HALL, 62 EAST COLUMBIA)

### Meeting Of Thursday, January 4, 1945

**Successful Use Of Spectro-Chrome In: — Scarlet Fever, Headache, Cold, Palpitation, Toothache, Stomach Disorder, Constipation, Fatigue, Injury, Numbness, Stiffness**

*Reported By*:—CARMELA FORZANO, *Recorder*

Deputy Charles J. Renn was in the chair; 70 Affiliates were present. Spectro-Chrome magazines were distributed.

Communication from Principal Office and the Telegram were read by the Deputy. He then stated: "Dinshah will not let us down; therefore it behooves every Affiliate to come to the front at this time."

Case Reports followed:—

Elfriede K. reported her daughter suffering from Scarlet Fever. Atcowa Turquoise and Magenta on Areas 4 and 18 for one week, later Lemon

and Yellow. She was surprised at the result. The little girl made the remark that the first thing she intends doing when she grows up is to have a Spectro-Chrome for her family.

Rose B. reported her children were formerly afflicted with Tonsilitis and Sore Throat. Through the aid of Spectro-Chrome have not suffered from these Disorders.

Michael S. reported suffering from a severe Headache. Tonated with Lemon and the Headache was gone before the completion of the Tonation period. Some time afterward, a Blood Clot was removed from Left Nostril. Magenta was also used.

An Affiliate asked the question, "On what Areas the Magenta should be used?" The Deputy answered that Magenta, Purple and Scarlet should be used locally, on Areas 4 or 18.

Charles G. reported he used Turquoise and Magenta for Cold and condition normalated.

Laura K. reported run down condition due to worry which caused her to lose weight. Deputy Charles Renn itisized her. Feels very much better now. Also reported her husband had an Itisation by the Deputy. The husband has followed Spectro-Chrome religiously and his Kardoscil and Spiroscil are improved and he is much better.

Frances H. has owned a graduate Spectro-Chrome for 14 years, originally gotten to correct Palpitation of the Heart. She has had great improvement, but not complete Normalation. Her daughter constantly chides her about staying with Spectro-Chrome and constantly wishes her to return to Medicine, which she has no intention of doing. She has overworked herself and has become run down. She will never cease to sing Spectro-Chrome praises.

Karl R. suffered an attack of Toothache. Two Tonations of Turquoise made the correction.

Mabel H. reported Cold settled in Lower Back. Tonated with Indigo. Had very good results.

Lyla F. reported daughter suffering from Mumps. Atcowa used Green and Indigo. Was away from school only one week.

Grace S. reported using Orange, Turquoise and Magenta for a Stomach Disorder. Her child also had a similar condition. Atcowa Orange, Magenta and Turquoise corrected condition.

Elsie B. reported her elderly brother-in-law got a Spectro-Chrome. He always suffered from Constipation which was corrected by the Spectro-Chrome.

An Affiliate reported Lemon Tonations relieved Fatigue.

The Deputy stated that many men at his place of work, complain of tired Feet from standing on the floors. He too had suffered from a similar condition which was corrected with 3 Lemon Tonations.

Harriet M. stated she had a severe Injury to her Hand. The accident occurred where she was employed and she had to have it treated there. When the Hand healed, it was all numb and stiff. With two Lemon Tonations the Hand was normal again.

An enlightening Educational Program was then conducted from Articles published in prior issues of Spectro-Chrome, in regard to our Equipment Slides, Chemistry, Attributes and the like. Interesting discussion followed.

## Meeting Of Thursday, February 1, 1945

### Successful Use Of Spectro-Chrome In:—Scarlet Fever, Ringworm, Rheumatism, Lung Disorder, Scalp Irritation, Cold, Stomach Disorder, Headache

*Reported By*:—CARMELA FORZANO, *Recorder*

Deputy Charles J. Renn was in the chair; 77 Affiliates were present.

Case Reports followed:—

Elfriede K. reported her daughter had Scarlet Fever and Ringworm. Atcowas Turquoise and Magenta produced marvelous results.

Addie S. reported that she had been hospitalized and had gone through a number of Disorders, Rheumatism, Lung Infection—in general she was completely upset, when she was referred to Spectro-Chrome. She had wonderful results. She has almost completely overcome the Lung Infection; although still going slow, feels she accomplished a great deal in a short period. She would not be without Spectro-Chrome. Her daughter suffered with a Sore Throat; Atcowas Turquoise and Magenta set her right.

Lucille O. reported child had a Scalp Irritation. Bathed scalp with a "germicidal soap," which did not correct the condition. Called Jessie Ness and was advised to tonate with Blue, Lemon and Indigo; eruptions on Scalp are now drying and she is doing very well. Her husband was suffering from a Breakdown affecting the Stomach and Head. Atcowa Green on Head, Magenta on 4. Unable to return to work yet, continuing to use Green and Magenta. The Deputy recommended getting Free Guidance from Principal Office.

Grace S. reported having trouble with M. who had a bad Cold for three days, impossible to take Kardoscil and Spiroscil. Atcowa, Green and Lemon and Orange Tonation helped breathing condition.

Katharina S. reported husband had Stomach Disorder. Atcowa Turquoise was irradiated and was able to return to work next day. His coworkers were out of work two weeks with a similar condition.

Charles G. had a bad Headache and could not eat from the effect of gas dust at his work. Tonated with Turquoise.

Elizabeth S. reported daughter had a Stomach Disorder; two Tonations of Orange corrected condition.

The Deputy stated that Dinshah's new book "Triumph Of Spectro-Chrome" may now be gotten from the Principal Office, for a Contribution of $3.00

An Affiliate asked if Slides could be sent in for repair. Reply was in the affirmative. The Deputy reported that two weeks ago Pure Food And Drug Agent Hauser was out to see him.

An Educational Program on the value of Atcowa Yellow was conducted.

## FIRST ST. LOUIS MISSOURI PLANET

(HOTEL MELBOURNE, GRAND AVENUE AND LINDELL BOULEVARD)

**Meeting Of Thursday, December 7, 1944**

**Successful Use Of Spectro-Chrome In:—Sarcoma, Constipation, Nervousness, Swelling, Inflammation, Pain, Stomach Disorder, Cold, Ear Noises, Belching, Pus, Hemorrhoids, Boils, Injury, Accident, Sprain**

*Reported By*:—VIOLA C. JEUDE, *Recorder*

Deputy Clemens M. P. Neumann was in the chair.

Arthur Behnen—I like to relate the Case of my 11 year old son. October 1943 he was operated for Appendicitis; after the Operation, a lump was noticed on Leg between the Hip and Knee; it was hard and he could not walk. The Doctor said he thought it was a Blood Clot and that it may be necessary to operate. Child was then taken to the family Doctor; he did not know what it was, but advised Operation. Went to see another Doctor and he was at a loss as to what the condition was, so after taking the child to 3 Doctors it was decided to take him to the Hospital where a piece of tissue was examined and the condition was diagnosed as Sarcoma (a Tumor). They wanted to remove the Leg. I did not want this to happen to the boy as he was only 11 years old, but the Surgeon said with Sarcoma that was the only thing to do; so a Specialist was called and he said: "Your boy may be cured with X-Rays," so a course of 12 X-Ray treatments was used on Leg, with no results. Then 14 more were given. Then they suggested the boy should rest for 3 or 4 weeks and the week before Easter, they again wanted to take the Leg off. It was at this time that I visited Clemens Neumann who said he could not guarantee anything, but there was everything to gain and nothing to lose. The Doctors had said the boy had only 1 year—the longest 2 years—to live, so we started Tonations, one, sometimes two a day. At the present time the Leg is back to normal and looks like everything will clear. (The Leg was very badly swollen.)

Richard Jeude asked the Deputy whether Arthur Behnen be able to get signed statements from the Medical Doctors.

Arthur Behnen—What chance do you think I should have to get those signed statements? They are supposed to be good Doctors and they do not know the Theory of Spectro-Chrome. It was only by the grace of God that I heard about Spectro-Chrome and if the boy survives the test by next year—he should be dead according to the Doctors' statements.

Charles Stiermann asked if the flesh had resumed its flexibility?

Answer was "Very nearly all the flexibility." Arthur Behnen then left.

Deputy—The Cut on the boy's Leg is at least 14 or 15 inches long; I am very grateful that the father took time out to testify, as these Testimonies have more weight coming from the individuals instead of coming from me. Yet they say "Spectro-Chrome is a Fraud! They want to wipe Spectro-Chrome off the map!"

Marie Jung—Is the boy able to walk?

Deputy—He is a Pin Boy in St. Anthony's Bowling Alley and only occasionally when he kneels down it feels sore, but not all the time. It is a little hard to the touch. He used to limp very badly, but, now you

have to know the condition and only when you observe very closely you may see that he uses that Leg differently.

Discussion then began on "Cancer" and the "X-Rays." Affiliates were highly interested.

Rational Food Of Man was discussed.

The Deputy reported the following Cases:—

1. Jean M., age 34, female, Kardoscil 78, Spiroscil 18; very nervous, constipated, Swelling in joints, Left Foot big Toe very swollen, Pains in Hip during damp weather and Winter. Yellow on Areas 6-7-8-9-10 and Systemic, Magenta on 4-18 used. Feels fine and is well pleased.

2. Edward K., age 15, male; Inflammation in Left Arm, accompanied with Pains, Swelling very considerable, unable to move Arm at Elbow. Atcowas used Orange on Areas 6-7-8-9-10 and 14, Magenta on Areas 4-18; large amount of Pus drained; normalated within one week, no Scar left.

3. Rose W., female, age 52, Ratio 78-18, Severe Gas attacks, cold feet. Experiences Hot Flashes and feels hot inside; has cold Perspiration. Atcowas used, Yellow on Areas 6-7-8-9-10, Yellow Systemic Back, Magenta on Areas 4-18; Turquoise Systemic. She now feels well and wants to become an Educational Student.

4. Ronald M., age 3, male; has common Cold, Sneezing, constant discharge from Nose, hard breathing. Atcowas used Turquoise Systemic, normalated in a few Tonations.

5. Frank S., age 63, male. Ratio 68-12; humming in the Ears for about 10 years standing. Said he: "I consulted many Doctors and even went to European Specialist, but none could help me. When busy I am very nervous, also very restless at nights, cannot sleep well, have to resort to Tea and Beer to make me sleep. My right Ear Drum is punctured and I cannot hear so well; my Chest feels tight especially when I am going up steps. My right Hip and my Back hurt me especially when lifting, when my Heart flutters, also my hand shakes. I am belching a great deal." Atcowa used, Yellow on Areas 6-7-8-9-10; also Systemic Back, Orange and Red Systemic Front. Magenta 4-18. Now tells me, "I feel as strong as a black bear, sleep well, humming in Ears is as good as gone, no tightness in Chest, no Belching, no Heart flutter, I am feeling just fine."

6. Ida L., female, age 70; constant Cough, day and night could not rest; had also Cold, felt miserable, weak, no pep, also constipated. Attuned Color Waves used, Yellow Systemic Front, later Turquoise Systemic Front and Back, only a few Tonations. Cough and Cold eliminated, can rest, bowels move and feels in general fine.

7. Evelyn B., female, age 37. Ratio 101-19. Came home from Hospital with 10 pound baby girl; was stitched and one stitch was infected and Pus drained. There was some Fever and was very constipated, considerable Pains in the part where stitched; she had also protruding Hemorrhoids causing constant burning and severe Pains. Medical Doctor could not do anything for these conditions except give Aspirin and Salve for protruding Hemorrhoids. She said, "I had no relief. Must take Milk Of Magnesia to move Bowels." Atcowas used, Yellow Areas 6-7-8-9-10-11, Turquoise Areas 11-19, Scarlet on Area 11. Completely normalated within 8 days; feels fine. Baby developed Boils on Body. Yellow opened and drained them and is well. The mother is well pleased.

Mollie Wehrle substantiated the last Report, saying that under Neumann's guidance she helped to take care of these parties.

8. William P., male, age 39; Face and Cheeks very swollen and inflamed; Turquoise and Violet used. The results are so pleasing that he is enrolling as a Benefit Student in 1945.

Robert Boschert substantiated this Case Report. He brought this man down to the Deputy, after the man had a Tooth removed. The man could hardly speak, the left Eye was almost closed but under the first Tonation, it opened.

All the 8 Reports were by Deputy Clemens M. P. Neumann.

9. The Sub-Deputy reported the Case of Edward H., age 36; smashed Foot with steel casting; he suffered intense Pain. After 45 minutes of Spectro-Chrome got up and undressed. In 3 days he went to work.

The Deputy said a man was bowling and the ball fell on this individual's Foot. He came for a Tonation and after Tonation went to a Medical Doctor. The Doctor could not understand why the Toes were not black and blue!

The Sub-Deputy said the case reported by her could be substantiated by an Affiliate present.

Rowena H. said it was her husband, that a 200 pound weight had fallen on his Foot and that both of them are thrilled with the results obtained with Spectro-Chrome.

Robert Boschert said a neighbor woman came and partook of some of their meals after she began to use Spectro-Chrome. The Doctor had told her she had Gall Stones, suffered from Diabetes and had Heart and Stomach Disorders. She was doing just fine, but after she went back to work she again began to eat everything and her husband said "Spectro-Chrome should be thrown in the alley." Some of the Affiliates remarked they hoped they would be in the alley when the Spectro-Chrome was thrown there.

10. The Sub-Deputy reported about Lailoni P., 3½ year girl. They were called to come and see this youngster; she had a Ratio of 112 to 32. One Tonation and the next day the child was playing on the floor! Atcowas used Turquoise, Yellow and Magenta 4-18; she suffered from Bronchial Fever, which was quite high. The Medical Doctor was just leaving as we came in. He had pronounced it Pneumonia, as the Breathing came in gasps.

A new Affiliate Margaret A. Frede was then introduced and welcomed.

11. The Sub-Deputy reported Harry W., age 50; wrenched Ankle from jumping off a truck; the party came in about midnight and the next morning drove away in own truck.

The Educational Program for the evening was "Spectro-Chrome In Recent Disorders." Helen Barco gave the reading which was warmly appreciated.

Rubor, Calor, Tumor, Dolor were discussed. Ratio principle was considered. The Meeting was truly instructive.

## EDITORIAL REMARKS

The Editor sends you best thanks and kindest regards for sending Duplicates of the November and December 1944 Reports destroyed in the recent Conflagration. Your Planet is becoming more spirited and active, which is a good sign.

## FIRST ST. LOUIS MISSOURI PLANET

(HOTEL MELBOURNE, GRAND AVENUE AT LINDELL BOULEVARD)

**Meeting Of Thursday, January 4, 1945**

**Successful Use Of Spectro-Chrome In:—Heart Disorder, Toothache, Injury, Pain**

*Reported By*:—VIOLA C. JEUDE, *Recorder*

Deputy Clemens M. P. Neumann was in the chair; 73 Affiliates were present. The Report of the Conflagration was discussed. Said the Deputy:

"As Colonel says the loss is irrevocable, because the contents cannot be replaced; in just one instance, I believe Colonel could have lectured for 6 months every day and shown different slides on the screen all day, these slides cannot be replaced." He said he heard from an Affiliate that it was broadcast over the Radio about a terrible fire that was going on in Malaga and that all the Fire Apparati from surrounding communities were at the scene; nothing could be done much to control the fire proper; it was such a windy day the Fire Apparati were there to protect the surrounding buildings; of course the party did not know that it was Dinshah's place. Suggestions were made that the Auxiliary Benefits of $15.00 each be turned over to the Spectro-Chromarium Fund, for a period of one year. Favorable opinions were expressed.

Case Reports followed:—

1. Leopold B. said he had a bad case of Heart Disorder; could not work for a long time and if it were not for Spectro-Chrome would not be able to work now and Medical Doctors cannot believe that he is working with his Heart as bad as it was.

2. William P. said he had a Tooth pulled and developed Blood Poison; so sore you could not touch his Face, and the Face was badly swollen. Robert Boschert suggested Spectro-Chrome. He said at the time he thought it was a joke—just another fad—but, Boschert took him to the Deputy and after 1 Tonation he was rid of the Pain and then rented an Equipment.

3. Robert B. said his 9 year old grand-daughter fell on the ice and had terrible Pain at the end of the Spine; had to lie on back, could not raise feet; she would have to slide to edge of bed and take hand and lift the other leg. He said he called Eleanor Neumann and she told him to use Orange; the child cried and suffered terribly for about 30 minutes, but, he said he just talked to her and told her to continue taking it a little longer, which she did and 15 minutes after Tonation the Pain went away. The next day gave 2 Turquoise Tonations and was just fine.

Numerous pledges were promptly given for the rebuilding of the demolished property. A plan was submitted by the Commissioners for circularizing the Affiliates to collect funds, but the Council Of Trustees refused to approve of it, saying "all Contributions must be unsolicited and voluntary." All such and similar pleas were turned down with thanks from the Principal Office.

## Meeting Of Thursday, February 1, 1945

### Successful Use Of Spectro-Chrome In:—Constipation, Infection, Sore, Throat Disorders, Injury, Hemorrhoids, Swelling, Cough, Vomiting, Pain, Itch, Tumor, Skin Disorder, Stomach Disorder

*Reported By*:—VIOLA C. JEUDE, *Recorder*

Deputy Clemens M. P. Neumann was in the chair; 56 Affiliates were present.

Communication from the Principal Office was read. The matter of Affidavits was discussed.

The Deputy had received his "Triumph Of Spectro-Chrome" and said he was up until the wee hours this morning and those Affiliates who have Spectro-Chrome Metry Encyclopaedia ought to get the new book as it answers all questions in regard to Spectro-Chrome from the standpoint of eminent Medical Doctors; it is worth the $3.00 and much more.

Anna Schindler said her friend Anna Strumberger told her the U. S. Food And Drug Inspectors were at her house.

Marie Jung said that she had been investigated and they asked her for what Spectro-Chrome was used in her home; she told them that with her experience with Spectro-Chrome, she could write a book; how she started with Spectro-Chrome that her baby had gained only 2 ounces in 5 months, that he weighed 7 pounds 3 ounces when he was born and 5 months later only weighed 7 pounds 5 ounces; she said she showed the Inspectors the pictures of this child 2 weeks after they had started with Spectro-Chrome. That while she was doctoring with him that they had constantly given him Enemas to move his Bowels, he would throw up if they gave him Medicine, but the third day after using Spectro-Chrome, the Bowels moved naturally and have moved naturally ever since. That 2½ months after they were using Spectro-Chrome, her mother had an Infection; she had 2 Sores 1 inch deep and as large as half a dollar on the right Leg and 1 Sore on the left Leg; it was spreading so fast that the Medical Doctor said that if this kept on he would have to take her to the Hospital the next day. So one of her sisters who also had Spectro-Chrome asked her if she would help her to use Spectro-Chrome; so between them, they took care of the mother under the Deputy's directions and gave her 5 Tonations and when the Medical Doctor came the next day, he was amazed and said they had done a wonderful job of nursing, because the mother would not have to go to the Hospital! She also told them that her husband (as long as she knew him) suffered with Sore Throat and would have to have it lanced 3 or 4 times each time he had it. When they tried Spectro-Chrome, he was normalated in seven Tonations; 2 years later, he got it again and was normalated in five Tonations and has not had it for the past four years. She also told them about her experience with tonating the children for Measles, Mumps, Burns and various other ailments. The Inspectors said these were no serious conditions that the children could have gotten over them without anything. She said yes that was true, but she compared her children's conditions with other children and the length of time it took other children to get over it and her children were well in less than a third and half the time it took for the others. They were there more than 2 hours and when they left they said she surely had enough exeprience with Spectro-Chrome; she said she did not know what she would do without it.

Frances Seeger said Saturday they came and asked her if they could see her about Spectro-Chrome and what results she had with Spectro-Chrome. She told them. They also asked her about the food; she said the Doctors give diets too in many instances; they say no sweets, no pies and cake then in other conditions no meat and proteins. They finally said they would take her word for it and left.

Elsie Beisswanger said they also came to see her; they were very polite and asked about the "bad side" of Spectro-Chrome; she said she was satisfied; they did not ask to see the Spectro-Chrome and went away.

Richard Fred Jeude reported that two Inspectors called and asked for Mrs. Jeude; as she was baking in the kitchen and felt she did not want to be disturbed and not knowing who the men were and what they wanted, he told them she was not in. They then said they came in the interest of Spectro-Chrome, could they come in; he said he was very busy working in the basement and did not have the time; they said they would come down in the basement with him. He said no you won't, because I have work to do that must be done and I cannot talk and work at the same time, but that if he could furnish them with any information in regards to Spectro-Chrome that he would give them a few minutes.

They then asked what Spectro-Chrome had done for him or why he was using it.

He then related the experience with a finger he had cut and the difference with a like condition to another that had been cut the year before he had Spectro-Chrome. That he had fallen down 21 marble steps and the injury that was done to his arm, how black and blue it was and that a lump as large as a goose egg had formed and that in one Tonation the blueness disappeared and the lump also. They asked for what Mrs. Jeude was using Spectro-Chrome. He told them Constipation; that she had resorted to laxatives for 26 years but was normalated with Spectro-Chrome. They asked me if that was all the experience they had with Spectro-Chrome. He said she may have had more but he would let her speak for herself. They asked if he had any other interests beside just using Spectro-Chrome in the Organization. He said no, but Viola Jeude was the Recorder. Then they asked if he would furnish them with some names and addresses. He answered in the negative.

They said they understood he was a Druggist for over 35 years and he used to keep records. They asked why after being a Druggist so long, that he was using Spectro-Chrome. He said that long before he was using Spectro-Chrome, he did not believe in Medicine and when he would see what and how some Medical Doctors wrote and prescribed he was off Medicine long before he knew about Spectro-Chrome. They asked if he did not believe in Doctors. He said they have their place; one surely would need them if one broke a Bone or severed an Artery. They asked what my Druggist friends thought about his using Spectro-Chrome or was he keeping it a secret? He answered them that he did not care what his Druggist friends thought about him and that he was not keeping Spectro-Chrome a secret; in fact he was telling all with whom he came in contact. The Inspectors wanted to take him to a certain So-and-So who would make him talk. Richard Jeude told them he would go nowhere without a Court Summons.

They asked him if he would give any names of persons who died under Spectro-Chrome from Cancer. He said he did not know any that had died under Spectro-Chrome from Cancer.

They asked him if he would not like to help and work for his Government. He said: "Surely in what way?" They said he would be helping in the Fraud against the people. He said there was no fraud against the people and that Spectro-Chrome surely did the work if there were full co:operation from the people.

The Deputy then reported:—

1. Ida M., female, age 53, Ratio 78-15 suffered from External Hemorrhoids the size of a date and a cherry, for the past year. Could not perform her usual household duties, could not even sit down. Used many Cathartics, Enemas without desired results. Used Yellow and Orange, Purple and Magenta; normalated in a short time and was very much pleased.

2. Alex R., male, age 67, Ratio 64 to 18. In left side under ribs a terrible feeling, Pains in the middle Back and in Stomach region; such Pains prevented me from stooping; Knees started to swell also Swelling on top of both Big Toes. He had Frontelim 19 times in one day. Atcowas used were Yellow Local and Systemic, Orange Systemic, Normalated within one week; more than pleased.

3. Sandra P., female, age 5. Severe Cough starting in September for the past three years; it occurred in spells lasting at times all night and no rest for the sufferer and parents. No phlegm was expelled, but Cough caused Vomiting. Consulted Medical Doctors every year. This year more severe than ever. Parents were frantic about it, diagnosed as Sinus condition; Nose drops, Cough Medicine used but no results. Ratio 140 to 24. Very fond of Meat. Atcowas used, Yellow and Orange Systemic Front and Back, Turquoise Front and Back Systemic. After first Tonation of Yellow, the girl slept all night to the surprise of the highly disturbed parents. Normalated to the entire satisfaction of the family.

4. Mary W., female, age 64, Ratio 70-16. Arthritis in Knees and Fingers. Pains in right Arm and very severe Pains in lower Back, unable to straighten out. Terrible Itch in back especially in Summer; feels like being in fire. Feels always tired and worn out. Constipated for the past few years. Resorted to Laxatives. Subject to Headaches. used Aspirin, Vitamin tablets. Tumor on left lower Abdomen. Tonated with Yellow, Orange, Lemon, Green, Turquoise, Indigo, Magenta. Growth hardly noticeable; all other condition normalated; feels fine, very thankful.

5. Robert P., male, age 49, Ratio 74-17, for a period of years spots of Skin Inflammation on Legs apparently from contacts of grass or weeds. He said: "I also suffer from Hay Fever, which is more pronounced in the past years. Medical Doctor advised Allergic Tests and I received progressive "shots" for about nine months; in taking these shots for 2 months, a Skin Disorder appeared on my right Ankle growing larger in size. Skin Specialist advised to stop Allergic Tests. Now use lotions, salves, castor oil applications." Tonated with Yellow, Orange, Red, Green, Turquoise, Magenta and Scarlet. Responded very well and Skin Disorder disappeared, no scar, no itch; a fine new Skin reappeared. Very well satisfied with its results.

6. Kathryn T., female, age 42, Ratio 72-22. "My Stomach aching and I am belching, it comes in spells. I have Pains also in my belt region, and at times in my left Shoulder. Suffer from cold Feet and always feel better when in warm room. Used Nerve Medicine. Tonated only a few

times with Orange, Yellow and Scarlet; Pains and Stomach normalated." Her employer was well satisfied.

Hildegard B., reported her own case. She was going to work the last Eclipse Period, running for the omnibus. Her rubber heel stuck to the cinders and she fell; she could hardly get on the bus without assistance; she managed to work in the night shift, but her Leg hurt very badly. This was on Saturday, about 12:15 A. M. and the next morning at 8, by the time she went home, she could not use the left Leg. Sunday was a off day and she did not have to work; she took 6 Tonations, using Indigo to relieve some of the Pain, Turquoise Systemic, Scarlet for the Heart and Turquoise Local and at 12:15 A. M. Monday morning she again reported for work.

Robert Boschert said he spoke to a Chiropractor who had a Spectro-Chrome, who called Dinshah a "money grabber"! Said he could serve 4 or 5 in an hour with Chiropractic!

The Deputy said he was sorry that there was no more time for the Educational Program. He had a very interesting article from the newspaper, where some Professor from Vienna just discovered that Light travels like a "Cork Screw." Wonderful! Said he: "I felt that I should write him and tell him that he is just about 25 years behind the time, and ask him to investigate Spectro-Chrome!"

———o———

## FIRST NEW YORK NEW YORK PLANET

(HOTEL McALPIN, BROADWAY AT 34TH STREET)

**Meeting Of Thursday, January 4, 1945**

**Successful Use Of Spectro-Chrome In:—Burn, Angina Pectoris, Trichinosis**

*Reported By*:—EMMA C. HAITZ, *Recorder*

Deputy Lina Fischer was in the chair; 101 Affiliates were present. The Meeting was held in the Green Room. It was delightful to see such a large attendance. Twelve persons were denied admission because they had no 1945 Cards.

Deputy—Colonel Dinshah is not with us tonight. Some of you heard about what has happened. For those of you who did not, I shall read an article from the Philadelphia Inquirer. After the meeting you may come up here and look at this picture of the whole family, taken shortly after the Fire.

The article was then read by the Deputy; also the Telegram received from the Institute. All listened in understanding silence.

Deputy—My husband and I were down there yesterday. What we saw is unbelievable. Those of you who were down there before, know the Main Building. It is just leveled. Thousands of dollars worth of books, fifteen hundred Motors, Automatic Time Switches are all gone. There is nothing left. The family moved in to the Spectro-Chromarium. Since all their personal belongings were in the Main Building, they, too, were destroyed and all they could save was what they had on their body. That family is not like we are. They are satisfied with very little.

Dinshah now has no records, no Affidavits and nothing with which to go to Washington. Even his Pardon papers from Calvin Coolidge and

Franklin D. Roosevelt are gone. The damage is too great for me to conceive.

It is amazing how that family can keep up under those conditions. Colonel Dinshah still has his usual smile. You know, I can almost visualize a new building rising. It is for us to help. I would like to have your opinion as to how we can co:operate and show that we are 100 per cent. with Dinshah.

Show to him that you are with him 100 per cent.

A motion was made by Albertina Zimmerman and seconded by Dea DeMartin that a letter of sympathy and devotion be sent to Dinshah Spectro-Chrome Institute. The Deputy then read the letter which she had prepared.

Deputy—Do you all find this letter satisfactory?

Affiliates—Yes.

Deputy—On your way out, come to the desk and sign your name.

The Deputy then read from the November 1945 Spectro-Chrome the compliment paid us by the First Milwaukee Wisconsin Planet. Everyone seemed pleased.

Deputy—I think we should feel well about it. Of course the attendance is not what it was the last time. Try not to miss any Meeting if you can possibly help it.

The Deputy then read Chapter 56 on "Rubor, Calor, Tumor, Dolor." The Affiliates listened enthusiastically.

Marie Frefel had a Burn on the Hand. It was all blistered, but after two Tonations, it was completely healed.

New Affiliates were introduced and greeted by a hearty applause.

Deputy—I like to report the case of Henry V. He had Angina Pectoris. He had many Heart attacks, as many as 4 each week. He had visited 8 doctors who did not give him much hope. When I visited the family, I told them how serious his condition was. He gave up Smoking and adhered to the Rational Food Of Man, due to Kate, his very efficient wife. He had the Equipment for the first nine days and had only two attacks. Ever since he had no more attacks. Kate had to write to the Institute because, in order to get the benefit of their health insurance, they had to have the signature of a Physician. They wrote to the Institute and Dinshah granted permission to go to a Doctor as long as no Medicine was administered. She had showed me 10 kinds of Medicines, the last one being Nitro-Glycerin. He was in such a condition that there was no Backelim and had Pain in the Heart. Yellow brought on proper Elimination. Every time I went there he was always better. He went to the Medical Doctor the first time after using Spectro-Chrome for 2 weeks. His Blood Pressure had gone up from 108 to 124. The Doctor was puzzled by this change and asked what he ate. Henry told him he ate only "vegetables." When I first took his Heart Beats, they were 45 and then when he got an attack it went as low as 33. Now his Pulse Beat is between 70 and 75. It does not fluctuate. His ratio is 4 or 5 to 1. When he went to the Doctor, he said "here comes the wonder man." The doctor told him he was one out of a thousand who would live with such a condition! He took two Tonations a day; one Yellow on Areas 6, 7, 8 and 9 and one Magenta on Area 4. He is now taking Lemon in the morning and Magenta at night. It is a very interesting case and I am very proud that I was instrumental in helping. I was really more worried about Kate. She also has an Enlarged Heart. Since being on the Rational Food Of Man

she gained 30 pounds. Put that in your Chart and Dinshah will cut that right in half! Thanks to her, her husband is better. He, too, gained 11 pounds. (Loud applause.)

Deputy—Are there any other new Affiliates who have had good results?

Josephine T.—I once bought ½ pound of Metwurst through a neighbor and had divided it among 5 people. When I had to call the Doctor, he said I had Food Poisoning. Three of us landed in the Hospital. The Worms had settled in my Heart Muscles. Seven years after I had Trichinosis, I landed in the Hospital for nine weeks. The Doctors cut my Heart Muscle open and found the Worms embedded but asleep! Seven Doctors said they could not help me. For five weeks when I was in the Hospital in April, I was treated for Hemorrhages. I have a daughter who is a nurse and she said that if Spectro-Chrome could do that for M. it can do it for you. I do not feel 100 per cent. yet, but I have improved so much that I want to shout it from the house tops. I am such a good example that tomorrow I am going to enroll somebody. (Loud applause.)

Deputy—That was a very fine report.

Everyone went home very pleased as the Meeting was a successful one, as are all our Meetings.

## EDITORIAL REMARKS

Thank you for the Affidavit signed by 101 Affiliates. Your efforts, loyalty and devotion are praiseworthy and compensate us beyond all our losses. What if we lost all our belongings! We have you—worth more than the treasures of the World!

### Meeting Of Thursday, February 1, 1945

### Successful Use Of Spectro-Chrome In:—Appendicitis, Uterine Prolapse, Heart Disorder, Pain

*Reported By*:—EMMA C. HAITZ, *Recorder*

The Meeting was held in the Red Room. Deputy Lina Fischer was in the chair; 101 Affiliates were present. The Deputy read from Dinshah's "Good Thoughts" on "Machine" and "Surgery."

Deputy—Brothers and sisters, think it over and absorb these two "Good Thoughts" and you will come to realize what Spectro-Chrome means and does for us.

The communication from our Dinshah was then read by the Deputy who explained as she proceeded. Those Affiliates who sent Enrollments shortly before the Fire, had already done as he requested. She then related to the Affiliates her experience of accompanying Dinshah to the Brooklyn Court for the Pre-Trial Hearing.

The Deputy then asked how many Affiliates would voluntarily testify in the Brooklyn Court in behalf of the merits of Spectro-Chrome. Thirty-five Affiliates volunteered.

Louise Witt, Frieda Diez, Elizabeth Turk and Lillian Peters all stated that they were recently visited by the Inspectors. Louise Witt also stated

they were especially interested in her Favorscope. Her neighbor spoke with the Inspectors concerning the case of Louise Witt's husband, also saying that if she ever became sick, Louise Witt would help her.

Deputy—You will introduce her as a Benefit Student, but never let her use your Equipment. When people once hear of Spectro-Chrome, they will come to you when they are in need. That is the way I heard about it too. Hugo Witt had wonderful results, but, he did not stick to Spectro-Chrome.

Louise Witt—After he was normalated, he started drinking and smoking again and then he got another Stroke. I told the Inspector exactly what happened.

A new Affiliate Louise Burg was introduced to the Affiliates.

Case reports were called and Frank Cassano, a Spectro-Chrome Normalator, came to the platform. His Reports follow:—

1. Caroline S., age 15, was to be operated on for Chronic Appendicitis. Kardoscil 67, Spiroscil 18. Backelim 1 a day, Frontelim 4. After using Turquoise Area 10 and Magenta Areas 4 and 18 for 1 week the girl already felt better. For the next three weeks, Lemon Systemic Back and Front and Magenta Areas 4 and 18 were irradiated. Within 1 month's time parents are so well pleased that they are now enrolling.

2. Hilda M., age 37, had fallen Womb. Kardoscil 72, Spiroscil 14. Backelim 1 a day, Frontelim 7 a day. Indigo Areas 10 and 11, Lemon Systemic Back and Front and Magenta Areas 4 and 18 were used for 2 months. After 2 months, she was normal.

3. Helen L., age 45, had weak Kardoscil and Pain in Area 18. Kardoscil 64, Spiroscil 18. Backelim 1 in 2 days and Frontelim 3 a day. Green Systemic Back and Front and Magenta Areas 4 and 18 for 1 week, two a day. Kardoscil 80, Spiroscil 18. Backelim 1 a day. After 1 month Kardoscil was 78.

4. Marguerite G., age 66, suffered with Heart, Kidney and Liver Disorders. Kardoscil 76, Spiroscil 22. Backelim 1 in 3 days, Frontelim 7. The Ratio was 3 to 1 which was bad. Started tonating with Magenta Areas 4 and 18 and Yellow Systemic 8, 9, 10. She kept using Heart Stimulant, so Spectro-Chrome was taken away. A month later the woman passed away.

5. Mary F., age 70, suffered from Low Blood Pressure. Kardoscil 54, Spiroscil 14, Backelim 1, Frontelim 5. Used Scarlet Areas 4, 18 and Lemon Systemic Back and Front 1 week. Kardoscil 72, Spiroscil 18, Backelim 1, Frontelim 5. Continued to improve; however, she constantly had to be warned not to eat certain foods, but would not listen. Ate Noodles, Flesh and Bologny and took Stimulants. I gave up the case. She went to a Hospital and died after 3 months.

Deputy—Colonel Dinshah is very happy over the enthusiasm of this Planet. He was very pleased with the manner in which the last Meeting was carried on.

By permission of the Institute Carl Fischer then showed Motion Pictures of the Fire which had been promised the Affiliates. The Deputy explained as it proceeded and pointed out the various Buildings. Upon requests by many of the Affiliates, the pictures were shown a second time. Everyone enjoyed the pictures as they could see at first hand the terrible destruction caused by the fire.

All went home satisfied and much interest was shown.

EDITORIAL REMARKS

Spectro-Chrome does NOT claim to keep people alive for ever. All it claims is that it can do all that Medicine can do, WITHOUT the sequelae. If Spectro-Chrome, intelligently irradiated, can not give the desired results, the case has come to a point where it is beyond human reach. We all have to die some day—even the Originator of Spectro-Chrome has to follow the same road, but, the proper use of Spectro-Chrome and the strict following of its Technique and Rules, will produce a Life full of Health and Happiness, until the human machine itself wears out in accordance with the Laws of Nature.

If any person will not follow the Technique and Rules of Spectro-Chrome, do not permit the use of the apparatus. Those strict Rules are vital to the effectiveness of the Science and one must either follow them or have one's own way and stay sick or die—surely that is their personal privilege.

—o—

## FIRST MILWAUKEE WISCONSIN PLANET

(MILWAUKEE AUDITORIUM, WEST KILBOURNE AND NORTH FIFTH)

**Meeting Of Thursday, January 4, 1945**

**Successful Use Of Spectro-Chrome In:—Injury, Swelling, Pain, Diabetes Mellitus, Gangrene, Fracture**

## A CASE OF WRONG MEDICAL DIAGNOSIS

## THE EVIL OF INTOXICATING LIQUORS

*Reported By*:—EMMA SCHROEDER, *Recorder.*

The year 1944 closed upon a world torn with a War so destructive, so cruel, as to beggar description; so savage that it is difficult for the human mind to conceive where civilization ends and barbarism begins (or vice versa). The need for Truth is more apparent than ever and where may greater Teachings of Truth be found than in the Dinshah Spectro-Chrome Organization?

The New Year 1945, which just commenced, already proved fateful to our valuable Institute, when, on the first business day of the year (January 2d) Fire obliterated those precious belongings of our President Dinshah, most of which may never be replaced.

The telegram containing the news of the unfortunte disaster arrived at the Recorder's home about 9:00 A. M. Wednesday, January 3d. She immediately notified the Planet Deputy as well as the other past and present Planet Commissioners and all Affiliates whose names she retained in memory, many of whom, in turn, notified others immediately in this emergency. Some were stunned into silence; others, who are deeply attached to our Cause, became hysterical and still others cried openly at the Telephone. All sympathized with Colonel Dinshah for losing his valuable possessions, but admired the spirit and courage he possessed and expressed in his desire to make a new start "In Glory Of God." Some

believed that this misfortune would lead to greater achievements. When conditions seem to be at their worst, the turning point is usually near. "It is always darkest before dawn." All were grateful that lives were spared.

Most Affiliates entertained the suspicion that this fire was of incendiary origin. They thought it strange that it should occur in the same month in which Colonel Dinshah's important Trials were to take place. The possibility of a defective Heating Plant was considered; according to the newspapers there was a severe storm with high winds in that vicinity on the day in question. One Affiliate asked "Were there any chemicals in the building"? Another "Was chemical experimenting done there?" All are anxious to hear the details and origin, if that may be determined. All expressed surprise when they heard "No Insurance."

Deputy Frank S. Burns was in the chair; 109 Affiliates were present. The communication from Dinshah, dated December 29, 1944 was read by the Deputy.

Deputy—The Recorder has a Telegram. Coming at this time, I think it is the most discouraging situation and trust you will realize the seriousness of the predicament the Institute is in and do what you can to alleviate the distressing circumstances. In the letter of the 29th we read of the final determination of some of Colonel Dinshah's vital Court issues about to take place this month and now this telegram.

Fredrick Kneppreth—The contributions are starting out wonderfully, I think that Colonel Dinshah is rather "up against it." WE are the only ones he can turn to with this dark cloud overhanging.

Deputy—Any Affiliate who feels he can contribute, it will certainly be appreciated. Dinshah is broad-minded and knows we are not all in a position to do so. Many of us have been "Bled by the Medical Doctors" as he says.

Emily Mokelke, who feels she owes her life to Spectro-Chrome and is very grateful, spoke inspiringly—We really owe all to Dinshah, especially those of us who have been terribly ill. Years ago, we had Doctor after Doctor. Everything I have today I owe to Colonel Dinshah, for, if I did not have my Health, nothing else would count and there is a number of Affiliates who feel the same way as I do. I think we should give as much as we can. In gratitude we should do the best we can. We should really make a few more sacrifices. (Applause.)

Fredrick Kneppreth agreed with Emily Mokelke and spoke of this being of a constructive nature.

Robert Schott—Another way in which we could help, I think, would be to avail ourselves of some of Colonel Dinshah's books.

Norma Fiedler invited Colonel Dinshah to build in a more central location, say Milwaukee or Chicago.

Fredrick Kneppreth—The contributions are starting out wonderfully, but, do not let that stop here! Let us show that we are behind the Institute for all that Dinshah has done for us.

Case Reports followed:—

Sarah P. Erdmann—Five weeks ago I fell and badly hurt my right Knee; left Knee and Hand were also injured. Had the Medical Doctor examine it for Fracture. He said it was badly bruised. I irradiated Yellow twice, then Indigo. By night it was so swollen I was confined in bed for the next three days. I could just limp around. I continued Indigo twice and then Orange. It became numb. Was advised to alternate

Orange and Indigo with Magenta on Areas 4 and 18. Spiroscil was 21, Kardoscil 76. Now I am able to bend my Knee. When I go out evenings I use a crutch. The Medical Doctor said it is progressing wonderfully. I surely went through some suffering and do not know what I should have done had it not been for Spectro-Chrome.

Deputy—Everyone should gain by that experience.

Much discussion started about when to use Orange and when Indigo.

Emil Egide—We had a case in our family: My wife thought she would be Hercules and shovelled snow. She did the whole walk but could not get out of bed the following day. She did not know what the trouble was and imagined she had everything from "Lumbago" to all the "Itises" in our book. I looked over the condition and from my observation it appeared to be tenseness of the Muscles and I recalled Dinshah's statement that we are too anxious to relieve the pain with Indigo instead of going to the seat of the Disorder and taking care of the Circulatory System. She used Orange one night and arose from bed the next morning wondering where the Pain was. It proved very effective. It remained away one day and she did something which required those same Muscles and the Pain returned for a few days. I continued the use of Orange. She was required to report to the Company Doctor. If there is no Fever present and no sign of Redness or Swelling, then Orange is the Atcowa to use. If it were a tense Muscle Orange. It proved very effective. We do not use Spectro-Chrome very often in my family, but, when we cannot get out of bed we use it.

Alice Brown—A six-year-old child suddenly became very sick. The father became panicky. Neighbors sent for an ambulance and she was removed to the Hospital. Four Medical Doctors held a consultation and decided it was "Spinal Meningitis." The father "lost his head." He had a Spectro-Chrome Equipment. The child was released after four hours. Before the child left the Hospital, a Nurse said: "It is too bad. That child will be dead by tomorrow." Temperature 106. Spectro-Chrome was irradiated. I went to visit the child the following afternoon and found it playing around! The child recovered.

Deputy—Do you think it was Spinal Meningitis?

Alice Brown—No! That is what the Doctors had said. Must be their wrong "Diagnosis."

Deputy—I, too, doubt whether it was that. The symptoms may have been similar.

Fredrick Kneppreth—Spinal Meningitis is an Inflammation of the Membranes covering the Spinal Cord.

Past Sub-Deputy Kurt W. Bader—I would like to contribute something to this discussion. Is there anyone with a loud voice who would read this? (Nobody responded.) At the last Meeting the question of proper dress conducive to Health came up. I shall read you the article from Spectro-Chrome bound magazines, Volume I, June, 1922 to December, 1925, page 320, entitled "What to Wear" from the Evening Bulletin of Philadelphia, Pennsylvania about the "Wisdom of Keeping the Body at Uniform Temperature" by Garrett P. Serviss, the Astronomer-writer.

The article was read. (Everyone is recommended to read it and dress accordingly. The views of the Originator about proper dress did not change. They have been the same all his life.)

Kurt Bader concluded his reading by stating: "If you have nothing in your Stomach, you can freeze at 104 Degrees." He stressed the im-

portance of reading Dinshah's books and publications and urged Affiliates to get them saying "Dinshah is not looking for contributions. It would be just as supporting (and knowledge would be increased) to get his books."

Norma Fiedler—Every year we get the same lecture about dressing warm. When my ancestors immigrated to this country, they settled in the backwoods. There were Red Indians in those days and they were scantily clad; possibly wore a few skins. One Indian, when questioned as to whether he did not suffer from the cold and exposure, asked the white man "Does your face get cold?" Upon receiving a negative reply, he said: "Well, me all face!"

The importance of keeping hands and feet warm was emphasized by Fredrick Kneppreth who also spoke against fur coats, saying: "It is not the fur but the heat in the Body. The object is to keep the Body Radiation from wasting. It is more sensible to purchase a $75.00 wool coat than to spend several hundred dollars on a fur coat. People who are on the path to enlightenment should always bear in mind the contribution to slaughter. The Commandment is:

"THOU SHALT NOT KILL." (Applause.)

Kurt Bader gave a sensible talk on the subject of dress.

The case of a woman, aged 65, came to the attention of the Deputy who related it. Said he: "About a year ago, her Foot became swollen and inflamed and began to drain between the Toes. The family became alarmed and called in a Medical Doctor who examined her and sent her to a Hospital, for 'Diabetic Gangrene.' The woman was at the Hospital for a week, 'under observation.' The family was not in a position to maintain her there, so she was returned home. The Medical Doctors said she would have to take Insulin daily and showed her how to make the Injections. Strange as it may seem, this family had a Spectro-Chrome Equipment and my attention was called to the case. I said: 'Forget about Insulin and the Doctors! Just use Spectro-Chrome; but USE IT! Don't have it in the house as a fixture.' She commenced using it conscientiously. The foot opened, drained for a while and finally cleared. She was unable to walk, but continued to use Spectro-Chrome and took the Tonations regularly. A Pain in the Ear developed and opened during sleep. In the course of time after using Yellow, a Core came out and the Disorder cleared and today she is in very good condition and goes around. She goes downtown alone on the street car and during the past year she had a check-up by the Medical Doctor as to Blood and Urine. His remarks were: 'Just keep on with the Insulin; I am surprised you are so wonderful! Your Blood Count is wonderful! No more Sugar! Just keep on with the Insulin'! He never examined her for Insulin Injection. She used Yellow, Magenta and some Indigo. Her general condition has improved remarkably."

Alice Brown—I should have shown him Spectro-Chrome.

Deputy—The house was divided against itself, but the Doubting Thomases had to admit that she improved.

Louise Schultz—She should have told the Medical Doctor.

Robert Schott—I had the same experience with Cataract. I was convinced that I did not have to be operated.

Gladys B. reported that her little boy broke both Wrists while away from Milwaukee. He was taken to a Medical Doctor before she could reach him. As soon as she was able, she removed him from the Medical

Doctor's care. One Wrist is in a Cast, the other in a Splint. I gave him Magenta on Areas 4 and 18 and Lemon Systemic. The Medical Doctor gave him pills called "fish-eyes." They were Calcium. She put them away. Her sister is against Spectro-Chrome and she did not tell her why she was taking him home. She would have taken him home sooner but was unable. The Deputy advised Gladys to continue with Spectro-Chrome.

Informal discussion was invited by the Deputy:

Late-comers requested that the telegram from the Institute be re-read and the Deputy complied.

The Deputy concluded the Meeting with a reminder on the peril connected with the use of Intoxicating Liquors. "There is much to be said. Some people regard the craving for Liquors as a Disorder. I believe this country or any other country for that matter, would be far better off if it would abolish Intoxicants entirely. Institutions are filled, the Houses of Correction, Reformatories, Insane Asylums, all are filled with Liquor addicts or as a result of it. It is a difficult problem. You know as well as I do that some years ago we had what was called 'Prohibition.' Anything but Prohibition existed. People who never indulged in Liquor before, began to make use of it. I do not believe people will ever get away from the idea until they realize the danger and harm it does to the Physical Body. You know what it does. It upsets the Mental Equilibrium. It takes a terrible toll. The fine membranous Tissues of the Brain are destroyed and can never be replaced; neither can the lining of the Stomach be replaced. How that may be corrected in an individual is a problem. The only way one can obtain results is by appealing to the person's sense of reason and understanding and showing him the injury that is done to the Body and the wrecks and derelicts that are confined to Institutions as a result of it. I have been an Abstainer for years and it would be against my reasoning and better judgment to use Liquor. I could not think of ever going back to it. Sometimes people wonder how I live because I abstain from these so-called 'pleasures.' I have a clear thinking capacity. I hope to retain that until I make my departure from the Physical Plane." (Applause.)

Robert Schott—The craving for Alcohol and Tobacco may be lost by using Spectro-Chrome.

Fredrick Kneppreth—Alcohol never brought prosperity to any country.

Norma Fiedler—Occult books deal with this question. There is always an aftermath. Ofttimes "blue spells" follow a drinking bout.

Kurt Bader—Think of it! Five and a half million insane in our Hospitals as a result of these vices. WE are the ones who have to support them. Billions of dollars have been used for booze last year. How much will they have to spend for the Medical Doctors to repair the damage? Now you know why the Medical Doctors are supporting Liquor and Tobacco.

Deputy—The sins of the parents! If you talk to a Medical Doctor about Mental Disorders, he will invariably tell you the causes are either "Syphilis or Alcohol."

Emma Schroeder—Occultism teaches that the effects of Tobacco and Alcohol are noticeable even after death.

Deputy—You can smell them from a distance. I can see them dropping off one by one. I could mention 6 or 8 who passed on from time to

time with Cancer or another Disorder attributable to Tobacco or Alcohol. Had they abstained, they would not have had the terrible deaths they had.

Quite spontaneously and opportunely Edwin Larson recited the following from memory. Edwin said he is not the composer of this poem, but did revise it so it may apply to both boys and girls:

To A Young Boy and Girl Over A Period Of Years

THE CIGARETTE SPEAKS

I'm just a friendly Cigarette
Don't be afraid of me!
Why, all the advertisers say
I'm as harmless as can be.
They'll tell you that I'm your 'best friend'
(I like that cunning lie,)
They say you'll walk a mile for me
Because I 'satisfy.'

So Brother, Sister, be a sport!
Why longer hesitate?
With one between your pretty lips
You'll be quite 'up-to-date.'
You may not like me right at first,
But very soon (I'll bet)
You'll find you just can't get along
Without a Cigarette.

You've smoked one package, so I know
I've nothing now to fear;
Once I get a grip on boys and girls
They're mine for life, my dear;
Your freedom you began to lose
The very day we met
When I convinced you it was smart
To smoke a Cigarette.

The color's fading from your cheeks,
Your finger-tips are stained;
And now you'd like to give me up
But, my dears, you are chained!
You even took a drink last night;
(I thought you would ere long)
For those whom I enslave soon lose
Their sense of right and wrong.

Year after year I've fettered you
And led you blindly on
'till now you're just a bunch of nerves,
With looks and health both gone.
You're thin and pale and have a cough—
(The Doctor says 'T.B.')
He says you can't expect to live
Much longer—Thanks to me!

But it's too late to worry now.
When you became my slave
You should have known the chances were
You'd fill an early grave.
And now that I have done my best
To send your Soul to 'Hell'
I'll leave you with my partner, Death—
He's coming for you! Farewell!"

(Applause.)

An Affiliate suggested that this poem be submitted to the newspapers for publication, but several others cried out at once: "They won't print it!"

After the Meeting an Affiliate expressed her appreciation for poetry on Smoking and Drinking as a female member of her family is fast forming the habit and she thought poetry might "help some."

Recorder's Note:—A number of years ago, the following poem appeared in E. V. Durling's column in the Milwaukee Sentinel:—

"I owe to smoking more or less,
Through life the whole of my success;
With trusty pipe I'm sage and wise:
WITHOUT I'm dull as cloudy skies.
When smoking all my ideas soar;
WHEN NOT they sink upon the floor.
The greatest men have all been smokers,
And so were all the greatest jokers."

—Bellamy Brooks

The Recorder wrote the following reply, for, she did not agree with the above sentiment, and begs to submit it:

"You owe, 'through smoking, more or less,
Through life the whole of your success?
With trusty pipe you're sage and wise?'
Now let me take you by surprise:
'Without your pipe you cannot think?'
(Your breath must be quite bad, I think.)
You're 'dull' because you're used to smoking;
That, my good friend, is no mere joking.
'When smoking your ideas soar?
When not, they sink upon the floor?'
All I can say: You're in bad shape,
'Twould seem, almost beyond escape
If you can't give ideas birth
Without this bane which has no worth.
'The greatest men have all been smokers?
And so were all the greatest jokers?'
The biggest joke, my friend, 's on you,
No smoke, you can't ideas brew;
Your brain's befuddled—you cannot think—
Cause: Your Pituitary's 'on the blink.'
MORAL:
Ability to think without stimulation
Is what is deserving of real admiration."

## EDITORIAL REMARKS

Emily Mokelke and Albert Mokelke deserve the highest respect and honor from us as being the first ones to send in their Contribution to the Spectro-Chromarium Fund by telegraph. A few minutes, later through the same channel came in the Contribution of Recorder Emma Schroeder. The New York Contributions followed by hand through Deputy Lina Fischer. To all the best thanks are extended by the Trustee, who will give a final accounting when the property is deeded to the Institute.

Norma Fiedler's idea about moving to Milwaukee or Chicago is good, but, the question would be simple if ALL our possessions and buildings here had burnt. As it is, what could we do with our Foundry, Assembling and Cabinet Shops, Printing Plant, Spectro-Chromarium, Annex, Warehouse and the like? The amounts contributed and pledged are insufficient to build even *one* building—how about all new buildings in Milwaukee and Chicago? The Aura of Chicago is full of the Blood of slaughtered animals and Milwaukee has only "Fish Milk" to offer the family!

Norma Fiedler's story of the Red Indian reminds me of another real incident. In 1923, when I finished a Class in Cleveland, Ohio, an overenthused Graduate asked from me permission to print the following advertisement:—

A WHALE LIVES A THOUSAND YEARS,

USE SPECTRO-CHROME AND LIVE A THOUSAND!

Had I voiced my disapproval of this foolery, I should have lost a good Graduate, but, had I approved it, I should have lost my self-respect. So after a little consideration, I sent him the following:—

ADVERTISEMENT APPROVED,

BUT FIRST BE A WHALE!!!

Deputy Frank S. Burns deserves great credit for his able discourse against Alcoholic Liquors. Prohibition failed because the enforcing Officers failed to do their duty. Prohibition failed because Intoxicating Liquors were found in the cellars of the United States Congress, because the Members themselves were boozers. "Temperance" means Total Abstinence for the individual and Prohibition for the State, but, where the Country's Treasury itself would make money out of the degradation and debasement of the Country's population, there can be no inherent virtue or morality in such an administration. I have been a Member of the Supreme Lodge of the International Order Of Good Templars for 45 years and am a staunch Prohibitionist. Put Prohibition on Alcohol, Tobacco and Slaughtered Food (?) as on Opium and there will be no use for Prisons, Lunatic Asylums and Reformatories, Hospitals, Infirmaries and even Spectro-Chrome. Place Prohibition on the Statute Books and make me the Director Of Enforcement and the lid once clamped will stay clamped, because, there will be NO GRAFT OR GRAFTERS.

## Meeting Of Thursday, February 1, 1945

### Successful Use Of Spectro-Chrome In:—Paralysis, Cold, Injury, Pain, Sore, Fatigue, Peplessness, Stiff Neck, Laryngitis

### PRESENCE OF POLICE FOR PEACEFUL MEETING

*Reported By*:—EMMA SCHROEDER, *Recorder*

Deputy Frank S. Burns was in the chair; 145 Affiliates were present. Communication from the Principal Office was read. "Authentic Report Of The $250,000.00 Conflagration" was read.

Expecting a disturbance similar to the one in New York from the same quarter, because of a certain telephone call received by the Recorder, the Auditorium management had provided Police protection, but nothing happened.

Deputy—Last week Inspector Ernest of the Food And Drug Administration called on me and asked for certain pertinent information regarding my experiences with Spectro-Chrome. I told him how I became acquainted with this Science and how I had been an Affiliate for ten years and what benefits my family and I had derived; how Spectro-Chrome had been a God-send for ills which are not being taken care by other healing methods. I found him to be very pleasant. Of course, he has a duty to perform and is doing it as well as he can and knows how and I think the best thing we can do is to be as courteous as we can concerning our knowledge and experiences with Spectro-Chrome. I do not know how many of you had such a call, but, you will have! He was particularly interested in knowing about such Disorders as "Cancer" and "Diabetes" which had received Normalation by Spectro-Chrome. So, if any of you be familiar with cases of that kind, I am sure it will be appreciated if you will relate them to him. I asked him how any layman would know whether anyone had these Disorders as we do not know any Disorder by name and use no Diagnoses in our Science. We do know that there is a Chemical Disturbance and a Predominance on the Ultra-Green or Infra-Green side of the Solar Spectrum. Was anyone else visited?

Eleanor Luedtke stated that another Agent visited her. She believed his name to be Curry. Said she: "Three times he inquired of me whether I was a Nurse. Each time I told him I am a Spectro-Chrome Normalator. He was interested in the Insanity case of my relative which I reported some time ago and he said: 'Are you sure you are coming into the Court with her?' He went to the Perfex Corporation, where this girl is employed, to see, apparently, whether she was or is in her right mind. He visited the various Medical Doctors in the case. He also went to see Ella Smith who had a paralyzed Arm and whose case I also reported recently. He wanted to know whether she was instructed to go on a 'diet.' I said 'They do not tell us what to do, but they DO tell us what is good for us.' He looked at her Arm because he had been informed that it was shorter. Then he said: 'Both Arms look alike to me.' She said: 'Naturally, NOW I am well'! He had good reports. He asked me what I thought of Spectro-Chrome. I replied: 'You can touch anything in my house but not Spectro-Chrome'."

Past Sub-Deputy Kurt W. Bader—I believe the same gentleman was to see me. We conversed for about 2½ hours. I refused to disclose the name of any Sufferer or show him any Sufferer as our Code Of Ethics

forbids that. I told him I should give him my own case, if that be enough. Told him how I benefited by Spectro-Chrome. Showed him the Itisometer and the Graduate Equipment. He wanted to know how many cases out of a hundred we can get right. I told him that when they are satisfied they join our Organization. I asked him what that had to do with Food And Drugs. He said he has the order to investigate. I found him to be a nice gentleman.

Deputy—If there be a Hospital record, give it to him!

Kurt Bader—Both Medical Doctors are dead.

Deputy—But there is a Hospital record in your case.

Kurt Bader—I do not know whether they keep it over ten years.

Deputy—My son, whose condition improved to its present status with Spectro-Chrome, was in Rochester, Minnesota. The fact that he was there, showed that the Medical Doctors had ample opportunity to help him if they could do so.

Deputy (To Victoria Tuchel)—Your case would be hard for them to swallow!

Victoria—They must keep the records for a considerable time.

Deputy—Those are bitter pills for them to swallow.

The Deputy said those cases are self-evident and the "diabetes" case he reported some time ago was also a bitter pill.

Rose Helminak—I was operated thirty years ago; I got my record four years ago. The Doctor is dead twenty years.

Sub-Deputy Theodore Mohrhusen—I was also visited by Inspector Ernest. I was rather wary in the beginning. We both warmed up to the subject. He is looking for certain types of cases and fortunately (?) my mother-in-law's case was a Cancer case. He immediately wanted to know the Medical Doctors' names and Hospitals. I gave him only first hand information, none second hand. We talked for about 1½ hours and parted amicably. I questioned him "What are you investigating?" He appeared evasive about replying, so I told him that the very fact that he is still looking, answers my question.

Deputy Burns—I told him "Dinshah welcomes investigations." If the Federal Food And Drug Administration finds Spectro-Chrome is genuine, what will happen then?

Emil Egide—It will be "Case dismissed."

Albert Mokelke—The Inspector paid me a visit, but unfortunately I was not at home. I think he is looking for Hospital records. Mine are plastered all over Soldiers' Home. I was crippled with "Arthritis." The Medical Doctors there examined me and I could not get my Arm up. I also had "Epilepsy." They would not permit me to use the elevator. They must have been afraid I might fall. I was in the "Nerve Ward" with twenty-four other soldiers—all were bad "nerve cases." One case in particular: The man was caught in a hurricane in Florida. Suddenly he would yell. He was strapped. They say they give you no Narcotics out there. They certainly do! I was there about four months. They took off my clothes and tested my Shoulders and Arms. They were locked. I could not go to the bath room myself. They told my wife they could not do anything for me. "If you want to take the man home, you can! There is nothing here we can do for him," they said. I had a Spectro-Chrome Equipment at home. It had normalated my wife. She said: "Now it is up to you!" That was in 1937. I discontinued Smoking. It required nine months to be rid of my Epilepsy. I wondered how I could

know whether I was improving. I kept a record. The intervals between seizures were longer and longer. Finally it was 45 days between attacks and then they stopped entirely, suddenly. I think it would be a good ide to get an examination now. I had my waiver lifted. I was amused the ther day. Recently I moved into a new home and was hanging storm windows. There I was up on the ladder, hanging between Heaven and Earth and feeling secure! Undoubtedly the Inspector went to Soldiers' Home to examine my record. (Applause.)

Helen Schott—The Inspector called at our house also. He went to see the two Eye Doctors (Olson and Hitz).

Rose Jungmann—They were also in Racine. I thought it was quite fortunate that they picked the Affiliate they did pick. It was a case of Dropsy. They got a very good report from her. They were not at my home.

Deputy—I believe he was all over even in Merrill.

Case Reports followed:—

Emma Schroeder reported another "bitter pill." It was the case of her mother. The Disorders which were caused by a Stroke and consisted in Paralysis of the Throat, for one thing, occurred in 1936 and the report was given for the benefit of those who were unfamiliar with the case. It was printed in Spectro-Chrome in August 1936, page 1925. Emma's mother was unable to swallow. She was eating strained foods at the time and the Saliva would run out of her Mouth. The Eye was closed and she was unable to move the Eyeball in an external direction. Emma showed three of the pill boxes which bore the names of the Medical Doctor, the date verifying when the Disorder took place and the Prescription Number. She also had the Certificate showing the result of the Blood Test with her. Thanks to Spectro-Chrome, Emma's mother (Ottilie Krenz) is alive and able to be present at the Planet Meeting as an Educational Student. She is in her eightieth year and is spry and alert. She takes very few Tonations, has a keen sense of humor. Emma called attention to the Eye which opened during the first two months of Tonation and the Eyeball now moves in all directions. Some people become discouraged when they do not obtain results immediately. Emma's mother tonated daily for about two years, at the age of 70, a great part of the time two Tonations a day and feels she is well repaid. (Applause.)

Emma told of another case which was never reported. It concerned a distant relative of hers, B. R., a widow, who several years ago suffered with High Blood Pressure, Dropsy and Diabetes. Sat around in a chair in a state of despair. She was ready to end her life. "I recommended Spectro-Chrome to her. After less than two weeks of its use, she visited a neighbor who was amazed to see her. This Sufferer lived according to Spectro-Chrome teachings and after using this Science about three months, she improved to such an extent that she married again last year. Kurt Bader was the Spectro-Chrome Normalator." (Applause.)

Past Deputy Otto Lutz submitted the following cases:—

1. Hilda V., age 40, female, Acute Cold, very tight feeling in Head and Throat. Atcowas irradiated were Green and Lemon Systemic. Obtained results in a few Tonations.

2. August R., age 41, Male. Injured his Back when lifting a washtub full of ashes. Had to set it down because of the injury. Was unable to stoop because of the intense Pain. He tried home methods first such as hot baths and liniments for four days, without results. Then came

for Spectro-Chrome Tonations. In three days' time he went back to work. Attuned Color Waves given were Green and Turquoise, Area 18.

3. Severin Z., age 74, male. Two open Sores on right Leg, Area 13, of long standing. Yellow on Areas 6, 7, 8, 9 and 10 and Lemon Local. In four weeks' time one Sore normalated and the other is almost "healed."

4. Arthur B., age 49, male. A case of tiredness, no ambition to work. Had been treated by other methods first, not satisfied with results. After two weeks of Spectro-Chrome Tonations, he showed improvement. Boils developed on top of his Hands and Fingers, filled with Pus, which drained. He has now become a Benefit Student. Yellow on 6, 7, 8, 9 and 10 and Magenta on Areas 4 and 18.

5. Ethel B., age 46, female. Had a Sore on the right Leg. It did not want to heal. Some time ago while in California, was bitten by a Spider. That healed slightly. Then she was bitten by a Mosquito. This was on the same Leg while in the garden. The Leg looked like raw meat and was very painful. She had this condition for some weeks. Attuned Color Waves used were Green and Lemon Systemic including the Leg in the Tonation. In a month's time, her condition was greatly improved. She was so well satisfied that she is enrolling as a Benefit Student. (Applause.)

The Deputy exhibited the "Triumph Of Spectro-Chrome." Dinshah's latest publication.

Elsa Gleiss reported that she was in a draft in the car. The window was open. Her Neck became stiff and the Throat very sore. Used Turquoise and Indigo. After the first Tonation she could turn the Head a little. Then used Magenta and another Turquoise. A total of two Tonations of Turquoise, one Magenta and one Indigo and the Disorder was normalated. Said her Head was so heavy that her husband had to assist her in bed.

Edwin Larson's brother had an acute attack of "laryngitis." Turquoise normalated the condition in two Tonations. (Applause.)

## EDITORIAL REMARKS

Milwaukee Auditorium Board, its Manager William Maas and the Police Department of the City of Milwaukee, deserve our best thanks for the dignified and orderly manner in which a rather unpleasant situation was avoided. It is a matter of regret that the Food And Drug Administration in dealing with loyal Citizens uses such bulldozing and unconstitutional methods, disgracing to the limit the glorious Constitution which built America to its present height.
