MAN* ON THE MOON (*from the Fallen Planet)

- Marianne Francis

From Earthman's viewpoint a great event took place recently: Two men landed on the moon, stayed there for a short time, successfully took off again and arrived home on the planet called Earth. Great was the rejoicing, for at last, Man was considered free to wander beyond the confines of his own native world! Mighty dreams were dreamt and voiced of the time, fast approaching, when men would voyage among the stars, land on Venus, the planet of love, and investigate mysterious Mars, planet of war.

No voice, publicly raised, stopped to ask if men of another race already inhabited those planets or those vast leagues among the far-flung stars. The light of a thousand suns burned out there in Space and in those reaches travelled men, Space-men and women. Was their presence entirely unknown, their craft unseen, their civilizations as yet undiscovered? Had no astronaut ever observed mysterious lights flashing by his capsule in space or photographed things he was told to "forget"?

Earthman is indeed visitor to the moon, his nearest satellite, but he is not yet in Space. His technology expands but does his consciousness of life and its ultimate meaning? Elsewhere in this issue we have a transmission from "the Brothers" entitled "If, Indeed, You Come in Peace?". It is upon the thoughts raised in that communication that I wish to comment in this editorial.

It was said that "Space is not the friend of those who travel forth in might". Considering the situation down here on the planet at this time, is there any indication that Earthman has learnt to live in peace, harmony, and love? There was further mention made of "spreading into the System the canker of Mankind's own sores".

While three courageous men achieved a great step forward in a technological sense, what of the system which sent them and the values upon which it is based? From a planet, armed to the teeth with atomic bombs and chemical warfare, they went! Capitalist West and Communist East compete in a race to Space, and the planting of national flags indicates territorial rights and values still hold sway, even on the moon!

So much for Earthman: his scientific achievements wax great but his spiritual self has not kept pace. Yet, unknown to NASA, unknown to the great masses milling around on the surface of this planet, a great change is fast approaching. This cyclic ending and new beginning has been termed the "Frequency Change" by the Space intelligences now contacting Earthman in centers of Light throughout the planet.

From these Space intelligences comes the concept of a "fallen planet", the one in this system out of phase with the others. Planet Earth, due to its low vibratory rate, is the fallen one, fallen in the sense of being denser in quality of matter and consciousness. A simple explanation has been given that where consciousness is focused, the matter or third-dimensional form is set around it as in a mold or matrix.

If Earth is thus a fallen ^{or} dense rate of frequency, it is consequently in a state of quarantine in this system. Earthman cannot impinge upon higher vibratory life in Space, for the law is absolute. The less evolved does not become aware of the greater until it reaches out in consciousness and becomes able to express that frequency.

Life exists on Venus, Mars, Saturn, and other planets in this Solar System, but at a higher frequency of matter vibration. Space men and women exist in bodies varying from the Light body down to physical/etheric level. Certain of these can move between dimensions, raising or lowering their frequency rates by virtue of their own knowledge of Cosmic Laws. They also can change the frequency level and density of their space craft.

The Frequency Change flowing in now and being established in the period from 1958 to the year 2000, will raise Earth from its "fallen" or lowered frequency to a new vibratory rate: This vibratory rate, we are told from Space intelligences, is the correct one for planet Earth. After thousands upon thousands of years of spiritual darkness, wars, confusions, ignorance and suffering, a "lighted planet" will once more shine in the place of a darkened mass. Humanity, those remaining in incarnation after the "cleansing", will be as "children of Light" and suffering, ignorance, and war will cease to exist.

As the frequencies change rapidly now, all else will change also. A generation living in accord with the laws of love and harmony will arise, their values attuning to Cosmic Law. New continents will rise and others sink; new lands, rich in mineral content for a new race of Man. An inner awareness, an attunement with the god-self within is mandatory for New-Age Mankind.

Three men from planet Earth went forth to the moon. Many men and women (balanced in polarity) come from Space to Earth to assist this planet and its risen ones through a great change. A giant step has been taken but it started in 1947 when Space intelligences came to Earth, not in 1969 when Earthman went out to the moon!

- By Sut-ko of the Saturn Council

Greetings in Light, our brothers, our sisters. We transmit upon this occasion from the XY-7 Craft remaining high in the atmosphere above your locality.

Your peoples and you yourselves are asking many questions, both verbally and mentally, of us at this time regarding your own Luna landing. Suffice it to say upon this occasion that while we are not in any way discounting... "playing down", as you would say, Earthman's first ventures to his nearest satellite... not actually into Space, but to the nearest satellite... it is still a matter of paramount importance that Earthman turn WITHIN in consciousness of being, to his own "god-self" or god-consciousness.

While Man's journeyings, in an exterior sense, have import upon your world or planetary scene, it will soon be forced upon your consciousness that there are matters far more deserving of your attention and, shall we say, acclaim, than those of a physical journey and landing for the purpose of exploration of your satellite.

The frequency of your planet and, indeed, this entire Solar System receiving the higher vibratory discharge from the Central Sun are now changing rapidly and it is this change which will force upon you a realization of many things not consciously in the foreground of Earthman's attention. Many of your peoples are now aligning their consciousness with the realities of an inner world... a world from which Man has emerged on to the outer or exterior scene of the physical third-dimensional Earth. Man's home, however, is that of the INNER worlds and only as he is in tune with that god-self or god-consciousness can he journey in his OUTER journeyings in safety and in harmony beyond the levels of his own satellite, beyond the levels and the dimensions and the frequencies of things of third-dimensional form.

We have previously acquainted you with the fact that many of our peoples, while living within a physical sphere of existence, are more etherealised than the form which you, at this present time, utilise and call your bodies.

Your own planet, in its frequency change, is rapidly orienting itself towards a more finely etherealised state of physical existence. Only as Earthman in his consciousness perceives the reality of other levels, dimensions, and frequency bands, will he be able to journey, not only in consciousness, but in these vehicles which he calls his bodies (in your esoteric terminology) and in craft which themselves will change in frequency or density as they move through concentric bands surrounding various planetary abodes.

Our endeavor at this time (those of us who communicate with you through the XY-7 Mother Craft) is to assist you in the raising of frequency, in order that you may be at one with the change as it comes upon you. We have so many times spoken of the shattering effect of this change upon those who are not so attuned that we do not need once more to emphasize this point. However, we do once more present to you our knowledge of the shortness of Earth time, of the ending of this cycle (and we speak of cyclic time now) and the imminence of gigantic change: Change with which Earthman MUST align or perish.

We do not speak in symbols nor complexities. We speak in terms of simplicity understandable to your peoples if they will but concentrate their attentions for a little period of time on these realities. Consider, in the nature of Earthman's consciousness, how it is he finds himself in the position which he now occupies: his world a battleground between warring ideologies, between nations, between colors, and between creeds. Consider if Man, in this consciousness, is best equipped to venture into Space and, as one of your intellects most recently boasted, "go forth to conquer the Universe!"

The Universe, our brothers, is NOT for the conquering of any man. The Universe is for the exploring of all men, sons and daughters of God. But in Earthman's desire to to conquer lies the key to his unbalanced condition of consciousness. Therefore, his need at this period of time is to go within and balance his outer self with his spiritual self; his scientific intellect with his spiritual understanding, and thereby to become a balanced creature fit to venture into a Universe created by the One Creator, our All-Knowing One. That Man on his planet has, in the vast periods of time of his evolving, found it necessary to destroy his civilizations and his peoples, the bodies, shall we say, which they inhabit, has only pointed to one fact: that Earthman has aimed his consciousness outward and now comes the time for a reassessment of values and the need to be one-pointed within. From that point of conscious attunement with the god-self, shall flow all things necessary for Earthman's continued existence upon his planet and his venturings into Space to meet therein his brothers, also created by the One God: his brothers who but walked a little step beyond his understanding and return in love and understanding to assist Earthman at the time of his great change.

Consciousness, our brothers, our sisters, is the key to all change, of the cellular, the molecular structure which is taking place upon your planet. In the opening of levels of the consciousness previously sealed, in the attempt to use areas of the brain previously unused, lies the key to the control of mind over matter, of god-self over animal or outer man. As this key is sought and a balance achieved, many ways will open, many wonders will present themselves and Earthman, instead of landing in a cumbersome

vehicle upon his satellite, will find his brothers from Space awaiting to open doorways of knowledge previously locked until this time.

Earthman, in his scientific might, ~~has~~ chosen to bypass the self which is the god-consciousness and has chosen in pride of intellect and achievement to attain to heights which cannot be scaled without the employment of a whole Man, or a whole being. One cannot take a section of oneself into Space, for one leaves behind too much. One cannot take a scientific pyramid which does not have as its base a firm foundation, not of mere attained knowledge but of spiritual wisdom and beingness.

IF, INDEED, YOU COME IN PEACE IN THE NAME OF ALL MANKIND, THEN THAT PEACE WILL ENCOMPASS YOU AND ALL YOUR ENDEAVORS. If you come under GUISES OF PEACE, with motives of CONQUERING and spreading into the System the CANKER OF MANKIND'S OWN SORES, then RECONSIDER wherein you move. FOR SPACE is NOT the friend of those who travel forth in MIGHT, but only those who travel forth in LOVE FOR ALL CREATED LIFE. If, indeed, you come in PEACE FOR ALL MANKIND, then LAY DOWN YOUR WEAPONS OF WAR and LIVE IN PEACE WITHIN YOUR OWN PLANET and venture forth into SPACE to meet OTHER RACES WHO ALSO WERE CREATED BY THE SAME BEING WHO CREATED MAN!

A time is coming of tremendous RE-ASSESSMENT, RE-APPRAISAL of VALUES. A time is coming when Earthman MUST MEET HIMSELF FACE TO FACE, his SELF not only of the NOW, but his SELF of the many INCARNATIONS of his BEING on the planet called EARTH. A time is coming for the ENDING OF A CYCLE and the beginning of a NEW, and at THIS TIME, EARTHMAN MEETS SPACEMAN in the ONE LIGHT and under the ONE SUN of this SYSTEM.

I who speak with you upon this occasion speak through the XY-7 Craft transmission from the SATURN COUNCIL. I am Sut-ko.

May we, upon this occasion, our brothers, our sisters, commend you upon the excellence of your harmonic vibrations and upon that which at last is being built within this Center in consciousness of being: A COMRADESHIP which is of the STARS, a LOVE which is of the Infinite and a Light which comes from beyond.

May the CREATOR, the ALL-KNOWING ONE, OUR RADIANT ONE, send forth HIS LIGHT upon you. May you walk ever in this LIGHT unto the DAWNING of the NEW AGE.

Adonai vassu baragus.

(Received via Telethought Communication, 26 July 69. Channel: Marianne Francis)

DETERIORATION of VITAL ORGANISMS on EARTH
XY-7 Craft Transmission

Greetings, brothers and sisters in Light. We transmit to you upon this occasion to acquaint you with changing conditions which now confront your planet. The imminence of change as seen through our eyes and our recording equipment is now very close to a major and overall cycle termination. We are attempting upon this occasion to transmit information not within the vocabulary of our channel, and not totally within the understanding of yourselves. Therefore, this material is to be used only at your discretion when and as events unfold as to its relevance. We would attempt to explain to you that, what might be termed the force field or auric field of finer energies surrounding your planet, is in a stage of what might be called deterioration or breaking down of the potency of the force field.

Shall we attempt through visualization to present to you what might be called very fine hair lines extending outwards as rays from your planet. The image which we wish to convey is that of the drooping of these fine lines. We are using this as an analogy, not as an exact scientific fact. The deterioration of the force field surrounding planet Earth is taking place as a result of many sources. Among these sources is the radiation released into your upper atmosphere, and also in the increase in solar flare activity. These two are creating a condition whereby the force field of the planet is in a weakened condition. Due to this, certain structures upon your planet are undergoing changes which are already noticeable and which will result in the decrease of certain valuable bacterial substances contained in elements found in your planet.

Mankind on planet Earth in his scientific understanding does not yet have the knowledge of a science of all living organisms* and of their interrelation one with another, but seeks to perpetuate some and to exterminate others without realizing this interrelationship and balance of organisms upon a planet.

Our own scientists and, shall we say, biologists, who have been collecting specimens, samples, from your planet of soil contaminations, of air contaminations, are greatly concerned about the deterioration and extermination of certain species of life-forms upon your surface. When we take this into consideration in addition to the deterioration of the force-field of the planet itself, we find a condition which, indeed, may be termed "serious". Unless your peoples are willing to accept help from an outside source, namely ourselves, there will be a breaking down within a period of ten to twenty years, possibly less, of life-giving organisms and the resultant effect upon

* (See Science Editorial: Ed.)

the ethers and that which you have termed the "atmosphere" which you breathe.

Our purpose at this time in relaying to you this information is relevant to the changes which are occurring on the surface of your planet preparatory to the ending of this cycle and the beginning of a new cycle. We have many times acquainted you with the fact that a crisis point would be reached, and before conditions became that which you have termed the "Golden Age", there would be a time of certain travails and crises and also evacuation of areas of your planet at this period. We of XY-7 craft transmit to you of the necessity once more for assuring yourselves of a period of the need for emergency supplies in this and other areas. The reasons which were previously given are not, of necessity, the same as the present reason for this request.

We do suggest that you keep your food stuffs in an area where they may be kept as free from contamination by atmosphere as possible. In other words, in air-tight containers, preferably sealed in underground storage chambers. The reason for this will be apparent later. We pass on this information to you at this time so that you may prepare yourself, as many events are coming into being and will culminate on the surface of your planet.

Our craft is still in position located above this mountain vortex area though we are high in your atmosphere. The communications craft is once more, also, in this locality and may be observed at times during your night hours if you will but watch the skies. Once again in relaying this material to you, we emphasize the necessity for stability and harmony within the group, and for stability and harmony upon the mountain. The individuals concerned must attempt to bring this about in as short a period as possible. Conflicting vibrations are, as we previously stated, removing themselves from this locality.

We discontinue this communication now in order for you to acquaint yourselves with each other and to interchange information.

In the Light of the Radiant One we who speak with you from the XY-7 craft leave you. May you walk in the Light of the One Creator, Our All-Knowing One.

Adonai vassu.

(Received July 5, 1969 at Solar Light Center via Telethought Communication)
(Channel: Marianne Francis)

NOW IS THE HOUR

-Sut-Ko of the Saturn Council

Greetings, our brothers, our sisters in Light. This is, indeed, the voice of the Saturn Council or Tribunal. Sut-Ko transmitting.

We entitle this particular communication "Now is the Hour", for, indeed, at this period of time in the cycle which is now terminating upon planet Earth, NOW is the hour in which all of you must work to the uttermost limits of your beings. In that sense of work we mean to raise the vibratory consciousness as rapidly as possible, in balance, and to bring about a balancing and perfecting of all your vehicles or bodies. Now is the hour in which this must be done before the greater confusions spread themselves across the face of your planet. Now is the time to stabilize to the highest degree possible, to attain to the highest vibratory rate possible under the conditions which exist and the density level which is operative on planet Earth at this time.

May we use an analogy or paint a word picture for you? Upon your planet it is as if a very thick fog resides over the surface due to the accumulated thought forms and the miasma of conflicting emotional patterns of negativity: fear, hate, anger, grief, apathy and kindred of these. The Light centers are as mountains which raise their towering heights far above this miasma or rolling, dense, grey fog. The endeavor is, therefore, to raise the mountain peak, as it were, of each Light Center as high as possible so that, not only does it penetrate and stand above in the sunlight and the clear blue sky, (even as your mountain reflects these when fog rolls in your valley) but to raise the peak of that mountain up into the higher level or density, which is of the incoming cycle: the cycle of Light and of Love; the cycle of perfected mankind upon planet Earth.

Therefore, as it were, sustenance is drawn down from this peak into the very body of the Center and this nourishes and sustains the personnel residing therein. This is why it is extremely important for your Light Centers upon the planet to be in areas of pure air, of nature forces remote from your major cities, such as is this Light Center to which we transmit through our channel of communication.

Now is the hour to stretch forth your consciousness, to partake of the incoming cycle of energy; to draw this within you, to nourish, sustain your very beings, and to create around yourselves of such tremendous white Light intensity as to protect you from all things of negative intent manifesting in the last days of this cycle. There are many other reasons also. This is applicable for yourselves. Needless to say, it also facilitates the communications at all levels, including a physical communication from ourselves to yourselves.

This communication is to go forth at this time in the new issue of STARCRAFT now

being readied. We particularly wished to send forth this in order that other Centers also may share the thought in this transmission. Our endeavors at this time are motivated solely by a desire to be of the utmost service, and to assist you through the last days of this cycle with the greatest ease possible; the least pain, strain, or suffering.

It is dependent upon you, our brothers, our sisters, and the degree to which you can raise in consciousness, how you meet the conditions you will find upon your planet, how greatly you can, with love and with Light, transmute these as they impinge upon your life, and how greatly you can be of service to the One Light and to those of us who work with you in the Center and from the Craft.

Our communication reaches you through the XY-7 Craft and the Communication Craft, and this is coming originally, from the Saturn Council. It reaches you at this time with much Love and much Wisdom and we ask that each one of you (and those who are at this time not with you) listen to this and ACT upon it. For NOW IS THE HOUR. In the Light of our All-Knowing One, we bid you Adonai vassu.

May you forever dwell in that Light; may its outpourings fill your souls, and may you reach to an Infinity of Understanding and Love.

(Solar Light Center - 23 Aug.69. Telethought Channel: Marianne Francis)

* * * * *

Congressional Report: "SYMPOSIUM ON UFO" Now Available

We are told that "Congressional Record Publication #7: Symposium on Unidentified Flying Objects, Subtitled: Hearings before the Committee On Science and Astronautics, U.S. House of Representatives, 90th Congress, July 29th, 1968, is now available.*

At our suggestion one of our readers wrote to his senator (Senator Milton R. Young) and also to Rep. Joseph E. Karth of Minnesota, Chairman on Space Science and Applications. Rep. Karth informed him that "the hearings of July 29th '68 were out of print but had been reprinted by the clearing house for Federal, Scientific and Technical Information, 5285 Port Royal Road, Springfield, Virginia 22151, and were for sale at a cost of \$3.00. Anyone interested in receiving a copy should order from the above and refer to #PB 179541. (Our thanks go to Elmer O. Mengel of N.D. for this research.)

Just before going to press we were informed that someone else had sent for this new publication only to be told such a paper never existed! We have not had time to research this yet but suggest our readers check it out. It would be only too familiar a pattern if this run-a-round ended in a dead end!!!

Let us hear from you (please type or write clearly). We are under-staffed here and need all the help you, our readers, can give us.

(*Refer to editorial in Spring '69 issue of Starcraft for previous details.)

PLANT REACTIONS TO NON-PHYSICAL STIMULUS

Research on Primary Perception in plant life gives evidence that plants respond to external stimuli even when in a remote location and not physically connected to the source. An interesting account of research in this field is given in a report entitled "Evidence of Primary Perception in Plant Life" by Cleve Backster of Backster Research Foundation, Inc. N.Y., N.Y.

In 1966 Cleve Backster made an unusual discovery when he attempted to measure the variation in electrical resistance of a plant leaf after watering the plant. Normally it would be expected that as the water was taken up by the roots and reached the leaf being tested that the resistance would decrease, since the extra moisture would increase its conductivity. With this in mind, Cleve Backster connected electrodes on a sensitive Wheatstone Bridge and Recorder system to either side of a large leaf of an ornamental plant in his Research lab. The bridge was balanced and its recorder actuated to record variations in resistance during about an hour of experimentation.

Contrary to expectations, the recorder indicated a downward trend from the time the plant was first watered. However, after the first minute, the chart showed a pulse or wave type contour similar to that of a human subject in response to a short emotional stimulus. This suggested a further experiment in which the plant would be subjected to a "threat to its well-being" to test its capability of responding. A leaf near the one under test was dipped into hot liquid but failed to cause a change in the resistance being measured. After some nine minutes with no response, Mr. Backster decided at this point to use a stronger stimulus, namely, a lighted match applied to the leaf itself. At this instant, the recorder suddenly jumped to a high reading although no physical stimulus had been given. In fact, Mr. Backster had to leave the room in order to find a match! This experiment indicated that plant life has some unknown perception capability yet to be identified. (See chart recording opposite).

The idea was so intriguing that other experiments were conducted along this same line and they confirmed the original results. In fact, it was found that a response to a remote stimulus occurred even when the leaf was detached and cut to fit the electrodes!

Scientific Experimentation on Plant Perception

In order to verify the hypothesis of a primary perception on a scientific basis, an elaborate series of experiments on plants was planned and conducted under strictly controlled laboratory conditions.

Experiments were designed to provide a suitable stimulus to plants at a remote distance and in the absence of any human factor. The plants were continuously monitored for reactions to stimuli which were triggered to occur at random intervals in one of six time periods. A programmer was employed to operate the randomizer and monitoring equipment, thus the human element was completely eliminated at the time the tests were actually performed. Three philodendrum plants were tested simultaneously by means of separate Wheatstone bridges and electrodes applied to a leaf of each plant. A fourth monitoring system measured the variations (if any) due to power line fluctuations and outside noise factors. Using a fixed resistor in place of the leaf between electrodes, this system thus acted as a control test.

For this series of experiments, the stimulus used was the unexpected termination of live brine shrimp triggered by the programmer at random intervals. Each test plant was in a separate room as was the apparatus and brine shrimp which provided the stimulus. Each plant was maintained at constant temperature and illumination during the test sequence and all precautions made to ensure that extraneous factors caused no interference. The plants were brought into the test environment just before the tests to ensure they would not have been "conditioned" by previous stimuli. The recorded charts of seven test runs were evaluated by an independent "referee".

Results tabulated from 21 tests made in seven runs proved very satisfactory. Of this series 13 tests were considered reliable, the others being eliminated due to mechanical failure, overactivity, or total lack of response. In these 13 tests, five scored double hits in response to stimulus with two out of three plants giving similar response.

During a control series of seven test runs, in which no brine shrimp were terminated, (but everything else was performed the same as before) no response was indicated.

The conclusion to the test is that experimental results provide evidence that a primary perception (as yet undefined) does exist in plant life which responds to stimuli from a remote source generated by the termination of animal life (brine shrimp) in the absence of human involvement.

Further research in this field is being conducted to expand knowledge in this field.

PRINCIPLES OF THE SOLAR LIGHT CENTER

1. Belief in an Infinite Creator (the All-Knowing One, Our Radiant One, of the Space beings) and in the Cosmic Christ, the Spiritual Hierarchy, and the Great White Brotherhood.
2. Belief in the expression of universal love, compassion and understanding as the true basis for world peace and the healing of all mankind's ills. This embodies reverence for all life and non-violence toward man and animals.
3. Acceptance of the eternal truths given by World Avatars (Jesus, Buddha, Krishna) and spiritual Masters as taught in most esoteric schools of thought. These include Man's spiritual evolution through many embodiments on an ever-ascending spiral path of consciousness under the Laws of Cause and Effect (Karma) and Rebirth. They outline methods whereby the individual may speed up spiritual unfoldment by attunement with the higher self, the "god-self" within, and by the transmutation of old Karma utilizing the higher frequencies.
4. Belief that other planets are inhabited by advanced beings who have attained mastery over space travel, hence they are called Space Beings. (Their civilization is far superior to any found on Earth. They have ended war, disease, poverty, taxes, and famine; they control the weather and gravity and provide free energy.)
5. Belief in communication with advanced Space Beings by such means as direct physical contact, telethought, telepathy, tensor beam, light beam, and other means. Recognition that such communications provide information of vital importance to Earth man and should be given out to all New Age souls who are ready to accept such teachings.
6. Belief that a spiritual Light is being sent to uplift Earth and raise the frequency level of all cells, all atoms, in preparation for the coming change, and this Light can be focused through certain Light Centers in Vortex areas. Space Beings are assisting at this time of change in many ways. They are concerned for Earth-man's welfare and are prepared to prevent complete destruction of the planet through a nuclear holocaust or gigantic geological change.
7. Belief that our Freedom of Attitude toward: (1) the Infinite Creator, (2) Self (ego), (3) Other beings, are the deciding factors on the path to the All Highest, and service in the Universal Program is the key to this.
8. Belief that as the end of a Great Cycle of approximately 26,000 years approaches, a "cleansing" is taking place due to Light energies received, and the planet is being prepared for a density level transition into a higher frequency. Such a change heralds the Second Coming of Christ and the beginning of a Golden Age.

Greetings, our brothers, our sisters in Light. We attune in consciousness from the Communication Craft stationed above your area at this time. We speak with you upon this occasion, those of you here in this city, on the subject of "What is the nature of Love".

Much has been said, is being said, is being expressed upon your planet under various forms, under many guises of that which is the nature of love. We who speak with you from the Communications Craft, speak from the planets of Venus, Saturn and Mars. We attune our consciousness at this home to give to you a discourse blended of the many concepts of our minds, the outpourings of our beings, that we may reach unto you at this time.

We do not need to point out to you the tumult and the turmoil which exists upon your planet's surface - not only in the consciousness levels of the populace, or in the geological changes which are taking place on and below the surface of your planet; but we speak of the changing patterns which now exist upon your surface in your civilization of the West, and the changing patterns reaching even unto the East and to those nations beyond what you have called the "Iron Curtain".

We speak of the nature of love, coming from the highest or divine self (or being) of Man. Thus, if Man is created of God, that outpouring from his innermost essence is that which flows from the Creator, Our Radiant One, the All-Knowing One. As the attunement is made by every child of God upon this or any other planet, there is an immediate at-onement with the divine spark or essence of being and in the divine spark or essence exists all attributes of the Creator - our Radiant One (in our concept and our understanding). Remember that we too, have many spirals to reach in our evolution before we become a perfected being. Yet we have, in our understanding and our civilizations, reached beyond in the masses of our peoples, those standards, those ethics which exist on planet Earth, a planet of much confusion.

We therefore speak from an understanding beyond that which is yours at this time. We do not say to you, our brothers, our sisters, that all truth is ours. For where lies all truth but in the ultimate and in the ultimate being. Yet as Man seeks an ever-increasing attunement

and awareness with the Divine Source and the nature of his own being; he cannot but begin to express the attributes of that being. These attributes are of Light, an outpouring of radiance which has nothing to do with your understanding of shallow sentimentality or that which is superficial, artificial or temporary. It has only to do with eternal values and upon these no bars may be placed; for the eternal essence of Man flows outward even as does that energy from the Creator to His created beings, in freedom of expression, in beauty, in warmth and in love, and in so flowing expresses itself towards all created life - that of humanity, that of the animal, that of the plant and the tree, the flower and that of the very rocks and minerals of which your planet is built.

In that free-flowing expression lies the true nature of the inner being or essence of the Creative Force. In its outflowing it permeates the spiritual nature of Man with Light; it fills the mind with ideals of highest and most noble worth. It fills that which you call the emotional self with warmth, and it pours forth from the physical being of Man in the outflowing of hands in greeting and in the touch which is of love.

Should you, in the confusions of your Earth planet, attempt to divide the being of Man in its four-fold expression of spiritual, mental, emotional and physical ... in so doing, you merely set up blocks, you merely set up divisions within yourself. In so doing you bring upon yourself and those around you, confusion and pain.

You have listened upon this occasion to the playing of a tape given by others of my brothers and you have heard of the great beauty, radiance and love of a truly great one of love, who came to your planet 2,000 of your years ago and in the example which that One gave -- not that which He said, but that which He was, lies the key and the example, for this age which continues onward from that point wherein He left. That being of Light, known to us as Esu, to you as Jesus the Christ, carried within His energy patterns such a tremendous out-flowing of Light energy, of Light expression, permeated throughout with a love and an expression almost beyond the understanding of Earth peoples. And yet as you attune in consciousness with those energy patterns, to those concepts, and attempt to

become as one with them, you too tap that same energy, for it resides within each one created of the One Creator. Those heights of compassion and of love and of service, which that one expressed in His short sojourn upon your planet, are those same attributes which may be tapped and expressed and released by each one of you.

At this time upon your planet, the Christ-consciousness is the aim for those who attune to the Christed ray, even as others in other parts of your planet attune to the Buddhic ray of expression. And the Christed ray as it is attuned with, manifests such a tremendous intensity of vibratory expression as to release the God potential and the Christ awareness within all individuals who can so attune. In the nature of that love which is released is the key, the answer to the Creative force from the One God and the essence of being of this creation.

We, who come in craft you have called Flying Saucers, have not come as a type of phenomenon. We have not come merely on a research mission to your planet, although certainly research is part of our being here at this time. But those of us who have come from the Solar Council and who communicate with you through this and other channels of Light, who were so trained and so sent into incarnation for this particular service, have come to bring to Earth Man's awareness, through the phenomena of our craft in your skies, a reawakening of the values which were taught by all the Beings of Light, coming as emissaries from the Creator, Our Radiant Ones have come inevitably and invariably....have come with concepts which were of Light, of Love, of Beauty, of Peace and of Harmony. Yet, in so coming as He himself said, "I come not to bring peace but a sword", and therein lies the confusion in the minds of Earthman. For though those beings contained within their essence that which is of the highest vibratory qualities of expression, in bringing these into the slower vibratory rate or densified plane of Earth, a sword of division was created between Man's lower consciousness and his highest, innermost self. To this day that sword of division exists within the Earth planet's midst.

Yet, if you take into your hand not love but a sword, then, even as that Being said, you will die by that sword. If you take into your hand or into your consciousness the right to arbitrarily decide that which is of right of expression for another, then you are in defiance of Cosmic Law. For all follow a pathway which is individual and though many may

stumble, many may fall, it is for them to learn of that pathway of their emergence as a son or daughter of Light.

To all peoples who aspire to the nature of Love, as it has been expressed by the Beings of Light upon your planet, we say even as you have just heard: Give of your innermost being. Give of your understanding, of your compassion, of your Light, and that which you ARE, will bring about change in those who surround you, whom you meet and speak with.

The changes now taking place upon your planet are changes of great confusion, are indeed changes of the breaking down of one age and its standards, outworn and outmoded, to the beginning of a new. You do not build a new building upon the rotting foundation of the old. Therefore, that which is destructive in your planetary scene at this time, performs a useful purpose in tearing down the outmoded structure which is rotten to its very core with hypocrisies and values which are not of the coming age.

So you build, each one, in Light and in Love, and in creativity of values which are eternal. As you build upon these things, a new structure will appear which is more lasting, of greater beauty and of greater value.

Thus is the nature of love, from highest Cosmic levels, expressed down through the spiritual, mental, emotional and physical self of Man in many expressions, in many outpourings, in Freedom of being. Thus it performs its service, which is the service of love, and it radiates its energies and it brings about the stabilization of planet Earth.

We, ourselves, who are from other planets, both within and without your system, attune with you in consciousness and watch your people as they walk upon the surface of their planet. We come now in our craft into closer orbit of your Earth's immediate atmosphere and we come also into conference soon with certain of your peoples in secluded Light center areas set aside for this purpose. For as the mighty changes are taking place and accelerating, it is necessary for a greater stabilization and for a greater at-one-ment between our peoples of the Solar Council of this system and of the enlightened ones on planet Earth.

We speak with you in much Light, with much Joy, upon this occasion that we might meet with you in consciousness in this way; that we might establish a link with each mind which can be reached by you and utilized.

you your people has fellowship 2 11.

You can call upon the energies from the craft to assist you even as you call upon the high energies of the Creative Force itself. We work directly under the auspices of the Solar Council and the Saturn Command Force. We are working at one with the Christ Ray and the Galactic Tribunals for the emergence of planet Earth into a new pattern and a new vibratory rate of frequency for the New Age which is called the Golden Age of Light.

We speak not of nebulous values or vague ideals; we speak of realities and of energies and that which may be utilized, manifested and expressed at all times.

Now we withdraw our consciousness from this, our channel of reception, and leave with you our Light and our Love and the radiance of the All-Knowing One, our Creator.

May you be at one with that Light. May you express that Love in your lives and in your being, and cease from pathways which are of dissension and disharmony and division.

Adonai Vassu, I am Orlon.

Notice of Non-Association

Due to the fact that the Solar Light Center's name and that of Miss Marianne Francis have been used without permission or authority, to endorse the activities of other individuals and/or groups, this announcement is made:

Unless specifically stated in this magazine (or in writing to an individual), it may not be assumed that the Center or Miss Francis endorse the activities, personal ideas, or cults of any individual.

This does not mean we do not morally support other organizations working along similar lines. We are merely protecting ourselves from fringe area fanatics, mentally disturbed individuals and the like who are promulgating strange and distorted ideas at variance with our own principles and the "Brothers" work. See statement of Principles in this issue.

Signed: Kenneth M. Kellar

Marianne Francis

WHERE LIES TRUTH?

Greetings, our brothers, our sisters of Earth. We transmit upon this occasion, our brothers, our sisters of Earth planet, upon the subject of "Where Lies Truth". We have, upon many occasions, listened to your questions, your challenges, your comments, upon those tapes which have been given by our brother Monka, our brother Voltra, and many others through the Solar Cross Organization; and we have discoursed upon subjects of much import in your understanding.

You ask us in your questionings, in your minds, in the patterns in which you emit into the ethers: Where Lies Truth? Does Truth lie within the authorities upon your planet: of governmental authority, of military authority, of political, medical, legal authority? Where, in the confusions which beset you as you walk in your pathways upon planet Earth, lies Truth? Those of you who come from a generation freshly incarnated into the confusions of this planet Earth, are questioning as no generation has ever questioned before, the values, the ethics, the standards which you find already established in your so-called civilizations, and in your questioning and in your searchings, you turn at last within for answers. You turn at last to the only source of Truth, for Truth lies WITHIN at the core of the being or soul of Man, for where else could Truth exist but within that spark of Man which was created from the Godhead, the Creator, whom we speak of and know as the All-Knowing One, Our Radiant One.

Where lies Truth but in the essence of being of the Godhead, created in form, outflowing in many expressions from the Divine, manifested upon planets, upon levels of existence: physical, etheric, and in planes which lie beyond these. Yet ever must exist that which is Absolute, that which is the essence of being at the core.

Truth in its unutterable, pristine beauty of expression springs new-flown from that part of Man which is one and part of the Creator, which knows itself in Truth to be eternal, immortal, undying and unutterable.

If you ask us then: What is Truth? upon any particular question,

ask not from without but ask from within, and as you attune with the voice which lies within, which possibly has been so covered with trappings of materialism and illusion, that it is hard for your peoples at first to find. When you seek from within you will find the answer springing into expression within the mind, into feeling with the emotions, into KNOWING: For that knowing which lies within and expresses itself in a phrase, perhaps much misunderstood, but understood by the mystics of your planet, as "I KNOW BECAUSE I KNOW". It lies beyond logic or reason, for there is no logic or reason of the mind which can know with certainty. There is no feeling or emotion of the desire self which can know with certainty, but all become part and parcel of that inner knowing when an attunement or at-one-ness become an established reality, and downward or outward from the highest point or expression of that which is the Divine Spark flows, through other levels of the mind, of the emotions, of the understanding, that oneness, that knowing, that Truth which IS.

You of a generation who seek or challenge have come into an incarnation specifically to bring about change on the face of planet Earth. For if change is not brought about very shortly upon the face of this planet, then it will go down in destruction and degradation and the civilization will be as nought; and rocks and sand alone will remain as witness to the atomic fury of nations who destroy themselves in their lust for military, material might. You are the generation who come in thought, who come in soul and expression, come into incarnation questing, seeking, challenging. And only as you do so in Truth and with an inner desire to pursue a Truth which is ETERNAL, will you find those things which lie beyond the physical realm, which lie beyond the established values which have been values of hypocrisy, values which are worthless if they do not express the spiritual being of Man in Truth, in dignity, in beauty, and in love. That which IS of the INNER nature of Man expresses only of the Godhead in immeasurable forms, in individual expression. Yet none-the-less, qualities which are of the Godhead,

of Love, of Compassion, of Beauty, of Creativity, of wealth of knowledge, of Wisdom, and of that questing which lies beyond the realm of the senses, into the realm of things which are reality, which bestow upon the senses a dignity and an immortal expression and stamp of the Creator.

Where Lies Truth? but within, and in measuring, analyzing, attempting to understand the nature of things without, seek to discover this from the point within, and those things which are not measurable by Eternal values will fall away of their own worthlessness, of their own tawdry values and will destroy themselves as even now upon your world scene this takes place. For the values and the ethics and the standards which were not of value are crumbling even as the very foundation of materialistic society is crumbling and shaking. A New Foundation will arise which is sound, which is based upon spiritual evaluation, and upon this foundation will arise a new civilization and a Golden Age of Light and Wisdom, True Science and True Values.

In Man's search for Truth he pursues a pathway as upon the razor edge of a precipice, yet in attaining to the heights which may be attained, he finds a Grail of inestimable value. If you would pursue this pathway, know that many now also walk with you: That those who were pioneers in the many centuries which have passed and have walked alone and who were crucified and tortured and tormented for their quest, walk also with you in consciousness; that we walk with you in consciousness: We who are people even as you: human beings, male and female, who love and know of those things which concern you, and know of those longings and those desires and those aims within your hearts and your consciousness, that we walk with you also and become a part of your quest. For when Earthman reaches to a certain point of understanding in sufficient numbers, and sends forth his call to his brothers in space, then shall we answer and our craft shall descend and we shall walk once more with you upon your planet which is green and beautiful, if you will yet keep it that way. Our craft will come, our people will mingle with you, and you shall also be able to walk upon our planets and mingle with

our peoples. Until that day, we who come in consciousness to you through this and many other channels and vehicles of expression, say only to Earthman and to Earthwoman: Walk with us in space in your consciousness, even as one day you shall walk with us and journey in our craft in your bodies. Walk with us in your hearts even as one day you will join with us in love and in brotherhood, for that day is not far distant, our brothers, our sisters. That day is drawing very close.

We leave you in the consciousness of this Truth and of the inner Truths of your being. In His Wisdom, and in His Love, may you walk ever in these pathways of Light. May you ever be at one with your own infinite being. Adonai vassu.

STOP PRESS:

LATE NEWS

Signalling was once more experienced by Miss Francis, just prior to our going to press with this issue. On the night of August 22nd, returning late from the Shakespearean festival with the Center's Australian guest, David Lander, the car headlights were turned off and on around 12:50 a.m. six times in all. This took place, not on the dirt road to the Center as before, but along Table Rock Road on a straight stretch devoid of any traffic.

The headlights went off and on again, suddenly without any warning, with the speed around 55 mph. On slowing down, Miss Francis remarked to David: "I guess it's the brothers again, but are you sure there isn't a loose connection in the car?" To which David replied, "That's no loose connection". The lights then went out again and on, out and on again. The car was then stopped by Miss Francis and both windows lowered but no craft was visible. In all, six off-and-on signals were counted in a 10-minute period. From then on, no more occurred, the lights staying on even on the rough dirt road up to the Center.

Upon arrival, the two "crew" members who had driven in earlier from Portland were aroused and all four gathered out on the deck to watch for craft. Great activity immediately manifested in the sky with 7 conventional craft flying over (3 airline planes and 4 jets). This in itself was unusual as very few planes fly over at that late hour, and certainly not 7 in 15 minutes! The crew concluded that something had been observed and was being investigated by the Air Force. About an hour later a "Starcraft" came in from the north slowly, with the undulating motion peculiar to some Flying Saucers....

SIGNALLING AT THE CENTER

In April and May visual evidence of signalling from the Space Brothers was experienced by Miss Francis on the Center dirt road. Upon three separate occasions when driving home alone late in the evening, the lights on Miss Francis' T-Bird went out and on again without loss of power to the car. This only took place on the 2½ mile dirt road leading to the Center and at no time endangered driving.

Upon the first occasion Miss Francis assumed there was a loose wire and had the car checked for trouble. There was no loose wire. The second night at midnight the same pattern was observed; no flickering of lights, just a straight off for 10 seconds or so and then on again. This time our director counted the off and on "units" and found they occurred five times while driving up the road. Following this she had the entire electrical system checked out in a large repair garage and nothing was found wrong.

Two weeks later the phenomenon began again at 11:30 p.m. This time Miss Francis counted carefully and finding the lights had gone off four times, lowered the window and said out loud, "If it IS you up there, our brothers, turn the lights out a fifth time." Further up the road the lights went out and on again a fifth time and then stayed on. No further signalling has occurred to date at the Center.

* * * * *

When in Chemainus, Vancouver Island, B.C. in June, Miss Francis related the above experience to a home study group at the Carnac's house. Late that night one of the members phoned to relate that he and his wife had experienced identical signalling as they drove home:

Vernon Stanley-Jones' Account

(Night of June 14, 1969)

"My wife and I were driving home after hearing Miss Francis tell us of her experience and work with the Space contacts. After we turned onto the main road (doing between forty and fifty miles an hour) we were thinking and discussing Marianne's talk and how she had told us of her car headlights going out and on again. At this point our lights went off and then came on again. I said, "Oh Lord! Are my lights going to go out?" I was getting ready to stop in a hurry and they went out again. I suppose it was a five or ten second gap between the off and the on. This jolted us, thinking that our lights were failing. Kind of jokingly I said, "Gosh, I wonder if we're being signalled like Miss Francis told us she had been!"

We then met some traffic, dipped our lights and put them up again (half a dozen or so cars went by). There was nothing wrong with our lights. I cranked the window down but couldn't see anything. We continued along. A little further on we came into another straightish stretch of smooth road. I was thinking of Marianne Francis again and---almost simultaneously---as I started to speak of her, the lights went out and then came on, and then out and then on again. I said "You know,

it kind of scares you; the lights went off and on again as though it kind of answered me, signalled me." We were coming towards the overpass and I wondered if I dare think or ask "them" to flick them off again, if there was someone "upstairs". I thought, "I had better not, they might do it!" AND THEY DID IT! The lights went off again. Just as I was thinking about saying "Come on, turn them off.", that's when it happened. It shook us both and we said, "Well it can't be! It just can't be happening, we must have a loose connection."

I told my wife I would not touch the lights and we would see tomorrow night if they gave us any trouble when driving. As we came on north of Duncan and there was a break in traffic, I wondered if the lights were going to go off again. We'd gone about 2½ miles and nothing had happened. I thought, "I wonder if there IS anyone up there." With that the lights went off and on again just once.

We met some more traffic and had no more trouble and turned onto Hurd Road. Hurd Road is a bit rough and so I said to my wife, "now we'll see; I'll hit all the rough bumps and the shaky parts and if we have a loose contact or light switch or bulb, we'll know." To cut a long story short, the lights never went off again or flickered all the way home and we took all the bumpy, shaky parts so the car shook and vibrated in every way it possibly could.

Now it's almost as if there was somebody kind of watching, trying to say, "What Marianne Francis has been telling you is the truth and this is the way we did it." It was done definitely and distinctly, but always when there was no danger of a traffic accident, or curve, or when any traffic was coming towards us -- it always happened in a safe place."

LUNAR AIR FORCE CHECKS UFO

GUEST CORNER

By Dick West

THE MOON (UPI) —The lunar air force disclosed today that it is investigating reports that an unidentified flying object (UFO) was sighted last Sunday in or near the Sea of Tranquility.

However, an air force spokesman scoffed at suggestions that the UFO may have been a spaceship from earth or some other planet.

"We get reports of this type quite frequently and we routinely check them out," the spokesman said. "The so-called 'flying saucers' usually turn out to have been optical illusions caused by crater gas or something of the sort."

"We have no evidence that there is any kind of life on earth. And even if the planet were inhabited, it would be ridiculous to think that the earthlings would be able to fly

to the moon."

Despite official skepticism, however, residents of the Sea of Tranquility insisted they saw a strange vehicle land on Sunday and take off again Monday.

"It passed right over my head," said Mrs. Maudie Tribling, who lives in Crater 22. "I could see two weird-looking creatures peering out of the windows as it went by."

Asked to describe the vehicle, Mrs. Tribling said it "looked something like a spider with spindly legs and dishes instead of feet." She said it was "breathing fire" when she first saw it.

She said it seemed to hover briefly over the crater and then descend a short distance beyond the rim.

Mrs. Tribling's story was corroborated to some extent by Clyde Kipper, who vowed that he actually saw the vehicle land and two unmoonly figures

emerge.

"They were white all over and had big square backs and glass faces," Kipper said. "I couldn't tell if they were robots

or living things, and believe me I didn't hang around to find out."

Kipper was asked what the creatures were doing when he saw them.

"I know you aren't going to believe this," he said, "but they were kind of leaping around and picking up rocks. Once they stopped and...I'll swear I'm not making this up...they stopped and set up a red, white and blue cloth and saluted it."

A lunar air force official called Kipper's statement "sheer fantasy." He said, "I've heard some wild stories in my time but this one tops them all. He must have been reading too much science-fiction."

CENTER NEWS AND TRAVELS

I am writing this as July ends and the dry season is once more with us. Fortunately this summer has been cooler, so far, than the previous years. Many guests have visited the Center, some (invited house guests) remaining for several days and others coming for a few hours to talk of sightings and changes.

The lecture trip to the north was delayed by a month due to a workshop held at the Center on May 4th with myself and Carlo Busquets teaching. Some problems have developed with a missing co-worker, yet much re-organization was completed in May on the grounds. Volunteer help has readily flowed in and many minor projects completed. Major projects are now in the initial stages.

Once more, in June, your editor headed north, travelling that now well-worn path to Vancouver and the island. Two radio shows: Art Findlay's call-in show and Mark Raines' were completed and a new and delightful interviewer discovered in Bob Switzer (CBC-TV). So fascinated was Mr. Switzer with the material and photographs that I presented, that he arranged one live 15 minute interview and a longer taped one for that week in June. We are holding our fingers crossed here at the Center, as Mr. Switzer and his producer have asked permission to bring a camera crew down in the fall to film a channeling session!

The Vancouver lecture was, as usual, well received but extremely hot weather plagued activities all that week. A channeling session for the Vancouver Associates was arranged and a beautiful transmission received on "The Nature of Love" (in this issue). Some personal problems developed but were coped with and changes in the Vancouver Associates' organization planned for the Fall. Lectures were also given in Nanaimo, Victoria, Chemainus and Seattle.

Guest Sessions for June and July have been extremely well attended and our seating capacity strained with thirty students, friends and guests. We were thinking of installing hooks from the ceiling to accomodate extra people! However, some of our "crew" are planning levitation experiments, so perhaps this will take care of the problem.

Our new work crew drives down every other weekend from Portland and Corvallis and great activity manifests for two days. The well is being deepened, the porch flooring completed and, at last, my bedroom is to be built on in Sept. This will start the alterations I have long planned. The kitchen will be taken into what is now my bedroom and proper cabinets and closets built in. Thus, an extended seating area will be made available in the corner of the large room where the kitchen now exists. Since closet space is much needed, this will help considerably in organizing the Center and maintaining a greater order.

As soon as your donated funds permit, we will plan the office building and small lab on the north side of the meadow. It would be very advantageous for the Center if many of these projects could be completed before the rains come in the Fall.

In October, I will be lecturing in Seattle and the Vancouver, B.C. area. Next Spring I have been invited to lecture at a large UFO meeting in Montreal which possibly will be held in the Arena which seats 6,000. Other lectures will be arranged on this first Eastern Tour, possibly at Ottawa, Chicago or Detroit, and Lansing.

Jack Schwarz visited the Center in August and plans to work with me from time to time on ideas where our work indicates. His Center "Aletheia" is in Selma, some 60 miles from here. From time to time one meets old friends and co-workers from other incarnations and Jack proved to be one such.

As I finish this newsletter, David Lander, from Australia is staying in the Center guest quarters (one small, old trailer). David is on a world tour representing his organization "Open Mind" co-headed by his wife, Jacqueline. He brought highly interesting news of other groups and fascinating pieces of information including the research done by Bruce Cathie of New Zealand on UFO's and the "Grid System".

Thanks go from the Center to so many who have donated money and labor but space does not permit our listing all the names. However, especial thanks and gratitude go to Gene Lupo, our OTI student, who has now taken on the bookkeeping job and relieved me of a nasty headache! Now I will have time for artistic pursuits.

A word of explanation: when I say "we" .. I speak for myself and the Brothers, for "we" are the basic team always on duty at the Center. Kenneth is now at the University of Washington studying to complete his Master's degree in Physics. His moral support is with us but since his work load is heavy, his trips here are further apart. If this issue is late it is partly because Kenneth is coping with a full time job while studying and doing the final typing on this material. Any expert typing offered will be greatly appreciated, especially in the Seattle area or here at the Center. Kenneth's sister, Eleanor, has helped with the typing this time, too.

This newsletter would not be complete without mentioning a strange phenomenon noted lately by myself and also by Holly (who lives near the Center). When alone in the day I find myself listening for a sound which is small and far off as yet, a sound which is yet to be heard. The stillness and peace enfold me, a blue and tranquil sky, the outer ceiling of my world gazes down. Green leaves rustle and I KNOW a new frequency is coming in... and a New Age soon upon us!

In the peace of this mountain, and in His Light,

Marianne Francis

UFO SIGHTED NEAR ASHLAND

At about sunset on August 2nd, my mother and I were driving south on Hiway 99 from Medford, Oregon, toward Ashland. As we were approaching the north edge of the town, I looked out the side window and saw a large green UFO which appeared about half the size of the full moon. It was flying above us and to the right moving southward. It was spherical in shape with a green "corona effect" around it. It was observed for a period of about 15 seconds.

Reported by: Harold Brande

NOTE: Ashland is about 35 miles south of the Center and in line with the path of UFO sighted at the Center on other occasions.

MARIANNE FRANCIS' LECTURE SCHEDULE

SEATTLE: Date: Oct. 5th (Sun.) 11 am and 8 pm.
Place: Aquarian Foundation, 315 - 15th Ave. Seattle.

VANCOUVER, B.C. Date: Oct. 9th (Thur.) 7:30 pm. (Call 325-0276 for details)
Place: Manhattan Ball Room, 1727 West Broadway, Vancouver, B.C.

EASTERN TOUR: Next Spring Miss Francis will lecture in Montreal and possibly in
in Ottawa, Detroit and/or Chicago. Write us if you can help organize meetings.

GUEST SESSION: Regular Guest Channelling sessions normally held the fourth Saturday of each month will be on Sept. 27th and Oct. 25th. They will be discontinued in November for the winter months due to adverse weather and bad roads.

FUNDS NEEDED FOR MOUNTAIN SITE

A 70-acre piece which includes the mountain vortex area is now for sale at one-third the original price, and the definite impression has been given to purchase this wooded acreage for the Center. This purchase can be made soon if enough supporters will pledge a monthly contribution of from \$5 to \$10 or even less. Activities are now expanding at the Center with construction of additional facilities in progress. Improvements planned include a small office and laboratory, a deep well, and a utility section for the camping area. Camping facilities are needed for visitors who wish to stay several days. Purchasing the 70 acres is very important as it will ensure that the mountain will be available to visitors for meditation and spiritual upliftment. If you wish to support this project, let us hear from you soon, please.

HOUSES FOR SALE NEAR CENTER:

Two or three houses presently for sale include a two-bedroom house trailer (40' Expando) with a large cabaña built on plus an acre with beautiful view and garden site. Price: \$4,500 (\$500 down and \$50 per month). Write for details.
