SONG "BEYOND THE DARKNESS."

Words by WALTER APPLEYARD.

THE TWO WORLDS OFFICE, MANCHESTER

Do your shoes FIT?

1. *Have your toes got free play?*
2. *Does the widest part of your shoe coincide with the widest part of your foot?*
3. *Does your shoe fit close and snug under and around the arch of the foot giving adequate support?*

IN well over 90 per cent. of cases the answers to the above questions are in the negative. The reason is that shoe manufacturers and the public hitherto have failed to recognise the many and far-reaching troubles which directly arise from the wearing of shoes and boots that do not truly fit and because, as an almost universal rule, retailers do not stock each size and half-size in more than two or three widths, making it a physical impossibility for them to fit correctly more than a small percentage of their customers.

Babers stock shoes in from six to nine widths in every size and half-size (instead of the usual two or three widths).

They fit the foot accurately and scientifically with shoes and boots of the very latest and smartest style and finish. They measure the foot, not from heel to toe, but from heel to the ball of the foot (i.e., the largest joint of the big toe) so as to enable them to fit all that part of the foot closely, giving support where support is welcome and needed, especially at the side and under the arch of the foot, whilst the toes are allowed ample space so as to avoid cramping or distortion.

Babers can give immediate and lasting relief to 90 per cent. of those who suffer from actual foot trouble, and can ensure freedom from future foot trouble or ill-health arising from incipient foot trouble to all others.

All interested are urged to call at 309, Oxford Street, when Babers will be pleased to demonstrate their method and prove their claims with the aid of the X-RAY machine. You will not be urged or asked to purchase. If you cannot call you can learn more of Babers method by writing for Booklet "N," which describes fully the simple and common-sense principle underlying it.

Do not overlook the immense importance of correctly fitting shoes for your children. Babers carry an extensive stock of children's shoes in their special fittings.

CANCER CURED.

2, Milan-st., Higher Broughton,
Manchester,
November 13, 1923.

MR. WARD—DEAR SIR,—

I am pleased to say that the Cancer on the windpipe in my neck is now quite cured. Thanks to your magnetic treatment I feel a new woman. The wound is now covering with a new skin. Everybody is remarking how well I am looking. I am sure I can never thank you enough for all you have done for me. I will always recommend other sufferers to undergo your treatment.—Yours in sincerity,

(MISS) ALICE HART.

DEAR SIR,—I can honestly testify that I have a brother who went to Mr. Ward in a dying condition. He had been ill for several years, and attended to by local doctors and other specialists, under whose treatment he really became worse and worse, and it was such a bad case that something had to be done quickly if his life was to be saved. He was a perfect wreck.

Having heard and known of a very serious case locally, where a young lady had been on her back for over seven years with Spinal trouble, and the wonderful cure he had made of this patient, who had practically all through her illness been under local doctors, with no good results, and knowing Mr. Ward had cured this particular patient, my brother decided as a last resort to submit to his treatment, and I can honestly say he has almost cured him inside a few months, and given a little more time, I feel sure he will shortly have him in a normal state of health. HARRY FORD.

70, Sewerby-street, Moss Side,
Manchester,
July 11, 1923.

DEAR MR. WARD,—Now that I have through your skill and care quite recovered from the seizure, which looked like the end of all things for me, I cannot help but write and thank you, in order to express my appreciation of your work, which undoubtedly pulled me through my trouble, and I can assure you has astonished my friends.

Seeing you have done so much in my interests, I would just wish to say anything I can do in yours is entirely at your service.—Yours gratefully,

R. FAIRCLOUGH.

"Eddyford," The Picknalls,

December 20, 1923.

DEAR SIR,—My youngest daughter, now nineteen years of age, was taken ill when eleven with Rheumatic Fever, and later Hip Disease developed. She spent eleven months in hospital, underwent two operations (bone-scraping, etc.), but was discharged incurable; and given three months to live. However, by dint of good nursing she was kept alive for five years, but got much worse. So much so that the local doctors said the disease was spreading, and the other hip was affected. Fortunately, we heard of Mr. John Ward, of Ardwick Green, Manchester, and he undertook the case. In six months she was restored to good health, could SIT DOWN, and even walk with the aid of crutches. Now she walks alone and enjoys perfect health. Surely this is proof of what "Bloodless Surgery" can do, and my daughter's case is only one example of Mr. Ward's ability to cure.

Trusting I have not encroached too much on your space.—Yours truly,

JAMES TILDESLEY.

56, Virginia-st, Southport,
December 26, 1923.

SIR,—May I, as a patient of Mr. Ward five years ago, describe to you my case. I was taken to Mr. Ward's in a bath-chair, unable to walk or feed myself, suffering from Rheumatoid Arthritis. He simply worked a miracle on me. After having Mr. Ward's treatment I am as well as I have ever been in my life, and able to run my own business—a supper bar. A marvel to people who saw me at my worst. Before going to Mr. Ward's I was attended by many specialists. Had treatment at Harrogate, also at leading Hydros, at Southport, but received no benefit from them. I think that Mr. Ward's good work amongst suffering humanity ought to be recognised.

Thanking you in anticipation,

H. A. JESSOP.
