THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

"COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is graft. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

THAT IS A GOOD ANSWER
By:-INDIVIDUAL EXPERIMENTERS

GOITER REPORT BY J. C.

I have had my Color Equipment since April of 1943 and have been tonating for a Goiter, the size of a chicken egg. I had it on the left side, center of Neck. The month of November 1943, I noticed that the Goiter started to get smaller and softer. The month of May 1944, the Goiter was completely gone. I have tonated with Lemon Systemic and Yellow on Areas 6, 7, 8, 9 and 10. To think that I had all arrangements with the Medical Doctor to be operated on for the Goiter, with the help of our Colonel Dinshah, I am happy to say that no Operation is needed. The Goiter is completely gone. There are many friends and four other Students who know of my case, I am feeling fine and want to thank Colonel Dinshah for wonderful results that I received from the Color Projector. (Signed and Affirmed before A. E. B., Notary Public.)

* * *

ITCHING RUNNING SORE REPORT BY V. C.

I started to use the Color Equipment on May 20, 1944, for a dangerous Sore on my Ankle, which started to spread all over my Ankle, about 7″ x 5″ in red running and itching. The Bone in my Heel started to pain; I could hardly stand on it. After a few months' Tonations, it dried up and after tonating a year, it is all cleared up; just a small scaly spot which is now on the healing side. (Signed and Affirmed before A. H. J., Notary Public.)

FOOT DISORDER, BURN, PAIN, SWELLING, DIABETES, ARTHRITIS REPORT BY W. W.

I had always trouble with my Feet and went to many Foot Doctors, but, without much benefit. One day, at work on top one of the shop's heat-treating furnaces, I burned my Foot badly underneath. The Burn was deep, through to the Bone of my Foot where the Little Toe joins. On Monday, I went to the company's Insurance Doctor, who tore at it with his instrument, put a bandage on it and allowed me to return to work. My Foot swelled badly and I was in great Pain. I returned to the Insurance Doctor two more times, without obtaining any relief. Then, I went to the Foot Doctor and he sent me to the Hospital. There, they found I had Diabetes, which kept the Foot from healing properly. They immediately gave me Insulin, placed me under Hospital care and on a Diet. The Sugar content was first 167, but, after three weeks, it had gone to 220 . . . this, with Insulin and a Special Diet. The Doctor wanted to sell me Insulin, but, I noticed that it did not help, so, I did not care to continue with this treatment. He said if the Foot would not heal, he would have to amputate it. Finally, the Foot

did heal, but, he had allowed it to heal without proper cleansing and a very bad Infection followed. I then again had to go to the Hospital, where they scraped the Bone and I was obliged to remain in the Hospital for 10 weeks. When I went home, I still walked with two crutches. Finally, I heard about the Color Projector and I turned to it for what it had to offer. In 2½ weeks, the Swelling was gone and the Foot healed up. I used Green, Lemon, Turquoise and Orange and Magenta on Area 4 and Yellow Systemic and have felt fine ever since. Since I have the Color Projector, I have not lost one hour's time at work on account of illness. I had formerly also been troubled with Arthritis. This also yielded to treatment with the Color Equipment. Many and all thanks to Color Projector! (Signed and Affirmed before J. W. F., Notary Public.)

* * *

ASTHMA, HAY FEVER, CHRONIC BRONCHITIS REPORT BY E. N.

My daughter had Asthma, Hay Fever and Chronic Bronchitis for six years. No Doctor could do anything for her, until I heard about the Color Projector. She is perfectly well now. It is the most wonderful system for healing any kind of Disorder. I have my own Equipment and will never part with it. (Signed and Affirmed before A. J. T., Notary Public.)

* * *

COLDS, FEVERS, BURNS REPORT BY R. H.

I wish to state that the Color Projector has normalated all our Disorders and in 6 years, we have not needed a Medical Doctor. It alone has been the only means of normalating Colds, Fevers, Burns and other ailments. I would not give it up and wil never be without it. It has been the Doctor in my house. (Signed and Affrmed before F. M. N., Notary Public.)

OUR STUDIO ACTIVITIES

EXPERIMENTER FINDINGS AND QUERIES

MEETINGS OF THURSDAY, JUNE 7, 1956

First Allentown Pennsylvania Studio

A letter about the Successor Of Dinshah from M. B., of Milwaukee, Wisconsin, was read.

C. K. — You can see by her letter, that she wants a "Board." (The questions in our April 1956 issue were studied.)

B. W. — About a "Board." He does not want quantity, he wants quality. I think a man with a family, with growing children who could help, would be good.

C. K. — He wants us to write own letters to him; then, he will count votes.

J. F. — My son had a Sprained Back; used Local Orange.

A. D. — I took Lemon for Cold and it made me dizzy. Suppose you are sick for about six months; would it hurt to use the Light all that time?

N. S. — I myself have used it for years, as well as others. That is why we used it because we were sick and wanted to become well.

A. D. — How do you know what to use?

N. S. — You can write to the Institute or M. B. can help you or you can obtain a Set of our Three Volume Text Books and study for yourself.

A. D. — It is all right for you people to say "study." You have an education, but, I can not read or write well.

N. S. — Well, you have been under M. B. for help.

C. K. — You can send a Chart to Dinshah also.

N. S. — But, you can not be under him and M. B. at the same time.

A. D. — If I want to write to him and stop with M. B., what shall I do? I was supposed to write to him 15 days after I received the Light, but, I never did.

N. S. — Did you not communicate or send a Chart to him at all?

A. D. — No.

N. S. — I want to read the Editorial Remarks in our May 1956 magazine. (Read it.) Did you read it?

A. D. — No.

N. S. — Did you ask to see him personally?

A. D. — Yes, I did.

N. S. — I see. Well, if you do not want to get help from M. B., who I am sure will always do what is right, you better send a Chart to the Institute.

A. D. — Must I tell him I was getting help from her?

C. K. — There is no harm in that. You may if you want to, but, you should let M. B. know that you were not going to continue with her. You ask: "How do you know what to use?" Go according to your Kardoscil and Spiroscil.

A. D. — How long does the Light stay in the Body?

C. K. — About 16 to 18 hours. I feel it as long as it is working in me. When it is working in me, I do not feel well, but, after it is going I feel well.

A. D. — My husband has trouble in his Toes. You say you can feel it; my husband never does.

B. W. — My husband never used to, but, he does now. I want to say that he got up enough will power to quit Smoking.

C. K. — I fell down the cellar steps. I had Bruises on many Areas of the Body. Used Orange Local and Turquoise Local. Then, continued Orange Systemic and Local. Used only one Tonation a day. Also used some Magenta on Areas 4 and 18.

A. D. — A Disc comes out in my husband's back. He goes to a Chiropractor and he helps him for a while. They say he should go to the Hospital.

C. K. — M. B. could help you in that. It will take a number of Tonations.

A. D. — May be I shall call her.

EDITORIAL REMARKS

A. D. has no reason to complain. She is overweight, sends Chart after 3 months, eats all she can of wrong food and takes up the time of the Studio, without caring to read our magazine. Her own statements as reported, will give the answer. It is impossible for me to permit personal interviews. The Light does not "stay" in the Body; the **Chemical Changes** produced by the Tonation, show the **Effects.** A. D. never sent any report of her husband.

* * *

First Cleveland Ohio Studio

M. S. — I still tonate for the Bruise on my Back, with Green and Orange; also Magenta on Area 4. Am feeling much better and have to speak highly for the Color Projector.

A. M. — I had a Chill in a heated room. Tonated with Blue; felt normal soon after.

M. S. — I suggest you tonate with Orange to open the pores of the Body.

J. D. — I am happy to receive the Personal Research Information Chart. I lost fifteen pounds and the Swelling on my Ankle is down quite a bit; almost normal.

E. L. — My daughter had a Cold; tonated with Turquoise and Magenta; she felt better after the second Tonation.

A. K. — My son had Measles; tonated with Turquoise Systemic and Magenta on Area 4; cleared up nicely.

L. F. — I had a severe Itching in the Left Eye; tonated with Green Local; was relieved after second Tonation.

(Chapter 3, from Volume 1 of our Text Books Set, on "Reasons For Non-Perception" was read.)

EDITORIAL REMARKS

I shall thank you to let the Institute know the date marked on the Experimenter Membership Card of M. S. who was present in your Meeting, above stated. Ask her if she had one in 1955.

* * *

First Detroit Michigan Studio

A. G. — Good evening, friends! I have no special program prepared for tonight, so let us start with Case Reports.

C. R. — I worked hard in the garden a while ago; must have overdone it. The next day, I was sick; I had plenty of Pain and felt very miserable. I meant to tonate with Turquoise, but, by mixing up the Slides, took Lemon instead, which did not give me any relief. My Kardoscil was 82. Later, I took Indigo and Turquoise; that took the Pain away.

Member — I should have used Orange, since the Muscles are usually affected in a case like this.

A. G. — The activating principle would be Orange and Yellow, but, in this instance, since the Kardoscil was high, he struck the right Colors in Turquoise and Indigo.

P. S. — About 5 years ago, I was taken sick; I really was sick all over; I had a sick Stomach, Pains in the Head, my Bones pained so badly, that I could not sleep. I was doctoring for years; went from Hospital to Hospital. They told me it was my Gall Bladder causing all the trouble and it was supposed to come out. Finally, I went to A. A. where they said it was my age; I was just an old man and there was nothing they could do for me. I am 55 years old and told them that I was not an "old man." They gave me a pile of Pills and told me to take hot baths. I did not get any relief from their medication. Later, I found an old Country Doctor, who gave me some Pills that helped a little, but, I was still in bad shape. My Fingers were so numb, I could stick a pin in them without feeling it. Last Fall, I heard about the Visible Spectrum and bought an Equipment. I followed instructions from Dinshah and have remarkably improved since using the Colors. For a while, I had trouble getting the instructions, which was due to the fact that my Chart was not filled properly. Now, I am getting instructions again and am following them faithfully. I use Olive Oil on my Hands every day, which helped. I improved so much since using the Colors, that the Pain left me and the Hands are just about normal, the Numbness and Stiffness almost gone. Colors used were Yellow, Lemon, Orange, Back and Front.

A. G. — That really is a remarkable case. It is almost like coming back to life! Now, where would you be, if you had listened to the advice of the Doctors and had your Gall Bladder removed? You would be more numb yet than you had been before. Another of our Members had a case of Numbness in her Hands just recently. Will you tell us about it?

L. O. — I had serious trouble with my Hands; Stiffness and Numbness. I had removed wallpaper from two rooms; that must have put a Strain on my Hands. My Fingers were so numb, that I woke up at night. I called A. G. and he suggested Red one week, Orange one week and Yellow and Magenta. That took out the Stiffness and Numbness.

A. G. — When there is Loss Of Feeling in the Hands, Red is the Color to use.

C. O. — My father has Sinus trouble; he is 62 years old; Kardoscil 79, Spiroscil 18. I tonated him with Orange; that started his Nose running and gave him quite some relief. He used to wake up at nights and could not breathe. Orange helped him so much, that he is sold on Orange!

A. G. — Sinus trouble is a Chronic Disorder and to normalate it completely, Lemon would be suggested.

J. J. — Some people get stuck on a certain Color and seem to have good results with just that **one** Color. Years ago, when we got the Instruction Book with the Equipment, I sold a Color Projector to a fellow. I told him how to use the Equipment, but, did not give instruction on how to use the Colors, because, that was explained in the Book. This man had serious trouble with his Arms; they were very painful and he could not lift them up or use them. The Doctors could not help him. About 3 months after I sold him the Equipment, I met him and asked how he felt. He said: "Fine! My Arms are completely normal." He was swinging them up and down. "What Colors did you use?" I asked. He said: "Indigo." He said he read in the Instruction Book that Indigo was for Pain, so he used nothing but Indigo and that straightened out his condition.

E. R. — Talking about people being sold on a certain Color, reminds me of a lady to whom my brother had sold an Equipment, many years ago. Her Color was Orange. No matter what the condition was, she used Orange and had wonderful results with it! One day, my brother met her. She had a very bad Cold. Her Eyes were Red, Nose was running and she could barely talk. He asked her: "What Color do you use?" Her reply was "Orange!" My husband had a Toothache and had a Tooth pulled. He took Indigo; that was the end of the Pain; then, he took two Green. The Dentist told him that he would have trouble with his Wisdom Tooth and sure enough, a few weeks later, his Wisdom Tooth started to ache. It was very painful. It happened on a weekend, when he could not go to the Dentist. We tonated with Indigo, which took away the Pain. It was still a little tender, but, anyway the Pain was gone. He surely was grateful to have the Color Projector available. Without it, the weekend would have been very miserable. On Monday, he had the Wisdom Tooth taken out. It took the Dentist 45 minutes to remove that Tooth. My husband tonated with Indigo and two Green.

(A. G. then read Chapter 104,, from Volume 3, of our Text Books Set, which describes Indigo as Opium Antagonist.)

A. G. — Indigo is a remarkable and powerful Color; it has many fine characteristics. Many people are afraid to use the Indigo. I think Indigo would do much in many cancerous conditions, because it is a Phagocyte Builder. I surely would use it in Cancer and Leukemia.

Member — Why are people afraid to use Indigo?

A. G. — Some people have a Fear Complex. Some Mental Processes are far more dangerous than the Physical Processes. The Mind is all powerful. It is easy for people to give advice to others on what to do in sickness, but, when it comes to any serious sickness in their own family, they become afraid. That is why I admire J. B. very much in the case of his baby. He had faith in the Visible Spectrum and stuck to it against all the arguments of relatives and friends. That baby WILL live. He has that faith that we all should have in our Color Projector. The Lord Jesus said: "All these things and greater things ye shall do, if ye have faith." If you use the powers that are in you, you can do wonders. If you do not want sickness, then, think — Health. These are matters about which we have to think.

(Chapter 91, from Volume 3 of our Text Books Set, on Cancer was read and discussed.)

H. S. — I just got over a case of Measles. I was very ill, took Turquoise and Magenta for 10 days, then Lemon. My condition in general has improved. I think the Measles cleaned my System. I have faith in the Visible Spectrum and follow instructions. Just now, I am tonating with the Orange and Magenta. I am surely grateful for the "Light."

L. O. — Once a year, I develop a Cough. It has been pothering me much, especially at night. I tonated with Turquoise, but, did not get relief.

A. G. — Why do you not tonate with the Affinity — Lemon? You need an Expectorant. If one Color does not work, use the Affinity.

L. O. — I have the case of my son. When he was a baby, he had much Rectal Disorder. So, when he told me he had a Swelling on his Rectum, I took it for granted it was Piles. The Pain was quite severe. When I took a look at it, I noticed it was **above** the Rectum and was about the size of a Plum. I tonated with Indigo and after 3 Tonations, the Lump had completely disappeared.

A. G. — Since it was **above** the Rectum, it was what is commonly called a "Cyst."

G. S. — My husband had a serious Bilious Attack; he even "passed out" from it. He took Orange Systemic, which relieved his condition. He has had Digestive Disorder for years.

A. G. — In Digestive Disorders, take the Orange Color after eating. It acts as a Digestive Aid. In such case, you do not have to wait for Tonation Time.

J. C. — I have no report, but, have a Cold. (Her Ratio was taken; it was 69 and 16.)

A. G. — Your Kardoscil is very low. It should be 80 or 90. I suggest that you tonate with Scarlet on Areas 4 and 18 and Orange Systemic.

G. W. — Two weeks ago, I had trouble with my Eyes. They were really foggy. I tonated with Red for 3 days; that cleared it.

A. G. — I am sure your Ratio is low; you should use Scarlet also.

C. W. — I have a case of my brother-in-law; Ratio 96 and 15. He is 53 years old. He had recently a Heart Attack.

A. G. — Are you sure the Ratio is right?

C. W. — I am very sure. The Kardoscil was upto 115 and is now 96. Even with this Ratio, he works every day. He has been taking 2 Tonations daily; Magenta on 4 and Purple on 18.

A. G. — The Ratio indicates this man has a very serious Kidney Disorder. Purple on 18 should be used and Orange Systemic. Be sure he drinks plenty of our Lemonade. Friends, that will be all for tonight.

EDITORIAL REMARKS

It was good C. R. was mixing the Slides; what would it have been of he had mixed wrong, powerful Drugs? J. J. was right about having certain set views. The Mind is greater than the Body and rules it if duly used. About the Wisdom Tooth of the husband of E. R., if it took the Dentist 45 minutes to pull it, that Tooth needed NO PULLING. A. G. gave some very sensible advice, in regard to FAITH. Without that power known as Faith, the World would have no God and no Religion. Lord Jesus spoke truly about it. J. B. is taking very good care in tonating his baby. Measles, as all other Disorders like Small Pox, Chicken Pox and the like, is a powerful, cleansing process, to throw certain debris from the Body. Whether for Digestive Disorder or otherwise, except in case of an Accident, it is better to adhere to the Respiratory Rhythm Guide for effectiveness. The case of the brother-in-law of C. W. needs a Chart sent to the Institute. Refer to By-Law 63 for Immediate Family.

* * *

First Merrill Wisconsin Studio

No report was received upto the time of going to the Press.

* * *

First Milwaukee Wisconsin Studio

K. B. — Have we any Case Reports?

(There was no response.)

K. B. — Nobody used the Equipment? Everyone sends me booklets. So I shall read from a reprint from The American Mercury, October 1949, about Light and Bugs.

R. S. — In Indiana and Illinois, they had Dutch Elm Disease; now, they found it killed the Birds. A few years ago, two Doctors took their own concoction, but, both died!

K. B. — They have a Yellow Light for Bugs and we have a Green Light for Bacteria.

A. B. — I knew a woman who took Penicillin; she had a coating of moss on her tongue.

L. S. — I read an article the other day, the British will not use Sulfa Drugs. My husband was injured last year and they gave him a large package of tablets.

K. B. — When I was in camp and refused to be vaccinated, they told me that I would be responsible if an Epidemic would break out. They put down on my record "Hampering War Effort." After taking the Green Light, there would not be any Germ left.

L. K. — Would there not be some Color a person would take if they forced something on you?

H. S. — My D. refused to take "Shots," they gave them to him anyway and gave him an extra job.

K. B. — Some boys were smarter; they went to the Chaplains, but, they could do nothing about it. Doctors held the boys down and jabbed it in them. If you have an Infection, use Green Systemic; use Scarlet or Magenta with it, according to the Frontelim. Any questions?

A. H. — What can I do? I am going to Germany; if I am not vaccinated, I can not come back to the United States.

L. K. — I heard something about rubbing Lemon on the Skin; do we not have something we can use? You can not work for the Telephone Company, if you be not vaccinated for Small Pox.

K. B. — If you get anything like that, use the Green Light or you must find a way out. In a certain city in Iowa, the Doctors put up their usual talk and hired a man from the Army and examined the water. It had 2½ parts in a million; that water has more Fluorine than it should have. Did you read the Milwaukee Sentinel? It said that they are all goofs who are against Fluoridation. It went before the Supreme Court and they said that they must have it, if for public protection. That is all contrary to the American Constitution. Our Milwaukee report is always the poorest, as our Members have been in perfect Health.

R. S. — While we were attending a Court Trial in Camden, New Jersey, a man was being questioned by the Attorney. The man felt embarrassed and fainted. The Medical Doctor went out and brought his handbag and injected the man. He was entirely wrong, but, he has the highest authority.

K. B. — You should never disturb a Body when in a Coma. Did you ever watch a Body fall asleep? Have we no Case Reports?

Members — We have no Case Reports; everybody is hale and hearty!

(K. B. explained thoroughly that Man can not live if there be no Sunlight. Some discussion arose whether anyone opposing the Medical Doctors would be sent to Alaska.)

A. B. — The way the Organization is run now is according to the Laws of the United States or will we have to go to Alaska?

K. B. — You have to be careful not to antagonize them.

A. B. — Of what I was thinking, may be they do not want us to operate.

K. B. — That comes from Russia; they can not kill everybody. If Americans of the former generations would come back, I wonder what they would think.

R. S. — I do not think they will harm us, if we do nothing like what some others did and Franklin D. Roosevelt put one in a Penitentiary for 20 years.

K. B. — I think most of you have forgotten the new Food And Drug Law. Talk to me or write to the Institute; then, you will not be in trouble.

A. B. — That is why Dinshah is so strict and wants us to abide.

K. B. — I remember Dinshah writing about King Purple-Coat or whatever you call it. On the side of the picture, he showed how they dress and earn five cents a day. The East reprinted it and he went to prison for it. The window is open; they may send me to Alaska!

F. K. — The Medical Profession realizes they are not the mass Healers. That is why they are trying to keep down the masses.

K. B. — Do you think they could keep down the masses? Look at our President Eisenhower! Today he says you must put through the Law. If the President vetoes it and the Congress goes over it, then, the President's veto does not count.

F. K. — In closing, I like to say that the old time Members who do not come in and join us, are the losers.

EDITORIAL  REMARKS

It is good to know that your Members are healthy, but, they must have friends who do not enjoy that blessing. Interest them in our services. The only way for American Citizens to fight the curse of Vaccination, is to state on return to the United States that if the regulations will not permit them to enter without being vaccinated, they are ready and willing to be placed into Quarantine for 2 weeks at own expense to prove that they are free of any "contracted infection." That Law is because this Country recently joined the W. H. O., which is the World Health Organization. That is another fight I have on hand, but, I have faith in the Higher Powers ruling life and will win in the end. I was informed by many persons who went and came back, that for a fee of a few dollars, they got certificates that they **were** vaccinated and so on! I do NOT advise **any** falsehood. Let me tell you openly once and for all time, that WE ARE NOT FIGHTING MEDICAL DOCTORS — WE ARE FIGHTING SOLELY MEDICAL MONOPOLY. My principle is LIVE AND LET LIVE. None has any right to COMPEL and their Liberty STOPS where the tip of my nose begins!!!

* * *

First New York New York Studio

W. G. — I found out how good the Blue Light is when you burn yourself. I had a good Burn; next morning, the Blisters were gone. I also fell from a ladder and injured my Elbow. I used one Lemon and felt fine.

M. S. — My husband suffered from Diarrhoea; he also had trouble with his Rectum; he suffered from Piles. He used Indigo and Yellow with very good results. That was the first time that I was able to have him stay on the Rational Food Of Man. My friend's son injured a Leg; he had Fever and vomited. She used Lemon; much Pus came out. After 2 days, the Pain was gone and the wound healed nicely.

R. D. — Why does she not come to the Meeting?

M. S. — She is not a Member at the present time.

R. D. — I bring that point out, because, some people do not know what Light to use; we are here to help them.

E. H. — I had a Splinter in my Finger; my Arm became numb. I used Lemon. My Finger still hurts me somewhat. I also used Indigo on my Back.

R. D. — Fill out a Chart; I am glad to help you with it. I had a Backache; I just took one Green; next day, it was gone.

A. M. — I always found Orange the best for that kind of Pain.

M. K. — I used Orange for that kind of Pain; I could not stand it; I had to change the Light.

J. Z. — I have a Cold in my Eye; it keeps on running.

R. D. — I think a Local Turquoise will do you good. I shall now read to you a letter from M. B. of Milwaukee, Wisconsin, about the Successor Of Dinshah. (Letter was read.) That letter should have been sent to the Institute, not to the Studios.

M. S. — Do you remember Dinshah asking for suggestions from the Members in regards to a Successor?

E. S. — I hope the Colonel will be with us for many years yet, but, he should train somebody. It is so important; it would give him more time for himself too. If there would be 12 people trained, so anyone of those could step in.

D. R. — K. B. from Milwaukee would be a good man for it.

R. D. — A person has to volunteer for a job like that.

A. M. — I always hoped that some of his sons would step in.

W. G. — I am quite new in the Organization. Colonel Dinshah spends his wisdom, life and freedom for it. It would be very difficult to find a Successor.

M. S. — Some one has to be paid, so he can make a good living.

M. W. — This is a work of sacrifice; the paying part should be the least. As far as the money is concerned, Dues are coming in, but, there is much to be paid out again. For anyone of us to take over is not easy. Colonel

Dinshah is a highly elevated person; he can draw strength from sources we can not reach.

M. S. — I am sure Dinshah has someone in mind already.

R. D. — Let us go on with our work. I had a Cold in my Back; tonated with Green. The next day it was gone.

K. G. — Why did you use Green?

R. D. — I thought a Cold settled there. I know of a number of cases where Green was used with good results, when the Kidneys were involved. When the Frontelim has to be checked, go to the Purple and then back again to Green.

K. G. — That demonstrated the wonderful work of the Light.

R. D. — Green is the Governing Wave. It is the Divisional Line of the Light and Color Spectrum, between the Red and the Violet and acts as a Balancer. Green is the watchdog of the Blood Chemistry. It is an Antiseptic, that prevents Decay, Germicide, that kills Germs; Detergent, that cleanses; Muscle and Tissue Builder; Purificatory, an Agent that purifies; Disinfectant, an Agent that destroys Rotting Materials; Pituitary Stimulant, an Agent that increases the Functional Activity of the Pituitary Gland in the Head, Area 1. If you do not know what Light to use, go to the Green Systemic.

EDITORIAL REMARKS

It is difficult to change the Food and Living Habits of either husbands or wives. That Food proposition is our big stumbling block. I am told frequently that if we let Members gobble what they like, without restriction, we could have thousands of more Members. I have no objection to getting more Members, but, if I bow to views they held and became sick, most of them would be 6 feet underground and not in the Studios. Our services, under our Charter, are open SOLELY to our Members and to no outsiders. Therefore, either you work WITH me or I work WITHOUT you. That Milwaukee M. B. writes to ALL Studios. It appears she likes publicity. She had better use her ability in the Milwaukee Studio by taking part there in the discussion and studying our Text Books. I am good for many years yet, but, the protection of the future of the Organization is my true problem. However, I shall eventually solve it. M. W. gave the correct interpretation. There is NO MONEY in this game. I never took anything as salary, but, gave to the Cause, around $1,500,000.00 in the 36 years, earned through my Lecture Courses and Equipment Sales. I feel happy I did it. I have to leave the Physical Plane some day in the distant future, BUT, my Science and Aim will survive for ever to serve the sick and suffering. M. W. traveled

with me as Secretary in years gone by and rendered most wonderfully devoted, loyal services, by being with me in the Law Courts even and knows full well that the expenses attached to this Organization and the work constantly involved are seriously heavy. The expenses of the Studio Meetings, paying the Reporters, paying the Municipal Taxes, Postage, Electric Light, Telephone and Traveling Bills, printing the monthly magazine, all that leaves nothing for a Reserve for any contingency. In fact, the Institute is HEAVILY in debt, which your humble servant is bearing single handed, without assistants for the present. Let each Member do the best and get interested each year just one Member and we shall soon be in better condition. Instead, when the great Fire of January 2, 1945 burnt the Main Building to ashes in 2 hours, there was a fund started for rebuilding. Now? Many of our friends are wanting that money Back! Wondrous loyalty to the Cause!!! The same for the Defense Fund!

* * *

First St. Louis Missouri Studio

The Educational Program consisted of reading Chapter 41, from Volume 1, of our Text Books Set, on "Corpuscular And Ether Theories." It was conducted by C. N. who showed experiments with the Radiometer. Much discussion ensued. Subsequently, from Volume 1, "Oscillatory Frequency Of Attuned Color Waves" was briefly explained.

M. N. — On May 30, I got a Sun Burn. I took Yellow Systemic with good results; also had one Magenta on Area 18. (This was discussed and it was brought out that the Sun was not hot. M. N. was in the direct Sunshine for about 1½ hours and when she arrived home, her parents noticed that under the Red, the Skin appeared Blue and she had Chills, which indicated that she was burnt by the Ultra-Violet Rays. Yellow was given first and the next day as she had Chills and Fever, Orange was used. Wind Burns were also discussed.)

C. N. — This was an Ultra-Violet Ray Burn, as usually the sky is overcast when one gets this type of Burn. (Various Hot and Cold Burns were then discussed and it was stressed that for a Hot Burn, the Ultra-Green side of the Spectrum should be used and for a Cold Burn, the Infra-Green side should be used.)

C. H. — About 2 weeks ago, I was walking among weeds and got Poison Ivy. I should like to hear a discussion on this to see whether I did the right thing.

A. K. — I wash with -------- soap. Use Green as a Cleanser and then Turquoise as a Pain Killer.

C. H. — I used Green as a Cleanser, Yellow to increase the Circulation, which it did! Then, I took Turquoise to ease the Itch.

C. N. — Often it is best to use a Soothing Color first and then go to a Stimulant. If something looks angry, use the Ultra-Green first; then, later, if you can stand it, use the Infra-Green.

A. I. — I am not clear as to how frequently a Color should be used; once or twice a day or more frequently until the Disorder disappears?

C. N. — Once a day in ordinary Disorders or at most twice a day. A Tonation is like a nourishment for the Body; you do not eat a full meal every 3 hours! More frequent Tonations may be taken in such situations as a Third Degree Burn. Immediately take Blue to kill the Pain and then at the Favor Time again take Blue. At the next Favor Time, take another Tonation. What Color should it be?

(Discussion followed regarding Magenta on Area 18 as the second Tonation, to stimulate the Kidneys, as they must work overtime to compensate for the loss of the Elimination Process which was cared by the Skin.)

K. S. — Saturday, I fell at work and bruised my Hands, Arms and Chest. For two days, I took Orange Systemic three times a day, to stimulate the Circulation. I have no Bruise Marks or is there any Swelling. I did take one Magenta.

A. I. — Yesterday, I opened a jar with my Hands. I forced it and later felt a Strain in the Upper Arm and Throat. What Color shall I take?

C. N. — Use Orange Systemic.

R. B. — About 6 weeks ago, B. my granddaughter, woke me at about 3:30 A. M. She was hemorrhaging. It was 3 or 4 days after the end of her Menstrual Period. She was so nervous, she could not lie down, but, had to stand holding on to a chair and she was using about 7 pads an hour. Ever since I became interested in this Science, she refused to have anything to do with it. However, she did not want me to contact her Doctor and as something had to be done immediately, I called E. N. At her suggestion, we used Indigo on Area 11. As B. could not lie down, we put her in a sitting position. In 30 minutes, the Bleeding began to stop and at the end of the hour, B. was able to lie down. We kept the Light on her continuously and by 7 A. M. the Bleeding stopped completely. We gave her 2 or 3 more Tonations of Indigo that day and then took her to E. N. to be itisized. Several years ago, B. had a useless Operation. When the Itisometer Tanger was applied to that Area, the Needle began to move very quickly. It was suggested that she should take Indigo on Area 11, Turquoise Systemic and Magenta on Area 18. The first week, she took 2 Tonations a day and then, for another 5 weeks, one a day. Previously, when she had her Menstrual Period, she had to go to bed for a day, because of the Pain. After beginning

the series of Tonations, she had no Pain. We shall see what happens next month. She is now an ardent Researcher! An example of this was apparent, when recently her brother had an Acute Tooth Infection and had a Tooth extracted. The poison was going up the side of his Nose and to the Eye. I told him he had better do something about it or he would die! B. responded: "O no, he will not grandpa! As long as we have the Color Projector."

C. H. — How dark should a room be when taking a Tonation?

C. N. — We have our rooms pitch dark and recommend that you have it as dark as possible.

E. E. — What causes fluid on the Knees and what would you use?

C. N. — It is caused by the wrong Chemistry. What would you use?

A. W. and R. B. — Orange Systemic to stimulate the Circulation and Scarlet on Area 18 to stimulate the Frontelim.

C. N. — Those are good suggestions. For that condition, take Green, Red or Orange Systemic and Magenta on Areas 4 and 18. Scarlet may be substituted, if you know the person needs it. These Colors will eliminate all of the difficulty, provided the Sufferer eats properly also.

(C. H. handed to C. N. an article in a local newspaper, entitled "Progress Reported In Blood Research," which was read.)

EDITORIAL REMARKS

The parents of M. N. did just the proper thing and the explanation was sensible. Personally, I am against exposing the Body for so-called Suntan. The Negroes are wrongly disliked for their natural Black Skin, yet, the Tomfoolish White Man makes himself Black! How incongruous! Because at each Tonation, the disturbed Chemistry of the Body is tried to be brought back to normalcy, time **must** be allowed for the equlibration. Thus, I do not advocate for **any** Disorder more than 2 Tonations in 24 hours. Give Nature time to recuperate. In the case of the Bleeding of B., along with the Area 11, the Area 10 should have been included. Menstruation comes through the Area 11, but, it originates close to Area 10. Let the learned Doctors continue with their daily and hourly "Progress" in Blood and Pus Research; they are welcome to their "Progress." The Doctor who could find a new Progress in the use of the Visible Spectrum Of Light And Color, will not be born of a Human Mother, from now till Eternity, unless the Architect Of The Universe goes to sleep to invent a new Spectrum!

DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

AUTOMOBILE AND AIRPLANE CRASHES

Not a day passes, without the newspapers and Radios announcing with weeping comments, horrible loss of lives and property by Automobiles and Airplanes getting out of order and creating what are termed "accidents." I have been handling Automobiles since 1911 when I was Chief Instructor and Examiner in the College Of Engineering And Automobile Instruction in New York and Airplanes since 1918, from a time when 30 miles an hour was a good speed on the road and 75 miles an hour a wonderful flight. Since then, the speeds have changed to 120 miles an hour for Automobile possibility and over 1,900 miles an hour for the Airplane. It appears that the manufacturers have been putting speed in rushing ahead of safety and the Drivers as well as Pilots are following the same path. Laws are being ground out against Reckless Driving, Careless Driving, Drunk Driving and the like, but, daily lives are snuffed out without obedience to Laws and without consideration of safety of all concerned. Sound travels around 720 miles per hour, so the Airplane manufacturers go after producing Flying Machines aiming at Sonic and even Supersonic Speeds, in competition with each other. The whole craze hinges around the demoniac factor of Speed, without any consideration of the Human Pilot. I have been watching the potentialities of the Flying Machine, since I had the honor of being the Commander of the New York Police Reserve Air Service and establishing the Training School there for the Pilots in 1918. Then, the human element was our chief calculation. Today, when I read and hear the reports of the daily crashes, I feel my mind becoming sorrowful at the neglect of the real requirements. My opinion is, that only one Law should be put through and strictly enforced without face or favor. Any person who is in the habit of using any intoxicating liquor or any narcotic and also who is a Smoker of Tobacco or similar weed, should NOT be given a License either to run an Automobile or pilot an Airplane. Both these functions and activities essentially require a complete control of the process of calm thinking and steady determination at all times and the stated wrong habits of the Driver and the Pilot are liable to inject unforeseen results at unpremeditated periods. Furthermore, in the air, no Smoking and Boozing should be permitted even to the passengers and crew, so there be little danger of a Gasoline Explosion. If not now, such or similar legislation is BOUND to come, in the near future; I do not care if the inconsiderate Driver or Pilot kills himself in the accident, but, I do object to the stupid idiot making victims of the innocent. It may also be suggested, that the Driver or Pilot should be by himself in his place and should be isolated from placing his arm around the beauty next to him. Let the complete responsibility for

safety be realized and shouldered and the tragic horrors that convulse us daily will be blotted out for good. Let the manufacturers go after strength and durability, placing Speed in the second rank to safety. When will that day dawn? Only when some big muckety muck is killed!

* * *

PROGRAM OF OUR THIRD ANNUAL CONVENTION

Our Third Annual Convention will be open in the "A" Hall, The Republican Hotel, Corner of North Third and West Kilbourn, MILWAUKEE 3, WISCONSIN, on Saturday, September 1, 1956, at 2 P. M., continuing the next two days.

Registration And Admission

All Student Researchers, Experimenter Researchers and Graduate Researchers in good standing for the year 1956, are eligible for admission, by presentation of their Membership Card (which must have the hand-written signature of the Member) and signing in own hand-writing in ink the Attendance Record, at Each Session of the Convention. Visitors (not affiliated persons) will NOT be admitted and no Request for joining as new Members will be entertained during the Convention. Delegates of Studios must present their Credentials to gain recognition.

Convention Sessions

Saturday, September 1, 1956, Afternoon Session, 2 P. M. to 5 P. M.
Address by our President Dinshah P. Ghadiali, on
"Our Service To Humanity."
Comments and Suggestions from the Members.

Evening Session, 8 P. M. to 10 P. M.
"The Visible Spectrum," topic to be voted by the Members. Discussion.
Sunday, September 2, 1956, Afternoon Session, 2 P. M. to 5 P. M.
"The Visible Spectrum," topic to be voted by the Members. Discussion.

Evening Session, 8 P. M. to 10 P. M.
Address by our President Dinshah P. Ghadiali, on
"Juvenile Delinquency."
Views of the Members and Discussion.
Monday, September 3, 1956, Afternoon Session, 2 P. M. to 5 P. M.
Case Reports by the Members. Discussion.

Evening Session, 8 P. M. to 10 P. M.
Address by our President Dinshah P. Ghadiali, on
"Marriage And Divorce" with
Demonstrations of the Double Bed Drama.

Findings Of Experimenters

Those who received benefit from Irradiation by any of our Visible Spectrum Light and Color Projectors are requested to write a short article duly signed, about their cases and hand them to the Secretary at her desk. At an appropriate occasion, they will be read before the Convention, without divulging their full identity and will be printed later in our Visible Spectrum Researcher.

Special Notice

Positively NO WRITING OR TAKING NOTES OR PHOTOGRAMS WILL BE PERMITTED during any Convention Session and NO SMOKING. Violators will be promptly ejected.

Send **no Charts or any mail** to the Principal Office, at Malaga, New Jersey, from Saturday, August 18, 1956 upto Monday, September 3, 1956. For any emergency, address:— Colonel Dinshah, Room 274, The Republican Hotel, Corner of North Third and West Killbourn, **Milwaukee** 3, WISCONSIN.

Final Request

At all sessions, please bring our Constitution And By-Laws for reference.

OUR AIM:— Happiness In Every Home.
Either you work WITH ME
Or I work WITHOUT YOU.

DINSHAH.

INFORM US BEFORE CHANGING ADDRESS

Many subscribers go on vacation or change their location WITHOUT giving us information.

The Post Office then returns the magazine to us and we have to pay 2 Cents Postage Due on each package.

Then, the subscriber later complains about OUR negligence.

Please, pay attention to this respectful Request and avoid loss of back numbers.

OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

First Allentown Pennsylvania Studio—Hotel Americus, Fifth and Hamilton Streets, Allentown, Pennsylvania. Catherine Knebel, Chairman, 234 E. Hamilton St., Allentown, Pennsylvania. Pearl M. Diehl, Vice-Chairman, 642 N. West Street, Allentown, Pennsylvania. Nellie Etta Spaar, Reporter, Route 4, Box 93, Quakertown, Pennsylvania.

First Cleveland Ohio Studio—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Louis Friedl, Vice-Chairman, 14220 Birchwood Avenue, Cleveland 11, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

First Detroit Michigan Studio—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

First Merrill Wisconsin Studio—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

First Milwaukee Wisconsin Studio—The Republican Hotel, "A" Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Kurt W. Bader, Chairman, 314 E. Burleigh Street, Milwaukee 12, Wisconsin. Fredrick Kneppreth, Vice-Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

First New York New York Studio—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Diedrichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

First St. Louis Missouri Studio—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Marie J. Parison, Reporter, 7525 Comfort Avenue, Maplewood 17, Missouri.

OPEN DECLARATION FROM THE EDITOR
DINSHAH P. GHADIALI

NO WARRANTY, NO GUARANTY, NO LIABILITY

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over $250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." $125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.
