Preface to the Twelfth Edition

SINCE MARCH 3, 1945, the world has been traveling on the last half of the journey across the Judgment Hall — King's Chamber — as "blueprinted" by the builders of the Great Pyramid of Gizeh.

Not many weeks after the world had crossed the DEAD LINE — March 3, 1946 — between the first half of the journey and the second half, something "new under the sun" took place — the secret explosion of the first Atomic Bomb. This took place on July 17, 1945 in New Mexico, U. S. A.

There was nothing secret about the second bomb on Hiroshima, Japan, August 6, 1945 or the third one on Nagasaki, on August 9, 1945.

Within a very short time after the second and third bombs did their devastating work, the mass-minded everywhere began to realize, for the first time in their lives, that all was not right with the world. They began to realize this actually was the beginning of the end and that their chances for continued occupancy of any portion of the earth might be extremely short at best. But, this is all they can possibly know, for they have no way of determining coming events such as you have. This very uncertainty among the mass-minded will be used by Destiny to awaken them into Budding Individuality.

Budding Individuals, on the other hand, know that they are working with the White Forces. The more intelligently and enthusiastically they labor with the White Hosts, the more remote is the chance that they will suffer the fate of the mass-minded.

For you Budding Individuals, there is much joyous work ahead. Of course, some of your work dealing with the overwrought nerves of certain of the masses may be a bit unpleasant. However, once you begin to experience results from your activity, this unpleasantness turns to great joy.

The wise Budding Individual will start THE GREAT WORK at once. All those who start now, will experience, as time rapidly passes, an EXPANSION into all Five Departments of Life of such magnitude that it is almost beyond understanding. But you must start now.

—THE AUTHOR.

1946 WHAT'S NEXT

—*by*—

HARRY J. GARDENER

For real Opportunities, the year 1946 is one of the best for Budding Individuals. The vibrations of this year are exceptionally fine for all-around EXPANSION into Life. Not only this, but the year offers you so many open doors to success that you will probably have some difficulty in deciding just which path to success you will choose. It is a year vibrating to NEW OPPORTUNITIES. It is an excellent time to make a complete change — change from the work you have long been tired of to the profession or activity that you are confident you would be supremely happy in: Or, if not a complete change of work at this time, then, at least, branching out in a small way at first into the brighter fields of an entirely new work. Do this and you will be amazed at how you will succeed in every imaginable way — achieving newness of mind as well as renewed youth and vigor for the body.

Knowing something of the law of Numerical Vibration, you know that the year 1946 has a Soul Vibration of 2. That is 1+9+4+6=20. And 2 plus 0=2.

Two is the vibration of a limited and somewhat selfish partnership—husband and wife, mother and child, doctor and patient, attorney and client, etc., etc., Two is also the vibration of YOU and your LIFE'S WORK. If you love your work then you vibrate to it and it vibrates to you. For this reason the year 1946 with its Soul Vibration of 2 will be a wonderful year for your EXPANSION into NEW LIFE.

1946 AND YOU

If you do not like your present work, then 1946 is the year in which to make the great change. Do not attempt to make sudden changes, but do not hesitate to make the change once you have completely planned and blueprinted your new work.

Let us discuss the four vibrations that make up the Soul Vibration of 1946. The 6 in 1946 is excellent for business. It lends itself to clear judgment in all matters pertaining to increase—especially, where you have an opportunity to meet people who are interested in your particular line of activity.

The 6 vibration is made up of two 3's. Three is an exceptionally good vibration for meeting the public and causing the public to become interested in your work or whatever it is in which you are engaged.

The 6 vibration which came to us on January 1st was a bit weak in its influence for the first three months of 1946—or to the end of March—after that, it should rapidly come into power.

In 6 there are three 2's. These 2's vibrate in perfect harmony with the Soul Vibration of the year. Thus, you are assured of a hearty cooperation when you deal with your public.

The 4 in 1946 has been active since it first came into the present decade back in 1940. It contains two 2's which again harmonize with the Soul Vibration of the year. However, 4 is a none-too-good vibration at this time. It has a tendency to cling so tightly to that which it has that it cannot grasp new opportunities. On the other hand, when you are tempted to "go all out" for some new activity, it will cause you to stop and consider the matter from all FOUR sides. In this way, you will avoid deals, propositions and undertakings that may not only cost you a lot of time and money but much in the way of lost opportunities to EXPAND.

The 9 in 1946 is, of course, very powerful—it has been vibrating for us since the turn of the century—1900. Nine is a Spiritual Vibration. As today's Budding Individuals are becoming more and more Spiritual, this wonderful vibration is becoming of tremendous value to them in their EXPANSION into the Spiritual Department of Life.

Young people are especially influenced by the Spiritual 9 vibration. However, there isn't a reason in the world why a Budding Individual, regardless of how old he or she may be, cannot be definitely benefitted by this wonder-working influence. The older person, having much better reason and judgment due to a long life in a very practical world, will be too wise to let the Vibration run away with him, which may necessitate the retracing of steps in order to travel THE PATH again.

As I have told you in previous editions of

"What's Next," the 1 in each of our years have been with us ever since the year 1000 A.D. It is very powerful. So powerful, in fact, that when it expires at the end of the year 1999 A.D., its influence will continue for quite some time. This continued influence will be especially beneficial as a great stabilizer when the Millennial Vibration changes from the masculine ONE to the feminine vibration of TWO for the coming Millennium.

We are, by the way, nearing the end of the 6th Millennium. The new golden Millennium which begins January 1, 2000 A.D., is the Seventh and last. It will be a Sabbath (Sunday) a thousand years long.

Of course to the EXPANDING Budding Individual all vibrations are good. This domineering 1 of our present thousand years can be impinged upon us to make us more aggressive in our grand undertaking of EXPANDING into LIFE. Quite naturally, it has its negative side for when the 1 vibration is used negatively, it is terrifically destructive. The mass-minded always use it negatively. In so doing, they cause themselves much mental and physical pain: but the pain is most awakening. Some day, when the pain is more than they can bear, many of them will begin to think and then become Budding Individuals.

The Vibration 1 always assists us in EXPANDING Mentally. Mental EXPANSION makes it possible for us to EXPAND into the other Departments of Life rapidly.

As you know, there are Five Departments of Life, and each is attuned to a different vibration. These vibrations are as follows:

Spiritual	9
Mental	1
Physical	2
Social	3
Financial	8

You will note that the Mental Vibration of 1 and the Spiritual Vibration of 9 will be with us each year from now on—until the end of the year 1999. That particular year will be most powerful in Mental and Spiritual Vibrations. Of course, these are the two Departments of Life that must be tremendously EXPANDED in order for us to enter the Millennium the following year—2,000 A.D.—and this, regardless of whether we are in the flesh or not.

Regardless of conditions to come, regardless of the coming Atomic Bombs, regardless of at least two-thirds of the world's population killing itself off before too long a time, there are thousands of people living today who will enter the Millennial Age in the flesh—even though it is actually fifty-four years away at this writing.

We said that the Spiritual and the Mental Departments were very definitely represented by their particular vibrations of 1 and 9 in the year 1946. The Physical Department is also represented by many hidden 2's. There are three 2's in the 6 and two in the 4 in 1946. This indicates that in your Physical Department of Life a wonderful reconstruction and youthification can begin during 1946. Start at once. If you put forth intelligent and enthusiastic effort, you can, in most instances, throw off several years of old age in the coming months of 1946.

The Social Department of Life which vibrates to 3 is not directly represented in 1946. But there are two hidden 3 vibrations in 6 and there are three in 9. So, you have a wealth of vibration when it comes to the Social Department of Life. This is the Department through which you contact people and it is through people that you secure everything in this material world.

The Financial Department of Life—"the Banker"—vibrates to 8. In 1948 this Department will be openly represented but, until then, it is represented by the 2's in 1946. As we indicated before, there is an abundance of 2's in 1946. They will quickly add up to 8 and will work enthusiastically for you, if you will but let them. Yes, the year 1946 is a wonderful year for the Budding Individuals who are enthusiastic.

There is also a hidden 5 vibration in 1946. By adding the 1 and the 4 together we have 5. This vibration—5—is a light and airy vibration, it "leavens the loaf," so to speak. Through this vibration, you will be able to look upon a chaotic world, not with indifference but with intelligence, knowing that once you have done your duty by others, things in this world are going to be a great deal better.

By adding the 1 and the 6 in 1946 we have 7. Seven is a most interesting vibration. It is the vibration of the Mystic, the Adept and the Budding Individual. Through the mystical 7 vibration, we are able to penetrate the Mysteries of Life and to comprehend them and, before long, put to use practices and methods of which the mass-minded world knows nothing, and are positively unable to comprehend even though their Mental Department of Life is tremendously developed.

The above is a delineation of things to come to the zealous, progressive Budding Individual in 1946. The picture is a bright one. For the mass-minded, the year is, quite naturally, one of chaos, uncertainty, and no little amount of "atomic" despair. Yes, all vibrations conspire against the mass-minded. For this reason, they are negative but, in the end, they force great numbers of the masses to turn about and to start EXPANDING into LIFE. And so, 1946 will be a year in which tens of thousands, who are under the spells and delusions of this stupid and evil age, will "see the Light" and begin to travel THE PATH that leads toward the sun-lit heights of a FIVE-FOLD ATTAINMENT. Therefore, 1946 is going to be a most wonderful year for all and to those, like yourself, who are actually on THE PATH it is going to be a thrillingly wonderful year.

America Enters The Millenium

PART TWO

In our 1945 What's Next, under the title of "Cubit of Chaos", we gave a short explanation regarding the effect that the vibration of 13 had upon America. We explained that a sub-cycle in the history of the United States was 13 years in length and that a Grand Cycle was 13 sub-cycles or 169 years long. We also gave some idea of the nature of each of the Grand Cycles. Evidently, we did not cover the matter thoroughly enough as many readers of the 1945 What's Next have desired fuller information on the subject.

A long time ago, when the Great Seal of the United States of America was cast, it was found to contain an abundance of 13's. The obverse side of the Great Seal contained still more. Some one, away back in those early days, knew that America vibrated to 13 and, quite naturally, put all of those 13's into the Great Seal. It has been discovered, in more or less recent years, that the United States vibrates to periods of 13 years each and that, thirteen of these 13-year sub-cycles make a Grand Cycle having a vibration all its own.

One would feel that the Grand Cycles began July 4, 1776—the birthday of the Nation. That is not true, however. The cycle system started exactly ONE Grand Cycle—169 years—previous to that date—mid-year of 1607. In other words, the FIRST Grand Cycle began 1607 A.D. and extended to July 4, 1776 and being the FIRST Grand Cycle it, quite naturally, vibrated to ONE, the toughest, the hardest and the most unrelenting vibration in the entire group of nine.

This powerful, unyielding vibration was made even worse by the first sub-cycle (also vibrating to ONE) which lasted thirteen years—from 1607 to 1620 A.D. Three-fourths of the 3,000 persons who had migrated from the Old World to the FIRST organized colony at Jamestown, Virginia died in that first sub-cycle of thirteen years.

It is interesting to note that the first colony was "communistic" in organization—"everyone worked for the good of the community." But, from the very start it was totally unsatisfactory. So unworkable, in fact, that the colonists almost starved to death.

Sir Thomas Dale then became Governor of the colony and abolished the "communistic" system, gave each colonist three acres of land to farm and the very next year, as the record reads, "each man then raised as much corn as ten had previously produced." It was at this very time that FREE ENTERPRISE in the New World came into existence. To this day, our system of free enterprise has been able to produce ten times more than has any Communistic system ever attempted.

During the first sub-cycle (of 13 years) of the FIRST Grand Cycle of our Nation, another very interesting thing took place. It was our present system of voting—electing members to council or to congress by secret ballot. Never, since that time, has any power, benign or malicious, been able to change the system. Although, it has been attempted time and again and sometimes the evil enemies of liberty and freedom have almost succeeded.

Along with the "wheat" that was planted in that first sub-cycle of the Nation-to-be, "tares" were also sown. It was during this time the now powerful nicotine trust got its start.

Near the end of this first sub-cycle (1619 to be exact), a Dutch battleship docked at Jamestown and sold the colonists twenty negro slaves. This was the beginning of slavery in America which eventually culminated in the Civil War a quarter of a Millennium later.

Now, let us pass from the first sub-cycle to the thirteenth in the FIRST Grand Cycle. This sub-cycle ruled from 1763 to 1776. Thirteen Vibrates to 4. Four is hard, tenacious and unrelenting and so, the struggle between the colonies and England was a hard one. It began in this 13th sub-cycle of the FIRST Grand Cycle and ended in the 1st sub-cycle of the SECOND Grand Cycle—1776 to 1789.

We bring this out to show the student how the beginning sub-cycle and the ending sub-cycle—1st and 13th—are always hard and very difficult to pass through. We are speaking now for the Nation—the good or the evil that the Nation does in those particular sub-cycles follows after it. Right now, we are passing through a very critical period of sub-cycles—13th and 1st. From July 4, 1932 to July 4, 1945, we passed through the 13th sub-cycle of the SECOND Grand Cycle. That was a very trying period in the nation's history. However, we managed to pass through it even though it cost us much in pain and blood. On July 4, 1945, we passed into the 1st sub-cycle of the THIRD Grand Cycle which rules until July 4, 1958.

From all that has taken place in the past, when we, as a Nation, pass through a first sub-cycle, we can feel certain that this new sub-cycle (vibrating to ONE) is not going to be any different than any of the others we have passed through—1607 to 1620, 1776 to 1789.

Destiny, all through the sub-cycles and GRAND Cycles, has been preparing the Nation for some great work for mankind. Up to this time, we have been mostly engaged in preventing the "have-not" nations of the earth from being consumed by the "have" nations. It looks now that our work, in this respect, has not been completed. Therefore, soon after the "Cubit of Mystery" begins to rule, we shall again be engaged in liberating the weaker nations from their oppressors. At that time, we probably shall not fare so well ourselves. We do have another tribulation period —the third and last—coming.

In "Washington's Vision" we read: "And again I heard the mysterious voice saying: 'Son of the Republic, look and learn'. At this, the dark, shadowy angel placed a trumpet to his mouth and blew three distinct blasts; and taking water from the ocean, he sprinkled it upon Europe, Asia, and Africa. Then my eyes beheld a fearful scene: from each of these countries arose thick, black clouds that were soon joined into one. And through this mass there gleamed a dark red light, by which I saw hordes of armed men, who moved with the cloud . . . to America . . . And I dimly saw these vast armies devastate the whole country and burn the villages, towns, and cities that I had beheld springing up. As my ears listened to the . . . millions in mortal combat, I again heard the mysterious voice saying, 'Son of the Republic, look and learn.' As the voice ceased, the shadowy angel, for the last time dipped water from the ocean and sprinkled it upon America. Instantly, the dark cloud rolled back, together with the armies it had brought, leaving the inhabitants of the land victorious."

It was the will of Destiny that America should be the ONE NATION to discover the atomic bomb. It is our only protection until the subversive nations across the water discover the secret also. From then on, we will have no more protection. Once the subversive forces make (or steal) this discovery, we can rest assured that it will only be a matter of a very short time before our whole country is devastated. Every city, town and village will be laid low with atomic bombs and by other destructive means and methods as well.

Quite naturally, the population of the United States will be greatly decreased. More and more people are leaving the country and congregating in the cities. The cities will be huge death traps when the atomic bombs start devastating them.

There are no limits to the size that an atomic bomb can be made. For this reason, one large, well-placed atomic bomb could easily annihilate three or four million people in a single blast. Yes, a few well directed, or strategically "planted" atomic bombs could annihilate half the population of America and Canada in a single hour and incapacitate the other half of the population to such an extent that there would hardly be enough unharmed people to take care of the millions of wounded and dying.

Now, notice how the dread conflict ends: "the shadowy angel, for the last time, dipped water from the ocean and sprinkled it upon America. Instantly the dark cloud rolled back, together with the armies it had brought, leaving the inhabitants of the land victorious."

You will note that the "inhabitants of the land" apparently do nothing of their own accord to cause the invading hordes to make a speedy departure. Evidently, by some mysterious power, when America is purged of millions of the willful mass-minded, Destiny (in the form of "the shadowy angel") intervenes and the conflict ends. By what means this is accomplished, is not given. Evidently, by a supernatural force of tremendous consequence.

During World War II, a great many older Budding Individuals would have been supremely thrilled if they could have followed our armed forces overseas and administered to their Spiritual and Physical needs. Well, before too long a time, you'll not have to travel to some foreign land to help men, women and children. You'll be able to do this, in a most wonderful way, right in your own community. The ENEMY of America isn't going to leave a single village in the entire country unmolested. So, you'll have plently to do in taking care of the wounded and guiding those remaining onto THE PATH

Your age won't make a bit of difference then. You can rest assured that you will be most welcome everywhere.

Just when will all this take place?

We cannot answer this question. We do not know. But it could take place some time previous to August 20, 1953, when the world of the mass-minded come to the Death Wall in the Judgment Hall as delineated by the Great Pyramid.

Destiny has no desire to keep the stiff-necked and the rebellious mass-minded incarnate any longer than is absolutely necessary. Yes, America must be purged of her dross in order for her to minister to the whole world.

There is a great deal of dross — evil karma — in America at the present time, but the actual amount is limited. Therefore, every time you make a new EXPANSION into Life you eliminate YOUR SHARE of the Nation's karma, and every time you get some mass-minded person to "turn West," just that much more evil karma is eliminated. The time for a grand, new start is NOW.

One More Year of National Chaos

PART THREE

The "Cubit of Chaos", if you will remember, began March 3, 1945 and it doesn't end until April 15, 1947 — at this moment, that is close to twelve months away. We must state that this period of chaos isn't just a local one. It is more or less world wide. In fact, certain other nations of the world will feel it as much, or more, than will we here in the United States and Canada. The rather disgusting part of it is that it isn't necessary for the nations in the Western World to experience this at all. We wouldn't, if we weren't partners in old-world influence and intrigues.

People everywhere throughout the United States are complaining: "We thought that when the Germans and the Japs gave up we were going to have peace, prosperity, and plenty of everything."

Of course, it would have been nice to have had it work out like that, but no one with an ounce of prophetic foresight had any idea that such was going to be the case. We are confident that in our 1945 "What's Next" we never gave any such misleading information. We told you last year, when we entered the "Cubit of Chaos" (March 3, 1945), that chaos was going to reign most of that "cubit of time."

Our major troubles for the next twelve months will be labor trouble. These are planned in Europe and put into action here. The reason that the Red Fascists want labor strife in the country is to give them time to corner world markets. Once they have established these markets, it will be the simplest matter in the world to hold them, because they can under-bid any figure we could quote in these markets with their stolen machinery and slave labor.

No, Great Britain has had no hand in our industrial strife. For one thing she is not that ungrateful. Another reason for keeping out of labor agitation here is, England has always been farsighted. When she saw that it was only a matter of a year that the German war would last, and that a little later the Jap war would be over, she began to convert to peace-time goods. Of course, it was done quietly. So quietly, in fact, the Red Fascists didn't know for quite some time that England was rapidly converting to peace-time goods.

We, here in the United States and Canada, knew that England was rapidly re-converting because English-made goods were being sold clear across the country to the Pacific. People used to exclaim: "Where do the British get their wool and their metal to make these goods when we haven't enough of either to supply our military needs?"

If we had been as wise as the British were when the German war ended, and before the Red Fascists could throw a monkey wrench in our re-conversion machinery, we would have quickly, but quietly, changed back to civilian goods. It would have been very easy and rapid at that time, We were still at war with Japan and the "Red Republic" would have had considerable difficulty in inspiring labor to sabotage our re-conversion efforts at that time.

Even without the benefit of atomic bombs, the Jap war could have only lasted a few months longer at the most. Every Army and Navy officer in the Pacific, who had any foresight at all, knew this. Just why official Washington didn't know is, of course, a "Red" mystery.

Only the super-stupid would have continued manufacturing the sinews of war when the last enemy was gasping out his last breath. Of course, there is no use blaming any one. The prophecy of the Great Pyramid of Gizeh said over four Millenniums ago that there would be twenty-five months of national and international chaos at this time—March 3, 1945 to April 15, 1947.

The only reason conditions here and throughout the English-speaking world aren't any worse is due to the fact that so many men and women in the last few years have "turned West" and they have mitigated our evil National Karma to a wonderful degree. After all, it is probably best that we stay out of the world markets for a time yet.

It is best that we aren't going to get all of those new radios, new streamline motor cars, new, thousand-miles-an-hour airplanes, new homes that the advertisers were promising only a few months ago. To have had them all heaped upon the mass-minded suddenly, might have made them impervious to the call to "turn West." It also may have retarded the progress of many a Budding Individual just shortly on THE PATH for a dangerously long time.

Powerful forces from the Nether Unseen World are working with the chaotic forces in this physi-

cal world to prevent America from becoming a world-wide power as long as possible. Fortunately, there are tremendously powerful White Forces carrying out the will of Destiny to make this Nation so great, so far-seeing, so powerful, so excellent in judgment that eventually America will dominate the entire world.

Fortunately, there are enough men and women on THE PATH in North America and enough more on the verge of "turning West" that before too long a time, those who would, in any way, attempt to block America's path to world dominion, bringing peace, blessings, culture, and abundance to the entire world, will be removed from the flesh.

The purging of the Nation, as George Washington so clearly saw it in his vision, can only be a few years away at the longest. Yes, "The bombs bursting in air," as we indicated before, will wipe out all of the great cities in America, the towns and villages will be destroyed, too. Even so, there will be sufficient people left who have "turned West" to deal effectively with any remaining traitors within our gates and then to start rebuilding the Nation along new and Millennial lines —to make it the gateway by which the remainder of the world will pass to enter the portals of the Millennium. America, vibrating to THREE in her THIRD Grand Cycle, will find her task simplicity itself once the obstructionists, foreign and home grown, are removed from physical embodiment.

"What can I do?" so many Budding Individuals just on THE PATH at this time are asking.

There are a number of things that you can do. However, there is only one thing that you can do effectively for the next twelve months and that one thing is your Five-Fold EXPANSION INTO LIFE. You see, a Budding Individual who has just "turned West" is in a pretty deplorable condition as far as his symmetrical EXPANSION into LIFE is concerned.

Most of these Novice Budding Individuals have several Departments of Life well EXPANDED, but there are usually two, sometimes three, which are not so much as touched, as far as EXPANSION is concerned. For this reason, a great many people right now, especially those in middle life and older, are diminishing rather than EXPANDING as far as health and youth are concerned. Their Physical Department of Life is withering so rapidly that a great many of them cannot, at this time, last until the Gateway to the New Dispensation (August 20, 1953) is opened to them. Surely then, the very important thing to do at this time is to remain in the physical body. If you had an old automobile, and needed it very, very much in order to carry on your work, and if you couldn't possibly get a new one for the next SEVEN YEARS, you could make the old one last, couldn't you? That is, if you could get the necessary repairs.

Well, with all the aids to health that we in America and Canada have at the present time, it does seem rather stupid to let your Physical Department of Life play out on you. Especially when there is such a short time remaining before we leave this old-man age, and joyously enter the youth-reviving Pre-Millennial Age immediately after August 20, 1953.

In the various Monographs that you have secured from us from time to time, you have been made fully acquainted with the simple, yet powerful things, that ward off old-age and renew youth. Your present age doesn't make much difference. Fact is, if you are around four score years in age, you can drop a decade from your age quicker than a person half that age could lose half that number of age-years.

In each of your Five Departments of Life there is something that should be gotten rid of if it is false. If it is true then it should be youthified by the injection or admission of new ideals, methods and practices. It is a fact that the old causes the new to become old to a certain extent, but on the other hand the new causes the old very definitely to revive and become NEW. This applies to all Five Departments of Life.

There is no use trying to get others to follow you on THE PATH as long as you are reeking with self-inflicted afflictions. You may know a lot and if people would do as you say (not as you do) they would benefit by it. But, the moment you give advice in any of the Five Departments of Life, your listener, if he or she has an ounce of gray matter, will, first of all scrutinize you and determine just what benefit you have derived from your advice and if he or she does not see in you a pretty good example of what you are teaching, your listener will just put you down for a talkative oldster—one who is thrilled at the sound of his own voice. As you probably know, the world is filled with talkative old people. Some know what they are talking about, most don't.

People—the mass-minded—judge you almost entirely by your Physical and Mental qualities. Therefore, if you would influence any of them to "turn West," to travel THE PATH, to make their entering of the New Age in the flesh a certainty, you'll just have to make a demonstration. You'll have to demonstrate that you have taken yourself in hand and that you are becoming more and more youthful Physically and Mentally all of the time. This should not be too hard. Remember, some of our greatest changes are made (if we are enthusiastic about our EXPANSION) in the first twelve to twenty-four months of our journey "Westward." The Mental and the Physical are so closely related to one another that whatever benefits one Department immediately reacts beneficially on the other. No, it isn't hard at all for those Budding Individuals who are zealous, to enter the New Day in the flesh.

New Fellowships for Old Orders

PART FOUR

In the older churches, such as the Eastern Orthodox, Roman Catholic, Greek Catholic, Church of England — Episcopal Church — there are "churches within churches." In other words, there are groups of men or women, as the case may be, who have set themselves apart, or, rather, banded themselves together to carry on some particular form of religious activity within their particular church denomination. These "churches within churches" are known as orders, societies, fraternities, confraternities, sisterhoods, brotherhoods, fellowships.

Some of these activities, as you know, are teaching, missionary, evangelistic, hospital work and many other specialized undertakings.

Some of these orders or confraternities have become so great they have incorporated, within their various activities, practically all of the work of the church to which they belong. This is, in certain cases, a departure from the order as originally established. In certain instances, it worked out well. In others, it was not good.

Here is something very interesting. Practically all of the older religious orders, as well as the more modern ones, were conceived and started by a single enthusiastic person. Usually, a Budding Individual who was quite some distance on THE PATH Spiritually but, we are sorry to say, not too far in the several other Departments of Life.

These persons saw that the church of which they were a member was not taking advantage of certain great opportunities to help mankind. So, these Budding Individuals took it upon themselves to start a work that, in a great many instances, rounded out the work of the church in a gratifying way. The Budding Individuals clearly saw the great need and then, with courage and enthusiasm, started an order, or organization, to take advantage of the great opportunity.

The start made, it was no effort at all to secure assistants. People, especially those who are EXPANDING into Life, are wonderfully attracted to a new and growing organization, even though the new order is doing a work similar to a much older one. There is a bit of psychology in this: Regardless of our later years we are always attracted to something new and youthful—something that is EXPANDING into LIFE. It often gives an older person a new lease on life to be closely associated with a new active group.

Now: There is one thing that every Budding Individual starting a new work should guard against. That one thing is the hasty acceptance of every person who offers his assistance. The older orders all had periods of probation through which the novice either passed into the order or passed out of it. Some of the orders, modern and older, required not less than a year's noviceship. Others required three years, some six, while one of the best established orders required twelve years.

Anytime during the period of probation, whether it was one, three, five, six or twelve years, a novice could leave the order and there would be no stigma attached to his leaving. By the same token the order itself could dismiss a novice without any negative reflection on the novice during the period of probation.

This worked out to splendid advantage of the order. Those novices whose interest in the good work began to lag, those who had certain idiosyncrasies not conducive to a smooth-running organization were eliminated. In this way, no one was injured and every one benefitted by the system.

Some of these "churches within churches" have existed for approximately a Millennium because of their good judgment in selecting new members. Younger organizations have also followed this practice to great advantage. Still newer ones—some only a few years old have found this method of eliminating the unfit highly satisfactory.

Now the idea of a religious order, spiritual fraternity, or similar organization, is an excellent one in these last days of the old, dying Piscean Dispensation. In other words, great good can be accomplished when a Budding Individual gets an excellent idea about a great work for helping the mass-minded to get started on THE PATH, or assisting the Budding Individual, freshly on THE PATH, to travel more rapidly.

With an ideal to make real, working together in harmony, and with joy and enthusiasm, there is no reason why an order of fellowship shouldn't be a tremendous success in the coming "Cubits of Time" before August 20, 1953.

In all of the older orders of either men or women, they were very austere. So much, in fact, they often defeated their own purpose to a very great degree. The austerity kept out the lazy, but the same austerity often repulsed the highly talented. Thus, both the order and, especially, the good work it was attempting to accomplish suf-

fered. Just why these noble souls—Budding Individuals quite some distance on THE PATH—never thought of establishing a less severe fraternity of their own, is somewhat of a mystery.

In all of the older orders of either men or women, the rule of "chastity, obedience and poverty" was religiously enforced upon the members. All orders originating even at this late day have this three-fold rule of practice.

The rule of Chastity came from earlier esoteric religious orders which were connected with the early church or, in a number of instances, had no direct connection at all. It was in these early mystical orders that the rule of chastity originated. Chastity, in itself, is of the moral code. There is no LIFE in any moral code the average member of any esoteric order practices. Only when chastity is practiced, with the purpose of EXPANDING the Mental, Physical, Social, Financial and SPIRITUAL Departments of Life, is it of GREAT consequence.

Every Budding Individual, before he or she can travel any great distance on THE PATH, must practice chastity mystically—esoterically—in order to be constantly refreshed at the Fountain of Renewing Youth in order to go on to a still greater EXPANSION into Life.

We have taken up CHASTITY and the miracle methods for transmuting the pro-creative powers into NEW LIFE in your Monographs, "The Secret Science of Life" and "Re-Creation." For this reason, there is no necessity of taking up space here by repeating these methods which are known as the "Methods of the Initiate."

"Obedience" in the older orders—in the exoteric orders—meant obedience to the superior of the order. In other words, the superior of the order was "law and order" and, no matter what he or she may have decreed, the lesser members were obliged to obey obediently. For this reason, certain religious orders degenerated very rapidly. Especially, when the superior was in a state of degeneration.

In the White, mystical orders of old, obedience was also practiced. However, the obedience was to the rules of the order and not to a superior. For a superior to impose his will upon the members of a mystical order, meant his quick excommunication from the order—and never to be readmitted at any future time. We might add that many of these deposed superiors then started clandestine orders of their own. Some of these have existed to this day. They are known, of course, as "Black Fraternities" for they are directly guided by the unseen Black Forces.

The rule of "poverty" in the exoteric, or outer orders, was carried to the extreme. The members owned nothing, not even the begging bowl by which they begged their subsistence. In fact, the more poverty stricken they were in earthly things — clothing, living accommodations, food, — the more holy they thought themselves to be. However, after a while, a great many of these poverty-ridden orders began to accumulate wealth and, so, little by little, their extreme poverty vanished from mind and many of the members of the order became corpulent, lazy in body, mind and religious activity.

Poverty, in the true occult or mystical orders, had no connection at all with hunger, ragged clothing or squalid living quarters. Poverty, to the White fellowship of old, simply meant a non-ownership of this world's goods. To the world, a member of one of the White fraternities may have appeared to be wealthy — the owner of houses, lands, property, etc., etc. — but it was in appearance only. He was only the custodian of the wealth. The wealth was the property of the fraternity of which he was a member. Therefore, whatever legitimate profit was derived from the possession went directly to the fraternity in order that it could carry on its GREAT WORK.

The GREAT WORK in that day was exactly the same as it is today—getting the mass-minded to "turn West", to become Budding Individuals on THE PATH. Only, in those dark days, it took much money, much patience, much discretion and much time to get even one mass-minded person to SEE THE LIGHT and become a Budding Individual.

The Orders and Confraternities, Groups and Brotherhoods, Organizations and Fellowships of the New Dispensation — the Aquarian Dispensation which is already here — will all be based on the INNER or esoteric concept of "chastity, obedience, poverty."

The word "poverty" has been associated so long with the negative and the unpleasant that we feel a better word could be substituted for it. Why not use the New Testament meaning of the word which is STEWARDSHIP? That is exactly the meaning of the word "poverty" in the White esoteric orders of old. And so, the incoming members of the new Aquarian Orders will take the vow of CHASTITY, OBEDIENCE, STEWARDSHIP in the full esoteric (not exoteric) meaning of the vow.

The Orders of the New Dispensation, like the orders of the old, must have a humble start if they would constantly INCREASE. If growth is too rapid, the "new wood" will be spongy and soft and the order will be of short duration. If its growth is too slow, then the "tree" will remain so long a "shrub" that the need for which it was intended will have long been past before it becomes of consequence. No order can survive if its growth is too fast. It cannot live if its growth is too slow.

The guilds of today stem from the "labor unions" of ancient times. The lodges and fraternal organizations of today originated in the esoteric religious orders of by-gone centuries. Lodges

and guilds, in the past, have done a splendid work among certain groups of people, and many of them are still doing a very noble work. However, in the new Aquarian Dispensation, the activities of these two groups will diminish as their work is taken over by Spiritual FIVE-FOLD Orders and Fellowships. Likewise, the older as well as the newer exoteric religious orders must decrease more or less rapidly within the next few years unless they can adjust themselves to the FIVE-FOLD LIFE, to the new RULE of OBEDIENCE, CHASTITY, STEWARDSHIP.

On July 17, 1945, in New Mexico, U.S.A., the first atomic bomb was exploded with terrific force —the atom, at last, had been forced to give up the energy it had held for countless eons of time. From that day forward, things have not been quite the same. The event of that day will eventually become the turning point in the lives of all the people of earth.

People, regardless of age, education, or environment, will be doing the impossible from now on. You, who are reading these lines, may be one of many who will be doing unusual things for mankind. The things that you couldn't do before, for any number of reasons, are probably yours to do NOW in the VERY NEAR FUTURE. In writing this we are thinking that you, probably, are the one who is called to begin a New Age Organization — a New Spiritual Order, Congregation, Brotherhood, Sisterhood, Fellowship or Confraternity. Yes, an Organization based on the Five Departments of Life and on the New Age Rule of Chastity, Obedience, and Stewardship.

Yes, a membership organization which will devote all of its time to the TEACHING and PRACTICE of the Five-Fold Life, here and now.

One doesn't have to be a minister, or preacher, or a professional teacher, or a lecturer, or a clever writer, in order to get started in this wonderful work. All one needs to be is a Budding Individual who has made some progress on THE PATH and is zealous to do good.

Of course, a New Age Order must not be brought about with trumpets and fanfare. It must be started quietly. You first formulate your plans and then start working within your own church group or denomination. In a short time, you will find that others will become interested in the work you are doing—teaching and practicing the Five-Fold Life—they will be thrilled to join the New Work. It will be your duty, then, to see that each of those Five Departments of Life in your novices is EXPANDED day by day. Each novice will have his or her peculiar problems to overcome. It will be a part of your work to assist them in this. Do this, and you will be amazed at how you yourself EXPAND into the NEW LIFE.

Of course, if you are a member of a Modernist Church, one of those churches that knows nothing of the origin of good or evil, that believes in practically nothing beyond the five senses, that knows nothing of the Other World, knows nothing of the White Forces or the Black Forces, then of course, you would be wasting your time and energy in ever attempting the GREAT WORK in such a Spiritually barren organization. The thing to do is to get out of such a church as quickly as possible and into one that has, at least, a spiritual Department of Life.

Of course, in some of the Fundamental churches the idea of any of the lay members forming an Order or Fellowship and devoting their full time to a NEW WORK, quite naturally, would be looked upon with some suspicion at first. However, after the pastor and the members find that your work is tremendously worthwhile and that you are very loyal to the church, you will be amazed how you will be assisted even by the people who opposed you at first.

It is wise to be associated with a regularly established church in this splendid work if at all possible. After all, you are to do a special work, a work that your church is not doing. If you are not connected with a church, then you have all the responsibilities of a church plus your own work and the result will be that you will get nowhere.

Unless you are a minister with much experience, to start a new church is a very heavy undertaking. After all, your work is to TEACH and to PRACTICE the Five-Fold Life. The work of an Order, which is your work, is only to do that which the church is not doing and to do this, you will eventually devote all of your time.

Of course, people like yourself will be interested in the NEW WORK and they will join you. After a little while, you will have to move from your home and rent larger quarters. It may be necessary to do this several times on account of your growing community of co-workers. Then, some day you will move into a large, permanent Mother House with your Order or Fraternity.

From the start, people will assist you with finances and with necessities for the physical man. You will be amazed at how much in the way of finances people will contribute to your Order when once they begin to understand what you are attempting to do and ARE DOING.

Here is a warning, don't start an Order unless you are willing to be busy every moment of the day. Six days of the week you are visiting homes and TEACHING. Then, all day Sunday, you are teaching the younger generation in the church school—always slanting the Sunday lesson of your Class to the Five-Fold Life. Time is very short in the Old Dispensation and it is necessary for you to be busy every moment if you start a New Age Work. If for any reason, you feel that you cannot do this, then wait a bit and build up those Departments of Life that are deficient.

After a little while, not right at first, your

pastor will be delighted with the work you are accomplishing in the church. Here is your group of conscientious men or women, as the case may be, devoting full time to the EXPANSION of the members of the church as well as the church organization. This is work that would require a half dozen assistant pastors to perform if that many could be found who knew THE WORK. Yes, your pastor will be very, very pleased once you and your group get working.

After your Order becomes eight or ten (or more) in size, it will be necessary for you, the organizer, to remain more or less constantly in the Community House. This will be necessary so that everything connected with the work will be done "decently and in order." Yes, there is the residence which the novices must keep in immaculate condition. There is wholesome food to be prepared for all the members. This, too, is done by the novices. The telephone you must answer. Then, there are letters to write. A novice will assist you in this, but you must dictate them. There will be callers and visitors to the Mother House. All of these must be treated courteously. Many of them will waste your time. These, you must get rid of as quickly as possible, but not before you have, in some way, benefitted them with at least a few crumbs from the New Age Teaching.

Keep everyone who visits you (and those whom you visit at any time) friends. You never can tell when you will be able to do them great good or when they will be the ones who will be able to help your good work in a most wonderful, yet unexpected way.

Let us consider you for a little while. Your age doesn't make much difference. After all, if you are in your thirties and have good judgment and a good understanding of the Five-Fold Life, you are ideal to start a work.

If you are forty, fifty, or even sixty, if you have the necessary EXPANSION into Life, then, your mind is clear, your judgment good and your health in excellent condition and quite naturally, you will be entirely successful in the New Work.

If you are not expanded in one or two Departments of Life at the present time, then devote the next six months or one year to that work. You will then be ready for the work of helping others.

This is important. It isn't possible for married persons to engage full-time in the work of a Spiritual Order with much success. After all, you do have your home duties and you can't neglect these duties and expect to expand into a Great Work. A Spiritual Work isn't built-up by neglecting the Social Department of Life at home.

Not every person who reads this chapter is called to establish a Spiritual Order of Community. At least, not right now. But, if you are interested in the Work and will begin to prepare yourself for it, with the idea in mind that some day you will receive the Call, then you may be amazed at how soon you will be Called. After all, this is the work of the White Forces and if you are willing to prepare yourself for their work, it certainly stands to reason that when you are ready to assist them, they will find means and methods for using you, even though, as far as you can see, there is no hope of your being relieved of present pressing obligations for a long, long, time. Your work is to prepare yourself, beginning now. When you are ready, the way will be opened for you.

The Budding Individual just shortly on THE PATH couldn't possibly understand this last statement — "When you are ready, the way will be opened for you," especially if he has family or business obligations of consequence. However, as the Budding Individual proceeds with his Five-Fold EXPANSION he, one day, begins to realize how certain changes could take place in his life and affairs and set him completely free to embark upon his GREAT WORK. But here is the difficulty, he is not yet far enough on THE PATH to know that the obstacles to his new, full-time work will not be removed in the way that he thinks they should be, and so he becomes disappointed, discouraged and sour, and stops EXPANDING. Then of course the way for his exit from his social or financial responsibilities is definitely closed . . . this is the work of the Black Forces — they have won again.

Now the correct way for you is, keep right on EXPANDING, and at the same time visualize a little each day what your NEW WORK really is to be. Do this and little by little the picture will become clearer and clearer until one day THE PATH you are eventually to travel will become so clear that you will actually feel yourself a part of your NEW WORK, and then, to your amazement the way will suddenly open for you to enter.

Remember then, begin to visualize what your new work will be like, but whatever you do, do not try to construct a bridge over the chasm from where you are to your new work. The construction of "the bridge" must definitely be left to the White Forces. They will assist you with your VISUALIZATION of your GREAT WORK, but removing the obstacles between you and THE WORK is their GREAT WORK.

The White Forces will be able to remove the impediments in your PATH much sooner if you will keep on with your work of EXPANSION. In fact the only thing that prevents you, who ever you are, from entering upon YOUR WORK at this very moment is your lack of EXPANSION in one or more of your Five Departments of Life.

Your GREAT WORK will consist of but three things: First, your constant EXPANSION into Life. Second, your assistance of the mass-minded onto THE PATH. Third, to assist all Budding Individuals into a quicker and greater FIVE-FOLD EXPANSION INTO LIFE. No one else can do this, YOUR WORK, better than you can.

Last Day Warnings and Opportunities

PART FIVE

There are a number of important subjects which we would like to discuss in this particular chapter. However, that is impossible due to the fact that their number is legion. On those we shall take up, whole books could be written on each of them. Our space is limited, therefore we can only give the important highlights of each of them. For those of you who are deeply interested in any one of these subjects, there are a number of sources from which you can get extra material or added information.

START A COLONY

The first subject is one that we have already mentioned — the starting of a colony. Today, many people are interested in the starting of a colony and, for widely different reasons.

With some, it is to start a colony and get rich quick. This would be at the expense of the other colonists, of course. These are the "colonizers" of whom you should be very wary. No matter how plausible their scheme. no matter how many so-called safeguards they put up to guarantee your investment in the colony, in the end, they have planned it so that whatever you put into the project — money, time, labor, sweat — they, the "colonizers" — are going to profit by it. When you awaken to the "steal", they will make it so unpleasant for you that you will most gladly leave empty-handed. Yes, you'll get out and try to forget the whole miserable affair as quickly as possible. You see, these are old hands at fraud and trickery.

There are and have been a number of very legitimate colonies. But, the difficulty with them is that they are more or less philosophical institutions and you have to be in complete sympathy with their particular philosophy before you can possibly fit in with them. We are not saying this in a belittling way. Their philosophy is fine, but you might not like it. So we are warning you in advance of joining any of them of this very important matter.

Yes, before you join a colony or anything else, be sure that it specializes in the EXPANSION of the Five-Fold Life. As a Budding Individual, this is very, very important for you. Do not overlook it.

At the present time, there are thousands of honest and sincere people all over the United States and Canada who would like nothing better than to start a colony and manage it. Well, for a Budding Individual far on THE PATH, who is just about ready to become an INDIVIDUAL from the mystical point of view, you would have what it requires to start a colony. But anything less than this would find you sadly lacking in directing such an unbelievably cantankerous association of men, women and children.

The fundamental principle in every colony scheme is to "share and share alike." That sounds very beautiful, but that is where the big difficulty lies. In every colony there will be the industrious members and for every industrious member there are five who are not so industrious. Then there are those who are not industrious at all. Well, the fireworks start when the industrious members of your colony see the less industrious members "laying down on the job."

At once, you, the head colonizer, are approached by the industrious members and some of the things you are told just couldn't be put in print. It is up to you, then, to inspire the "lame and the lazy", as they are called by the industrious, to a much increased activity, or else.

The less industrious have joined your colony so they may enjoy fellowship, companionship, SECURITY and EASE. These things, as commendable as they are, must always be secondary. With them, they are primary and in their estimation nothing else counts for very much. You see, they are idealists.

If you get rid of these ease-loving members, you'll not have enough members left to call your undertaking a colony. Not only that, but the energetic members are hard people. They have very definite ideas of their own. One half will see a matter from one point of view, the other half will see it from the direct opposite point of view. So, if your colony was made up of the industrious, you would have bickering, quarreling, back-biting, and much contention.

Another thing you have not thought of: A new colony always brings in "wolves in sheep's clothing". When you start your colony, be sure to have a good attorney associated with you, one that not only knows the "civil code", but the "criminal code", as well. In practically every colony which gets off to a good start and has considerable money back of it, or in it, the "wolves" come in.

The "wolves" are most congenial people and work well. They bring a certain amount of harmony to the unharmonious affair. Everything runs along fine. You give them administrative jobs and everybody is satisfied. You consider yourself most fortunate in securing the assistance of these talented people. Quite naturally, you openly express your appreciation. Then . . . then, comes the awakening. One day, these talended, energetic workers inform you they are tired of the colony idea and demand their "cut" and they want it right now.

You had no idea that any could come into a "share-and-share alike" colony and, upon their leaving, demand anything. However, you find you are terribly mistaken. You also find by settling out of court you can save a considerable sum. No matter how you may look at it, the courts are always on the side of the "victim" and, in this case, while you are really the victim, the court doesn't see it that way at all. So, if you have been foolish enough to carry the matter to court YOU PAY — you pay extra. Do you see now, what we mean in having a clever attorney associated with you in your colony scheme?

FALSE PROPHETS

People are not only colony minded these days but they are False Prophet minded as well. The average person seems to be drawn to that which is unusual and often, to that which is false.

Now, regarding false prophets: All through the ages there have been false prophets. A false prophet doesn't necessarily mean a dishonest person, but a person who has been lead astray by the Black Forces.

All sincere false prophets have unconventional judgment. That which appears to them as an absolutely true

source of prophecy is nothing less than a direct contact with the lying Black Forces.

There are only three sources of prophecy — Sacred Scripture, the Great Pyramid of Gizeh and inspired men and women with conventional judgment.

No prophecy is of any consequence unless it checks 100% with Holy Scripture.

The Great Pyramid of Gizeh has been called "The Prophecy in Stone." This is not really true. The facts of the matter are these: Scripture does the prophesying and the Great Pyramid fills in with the details. The same applies to human prophets. Scripture prophecizes, but the inspired human prophet fills in the details.

It is true that the Great Pyramid gives dates, but these are not dates pertaining to the end of the world. Neither, are they concerning the appearance of the Anti-Christ. A majority of these dates are of great events which have already taken place in the past. The present day dates as given in the Great Pyramid, would mean nothing unless one synchronizes them with Scriptural Prophecy in order to determine great changes that are about to come upon the world.

Nowhere in the Great Pyramid does it so much as give a hint regarding the end of the world, or the Second Coming of Christ. His First Coming was given to the exact day, month and year. Likewise, His departure. The Great Pyramid had not been unsealed at that time and so, this particular information is for the edification of people of our day.

There has been considerable false prophesying by people who felt certain that they knew the meaning of every date given in the Great Pyramid of Gizeh.

False prophecy by the most honest of honest persons began away back in the years 1843 and 1844, now more than a century past. Of the many false prophets of that particular period, William Miller was the greatest and the most sincere of them all.

He had been, for a number of years, a student of Scripture. However, away back in those days, they did not have the development of the mind to correctly "compare Scripture with Scripture." For this reason, it can easily be understood why they were so easily mislead. Especially, about subjects religious men and women weren't intended fully to understand until another century had come and gone. So, William Miller made the fatal error of predicting the end of the world would take place during the years 1843-1844.

You can imagine how much fear and apprehension was generated on the one hand and what enthusiasm and thrilling expectancy on the other as the years 1843 and 1844 drew nearer and nearer.

There were those mass-minded souls in that age who were well satisfied with life and the way in which they lived it. Naturally, the thought of the whole world ending in a few months deprived them of the "joy of living" that was exceedingly disturbing. No wonder a fearful apprehension gripped them.

In contrast, there were those who were ready in every imaginable way for the ending of the world. After all, the world had not treated them with any great amount of kindness, why should they wish it to continue? Then, as now, there didn't seem to be very much sense in being born, ekeing out an existence for a few miserable decades, and then returning to dust. So, they were really thrilled at the thought of departing from this rather miserable realm to be caught up into the highest heaven to enjoy eternal bliss. So great was their desire for the materialization of the great event, they had no trouble at all convincing themselves that the end of time was close at hand. To make certain of their faith — a kind of personal test — they gave away all of their worldly possessions and so, with nothing left in this world it made their hope for a "Heavenly Land" all the more appealing.

Of course, the whole matter was entirely un-Scriptural. However, these honest and sincere people, as we indicated before, were not students of Scripture and so they never realized the Bible, nowhere in its content, gave one ghost of a hint as to the actual year the world would come to an end.

These people knew nothing of the tribulations definitely described by Scripture which must take place before even the Anti-Christ can appear. The men and women of Miller's day knew nothing of the flesh-and-blood emissary of Satan — the Anti-Christ, who, one day, is to rule the world for seven years before the Millennium actually begins or that it is not until the end of the Millennium that there is any danger of the earth being consumed by fire — atomically destroyed.

From Miller to the Millennium, there will be "date setters" and people will become all wrought up over the lie that the end of the earth is imminent. Today, only the hopelessly ignorant set dates for the end of the world. Those who have even a modest knowledge of what Scripture teaches regarding this matter know this event is more than a thousand years away and that many things must take place between now and then.

Recently, here in Southern California, a sincere, but false prophet, announced the end of the world would take place on a certain date. The day and the hour came but nothing happened. A lot of people were sad — they had great faith in their prophet and his prophecy and were ready to "ascend on high". It was with a heavy heart that the sun rose the same as ever the next morning and they all had to go back to their rather uninteresting means of securing a livelihood. We agree, it would have been much nicer suddenly to have found one's self in snowy white robes ascending heavenward than to remain longer in this drab, silly and stupid old mass-minded world. It is just that: a stupid old world. Unless, of course, you are a Budding Individual and have a Five-Fold EXPANSION into REAL LIFE which you are enthusiastic about INCREASING. Then, of course, you are glad that atomic energy is remaining intact in the atoms for a little while longer — one more day means so much to Budding Individuals.

This end-of-the-world business would be quite amusing if it weren't for the untold harm it does among the mass-minded. The mass-minded, whether college professors or ditch diggers, are terrifically ignorant regarding Scripture and things Scriptural. So, when some honest false prophet predicts the end of the world and the mass-minded believe it and become scared and do considerable repenting in order to "meet the requirements of Heaven", then the whole thing turns out to be a huge joke — a farce. It makes all of them feel that they were extremely gullible and were "taken in" by a person who, in their estimation, could, in no way, compare with their mentality. This is quite sufficient to make them "repent of ever having repented."

So serious is the whole affair of predicting the end of the world that any person these days who does such a shameful thing should publicly admit after the farce, that he had for the time being become a tool of the Black Forces and had given the great lie to the world upon Satanic suggestion. Yes, it is a serious matter— this business of being a false prophet.

Do you know that right at this moment the Black Fraternity is at work preparing other poor, foolish, stupid, mass-minded human beings to predict the end of the world again and again? No doubt, within a few months we shall be reading in the daily papers that the Reverend——— has received a vision which he stoutly maintains comes from the Lord, in which he has given the exact date of the near ending of the world. From now on, never, never again, believe a "date setter" regarding the end of the world' Know that each person,

whether he is a clergyman or layman, making such a prophecy is completely dominated by the Black Forces who are masters at lies and deceptions. Yes, that makes every end-of-the-world date setter a liar.

UN-SPIRITUAL SPIRITS

Strange as it may seem, Spiritualism isn't at all SPIRITUAL. Spiritualism doesn't fall in the Spiritual Department of Life but in the Mental Department of Life. For this reason, it isn't really Spiritual-ism, it is just plain Spirit-ism.

Spiritualism (rather Spiritism) is anything but Spiritual. Due to the fact that the one (medium) contacting the spirits, entities, and beings of the Other World, is usually anything but a Spiritually Developed person. For this reason, the White Forces NEVER work through the average medium. Any medium the White Forces would work through certainly does not engage at any time in conveying psychic drivel to mass-minded beings "here below."

Now and then, the message contains sufficient truth to convince the average spirit-chaser that all spirits are good and wonderful beings. Such is far from the truth. In fact, almost all, if not all of the spirits conveying messages to mankind are definitely of the Black Forces operating from the Nether Other World.

Through a medium, the seeker gets into communication with his dear departed mother, wife, sister, etc. etc. and they seem so real he is convinced his dear departed is actually speaking to him through the vocal cords of the medium. Yes, their little idiosyncrasies of speech are perfect in every detail. Things are mentioned that only the seeker and the deceased know about. What could be more convincing than that?

In the midst of a message sometime, let us say that you suddenly became clairvoyant (meaning clear-seeing into the Other World), would you be terribly shocked if you found emerging from the throat and head of the medium a big, ugly male spirit of the Nether World? Would you be still further shocked if you heard this demon say to another of his ilk standing by: "Well, I certainly fooled that stupid ———. I sounded so much like his old mother, he thought she was speaking to him. Give me a little time and I'll get what I want from that stupid mortal," and with this last remark both members of the Diabolical Fraternity laugh lustily in derision of the poor, unsuspecting human being.

Any half-wit of a devil (not a discarnate human being) can imitate perfectly in speech any departed human being. They impinge upon your memory of the departed loved one and the deception is perfect. Some times, evil discarnate human beings can do the same thing.

The Black Forces get a tremendous "kick" out of "putting things over" on human beings. You see, human beings, while still in the flesh, have every opportunity to "turn West" and become Budding Individuals. Someday, they'll JUDGE ANGELS and the evil beings, knowing this, do everything possible to keep the mass-minded in that condition. At the same time, they make stupid fools out of them at seances and elsewhere. They are then looked upon in the Nether World, as being quite clever although it isn't so very clever at that, for the average mass-minded human being, even though he is a university graduate with a dozen degrees, is easy prey to the fallen angels.

There is a very good way of never being duped by the Black Fraternity. If you have nothing to do with them, they just can't contact you.

We are living in the days when angels both White and Black will be contacting Budding Individuals. Before you have anything to do with them, you must determine whether you are being visited by a member of the White Forces or the Black Forces. Turn to page 29 of your 1941 What's Next and under the title of "Try the Spirits", you will learn how to test them.

Always remember, you cannot tell by looking at one of these supernatural beings whether they are good or evil. The evil ones look just as beautiful and perfect as the good ones. The evil angels are masters at deception.

The angels of the Black Forces will appear in female form if the person they are appearing before doesn't know there are no female angels. There never has been any. None are mentioned anywhere in the Bible. Now that you know this, none of the Black Forces will ever appear before YOU in female form — **THEY KNOW EVERYTHING YOU KNOW.**

In the Old Testament, any person who had dealings with a "familiar spirit" or was in communication with supernatural beings of any kind was considered a "witch" and it was an Old Testament law that such person should be put to death. This harsh old law is done away in the New Testament, for we read in 1 John 4:1—

"Beloved, believe not every spirit, but try the spirits whether they are of God . . . "

It has been four years since you received this information. Do you remember how the spirits are tried—challenged? For the sake of Budding Individuals recently on THE PATH we had better repeat the challenge. It is given in 1 John 4: 2-3. We read exactly how this is done—

"Hereby know the Spirit of God: Every spirit that confesseth that Jesus Christ is come in the flesh is of God.

"And every spirit that confesseth not that Jesus Christ is come in the flesh is not of God."

Alright, Budding Individual, whenever you are approached by a being from the Other World, before he engages you in conversation challenge him with, "Do you confess that Jesus Christ has come in the flesh." If he says "Yes", then you will know for a fact that you are dealing with a member of the White Forces and it is intended that you should listen to his instruction.

The White Forces are entirely too busy to engage you in chit-chat. They will give you the message, whatever it is, and when they know that you understand it clearly they will disappear.

The Black Forces are not that brief. They would be delighted to engage you in a long lofty conversation, which would be most intriguing.

A friend of ours who is a little more intelligent as a medium than the average — he knows there are good spirits and evil — said to me: "If you ever used that challenge in one of my seances the spirits would hurl you out of the room."

We agreed with him that they would attempt just such a thing.

In the first place, I would not consider going to a seance where I knew every spirit being present was of the Black Forces and be stupid enough to give the challenge. After all, neither the medium nor the spirits had invited me to their little party and if I came and started trouble it would just be my hard luck.

A very good Christian man that we know did this more or less recently. Of course, he should not have done it but, he did. The evil beings were so enraged they materialized sufficiently to throw a heavy oak table at this gentleman which floored him and knocked the breath out of him for more than a moment. Probably the only thing that prevented him from being killed was the presence of certain of the White Forces — his Guardian Angels.

Now, all of you who are expecting to engage in a Five-Fold New Age Work among the mass-minded and among Budding Individuals just fresh on THE PATH keep all this in mind, because, sooner or later, you are going to need all this information. The veil between the Other World and this is becoming so thin that the spirit forces

are reaching through, so to speak, and it is very important that you know with WHOM you are dealing. Also many of your students will be having experiences with the Unseen Forces. Teach them how to give the CHALLENGE.

YOUTH FELLOWSHIP

Recalling our experiences of a number of years ago while engaged in youth training, we well remember the inability of our many co-workers to deal with youth successfully.

For the first several years, our work was among the youth of well-to-do or middle-class families. These lads were spirited and had to be handled, we found, with a firm hand: firm enough to retain their wholehearted respect at all times. But, this was not sufficient. One more thing for leadership and guidance was required: The ability constantly to transport one's self to their mental age and see things from their point of view and then, quickly resume one's own age. In this way, we were able to solve many problems, and our youth-guidance was wonderfully successful.

The scene changed. We found ourselves working among the youth of the slums of a large western city. Quite naturally, we undertook this new work with considerable "fear and trembling." Surely we would have to change our methods, our procedure, and our "psychology" among these "under-privileged." We were terribly mistaken. The same principles and procedure that were successful among the "over-privileged" worked equally as well among our new-found, youthful friends of the slums. We discovered that all boys are alike.

We also found the so-called "under-privileged" had privileges — opportunities — far beyond those that were in finer circumstances. So much better, in fact, that we often wished we had been born in one of those "under privileged" homes instead of in something that bordered on "middle class." We would have been much better off for it.

One more discovery we made was that most of the theory about "environment either makes or breaks a youth" was absolutely wrong. From then on, our faith in the slogan "environment is everything, heredity is nothing" was completely shattered.

There isn't anything wrong with youth today that good leadership can't straighten out in "six weeks time." But leadership just can't be had. What is most amazing is, fathers and mothers, who have raised fine families of boys and girls—all becoming commendable adults — are unable to deal with, manage or train the youthful offspring of other younger parents. This is in all probability due to the fact that the older people — fathers and mothers — have "mellowed" to such an extent that youth just can't have any respect for them. Today's youth is exactly like the youth of the "terrible thirties" or for that matter, "the gay nineties." Youth always respect leadership, but only when it is a little harder than youth itself.

Respect must come first. After that the leader of youth will be famously successful in that he can constantly shift from his own mental age to the youthful age, seeing things from youth's point of view and think as youth thinks, and then returning with this information to the youth-leader's own age.

Also, you will be amazed at how little is really negative in youth when you have a philosophy-of-life program to follow. Of course, there is only one correct philosopsy-of-life program and that is the FIVE-FOLD EXPANSION into LIFE. It covers all there is here and hereafter — what more could there be?

Regarding leadership, as we indicated before, married people do not make the best youth leaders. We found that the unmarried, both men and women, make much better leaders and inspirers of youth than do the married.

It seems that the unmarried, even though they are well along in years, retain a sufficient memory of youth to be able to accommodate themselves mentally to the youngest as well as the eldest of youth. Just why a father or a mother is unable to do this is a psychological mystery. Probably the constant attempt of fathers and mothers to be a splendid example to their own offspring takes them out of the world of youth and places them on a pedestal and there is nothing a youth quite so delights in as upsetting pedestals.

If you are unmarried and have no offspring, do not let that bother you in the least if you feel called upon to devote your time to a Five-Fold Youth Program. You will probably be all the better off as a leader of youth for never having had children of your own, you'll at least, not be radiating the parental attitude — youth gets an over-dose of this at home and, quite naturally, they resent this in all others.

Being as you are a Budding Individual, if you do take up youth guidance, you'll teach the Five-Fold Philosophy of Life and you'll be surprised and delighted at how quickly the youth, under your influence will comprehend often, and before you can realize it, they will be EXPANDING in all Departments of Life.

For certain phases of the New Age Youth Program, none are too old and none are too young. But no "sissie," "softie," or "pollyanna" can possibly hope to succeed. If you are an ex-service man or woman, you must have had some of the "soft" taken out of you while in service. By this time, you should be "hard" enough to be an ideal leader of youth. No, you do not have to "get tough" with them to show your authority. Youth quickly discerns a leader, he'll welcome you because that is what he has been looking for.

Of course, it takes more than authority to keep youth interested, but if you are a Budding Individual and are some distance on THE PATH you surely must have what it takes or it will not take you too long to acquire it.

Right now, if you are an ex-service man or ex-service woman, it would be a very fine time to start your Youth Leadership Program — before you get on to some uninteresting job that will probably last the rest of your life. Get into this wonderful work now, and a year from now you would not trade your work of guiding youth onto THE PATH for the best job or position in the country.

Working among youth as has been suggested, quite naturally, has the approval of the White Forces. A Religious Order — either of men or women — associated with your particular church denomination would be wonderful at this time.

Some will say that there are already a great sufficiency of youth organizations working in their particular vicinity, and that these organizations are doing a very commendable work; that to start another one would be duplicating work that is already being well done.

We are not suggesting that you start "another" youth organization, we are suggesting to you that you start THE Youth Organization — the Organization that teaches the Five-Fold Life — THE FIVE-FOLD PATH.

No other organization in your church or community is doing this WORK, therefore your church and your community has no NEW AGE Youth Program or Organization, and this regardless of how many groups that are attempting a youth program.

What the Youth Program needs is full time workers. By forming an Order or Fellowship you would put in full time and all those who joined you from time to time would know in advance that full time work was required. In this way, you would soon have a splendid group devoting all their time to this wonderful work. And what could be more praiseworthy than a devoted group of men or women devoting their WHOLE TIME to guiding youth on to THE PATH?

Let the Atomic Bombs Fall

PART SIX

The advent of the atomic bomb has changed people's thinking and acting more than anything else in the history of mankind. So much so that literally millions of otherwise intelligent men and women are going about in a sort of daze, a kind of pre-occupied mental fog. It is amazing to see people who were so sure of themselves before atomic bombs, now going about as though the end of the world is about to take place. Some of these people are acting exceedingly foolish regarding the matter — giving up careers, giving up the getting of more education, and some of them are actually dissipating their life savings in a most detrimental way to both their mind and body.

According to the prophetic point of view as given in the Great Pyramid of Gizeh, it is going to be quite some time yet before any one need have much fear of atomic bombs.

During this present "cubit of time"—"Cubit of Chaos"—which doesn't end until April 15th of next year, 1947, there is little chance of atomic bombs doing the people of the United States and Canada any great injury.

We are still in the "duration" of World War II and it is true that between now and April 15, 1947, there may be as many as three different nations we might have to use atomic bombs on in order to settle certain matters with them quickly but, the chances of our having to do this is somewhat remote. Only one of the three nations we have in mind could not be quickly subdued with ordinary bombs and this one is entirely too smart to start anything until they, themselves, have actually discovered the atom-splitting secret. Even then, it would require quite a stretch of time before they could manufacture sufficient bombs to threaten us here in the Western Hemisphere in a serious way. At the present moment, we feel there will be no atomic bomb destruction in America or Canada before the world enters the "Cubit of Mystery" which doesn't begin until May 5, 1949—more than three years away.

Furthermore, it may be that the atomic bombs that will devastate North America will be held back until after June 7, 1951. This date is the beginning of the "Cubit of the Last Judgment." It may not be until then that part of Washington's vision will come to pass where he says, "And I dimly saw these vast armies devastate the whole country and burn the villages, towns and cities." This sounds much more fitting for the "Cubit of the Last Judgment" than it does for the "cubit of time" previous. And so, there is actually considerable time for the Budding Individual to prepare for the period of time that is known as "The Last Judgment"—June 7, 1951—August 20, 1953, if he or she begins now.

We know that the atomic force in some form or other is going to wipe out our cities. Not only the cities but the towns and villages. We know the remainder of the country is going to remain pretty much intact. The quite sensible thing to do, between now and the beginning of the "Cubit of Mystery" which begins on May 5, 1949, is to make preparation for acquiring an acreage in the country. If atomic chaos doesn't begin during that particular time—May 5, 1949—June 7, 1951—then you have until after June 7th, 1951 to make the change. Don't give yourself any more time than that. The quicker you get your home in the country established and provisioned, the safer you will be when atomic destruction breaks out all over the nation.

You don't need a thousand acres, not a hundred, not even ten. All you need, is a five acre "farm." Be sure that it is in a tract where none of the "ranches" are less than five acres. No enemy is going to waste atomic energy in devastating such a sparsely settled community. The demand for acreages in the country will eventually be great. Therefore, if you get yours before too long a time you can still get it at a very reasonable price.

Quite naturally, the more fertile the five acres, the more opportunity you will have for growing much needed produce when the time comes and the great need for it is at hand. Most any five acres, by the way, has at least a spot on it the size of a city lot that is fairly productive, or can be made so with fertilizer, water and cultivation. It is better to cultivate a small area intensively than attempt a larger cultivation only half-heartedly. Most of you have had considerable victory garden experience and this will be a great aid when you start work on your defeat-the-atom-bombs victory garden.

Between now and the beginning of the "Cubit of Mystery,'" if you cannot produce or buy sufficient in the way of food stuff to carry you through a year of famine which is, quite naturally, going to follow the atomic-bomb war then, of course, you

are not a Budding Individual and you might just as well forget about the whole thing.

There is no necessity for a long discourse on laying food aside for atomic-bomb days. You know from past experience what is necessary. Time and again some of you have chided yourselves for not following our instructions a number of years ago —before Pearl Harbor—to lay aside an abundance of everything. Thousands of people did just this and they hardly realized during the long period of food rationing that there was a shortage of food with the exception, of course, of fresh meat, butter and eggs.

Yes, stock your place in the country with enough food for a year and sufficient water for at least several months. We were told several years ago that water would not keep, that it would spoil. We would appreciate it very much if some one would explain to us how H^2O could possibly spoil. Of course, if when it was bottled it contained considerable foreign matter like particles of vegatation they would decompose, and give it a peculiar taste. The water could be rendered free from contamination by boiling it, although it still might have a unpleasant taste. But, there is no occasion to bottle impure water, not unless you live in a country where it never rains.

The chances are, there will be a spring on your particular five acres, and so the water situation will be taken care of by nature. It would be a good idea to make arrangements to pipe the over supply down to the country road so those folks who have no water on their particular five acres need not tramp all over yours in getting water.

People can be very mean when you have something they haven't.

In a certain city of considerable size here in California the water is anything but pure. It is necessary for the city water department to put so much chemical in the water to kill certain very harmful bacteria that the water has an unpleasant "chemical" taste.

On a very low hill in this rather near sea-level city is an old monastery. A long time ago the good brothers decided to drill for water. There wasn't sufficient water pressure and so they installed a motor driven pump, which produced an abundance of pure, clear soft water, much more than the brotherhood could use, and so they constructed a niche in the monastery wall and let the overflow pour into a fount-like basin. Folks at once began coming there with containers for water. Day and night, winter, and summer, people constantly filled bottles, jars, jugs, cans and even kegs with water.

Everything went fine for a number of years when one day the rather old and obsolete pumping equipment broke down and it was two days before repairs could be made and water could be again had by the public. During those two waterless days, the brothers at the monastery heard so many harsh things from the public about "criminal negligence," "selfish neglect" "stupid management," that they rather lost faith in the good judgment of their neighbors.

They were even threatened with lawsuits if any of the neighbor's children "took down" with some dread affliction. Fortunately, no one became ill from drinking city water those two days. But, to this day, the brothers at the monastery keep extra parts for the pump on hand so there will never again be a period without water for the public.

We bring this out as an example of how the mass-minded mind runs in an emergency. They make no preparation for the future themselves but, the moment a crisis overtakes them they at once want to share what the diligent and farsighted have laid aside.

From this, you will learn you are to make no mention to anyone that you are secretly laying in a food supply (as well as clothing) in a safe place in the country. It is a fine idea to talk up the idea and even show city friends at your city residence what you are laying aside for an "atom-splitting" day but, this is just for "show" to inspire them to save up something also. Your big supply is of course hidden away in the country.

"Just how is one to know when the subversive forces are going to strike?" is the most natural question to ask. Well, you'll never actually know this until the bombs start exploding. It will be another Pearl Harbor, only this time it will be National. It will come suddenly and will be terrifically destructive. But, only in a few instances will it take place all over the United States and Canada at the same moment.

When you see the subversive forces in your city, town and village ALL moving to the country, you will know by that that destruction is near and so you had better start moving too.

The Red Fascists say they now have discovered the atomic bomb secret, perhaps they have. However, it will take at least three years, as was indicated before, before they can manufacture enough of them to cause the destruction in this country that they are now planning.

It requires at least one generous size atomic bomb to demolish or demoralize each city, town and village in the country. These cannot be produced in a day. That is another reason we feel the great day of destruction cannot come before May 5, 1949.

We feel quite confident that atomic bombs will be "planted" during the "Cubit of False Peace and Prosperity" in the large cities of the United States and Canada and they will be set off by a special radio mechanism activated by a radio broadcast from over the top of the earth. In that case they will all be set off at the same time. The smaller cities can be attacked by robot planes magnetically directed to their destination.

In our 1945 "What's Next" we wrote as follows

on page 16 and we repeat it here:

Terrifically high explosives will be the No. 1 weapon of physical combat in World War II. All far-sighter people realize that scientists in every country of any consequence are on the verge of making tremendous discoveries along the lines of high explosives.

* * *

Quite naturally, the high explosives, even though weighing only a few pounds will be sufficient not only to level a dozen city blocks, but to leave in their places a pit hundreds of feet deep. Robot aircraft will deliver these vast, death-dealing explosives. The weight of the explosive will be small in proportion to its great destructiveness. The fuel for the robot aircraft, being of tremendous power, also will be light in weight, and, therefore, the entire craft will be so small that not even a child could find room to ride in it.

Each robot will be guided magnetically. During the "Cubit of Prosperity and False Peace" each nation will have "planted" magnets in all of the cities of the earth, large and small. The "brain" of the robot will send out magnetic waves which contact the magnet that is attuned to it. The magnet previously secreted in New York, Chicaga, San Francisco, London is activated, and at once sends back the wave. Instantly, no matter in what direction the robot may be flying, it will turn and fly directly toward the magnet.

* * *

We used the terms "high explosive" in our 1945 edition. But you can substitute "atomic bombs" for the above phrase and it will probably make it clearer to you what we meant. It was a good thing that we didn't use the word "atomic" last year or we would have had considerable explaining to do.

Well, anyway, Budding Individuals knew months in advance that something terrifically destructive was expected, and so it arrived. Some Budding Individuals, not very far on THE PATH, are still dazed by the atomic discovery.

One advantage that a Budding Individual has, if he or she is some distance on THE PATH, is that he or she will some morning get the warning "Take the day off, and go to the country." It will be this very day that the atoms "start splitting." There are advantages in EXPANDING as rapidly as possible into Life, particularly now.

There will be Budding Individuals far on THE PATH who will be right in the center of the atomic bomb blasts. Quite naturally, their physical vehicle will "go up in atoms" like the mass-minded about them. However, these ADVANCED Budding Individuals will be those who are needed by the White Forces in the Other World in order to assist with the millions of souls who will arrive Over There within a period of one hour. And so, if you find that the explosion of an atomic bomb has separated you from your physical body, do not be at all concerned about it. Just get busy after you have oriented yourself in the Other World and assist the White Forces in anything they suggest. If you do, you'll be exceedingly happy.

Becoming a Budding Individual, even though you have made very little progress on THE PATH, means that you are a citizen of two very definite worlds. So, if the White Forces wish you to work in this physical one a little longer and do some more EXPANDING or on the other hand wish to receive you into their forces in the Other World to work with them there, either way, should make you very glad.

Of course, we all would like to do a lot more EXPANDING into Life in this world before we pass on but, if the White Forces wish us to make the transition sooner than we desire, we should realize they have made special preparation for our EXPANSION in the Other World.

Regardless of the amount of time making up the future of the Budding Individual, we know that it is short. It seems that the Great Destruction must surely come before August 20, 1953, therefore, if we wish to pass into the New Dispensation in the flesh (unless we receive a special call from the White Forces) we must be alert in our EXPANSION and not only ours but as many other people as we can discreetly influence. Again we say, if it is at all possible and you are already in your EXPANSION into Life, you should start some kind of an organized work to assist in "turning West" the mass-minded, and also assist the more recent Budding Individuals to travel faster on THE PATH.

Even if circumstances do not permit you to start a full-time work at this moment, you should be able to start a part-time work before too long a time.

We dislike pressing you into even a part-time activity too strongly. After all, it is undoubtedly your home ties and duties that prevent you from doing a full-time work right now. No doubt, most of your time is taken up with your home and family. If you should start a work that would require you to be away from home too much, this would cause considerable unpleasantness and that is one thing we must guard against. However, each Budding Individual must take care of this problem to the best of his ability, and yet do some kind of a New Age Work. If no work is started, then you'll never, never get into any kind of a constructive work. However, if a small work is started (in your own home) then, from that the White Forces can use your humble start and eventually magnify it into something of consequence.

We are confident that when you do get started, you will draw other part-time workers to you and all of you together will do some very fine New Age Work highly approved by the White Forces.

Here is a warning. Some of those that will work with you will probably find themselves freed of home duties quite a long time before you will. They will feel the call to start a full-time organization of their own. It is true that through you they became acquainted with the idea of a Good Work and it seems right that they should remain with you but, this they may not do. Do not feel unkindly toward them if they do not. Remember, they were probably directed to you by the White Forces for the training they could get no place else and that you did a most splendid work in training them or acquainting them with the Great Work. Now, that they are going on to a greater work, whatever they do, you will receive a great amount of credit for it from the White Forces.

Later on, you may be amazed to find that you were the "training school" by which the heads of many successful fellowships, orders, and confraternities got their start. Work constantly with this idea in mind: That while you are not able (at this time) to do a full-time work, nevertheless, your work right now is interesting others who can and will do full-time work. Do this, and when some member branches off and starts a work of his own, you will have nothing but blessing and praise for him and his activity.

It is wise to suggest to those who cannot work with you and your group any longer, that they go and establish a work of their own. This is what was done time and again in the old-time religious orders. If a brother or a sister had so many ideas of their own that they just couldn't contain themselves in the order, they were invited to go and start an order or community of their own. This, they did. Some of them succeeded wonderfully. Others failed miserably. If we remember correctly, at one time there were at least twenty-five "split-offs" from the famous Franciscan Order and they all succeeded.

Years later, however when each of their founders had died, the members of each order found that their differences in conducting a good work were so negligible there was no need for them to remain as so many separate groups. So they amalgamated with the parent order. Three or four of those which had split-off decided to remain separate due to the fact that their practices and their work was so different from the original order. But even so, all are on most friendly terms with each other.

It is the most natural thing in the world for people of a group to divide and start a new work. There is nothing wrong about it at all. In fact, it is nature's way of increase. When a hive has more bees than there is room, a part of the hive "swarms," goes away by themselves and starts a new colony. There isn't any quarreling about the departure. Those that remain have no hard feelings toward those that leave. Those that leave, likewise, have no hard feelings toward those who wished to remain in the old hive. None of the bees of either group go about stinging each other because a separation is due to take place. In fact, they are all so happy that the swarming bees will not, as a rule, sting unless they are sorely molested.

You, who ever you are, may be called to establish a most unique Order, an Order for the establishing of New Age Orders. In other words when you have trained a group you send them out as a separate and distinct Order, entirely on their own.

Your Order would be a Teaching Order, teaching those who are definitely intended for leadership to be the heads of New Orders, teaching those who work best as followers to make up the body of workers of the New Order.

Remember, not every person, even though he or she is a considerable distance on THE PATH, is a leader. It may require considerable extra EXPANSION into several Departments of Life before they attain to the status of leadership. Until they have attained to that EXPANSION they do an excellent work as lay workers. As they EXPAND into Life they then become more valuable as teachers, instructors, and later on, assistant leaders. Later, they will attain to full-fledged leadership. This means that they have definitely built up the weak Departments of Life and have EXPANDED all of them to a most gratifying degree.

Even among the Great Secret Orders of INDIVIDUALS not all the members are leaders. All start as beginners or novices. Some remain in this status for a long period of time, but one day when they have attained sufficient EXPANSION into THE GREATER LIFE to be admitted to more responsible work they receive a promotion, and then another, and another. This continues on and on until one day they become the Superior of the GREATER ORDER, and after many years of serving in this capacity they pass on to a still GREATER ORDER, but they always enter at the very lowest office. But the lowest office in a GREATER ORDER is higher than the highest office in the previous lower order.

You may think it is a long way from bursting bombs to religious orders, but it is not. The atomic bombs have brought the matter to mind that the Spiritual must be EXPANDED in order to save at least a remnant of the Nation. We are beginning to see clearly things shortly to come to pass. We are now beginning to realize what our work is. We are beginning to understand that mankind must either get in line with the program of the White Forces or it is going to vanish from the face of the globe. Of course, we do not see in detail, but we view the highlights of the future so clearly that we know just about what awaits mass-minded mankind in the shadows. Yes, we all have a Great Work to do.

Your Atomic Tomorrow

PART SEVEN

With all of the fear of splitting atoms people are radiating more and more each day, we are beginning to wonder just where this hysteria is going to end. If the mania doesn't begin to subside rather shortly, there aren't going to be enough people with normal nerves and minds to take care of the vast number of "neuromaniacs." So much fear is being broadcast today that wave after wave of this most damnable radiation is penetrating the remote corners of the earth. Even the peace loving savages in "darkest Africa" are beginning to take on a form of uneasiness they never experienced before.

Budding Individuals, who are some distance on THE PATH, know the atom-splitting secret has been reserved by Destiny for THIS PARTICULAR AGE. They also know that the secret marks the beginning of the end of the Old Dying Order much more than it does the beginning of the New Dispensation.

The New Dispensation doesn't require any such terrific force for its birth and expansion. The Millennium is an age that is almost physically effortless—it is the World Sabbath. It is a period of time when every one will "sit under his own vine and fig tree." This doesn't mean that the Millennium—the thousand years of peace—is going to be a time of enforced inactivity. For those who wish to be busy, there will be plenty of opportunity for action. This action will be some delightful form of expression towards a fuller EXPANSION INTO LIFE. It will have no part in the gaining of livelihood.

As far as obtaining food, drink, clothing and shelter is concerned, those things will be almost effortless to secure. Of course, you will have to reach up or out, as the case may be, to pick "figs" off the trees and "grapes" off the vines. Then, as now, you'll have to slip on your clothes and you'll have to come in out of the rain but that is about all of "forced activity."

You can readily see how Atomic Energy or any other energy will be of very little consequence in That Day. Tomorrow is a Mind Age and while the Physical will be very much in evidence, good health, well developed bodies and radiant energy, nevertheless, will be the result of correct living. Little or no direct thought need be given the physical—no muscle building, no chest expansion, no freak diets, etc., etc., will be required. All these things will come about naturally.

Bear in mind that the secret of releasing atomic energy, at this time, was not given to the world for peaceful purposes. It was given for just one purpose: To remove from the flesh, as many of the mass-minded as necessary, as quickly, and as painlessly as possible when the time comes. Destiny is completely in charge of the entire matter. Therefore, there is nothing for YOU to fear.

Atomic energy in this old, dying age isn't for the purpose of rushing trains across the continent at 200 miles per hour. It is not for speeding aircraft across the sky at 1000 or 2000 miles per hour. It is not for power purposes. It is intended solely for a destructive force. If men do succeed in putting it to some utilitarian purpose between now and the end of this age, there is no harm done. Perhaps they will, but, even so, the world will be no better off. There will be just as many poor, ignorant, benighted mass-minded with atomic power as there would be without it.

Regarding America, we have nothing to fear just so long as we keep the atom-splitting secret. But the moment the Red Nazis discover it (and they are working day and night on it in Russia, Germany and in Argentina) the mass-minded here in North America, have plenty to fear.

Let me state again that the progressing Budding Individual has nothing to fear at any time. The Budding Individual has "turned West"—turned from the path of destruction—and whatever he does if the activity pertains to EXPANSION into LIFE, he is always traveling further and further from atomic as well as all other forms of destruction and there will be other forms of destruction.

Yes, the mass-minded have much to fear. Here, at last, they have actually begun to see the end of the old order. Before, when they have been warned, they could always say: "Why bother, hasn't everything continued as it always has?" Now, they definitely realize "something new under the sun" has been added. As this "new thing" can resolve every atom of substance of the entire earth including their own bodies into "free energy," it doesn't leave them a foot, or a foot of earth, to stand on. Naturally, they are beginning to feel "up in the air."

Even nice old folks, away beyond their "three score years and ten," whose physical vitality is so low that the first blast of the coming winter will

sweep them out into eternity are, likewise, under the terrible, world-wide fear that an atomic bomb is suddenly going to deprive them of their physical vehicle. To catch cold, get the "flu" and die of single or double pneumonia doesn't worry them at all. However, the thought of suddenly having their frail, old, sear and yellow bodies "atomized," is almost more than they can bear.

They are not the only ones who have picked up this "race fear of the future." Those mass-minded souls in their robust forties and fifties are even more worried when they ponder "their terrible end," as they think of it.

They are a little more fortunate than are the oldsters. These middle agers are engaged every day in the world's commerce and no one can do much meditating on their "atomic demise" and still make good in this competitive business world. Their only time to worry over the matter (as if worrying did any good), is at night. You'd be surprised how many otherwise level headed business men are losing sleep over a force they can't possibly do anything about. But, fear seems to be in the very air one breathes.

We believe this fear of the world soon going up in "free atomic energy" is doing its greatest damage among those between the ages of eighteen and thirty. The future, to their way of reasoning, is so uncertain, so short, and the end of their existence so terrifyingly near that they just can't make up their minds to take up a career. Imagine a young fellow going all the way through the hell of World War II, coming out with mind and body still fairly well organized and with high ambition for the future, suddenly awakened by the fearful thought that, at best, his existence here is only a matter of months. Well, you can't blame him for not taking much interest in the "G. I.'s Bill of Rights."

It is almost criminal that some Church, Order, Organization, Fellowship, Fraternity, etc., etc., hadn't taught these youngsters before they ever went to war something of the purpose of life. Taught them sufficiently so that they would know how to spend these last few "dying days" of the Old Dispensation EXPANDING INTO LIFE.

Aren't the leading church organizations, and all religious organizations terribly guilty in as much as they have not acquainted the young, the middle aged and the old with the purpose of Life? So, that now, instead of fearing the end of the Old Order, they would be looking forward to the New —the New Order, the New Day, the New Dispensation?

But, these people—the religious—are not really to blame. They have been steeped in the old orthodox beliefs they just couldn't possibly change—not even if an archangel had approached them on the matter. Men and women today, with few exceptions in the churches, are religious but, they are not Spiritual. A Whirling or a Howling Dervish is tremendously religious but he is not Spiritual. Do you see the difference?

However, each religious person in the Western World has, at least, a slight Spiritual EXPANSION. So, he is not entirely blameless for being in such a state of Spiritual darkness. There has been, in the last twenty years, many opportunities for them to know something of the purpose of Life but they would not interest themselves. There are many fine people among these Spiritual infants, but it is the other Departments of Life (other than the Spiritual) which have made them so.

The wars are over now (over for a brief moment). Therefore, we can speak of it. Can you imagine a man in the capacity of a chaplain going to the far flung battle fronts who didn't know the purpose of Life? It seems incredible, but many did. Is it any wonder they had next to nothing to offer Spiritually? We are not speaking of all the chaplains on all the fighting fronts, but we feel we are speaking of the majority.

There were the Modernist Chaplains, who had nothing but a "Social Gospel" to offer, they felt they had done their work famously when they "became one of the boys" and from time to time "preached the Fatherhood of God and the Brotherhood of Man." Well, that is the "Social Good News" of the Anti-Christ. It is fine for the old, dying dispensation but it isn't worth a pinch of "atomic dust" for THE TOMORROW.

Of course, there were Chaplains who did a Spiritual work. They weren't as popular among the living as were the others, but they were much more popular among the dying. Some of these weren't entirely ignorant of the PURPOSE OF LIFE and to those of the fighting forces who could be interested in "why we are here and what to do about it", these less-popular chaplains did a noble work.

One of the most interesting "case histories" of Chaplains we have heard was of a Navy Chaplain. He was more or less "torn" between Modernism and Fundamentalism. When the skies were blue, the ocean calm, he was pretty much of a Modernist. During battle, when men were dying on every hand and side, he was a Fundamentalist. One time, during one of his Fundamental mood swings, a student of ours who knew the PURPOSE OF LIFE took the Chaplain aside and had a good fatherly talk with him. The Chaplain welcomed the talk and for the first time in his life began to see clearly THE FIVE-FOLD PURPOSE OF LIFE. It wasn't long until he could speak with authority about EXPANSION in the Five Departments of Life because he was beginning to EXPAND in a most gratifying way. Quite naturally, from then on, this particular Chaplain was worth a dozen of his former self to the men in service.

We know that all chaplains, regardless of their lack of knowledge about the FUNDAMENTALS

OF LIFE, mean well. No man, whether he is Modernist or Fundamentalist, would hardly risk his life in battle if he didn't have a sincere desire to be helpful to his fellowman. You too, are the same. If you could have, you would have gone to the remote corners of the earth and then to the most fierce battle fronts in order to render Spiritual Illumination but, on account of your age and for many other reasons, you were not eligible. Now, there is a tough battle waging here at home. Regardless of your age and circumstances, you, too, can do the work of a Chaplain — one who thoroughly knows and practices the Five Departments of Life.

No, you do not need a college degree or need to be an ordained minister or an accredited teacher, or a professional lecturer in order to start being a real FIVE-FOLD-PHILOSOPHY Chaplain right here on the FIGHTING FRONT at home. Certain of the mass-minded, and all of the Budding Individuals just on THE PATH, are anxious to know WHAT IS NEXT in world events and what to do about them. Therefore, what you know should be given to all those who are ready.

We suppose this particular edition of "WHAT'S NEXT" should be called the "Missionary Number" on account of our urging you and all other Budding Individuals to PRACTICE and to TEACH what you know. Before, we have always attempted to warn you regarding THINGS to COME so you could be prepared to accept them when they arrived, if they were positive. Or to avoid them, if they were negative. But, this year you can "atomically" see the near future very clearly and so, in this edition of "What's Next", we are urging you to ACTION.

Some Budding Individuals (just shortly on THE PATH) will say: "I see quite clearly what my duty is, but for certain, unsurmountable reasons I cannot do my duty."

Duty is like opportunity. No opportunity is an opportunity to you unless you can take advantage of it. A certain man has an opportunity to purchase a valuable piece of property for a certain sum. He has the money. The price of the property will double and treble in a short time. To him, it is an opportunity. To another man, who hasn't a fraction of what the property costs, it isn't an opportunity at all. How could it be an opportunity if he couldn't possibly take advantage of it? Likewise, duty is not duty, unless you can perform the duty.

It is the special work of the Black Forces to confuse you on this matter. They will show you an activity that is very large, much larger than you possibly can take advantage of. They make it very appealing to you, impressing upon you all the time that "THIS IS YOUR DUTY." Quite naturally, you aren't able to do what the Black Fraternity have shown you, and also, quite naturally, you can't see yourself doing anything less, therefore, you will do nothing, which is exactly the way the Black Fraternity planned it for you. The Black Brotherhood is very wise. Now, why don't you become wise to their methods of operation? If you did, you would be wise indeed.

Now, on the other hand, the White Forces will show you something that is quite small but which you are entirely capable of doing. Of course, in your estimation, the task is entirely unworthy of your "great talent" and, at once, your attitude becomes: "If I can't be 'Captain' I won't play at all" . . . again the Black Forces win.

All this is how a Budding Individual just barely on THE PATH usually acts. You, undoubtedly, are much further along in your expansion than that. So far along, in fact, that this suggestion to take advantage of the opportunities at hand in this dying, atomic age, will bring to your mind a number of things — opportunities — which you are quite capable of performing. Once you make up your mind as to WHICH opportunity you shall choose, start your NEW WORK at once.

As far as you and YOUR New Work are concerned, work at it like the world was coming to an end before the year is over. This is regarding the Work the White Forces have appointed for you. However, as far as the "business of the world" is concerned — raising the family, etc., etc. — you must carry on as though present conditions were going to exist for the next fifteen or twenty years. The children must be educated in the prescribed way of the world. The marriage partner must receive just desserts from you. Business must not be neglected as long as you are necessarily engaged in the business of the world. Eventually, when you have done your financial and social duties by those about you, ALL your time will be devoted to the work of the White Forces. What has just been said applies equally to both men and women — when your duties to your family come to an end, all of your time will belong to the White Forces.

Likewise, a son or a daughter, when he or she has discharged his or her duty to the family and have complied with the rules of the realm for securing an education, they have then done their secular duty by all men and the remainder of their days will then be devoted to the work of the White Forces. We are directing this to all those who are some distance on THE PATH and who realize they have a definite CALL.

One's family in this rapidly changing age (this cusp between the old order and the New Order), is often quite a trial, but cheer up, the trial is very temporary. The family may bitterly oppose you today, but if you persist, EXPAND yourself and do as much work of the White Forces as you consistently can, they will be the first to tell you, when you begin to succeed: "We knew you could do it and were for you a hundred percent all the time."

If you win in spite of them, they will tell you they are for you. If you fail on their account, they will tell you they were against the idea for your own good. You should keep constantly in mind, even though they are your own flesh and blood relatives, they are definitely mass-minded and they cannot be blamed for not seeing things from your broad point of view. You can see to the end of time in the old dispensation. They can see but a few days ahead. Therefore, do not blame them. Remember, once you were equally blind.

Also: No amount of pleading, coaxing or coercing will cause anyone to "turn West." The one thing that causes the mass-minded to take notice, is when they see splendid and worthwhile changes in you. Remember, "A prophet is not without honor, save in his own country." However, let the "prophet" make worthwhile and enviable changes in this Five-Fold Life and it is amazing how even one's relatives will begin to take notice. However, until they see really gratifying changes in you, it would show poor judgment on your part to attempt to interest them except in a casual way.

Socially, you are now more than ready for your work among those who are ready for your message. You have few if any other social duties. The lodge, the fraternity, the club, the association, etc., etc. will have to do their best to get along without you because you have a NEW WORK to perform which will require all of your time and attention. Yes, a work so great that the good accomplished will follow you into the limitless Millenniums of eternity. Yes, you really have a great opportunity for a Great Work. It will begin in an unassuming sort of way. However, in the end, the Work will be tremendous.

Mentally, you must become more and more fit. We have spoken to you a number of times about memorizing something worth while — memorizing a little EVERY DAY, and as the days go by, memorize still a little more each day.

All this is for two very definite and worthwhile purposes. One is to be well supplied with the necessary material in the subjects which you will teach. The other purpose is for the constant expansion of your mind — memorizing is the most magical thing in the entire mental world for EXPANDING and YOUTHIFYING the mind. By all means, start your memory work at once.

The first thing to do, and at once, is to check up on your Five Departments of Life.

Select the Department with the greatest EXPANSION for your guide. It can be any of the Five. Now, compare the other four with it. How do they compare with it? One or two may come fairly close in equalling your best developed Department. Then there is probably one department that is away down, but worse still, there is that final Department that is just about "flat."

It is these undeveloped Departments that are holding you "earthbound," and you are going to remain in this terrible condition until you give sufficient attention to the "zombie" Departments to cause them to awaken, to grow, and to EXPAND into Life.

No one can assist you in your check-up on the weak and afflicted Departments of Life. You are the only one that can do this. No mortal can "look inside of you" and determine how weak your weakest Departments are. It is true that both the White Forces and the Black Forces can do this. They can visualize your Five Departments so perfectly that you actually look like five people standing in a row.

The one or two well developed Departments look like giants. Then there is probably one that looks like a small boy, another one looks like an infant in swaddling clothes, while the fifth or last, appears as a child unborn . . . that is how you look to the Unseen Forces.

Is it any wonder then, that the White Forces can lend you great assistance in developing your weak and afflicted Departments? Likewise, is it any wonder that the Black Forces can so easily select your weak Departments for their approach and attack?

Build up those "infant" Departments of Life, and before you know it you will be rapidly becoming the person you are DESTINED TO BE.

Again, time is very short. On February 18th of this year, 1946, another important date line was crossed. Away back on August 20, 1923 (that was a number of years before you knew the purpose of Life), a Grand Solar Month of thirty days — actually 30 years — began. On February 18th of this year, three-fourths of this "month of time" became eternity. At this writing, there isn't even a fourth of the "month" remaining.

The sands of time in the old dispensation are running out very rapidly. Therefore, whatever a Budding Individual does he must do quickly. He must get his work, no matter how humble the beginning, started very shortly. Then, when the "Cubit of False Peace" begins next April 15th, you will have your good work well started, and the result will be that your work will expand quite rapidly under the influence of somewhat relaxed nerves and mentalities among the mass minded. That is the time to work hard because the "Cubit of False Peace" is only twenty-five and a fraction months long. Then, comes the "Cubit of Mystery" (see your 1945 What's Next) during which your work must really expand OR DIE. The world will again be in a confused state Mentally and in every imaginable way. It will be up to YOU and YOUR Organization, Order, or Fellowship to do your part to assist the mass-minded onto THE PATH.

A wonderful and thrilling future is only a tomorrow away for all those of you who start YOUR Five-Fold Work TODAY.
